

Gov. Warren Is Selected As GOP Keynote

By JACK BELL
CHICAGO, April 19—(AP)—The Republican arrangements committee today selected Gov. Earl Warren of California as the temporary chairman and keynote for the party's June 26 nominating convention.

question and to fill the position of permanent chairman of the convention. Several committee members already had committed themselves to vote for Senator Arthur Vandenberg for Michigan and some were backing Rep. Charles Halleck of Indiana for the post. Vandenberg apparently was the first choice of leaders until it was discovered he might not be selected by Michigan Republicans as a convention delegate. While this technically would not bar him as the keynote, it was regarded as a disadvantage. The recommendation of the party's titular leaders was expected to carry great weight and there was every indication that Warren would prove a strong dark horse contender for the keynote's job.

There were indications, meanwhile, that supporters of the party's various presidential candidates would maintain a hands-off attitude in the selection of the keynote, who serves as the temporary chairman of the convention. House Minority Leader Joseph W. Martin of Massachusetts generally is regarded as likely to be named permanent chairman.

THE PAMPA NEWS

VOL. 42, NO. 12. (8 PAGES TODAY) PAMPA, TEXAS, WEDNESDAY, APRIL 19, 1944 AP Wire (PRICE 5c)

Bad Weather Affects Crops Over State

AUSTIN, Texas, April 19—(AP)—Cool weather and high winds during the week ending April 16 checked crop growth, but the drying of surface moisture permitted soil preparation to advance, the United States department of agriculture reported today.

Lack of surface moisture was beginning to be felt in the western half of the state, and moisture conditions were spotted in the eastern half, the USDA said.

The weekly weather and crop review also found:

Wheat made satisfactory growth in the Panhandle but rains would be beneficial. Small grains in remaining sections were reported in generally good condition.

Planting of spring sown crops made progress through the week but eastern counties because of April soil and progress in eastern counties is still far behind normal.

Some corn acreage in late areas may be replanted by other crops if farmers cannot plant soon. Corn planting in other sections has been mostly completed. Cotton planting was well under way in southern counties with a small part of the acreage ready for cultivation and chipping. Peanut planting has started in the early commercial areas.

The planting of grain sorghums and other feed crops made good progress through the week, but much of the acreage is yet to be planted. No severe damage was reported to fruits or pecans.

Commercial vegetable crops made good progress. Supplies of beets, carrots and cabbage were in abundance and practically all early onion districts were shipping in solid carlot volume. Harvest of the lower active proportion of the winter and snap beans were coming into production from a limited acreage in the early-districts outside of the valley.

Early east Texas tomato districts were well along with setting plants to the fields but late area plants were still in the cold frame.

All livestock were showing seasonal improvement in condition and were generally in good flesh for this time of the year. Lambing was well advanced and a good crop was reported. Range feed made good growth over most of the state, although surface moisture was beginning to be needed in the west and northwest range areas. Shortage of stock water continued to be a problem in some northwestern low plains counties.

Rehearing Asked In Hunt Case

AUSTIN, April 19—(AP)—District Attorney H. M. LaFont of Lamb county today asked the court to grant a rehearing of its decision of last month reversing and remanding conviction of Dr. William R. Newton of Cameron Hunt attempt on the life of Dr. Roy Hunt, Littlefield physician, May 20-21, 1942.

The appellate court reversed the conviction because in the trial court admitted improper testimony tending to show that Mrs. Ruth Newton, wife of Dr. Newton was in Littlefield on the night of the roadside shooting of Dr. Hunt.

This testimony was to the effect that Dr. Hunt on that night received three telephone calls and person he testified was Mrs. Newton. Guests in the Hunt home that evening testified Dr. Hunt informed them who had called him and in their testimony they did not say that it was Mrs. Newton.

LaFont contended the last phone call was received at the home and that it could not have been more than 10 minutes later that Dr. Hunt was wounded by a man he identified as Dr. Newton after Dr. Hunt had met Mrs. Newton on the roadside about two miles out of Littlefield.

In reversing the case the appellate court said there was sharp issue as to whether Dr. Hunt was correct in identifying the Newtons and asserted a conversation between Dr. Hunt and his guests in the absence of Dr. Newton could ordinarily bear no relationship to the guilt or innocence of Dr. Newton.

GOOD DEED FOR VICTORY

Hugo Olsen, Pampa boy scout executive, said today 61 scouts already have signed up to assist in the waste paper salvage collection here on Friday and Saturday, April 28 and 29. The boy scouts have a motto, "We Too Have a Job to Do." And, they're doing a splendid job in all the salvage drives. In Pampa they will man eight U. S. Army trucks and make the house-to-house pick-up of waste paper.

Householders are urged to begin collecting waste paper in bundles and to place it at the curb in front of their homes on these two days, so that the boy scouts can take it away and send it on the way to war.

Pampans Asked to Get In their Scrap Paper

Every man, woman and child in Pampa today was asked to start work immediately on an all-out waste paper collection campaign.

Pampa has been lagging far behind in sending waste paper to war. The city has put every other drive over the goal line, and now it hopes to make up for lost time on waste paper.

Oil Allocations Are Discussed

HOUSTON, April 19—(AP)—Crude oil producers from west Texas discussed here yesterday with District three representatives of the Petroleum Administration for War allocations to the Stanolind pipe line company and the Magnolia pipe line company.

Producers will make their May nominations to the Texas Railroad Commission in Austin tomorrow. The Stanolind line, from the Slaughter field territory to Drumright, Okla., was allocated 65,000 barrels of crude daily and the Magnolia line, Midland to Corsicana, 42,000 barrels daily.

Nomination to supply the two lines will necessitate some trading among producers to meet required quotas. It was said that part of the program would be adjusted before the commission meeting in Austin.

FDR Says Rome's Fate Is With Nazi

LONDON, April 19—(AP)—Replying to a plea from Eamon de Valera that Rome be spared, President Roosevelt has told the European minister that the city's fate rests with Germany, while the Germans again have sought unilaterally to declare Rome an open city.

President Roosevelt's message, dated April 3, was made public in Dublin today.

"If German forces were not entrenched in Rome no question would arise concerning the city's preservation," the president said. He asserted the Allies, "often at considerable sacrifice," have tried scrupulously to spare religious and cultural monuments.

'D-Day,' 'H-Hour'—The Meaning?—Here Is the Answer

WASHINGTON, April 19—(AP)—In case you don't know, after seeing the words in the news, the "D-Day" stands for "Date—the date which even the highest authorities never mention needlessly among themselves when discussing plans for an important military move, as in the case of a planned invasion.

There is also another one, not so popularly known. It is the "H-Hour" which to those in the know stands for the very minute of concerted movement, also never talked about save by this device.

Thus, when the high strategists get together, it is "D-Day" and "H-Hour" of which they speak (knowing the answers)—so that should the walls have ears, as the saying goes, their special information runs no risk of leaks.

Negro Held In Houston Woman Death

HOUSTON, April 19—(AP)—A Negro man was held in city jail today for questioning in connection with the brutal slaying Monday of Mrs. Dolle Garret Richardson, 45, as homicide detectives announced that another Negro man arrested by Galveston police late yesterday was released and eliminated as a possible killer.

The 38-year-old Negro suspect was taken to city jail from a hospital where he was treated for wounds. Richardson's neighbors believe might have been inflicted by Mrs. Richardson in resisting her assault.

Officers searched his home but found no weapon or other evidence which might connect him with the slaying—except a pair of stained shoes. These are being examined in the homicide laboratory.

Police Chief Percy F. Heard sent two detectives to Galveston last night to question the Negro picked up there. The officers said the Negro established an alibi that he checked and found he was not there at the time of the killing.

Fifty patrolmen meanwhile began searching every foot of the Richardson home. Officers said that the person who entered the Richardson home and choked, slashed and stamped Mrs. Richardson to death might have discarded his blood-stained weapon in the wooded tract.

The officers believe that some light garden tool such as a shovel, which is a broad-headed weeder was used by the killer.

A State Department of Public Safety laboratory report showed that Mrs. Richardson's wounds were underneath Mrs. Richardson's fingernails were not from the assault. Police had hoped that the examination would reveal hair or other identifying marks on the head, face or arms of the killer.

More tests will be run by the state laboratory in a more thorough analysis of the foreign matter found under her fingernails. Chief Heard was informed from Austin.

Vermin Will Be Eradicated Here

The city-wide rat and mice eradication program, sponsored by the retail trade promotion committee of the Pampa Chamber of Commerce and the City Health Department, a forerunner of the clean-up and paint-up campaign, will be extended to the residential area Thursday.

With the exception of a few business houses, which are yet to be contacted, the firm of Barkman and Associates, has treated all Pampa business buildings, alleys, and other places where the rodents hibernate.

RECORD BOMB LOADRAID DROPPED BY RAF

Progress Made at Imphal

Allied Planes Said To Rule Entire Front

By RICHARD C. BERGHOLZ
Associated Press War Editor

Allied defenders of Imphal have gone over to the offensive north of the besieged Indian state capital on the Burma border and are making "satisfactory progress."

Front-line dispatches to Allied commanders in the Japanese are suffering heavy casualties trying to drive onto the plain surrounding the well-defended Allied base 39 miles inside the Burma border.

