Accuses Him Of Injecting 'Red Herring' In Hearings

WASHINGTON — (AP) — Senator Taft (R-Ohio) today accused John L. Lewis of injecting a "red herring" into Senate hearings on mine safety.

Lewis hit away yesterday at what he called "Bob Taft's slave statute."

Rush To Pay Poll Tax Is Due Tomorrow

Poll tax payments, exemptions and transfers slipped to 6:59 p. m. today, records in the county tax office disclosed.

The big rush to pay poll taxes is expected to be tomorrow, the last day, tax officials said.

The five-hour by 11 a. m. today, gave this picture: 5084 known poll taxes paid up to 5 p. m. yesterday, 970 exemption certificates issued by 10:30 a. m. today.

Lewis said the safety committee "have no further powers" beyond recommending that mine owners follow state or federal recommendations.

Mayor Huff Proclaims 'March' Day

Mayor C. A. Huff today proclaimed Thursday "Mothers' March on Polio" day in Pampa.

In making the proclamation, he stated the Mothers' March "will prove one of the finest manifestations of the depth of our concern for the health of youth."

The march will last one hour, beginning at 7 p. m. It is considered the largest fund-raising drive of the National Foundation for Infantile Paralysis.

During the march, 400 volunteers will seek contributions at homes which have light bulbs, signs on porches or in windows.

Huff urged all Pampans to turn on their lights and give to the fund "which will carry on the great work made possible by the March of Dimes."

Clifton Evans, Gray county chairman of the drive, today set the following challenge to Leon Klupp, Potter county chairman.

Gray county is within striking distance of having County total \$50,000 and our Mothers' March is tomorrow. Tired as I am I want you ride tires and foam rubber seats on that wheelbarrow.

Goal for Gray county is \$15,000.

Highway System History Is Given On Rotary Program

The history of the state highway system and problems of the State Highway department were told to Rotarians today noon by Judge Sherman White.

Judge White spoke in connection with State Highway week, now being observed.

He told his audience some of the most pressing problems facing the State Highway Dept. today are those of satisfying farmers who want farm-to-market roads paved, paying state highways and replacing or revamping highways that have become worn out under present-day heavy traffic.

Guests at the meeting were introduced by Rev. Henry Tyler.

TODAY, I AM A VOTER — Three of the "first voters" group attending the coming of age party given by the League of Women Voters last night in the city club rooms, light 21 candles on the large birthday cake. Constable Charged In Assault Case

A charge of aggravated assault was lodged against Constable Bill Waters following a fracas in a local tourist court Friday night when one man was seriously injured.

Langley, according to the complaint, is charged with hitting E. E. Lambright, manager of Parker Tourist Court No. 2, west of Pampa, with his fist and "inflicting serious bodily injury" on him.

Waters said Langley indicated yesterday he would enter a plea of "not guilty" to the charge, after the two discussed the alleged fight in Waters' office.

The county attorney, after questioning Lambright, said the fight resulted over the payment for a cabin Langley and another man wanted to rent Friday night.

Waters quoted Lambright as saying Langley hit him on the jaw without warning when the argument was under way.

Although the constable was not placed under arrest, Waters quoted him as saying he would appear on his own recognizance to enter his plea of not guilty and post whatever bond he would be placed under by County Judge Bruce Parker.

County Will Pay City \$1124 For Making Rural Fire Calls

A check for \$1124.50 will soon be paid to the city by the county for rural fire runs made last year by the Pampa Fire Dept.

County commissioners yesterday voted to revert to the old rate of \$20 per run plus \$5 per mile up to 10 miles.

The new rate came during a special county commissioners court session following an earlier joint meeting with the city commission.

Commissioners last year voted to cut departmental rural fire calls because it was costing the county too much. Faced with the possibility of losing fire protection for Pampa if the rate was not increased to at least its old level, commissioners rescinded last year's order and returned to the old rate. They also agreed to pay the additional \$1124.50 because the city had not been notified that such action was contemplated.

During the same session commissioners agreed to hire an additional technician at Highland General hospital to handle military and other health department needs. One-half of the technician's salary will be paid by the hospital, one-quarter by the county and the remaining one-quarter by the city.

Rally Held To Promote Dimes Drive

A plea for generous contributions to the March of Dimes when the Mothers' March culminates the Gray county drive Thursday night was made at the Mothers' March rally last night in Junior High auditorium.

Rev. Edgar Henshaw, principal speaker, said: "Mothers are soldiers going to gather ammunition to go to the front and defeat this crippling enemy—polio."

Rev. Henshaw lifted his address, "790 Million Dimes," which he said was the amount spent by the national foundation in the past four years for medical attention alone. Research and administration was included in that figure according to the speaker.

Purpose of the March of Dimes was explained by Clinton Evans, local drive chairman. He said the Mothers' March originated in Phoenix, Ariz., and in the past resulted in the largest total contributions of any drive programs. He said the march is to begin at 7 p. m. Thursday and is to end at 8 p. m. All houses with porch lights will be called on during that time by the mothers who have divided the city into zones. Mrs. Ruth Nensel is Mothers' March chairman.

The 589th Air Force band of Amarillo Air Force base was a featured attraction. Ray Morris sang a solo and Tech Sgt. Wilford Beck played abaritone solo. The band, under the baton of Sgt. Beck rendered a variety of classical, popular and martial numbers.

Special guest, Roy Norvell, McLean, presented 10,000 dimes to Rev. Henshaw, chairman of the Gray county chapter Infantile Paralysis foundation. Roy was stricken by polio in July, 1950, and is still in a wheel chair.

Six-year-old Sandra Kay Milford, also a polio victim, was carried onto the stage by Henshaw and presented as another special guest.

Master of ceremonies was Kay Fancher of Radio Station KPDM.

McClellan Dam Report Says Interest Shown In Capital

Twelve members of the McClellan Lake Improvement committee today discussed past and future plans concerning the repair of the McClellan dam which was damaged during floods last spring.

The committee, which met at noon in the Schneider hotel, heard S. S. Vineyard, E. O. Wedgeworth, both of Pampa, and Rex Baxter, Amarillo, explain their progress in raising funds to rebuild the dam during a recent trip to Washington, D. C.

Baxter stated it would be impossible to obtain government funds during the 1951-52 fiscal year through the regular budget but that money may be obtained through a supplemental bill. He explained that the greatest stumbling block to the bill before it reaches Congress probably will be in the Bureau of Budgets.

Vineyard, chairman of the committee, said all people contacted in Washington seemed to be interested in the project and that the budget bureau has requested more information in addition to asking the Agriculture department for aid in solving the problem.

A letter from Congressman Walter Rogers by Wedgeworth stated the greatest asset available in obtaining approval to the supplemental bill is the potential damage claim against the government stemming from the damaged spillway. "All intentions in Washington are serious in providing the \$450,000 for repairs," he said.

To date, \$2279.50 has been collected in local areas concerned for rebuilding the spillway. Of this, \$1144.18 remains after payment of expenses used in promoting the project.

A Good Neighbor Seldom Gets Credit

A good neighbor is usually one who rarely receives any public acknowledgment of his or her good deeds. There is little credit given them, because a real "good neighbor" works in such a way as to do the most good and to receive the least amount of credit.

But a good neighbor deserves credit.

If you know of a person whom you would consider a good neighbor, write a letter of 300 words or less to the Good Neighbor Editor, Pampa Daily News, telling why this person should be nominated the good neighbor. Letters must be in by Feb. 16 and no person employed by The News or radio station KPDM is eligible.

Prizes of \$50, \$25, \$15 and \$10 will be given to the top four letter writers. The good neighbor contest is being held in connection with the forthcoming "Get Acquainted" week here.

## President's Budget Furnishes Businessmen Food For Thought

**By GAYLE TALBOT**  
**NEW YORK (AP)**—Freddie Corcoran started just like all other boys brought up in Boston, carrying golf clubs for Francis Quinnet, and now his home is Irish game peers from a five-color liquor advertisement in one of the current slicks.  
 Freddie now is a man of distinction, right up there with the big game hunters, the arctic explorers and the members of state society's upper drawer. It is a richly deserved reward and one long overdue.  
 It is possible that Freddie would have been tapped earlier were it not for his one serious weakness. He has always thought that Ted Williams was a better ball player than Joe DiMaggio. With Joe now retired and Ted going into the service, members of the selection committee probably figured Corcoran would be less likely in the future to enter long arguments on the topic.  
**BUILT PGA**  
 The only ones who might view Corcoran's accession with mixed feelings are the professional golfers. It was Freddie who made them what they are today. He built up the rich winter circuit to where a player who can't win say \$200 during the cold months feels he's a failure in life.  
 A jealous, ambitious group among the PGA finally managed to give Freddie the old heave-ho since he was regretting it ever since. What they didn't know, or appreciate, was the fact that their so-called employe habitually spent more money on long-distance telephone calls than the total of his expense allow-ance.  
 Corcoran owns an automobile agency in Boston and loves to talk over vast distances on the telephone. The picture in the magazine doesn't show Freddie in distant converse, but it should.

his compartment by 7 a.m. Freddie got enough of it. "I got to thinking," he said once, "what could they do if I didn't get up? So I called their bluff."  
 A considerable silence followed the remark. Freddie looked distinguished, and someone started to change the subject. But one hardhead insisted upon knowing what had happened.  
 "Why?" said Corcoran. "It's sickens took me out in the yard and it took me \$3 to get back to town."

