Action Taken To Hold Down Bread Prices

WASHINGTON, Nov. 30.—(AP)—The administration's bread subsidy program intended to prevent retail loaf price increases in this staple, will be put into effect tomorrow.

The Defense Supplies Corp., today announced a series of subsidy payment rates on various grades of wheat effective Dec. 1, to relieve a price squeeze on millers and so that latter may continue to sell flour for bread to the baker at prevailing levels.

This subsidy schedule, to be paid at the mill, was announced:

Hard wheat ground outside of the Pacific coast area—16 cents a bushel.

Soft wheat ground outside the Pacific coast area—five and one-half cents a bushel.

Durum wheat ground outside the Pacific coast—six cents a bushel.

All wheat ground in the Pacific coast area—14 cents a bushel.

The rates, DSC said, will continue in effect during December "and until further notice." Payments will be made on the amount of wheat ground during a calendar month.

DSC said the schedule represented the difference between the wheat price used by the office of price administration as the basis for flour price ceilings and the current wheat markets.

U. S. Soldiers, Italians Held As 'Black Market' Is Broken Up

By RELMAN MORIN

NAPLES, Nov. 30.—(AP)—A soldier's purchase of a dozen bottles of cheap wine led today to the arrest of what police believe are the key men in an Italian "black market" ring which has been dealing mainly in American army rations, tires, gasoline and other articles valued at thousands of dollars.

An undisclosed number of American soldiers and military truck drivers have also been arrested.

The sale of government property to Italians has been under investigation since the summer, when Allied military government inspectors, working with the Italian police, made some arrests in what was obviously an organized ring.

but they were unable to track down the heads of the organization.

Over the week-end a British soldier went into a small shop and bought a dozen bottles of wine.

He told AMG police he thought the price was exorbitant and the wine tasted "a bit odd." An analysis showed that the wine was one of the cheapest known brands and that it had been bolstered with methylated syrup.

The soldier led an inspector back to the shop. They found it completely stocked with the labels for virtually every well-known brand of wine and spirits in existence, as well as bottles, corks and jerrycan caps.

Barrels of chemicals and adulterants were found in the "bottling room."

The owner and some workmen were arrested. Under questioning they admitted that the shop was part of a black market ring. The proprietor offered to lead AMG to "something more important." He did.

Three small stores, stocked with cases of American army rations, gasoline, shoes, clothing, white flour and various types of mechanical equipment were found. Three trucks worked all day Monday removing the articles.

In the meantime the Italians who are believed to have headed the ring were located and arrested. They said they had bought the goods in some quantities at a time from army truck drivers at a court martial.

U. S. Bombers Raid Germany In Daylight

(By The Associated Press)

The British Eighth Army broke into the main defenses of the German winter line in eastern Italy in an advance four miles north of the Sangro river, widened its bridgehead over the flooded stream to 12 miles and continued its advance today in a "colossal crack" at the eastern approaches to Rome.

The Allied communique said Gen. Montgomery had driven into high ground northwest of the Sangro after 36 hours of heavy and continuous fighting near the Adriatic.

The Fifth Army in western Italy advanced a mile north of Venafro, through heavy artillery fire and captured Castelmuro.

The Russians drove within 12-mile artillery range of Zlobin, a gateway to Minsk. A renewed drive in the Cherkasy area of the Dnieper bend advanced seven miles within nine of the rail junction of Smela.

U. S. heavy bombers attacked western Germany by day, setting a record of 11 major assaults in one month.

British Mosquito bombers attacked western Germany and airfields in France and Holland without loss last night. They also followed another daylight raid on the German Flying Fortresses. At Bremen by other widespread sweeps, Allied planes destroyed 45 Nazi fighters and the crew of 13 big bombers and 18 fighters.

While Montgomery was grinding the German line to bits in eastern Italy, Allied planes flew to the spawning place of the first world war and bombed Sarajevo in Yugoslavia.

Russian armies were battering ahead on six fronts, three in the Russia and three in Ukraine. The

America Has Plenty of Secret War Weapons Up Her Sleeve

By TOM REEDY

WASHINGTON, Nov. 30.—(AP)—Hitler's threat to use a secret "reprise" weapon was answered by U. S. military spokesmen with these disclosures today:

1.—The U. S. army air force has learned how to hoist 75 mm cannon into the skies—a weapon so potent it already has sunk a Japanese destroyer single-handed.

2.—The navy has developed some ordinance sensations, one so amazing that a foreign scientist labeled it impossible.

The army said its B-25 Mitchell medium bombers had been equipped with the 75's, first ever to carry such heavy firepower. U. S. bombers have been using 37mm guns, Russia has had some success with 40 mm. Fighter planes usually carry 20mm cannon.

The test got its combat test in the South Pacific. A B-25 so equipped smashed a Japanese air transport, then with five direct cannon

Grud 'Snooping' Up To Lubbock OPA

"It's up to the Lubbock district OPA office, we're not an enforcement agency," Roy McKernan, chairman of the Gray county rationing board, said today when questioned concerning the Marine Corps' investigation of the county board going to play gessapo on Pampa sports fans who use their cars to travel to Vernon to see Pampa's great Harvard football team play the Lions in the bi-district game there Friday.

The OPA has done some snooping in the past, when motorists used their cars to attend sports events, but so far as is known here hasn't cracked down on any football games in the Top O' Texas section.

Lack of Jap Aerial Power Puzzles Yanks

(By The Associated Press)

Air power that met no challenge in the skies pined Allied drives against the Japanese in New Guinea, effective Jan. 1, in the Gilberts, the northeast coast of New Guinea, a strong force of big Liberators attacked Wewak with 94 tons of bombs, and the absence of enemy interception puzzled air officers. As last reports, they said the Japanese had more than 50 fighters in the Wewak area.

Nor did a single Japanese fighter oppose nearly 1500 American dive bombers and torpedo bombers which attacked enemy installations on the south shore of Empress Augusta bay in support of American forces on Bougainville.

Liberators damaged one warship in an attack on two destroyers and a freighter off the north coast of New Britain, while other bombers and fighters strafed and sank barges along the coasts of Bougainville and New Guinea.

The navy department announced in Washington that islands in the Gilberts are "being developed ac-

City Answers Criticism Of Car Purchase

City officials met a blast of reproachful criticism from the local rationing board and from private citizens yesterday with the announcement of the city's purchase of a new scout car obtained in St. Joseph, Mo.

Telephones were kept humming as motorists voiced complaints that the city was able to drive a car from Missouri to Pampa. Despite the fact that a police car is a vehicle needed for public protection and is the civilian counterpart of an army jeep, some local citizens didn't like it a bit.

City Manager W. C. deCordova explained that the new scout car was an absolute necessity and that while the car was obtained in Missouri, the deal was handled here through the Purley Motor company, the city paying \$7525 for the car, and trading in the police department's Chevrolet sedan that had seen 70,000 miles of service.

