## Army Invades Bougainville To Back up Marine Troops

### Battle Tide Swings Over To Our Side

**SOUTHWEST PACIFIC ALLIED HEADQUARTERS, Nov. 11—(AP)—** Powerful reinforcements of regular U. S. army troops, landed without loss from warship-guarded transports, fought their way through the spearhead of Marines on Bougainville against badly decimated Japanese.

The tide of jungle battle—a welter of tanks, mortars and camouflaged men contending in the roughest type of terrain—swung definitely toward the invaders of that last big Solomon Island protecting the Nipponese fortress of Rabaul.

"Our Bougainville operations were successful beyond our fondest expectations," said Rear Adm. Robert B. Carney after watching the soldiers swarm ashore after seeing an enemy raiding airforce lose 20 out of 60 divebombers and fighters without sinking one of the ships in the convoy.

Bombs damaged one transport but Admiral Carney emphasized that "no boat was laid up and all the ships got back to base."

This naval operation, in waters only 200 miles southeast of Jap warships at Rabaul, afforded a striking contrast to Tokyo broadcasts that 96 Allied vessels have been sunk recently, that it was Nippon's biggest triumph "since Pearl Harbor" and that Admiral Mineichi Koga had been congratulated for his "overwhelming sea and air victories."

"In New York last night, Navy Secretary Frank Knox said "our fleet in the Pacific is so powerful that the Jap hasn't got the courage to come out in the open."

The army reinforcements landed Monday at Empress Augusta bay. At that time, Japanese troops which went ashore from the transport barges north of that beachhead to join with forces on the south in a pincer operation, had begun to infiltrate American lines.

### Eden Praises U. S., Russia

**LONDON, Nov. 11—(AP)—** Foreign Secretary Anthony Eden, making a report on the Moscow conference to the house of commons, declared today the meeting had "exceeded my hopes" and had "brought a new warmth and new confidence into our dealings with our Soviet and American friends."

The dapper foreign secretary, wearing a red Armistice day poppy in his button hole, received applause from the commons and then proceeded with a description of the results achieved at the tri-partite parley.

"The actual achievements of the conference seem to me to be solid enough," he appraised, "but it was the friendly atmosphere of mutual interest and mutual confidence in which all these conferences took place which, to me, will always make the Moscow conference memorable."

He said a large measure of credit for success of the meetings was due to Foreign Commissar Vyacheslav for his handling of the long and

**German Prisoners Confirmed Nazis**  
DALLAS, Nov. 11—(AP)—The Dallas News quotes First Lieut. Maurice M. Hall, chaplain of a prisoner of war camp at Huntsville, Tex., as saying that "60 per cent of the prisoners are confirmed Nazis" and "you might as well preach Christianity to a wall as these Hitlerites."

Hall, a veteran of World War 1, is attending the Texas Baptist general convention here. His statements were made in an interview.

"About 60 per cent of the prisoners are confirmed Nazis. The rest are Catholics and Protestants and are deeply religious. But the Nazis are treacherous, mad and fanatical with their dogma, often trying after midnight in the barracks to lynch their comrades who are not Nazis."

## Two Graduates of Pampa Field German Prisoners

Make it two graduates of Pampa Army Air Field now in German prison camps as the result of air raids over the Reich, instead of the one as previously announced.

To the name of Lt. Albert H. Leonard of Steamboat Springs, Colo. add that of Lt. William Martin, of Hinton, W. Va., wing commander of the first class, 43-B, to graduate from Pampa's twin-engine advanced flying school.

News of Lt. Martin's capture by the Nazis was received here yesterday by Garnet Reeves, secretary of the chamber of commerce, in whose

home Lt. Martin's mother was a guest during 43-B's graduation last February.

Martin and Leonard were classmates at Pampa Field and both saw considerable action in the European theater as pilots of B-17 Flying Fortresses before being out of crippled ships over Germany.

Word of Martin's imprisonment came just a few days after Reeves was advised by the flier's mother that he was missing in action.

Mrs. Martin's letter telling of her

## General Warns Enemy Strength Powerful

**WASHINGTON, Nov. 11—(AP)—** Germany's war strength is greater today than in 1939 and Japan still has a mighty wallop poised over Asia, a high-ranking U. S. army chief of staff was quoted as saying today.

The statement was made by Rep. Outland (D-Calif.) who said he was quoting Major General George V. Strong, chief of the army's military intelligence division, with the general's permission.

Outland, avowedly anxious to prick any bubbles of U. S. optimism over the war task ahead, declared that Strong told a secret congressional session several weeks ago that:

1—The German army has approximately three times as many combat divisions in the field today as it had when the attack on Poland began four years ago.

2—The Germans now have 300 well-trained divisions. This year alone they reformed or re-equipped or raised more than 60 new divisions, each of which has approximately 400 machine guns and 300 heavier weapons.

3—The reich raised and equipped armored, motorized, and infantry divisions to replace each of the 20 lost at Stalingrad last winter.

4—The Luftwaffe is larger now than it was in 1939.

5—The number of workers employed in war industries in Nazi-dominated territory has risen from 23,000,000 at the outset of the war to 35,000,000 now. The weapons they are making are in some cases better

## Air Base GI's Stage Burlesque Show Tomorrow

Enlisted men at Pampa Army Air Field, venturing before the footlights for the second local variety show to be produced by the field will present Sergeant Hugh R. Best's burlesque of a burlesque show, "Take It Off," at the post theatre Friday at 6:45 p. m.

Featuring two "all-girl" choruses, composed of soldiers dressed in female attire a la Minsky, the show will have original and popular music, "blackout skits," dancing and specialty numbers. Among the original skits will be playlets entitled, "Maneuvers in Pampa," "Paging Sears-Roebuck," "The WAC's," and "Walking the Dog."

Sergeant Best's song, "The Burley Cue," will open the show which has been in rehearsal for two weeks. Men in the cast have prepared their specialties in their spare time, usually after work.

Among those in the cast are Cpl. George Blinsham, Cpl. Salvatore Ferrara, T/Sgt Dave Rutan, S/Sgt Richard Robbins, Cpl. Leo Murray, Sgt. Walter Melson, Cpl. Joseph Krupa, Pfc. Ferman Morris, Cpl. Vernon Wisdom, who will sing his own song, "I'm All Wrapped Up in You," Pvt. Roy Dudley, Cpl. Maurice P. Newton, Cpl. Richard D. Sorrell, Pfc. Robert Blackford, Pvt. Fred Kelson, Cpl. Harold Gilbert, Pvt. Julius Brice, Pvt. Olin Edelman, Pvt. William Wingfield, M/Sgt. Matthew Tamburano, Sgt. James Dricker, Cpl. William Noel and others.

Robert Murphy, who entertains at the piano at the USO in Pampa, will also be featured in the show.

Scenery for the "burlesque" has been painted and designed by Corporals Eric Forsberg, George Wilson and John Anderson. Most of the members of the cast are members of the 454th Base Headquarters and Air Base Squadron.

The Pampa Field dance orchestra, under the direction of T/Sgt Albert Fish, has arranged many of the numbers and will provide the orchestral accompaniment for the show.

**LeFors Goes Over the Top**  
LeFors, smallest town participating in Gray county's Community War Chest drive, went over the top in its drive today when Bill Hesse, chairman there, reported a collection of \$1,616.23.

"LeFors has done a grand job," said J. W. Garman, general drive chairman here, "and the rest of the county appreciates it."

Contributions in the county campaign today totaled \$34,681.19. The goal is \$38,000.

Final reports are expected to be made tomorrow, Mr. Garman said.

## British Cite Lend-Lease Aid to U. S.

**WASHINGTON, Nov. 11—(AP)—** The British announced today that they have furnished more than one billion dollars worth of reverse lend-lease assistance to the United States and said the scope of their aid is now being broadened to include raw materials and bulk goods from both the United Kingdom and the colonies.

Their greatest assistance, for which specific figures were given only to last June 30, has been in supplying base facilities, barracks, hospitals and the like for American air and land forces based in the British Isles.

Up to that time the total of mutual aid, as British lend-lease activities are called, amounted to \$871,000,000 to the United States and \$716,000,000 to Russia.

These figures were contained in a British "white paper" released here and in London at the time of its presentation to parliament. This is the first detailed report of Britain's assistance to other United Nations.

It was accompanied by an official British Information Service summary which stated that at present "Britain's cash expenditures under mutual aid totals well over a billion dollars for United States forces, and more than a billion and a half dollars to Russia and other Allies."

Chancellor of the Exchequer Sir John Anderson, on presenting the report to the house of commons, stated that Britain is "now furnishing huge supplies without paying

See LEND-LEASE, Page 3

## WLB Stands By Wage Ceilings

**WASHINGTON, Nov. 11—(AP)—** The war labor board may have been nudged a bit in the past weeks but WLB Chief William Davis says it won't stand for any shoves.

He insists the wage stabilization policy has been broken down by the gradual increase in the number of miners and explains the discrepancies between the old mine contracts and the agreement entered into by the United Mine Workers of America and Interior Secretary Ickes in this manner:

"The only change made was to sell 15 minutes of lunch time for 7 cents."

And he warns all labor that the board still stands by the Little Steel formula believes that it can not discard it—and wouldn't discard it if it could.

Back in Washington after an impressive success at the Moscow conference, he was at least enough of a hero for President Roosevelt to greet him at the airport, for Senator Byrd (D-Va.) to have urged he be decorated with the Congressional Medal of Honor and for high dignitaries to give him an accolade.

The "Gallant American Eagle" as he was termed by Prime Minister Churchill, took no time out for rest and almost immediately after his arrival called a private report to Mr. Roosevelt.

**HEAVY DUTY**  
All the news in Washington today isn't profound, deep, weighty, or what-have-you. Harken: Dr. George W. Calver, capital physician, says cases of "overworked, nervous and underpaid" in Brooklyn, a job accompanied by these conditions would be called a "tough piece of bread" Calver's prescription: Let congress take the rest of the year off.

## Valet Called In Chaplin Case

**LOS ANGELES, Nov. 11—(AP)—** A gentleman's gentleman, Edward Chaney, has been subpoenaed to appear at a closed deposition hearing tomorrow and tell what he knows, if anything, about the Joan Berry-Charles Chaplin paternity case.

Attorney John J. Irwin, representing Miss Berry, said Chaney, Chaplin's valet, is ill and may not be able to appear as a witness if the case is tried today.

Chaplin has denied that he is the child's father. He agreed to pay Miss Berry \$2,500 cash and \$100 weekly for the baby's support pending the taking of blood tests.

## ARMISTICE-1918

Across the 25-year span from November, 1918, to November, 1943, the U. S. has seen war, prosperity, depression, the laxity of peacetime, then war again and now attack. Today our observance of Armistice Day is a bitter reminder that the great World War did not end in 1918, and presents an opportunity to resolve that this conflict be brought to a permanent conclusion.

## Armistice Day Observed with Grim Determination to Speed up Victory

**(By The Associated Press)**  
Formal celebrations of Armistice Day were abandoned for grimmer tasks at home and abroad today as the anniversary of the end of the World War was dimmed by the urgent need of getting on with the job of winning a far greater struggle.

For American fighting men it was a day of steady slugging at the enemy, for Americans at home it was, by government request, a day of uninterrupted industrial production.

King George VI of Britain sounded the keynote for the United Nations when he declared it was extra effort that counted.

Apparently fearful the down-trodden peoples of occupied Europe would seize the day for new outbreaks of sabotage, the Germans were reported to have tightened policing of all subjugated areas.

The Allies radio urged workers in France to strike from the historic hour of 11 a. m. until noon in the factories where they are forced to turn out war goods for their conquerors.

