

NEW EASTERN OFFENSIVE

Forces Cleaning Up Saipan, Noemfoor Bombers Are Active In China Theater

French Liberation Armies Succeeding

By J. B. KRUEGER
Associated Press War Editor

Overwhelming American forces which had caught the Japanese with too little and too late pressed forward today to wipe out the last traces of resistance on newly-conquered Saipan and Noemfoor islands.

A slaughter impended on Saipan. At the northeast tip of this Pacific isle 1,500 miles from Tokyo and the Philippines, Japanese crowded by the thousands in caves, pillboxes, blockhouses and mountain passes, awaiting doom. Correspondent Howard Handelman said the Japs, soldier and civilian, were resigned to their fate but determined on a last-ditch fight against "Americans they know they can't halt."

The Saipan battle was no walkover. Adm. Chester Nimitz said: "I think it will be a hard fight until most of them are killed." As the marines and infantry tightened the trap they ran into ever-heavier defenses.

Behind the front the cleanup of Garapan, Tanapag and isolated resistance points proceeded. Tokyo radio announced American warships bombed nearby Guam and Tinian and air-raided Rota and Pagan yesterday. These raids were in line with the navy's relentless attacks to hamstring all bases from which the enemy could come to Saipan's rescue.

Japanese circles also feared, said radio Berlin, an American landing in the Bonin Islands between Saipan and Tokyo. The Bonins and nearby Volcano Islands have been hit repeatedly by navy forces, the latest raids on July 3-4 accounting for five enemy ships and 88 planes.

For the second straight day paratroopers descended on Noemfoor, spilling out of C-47s to help in seizing Kornasoren, second airport to fall into American hands since the invasion of this island off Northwest New Guinea Sunday. A third and last airport was next on the list, and another last-ditch stand by the Japanese was awaited.

Much of Wheat Crop Is Being Put on Ground

Gray county wheat farmers are being forced to dump wheat on the ground at their farms as the lack of railroad cars continues, according to information received here by the county grain agent's office.

At Laketon, 20 miles east of Pampa, 125,000 bushels of wheat have been put on the ground at elevators there, but there have been no reports, the county agent's office said, of a similar situation in Pampa.

Amarillo grain dealers declared the grain car outlook was getting tighter and part of the retarded movement is attributed to the embargo and permit system employed in the shipment of grain.

This system requires that the wheat owner must have a definite buyer before the wheat can be loaded and this results in many trucks of wheat being tied up at the country elevator. This, in turn, takes the number of trucks out of duty in the fields.

Lack of labor at terminal elevators where wheat cars are piling up awaiting unloading is contributing to the already acute boxcar shortage, according to J. J. Mahoney, Santa Fe transportation superintendent, quoted in a release from Chicago.

Supt. Mahoney cited these figures of typical days: 1,483 loads of wheat in 15 terminals, 393 unloaded; 1,568 loads, 409 unloaded.

On the Panhandle and Plains divisions, 78 elevators closed recently because of the car shortage. There are 155,000 bushels of wheat piled on the ground on the Panhandle division and 801,000 on the Plains division.

In one day, there were 889 cars available for loading and the railway had orders of 2,955 cars.

Life Imprisonment For Mexia Robbery

GROESBECK, July 6—(AP)—Judge Lex Smith has sentenced to life imprisonment Herman East, 34, charged with robbery with a deadly weapon, who had entered a plea of guilty to robbery and assault in 87th District Court.

East changed his plea from innocent to guilty, and the jury in the case yesterday was dismissed as a result. East was charged in connection with the robbery of a Mexia insurance firm. During the robbery a woman employee of the firm was struck and seriously injured.

I SAW ...

Gray county Democrats writing out a plan to stop Thomas E. Dewey, the Republican presidential candidate. The idea is that since the "priority referral" policy started on July 1 adds more "freezing" of labor, Dewey won't be permitted to quit his job as governor to run for the presidency.

64 Coal Miners Are Doomed In Burning Shaft

BELLAIRE, O., July 6—(AP)—A desperate struggle to save 64 coal miners trapped by fire in the Powhatan Mine was abandoned today when fresh flames drove back rescue crews.

Fifteen hours after the fire started 200 feet from the mine entrance, State Mine Inspector Richard McGee announced there was no chance of the men escaping alive. Every outside entrance to the mine was ordered sealed.

Before the fire got out of control rescue workers had cut a new tunnel 500 feet through coal and rock in a vain effort to by-pass the flames and reach the men.

The fire broke out at 1 p. m. (est.) yesterday when a rock fall broke a high-voltage trolley and sizzling sparks ignited coal near the junction of the main passageway and a 3,600-foot-long drift corridor in which the victims were working.

The mine, the largest soft coal pit in Ohio, is operated by the Powhatan Company, 15 miles south of here.

No word had been received from the men since the fire broke out. Up until 4 p. m. today, when sealing of the mine area was decided upon, Marcus Kerr, chief of the State Division of Mines, had expressed belief the men could be reached.

Charles E. Young, assistant superintendent of the mine, had asserted that if the men could have barricaded themselves properly, they could have held out five or six days.

On the other hand, Adolph Pacifico, vice president of District Six United Mine Workers, had asserted last yesterday:

"I do not think they will find one of them alive."

Several relatives of the entrapped men were waiting hopefully at the mine entrance when officials announced that the shaft must be sealed.

Closing the shaft will cut off the oxygen supply and the fire will burn itself out. It must remain sealed for several weeks before workers can return to remove the bodies of the victims.

In the mine when the fire started were 199 men. All but the 64, however, were in areas from which they could reach exits safely.

Maximum Prices Set On Various Melons

WASHINGTON, July 6—(AP)—Maximum prices, established for the first time for all melons except watermelons, were announced today by the Office of Price Administration.

The melons will be under community pricing at retail, retaining the same mark-up in individual communities. The following prices are set:

Season average prices, which OPA said would be considerably lower than last year's prices in all states, will be: cantaloup, 9 1/2 cents a pound; honeyball, 9 1/2 cents; honeydew, 11 1/2 cents; persian, 12 1/2 cents; casaba, 9 1/2 cents; cranshaw, 11 1/2 cents; all other melons, except watermelon, 9 1/2 cents.

Swedes Shoot Down Dane in Stolen Ship

STOCKHOLM, July 6—(AP)—Swedish anti-aircraft winged a German plane early today over Helsingborg and when it crashed in the water, out popped a 19-year-old Dane who said he had stolen the plane and started for England.

He gave the name of Hoest. He said he worked as a laborer at the Copenhagen airport for two weeks and without German knowledge, raised up a Heinkel-111 and took off before the Nazis knew what was happening. He headed the craft up the Kattegat, apparently to avoid crossing heavily gunned Denmark, but over Helsingborg, the Swedes fired.

Swedish military police fished him from the water unhurt and took him into military custody. The plane was a total wreck.

Casualty Toll From Robot Bombs 10,000

By TOM YARBROUGH
LONDON, July 6—(AP)—German flying bombs have killed 2,752 persons, and wounded 8,000 others since the blind robot attacks, centered on London, started three weeks ago, Prime Minister Churchill disclosed to the house of Commons today. (Bomb pictured on page 2.)

More than 10,000 of the casualties were in London, Churchill said, announcing that children already were being sent from the capital as they were in the blitz days four years ago.

As the Prime Minister gave a brief account for the first time of the effect of Hitler's new weapon, the RAF again smashed at launching bases on the French coast, whence 2,750 of the robot bombs have been discharged on England in the past three weeks. Churchill said that "so far" about 50,000 tons of Allied bombs have been dropped on these targets.

More Britons have been killed by flying bombs in southern England than were killed in the first 15 days of the battle of Normandy, Churchill disclosed.

Although putting London on a blitz basis, with casualty lists to be announced monthly, Churchill served notice that military operations in France came first.

"I do not want there to be any misunderstanding about it," he said. "We shall not allow the battle operations in Normandy or the attacks on the German coast to be interrupted by a German policy plank, as it did at the Republican convention, with party leaders considering a declaration calling for use of the American army and navy is necessary to halt further aggression in the world and guarantee permanent peace."

Democrats here are talking of putting their platform this year in capsule form, condensing its wording to a minimum. Interest will center in a foreign policy plank, as it did at the Republican convention, with party leaders considering a declaration calling for use of the American army and navy is necessary to halt further aggression in the world and guarantee permanent peace.

Following the war "there will be 15,000,000 to 30,000,000 persons for whom jobs must be found," says Murray Maverick, chairman and general manager of the Smaller War Plants Corporation, who added:

"If war production is cut off without something being done to protect the little plants, we are going to have one of the greatest convulsions in the history of the economic world."

