News In Review-- Prior to Dec. 7

To give its readers some idea of what they read back in the days just prior to the attack on Pearl Harbor, The Pampa News is re-printing here the "leads" on the Page 1 stories of that time which brought the news of developments in talks between Japanese and American officials regarding the situation in the Far East and in the Pacific.

President Truman said a few days ago that the American people were as much to blame as any one person in the government for permitting a situation to exist wherein an aggressor nation could make such crippling blow upon a major power as that dealt the Pearl Harbor installations back in 1941.

The following excerpts from The News' Page 1 stories during the latter part of November and up to Dec. 7, 1941, will give some idea of how the people were informed of what was going on. When we look back, it is amazing that facts were set forth to foretell the advent of war. The investigations in the Pearl Harbor disaster reveal that Honolulu papers carried streamers similar to those listed in the following accounts.

The following is proof that the press carried accurate accounts of what was going on at that time, as it carries them today.

November 15 is picked as the logical date on which to begin the story, because on that date a special Japanese emissary arrived in this country to begin negotiations. That is the date on which we might say the situation began to grow tense between the two countries.

November 16—Asserting he had a "fighting chance" of success, Saburo Kurosu, special Japanese envoy arrived here (Washington) today for conferences intended to settle Japanese-American difficulties in the Orient and the Pacific.

November 17—The destiny of the Pacific stood at a crisis today. Japan stated her demands for understanding—in effect calling for reversal of the United States' major policies in the Orient—and on their satisfaction may depend peace or war.

November 27—President Roosevelt, Secretary of State Hull, and Japanese envoys will meet this afternoon (at 2:30 p.m. EST) in an aftermath of Hull's step last night, putting the issue of peace or war.

Story of Secret Underground Is Told by Leaders

CHUNGKING, Sept. 13.—(AP)—Saco—the Chinese and American underground network which crisscrossed occupied China and on good authority actually reached into the Tokyo imperial palace—was revealed today as one of the top secrets of the war.

China and American partners in Saco—personnel of a naval group in China facetiously known as the "rice paddy navy"—took the wraps off the organization and its manifold bush-bush adventures.

The guidance of the Sino-American co-operative organization—Saco—came from two sides. The director was Tai Li, head of the central government secret police. His deputy was Milton S. Miles, 45, of Jerome, Ariz., imaginative and incisive American naval officer who was promoted from commodore to rear admiral just a month ago.

Tai's organization, with which Miles has worked since a few weeks after Pearl Harbor, was far more than a secret police force. It provided the manpower for Saco—guerilla armies, junk masters and crewmen who became saboteurs, anti-Japanese fifth columnist and agents of every description.

SAME PRODUCT—NEW NAME
JACKSON, Miss., Sept. 13.—(AP)—"Atomic turnips" are being advertised by a seed and feed merchant here. "There's nothing explosive about them," the merchant says. "They are what we used to call Japanese turnips, and demand for them under the old name has been falling off lately."

Nippon Industry Is Paralyzed by 'Aerial Invasion'

TOKYO, Thursday, Sept. 13.—(AP)—Japan was beaten to her knees before surrender by the American "aerial invasion" which virtually paralyzed industry and so completely blockaded the islands that 7,000,000 Japanese probably would have starved to death if the war had continued another year.

This was reported by seven prominent industrialists at a press conference yesterday.

They said that American air raids decided the outcome of the war and that Japan was defeated before the first atomic bomb was dropped. Only the militarists and industrialists, however, knew they had been beaten.

The industrialists participating in the conference included Ryozo Asano, president of the Japanese Steel Tube Co., Ltd., and director of Asano Portland Cement Co.; and Akihiro Fujiyama, president of the chambers of commerce and industry of Japan.

Mines, strewn in the inland sea off Korea and north China, severed Japan's contact with the continent, they said.

Resultant shortages of coal, oil, salt and food contributed to paralyzing of industry so completely that industrialists indirectly informed the militarists shortly before the surrender that industry could not continue.

The industrialists estimated that 10 percent of the population would have starved if the war continued another year. They said official rationing had been half of normal diet since July, 1945, and that food still was a major problem.

Band Instruments Needed by School

More band instruments are needed for pupils in elementary school bands, it was found when the groups were organized this week, according to a statement by Ray Robbins, high school band director, this morning.

The bands are under the direction of Charles S. Meach, and Pampans who have musical instruments which they will sell to the individual pupils are urged to make them available.

'23,000 PAMPANS BY 1955'

INDUSTRIALIZATION OF PAMPA AREA IS STUDIED

(Editor's Note: This is the first of a series of articles dealing with the general content of the Pampa trade area industrial survey.)

A complete statistical, chartered report of the city of Pampa, Gray county and Pampa's 20-county trade area was delivered to the industrial committee of the chamber of commerce by Burt C. Blanton, Dallas consulting engineer, yesterday.

The report, titled "An Agricultural, Financial, Commercial, Industrial and Economic Survey of the City of Pampa, and Gray county," encompasses nearly every conceivable fact about the huge area comprising Pampa's actual trade area.

In the survey also, Blanton pointed out that Pampa and its trade area had unlimited future possibilities for industrialization and improvements on a vast scale in agriculture.

As Blanton defines it, Pampa's trade area consists of Carson, Collinsworth, Donley, Gray, Hansford, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Roberts, Sherman and Wheeler counties in Texas and Beaver, Cimarron, Beckham, Ellis, Roger Mills and Texas counties in Oklahoma.

Failure Due To Opposition By Militarists

TOKYO, Sept. 13.—(AP)—Prince Fumimaro Konoye, Japanese vice premier, declared today that he had tried in the summer of 1941 to meet President Roosevelt and avert the war but his proposal failed partly through militarist opposition and partly because the Japanese government was regarded internationally as a liar.

"The Japanese government long have had a reputation abroad as liars," he explained, "because they were unable to control Japanese militarists in the field, or often didn't know what the militarists were doing."

"It was that way when I was trying to see Roosevelt. The government was considered a liar, because no matter what we promised regarding China final decision on the removal of our troops from China depended upon the military. That was one reason why the meeting was never held."

Konoye, premier in that fateful summer and fall, said that an argument with the then war minister Hideki Tojo over continuing peace negotiations led to his own resignation and Tojo's climb to the premiership.

"I feel confident that if I had been able to see Mr. Roosevelt, could have established a basis for intervention of the imperial house in the rising war tide within Japan at that time," Konoye said in an interview.

State Official Approves Plan of Red River Canal

NEW ORLEANS, Sept. 13.—(AP)—Construction of the proposed \$50,000,000 Red river navigation canal from Shreveport to the Mississippi river had the approval today of Deputy Fyburn, state director of public works, who submitted a report on the project to Brig. Gen. Max C. Tyler, president of the Mississippi river commission.

The report, compiled by engineers, contained statistics and computations showing potential industrial and agricultural development in Louisiana, Texas, and Arkansas should the project be completed.

The proposal calls for a 100-foot wide canal with a nine-foot depth to accommodate water carriers similar to those operating through the intra-coastal canal from Texas to Florida.

The immediate trade area of the project embraces 19 Louisiana parishes, 13 Texas and six Arkansas counties and has a population of 1,233,234, the report said.

East Texas and Louisiana oil fields, the report said, are in need of facilities for barge line transportation and cheap transportation would result in a tremendous increase in commerce and spur manufacturing and industrial development in the Red river valley.

General Tyler has said previously that army engineers have completed a survey and that their findings would be released in the latter part of October. Fyburn said that Louisiana already has obtained rights of way and has \$3,000,000 available to start the work.

Congress Hears Demobilization Plans; Renewed Appeal by Navy

WASHINGTON, Sept. 13.—(AP)—The army told senators it expects to be discharging 800,000 men a month by December 1.

The navy asked congress again—please—not to repeal part of the Pearl Harbor story, the part about the Japanese code.

Congress listened to the army and navy—with mixed feelings.

Touchy Situation In Balkans Now Before Big Five

LONDON, Sept. 13.—(AP)—Representatives in eastern and southeastern Europe were gathering in London today for urgent consultations with Secretary of State James F. Byrnes on numerous touchy Balkan situations now before the Big Five council of foreign ministers.

Byrnes saw King Peter of Yugoslavia at Claridge's hotel on the express invitation of the young exiled monarch. Later the secretary of state consulted with the Greek regent, Archbishop Damaskinos, at the American embassy. Another Byrnes conference was with Herbert Evatt, Australian foreign minister.

Diplomatic quarters considered significant the disclosure by the American embassy that the American diplomatic representatives were hurrying to London. Already here are Arthur Bliss Lane, American ambassador to Poland, and Robert Patterson, ambassador to Yugoslavia.

Maynard Barnes, minister to Bulgaria, was expected here soon. Burton C. Berry, American representative on the Allied control commission for Romania, was expected today or tomorrow.

Robert Gray, American minister to Erie, also will arrive here tomorrow.

Some diplomats said they believed King Peter was trying to gain American support for his view that Marshal Tito's regime in Yugoslavia is dictatorial, and that the situation demanded a reshuffle of authority.

Byrnes' talk with the Greek regent was believed linked both with a proposed peace treaty for Italy and Balkan politics.

Byrnes took advantage of a day recess in the conference of five leading foreign ministers. Staff representatives of the United States, Great Britain, Russia, France and China held secret conferences and studied documents which were so complicated as to postpone the third plenary session until Friday.

Greek domestic problems are considered linked to the general unrest in the Balkans.

France was reported to have offered detailed plans for internationalizing the German Ruhr and Rhineland.

Americans Hope For Quick Action

WASHINGTON, Sept. 13.—(AP)—The United States hopes for quick and vigorous action against Japanese war criminals paralleling measures taken against German war criminals, it was learned today.

A high government authority made it clear that Washington hopes to apply to Japan the theory evolved by Robert Jackson, U. S. prosecutor in Germany, that persons responsible for starting an aggressive war should be adjudged guilty of war crimes.

It was also made evident that the same procedures for trying local war criminals at the scenes of their misdeeds and for joint Allied trial of the toil men is contemplated in respect to the Japanese problem.

At the same time, it was said that the immediate purpose of the American military in Korea should be to remove the Japanese conquerors of that long-occupied land from power but no evidence was offered here that a comprehensive policy on Korea has been drawn up.

Eisenhower, Son, Clark Visit Pope

ROME, Sept. 13.—(AP)—Pope Pius XII received General Eisenhower, his son, Lt. John Eisenhower, and Gen. Mark W. Clark, U. S. commander in Austria, in a private audience today.

Following the audience General Eisenhower visited St. Peter's Cathedral. The Allied commander was expected to return to his headquarters in Germany tomorrow.

Save tires! Have your front wheels correctly aligned and balanced to save them till ? ? ? Cornelius Motor Co. Phone 346, 315 West Foster. (Adv.)

NBC and ABC Are Crippled By Walkout

NEW YORK, Sept. 13.—(AP)—The American and National broadcasting companies returned to the air at 7 a.m. (CWT) today, their regular opening time, but engineers who walked out yesterday remained away from their jobs.

Engineering executives and some radio announcers and producers turned technician to put the networks on the air—manning control panels, pulling switches and turning dials.

The engineers walked out at 5 p.m. (CWT) yesterday, disrupting nationwide service and causing cancellation of some programs.

A. T. Pawley, president of the Independent Engineers' union, the National association of broadcast engineers and technicians, said last night the men would be asked to return to work today.

Officials of both networks have termed the walkout unauthorized and said it began without warning. The union said it resulted from a breakdown of contract negotiations.

Immediately after the walkout which the union said resulted from a breakdown in contract negotiations during the afternoon, there was "dead air" on NBC for 15 minutes, and on ABC for half an hour.

The walkout began half an hour after the two networks received word from the union that a strike would be called after a 30-day waiting period.

NBC said "the preliminary union demands, which were not accepted, were for wage raises from 40 to 60 per cent."

Hiroshima Freed From Effects of A-Bomb Explosion

TOKYO, Sept. 13.—(AP)—It now would be safe to live in the center of the atom-bombed Hiroshima. There is no evidence that anyone who entered the area after the bombing died from radioactivity, Brig. Gen. T. F. Farrell reported today.

Taking cognizance of Japanese stories that relief parties entering the area to assist in evacuation were injured seriously, Farrell stated that those personnel already were in the area and were caught there by the blast.