In Washington, President Roosevelt arranged to place a wreath on the tomb of the Unknown Soldier in traditional ceremony at Arlington national cemetery, but government officers, in contrast to the days of

peace, ordered a full working day. The capital also paid tribute to the memory of the president during the First World War years—Woodrow Wilson—in services arranged at the Washington cathedral.

In London, the few public ceremonies were brief without pageantry or oratory, and newspapers, subscribing to this as a practical measure, emphasized the urgency of smashing the enemy in the next year.

Gen. Jacob L. Devers ordered all United States forces under his command in Britain to forego all observance and work all the harder.

## Bricker Is First To Enter Race Publicly

**WASHINGTON, Nov. 11—(AP)—** The 1944 presidential race had its first public entry today, the name of Gov. John W. Bricker of Ohio for the Republican nomination—and political observers looked for

the recent elections to encourage others to declare themselves.

Bricker's announcement in Chicago yesterday that he would enter Ohio's presidential primary May 9 was the first such declaration to come from a dozen possible candidates mentioned in both parties and the first from among the three most prominently discussed Republican possibilities.

The other two Republicans are Wendell L. Willkie and Gov. Thomas E. Dewey of New York.

Bricker's friends here declared he was "really out" for the presidential honor and not merely the first "favorite son" in a stop-Willkie movement.

Willkie, who has been pictured as confident of winning another nomination in 1944, would not comment on the Bricker move, but his supporters here did not appear to be worried. They said he even had strength in Bricker's own backyard.

Dewey men contended that the New York governor is still the leading man for the nomination.

Others who have been discussed for the Republican nomination are former Gov. Harold E. Stassen of Minnesota, now a lieutenant commander in the navy, whose name will be entered in the Nebraska and possibly other Western state primaries; Gen. Douglas MacArthur; Gov. Earl Warren of California; Rep. James W. Wadsworth of New York; and Eric Johnston, president of the United States Chamber of Commerce.

**SOLDIER KILLED**  
MCGREGOR, TEXAS, Nov. 11—(AP)—Sidney Ferris Hollingsworth, T/5 of Camp Hood, was killed last night in the collision of an automobile and truck two and a half miles west of McGregor. Local officials said they believed his home was Spicewood, Texas.

## Ford Airplane Strike Ends

**DETROIT, Nov. 11—(AP)—** A strike involving 1,217 die setters in three departments of the huge Willow Run bomber plant ended today after an appeal by a union official and arrangements for negotiations on the dispute that led to the walkout Tuesday.

Richard T. Leonard, director of the Ford department of the United Automobile Workers (UAW), said all day shift employees reported for work following his back-to-work appeal.

## Masons to Hear Ennis Favors

Rep. Ennis C. Favors of Pampa will be the master of ceremonies at the annual past masters banquet of Pampa Lodge 966 A. F. & A. M. to be held at 8 o'clock at the First Baptist church.

Entertainment on the program will be provided by the singing of the high school girls sextet, composed of Joan Hawkins, Anna Lois Alford, Anna Barnett, Wynliou Cox, Joan Holden, and Betty Jo Holt, with piano accompaniment by John Robert Lane, and accordion duets by the 7-year-old Schlemmeyer twins, Velma and Zelma, daughters of Mr. and Mrs. Leroy B. Schlemmeyer, 421 Barnes.

Opening the banquet program, the invocation will be given by J. Aaron Meek, principal of Sam Houston school.

## Soldier Gets Leave To See Dying Dog

**ALBANY, N. Y., Nov. 11—(AP)—** Four months of grieving ended today for Pal, 17-year-old airedale shepherd, when the dog was reunited with its weeping soldier master.

Special Tech. Franklin F. Higgins went immediately to his pet upon arriving in Albany after a 1,300-mile train trip from Camp Crowder, Mo.

The soldier granted a special furlough on the request of the Red Cross when Pal suffered a stroke Saturday, burst into tears as he picked up and clung to the crying animal. Pal, recognizing him, licked the master's face.

The shaggy black and tan animal which has been dying of grief since the induction of its 22-year-old constant companion, took nourishment and managed a few feeble steps yesterday for the first time since Saturday—almost as if realizing its master was rushing to its side.

Mrs. Frank A. Higgins, the soldier's mother, said there is no hope for Pal, but added the reunion will gladden the dog's last hours.

## Fresh Allied Landings Are Anticipated

**(By The Associated Press)**  
Fearing invasion by sea outflanking their central Italian line, the Germans scuttled ships and demolished docks at Leghorn and Pescara in possible prelude to retirement to a new line 160 miles above Rome, an official Allied statement disclosed today.

Leghorn is 240 miles north of the present German line from the Po to the Adriatic coast. The British Eighth Army, which was on the banks of the Sangro river. The Algerians announced said the demolitions at both ports "are similar to those performed by the enemy several weeks before they evacuated Naples."

Adding to German difficulties in Italy, a great force of RAF bombers attacked without loss the Mt. Cenis Alpine railway tunnel at Mohane just across the frontier in the south of France. The "well concentrated" blow was delivered in clear weather after a 600-mile flight across Europe from Britain. Mosquitos bombed western Germany. Nazi waters were mined.

Allied planes from the south bombed Bolzano on the Brenner pass railroad, further tangling German communications. They again hit the ball bearing works at Turin.

On the west, the American Fifth Army won heights and was repulsed by the Akkers radio to have encircled Cassino eight miles north of Mignano and 73 miles southeast of Rome. Foul weather and stiffened German opposition hampered the army's advance. The British captured Casaglia. Ronero and Roccastrada in gains up to five miles in the center. The Fifth won Mount Rotondo.

Russia's first armistice drive on the front in a battle which prompted Berlin to exclaim: "All hell broke loose." The Reds were 42 miles west of Kiev, within 60 miles of Zhitomir and 48 of Korosten, both important rail junctions. They crossed the Terever river. They killed 3,500 and captured 60 towns.

The Germans abandoned food, munitions, guns, a train, tanks and trucks. Rain, cold and fog failed to check the Russian momentum. In the Crimea, Red marks were repulsed. German tanks near Kerch killed thousands and captured prisoners. Moscow said the fourth Ukrainian army was massing at the north of the Crimea for a drive across the frozen north. Further gains were made within 50 miles of Latvia.

## Filibuster Feared On Poll Tax Bill

**WASHINGTON, Nov. 11—(AP)—** The threat of a filibuster sent administration lieutenants scouting today for a possible compromise which again would delay senate consideration of a measure to outlaw the collection of state poll taxes in federal elections.

With 16 Southern Democrats expressing determination to block senate action, the judiciary committee will vote tomorrow on a house-approved bill endorsed by the CIO and the AFL. Senator Mead (D-NY) said recently the measure also is backed by President Roosevelt and party leaders.

Expected committee approval will place the bill on the senate calendar but there is ample evidence that if any member then seeks to take it up he will be met by a barrage of Southern oratory on extraneous matters. This talk could be limited only by invoking the cloture rule, which requires a favorable two-thirds vote.

The senate went through an experience of this kind a year ago when Democratic Leader Barkley (D-Ky) sought to force action on a similar bill and ran into a filibuster. The fight was so bitter that Barkley's leadership was challenged at a Democratic conference and peace was restored only after the bill was pigeonholed.

### LEAVES FROM A WAR CORRESPONDENT'S NOTEBOOK by Hal Boyle

ALLIED HEADQUARTERS, Algiers, Nov. 3. (Delayed) (AP)—What's on the American Doughboy's mind? While I was writing yesterday about John Welsh, 3rd, Baylor university graduate and Harvard student who edits "Mail Call" in Stars and Stripes, I began to figure he might come nearer knowing the answer than anyone else around here.

Here it is, just as he puts it: "The soldier in North Africa and Italy is not primarily concerned with the future results of the war.

"He is only interested in the things at hand and in the past. Perhaps more than any other factor, the remoteness of peace governs the thinking of the average 'GI'."

"Very few of the letters received by the Mail Call section of the daily and weekly Stars and Stripes, the troops' paper in North Africa, deal with the far-reaching policies of government or the postwar reconstruction period when the real peace for the next decades will be determined.

"Of course there are exceptions to all rules. Only recently I received a letter from a 'T' which is a certain type of sergeant who is a guard at a prisoner of war camp. He proposed that we start right now to formulate terms for dealing with Germany after the war is over.

"The sergeant believes that the plans should be carried out by the revolutionaries of various occupied countries, for it is they who in his opinion will be responsible for the overthrow of Quislings in national and local governments.

"As rebels they should be given preference over established governments in exile where disagreements exist, since the revolutionaries will be closer to the people," he wrote.

"As I pointed out, the letter is only a rare exception. For the general run of letters written to the paper deal with minor or insignificant things only of interest to soldiers in one area or one city. The least imagined injustice brings forth a deluge.

"The temperament of the writer can be judged accordingly by the amount of passion expressed through his writing. A very good example of this occurred when military police suddenly initiated a drive to clear the streets of Algiers of wandering soldiers after 11 p. m. It was a rare, precautionary measure, designed by the authorities primarily to protect the soldier in the blackout. The military police resented the MP's and their efforts. Each letter received explained in detail a particular case, colored to make the MP appear the villain and the soldier the mistreated savior of democracy. The outcry was so intense that the MP's abandoned the drive.

"No single factor in recent weeks has aroused the soldier public in the African theater as did the five senators who visited the dark continent. Upon their return to Washington a statement was issued to the effect that congress should govern limited service overseas.

"A great portion of the men in this 'Pyorrhoea' strikes. Look at your 'GUMS', everyone else does. Are they irritated? Druggists refund money if a first bottle of 'LTO'S' fails to satisfy."

### HOLD EVERYTHING

"Well, if it ain't old 'Stinky' Smith! How's the boy, Stinky?"

### Shamrock Gunner Is Home After 21 Months Duty

Special To The NEWS. SHAMROCK, Nov. 11.—T/Sgt. Max Scoggins, 24, son of L. Scoggins of Lela, and recipient of the Silver Star, Distinguished Flying Cross, Army Air Medal and Oak Leaf Cluster, is at home on furlough after 21 months in New Guinea and Australia.

"The young hero has completed 54 missions and has had 345 hours of combat duty as a photographer-gunner on the plane 'Lula Belle' (which was named after the girl in the comic strip, 'Wash Tubbs').

"Lula Belle" is a B-17 that has accounted for seven Zeros, seven boats and 12 lighter planes.

Sergeant Scoggins saw action in the Buna campaign, Battle of Buna, Buna, and was with the paratroopers on Lae.

The Shamrock youth told the following story of a narrow escape: "One night we went to Hansa harbor looking for three cargo ships which had been reported. We were carrying five-second delay ship-bombing fuses, which would give our plane time to get away before the bomb exploded, and made one run but our bombs would not release.

"After a lot of machine gun fire from the boat we dropped our fuses the second time, and our plane was shot to pieces. Roger Vargas, navigator, was seriously wounded, and we had to fly out at 18,000 feet, without oxygen, through a terrific storm.

"Our pilot, Capt. Frank Deault, was really in there pitching to get us home. We finally landed safely on two motors."

Scoggins was operator of a ball-turret gun on this daring trip. One of the most beautiful scenes he recalled was an air raid that he witnessed from a distance of three Jap bombers, one of which was knocked down.

Young Scoggins thinks the ground men should be relieved as well as combat men, and declares they are due much credit for their untiring work, day and night, in keeping the planes ready for flight.

"They got their coconuts by paying the natives 'two bobs' in Australian money, which is equivalent to about 32 cents to climb the trees and knock down the nuts. He described them as climbing similar to monkeys, and said they were really adept in the art of 'skinning' up trees.

Sergeant Scoggins has been completely around the world since he left Boston harbor and landed in Australia returning home across the Pacific.