In an interview, Maverick commended the Grandfather Provision and the Cherokee Strip ideas which he said big business is attempting to put over.

He said the Grandfather Provision would give the advantage to business set up before the war and the terms Cherokee Strip he used to describe the plan under which all businesses, big and little, would start making civilian products on the firing of a starting shot.

Ladies, we have plenty of clothes line wire. Lewis Hardware, adv.

Can you imagine County Clerk Charlie Thut being a butler? Well, that's a part of the fun in store for those who attend the war bond auction program tonight at the LaNora theater.

Clerk Thut won't actually be a butler on the LaNora stage, but his services in that capacity will be for sale, as will those of a score of other Pampa business and professional men.

The entire program is sponsored by Kerley-Crossman Post 334 of the American Legion, of which Roy S. Bourland is commander, in cooperation with the theatre, a unit of the Griffith Amusement company, of which Carl P. Benefield is local manager.

Here's the way it works: At 6:45 tonight the theater doors will be open. You must have either purchased a bond since June 12, date of the opening of the Fifth War

Dewey Moves To Bring Willkie Into His Camp

By JACK BELL

ALBANY, N. Y., July 6—(AP)—An oblique effort to draw Wendell L. Willkie into camp moved forward today as supporters of Governor Thomas E. Dewey bid publicly for campaign cooperation from congressional and senatorial candidates.

Although the GOP presidential nominee carefully avoided any appearance of soliciting Willkie's backing, he gave the strategy left-handed approval by including the few 1940 nominees, long-time Willkie enthusiasts, in a list of Massachusetts Republicans invited to confer with him here Monday on campaign plans.

Weeks reached by telephone at his farm retreat in New Hampshire, told this reporter he "hoped" Willkie would support the ticket actively but had no knowledge of the 1940 nominee's political plans.

Dewey insisted there was no significance in the Weeks invitation, but in New York Herbert Brownell, Jr., national chairman, capped this move by naming both Weeks and Ralph C. Cake of Oregon on a 15-member executive committee. Cake was Willkie's campaign manager before the later quit the presidential race after the April Wisconsin primary.

The executive group named by Brownell is headed by J. Russell Sprague, New York national committeeman, who is generally regarded as Dewey's No. 1 strategist. Sprague has been one of the few advisers who has maintained cordial relations with Willkie.

Other executive committee members include Colonel R. B. Creager of Texas.

Sprague has made no secret of the fact that he and others want Willkie actively on their side. They are said to feel, however, that the 1940 nominee is likely to rest his decision on whether he thinks Dewey stands for the principles for which Willkie has been speaking.

Accordingly, they have no plans to offer him any inducement such as a prospective cabinet post, feeling that Willkie would resent any such move.

New Policy Covers City Employees

For the protection of the city and the public, the city commission at a special meeting yesterday approved the purchase of an insurance policy covering bodily injury to patrons of the municipal swimming pool. The policy covers two amounts, \$10,000 and \$20,000.

The commission was scheduled to meet on Independence Day, the regular meeting day, but as a quorum could not be obtained, the meeting was postponed to the following day.

Other business of the commission included approval of the monthly payroll. There were 67 names on the list and payments ranged from \$40 to \$355.

Harry Hopkins Is Back on the Job

WASHINGTON, July 6—(AP)—Harry L. Hopkins has returned to his job as special assistant to President Roosevelt after a six-month illness and convalescence.

"He's back on the job this morning," Presidential Secretary Stephen Early told reporters today.

Hopkins in recent weeks has been recuperating in a government hospital at White Sulphur Springs, W. Va.

House Leader To Head Resolution Sub-Committee

WASHINGTON, July 6—(AP)—House Majority Leader McCormack of Massachusetts was reported today to be the choice to head the resolutions subcommittee that will write the Democratic party platform.

His selection is expected to be announced late today by the Democratic national committee, along with the rest of the subcommittee membership. As head of the subcommittee, McCormack would be in line for chairmanship of the full resolutions committee at the convention opening July 19 at Chicago.

McCormack, now in Massachusetts, is expected to get the subcommittee together in Chicago a few days before the convention opens for preliminary work on the platform.

One of the chief legislative lieutenants of President Roosevelt, the House Democratic leader was offered the resolutions chairmanship after Senator Robert F. Wagner of New York declined it. Wagner had the post at the 1936 and 1940 conventions, but this year he is attending the International Monetary Conference at Bretton Woods, N. H.

Democrats here are talking of putting their platform this year in capsule form, condensing its wording to a minimum. Interest will center in a foreign policy plank, as it did at the Republican convention, with party leaders considering a declaration calling for use of the American army and navy is necessary to halt further aggression in the world and guarantee permanent peace.

Drowning Victims Buried In Columbia

BROWNSVILLE, July 6—(AP)—Two former Brownsville residents, Mr. and Mrs. E. T. Yates, Jr., who drowned in a Columbia lake near Techo Airport Sunday, were buried yesterday at Bogota, Colombia. Burial was in the British-American cemetery at Bogota, following joint services.

Pan American airlines said the bodies were found Monday. Mrs. Yates was a former Lufkin, Tex., resident.

BULLETIN

LONDON, July 6—(AP)—Berlin announced tonight that Marshal Karl Rudolf von Rundstedt, commander of German forces in the west, had been replaced by Marshal von Kluge.

By RICHARD McMURRAY
Associated Press War Editor

The Russian launched a powerful offensive today toward Brest-Litovsk and Pinsk, 70 and 85 miles from Kowel which the Germans said they had abandoned, behind curtains of fire which Moscow reported laid by massed artillery and planes.

More German aerial torpedoes exploded in England today and unbroken streams of Allied planes assaulted the launching sites in Northern France. The RAF hit the Calais area in great strength last night. Other planes bombed the Ruhr. The Germans said planes were striking today in North and South Germany and Austria.

Three More Towns Captured

Three more towns have fallen to Lt. Gen. Omar N. Bradley's foot-logging American infantrymen flanking La Haye du Puits, the Germans' western anchor point in Normandy, supreme headquarters announced, and the French underground army has liberated whole sections of France.

The Americans took Glatigny, four miles southwest of La Haye and Scorman, nearby, in the sector near the west coast, while six miles east of the besieged town they captured La Butte, advancing their lines to the edge of the morass, the Marais de Gorges.

Fighting continued in the streets of La Haye where the Americans had captured the railway station, and heavy battles raged for the wooded high ground to the southeast in the Forest de Mont Castré.

While the supreme command announced that 1,313 square miles of Normandy had been liberated—an average of 43 square miles a day since the invasion—British and Canadians in the Caen sector at the eastern end of the battle line clung doggedly to Carpiquet, three miles west of Caen, and waged a bitter fight for a no-man's-land airfield just to the south.

French Action on Large Scale

Stressing the help being given by French interior troops, the supreme command in a special communique said these forces were engaged in fighting on a large scale against regular German army units.

Areas liberated by the French were named as the district of Vercors, southwest of the Swiss border; part of the Department of Gers, between Bordeaux and Toulouse in Southern France; the Department of Doubs, just west of the Swiss frontier; the Department of Ardeche on the west side of the Rhone valley in Southern France.

Fierce Fighting at Caen

On the Allied left, British and Canadian forces held their ground on the powerful defense perimeter of Caen against violent German counterattacks. The 11 German divisions in and around Caen formed the greatest density of German troops in France, excellent targets for planes and artillery.

American advances below La Haye du Puits carried to within about three miles of Lessay and 15 of Coutances with the "enemy contesting every foot of ground."

Increased German resistance slowed the Italian offensive ten miles south of Livorno (Ighorn), about 28 miles below Florence and about nine below Ancona. The Allies reached Umbertide in the upper Tiber valley. Reichsmarshal Goering was reported in Northern Italy.

On the shattered German central front in Russia, Russian armies charged toward Wilno, 25 to 45 miles away by German and Soviet accounts respectively. Molodezno, where railroads radiate to Minsk, Wilno, Polotsk and Warsaw, fell.

Moscow said the Red army was 140 miles from East Prussia, the cradle of junker militarism, and Berlin said the Soviets were but 122 miles away.

De Gaulle Will Get Military Reception

WASHINGTON, July 6—(AP)—A 17-gun salute was prepared for General Charles de Gaulle of the French National Committee when he arrives in the American capital today.

The White House, announcing that full military honors would be accorded the French leader, said he would reach here from Algiers in the later afternoon.

In addition to the 17-gun military salute at the airport, De Gaulle will be received by the commandants of the United States Army, Navy, Air Force and Marine Corps.

Presidential Secretary Stephen Early outlined to reporters today the agenda for De Gaulle's first day in the capital and stated he would be given a military reception in accord with his military rank.