Purchase of the car means better protection for Pampans, enables the police department to do its work better, and means a saving in car operation costs, the city manager said.

Sticklers for the OPA restriction that limits trips for new cars to 200 miles were advised by the city manager that the deal was strictly on the up-and-up.

Cairo War Parley Is Reported

NEW YORK, Nov. 30.—(AP)—Reuters, the British news agency, today received a dispatch dated Lisbon which said "it is known in Cairo that the British President Roosevelt, Prime Minister Churchill and President Chiang Kai-Shek have completed a long conference in Cairo and are now en route to Teheran (Persia) to meet Premier Stalin."

An Associated Press dispatch from London said this Reuters dispatch was not distributed by Reuters in Britain. However, it was transmitted through London and reached New York by normal radio transmission.

Tommy Harmon Successful In Second Escape

U. S. 14TH AIR FORCE HEADQUARTERS, China, Nov. 30.—(AP)—Tommy Harmon, former University of Michigan All-American football player who twice became a downed U. S. army air pilot, was returning to base today after being rescued by Chinese following destruction of his fighter craft by Japanese Zeros in a low-level attack on Kiu-kiang a month ago.

Glad to report Harmon okay and returning to base, a terse message to headquarters from his advanced Lightning fighter base said:

There was no mention of injuries and headquarters said the attack on which he was lost on Oct. 30 was a counter blow at the Japanese offensive, which the Chinese said was finally stalled at Changchew.

Lt. Jordan Robins, Jr. of Dallas, was shot down on the same mission and he, too, was rescued by the Chinese and is returning to base.

Last April, a bomber Harmon was piloting crashed in a squall over French Guiana in the South American jungles and Harmon and the six-man crew bailed out. The former halfback hacked through the jungle until he reached natives who guided him to a settlement.

Harmon was All-American in 1939 and 1940. Between his South American and Chinese escapes, Harmon was a Lightning fighter pilot in North Africa.

Troop 80 Leads Court of Honor For First Time

The regular quarterly court of honor for the Boy Scouts of Gray county was held last night at the district court room in Pampa, under the direction of the Rev. Robert Boshen, district chairman on advancement. A large group of parents and troop committee members attended.

The opening and closing ceremonies of the court were conducted by Scouts of troop 14 of Pampa with Scoutmaster James McCune in charge. Richard McGuire, Eagle Scout of Troop 4, acted as clerk of the court. George Prieau was chief statistician of the court. The first class and star awards were presented by J. H. Jones, second class by the Rev. Boshen and merit badges by W. B. Weathered.

The Eagle badge was presented by the Rev. Boshen to Joe C. Gourley of Troop 19, located at LeFors. Scout Gourley was unable to attend the court of honor as he is now in the army and is stationed at Camp White, Oregon.

Troop 80, sponsored by the First Methodist church was the high ranking troop in advancement for the quarter, making a total of 647 points to be placed at the top of the Court of Honor ladder. Troop 17 was a close second with 595 points; troop 14, third with 541 points; troop 16, fourth with 423 points; troop 20, fifth with 289 points. Ray Goodnight is scoutmaster of Troop 80, and this was the first time the troop has ever placed first.

Ward to Head Price Board

Charles Ward, who has been acting chairman of the price panel of the county rationing board, was named chairman, and L. J. Zachry, vice-chairman, at the panel's meeting last night.

At the same time, the panel decided to change its meeting date from semi-monthly 5 p. m. Friday date to 5 p. m. each Monday and next Monday will hold its first gathering under the new schedule.

As chairman, Ward replaces Ivy Duncan, who resigned some time ago.

Besides Ward and Zachry, other members of the panel are H. W. Walters and T. J. Wright, both of Pampa, and John Fomburg, of LeFors.

Tarawa Airfield Is Used Quickly

WASHINGTON, Nov. 30.—(AP)—Within four days after the initial attack on the Japanese at Tarawa in the Gilbert Islands, the Americans had an air field in use.

This was disclosed by Secretary of the Navy Frank Knox at a news conference today.

Figures on the American losses, he said, have not been received here. He repeated that the fighting was "very bitter," implying as he had before that heavy losses should be expected.

Knox said the navy's construction unit, the Seabees, went to work on the air strip at Tarawa shortly after the first wave of Marines had landed.

Asked about the reason for heavy losses, Knox called attention to reports that one of the assault waves of Marines ran into trouble when wind and sea conditions changed unexpectedly and they became hung on a reef while exposed to heavy fire from the Japanese shore.

He said that preparations for the landings were thorough, with heavy aerial and naval bombardment preceding them. Our forces did not underestimate Japanese strength on Tarawa, he said.

Vandegrift Is Appointed Head Of Marine Corps

WASHINGTON, Nov. 30.—(AP)—Lt. Gen. Alexander A. Vandegrift today was appointed commandant of the Marine Corps, effective Jan. 1, in succession to Lt. Gen. Thomas Holcomb, retiring because of age.

Announcement of the appointment was made by Secretary of the Navy Frank Knox at a Marine Corps headquarters press conference attended by Holcomb and Vandegrift.

Today's appointment is the normal requirement age of 64 last August, but President Roosevelt requested that he remain in his present post until the end of this year.

Vandegrift is a veteran of 34 years of service in the Marines. He was in the Southwest Pacific fighting at the time the president decided to appoint him commandant. He started back home but upon reaching Honolulu, was ordered to go back to the Bougainville area to help with the Pacific offensive. He was made necessary because of the accidental death of Maj. Gen. Charles Barrett, who originally had been assigned to command the Marine landing operation.

It was Vandegrift who led the Marines ashore in the first big land offensive of the Pacific at Guadalcanal a year ago last summer.

Quiet spoken and smiling, Vandegrift presents a contrast to the pop psychology of the "tough-talking" Marine. But his record shows him a fighting man. He saw action as far back as 1912 when serving with an expeditionary battalion in Nicaragua. He participated in the battle of Vera Cruz, Mexico, fought hostile forces in Haiti, saw service in China.

His home city is Charlottesville, Va., where he was born.

City to Collect Trash Tomorrow

Your last chance to clean out the dead tree limbs, weeds, and similar rubbish from your property this week will begin tomorrow.

City Manager W. C. deCordova said city trucks would start out Wednesday morning in the north-west part of town picking up trash that Pampans have gathered in the alley back of their residences.

There are some cases in which there are no alleys; in these cases, home owners should pile their rubbish in front of their houses, Manager deCordova said.

Trucks will progress through different areas of the city in turn. Due to the manpower shortage, this will be the last city-wide cleanup for 1943.

Mexicans Protest Buller Statement

MEXICO CITY, Nov. 30.—(AP)—Senators Esteban Garcia de Alba and Jose Castillo Torre, foreign relations committee chairmen, have protested in Congress yesterday the statement against U. S. Senator Hugh Butler's recent criticism of lend-lease aid to Latin America.

