DRIVE AREA OUTLINED - Eight zones are outlined which will be canvassed during the Mothers' March Jan. 31, in connection with the annual March of Dimes drive. Although the March lasts one hour — 7 to 8 p. m. — it is the largest single money raising factor in the drive. During the hour, every resident in the county will be asked to turn on his porch light or to burn a light in his window if he wants to make a contribution. Zone chairmen are: Mmes, E. M. Culberson, Zone 1; W. A. Claunch, Zone 2; A. B. Whitten, Zone 3; Arthur Teed, Zone 4; E. L. Biggerstatt, Zone 5; Homer Craig, Zone 6; N. L. Nicholl, Zone 7; and Oscar Redd, Zone 8. In Texas, 150,000 women will take part in the Mother's March, while in Pampa, more than 400 are expected to participate. Any woman wishing to volunteer should contact any of the zone chairmen. 'figured out' what America's oreign policy is. "Our administration is trying to feed half the world, fight half the world, and continue doing business as usual," he asserted.

He declared the high expense of government, resulting in ever increasing taxes, is destroying America's secret weapon which won every war she has fought - the plove to produce.

The progressive incorse tax system is the most socialistic thing I can think of. It robs young men of the opportunity to invest in a business, borrow money to start it, create jobs, and purchase machinery to replace worn out machinery." Vineyard said.

He added that government doles such as unemployment compensation, pensions, and "security" has made many an American lose his desire to work hard and accumulate a reserve for himself to use in days of unemployment and old

In closing. Vineyard laid the blame directly on the shoulders of apathetic citizens, who never have time "to write to, or pray for the only three men who stand between them and the government - their two Senators and Congressman." Citizenship

Members of the League of Women Voters today were preparing for the league-sponsored citizenship meeting to be held at 8 p. m. Thursday in 31st District courtroom.

Principal speech will be presented by Atty. Curtis Douglass who will speak on the duties of citizens and what full citizenship requires of the individual. His talk will include the importance of paying a poll tax or obtaining an exemption.

Representatives of various Pampa civic clubs last week pledged Mrs. J. W. Garman, coters service committee chairman of the league, their support in attempting to build up tendance for the meeting. Following the Pampa attorney's

talk, the floor will be opened for a question and answer period and other remarks from the floor. The citizenship meeting is part of a concerted effort by league to "get out the vote" for

the 1952 elections. Besides working on the meeting, the women have been making door-to-door sales of poll tax applications. Today a poll tax booth was set up in the lobby of the Hughes building. Friday and Saturday two booths, furnished by the Pampa Junior Chamber of Commerce, will be set up in the Citizens bank and the First National bank, and will be manned by members of the

A Real Friend-A Newspaper That is A Frienc I want to quote the best statement I ever read describing what

means. This is what Horace Smith "A real friend is one who will

tell you of your faults and follies in prosperity, and assist you with his hand and heart in adversity.' Now, to me this means that a real friend will not only tell you when you are wrong, but he will tell you what moral principles you We believe that one truth is al-ways consistent with another plain to you how violating a natural law and moral principles will be harmful to you and to the very eople whom you want to help. If he is a real friend he will

try to make it so plain to you that you will understand the moral laws you are violating. It does little good to just tell a person you think he is wrong without getting him to understand why he is wrong and the moral principles that should govern everyone's life. The real reward for being hon-

I don't like to be banging away on one subject too often, but fluoridation of city drinking water, with its un-American compulsory medication angle, is fast growing into a major issue throughout the nation, if the correspondence I receive is any indication. The matter is being brought up in city after city, sometimes being defeated, sometimes passed.

BAXTER

The thing is dangerous. If the precedent for medicating water ecomes established, there's no telling how far it can go. Every crackpot with a mania for chemicalizing other people will join the pack with loud yelps of joy and insist upon dumping his chemicals into your drinking water to cure you of something he thinks s wrong with you or prevent your being exposed to some new-fangled

germ he's thought up. In this connection I'm more than glad to see so many people in various areas arming themselves with factual information and documentary evidence by way of combating the fluoridators, either over the issue having already arisen in the old home town or in preparation for it when it does come up-

Mrs. Marion E. Lyon, 415 South Main Street, Geneva, N. Y. has one of the best sources of documented information I've come across thus far.

Mrs. Lyon has evidently spent a lot of time accumulating facts, facts and more facts-not just someone's opinion. She has gleaned these facts from almost every conceivable source, from M.D.s, from prominent dentists, from chiropractors, from chemists and others. She has the latest and the best-enough ammunition to blast the fluoridators to purgatory and back and to refute every argument they can advance. This ammunition should not be left in her arsenal. It should be carefully distributed among her fellow-soldiers fighting against poisoned waters so they can take pot-shots at the enemy wherever they find

This lady is methodical. After getting all her facts and figure together, she carefully placed them together, condensed them as much as possible, and filled 12 typewritten pages with them. She nas mimeographed copies and is sending them to persons interested n the subject.

Since the printing and sending of this information must have put Mrs. Lyon to considerable cost, would suggest that interested parties, when writing to her, en- and found three close a small contribution or postage costs.

I have now provided readers with three excellent sources of information on the fluoride quesinformation on the fluoride question: Dr. F. H. Seubold, of Fort Smith, Arkansas, the CHALLEN-Bloom and a blooming pink GER, 421 North Main St., Houston, Texas and Mrs. Lvon. It is high sources to meet the queries of many people who write to this column for information. We are apt to have fluoridation from coast to coast if some kind or co ordination of the opposition is not

affected.
The big issue, of course, is, "Am I my brother's keeper?" helper? Those who presume to know better what is good for you than you yourself know always insist upon being your keeper and dosing you with what they think you should be dosed with. Theother side does not believe in compulsory practices and seeks to help, Personally, I go on the prind-

ple that, as a free being created God and given inalienable rights, I am competent to run my own affairs and decide what kind of treatment I want or do not without having some selfappointed "keeper" doing my planning for me and attempting to own my soul and body, from the cradle to the grave. I'm strong for the Declaration of Independence and that needs no definition. It is on this basic issue that I take a firm, unrelenting stand for prosecuting on a trumped-up "sedition" charge, of which I was acquitted, simply because I wrote foreign policy, has given me a personal experience
