COOKING SCHOOL — An estimated 1,300 ladies jammed the Junior High school auditorium yesterday for the first day of the Pampa Daily News all-electric cooking school. All seats were taken and scores of women were turned away at the door. Today was the last day of the school at which more than \$1,000 in prizes were given away. (News Photo)

Area Voters Pick Municipal Officers

Inspection Of Guard Slated

Pampa's Texas National Guard unit, commanded by Capt. Charles L. Robinson, will be inspected today by a federal army officer from the inspector general's headquarters of the Fourth army.

The records will be inspected this afternoon and the men and tramping tonight.

The local unit is the headquarters and headquarters battery of the 474 field artillery observation battalion. It has 57 men, three warrant officers, and nine officers.

Man Injured By Dynamite Mishap

Lawrence Walker, 24, of 808 Malone, is in good condition today following a dynamite mishap which cost him the loss of his left thumb and two-thirds of his left index finger.

Walker was handling some dynamite caps at the Poston Pipe and Metal Co. where he was visiting.

His left eye was also injured.

Women Voters Urge Citizens To Vote In School Elections

Participation in Saturday's school board election is urged by Mrs. H. Hahn, first vice president of the Pampa League of Women Voters.

The league is a non-partisan group of women interested in government and politics. It has 100 members in Pampa.

The league urges all citizens to inform themselves concerning the qualifications of the candidates and to cast their votes accordingly.

Mrs. Hahn said: "The future of our school system is partially dependent on the men who administer the school."

Only requisites for voting are poll tax receipts or poll tax exemptions and residency in the Pampa Independent School board district.

The district expands further than the city limits.

PROBLEMS OF THE AGED — Lawrence S. Cloud, Jr., left, 5 ft. 2, 96 pound 19-year-old from Philadelphia, tells Juvenile Officer H. A. Doggett the troubles he has in convincing people he is more than 12 years old. Lawrence has the voice, the build and looks of an adolescent, but he has drafted other papers to show he is older. Doggett noticed Lawrence in a cafe this morning and wondered why he was not in school. The youth, on his way from Philadelphia to the West Coast for the seventh time, had only 17 cents in his pocket. The juvenile officer and Chief Deputy Sheriff Shirley Nichols drove him out to the highway and gave him \$1.50. Lawrence says he'd like to be a jockey. He has saved money on a ship and elsewhere. 1300 Women At Cooking School Here

Thirteen hundred women Tuesday jammed the Junior High school auditorium for the first session of the second annual Pampa Daily News all-electric cooking school. Hundreds were turned away.

Officials anticipated another capacity crowd for today's session. Mrs. Ruth D. Knight, demonstrated various recipes and finished products were awarded to members of the audience.

The following were given gifts: Grace Aubrey, 316 S. Gray, home decorating supplies from Allied Paint Co.; Mrs. L. P. Yoder, 1112 Montagu, pork chops; Mrs. Vestal Bailey, White Deer, food basket from Elmer's Market; Mrs. J. K. McKenzie, Miami, a food basket from Furr Food; Miss Wanda Jo Williams, Box 777, LaPorte, food basket from Great Food stores; Mrs. G. E. Frasher, Pampa, meat ring; Mrs. C. A. Barth, Pampa, meat loaf; and Mrs. Elsie M. Hoyer, Pampa, gift certificate from Harvester Drug store.

Three persons won gift certificates from Your Laundry. They were Mrs. R. B. Deal, 508 N. Lefors; Mrs. Wylie Burns, 917 Gordon; and Mrs. R. A. Mack, Pampa.

Gifts of Snow Crop Frozen foods were given to Mrs. M. K. Gurley, 426 N. Purviance; Mrs. John B. Martin, 907 G. O. Dr.; Mrs. W. C. Scott, Pampa; and Mrs. Howard Archer, Lefors.

Dromedary products were won by Mrs. R. E. Engle, Sr., Pampa; Mrs. V. W. McClellan, 1019 Ripley; Mrs. Louise Osborn, 1002 E. Francis; Ethel Hilliard, 1230 N. Fessenden; Lena McLean, Memphis, Texas; Mrs. T. A. Kay, 1217 Garland; Mrs. Ben Graham, 604 N. West; Mrs. J. B. McNeill, 637 N. Wells; Mrs. V. L. Boyles, 815 N. Gray; Mrs. L. M. Woodward, 514 W. Cook; and Mrs. H. B. Hamilton, Jr., 1345 Duncan.

4-H Club Votes Against Merger

Members of the 4-H rifle club Tuesday night voted against merging with the Boy Scout rifle squad. The 4-H boys, under the presidency of John Lloyd Carruth, will start shooting soon.

Taft, Kefauver Score Victories In Neb.-Wis.

Ike Write-In Vote Fails To Come In

Senators Robert A. Taft and Estes Kefauver, scoring heavily in primaries in Wisconsin and Nebraska, opened up big leads in the race for delegates to the presidential nominating conventions.

Taft, the Republican from Ohio, won by 50,000 votes over his nearest competitor in the Wisconsin primary yesterday. That gave him 24 of the state's 30 delegates to the Chicago convention.

He held a smaller margin in Nebraska — about 6,000 — but the trend indicated an apparent Taft victory there, too.

Kefauver, the Democrat from Tennessee, won by a thumping majority in Wisconsin. He was 180,000 votes ahead of his closest foe, and he licked Sen. Robert S. Kerr of Oklahoma in Nebraska, the first state where Kerr was entered as a candidate.

Kerr conceded defeat in Nebraska shortly after daybreak.

Kefauver picked up 28 delegates in Wisconsin. Nebraska's delegates, 18 Republican and 12 Democrat, were not committed to vote for anyone at the conventions.

Taft won all 30 delegate delegates in Wisconsin. His state won out, too, in 14 of 26 district races. Gov. Earl Warren of California got the other six delegates. Former Gov. Harold E. Stassen of Minnesota, victor in Wisconsin four years ago, got none.

Gen. Dwight D. Eisenhower's name was not on the ballot in that state. Write-in votes were prohibited, but Warren backers said if their man failed to show strength at the convention, they would switch to Eisenhower. Stassen promised to split his delegate strength with the General. Stassen's name was on a ticket in Nebraska; Taft and Eisenhower's were not. But Stassen was running a poor third in the popularity contest there.

Some political analysts called the Wisconsin primary a race Taft "had to win" to stay in the running for the presidential nomination. He was defeated in New Hampshire by Gen. Dwight D. Eisenhower, and Eisenhower then racked up a towering write-in vote in Minnesota, a week later. Taft then tried unsuccessfully to get off the ballot in the April 15 New Jersey primary.

Taft called Wisconsin a "key state," but said yesterday he would stay in the battle for the nomination, regardless of what happened there.

Eisenhower, not a candidate in Wisconsin, nevertheless was the great unknown quantity in the election.

An open bid for votes from his admirers — who could not write in his name on the ballot — came from Stassen. The former governor of Minnesota successfully divided his delegates with Eisenhower in Wisconsin with Eisenhower. Stassen won none.

Warren, a three-day-a-week campaigner, consistently told the voters he was not running as a standard for Eisenhower. His slate of delegates, however, asserted they would still be able to support the General at the GOP nominating convention, if or when Warren conceded he was out.

There was no way of telling which of the two, Warren or Stassen, benefited most from the "Eisenhower vote" in Wisconsin, not how large it may have been. With 75 precincts still unreported, Taft had 40.8 percent of the total Republican vote.

What engineers describe as "one of the most beautiful pieces of road work ever to be constructed in the Panhandle" will soon be taking shape through the south end of Gray county along U. S. Hwy. 66.

It will be the paving of about 12 miles of the highway from the Wheeler county line to a point west of Almarco. Bids on the project, expected to cost around one million dollars, are to be opened in Austin by the State Highway Commission on April 15.

The road itself will be concrete with asphalt shoulders, four-lane drive with a boulevard type separation varying in width from 20 to 40 feet.

Two lanes, carrying the west bound traffic, are entirely new sections. The two-lane east bound driveway is mostly along the old road bed except for three sections which have been moved north to straighten the highway. Through McLean the east-bound line will run along Railroad while the west-bound runs along First.

Engineers reported yesterday that no decision on type of topping for that section has been decided on. It may be the same as that called for under present bids or may be completely asphalt.

Red Cross Funds Now Up To \$8000

Red Cross officials said today they have collected nearly \$8000 and are seeking more funds. Howard Buckingham, drive chairman; Albert Doucette, chapter president; and Mrs. F. W. Stetwell, chapter executive secretary, met Tuesday with L. R. Burnett, general field representative of the Red Cross.

They are asking all workers who have not reported to the office, to bring in the money. Those persons who have not been contacted for funds may mail contributions to the local office.

Judge Lumpkin Will Not Run For Re-Election

AMARILLO (AP) — The race for one of the Panhandle's top judicial positions was thrown wide open here last night when Judge James G. Lumpkin, associate justice on the seventh court of civil appeals, announced he will not seek re-election in this year's campaign.

Justice Lumpkin, for two terms the 47th Judicial District attorney before he went on the appeals bench, did not announce any future plans. At the time of his announcement there was no announced opposition to his candidacy.

The Seventh Court serves a sprawling area of 46 Panhandle-South Plains and West Texas counties.

JOHN WILKINSON ... resigns as chief ... CAPT. JAMES B. CONNER ... he is now Chief Conner

Wilkinson Quits; Conner New Chief

Chief of Police John Wilkinson resigned from his post and will be succeeded by Capt. James B. Conner, it was announced today morning by City Manager Dick Pepin.

Wilkinson resigned to become general manager of York, L. and Dry Cleaners, a move he has been contemplating for several months.

The retiring chief said he had been undecided on the change until Sunday afternoon when he decided to take laundry job.