"Mexico is complying loyally with her contracted obligations," the senators declared last night in a statement.

They declared the assertions of the Republican senator from Nebraska "injure the good faith with which our countrymen lend their aid to the cause of democracy and cooperate in the defense of America."

One Mexican senator, denying assertions that U. S. planes were defending the coasts of Mexico, said such an allegation "constitutes an insult to Mexico."

"The fact that Mexico is defended only by her own soldiers and elements is something of which we are proud," he declared.

Planes Attacking Convoy Downed

CAIRO, Nov. 30.—(AP)—British Middle East fighters intercepted a formation of enemy bombers, which attempted to attack an Allied convoy in the eastern Mediterranean yesterday, and destroyed two JU-88s, an RAP communique said today.

Two British planes are missing from all operations since the help of Nov. 22 which included attacks on enemy shipping in the Aegean sea, the announcement added.

Posse Nabs Negro Accused of Rape

DENTON, Nov. 30.—(AP)—Captured after firing shots that missed a posse, Allen Murray, a Negro of about 30, was lodged in jail under charges of rape, robbery with firearms, and assault with intent to murder in the robbery-slitting of 17-year-old John Dunaway of Longview and an attack on Dunaway's college companion.

Troop City Marshal C. P. Nicholson and a posse of farmers captured Murray late yesterday north of Tiooga to climax a search which began after the attack Sunday afternoon five miles northeast of Denton.

Nicholson said Murray fired four wild shots and then attempted to use a knife, which the marshal took from him at gunpoint.

Dunaway, in a hospital here, was reported slightly improved.

Houston Court Acquits Thomas

HOUSTON, Nov. 30.—(AP)—R. J. Thomas of Detroit, president of the United Automobile Workers (CIO), was acquitted in county court at law today on a charge of violating the Manford labor union law.

Judge Alvin Peyton ruled Thomas innocent after Assistant District Attorney Kellie Daniel admitted a variation between the state's complaint and its evidence.

The court's action hinged on the technicality that the three defendants were soliciting members for a union other than their own.

How to Become A Millionaire

PITTSBURGH, Nov. 30.—(AP)—Mark Nolan, president of the Keystone Box company, wanted to buy some War Bonds, but he hadn't planned on becoming a millionaire.

Nolan sent a check to purchase five \$5,000 bonds. In return, he received five \$500,000 bonds.

Federal Reserve Bank officials explained a clerk had accidentally dipped into the stack of \$500,000 bonds instead of the \$5,000 ones in filling Nolan's order.

The bank quickly rectified the error when Nolan returned the \$2,500,000.

Mexicans Accused Of Peace Agitation

MEXICO CITY, Nov. 30.—(AP)—A woman school teacher and a laborer have been sentenced to two years imprisonment each on charges of "social dissension" through distribution of circulars agitating for peace.

The court ruled yesterday that the acts of the two, Maria de la Luz Cienfuegos and Cecilio Sandoval Lopez, "induced failure to fulfill patriotic duties" during war-time.

Actress Aids Baby Injured in Amarillo

LOS ANGELES, Nov. 30.—(AP)—Errol Stephen Bannister, a game little 2-year-old, slept peacefully in a White memorial hospital today following a delicate skull operation which may save him from spending his life in the shadow of imminent death.

The operation was made possible by a young actress who advanced a loan of \$500 but insisted that her identity be kept secret.

Errol lay on the operating table for 2 1/2 hours yesterday while a surgeon cautiously elevated a depressed skull fracture.

The boy incurred the injury accidentally 28 days ago when he fell 40 feet from an Amarillo, Texas, hotel window where he and his parents, Mr. and Mrs. James S. Bannister of Los Angeles, were stopping en route here after a visit to their home town, Charlotte, N. C.

Squadron 6 Pilot Will Be Honored

HOUSTON, Nov. 30.—(AP)—A pilot of famed Torpedo Squadron Six, cited for launching an offensive under conditions "so exceptional that it is highly improbable the occasion may ever recur where other pilots will be called upon to demonstrate an equal degree of gallantry and fortitude," will be honored here Dec. 6 when the destroyer escort Vessel USS Eversole is launched at Brown Shipbuilding Co., the navy announced today.

Named for the late Lieut. (JG) John Thomas Eversole, USN, of Pocatello, Idaho, the warship will be sponsored by his mother, Mrs. Sarah R. Eversole, Pocatello.

Trans-Atlantic Plane Record Cut To 11 1/2 Hours by Ferry Command

MONTREAL, Nov. 30.—(AP)—The trans-Atlantic air speed record from Montreal to Britain was beaten yesterday by Capt. Richard Allen an Australian member of British Overseas Airways Corp., which operates the North Atlantic ferry shuttle service for the RAF transport command.

He flew a Liberator 3,100 miles non-stop from Montreal to a British airport in 11 hours and 35 minutes—21 minutes faster than a record established seven weeks ago by a Lancaster bomber piloted by Capt. James H. Doolittle, making the 11-hour record.

Badoglio Group Voted Against

NAPLES, Nov. 29.—(Delayed)—(AP)—The committee of liberation composed of delegates of six Italian political parties voted non-confidence in the new Badoglio government tonight, called upon King Vittorio Emanuele to abdicate and demanded that Crown Prince Umberto renounce his rights to the throne.

Hollywood Seethes Over Question Of Brass Hats as Glamor-Grabbers

HOLLYWOOD, Nov. 30.—(AP)—Cineville, which loves a controversy so long as nobody settles it, is clacking its tongue over this poignant war-time question:

Are they glamor-grabbers, these brass hats of the armed services?

Screen Actress Laraine Day, who raised the issue in a report to the Hollywood victory committee, says she believes commissioned officers dominate the time and attention of most entertainers on camp tours.

But Susanna Foster and Irene Manning, likewise actresses and camp tourers, contend they've found it otherwise.

"I played six camps in Texas," declared Miss Foster in an inter-

TODAY on the HOME FRONT

by JAMES MARLOW and GEORGE ZIELKE

WASHINGTON, (AP)—The faltering way in which the story of Major General George S. Patton's head-slapping episode became public has brought into focus two sharp questions on the war department's policy of giving news to the American public.

To what extent—and for how long—is the department justified in hushing up an unpleasant episode on grounds that publication might give aid and comfort to the enemy?

2. Are there other instances—or will there be—of the same kind of news strangulation involved in the Patton incident?

A central point at issue is what is "security" and what isn't.

Nobody has contended that the army or navy should make public any information when its publication would threaten the security of the nation or the lives of its fighters.

Here is the background of the Patton incident:

On Aug. 10, during the Sicilian campaign in which he commanded the hard-hitting Seventh Army, Patton strode into a military hospital, consoled wounded troops, and saw a shell-shocked soldier sobbing on the side of a bed.

When the soldier told Patton the front-line shelling had cracked his nerves, Patton slapped the man on the back of the head, called him "yellow," and ordered him back to the front. Hospital attaches intervened.