After the preliminary military greeting at the airport, he will be escorted to the White House for a presidential reception and tea. During his stay in Washington the French leader will be quartered in the Blair House, the government residence reserved for foreign dignitaries.

Early said conferences between Mr. Roosevelt and De Gaulle will begin next Monday.

Men Outnumbered In Seven Cities

WASHINGTON, July 6—(AP)—Texas women folk far outnumber the men among the civilian populations in the seven largest metropolitan centers in the state, according to statistics compiled by the census bureau.

The war has brought population gains to all the large urban areas, with the rate of increase greatest among females. Indications in the armed forces precipitated net losses among the younger men, with decreases heaviest in the 20 to 24-year-old age group. Figures were for 1940 and 1943, and covered all age groups.

Population trends by each area:
Beaumont-Port Arthur Area
 Total in 1943 was 178,088, including 93,436 females and 84,652 males. Total in 1940 was 145,121, including 72,995 females and 72,126 males. The 20-to-24 year old males numbered only 3,990 in 1943, compared with 6,936 in 1940.

Dallas Area
 Total in 1943 was 441,228, including 246,995 females and 194,242 males. Total in 1940 was 396,294, including 206,084 females and 190,180 males. The 20-to-24 year old males numbered 7,353 in 1943 and 16,495 in 1940.

El Paso Metropolitan Area
 Total in 1943 was 134,844, including 74,726 females and 60,118 males. Total in 1940 was 129,605, including 65,926 females and 63,679 males. The 20-to-24 year old males totaled 2,517 in 1943 and 6,135 in 1940.

Fort Worth Area
 Total in 1943 was 268,273, including 147,201 females and 119,072 males. Total in 1940 was 223,429, including 115,127 females and 108,302 males. The 20-to-24 year old males totaled 5,489 in 1943 and 8,906 in 1940.

Galveston Area
 Total in 1943 was 94,016, including 49,180 females and 44,836 males. Total in 1940 was 80,738, including 39,833 females and 40,903 males. The 20-to-24 year old males totaled 3,112 in 1943 and 3,687 in 1940.

Houston Area
 Total in 1943 was 690,068 in 1943, including 322,996 females and 276,072 males. Total in 1940 was 527,321, including 265,559 females and 261,762 males. The 20-to-24 year old males totaled 10,854 in 1943 and 23,104 in 1940.

San Antonio Area
 Total in 1943 was 360,375, including 200,524 females and 159,851 males. Total in 1940 was 334,241, including 167,090 females and 167,151 males. The 20-to-24 year old males numbered 7,215 in 1943 and 18,754 in 1940.

OUR MEN IN SERVICE

(The Pampa News encourages postcards and letters on men and women in service. Identify subject and write plainly, so there will be no chance of error.)

On Furlough
 Pvt. Curtis Phillips is visiting his parents, Mr. and Mrs. Arthur Phillips, and other relatives in White Deer after 18 months' service overseas.

He was inducted into the army on May 17, 1942, and received his basic training at Camp Bowie. From there he went to North Africa for further training, then saw service with a combat engineering corps in both the Sicilian and Italian campaigns. During the Italian campaign, Pvt. Phillips received shrapnel wounds in the back and side and spent three months in a hospital in Naples before returning to the States. He has been awarded the Good Conduct Medal and the Purple Heart.

On Leave
 Ens. Gilbert Tubb, son of E. P. Tubb, of White Deer, is there on a 15-day leave, after which he will report to San Francisco for active service.

After being graduated from the University of Texas last summer, he received his preliminary training at Notre Dame, and has recently completed his advanced training at New London. Ensign Tubb was graduated from White Deer High school in 1939, and received the Venado Blanco Citizenship award that year.

Is Transferred
 Captain O. K. Gaylor, former assistant postmaster in Pampa, and husband of Stella Gaylor, 923 E. Francis, recently was transferred from his station at New Orleans to Camp Reynolds, Penn. He is with the Army Postal Service.

Returns From Pacific
 Sgt. James Calvin Shaw, son of Mr. and Mrs. J. R. Shaw, of Berger, and husband of Madge Lawrence Shaw, returned June 19 from the Pacific where he has spent 18 months.

He enlisted in the Marines Aug. 17, 1942, and was trained at San Diego. In January, 1943, he went overseas.

Sgt. Shaw, 20, has a 30-day furlough before leaving for Chicago where he will take advanced training.

Receives Yank Paper
 Mrs. R. D. Nice, 328 N. Sumner, Monday received the Yank paper, "Stars and Stripes," from her son, Pfc. Raymond Nice, in which a picture of United States soldiers marching through an English town to embark in to German occupied France, was shown. In the picture

Applicant Said Not To Fit the Needs

FORT WORTH, Texas, July 6—(AP)—E. R. Eudaly has been rejected a second time for the position of Texas Extension Director by National Extension Director M. L. Wilson because, Wilson says, the Texan fails to fill the qualifications established for the post by the Department of Agriculture.

That was the explanation given by Wilson in a letter received Monday by President Gibb Gilchrist of Texas A. & M. college and made public by the college's information division.

Wilson's letter to Gilchrist said that foremost among the agriculture department's qualifications for the position was "the ability of the nominee to give unified leadership in the state to the extension service and to receive the united support of all farm people and of the public in general of the cooperative extension program."

A veteran of 21 years in the extension service, Eudaly first was recommended for the directorship last December 11 by the college's board of directors. National extension officials said the recommendation of Eudaly was not satisfactory.

(In Houston, A. & M. college board Chairman F. M. Law said he and Gilchrist planned to confer today regarding the latest rejection of Eudaly by national extension officials following the conference.

Mexican Official Is Seriously Injured

MEXICO CITY, July 6—(AP)—The labor deputy Ubaldo Veloz, representative Coahuila state in the lower House of the Mexican Congress, was in a serious condition in a Ciudad Victoria hospital yesterday after an automobile accident. Officials of the Chamber of Deputies were informed his skull was fractured.

Rules Governing Car Sales Cited

By JAMES MARLOW
WASHINGTON, July 6—(AP)—OPA ceilings on used cars go into effect next Monday, July 10.

They are expected to—and probably will—stop the terrific price rises in that field.

OPA has placed the ceilings at what used cars were selling for in January of this year.

These ceilings are far above what the used cars would be selling for now if there had been no price increases due to the war.

But there will be two kinds of ceilings:

1. The "as is" price. This means what it says: the car sells without a guarantee of any kind.
2. The "warranty" price. Only dealers may sell at warranty prices although dealers may also sell at "as is" prices.

OPA considers as dealers only those car sellers who have normal automobile repair services and facilities. But dealers who can get outside repair work done and thus give guarantees may also sell at "warranty" prices.

The "warranty" price is higher than the "as is" price. But when dealers sell at "warranty" prices they must furnish each buyer with a written guarantee that the car is in good operating condition and will remain so for 30 days or 1,000 miles.

Neither a dealer nor any one else has to give any guarantees with a car sold at an "as is" price.

This is how the two kinds of prices would work.

Say OPA has placed an "as is" ceiling of \$900 on a popular make, 1942 model car. That's the top price which can be charged for it without a guarantee.

But suppose it was a dealer who bought that same car from an individual for the "as is" price of \$600 and wanted to sell it at a profit.

By guaranteeing it for 30 days or 1,000 miles he could add \$100 to the \$600 or he could add 25 percent to the price he paid, \$900, whichever is greater.

So, if he added \$100, he could sell the car for a ceiling price of \$1,000. If he chose to add 25 percent to the \$600 purchase price, he could sell the car for \$1,233.

But whichever price he charged—\$1,000 or \$1,233—that would be what OPA calls the "warranty" price.

Now the dealer could add to the "warranty" price by making certain maximum charges for accessories. For example:

- Ten dollars for any heater; \$30 for any radio; and certain authorized dollar-and-cents amounts for a specific list of built-in equipment, such as over-drive, fluid drive, vacuum transmission, and so forth.

Before buying or selling a car—if

PHOTOGRAPHER CATCHES TRAGEDY

The two newsworthy photographs above were taken by H. A. Jackson, Wilks St., Pampa, a few days ago when a gasoline transport and a trailer truck were in collision on the bridge spanning the Canadian River, Highway 117, three miles north of Borger. William V. Clark, 42, Lipscomb county, driver of the other truck, hauling all field equipment, was killed when he was pinned under his machine. The photo, upper part of which shows the overturned gasoline truck and the lower one, the broken span, was lost for several days, when The News finally found it in a bus station.