### Drive-In Library Planned In Beaumont

**BEAUMONT (AP)**—A "drive-in" branch library in a municipal park is planned here for the city's Turrell public library.  
 Parking problems at the downtown library prompted the move. Mayor Otto Zimmerman explained patrons wouldn't be able to drive up to the desk and check out books, but their parking problems would be minimized.  
 Zimmerman said the drive-in would be ready for use about May 1, and two other planned branches about Aug. 1.  
 The St. Louis Browns have been in the American League since 1902 but have won only one pennant. That happened in 1914.

### Sentenced To Die

**DALLAS (AP)**—Judge Henry King sentenced Booker T. Reed to die in the electric chair after the Negro claimed yesterday that his trial last July was a "bum deal."  
 Reed, an ex-convict, was convicted of the murder of Hoyt Austin Lovelace, Dallas engineer, whose ax-hacked body was found in Reed's cabin.  
**CHILD DIES OF PILLS**  
**ODESSA (AP)**—William Alton Rogers, Jr., 2, died yesterday after taking restful pills he found in the family medicine cabinet.

### Dallas Voters Turn Down Bond Issue

**DALLAS (AP)**—Dallas voters who went to the polls Tuesday to vote on a \$19,195,000 bond issue could claim distinction today.  
 They turned down a Dallas bond improvement program for the first time in history.  
 Seven bond issues were voted down by approximately a 7-5 margin. A charter amendment, aimed at increasing the city's borrowing power, was declined by a 3-2 vote.

## Official Announcement Reveals Russia's 1951 Industrial Production

**MOSCOW (AP)**—The Soviet Union officially announced Tuesday its 1951 industrial production was 16 percent higher than in 1950.  
 At the same time, the general income of workers and peasants increased by 10 percent during the year, said the annual communiqué of the central statistical administration.  
 Industrial production as a whole exceeded the 1951 state plan by 3.2 percent, it said, although three branches fell short of their goals. These three, which the communiqué said were the only laggards, were timber (94 percent of its quota), cotton growing (97.7 percent, and railway (98.1 percent).  
 The communiqué stressed that the Soviet Union successfully increased the production of such basic materials as steel, coal, oil

### Farmers In Good Shape Says Speaker

**DALLAS (AP)**—The farmers of the United States are in the best financial condition in history, hardware and implement dealers were told.  
 Dave Livingston, speaking before the Texas Hardware and Implement Dealers Assn., said U.S. farmers owed their creditors 12 billion dollars before World War II. That figure has been cut in half, the Washington, Iowa, speaker said, and now the farmers have 18 billion dollars in the banks.

As I explained in an earlier chapter, I rushed it to the best typewriter hospital in Paris, paid in advance for a private room, and told the staff to spare no expense in restoring its health. They put it in an oxygen tent, shot it full of penicillin, provided it with day and night nurses, and kept its room filled with freshly-cut flowers. All to no avail. My typewriter failed to rally and passed on to where all good typewriters go.

For a while I tried using a public stenographer, but when she broke out in a rash from trying to understand my French, kindness caused me to dismiss her. The day her eyes got glassy during the third paragraph I let her go with a courtly, "Ooo-la-la, 'Bon voyage,' and a stirring chorus of the 'Marseillaise.'"

Then I rented the machine I am using now. It is more international than Mrs. Roosevelt. It is a United Nations typewriter. It has gadgets on it that would confound a jet pilot. The keyboard is the most amazing part of this typewriter I have rented. Over each letter are smaller symbols which look like nothing so much as they do chicken tracks. For example, I

## MEMO TO ADVERTISERS

# Questions and Answers about Newspaper Advertising

- Q. Do you know of any measure for the value of newspaper circulation to an advertiser such as the standards that a business man uses in buying merchandise?**
- A. Yes.** In the well-known standards that have been approved and adopted by advertisers—namely A.B.C. standards.
- Q. What is A. B. C.?**
- A. A.B.C.** stands for Audit Bureau of Circulations, a cooperative association of 3300 advertisers, advertising agencies and publishers in the United States and Canada.
- Q. What is the Bureau's work?**
- A. To audit** the circulation of newspaper and periodicals so that advertisers can buy space on the basis of definite standards and verified facts and figures.
- Q. How does A. B. C. accomplish this?**
- A. The Bureau** has a large staff of experienced auditors. They visit the publisher members periodically and make audits of their circulation records. This information is then published in A.B.C. reports for the use and protection of advertisers.
- Q. What do these reports show?**
- A. A.B.C. reports** tell how much circulation a newspaper has, where this circulation is, how it was obtained, how much people paid for it, and many other verified facts that advertisers should know when they buy advertising.
- Q. Are all publications eligible for A. B. C. membership?**
- A. No.** Only those with paid circulation. This is important to advertisers because it is the best proof of interest and purchasing power on the part of the readers.
- Q. Is this newspaper a member of the Audit Bureau of Circulations?**
- A. Yes.** We are proud of our circulation and we want our advertisers to know just what they get for their money when they advertise in our columns. The audited information in our A.B.C. report gives them the complete facts.

# Harvesters Hoping For Sweep Of Week-End Games

The Hustling Harvesters hope for a double victory Friday and Saturday night over the district's southernmost fieldhouse. The Harvesters squawked by cage teams this weekend, when both of them three weeks ago they host the San Angelo Bob-cats on the Concho, beating the cats and Abilene Eagles in that Bobcats, 54-43, in a fast game

## WARREN'S ARMUP

By Warren Haeve—News Sports Editor

QUESTION: What fighter had the most contests in his ring career?

ANOTHER CHAPTER IN THE case of Keith "Suitcase" Lane, the reportedly much sought - after center of last year's Borger Bulldogs. Harry Gilstrap, sports editor of the Amarillo News, has brought forth the information that Lane had become ineligible scholastically at Wayland College and that his running mate, Junior Brooks, was just barely eligible.

Now, Joe Kelly, sports editor of the Lubbock Avalanche, picks up the ball from there, reporting on the two boys announcements that they had been invited to Oklahoma A&M to play.

Says Kelly: "Coach Polk Robison of Texas Tech said Thursday night that he didn't believe Iba had asked him to return, or would accept him if he did enroll. 'Shoot,' said Polk, 'Iba's not the type who would take him. I'm certain in my own mind that Iba never asked the boy to return to Oklahoma A&M. What's more, he wouldn't play him if he did enroll.'"

"Coach Harley Redin (Wayland College), for whom a lot of people were shedding tears, wasn't unhappy about the departure, strangely enough. We talked with him the night Texas Wesleyan beat the Pioneers in Fort Worth.

"The spirit of the squad actually is better today than it was," Harley declared. "Lane wasn't helping us much."

"Redin felt worse about Brooks leaving than he did about Lane. Brooks was a victim of circumstances, Harley stated. He idolized Keith and thought he could do no wrong. It hurt him in the long run. "Yes, Lane's attitude wasn't what it ought to be and the squad has better spirit today. I can honestly say that I don't think we'll miss him and that we're better off today than we were. I have a fine bunch of boys and they're going to be inisting all the way."

"Thus ends another chapter in the case of a great college prospect, who, by his own admission, became so confused by a multitude of offers from colleges, that he may wind up a tramp athlete and not play anywhere.

The Brooklyn Dodgers missed the boat. A stamp at the Post Office commemorates Washington, because so confused by a multitude of offers from colleges, that he may wind up a tramp athlete and not play anywhere.

It was strictly a personal matter with Tech officials. Redin was permitted to play against West Texas State at Canyon, Hardin-Simmons at Abilene and Texas Western at El Paso.

Redin was the outstanding player and leading scorer when Tech lost to Arizona in Tucson two weeks ago.

Personally, we would like to see Arizona forfeit the game rather than have such discrimination shown against a member of its team. Such action has been taken in the past by ballclubs with colored players.

This column can't uphold the action taken by the Tech officials, especially in the light of moves made by the Dallas Texas team and the Dallas Eagles ball club in the past few days. Both of those clubs announced they would play Negroes.

The action by Texas Tech is contrary to the Constitution of the United States. International Baseball League has recently made a move to help promote Negroes in baseball. The league, composed of teams from Yuma, Las Vegas, El Centro, Mexicali and Tijuana, voted to support a travelling team of Negro players within the league.

The players will be selected from a school for Negro players which will be set up by the league. The players will be furnished a bus, and pay the play-

that was really never secure, and beating the Eagles, in a rough contest in the Eagle's Nest the next night, 54-52. That is the lone defeat on the Eagle's fine 5-1 record, which includes a win over the Borger Bulldogs, lone conquerors of the Harvesters through the first half of the round-robin schedule.

SIX GAMES LEFT Only six more games remain on the Pampans regular season schedule. They include three road games, at Borger, Lubbock and Odessa.

San Angelo will bring with it an offense designed solely to let one player shoot. It is a rolling offense that ends up with a screen for lefthanded Bill Warwick to fire over, and he has done so very successfully thus far in district play. In fact, he has become the district's second highest scorer with 102 points. Aiding him in the scoring department is a husky, 6-4 center, Bob Harris, who has tallied 80 points thus far. The third highest tallier on the club is 5-11 Delnor Poss, who has hit 57 counters. The Bobcats have been bothered by illness to their two starting forwards, Delvin Guess and Jimmy Reed, but both will be ready for Friday night's contest at Odessa.

In addition, the Cats have been bolstered by the return to eligibility of 6-6 Jerry Jones, who was out the first semester due to scholastic difficulties.

EAGLES DIFFERENT Abilene's a different type of ball club. The Eagles have played a pressing defense all season, forcing the opposition all over the court, making a rough game of it. This has caused them to bring much consternation to all but one club, the Harvesters. And for a while it was the Green and Gold in their previous meeting.

Much of the Eagles' scoring power comes from the fast-breaking guards, Joe Youngblood and Tommy Estes. Estes has hit 73 points and Youngblood, 66. But the team's leading scorer is 6-2 forward Jerry Turner, with 77 counters.