Christine Chatman, "the septa soddess of swing," and her boogie woogie orchestra will play for an Armistice dance at the Southern Club tonight, beginning at 9 o'clock.

Christine comes from a musical family. Her piano and accordion playing are described by enthusiasts as "something new and different in modern swing music."

She organized her present band after having played in numerous night spots over the nation.

**FLASHES OF LIFE**

NEW YORK.—The regional manpower commission office issued invitations to meet a 101-year-old war worker—eldest in these parts. A dozen reporters and photographers showed up.

They watched the man lift heavy cartons, push a hand truck. Then one reporter, a veteran of the Brooklyn police beat, recognized the man as an ex-herb doctor, once sent to prison for practicing medicine without a license. The centenarian broke down and admitted all.

The WMC press agent, subdued—then rushed to a phone and blurted: "Hey boss, we've been taken."

**FARM BOY**  
PHILADELPHIA.—"You people are all city slickers and don't know how to live," Alvin Nerenberg, 15, told his teachers.

Alvin got a job on a farm at Thetford, Vt. last May through the school farm program. The board of education finally was forced to issue an order compelling him to return home.

**SECRET WEAPON**  
PORTLAND, Ore.—Three Portland youths spied on unattended army jeep and thought it would be a cinch to operate.

It isn't like other cars, they learned. The trio knocked over a roadside mail box, plowed through 20 feet of cedar hedge and mowed down a deputy sheriff's fence before bringing it to a stop.

### George W. Littlefield's Life Is Unfolded in Haley's Book

Special To The NEWS.  
NORMAN, Okla., Nov. 11.—"George W. Littlefield, Texas," the biography of a man "who sold when everybody else was buying and bought when they were selling," thereby acquiring one of the largest fortunes in Texas history, is published today under the authorship of J. Everett Haley by the University of Oklahoma Press.

Haley, who wrote "The XIT Ranch" and "Charles Goodnight" and runs a large cattle ranch near Spearman, Texas, says that "the bankers spoke of Littlefield as a cowman, and the cowmen referred to him as a banker." They were both right, because Littlefield pastured the cattle ranges of Texas like a colossus, from the Civil War until 1920, and as founder and president of the American National bank in Austin in 1880, he helped finance the vast cattle business of his native state.

An officer with Terry's immortal Texas Rangers in the Confederate cavalry, Littlefield returned from the wars and learned his trade as a cowboy on the cowboy's native range. He was one of the leading trail herd operators during the great days of longhorn cattle and booming cow towns. Haley says that Littlefield had the "long head" necessary to success in that ceaseless struggle with the vagaries of weather, markets and animal nature which is the lot of those who range beef on the hoof." His record bears this out.

Littlefield became a big time cattlemen with tremendous cattle holdings in West Texas, the Panhandle, Colorado, and New Mexico. His first holdings were on the open range, but he eventually acquired ownership of vast fenced areas. There were times when he left his range

### Mainly About Pampa And Her Neighbor Towns

A motion picture, "Scout Trails to Citizenship," will be exhibited at 8 p. m. tomorrow at the community building at Hopkins by Hugo O. Benson, Pampa, executive of the Adobe Walls council. The showing is open to the public. Hopkins has a Boy Scout troop, No. 18, with Orville Horton as scoutmaster, and 14 members.

Fuller Brushes 514 W. Cook pl. 2152J Paper hanging, painting and floor leveling. C. E. Friend, phone 9534.

In Pampa yesterday was W. R. Grafe, 47th district court stenographer from Amarillo, until February of this year, stenographer for the 31st district court here.

"Boogie Woogie Glorified" Enjoy the music of Christine Chatman. Her accordion, her piano and her orchestra. Attend "The Boogie Woogie Stamped." She jumps, she jives, she swings, she rides at the Southern Club Thursday night from 8 till 11. Admission \$1.10 per person.

### Pair Accused Of Aiding Escape

GALVESTON, Nov. 11. (AP)—Two men have been charged with theft of an automobile which Texas Rangers Eddie Oliver and J. Kievenhaus said was used to aid the escape of Frank Cell and Leonard Wilson from Retrieve prison farm.

City Detective Willie Burns said he had filed the charges against Sgt. Alvin Harre, 37, of Camp Wallace, and Jimmie Tsermenas of Galveston, both under arrest.

Cell and Wilson escaped Monday morning and were captured late that night after a swift automobile chase through Houston.

Police identification bureau records here showed that Harre was sentenced in 1931 to five years in prison on three charges of automobile theft at Dallas, his native city.

### ARMISTICE

(Continued from Page 1)  
to bring an end to this war. That was the word, too, for American armed forces in all other theaters.

This Armistice Day finds some 10,000,000 Americans under arms in an army and navy that still is expanding. They are on duty in virtually every continent and sea around the world.

In contrast, on Armistice Day, 1918, 4,000,000 had been demobilized and half were in Europe.

The intoxicating news of peace that came on Nov. 11, 1918, stilled the guns of a conflict that brought death to 8,538,000 men and wounded 21,219,000. Casualties for this world conflict will not be known exactly until after the new Armistice Day, but some estimates place the total already at 25,000,000.

### Methodists Set Collection Mark

LUBBOCK, Nov. 11. (AP)—Reports to the Northwest Texas Methodist conference showed that it set a new record of collections during the year, with \$1,294,544 raised in nine districts for all purposes.

Delegates elected yesterday to the general conference in Kansas City next April included:

Dr. L. N. Lipscomb, Plainview; and Ray Nichols, Vernon.

Also named were delegates to the jurisdictional conference including W. M. Pearde, Vernon.

—BUY VICTORY STAMPS—

TEXAS PAPER HONORED  
NEW YORK, Nov. 11. (AP)—A \$50 prize in War Bonds was awarded yesterday to the Garrison, Texas, News for its campaign to get a cord of pulpwood cut for each local boy in service. More than 1,600 weekly and small daily papers competed.

### Baptist Convention Is Free of Debt

DALLAS, Nov. 11. (AP)—For the first time since it was organized in 1903 the Baptist general convention of Texas is free of debt—a debt which only 10 years ago amounted to \$2,000,000.

This was reported last night by Treasurer R. A. Springer, and five liquidated bond issues were burned in a climax to the second day's sessions of the convention.

Springer also reported: The convention's income from all sources this year will be \$1,576,000, an increase of 500 per cent over the \$310,000 in 1933. Physical property of the convention and its institutions now is valued at \$12,000,000, a gain of \$5,000,000 in the last decade.

Dr. J. W. Bruner of Dallas, endowment secretary, announced that

a \$2,000,000 endowment program for hospitals and schools would be launched Jan. 1.

Urging a "revival of values," Willis J. Ray, superintendent of rural evangelism, asserted that tobacco interests last year collected an average of \$11.70 from every person in the nation and that an average of \$40 per person was spent on sports, while gifts to churches averaged only \$6.50.

### LEND-LEASE

(Continued from Page 1)  
ment and indeed without calculation to the Allies and expressed belief that "the vast extent of mutual aid which we are furnishing is not understood in this country, far less abroad."

"It is only in a very limited sense," he said, "that this white paper introduces the money sign into the picture. If there are any who wish to judge these matters as a business deal, the effect is to underestimate the real material cost that falls upon us. I should have preferred not to have introduced the money sign even partially into the story."

The British report does not include reserve lend-lease supplied by Australia, New Zealand, South Africa and India, which have separate assistance agreements with the United States.

The report was further qualified with the assertion that the figures are not complete because many of the foods and services furnished to American armed forces in various parts of the world cannot be measured in money terms, either because strict accounts have not been kept or because no accurate value can be placed upon them.

In the latter category the white paper places information and experience gained in battle and in research about the performance of military equipment and the strong and weak points of both enemy and Allied tactics and weapons. Such information, it was stated, aided in the development of the Sherman tank and the Flying Fortress bomber.

"This is not a service which can be valued in money," the report said, "but it has cost more in blood and effort than most aid."

President Roosevelt reported to congress Aug. 25 that total American lend-lease aid through July 31 amounted to \$1,972,000,000 and that the total of lend-lease goods actually exported through June 30 amounted to \$9,882,000,000, of which \$58,000,000 went to the United Kingdom and \$2,444,000,000 went to Russia.

The British mutual aid figures were given in pounds in the white paper and stated in American money at the rate of \$4 to the pound. It was on this basis that measurable assistance to United States forces was shown to amount to \$871,000,000 through June 30, with \$716,000,000 for Russian forces in the same period.

While Britain's reverse lend-lease to the United States has consisted chiefly of camp installations and airfields in the United Kingdom, military supplies, food, air-planes and naval services and shipping services, the aid to Russia included 4,690 aircraft and spare parts.

Of raw materials and bulk supplies, the official report said that the United States formerly paid for them in dollars to provide the British with funds needed "to meet our heavy liabilities on pre-lend-lease contracts in the United States, which were not covered by lend-lease."

"But now that those contracts are largely fulfilled," the report continued, "and in furtherance of the general pooling of United Nations resources, his majesty's government have recently decided to extend reciprocal aid to raw materials and foodstuffs purchased by the government of the United States from the United Kingdom and the colonial empire which would thus be made available on terms analogous to lend-lease."

"In addition, his majesty's government in the United Kingdom will defray the cost of British shipping services for these materials from the United Kingdom's Commonwealth. Thus a very wide range of additional products and services is brought into the scope of reciprocal aid which is not yet reflected in the statistics given."

As a means of furnishing some comparison between British mutual aid and American lend-lease, the white paper noted that a report to congress on May 23 President Roosevelt said 12 per cent of the total United States war expenditure went for lend-lease.

"The proportion of British war expenditure currently devoted to mutual aid is 10 per cent," the paper continued, adding "what we give to the United States as mutual aid in relation to our national income does not fall far short of what the United States gives to us as lend-lease in relation to their national income."

Apart from mutual air costs and lend-lease assistance she has received, Britain, the paper reported, has had to meet overseas expenditures totaling more than nine billion dollars for which she has "burdened her future commerce by parting with gold and other capital assets and by incurring liabilities to other members of the United Nations."

In summarizing assistance to others of the United Nations than the United States and Russia, the white paper reported that Holland, Belgium, Norway and Yugoslavia pay for what they get; the armed forces of Greece, Czechoslovakia and France get supplies without charge; Turkey receives military supplies free; and plans for free aid also have been offered to Poland and Yugoslavia.

In a separate category the British listed 94 naval vessels, including one cruiser, 14 destroyers, six submarines, 17 corvettes and many smaller vessels, as being "on loan to our Allies."

### EDEN PRAISES

(Continued from page 1)  
complicated agenda and added that Secretary of State Cordell Hull must have felt the results justified "his very gallant venture in making this long fight" from the United States.

Of measures which were taken to shorten the war, Eden declared, "the results of our discussions under this head can only be made public as they develop at the expense of the common enemy. I have confidence that the development will be found generally satisfactory by the members of all parts of the house."

Military discussions perhaps did more good to the mutual relations by the frank and exhaustive examination that was made of them than any other phase of the conference, he said, adding there was no tendency on the part of any of the delegates to dodge any difficulty or important issue that these matters raised.

He asserted that the delegates met "on a basis of complete equality" and strived "for one purpose only, to try to bring the war to an end in victory at the earliest possible moment, and thereafter to cooperate with each other to ensure that the people of the world might live at peace."

### GENERAL

(Continued from Page 1)  
ter than any which the United Nations yet have.

6.—There is nothing in the German economic picture to justify confidence in the immediate downfall of the Nazi structure. For example, German food rations today are higher in calorie content than they were at the outbreak of hostilities.

7.—The Japanese still have some 2,000,000 men of military age who have not yet been called to the colors, and they have nearly as many more in the 17-20 age group who are not now subject to the draft.