New Oil Pool May Have Been Discovered

BARTLESVILLE, Okla., July 6—(AP)—Initial production at its No. 1 McMinn well, five miles south of Tyler, Smith county, Texas, opens what the Phillips Petroleum company says may be an outstanding oil pool.

The company announced yesterday that the first production test of the well, flowing through a one-eighth inch choke from perforations at 9,918 feet, yielded 95 barrels of 40 gravity yellow-green crude oil in 12 1/2 hours with a gas-oil ratio of 2,800 to 1 and a pressure of 4,600 pounds per square inch on the tubing.

The new strike is 20 miles west of the East Texas field, 20 miles southeast of the Van pool and 15 miles south of the Hawkins field.

The firm's announcement said the well is located near the top of the structure on a 13,000 acre block owned by Phillips and added that this geological structure was found by core drilling and seismograph.

"Although the exact area and thickness of the porous oil and gas reservoir can be determined only by the drilling of additional wells," the statement said, "company geologists are confident that McMinn No. 1 has opened up a structure which substantially increases the company's reserves of oil and gas."

—BACK THE FIFTH
BATHTUB ON THE LOOSE
CAWKER CITY, Kans.—(AP)—The tornado that struck the home of Mrs. Herman Koch loosened the bathtub and blew it down stairs. On its way the tub picked up Mrs. Koch. Rescuers found her pinned under the inverted tub, screaming for help, with a fractured collar bone.

Eleven Local Scouts Tour Army Air Field

Eight Cub Scouts and three Boy Scouts from Troop 22 of Pampa made a four-hour tour of Pampa Army Air Field yesterday.

Included in the group were the following: Bobby and John Allford, Richard and Donald Lunsford, Dick Wallace, Byron Byars, James Monroe, Barton Lockhart, Den Chief Kelvin Niel, Dee Wallace and Gaylord Turner.

The youths were under the supervision of Mrs. D. R. Wallace, Den Mother; Mrs. A. B. Lockhart, Mrs. R. L. Allford, Miss Cheryl Dennis, and Miss Elizabeth Lockhart.

Services Are Held For Denman Infant

Funeral services for Beverly Ann Denman, infant daughter of Mr. and Mrs. Thomas C. Denman, 839 Barnes, who died Monday in a local hospital, were conducted by the Rev. E. Douglas Carver, pastor of the First Baptist church, at 11 a. m., Wednesday at the Baby Garden in Fairview cemetery.

Besides the parents, the baby is survived by the grandparents, Mr. and Mrs. J. C. Woodall of Pampa, and Mr. and Mrs. T. A. Denman of Freeport.

Arrangements were by Duenkel-Carmichael Funeral home.

FLETCHER'S CASTORIA NOW ON SALE!

FLETCHER'S CASTORIA—the laxative made especially for children—is now on sale at your druggist's.

Fletcher's Castoria comes to you in a new package with two distinctive features. Look for these features when you buy:

1. The Green Band. Around each package is a brilliant green band. This band will identify for you the fresh stocks of Fletcher's Castoria now on sale.
2. The Serial Control Number. On each new bottle there is a code number plainly visible through a "window" in the package.

What the Serial Control Number means to you

To give you the utmost assurance of the quality and reliability of Fletcher's Castoria, every batch is given thorough, rigid chemical, bacteriological, and biological tests.

The Serial Control Number on each bottle is your guarantee—positive, visible proof—that all these tests have been made.

We believe that this announcement will be welcome news to you and the millions of other mothers who have long used Fletcher's Castoria as the ideal laxative for their children. We think you'll be glad to know that Fletcher's Castoria—safeguarded by extensive laboratory tests—is again available at your druggist's.

The next time your child needs a laxative, get Fletcher's Castoria, the mild, pleasant-tasting, effective laxative made especially for children. The Centaur Company Division, Sterling Drug Inc., Rahway, N. J.

THE MAKERS OF FLETCHER'S CASTORIA

NOTE: Until sufficient stocks can be made available, it may be that your druggist won't have enough Fletcher's Castoria to meet all demands. If he happens to be out of stock when you ask for Fletcher's Castoria, please be patient. He will have it for you shortly.

Miriam Wilson, district clerk, is visiting relatives in Johnson City, Tenn. She left Pampa Sunday.

Miss Dorothy Ruth Marquis of Stratford is visiting Miss Joan

Tantalum Will Play Big Post-War Role

By JAMES D. WHITE

WASHINGTON—When the Foreign Economic Administration announced that there's enough tantalum on hand to meet any likely emergency, and that new sources are being developed around the world, it probably didn't mean much to you. But it does mean very much indeed not only to this war but to the peace to come.

Tantalum is the "new" metal of this war. It's used in radar, for one thing, and metals men say that radar couldn't have been so efficient without it. So the supply is important.

The United States processes tantalum for the rest of the United Nations, but gets 99 percent of it from foreign sources.

Has A 'Personality' Tantalum is a metal with a "personality." It's dull grey stuff, the hue of old silver, half again as heavy as lead. It can be cold-drawn into wire as fine as hair or hammered unbeaten into sheets as thin and pliable as paper. But it won't melt until the

Stroup, 426 N. Cuyler.

Miss Mildred Overall has returned to her home in Houston after a visit with her parents, Mr. and Mrs. H. A. Overall, 431 N. Hazel.

thermometer hits 5,167 degrees Fahrenheit. Tantalum is impervious to nearly all organic acids, and is invaluable in surgery because it does not irritate living tissue.

It does not corrode, and doesn't generate oscillations in radio and radar sets where it is used as a shield in vacuum tubes, it "soaks up" hydrogen and other gases to make the tubes more effective.

For more than a century tantalum was just an oddity in laboratories.

'Son Of Zeus' A Swede named Ekeberg first isolated it in 1803. He had such a tough time doing it that he named it after Tantalus, the son of the Greek god Zeus, whose torments fathered the English word "tantalizing."

A hundred years later it was used for filaments in electric lamps but was replaced by tungsten because of cost.

By the outbreak of World War II, enough new uses for tantalum had been discovered that Germany redeveloped its 2,446-ounce stockpile. The United States, which had developed it further, produced 7,200 pounds annually from its chief source, tantalite.

Now we can produce 120,000 pounds per year of the finished metal and have relatively large stockpiles of ore on hand just in case an attack should happen, say Foreign Economic Administration officials.

Has Many Uses Tantalum also has many uses in the laboratory and factory where great resistance to heat is required. It goes into chemical ware to handle acids which would eat through lesser metals, into high-speed cutting tools, infrared photography and, as a catalyst, in making butadiene for synthetic rubber.

Our abundant supplies have made possible release of tantalum to civilian surgeons. Military surgeons have used it to restore wounded elsewhere might be permanently deformed. Easy to work with, it's considered the best material for surgical plates, screws and wire to repair shattered bones. Apparently it even opens up vast new possibilities in nerve surgery. Living tissue not only isn't repelled by it but in some cases actually appears to adhere to it and grow around it.

Tantalum is not easily come by. It takes 3,000 pounds of rock to yield one pound of tantalite ore, and deposits in this country, except for one in New Mexico, are of poor quality. In 1942 FEA, then the Board of Economic Warfare, started a world-wide hunt to develop sources and steadily has expanded operations since then.

The best ore comes from Brazil. It gets top plane priority to this country. High grade ore comes also by plane from the Belgian Congo, Australia, Uganda and West Africa. There are other deposits, not bearing such rich ore, in Argentina and South Africa.

The present price of finished tantalum may be as high as \$200 per pound, depending upon the grade and form of the metal desired. It is expected to stay there because of growing demand.

Potato Price Plan Goes Into Effect

DALLAS, July 6—(AP)—War Food Administration's potato price support program for the West Texas potato growing area went into effect yesterday instead of July 25, as originally scheduled, says L. J. Capplemann, regional distribution director. The program will operate for 90 days, excluding Sundays and holidays.

Rubber used in everyday articles may be replaced by a new plastic made from cotton and alcohol.

1,000 Mexicans To Be Trained

MEXICO CITY, July 6—(AP)—An offer to employ a thousand young Mexicans and train them as experts in his different enterprises was made by Andrew J. Higgins, the New Orleans naval constructor.

Higgins made the offer through the central offices of the Workers' Confederation of Mexico. This organization was to have its component unions select the workers who were to benefit by the specialized training.

Higgins said that the young Mexicans sent in response to his offer would be organized in industrial communities. They would have at their disposal athletic fields and shops for experimentation and would receive technical training which would capacitate them to hold much better positions upon their return to Mexico and contribute to their country's progress during the post-war period.

The proposal of Higgins was received with enthusiasm by the heads of the Workers' Confederation. In addition to his call upon the labor organization, Higgins visited the offices of the Confederation of Chambers of Industry and to the Ministry of the Interior. He showed Interior Minister Alanran films of some of his industrial enterprises.