Conner, in the confusion surrounding the surprise announcement, last night in police headquarters. Chief Wilkinson said continued on his 9 p.m. to 5 a.m. shift as captain. He wouldn't have had to work it.

This morning the new chief was to sleep in a new comment on the sudden change in command of the police force.

Wilkinson told reporters this morning: "As much as I like police work, you know, any new offer would have to be pretty good in order to make the change in mind."

Laughingly, he added: "I guess I couldn't clean up the city as chief, so I just took to putting up laundry and do it that way."

This was the second time of city for Wilkinson as chief of the Pampa Police Department. He first served as chief from July 1, 1940, to Dec. 31, 1941, when he resigned to enter the Federal Bureau of Investigation.

In 1949 he was on the verge of resigning as chief to accept a similar post at Lubbock, but at the last minute decided to remain in Pampa.

Wilkinson left his farming and dairying business to go with the State Highway Patrol in 1938. First stationed in Shamrock, he was transferred to Pampa in June of that year and took over the police department here following the resignation of Chief J. I. Downs.

During World War II he served with the FBI until he was critically injured in a bus-auto crash which led to his retirement. He returned to the dairying business and stayed in it until Nov. 2, 1949, when he again became Pampa's chief of police.

Conner, who served for a few months in the Army at Fort Knox during the last war, was

Virgne Services Slated Thursday

Services for Thomas B. Virgne, 67, of Skellytown, who died Monday, will be held at 2 p.m. Thursday from the Skellytown Community church, with Rev. Albert Stroh officiating.

Burial will be in Fairview cemetery with Masonic rites at the grave. Pallbearers will be F. C. Horner, M. E. Lamb, J. C. Jarvis, J. W. Winkle, E. E. Crawford, and W. W. Denham.

Mr. Virgne retired from the Stanolind O&G Co. two years ago. He has lived in Skellytown since 1937.

Survivors are his widow, Elsa; three sons, Fred of Los Angeles; Gene of Martinez, Calif.; and Forrest of Cody, Wyo.; four brothers, Walter, Harold, Lovell, and Estel, all of Spiceland, Ind.; and a sister, Mrs. Nettie McRoberts.

Services are under direction of Duengel - Carmichael Funeral home.

FIRE — Lint collection in a floor furnace at 539 N. Nelson caused a small fire at 5 p. m. today. No damage was reported except from a smoke filled house. A trash fire was put out at 10:46 last night in the 200 block at N. Gaylor.

Telephone, Telegraph Strike Looms

WASHINGTON (AP) —

The nation's telephone and telegraph system braced today for a series of threats of strikes due to start at midnight.

Approximately 30,000 Western Union employees were set to walk off the job across the country. A top official in their union, the AFL Commercial Telegraphers Union (CTU), said "there definitely will be a strike as matters will now stand."

At the Western Union strike begins off as scheduled, it is expected to cripple telegraph facilities from coast to coast, with the exception of New York City. Employees there belong to another union. But even in New York the CTU is preparing to

give an 8-hour day and set up picket lines in an effort to make the shutdown a night. The union is demanding a 16-cent across-the-board wage boost. It also wants its work week reduced from 48 to 40 hours, with no reduction in pay. The Pampa chapter of the Red Cross, (See TELEPHONE PAGE 3)

First Aid Instruction Today And Thursday

First aid instruction will be given at 7:30 p.m. today and Thursday in the Girl Scout Little House by Bob Baldwin. Those interested in enrolling should attend tonight's class.

Places for six persons remain in the course sponsored by the Pampa chapter of the Red Cross.

DEFINES FREE ENTERPRISE — (Clifton Evans, Pampa businessman, talked on free enterprise to high school students this morning. A number of prominent local industrialists shared the stage with him in the Texas Industrial week program. (News Photo)

Free Enterprise Accented In Two Speeches On Industry

Muns, Kingsmill plant superintendent. Blain Johnson was introduced as the April Junior Rotarian by Jimmy Smith, retiring Junior Rotarian for March.

Steele spoke to the civic club in conjunction with Texas Industrial week. Following his talk the club took a trip through the Skelly-Kingsmill gasoline plant.

Clifton Evans of the Tex Evans Buck Co. explained to high school students this morning the meaning of free enterprise.

The Cabot superintendent told Rotarians industry has taken a different stand toward its buying and tax regulations on industry because it is "an asset to your state and your community."

Steele spoke to the civic club in conjunction with Texas Industrial week. Following his talk the club took a trip through the Skelly-Kingsmill gasoline plant.

White Sidewalls Available Again

WASHINGTON (AP) — The government has lifted its ban on white sidewall tires and increased the amount of natural rubber that may be used in passenger car tires.

Farm Wife Artist Attracts Attention

PROSTON, La. (AP) — Mrs. Hattie Boring, farm wife artist, has attracted attention for her pictures of white sidewall tires and increased the amount of natural rubber that may be used in passenger car tires.

Salesmen Will Buzz Around Customers' Doors This Year

(Editor's note) — This is the bouquet gets nearly two thirds second of three articles on a state-by-state Associated Press survey of business conditions.

By the Associated Press — Salesmen will buzz around customers' doors this year in the most concerted selling effort seen in years.

It will be the greatest test of sales forces since before World War II.

And the biggest customer of all — the federal government — will add the key to whether sales will be as good as many auto makers expect.

There are the prospects, discussed by an Associated Press survey of the nation's business outlook for 1952.

The survey of business, sales and profits have fallen behind the schedule swollen by the strike.

At Pittsburgh it was fear of the push of a steel strike.

In New Mexico and many other states heavy income tax cuts were tried to speed up business.

What makes the retailer optimistic, after all these setbacks?

Well, in South Dakota merchants think Easter business will be good "because money that normally would have been spent at Christmas is ready to start flowing."

"This time of year makes me want to be young and care-free again, without all the problems of a kindergarten education!"

Peoria Nips Kansas, 62-60, As Lovellette Misses Winner

NEW YORK — (AP) — Basketball record books will show that Clyde Lovellette scored the highest three-year point total of any player in history — an astounding 1,888. But the points the big guy will never forget are the two he didn't make last night.

The human scoring scourge from Kansas University missed perhaps the most important field goal of his life — a dinky old one-footer — as his team dropped a tinging 62-60 decision to the Peoria Caterpillars in the finals of the Olympic Basketball Tournament.

Too, it will go into the books that Peoria, the AAU champion, won the game when Howie Williams connected with a 20-foot one-hander with eight seconds to go.

But if you talk to anyone who saw the game, they will tell you that the crowd was a mere 6,234 of 'em in Madison Square Garden last night — they'll tell you Lovellette's miff of a simple layup was the big story.

With the score tied 60-60 and 15 seconds left, Lovellette electrified the crowd by passing the ball from Peoria's Marchus Preberger.

The 244-pound giant lumbered down the court with nary a defender under the Caterpillar goal. There was a Kansas teammate on each side of the basket.

Lovellette strode in himself, aiming to dunk one of the easiest baskets he'd ever made.

"I felt sick," said the record-breaking all-America later. "After making all those tougher baskets I had to go and blow that dinky old one-footer."

After the historic miss, Ronnie Bontemps of Peoria grabbed the rebound as the clock spun toward the zero mark.

Bontemps fired down court to Williams, who sent a high-arching one-hander through the hoop to climax one of the most heated games seen here this season.

After the game there was some question whether Lovellette should have passed to a teammate under the goal. But he was in the clear and odds on him missing a basket as easy as that probably would have been something like 1-to-100.

As a result of its hard-earned victory, Peoria is the supreme ruler of amateur basketball in this country. Five of the Caterpillar players have qualified for the U.S. Olympic team, and with seven members from Kansas and two from the Phillips Oilers, will journey to Finland this summer for the international competition.

The victory made Peoria's Coach Warren Womble, only 32, mentor of the Olympic cage squad. Phog Allen, Kansas coach, will be his assistant.

Sollie Hemus Helping Make St. Louis Cardinals Tough

By RALPH RODEN
Associated Press Writer

The dossier on Solly Hemus, St. Louis Cardinal infielder, has a new entry under the column called "attributes."

Last spring only the intangible "hustle" was listed, but now "good hitter" has been added.

Hemus is probably the most improved player on Manager Eddie Stanky's squad.

The former Navy chief petty officer from San Diego, Calif., is banging Grapefruit League pitching at a .500 clip, a pace of course which will decline.

But Hemus' hitting is not just a flash in the pan. The 27-year-old "holler guy" improved vastly during the latter half of the 1951 season. He wound up the year with a .281 mark but socked a juicy .344 clip from mid-July on.

Hemus pounded out a triple and two singles yesterday as the Cards defeated the Detroit Tigers, 5-0, at St. Petersburg, Fla.

Veterans Cliff Chambers and Red Munger blanked the Tigers on seven hits.

The Cleveland Indians made it six straight over the New York Giants by beating the National League champions, 7-4, at Denver, Colo.

Third-inning home runs by Larry Doby and Al Rosen off Max Lanier featured the Indian drive. Al Dark banged out a homer, triple and single for the losers.

Brooklyn smashed Cincinnati's six-game winning streak by crushing the Reds, 13, at Tampa. Fla. Carl Furillo and Dick Williams collected three hits each to lead the Dodger attack.

Don Lenhardt and Vern Stephens hit successive home runs in the fifth inning to spark the Boston Red Sox to a 4-2 triumph over Shreveport of the Texas League in Shreveport, La. Ralph Bruckner and Willard Nixon held the Sports to six hits.

Veteran Ed Wright and rookie Tex Hoyie pitched the Philadelphia Athletics to a 4-0 victory over Macon of the South Atlantic League at Macon, Ga. Wright permitted only two hits in six innings.