8.—In the air, Japanese strength is on the up-grade. The enemy has not only replaced the planes lost in combat but is improving both the quantity and quality of its air force. Moreover, the pilot training program has been stepped up and is keeping pace with an accelerated production schedule.

### GRADUATES

(Continued from page 1)  
son's present whereabouts read as follows:

"Dear Mr. and Mrs. Reeves: Thanks for both your lovely letters and I'm happy to say that Bill is a prisoner of war of the German government. We got the wire last night and it has lifted a load off our hearts. We felt almost jubilant about it. Give our love to your boys."

The Reeves have also received several letters from Lt. Martin, the last of which was written a short time before the flying officer was reported missing after a bombing mission over enemy territory.

This particular letter read in part: "I was awarded the Army Air Medal, August 20 and since then have earned an Oak Leaf Cluster which I haven't received as yet. "I've also earned the somewhat dubious distinction of being eligible for membership in the Caterpillar Club. It was a chute jump from 350 feet, which is much too low for comfort. I sustained only minor injuries."

"I get into London pretty often and have seen most of the sights in addition to seeing some good plays and hearing some good music."

How time does fly. I'll bet there isn't a whole U. S. Air Corps which does so much for cadets as does Pampa. I hope to return to Pampa some day."

### Jacksonville Want Play Lufkin Team

LUPKIN, Nov. 11. (AP)—Superintendent of Schools George H. Well said today Lufkin was urging Jacksonville high to reconsider its announced decision of canceling the football game scheduled here Nov. 19 and hoped the game would be played.

Local school authorities said they could give no reason for the cancellation.

—BUY VICTORY STAMPS—

### Cooperation Urged To Curb Juveniles

AUSTIN, Nov. 11. (AP)—The Texas Federation of Women's clubs have in annual convention heard State Police Director Homer Garrison, Jr., urge coordination of effort by all agencies concerned with the juvenile delinquency problem.

In an address yesterday Garrison suggested that open and persistent discussion of the problem might create public opinion strong enough to bring results in the campaign to arrest the reported rise in delinquency.

### Eighth Loses Few Men During Attack

By DANIEL DE LUCE  
WITH EIGHTH ARMY IN ITALY, Nov. 9—(Delayed)—(P)—Heavy Germans' first strongly prepared defense line on the Adriatic coast, lashed sporadically at the Eighth Army vanguard today on an olive-crowned ridge overlooking Gen. Sir Bernard L. Montgomery's next bat-

tlefront.  
In the cold, stinging rain men of the Eighth Army scooped out machine-gun pits in hillside groves, wrestled artillery through mud walls and fanned out grimly in offensive patrols.  
"Blood River" is what the forward troops call the shallow, sluggish stream that Italian maps mark as Fiume Sangro. Its broad basin is studded with hidden mines, and enemy firepower is massed effectively at possible fords.  
Sangro itself is not impressive. Americans would describe it as an overgrown creek, but as a military obstacle it is bulwarked some 20 miles inland by the gray, 8,000-foot heights of Mt. Amaro. Along those 20 miles from Amaro to the sea the Germans have dug in well to stave off any right hook toward Rome.  
The Eighth Army "reached the

### Sangro yesterday five days after launching a limited offensive from the Trigno river bridgeheads 10 miles in the rear.

Officers who led the continual attacks that swept the enemy out of San Salvo, Vasto, Casalbordino, Torino and Paglieta told me their units' casualties were surprisingly small.  
"We only had a couple of dozen killed or wounded in the whole six days," said an English lieutenant colonel.

### Signing Ticket Isn't Confession

DALLAS, Nov. 11—(P)—A Dallas man given a ticket for allegedly running a red light and required by law to sign the ticket wrote in bold letters by his name:  
"This is not a confession."  
Clie Crenshaw, corporation court clerk, says this is the height of caution.

### BUY VICTORY STAMPS

Inter-city buses, of which there are only about 21,000, account for nearly two-thirds as many passenger miles as the railroads.

### Stevenson Can't Stop Gas Pipeline

AUSTIN, Nov. 11—(P)—While he has not changed his personal opposition to export of Texas natural gas, Governor Coke R. Stevenson said he apparently was precluded from barring construction of a Corpus Christi, Texas-Charleston, West Va., pipeline.

The basis of the preclusion, he explained, were orders of the federal power commission and war production board which termed the line essential.  
Contracts for construction of the 1,188-mile line which the WPB decreed should be completed by the winter of 1944-45 have been awarded by the Tennessee Gas and Transmission company.

The governor, who talked of recommending a severance tax levy on exported gas which he believes is needed for development of home industry exhibited records from the Chicago Corporation, owner of the Tennessee company, which said the South Texas line would take 297,000,000 cubic feet of gas daily from existing wells.  
Before the federal power commission the company declared Gulf Coast gas reserves were adequate to meet the pipeline requirements which would not interfere with recycling operations. The gas will be taken principally from the Augua Dulce and Stratton fields in Nueces and Kleberg counties, it was said.

### MAIL EARLY!

FORT DEVENS, Mass.—Sergeant Mario Tuccia, recently returned from overseas, was surprised to receive his 1942 Christmas packages just a year after they were mailed. The bundles followed him through the North African and Tunisian campaigns.

### Bricker Will Seek Nomination

CHICAGO, Nov. 11—(P)—Gov. W. Bricker of Ohio stated at a press conference he would be a Republican candidate for president in the Ohio primaries in May.

Bricker said present-day post-war planning "is not feasible because we can't anticipate post-war conditions." He added:  
"Our government must, in cooperation with other governments, meet post-war problems as they arise, or anticipate them before they come

up and eliminate them. I think it would be dangerous to say what we are going to do when the war is over, because we are fighting a world war in cooperation with other nations, and one of the quickest ways to destroy that cooperation would be for the United States to take an

adamant stand on their post-war position now. We must await development."

## Good Outlook For Renewal, Says Gardner

DALLAS, Nov. 11. (AP)—The Texas League managers will meet here Saturday to see what can be done about resuming operations and President J. Alvin Gardner, confident their action will be in the affirmative, says: "I would be delighted to my duty if I didn't urge that we have baseball next year."

Gardner said he had had conditions favorable—that he had checked with hotels and was told they would take care of the players, not in the manner of the past, but "in some way"; that there would be sufficient players from among the youngsters, 4-Fs and men too old for the armed service; that the fans wanted baseball and should have it.

"The league is in a healthy financial condition with plenty of money in the bank and with all franchises in good shape, the president asserted. "While some clubs may not want to operate, others represent life savings of the men who own them," he added. "I think their investments should be considered."

"Now that we see the end of the war, with our country settled into the routine of making the tools of war and with the workers entitled to the recreation baseball brings, I favor wholeheartedly the resumption of operations."

Gardner said one of the major reasons for suspending last year was because of the situation of Texas and Southwest in the war.

"You know, there were distinct signs that Texas might be a point of invasion from the enemy and we didn't have time for baseball while building against attack," he declared. "We were right in the middle of the war then. The danger is now past."

All clubs will be represented, including those with major league interests, James Gallagher, general manager of Chicago, who has owned a half-interest at Tulsa; Jack Zeller, general manager of Detroit, owner of Beaumont; Eddie Dyer, general manager of the St. Louis Cardinals farm system, owners of Houston's franchise, and William O. Dewitt, vice-president of the St. Louis Browns, owners of the San Antonio club, will be in attendance.

Others coming to the meeting are Oklahoma City—President H. O. Pope, Vice-President E. J. Humphrey; Tulsa—President Don Stewart; Ft. Worth—President Stanley Thompson, Secretary-Treasurer John Reeves, General Manager Rogers Hornsby; Dallas—President George Schepps, Treasurer J. J. Kinnaman; Shreveport—President Bonnett Peters, Vice-President J. I. Roberts; Beaumont—President Ernest Lorbear.

## BUY VICTORY STAMPS

## Five Titles

## On The Line

## In Grid Race

(By The Associated Press)

Championships of mathematical districts of Texas schoolboy football this week but a number will be decided "virtually"—that is, leaders will be established that will not be disturbed by anything outside of starting upsets.

For all purposes the titles of Districts 1, 7, 9, 13, and 14 are on the line.

## AMARILLO'S ONLY STRONG CHALLENGER

Lubbock—goes to Amarillo to play today. The winner of this game will be a "virtual certainty" to take the championship.

That "virtual certainty" can be upset, as the Pampa Harvesters are still very much in the race, despite their 12 to 0 loss to Lubbock. Amarillo will play the Pampa High school team here Thanksgiving day.

This afternoon, the Harvesters play the Invincible Bulldogs at Plainview. On November 13, the Manum, Okla., team will play the Harvesters here, a prologue to the Thanksgiving day classic here of the Pampa Harvesters and Amarillo's Golden Sandstorm.

In District 7, North Side has only to hurdle Amon Carter-Riverside to be acclaimed pennant winner of Ft. Worth.

In District 9 Breckenridge's mighty Buckaroos play Brownwood, the only other team unbeaten in conference warfare.

District 13 has Jeff Davis meeting weak San Jacinto needing only a victory in this game to clinch Houston honors.

District 14 has Galveston and Goose Creek, the only undefeated teams in conference play, battling it out.

There are strong prospects of at least two of the state's nine undefeated, untied elevens taking the count. These perfect record outfits are Amarillo, San Antonio, Sweetwater, Ysleta, Highland Park (Dallas), Longview, Lufkin, Goose Creek and McAllen. Sweetwater plays rugged Odessa and Goose Creek, of course, tangles with the fast-moving Galveston outfit. But the others do not appear in any great danger of falling. All have games except Ysleta.

Here is the state's schedule:

Thursday—Lubbock at Amarillo, Pampa at Plainview, Graham at Vernon, Abilene at Lamesa, Ode-sa at Sweetwater, Big Spring at San Angelo, El Paso high vs. Cathedral (El Paso), Guineville at Denison, Poly (Ft. Worth) vs. Arlington Heights (Ft. Worth), Breckenridge at Brownwood, Ranger at Cisco, Corsicana at Cleburne, Hillsboro at Waxahachie, Tyler at Longview, Palestine at Athens, Texarkana at Marshall, Lufkin at Yacogoches, Livingston at Jacksonville, Austin (Houston) vs. Sam Houston (Houston), Austin at San Antonio Tech.

Friday—Wichita Falls at Childress, Electra at Quanah, Abilene vs. N. M., at Austin (El Paso), Paris at Sherman, McKinney at Highland Park (Dallas), Denton at Greenville, Amon Carter-Riverside (Ft. Worth) vs. North Side (Ft. Worth), Forest (Dallas) vs. Woodrow Wilson (Dallas), Arlington at Mineral Wells, Waco at Temple, Mexia at Bryan,

## Sports Roundup

By HUGH FULLERTON, JR.

### NEW YORK, Nov. 11. (AP)—Just

when everything seemed peaceful, the future about the major league baseball has broken loose again.

Fred (Newark News) Bendel came up with a story from a source we can't question saying that the 1944 model baseball will have a synthetic rubber core instead of balata, which is a kind of rubber, anyway, but not a very popular kind last summer.

But National League Presxy Fred Frick says he hasn't heard any discussion of the subject and it hasn't been listed as a topic at the major league meetings in December.

One sure thing is that minor leaguers would like to have a livelier ball next season. They've missed those big batted and home run records that were fun to watch when it came to selling players.

## QUOTE UNQUOTE

Frank Leahy, the careful tutor of Notre Dame: "Every team that installs the T formation will do a lot of fumbling in the first season. We did our fumbling last year."

## ONE-MINUTE SPORTS PAGE

Rip Sewell was turned down by the army after getting as far as the Camp Blending, Fla., inducting center. His military career, it seems, followed the same path as his famous bloopster pitch.