Higgins expressed great appreciation for the courtesies extended to him by government officials during his visit to Mexico. He leaves for the United States today.

Two Arrested On Fugitive Warrant

DALLAS, July 6—(AP)—The Dallas Federal Bureau of Investigation office has announced the arrest of persons described as two former convicts on a fugitive warrant charging them with flight to escape prosecution of state charges of kidnapping and robbery in Atlanta, Ga.

D. R. Morley, special FBI agent in charge of the Dallas office, said James M. Kitchens, 31, of Atlanta, was arrested last night in Corpus Christi by Houston FBI agents, and that Walter C. Huff, 20, also of Atlanta, had been arrested by Dallas FBI agents Monday while he was employed in a local garage.

Morley said Huff was being held in lieu of \$25,000 bond after having been charged here before U. S. Commissioner John Davis with the fugitive warrant and that plans were made to return Kitchens to Dallas for questioning in connection with an attack on a Dallas police officer June 28.

Information From Army Ordnance

Major Lynn D. Fargo, veteran of six amphibious landings in North Africa, Sicily, and Italy, recently told how one ingenious machine gunner fixed his Army Ordnance gun so that, on pulling a lever, the gun rose from the bottom of the foxhole to a firing position.

Then he rigged up a spring so he could see without exposing himself. Finally with a piece tied to the trigger, he fired the gun from his snug position at the bottom of the foxhole.

Sixteen distinct Army Ordnance weapons are now being used by U. S. Infantry in France. They are: knife, bayonet, pistol, hand grenade, bazooka, rifle, grenade, Tommy gun, carbine, 60-mm. mortar, automatic rifle, light machine gun, heavy caliber .50 machine gun, 81-mm mortar, 57-mm anti-tank gun, 75-mm howitzer, and the 165-mm howitzer.

A new use has been found for the Army Ordnance Jeep. A British surgeon was recently reported to have inserted a rubber part from a Jeep into the neck of a wounded Comanche so that it would serve as an air tube permitting him to breathe. The Comanche was said to be recovering.

An Army Ordnance 4,000 pound "Blockbuster" bomb costs \$778.

Where a World War I infantry division required 155 motor vehicles and 4,400 horses a World War II division requires 3,500 Army Ordnance vehicles of 100 different types containing approximately 315,000 horsepower and no horses at all.

12 or Less Absentee Ballots Are Cast

Absentee voting in the first Democratic primary of July 22, went into its sixth day today, with less than a dozen absentee ballots cast to date. County Clerk Charlie Thut said his office had received 90 applications from men in the armed forces for ballots, but less than a half-dozen had qualified, since the others had not paid their poll tax.

July 18 is the last day on which an absentee ballot can be voted. Second expense reports of candidates are due to be filed in the period beginning July 9 and ending July 13.

Draftees May Go To Oklahoma City

Gray county draftees called into the army or navy after July 31 will likely go to the Oklahoma City induction station, since the Lubbock station is to be closed on July 31.

Oklahoma City, Dallas, Ft. Bliss, and Ft. San Houston, are the stations named in an Associated Press story as the places where draftees that formerly were processed at Lubbock, will be inducted in the future.

Previously closed were induction stations at Tyler, at Tulsa, Okla., Little Rock, Ark., and Lafayette, La. The Shreveport station will close on July 31, the same date as the Lubbock shut-down.

C. P. Buckler, chairman of the Gray draft board, said there was only one call so far this month for draftees from this county. The number is one-half the total usually sent.

BUT I FORGOT MY CHECK-BOOK—I'LL HANE MY SECRETARY OBTAIN THE CASH FOR ME TOMORROW!

THE ONLY PLEASANT ONCE ON A BARGE

Allied Fire Power in Europe Four Times That of the Enemy

WASHINGTON, July 6—(AP)—The American and British forces are building in Europe a fire-power four times greater than that of the Germans, acting secretary of war Patterson announced today.

Explaining that he was speaking in terms of ammunition rather than numbers of men, Patterson said this tremendous fire power includes everything—small arms, fire, grenade, mortars, artillery, airplane bombs and rockets.

This means, Patterson declared,

"that for every bomb, shell or bullet thrown at us by the Germans, we will give them four."

He said the importance of this cannot be overestimated, adding "as every soldier knows, it is fire-power that wins wars. Fire-power is the killing end of the business."

While he did not use an exact comparison, Patterson said that "the figures for the Pacific will be fully as good." He noted that there had been times "when we have been on the short end, such as at Bataan."

Reviewing the past week of war, Patterson said Allied troops had retained the initiative at the base of the Cherbourg peninsula and penetrated and by-passed the German western anchor point of La Haye du Puits. This, he said, "is initial proof that the Allied forces, having successfully landed in France and having taken Cherbourg, will not be stopped up by German defense tactics."

He emphasized that there was a rising oil supply crisis in Germany. "The care which the enemy must now exercise in the use of oil and gasoline enters into the situation," Patterson pointed out. "One German armored unit which was moved from the east to this battlefield is reported to have taken five days to go from Galicia to eastern France and 14 days from eastern France to the battle area."

Turning to the war with the Japanese, Patterson said that the cost to the enemy for the defense of his positions in the Southwest Pacific as illustrated in the number of enemy dead actually counted by the Allies on the battlefields, a figure which amounts to 21,850 for action in seven areas.

He gave the following tabulation of Japanese dead: at Blak, 3,055; Maffin Bay, 2,849; Hollandia, 3,570; Aitape, 1,109; the Admiralties, 3,793; Noemfof, (where the landings occurred only in recent days), 114; Bougainville, 7,330.

He said these figures did not include Japanese dead elsewhere in New Guinea and New Britain nor those in the central Pacific islands which on Siapan alone now run to more than 7,300.

USO Chairman Will Visit in West Texas

DALLAS, July 6—(AP)—Cities to be visited the week of July 10 by State USO Chairman Dr. Humphrey are Southern Methodist University president, and Dr. W. W. Jackson, San Antonio, USO regional executive, include:

Mineral Wells, Abilene, Sweetwater, Lubbock, Hereford, Amarillo, Childress, Quanah, Wichita Falls, Gainesville and Denton.

The state leaders will discuss improvement of USO services and other matters with the local USO councils.

Post Office Clerks Name New Officers

HOUSTON, July 6—(AP)—New officers of the Texas Federation of Post Office Clerks named in convention here include:

V. G. Streiger, San Antonio, president; J. D. Copeland, Austin, second vice-president; A. R. Harper, Lubbock, fourth vice-president; C. J. Adantwhaise, Port Arthur, fifth vice-president; A. W. Wilder, Corpus Christi, sixth vice-president; Fred O. Brooks, Corsicana, eighth vice-president; Virginia Craver, Austin, secretary.

Legal Notice

CITATION BY PUBLICATION THE STATE OF TEXAS, TO:

J. C. Plant if living and if dead to the known or unknown heirs, executors and administrators of the said J. C. Plant and to the unknown heirs, executors and administrators of the unknown heirs, executors and administrators of J. C. Plant, Deceased; to McDonald Auto Supply Co., Inc., and to the known and unknown officers, directors and stockholders of said corporation and to the unknown officers, directors and stockholders of the unknown officers, directors and stockholders of the said McDonald Auto Supply Company, Inc.

GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of August, A. D., 1944, at or before 10 o'clock A. M., before the Honorable District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 21st day of June, 1944. The file number of said suit being No. 7605.

The names of the parties in said suit are:

S. D. Shelburne as Plaintiff, and

J. C. Plant, H. F. Wilcox Oil and Gas Company, McDonald Auto Supply Company, Inc., and General Motors Acceptance Corporation as Defendants.

The nature of said suit being substantially as follows: That plaintiff is the owner in fee simple title of Lots 16 and 17 in Block 18 in the town of McLean, Gray County, Texas; and that by reason of an Abstract of Judgment in favor of J. C. Plant in the principal sum of \$543.15 and recorded in Vol. 3, page 4 of the Judgment Records of Gray County, Texas; and an abstract of Judgment in favor of H. F. Wilcox Oil and Gas Company rendered in the Justice Court of Potter County, Texas, in the principal sum of \$89.70 and abstracted in Vol. 3, page 111 of the Judgment Records of Gray County, Texas; and an Abstract of Judgment in favor of McDonald Auto Supply Company, Inc. obtained in the County Court of Potter County, Texas, in the amount of \$142.76 and abstracted in Vol. 3, page 105 of the Judgment Records of Gray County, Texas; and an abstract of Judgment in favor of the General Motors Acceptance Corporation taken in the District Court of Potter County, Texas, in the principal sum of \$5,301.22 which said judgment is abstracted in Gray County in Vol. 3, page 158 of the Judgment Records of said county; that each and all of said judgments were taken, obtained and secured against a plaintiff herein who was a defendant in each of said judgments; that said judgments create a cloud upon the title of the above described property; that said judgments are barred by the 10 year Statute of Limitations and are unenforceable; the plaintiff should be quieted in the title to said property, and quieting said title in him and the cost of the suit and such other and further relief both special and general in law and in equity to which he may be justly entitled that such cloud should be removed, for all of which plaintiff prays judgment.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 21st day of June, A. D., 1944.