General Dwight D. Eisenhower heard of the occurrence, rebuked Patton. The latter apologized to the soldier, the hospital staff and his troops in the field.

Newspaper correspondents covering the Sicilian invasion got the story. They were told by Eisenhower that army censorship would not stop their sending it back to the United States but that he believed its publication would be of value to the enemy.

The correspondents, taking Eisenhower's word as to the effect publication would have, agreed not to send the story.

Months passed. Some newsmen returning to this country on leave discussed the incident among friends, the story still was not printed since Eisenhower never had rescinded his original caution on its publication.

By word of mouth the story got around in this country.

Drew Pearson, newspaper columnist and radio commentator, heard of it.

He wrote the story, cleared it through the office of censorship here and consulted "high war department officials" who told him to use his own judgment as to releasing it.

He broadcast it Sunday night.

Texas Today

By BRACK CURRY Associated Press Staff

The United States has reached the top in efficient production of petroleum and the flow of many important oil areas is declining sharply, says Railroad Commissioner Ernest O. Thompson.

Only in West Texas can production be stepped up to meet the insatiable demands of mechanized warfare for oil and by March, 1944, this last reserve will be producing at capacity rates, Thompson says.

"Suggesting that the oil industry must ponder and decide whether America should use up her available crude oil faster than other countries," Thompson said that U. S. production in 1936 was 10 per cent of reserves while world production was 3.7 per cent of reserves.

"We all know that our production has greatly increased since 1938 and our problem gets more serious in proportion as our percentage of production increases as compared with reserves," he said.

"After all, the users of crude and products of crude oil do not particularly care where it comes from just so it's available in ample quantities."

Thompson posed the question, "Where do we go for oil?" after March, 1944, when pipe lines make the West Texas reserve readily available for movement to refineries and to market.

Presently known fields of Mexico and South America—principally in Bolivia, Brazil, Colombia, Ecuador, Peru and Venezuela—can produce about 430,000 barrels daily above present production of 570,000 barrels per day, he said.

Bahrein, Egypt, India, Iran, Iraq, Saudi Arabia, Trinidad and the United Kingdom probably can produce 845,000 barrels a day or about twice current production, Thompson said.

"It might surprise some," suggested Thompson, "to look at the map showing ocean routes and distances and find that the haul from Arica to New York is 1,716 miles while the distance from Houston to New York is 1,910 miles."

Noting that "steps are now being taken by our government to develop foreign oil properties owned by American citizens," Thompson said directives have been issued by the petroleum administration for war to the petroleum reserves corporation "to do all things necessary to produce, refine and transport oil at places closer to our fighting armies and fleets."

This, he asserted, is "a wartime necessity—a military necessity since:

"It will take a long time to drill wells, build pipe lines and construct refineries at these distant points from America, but in war you must be sure there will be plenty of everything that will be needed for victory. And there is nothing we are going to do more of than oil and gasoline before this victory is finally won."

Tire Inspector Job Is Open

Qualified eligibles resulting from the current examination for tire inspector will be considered for this post with the Lubbock district OPA office, John T. Dixon, local civil service secretary said today.

Interested applicants to secure the necessary forms from him at the post office and file them before Dec. 2, 1943, with the director, 10th civil service region, 210 S. Harwood St., Dallas.

"Applicants must have two years of experience in the tire field such as that obtained in connection with a tire dealership, tire manufacturing concern, a large reappreciation establishment or a maintenance garage involving specialization in the problems," Dixon said.

The tire inspector aids in the OPA rubber conservation program. All appointments are made in conformance with war manpower commission regulations.

HE'S SPEAKING OF OUR "ALL RISKS" PERSONAL PROPERTY FLOATER INSURANCE POLICY

You'll Want It Too...

It protects your household goods, including furniture, rugs, linens, china, silverware and paintings—it protects your personal effects, including clothes, luggage, jewelry and furs—it protects your sports equipment, including guns, golf clubs, fishing equipment and bicycles—anywhere in the world—in or out of your home—including children's property at school—

Against "ALL RISKS" insurance, which means practically ANY LOSS OR DAMAGE that can possibly occur to your property including loss or damage as a result of:

- 1. Fire and Lightning*
2. Windstorm and Hail*
3. Water damage
4. Flood, rain and snow
5. Burglary, theft and holdup
6. Mysterious disappearance
7. Soot and smudge damage
8. Loss or damage in transportation including mails.
9. Earthquake
10. Aircraft and vehicle damage
11. Malicious damage
12. Strike, riots and civil commotion
13. Explosion
14. Collapse of buildings
15. Spilling of liquids or acids
16. Breakage (brittle articles also covered but only as a result of thieves, vandalism and malicious mischief, fire, windstorm, earthquake, flood, explosion, aircraft, strikes, riots and accident to conveyances)

In Addition It Protects

- 1. Unscheduled Jewelry and Furs in any one loss up to \$250.00 against "ALL RISKS" perils; if more insurance is needed on these items it can be provided at additional cost
2. Money, Notes, Securities, etc., up to \$50.00 against "ALL RISKS" perils.
3. Property of guest and servants up to amount of insurance granted in unscheduled section of policy while on your premises—servants while traveling with you also
4. Property located throughout the year in summer, country or winter homes up to 10% of the amount of insurance granted in unscheduled section of policy—if more than 10% coverage is needed it can be provided at slight additional cost.
5. Your dwelling against any physical damage directly caused to it by thieves in the accomplishment of a theft or an attempted theft and damage to interior of residence by vandalism and malicious mischief.

*The policy does not cover animals, automobiles, aircraft, motorcycles or other conveyances, (except bicycles, tricycles, baby carriages and similar conveyances) or their equipment or furnishings except when removed therefrom and actually on premises of residences of assured, and property of any Government.

*Texas insurance laws require issuance of the usual fire and windstorm policy for these perils.

Why not drop by our offices today or call for further information about this wonderful "ALL RISKS" policy. You'll surely want it... and its reasonable cost will permit you to use its multiple protection.

NOW IS THE TIME TO PROTECT YOUR PROPERTY... IT COSTS PLENTY TO REPLACE!

AMERICA
(Continued from Page 1)

hits left a large destroyer sinking. The mediums with 750 abraded have been used against land installations and in forays against shipping without impairing their effectiveness at bombing, strafing, or acting as reconnaissance planes, the Army said.

The deteriorating quality of German material tells the story of the steadily increasing weight of Allied bombing raids on the third reich's industrial centers, army ordnance officers said today at Aberdeen Proving Ground, Maryland.

Likewise, some deterioration in the quality of Japanese equipment—although in a much lesser degree—shows the effects of the naval knife being applied to Nippon's lifelines, the cargo ships which carry vital materials to factories in the land of the rising sun.

These are just parts of the story which the ordnance officers piece together at the nation's largest proving ground for military equipment.