Jackie Rocker, 17-year-old son of the famous Notre Dame coach, is a star southpaw passer at Campion academy, Prairie Du Chien, Wis., but he's only a 140-pounder.

## SELF SERVICE

When Coach Harold Clark of Holy Trinity High school at Trinidad, Colo., quit to join the army air force it looked as if football was out for the duration. . . . But 17 kids begged to play and the superintendent said okay. . . . The boys ran their own practices, arranged their own three-game schedule and won two out of three. . . . After losing 32-0 to the strong Florence team, they whipped their two traditional rivals, Holy Cross abbey of Canon City and St. Mary's of Walsenburg by big scores. . . . Wonder how the coach will rate when he comes back?

## SERVICE DEPT.

Lt. Col. "Jeezles" Gillem, former Sewanee and Birmingham Southern grid coach, is in charge of special services of the third air force in Florida. . . . Capt. Arthur Nehf, son of the old-time Giants' pitcher, recently was appointed a Marine flight leader and was awarded the Distinguished Flying Cross for his exploits over Guadalcanal after doctors had said he never would fly again because of an eye injury.

## MOUNTING MOANS

Coach Bob Higgins of Penn State puts in a claim for the season's hardest prize on this basis: (1) Eighty-12 players declared ineligible before the season started; (2) A good Marine tackle was shipped out just for poking a fellow Marine; (3) 17 more Marines sent to boot camp in mid season; (4) His veteran fullback joined the air force and left the same day; (5) His best freshman back was lost because of injuries after two minutes of play, two good fresh prospects flunked out and three regulars declared ineligible on the eve of the Cornell game and (6) To cap the climax, a promising fresh tackle borrowed a bicycle without out brakes and ran smack into a delivery truck, ripping his leg open.

## LOST TO WILSON

The story then goes on to list the players, and concludes with the noting that Sam Houston bowed to Woodrow Wilson 13 to 0 on November 5.

This was the prelude to the play-off this week in the ward school grid league games, played at Harvester Field.

In the game Tuesday afternoon, B. M. Baker defeated Woodrow Wilson 7 to 0. Matthews, Baker played after a series of passes to Seitz and Savrow, took the ball over from the 6-yard line. He also added the extra point.

Baker scored in the first quarter. In the closing minutes of the game Woodrow Wilson had the Baker eleven backed up to the 1-yard line when the game ended.

## 32 ON SQUAD

Frank Green, the Sam Houston school coach, is an eighth grade junior high student, and the Sam Houston team is composed of Marvin Peoples, Jr.; Claude Money, Jr.; Lawrence Rice, Jr.; Sid Mills, Jr.; Jerry Culverhouse, Jr.; Jack Inel, Jr.; Jimmie Mercer, Jr.; Tony Jones, Jr.; Carl Kennedy, Jr.; Eddie Scheib, Jr.; James Williams, Jr.

Others on the Sam Houston squad are Don Hicks, Donald Nash, Jimmie McDowell, Tommie Joe Cox, Dibr Stowell, Corwin Cudney, Dan Garm, Brent Caruth, Gilbert Berry, Dean Ward, Delbert Reece, Joe Oden, LeRoy Ellis, Teddy Delle Cullen.

Raymond Broome, Harold Dean Trimble, Carter Burdette, Charles Morse, Gregory Keys, Dean Isham, Don Sweigart.

Sulphur Springs at Gladewater, Reacher (Houston) vs. Lamar (Houston), Conroe at Cleburne, Beaumont at Port Arthur, Galveston at Goose Creek, St. Anthony's (Beaumont) vs. South Park (Beaumont), Corpus Christi at Brackenside (San Antonio), Jefferson (San Antonio) at Kerrville, Central Catholic (San Antonio) at Laredo, Harlingen at Mission, Brownsville at McAllen, San Benito at Edinburg, Kingsville at Robstown.

Saturday—Paschal (Ft. Worth) vs. Ft. Worth Tech (Ft. Worth) vs. Dallas vs. North Dallas, Sunset (Dallas) vs. Adamson (Dallas), Jeff Davis (Houston) vs. San Jacinto (Houston).

## North Texas Aggies Play Tech Saturday

ARLINGTON, Nov. 11. (AP)—In the

underdog role because of Texas Tech's 40-20 victory over Texas Christian last Saturday, the North Texas Aggies plan to launch a sustained aerial attack on the Red Raiders at Lubbock Saturday afternoon.

Although weakened by recent naval transfers, NTAC still has three of the finest passers in Texas college football—Don Hughes and Sam Weatherford, both transfers from TCU, and James Batchelor, former East Texas Teachers star.

In addition, all are dandy punters.

## BUY VICTORY STAMPS

## QUIET, PLEASE!

CAMP LEE, Va.—Most of the Camp Lee soldiers polled by the camp newspaper, the Traveler, on the question "what do you want after this war?" said they wanted to get home and hold "a good job."

But Sgt. Eaton Williams said: "I'll tell you what I want. I want a little quiet."

## Sunday Game To End Grid Season

BRYAN, Nov. 11. (AP)—Bryan air

field winds up its 1943 football season, when it meets the Hearne inter-territory camp team at Hearne.

Despite a record of six defeats and no wins, Bryan Field is rated a slight favorite by virtue of its performance last Saturday night against Southwestern at Georgetown. Southwestern was forced to come from behind in the third quarter to win 29-6.

The Camp Hearne team has been defeated in recent encounters with the Ward Island Marines and Camp Fannin.

### Italian Town Devastated By Germans as Army Retreats

By DANIEL DE LUCE  
 WITH THE EIGHTH ARMY IN ITALY, Nov. 7—(Delayed)—At 10:10 o'clock this Sunday morning the Stars and Stripes and the Union Jack were hung from a bomb-cracked balcony in Isernia and this mountain town that war had murdered began its resurrection.

An American captain who used to sell shotgun shells to New York millionaires and a British lieutenant whose father was a knighted member of parliament undertook the re-birth of Isernia.

While the roar of heavy artillery echoed among the rubble of the town, which was captured before dawn three days ago, 52-year-old Capt. Allen Schaffer and his young assistant, Lt. Keith Erskine, established an Allied military government at the junction of two highways to Rome.

Two months ago Isernia had a population of 12,000. Today 236

shabby, miserable civilians were sheltered in buildings that had been systematically vandalized by the Germans.

The tall, gray-haired captain summed up the task of bringing Isernia back to life:

"Our first problem is the dead. That is the first step toward sanitation.

"We will have to borrow trucks from the army to bring in food for the population," the captain said, adding, "thank the Lord we don't have too many mouths as yet to feed."

"The water system is wrecked, but we are purifying several wells, and we shall enlist enough civilian labor to get the worst part of this mess cleaned up this week."

This is the 34th town which Schaffer has resuscitated. Before the war he was vice-president of Abercrombie and Fitch. He has a 19-year-old son in the navy and a daughter is married to an aviator. His wife resides at New Rochelle, N. Y., and he said, she is "mad as hell because she is over 50 and can't get over with the Y. M. C. A. like she did in the last war."

With manifold fury the enemy destroyed the interior and furnishings of every home here that Allied bombs had left standing. They looted every store and warehouse. They methodically smashed plumbing fixtures, fired bullets into windows and mirrors, ripped closets full of clothes to shreds and broke up furniture and pianos.

They even went to the trouble of kicking to pieces toys in an elementary school.

The German-hating civilians declare the enemy troops committed numerous crimes of rape before they evacuated Isernia two and a half

### Wheat Crop Set At 835,816,000 Bushels

WASHINGTON, Nov. 11—(AP)—The agriculture department estimates this year's corn crop at 3,065,652,000 bushels, based on Nov. 1 conditions.

A month ago a crop of 3,055,600,000 bushels was indicated. Corn production was 3,175,154,000 bushels last year—a record—the average production in the 10 years 1932-41 was 2,349,267,000 bushels.

This year's wheat crop is 835,816,000 bushels, compared with 981,327,000 bushels last year and a 10-year average production of 738,412,000 bushels.

Production of potatoes this year—another record crop—now is indicated as 498,952,000 bushels, compared with 469,945,000 bushels indicated a month ago, 371,150,000 bushels produced last year, and a 10-year average production of 363,332,000 bushels.

Production of other crops, with comparative figures for a month last year and the 10-year average production, was reported as:

All sorghums for grain 106,917,000 bushels, compared with 101,013,000, 107,245,000 and 61,294,000.

Beans (dry edible) 22,160,000 bags of 100 lbs. compared with 22,770,000, 19,608,000 and 14,325,000.

Soybeans for beans 206,017,000 bushels, compared with 206,858,000, 209,559,000 and 51,571,000.

### Texas Raises 70 Per Cent of Fund

HOUSTON, Nov. 11—(AP)—Texas has raised 69.5 per cent of its goal of \$4,641,492 for the national war fund, George A. Butler, president and campaign chairman of the United War Chest of Texas, said today in announcing that 77 counties have now gone over the top in their drives.

Of the total to be raised, \$3,230,049.77 has been subscribed in the greatest war appeals program ever carried out in Texas, Butler said.

The campaign is being conducted to raise funds for the USO, War Prisoners Aid, United Seamen's Service and the 14 other agencies of the National War Fund.

Governor Coke Stevenson, honorary chairman for Texas, has described the program in this manner: "The United War Chest of Texas offers the kind of investment that affords a comfort to that boy of yours who is out there fighting for your and my liberty and democracy."

### 50 Births Are Recorded Here In Last Month

There were seven more births and two less deaths in Pampa in October than in September, according to the city registrar of vital statistics.

Births last month totaled 50 as contrasted with 43 in September; October deaths were seven as compared with nine in September. In two cases in October, infants died soon after birth.

Births recorded for October in Pampa, according to the report released today, listing name of infant, day in October of birth, father's name and parents' address, latter Pampa unless otherwise specified:

James Michael Bartlett, 14, J. L. Bartlett, 417 S. Russell; Carol Jean Barnhart, 20, J. D. Barnhart, 711 N. Gray; William Jerald Bickel, 7, L. M. Bickel, White Deer; Lance Lyle Cacy, 8, R. J. Cacy, Route 2; Kenneth Clinton Calhoun, 13, O. G. Calhoun; Sidney Cary Carroll, 5, E. S. Carroll, 217 N. Houston; Francine Casstevens, 21, E. F. Casstevens, 521

S. Hobart; Marlin Leon Cobb, 23, B. J. Cobb, 323 S. Russell.

### U. T. Christmas Holidays Cut

AUSTIN, Nov. 11—(AP)—Christmas holidays at the University of Texas have been reduced from 14 to seven days by faculty vote subject to approval of the board of regents.

Designed to meet navy requirements for a 95-day semester, the 1943 holidays will extend from 5 p. m. Dec. 21 through Dec. 28.

The classes will meet New Year's day.

**Reserve Officers To Get Big Jobs**  
 WASHINGTON, Nov. 11—(AP)—The navy has announced regulations permitting assignment of reserve officers to many billets now filled by regulars.

The department order provides that reserve officers, retired officers, or those with temporary commissions from non-commissioned rank, may be assigned as flag secretary and flag lieutenant on staffs of vice admirals, rear admirals, commodores with commands afloat, and as assistant staff officers in operations, planning, training, gunnery, logistics, communications and material.

**American Earnings Hit All-Time Peak**  
 WASHINGTON, Nov. 11—(AP)—American earnings hit an all-time peak with gross income of \$103,088,000,000 in the first nine months of 1943, with indications the year would yield a total of \$142,000,000,000, the treasury announced.

September income was \$12,545,000,000, approximately 20 per cent higher than the same month in 1942.