MIRIAM WILSON, Clerk Court, Gray County, Texas. Pub. June 23, 29, July 6, 13, 1944.

600 Tons of Hay Solve Dust Problem

BIGGS FIELD, Texas, July 6—(AP)—When 600 tons of baled hay rolled into Biggs Field recently on flat land, J. C. Jones looked up and wondered if the cavalry was being moved in.

But the army merely was pushing its efforts to lick the dust storms which foud up airplane engines, hampered work at the base and laid up soldiers with "dust pneumonia."

More than a quarter million dollars has been spent at the field in efforts to solve the dust problem.

Prairie hay is the latest and cheapest solution of the dust menace. Biggs Field looks like harvest time in the desert to bomber crews who taxi along the runways. Bulldozers level the hummocks of sand and mesquite.

How does hay control dust? It's no magic idea, according to army engineers, who say the straw used 30 years ago on truck farms in South east Texas.

First, the ground is levelled to provide a landing area for bombers. They lay it spread. Then a combination cultivator and roller chops the hay into bits and knives it into the sand, with a pneumatic roller packing the hay around the hay.

Grass seed is scattered in the hay. The hay rots, the grass grows, and the desert has a permanent wave of green.

Mechanics and surgeons alike report their work has been made easier. Maintenance work frequently was at a standstill during dust storms of the past; but now airplane mechanics work on as storms pass around the field.

Low Production Wells Get Subsidy

WASHINGTON, July 6—(AP)—Beginning August 1, subsidies will be paid on oil production from certain low-production "stripper" wells, the defense supplies corporation has announced.

Seventy-five cents a barrel, the highest subsidy, will be paid in the Pennsylvania, grade fields (New York, Pennsylvania, Ohio and West Virginia) where production per well averages about one-half barrel a day.

Payment will be 35 cents a barrel for other fields which average less than five barrels a day per well, 25 cents for fields which average more than five but less than seven barrels, and 20 cents where the average is seven or more but less than nine.

CITATION BY PUBLICATION THE STATE OF TEXAS, TO:

Arthur A. Schon

GREETING: You are commanded to appear and answer to the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of August, A. D., 1944, at or before 10 o'clock A. M., before the Honorable District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 21st day of June, 1944. The file number of said suit being No. 7607.

The names of the parties in said suit are:

Ruth Schon as Plaintiff, and

Arthur A. Schon as Defendant.

The nature of said suit being substantially as follows: to-wit: Plaintiff alleges the defendant was guilty of cruel and inhuman treatment toward plaintiff of such nature as to render their further living together insupportable.

Issued this 21st day of June, 1944.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 21st day of June, A. D., 1944.

MIRIAM WILSON, Clerk Court, Gray County, Texas. Pub. June 23, 29, July 6, 13, 1944.

FUNNY BUSINESS

"Come back when you can do it without standing on one hand!"

BOMBS

(Continued from Page 1)

easy over the government's secretary, Churchill said this was his answer to "What are you going to do about it?"

"Everything in human power, and we have never failed yet."

He did not describe the "various methods" being used against the winged bombs, other than air attacks, but he disclosed that a special committee with "a great number of scientists and engineers" at its disposal had been set up to advise on "offensive and defensive" methods of dealing with the bombs. The committee reports to Churchill personally.

Deep shelters hitherto regarded as a reserve now will be brought into use, Churchill said.

The total of deaths Churchill reported would figure at the rate of more than 3,000 monthly—not so heavy as those inflicted by the Luftwaffe at its prime four years ago.

Between 100 and 150 flying bombs have been sent over daily, Churchill reported, but he added that "a very large proportion" failed to reach the channel or were shot down or destroyed by the various methods.

The Prime Minister revealed that flying bomb casualties occurred at a total of about 19,752—2,752 killed and 8,000 wounded badly enough to be confined in hospitals.

The Prime Minister said the British intelligence got its first information early in 1944 that the Germans were developing a long range weapon for the bombardment of London and that counter measures were being studied immediately.

The bomber command sent its full strength against rocket bomb installations in Germany last August, Churchill said.

"Very great damage was done the enemy," he continued, "x x x and a number of key scientists including the head scientists who all are dwelling together in a so-called strength-through-joy establishment were killed."

Churchill said that in addition to children, non-essential civilians who he encouraged to leave London but that all others must remain at posts.

SAIPAN

(Continued from page 1)

yang got powerful support from U. S. bombers which dropped them three tons of ammunition and supplies and bombed Japanese-held Canton to the south. Fires set in this coastal city could be seen for 100 miles.

The enemy had the edge in the Hengyang battle, however, putting the surrounded city under terrific attack from all sides. Chinese said 6,000 Japanese were killed there in the last 10 days, in testimony of the bitter defense.

South of Hengyang China's troops recaptured Lungmoon, 80 miles northeast of Canton. The fighting appeared spreading all over the South China area through which runs the Hankow-Canton railway, covered prize of the Japanese offensive.

In Burma the British captured a village 14 miles west of Mogaung, in the area where Gen. Stilwell expects to build the Ledo Road to China.

Slight Increase in Price of Cabbages

WASHINGTON, July 6—(AP)—Cabbage will cost slightly more throughout the country the remainder of this summer under revised price schedules approved today by the Office of Price Administration.

The new ceilings effective July 10, will remain in effect through September.

Retail prices in the highest priced stores will be about 5.6 cents per pound in the south-eastern states, 5.2 cents in the south, central and western states, and 4.7 cents elsewhere.

The new ceiling, for sales to any wholesale receiving point, in the west Texas area, is 3.3 cents per pound.

In the Coast Guard, flying officers are designated "aviators," and enlisted men "pilots."

Special Training Plan Submitted

AUSTIN, Texas, July 6—(AP)—J. G. Flowers, president of Southwest Texas State Teachers college, San Marcos, presented to the state board of control yesterday a plan for the special training of teachers in eleemosynary schools.

Dr. Flowers proposed a specialized field of education to enable teachers to deal with the mentally and physically handicapped, the socially maladjusted boy and girl, and the dependent, neglected orphan.

The course of study would include sociology, psychology mental hygiene and a period of internship or practice teaching, said Dr. Flowers, and an attempt to recruit teachers of superior training and experience will be made.

There are approximately 4,000 children now in the eleemosynary institutions of the state who will be benefited by such teachers.

Use of Pipelines To Carry Gas Suggested

NEW YORK, July 6—(AP)—A proposal that the 24-inch and 20-inch emergency pipe lines be used after the war to move natural gas from Texas to the New York-New Jersey-Philadelphia area has been made by Sidney A. Swensrud, vice-president of the Standard Oil Co. (Ohio).

Swensrud said the eastern area "contains the heaviest concentration of population in the United States and is not now served with natural gas," he added.

"Because of the extensive tanker construction program and our marked success in combatting submarines, it appears probable that at the end of the war we may have a surplus instead of a shortage of tankers."

"If this surplus should develop, then there is considerable doubt that these lines would continue to be used for moving crude petroleum or petroleum products to the East Coast."

Writing in the summer issue of the Harvard Business Review, Swensrud concluded that gas marketed through the lines would amount to only 3 to 4 per cent of total natural gas consumption in the United States at present and that there would appear to be adequate supplies available for the lines.

Back the Fifth

ANTHONY, Kans.—(AP)—The wrist watch that Pvt. Alva Jackson lost while disembarking in Australia will be waiting for him at his home here when he returns from the war. The Australian who found the watch turned it over to the Red Cross; the Red Cross sent it to the manufacturer in America and the manufacturer traced it to the jobber, through the serial number. The jobber in turn traced the watch to the retail dealer whose records showed Jackson was the purchaser.

—BACK THE FIFTH—

In the search for rubber, nearly 2,000 varieties of plants found in this hemisphere have been tested.

Card Hurler Rates Among Top All-Stars

By JACK HAND Associated Press Sports Writer All-Stars have a habit of going sour when their names are called for "dream game" duty but the 1944 crop today showed signs of ignoring the pre-game jitters and carrying on business as usual.