Jake Bentley's crew was expected to be one-year away from greatness this season. But the junior ball club has come along plenty of headaches before the second half of the schedule is completed. Before meeting with the Harvesters on Saturday, the Eagles met Borger in the Bulldogs' back yard Friday night.

Tickets for both games are now on sale at the school business office in the city hall. Only one more home game is on the schedule after the weekend, that against the Amarillo Sandies on Feb. 10.

## Maxwell Named As Amateur Of Year

DALLAS (AP) — Billy Maxwell, the National Amateur golf champion and the top coach of the year in Texas, will be honored tonight at the annual sports achievement dinner of the Dallas YMCA.

Maxwell was selected by the Texas Sports Writers Association as the amateur athlete of the year. He edged Larry Isbell, Baylor's great football and baseball player, by two votes.

L. R. (Dutch) Meyer of Texas Christian, senior college coach of the year; Max Bumgardner of San Angelo, junior college coach of the year; Pat Pattison of Lubbock, high school coach of the year, and Maxwell will be honored guests at the dinner expected to attract about 500 persons.

Dallas county coaches and athletes of the year also will be honored. The coaches are Jim Riley of Woodrow Wilson High school, Dallas; Tom Pruet, Grand Prairie High school; Waymon Wilson, Pleasant Grove High school, and Bill Lallicker, Wilmer - Hutchins High school. Their teams won district championships in Classes AAAA, AAA, AA, and A respectively last football season.

Sponsor Ivan Noblit of the Chiefs has promised his cagers a quail dinner after the game with the Am-Jets tomorrow night. Remember hard-luck umpire, Leonard Roberts? He received several painful injuries that kept him out of action parts of each of the last two seasons. He's been umpiring in Panama and just recently recovered sufficiently from a serious illness to be permitted to fly home. Bad luck is still dogging him.

Somewhere in this area there must be somebody in the sports world worthy of being nominated as the "good neighbor." If you know of such a person, drop a letter about him or her to the "Good Neighbor Contest" in care of The Pampa News. We can think of several candidates.

ANSWER: Abraham Hollander-sky, known as Abe the Newsboy, within the league. He engaged in 1,200 fights and 387 wrestling matches between 1905 from a school for Negro players which will be set up by the league. The players will be furnished a bus, and pay the play-

## Am-Jet Talent Scheduled For College Career Soon

One fellow you want to be sure and watch when the Am-Jets meet the Noblit-Coffey Chiefs tomorrow night is one Harold Fowler of the flyboys. The two clubs will meet in the fieldhouse at 8:15 with all proceeds (adults \$1, students fifty cents) going to the March of Dimes drive which winds up tomorrow night.

Fowler, who is serving a four-year hitch with the United States Air Force, is six feet tall, well built, has good legs, lots of hustle, and has four years of college eligibility left.

Although he was unnoticed by college scouts during his high school playing days in Pittsburgh, Pa., it's unlikely he'll be passed over when he finishes his year with Uncle Sam. Several college authorities have already indicated they would like to procure his civilian services. The Panhandle fans who have seen him in action know he can make the grade.

TESTIMONIALS The other night at the half of game, the officials, Dick Folsom and Hoss Bledsoe asked me, "Where did Fowler play college ball?" He's good.

Jim Burris, star center of the Amarillo JC Badgers, remarked: "That guy can jump higher than most layers 'our inches taller than him, in practice I once saw him take a running start and leap high enough for his head to be even with the basket."

Fowler still has 2 1-2 years to go with Uncle Sam.

But he isn't the only capable basketballer on the Am-Jet squad. He is aided by such fellows as Dick Beach, former University of Illinois star, Keith Smith, Bud McLean and Gayle McArthur of Oklahoma A&M, Bill Miller and Bill Midler of West Texas State, Dick Bowen of the University of Arizona, John Taylor, West Virginia State, Marlin Smith of TCU, and many more stars.

Two members of the Am-Jet squad are colored athletes. One is a regular starter with the flyers.

But the nucleus of the club is the trio from Hank Iba's great cage squad at A&M.

GALLEMORE PLANS The Chiefs haven't had much of an opportunity to play together all season, playing but three regular contests. In those three they rolled over Lefors and Philrich of Bunavista. Monday night they sneaked past a sharpshooting Redi - Mix crew from Borger, 88-66, mainly on the scoring ability of an ex-Harvesters, James Gallimore.

Gallimore, incidentally, will be in the Chiefs' lineup tomorrow night against the Jets. He has to return to his studies at Texas A&M the following day.

The Chiefs lineup will have

Dodgen Tops Lassie Scorers SHAMROCK (Special) Carolyn Dodgen maintained the scoring lead she has held every week except one since the court season began as she hit seven points against the Wellington girls last Friday night to lift her total to 127.

Riding close behind her is Modene Griffin with 108. She hit for only two points against the Rocket lasses, but fiery little Mary Catherine Setzler, a freshman like Carolyn, racked up 14 points to shoot her total to 71. In fact, Mary's basket-hitting spree totalled more than the Rocket total and enabled McCall's Lassies to whip the Wellingtons.

Betty Flowers, senior forward, hit for two points and now has 37. Others trail far behind. Wellington's lasses are expected to give the Irish girls a run for their money there Thursday night, but Shamrock will likely win on the basis of two previous easy victories.

Honor guests included Ty Cobb, Stanford coach; Chuck Taylor, Lynn Waldorf, California coach, and Joe Kuharich, Matson's coach at USF and now Chicago Cardinal mentor.

# Oilers Announce Purchase Of Pitcher; Sign Shortstop

Ivy Griffin, business manager of the Pampa Oilers, announced this morning the purchase of a righthanded pitcher and the signing of an outstanding rookie shortstop.

The winning pitcher, Max Molberg, was obtained from Augusta, Ga., of the Class A Sally League. He was drafted by that club in 1950 after a good 18-7 season in 1950 with Gladewater. Molberg, a native Texan, refused to report to the Peaches, however, preferring to stay in his home state. Griffin worked out a deal with Augusta to obtain Molberg's contract.

Molberg stands 5-11 and weighs 160 pounds. The rookie shortstop was signed by Manager Jake Phillips in Fort Worth. His name is Norman Aubach, and he has been playing semi-pro ball in Fort Worth for the past three years, being bird-dogged strongly by many state clubs, including one other from the WT-NM. But, being a close friend of Phillips', Aubach was inked to a Pampa contract. Last year he hit .426, including 12 home runs. In 1950 he hit .402. He stands 5-10, weighs 160 and is 22 years old.

The acquisition of Molberg brings the Oilers pitching staff to five, with a deal being worked on for another hurler in the near future. The new shortstop makes a total of four on hand. Jeandron, Castillo and Blanco the other three.

## Mauri Rose Quits Auto Racing Game

INDIANAPOLIS (AP) — Mauri Rose, 46, one of the best competitors in any sport, has retired from auto racing.

For the last 15 Memorial Day 500-mile races at Indianapolis Motor Speedway, the top driver, considered Rose the man to beat. He won in 1947 and 1948 and was co-winner with Floyd Davis in 1941. He was leading in 1949, 20 miles from the finish, when a broken magneto strap forced him out of the race.

Two years ago fire broke out in his pit while he was refueling. He leaped into the car with smoke and carbon dioxide fumes still swirling around the cockpit and roared back into the race. A cocky little guy with a big mustache and bigger pipe, if Rose ever knew fear he didn't show it. He smashed his car to pieces, in the 1945 race. A few minutes later he was stroiling calmly through the pits, charging his pipe.

Last Memorial Day his car lost a wheel and landed upside down in the infield. He survived because he knew how to hang on — and because he dropped into deep mud. Again he was back in the garage area a few minutes later showing no signs of nerves.

But the chances Mauri didn't mind taking for himself, he can't take for his two children, he decided. The mother of Mauri, Jr., 10, and Dory, 8, is dead. Mauri is divorced from his second wife. He has decided, he said last night at his home in Van Nuys, Calif., he can't afford to risk his life now.

Harold Lewis led the scoring for the Reapers, who were minus their regular scoring leader, E. J. McIlvain, out with illness. Lewis hit 12 points, followed by Buster Carter with 11 and Bill Culppeper with 10.

The Reapers led at the end of the first quarter, 8-3, at the half, 20-13, and at the start of the fourth period, 34-15.

The visitors were held to but five field goals, two of these coming in the final few minutes of the game.

## WE ACCEPT!

Pampa's sportscasters and sportswriters combined forces today to accept the challenge of a game of basketball (?) with the Amarillo combined writers and casters.

Pitt Powell, Amarillo By-Liner, was roused from bed AT NOON today to be notified of the acceptance of the challenge. The game will be played in Pampa, with all proceeds to go to the March of Dimes.

The time and place of the game was to be settled shortly, though there was likely to be some argument over the officials.

The Amarillo Yak-Yaks (sportscasters) battled the Amarillo By-Liners (sportswriters) earlier this week with the By-Liners gaining a two-point victory. The two have now combined forces to play a similar team of Pampans.

The Amarilloans, sick and tired of tasting defeat at the hands of Pampa, think that they might be able to gain a victory through this method. But they might be declared ineligible through use of a professional (by comparison with standards) in Jumpin' Julius Levine, who formerly wrote for one of the Amarillo papers and now plays for Amarillo College. It was Levine who pulled the By-Liners copy out of the fire earlier this week.

The Pampa team was scheduled to begin workouts tonight at some remote, secluded spot (providing trunks large enough to fit Co. Palmer were located).