What do *you* like about Coffee

# Flavor?

PERHAPS you're one who prizes flavor more highly than any other quality. To be satisfying, it must be rich, full-bodied, distinctive and winy. It must come on the wings of a delightful, fragrant aroma, elusively fresh and lingering. Then such a flavor indeed as Admiration's you must know! For it was blended to give you precisely what you want. One sip of this truly superior blend will make an enthusiast of you, one cup a confirmed and permanent user.

To preserve to the utmost every last, delicious quality of Admiration—its richness, strength, aroma and freshness—we developed a special scientific container. It's called the *Triplex Lamofilm Package*; no moisture can seep in (the gremlin of rancidity); no aroma can leak out (the gremlin of deterioration); no loss whatever can possibly occur.

Buy the Lamofilm Package and get all the goodness.

*Tune In*

### Liquor Famine Looming For Entire Nation

(By The Associated Press)  
America's drinking citizens were face to face today with an acute liquor shortage which appeared to be fast enveloping the entire country as the demand for whiskey in some places reached four times that of last year while supplies were down as much as 60 per cent.

More than half the nation's states reported that liquor was scarce and the situation progressively getting worse. Rationing, either by state control or voluntarily, now is in effect in some 30 states. Rations range from one bottle a day per customer to one a month.

Officials looked to a bleak New Year as far as easing of present shortages is concerned and there seemed little likelihood there would be enough whiskey to quench holiday thirsts.

Scotch importers were said to be getting only 10 per cent of their normal supply while nationally advertised brands of rye and bourbon were reported hard to find. Rum, brandy and gin appeared the most in package stores with whiskey.

Grumbling on the part of customers in many sections, most complaints being that stores had ample supplies but were doing it out only to established patrons and friends.

In Nebraska, where liquor was plentiful a few months ago, but now is on the hard-to-find list because, retailers say, residents of neighboring states drained the state dry, one storekeeper said bluntly:

"To people we don't know, we have no whiskey."

Another customer complaint had to do with prices. In Texas whiskey was selling at \$8 and \$9 a pint in dry counties. In Oregon, where a new coupon rationing program was instituted last month allowing one quart of whiskey per person a month, bootleg liquors were said to be selling at \$10 a quart.

In Kentucky, home of some of the country's largest distilleries, bottled in bond whiskeys were nearly extinct.

Distillers, however, said they have enough stocks on hand to last until the end of the war provided discretion is used in releasing it.

Practically all Western, Southwestern and Southern states reported a dearth of Scotch, bourbon and rye. Alabama, however, was hopeful of declaring a "Christmas ration bonus."

### THE AGE OF OUR WORKING FORCE

### Sam Houston School Students Busy on Many War Projects

Win the war, all else in shreds. That slogan of an American manufacturer is also the theme of American Education Week at Sam Houston school. While a half-dozen topics are stressed, all have some connection with victory over the Axis.

In connection with the observance of the week, parents are invited to come to school and watch the pupils at their work.

Parents are welcome at any time during the week, which opened Sunday and will end Saturday, Nov. 13, although no classes are held on Saturdays.

For example, children of one second grade room are being taught to develop a friendly attitude toward all nations, an attitude to the blatant nationalism that preceded World War I, and to a lesser extent in this nation, World War 2.

Thrift Accented  
Another section of the second grade is being taught eight sound American habits; all of which will help America win:

Buy more stamps and bonds; take care of your clothing; save paper and all other school supplies; contribute to scrap metal drives; join the Juniors Red Cross; save food at all times; take waste fats to the grocer; "if you don't need it, don't buy it."

Emphasizing Americanism by doing something about it, instead of merely talking patriotism, fourth grade pupils are making a frieze depicting Pilgrim life in America. The frieze will be presented to the Pampa Air Field hospital.

In the fifth grade, pupils have turned to journalism, publishing the school newspaper, The Sam Houston Flash, and are making an 8-year Thanksgiving mural.

Fundamentals Stressed  
Significant, too, is the stress on fundamentals of learning, as exemplified in the fourth grade's idea of "in place of cramming for exams, the children are studying hard in spelling and arithmetic for the old fashioned spelling and number bees, in which they review the material they have covered in the last few weeks."

Excerpts from teachers reports on the various grades activity for American Education Week:

**FIRST GRADE**  
"There is a definite setting down to work and play and the development of a feeling for the rights of others. We have learned that it is fair to take turns at work and at play and that it is unfair to talk or disturb others when it is their time to read, tell stories, or recite poems. We are building a feeling of consideration of and responsibility for the rights of others."

**SECOND GRADE**  
"I want the children to develop an appreciation of our idea of universal education and the advantage of our freedom in thought as compared to the European countries now in bondage."

**THIRD GRADE**  
"Health is being stressed throughout this week and the entire year as we realize we must have good health and clear thinking to go into strong, loyal Americans."  
"Posters, poems, songs, and stories will help us in learning about healthful living. Posters and discussions are being made to illustrate how boys and girls in our room are helping to win the war."

**FOURTH GRADE**  
"Fourth grade children are studying dramatization now and will prepare a special play for the week, that stresses the friends we make through reading good books."  
"We are in the midst of a membership drive for the American Junior Red Cross."  
"We are beginning a unit on foods, stressing foods for health, and making posters showing the different food groups."  
"Sam Houston school, located at 900 N. Frost, is one of the city's seven public schools, the others being Horace Mann, B. M. Baker, Woodrow Wilson, and Carver schools; junior high and high school."

**ENROLLMENT TOTALS 423**  
There are 422 students enrolled at Sam Houston school of whom 191 ride the school buses in going to and from their homes to school and return. Out of the 422 students, an average of 160 bring their lunch to school, an average of 235 buy their

### Bootleg Gas Writer Is Charged by OPA

CHICAGO, Nov. 11.—(AP)—Mark Miller, of Bainerd, Minn., author of a magazine article entitled "Border to Border on Bootleg Gas," has been charged by the OPA with violating regulations to obtain gasoline for the trip on which he based his article.

Accompanying a complaint filed by the Duluth, Minn., district OPA office with W. M. McFarland, regional OPA hearing commissioner, was a memorandum stating Miller was the author of the article published in the Oct. 2 issue of Collier's magazine.

The OPA charged he had filed a false statement in applying for gasoline rations at Brownsville, Texas. The complaint said he stated his purpose was to drive to Oshkosh, Wis., to settle an estate, thence to Cloquet, Minn., to refinance a mortgage, thence to Minneapolis to begin a new job and establish a home.

His real purpose, the complaint declared, was to drive from the Mexican border to Canadian border without using the rations applied for, to obtain gasoline without mileage rations and to write an account of his experiences.

A hearing was set for Dec. 16.

lunch in the school cafeteria, and 27 go home for lunch.

J. Aaron Meek is principal of Sam Houston school faculty, including the principal numbers 15.

Mrs. J. D. Beach, Mrs. Marion Bisher, Mrs. Mary Ellen Boyd, Mrs. J. I. Bradley, Sadie Covington, Mrs. Teresa Humphreys, Mrs. Sam Irwin, Wilma Jarrell, Bernice Larsh, Lillian Mullinax, Ruth Poe, Mellic Bird Richie, Mrs. C. W. Stowell, Mrs. Grace Waggoner.

### Market Briefs

**WALL STREET**  
NEW YORK, Nov. 10.—(AP)—Stock market leaders rose around 2 points today in a continuation of yesterday's rebound from the 11-day slump.

The rally was sturdier than the prelude but volume dropped off sharply to around 900,000 shares for the five hours. Profit selling near the close took a little away from the top gains.

Rails, aircraft, distillery shares and specialties provided leadership in the early proceedings. The liquor stocks showed best form near the finish. The gain side in the final hour were Schenley, distillers Corp., National Distillers, Hiram Walker, John-Manville, American Can, Oliver Farm, Westinghouse, Caterpillar, Chrysler General Motors, American Can, J. C. Penney, Santa Fe, Pennsylvania, Great Northern and Northern Pacific, International Telephone, Public Service of N. J., and Phelps Dodge lost ground.

Armistice (?) Day

Today we know that the war which ended 25 years ago is still going on. We can see more clearly than ever in the perspective that a quarter century lends, that the armistice of Nov. 11, 1918, was just that. We can fit together the various conditions, aggression, revolution, aggression, civil war—that disturbed the uneasy surface of that armistice until, four years ago, the war broke out again with renewed ferocity.

Seen in this perspective, all the hysteria, the profound relief, the hysterical joy, the prayerful thanksgiving of Nov. 11, 1918, may seem a little pathetic. But there are sincerity and admirable then. We went to war in 1917 on a wave of idealism. We fought for slogans and believed in them as we believed in the safety of democracy. The idealism was more than public emotion. It was the policy of our government. Idealism moved a president to persuade us into the League of Nations. We did not follow, and the League went without us—accomplishing many things, failing in many others.

But we tried to do our best for world peace. We were generous and solicitous. We were kind to our enemies. We were patient with our recalcitrant Allies when they called us Skylock. We called disarmament conferences, and proposed plans outside the League for enduring peace.

This country and its former Allies condemned war as an international policy. The world had learned its lesson in 1914-18; it knew that war was brutal and unthinkable. France said "No more wars" and her "Maginot Line" and England was behind her Channel, longing war so much that they would not look like Germany and Italy prepared for it at home, and reheated it in Ethiopia and Spain. We sat between our oceans, thinking that if we hated war hard enough, it would not come.

The next Armistice Day will not find us in a blood-brotherhood. We shall be even more truly thankful, but we shall certainly be less emotional. The American mind today is cynical, contemptuous, and impatient. It is preliminary to another attempt to build a structure for enduring peace.

We are beginning now, with greater realism and greater wisdom, to draw plans for the structure. This time we know that peace cannot be placed within a shrine, but must be guarded by a stout fortress. It must be built to withstand the problems and differences that exist between the present alliance of fighting nations.

We know all of us, that the end of the shooting and bombing will not mean the return of the tranquility of old quarrels and new disputes are breaking above the surface of the general sea of troubles. And they will grow less intense when the fighting stops.

Today we possess the knowledge, painfully acquired, of 25 years' short-sightedness and mistakes. It is bitter knowledge because we cannot be preliminary to another attempt to build a structure for enduring peace.

Common Ground

By R. C. HOLLIS  
"I speak the past-ward principle. I give the sign of democracy. By God I will accept nothing which cannot be accepted by the common people of the common time."  
—WALT WHITMAN.

Crying for Leadership

The reason we have had so much unemployment before the war is that people have lost confidence in their leaders or that they have followed the wrong leaders. The fact of the matter is that the leaders of neither the Republican or the Democratic party for the last 50 years have merited the confidence of the people. The Republicans were kept in office by tariffs and the promise of pensions and by permitting the banking system to operate in such a manner as to take away from the people a fixed standard unit of value by which to measure the value of their services they wish to exchange. No wonder the man who is so busy working and does not have time to study, has lost confidence in such leadership.

What we all need to do is to devote more time to better understanding the great advantages that would follow from less government and more freedom.

Leonard, Secretary of the Los Angeles Chamber of Commerce, in an address on the subject of "Our Battles on the Home Front" points out how two great leaders in England led the English people into prosperity. He points out that England after the Napoleonic wars had a distressing economic condition, that in proportion to their population their debts were probably as great as ours will be after the present World War. Unemployment was widespread. England had more of her people on relief than ever before or since. Enterprising and job makers were handicapped by a top-heavy bureaucracy and by attempts of the government to provide security in place of opportunity.

Productive Energy Released

I quote from Leonard Read's speech, "The Businessmen of Manchester under the leadership of two economic thinkers, Cobden and Bright, and operating through the Manchester Chamber of Commerce, were the initiators of the freedom movement. The leaders in this movement developed an understanding of free competitive enterprise. They became skilled negotiators of it. They perfected their arguments. They gained confidence in the nation and founded for adversaries successfully to combat. Members of Parliament gave ear to their suggestions. Restrictionism was destroyed. Legislation was dissolved. Laws hindering production and trade were repealed. The human energy abounding in millions of individuals was released. Within a few years England entered the most prosperous era of her long history."