Generally speaking, the ordnance officers agree that both German and Japanese equipment is either equalled or surpassed in every case by American materiel of war.

The officers who study captured guns, tanks, half-tracks and other vehicles are quick to say that the Germans are master craftsmen, and that their equipment shows it.

The Japs and Italians are called "third rate," and Col. George G. Eddy, chief of the research center, asserted that not a single Jap wea-

son can be said to be truly Japanese.

"They are far behind the rest of the world in both research and development," Col. Eddy commented. Nevertheless, said Col. Jarrett, while the quality of German equipment has shown deterioration, Allied soldiers unlucky enough to be hit are just as dead—or just as sorely wounded—as if it were high quality.

cording to plan," and that a few enemy stragglers remain in the northern end of Tarawa atoll.

Seventh air force Liberators gave the Japanese no letup with new raids against Nauru and the Marshalls, 350 miles northeast of the Gilberts.

At Pearl Harbor, Maj. Gen. Holland McTear Smith, commander of Tarawa's assault forces, said that atoll, where American casualties were heavy, might have fallen at less cost if there had been longer naval gunfire and aerial bombings.

He was quick to add, however, that the overall picture had to be remembered and the longer we stay in the area (before assault) the more liable we are to attack by sea, under sea and the air.

Chungking made no mention of the fighting in the "rice bowl" area of central China, but announced American aerial support to Chinese ground forces on the Salween river front.

Nazis Force Girls Into Brothels

LONDON, Nov. 30—(AP)—Women of German-occupied countries "treated worse than cattle" by their German conquerors, the inter-Allied information committee said today in a 20-page booklet which asserted that hundreds of teen-age girls had been made to serve in Nazi military brothels.

The booklet, "Women under Axis Rule," said the Germans had seized the prettiest girls in many Polish towns under the pretext that "we need Polish women for our factories." Six months later many of these girls, having outlived their usefulness in brothels, returned home wasted, pregnant and diseased, the pamphlet declared.

Nazis recruiting girls in Luxembourg were told by Gauleiter Gustav Simon that "Luxembourg girls will be able to go to Germany to work six months for the fuhrer and will be proud to return as German mothers," the booklet added.

"IF YOU BACK DOWN ON DER FUHRER YOU'LL BE BEATEN UP!"

of the defenses and the height of the lake level, waiting for the right amount of water to exert the greatest pressure against the wall.

One aircraft hit the sea, lost both outboard engines and flew back on the inboard two. Two others were hit by flak and ordered to return to base. That left 16 aircraft, 112 men. They continued into the Ruhr, fought past Hamm and came over the hill above the Mohne lake.

"I spoke to my squadron: 'O. K., chaps. Come into attack when I tell you I'll attack the dam.'"

"As the last aircraft attacked and as I watched the mines drop in exactly the right place, a great column of whiteness rose up a thousand feet into the air and the dam wall collapsed."

"Then I felt a little remote and unreal sitting up there in the warm cockpit of my Lancaster, watching this mighty power which we had unleashed; and then I felt glad because I knew that this was the heart of Germany and the heart of her industries, the place which it self had unleashed so much misery upon the whole world."

Bombing of Ruhr Dams Was Preceded by Painstaking Work

BOSTON, Nov. 30—(AP)—The breaching of the Ruhr valley dams by the RAF last May is history; now comes the story behind that blow—the months of preparation, experiments that failed, the production of the "missile" that unleashed the torrents, precision flying and the infinite patience of a great, painstaking scientist and Britain's most experienced bomber pilot.

The story is told in the December Atlantic Monthly by Wing Commander Guy P. Gibson, who trained the men who probably knew more about the art of bombing than any other squadron in the world, and led the attack. Gibson, the most decorated man in the British army, received the victory Cross for the exploit.

He had been scheduled to go on leave when he was ordered to form a squadron of the best crews in the bomb command to carry out "the most damaging blow of the war."

When he got his squadron together—25 crews, which meant 175 men—he told them: "You're here as a crack squadron. What the target is, I cannot tell you. All I can tell you is you will have to practice low flying all day and all night until you know how to do it with your eyes shut."

Security measures were taken telephone wires were tapped. Guards were stationed everywhere in the vicinity and the barmaid in the local pub was given three months' holiday.

Gibson went to London to meet the scientist, whose name is not disclosed—"one of the real backroom boys of whom little can be told until after the war." The scientist gave Gibson a lecture on damology, the art of breaking down dams.

"Now you think me a stupid old man," he said, "but wait—until I tell you what I know about the Mohne dam. It is a military objective which I have been studying ever since the war began. This dam is some 850 yards long, 150 feet thick, and it is as high as it is thick."

The scientist went on to explain that experiments with explosives on such walls had been going on for some time and that now a dam some 200 feet across, had been built "in the south" and that certain theories, evolved with smaller models, would be tried out there.

The experiment proved a success, but the scientist was not convinced.

Another dam in the Midlands was selected and, on one cold winter morning after another, Gibson flew over this dam and dropped his "missile." The scientist stood on the edge of the lake, but one after another the experiments failed.

"Then suddenly one morning in April, on one of the first days of spring, I flew over and dropped one which worked," Gibson relates. "The man on the ground danced and waved his hands in the air."

Then there were urgent telephone calls, and many signals which were to carry with us over to Germany to be dropped in the Mohne lake. "These things" and "missiles" are as close as Gibson comes to describing the explosive device used to blast the dams.

Night and day the squadron flew low-level, up and down lakes in Scotland, the Midlands and in Wales. One of the hardest problems, Gibson says, was "to fly at exactly 45 feet, not 44 feet or 46 feet, but 45 feet" over the water.

He goes on:

"Perhaps I ought to tell you here that it was obvious that our missiles would have to be dropped with extreme accuracy within literally a matter of feet of a certain spot. And it was necessary also to fly fast, otherwise the operation became too hazardous to allow for the possibility of success."

"All these things we could do except the business of maintaining an exact height. But this difficulty was ultimately overcome in a most simple manner and, although I should like to tell you how it was done, I think that the Germans would like to know even better. The method we used was accurate to a few inches."

After two months of continuous hard training, involving 150 hours of flying for each person, Gibson considered his squadron ready to undertake the mission.

Meanwhile, reconnaissance planes were flying over Germany watching the dams "as if it were a mouse." They

New Police Vehicle Catches Wild Driver

Pampa's new police scout car, a 1942 Dodge sedan, got its first road test at 9:20 p. m. yesterday when Patrolmen J. E. Winborne and Forrest Ritter, riding in the car, had a 45-mile-an-hour chase after a wild driver in down town Pampa.

Arrested after the Chevrolet sedan he was driving was wrecked in making a turn at Five Points was James Wilson Heady, whom police say is a Santa Fe employe, residing at a camp between here and Kingsmill.

Ready, police said, was driving recklessly down W. Foster and S. Cuyler, missing other automobiles by inches. The Chevrolet sedan Ready was driving had been taken by him from in front of the Schafer hotel, 609 W. Foster, where the vehicle had been parked.