Southeast Asia Allied headquarters estimated the Japanese have lost at least 4,000 dead in the past six weeks of their Indian offensive and that artillery fire and air support probably accounted for many more killed.

From the fighting front around Kohima 60 miles north of Imphal, Associated Press War Correspondent Clyde A. Farnsworth predicted the enemy's Indian invasion will collapse because the Japanese failed to show any plan in the air.

Allied planes rule the entire Burma-India border fighting, he said, and at least as far as the southern front in the eastern Carolines, one of the guardians of the mighty base at Truk, 150 miles to the northwest.

Neither intercepting planes nor anti-aircraft fire challenged the Allied bombers as they spread 34 tons of bombs over the airstrip Sunday.

Other Allied planes pounded Rabaul, New Britain, with a 125-ton attack and hit islands and supply areas in the Kai Islands west of Dutch New Guinea.

Central Pacific planes hit targets on Pingshap, Parkin, Ant and Ulid islands in the Carolines and four by-passed enemy bases in the Marshall Islands.

Chicago Seeks Young Brother Of Al Capone

CHICAGO, April 19—(AP)—Police of Chicago and Cook county, responding to a pickup order, searched today for Matt Capone, youngest brother of Al, the country's first public enemy No. 1, and who, said Police Capt. Thomas Aleock, is wanted in connection with the slaying of James D. Larkin, gambler and former horse trainer.

Also object of the widespread police hunt, said Capt. Aleock, was Wally Sanders, a bartender employed in Matt Capone's tavern in suburban Cicero where, he said, the 49-year-old Larkin was fatally shot late Monday night.

The police order to seize Matt Capone, 35, and the youngest of the five Capone brothers, followed what Aleock described as a reenactment by a witness of a quarrel between Larkin and Sanders in Capone's tavern preceding the shooting.

The body of Larkin, who was shot between the eyes, was found in a west side alley, less than two miles from Capone's tavern in the suburb, once the center of operations for the notorious "Scarface" Al during his heyday in the prohibition era.

Aleock and Capt. John McGinnis, chief of the county highway police, said either Sanders or Capone apparently shot Larkin after which, they said, the latter disposed of the body or arranged to have it taken to the spot where it was found.

WAR IN BRIEF

GERMANY — American and British armies continue record assault in preparation for D-day. RUSSIA—Soviet forces converge for combined assault on Sevastopol. Bitter fighting rages. ITALY—Allies repulse Nazi raids on Anzio beachhead. INDIA—Allied defenders of Imphal go on the offensive. Japs suffer heavy casualties.

State Loses Vast Sum On Tax Leakage

AUSTIN, Texas, April 19—(AP)—More than one million dollars a year is being lost to the state through cigarette tax stamp leakage, says H. A. Smith, director of the state's cigarette tax stamp division.

Licensed cigarette dealers are now selling three hundred million tax-free cigarettes per month to army post exchanges and officers clubs. Inasmuch as the exact number of military personnel is a secret, the state cannot ascertain whether or not this is above and beyond the number actually required for the consumption of the military and their immediate families, Smith said.

State law permits military personnel the privilege of buying all the tax-free cigarettes they want for consumption on the post.

See STATE LOSES Page 8

Illinois Solon Raps War Waste

WASHINGTON, April 19—(AP)—Declaring that "already some of our surplus war material is being thrown away," Chairman Sabath (D-Ill.) of the house rules committee today said "there ought to be some prosecutions and jail sentences."

He made this statement in expressing strong sentiment for war contract termination legislation which would give the comptroller general right veto power.

Sabath's committee will have the role of umpire Thursday when two different plans for war contract termination are submitted.

One bill reported by the military committee would set up Comptroller General Lindsay A. Warren as virtual dictator. The other, giving the comptroller general inspecting rights only for "fraud or carelessness" are submitted.

No Early Decision On Airline Is Seen

WASHINGTON, April 19—(AP)—Indications are that several weeks may elapse before a decision is reached regarding plans of Continental Airlines to fly into San Angelo, Texas, on a proposed route from Hobbs, N. M., to San Antonio, Texas.

Federal airway officials are conferring on the matter. The line would pass through Odessa, Big Spring and Midland, Texas.

Months ago the Civil Aeronautics board approved Continental's application for the line, which called for a San Angelo stop. Army air forces headquarters at Fort Worth, however, objected on the basis that the proposed stop, at Concho Field, used for bombardier training, would hinder the training program.

The proposed San Angelo stop would interfere with air cadet training and add to the responsibilities of the post's commanding officer, said the AAF. Army press relations officers, commenting upon the situation, assert it may be weeks before a decision is reached.

French Defense Rail Lines Get 4,480 Tons

By RICHARD McMURRAY
Associated Press War Editor

Another 2,000 American planes ripped open aircraft factories in half a dozen western German cities today after British bombers plunged a record 4,480 tons of explosives last night into French railways, essential to Nazi defense against invasion.

The violent aerial offensive preparing western Europe for D-day mounted to unprecedented fury with 8,500 tons of bombs cascaded on Hitler's defenses by at least 5,000 Allied planes in three heavy attacks in one 24-hour span. A thousand heavy British bombers attacked last night near Paris, at Roen and Tergnier.

Targets today were plants at Kassel, Eschwege, Paderborn, Gutersloh, Lippsadt and Werl. It appeared likely that at least 2,000 U. S. planes had flown into the battle to destroy the Luftwaffe and control its birth rate.

Across Europe, Russian Marines pressed beyond Bialaklava to within sight of besieged and burning Sevastopol in the final cleanup of the Crimea. In Old Poland, the German counter-attacks persistently east of Stanislawow in a supreme effort to protect Lwow and the Polish plains that roll into Germany.

Across the Balkans, the recapture of Naduvoru, 22 miles south of Stanislawow, in the Carpathians. Russian bombers set afire the big Romanian port of Constanta and churned the Black sea around the Crimean coffin corner with bombs to prevent any Germans and Romanians from escaping. Red troops fought through tremendous barricades to tighten their ring of steel around all the land sides of Sevastopol.

British Mosquitos dumped two-ton bombs into Berlin last night while the tortured German capital still flamed from an assault of 2,900 American bombers in daylight Tuesday. At least 34 Nazi interceptors fell to American guns; 19 heavy bombers and six fighters were lost.

In Berlin, the Americans bombed the Hakenel bomber center. The marshal has encountered considerable opposition from party leaders over personnel of the new cabinet and there was widespread pessimism last night on his chances of breaking the political stalemate, but politicians expressed belief today that the joint conference would clear the atmosphere.

While signs pointed to acceptance of the marshal's stand, it was clear some of his more radical Badoglio members would agree reluctantly. They said the plan in effect gives five ministries to what they call the "Badoglio group" which they regard as tinged with Fascism.

Missing Defendant Is Apprehended

WASHINGTON, April 19—(AP)—Capture of Edward James Smythe, New York pamphlet publisher, removed today a threat of indefinite postponement of the trial of Smythe and 29 other persons charged with seditious conspiracy.

Smythe, described as publisher of "Our Common Cause," was arrested in Au Sable Forks, N. Y., yesterday by the FBI.

His absence during the first two days of the trial before Justice Edward C. Tamm in the S. district court, had placed Prosecutor O. John Rogge, special assistant to Attorney General Biddle, in a position of either having to ask postponement of all proceedings or a separate trial of Smythe.

Principal preliminary procedure yet unsettled is whether the court will permit the present panel of 130 prospective jurors to stand. From the very opening of the case on Monday defense attorneys have protested that an investigation by the justice department of the veridicality of the panel would have intimidated them sufficiently to affect their judgment.

Rogge contends the investigation was "routine."

Justice Eicher overruled all early motions to disqualify the prospective jurors or conduct a judicial inquiry into the propriety of the justice department's investigation, but now has under consideration a defense motion to disqualify the panel unless Rogge can satisfy the court that the investigation was proper.

Marriages Are Solomnized Saturday Afternoon at Pampa Field Chapel

Two marriages were solemnized last Saturday afternoon at the Pampa Army Air Field post chapel with Chaplain Warren E. Murphy officiating.

At 3 o'clock, Miss Evelyn Faye Salter became the bride of 2nd Lt. Louis G. Messeri, Jr.

Miss Faye is the daughter of Mr. and Mrs. Frank Salter, Turon, Kan., and she chose a dusty-rose suit with black accessories for her wedding dress. Her corsage was of orchids.

Mr. Messeri is the son of Mr. and Mrs. Louis Messeri, Sr., of Turon, Kan.

Witnesses were Lieutenants Richard N. Merrill and Rex E. Melton, both of PAAF.

The couple will be at home in Pampa after a short honeymoon trip in Turon.

At 4 o'clock, Chaplain Murphy read marriage vows for Miss Nyra Lucille Hosch, 16 Parkland Place, Glendale, Mo., daughter of Mr. and Mrs. A. Hosch, of Glendale, who became the bride of 2nd Lt. Aaron C. Burleson, son of Mrs. May Burleson, 210 1-2 D Street, Lawton, Okla.