"No measurable radioactivity was found under the point of detonation or elsewhere on the ground, streets."

See HIROSHIMA, Page 2

Nelson To Study Natural Gas Reserve

WASHINGTON, Sept. 13.—(AP)—The federal power commission has designated one of its members, Nelson Lee Smith, to take charge of the agency's investigation of the nation's natural gas reserve.

FPC has been studying the extent of reserves and their rate of depletion for a year. Smith will preside at initial hearings in the probe beginning at Kansas City next Tuesday, Sept. 18.

'44 MONTHS AT MUKDEN'

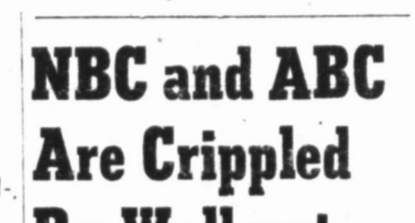

Pvt. Mervin H. Suttle, son of Mr. and Mrs. Hal J. Suttle, Pampa, was among 21 gaunt survivors of Bataan and Corregidor who arrived at Kunming, China, yesterday after 44 months of privation and ill treatment at the hands of the Japanese.

Wartime Practice Is Discontinued

WASHINGTON, Sept. 13.—(AP)—The wartime practice of issuing petroleum administration for war directives for expediting delivery of parts for new drilling rigs has been discontinued, deputy petroleum administrator Ralph K. Davies said today.

PAAF Hall of Fame To Remain With Pampa Post

The Kerley-Crossman post of the American Legion has obtained the Pampa army air field Hall of Fame and will install it in the legion's building at the corner of Foster and Russell streets soon, E. J. Dunigan, post commander, said today.

Containing pictures of every cadet graduated from the local field since its activation, the Hall of Fame also includes pictures and stories of the PAAF graduate flyers who have been killed in combat or training or are still listed as missing.

Dunigan said that a meeting of the Legion would be held tonight at 8 o'clock at the Southern club. The members will make final plans for remodeling the new Legion headquarters obtained only recently.

Dunigan said that the Hall of Fame will be placed on the second floor of the 45 by 90 foot property. He also pointed out that as soon as the remodeling is completed, part of the headquarters will be turned over to teen-age youths in the city for recreation purposes each Friday night.

3 Austin Youths Held in Slaying

ATOKA, Okla., Sept. 13.—(AP)—Three Austin, Texas, youths were bound over to the district court without bond after preliminary hearing yesterday on charges of murder in the hitchhike slaying Aug. 2 of McGraw E. Streckenfinger, 20, Pittsburg, Kans., merchant marine.

Assistant County Attorney I. O. Correll said Judge J. B. Maxey first presided over the juvenile court for the younger boys of the trio, Oma Dixon Claunch, 14, and Ernest Entland, 15.

Judge Maxey said Claunch and Entland were cable of committing crime and they were given a preliminary hearing with a third youth, Billy Clusser, 17.

All three have pleaded innocent. Entland took the stand to corroborate a written statement that included his assertion that he had no part in shooting Streckenfinger after hitchhiking a ride from the Oklahoma-Texas border near Kiowa, Okla.

Marine Corps Point Score Is Lowered

WASHINGTON, Sept. 13.—(AP)—The Marine corps today reduced its critical point score for release of male personnel from 85 to 70 points, and authorized release of all Marines 35 years of age and older.

The changes, announced by Gen. A. A. Vandegrift, Marine corps personnel over 35, it was pointed out, are the first reduction in the Marines' critical score, originally announced August 15.

In connection with the release of personnel over 35, it was pointed out that the Marine corps point system, unlike that for the rest of the navy, allows no credit for age.

The point release system does not apply to enlisted men serving four year enlistments in the regular Marine corps or extensions thereof.

The new conditions for discharge eligibility, General Vandegrift said, apply to all Marine corps personnel, irrespective of whether they are serving within the United States or overseas.

Nip Peacetime Cabinet Meets On War Guilt

By the Associated Press
Japan's Pearl Harbor premier, Hideki Tojo, rallied sufficiently from his self-inflicted bullet wound today to sit up and brush aside questions of American news correspondents at his first interview since he bungled his suicide attempt Tuesday.

Japan's peacetime cabinet met meanwhile to see whether its own skirts were clean of war guilt.

Among other things Tojo carefully withheld was confirmation of Envoy Saburo Kurosu's recent statement that Kurosu had been kept in ignorance of the coming Pearl Harbor attack while negotiating in Washington. Tojo said he could not comment on Kurosu's veracity) without "documentary evidence."

Doctors termed the glassy-eyed Tojo's condition "quite satisfactory."

Japan's top business leaders meanwhile acknowledge the country had been so badly beaten that even without atomic bombs some 7,000,000 Japanese would probably have starved in another year of war. The present national economy is based upon "nothing," they commented.

Prince Fumimaro Konoye, premier and present vice premier, told Associated Press Correspondent Russell Bruns today that his resignation in October, 1941, resulted from a "quite satisfactory" condition.

Wainwright Is Welcomed by Paper Blizzard

NEW YORK, Sept. 13.—(AP)—The greatest paper blizzard in the history of New York's famed financial district showered down on smiling, happy Gen. Jonathan M. Wainwright today as the city gave a roaring welcome to the hero of Corregidor.

At least 3,000,000 persons—by police estimate—cheered and acclaimed the tall, 62-year-old four-star general in a triumphal motor ride from La Guardia field, where he was greeted with a 17-gun salute, to city hall where he modestly accepted honorary citizenship of New York.

Thousands upon thousands greeted him at the airport and along the Franklin D. Roosevelt drive on the East river, but it was a wild, heart-warming demonstration in the mile-long hero's canyon of lower Broadway that provided the climax.

Gay streamers, ticker tape and torn newspapers and telephone books showered down in such volume that at times, the general's automobile—at the head of a 30-car motorcade—could barely be seen by the vast crowds turned out to pay tribute to the man who made the gallant and historic stand at Corregidor.

PAMPAN WITH SURVIVORS OF BATAAN AT KUNMING

Pvt. Mervin H. Suttle, son of Mr. and Mrs. Hal J. Suttle, Pampa, was among 21 gaunt survivors of Bataan and Corregidor who arrived at Kunming, China, yesterday after 44 months of privation and ill treatment at the hands of the Japanese.

According to the Associated Press the men told how they had been forced by the Japs to slave at enemy operated factories and of the filthy facilities at their Mukden prison camp.

Suttle, who enlisted in the army soon after the start of the war, wired his parents last week after they had received official word that he has been liberated. Mr. and Mrs. Suttle have also received a letter from him and a telegram from the Red Cross.

The story from Kunming, where the men are receiving medical treatment, related how many of the men contracted pleurisy and pneumonia because of the lack of warm clothing.

They told how the whole camp's rations were drastically cut as mass punishment when one of the Americans let up on the job or smoked in an unauthorized place. The Red Cross parcels were also held up, the story said.

Among the other Texans in Suttle's group were Sgt. Earl Y. Guey and Pvt. Herrman Ross, Houston, Pfc. Lonnie Johnson, Dallas, and Pvt. James Bowen, Weiner. (Adv.)

Mainly About Pampa and Her Neighbor Towns

Dale C. Wall, S 2/C, is at home on leave. He received his boot training in San Diego, Calif., with the U. S. N. T. C. He will report to San Diego, Sept. 21.

24 hour service, City Cab. Ph. 441.

Mr. and Mrs. B. E. Sailor of Bay City, and Mrs. O. E. Sailor of Pampa, have returned to their homes after accompanying the body of O. E. Sailor here for burial in Fairview cemetery.

Girl's bicycle for sale. Practically new. Call 1940J after 5 p.m.

Mrs. Webster Johnson has received word that her husband Pvt. Webster Johnson, was landed with the armed forces on Saipan.

Lady will share nice comfortable home with employed lady. Call at 217 N. Gillespie after 6 p.m. or before noon.

Mrs. Gus Hunter who has been a patient in Worley hospital, will be released today to return to her home.

Mrs. Lala B. Owens, teacher in Senior high school, spent weekend visiting with relatives in Canyon.

Middle aged woman to help care for elderly woman also assist with housework. No laundry, nice comfortable home. Apply in person, 421 N. Gray.

Mrs. A. E. Berry, 726 W. Buckler, is recovering from a recent operation in Stamford.

Mrs. Orville Franklin and baby son, are in Amarillo, where the baby is a patient in a hospital, receiving medical attention.

You'll like our quick service and thorough workmanship on your school clothing. Try Just Rite next time. Phone 480.

Mrs. Virginia Brooks, teacher in Junior high school who recently underwent an operation in a local hospital has returned to her home.

Mrs. J. B. White, of the Pampa Red Cross, returned Saturday from Big Spring, where she attended a conference of executive secretaries.

Sport clothes, especially those hunting shirts, coats and pants, should be cleaned before hanging up for next trip. It will preserve them. Call Master Cleaners.

Pampa Lodge 480, Knights of Pythias, will meet in regular session tonight at the castle hall and will confer the rank of Page on Ruelyn Laycock and Bill Ridgeway. Lodge will open at 1 p. m. and Ralph Mangel, Councilor Commander, urges all members to be present for this rank work.

The rank team that will go to Amarillo, Sept. 21, to confer the rank of Knight on several members of the lodge there will be selected.

Wanted: Dishwasher at Schneider Hotel.

Dr. and Mrs. A. J. Welker of Max, N. D. are in Pampa and they are guests in the home of their son-in-law and daughter, Capt. and Mrs. Howard Killough.

Mr. and Mrs. Max Tresnell and children returned from Enid the first of the week where they had been for a visit with relatives.

Mrs. O. B. Owens of Electra visited with friends here recently. She is a former resident of this city.

Mrs. Martin Lamons has returned to her home in Olney after a visit in the home of her son-in-law and daughter, Mr. and Mrs. Q. B. Beavers.

If you are in need of a bicycle or if your bicycle needs repair, let us care for your needs. Roy and Bob Bike Shop, 414 W. Browning.

Mrs. Mary Jane Landis of San Diego, is a guest in the home of her son-in-law and daughter, Mr. and Mrs. Keith Lane, 629 N. Hobart. Since the arrival, Mrs. Landis has been ill in a Pampa hospital, but has recovered and returned to her daughter's home.

Dan Roche, son of Mr. and Mrs. M. P. Roche, 1201 Mary Ellen, is attending Price Memorial college, Amarillo, this year, and he will arrive in Pampa tomorrow to spend the week-end with his parents.

Mr. and Mrs. Austin Randall and Mr. and Mrs. Eugene Tucker have returned from visits in Denver and Colorado Springs.

Mrs. Pat Murphy has returned to her home in Coleman after a visit here with friends and relatives.

Review

Continued from Page 1

In the Pacific squarely up to the Japanese government.

November 28 - The American government, it was learned today from the best available sources in Washington, has ruled out any possibility of compromise with Japan on the Chinese issue and has raised a possibility that American merchant ships in the Pacific may be armed.

While it was reported on highest authority that negotiations looking toward peace in the Pacific and Far East had not broken down, the United States viewed the present situation as extremely serious.

Tokyo, Nov. 29 - Premier Hideki Tojo solemnly and publicly declared tonight the determination of Japan to purge British and American influence from East Asia "with a vengeance - for the honor and pride of mankind."

Streamers: Japan Not So Bold As Hitler Suffers Greatest Defeat in Russian Front - Jap Envoys Talk an Hour with Hull at Washington, Dec. 1 - Negotiations on the delicate Far Eastern situation were resumed today by Secretary of State Hull and the Japanese ambassadors, after which the secretary hurried across the street to the White House to report to President Roosevelt that the Japanese were peering additional troops into neighboring French Indo-China.

The President and Hull conferred by themselves in Mr. Roosevelt's oval study immediately after the secretary concluded his talk with the Japanese, which concerned only subordinate phases of the Pacific situation. The envoys brought no reply to the document in which the United States last week delineated its position.

Same day, also on Page 1:

MANILA, Dec. 1 - United States army and naval forces in the Philippines were held in readiness for any emergency today as fears in the Far East were fed by the arrival of fresh British reinforcements in Burma, intense military preparations in Thailand and reports that the Japanese were peering additional troops into neighboring French Indo-China.