After the car crashed at Five Points as Ready attempted to make a turn, Ready got out of the car and ran but was apprehended as he sought to hide in a lot a short distance away.

Police took Ready to city jail where he was charged with intoxication and automobile theft. Name of the car owner was not available today.

In the car driven by Ready police found two quart bottles of gin, one full, and the other one-fourth full.

HUMBOLDT, Ia.—Game Warden Paul Leaverton surveyed the field before the pheasant season opened, and reported "birds are plentiful."

Now, with the season four weeks old, Leaverton has his first birds—two, the gift of a friend.

Kill The Empire AMERICANS TAKE HON. BASE! TAKE SECOND BASE! NOW THEY OCCUPY HON. THIRD BASE! BASES FULL! NOW?

War Today By DEWITT MACKENZIE Associated Press War Analyst There is a significant relationship, it seems to me, between the unexplained publication of Hitler's nine-day-old scare-talk to 2,000 young Nazi officers and the current rumors in London that Messers Roosevelt, Churchill and Stalin are about to issue a world-rocking declaration which may involve a demand for German's surrender.

DR. FOSDICK'S 'ON BEING A REAL PERSON' Great Personalities Generally Have Been Inwardly Tortured The use of words such as "singleness," "poise," "unity," "compactness," and "serenity" to describe a well-integrated life, may suggest a placid life, with all conflicts resolved, but such a picture of powerful and admirable personality is plainly false.

Around Hollywood By ERSKINE JOHNSON If the four jills have their way, the picture "Four Jills in a Jeep" will be released with an introductory reading: "Any resemblance between this picture and our trip to Africa is purely coincidental."

That Man's Here Again! The football experts of the Associated Press sports department down at Dallas "guessed" yesterday. They did that, too, before the Amarillo game. Two days before Pampa defeated Amarillo Harold Ratliff, the A.P. sports department, was making arrangements for the Amarillo-Vernon bi-district game.

Our Experience in Subsidies Most all nations decay from within by subsidies. Rome attempted to subsidize the ill-fed, the ill-housed and the ill-clothed by giving them free bread and iron clothes. The result was the end of the Roman Empire.

News Behind The News The National Whirligig INTOLERABLE—The first Congressional attempt to whittle down the vast war powers which Congress conferred on Franklin D. Roosevelt was staged recently but it escaped comment and notice. It was blocked only by the intervention of military officials, nevertheless the abortive move reveals the temper of the lawmakers.

DR. FOSDICK'S 'ON BEING A REAL PERSON' (Continued) Florence Nightingale had a desperate time finding herself, and wrote in her diary, "In my thirty-first year I could employ the word 'death' but I could not utter it. I will seize fate by the throat; most assuredly it shall not get me wholly down."

Around Hollywood (Continued) The studio wants to crowd Jimmy Dorsey and his band Jimmy Dick Haynes, Betty Grable, Alice Faye, Phil Silvers and Carmen Miranda into the jeep, it's okeh with them. But they're thinking maybe the title should be "Seven Jills, Two ?? and 24 Jacks in a Jeep."

That Man's Here Again! (Continued) The decision to put pre-Pearl Harbor fathers at the bottom of the draft list, instead of banning their induction completely, seems proper and sound. It is to be hoped, however, that the bill leaves no doubt about one thing: fathers must be deferred until all others who are available have been taken.

Our Experience in Subsidies (Continued) The first subsidy was the graduated income tax which attempted to relieve great numbers of people from paying their proportionate share of government costs as they enjoyed the fruits of their labor.

News Behind The News (Continued) name was linked with that of Lieutenant General Brehon B. Somervell. The explanation is a story of politico-military intrigue. Even after "Blood and Guts" struck a shell-shocked soldier in a North African hospital, P.D.R. accepted the War Department's advice that he be promoted. Unfortunately the promotion was given to a man named General Somervell, who was also to be given a step-up in his Army rank.

War Today (Continued) Hitler himself had no intention of according conquered nations any such privileges. The voice of Nazism long ago announced in no uncertain terms that the vanquished people were to be made to serve the master race.

DR. FOSDICK'S 'ON BEING A REAL PERSON' (Continued) The English legal definition of a witch is "a person who hath conference with the devil to consult with him or to do some act."

Around Hollywood (Continued) "Maybe," she sighed, "I can sell it to Hollywood for a movie." —BUY VICTORY STAMPS—

That Man's Here Again! (Continued) The decision to put pre-Pearl Harbor fathers at the bottom of the draft list, instead of banning their induction completely, seems proper and sound. It is to be hoped, however, that the bill leaves no doubt about one thing: fathers must be deferred until all others who are available have been taken.

Our Experience in Subsidies (Continued) The next great subsidy movement was the Clayton Amendment to the Sherman Anti-Trust Law which attempted to subsidize the workers and the farmers by permitting them to combine to extort from the rest of the country more than a free market would reward them for their services.

News Behind The News (Continued) Congress balked. The Senate Military Affairs Committee refused to pass on the Somervell advance until it could question him, and he has been overseas for months. Therefore, it delayed any action on the whole roll, including Patton. Now, in view of the armor-clad force chieftain's smiling a buck private, he may not be confirmed.

War Today (Continued) The Nazi world-beater really has something to brag about. We eliminate the bitter and unjustifiable talk of barbarities and destruction of culture, and consider the basic thought which he has in mind, namely that Russia is going to dominate the continent after the war.

DR. FOSDICK'S 'ON BEING A REAL PERSON' (Continued) The English legal definition of a witch is "a person who hath conference with the devil to consult with him or to do some act."

Around Hollywood (Continued) "Maybe," she sighed, "I can sell it to Hollywood for a movie." —BUY VICTORY STAMPS—

The Nation's Press THE NEW HOLY ALLIANCE (The Chicago Tribune) The United Nations relief and rehabilitation administration, which is the title that has been chosen for Mr. Roosevelt's international WPA would scarcely have made a worse start than it has at its Atlantic City organization meeting. There is every indication that the necessary and humanitarian task of relieving famine in post-war Europe is to be abandoned. The food for which American taxpayers will pay a large part of the bill is not regarded by the conferees as the simple gift of charity which it should be, but as the cement for a new Holy Alliance such as kept the lid on Europe after the fall of Napoleon.

Our Experience in Subsidies (Continued) The trading group has been organized by Representatives L. Mendel Rivers of South Carolina, Graham A. Barden of North Carolina and the late Representative John D. Edwards of Texas. The demands of the men they represent vary, but they have been dovetailed into a definite program.

Office Cat... A Quaker walking with his wife noticed the men they met eyed other women but paid no attention to his own. Quaker (reproachfully)—Why is it that the men look at other women but not at thee? Let me walk ahead by myself and you will see that they look at me. The walked ahead and every man turned to look at her. She stuck out her tongue at them and they turned in astonishment. But the Quaker could not see that and he smiled proudly, convinced of the charm he had married.