Attending as brides maid was Miss Beulah Whiteford, 608 E. Osage, Nowata, Okla., who wore a suit of powder blue with navy accessories and a corsage of Tailsman roses.

The bride wore a dusty-pink crepe dress with navy blue and white accessories and a corsage of white roses.

Best man was 2nd Lt. Jack M. Long of Pampa Army Air Field.

Give Yourself a Nicer Figure By Padding the Shoulders of Net Dress

NEW YORK—Hollywood's little-known glamorizing trick of padding the shoulders of a net foundation garment—instead of the suit, dress or blouse—is yours to take up.

"Take it," says Edith Head, famous studio designer, who originated the idea, "and you can mould your figure closer to your heart's desire and nearer to Hollywood's standards of perfection."

The under-cover device which achieves all of this is an easy-to-make bodice, for which you'll need about 1 1/2 yards of net, a small chunk of cotton batting, a scrap of thin material to cover shoulder pads, and a few snap fasteners.

When you switch pads tacked in the sleeves when you ordinarily wear them to a foundation underneath, shoulders look more like Nature had built them. They move with you better, making you look graceful than when "shoulders" jerk up and down with a dress or suit. Then, too, you can be cleverer at making shoulders that give your posture a lift, dwarf your hips and slice inches off your waist.

How to Do It: To cut the bodice, use a simple fitted blouse pattern with front opening, omitting sleeves and collar. Cut front edges two inches wider than pattern and fold these back to make double thick padding facings 1-inch wide. Take in shoulder dart. Sew up side and shoulder seams, and take in waistline darts at front and back to fit bodice snugly to your figure. Finish armholes and neckline with bias binding. Finish bottom of bodice with pinking shears. Put snappers on front facings to fasten.

To make shoulder pads, use a piece of cotton batting of three thicknesses and of size desired. Cut in shape of square. Holding square diamond-wise, cut in half, which gives you two triangular-shaped pads. Catch-stitch around each pad to hold layers of cotton in place. To cover, cut two 7-inch squares of thin material—net, chiffon, or georgette—fold this square in half, which gives you a triangular covering for your triangle of cotton. Cover cotton and baste around edges. Place finished pad on shoulder of bodice with the triangle pointing toward neck, with the opposite side of the pad extending about one-inch out from armholes. Tack in position.

HARRISBURG, Pa. — A local merchant attracted a crowd—with this sign in his window—"We have for sale one 1937 (kerosene burning) Stanley steamer. If interested inquire within."

YOUR GARDEN

By HENRY L. FREE
Since the size of a Victory garden is determined largely by the space available, the gardener must not be discouraged if the area of suitable ground may be as small as 10 by 20 feet.

"Take it," says Edith Head, famous studio designer, who originated the idea, "and you can mould your figure closer to your heart's desire and nearer to Hollywood's standards of perfection."

Every effort must be made to insure adequate drainage, a maximum of sunlight, and no soil competition with the roots of trees for moisture and plant food. A southern or south-eastern exposure is preferable since the soil will warm up earlier in the spring.

Soil is of utmost importance; perfect soil is described as being neither too heavy nor too fine and containing the proper proportions of air, moisture, organic matter and soluble mineral water. Without air, plant roots will find it well-nigh impossible to secure the necessary moisture and plant food in the soil.

Moisture comes from above and below the surface of the soil and an excess about the roots can kill the plant. To be of value, moisture must be free to come and go, hence the need of adequate drainage.

Growing vegetables require a soil reasonably endowed with humus. Humus is decomposed vegetable or animal matter, such as plants themselves, manure, leaves, grass clippings, peat moss and dead animals, from microscopic organisms up to bugs and rodents.

Since humus disintegrates, the gardener must keep up the organic content by working into the soil every scrap of vegetable refuse, manure and other humus he can get. A cover crop of soy beans, cow peas, one of the various clovers, winter vetch, rye or buckwheat, turned under while green and succulent, provides a green manure which soon decomposes and forms valuable humus.

Mrs. Weaver Is Shower Honoree

Mrs. C. W. Weaver was the honoree when a pink and blue shower was given in the home of Mrs. L. E. Saltzman Friday.

Various games were played by the guests and prizes were presented to the honoree.

Angie food cake, ice cream and mints were served to Mrs. Weaver, and the following guests: Mmes. Carson Watt, Roy Chisum, W. S. Jones, Pascal Massey, Jess Honaker, Elmer Nunley, Borger, A. N. Thorn, Vena Whiteside, B. W. Seitz and daughter, Miss Villa Faye Seitz of Spearman, Carrie Wright, and Mrs. J. O. Marle.

Gifts were sent by Mmes. Clyde Caswell, James Saltzman, C. A. Duenkel, Carrie Johnson, Lula Casey, R. E. Hamm, Agnes Morris, A. J. Hindman, Mary F. Eller, Jimmy Hayes.

Misses Francis Deering, Katherine Watt, Mary Bell of Seattle, Wash., Mrs. J. Neill Kinard of Dallas, Jimmy Hayes.

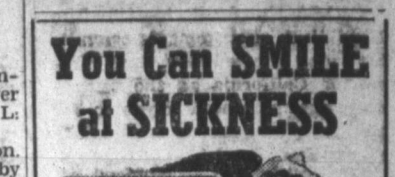

NEW YORK — Annoyed authorities of a suburb town are searching for the gang that broke into a restaurant and made off with \$30 in cash and a quantity of liquor.

The burglars had gained entry by smashing in the plate glass door with a police department traffic sign bearing the legend "Stop."

If you need to BUILD UP RED BLOOD!

Try this great blood-iron tonic—Lydia Pinkham's TABLETS—one of the very best home ways to get iron into the blood. Pinkham's Tablets are also famous to relieve symptoms of functional monthly disturbances because of their soothing effect on one of woman's most important organs. Follow label directions. Worth trying.

MAYBE... Pressing-the-Button will Jack Up future cars

BUT... OIL-PLATING YOUR ENGINE is like outdoing the future — today

An optimist can still hope to trade his car for a 1945 model—with "wild" or mild advancements.

A realist might do the same. But he'll "cast an anchor to windward" by changing to Conoco Nth motor oil for Spring, at once adopting that big inexpensive advance—an engine that's internally OIL-PLATED.

Be a realist! Realize that any engine's explosions always form real biting acid inside. Realize that long trips, heating at least some acid away, went out of style as rationing started. Realize that limited driving—incomplete engine heat—has been endangering engines not OIL-PLATED. Too bad; any harm that's been done is done. But with Conoco Nth oil, and all the acid-resistance of oil-

PLATING, you're in shape to discontinue extreme acid damage, starting now.

Patented Conoco Nth oil—popular-priced—includes a pioneer synthetic, with the advanced "magnet-like" ability to surface inner parts with OIL-PLATING. That's why you can really be an optimist about your engine's future, after changing to Your Mileage Merchant's station for Conoco Nth motor oil. Continental Oil Company

CONOCO Nth MOTOR OIL

Testimony Was That 4-F's Were Not Needed Now

The nation's 4-F's were free agents again today. They were free to go into war work or stay out of it. The only pressure of them now to get into war-useful jobs is the pressure of patriotism or fear of neighbor's criticism.

The picture may change later. Talk of forcing them into war jobs may rise again. That is not likely.

The 4-F's have been puzzled for weeks while the house military committee considered this problem of best using them.

Should 4-F's refusing to go into war jobs be drafted by the army for limited military service or should selective service set up special camps to use them where needed?

The committee's sub-committee, headed by Rep. Costello (D-Calif.), thought of recommending legislation on the subject. But the committee abandoned the idea yesterday, thus putting 4-F's at ease again.

The committee decision came

after a spokesman for a powerful manufacturers' association told Costello and other members:

He believes unemployment, not a manpower shortage, is ahead from now on because of continued changes and varied reductions in the war production program.

To illustrate that point, Costello says:

There is a program for many thousands of landing barges. Making them will employ many men and take several months. Then—that's that. The workmen are thrown out of jobs. They will have to find jobs elsewhere. Not at will.

This reasoning is contrary to that of some government officials whose manpower views were gloomy when they talked before Costello's committee.

The committee has not closed the door against ever considering again the possibility of labor-drafting 4-F's. But it isn't likely to reverse its present view without strong evidence that such a draft is needed.

The army right now could take all 4-F's who refuse war jobs. But all signs say the army won't.

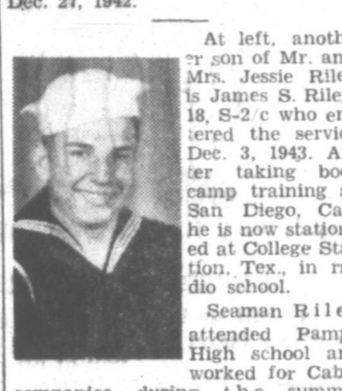

Selective service will continue to re-examine 4-F's searching for some who could do limited military duty.

OUR BOARDING HOUSE MAJOR HOOPLE

NEWS OF OUR MEN-WOMEN IN UNIFORM

Two sons in service are those of Mr. and Mrs. Jessie Riley, 915 E. Telford. Pictured at left is Olen Riley, age 20, Greman 1-C, now in the South Pacific. Olen has been overseas 24 months after taking training at Great Lakes Naval Training school and in Seattle, Wash. He is now in the General Oil Supply field equipment here. He entered the service Dec. 27, 1942.