By the Associated Press (Dec. 2) Britain's new 35,000-ton battleship Prince of Wales steamed into the Singapore harbor today at the head of a flotilla of powerful naval reinforcements as Japanese dispatches asserted that British imperial troops were massing along the Thailand frontier for an invasion.

2 - Col. Streamer - FDR Demands Japan Answer His Question. WASHINGTON, Dec. 3 - Pres. Roosevelt has posed a question for Japan which - paradoxically - may hasten a final showdown in the Pacific or bring about an armed truce that would save Thailand, temporarily at least, from becoming a Far Eastern battlefield.

Since the President's question calls for a forthright explanation of Japan's immediate intentions, informed diplomatic quarters here believe that it will bring the Pacific crisis to a head within the week.

Streamers - Japan Answers FDR's Question on Troop-Massing Reply Kept Secret. Break Between U. S. and Japan May Be Imminent. By the Associated Press (Dec. 5) Japan delivered to Secretary of State Cordell Hull today what may be her latest answer to the question of war or peace in the Pacific, and special envoy Saburo Kurusu declared simultaneously that he "hoped the talks between the two countries would continue."

The Japanese reply dealt with Pres. Roosevelt's request for an explanation on why Japanese troops were being massed in French Indo-China.

(There was not any immediate indication of the nature of the Japanese message, although Tokyo reports had emphasized a gloomy view of the whole situation.

Earlier, the Melbourne (Australia) radio broadcast reported that a break in relations between the United States and Japan might come at any moment.

(No paper on Dec. 6, Saturday) (Sunday morning edition Dec. 7, with developments as of late Saturday night, Dec. 6):

Streamers - FDR Sends Direct Message to Emperor in Japan Crisis. WASHINGTON, Dec. 6 - Pres. Roosevelt has dispatched a personal message to Emperor Hirohito of Japan in the midst of darkening war clouds in the Far East, it was disclosed by the state department tonight.

The President's direct message to the emperor, who is regarded as divine by the Japanese, was immediately interpreted in well-informed quarters as a reflection of his dissatisfaction with the explanation made by Premier Tojo of Japan through the Japanese envoys here as to the reason for Japanese troop concentrations in French Indo-China.

The message also was viewed as possibly a step of last resort to avert an open break with Japan.

Webb Contracts To Operate Pampa Municipal Airport

Roy Webb, Jr., recently honorably discharged from the army air force, yesterday signed a contract with the city commission for the operation and maintenance of Pampa's municipal airport.

The city was recently given control of the airport facilities by the county commissioners court. The city was given the right to lease the site to any person who could show that he planned to improve and enlarge the facilities.

Under the terms of the four-year contract, Webb was granted a first three year option, making a total of seven years. In addition, another three-year option will be granted provided Webb has made at least \$7,500 worth of permanent improvements and provided the city still has control of the facilities.

In payment for the lease, Webb will turn over to the city five per cent of his gross income from the port after the actual cost of planes, parts, gasoline and all materials purchased for re-sale have been deducted.

In addition, the gross income will include five per cent of all receipts from revenue received from cross-country charter flights after expenses have been deducted.

Webb, who enlisted in the army air force in 1940, rose to the rank of lieutenant colonel before his discharge and was credited with shooting down at least nine German planes.

He is the son of Dr. and Mrs. Roy A. Webb of Pampa and attended Texas Tech at Lubbock before entering the air forces.

in ash cans or on other materials," on Sept. 8 and 9 by an American mission investigating effects of the bomb, said Farrell, who heads the group. The bomb was dropped August 6.

Col. Stafford Warren, Rochester, N. Y., a member of the mission said many persons still may die from initial effects of the explosion, but it will be difficult to determine whether from radioactivity or other injuries caused by the bomb.

Reporting on destructiveness of the atomic bomb, which was set to explode above ground, Farrell said that for a radius of one and a quarter miles from the point of detonation the area, including Japanese military headquarters, was completely demolished. To a radius of two miles, everything was blasted, with some structures set afire. Between two and three miles, damage generally was slight. There was roof damage up to five miles and glass was broken up to 12 miles.

He emphasized that there were preliminary reports and that additional studies would be made from every angle. Some members of the commission expected to go to Nagasaki, where the second atomic bomb was dropped, today.

A Suit.....
the perfect basis for your Autumn Wardrobe...

Anthony's
A Suit.....
the perfect basis for your Autumn Wardrobe...
Practically every woman whether student or mother with flattering benefits to her figure and a good bone of a well-planned wardrobe...

Better Self-Trim Goals

Which do you prefer?—Tweeds, crepes, suedes, Shetlands, or a nice mixture? Any and all of Anthony's new coat stock. Sizes clear up to 44, and styles. Chesterfields, wraparounds, boy coats, \$2975 to \$5950

More Comfort Wearing FALSE TEETH
Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (neutralizes acid in your mouth). Get FASTEETH today at any drug store.

THE HATS OF TODAY WITH THE LOOK OF TOMORROW

Anthony's millinery department is full of exciting new hats. Group after group of glamorous, youthful hats that will do interesting things to your morale. The trims are just about every thing this year—Nailheads—feathers—sequins—novelties of numerous kinds—also veil trims. Some of the nation's best hat designers had a hand in these.

Berets and Beansies
Cute and clever with an air of their own. Solid colors in a good variety. New shapes originating in Europe, now popular all over. \$1.98 to \$2.98

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off ugly fat and helping back slurring curves and graceful lines. Just get from any druglist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day.

Relieve that Tormenting PIN-WORM ITCH

It is no longer necessary to put up with the trouble caused by Pin-Worms. A highly effective way to deal with this ugly infection has now been made possible. It is based on the medically recognized drug known as pectin violet. This special drug is the vital ingredient in P.W., the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

In a meeting of the committee yesterday, Blanton told the group: "I have brought out some points in the survey which I think are of special interest to the people of this area."

Yesterday's winds and rain were gone but mercury readings remained unseasonably low today (Thursday).

The norther came from the northwest, where Raton, N. M., early today reported a low of 30 degrees.

Westest spot yesterday was Brownsville, with 1.25 inches of rain which benefitted crops.

The forecast for most of the state was fair and continued cool today

Bureau Reports Lowest Reading

Pampans were taking their winter coats out of the moth-balls and lighting heating stoves today after two days of cool weather that was prevalent all over the state.

According to the United States weather bureau here, Pampa's 42 degrees last night was the lowest in the state and continued cool was forecast for this area.

In addition to Pampa's low of 42, Amarillo reported 44 degrees last night.

Blustery winds beat down Texas temperatures yesterday (Wednesday) as an early norther swept the state.

Yesterday's winds and rain were gone but mercury readings remained unseasonably low today (Thursday).

Demobilization

Continued from Page 1

Symington). President Truman is sure to sign it, because he asked for it.

Standard time. The house passed a bill to turn America's clocks back one hour on September 30.

Government corporations. The house passed the Whittington bill which would bring federal corporations—like RFC and HOLC—under stricter congressional control.

They are not exempt under the senate version of the Byrd-Butler bill, which has been gathering dust for months in the senate banking committee.

Airports. The senate passed a bill to put up federal cash for a big program of airport building.

The senate-approved bill would grant \$75,000,000 a year, for five years—to be matched by states and cities.

The house version, okayed by the house interstate-commerce committee, would grant \$650,000,000 over a ten-year period, not more than \$100,000,000 in any one year.

The senate finance committee expected to put the finishing touches on its unemployment compensation bill today.

The committee has carved this bill considerably. But it was learned that the new version meets all of Mr. Truman's "must" requirements—even though the original idea of increasing weekly payments to the unemployed has been ditched.

Mr. Truman was understood to have told the committee in a memo that the bigger weekly payments were "desirable" but not indispensable.

He said the "must" provisions were: benefits lasting 26 weeks in all states; benefits for federal employees; and travel pay for stranded workers. All those provisions are still in the bill.

Waco Has More Meats Than Points

Continued from Page 1

WACO, Texas, Sept. 13.—(AP)—Waco meat retailers are reporting a large surplus of commercial grade beef and veal here over ration points available to buy them.

One retailer said his stock of beef became so large he had to sell to restaurants when customers lacked points to buy and shrinkage threatened loss.

In Chicago yesterday the National Association of Retail Grocers listed Waco as one of several areas reporting a threatened surplus of meat supplies.

They are not exempt under the senate version of the Byrd-Butler bill, which has been gathering dust for months in the senate banking committee.

Airports. The senate passed a bill to put up federal cash for a big program of airport building.

The senate-approved bill would grant \$75,000,000 a year, for five years—to be matched by states and cities.

The house version, okayed by the house interstate-commerce committee, would grant \$650,000,000 over a ten-year period, not more than \$100,000,000 in any one year.

Two Texas Camps May Be Permanent

WASHINGTON, Sept. 13.—(AP)—The war department is considering requests to make permanent establishments out of two Texas war training centers, Camp Wolters at Mineral Wells, and Camp Hood near Temple.

Senator Connally and Rep. Russell, Texas democrats, urged army officials to consider a proposal that Camp Wolters be fitted into the nation's peace-time military set-up.

With Rep. Poage (D-Texas), Connally has recommended that Camp Hood be made permanent. Connally said he was told some time ago by Secretary of War Henry J. Stimson that he considered Camp Hood one of the best

Breadon Gambles on Another Rookie, Red Birds Win 3-2

Senators Gain Half-Game on Detroit Tigers

Harvesters Open Season Here Tomorrow

By JACK HAND
(Associated Press Sports Writer)

Sam Breadon's Cardinal farm system, shriveled to a handful of outposts and a smattering of talent, has turned up Lefty Art Lopatka to prove it still can produce a live one when the hurry call for help is sounded.

With Billy Southworth's St. Louis gang struggling desperately to catch the front-running Chicago Cubs, who had won via the shutout route a few hours earlier, Lopatka was given his big league launching against the hard-hitting Brooklyn Dodgers in a two-night game.

The 25-year-old grad of the Columbus Red Birds justified the management's faith by subduing the Dodgers with four hits, 2-2, keeping the Cards 2 1/2 games behind Chicago. A scheduled second game was rained out.

Hank Wysz made sure the Bruins wouldn't lose any ground by blanking the Phillies, 4-0, allowing nine hits for his nineteenth victory.

Cincinnati shaded New York, 4-3, in the other National League contest on successive homers by Frank McCormick and Hank Sauer. Boston and Pittsburgh were not scheduled.

Washington picked up a half game on Detroit in the blazing American league scrap, slicing the Tigers' advantage to a game and a half, all on the losing side of the ledger. Five big games with the Bengals over the week-end in the nation's capital probably will decide the issue.

Roger Wolff pitched and batted the Senators to a 5-1 triumph over Cleveland in an archlight game witnessed by General Johathan M. Wainwright, the hero of Corregidor. The knuckleball artist yielded only hits in recording his 18th win and drove home three of the Washington scores with a base-loaded double.

Detroit's crippled Tigers lost a heartbreaking second game to

Philadelphia, 3-2 in 16 innings after romping to a 7-4 decision in the opener behind Al Benton.

It has been a tough week for Steve O'Neill with Hank Greenberg and Eddie Mayo out of the lineup and Hal Newhouser's sore back forcing him to skip his regular turn. But yesterday's marathon nightcap was the toughest of all.

O'Neill gambled with Prince Henry Oana, the big Hawaiian up from Buffalo, and saw his choice justified as the recruit allowed only one single for 8 2/3 innings. Roberto Estalella tied it with a double and the same stocky Cuban finally broke it up with another two-baser in the 16th, scoring Mayo Smith. Dizzy Trout, trying for his fifth win of the eastern jaunt, was the victim of Estalella's second double.

The Yankees greeted Chicago's White Sox like a sure ticket to a first division berth, grabbing both 3-1 and 9-8, the second in 10 innings, to tighten their grasp on third place. Russ Derry and Charley Keller hit homers to ease Red Ruffing's task in the opener and Frank Crosetti tied the finale in the ninth with a round tripper. Oscar Grimes' triple followed by Aaron Robinson's single finally broke it up.

Sloppy Boston fielding let down Mike Ryba as the Red Sox bowed to St. Louis, 9-2. Bob Muncie, handcuffed the home club with four blows in gaining his 12th victory against three setbacks.

'Pappy' Prim Is Making Comeback

CHICAGO, Sept. 12.—(AP)—The clever left arm of graying Raymond L. (Pappy) Prim is writing one of baseball's greatest perseverance stories—a saga that fits prominently into the pattern of the Chicago Cubs' pennant bid.