The world champion New York Yankees scored four runs in the ninth inning at Orlando, Fla., to defeat the Washington Senators, 5-2. An error by shortstop Pete Forness admitted the first two runs.

Hobbs pounded him for 33 hits to anchor the Philadelphia Phillies, 10-4.

Roberts left under fire in the eighth inning in favor of Jim Konstanty. Konstanty stopped that rally but was slugged for two more runs in the ninth.

The St. Louis Browns came up with two five-run rallies to defeat the Pittsburgh Pirates, 10-4 at Houston, Tex. Rookie Jimmy Dyck sewed it up with a grand slam pinch-hit homer in the fifth inning.

Hank Sauer belted a two-run homer to pace the Chicago Cubs to a 4-2 triumph over the Chicago White Sox in a night game at St. Antonio, Paul Minner and Johnny Klippstein limited the Sox to five hits while the Cubs whacked three White Sox pitchers for 13 blows.

Double Event On Tomorrow

Alex Kasaboski, one of the more noted veterans of the wrestling game today, will battle George Lopez on the final of a double main event on the week-long wrestling card at the Southern Club tomorrow night. The first main event will start at 8:15 and see Johnny Pavich of Hungary facing Frankie Hart of Canada.

Tickets for the scrap are on sale today at the Sportsman's Store and will go on sale tomorrow afternoon at 5 at the Southern Club ticket office. The matches will be broadcast over KPND, starting at 8:35.

Fans who saw Pavich in action last week were impressed with his strength and ring know-how. And, similarly, those who saw Hart here the week before should have passed to a teammate under the goal. But he was in the clear and odds on him missing a basket as easy as that probably would have been something like 1-to-100.

Kasaboski is well known in the area, having been in Peoria when wrestling was held here years ago. He doesn't believe in rules, and has the weight and strength to back up most of his unorthodox tactics.

Lopez will be making his first appearance locally. From Mexico, Lopez appears to be another strongman, who should give Kasaboski a good struggle.

Both matches are scheduled for one hour time limit, the best two out of three falls.

Houston Blanks Ags

HOUSTON — (AP) — The University of Houston golf team blanked the Texas A&M golfers, 6-0, here yesterday. Previously, the two links teams had battled even in a match at College Station.

Lovellette To Play AAU Ball

NEW YORK — (AP) — Coaches of professional basketball teams look at Kansas' titanic Clyde Lovellette these days and just drool.

They can keep on drooling, as far as the six-foot-nine scoring wizard from Tere Haute, Ind., is concerned.

"I don't want any part of pro ball," Lovellette said today.

A senior who graduates in the spring, Kansas' great center said he has numerous feelers from professional teams and the figures he's heard have been tempting.

"But I'm thinking about my career," he said. "I'd rather get with one of the AAU teams like the Phillips Oilers or Peoria Caterpillars, go into business and play basketball on the side. Those are my plans."

Trans-Miss In Opening Play

PHOENIX, Ariz. — (AP) — Favorites, headed by defending champion Mary Ann Downey of Baltimore and Medalist Edean Anderson of Helena, Mont., dominated the picture today as a select field of 32 amateurs got down to the serious side of play in the annual Women's Trans-Mississippi Golf Tournament.

Match play was the order of the day in contrast to yesterday's medal qualifying, when nearly 200 golfers of assorted shapes, sizes and swings toured the Arizona Country Club under bright, hot skies.

Best score, at even par, was the 75 turned in by Miss Anderson.

Miss Downey finished with an 81. The figure was duplicated by another likely title threat, Marjorie Lindsay of Decatur, Ill.

Grace De Moss, Corvallis, Ore., played well for a 79, and Barbara Romack, Sacramento, Calif., still another solid bet, came in with a 78.

Runnerup for the medal honors went to Mrs. Lyle Newman, Richmond, Calif., who shot a 76.

Pat Garper, Midland, Tex., had an 80.

Rain Halts Play On Masters Course

AUGUSTA, Ga. — (AP) — Rain splashed down on the 98-year old roof of the Augusta National clubhouse and inside 60 golfers played clubhouse lawyer, dealt rummy or sat at a window and fretted.

The weather was bad yesterday—48 hours before shooting stars for the 16th Masters championship.

The course was officially closed most of the day and a guy couldn't even go out and hit a few practice shots for the first major tournament of the year, the first leg of the annual "tempting three" — the Masters, National Open and Professional Golf Association championship.

Jack Burke, Jr., is choice picking for a first class finish Sunday at the close of the Masters.

Burke's attitude isn't all mental. "I'll have to admit," he explained, "that I've got a new club I like a lot."

"It isn't exactly new — I've been using it all this year. It's an 11-iron. And it's a legal club."

"I can hit about 100 yards with it, get a high carry and I think it's accurate."

A golfer needs every club in his bag and practically every shot possible with every club to win a Masters on the 6,900-yard National. The greens are rugged and the fairways glisten with white sand traps out to 300 yards — just where a long hitting professional is most likely to land his ball.

Par is 36-36-72 or 288 for the 72-hole grind. Usually only four or five men shoot better than par.

Casey Likes His Yankees

ST. PETERSBURG, Fla. — (AP) — Joe DiMaggio is gone, but Manager Casey Stengel still thinks his New York Yankees will win their fourth successive American League pennant.

Despite the loss of the Yankee Clipper, Stengel believes he has the best outfield in the circuit. For that matter, the unabashed erstwhile Kansas City dentist is convinced the Yankees own the league's greatest catcher, the best infielders and the top pitching trio.

"My men got the stuff," Casey said as he gave forth with his characteristic wink. "We were good enough before and I think we can do it again. It will be rough, but then, it hasn't been easy since I came here. We've got problems, but they'll work out."

"The league will be stronger because of the improvement of the Detroit Tigers and St. Louis Browns. Cleveland has that great pitching and Chicago has that speed and hustle. But we're strong finishers, as we have proved in the last three years. Also, we don't have that long losing streak. I don't believe we've lost four in a row since I came here in 1949."

The only thing that can stop the Yankees is injuries, Stengel believes.

Yogi Berra, Joe Collins and Billy Martin have been out with leg injuries, he said. St. Louis is untalented for us, all are expected to be ready to play either before or by opening day. If those injuries had come in the summer, then we'd be in tough shape. I've always said this club would be on top here and here I think we are good enough to be on top again."

Although Stengel claimed he had the best outfield, he was at a loss to name his three regular picketers. For that matter, with exception of Berra, he had the plate. Phil Rizzuto at shortstop and Joe Collins at first base, the old performer still hasn't been able to make a starting lineup.

Gassers Sign Rook Outfielder

BORGER — Outfielder Ike Stuver, 23, rookie outfielder, has been signed by the Borgerr Gassers. Stuver, a righthander all the way, was the property of the Cleveland Indians.

Stuver, from Yaleta, was playing for Texas Tech, battling clean-up, when signed by Gainesville scouts. His contract was purchased last winter by Wichita of the class A Western League.

Coleman Joins Uncle Sam Today

JACKSONVILLE, Fla. — (AP) — Gerry Coleman, New York Yankee second baseman due to be returned to active Marine Corps service today, says he "hates to serve baseball but when they pull your name out of a hat there's not much you can do."

Coleman, 27, and Boston Red Sox slugger Ted Williams, 33, were scheduled to take a pre-induction flight physical at the Naval Air Station here.

Both men are reserve captains recently recalled to active duty.

Featherweights Fight Tonight

WASHINGTON — (AP) — Two little men, one a smooth boxer and the other a heavy puncher, collide tonight in a 10-round feather-weight prize fight.

Smooth-working Glen Flanagan of St. Paul, rated fourth by the National Boxing Association, will meet Washington's Gene Smith at Uline Arena.

For the past five seasons an average of 3,783,203 baseball fans have paid to watch American League night games.

Oilers In First Exhibition Tilt Today

CUERO — The Pampa Oilers were scheduled to open their spring training exhibition season at Cuero this afternoon, meeting the Colorado Springs Sky Sox in a game starting at 3 p.m. Manager Jake Phillips last night decided on his starting lineup as:

Jose Blanco, ss; Deck Woldt, cf; Norm Auerbach, 3b; Ed Sudol, 1b; Manuel Demas, 2b; J. A. Phillips, lf; Dale Holmsley, rf; Frank Calo, c; and James Haggard, Clyde Baldwin and Bill Bohne, p.

Phillips planned to get more

of the boys into the game if possible against the Class A Western Association club. Tomorrow afternoon the Oilers are scheduled to play the Amarillo Gold Sox. The weatherman gave the club a break yesterday with 90 degree temperatures and the Oilers had a good workout. A long batting and infield drill was held with big Ed Sudol, the first sacker, punching the ball up against the outfield boards and some of them over it. Dale Holmsley, a pitcher, was worked out in right field in place of the absent Doc Moore and Lloyd Stout. Holmsley was

looking good and will start there in the first exhibition game. Also still missing was right-handed pitcher Juan Montero, who apparently has gotten wrapped up with some tames somewhere between Havana and Cuero. He is nearly ten days late now. But the fact that he has been pitching winter ball all during the off season in one of the Cuban leagues means that he should be in pretty good shape. He reported late last season to the Augusta, Ga., club and still was the top pitcher. After tomorrow's game with

the Gold Sox, the Oilers travel to Gonzales to play the Hose on their home spring training ground and then take a one-day rest period before tangling with Roswell of the Longhorn circuit.

Manager Phillips plans to continue the two-day workouts whenever the club isn't playing in order to assure himself and the Pampa fans that when the Oilers return to Pampa to open the season they will be ready to get a fast start from the gate.

Limburger cheese originated in Belgium.