Already the services of three cheer-leaders have been donated by Beverly Fancher, Billy Fullman and Anna Marie Cox of KPDN.

## Walcott's Manager Confers For Bout With Matthews

HARRISBURG, Pa. (AP) — Felix Bocchicchio, manager of world heavyweight champion Jersey Joe Walcott, was scheduled to confer today with an actor's agent in Washington, D. C., about a \$250,000 offer to Walcott to defend his title against Harry (Kid) Matthews.

Bocchicchio made the announcement as he and the champion stopped here last night on the way to a personal appearance engagement at Lewisville, Pa.

Walcott has been ordered by the New York State Athletic Commission to sign for a title bout by Feb. 5 or forfeit the title in that state.

The proposed bout between Walcott and Matthews would be held in Los Angeles, Detroit or Las Vegas, Nev. The actor's agent was identified as Harry Hunt of Los Angeles.

Matthews is rated as one of the top light-heavyweight contenders. Bocchicchio told reporters the offer was made by an actress and would carry additional fees for television rights. He did not identify the actress.

Jack Hurley, Matthews' manager, has said Matthews is willing to campaign as a heavyweight. Bocchicchio said that after the Washington conference he and Walcott will go to Florida to confer with Jim Norris, president of the International Boxing Club.

He said they will seek a release from contractual agreements with the IBC. Walcott has signed with the IBC giving that group his exclusive services for five years, Bocchicchio added.

If Norris agrees, Bocchicchio said, Walcott will be ready to defend his title against Ezzard Charles, former heavyweight titleholder, or Rocky Marciano, Brockton, Mass., battler who recently kayoed Joe Louis.

## State's Pro Ball Clubs Are Ready

The professional baseball set-up in Texas for 1952 has been completed and there will be one more club operating than did last year.

Sherman dropped out of the Big State League and was replaced by Greenville while Longview, replaced Gainesville. But Sherman became a member of the Sooner State League.

Otherwise there are no changes in the league mark - ups from last year. There are 34 clubs in seven leagues.

Sweetwater was the last club to settle its troubles. This club was having trouble staying in the Longhorn League, but was bought by the A. C. Gonzalez interests this week and will continue.

El Paso was a member of the Southwestern International League last season but this year will be in the Arizona-Texas League.

Managers of all except seven clubs have been definitely announced.

Here are the Texas professional baseball clubs for 1952 with their managers:

Texas League — Dallas, L. D. Meyer; Houston, Al Hollingsworth; San Antonio, Joynes; White; Beaumont, Harry Craft; Fort Worth, Bobby Bragan.

# Panhandle Panthers Knock Lefors Cagers Down Twice

By BOB DIXON  
Pampa News Sports Writer  
Trailing all the way, the Lefors Pirates dropped a close one to the Panhandle quintet, 43-38, in a District 1-A contest played at Lefors last night.

The Pirates fell behind at the start when Aubrey Russell dropped one in from the charity lane. From then on it was a game of catch-up.

With Jim Naylor doing most of the damage with hook shots, the Panthers were able to gain 11 points to the Pirates seven. The Pirates were paced by Russell Herring, who also was the game's leading scorer with a total of 18. Naylor was high for the victory with 15.

Second quarter scoring was very close with the Bucks gaining eight while the Panthers were getting ten. At the half Panhandle held a six point lead.

The third quarter was the one where the Pirates did their best shooting, but it was also the same case for the Panthers. Both teams scored heavily on long shots, Lefors getting 12 points, Panhandle 15. As for the fourth period started Panhandle led, 36-27.

In the fourth quarter the Panthers got their biggest lead of the game. The Pirates trailed by eleven. This, however, was short-lived as the Pirates began pressing their defense. The Panther shooting cooled off to seven points the last period while the Buc girls were sinking 11. The game ended with Joe Martin, Pirate guard, sinking a long shot from mid-court.

In the preliminary game; the Panhandle girls team won over the Lefors girls, 41-18. The Buc girls were never in the contest as Panhandle showed a game of smooth ballhandling and sharp shooting. Most of this shooting was done by Kay Williams, who rang the bucket for a total of 18 points. Not far behind was her teammate, V. Naylor, with 14.

High point honors for Lefors went to Manda Williams and Im Jean McAnich, both getting six.

Syracuse University has enlarged its winter sports television program to include swimming. The wrestling and gymnast teams are seen on video via a local TV outlet.

FREE RIDE — Bill Watson, Lefors scoring ace, appears to be lifted right up to the basket on the shoulders of a Panhandle cager during last night's game at Lefors. The Panthers downed the Pirates, 43-38, in a District 1-A game. (News photo by Don Duncan.)

## Best Scores Due For Tucson Open

TUCSON, Ariz. — (AP) — Hot weather is expected to produce the lowest scores of the winter circuit to date in the \$10,000 Tucson Open golf tournament, which starts tomorrow.

Players say they are beginning to round into shape after a siege of wet weather in California. Two course records were equalled yesterday, Jack Burke, Houston, Tex., shot a six-under-par 29 on the first nine in a practice round and then quit for the day. "I'm playing the best golf of my life," he said. It was the first time he ever shot lower than 30.

Jimmy Clark, Laguna Beach, Calif., shot an eight under par 62 in the first section of the pro-amateur tourney which is continuing today. "That was the best round I've ever shot," he said. Clark teamed with Bill Lewis, Wellman, Iowa, to tie Elroy Marti, Houston, Tex., and amateur Toney Hardy, Tucson, with best ball totals 60 in the pro-amateur event.

Van Pennington Lengthens Lead  
SHAMROCK — (Special) — Van Pennington lengthened his lead in the basketball scoring race here last week by hooping 10 points to lead the Irish crew in the Wellington debate. Van now has racked up 142 points.

His nearest competitor is George Hendrick, rebound star at center, who has 77. Mack Terry remains at 73 as he failed to plunk in a

## Hope, Crosby May Re-Enter

HOLLYWOOD — (AP) — Some of the British columnists may not care to see Bob Hope and Bing Crosby together on an English golf course. But Bob says he's going to enter the British Amateur again this year, and Bing is expected to produce the lowest scores of the winter circuit to date in the \$10,000 Tucson Open golf tournament, which starts tomorrow.

Both moves were masterminded yesterday by the Philadelphia headquarters of the league by Giles E. Miller, a Texas textile tycoon, 31 years old and lead of a 16-member syndicate from the Lone Star state, which becomes the youngest president of the NFL.

With loop Commissioner Bert Bell, Miller completed an agreement to purchase a franchise plus title to the players under contract to Ted Collins and the New York Yanks. The syndicate paid \$100,000 cash and agreed to put up \$200,000 more at the rate of \$25,000 annually.

The \$200,000 will go to pay off the league's debt to the New York Baseball Yanks covering a rental contract with the football Yanks for use of Yankee Stadium.

CHANGING NAME  
The decision on the club's name was a big surprise as both Miller and the league had previously indicated the entry would be called the Texas Rangers. Miller offered no reason for the switch but it was believed decided upon to avoid confusion should Houston or any other Texas City ever receive a NFL franchise.

Completion of the deal in one day was another surprise. Miller journeyed to New York for preliminary negotiations Monday and then came here yesterday expecting it would take a couple of days to complete the transaction. But by late afternoon, after receiving some kindly words from Bell about the bumpy road ahead as a NFL club owner, all the paper work had been completed.

Miller said he has an oral agreement for the Texans to play their home games in the Cotton Bowl which seats 76,000. On the question of who will coach the Texans and whether Negroes will play for the team, Miller repeated the answers he made Monday.

"Places on our team are open strictly on the basis of ability without regard to race or creed," he said. "We have made no decision on a head coach." Three of the backs the Texans acquire from the Yanks, Buddy Young, Sherman Howard and George Talliaferro are Negroes.

## Paperwork Is Completed

PHILADELPHIA — (AP) — A quick switch of names and an even quicker flourish of a pen combined to give the National Football League a new member today, to be known as the Dallas Texans.

Both moves were masterminded yesterday by the Philadelphia headquarters of the league by Giles E. Miller, a Texas textile tycoon, 31 years old and lead of a 16-member syndicate from the Lone Star state, which becomes the youngest president of the NFL.

## Giles Miller Says Travel Aids Team

By GAYLE TALBOT  
NEW YORK — (AP) — One of the big reasons why professional football will be a rousing success at Dallas, we learn, is that 25 or 30 miles is a good, solid day's journey either by taxi or on horseback.

We are indebted for this interesting piece of information to Giles Miller, the dark, rather chubby young man of 31 who negotiated the purchase of the New York Yanks and will preside as president of the new Dallas Texans as soon as he learns a few more things about the business.

Giles was explaining how he figures that Dallas, whose official population is listed at only 433,000, actually has 1,500,000 potential customers right around close — that is, within easy driving distance.

"Back in the old days," he said, "a man who had done 25 miles or better was ready to put up for the night. So ever so often there was one of these trading posts, and now they've all become towns. You go out from Dallas in any direction and you'll hit one."

"Take if you're driving over to Fort Worth, which is quite a big trading post now, it's 35 miles, but all the way you'll never be outside the city limits of some town like Grand Prairie and Arlington. All around a circle outside Dallas it's the same. We figure we'll draw fans from 100-200 miles around. People down there think nothing of driving that far to see a good football game."

The young textile tycoon made a fine impression in his first joust with the metropolitan press. When he could, he gave easy, straightforward answers to the questions tossed at him, including the inevitable one concerning the three Negro players on the Texans' roster. He said he felt they would get along fine.

When Giles — as he insisted upon being called — didn't know the answer, he said something to the effect that that was a long way down the road yet. During one break in the conversation, while the young president helped himself to a fresh bottle of beer, one of his questioners leaned over and whispered: "Didn't notice, he doesn't even talk with a Texas accent."