In fact, the Bruins' pace-setting rush is exactly paralleled by the renaissance of 32-year-old Prim, a minor league pitching wog who knocked feebly and fruitlessly at

MEN! GET PEP...

Do you want to feel young again? Why feel old at 40, 50 or more? Enjoy youthful pleasures again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Casella Tablets. Many men are obtaining remarkable results with this amazing formula.

Jammed Stadiums Coming Back to Football in '45

DALLAS, Sept. 13.—(AP)—Jammed stadiums are coming back to south-west conference football after an absence of two seasons while a war was being fought.

Reports on advance ticket sales from the seven conference schools show gains ranging from 33 1/3 to 50 per cent. Texas A. and M. does even better than that if 1944 alone is considered for comparison. Business Manager Pete Jones reports more tickets already sold for the Texas-A. and M. game Thanksgiving day than for all contests played at College Station last year. A sell-out of 33,000 is due Turkey Day as A. and M. gets this traditional contest at home. Last season it was at Austin. But A. and M. also expects big gains in attendance for other home games, anticipating for instance, that 15,000 will turn out for the Southern tilt.

Business Manager Ed Oile of the University of Texas forecasts attendance will be 50 per cent above 1944, this being based on advance ticket sales. "People have the gas to travel and they're going to travel to see a good ball game," he said.

Johnnie Porter, business manager of athletics at Arkansas university, declared the advance ticket sale is the heaviest in a decade and more than doubles last year. "We expect approximately 25,000 to witness three local games and 12,000 (a sell-out) for the Arkansas-Texas game at Little rock," he said. "Student enrollment is far ahead of predictions and three nearby army camps are jammed with overseas soldiers licking their lips over the chance to see big-time college games."

Rice institute's season ticket sales are far ahead of last year when they were 4,600. This year they promise to reach 8,000, while Southern Methodist university's season ticket sale is about a third better than last year. The Texas-SMU game in Dallas Nov. 3 is expected to draw a sell-out of 22,000. Ticket Manager J. C. Wetsel attributed the pick-up to the fact that the Southern Methodist team looks much stronger and that the transportation squeeze is off.

Texas Christian reported a much heavier demand for tickets. "As an illustration, one fan who hadn't been heard from since before the war ordered 16 tickets for the A. and M. game," said Athletic Director Dutch Meyer. Baylor, returning to football, finds its demand for tickets ahead of 1942, the last year the Golden Bears played.

"There are more people and more money and more ways to get to the games," said Athletic Director Ralph Wolf.

big time's door for more than a decade. Until July 6, just two days before the Cubs moved into the National league lead, Prim appeared destined to fritter away his fourth chance to make the Major league grade. He had a faint 2-4 record and made the Cubs wonder how he ever won 22 games for Los Angeles in 1944.

But then the quiet, unassuming guy in his 16th year of professional competition started outpacing the opposition dizzily. Since July 6, in winning 10 games and losing only three, Prim fashioned an amazing earned run average of only 1.13. "He's a ball-player's pitcher," praised Manager Charley Grimm. "He has superb control to get the jump on most batters and then he feeds them a wicked curve or screwball."

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK, Sept. 13.—(AP)—The four clubs scrapping for the major league pennants have been afflicted with so many ailments and injuries lately that you sometimes wonder whether the athletes or the doctors will decide the races—Here's a quick rundown: Cardinals—Marty Marion, lame back; Ken O'Dea, nerve pain in leg; Ted Wilks, due for operation of arm—Cubs—Phil Cavarretta, back after layoff because of bad shoulder; Edie May, shoulder and chest strapped up; Hank Greenberg, sprained ankle; Hal Newhouser, pain in back—Senators—Duch Leonard, lame shoulder—maybe the explanation is that they started out this year with wartime 4-F squads.

UNNECESSARY PUNISHMENT
A rookie lineman in the Cleveland Rams' training camp was put in to scrimmage against Gil Bouley, the big rough tackle from Boston college and Cornell, and received a good going over—The next day he tried again and found it even more strenuous—Finally the kid approached Coach Adam Walsh with a complaint—"What's the matter?" asked Adam, sensing a timid attitude not in keeping with pro football, "Is Gil too tough for you?"—"It isn't what he does on the field," the battered kid replied. "He roams across from me and keeps me awake all night talking in his sleep. I wish you'd make him stop saying 'get-up you so and so, and I'll knock you down again.'"
More than one-seventh of Mexico is forested.

Tigers Among Top 10 Teams Of State Race

Playing one of the 10 top-ranking teams in the state, a light, inexperienced group of Pampa Harvesters will open the 1945 football season here tomorrow night when they meet the Electra Tigers.

The game is to get underway at Harvesters' park at 8:30. Reserve seats have been on sale for the past week and general admission tickets are on sale at downtown drug stores and also at the gate. Electra, ranking team of District Two, is power-laden with plenty of weight and speed. The Tigers' only one man off of their last year's squad and he has been replaced by a player who played in 1943 but was ineligible last year.

A capacity crowd is expected to turn out for the 1945 opener. Coaches Otis Coffey and Jiggs Wittington have promised an interesting team this year—one that will be built around two returning regulars from last year—Randall Clay and Jack Dunham. Clay, at his halfback position, will be perhaps the most closely watched back on the squad, 15 and 170. Clay will be playing his second year in Dunham. Coaches Coffey and Wittington have one of the smartest linemen ever to wear the green and gold.

The brother of Bob Dunham, Harvester great of 1941 and 1942, Jack can play any line position. This year he will be regular left end and will alternate at center. Dunham has experience in every position in the line.

The rest of the team will be made up of a crop of reserves from last year and quite a few newcomers. Among the linemen held over from 1944 and Guards Jack Hood and Don Humphreys, Ends Charlie Beard, Bernie Brown and Lonnie Williams, Tackles Jim Terrell, Stan Simpson and Don Morrison and Center Maurice Lockhart. Backfield holdovers from 1944 include Clay, Russell Neef, Bob Troop, Winfred Vaughn and Horace Saunders.

In addition there were two who played in 1943 but did not participate last year. Back Bill Washington and Tackle Don Rowe are back from the 1943 squad. Newcomers who have seen a lot of action in practices this spring and fall are Tackles Bud Williams and Donald Bunn, Ends Bill Speer, Carl Mayes, Laddie Mayes and Leon Gooch, Center Kelly Anderson, Guards Bill Hutchinson, Virgil Fish, Buddy Sawyer and Carlton Brooks and Ends Clayton Pike, Vernon Holler, Geagan Johnson, Jim Wilson and Phillip Anderson.

Packers Tackle Eagles Tonight

PHILADELPHIA, Sept. 13.—The champion Green Bay Packers put their professional football prestige on the chopping block tonight when they tackle the Philadelphia Eagles in a charity game.

The huge municipal stadium will get a pre-game once-over to assure an estimated 75,000 fans that there will be few, if any, mosquitoes and insects around to distract their attention.

To more than 21,500 servicemen, many of them amputees, the greatest clash promises to serve as a morale builder. They'll be on hand to watch Jack Sanders, who lost part of his left arm while serving as a marine lieutenant on Iwo Jima. He'll play with a specially constructed steel brace covering the lower part of his arm.

Major League Standings

NEW YORK, Sept. 13.—(AP)—Major league standings including all games of Sept. 12.

Boston	59	78	.431
Cincinnati	56	81	.409
Philadelphia	42	98	.300

CHICAGO, Sept. 12.—(AP)—As the mercury slipped down into the low 50's, James E. Dore, 45, who told police he has no permanent address, hunted a place to sleep. He went into a basement of a small Madison street hotel and crawled into the furnace—which was not fired. Later he told firemen who came to extricate him he would have been all right except that he got stuck in the furnace chimney pit. After pulling him out, firemen washed away the soot and then took him to the county hospital where he was given a more leisurely cleansing.

Army and Navy Vehicles Surpass Highway Rules

AUSTIN, Tex., Sept. 13—(AP)—Some types of army and navy vehicles purchased by civilians cannot operate under all conditions on Texas highways because their empty weight exceeds the maximum gross weight of 48,000 pounds allowed by Texas law.

An opinion by the attorney general says a vehicle in excess of the legal maximum gross weight, increased from 38,000 pounds to 48,000 pounds as of Sept. 4, cannot be registered for highway use.

The opinion was sought by State Highway Engineer Dewitt C. Greer who said some vehicles purchased from the army and navy by civilians were very heavy and some of them have an empty weight in excess of the maximum gross weight.

The opinion made these stipulations:

Where a truck weighs 40,000 pounds empty, it should not be registered if its gross weight exceeds the legal limit.

Each unit—truck, truck-tractor, trailer or semi-trailer—should be registered separately, and if an individual unit has a gross weight in excess of 48,000 pounds it should not be registered.

If two or more units whose separate gross weight does not exceed the legal gross weight are operated together and their combined gross weight exceeds the legal limit they may operate under a special permit.

McBrearty said the company had petitioned the federal power commission for a hearing Feb. 18 in Washington on the application to furnish 5,500,000,000 cubic feet of gas a year to the Continental Union Gas company of Canada.

Panhandle Eastern Is Opposed in Move

LANSING, Mich., Sept. 13—(AP)—The state public service commission will oppose the attempt of Panhandle Eastern Pipeline company to obtain federal permission to export natural gas to Canada, William J. McBrearty, commission chairman, reported.

McBrearty said the company had petitioned the federal power commission for a hearing Feb. 18 in Washington on the application to furnish 5,500,000,000 cubic feet of gas a year to the Continental Union Gas company of Canada.

Points-plus: Point-less

Jean Patterson is busy contributing to the war effort by saving every drop of used fat left over from cooking. She knows that kitchen grease is urgently needed to help make war and civilian essentials. Ann Jeffrey can't be bothered. If she cooks at all, drippings go down the drain. She loves herself too much to worry about the needs of this country. Don't be an Ann. Be a Jean. It will pay you patriotic dividends.

Pettengill Says We Must Still Hold War Bonds

By SAMUEL PETTENGILL

The government is shortly going to urge that war bonds be held and not cashed. This will be good advice if followed nationally.

T. R. Gamble, director of the treasury's war finance division, says the threat of inflation is more "aggravated than at any period during the war." Dr. William A. Paton, professor of accounting at the University of Michigan, says the nation can avoid ruinous inflation only if ten millions of war bond owners continue to hold them indefinitely.

England and France carried huge debts, going back to Napoleon and Waterloo, without disaster until world war I because their bonds either had no redemption date (consols) or the people themselves continued to hold them as a nest egg, or as a dowry for a marriageable daughter, or as an inheritance passing down from father to son. They were content to collect the interest, and when bonds did mature, they exchanged them for the new issue.

So far, Americans have held on to 85 percent of the war bonds they bought to finance the war now ended. Will they continue to keep them? Despite the danger of nation-wide cashing of bonds, Secretary of the Treasury Winthrop Douglas says the government will not attempt to "freeze" them. You can cash them if you so decide.

But there are still more huge bond issues to be sold. In world war I, the biggest issue was sold after the armistice—not before. The present debt will increase by many billions before the last soldier returns to his native shore.

But if bonds are held, and not cashed, what happens to this "huge purchasing power" tied up in bonds? How is it to be used to finance a post-war prosperity of \$140 billions annually which it is said we "have to have"?

War-bond advertising has lacked something of "southern honesty." We have been told "again and again and again" that the bonds we buy mean future homes, automobiles, trams, as well as security in old age. This could be understood only as meaning the use of the principal of the bonds, for few people can save enough to buy the "dream house" out of interest at less than 3 percent.

If the government now finds itself embarrassed in asking its bond buyers not to use the bonds (not to cash bonds, but hold them) it has only itself to blame. There has been too much Hollywood in this war. I never thought too highly of the fat men who bought bonds only to use the principal with Morten's blessing, kissed him on the bald spots.

It is said that individuals have "saved" \$130 billions. This is largely baloney. If a man and wife have paid off the mortgage on the house, and now have the house debt free, they have saved something that will keep the rain out. But war bonds are not true economic savings. They largely represent expenditure.

APPLICATION FOR LIQUOR PERMIT

The undersigned is an applicant for a Retail Liquor permit from the Texas Liquor Control Board and hereby gives notice by publication of such application in accordance with provisions of Section 10, House Bill No. 77, Acts of the Second called session of the 44th Legislature, designated as the Texas Liquor Control Act.