George Mauer, Stan Musial, Ray Mueller, Connie Ryan, Dixie Walker, Joe Medwick and Mel Ott of the National league cast and Paul "Dizzy" Trout and Dutch Leonard of the American stood out in yesterday's major league games.

As the St. Louis Cardinals whipped the New York Giants, 4-1, in a night game, Mauer upped his win record to 11-2 and Musial clubbed a double and single, pulling to within two points of Dixie Walker's league-leading average by boosting his mark to .370.

The only "Giant" run was scored by Ott who "dusted" and was driven home by Medwick. Mauer is slated to go into the service the day of the all-star fray. Rookie Swede Hansen was the New York leader.

Mueller tied the National league record set by George Gibson of Pittsburgh in 1909 when he caught his 133rd consecutive game for Cincinnati as the Reds season. The Cincinnati "iron man" had one of his club's eight hits off Ed Head who was charged with the loss.

Ed Heusser allowed only three Brooklyn singles, one by Walker to maintain his batting lead.

Ryan was the hitting star of Boston's 7-2 verdict over Chicago with four singles in five at bats but Jim Tobin, who failed to make the all-stars, retired the first 10 Cubs in order and allowed only one hit in seven innings although he wound up with a seven-hitter and the nod over Paul Erickson.

Dick "Kewpie" Barrett of the Phils started too late to make the big game but settled for two victories in the same afternoon over Pittsburgh, hurling the last inning to complete a "suspended" game from May 21 with a 9-4 edge and then handing the Pirates' Ray Starr his first defeat, 12-3 in the regular game.

As a result Cincinnati look over second place. Trout joined the 10-win club as Detroit stopped Boston 8-1 with Emmett O'Neill taking the loss and Washington's Leonard baffled Chicago, 3-1, in a night game.

Dietrich, making his third start in six days, fisted again in his quest for his 10th triumph.

George Costello of the Browns stopped Philadelphia in three innings and came through with a chuck and the bases loaded in the ninth to earn a 4-2 nod.

Batting for Navy

Apprentice Seaman Dick Bartell, left, and Quartermaster 2/c Glenn Wright, former major league shortstop, choose up sides at Farragut, Ida., Naval Training Station.

Veteran Jimmy Foxx Retired by Chicubs

CHICAGO, July 6.—After more than 18 years of major league service, Jimmy Foxx has been removed from the Chicago Cubs active playing list—but he will remain as a coach and bull-pen catcher.

Foxx, three times the American league's most valuable player with Philadelphia and Boston, returned to the Cubs this season after a year's layoff but he has seen little service. In 19 times at bat, Foxx, who has a lifetime batting average of .328, got one hit for a .053 average.

The Cubs made the move to make room for Japhet (Red) Lynn, a pitcher with Los Angeles last year but a holdout until recently.

Pampa Oilers Set For Fourth Game Against Dodgers

Rain checks issued to fans at the last Pampa Oiler game, played last Sunday and called in the third with the score 0-0, when a deluge struck Roadrunner park will be good for any other Oiler game this season.

The Oilers will play their fourth game of the season against the Amarillo Dodgers at 3 p. m. Sunday at Roadrunner park. Two wins and one loss has then the Oiler record in the games played thus far against the Potter county nine.

Toots Takes Tops At Pecos Rodeo

PECOS, July 6.—Toots Mansfield of Big Spring, won top money in the annual Pecos rodeo which ended Wednesday night. His take was \$568.

Other winners included Jack Skipworth, Clovis, N. M., second, \$271; and Troy Fort, Lovington, N. M., third, \$441.

Event winners included: Cutting horse contest—Miss Fern Sawyer, Crossroads, N. M., riding Belin.

Calf-roping finals—Skipworth, 32.1, (two calves); N. A. Pitcock, Aspermont, 34-1.

Team riding—John Merck, Sonora, and Max Hedges, Fort Stockton.

Sports Roundup

By HUGH FULLERTON, JR. NEW YORK, July 6.—After watching some of the recent Red Cross tennis matches at Forest Hills—and one veteran observer claimed it was the best tennis he had seen in ten years—this dept. reached the conclusion that what tennis needs is a Ray Dumont... That doesn't mean we want the racketeers to run the wrong way after hitting the ball; they do that often enough, anyway... But a few fresh ideas and some professional promotion would make it a better show and attract more spectators... As a starter, how about a professional version of the Davis cup competition after the war? Maybe Lex Thompson, who sunk enough dough in a pro tour to deserve some sort of a memento, could be persuaded to put up a trophy.

ONE-MINUTE SPORTS PAGE The Reds claim Ray Mueller tied George Gibson's "iron man" record by catching his 133rd consecutive game yesterday, but the 1909 Pirate Roadrunner not only got a six-months rest in the middle of his string but he caught 122 games before he was relieved for even one inning... Bobby McLean, the ice cream and one-time speed skating champ, likes golf better than skating. A guy isn't so likely to fall and bust a couple of ribs on the golf course... Phil Bloom, who fought Benny Leonard eight times (six no decision, two wins) and George Levine, who had two losing clashes with Pete Latzo, are in the acting business in Hollywood and currently appear in "The Hairly Ape."

OBJECTION SUSTAINED Marines at Parris Island, S. C., like to tell about the ball game some time ago when Maj. Gen. E. P. Moses, now retired, was commanding officer... On a close play at first, the non-com umpire called the runner out and the general stepped out of the stands and reversed the decision... The ump started to walk off the field in protest and Moses summoned him back and congratulated him on his stand.

Willie Pep Fights Hammerin' Hank's Conqueror Friday

CHICAGO, July 6.—(AP)—Willie Pep, whose only defeat in 74 professional bouts was by Lightweight Sammy Amott, looks upon his 10-round bout here tomorrow night with Willie Joyce as the beginning of a campaign to annex the lightweight crown.

The Hartford, Conn., lad, recognized as world featherweight champion in New York, thinks his speed and boxing skill will carry him through against Joyce, two-time conqueror of Hammerin' Henry Armstrong and one of the toughest little men in the business.

"Sure, I hope to move into the lightweight class and try to win the title," he said. "Why not?" Pep, now only 22, won his feather crown from Chalky Wright, then emphasized his standing in the boxing fraternity by whipping Sal Barolo, the NBA-recognized titlist.

In Joyce, 26-year-old former Golden Glove champ from Gary, Ind., Pep will meet a brawler extremely fast and a splendid boxer who will outweigh him by about five pounds. Joyce has posted a guarantee that he will come in at 134 pounds—five less than he weighed in winning a split decision from Armstrong here recently.

Pep probably will weigh 129 or less.

BUTTON, BUTTON MILES CITY, Mont.—Frank Smith bent down to pick up a button, but he dropped it hastily. The button was attached to seven rattles, and the seven rattles were attached to a rattlesnake.

Birdmen To Tangle With Hereford Nine

Pampa Fliers will clash with the soldiers' team at the prisoner of war camp at 2:30 Sunday on the Hereford diamond.

The probable batting order for the Fliers follows: Gullfoyle, shortstop; Knehl, second base; Macone, third base; Henry, first base; Flehl, right field; O'Bannon, left field; Walker, center field; Kimbro, catcher; Reis, pitcher.

BACK THE FIFTH Airtrancos Win SW Semi-Pro Crown EL PASO, July 6.—(AP)—The Camp Luna, N. Mex., Airtrancos today held the championship of the Southwestern Semi-Pro Baseball tournament following a 6-0 victory over the Hobbs, N. Mex., army air field team at Dudley field.

The Airtrancos from Las Vegas ended the tourney with five wins and no losses. They held two victories over Hobbs, the only losses Hobbs suffered as against four wins.

BACK THE FIFTH \$2,000,000 Left To Rice Institute HOUSTON, Texas, July 6.—(AP)—William M. Rice, Jr., Houston philanthropist who died June 26, left Rice Institute an estimated \$2,000,000, according to his will filed for probate here.

Chairman of Rice's board of trustees and a nephew and namesake of the founder of the institute, Rice died at 86.

BACK THE FIFTH Mileage ration identification stamps should be placed on left hand side window thus facilitating checking when gas is purchased and eliminating front-view obstruction.

Lord Nelson, Jug Teamed in Golden Valley Tournament

MINNEAPOLIS, Minn., July 6.—(AP)—Those two little monopolists, Jug McSpaden and Byron Nelson, who between them have won eight of 13 golf tournaments in seven months, were heavily favored today to win the Golden Valley invitational team championship.

The second annual best-ball tournament at Harry Cooper's home course began today and will continue through Sunday with a total of 126 holes of competition—making the meet the season's marathon of the links. The winning team will split a first prize of \$1,600 in war bonds and the second place duo will receive \$1,200. The awards scale down to \$200 for eighth place.