One came away from the soiree feeling that the professional footballers have, through no effort on their part, added a great deal of strength and financial stamina to their circuit, and that the money game might be on the verge of a surprising growth.

Owner Dick Burnett of the Dallas club said last weekend he would use Negro players "good enough to play Texas League ball."

W. B. "Uncle Billy" Frost

## Pampan, 89, Likes To Keep House And Yard

W. B. Frost, 1105 N. Charles, who recently celebrated his 89th birthday, is a man who does all his house and yard work and has made it a policy to never "hire anyone to do what he can do himself."

"Uncle Billy" retired several years ago from Dunigan Oil Producers, but manages to keep his days filled with work at home. He corroborates the saying since Mrs. Frost died in 1949, that "life is what you make it," he has done all the housework and yard work, including his laundry and doing his housework and yard cooking — and has decided there are many tasks around the house that a man can do. The fact is, his daughter-in-law in Kansas thinks of him as a much better housekeeper than she is.

His wife designed the large, comfortable house on Charles, and "Uncle Billy" keeps it as she left it. Except, he explains, he doesn't keep the pantry stocked as Mrs. Frost did. He markets once a week and buys only a week's supply of groceries. "This is the first year he hasn't walked to the grocer's and walked home, but his eyesight is bad and he finds it convenient to ride the bus. Because of his eyesight he is unable to read, so finds much enjoyment in the radio. (He didn't miss a word of the March of Dimes jamboree Sunday afternoon.) He also has a victrola that has been in the family many years, and playing the old "Uncle Josh" records is another pastime. Many of the records in his collection are turn-of-the-century records — Uncle Josh and Henry Burr and others.

Mr. and Mrs. Frost were married 66 years ago in New York state and gradually moved westward. They came to Pampa from Muskogee, Okla., and he ranks Saturday in an formal ceremony read by Rev. Truitt Stoval.

The double-ring ceremony was read in the Calvary Baptist parsonage.

Mrs. Jean Parsley and Mr. Bill Britton were the bride's only attendant. She wore a navy crepe dress with navy accessories, and a white carnation corsage.

Mr. Rex Britton was his brother's best man.

The bride selected for her wedding a brown and white pin check wool suit with brown accessories. She wore a white carnation corsage.

The couple is now at home at 418 Durcan.

## Parsley-Britton Vows Exchanged Here Saturday

Miss Jean Parsley and Mr. Bill Britton were married here Saturday in an formal ceremony read by Rev. Truitt Stoval.

The double-ring ceremony was read in the Calvary Baptist parsonage.

Mrs. Jean Parsley was the bride's only attendant. She wore a navy crepe dress with navy accessories, and a white carnation corsage.

Mr. Rex Britton was his brother's best man.

The couple is now at home at 418 Durcan.

MRS. REX ROSE modeled this colonial costume of the Parent Education club Tuesday to highlight a brief discussion of antiques by Mrs. George Hofsess, hostess. The dress is a copy of a Martha Washington original now in the Smithsonian Institution. Mrs. Hofsess explained that her great aunt had the gown made some 75 years ago for the aunt's inauguration in Washington as national president of the DAR. The dress is deep red, trimmed with lace. It has a fitted bodice and is accented with brocaded silk and velvet panels. (NEWS PHOTO)

## Parent Education Has Study Of Current Events

Parent Education club members were given highlights of current events and sketches of personalities in the news at the meeting Tuesday afternoon in the home of Mrs. George Hofsess, south of the city.

Mrs. Gene Fathere, president, presided at the meeting. Special guests were Mrs. Frank Lard and Mrs. Ethel Anderson who presented a special colored film on Girlstown, U. S. A. Mrs. Lard and Mrs. Anderson were recent visitors to the ranch near White Face, Texas, which is operated by Amelia Anthony. Several Pampa girls are living on the ranch now, which makes the activities of Girlstown of interest to local organizations.

Mrs. Myron Marx opened the program with a discussion of the possibility of an atomic attack in this country.

"Never having suffered a nation-wide attack, the people of the United States have been slow to realize that an atomic attack could happen here — and it could happen tomorrow," Mrs. Marx began.

"General Vandenberg of the Air Force, has stated publicly that up to 70 percent of enemy bombers might get through to hit our cities in the event of an attack. The joint chiefs of staff have decided how many possible target areas there are in the nation in the event of World War III. The list isn't public, however, the governors of the affected states and mayors of the cities know that their areas are possible enemy targets.

"There is no complete protection against an atomic attack, but there is a great deal that can be done to reduce the number of deaths and injuries that might result."

"Many of us think Pampa is not among the critical cities," Mrs. Marx said, "but there is said to be a possibility that Borger is considered critical with its rubber and gasoline plants."

Mrs. Marx pointed out what is being done locally for civilian defense. The local Red Cross has received target areas of interest to the ARC first aid text book and these courses are open to the public at any desired time. The course is in addition to the standard Red Cross first aid course, Mrs. Marx said.

To continue the program on an atomic attack, Mrs. Johnson discussed personalities in the news of atomic research. She gave brief sketches on the following atomic scientists: James Bryant Conant, 23rd president of Harvard University, chemist and government advisor; Umer Liddel, United States government official, physicist, author and lecturer; Nathaniel Howell Furman, 1951 president of the American Chemical Society, a leading analytical chemist, and chairman of the Chemistry department at Princeton; George Gamow, nuclear physicist, and consultant to several Navy and Air Force boards during World War II; and Marcus Laurence Elwin Oliphant, head of the Australian atomic advisory committee.

"These men are only a few of the many famous scientists in the atomic field today," Mrs. Johnson pointed out. "There are still many more in lesser jobs, but still important in the maintenance of our nation's defense. These men and their achievements in the world of science are making the news today."

Prior to the program, Mrs. Hofsess introduced Mrs. Rex Rose who modeled a copy of a Martha Washington gown, after Mrs. Hofsess explained the history of the dress.

The leather-splitting machine was invented by Samuel Parker of Newburyport, Mass., in 1809.

We believe that one truth is always consistent with another truth. We endeavor to be consistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

'Business' Is Not A Crime

At frequent intervals, someone rises up and declares that the oil industry is a racket, that it is a money grab, and something that ought to be done about it. The best reply to that lies in what the oil industry is and what it does. Collectively, it is "big business" for the plain and simple reason that only big business could supply us with the incredible quantities of oil we need and our friends abroad need and want. And it is a risky and complex business. For instance, it costs a lot of money to drill a wildcat well in search of oil and only about one in five turns out to be a producer. If the oil people didn't stand a chance to make a profit, they wouldn't venture their capital on such hazardous undertakings. And if that occurred, a future oil shortage would become inevitable.

The American people spend about \$7,000,000,000 a year on oil products. And half of that—\$3,500,000,000—goes right back to the government, through the Federal, state and local taxes levied on the industry and on oil products. A great deal of the rest goes to the 2,000,000 well-paid men and women in the oil industry employes.

Then, when current bills are paid, oil companies must put out huge sums to build and improve refineries, pipelines, tankers, and all the rest of their vast physical plant—the plant which converts the crude into a thousand and one useful products used by consumers. Does anyone really think that the financially starved enterprise could accomplish this tremendous job? The amount which finally winds up in the pockets of the industry's tens of thousands of owners as dividends, represents one of the smallest slices of the oil dollar.

The 'Why' Of Meat Prices

It is commonly said and believed that meat prices are sky high, and out of reach of a great many consumers. Yet the fact is, that in the light of purchasing power and wage changes, meat prices have actually gone slightly over a long period of time. This was pointed out in a recent issue of the Kiplinger Magazine, which said, "An interesting thing about the same proportion of its take-home pay for meat—5 percent to 6 percent. The moment the housewife's food budget decreases, meat prices fall accordingly. Each man's price from the breeder's up the line to the butcher's is geared to the price you and millions of others are able and willing to pay."

Another common belief is that the packing industry makes a whale of a lot of money, and earns unjustifiably large profits. Yet in 1950, which was a fairly typical year, the packers' meat earnings from sales were only about one-seventh as large as the earnings for the manufacturing industry in that year, their earnings came to a trifle more than one percent of sales—which is hardly an exorbitant price to pay for an essential service. And last year, according to preliminary figures, the earnings of meat packing houses were somewhat less than in 1950, even though sales touched a record.

The meat industry, in sum, is geared strictly by the old law of supply and demand. And the meat industry is an intensely competitive enterprise, made up of 400 packers who bid against each other for livestock and then sell a highly perishable product competitively to the meat retailers—who, in turn, must also buy and sell competitively. That's why the profits are so moderate.

A Letter From Chile About Tax Supported Education

I want to reproduce a copy of a letter sent to the editor of The Pampa News in regard to its article of December 31, 1951 about the writer, Thomas Ashley of the American Embassy, Santiago Chile, South America.

In writing to me, Mr. Ashley says that until he read the article he had never heard of me and now he wants to hear more of my ideas. Then he says that I may know where he stands here by enclosing a copy of a letter he wrote to Time about me.

Mr. Ashley is 26 years old and writes for The Freedom magazine, the Chicago Tribune, the Posters Digest and is at present writing a book for the Foundation for Economic Education. Mr. Ashley seems to be a close reasoner and a rational thinker.

Here is the letter he wrote to Time magazine:

"In your December 23, 1951 issue (The Press) you listed editor Holles' convictions as checkbook celebrations. The examples you gave of Holles' celebrations are very far from being checkbook. Your main objection is that he campaigns for abolition of the public schools. Over the past few years TIME in its vigilante Education Department has presented many cogent reasons for drastic reform of our schools. Holles is simply more consistent; like Haule, he says: 'O! Reform it altogether.' Does TIME consider whether or not there should be public schools an absolutely closed issue? Has TIME swallowed and digested the public education idea so thoroughly that debate of this issue is now barred from TIME's pages?"