Harvesters Ready For District Meet

Pampa's Harvester thinned out yesterday a lengthy work-out schedule after the preparation for the District 1-AA field meet at Canyon Saturday. The Harvesters, competing in one of their biggest track seasons, will conclude their season the next weekend in the Sandie Relays.

The Harvester golf team will also be entered in the meet, playing 18 holes of medal play Friday afternoon at the Amarillo Country Club. Each school is permitted to enter two four-man teams.

Track preliminaries start at 9:30 Saturday morning at Buffalo Stadium in Canyon with the finals set for the afternoon. First, second and third place winners in track and the two low teams and two low players in golf will participate in the regional meet at Lubbock April 19.

A tennis meet will also be held, but Pampa will not participate.

Entered in the district meet beside Pampa are Plainview, Borger and Amarillo. Pampa's strongest chance to score comes in the shot put where husky Buddy Cockrell won second at the Odessa West Texas Relays last week. Cockrell reinjured his knee during yesterday's practice while high jumping and is expected to be ready for Saturday's competition.

PICTURE-MAKING PITCHER—Cleveland Pitcher Bob Lemon shows actor Ronald Reagan how to grasp a baseball during filming of the life story of Cleveland Alexander. Lemon has the job of teaching Reagan, who plays the role of the immortal pitcher, proper technique and will have a speaking part in the movie, (NEA)

Pirate Prexy Is "Satisfied"

BEAUMONT — (AP) — John Galbreath, millionaire Columbus, O., real estate operator who doubles as president of the Pittsburgh Pirates, is satisfied with the club's progress although "it might be invisible to the fans."

After several days barnstorming with the Pirates who are trying out all sorts of experiments with rookies, Galbreath says he's arrived at two conclusions:

1. You can't buy pennants by purchasing other team's castoffs.

2. The Pirates, under General Manager Branch Rickey, are developing young players who will be stars of the future.

From what they've shown in spring training, the bugs are not a sure bet to improve their seventh place standing of 1951.

Galbreath, who picked Rickey to lead the Pirates out of baseball's wilderness, took the occasion to give the Mahanata a vote of confidence.

He declared, "There is still no doubt in my mind he is the best man available for the job in Pittsburgh. He hasn't failed building a winner in other towns and I know he isn't going to fail here."

Since Rickey took over last season the Bucs have spent a good many thousand dollars but Galbreath defends the move.

"Sure we have spent a lot of money, but not in the way we have done in the past. We are spending it on youth. Baseball people tell me we have signed the cream of the crop and have the best prospects any club has picked up in the last year and a half. We just have to wait until these boys are ready for the major leagues."

Bears, Aggies In 14-Frame Tie

COLLEGE STATION — (AP) — Baylor's Bears and the Texas A&M Aggies played to a 14-inning 2-2 tie here yesterday in the longest game played on Kyle Field in many years.

The game was called in the 14th because of darkness.

Baylor had taken a 1-0 lead in the third when Jerry Coody singles, went to second on an Aggie miscue, and scored on Keith O'Brien's single.

In the sixth, the Bears made it 2-0 when Bobby Berge got a homer off Aggie starter Melvin Work.

A&M scored on an unearned run in the seventh when Bear shortstop Harry Davis flied to field a trickier off Bobby Farmer's bat. Hank Caselmir, who had previously doubled scored from second base on the play.

In the eighth, the Aggies tied it up for the day at 2-2 as Baylor errors helped. Martin Hamilton got on second when his grounder was bobbed and scored on another error.

Negro Joins Eagles

DALLAS — (AP) — The Dallas Eagles of the Texas League have a 26-year-old Negro outfielder and pitcher.

Dave Hoskins joined the Dallas team yesterday and club officials said he would get an early opportunity to prove himself.

Manager Dutch Meyer said he would start Hoskins on the mound tomorrow afternoon against the Boston Red Sox.

Experimental Free Handicap No. 1

NEW YORK — (AP) — Ten three-year-olds, nine of them with Kentucky Derby ambitions, tangled today in the \$20,000-added Experimental Free Handicap No. 1 — first major eastern test of the young season for the sophomore runners.

The probable favorite is Bayward Sharp's Hannibal.

Casey At The Bat: No. 3 Line-Up Depends On Situation — Stengel

By CASEY STENDEL
Yankees' Manager

(As told to Harry Grayson
NEA Sports Editor)

The Yankee infield last season was the cause of shock for many people. I attribute that to the fact that we had an AC infielder — an Alternating Chaplain — in the lineup.

The boy with the built-in generator was, of course, the remarkable Gil McDougald. He was the cornerstone of what came to be known as our two-plate system, a device which came about because it was the best solution to a ticklish problem.

A lot of managers go around saying, "Players who make my starting line-up have to hit any kind of pitching." That's fine and dandy until you start losing games wholesale, then it's not fine and definitely undandy.

If a man simply cannot hit any kind of pitching, you've got to take him out against the pitcher he can't hit. Either that or buy a one-way ticket to the league basement. And I don't want to go to the basement; I'm susceptible to both colds and unemployment.

The same business is true on defense. Some players are better fielders than others. You're just being stubborn when you leave the fumble-fingered boys in, when you have slick fielders riding the bench. Especially in the late innings of tight games, when a good catch can save the day.

That's why I'd like Big John Mize, the walking boxcar, out

Still More About The Author

There was something independent in the Casey Stengel attitude which John J. McGraw, the dictator, could never quite stand. The Giant martinet admired Casey's brains and talent, but as an employee, Stengel drove him nuts.

John J. used to assign detectives to keep check on his most unreliable athletes. Casey among them, of course. One copper would follow Stengel and Irish Meusel, who palled together regularly until they spotted the sleuth.

The next night, Meusel went one direction and Stengel another. McGraw received a prompt report. He asked Casey the next day, "Why didn't you go out with Meusel last night, like you usually do?" McGraw demanded.

"Listen," Casey said, indignant, "you'll have to give me a detective of my own. I ain't gonna save this club no more dough doubling up!"

CASEY (HIMSELF) STENDEL

Bufs Need More Hitting To Win

By DICK FREEMAN
Sports Editor Houston Chronicle

HOUSTON — (AP) — Last year it was phenomenal pitching that pulled the Houston Buffs through for a wide margin of 13 1/2 games in the Texas League, as well as a clean sweep of the playoffs.

The squad was hitting last, averaging a miserable .238. But they had superb pitching from Dick Bokelman, the reliever who won 10 and lost two.

The squad was hitting last, averaging a miserable .238. But they had superb pitching from Dick Bokelman, the reliever who won 10 and lost two.

Minor League Baseball Roundup

By the Associated Press

A club without a major league affiliation is supposed to have trouble getting capable rookies. But Brownsville of the Gulf Coast League did all right last year, landing four who were instrumental in bringing the Charros the pennant.

General Manager Phil Alexander quietly combs the diamonds of nearby Mexico and has some 20 recruits working out daily under Manager Dick Mickitt. And the report is that Brownsville will come up with some "new phenoms."

Alexander was challenged to a pie-throwing contest by Chuck Young, general manager of Harlingen. The deal was that the 294 with Columbus, Ga., last season.

Dick Landis, who rode the bench most of last season while Les Fusselman was doing the catching, and Mel McGaha, the Arkansas husky who has been converted from an outfielder, are tops in the catching department.

Of course they are expecting help from the St. Louis Cardinals, especially in the outfield, probably at second base and on the mound.

But they're going to have to hit above a whisper this year. That's in the books.

Irish Thinclads Enter 3-AA Meet

SHAMROCK — (Special) — Coach B. L. Hill's Irish track team will be travelling in high company Saturday when they take on the field at the District 3-AA track meet at Memphis. Likely winner is Wellington, whose football antelopes dazzled the Irish with their speed last fall and almost whipped the Irish in a breathless, 19-15 tie.

Shamrock's Jimmy Don Lamb and Van Pennington, both fast boys in the 100-yard dash, will be faced with the area deer, Scidon Wood of Wellington, probably the fastest athlete in the area. Wood was in the state finals last season.

Hill has hopes that one or the other of his speedsters can make a creditable record in the 100 and 200, but doesn't expect them to measure the Wellington whiz. Van Pennington will be entered in the 200, which he is regarded as a good prospect. Pennington was an all-state end in football.

Jimmy Pennington also will be in the 100 and will also take on a role in the sprint relay and the mile relay.

Versatile Van will be entered also in the broad jump, spring relay and mile relay.

Carlton, ace Irish halfback, will go into the high jump and pole vault. Don was third in pole vault at the Panhandle meet last weekend. He hit 30 feet six inches.

Edward Coe, a junior, "looked

Mosconi Nears Title

BOSTON — (AP) — Defending Champion Willie Mosconi of Haverstown, Pa., today was only two games away from clinching his third straight world's championship pocket billiards championship and his 10th in 11 years.

Mosconi gained his seventh straight tournament victory last night by overwhelming Arthur Cranfield of Syracuse, N. Y., 150-23, in nine innings.

"I'm mighty good" in the 140, Hill said and reported Bill Parks is "improved" in the mile run. Parks will join his colleague, Eugene Smith, who was fourth in the mile at Panhandle.

J. R. Stansell will be a white hog in the half mile and John Hartwick, unable to attend the Panhandle meet last week, will be in there pitching at the mile relay, sprint relay and broad jump.

Hill said he would have to reshuffle plans as a result of things learned in the Panhandle meet last week, in which the Irish scored five points, but lost widely to the victorious Wellingtons.

Hill said Van Pennington "looks good" in the 200, but wasn't fully conditioned last week. The Irish speedster is expected to be in top shape for the district clash.

Charley Coe In Colonial Meet

By the Associated Press

A year ago today — Walt Dropp, Boston Red Sox slugger, broke his wrist and team officials said he would be out two months.