"The Retail Liquor permit applied for will be used in the conduct of a business at Highway Liquor Store, 346 E. Frederic Street, Pampa, Texas.

Navy Radiophoto Crew Licks Major Atmospheric Conditions for Pics

SAN FRANCISCO, Sept. 13—(AP)—First pictures showing Gen. Hideki Tojo, Japan's former premier, just after he had shot himself, were received in San Francisco early yesterday only after an able navy radiophoto crew licked almost impossible atmospheric conditions.

The operators, Ralph Dodson, RM3/C; Charles Wyatt, RM 1/C; and William Adams, RM1/C, began their struggles shortly after midnight when the battleship Iowa in Tokyo bay reported it had the picture for transmission.

After trying frequency after frequency, the radiomen finally found one workable only to run into technical difficulties in the station here. They quickly located their trouble, however, and transmissions were started once more by the Iowa.

First prints were given representatives of the wartime still picture pool at 7:30 a. m. (CWT) for release for publication a half-hour later.

Previous to efforts by the navy, army signal corpsmen attempted radio transmissions from Yokohama over newly set up facilities without success. The prints were then dispatched to the Iowa, some 50 miles away in Tokyo bay. The pictures were those taken by Charles Gorry, Associated Press photographer with the wartime still picture pool, and signal corps photographers, at the scene when Tojo shot himself.

Higgins Industries End Water Studies

MEXICO CITY, Sept. 13—(AP)—Extensive projects for greater utilization of water communications in Mexico are nearing the end of their study stage, Andrew J. Higgins, of New Orleans, said today.

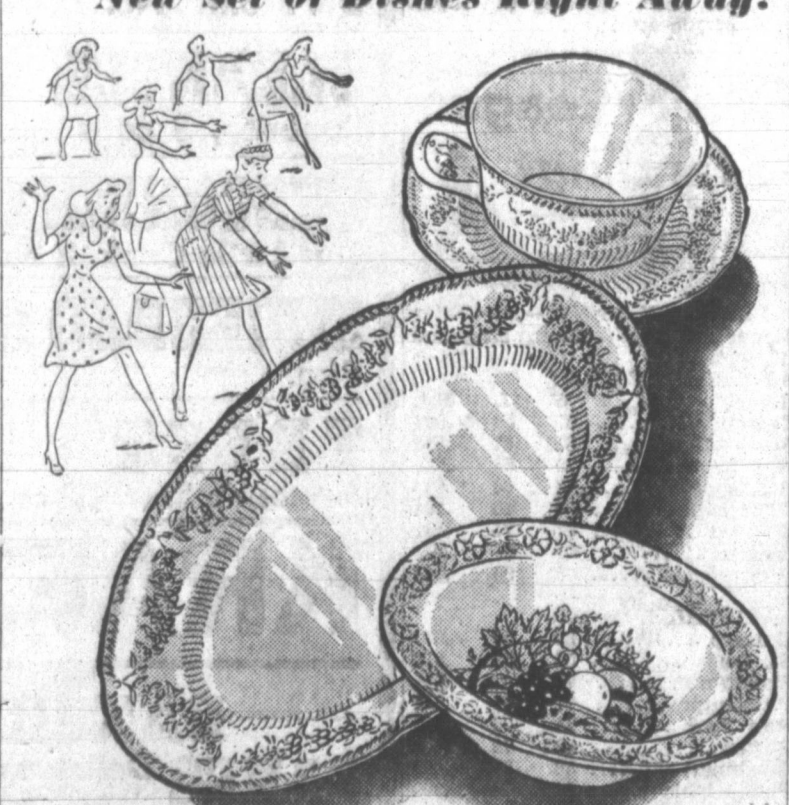

Higgins industries of New Orleans and other engineering groups are making the surveys for the Bank of Mexico commission on wartime transport studies.

"Port improvements, dredging of rivers to make them navigable, and construction of canals figure in the projects," said Higgins.

An intracoastal canal from Matamoros, at the U. S. border, to Tuxpan, Veracruz, 40 miles south down the Gulf of Mexico coast, is among the proposals.

3-Way Presidential Race in Prospect

MEXICO CITY, Sept. 13—(AP)—A three-way presidential race is in prospect in Mexico, as supporters of Gen. Miguel Henriquez Guzman predicted he will toss in his sombrero soon to join Miguel Aleman and Ezequiel Padilla, already announced.

Army Announces Cut-Back in Ranks

WASHINGTON, Sept. 13—(AP)—A cut-back in the ranks of wartime generals was announced by the army yesterday in reporting that since V-E day 70 have left active duty or have been ordered to do so.

An additional 100 are in the process of being reduced in grade. "Within the next three months," said the announcement, "only a few of the 136 general officers who were recalled from the retired list for war duty will remain in active service. These will be specialists who are retained for a few additional months to train their own replacements."

At the peak, when Japan surrendered, the army had about 1,600 general officers, about one-fifth of one per cent of the total officer personnel of 800,000. In 1946, there were about 100 generals, representing two-thirds of one per cent of the officer personnel.

Franco Unleashes Attack on Masonry

MADRID, Sept. 13—(AP)—Generalissimo Francisco Franco unleashed a violent attack against Masonry yesterday in an unscheduled speech. Franco blamed what he called a "Masonic superstate" for attacks abroad against the Spanish government. He spoke before a hastily summoned meeting of robed priests and monks who are accredited as the religious advisors of the feminine section of the falange.

Franco denounced the Masons of the world, adding, "But I think the battle is advantageous for us, they go against God and we are his soldiers."

In the era of Henry VIII the leather soles of shoes were made so wide at the toe that the imprint looked like the mark of a shovel.

While General Henriquez Guzman, one of Mexico's ablest military leaders and close friend of former President Lazaro Cardenas, has not announced that he will run, his campaign is going full-blast.

For months before Padilla, former foreign secretary, gave the official word to the public, supporters similarly conducted a campaign for him.

Aleman, campaign manager for President Manuel Avila Camacho in the last elections and later secretary of the interior, was the first to enter the race.

Instruction in Journalism Is Resumed at WTSC

CANYON, Sept. 13—Instruction in journalism will be resumed at West Texas state college in the 36th long session opening September 15. Capt. Olin E. Hinkle, for the last 28 months in the army air forces, has returned to the campus to re-open his work as associate professor of journalism and publicity director. He also is sponsor of the Panhandle high school press association, which has maintained restricted activity during the war and will now restore its varied program, including an annual convention at West Texas state.

In addition to writing courses, the

Journalism curriculum will include a class in photography.

College publications—newspaper and yearbook—are without editors and business managers for the first time in many years because of postponement of appointments last spring. Immediate routes for these and other positions will be started by Capt. Hinkle. He pointed out that students, including freshmen, have an unusual opportunity to obtain writing experience on college publications this year.

Type High, the college press club, will open its membership to students who demonstrate journalistic ability and dependability.

In 1945, the leather soles of all men's, women's and children's leather shoes in the United States, fitted together, would cover only 16 square miles.

Shamrock Slates Three-day Rodeo

SHAMROCK, Sept. 13—A rodeo will be held in Shamrock on Friday, Saturday and Sunday, September 21, 22 and 23. There will be four big shows, Friday night, Saturday afternoon, Saturday night and Sunday afternoon.

The performances will be held at Denver Field and the High School Athletic association will receive a liberal amount of the proceeds.

The rodeo is being sponsored by the Shamrock Rodeo club. Carl B. Armstrong is general manager and will serve as arena director. Doc Guynes will be in charge of the stock and Harry Mundy will serve as arena official.

The contests are open to non-professionals and \$1,000 in prizes will be awarded.

\$150,000 Gas Fire

Strikes at Refinery

EATON ROUGE, La., Sept. 13—(AP)—An undetermined amount of gasoline burned in a two-hour fire yesterday after lightning struck a partially-filled 80,000 barrel tank at the Standard oil refinery plant here. No one was injured, plant officials said.

Plant officials said the tank, which had contained approximately 50,000 barrels of gasoline, was still smoldering early today, and that damage might exceed \$150,000.

The welfare of this country demands that every boy and girl receive the best preparation for his future work.—Gov. Thomas E. Dewey of New York.

WOULD BE A PLEASURE

SEATTLE, Wash., Sept. 13—(AP)—Summoned for jury duty Corp. A. C. Kline, Jr. wrote Sheriff Harlan B. Callahan "It's the most wonderful offer I've had for a long time—please send transportation."

Corp. Kline is stationed on Guam.

Although there are many languages spoken throughout the world, there is considerable similarity between the fundamental speech sounds.

Navy Initiates All Out Drive For Enlistments

Navy recruiting stations all over the country are initiating an all out drive for voluntary enlistments, particularly in the regular navy, men in the age group of 17 to 30 inclusive, who are now eligible by executive order of President Truman. This order lifts the ban against voluntary enlistments in draft ages.

The navy's recruiting drive is designed to speed demobilization of men with long war service, to reduce the navy's calls through selective service and at the same time to enable the navy to fulfill its extensive responsibilities through the transition period and beyond.

During August, despite the ban on recruiting men between the draft ages of 18 and 37 inclusive, the navy enlisted more than 16,000 men in the 17-year age group, with parental consent. Of this number 6,300 joined the regular navy and the balance entered the naval reserve.

Now that the bars are raised permitting the armed services to reach into the draft age group for voluntary enlistments the navy is endeavoring at least to triple the August figures in coming months.

Men who have not been in uniform as well as those recently discharged through the army and navy demobilization plan are sought through this recruiting drive. Navy spokesmen announced that already a number of World War II veterans are signing up for the regular navy. It is anticipated that this number will greatly increase as the demobilization program progresses. Navy officials point out that such further service is solely a matter of voluntary action on the part of those who want to follow the navy as a peacetime career. Many veterans have embraced this opportunity after spending long awaited furloughs and leaves at home.

The term of enlistment in the regular navy is now reduced from six years to four. Physical standards are lowered in the light of war experience. Men changing to the regular navy from the naval reserve and men reenlisting in the regular navy not only retain their rights to mustering out pay, but also are entitled to full credit for past active duty, a special cash enlistment bonus, and up to sixty days' leave at home.

More 'Death March' Survivors Reach U.S.

FAIRFIELD, Calif., Sept. 13—(AP)—Three more survivors of the "death march" and Japanese prison ship horrors reached home yesterday. They are: Maj. T. C. (Gus) Francis, 29, Salt Lake City; Maj. Albert Fullerton, 31, Yonkers, N. Y.; and Lt. A. G. Balfanz, Arlington, Texas.

They were flown home from their last camp in Mukden, China.

Financial Assistance To Britain Not for Their Socialization

WASHINGTON, Sept. 13—(AP)—President Truman said he thought it "perfectly silly" to suggest that American financial assistance to Great Britain was intended to finance socialization of that country.

Authorizing direct quotation, the President told reporters:

"I think that's a perfectly silly conclusion. Great Britain is entitled to the type of government that Great Britain wants."

The question arose as a result of criticism by some members of congress of administration plans to give Britain a multi-billion dollar postwar loan.

1. Some republican members of congress already are voicing sharp criticism of the project even before it takes definite shape. They contend that American dollars would be used to underwrite the labor government's "socialization" of Britain.

2. British negotiators are cool to the idea of a loan. The present word is that they want an outright grant.

Reporters Unable To Persuade Truman

WASHINGTON, Sept. 13—(AP)—President Truman laughed off attempts of reporters to persuade him to specify whether his administration is heading either to the left or the right.

He told questioners at his news conference that they would have to judge the direction in which he was heading by his acts.

At one point the President was asked about a Washington Post article suggesting he ought to appoint a lot of republicans.

"I'm a democrat, he replied smiling. At the same time he said he didn't think political considerations had dictated his appointments.

"Are you going to the left or the right?" a reporter asked. The President replied that the reporter would have to work that out by his acts as they come forward. He added that he wasn't giving the reporter a lead.

House OK's Return To Standard Time

WASHINGTON, Sept. 13—(AP)—The house passed without opposition a resolution to return the nation to standard time Sept. 30.

The measure would abolish daylight saving, or war time. It would mean that clocks would be turned back one hour at 2 a.m. on Sept. 30.

The legislation now goes to the senate, where speedy adoption is expected. Action by the President is not required.