War Today (Continued) The Nazi world-beater really has something to brag about. We eliminate the bitter and unjustifiable talk of barbarities and destruction of culture, and consider the basic thought which he has in mind, namely that Russia is going to dominate the continent after the war.

DR. FOSDICK'S 'ON BEING A REAL PERSON' (Continued) The English legal definition of a witch is "a person who hath conference with the devil to consult with him or to do some act."

Around Hollywood (Continued) "Maybe," she sighed, "I can sell it to Hollywood for a movie." —BUY VICTORY STAMPS—

The Nation's Press (Continued) The choice of former Gov. Lehman for the director generalship was hardly a fortunate one. Whatever his previous personal reputation, he placed an irremovable blemish on it when he quit his office as New York Governor to make way for the radical cut Poletti, who immediately disgraced the governorship by his pardon of the arsonist and labor racketeer, Hoffman. More than that, the great banks inevitably will benefit from the great transactions in relief support of Dean Acheson as the chairman of the conference, but there is a more likely reason for this unprecedented action of giving both of the principal posts in the international organization to one nation.

Our Experience in Subsidies (Continued) The trading group has been organized by Representatives L. Mendel Rivers of South Carolina, Graham A. Barden of North Carolina and the late Representative John D. Edwards of Texas. The demands of the men they represent vary, but they have been dovetailed into a definite program.

Office Cat... (Continued) Judge—Can't this trial be settled out of court? Kelly—Sure. That's what we were trying to do, your honor, when the police interfered.

"We didn't get into those fox holes gracefully," Carole winced. "We ran, scared to death." The film also has Carole marrying an American flyer in England, played by John Harvey, just as she married Capt. Tom Wallace in real life. "But even that's all fixed up," she said. "It's all arranged for us in the picture. Why, I spent weeks getting ready to marry Tom. It took us two weeks alone to find a pair of wedding rings."

So They Say I don't know when the war will be over. The final battle may come tomorrow the next day or a year hence. Meanwhile, there is a full-time job for everyone. Every time we make a suggestion someone tells us to go sit in the corner. When the guys we entertained in Africa see the picture, I hope they know the meaning of dramatic license. There's one hope though, Carole said. Her book, "Four Jills in a Jeep," will be published in January. "Maybe," she sighed, "I can sell it to Hollywood for a movie."

The Doctor's Daughters By FAITH BALDWIN TWO VICTORIES FOR MRS. EDGAR CHAPTER XXVI EMILY'S head ached, her heart went on hammering, the palms of her hands were wet. She wasn't in love, she thought, not in the crazy sense of wanting to make love. Who can make love, who can create it? She merely loved this man sitting here beside her with every breath she drew. He said, "If I thought she were really the way she tries to make people think—" Emily drew a deep breath. She said steadily: "She's not. She is, as you say, unhappy, and I think, frightened. She's acquired a certain veneer, a protective coloring. Underneath, she's sound and sweet. The right man would find her so."

able influence, and things might be arranged—" "Emily said gently: "I understand perfectly. But I like my job here, and the reason I came home was to be near my mother and father." "Of course. And yet—" "Emily thought, it might be a solution. Away from Cranberry— from Jim. If she didn't see him every day, if she didn't have to watch him with Nancy, and feel the slow twist of the knife each breath: "I—I will think it over." "Good," said Mrs. Edgar. She added after a minute, "By the way, I haven't told anyone yet, not even Frank, but I am expecting a house guest. When I was in England years ago I met such a charming woman, Lady Eleanor Dawson. The younger daughter of the Duke of Moiray, she explained gently. "Her husband, Captain Dawson, died during the last war. She—Lady Eleanor—has a very attractive daughter, Muriel. Lady Eleanor sent her over here to school when the blitz started. She's spent most of her vacations with relatives in Canada, but I thought it would be nice if she could spend Christmas here..." "Mrs. Edgar went on smoothly, "So I invited her a few days ago. There's a letter in today's mail saying she'll be delighted to come." She added that it would be a great fun to have a young girl in the house. Muriel was nineteen, a typical English blonde. Emily repressed a desire to inquire about her teeth and the size of her feet. Frank arrived, disgusted. He hadn't found the damned book. He didn't believe it existed. His mother apologized amiably. "I'm so sorry, but it doesn't matter, really. Frank, I haven't told you, I was saving it as a sort of after thought—sorry—" but I learned today that the government has decided upon the Elderberry property as the proper site for the defense housing."

Miss Jean Ann Payne Becomes Bride Of A-C Jack H. Morehead in Kermit

Miss Jean Ann Payne, daughter of Mr. and Mrs. T. J. Payne, 450 N. Wayne, became the bride of Aviation Cadet Jack H. Morehead, son of Mr. and Mrs. T. H. Moorehead, Kermit, Texas on November 18.

I. Q. Tests Featured As Program For Local Club Meeting

Members of the Twentieth Century club met in the home of Mrs. Ivey Dunston last week when a business meeting was held.

HELP

Plainview Football Season Sees Harvesters Battle Jungle

Hale County Players To Join Pampa Rooters at Vernon Game

If hard, driving practice will win games, Coach Otis Coffey and Charles O. Criswell already are well on their way to a state title, for the Pampa Harvesters.

Not that the Pampa coaches or the team are jumping ahead of the Vernon game. Vernon will be a tough customer and some fans are saying that if the Harvesters can lick Vernon their worst competition is behind them.

When it comes to sportsmanship, the Plainview football squad is All-American in anybody's league, any year, Coach Finis Vaughn of the Plainview Bulldogs, told Coach Coffey that his entire squad would be at Vernon Friday and would be rooting for the Harvesters to win.

Plainview always turns out fighting teams and never quits until the whistle blows and that town always turns out ace sportsmen. Despite the fact that this year Plainview was defeated 33 to 0 by Pampa and finished in third place in District I-AA, Plainview is 100 per cent for the Harvesters.

Before being thrown for a loss like most of the boys who are tackled by John Paul McKinley, Coach Coffey has shown all seasons, to get back to practice.

Yesterday afternoon the Pampa squad went through a workout that kept the first and second teams working every second. There was no let-up over and over they ran the plays, McCracken, Campbell, Washington, and Boyles alternating at ball carrying.

Coach Coffey switched the playing positions constantly, trying out various combinations.

Linemen Share Chores

It wasn't just the backfield either that pitched in and did a journeyman's day of football practice. The linemen took plenty of punishment, just like they do in the games, setting up the grooves for the ball-carrying ones to get their stuff.

Henry Lane, guard, made a good showing in yesterday's workout, and Merle McCracken, back, showed the speed he has shown all seasons. McCracken is fast but needs to develop a better change of pace and to shift rapidly from one position to another to really be in top form.

Fastest man on the team is Gene Robbins, back, who is always quick to size up any situation and take advantage of every break.