Five years ago — Charlie Backman, ex-Michigan State football coach, retired from the game after 29 years, to enter business.

Ten years ago — Dorothy Kirby won the Titleholders Golf Tournament with a 239 for 54 holes.

Twenty years ago — Buster Crabbe won the 500-yard free-swimming championships.

Fish Beat Cubs

WACO — (AP) — Right-hander Jerry Nelson allowed only one hit here yesterday as his Aggie freshmen team notes turned back the Baylor Cubs, 1-0.

Jack Haney's first inning single was the only hit the little Bruins garnered all day.

SPORTS MIRROR

(Tomorrow: Viva la bench.)

Charley Coe In Colonial Meet

FORT WORTH — (AP) — Charles Coe, the former National Amateur champion from Oklahoma City, today was added the field for the \$15,000 Colonial National Invitation Golf Tournament. It brought the entry list to 32, with 20 professionals and two amateurs.

Billy Maxwell, the current National Amateur king, already had accepted an invitation to play in the tournament.

Coe has played in this tournament twice before. He tied for twentieth place in 1948 and tied for tenth in 1950. He was a member of the Walker Cup team last year and was in England when the tournament was being held.

Several other amateurs are to be contacted, said they could not come here as they will be playing in the British Amateur.

SPORTSMAN'S DIGEST

By Hal Sharp

SHOULD A HUNTING DOG BE A PET?

SOME PEOPLE BELIEVE IT RUINS A HUNTING DOG TO MAKE A PET OF HIM. THEY ARE WRONG BUT...

THE DOG MUST REMAIN OBEDIENT AS A PET!

A GOOD DOG DELIGHTS IN WINNING PRAISE AND AN AFFECTIONATE PAT FOR A JOB WELL DONE. WHEN HE KNOWS HE WILL BE REWARDED HE STRIVES HARDER TO PLEASE.

THE HUNTING SEASON IS SHORT. THE MONTHS BETWEEN ARE LONG. SO ENJOY YOUR DOG ALL YEAR. BOTH OF YOU WILL BENEFIT!

Earl Caldwell of Harlingen

Earl Caldwell of Harlingen may be the oldest active player in organized baseball this year. He is 42. Caldwell was the leading pitcher of the Gulf Coast League last season, winning 19 and losing six and compiling an earned run average of 2.21. He pitched 16 complete games and 199 innings at the age of 47.

Only three clubs of the West Texas-New Mexico League are training at home. They are Albuquerque, Abilene and Lamesa. Clovis is conditioning at Marshall, Pampa at Cusco, Lubbock at Uvalde, Borger in Fredericksburg and Amarillo at Gonzales.

The Gulf Coast League enacted a retirement program at the close of the 1951 season, cutting the player limit from 17 to 15. Each club will save some \$5,000 in salaries and transportation expenses.

President Howard Green says it's the rule rather than the exception that every Class B club has a couple of players who aren't helping anyhow.

Buster Chatham, general manager of Waco in the Big State League, was one of the smallest players of his day — just 5 feet 5 and weighing 150 pounds — but he was an active player for 25 seasons. In 1945, the age of 47, he was in 122 games at shortstop for Memphis. Buster reached his peak in 1930 and 1931 when he was with the Boston Braves.

HOME OF SOCIETY BRAND CLOTHES

Dr. Douglas Nelson Is Speaker At Guest Tea

Dr. Douglas Nelson was speaker at the annual Twentieth Century Allegro guest tea Tuesday in the City Club room. Hostesses were Mmes. M. H. Wyatt, Robert Duke, Betty Brock, Bill Waters, H. C. Grady, Jr., and J. W. Draham, Jr.

Dr. Nelson began his talk on Scotland by explaining that in his memory he associates Scotland with the National War Shrine in Edinburg. That shrine is not like any monument in this country, he said.

"Scotland is a room centered with a jagged piece of granite. In the room is a book filled with names of men who served in World War I, and another book containing names of those who didn't return. This granite in the shrine seems to be characteristic of the Scots because of its strength and durability.

"Scotland is a small country, but it has left great impressions in many fields, and has given the world many famous scientists, poets and writers. The Scots keep their customs no matter where they go; they never seem to lose what Scotland builds into them. As a rule, the Scots are small, dark energetic people.

"Up to about 200 years ago, Dr. Nelson said, "Scotland was a world unimagined. The clans in the highlands lived in a little world, each clan living under the rule of a king. Although the clans are broken, and people have moved from the hills, many of them still haven't seen the modern way of life.

"The Highlands offer many interesting features. You can be by yourself for hours without seeing anyone or anything, except the wind blowing the heather and smoke rising from the cabins. The Highlands have a grandeur that can't be found here. Its day is a thing to remember.

"The hominess about Scotland is impressive, too. Edinburg has a charter all its own, but one outstanding interest is the castle built in the early part of the 17th century. The old town stretches from the castle in which Mary Queen of Scots was born."

Christian CWF To Attend Amarillo Meet

A group of women from the First Christian Church Christian Women's Fellowship were to attend a meeting in Amarillo today.

The women planned to visit the West Amarillo church for a luncheon and meeting.

EARLY EXAMINATIONS

The oldest known system of examinations was that used in China for the selection of officers for the public service, according to the Encyclopedia Britannica.

DOGGY DISCUSSION

The dog probably was the first animal to be domesticated by man. It happened so long ago that the dog's origin is rather obscure. Most important ancestor of the modern dog seems to have been the wolf.

Participating in the show were Mmes. M. E. Wells, Hope Rusak, Jo Hy Smith, J. D. Edgar, Baten, J. W. Eversley, Jessie Pearson, Edward Dittberner, Martha Armstrong, Ray Roles, Jay Phillips, Harvey Bates, W. B. Carey, W. D. Newman, M. V. Mears, E. L. Golgrove, H. G. Hynds, John Beard, O'Keefe, J. W. Wells, and Misses Guyda Baten, Gordia Bell Miller, Bette Fern Roles, Linda Kay Baten, and Claudia Eversley.

Lloyd Collis, G. A. Bell, T. G. Brewster, L. M. Ballard, Guy Thompson, Biggs Horn, Sam Osborne, Dore Locke, Ollie Bray, Brian Ed Evans, Mary Thornburg, C. M. Estes, Joe Seitz, W. C. Powers, W. E. Moore, Brooks, Eddie Dittberner, Alita Boyd, E. F. Tubb, G. B. Moss, and Miss Hazel Reese.

Balen-Crawford Vows Read In New Mexico; At Home In Lubbock

WHITE DEER — (Special) — Miss Bonnie Balen, daughter of Mr. and Mrs. Winburn Balen of White Deer, became the bride of J. Earl Crawford, son of Mr. and Mrs. J. M. Crawford of Pittsborough, Mississippi, March 14, in the parsonage of the First Baptist church, Clovis, N. M., with the pastor, Rev. Kyle performing the ceremony.

Mrs. Crawford graduated from White Deer school in 1948 and attended Wayland College for two years. At the time of her marriage she was employed by the Community Finance Corp. in Amarillo.

Mr. Crawford is a graduate of Mississippi State College, and served in the Navy for five years. They are now at home at 1324 29th Place in Lubbock, where Mrs. Crawford is working for an insurance company, and Mr. Crawford is employed by the Community Finance Corp.

Mrs. Jessie Earl Crawford, who before her marriage on March 14 was Miss Bonnie Balen, was the honoree at a post-nuptial shower, Saturday evening, in the home of Mr. Albert Matheson.

Assisting Mrs. Matheson as hostesses were Mmes. Neal Edwards, F. J. Travis, Charles Milligan, C. P. Pussey, C. C. Kelly, and Frank Evans.

Mrs. Crawford and her mother, Mrs. Winburn Balen, were presented coronets of pink carnations. A bouquet of pink carnations in a white pottery bowl centered the refreshment table and pink candles and other table appointments carried the bride's chosen colors. Miss Peggy Travis presided at the punch bowl, and Mrs. Milligan registered the guests.

Participating in the shower were Mmes. M. E. Wells, Hope Rusak, Jo Hy Smith, J. D. Edgar, Baten, J. W. Eversley, Jessie Pearson, Edward Dittberner, Martha Armstrong, Ray Roles, Jay Phillips, Harvey Bates, W. B. Carey, W. D. Newman, M. V. Mears, E. L. Golgrove, H. G. Hynds, John Beard, O'Keefe, J. W. Wells, and Misses Guyda Baten, Gordia Bell Miller, Bette Fern Roles, Linda Kay Baten, and Claudia Eversley.

Lloyd Collis, G. A. Bell, T. G. Brewster, L. M. Ballard, Guy Thompson, Biggs Horn, Sam Osborne, Dore Locke, Ollie Bray, Brian Ed Evans, Mary Thornburg, C. M. Estes, Joe Seitz, W. C. Powers, W. E. Moore, Brooks, Eddie Dittberner, Alita Boyd, E. F. Tubb, G. B. Moss, and Miss Hazel Reese.

Mrs. Grady Adcock Is Miami Club Speaker

MIAMI — (Special) — Mrs. Grady Adcock was guest speaker for the Home Progress club when it met in the home of Mrs. R. E. Thompson, recently.

Mrs. Adcock, introduced by Mrs. C. C. Carr, told of her recent trip to Europe and the Holy Land. She also showed pictures and souvenirs gathered from the nine countries visited.

For her special feature, Mrs. Carr presented a history quiz. Mrs. Hettie Seiber won first prize, and Mrs. W. L. Russell, consolation.