At left, another son of Mr. and Mrs. Jessie Riley is James S. Riley, 18, S-2-C who entered the service Dec. 3, 1943. After taking boot camp training at San Diego, Cal., he is now stationed at College Station, Tex., in radio school.

Seaman Riley attended Pampa High school and worked for Cabot companies during the summer.

Home recently while enroute to Florida for re-assignment, was Captain W. M. (Bill) Finley, son of W. M. Finley who resides northwest of Pampa.

Capt. Finley has been in the air corps for the past two and one-half years, having assignments in Panama, British Guiana, and Jamaica. He received his captaincy in October of last year.

Finley was graduated from Pampa High school and the University of Texas. Before entering the service he was employed for three years in the county tax office.

Cpl. Francis I. Green soon will

Heart Diseases To Be Studied at New Mexican Foundation

MEXICO CITY, April 19—(AP)—President Avila Comancho has inaugurated the National Cardiological Institute, described by its Director, Dr. Ignacio Chavez, as the first establishment of its kind.

Dr. Chavez invited specialists complete his training at the combat crew training school, Sioux City, Iowa, and will be ready to go overseas to do his part in defeating the enemy.

Cpl. Green who is an engineer in a heavy bomber crew, is the husband of Mary Ruth Green, 903 N. Russell. He entered the service April 15, 1943. Prior to his entry into the service he was a field circulation agent employed by the News.

A/C Allen J. Black, son of Mr. and Mrs. Allen B. Black of Panhandle, graduated April 15 from the Army Air Forces Pilot school at Stockton Field, Cal.

Before entering the final and advanced course at Stockton Field, Cadet Black completed 16 weeks of primary and basic training at Hemet and Taft, Cal.

In an official radio news release just received, radio station KPND, San Diego, Cal., is now stationed at College Station, Tex., in radio school.

Seaman Riley attended Pampa High school and worked for Cabot companies during the summer.

Amazing way to be Mentally ALERT...Physically FIT!

1—Promote the flow of vital digestive juices in the stomach

2—Energize your body with RICH, RED BLOOD!

THESE two important steps may help you to overcome the discomforts or embarrassment of sour stomach, jerky nerves, loss of appetite, underweight, digestive complaints, weakness, poor complexion!

A person who is operating on only a 70 to 75% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped.

So with ample stomach digestive juices PLUS RICH, RED-BLOOD you should enjoy that sense of well-being which denotes physical fitness... mental alertness!

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or focal infection, SSS Tonic may be just what you need as it is especially designed (1) to promote the flow of VITAL DIGESTIVE JUICES in the stomach and (2) to build-up BLOOD STRENGTH when deficient.

Build Sturdy Health and Help America Win

Thousands and thousands of users have testified to the benefits SSS Tonic has brought to them and scientific research shows that it gets results—that's why so many say "SSS Tonic builds sturdy health—makes you feel like yourself again." All drug stores in 10 and 20oz. sizes, 65¢ & 95¢.

CANDIDATES ALL MOSCOW

MOSCOW, Idaho—State Chairman Reilly Atkinson gavelled the republican state delegate convention to order and requested:

"Will everyone who is not a candidate for governor please stand?"

None did.

There are nine candidates for the state's gubernatorial nomination, five republicans and four democrats.

Market Briefs

NEW YORK WALL STREET
NEW YORK, April 18—(AP)—The stock market today suffered one of its sharpest sell-offs of the past month on the largest volume in three weeks as customers scurried to safety in anticipation of a possible nearby Allied push in Europe.

Trends soon began to waver after a rather steady opening and, with the ticker tape picking up some speed, pivots fell fractions to 3 points or so. Offerings divided in the final hour and, approaching the close, extreme declines were reduced in most cases. Transfers for the full stretch were around 1,600,000 shares.

Companions on the offside were Santa Fe, Great Northern, Union Pacific, Delaware & Hudson, U. S. Steel, Chrysler, U. S. Rubber, Texas Co., Sears Roebuck, Deere, Douglas Aircraft, Du Pont, J. C. Penney, Allied Chemical and Western Union "A".

Common Ground

By R. C. HOLMES
I speak as a commoner, I give the slogan of democracy, by God I will accept nothing which will not have the consent of one of my kind.

Aping German Leaders

I have been reading John T. Flynn's book, "As We Go Marching." It is a summary of the beliefs during the last 60 years in Germany and Italy which led to fascism.

The more one reads of what happened in Germany and Italy, the more one is convinced we are aping them. If we continue, we will land the same place.

Our leaders are promising the same things as their leaders promised. Bismarck started social insurance "way back in 1883. Hitler continues to promise relief from poverty just as Bismarck promised.

Read what Hitler had to say and see how much it is like the promises of Roosevelt and Wallace. Here is one of his promises:

"We shall banish war. We shall banish fear. The essence of National Socialism is human well-being. There must be cheap Volkswagen for workers to ride in broad Reich Autobahns for the Volkswagen. National Socialism is the Revolution of the Common Man. Rooted in a fuller life for every German from childhood to old age, National Socialism means a new day of abundance at home and a Better World Order abroad."

Of course, we would all like to have more comforts for all the people, but we cannot have them other than by the natural way of production. We cannot have them by government interference with the men's foresight and judgment.

We cannot have them by taking the tools through progressive taxation from those who add to the wealth most rapidly. We cannot have them by taxing away profits. We cannot have them by minimum wages or labor laws limiting hours.

Our whole policy of restriction is simply aping Germany. As the colored waiter, who had been kicked out of the kitchen, said, "I don't know where we fight em, de more we gets like 'em."

BUY BONDS

The Nation's Press

DE GAULLE IS STALIN'S MAN

(The Los Angeles Examiner)

A so-called American plan has been prepared for the government of liberated France under General Charles de Gaulle, and it has been sent to London for British consideration.

The Washington press dispatch reporting this project says: "President Roosevelt has approved the American plan for government in liberated France and it has been sent to London for British consideration."

"If the British approve, the Soviet government will receive the plan to see if it meets with Russian approval."

What a travesty this is. Washington blandly submits a program to Moscow for approval, with full knowledge that it is the program Premier Stalin has already planned and initiated for France.

Of course Stalin will "approve" a De Gaulle regime in France, and would not approve anything else.

Perhaps the American and British governments feel compelled to let Stalin have his way.

But why do they go through the hocus-pocus of submitting Stalin's own program to him, pretending it is something American and British have originated?

De Gaulle was affiliated with the Blum regime in France, a regime which encouraged Communism in France, and did much to disorganize and ruin France.

The Blum regime low-towed to Soviet Russia consistently, and subordinated Democracy to Communism with the result that French industry was at the mercy of Communist sit-down strikes and the hammer and sickle flag was even flown from the masts of French naval vessels.

Naturally Stalin approves of and relies upon De Gaulle.

He formally recognized him over a year ago as the leader of the Free French forces in Africa, indifferent to the fact that America and Britain have withheld formal recognition.

Now President Roosevelt smugly recommends De Gaulle to Stalin as America's choice.

Why does he not give his real reasons for accepting Stalin's man De Gaulle?

Why does he not say that there is no use trying to get Stalin to agree to the rule of France by anybody who is not acceptable to Russia?

That is the reason for proposing Communists to control the French government.

And it might be accepted by the American people as a good enough reason, under the painful circumstances.

It is certainly a better reason than the one which has been advanced for having so many Communists in control of the American Government.

The giant rocket guns set up by the Nazis along the coast of France are said to have barrels 100 feet long and a range of 125 miles.

Around Hollywood

By ERSKINE JOHNSON

Exclusively yours. I wouldn't you know that Lana Turner and Steven Crane would separate again while she's busy working in a film titled, "Marriage Is a Private Affair."

More proxy work for Anne Baxter. She provided the voice that recited an Elizabeth Browning sonnet in "The Purple Heart." But her photograph will appear on a navy aviator's desk in "Wing and a Prayer."

Maybe you've wondered how Charlie Chaplin and his bride, Oona O'Neil, celebrated his second anniversary. Well, they did a little snooping and discovered they went to a movie that night—"Passage to Marseille"—and watched Humphrey Bogart escape from prison.

Height of Hollywood specialization: That little man who crouches just out of camera range on the "Mile High" set while Dawn Kennedy, playing a maid, fills several soup plates from a large tureen. Every time the director says cut, the little man jumps to the table and pours the soup back into the tureen for the next take.

Sign on a valley drug store: "Drugs and Acting." Lyle Talbot is the owner.

OCCUPATION: BEGGAR

Former radio announcer Bill Stulla, now with the army in New Delhi, India, is begging. He is still listed as an occupation in the India census. But something new has been added. Before the war he begged for pennies, crying "No mama no papa, no brother, no sister, no uncle, no aunt—bakhshesh, sahib, bakhshesh." Now he begs for dollars. He pleads: "No mama, no papa, no brother, no sister, NO FLIGHT PAY!"

Otto Kruger's 17-year-old daughter, Ottile Ann, finally has papa's consent to start a film career. She's being most of her days watching Otto act in "America's Children."