"TIME has expressed proper concern occasionally over our apathy to the spreading fungus of government, yet when one man attacks the biggest government concern of all public education, TIME, with demagogic vernacular, calls him crackpot. There were many non-crackpots who fought public education in the first place—there are many respectable philosophers who oppose it now, the most famous group being The Foundation for Economic Education. Surely public education at its best is still debatable.

"As for Holles' other crackpot ideas e.g. Herbert Hoover and the N.A.M. are too foolish, he's right. Herbert Hoover laid the precedent for the New Deal by putting J. P. Morgan on relief, spending and expanding government with the R.F.C. to such an extent that the people voted for the Democrats in 1932, as the most conservative party on a platform of economy and curtailment of government.

"The N.A.M. has accepted a great many leftist New Deal theories e.g. the E.C.A. and aid to Europe. It pumps priming Europe a sound foreign policy then New Deal pump priming at home is just as sound. It's a leftist idea in anybody's book. If it is based on the communist idea that a sound economy can be begun without repaying debts.

"As for the idea that churches are socialistic, on the issue of legislative altruism, most of them are. When a church preaches that charity is of equal importance to production and that people should be forced to give against their wishes, that church is socialistic.

"As for the idea that majority rule is the best way to govern, I was surprised that TIME thought this was crackpot. We never had majority rule in this country until the abdication of Congress in 1932. Before that we had rule by moral principles, and that is what the majority wanted, they couldn't have it, if it abrogated that principle. If you like majority rule, read the death of Socrates. Or read the E.C.A. and aid to Europe Papers, which predict our present bribing and paying off of fact. Obviously you believe that majority rule won't ever sacrifice the lives of the dissenting—despite the fact that in every story you report the bombing of Editor Holles' home. Did you deplore this example of majority rule? No, you seemed to approve it. Did you report to his rescue on grounds of defending freedom of the press? No, TIME was on the side of mob rule in this story.

"In TIME's very excellent reporting of The Younger Generation, you said that the generation, either through fear, passivity or conviction, is ready to conform. Here is a man who is devoting his fortune to fighting State education, not call it free education; nothing is free. The editor who is free. This is the agency which has helped mass-produce these conformist youths. Instead of giving him a fair hearing, TIME refuses to let him conform, by defending all the tired clichés which Editor Holles has the courage to attack."

FARMERS REJECT SOCIAL SECURITY

We congratulate the New York State Farm Bureau Federation on voting by a substantial majority, during its annual convention in Syracuse last November, to reject a resolution favoring the extension of social security to farmers. When the resolution was presented it met instant challenge from the floor. One speaker pointed out that other resolutions had opposed the extension of socialism whereas this one favored it.

The farmers of New York State fear government compulsion, and they do not propose to have this additional government tax levied upon them. They well understand that while this money would be taken from them in the name of savings and security, it would be spent immediately by the federal government and no provision made for their retirement.

Whether or not they would receive anything when retirement time came would depend upon the ability of a future Congress to levy taxes upon a future generation for that purpose. If insurance companies engaged in the annuity business conducted their affairs in like manner, their officers would be sent to prison.

'Big Red One' Has Suffered An Overdose Of Refinement

By WESTBROOK PEGLER FRANKFURT — The big red numeral 'one' of the First Infantry division, the U. S. Army ever had, stands up like a stalwart soldier on yellow signboards for miles along the autobahn before you come to division headquarters at Darmstadt.

This was Gen. Pershing's favorite division in the first World War. It is the division which Maj. Gen. Terry Allen turned loose in North Africa, after a hard spell of fighting which was its initiation to World War II.

The Doctor Says

By EDGAR P. JORDAN M. D. I receive a constant stream of questions concerning high blood pressure. This fact serves to emphasize the importance and frequency of this dangerous enemy of modern man.

There are several different conditions which lead to high blood pressure. One of the most important is the rise in average age of the nation's population. Practically all of the different kinds of high blood pressure as well as hardening of the arteries tend to increase in the later years of life. With the rising average age of the nation's population, they take an increasing toll.

It has been recently stated that every person over the age of 45 had a 50 percent chance of dying from high blood pressure, apoplexy, a heart attack or some similar condition related to high blood pressure or arteriosclerosis.

More deaths from these diseases occur each year than from combat in either of the world wars. So far as is now known, there are several different causes involved in the development of high blood pressure. Some of them are known, but discovered, and can be remedied.

However, in many cases, the cause or causes are not yet fully understood by medical scientists, and it is still impossible to get at the root of the trouble and overcome the basic fault.

What can be done about these great killers: today one or two best things is to have an examination of the blood pressure, taken at regular intervals so that the first signs of an increasing blood pressure can be recognized.

Research must continue. What is still needed to conquer high blood pressure is research. This is now going on in many places, supported by the generous contributions of citizens from all over the country.

One line of attack is directed toward diet. The rice diet, which appears to be one form of low sodium diet, has received much attention, but is hardly the final answer. Another extremely interesting result of research is the demonstration in dogs that the brain can produce and empty into the blood stream a hormone-like substance which acts to increase the blood pressure. This may serve as a vital clue to the relationship between the nervous system and high blood pressure which has for long been so generously recognized.

National Whirligig... Gambling Expose In Capital To Hurt Demos In Elections

By RAY TUCKER — Scandalous revelations of a mutually profitable tie-up between District of Columbia police and gamblers operating within the shadows of the White House and the Capitol Dome may have a more adverse effect on Democratic and Truman political fortunes than the more widely publicized Kefauver exposure of nationwide gangsterism.

Although national news-gathering and distributing agencies are not featuring the sordid story, it wins big, black headlines in the local newspapers which members of Congress read at their breakfast tables.

It has provided powerful ammunition for the Republicans in their contention that it is the lack of political ethics and morality within the Truman administration which is responsible for national corruption. It has aggravated the feeling of the Kefauver-Douglass-Fulbright group of Senators that Mr. Truman should not be renominated.

Indeed, it may result in a Congressional grant of home rule to the District of Columbia after years of a vain struggle on that issue. A home rule bill has passed the Senate by unanimous vote, and it may get through the House, although there is stronger objection in that body.

ORPHAN — Before outlining a Senate subcommittee's findings after only a week of hearings, it should be explained that the District of Columbia is a sort of government orphan. It has no vote for local or national office. Congress furnishes the funds for the 100-mile square area, and acts as a supervisory board of alienation.

But the appointment of the three commissioners, who serve as an executive body, is up to the President. The commissioners, in turn, select the heads of local departments, including the police commissioner. And for almost 20 years the district government has been in Democratic hands.

As indicative of the administration's concern over this situation, there has been an attempt to choke off the inquiry. When the investigating committee recently asked for extension of its life until June 1, the request was denied.

It was given only a other month by the Senate Rules committee, which is headed by Senator Carl Hayden of Arizona, a White House stalwart, and only \$15,000 instead of \$60,000.

RELATIONS — When the investigating group, which is headed by Senator William Wherry of Ohio, is glad to give you what I catch if you will let me know your address.

## Anderson Mattress Co. Tops For Comfort

### Another Million Needed For Roads Gov. Shivers Says

AUSTIN, Tex. (AP)—It's going to take another 100 million dollars a year for Texas to maintain its good roads program, Gov. Allan Shivers says.