During a social hour, the hostess served a refreshment plate to Mmes. Adcock, Dan Graham, Nell Seiber, Anne O'Loughlin, and Excell Anderson, and the following members: Mmes. W. D. Allen, Carr, A. H. Gorson, Howard Mulkey, R. E. Webster, R. B. Mathers, W. L. Lard, Ross Cowan, Hettie Seiber, L. A. Maddox, Frank Gracy, J. K. McKenzie, and W. L. Russell.

Pampa Clubwomen To Attend District Meeting

"An Informed and Responsible Womanhood" is the theme of the 31st annual convention of the Seventh District, Texas Federation of Women's clubs, to be held in Borger April 17, 18 and 19. Delegates from six local Federated clubs will attend. Representatives include Mrs. H. R. Thompson, Twentieth Century club; Mrs. Myles Morgan, Twentieth Century Culture; Mrs. Bob Curry, Parent Education; Mrs. Bruce Pratt, Twentieth Century Forum; and Mrs. J. C. Vollmert, Varietas Study club.

Ben Guill, former congressman, will be one of the guest speakers at the district meeting.

Highlights and speakers who will appear on the program have been announced in "Conventionally Speaking" a bulletin released this week by Mrs. O. M. McGinty, of Spur, president of the district.

Mrs. Van Hook Stubbs of Wortham, state federation president, will speak on "The Texas Clubwoman—A Responsible Citizen." Friday afternoon, Friday morning Hon. John Ben Shepherd, Secretary of State, will talk about "Nature's Agreeable Blunder."

Dr. Paul Southern, Abilene, of the Hogg Memorial foundation, will deliver an address on the "Emotional Atmosphere of the Home at an American Home luncheon at 1 o'clock.

On Saturday morning, Delbert Downing of the Midland Chamber of Commerce will discuss "A Clubwoman in Her Community."

Other events scheduled for the convention include a public affairs forum with Mrs. J. Howard Hodge, Midland, past president of the Texas Federation of Women's clubs, and Ben Guill of Pampa, as speakers. Margaret Turner of Lubbock and Mrs. Carl Englund of Morton will appear on a press and publicity panel.

The board of directors of the district will be honored with a pre-convention dinner at their meeting Thursday night at the Hotel Borger, convention headquarters.

A civil defense breakfast Friday morning, with a Friendship hall tea in the afternoon and fine arts program Friday evening fill in full program for a day.

On Saturday morning a parliamentary procedure breakfast under the leadership of Mrs. H. F. Godeke of Lubbock and a year-book planning breakfast workshop led by Mrs. W. E. Cantrell, regional vice president of Lometa, will vie with each other for early morning attendance.

An awards luncheon at the college cafeteria will draw a close to the convention proper Saturday at 12 o'clock.

Mrs. Bryan Edwards of Lubbock is convention program chairman and Mrs. Robert Lindsay of Borger is the general chairman of the convention.

"Seven Last Words"

Rehearsal Thursday

Rehearsal for "Seven Last Words" will be held at 7:30 p.m. Thursday, director Roy Johnson announced today.

Tuesday, April 8, dress rehearsal will be held.

Both meetings are to be in the First Methodist church.

Mrs. Evans Hostess To Parent Club

Parent Education club members met Tuesday afternoon in the home of Mrs. Clinton Evans for programs stressing enjoyment of children and children's etiquette.

In speaking on the subject, "Enjoy Your Child," Mrs. Bob Clark pointed out that security and sympathy are major factors in rearing children who are happy in the knowledge they are loved and are satisfactory to their parents.

"Love, attention, interest, praise assurance and comfort, all aid to the growth process," Mrs. Clark said, "and they smooth the way to make growth easy. The most drastic thing a parent can do is hold back love from a child. Of course, all parents get angry and restrict their children, but if they want their child to feel secure, they should restrain him in such a way that will make him know he's still loved."

"When a child falls down, a parent may think he isn't hurt, but the child should be picked up and reassured. It may be only their feelings that are hurt, but hurt feelings are as important as the physical hurts, and a child needs gentle understanding at these times."

"Nagging is a habit parents can fall into easily and they must guard against saying 'no,' no and mustn't nagging gives a parent little chance to show love. It gives little time for parents to have fun with their children or enter into their play."

"The good feelings should overshadow the nagging and the parent should always watch for what the child does well and feel proud of him, and in this way get it over to the child that he is satisfactory to his parents."

In conclusion, Mrs. Clark explained that families who play together, live together successfully.

Following the first part of the program, Mrs. Charles Cook reviewed "Children Are People" by Emily Post.

"The child's training," Mrs. Cook said, "begins from the time you bring him home from the hospital. The training must continue until the habits are formed so that they're automatic."

The book goes into points over the regular routine and includes guiding points in punishment and table manners.

Attending the meeting were Mmes. Tom Braly, Clark, Cook, Robert Curry, Evans, Gene Fatheree, R. F. Gordon, John Hines, George Hofsees Homer Johnson, Joe Key, Julian Key, Myron Marx, Jr., Albert Reynolds, Rex Rose, Tom Rose, George Snell, J. B. Yeale and Ed Williams.

Reports from the state League of Women Voters convention will be given at the Council of Clubs meeting Thursday morning at 9:30.

Mrs. F. M. Culbertson, president of the local league, will be in charge of the program.

Mrs. Grundy Morrison, council president, invites all women who belong to clubs that are council members.

Cooking School Recipes

DROMEDARY EASTER BASKETS
 Make cupcakes from package of Dromedary White Cake or Devil's Food Mix according to directions on package. Frost tops of cupcakes with cooked frosting tinted green. Cover with green coconut and shape into a nest in which a few small candy eggs may be placed with a chocolate rabbit or chicken. Handles to baskets may be made by bending pipe stem cleaners and inserting in cup cakes.

MARBLE CAKE WITH FUDGE ICING
 Mix a package of Dromedary

white cake in one bowl and a box of Dromedary Devil's Food Cake in another bowl, following directions on package.
 Measure one cup water. Add 1-2 cup to 1 pkg. of mix and stir to blend, then beat until free from lumps. Blend in remaining water.
 Grease two 8x8x2 inch square pans and line the bottom of the pans with waxed paper lightly greased. Alternate spoons of white and dark mixture into each pan or make one layer white and one layer dark.
 Bake in 350 degree electric F. 25 to 40 minutes. Remove from pan and cool on wire rack.
 Frost with Dromedary Fudge Frosting made according to directions on pkg. Use 2 pkgs. for a nice spread between layers, sides and top.

QUICKIE ICING
 In a mixing bowl put 1 cup sugar, 1-4 tsp. cream of tartar and 1 egg white. Add 1-2 cup boiling water and start beating as water is added.
 An electric mixer is a must for this frosting and another MUST is boiling water.

ORANGE GLAZE FOR SPONGE CAKES
 2 tablespoons butter
 1 egg yolk
 Grated rind of 1 orange
 1-4 cup orange juice
 2 cups confectioners' sugar
 1-4 tsp. salt
 2 tps. lemon juice

Cream margarine and add the egg yolk, lemon juice and grated orange rind. Gradually add the sugar and orange juice, alternate until spreading consistency.

SNOW CROP STRAWBERRY ROLL
 3-4 cup cake flour
 1 tsp. baking powder
 1 1-4 cup SUNSHINE whipped cream

4 eggs, separated
 2 Tbsps. water
 Snow Crop strawberries
 3-4 cup granulated sugar
 1 tsp. vanilla extract
 Confectioners' sugar

1-4 tsp. salt
 Sift flour, measure; add baking powder and salt. Sift again.
 Separate egg yolks from whites. Beat whites until stiff but not dry, gradually beating in half of the sugar.

Beat egg yolks until thick and lemon-colored. Add remaining sugar, vanilla and 2 Tbsps. water. Continue beating until very thick. Gently fold in beaten egg whites into the egg-yolk mixture.

Fold in dry ingredients.
 Turn mixture into a shallow pan 10"x15"x1". Bake in a 375 degree F. preheated electric oven for 18 minutes.

Have a clean towel sprinkled generously with confectioner's sugar on to which the sponge cake is turned. Strip off the wax paper quickly. Let cool 5 minutes. Roll up beginning with 15" side. Let cool before filling with whipped cream to which partially frozen strawberries have been added, about 4 to 6 tablespoons.

This roll can be wrapped in aluminum foil and frozen.

University Site Bought In Malaya
 KUALA LUMPUR, Malaya — The Malayan government has bought 813 acres of land in Johore state from the Sultan for \$1,600,000 for building a University of Malaya.

The director of education, L.D. Whitfield, however, said construction would not be started for some time.

Realtor Says Industry Can Grow In Texas

COLLEGE STATION — (Sp)— "Texas can build one of the greatest industrial frontiers in America today," W.R. Darragh, Southern Division Manager of the National Association of Manufacturers, told the Real Estate Institute at Texas A. and M. College this week.

A. V. Carkhuff, president of the Society of Industrial Realtors, concurred with Darragh.

"There is going to be a migration of industry such as has never been seen before," Carkhuff said.

"Industry wants to get out of the congested areas," to the east, and take advantage of the wide-open spaces of the midwest and southwest.

"Call Texas The Miracle State," Carkhuff said. "You have accomplished miracles here. You and industry—hold the answer to inflation and poor economy."

"That answer is more products, and more industry provides more products. Inflation such as we have now is caused by shortage of products and an over-supply of money. The law of supply and demand is causing inflation, because the demand far outweighs supply."

Darragh said, "one of industry's greatest needs is community cooperation in preparing the ground for industry. Educate your community, and the sky's the limit."

"Texas ought to brag," he said, "Texas can grow and can continue to grow if this nation endures. You've got everything that industry wants. Industry wants to come to Texas."

R. P. Estes, president of the Texas Real Estate Association, said, "we believe more today in education than we ever have before, for practical reasons. Education will solve our current problem. That problem is meeting real estate needs of expanding industry."