Clocks were set ahead one hour in 1942, when congress created war-time as a means to conserve fuel and provide longer daylight working hours.

In ancient Egypt, the possession of shoes indicated the high rank of the wearer.

Now more than ever before we must make it our business to see that the means to wage war be kept in the hands of those who hate war.—James V. Forrestal, Secretary of the Navy.

CAN'T KEEP GRANDMA IN HER CHAIR

She's as Lively as a Youngster—Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 8 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passage with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Duan's Pills, a stimulant diuretic, used successfully for millions for over 45 years. Duan's give heavy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Duan's Pills.

COMMUNITY'S COLLECTIVE HAT IS OFF

We had not forgotten to mention this, but just hadn't gotten around to it before this time. Here is what we mean:

The community's collective hat is off to the oil industry and the carbon black industry of the Panhandle for their part in the great conflict of the past four years.

Carbon black has been turned out in record volume right here in the Panhandle, and few people, except those who have been engaged in that work, have realized the significance of just what the industry has done. The list of all the things carbon black has been used for in this war—and will be used for in peacetime—would be long if we endeavored to set it down here and now. But we can't do that for the lack of space. But we can say that the community of Pampa and surrounding communities appreciate what the production of carbon black means economically to the area, as well as what it has meant in winning the war.

We have all heard so much about the tremendous problems of reconversion that we have felt it would be months, if not years, before we could again enjoy buying most commonplace prewar products. And then almost before the guns had stopped shooting, gasoline and fuel oil were off the ration list. It is a question of whether more beef and more sugar would have meant so much to the people.

But the real point is that the oil industry—and that includes the Panhandle very prominently—was ready at the drop of the hat to take on the full peacetime load of the great oil using nation in the world, plus the still great demands of the greatest mechanized army, navy and air fleet in the world. This is an accomplishment of private enterprise that is deserving of more than passing recognition.

Even during the war, the oil companies were preparing for peace. Their incentive and initiative had not been dulled by government ownership and control which was out of touch with civilian needs, and which it might have taken weeks or months, or even years to end.

It is worth remembering that American private enterprise, as exemplified by the oil and carbon black industries, rendered unparalleled worldwide service in a global emergency and dropped back without a hitch to normal peacetime domestic service in a manner not duplicated by nations whose resources are the plaything of politics and government control.

Common Ground

By R. C. HOILES

If, if, if
I have just been reading a speech delivered by Norman Thomas, as published in the socialist paper, "The Call," on what the British Labor victory means to America. "The Call" was mailed to me by a self-proclaimed Communist.

I was somewhat surprised to read all the "ifs" he put in as to whether or not the British Labor party would be successful, and also to read the criticism of this socialist leader makes about Russia.

I quote a paragraph containing some of his "ifs":
"If the British Labor Party succeeds in its program of peaceful revolution, if in a broken world it shows that the same technology which has brought to Europe the vastest destruction ever known can be used for total victory in the war against poverty, if in the process it liberates rather than abridges liberty, and proves that men can be citizens in industry as well as in the state, and establish democratic controls compatible with the democratic socialism of the British Labor Party will have brought to the world such blessing as words cannot describe."

"I have deliberately used the word 'if.' The death of the old order is inevitable but the triumph of democratic socialism. It is possible but its victory requires a capacity for intelligent cooperation by workers with hand and brain in town and country."

That is practically saying that the British Labor party cannot carry out its program. That is true because it is absolutely impossible even to think how the citizens of a nation can have their lives planned, either by a dictator or by a voting majority, and still retain freedom for the individual to use his God-given initiative; that is to say, the right of choice as to how he uses his initiative to serve himself and fellow-man.

The following statements by Socialist Thomas should quiet—if it is possible to quiet communists—the constant citing of Russia as an ideal place in which to live with freedom and prosperity for all. I quote further from his speech:

"The Soviet Union, America's only potential equal in power, has introduced many incentives that we should regard as capitalist. It uses millions of men and women in a completely infamous and non-socialist forced labor. So little control do the workers have over the dictatorship either as citizens or trade unionists that the Russian system is a form of state capitalism rather than of socialism."

Evidently there are to be no incentives for good acts under the socialist or communist dream. And since the leader of socialism in this country criticizes state capitalism I wonder who the socialists propose to own capital if they want neither private citizens nor the state collectively to own capital. If we are to have capital tools to work with—someone must own it, either the individual or the state. Yet the man who talks most about socialism and poses as its leader, criticizes even the state owning capital.

The most one analyzes state socialism and communism or a planned economy, the more one is convinced that those who are advocating such things do not understand what they are talking about. Contradictions mean nothing to them. Invariably they are talking because they are such poor planners themselves that they have little influence and are lone.

The Nation's Press

DOCTORING HISTORY

(The Chicago Tribune)
It is disclosed that students and the public will not be free to examine the private papers in Franklin D. Roosevelt's library at Hyde Park, N. Y., until they are "scrubbed" by a special committee appointed by the late President. The committee consists of Harry Hopkins, Mr. Roosevelt's closest friend; Judge Samuel Rosenman, his confidant and speech doctor, and George Tully, secretary to the late President.

There is not the slightest doubt that a group so closely connected with Mr. Roosevelt will make certain that not a single paper, or even a single phrase, will survive which will do damage to Mr. Roosevelt's reputation or the legend of omniscience which the New Dealers with considerable assistance from himself, created for him. The work of the committee will consist of suppression and distortion of historical fact. After it gets thru, there will be slight chance of clearing up the mystery of Mr. Roosevelt's public behavior or learning the truth about many matters of concern to a proper evaluation of the man and his work, for the historical evidence will be lacking. The Roosevelt career will wind up full of lucas.

If the Roosevelt library is, as has been represented, the property of the public, the committee of screeners should be replaced before it can destroy the evidence. A reputable group of historians should take over the task of classification, and it should not be permitted to destroy even the jottings on the back of an envelope. There has been too much faking in history already. Posterity will be interested in a three-dimensional Roosevelt, not in a bas-relief carved to specifications.

ON BORROWED MONEY
(The Daily Oklahoman)
If the possessor of a \$10,000 farm grows tired of his lack of spending money and mortgages his farm to the hill and goes into town and spends the value of his farm in a season of riotous living, he may be having a better time but he is not any more prosperous than he was when he spent no money at all. He will have to work all the harder to pay his debt with interest. The boom times based upon borrowed money and paid for with borrowed money may not look so much like prosperity when payday comes.

COMPETITION—A headache for the cotton industry in all its many branches is the strides made by rayon and other synthetic fibers. A quarter of a century ago rayon production in the U. S. A. amounted to ten million pounds. By last year it had grown to seven hundred twenty-four million pounds, the equivalent of one million bales of cotton. There is no telling what it will be after the war. Germany, deprived of imports, clothed its people on rayon—even men's suits were made of it.

Paper has stolen many markets once held by cotton—napkins, tissues, twine, plastics, window shades. Bugging is a field where the newcomer has jostled the old timer. Between 1925 and 1942 cotton's share in the cement bag market was reduced by two-thirds. For the moment paper has a hard time supplying its customers because of war demands and shortages but its research men have devised many new schemes for peacetime trade.

SUSPICIONS—Secretary Anderson announces that between one-quarter and one-third of all farm residents in the nation live on cotton farms. About thirty-three percent of the cash farm income in the entire south comes from this single product. Millions of others engaged in textile manufacturing, transpor-

tion and merchandising will be hurt if king cotton goes broke. Dealers in this commodity also encounter difficulties in trading with liberated Europe.

The new leaders of the governments there do not understand the methods used by our cotton exchanges. The central banks have looked with suspicion on the manner in which our brokers buy and sell futures. New York cotton exchange officials are considering the possibility of launching an educational campaign abroad explaining the functions of the futures market so that central bankers will realize that it is a legitimate business and get a racket run by American gamblers.

GOOD—The food and agricultural units set up at San Francisco within the new United Nations structure should help somewhat in promoting international trade in cotton.

If plans materialize for greater industrialization in the south the program will increase mass income and drain workers from the unprofitable cotton farms. Projects to prevent soil erosion and to encourage diversified agriculture should have the same results.

Research laboratories are bringing out new uses for cotton and new techniques to make it fire-proof, bruiser-resistant and mildew-proof. This is all to the good but southern congressmen, stirred up by their worried constituents, intend to propose various measures to save cotton from the dangers that loom on the horizon.

UNEMPLOYMENT—Science has recently presented several labor-saving devices for harvesting. The inventions will make it possible for American farmers to produce more cotton with less labor. This means more competition. But the innovations will raise both labor and cause severe unemployment.

The new mechanisms will cut in half the man hours needed to produce a bale in the high plains area of the Mississippi delta. Department of agriculture experts say that the use of tractors, mechanical pickers etc., will cut man hours to about twenty percent of the number required under the one mule hand-picking method.

However You Choose Him—

News Behind the News

The National Whirligig

By RAY TUCKER

COTTON—Although there is a pentup demand for textiles which will keep the mills humming for months, southern congressmen are worried. A study of recent reports from the department of agriculture and from abroad convinces them that their section will soon be faced by the most serious economic crisis in its history.

King cotton is in for stiff competition from new local rivals and from overseas countries which now are expanding their crops. Brazil diplomats inform friends here that their state is determined to plant as much cotton as the market will absorb. The Soviet Union through collective farming already is raising more of the white fluff than before the war and it plans eventual exports.

Secretary Clinton P. Anderson says that foreign production is double what it was in 1920. The world carryover is at an all time high. Foreign consumption of American cotton was slashed in half between 1923 and 1929. During the war our exports slowed to a comparative trickle. The only reason why our surpluses did not reach staggering proportions is that war conditions increased domestic consumption and decreased acreage.

Raw products owned by the commonwealth credit corporation and other agencies total nearly five million bales; loan cotton for 1943 and 1944—with title still in the hands of the producers—runs into two million additional bales. Dixie politicians know that these big carryovers mean financial trouble for their constituents.

UNEMPLOYMENT—Science has recently presented several labor-saving devices for harvesting. The inventions will make it possible for American farmers to produce more cotton with less labor. This means more competition. But the innovations will raise both labor and cause severe unemployment.

The new mechanisms will cut in half the man hours needed to produce a bale in the high plains area of the Mississippi delta. Department of agriculture experts say that the use of tractors, mechanical pickers etc., will cut man hours to about twenty percent of the number required under the one mule hand-picking method.

The big owners will profit by the new machinery. The little fellow cannot afford the costly changeover; most of them now are barely able to scrape out a living. Unrest is bound to follow and add to the excitement of the 1946 and 1948 political elections.

The federal allotments this year are \$73,000 above last year's apportionment. The 25 percent additional state contribution will make \$1,180,000 available for the program this year.

Michigan's grant of \$51,202 is the largest this year, followed by Texas with \$45,430.

I think the managements of our broadcasting systems will agree that by and large, the public receives over the air not necessarily what it wants, but what it doesn't complain about.—Paul Porter, chairman, Federal Communications Commission.

COMPETITION—A headache for the cotton industry in all its many branches is the strides made by rayon and other synthetic fibers. A quarter of a century ago rayon production in the U. S. A. amounted to ten million pounds. By last year it had grown to seven hundred twenty-four million pounds, the equivalent of one million bales of cotton. There is no telling what it will be after the war. Germany, deprived of imports, clothed its people on rayon—even men's suits were made of it.

Paper has stolen many markets once held by cotton—napkins, tissues, twine, plastics, window shades. Bugging is a field where the newcomer has jostled the old timer. Between 1925 and 1942 cotton's share in the cement bag market was reduced by two-thirds. For the moment paper has a hard time supplying its customers because of war demands and shortages but its research men have devised many new schemes for peacetime trade.

SUSPICIONS—Secretary Anderson announces that between one-quarter and one-third of all farm residents in the nation live on cotton farms. About thirty-three percent of the cash farm income in the entire south comes from this single product. Millions of others engaged in textile manufacturing, transpor-

tion and merchandising will be hurt if king cotton goes broke. Dealers in this commodity also encounter difficulties in trading with liberated Europe.

In Hollywood

By ERSKINE JOHNSON

NEA Staff Correspondent
HOLLYWOOD—Plans are afoot to film the saga of Gen. Douglas MacArthur from Corregidor to Tokyo. The title will be "I Will Return." And don't be surprised if Spencer Tracy is cast as MacArthur.