Scoring for the eight-team, round-robin tournament is based on a plus-minus system for match play. An 18-hole round launched the competition today, with 36-holes being played Friday, Saturday and Sunday.

The McSpaden-Nelson combine drew Pvt. Chick Harbert and Mike Turnesa as first round opponents, while Sam Byrd-Johnny Revolta met Jimmy Hiles-Willie Goggin; Bill Kaiser-Bob Hamilton faced the Minneapolis pair of Joe Coria-Les Bolstad and Lieut. Ben Hogan-Toney Penna went against Cooper-Ellisworth Vines.

BACK THE FIFTH BE PREPARED LOS ANGELES—In case of further invasions, at least one regular is ready. From a store window display he stole a commando outfit—uniform, helmet, rifle and knife.

Six Games on Tap Tonight in City Softball Circuits

Double-headers will be played in all three of the city softball leagues tonight as the result of the July 4 holidays lay-off.

In the girls league, the feature will be an inter-church game between the First Baptist Senior and First Baptist Junior teams while in the same loop the other half of the double-header will be First Christian vs. First Methodist Junior.

The Harrah Dodgers tackle the strong Calvary Baptist aggregation and Central Baptist will vie with Assembly of God in the boys junior loop.

In the boys senior league, Holy Souls Crusaders, who haven't been active thus far in the season, will tangle with First Methodist, and Presbyterian will engage McCullough Methodist.

Texan Stars In LSU Summer Grid Drill

BATON ROUGE, La., July 6.—(AP)—The passing prowess of Y. A. Tittle, freshman tailback from Marshall, was praised by Coach Bernie Moore of Louisiana State University's football team which had its first heavy summer scrimmage under the arc lights.

Tittle's aerial artistry was the high spot of the offensive play throughout the scrimmage.

Moore said that summer practice would be climaxed by two or three more scrimmages before July 15. Fall practice begins August 21.

BACK THE FIFTH GOV. DAVIS HAILED AS ANTI-RAIN GOD HOMER, La.—(AP)—Louisiana's Gov. James H. Davis, author of "You Are My Sunshine," has been "dedicated" by a two-and-a-half-year-old Sunday school student.

Taught in class that "God made it rain," and, in review, asked "Who made the sun shine?" young G. W. Zachery, Jr., promptly answered: "Jimmie Davis!"

Million Fans See Games, Bouts, Races

NEW YORK, July 6.—(AP)—More than 1,100,000 sports fans—1,102,192 to be exact—pushed their way into baseball parks and race tracks over the three-day July 4 holiday. This is an increase of 184,219 over the 917,973 spectators who turned out during the three-day Memorial day holiday.

Led by a two-day turnout of 346,828 for 16 major league doubleheaders a total of 993,411 paid their way into the ball parks of the American and National leagues as well as those of the five top minor circuits, the American association, International, Pacific coast, Eastern and Southern association. Other thousands attended games in the Class B Pony, Interstate and Piedmont loops.

Turf followers to the number of 608,781 flocked into race tracks over the three-day span, betting an aggregate of \$2,850,000, an increase of \$2,715,689 over the \$22,234,311 tossed into the parimutuel machines Memorial day.

Other thousands of sports hungry fans saw fights in New York, Los Angeles, Galveston, Chicago, Baltimore and Newark, N. J. Still more attended the people's regatta on the Schuylkill river in Philadelphia and the Red Cross tennis exhibition matches at Forest Hills.

Yesterday's betting at the country's race tracks—\$8,947,344 by 199,418 persons—was the second largest on record. It is topped only by the \$10,326,027 wagered Memorial day.

THIS BEACHHEAD IS BIG ENOUGH FOR ALL OF US

RIGHT NOW, while you are reading this, men are dying—American men, giving their lives to establish beachheads from which they can sweep on to Victory.

That's *their* duty—to smash the Nazis and the Japs, and all they represent, once and for all—to make this a better world to live in—for *you*. And they never stop to ask the cost.

You're an American—you have a duty, too! Here's *your* chance to do your share—to fight by their side on every bitter beachhead in the world. The 5th War Loan is on—the biggest Drive for Dollars

in all history. You *know* how you can help: BUY WAR BONDS WITH EVERY DOLLAR YOU HAVE! Now is the time to buy *extra* Bonds—as many as you can.

If you are already buying Bonds on a payroll savings plan, whoever you are, whatever you do, ask yourself this question: "What did I do today that some mother's son should die for me tonight?" Then *double* the Bonds you bought before—make them *know* you're with them! And not next week or next month, but **NOW**, when every bullet and every dollar counts **MOST!**

And Here Are 5 MORE Reasons for Buying EXTRA Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Back the Attack! - BUY MORE THAN BEFORE

Market Briefs

NEW YORK WALL STREET
 NEW YORK July 5.—Under the leadership of U. S. Steel the stock market today continued to advance on a wide front, with dealings topping 2,000,000 shares.

Gains in pivotal industrial and rails in the final hour ranged from fractions to around 2 points, and prices on average were at the highest mark since October, 1937.

Big steel set the pattern for the bullish surge with a 5,000 share opening transaction at 42, up a full point. Other steels, motors, rails, gold mines and specialties moved along with the leader in the early proceedings and after a brief recession the advance was renewed with coppers, communications, air transports, and industrial blue chips as added starters.

Transactions for the five hours were the largest since June 16 at approximately 2,400,000 shares.

U. S. Steel at its best was up nearly 2. Sizeable gains also went to Republic, Crucible, Chrysler, Willys-Overland, U. S. Rubber, Olive Farm, American Can, Johns-Manville, Anaconda, American Smelting, Kennecott, Atlantic Coast Line, M. K. T., Great Northern, Dome Mines and Homestake.

CLARE BOOTHE AT CHICAGO

Clare Boothe Luce gestures gracefully as she addresses convention delegates on the second night of the GOP convention. (NEA Telephoto.)

Allred Says Jones Makes Case Clear

HOUSTON, Tex., July 6.—(AP)—Former Gov. James V. Allred, a leader of Texas' pro-Roosevelt Democrats, when asked to comment on the editorial by Secretary of Commerce Jesse Jones on the split in the state's Democratic ranks, said: "I am glad Mr. Jones made this statement because the people generally do not understand that unless this situation is changed they will have an opportunity to vote for the Democratic nominees."

"I think Mr. Jones has stated the case very clearly. No one disputes the right of anybody to oppose principles or persons but once the majority has spoken in the national convention, Texas Democrats should have the right to vote for the nominees of their party."

"Mr. Jones also clearly stated the proposition that these people (the leaders of the regular state convention in Austin) are trying to put the will of the minority ahead of the will of the majority."

Eminent Minister Seriously Ill

DALLAS, July 6.—(AP)—Dr. George W. Truett, internationally-known Baptist pastor of the First Baptist church here for almost 47 years, is critically ill, his daughter, Mrs. Robert Milliken of Dallas, announced.

The 77-year-old pastor, who has been in ill health for a year, is suffering from heart trouble and complications, Mrs. Milliken stated.

Dr. Truett, long prominent in Baptist circles of the nation, tendered his resignation to the Dallas church last month but members unanimously declined to accept it. The church voted, instead, to give him the assistance of an associate pastor.

Illness has kept Dr. Truett from the pulpit since July 1943.

Labor, Freight Car Shortage Hindrances

CHICAGO, July 6.—(AP)—There is insufficient labor to unload cars of wheat as fast as they arrive at southwestern terminals and the congestion is contributing to the already acute shortage of box cars, J. J. Mahoney, superintendent of transportation for the Santa Fe railway, reported.

Mahoney said government agencies were attempting to obtain soldiers held at the crowded terminals and the permission already had been granted for an increase in wage rates for elevator and mill workers unloading the grain.

"At the 15 terminal and sub-terminal points in our big wheat territory we have 2,384 loaded cars awaiting disposition today," he said. "Yesterday 500 cars were unloaded and 736 were in transit to those points. On our Oklahoma division we are holding 344 loaded wheat cars out of the Enid terminal to avoid blocking the yards. On the Panhandle division we are holding out 280 more loaded cars."

On the Panhandle and Plains divisions 61 elevators are closed because of the car shortage. There are 155,000 bushels of wheat piled on the ground on the Panhandle division and 1,110,000 on the plains division.

Besides the labor shortage, Mahoney said, the invasion of France had increased the need for cars on the Eastern seaboard.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers, relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

Don't kidneys are Nature's chief way of taking the excess acids and wastes out of the blood. They help most people pass about 13 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