GUM CHEWERS
 The chewing - gum habit is thought to have begun with the American Indians, who chewed the hardened sap of the spruce tree, according to the Encyclopedia Britannica.

Industry Must Fight Controls

Texas Industrial Work is currently being celebrated with much whoopla by Texas who are rightly recognizing the paramount role industry has played in the development of the State.

One of the "whenever's" of a concurrent resolution passed Jan. 22, 1931, by the House of Representatives designating the first week in April of each year as a period to honor industry goes like this:

"The industrialization of Texas has been encouraged and fostered by the cooperation of our people and the State government to the end that our expanding economic development shall not be diminished or halted by excessive taxes and crippling controls."

But let's face it: they don't tell the true story of what has happened!

The plain fact is that Texas industry has grown big IN SPITE OF CRIPPLING TAXES AND CONTROLS with capital put up under a system of free enterprise.

The going has been made tough by meddling from government bureaus.

Still is. And will be until all controls are lifted and industry is permitted to expand under a free and untrammelled economy.

But until happy day rolls around industry will have to keep up its fight against interference from government bureaucrats in the hope of ultimately delivering a knockout blow.

The Texas Manufacturers' Assn. has made this pointed suggestion in connection with the celebration of Texas Industrial Week:

"That all taxes be kept at the irrevocable minimum designed and levied at such level as will damage least the source of creative wealth upon which ALL jobs, ALL business and ALL taxes depend."

"We'll buy that recommendation and suggest that lawmakers everywhere heed its soundness."

Notes On The Retail Business

Retailing is a big business. It ranks as the second biggest in terms of people employed, 8,000,000 men and women look to it for their livelihood. Retail sales now total some \$128,000,000,000 a year.

Some of the stores are large and some are small. Some are individually owned and some belong to national or regional chain systems. But practically all of them have certain things in common—they provide good service, they offer reliable goods, and they do their essential job for a much smaller profit than the average consumer realizes.

The retailer is the purchasing agent for the consumer. For we can go to the factory to buy manufactured wares, or to the farm for our food. The magnificent production system of America, both industrial and agricultural, would be useless without an equally efficient system of distributing the goods. That is the retailer's function, and his existence depends upon how well he performs it. The consumer is fickle, and is not tolerant of mistakes. If the housewife thinks she has been over-charged or poorly treated in some store, she won't go back. In our competitive system, there's always another merchant who's eager to please her and get the trade.

American abundance depends upon the twin toils of production and distribution. One is as important as the other.

MOPSY Gladys Parker NOW STAY RIGHT THERE TO KEEP MY PLACE, I'LL BE BACK AFTER LUNCH TO LOOK AT THE REST!

A Bill of Grievances on Public Schools by the Sons of The American Revolution

VI

I have been quoting for several days the petition presented to Congress by the California Society and the National Society of the Sons of the American Revolution. The Petition stressed the need of Congress appointing a committee to investigate the textbooks used in the schools and colleges of the United States.

Now, I want to quote from the Brief that they filed with their Petitions. I quote:

"The attached petition is filed to support an investigation of conditions threatening our national security. It concerns the demoralization of our Public School System and the indoctrination of American youth with subversive propaganda originating from Communist Fronts."

"It is difficult for persons not in direct contact with that situation to grasp the full implications of the research conducted in this pattern. Judgment, in the average case, are based, not upon facts, but upon the opinions of others. There is a general lack of understanding regarding fundamentals—almost no familiarity with the original source materials."

"In preparing this brief we were confronted, at the outset, with the necessity of making the kind of a presentation that would acquaint others with the original evidence and enable them to form independent conclusions."

"We think that problem has been solved, for practical purposes, by the kind of a documented statement contained in this brief. Our study is based upon ten years' experience with subversive teaching. The research conducted in this pattern, judgment, in the average case, are based, not upon facts, but upon the opinions of others. There is a general lack of understanding regarding fundamentals—almost no familiarity with the original source materials."

"In preparing this brief we were confronted, at the outset, with the necessity of making the kind of a presentation that would acquaint others with the original evidence and enable them to form independent conclusions."

National Whirligig.. Gruenther Proved To Be A Charming Front Man For Ike

By RAY TUCKER WASHINGTON — Although Gen. Alfred M. Gruenther refused to discuss Eisenhower's political plans during his brief visit to report on West European defenses, "Ike's" chief of staff did so in a meandering campaign for the general's nomination.

"Ike" might show the professional, both friends and foes, a few tricks they don't know. His Army record shows that he has a genius for using men and for attaching himself to influential individuals able to advance his career. He knows how and when to turn on and off the famous "Eisenhower personality."

An Eisenhower-Gruenther combination in or around the White House for four or eight years might give the G.O.P. the same sort of victorious momentum that Franklin D. Roosevelt furnished the Democrats.

Anyway, this new analysis of "Ike" has impressed the politicians — and worried them slightly. They sense that they are dealing with no amateur, no simple Kansas boy or wooden soldier.

CONVINCED — In his off-the-record appearances before the Senate committee, Gruenther knew well that whatever he said would affect Eisenhower's chances. He had to sell critical Senators on the defense job "Ike" has done, as well as on the willingness of our European allies to fight. Even more than Eisenhower's World War II success, these are his current claims for nomination.

Gruenther succeeded so well that he convinced even such a hostile listener as doubting Tom Connally of Texas, chairman of the Senate Foreign Relations cause can agree on, in essence, it seems unlikely that much can be done to prevent them.

Mix these two assets with his flair for sparking favorable publicity, and they explain why the Eisenhower — for president movement is rolling on the face of so much machine opposition.

TUTORSHIP — Eisenhower has another success formula which might avail him. If he reaches the White House, he can pick the whole uterus with the tumors attached has to be taken out.

Some fibroids can be treated by radium or deep X-rays, but this is complicated and much skill and judgment is necessary in order to decide which tumors can be treated in this way.

Fibroid tumors of the uterus have to be considered on an individual basis. They may be large or small, they may produce symptoms, or there may be none. Treatment may not be necessary or there may be a question of choice between several methods.

They are so common in the middle years of life that they might almost be considered a normal part of growing a little older.

Aut. — Can you explain radio to me, Arthur? — Well, if you had a very long dog, reaching from New York to Chicago, and you tried to call in New York, it would bark in Chicago. That's telegraph; and radio is precisely the same only without the dog.

Unions Vs. The People

(Christian Economics) BY FERCY L. GREAVES JR.

The greatest crime of our civilization is ignorance. Men of good will are pretty much in agreement as to what is desired in a material way. It has been expressed in the terse phrase—the greatest good for the greatest number. They know the meaning of that phrase and they want it. Only a few really know. The great majority are, economically speaking, ignorant.

No man is omniscient. Few men can devote their lives to the study of economics. Many of those who do, do so with a purpose or prejudice in mind. They and their followers propagandize for a point of view that is in opposition to the interests of the people.

Our forefathers, realizing these dangers, provided us with a Constitution. Our government, to guarantee us our freedom, their freedom, preached that our day-to-day economic activities should and must be free from federal control.

Since the turn of this century there has been a growing tendency for the government to intervene on behalf of popular pressure groups. The occasional connivance of bought privileges for a few has been completely replaced by an ever-growing movement to vote openly for special privileges for mass groups.

Special pleading has hidden the fact from the public that everyone pays for these privileges. Propaganda leads many to believe that the costs are borne almost entirely by high income groups. This is not so.

Everyone in society bears a share of the monetary burden of very billion dollars the government spends. Every member of society also bears a part of the burden of the greatly diminished total production that results from reduced incentives to produce, and the reallocation of our productive efforts into channels which do not produce the greatest good for all.

It is ignorance, sheer economic ignorance, which permits these interferences to continue. If people only knew the awful results of inflation, it could be stopped.

It is the greatest good for the greatest number that the American people had a proper understanding of basic economic truths, the politicians would be forced to turn toward, the free market economy almost overnight.

Every privileged group would be thrown off the public payrolls. Production would force ahead with such rapidity that the rest of the world would forget its special privilege.

One of the most popular fallacies of our days is the identification of all labor with union labor. In the press, politics, and public opinion, top union officers are spoken of as labor leaders.

Out of four walks to the alter, I am known to two of the boys who harnessed their names to hers. One was a thorough gent, named Gene Loder.

One of the most popular fallacies of our days is the identification of all labor with union labor. In the press, politics, and public opinion, top union officers are spoken of as labor leaders.

What, No Smock? McEldore Admits He's Not Good With Paint And Brush

By HENRY McLEMORE

A few years from now, when I sign in at the postoffice, and the desk clerk asks me why I am there, my answer will be, "Tomatoes."

And I won't be answering facetiously or untruthfully. I'll be telling the gospel to the man. Last month, when I paid my grocery bill, there was a charge of \$38.00 for tomatoes. Next month it is likely to be even higher.

Why? Any sane reader would ask that. And I have an answer for you, and the answer is that, impressed by what the taking up of painting has done for so many—Churchill, Eisenhower, Kathleen...

So I took up painting. Bought myself a set of Rembrandt paints. Lamp black. Ultramarine blue. Blanca de zinc. Vermilion. Also bought a palette, and easel, and enough canvas to sail a ketch around the world.

Modesty being the key word on the McEldore coat of arms, I decided to put off painting such things as the sinking of the Titanic, the Galveston tidal wave, or the Battle of Gettysburg, and start on still life. But what still life?

After much thought I chose the tomato. The tomato, as you know, is remarkably well behaved. Quiet, attentive, never restless during sittings, and is available almost the year 'round.

I am very glad I chose the tomato. Heaven knows what my bill would have been last month had I chosen to put on canvas the Belgian endive, the avocado, the artichoke, a plate of caviar, or a porthouse. I'd be writing this from the posthouse now—room 111, Wing B.