Gregory Ratoff was complimenting his good friend, Michael Dalmatoff, after a scene in "Irish eyes are Smiling." "Dees scene," said Ratoff, "proves why you were de best of Russia. It proves you're your job on your own ability." Then, as an afterthought, Ratoff added, "And because you are my friend."

Even though he asked to be sent overseas, Ann Sothern's husband, Bob Sterling, has been made a flight instructor in the U. S.

FINANCING

While visiting with Soviet economists Dick and Steve, Army, Navy and WPB officials, a brain trust consisting of a dozen or more government and industrial college and civic groups throughout the country. It concentrates on economic rather than academic subjects.

The speakers emphasize that Russo-American collaboration alone can assure world peace and prosperity. The proposed underwriting of the nation's industrial restoration, they say, will contribute to a more permanent and sympathetic understanding between Washington and Moscow.

Highways here decline to discuss details of the negotiations, which may have political as well as economic repercussions next November. But they admit that the talks have reached the point where means of financing the arrangement present the principal obstacle. Obviously it is necessary to find a large credit pool.

He suggested that, instead of freezing the sales of some types of properties, the central agency be charged with demobilization by required to submit a public report outlining proposals to dispose of plant of a particular type.

This report could be made through a public hearing, and the submitted to congress before it carried into effect, Biddle said, that congress, if it disapproved it, could take "any action that it thinks desirable."

When you peel a potato you throw away from one-tenth to one-fourth of its bulk, including valuable minerals and vitamins.

Sweet potatoes are used in the manufacture of candy bars, ice cream powders, flour for pies and as sandwich spreads.

2-Man Torpedoes Now Being Used

LONDON, April 19—(AP)—"Human Torpedoes" guided to targets by two men riding them in divers' suits have been used with conspicuous success against enemy shipping, the admiralty has revealed.

The torpedoes are about the same size and shape of ordinary torpedoes and are driven by electric batteries. Explosive charges are about the same. The crewmen are strapped to the body of the torpedo and maneuver them slowly toward their targets and then dive under it.

The nose charge is then detached from the torpedo and fixed to the bottom of the enemy ship. Time fuses are set and the "human torpedo" is then ridden away before the explosion.

Peter Edson's Column: THAT COMPLICATED EXCESS PROFITS TAX LAW

By PETER EDSON

Pampa News Washington Correspondent

President Phil Murray of the C. I. O. and the Steel workers' Union, talking like a big shot corporation executive himself probably got way over the depth of the War Labor Board panel hearing his plea for wage increases when he brought up the subject of "carry-back" and "carryover" of the excess profits tax. This is one of the most complicated pieces of tax legislation ever put on the books. If Phil Murray understands it fully he is one of a very exclusive few who do.

The reason for this kind of tax law was the assumption that the post-war period would create many extra financial problems for industry, involving possibly severance pay for employees laid off, reconversion, delayed maintenance—and that industry was therefore entitled to relief via tax refunds.

When it comes to figuring how these tax refunds will be made, the system of carrybacks and carryovers couldn't have been made much more complicated if the lawmakers had tried, but perhaps it can be made understandable by reducing it to a set of over-simplified figures from the statements of one company—say the U. S. Steel Corporation.

First thing to do is to determine the corporation's "excess profit credit"—that is the amount of money it is allowed to consider as normal

from a real stock pile, urge acceptance of promises to ship supplies of critical and strategic materials like iridium, manganese and certain types of lumber.

The National Whirligig News Behind The News

By RAY TUCKER

STARBUCK—Joseph Stalin has again shown his supreme astuteness and sense of timing by besieging the Roosevelt Administration and American industry with requests for immediate commitments on a vast amount of goods needed for rehabilitating his country.

While his valiant troops are annihilating Germans, his economic and educational advance guards have canvassed individual industries and the nation's universities. He has not dawdled about a comprehensive, far-reaching program to meet the needs of his country.

Moscow wants to place about twenty billion dollars' worth of Sub-Commissars from the Russian capital to canvass the country's manufacturers, and list detailed blueprints with them. But no agreement can be made until this government gives the green light and some method of payment is arranged.

The bulk of the material will consist of locomotives, freight cars, public utility equipment, dehydrating machinery, and industrial machinery. The Soviet plans to transform the Donets Basin into an industrial area that will rival the Ruhr and our Pittsburgh plant.

The tormented dictator also seeks to solve his vast population's food problem by a practical modification of Henry A. Wallace's ever-normal granary idea. There are 200 million people in Russia who are suffering from lack of food. He has an officer of a United States chemical warfare division unit stationed somewhere in England.

WASHINGTON, April 19—(AP)—Attorney General Biddle went on record yesterday against proposed legislation for the sale of certain kinds of government property after the war, except on the specific authorization of congress.

Biddle told the senate military affairs subcommittee studying contract termination and kindred demobilization problems that the adoption of such a policy "may play havoc with the market for property with which to destroy it in order to protect vested interests."

Although he said congress should lay down basic principles with respect to surplus property disposal Biddle declared procedures should be flexible so that government agencies may move promptly and meet rapidly changing conditions.

"For this reason," Biddle testified, "I doubt the wisdom of provisions that forbid sales of particular property such as ships, shipyards, pipe lines, magnesium, synthetic rubber and steel plants, pending further action by congress."

This prohibition against sale may play into the hands of those who wish to withhold property from the market or destroy it in order to protect vested interests.

He suggested that, instead of freezing the sales of some types of properties, the central agency be charged with demobilization by required to submit a public report outlining proposals to dispose of plant of a particular type.

This report could be made through a public hearing, and the submitted to congress before it carried into effect, Biddle said, that congress, if it disapproved it, could take "any action that it thinks desirable."

When you peel a potato you throw away from one-tenth to one-fourth of its bulk, including valuable minerals and vitamins.

MAYBE IT'S HERE: Leaves From The Editor's Notebook

Bargain day at Hitler's expense will open in El Paso May 3 when 45,000 enemy patents will be offered to the Southwestern industry at \$15 each.

Everything from a jet-propelled plane to an ice bag (for hangovers), that draws off the water as the ice melts, will be included in the Enemy Patent Exhibit, which will continue here for four days. These patents from Axis and Axis-occupied nations represent some of the finest foreign research achievements in modern science and are being offered to Southwestern industry to expand production in the Southwest. They were seized by the government at the outbreak of war and were turned over to the Allen Property Custodian.

The El Paso exhibit will be the only one held in the Southwest. It is being sponsored by the El Paso Chamber of Commerce in conjunction with the Smaller War Plants Corporation. The exhibit is expected to attract manufacturers here from West Texas, New Mexico, Arizona and Colorado.

The patents are bound in 300 volumes, systematically indexed with complete diagrams, drawings and descriptive data. The license permits the manufacturer to use the patent for 17 years.

Sometimes Congress can't see beyond the end of its nose. The example at hand is the increase in the cost of post office money orders (as high as 65 per cent in some cases) voted in the recent Revenue bill.

If the bankers' lobby had worked night and day for months, it couldn't have hoped for as great a benefit as Congress may have handed them in this seemingly minor item of increased public charge for services rendered.

The House ways and means committee glibly estimated that increases in the cost of local postage, airmail stamps and money orders, would bring an additional revenue of \$96,000,000 a year. The government has a monopoly on the sale of stamps and, for the most part, for services rendered thereunder.

War Today

By DEWITT MacKENZIE

Associated Press War Analyst

You may call Harry Adol Enickelgruber (alias Hitler) out of his name, or cheer the suggestion that he be hanged higher than Old Haman, but the British and American governments consider public assaults on Japan's Emperor Hirohito as particularly impolite.

We are reminded of this by a London dispatch saying that the official British broadcasting company is careful in its handling of remarks about the Emperor. Our own Office of War Information follows a similar line.

The answer appears to be that the Nipponese dynasty may be useful to the Allies in the post-war reconstruction. Hitler's "dynasty" has been condemned to destruction, and he himself may have to pay for his bloody crimes with his life. It's true that they worship him as a god, but that the Japanese militaristic clique which perpetrated Pearl Harbor also must be wiped out. Some of the prime war-mongers, like Premier General Tojo, may join Hirohito in his new post-war life.

The Mikado, however, is in a special category. He is the spiritual head of his state, and in the eyes of his people is literally a divine being. They worship him as a god. It's also a fact that, so far as temporal affairs of government are concerned, he's a figurehead. The military outfit is in control, and any words which he speaks are put into his mouth by Tojo.

The Japanese believe that their Mikado is the direct descendant, through the centuries, of the gods of the Sun Goddess. He not only occupies the throne by divine right but is himself divine. The state religion of Shintoinism culminates in emperor worship, and this religious belief has become an integral part of patriotism.

Since Hirohito not only is held in religious veneration by his people, but is the focal point of their patriotism, it's easy to see how he could be of vast assistance in re-creating his nation after the war. It's equally clear that the easiest way to breed hatred of the western world in the hearts of the Japanese would be to attack their emperor.

OLD JAN GROWS OLD

XXI

I WAS to graduate from college in June of 1941. Although my grandfather had complained of his health when I was at home during the Christmas vacation, I was surprised by letters I received from Mary Hughes during that spring. Mary, who had finished college two years before and was teaching in a high school at the time, wrote me that my grandfather had fallen noticeably since the first of the year.