You've probably heard about Bing Crosby's fight with his radio sponsors. He says he's tired of broadcasting every week and would like to spend the time with his wife and family. But here's the lowdown: Bing is trying to break the contract because of high income taxes. The crooner was paid \$250,000 for his radio warbling last year. But along with his film and record salaries, the radio show netted him only \$1500. As Bob Hope says, Bing doesn't pay income tax. He just calls up Washington and says, "Well, boys, how much do you need?"

Frances Langford, sweetheart of World War II, says she will continue entertaining the armed forces. She made the pledge while singing at an army hospital in Brigham City, Utah. One of the patients, who had left both his legs on a Pacific island, got out of his wheel chair and danced a few steps with Frances on his new artificial limbs. Said Frances: "Seeing that boy dance on courage was one of the bravest sights I've ever seen. It convinced me that my work for these boys has only just begun."

ANNE BAXTER UNDECIDED

Anne Baxter will not make up her mind about marriage until after the return from the air transport command of Richard Deer, head of her new artificial limbs. Said Frances: "Seeing that boy dance on courage was one of the bravest sights I've ever seen. It convinced me that my work for these boys has only just begun."

Maureen O'Hara dies on the screen for the first time in "Sentimental Journey." But she comes back in ghost form frequently to confer with Connie Marshall, her adopted daughter. . . . Linda Darnell has decided to remove a few extra pounds.

She is the best bet so far for Catania in "The Captain From Castile."

SOFT ROLE FOR ETHEL

Ethel Barrymore gets the softest role of her career in RKO's "Some Must Watch." She plays a bedridden invalid throughout the picture. . . . Van Heflin will play the role of "California."

Ladd bowed out of Paramount's "California."

Dennis O'Keefe has turned writer, with one studio taking an option on his comedy-mystery story, "Beat the Rap." . . . Fay Bainter, after an absence of 15 years, is planning to return to the New York stage.

The postwar movie-going public is already registering its box office preferences for musicals and mysteries. . . . Hollywood has discovered that Cole Porter is as good a businessman as he is a musician. Not content with profiting on the film story of his life, the composer has "hired out" two of his horses for roles in a new picture.

Mrs. Kittridge faltered. "She'd been out without a coat; she had a chill. I—I didn't want to disturb the whole household." . . . "That's unfortunate." The two words were a lash.

Gracie Reports

By GRACIE ALLEN

Consolidated News Features
Goodness knows I've heard enough lately about postwar inventions and problems but I didn't expect any postwar cattle rustling.

George says it's probably because of the beef shortage, and he explained cattle rustling meant stealing cows. He also hinted that he guessed they call it rustling because the thieves make a rustling noise like a bale of hay and the hungry cattle follow them.

It seems to be a cow is a very unhandy thing to steal. You can always buy stolen money in the back yard, but if you tried that with a cow, the board of health wouldn't like it. And I'm sure the cow wouldn't either.

I offered to buy George a sheriff's outfit, cowboy style, so he could call himself "Creeping Barr" and go after the rustlers. He said it was beneath his dignity to notice that kind of a remark.

Joins made with animal glue have a tensile strength of more than 5,000 pounds per square inch—twice as strong as wood itself.

THE STORY OF THE ATOM

(1) U-235, the form of uranium which can blow itself up, soon became the most important and one of the rarest substances known. Scientists knew if they only could isolate enough to cover the head of a pin they could make a real demonstration of the enormous energy inside the atom. Dr. Alfred O. Nier at the University of Minnesota was credited with isolating the first tangible quantity.

(2) General Electric's research laboratory at Schenectady, N. Y., started work on the problem. There scientists

were able to isolate U-235 from common uranium at a rate of 1,036 milligrams of a gram every 10 days. At this rate, it would have taken nearly 12,000,000 years to extract a pound. At Stockholm, in 1940, Prof. Wilhelm Krasney-Ergen developed a process that could produce it 12,000 times faster—or one pound per thousand years.

(3) Atomic fission was a comparatively simple operation if the materials could be made available. It could be accomplished by mixing powdered

Peter Edson's Column:

By PETER EDSON

FIGURES SHOW CRIME RATE GOING UP

NEA Washington Correspondent

WASHINGTON—Possibility that the United States may be entering a period of higher crime rates than in recent years is admitted by the federal bureau of investigation. This alarming prediction is based on a study of U. S. arrests for the first six months of 1945 as compared with wartime and prewar crime statistics gathered by local sheriffs and police officials, then tabulated and analyzed by the FBI.

The new up trend in crime runs counter to a general down trend from 1931 to 1944. Most of the reductions in crime were noted during the first part of the 14-year period, but the decreases were substantial in every classification except rape—which has risen 110 percent—assault and larceny, which rose, respectively, 31.2 percent and 9.9 percent. Robbery and auto theft, on the other hand, went down over 40 percent.

Comparing the record for the first half of 1945 with the first half of 1944, however, shows an increase in every type of crime except involuntary manslaughter, such as deaths in auto accidents. Removal of gas rationing restrictions in the last four months of the year naturally may be expected to show an increase in this category, too.

Murders were up 4 percent to 1370 in the six months period. Rape was up 9 percent to 3181, an all-time high. Robbery, assault and burglary were up 10, 11 and 12 percent.

CRIME INCREASES AMONG TEEN-AGERS

As the crime rate has gone up, the criminal age has gone down. This trend, to which FBI Director J. Edgar Hoover repeatedly has called attention in discussing juvenile delinquency, can be traced directly to wartime conditions. It was not expected, however, because the armed services took in large numbers of men in the 18 and 21-age group. That ordinarily would be expected to reduce the number of crimes committed by those under 21.

The surprise came in that 17-year olds promptly moved in and took over the place in criminal records formerly occupied by older youths. This new reduction in age level of offenders points up the possibility of a still greater teen-age crime problem than before the war.

It is not to be held against him. That's one of the things we fought a war for.—Pittsburgh, Pa., Press.

A-BOMB LEGISLATION

WASHINGTON, Sept. 13.—(P)—Chairman Sumners (D-Tex) of the house judiciary committee has introduced legislation providing the death penalty for divulging atomic bomb secrets to foreign powers.

If a man is an American, he deserves to be treated as an American. His ancestry is not to be held against him. That's one of the things we fought a war for.—Pittsburgh, Pa., Press.

Hearts Bleed Longest

by Denis Hume © 1945, NEA SERVICE, INC.

XVI

JUST then Dr. Lacey came noisily down the stairs. His eyes were burning. "She was trying to reach the phone to call me," he said. "I got that much from her." Mrs. Kittridge, flinched back from the anger in his face. "Why in heaven's name wasn't I called hours ago? You must have realized the importance of it."

Mrs. Kittridge faltered. "She'd been out without a coat; she had a chill. I—I didn't want to disturb the whole household." . . . "That's unfortunate." The two words were a lash.

Brook pressed forward. "You mean—she is really ill!" Lacey snapped his words. "What in hell do you suppose? Where's the phone? That's what I might have been able to do something. Now I can't; she'll lose the child."

"Dear God!" It was a hoarse whisper from Hildreth. But Mrs. Kittridge stood as if she had been struck a blow which had stunned her and from which presently she would fall. Color washed out of her face; her eyes, enormous and terrified, sought her son. She fumbled stupidly for words. "But I didn't know—I didn't know . . ."

Dr. Lacey did not answer; he reached for the telephone. "Brook had not spoken. He seemed beyond speech. In utter silence he was looking up the stairs; now in utter silence he started toward them.

"Brook," his mother cried. "Brook, you can't go up there. Not now, like this. You haven't even your genes." She tugged at his sleeve, "Brook . . ."

He put her aside. He said five words, so fraught with purpose that she quailed. He never took his eyes from his goal. He said, "Get out of my way." There was a pounding clamor to his ascent of the stairs; his hands tore at the banister as he jerked himself up step by step.

He was beside her then, on his knees by the bed, his tortured face turned to her own. He was saying over and over, utter denunciation of himself in the words, "Thayer, Thayer—what have I done to you? What have I done?"

She was crying weakly, soundlessly. She said, "Brook—I wanted the baby. Brook, we can't have this one . . ."

Lying there, wracked by pain and exhaustion, she knew too a sort of ecstasy that was above

World Today

By DEWITT MACKENZIE

AP Foreign Affairs Analyst

MacArthur's grim-mill is grinding finer and faster—an encouraging circumstance, since studied speed is vital. The situation in East Asia as a whole is dangerous—and Japan is the focal point of the infection. It will require both a droll and quick handling to forestall an epidemic of discontent, and anti-western animosity, in the various countries. For while Japan is the main source of the evil which has descended upon that part of the world, yet because the Allies are now in control they will get the blame if the disorganization isn't righted speedily.

MORE WOMEN RUN AFOUL OF LAW

There was an 8 percent increase, to 44,000, in the number of women's arrest records examined by the FBI in the first half of 1945. This is one arrest in every six. The age pattern of arrested women differs from that of men, most women criminals being from 18 to 22, each of these years showing a fairly even distribution of from 2500 to 3000 arrests. As compared with the first half of last year, 1945 is showing a 60 percent increase in arrests of women for robbery—their most common offense.

For both men and women, it is the repeater that causes the most trouble, indicating the lack of any satisfactory corrective. Of all the arrest records examined, over half show previous arrests. This trend is true even among the teen-agers. Fifteen percent of the 15-year olds arrested had previous criminal records, the figure rising to 42 percent of those 20 years old. This merely accentuates the juvenile problem.

Sociologists can argue themselves blue in the face as to the causes of today's crime trends. One of the most logical reasons seems to be that the number of police officers has gone down by 8 percent from 1942 to 1945. The fewer the cops, the greater the crime-wave.

While the occupation was said to be going well in the Mikado's home domains, reports from other quarters weren't so optimistic. The Japanese high command in China says it may take several months to repatriate the million Jap soldiers there. And Admiral Lord Louis Mountbatten says the Japs in southeast Asia "are finding it very hard to accept defeat and may try to wriggle out of the terms of surrender."

Continued smooth progress in occupation of the Japanese homeland is bound to have a good effect on the Japs in other countries. It was to be expected that they would give some trouble until they had full understanding of their nation's defeat.

Antonio Jose de Sucre was the first president of the republic of Bolivia. Elected for life, he declined to serve more than two years.

He declines to serve more than two years.

Hearts Bleed Longest

JUST then Dr. Lacey came noisily down the stairs. His eyes were burning. "She was trying to reach the phone to call me," he said. "I got that much from her." Mrs. Kittridge, flinched back from the anger in his face. "Why in heaven's name wasn't I called hours ago? You must have realized the importance of it."

Mrs. Kittridge faltered. "She'd been out without a coat; she had a chill. I—I didn't want to disturb the whole household." . . . "That's unfortunate." The two words were a lash.

Brook pressed forward. "You mean—she is really ill!" Lacey snapped his words. "What in hell do you suppose? Where's the phone? That's what I might have been able to do something. Now I can't; she'll lose the child."

"Dear God!" It was a hoarse whisper from Hildreth. But Mrs. Kittridge stood as if she had been struck a blow which had stunned her and from which presently she would fall. Color washed out of her face; her eyes, enormous and terrified, sought her son. She fumbled stupidly for words. "But I didn't know—I didn't know . . ."

Dr. Lacey did not answer; he reached for the telephone. "Brook had not spoken. He seemed beyond speech. In utter silence he was looking up the stairs; now in utter silence he started toward them.

"Brook," his mother cried. "Brook, you can't go up there. Not now, like this. You haven't even your genes." She tugged at his sleeve, "Brook . . ."

He put her aside. He said five words, so fraught with purpose that she quailed. He never took his eyes from his goal. He said, "Get out of my way." There was a pounding clamor to his ascent of the stairs; his hands tore at the banister as he jerked himself up step by step.

He was beside her then, on his knees by the bed, his tortured face turned to her own. He was saying over and over, utter denunciation of himself in the words, "Thayer, Thayer—what have I done to you? What have I done?"

She was crying weakly, soundlessly. She said, "Brook—I wanted the baby. Brook, we can't have this one . . ."