My first painting of a tomato didn't look like a tomato. Not much, anyhow. A man seeing it would not have associated it with my own name and pepper. Nor did my second tomato, or my 500th tomato.

Maybe my forte is to make soup, I said to myself. So I bought some more tomatoes, followed by the Joy of Cooking's directions, and started painting a tomato soup. The result was a hundreds of yards of canvas, enough paint to take care of every chorus girl on Broadway, and a picture that could have passed for the Red Sea with a stomach ache.

Painting is not relaxing. Painting by amateurs, I mean. Trying to get the proper brush on a young girl tomato is more nerve wracking than anything I have ever known, including those dreadful moments when a claim of foul had been registered against the winning horse I had bet on.

Too, I had to leave my easel to answer calls from the grocer, who wanted to know if I were all right, and about my legs or arms, and buy a tomato farm.

Of course, there is the outside chance that Mr. Churchill and General Ike and Miss Cornell are more talented than I. Hate to admit it, though.

So They Say

The death of my boy (Negro Congressional Medal of Honor winner, Sgt. Cornelius Charlton) distinctly stirred a bar out of Paul Robeson and others who have said the Negro will not fight for our country.

I feel just as strongly about my reputation for integrity as I do about my legs or arms or any other part of my anatomy.

Are we going to call off witnesses for chairs, one for ethics, and another for rivets? —Rep. Charles Elick (R., O.) at hearings on military wage.

As far as I am concerned the struggle against Toryism is still on. —Aneurin Bevan, left-wing British Laborite.

PAMPA TEXAS INDUSTRIAL SALUTES

and the

Free Enterprise Which Makes This Week A Reality

April 1 - 7

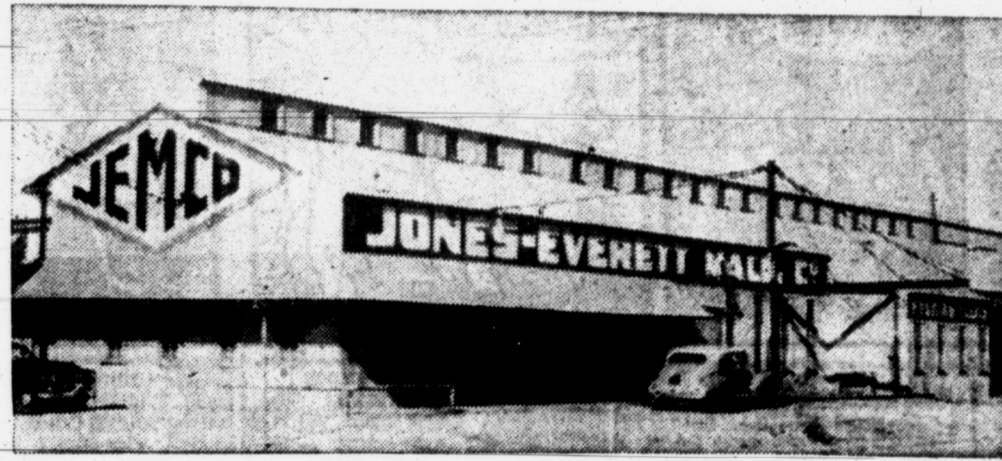

A hearty 'WELL DONE' to Pampa's MACHINE SHOPS

BAASH-ROSS TOOL CO.

Precision production to answer many-fold needs of other industry is a year-round job for Pampa's machine shops being honored here during Texas Industrial week.

In the machine shops are manufactured locally, items which are used both locally and in other parts of the nation. Rebuilding, fabricating, designing and producing — all are within the capacity of members of this industry. In addition to their other production, they have also produced a market for local labor, and products they have added to the overall worth of the city and, through their enterprise and industry, have made Pampa a better place to live.

This Beautiful Marlow Home

Yes, Folks, This Fine Home Is Now On The Market

... Probably you've read about the Marlows being transferred to Louisiana, and its a cinch they can't take it with them... This home is located at 1238 North Russell St on a 90 ft corner lot... Its a two story 3 bedroom colonial with a den... Its not what you would call the fanciest home in Pampa, but you can call it one of the finest homes in Pampa... If you have children and want to be right in the middle of all the schools, then this is the home for you... Theres plenty of room for everybody in the house, and it also has a very fine landscaped yard... If you would be interested in a home of this type I would be more than glad to show it to you... We are pricing it very reasonable... in fact we have to sell it... I would even consider a smaller house as trade in, as some people need a larger home and cant buy until they sell theirs... Just call me for an appointment... If you buy you'll be as satisfied as the Marlows... They sure hate to give it up, and I dont blame them.

"Why don't you show your appreciation of the birthday presents I gave you by working harder so I can pay for them?"

Transplanting Of Glands May Herald New Era For Medicine

NEW HAVEN, Conn. — (AP) — One of the most potential revolutions in medical science was disclosed this week.

Three sick men and women have been given glands transplanted from very premature babies to turn out hormones for new health.

It is an amazing and promising experiment in giving humans new spare parts. It may lead to many new methods of treating a variety of diseases.

Little pieces of glands were taken from unborn babies and put into stomach muscles of two men and a woman. The men got adrenal glands because their own adrenals had stopped making hormones, including cortisol. The woman got a thyroid gland, after her own sick thyroid was removed.

Animal tests indicate the new gland bits will stay alive, grow and make hormones. It is still too early to tell about the humans.

If it works for them, humans someday may get new glands to control diabetes without insulin, a gland hormone; to replace sex glands, to control thyroid diseases, even perhaps control some kinds of cancer. New glands might come from animals as well as humans.

Human or animal bodies might supply successful transplants of nerves or blood vessels or other spare parts that would take root and stay alive or grow.

The facts to date, and the future potentials, were disclosed in reports of research at Yale University Medical school. They were described during a tour of cancer centers sponsored by the American Cancer Society.

Dr. Harry S. N. Greene, Yale pathologist, showed that embryonic glands of animals could be transplanted successfully from one kind of animal to another. The bits of glands lived and produced hormones, even when transferred from an unborn

her Final Account of the condition of the estate of said E. Moore, deceased together with an Application to be discharged from said administration.

Said Final Account and Application will be heard and acted upon by a 14 day Court on the first Monday next after the expiration of ten days from date of Posting or Publishing this citation, the same being the 14th day of April, 1952, at the courthouse thereof in Pampa, Texas, at which time a 14 day place all persons interested in the Account for Final Settlement of said Estate are required to appear by filing a written answer and contest said account and application should they choose to do so.

Given under my hand and the seal of said court at office in Pampa, Texas, this 1st day of April, A.D. 1952.

CHARLES TRUIT, Clerk of the County Court Gray County, Texas.

By: Clea Husted, Deputy

Rogers Condemns Resolution Concerning Tideland Activity

Rep. Walter Rogers this week called the resolution regarding continuation of oil and gas operations under certain leases now before the U. S. Senate, a "foot-in-the-door" move that would destroy Texas' hopes of regaining her tidelands.

The resolution on the tidelands is part of the fight being waged in the Senate and is, according to Rogers, the chamber's one bit of unfinished business.

Sen. O'Mahony of Wyoming, leader of the fight for federal controls, was described by Rogers as a "very able man, very resourceful and thoroughly familiar with his subject."

O'Mahony's proposal, Rogers added, appears, on the surface, to be "inviting" but if adopted would be "the foot-in-the-door" for federal control that could well mean the death knell of Texas' hopes to recover property that rightfully belongs to Texas.

The Pampa congressman reported he saw O'Mahony on a television program pressing for federal control of the tidelands, saying that the "interesting thing" to him was that the Wyoming senator mentioned California and Louisiana, but never once referred to Texas.

"The truth of the matter is that the arguments he used on California and Louisiana simply do not apply to Texas; the unanswerable fact in the Texas case is that we retained title to our public lands and the source of the title to the land that you live on is a Texas patent, not a United States patent."

He indicated, in his newsletter, that he would be like many other congressmen who will not be satisfied with departmental reports regarding their budgets for the coming fiscal year.

Rogers predicted deeper cuts would be made than those already made by Congress and departments.

"The members are searching the budget requests and the committee hearings for every possible means of cutting down. This is

a healthy situation and I hope we can keep it going full strength. It is the opening wedge for tax reduction," Rogers said.

Rogers also took a mild swing at foreign aid in a short recount of federal aid to the American taxpayers, saying:

"The report of the Joint Committee on reduction of non-essential federal expenditures reflects that since 1944 the federal government has paid out \$8.2 billion dollars in 150 programs of aid to states and individuals. (This period covers 18 years.) The payments to individuals totaled more than 42 billion dollars, payments to state and local governments more than 16 billion, I hope that this report won't upset some of our allies, who during the seven-year period from 1945 to September 1951 received only approximately 25 billion in foreign aid grants. If some of these foreign powers learn that the American taxpayer is getting back some of his own money, no telling what might happen.

Rep. Walter Rogers this week called the resolution regarding continuation of oil and gas operations under certain leases now before the U. S. Senate, a "foot-in-the-door" move that would destroy Texas' hopes of regaining her tidelands.

The resolution on the tidelands is part of the fight being waged in the Senate and is, according to Rogers, the chamber's one bit of unfinished business.

Bullet Proof Windows In New White House WASHINGTON — (AP) — Bullet proof windows have been installed in the refurbished White House, the Washington Post said today. The President moves back to the 1600 Pennsylvania Ave. address today on his arrival from Key West, Fla., after more than three years in Blair house. Secret service officials declined to comment on the bullet proof windows. It was while the Trumans were living in Blair House in 1950 that an attempt was made on the President's life. His family was uninjured but a guard and one of the two assassins were killed.