The work of whipping the farm back into shape, in which he had virtually succeeded, had been too much for a man of his years. I was tempted to make a hurried visit to the farm, but I assured myself that it would not be long before I would be back for good to take the work off his shoulders.

Furthermore, I did not want to give him an excuse for not coming up to Fort Collins for the commencement exercises.

But he didn't come up for commencement. Mary and Judge McNamara came, but they brought the news that Old Jan did not feel well enough to make the comparatively short automobile trip.

"Aw, the old fool is turning sissy on us," the Judge asserted. "Mopes around about himself. The farm will probably go to hell."

"You shouldn't talk that way," Mary snapped, "even to Jan. You know very well Mr. Mesrik's a sick man."

In spite of all this warning, I was bowled over when I finally saw my grandfather back home on the farm. His color was awful. He was stooped, feeble. He spent most of his time in his bedroom. All of the work was being done by a hired man.

"I'm not so good," Little Jan, me. You know like our time-table worked out just about right. I'm

ready to quit when you're all set to begin in earnest."

I told him he was all well, that he would be back in the fields in another spring.

"You can be the silent partner this year," I said, "but, remember, it's just a temporary arrangement."

Yes this was just talk and we both knew it. Old Jan was really old.

So They Say

After the war we will have a navy as large as all the combined navies of the world. I am opposed to sinking the ships as we have done in the past. By turning over some to South American nations, we would be carrying out the principle of self-protection and of fostering good will.—Rep. William E. Hess of Ohio.

How anyone can see a quick conclusion to this war beats me.—Maj. Everett W. Holstrom, Tokyo raid pilot.

It is not important that the soldier conform to the family pattern, but he needs the sense of belonging to something stable that can serve as a safe anchorage for the time being and permit a certain amount of floating and drifting.—Dr. Alexander Reid Martin of New York.

We can agree that their (the U. S.) operations have changed from stepping stones to leap frog operations.—Tokyo broadcast.

Amarillo Man Buys Station

OKLAHOMA CITY, April 19—(AP)—O. L. (Ted) Taylor of Amarillo,

Texas, has purchased radio station KTOK, which has been the property of the Oklahoma broadcasting company since 1937. Taylor is associated with the Taylor-Howe-Snowden group of Amarillo which operates a number of southwestern newspapers and radio

stations, most of them in Texas. (In Washington, the federal communications commission authorized transfer of the license of station KTOK to Taylor for \$150,000.) The Oklahoma broadcasting company is a corporation in which Harold V. Hough, former Oklahoman who now is circulation manager for the Fort Worth Star-Telegram and radio director of stations WBAP and KGKO, holds the principal interest.

Taylor would be sole owner of KTOK, according to word received here. Manager Robert D. Enoch of the station said the transfer probably would be completed within a few days.

There's a Reason The Japs Have Trouble

FIFTH AIRFORCE HEADQUARTERS, New Guinea, April 19—(AP)—Doubtless the Japanese know by now what got their New Guinea airforce, but in case they are not sure, the answer is: one of the world's hottest groups of fighter pilots.

These intrepid youngsters, riding Lightnings, Thunderbolts, Warhawks and Airacobras, have virtually wiped out the Japanese airmen. Over Hollandia on Sunday the Americans rode unchallenged. Not only were there no enemy fighter planes there to meet them, but

there wasn't enough ack-ack to bother them. The whole fifth airforce fighter unit has done the job, but outstanding among the hot acres who have shot down a total of 156 Japanese planes in aerial combat are Maj. Dick Bone, 23, Poplar, Wis., who has set a new record for American airmen by shooting down 27, and a tall Texas livestock man, Capt. Jay Thorpe Robbins, 24, Coolidge, Texas. Robbins is the leader of a fighter squadron known as the "Headhunters" and has shot down 19 enemy planes.

Robbins' squadron has set a new record for American fighter squadrons by downing 203 Japanese planes in combat and destroying countless others on the ground.

Robbins' nearest rival is Capt. Thomas B. McGuire, Jr., 23, a former student at the Georgia School of Technology whose wife lives in San Antonio, Texas. McGuire has

Allen Services Will Be at 4 Tomorrow

Funeral services will be held tomorrow afternoon at 4 at the First Methodist Church here for Mrs. J. P. Allen, 72, who died Monday at a local hospital. Burial will be at Fairview cemetery.

Miss Minnie Allen, yesterday listed as a sister of Mrs. Allen, is a daughter.

A CASE FOR PORTIA LOS ANGELES.—Kenneth M. Springer, 33, convicted of failure to report for military induction, stood before Federal Judge Pierson M. Hall for sentencing. Judge Hall said, "I'm not a Shylock." Judge Hall said, "but I want a pint of blood from you."

Springer received a three-year suspended sentence on condition he visits a Red Cross blood bank within a month, and was fined \$1,000 and ordered to get a job in a veterans' hospital.

Sports Query Produces Dope On 10 Events

Finding out one sports answer at a time is sometimes difficult but when someone wants to know the winners in 10 different events and under three classifications takes on the same size as balancing the national budget.

Having devoted considerable time to this research, answering an inquiry Tuesday, the sports editor of The Pampa News didn't want to waste all that material. Some fans may find it valuable in settling arguments.

Records marked with one star are official world records as of 1938. Since no meetings of the International Amateur Athletic federation have been held since that time, with the exception of one meeting at which not all members were present, the 1938 records stand.

Two stars denote records awaiting official recognition. Three stars the best accepted American records. In some cases, records will coincide.

Sports Roundup

By HUGH HUBBELL, JR.
PHILADELPHIA, April 19—(AP)—Pro football rules-makers claim that the collegiate code fails to provide for about 20 per cent of the things that occur on the field, leaving them up to the officials to interpret as they see fit—and any college coach who dares to detect any violation does worse than have a little talk with Hugh (Shorty) Ray, the sage of Beaver Island, Mich., who discovered all the loopholes and patched up most of them when he drew up the professional rules, incidentally, that opening-day baseball turnout, averaging more than 1,000 a game above last year, may be the clinching argument in favor of having all 11 football clubs operate next fall.

A ROOKIE A DAY
Don Savage, Yankees' third baseman: A year ago the Yankees came up with Billy Johnson, an unknown who turned out to be a pretty good third baseman. Uncle Sam took Johnson, so Ed Barrow reached over to New York and picked up Savage, who trailed Johnson through the minors until 1942, when a diabetic condition that makes him draft-proof kept him out of action. Don hit only 258 for the Bears last summer but showed power with 16 homers and 69 runs batted in. Six years ago he was offered contracts by both the Reds and Yanks and American league fans claim it proved he was smart when he chose the world champions.

ONE-MINUTE SPORT PAGE
That proposal to a score kicoffs something like field goals came before the pro football rules committee, Coach Greasy NeNale of the Eagles dismissed it in one sentence: "Heck, I haven't got any player who can kick that far."

SERVICE DEPT.
Corp. Reymann (Bud) Bonar, former Notre Dame player and U. of Cincinnati assistant coach, has been looking over G. I. athletes carefully since the report reached Camp Walters, that he's in line for the head coaching job after the war. And there's some good material at Walters, too—Marine Capt. Graham Smith, former Detroit Lions business manager, writes from somewhere on the Pacific front: "My new bunk mates are Ted Lyons and third-string catcher from Sacramento who is developing a terrific inferiority complex from Lyons constant recital of his (Ted's) herculean battling prowess."

BUY BONDS
PHILADELPHIA, April 19—(AP)—Having disposed rather easily of the problems involved in 43 suggestions for changing the rules of professional football, the National Football League today faced the problem of 11 clubs and what to do with them.

The rules committee, meeting in a preliminary session to today's opening of the three-day league meeting, sifted out a half dozen or so rules proposals and passed them along for league action. The question of how many clubs will operate next fall probably will be brought up as early as possible in the regular meetings.

There were only eight clubs operating last fall, when Philadelphia and Pittsburgh merged and Cleveland was inactive. This year they all have signified their intention of operating independently and Boston, which was granted a franchise last year to become active in 1944, also is ready to go.

Still another problem was posed by the Boston Yankees, who have demanded first choice in the "draft" of college players in order that they might pick Angelo Bertelli, last year's Notre Dame star, now a Marine.

Out of yesterday's rules committee meeting came two proposals for major changes in the rules and a half dozen minor alterations and clarifications. Under these, coaches on the bench will be permitted to communicate with players on the field, provided that they don't range more than 10 yards on either side of the middle of the bench, and five-yard penalties provided for out-of-bounds kicoffs.

BUY BONDS
Canuk Marathoner Seeks Second Title
BY STEVE O'LEARY
BOSTON, April 19—(AP)—Tradition in the 48-year history of the Boston A. Marathon loomed today as a bigger obstacle than the grueling course to the home of Gerard Cote of Montreal for a second successive triumph in the Patriot's day macadam meandering.

The fabulous Clarence Demar, seven-time winner of the event and absent from the lineup today for the first time in years, turned the trick nearly two decades ago.