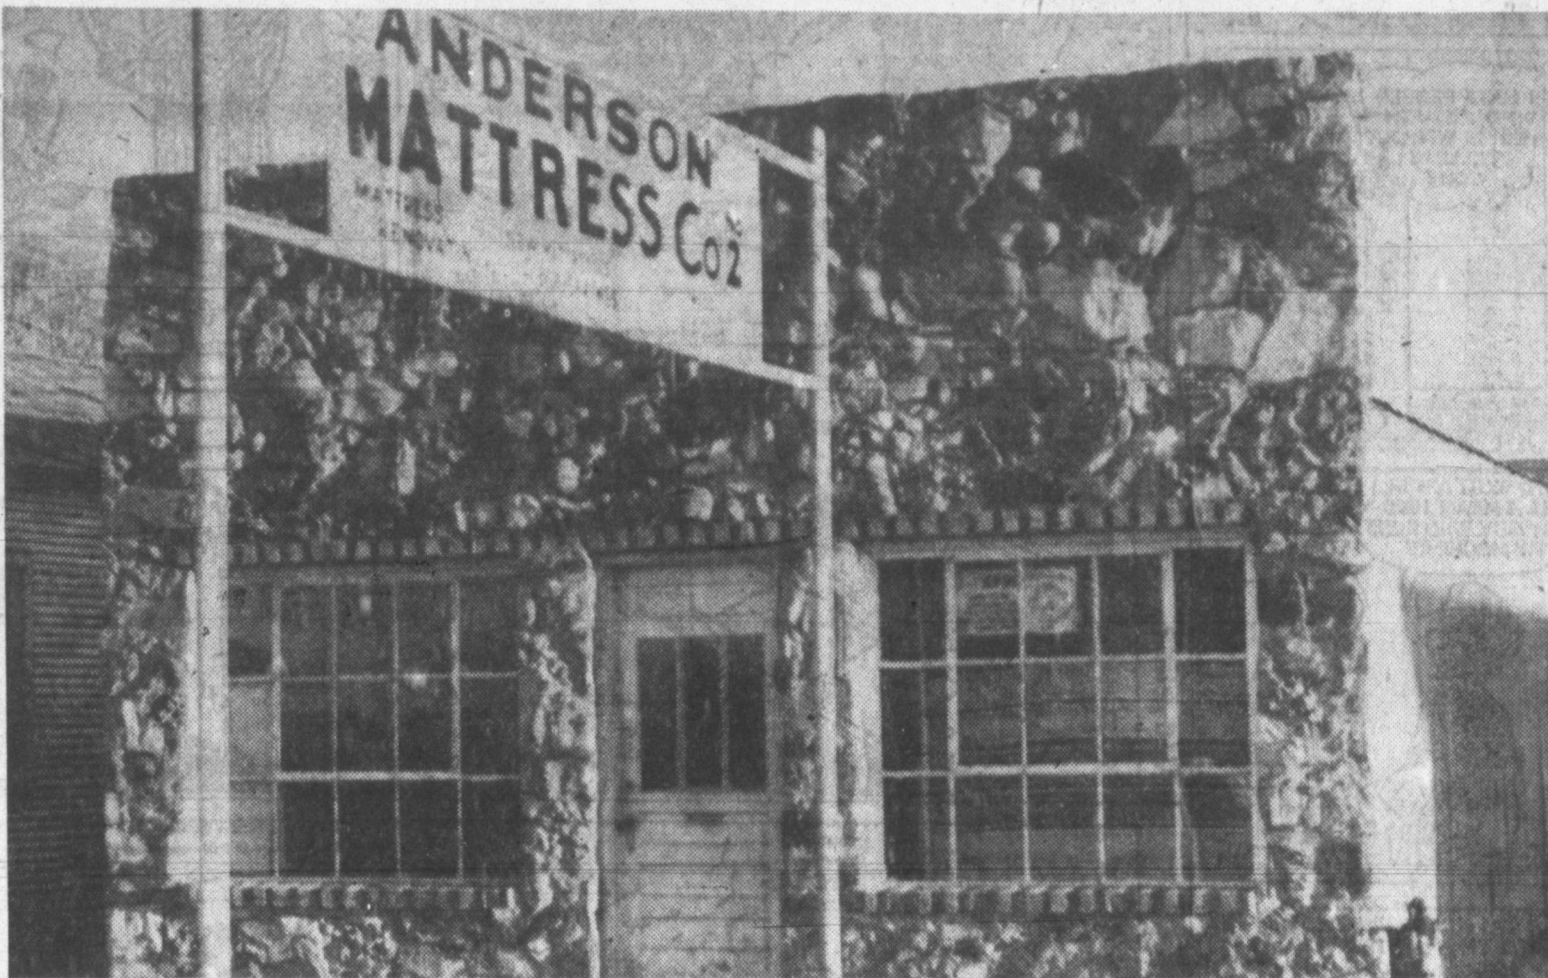

In a statewide broadcast Sunday, Shivers said the state must plug the loopholes in road use taxes, raise gasoline and car registration taxes, or see the highway improvement program stall.

Only two cents of the four-cent a gallon state gasoline tax now goes to the Highway Dept., Shivers said, noting that a haul in this diversion could help finance the road program.

Shivers called the alternative of new taxes the "less desirable" plan.

His speech, carried on a 50-station radio network, was on a program sponsored by the Texas Good Roads Assn. to launch Texas Highway week. It also marked the 35th anniversary of the Texas Highway Dept.

Shivers said he was confident Texas would not take a third alternative: "allow our highways to continue to run down, and our construction to lag dangerously." He added that the people would have to decide how they would go about raising money to build and maintain the highways, or whether they wanted the program to stand still.

### Cutter Goods Included In Cretney Line

The average person who gets no closer to a packing plant or feeding lot, farm or ranch was no conception of the problems faced by the packer, grower and processor in the furnishing of meat and meat products for the consumption of Mr. and Mrs. America and their hungry brood. The struggle for perfection in this line of endeavor is one of the great unwritten stories in the annals of American food production.

Since no one seems to be specifically frightened by the enumeration of the various plagues that invade the ranks of the genus hominids, it will be no encroachment of the rules of good taste to give a few of the names of those influences that the farmer, rancher and food processor fights so successfully in bringing first class products to your festive board.

Each of the more common problems faced by the aforementioned parties occupied in stock raising have created a story of research — failures and successes — fully as dramatic and important to our lives as the fight against polio, heart disease, or cancer. Unfortunately, we pay little attention to such heroic efforts since attention is drawn completely to the succulent and luscious viands that grace the table of the old homestead.

Just run the peepers over a partial list such as Shipping Fever, Hog Cholera, Anthrax, Pink Eye, Blackleg and Malignant Edema. The fights to eradicate Hog Cholera and Anthrax in and of themselves carved a brilliant niche in the annals of veterinary medicine.

America's leading pharmaceutical houses endowed tremendous research projects for the eradication of these threats to the market livestock of the nation. As long, arduous and without glory, is always the case the fight was carried on the battle. Now, all of these pestilential attacks and diseases are under control and you are assured of the finest and purest of table products without fear of contamination from any source.

Among the names of the great producers of livestock remedies is the famous Cutter Laboratory of Berkeley, California. Cutter has developed some of the finest and purest of table products for use of farmer and rancher. Recently, in line with a policy to have the finest in medicines available at all times, Cretney Drug Company

### Man Brought Back To Life Is Dead; Baby Also Dies

AMARILLO (AP)—The man brought back to life Dec. 1 by heart massage, but unconscious since then, died Monday in the Amarillo Veterans hospital — the same day that his baby was born and died also.

He was Frank James (Jack) Leavell, 23, Dalhart.

A baby was born to his wife at the home of an uncle here, but the infant failed to survive. Leavell had suffered a mangled hand when it was caught in an ice scoring machine Dec. 1 at Dalhart. After emergency treatment at Dalhart, he was brought to Amarillo for home surgery.

He was being taken from the surgery room when his heart stopped. When it failed to respond to a stimulant, the surgeon made a quick incision under the left arm, reached into the cavity and massaged Leavell's heart.

Several minutes later the heart started beating again.

ALL THROUGH THEIR LIVES THE BOYS HAVE ALWAYS BEEN CONNED IN SOME WAY OR OTHER WITH REALLY BIG THINGS SUCH AS POLITICS, TAXES, GOVERNMENT, MOVIES, THEATRE, POLICE, PLUMBING, STREET CLEANING, DITCH DIGGING AND JUST PLAIN BUNNING!

HERE IS A PICTURE OF A MUTT BACK IN 1916 WHEN HE WAS THE BULL MOLE CANDIDATE FOR PRESIDENT-HELOST!

WHENEVER MUTT RAN FOR ANYTHING THERE WAS ALWAYS HIS CAMPAIGN MANAGER! MUTT LOST!

THAT STERLING MAN AND I MIGHT SAY SUPER-MAN AND STATESMAN-- MR. A. MUTT!

BRAVO!

AFTER MANY YEARS OF TRYING AND FAILING MUTT WAS ONE DAY INTERVIEWED-- "MY DOCTOR SAID I SHOULD AVOID ALL EXCITEMENT AND SECURE COMPLETE REST AND QUIET THEREFORE I'VE DECIDED TO RUN FOR VICE PRESIDENT."

Z-Z-Z SHORE!

**Bugs Bunny**

IT'S GONNA BE FUN DANCING WITH PETUNIA AT THE COSTUME BALL!

YEAH, I'M ANXIOUS T' TRY OUT THEM DANCIN' LESSONS SHE'S BEEN GIVIN' US!

SHE SWALLOWED A DIME!

**OUT OUR WAY**

SAY, COWBOY, I THINK I COULD CONCENTRATE ON YOUR MAP A LITTLE BETTER IF YOU'D PUT THOSE BOOTS ON!

I'M A NEEN INMATE, SO I MIGHT AS WELL INTRODUCE MYSELF-- NAME'S GASTON GUMHORN-- I'M A CONNOISSEUR OF ANTIQUES!

UM! LOOKS LIKE SOMETHING A DOCTOR SEES UNDER A MICROSCOPE-- PROBABLY GOT A DISPOSITION LIKE A NUTMEG GRATER!

MY NAME IS TWIGGS! I'M A PROFESSIONAL VOLCANO INSPECTOR, IF THAT HELPS YOU!

UNTIL HE PROVES OTHERWISE, I'M LISTING THIS GENT IN THE PHONY DEPARTMENT WITH THE DUCK CALLS!

WRAPPED UP IN HIS ART

NOT A MUTUAL ADMIRATION SOCIETY

**Vic Flint**

TOMORROW NIGHT I FIGURE WE KNOCK OFF THE J.R. WORTHMORE HOUSE.

THE WORTHMORES-- WOW!

JUST TO MAKE SURE THERE'LL BE NO SLIPS, I WANT YOU TO BE AT THE SYMPHONY HALL TORSO. SO WE'LL KNOW FOR SURE THE WORTHMORES ARE THERE, THAT WAY--

WHO'S THAT?

OPEN UP RAIL, I KNOW YOU'RE THERE!

**Little Doc**

I SHOULD THINK YOU'D BE FLATTERED BY MY UNDYING DEVOTION TO YOU, EASY!

I AM, JANET! AND I DOUBT IF I'M QUITE WORTHY OF IT, BUT ONE THING DISTURBS ME...

YOU DIDN'T HAFTA TELL REPORTERS I WAS A WIFE DESERTING, POORLY PAID SOLDIER OF FORTUNE, WITH A SICK MIND!!

OH, DEAR! I MUST LET MY IMAGINATION RUN AWAY WITH ME WHEN THEY KEPT PRESSING ME FOR DETAILS!