Back at practice to Bobby Curtis, guard, who was out of the Amarillo game due to an attack of influenza. The Amarillo game, incidentally, was decided by Bobby by the Harvesters, who spread out Bobby's sweater, No. 35, in a team rite before the Thanksgiving day classic.

Granham Stops Boyles

Kenneth Granham, 147-pound back, made a good tackle against big Charlie Boyles, 187-pound back and captain, in one part of the workout and Johnny Campbell, another back, L.J. David of the Harvesters, 125 pounds, makes up in spirit what he lacks in weight.

Johnny never hesitates on a tackle or running with the ball because of the size of the opposition. Give him just one opening in the enemy line, and he's off for at least a good gain if not a touchdown.

Taking more punishment than the rest in yesterday's practice were Clayton Noblitt, tackle, and Junior Coffey, back. Noblitt seemed none the worse, however, after the workout, in which he was accidentally kicked in the face when Boyles power dived the line and tripped, but Coffey had to be helped off the field after a leg was hurt in making a tackle.

He wasn't knocked out but did suffer a great deal of pain.

Three more workouts are all the Harvesters will have before the game Friday with Vernon for the bi-district championship. The last practice will be held at Vernon Thursday afternoon.

Early Thursday morning the Harvesters will leave here for Vernon, arriving there at 1 p. m., and working out at 2:30 p. m. That's all until the kick-off at 2:30 Friday afternoon.

The Wilbarger hotel in Vernon

Sports Roundup

By HUGH FULLERTON, JR.
NEW YORK, Nov. 30.—Most of the arguing in the minor league baseball at the start of the season and the attempt to give Judge W. G. Brannan the leave-ho as head of the national association and a move to change the voting setup. However, there's another amendment coming up in the next few days that may have far reaching effects if it is passed. That concerns "drafting" territory, and since the war has boomed a lot of class "B" cities to "AA" size, there are some good territories waiting to be drafted.

The hitch is that prices ranging from \$50,000 down, in addition to the value of the park, players, etc., being taken over, are set by the national agreement. What the big minors want is an arbitration board to decide what the territory is worth—and in the case of non-operating leagues, it probably wouldn't be very much.

That Ain't All

A Pampa sports fan has kidded the sports editor of this newspaper about listing seven Pampa players in the Amarillo game as playing their "last" game.

The "last," of course, meant that the boys so mentioned would not be eligible to play for Pampa High school next year due to interscholastic league rules.

Since the listing did not take into consideration the bi-district game, quarter-finals, semi-finals, and finals, the "last" game turned out to be incorrect, technically, but a technicality for which all Pampa is jubilant.

Routes of Champions

How will the AA football games over the winter stop after the Vernon-Pampa contest?

Here's how it goes:

Pampa, District 1 winner, plays Vernon, District 2 winner; winner of this game vs. play winner of Ysleta-San Angelo game, which is to be played Saturday at El Paso, and so on down the list of bi-district game winners.

Other bi-district battles will be: Highland Park (Dallas) at Sherman; Breckenridge at Waco; Goose Creek at Jeff Davis (Houston); Sunset (Dallas) at North Side (Fort Worth); Jefferson vs. McAllen; and Marshall, coached by Odus Mitchell, former Pampa coach, vs. Lufkin, coached by J. C. (Gus) Prejane, also a former Pampa coach.

Beat Vernon First

Any banqueting the Pampa Harvesters do will be after the final curtain falls on the Vernon game, whenever that may be. Coach Coffey said last night in commenting on stories concerning a record-breaking feat tentatively planned here.

First of all, though, there's Vernon to beat, and that's the thought that is dominant in the minds and great pride of every player on Pampa's team.

Comparing number of games and scoring, Pampa has played nine games, scored 149 points, and opponents have scored 149. Pampa has a total of 59 points on Pampa for 11 games, scored 271 points, while Vernon's opponents have scored 46 points.

For the complete record for the season, The Pampa News presents the following table, showing the District I-AA conference standings (team, games won, lost, tied, percentage, own points, and opponents' points), same information on I-AA teams, applicable only to I-AA conference with totals, and percentage average.

Conference Standings

Team	W	L	T	Pct.	P	O
Pampa	3	1	0	.750	60	19
Amarillo	3	1	0	.750	101	13

FULL NAVY PLANES FROM SEA

Navy planes shot down over the ocean, may be raised to fly and fight again under a plan worked out by Navy engineers. Each balloon will lift three tons and as many as five or six of them may be attached to the heavier type planes. The balloon pictured above will lift five times the weight of the girls shown holding it up. Manufactured by The General Tire & Rubber Company, the first order is nearing completion and if tests are satisfactory, it is expected that hundreds of these balloons will be built for Navy use.

Market Briefs

WALL STREET
NEW YORK, Nov. 29—(AP)—Selected stocks made little progress at recovery in today's market but declines of fractions to 2 points or more were noted over most departments.

Table with columns for stock names and prices. Includes entries for AM T&E, Anacostia, AT & SF, etc.

Burleson County Is Hard Hit By War Casualties

CALDWELL, Burleson County, Texas, Nov. 30—(AP)—A casualty list of two sons was received through five suspense-filled weeks to 50 men, giving this southeast central Texas community a jolt probably unequalled elsewhere in Texas.

There were no complaints from Caldwellians who are steered to war's misfortunes. Of 13,300 persons in the county 1,300 men are in the armed forces. Caldwell's population is 2,700 and 450 of its ex-high school students bear arms.

Army ordnance and old king cotton have prepared another knockout surprise for the Axis. Lt. Col. R. M. Bacher, commanding Cactus ordnance works, Dumas, Texas, said today that an all-cotton belt, augmenting the metallic link belt, had been developed for machineguns that will be used in mowing down Nips and Nazis.

Escaped Convict Sends Telegram to Detective
OKLAHOMA CITY, Nov. 30—(AP)—A detective here has received a telegram from Kansas City signed John Wilbur Voss, name of a 27-year-old fugitive from the Oklahoma penitentiary.

Auto Building Will Be Slow
WASHINGTON, Nov. 30—(AP)—If the war ended tomorrow the first civilian automobile could come off the assembly line in three months—but it probably won't.

He Prefers Jail In California
NEW YORK, Nov. 30—(AP)—James Hadley, 30, a homeless ex-convict, likes California's jails better than New York's.

whole American beachhead from being cut to pieces. In New Guinea, Pvt. Oscar M. Lewis was shot through the neck and left for dead until a companion from Arizona braved enemy fire to rescue him.

What effect has it had? "If anything it has stiffened us," says H. H. Womble, Sr., bank president and chairman of the war fund drive.

The range is wide because the county's service roll is wide—from brigadier general to private. Men have entered the services by enlistment, induction and national guard federalization.

World War II took it in as part of the 36th division, first to land at Salerno. Casualties of that battle are a good cross section of population.