Lying there, wracked by pain and exhaustion, she knew too a sort of ecstasy that was above

World Today

By DEWITT MACKENZIE

AP Foreign Affairs Analyst

MacArthur's grim-mill is grinding finer and faster—an encouraging circumstance, since studied speed is vital. The situation in East Asia as a whole is dangerous—and Japan is the focal point of the infection. It will require both a droll and quick handling to forestall an epidemic of discontent, and anti-western animosity, in the various countries. For while Japan is the main source of the evil which has descended upon that part of the world, yet because the Allies are now in control they will get the blame if the disorganization isn't righted speedily.

International Bridge Planned Over Rio Grande

AUSTIN, Sept. 14 — (AP) — The state highway department said today it now appears that an international free bridge across the Rio Grande between Laredo, Texas, and Nuevo Laredo, Mexico, will be constructed in the "immediate post-war period."

The statement was based on the pending before congress of legislation authorizing the state of Texas to resume negotiations with Mexico toward construction of the bridge.

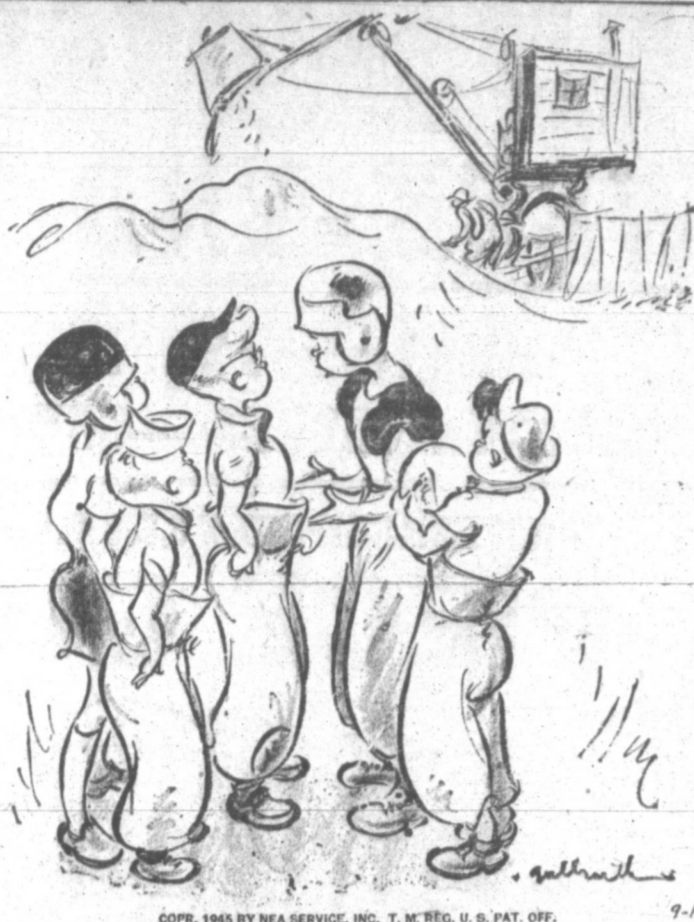

The negotiations were halted by the war, after the state highway commission announced it was interested in opening free access points into Mexico at locations where the state highway system touches the Rio Grande.

A survey just completed by the state highway engineer shows 11 toll bridges, one free bridge and two ferries now in operation. The toll spans, privately operated, are at El Paso, Presidio, Rio, Eagle Pass, Laredo, Zapata, Roma, Hidalgo and Brownsville. The free bridge at Ysleta, is owned and operated by the international boundary commission.

Mexico now has paved roads connecting with the Texas border at El Paso, Laredo and Hidalgo and substantial progress is being made on routes connecting at Del Rio, Brownsville and Eagle Pass.

Market Briefs

WALL STREET
NEW YORK, Sept. 12 — (AP) — Stock market prices generally advanced today after early irregularity.

Steels, motors, rubbers, aircrafts, utilities and selected industrial rose fractions to around 3 points.

Transactions approximated 1,400,000 shares.

Higher near the end were U. S. Steel, Bethlehem, Chrysler, Youngstown Steel, Goodyear, Sears Roebuck, American Tel. and Eastman Kodak—all at new peaks for 1945 or longer.

Bonds were irregularly lower.

US Buys Two-Thirds Of Irish Potatoes

DALLAS, Sept. 13 — (AP) — Two-thirds of the Irish potato crop in the Lubbock-Panhandle-Hereford area since August has been purchased by the U. S. department of agriculture, according to Latham White, regional director of the USDA production and marketing administration.

White said the purchases amounted to \$748,000 for 1,032 carloads. They were made to save the huge Texas crop which is competing with bumper crops in other parts of the country. About half of the Texas potatoes are going into cold storage and into distribution channels in ten surrounding states. White explained.

Summer potato production in the Panhandle this year is estimated at 1,800,000 bushels, against 1,400,000 bushels last year and a ten-year average of 1,200,000 bushels in the area.

Members of 'Lost Battalion' Arrive at New York Airport

By The Associated Press

Texas, recently liberated from Japanese prisoner of war camps have begun arriving in increasing numbers in this country.

Many members of the States famed "Lost Battalion," the 131st field artillery of the 36th division landed at the New York airport yesterday.

Lt. Col. Winthrop H. Rogers of (1665 Ardahan St.) Wichita Falls, one of the returnees landing at New York said Japanese treatment of American prisoners working on railroads represented "a deliberate attempt to murder them by mal-treatment, a starvation diet and overwork."

Lt. Col. Harold Elkin, 43, of (3322 University Drive) Fort Worth, said his outfit, after being captured by the Japanese in Java in March, 1942, was marched to a prison camp in Batavia.

The Japanese guards were cruel and over-bearing, but the Koreans serving in their army were even more cruel, said Elkin.

Ensign John B. Nelson of (1309 Green Ave.) Orange, imprisoned following

O'Daniel Refuses To Comment on Rice Nomination

WASHINGTON, Sept. 13 — (AP) — Sen. W. Lee O'Daniel (D-Texas) has refused to comment on the nomination of Judge Ben H. Rice of Waco as federal district judge for west Texas.

Rice had been recommended by Sen. Tom Connally (D-Texas). O'Daniel had recommended Texas Gov. Coke R. Stevenson. Rice's name was sent to the senate for confirmation by President Truman Monday.

Asked by a reporter if he would raise any objections when the senate judiciary committee meets next Monday to consider the nomination, O'Daniel replied:

"You'll just have to wait and see. The President is the man who makes the nominations. It's for us in the senate to confirm them."

Alabamans Favor New Coast Canal

NEW ORLEANS, Sept. 12 — (AP) — Two representatives of business interests at Mobile, Ala., told an interstate commerce commission hearing yesterday that a proposed canal linking Mobile and Brownsville, Texas, would be a boon to small ports.

The canal line of Houston had asked approval for the use of wartime landing craft and other shallow draft vessels to provide service on such a line.

David Knapp, Jr., general manager of the Mobile Traffic association, said the plan would be advantageous to small ports since cargo would be unloaded at intermediate points along the route. He said the line would provide the answer to Mobile's shipping problem.

W. M. Medor, representing W. M. Medor and company of Mobile, supported the testimony about smaller ports.

New Amendments Bring Changes In Two Branches of Government

AUSTIN, Texas, Sept. 13 — (AP) — Two divisions of state government, the judicial and administrative, are devising plans of operation under new amendments to the constitution.

The supreme court meets Monday to lay plans for investiture of its six commissioners of appeals who become associate jurors of the court by virtue of an amendment adopted in the Aug. 25 special election.

The public welfare board tentatively scheduled a meeting Saturday for a study of the exact meaning of another voter approved amendment placing a \$35,000,000 annual ceiling on state appropriations for public welfare and increasing from \$15 to \$20 the monthly maximum state grant to any one old age assistance recipient.

A third amendment approved by the electorate, a free vote for soldiers and veterans through 1946 and longer in some cases is self-enacting although its exact application may need some interpretation by the attorney general before another election.

Voters rejected a fourth amendment proposing year around pay of \$10 a day for members of the legislature. House and senate members will continue to receive pay only when the legislature is in session.

The official canvass of votes and Gov. Coke R. Stevenson's proclamation of results yesterday gave:

Soldier vote—134,885 for, 38,679 against.

Legislators' pay — 42,879 for, 130,983 against.

Supreme court — 92,114 for, 78,295 against.

Public welfare — 96,959 for, 78,662 against.

About one-ninth of Texas' 1,500,000 qualified voters participated in the election and 18 counties were excluded from the final count because they either failed to conduct an election or forward returns to the secretary of state. The missing votes would not change the result of the election, said Secretary of State Claude Isbell.

Present members of the supreme court, commission of appeals who become associate justices (subject to election when their present terms expire) are J. E. Hickman, Few Brewster, A. J. Pooley, G. B. Smedley, C. S. Blanton and W. M. Taylor. The court already has three elective justices. Hereafter three justices instead of one will be chosen at each general election.

The long pointed shoes of the Middle Ages reached such fanciful proportions that at one time the points were fastened up to the knees with tassels and bells.

Two Texas Cases Involving Freedom of Press Are Set

AUSTIN, Tex., Sept. 13—(AP)—Two Texas cases involving arguments over freedom of the press, receiving national attention, will be heard by the court of criminal ap-

peals early in its new term here, Oct. 3. Tentatively set for hearing on oral arguments that day is a motion for rehearing the appeal of William Prescott Allen, publisher of the Laredo Times, from a conviction of criminal libel. This will be the second oral submission of the case. The Allen conviction originally was reversed by the court of criminal appeals on Feb. 21. Both Allen and the state asked for a rehearing, and the conviction again was reversed on June 20. Allen then filed another motion for rehearing, and it is this application which will be heard early next month.

There have been a number of civil suits charging libel and three criminal libel charges filed against Allen and the Times. Allen said the suits were the result of his published protests over the Rotary club printing the names of Laredo boys in the armed services who were delinquent to the student loan fund of the Rotary club. The names, he said, were printed in the weekly Laredo Rotary publication called "The Gear."

S. N. Johnson, Jr., president of the Laredo Rotary club, said in July that the Rotary club, as an organization, was not filing suit against Allen. He said those filing suit were not using the prestige of the Rotary, but were filing suits individually. Johnson said the incidents which brought about the suits were "the straw that broke the camel's back." He referred to previous clashes with Allen and the Times over editorials, new stories and policies.

Presiding Judge F. L. Hawkins in the opinion of June 20 that the evidence in the case was deemed sufficient to support conviction. He said, however, that the case had

been "generally" submitted to the jury, therefore the reversal. In July Allen went East where he saw officials of the department of justice at Washington, and the American civil liberties union and the American Publishers association in New York.

The civil liberties union in New York asked Gerald Weatherly, Corpus Christi, state president of C. L. U., to represent the union in the case, defending Allen.

Weatherly said he will file a brief and appear in court in Austin. He said this was one of the first C. L. U. defenses in Texas.

Editor and Publisher, weekly journal of the publishing industry, reviewed Allen's trouble with the Laredo Rotary club. The Journal quoted Allen as saying that the Laredo Rotary club members had tried to buy his paper "for 50 cents on the dollar values of the Times."

Editor and Publisher said that this, together with the numerous libel suits, makes it clear that the suing group want to oust Allen from Laredo. The Journal said the case amounted to an attempt to suppress the Laredo newspaper and silence its publisher.

A Chicago newspaper quoted Allen as saying that the civil suits were filed in a conspiracy between citizens and politicians to keep on filing suits until the Times goes broke defending the action or paying damages.

The Corpus Christi case has attracted wide attention.

Conway Craig, publisher of the Corpus Christi Caller-Times; Bob McCracken, managing editor; and Tom Mulvaney, reporter, were sentenced to serve three days in jail for contempt because of news stories of a trial which was held before Judge Browning.

Their attorneys have announced they will submit the case to the appellate court on the question of freedom of the press as guaranteed

OPA Cuts Southern Pine Production

NEW ORLEANS, Sept. 13—(AP)—The office of price administration has passed "the death sentence" on 25 per cent of the production of southern pine. The southern pine industry committee said in a statement following a two-day conference here.

H. C. Breckles, secretary of the committee, said the group had voiced opposition to the recommendation by President Truman that the fair employment practices committee be made a permanent agency.

"The generally recognized and peaceful conditions prevailing in the south and in southern industry would be made a political football," he said, adding that it would "provoke strife rather than eliminate it."

In a letter to members of the industry, Breckles said that "if the administration's policy is one of increased employment, it can be more readily obtained through loosening shackles rather than by placing burdens upon industry."