OH, WELL, I GUESS I'LL FORGIVE-- HMM, THAT'S ODD! I'D SWEAR THE SAME CAR HAS BEEN FOLLOWING US FOR TWO HOURS!

LET'S STOP FOR GAS AT THE NEXT PLACE, AND SEE IF WE KEEPS GOING!

**Wash Tubbs**

BUT--MR. AN' MRS. RUGGLES-- THOSE GOOD PEOPLE?

THEY'S FINE, BUT YOU--

MESSE MOST ANY MINUTE!

I'LL WAIT!

WHO'S HE, DORY?

DUNNO! BUT WHOEVER HE IS, I'M SURE A WAGN'T EXPECTIN' 'EM!

**Boots**

LOOK AT THOSE THICK WOODS, PHIL! CAN'T YOU SEE SPOTTY, NARROW FAIRWAYS-- WINDING IN AND OUT OF THEM?

INDEED, I CAN!

AND LOOK AT THIS GRAND SPOT FOR A TEE! TO SHOOT AT A FAR THREE HOLE-- DOWN THERE IN THAT GULLEY!

YEAH! IT WOULD BE ABOUT AN EIGHT HOLE FOR ME!

AND A WATER HOLE COULD BE RIGHT HERE! YOU'D SHOOT ACROSS THAT POND-- AND UP THE VALLEY!

YES! IT WOULD BE LIKE THE FOURTH HOLE AT TAMARACK!

WELL, NOW YOU'VE SEEN IT ALL, PHIL! WHAT DO YOU THINK?

I THINK IT'S PERFECT!

**Mickey Finn**

WE'D BETTER CALL IT QUITZ, OZZIE-- YOU'RE MUCH TOO PRACTICAL!

AW, PIGEON.

WHAT'S EATING YOU LATELY?

YOU'RE JUST TOO SENSIBLE AND BUSINESS LIKE AND DULL.

WELL, PIGEON, IF THAT'S THE WAY YOU WANT IT, OKAY, BUT LET'S BE SMART ABOUT IT AND WAIT A FEW MONTHS TO FOLD--

AT LEAST UNTIL YOU'VE WORN OUT YOUR SWEATSHIRT WITH MY NAME ON IT.

**Penny**

SO THIS GENTLEMEN IS THE EMINENT VANDYKE?

THE COACH INSULTED HIM! WE WANTA SQUARE THING WITH A BIG TREAT!

A SIFT DISGWEEET IS SOMETHING REET!

DON'T SPARE A THING, LIVERMORE! THE BEST IS NONE TOO GOOD FOR VANDYKE!

REET! IF VANDYKE STAYS SORE, WHAT'S GONNA BECOME OF OUR BASKETBALL TEAM?

BAAA!

OBVIOUSLY HE'S ALREADY FOUND THE BEST IN THE HOUSE!

THINK OF THE DOUGH I'D SAVE IF HILDA ATE THAT SENSIBLY IN HERE!

**Freckles**

HI, TOOTS! HOW ABOUT A LITTLE TREATMENT FOR HIGH ALTITUDE? A KISS FIXES ME UP!

## Series Of Articles Tells How To Make Out Tax Form

(Editor's note: This is the first of a series explaining how to make out your income tax return.)

By JAMES MARLOW

WASHINGTON (AP)—Highlights on your income tax return, including changes made in the law by Congress last year: Midnight of March 15 is the deadline for filing a return on your 1951 income.

Who must file? Everyone who had \$600 or more income last year.

Everyone—man, woman, child, married or single—who had that much income in 1951 must file a return, even though he owes no tax. If he does owe any he must pay it in full with his return.

Income under \$600 is tax-free. So no return has to be filed on it. But some people with less than \$600 income in 1951 had tax withheld. They should file a return to get a refund. It's the only way they will get it.

Forms for filing—the same as last year: Form 1040-A, a single yellow sheet; and Form 1040, a four-page return.

Most people, because most fit the rules for using it and it's the easiest to use, will use Form 1040-A. They're the under-\$5,000 income people who had all or most of the tax withheld in 1951.

The under-\$5,000 people who can't use Form 1040-A will use Form 1040 either as a short form (figuring their tax in the table on the back) or as a long form (figuring their own tax).

People with \$5,000 or more income have no choice. They must use Form 1040 as a long form, figuring their own tax.

Husbands and wives—husbands and wives can still split their income by filing a joint return, even though one of them had no income, in order to get a lower tax.

Exemptions—everyone filing a return gets a \$600 exemption for himself, plus \$600 for his wife, if she had no income or files jointly with him.

If she had any income no matter how small but doesn't file jointly with her husband, he can claim no exemption for her. If she files her own return separately, she claims her own \$600 exemption.

And—you get the usual \$600 exemption for each dependent.

The new changes to remember—social security—this year

for the first time self-employed people begin paying a social security tax.

But until now they haven't paid any tax. To do so, they must use a special form, called Schedule C. The tax is 2 1/2 percent of the first \$3,000 of income. This social security tax on the self-employed is, of course, in addition to the regular income tax.

There's a new rule for those who, employed by others, had a social security tax withheld from their pay check. The tax on the employed is 1 1/2 percent on the first \$3,000 of income, or a maximum of \$54 a year.

In the past if too much social security tax was withheld from your paycheck—because, perhaps you worked for more than one employer—you could get a refund only by filing a claim for it.

Now if it happened to you in 1951, you can credit it against your income tax on Form 1040-A or Form 1040 without filing a special claim. You'll see the place to do this on the form.

Dependents—while no one with less than \$600 income has to file a return, until now no one with more than \$500 income could be claimed as a dependent. Under the new law the \$500 figure is eliminated and anyone who fits the other requirements can be claimed as a dependent.

Medical expenses—until now no one could deduct for medical expenses unless they exceeded five percent of his income. And then he could deduct for only that part which exceeded five percent. This rule has been changed a bit.

Now a taxpayer—if he or his wife is 65 or older—can deduct the entire amount of his medical expenses for the care of both. For example: A man is 65 and his wife 45. She had the expense.

But such a taxpayer can't do this if one of his dependents had the medical expense.

The law otherwise remains unchanged for taxpayers under 65. They can deduct only that part of the medical bill which is more than five percent of income.

Profit on sale of a home—an individual who sells his residence and then buys or builds a new residence one year before or after his sale will pay no tax on any gain from the sale of the old residence unless he receives more for it than he paid for the new one.

## Series Of Articles Tells How To Make Out Tax Form

(Editor's note: This is the first of a series explaining how to make out your income tax return.)

By JAMES MARLOW

WASHINGTON (AP)—Highlights on your income tax return, including changes made in the law by Congress last year: Midnight of March 15 is the deadline for filing a return on your 1951 income.

Who must file? Everyone who had \$800 or more income last year.

Everyone—man, woman, child, married or single—who had that much income in 1951 must file a return, even though he owes no tax. If he does, even if he must pay it in full with his return.

Income under \$800 is tax-free. So no return has to be filed on it. But some people with less than \$800 income in 1951 had tax withheld. They should file a return to get a refund. It's the only way they will get it.

Forms for filing—the same as last year: Form 1040-A, a single yellow sheet; and Form 1040, a four-page return.

Most people, because most fit the rules for using it and it's the easiest to use, will use Form 1040-A. They're the under-\$5,000 income people who had all or most of the tax withheld in 1951.

The under-\$5,000 people who can't use Form 1040-A will use Form 1040 either as a short form (figuring their tax in the table on the back) or as a long form (figuring their own tax).

People with \$5,000 or more income have no choice. They must use Form 1040 as a long form, figuring their own tax.

Husbands and wives—husbands and wives can still split their income by filing a joint return, even though one of them had no income, in order to get a lower tax.

Exemptions—everyone filing a return gets a \$600 exemption for himself, plus \$600 for his wife, if she had no income or files jointly with him.

If she had any income no matter how small but doesn't file jointly with her husband, he can claim no exemption for her. If she files her own return separately, she claims her own \$600 exemption.

And—you get the usual \$600 exemption for each dependent.

The new changes to remember—social security—this year

for the first time self-employed people begin paying a social security tax.

But until now they haven't paid any tax. To do so, they must use a special form, called Schedule C. The tax is 2-1/4 percent of the first \$3,600 of income. This social security tax on the self-employed is, of course, in addition to the regular income tax.

There's a new rule for those who, employed by others, had a social security tax withheld from their pay check. The tax on the employed is 1-1/2 percent on the first \$3,600 of income, or a maximum of \$54 a year.

In the past if too much social security tax was withheld from your paycheck—because, perhaps you worked for more than one employer—you could get a refund only by filing a claim for it.

Now—if it happened to you in 1951, you can credit it against your income tax on Form 1040-A or Form 1040 without filing a special claim. You'll see the place to do this on the form.

Dependents—the whole no one with less than \$800 income has to file a return, until now no one with more than \$500 income could be claimed as a dependent. Under the new law the \$500 figure is eliminated and anyone with less than \$800 income who fits the other requirements can be claimed as a dependent.

Medical expenses—until now no one could deduct for medical expenses unless they exceeded five percent of his income. And then he could deduct for only that part which exceeded five percent. This rule has been changed a bit.

Now a taxpayer—if he or his wife is 65 or older—can deduct the entire amount of his medical expenses for the care of both. For example: A man is 65 and his wife 45. She had the expense.

But such a taxpayer can't do this if one of his dependents had the medical expense.

The law otherwise remains unchanged for taxpayers under 65. They can deduct only that part of the medical bill which is more than five percent of income.

Profit on sale of a home—an individual who sells his residence and then buys or builds a new residence one year before or after his sale will pay no tax on any gain from the sale of the old residence unless he receives more for it than he paid for the new one.