Then Mr. Read goes on to tell the members that getting people to understand the importance of free enterprise is the greatest single opportunity presented in American Chamber of Commerce history.

Mr. Read is right. We can have a greater prosperity than ever existed in America or any place else if we will get people to realize that the government cannot directly furnish jobs or help the poor. That the greatest and only service a government can do is to protect men's lives and property. And that one man's producing no matter how rapidly or how much he produces does not hurt any other man in the world unless that man wants a license or a special right that other people cannot have.

When we get people to understand this, we will have full employment and a happy contented people.

Mr. Wallace is popularly supposed, among men who do not track with him, to be honest and well meaning, tho a starry-eyed dreamer with his head in the clouds. If that be true, give us rather a first class crook with a little sense.

Mr. Wallace is popularly supposed, among men who do not track with him, to be honest and well meaning, tho a starry-eyed dreamer with his head in the clouds. If that be true, give us rather a first class crook with a little sense.

Postwar Problem

By ERKINE JOHNSON  
A few months ago on his 11th birthday, Danny Phillips of Indio, Cal., made a prediction that he would be a doctor. Naturally, Danny didn't like to stay in bed. He wanted to go outside and play baseball and football with the other kids. But how can you convince him he's a doctor?

News Behind the News

The National Whirligig

By ALBERT LEMAN  
COLLAPSE—There may be general mystification as to why the United States is emerging as the most powerful nation in history.

Our good will and mistral aid are indispensable to U. S. R. recovery—and Stalin knows it.

The climate of the steppes defeated Der Fuehrer last Winter, just as it vanquished Napoleon over a century ago. This Paul Bunyan's "stopped Hitler and rolled back his legions. But those who know the price the Slavs paid for their Pyrrhic victory.

The liberated plains are one vast quagmire of desolation. It will require as much effort to keep the stranded population from plague and famine as it will to fight the Nazis. Scorched earth demolitions have been so ruthlessly efficient that for the time the Muscovites cannot hope to rehabilitate their shattered factories and implements.

In addition to relief housing and feeding, all energies are concentrated on restoring agriculture. Garden plots are given manure during the winter. Scattered about are the remains of the Danube and Switzerland; reinforcements can be sped along the distant Ruhr. If an Allied expedition, like that which blew up the Meuse and Eder dams, could destroy his generating center it would mean catastrophe for Germany.

Many shortshrifted Austrians welcomed Herr Schickelgruber in 1938 as a deliverer who would end the economic misery of the Schuschnigg and Dollfus days. But that hope died when he failed to make good. He saddled his old neighbors with even heavier loads. Now they are utterly fed up with their discredited native son.

The Viennese openly show disdain for the families of Brownshirt party moguls who flock to the once gay capital to spend their graft money—safe from bombs. In the Tyrol the cherishes possessions of the mountaineers until they can join the Yugoslav guerrillas. Austrians captured by Yanks in Italy readily admit that they fight under compulsion and that their first opportunity, cry "Kamerad."

RELIEF—The Moscow pact is likely to be a success because the Soviet Union needs us desperately. American Leftists are inclined to magnify Russian achievements and to belittle their own country. In return, New York business magnates—

Around Hollywood

By ERKINE JOHNSON  
A few months ago on his 11th birthday, Danny Phillips of Indio, Cal., made a prediction that he would be a doctor. Naturally, Danny didn't like to stay in bed. He wanted to go outside and play baseball and football with the other kids. But how can you convince him he's a doctor?

Finally his doctor got an idea, and had Lou Costello, who was also suffering from the disease, visit the boy a letter, promising to visit him soon if it would be a good boy. Danny was overwhelmed by Lou's letter, immediately obeyed his doctor's wishes.

Other day Costello, fully recovered from his illness, kept his promise and made a personal appearance in Danny's bedroom. Danny hasn't fared as well as Lou in his fight against the disease but he'll be well soon.

Slight of the week: Red Skelton taking ball lessons for a scene in "Mr. Co-Ed." The costume was pink!

Betty Grable's warbling of "Songs of the Islands" on the war department's Mail Call radio show was the result of 97 requests from soldiers in the South Pacific. All these were in varying terms: "These islands aren't up to be, but maybe you can sing us into thinking they are."

It's Allen Field's story about the gent who appealed to Mr. Anthony's radio program for aid. The guy said, "Anthony, I've got a million dollars in the South Pacific. I've got a beautiful wife, three beautiful children, four automobiles with C books, lots of servants. This is my problem: What's my problem?"

ACD ANSWER  
One of those lab-dia film queens war working in a scene the other day in which she had no dialog. It was a long shot and even a close-up necessary to see her in the scene. But the actress insisted that the director tell her what she should be thinking about.

"Oh, just anything," said the director.  
"But what?" persisted the actress.  
"Well, if you must know," said the director, in desperation, "think of how lucky you are not to be working as a car hop."

When word got around 20th Century-Fox that Betty Grable was doing a number for "Pin-Up Girl" that was as near to a strip tease as the censors would permit, William Wyler and Vincent Price took time off from "The Eve of St. Mark" to become avid spectators. Next day Wyler and Price were clad only in shorts for a scene in their film. Betty heard about it and when they appeared on the set they were greeted by the whistles of 85 bribed females.

Paul Lukas and Mary Christian, the anti-Nazi couple of the stage play, "Which of the Rhims" are now playing pro-Nazi in Columbia's film version of "Address Unknown."

Memo to Dinah Shore: Your erstwhile boy friend, George Montgomery, has gone wacky over a WAAC in Texas. Don't say we didn't warn you.

Cowboy star George O'Brien, who joined the navy a year ago, is about to be promoted from a lieutenant commander to a full commander. He'll be the highest ranking actor in the navy.

ADD ITEMS  
The life of Helen Morgan is again being considered for the screen with comedienne singer Vivian Marshall in the title role. The American Beauty Council, headed by Joseph P. Kamp, has nominated Sophie Tucker the most glamorous woman over 40.

Mary Treer, the young character actress you've seen in so many films as the plain looking girl who gets her man, gets her first screen kiss in Paramount's "When I Come Back." She gets a peck on the cheek from Sonny Tufts.

grants introduced in Montana created wheat, a hardy grass fodder brought from their homeland. Its unusual richness fattened cattle in the blue ribbon winners. Today western stock raisers are paying the debt by giving the seed of this grain to Soviet dairymen.

Pope Has Big, Private Army

(Editor's Note—Following is the third of a series of four unexpurgated stories from the German newspaper, "Der Angriff," which is published in the German-occupied Italy. Gunnar D. Kuhlman, chief Rome correspondent for the Chicago Tribune, is the author of the series especially for the Associated Press.)

By GUNNAR D. KUHLMAN (Copyright, 1943, The Associated Press)

STOCKHOLM—Nov. 11—(AP)—Pope Pius XII stands today as a symbol of peace.

Vatican City still is a haven of peace in the eyes of tremendous numbers of Europeans.

German soldiers occupy Rome and stand guard outside Vatican City. They have been told the pope has a powerful armed force—although the Swiss guards only recently received live instead of blank ammunition for their rifles—and that the Vatican is a den of Jews.

Despite this attitude among the soldiers and although the Nazis have fostered hate propaganda against the Catholic church and have appropriated church property in Germany, relations between the German occupation forces in Rome and the Catholic church on the whole have been correct since the Italian capitulation.

They all make reservations as to what the future situation will be when Rome becomes a fighting zone. The mysterious bombing of Vatican City last week was a serious warning of a dangerous position.

While Germany is flooded with anti-Catholic propaganda, there has been a noted religious renaissance among Catholic German soldiers in Italy.

Super-human demands are put on the German soldier in general and the unbroken series of defeats which Germany has suffered for more than a year has had a varied influence on morale among the soldiers.

There is also the influence of a black post-war prospect, and more sensitive Germans suffer from the depressing feeling that the Germans have the unpleasant record of being the most hated people in the world.

Just after German troops entered Rome from Ostia, after fierce fighting in which they had the support of tanks and artillery, I inspected devastated city blocks. I talked with a group of German paratroopers and asked how it all happened.

"We broke through here with our tanks against the Italian traitors," they said. "Everything went well but suddenly we met hellish fire from a first-rate anti-tank gun from the Italian side. Look at our damaged tanks! Do you know what it was? It was the Pope's anti-tank artillery."

Some days later I talked with two German paratroopers who now stand guard in front of Vatican City, and repeated what their colleagues had said about the papal artillery. I thought they would laugh it off. Instead they declared very seriously that the pope probably also has a strong air force.

That, in fact, characterized the German private's strange attitude toward the Vatican when he entered Rome. Later I heard an officer describe the Vatican as "a den of Jews" and "a black international" in which manner the Nazis refer to the Catholic church.

Meaning, an officer standing in front of St. Peter's frequently directs his field glasses toward the palatial rooms. The Germans are alert. Even so, incidents such as the following occur.

A few days ago a diplomatic automobile with a Vatican license plate arrived from the center of Rome. It was allowed to pass the German guards while the Swiss swung back the heavy iron gates to the left of the main entrance of St. Peter's. The Germans, watching the diplomatic car so intently, did not notice small private automobile following almost immediately behind, with a burst of speed the car swept past.

"The Doctor's Daughters" By FAITH BALDWIN

THE STORY: When Jim Thompson becomes Doctor Betty's assistant, he joins the Hall household. He is a good doctor, and is not bothered by his attention. He cannot forget Drew Warner, Mrs. Hall would like Nancy's husband, a wealthy Frank Edgar, Edgar, however, seems more interested in the other daughter, Betty. Visiting Nurse intent on her job. He takes her home.

CHAPTER X  
THE Lobster Pot was a ramshackle shack at the end of a long wharf. Inside it was clean and polished and simple. Rough wooden tables, paper napkins, clam shells for ash trays and superb sea food.

Frank was talking about New York, where he'd spent some time before coming home. The plays he'd seen, the people he'd met. Emily stirred her coffee and listened idly. It was all very far removed from her world.

He asked, once, "You really like your work?" "Very much."

"You must, or you wouldn't do it," he said. "Hard to think of you going into the kind of houses you—" He shrugged, with resignation—"spending your days in dirt and disease and—"

"It's not all dirt," she said, "you don't understand the work, do you? We go into a great many—very nice homes, Frank—in which the people can't afford to pay for trained or practical nurses, or if they have afforded them for a time we wake over where they leave off. After they've gone and there's no longer need for twenty-four or even twelve-hour duty. These people pay us, you know, which enables us to take care of the people who can't pay."

"Oh, sure, I understand. But you don't have any good times, do you? You're just a nurse, aren't you? You don't have any fun," he insisted, looking at her, the clean line of chin and cheek, the dark hair, a little tumbled.

"Well, nothing serious," she said. "I don't believe it."

Emily thought... the Harvard boy who had been her roommate's brother—that was a time, six

W

# We Know What You're Fighting For

We know . . . because we fought for the same thing back in 1917-18.

Some folks are trying to tell us you are fighting this war only for the chance to come back to a country that appreciates modern plumbing and knows how to make real ice cream . . . where you can stuff yourself with hot dogs . . . corn on the cob . . . and thick, juicy steaks from corn-fed steers . . . They would have us believe you lie awake nights praying for that juke box in the corner drug store at home . . . and a girl friend who squeals with delight when a hot band gets in the groove.

There's nothing wrong with pretty girls, hot dogs and swing bands. We yearned for 'em, too! But we veterans of yesterday know soldiers don't talk much about what they feel inside.