Cote himself had an unsuccessful bout with this hallowed marathon tradition when he tried to duplicate his 1940 victory in 1941 and wound up in fourth place.

The other former winners—victims of similar unsuccessful attempts to cop successive triumphs—are entered in the field. One is Ellison (Tarzan) Brown, the unpredictable Narragansett Indian from Westerly, R. I., victor in 1936 and 1939, and the other Johnny Kelley, often close at the finish but a winner only in 1935.

Only 88 Hits Allowed With 69 As Singles

By JACK HAND
Associated Press Baseball Writer
Northern spring training got a "yes" vote from the pitching profession as the hurlers looked over yesterday's opening day major league box scores and settled down to enjoy a happy state of affairs that finds them far ahead of the hitters.

While the sluggers played basketball in high school gyms or swung away at soft stuff in cages under artificial lights, the throwers unlimbered their salary whips with such regularity that no fewer than three were able to pitch shutouts in yesterday's inaugurals. Four runs was high for a winning team and of the 88 hits allowed 69 were singles.

It was a typical wartime opening with pitching predominating just as it did a year ago, but the crowds were enormous except at St. Louis where a slight drop was experienced. With seven of the eight scheduled games played, the largest attendance was 121,336, considerably higher than last year when four of the games were washed out by rain and the peace time norm of 200,000.

Bucky Walters meanwhile put in an early claim for hard luck honors when he gave three hits but was beaten by Hank Wynn of Chicago, 3-0. The Reds, inspired by the largest turnout in either league, 30,154, got five hits, but couldn't put them together for a score. Rookie Don Johnson, Bill Nicholson and Phil Cavaretta ruined the day for Walters with hits that counted. Nicholson driving in two of the runs.

Mel Ott's gamble on Bill Voiselle, who lost 21 last year for Jersey City, turned out to be a happy choice as the youngster from South Carolina became the first rookie to ever win a Giant before by besting Boston 2-1 before 13,470. Hugh Lusk, a newcomer from Oakland of the Pacific Coast league, won himself a job with a double that scored the two tallies.

Breakthrough season anticipated on the dreary side as Hal Gregg, a youngster on whom Manager Leo Durocher is counting heavily, failed to hold the Phillies in check while Dick Barrett was toyed with the Dodgers, 4-1.

Joe McCarthy was home in Buffalo with a case of the grippe but the Yankees won just the same, trimming Boston 3-0 on Hank Borovick's five-hitter. It was the eighth in a row for Hank who has not been beaten in the American league since last Aug. 10 in St. Louis. Johnny Lindell slammed a homer in the second for an edge the champions surrendered.

Washington had a little bit of everything to spice the day for a 27,000 crowd. It started with Vice President Walter White throwing out the first ball, warmed up as the Nats held a one-run lead in the early going, hit the fever point in a pop bottle show as the home team came in and cooled off when Philadelphia took a 3-2 decision in the 12th.

The old gopher ball was almost the undoing of Jack Kramer as the St. Louis Browns edged Detroit 2-1 with 26,034 in the stands. The runnerup crowd to Cincinnati saw the Yankees win just the same, with two out in the last of the ninth but Pinky Higgins spoiled that with a circuit clout. George Easter came in before there was any more damage and saved the game for Kramer. Vernon Stephens, St. Louis shortstop had hit a homer in the first half of the same inning.

Cold weather postponed the Cleveland-Chicago opener and they will try again today.

Chigolfers Start Dime-a-Round Plan
BY CHARLES CHAMBERLAIN
CHICAGO, April 19—(AP)—The alert Chicago District Golf association, which has sponsored two highly successful war-time tournaments, a national scope and will hold its third this summer, now is busy with the extra curricular activity of raising \$50,000 in dimes.

The 500,000 expected to be collected in the Chicago area this season, from the golfing public, will be turned over to Chicago's servicemen's centers.

Three of the country's outstanding organizations—the Professional Golfers Association of America, the Western Golf association and the Women's Western Golf association—will cooperate with the ODGA and try to establish the "dime-a-round" plan on a nation wide basis.

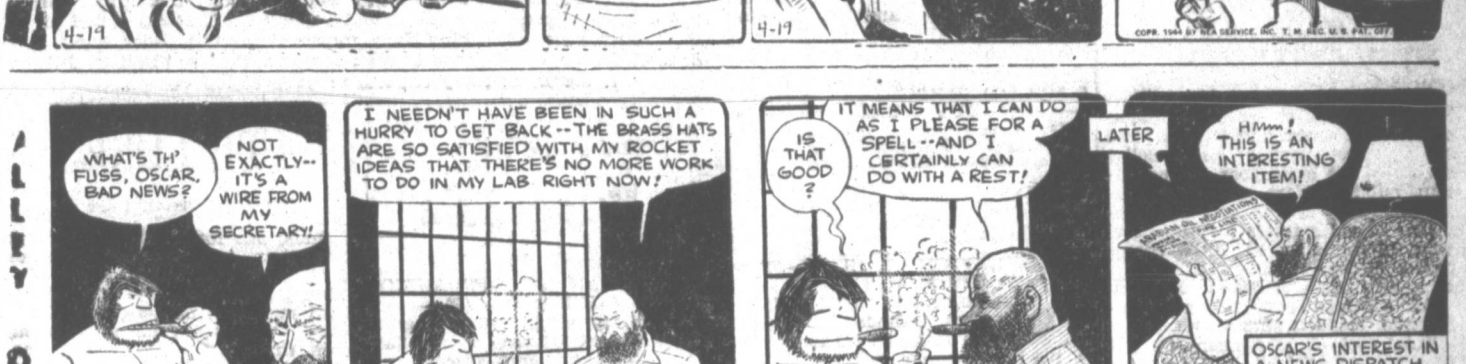

BUY BONDS
Denison Dam To Get Four Million Bass
DALLAS, April 19—(AP)—Stocking of the huge Denison dam reservoir with fish will begin next week with the dumping of four million black bass fry along the Texas shoreline, the Dallas office of the State Game, Fish and Oyster commission announced today.

Later, the lake will be stocked with channel cat, bream and white perch. Similar stocking by Oklahoma on its side of the reservoir is scheduled to start soon.

No fishing regulations for the lake have been set up yet, but the commission office here said it probably would be closed to all fishing for two years.

BUY BONDS
Williams Blazes Way As Lightweight
PHILADELPHIA, April 19—(AP)—Ike Williams today was pounding on Bob Montgomery's door, ready, willing and qualified for a shot at the Pa.-N. Y.-N. J. version of the lightweight title held by the Bobcat.

Ike qualified for a return bout by blasting Mike Della's aspirations at the arena Monday night in one minute and 54 seconds of the first round of a scheduled 10-rounder.

THE BOYHOOD PAL
You don't need to rivet up a little Frankenstein, just to smother 'em with Wheaties. There's plenty of glad you can have all your appetite demands.

Doctor Says There Are at Least 30,000 Cases of TB in Texas

AUSTIN, Tex., April 19—(AP)—A particular sore spot in the public health service of Texas is the part-time county health officer, says Dr. B. E. Pickett, of Carrizo Springs.

"He came with the prairie schooner and ocean, and like the peer, he is still with us," Dr. Pickett told the annual conference of health officers and health unit directors here.

Dr. George W. Cox, state health officer, said that the fact that 45 per cent of those called for military service fail to pass the physical examination "is a serious indictment of past efforts toward health conservation."

Doctors and health unit directors of the state at the sessions here are studying work already done and yet to be done in maternal and child health, dental care, malaria control, venereal disease, wartime nutrition, child development programs, tuberculosis and preventive medicine.

The selective service system of examination for inductees has provided one of the greatest tuberculosis finding programs in history, Dr. Cox emphasized.

"Approximately 11,000 chest x-rays have been submitted to the state health department and of this number 6,500 are considered to have significant tuberculosis. Our mobile X-ray unit discovered another 1,946 active cases last year."

There are in all about 30,000 active cases of tuberculosis in Texas, Cox estimated.

He advocated the establishment of at least one or two regional treatment and hospital centers, inasmuch as Texas has now only slightly over 2,000 beds available.

Dr. Pickett, who has been a county health officer for 18 years, said further of the part-time county health officer:

"Being a political appointee he has to work with (and for) the commissioner's court and the county judge who appointed him; not making enough on his state salary to live, he has to do some private practice and runs into trouble with the regular doctors; having no set program he is not looked upon with favor by the state health department."

Education Gets 34 Per Cent Of State Revenue

AUSTIN, Tex., April 19—(AP)—Most of Texas' revenue dollar comes from taxes and licenses, and the greatest part of each dollar spent by the state goes for education, public welfare and highways.

Reviewing receipts and disbursements of state funds for the fiscal year ending Aug. 31, 1943, comptroller George E. Sheppard reported to Gov. Coke R. Stevenson that: All receipts, revenue and non-revenue, totalled \$278,175,347.

Total cost of government for the year was \$181,795,948 but the state paid out a grand total of \$240,255,600 including such items as tax refunds and repayments and payments for securities purchased.