We think you're fighting this war for a luxury more precious than personal comforts . . . the luxury of knowing that neither your kid brothers at home . . . nor maybe your own kids 25 years from now . . . will be forced to face the risks and frightfulness of another World War.

We're not trying to tell you this is another of those "wars to end wars." But you must agree we've got a great chance to give the buck-toothed Japs and the goose-stepping Nazis a lesson they won't forget for a couple of hundred years.

We're pretty sure that's what you're really fighting for . . . a peace legacy for your kids and other people's kids . . . and that you don't want to come home until the job's done.

That's why we members of the Veterans of Foreign Wars of the United States are trying to back you up 100 per cent. Not only with our efforts on the home front . . . buy-

ing bonds, building planes, making munitions and saving scrap . . . but in making sure that America will be the kind of country you want it to be when you get back.

That sounds like a big order but we're happy to report that we're making progress. Our government is already pledged to give your disabled comrades, and their dependents, the same pension, compensation and hospital benefits which have been available to veterans of other wars.

We have asked Congress to give you some folding money when you're ready to come home . . . at least enough to buy some civilian clothes and maybe let you loaf a few weeks. Maybe six months' pay or even more.

On top of this, things are being done to make sure you will have the security of a steady job after the war . . . an opportunity to use your energy and ambition to better yourself if you have what it takes in guts and common sense.

We have a hunch that's your idea of freedom from fear and want . . . and it's our idea, too.

That's the idea which has made America great and strong in the past. It's bound to do the same in the future.

We salute you . . . we who represent America's overseas veterans of other wars . . . for the glorious deeds you have already accomplished on the fields of battle.

You are making us doubly proud of the Service Ribbons we earned the right to wear as overseas veterans in the wars of yesterday.

We know your courage makes you unbeatable. We know that you will finish the job we tackled in the first World War . . . with honor and glory to yourself and to the Flag that leads you to victory.

Good luck . . . and God bless you!

## To The Men Serving Overseas,

When you left the shores of your homeland you became eligible to membership in the only veteran association that is composed exclusively of America's overseas veterans.

When you return home . . . the Cross of Malta emblem in your coat lapel will symbolize the official Service Ribbon Bar authorized by the War Department for those who serve beyond the continental limits of our country.

The Cross of Malta emblem of the Veterans of Foreign Wars of the United States . . . like the Service Ribbon Bar you are now entitled to wear . . . is a decoration of distinction you will always be proud to display.

We will be proud to add your name to our membership roster while you are still in active service. Just fill out and mail the coupon below for full details:

### Local Company Of State Guard Needs Recruits

Pampa men were called to arms today.

To fill up the gaps in the company caused by the drafting of young men into the regular armed forces and by other men being transferred by their employment to other cities, officers of Company D, of the Texas State Guard, today issued a call for recruits.

The call was in connection with Texas State Guard week, proclaimed by Gov. Coke R. Stevenson, which opened Sunday.

Posters directing attention to the state guard were distributed in Pampa by Second Lieut. Daniel C. Kennedy of Company D.

One of these is on display at the city hall. It carries the slogan "Texans—Keep Your Guard Up," and depicts a soldier in action in the Southwest Pacific. "Keep His America American" is the slogan underneath the sketch, followed with the words, "Join the Texas State Guard Now."

**Amarillo Passes Pampa**

While South Texas counties have gone all out for the state guard, the response in Pampa and Gray county has been pitifully small.

Pampa has only one company of the guard while Amarillo has two. Whole battalions have been formed in the larger cities.

Any male citizen of Texas, from 15 to 64, who can meet the physical requirements, is eligible for membership. Young men 16 and 17 must have the written consent of their parents.

You can join by contacting any of the company's officers. Drill is held at 7 p. m. each Tuesday at the high school.

**One-Third Veterans**

The local company was one of the first organized in the state, dating from January, 1941, 11 months before Pearl Harbor.

At least one-third of its members are World War I veterans, attesting to the fact that this is no "play soldier" outfit. The others are other young men about to be inducted into the armed forces, or men just past the draft age, or those with some minor physical defect that prevents their serving in the regular armed forces.

**Purpose Explained**

Purpose of the guard, which replaced the Texas National guard federalized in 1940, is to maintain laws, suppress disorders, and protect life and property within the state; guard and protect vital industries.

Prevent activity of enemy agents such as fifth columnists and enemy paratroopers; cooperate with United States military authorities in

extreme emergencies, especially in information and observation duties at or near frontiers and in the evacuation of civilians.

Perform such duties as were assigned to the national guard when not in federal service.

The Texas State guard is the biggest state militia in the United States, numbering 17,000 men and officers. Its insignia of the state guard is of distinctive design, the colors being the same as those in the Texas flag.

The design is a blue shield, on which is a white star, and on the star is a big red "T" for Texas.

Capt. Edward J. Dunigan, Jr., is commanding officer of Company D of the Texas State guard. The local unit is a part of the 14th battalion. Daniel E. Williams is first lieutenant of Company D; Daniel C. Kennedy, second lieutenant; Paul Blankenburg, first sergeant.

**A. & M. College Plans Expansion**

COLLEGE STATION, Nov. 11.—(AP)—Plans for expansion that will quadruple the size of the college to handle 10,000 students after the war was announced by F. M. law of Houston, president of the board of directors, in an address to faculty members of the American Association of University professors.

Law revealed that the plans already were past their formative stage for more classrooms, an auditorium to seat 10,000, adequate hotel facilities, library expansion and greatly increased funds for research by staff members.

The post war plans also include an enlarged faculty, pay more commensurate with the duties performed and a uniform system of sabbatical leave for faculty self-improvement. Law said.

He paid tribute to the co-operation accorded the school by former students, lauding the campaign under way for a war memorial student activities recreation center.

Dr. F. C. Boleston, acting president of the college, announced the present enrollment of more than 7,300 men is the greatest in the history of the school. Recent expansion of the army specialized training program accounts for the record enrollment, Bolton said.

**Tomorrow's Car Won't Change Much**

CLEVELAND, Nov. 11.—(AP)—Americans who expect the postwar car to resemble a "combination of crystal ball and a rolling solarium" are putting faith in a fairy tale, the Society of Automotive Engineers has been told.

Tomorrow's auto will look and operate remarkably like today's, said A. T. Colwell, vice president of Thompson Aircraft Products Co., in summarizing opinions of 81 "leading oil and automotive engineers of America, representing the greatest pool of combined technical talent in the world in their respective industries." He added that no new models would be on the market until at least 18 months after the war and "then changes will be gradual, not radical."

**War Mobilizer James F. Byrnes**

War mobilizer James F. Byrnes, in whose office the adjustment unit is established, points out that the immediate problem is produced by the changing requirements of war strategy.

This involves the question of weapons and materials needed, and of major importance—those not needed.

Where certain weapons no longer

### TODAY on the HOME FRONT

by James Marlow and George Zielke

WASHINGTON.—(AP)—The new Job handed to Bernard M. Baruch—development of a unified government policy for war and post war adjustment—will affect everybody in this country.

While the principal problems may be grouped under the headings of industrial shifts in wartime and conversion of industry to peace, any decision taken will reach out to touch every home.

Specifically, the main problems are these:

1. Revision and termination of war contracts.
  2. Disposition and reconversion of war plants.
  3. Disposal of surplus war materials.
- Each of these has a bearing on employment, on wages and prices, on taxes to pay the cost.
- War mobilizer James F. Byrnes, in whose office the adjustment unit is established, points out that the immediate problem is produced by the changing requirements of war strategy.
- This involves the question of weapons and materials needed, and of major importance—those not needed.
- Where certain weapons no longer

are required, what is to be done with the plants which have produced them? Can they be shifted to other war production? What delays—and consequent unemployment—would result from such a change? Should these plants be permitted to return during wartime to production of civilian items? And what delays and unemployment would be involved?

Just to show the extent of factors tied up in the whole problem, take this question: If a plant is permitted to return to manufacture of civilian items, what shall be the status of its skilled workers deferred from military service by reason of their occupation? Would they get continued deferment?

The extent of post war unemployment is at stake in the handling of the conversion process.

More than half of American production workers and machines are in war production or aligned toward the purposes of war, a report of a National Planning association committee states. In some lines, present capacity of output is far greater than any peacetime demand in the past.

Some plants may be useless for peace; some the government may wish to keep intact. Commerce Secretary Jesse Jones has suggested a plan to permit manufacturers to buy government-owned plants on an installment basis.

Disposal of surplus war materials is a subject of much present discussion. Orderly sale with a minimum disruption of normal channels of trade and distribution is the goal of industry, concerned over possible loss of markets.

Termination of war contracts will find plants with raw materials and semi-finished products on hand. Industry points out that termination may leave a company, with most of its working capital tied up in work in progress and in inventories. The question, then, is one of financing reconversion.

This will be a continuing problem. The first crisis may come with the defeat of Germany and her satellites. That will bring up the question: How many plants are needed to turn out the weapons and other materials for the war against Japan and for occupation of defeated nations.

### Governor Backs Searchers For Hunt Slayers

AUSTIN, Nov. 11.—(AP)—Governor Coke R. Stevenson has pledged the cooperation of his own office and asked all peace officers to assist in bringing to justice the slayer or slayers of Dr. and Mrs. Roy Hunt of Littlefield.

The atrocious murders of Dr. and Mrs. Roy Hunt challenge the attention of peace officers everywhere, the governor declared in a formal statement.

The Hunt's bodies, bound and blood-soaked, were found in their home Oct. 26 by their six-year-old daughter.

The governor said the crime shocked the state and its solution needs the cooperation of all officers.

The text of his statement:

"The atrocious murders of Dr. and Mrs. Roy Hunt at Littlefield recently challenges the attention of peace officers everywhere. The solution of this crime calls for the utmost efforts on the part of state and local peace officers. The slayer, or slayers, should be located, arrested, and prosecuted in the fullest extent of the law.

"I have every confidence in the authorities who are directing this investigation at the present time. I commend those who are actively working on this case for the accomplishment of their task. I realize they have tackled a tough job, and be-

**You'll Get Two Pair Shoes Yearly**

CLEVELAND, Nov. 11.—(AP)—Present production figures point to about two and one half pairs of shoes a year for civilians. W. W. Stephenson, the office of price administration's national shoe rationing chief, declared today.

"If an individual is allowed three pairs a year, production totals of 300 million a year would have to be stepped up to 378 million," he told a press conference. "Manpower and material shortages are obstacles to this, but if the supply is increased, the life of No. 1 airplane stamp in book 3 will be shortened.

"The children's shoe supply is about three pairs a year with parents clamoring for four."

### Man Drafted By Mistake Likes It

SHEPPARD FIELD, Nov. 11.—(AP)—Pvt. John C. Clinton, stationed at Sheppard Field for two months, this week received a notice to report for induction Nov. 17.

A little startled, Private Clinton investigated to find that his draft board at Abilene, drafted him into the armed forces because of a typographical error. For nearly three months, since Aug. 13, he has been serving in the place of J. C. Clinton.

But Private Clinton says he doesn't mind. "I like it at Sheppard Field—I may get to be a drill instructor."

"I have every confidence in the authorities who are directing this investigation at the present time. I commend those who are actively working on this case for the accomplishment of their task. I realize they have tackled a tough job, and be-

### Press to Lead Paper Drive

NEW YORK, Nov. 11.—(AP)—A nationwide campaign to collect waste paper for the war effort will be undertaken soon by the country's newspapers.

Linwood T. Noyes, president of the American Newspaper Publishers association, said the drive was requested by Donald M. Nelson, war production board chairman, who, in a telegram to Noyes, asserted that a raw material shortage threatened to bog down war production.