Out of each dollar spent for government, nearly 34 cents went for education; approximately 29 and one-half for public welfare including pensions, benefits and retirements; 22 plus for highways. Two cents of every dollar went toward payment of the public debt; four cents for eleemosynary and correctional institutions; and roughly one cent each for judicial, executive, regulation of business and industry, conservation of health and sanitation, development and conservation of natural resources.

Why Navy Needs \$32,647,134,336

Pictograph above shows how Navy would spend, for new material and upkeep of present establishments, the \$32,647,134,336 called for in the new, record-breaking Navy appropriation bill. Rear Admiral E. L. Cochrane, chief of the Bureau of Ships, declared that by July 1, the U. S. Navy expects to have 85,169 vessels.

Skipper Is 24, Has Rough Ship

By DANIEL DE LUCE

ABOARD AN LCI OFF ANZIO, April 12—(Delayed)—(AP)—An American admiral, whose gold covered a poetic heart, once called LCI's (landing craft, infantry) "little ladies of the sea." But take it from men who have sailed "Elsie" on three invasions, the description is all wrong.

No lady could be so rough.

After 12 months overseas, Skipper Frederick W. Ahearn says sea-sickness is still the most dreaded affliction among his crewed, 90 percent of whom were land-lubbers a year ago.

Prepared to give up his last meal in the cause, this correspondent boarded Ahearn's blue-nosed craft at Naples last night. By maintaining a reclining position until Anzio was sighted this morning, a further casualty was avoided.

Regardless of mal de mer at sea and various bombings in port, a busy fleet of LCIs gets its work done on time in supplying the Allied beachhead. It's typical of the vast civilian navy which now flies the United States flag in all the oceans of the world.

Ignorant of things nautical, Ahearn was just out of Holy Cross when he was prepared for his future command by one month as an apprentice seaman and by three months as a midshipman at the training school at Columbia University in New York. His home is Wollaston, Quincy, Mass. He will be 24 his next birthday.

Monitoring Set Is Discontinued

WASHINGTON, April 19—(AP)—Dr. R. D. Leigh, head of the federal communication commission's (FCC) foreign broadcast intelligence service (FBIS) said reduction of his department's operating funds will necessitate closing down the FBIS unit at the Kingsville, Texas, radio monitoring station.

The units' functions will be transferred to existing foreign intelligence monitoring stations in San Francisco and Washington, D. C., said Leigh, adding the Texas station would continue to be one of FCC's primary monitoring points.

Established late in the fall of 1941, the FBIS through its setup at Kingsville, has monitored all Latin-American broadcasts, making transcriptions of broadcasts so that they might later be translated into English for study to detect any information that might further the prosecution of the war.

Smith Child Will Be Buried Thursday

Funeral services for Helen Louise Smith, 2-day-old daughter of Mr. and Mrs. George Allen Smith, who died Tuesday in a local hospital, will be conducted at 4 p. m. Thursday in the Fairview Cemetery Baby Garden, by the Rev. E. M. Dunsworth, pastor of the Calvary Baptist church.

Sole survivors are the parents. Arrangements are in charge of Dunekel-Carmichael Funeral home.

Kitchen help wanted at Schneider Hotel.

Pampa police arrested a 32-year-old man here yesterday who is wanted in Robstown on a forgery charge, according to word from Robstown officers, now on their way here to take custody of the prisoner.

Shortening, salad and cooking oils are now ration-free for individual consumers, the county rationing board office said today.

A marriage license was issued here April 16 to Lieut. Eugene V. Brasseur of Junction City, Kans., and Miss Helen Lee Gallagher of Dallas.

County court this week, a verdict of not guilty was returned by a jury in the case styled State of Texas vs. Willie Harris, who had been charged on June 4, 1943, with sale of liquor on Sunday.

Members of the 31st district court grand jury are to reconvene Friday after having been in recess since March 2.

Both Pampa banks will be closed all day Friday in observance of San Jacinto Day.

The count of criminal appeals at Austin today had submitted to it the state's motion for a rehearing in the case of State of Texas vs. F. A. Campbell, from Gray, Camp, and Miss Helen Lee Gallagher of Dallas.

County court this week, a verdict of not guilty was returned by a jury in the case styled State of Texas vs. Willie Harris, who had been charged on June 4, 1943, with sale of liquor on Sunday.

Members of the 31st district court grand jury are to reconvene Friday after having been in recess since March 2.

Both Pampa banks will be closed all day Friday in observance of San Jacinto Day.

STATE LOSES

grounds, but forbids their carrying more than two tax-free packages of cigarettes off the grounds.

Smith said that wives both of enlisted men and officers, as well as retired military folk, are buying more than they are to consume, and either selling or giving the surplus to friends and neighbors.

A further drain on the tax-free privilege is from the multitude of civilian employees on post exchanges and military establishments, who can buy two packages of cigarettes morning, noon and night, without the seller being able to keep check on the purchases, said Smith.

In an effort to control this leak, Major Richard Donovan of the 8th service command has had all exchanges post a notice warning purchasers they may not by state law leave camp with more than two packs of unstamped cigarettes.

Despite this warning, the loss continues, Smith said. He indicated that some action to curb this drain was being contemplated, but declined to go into details.

Poultry Clinic At 2 P. M. Friday

A poultry clinic for the benefit of Gray county poultrymen will be held at 2 p. m. Friday at 846 W. Foster, County Farm Agent Glenn T. Hackney said this morning.

Conducting the clinic will be Dr. W. A. Boney Jr., College Station, extensive service poultry veterinarian, who a year and a half ago conducted a similar clinic here for the benefit of farm agents of Gray and adjoining counties.

At 10 a. m. Monday, Dr. Boney and Dr. S. A. Moore, extension service poultry husbandryman, were in charge of a poultry demonstration school and sub-district meeting, discussed the two extension service specialists, other officials present included David P. Eaton Jr., Gray county assistant agent, and Miss Millicent Schaub, Gray county home demonstration agent; Knox Parr, District 1 farm agent; and Miss Doris Leggett, District 1 home demonstration agent.

Dr. Moore explained the grading of eggs and told what the average poultryman can do to improve production. He explained that the present egg market slump was a normal spring occurrence, and told his audience that eggs would probably remain at a high price throughout next winter's months.

Work of 4-H clubs in Texas was reviewed in a talk by L. L. Johnson, state boys 4-H club agent.

OPA Declines To Hold Up Ceiling Prices

WASHINGTON, April 19—(AP)—An office of Price Administration (OPA) spokesman says that OPA has made no promise to hold up a ceiling price order on strawberries but that as previously announced, the effective date had not yet been fixed.

The spokesman commented in reply to an assertion by Rep. Horri-son (D-La.) that the order is being held up by OPA because of his objections on behalf of Louisiana growers.

DAR Will Sponsor 50 Landing Craft

NEW YORK, April 19—(AP)—The Daughters of the American Revolution announced today that its 53rd annual continental congress today that their national society will sponsor 50 amphibious landing craft.

The DAR will adopt the crews of the ships, provide them with athletic equipment, and correspond with them and their parents, said Mrs. William H. Pouch of New York, president.

plane parts factory at Rathenow. Others struck Calais in France and Charleroi in Belgium.

British targets of the night were the rail yards and repair shops at noisy LeSca and Jussy around Paris; and at Rouen and Tergnier, both keys to the threatened French coast. Fourteen bombers were lost the Germans said 308 dead had been counted in Paris.

Unable to protect it from the sky, the Germans unilaterally proclaimed Rome an open city and pleaded for an end of "senseless" air attacks. Even as the Nazis spoke, the Allies spotted heavy enemy traffic moving into the city from the northeast.

Below Rome, four small German raids were repulsed on the Anzio beachhead. Patrols and artillery were active on other fronts.

The British announced they had mined the Danube and Hitler's Balkan satellites said all traffic on the river had ceased.

ILLINOIS

ness" was released yesterday by the naval affairs committee.

Chairman of the two committees, May of Kentucky for military and Vinson of Georgia for naval, both Democrats, are at sharp odds on the question.

Sabath told a reporter today: "I'm for the bill that gives a complete auditing check, that prevents anyone from throwing away our surplus material or selling valuable equipment for a bagatelle."

Proponents of the idea that the government contracting agencies should rule on the major provisions of termination contend it is a job for engineers and appraisers—not accountants. Navy men testified that losses on contracts already terminated had been infinitesimal.

Firestone SPRING SAVINGS

See These Values But . . . Buy War Bonds First!

When You Get a Tire Rationing Certificate, Buy the Tire That Stays Safer, Longer . . .

Firestone DELUXE CHAMPION

The ONLY tire built with GEAR-GRIP TREAD for sure-footed control on wet, slippery pavement.

The ONLY tire with SAFETY-LOCK, GUM-DIPPED CORD BODY, so tough the tire can be recapped time after time.

The ONLY tire with SAFETY-SURED CONSTRUCTION increasing tire life, providing longer mileage.

QUALITY RECAPPING by Factory-Trained Experts

6.70 6.00-16 Tire

The Firestone Factory - Controlled Method assures you highest quality materials and the finest workmanship. Our recaps are guaranteed!

No Ration Certificate Required

FREE! 28-Page Garden Book and 25c plus Burpee's GIANT ZINNIA SEEDS (Garden Book Gives Complete Information for Growing a Successful War Garden)
