HOUSTON, July 5—(AP)—"The Democrats of Texas will insist upon their right to vote for the man of their choice for the high office of president in the November election," Secreary of Commerce Jesse Jones asserted today in a signed page one e torial in the Houston Chronical which he publishes.

"No political convention has the authority to deny a qualified voter the right to vote for any candidate he wishes to support, and as it appears today, Texas Democrats may be effectively prevented from cast-ing their vote for the party nominee," Jones stated.

Jones referred to the action of

the regular state convention in Austin May 23 in refusing to bind its electors to support the party's presidential and vice-presidential nominees unless certain conditions were met by the national convention in Chicago. Jones said that "the situation

Why No Ceiling Price Is Needed On Electricity

No, you won't find a ceiling price listed for Electricity because your powerful electric servant has been operating under ceiling prices for years.

Electricity has never been lower in price than it is today, so you wouldn't want to roll back electric prices to the higher levels of bygone years. If you are an average residential customer; you are getting twice as much electricity today as you did 10 or 15 years ago, for the same amount of money.

Chances are you have added many new time and work-saving appliances and improved your lighting as rates were reduced. So you are probably using much more electricity than you did 10 or 15 years ago. Yet your monthly bill is little if any more than it was then.

Construction Of

Churches Inviting

DALLAS, July 5—(P) — Church construction is being revolutionized to make services more dignified and to bring more families to the church for recreation and social life, says Elbert M. Conever of the Interdenominational Bureau of Church Architecture, New York.

Addressing the Texas pastors' school being held at Southern Methodist University, Conover said yesterday that church members have pushed a trend toward wer-ship halls designed with platform and altar to accommodate a normal attendance and buildings that may include an assembly room with stage equipped with a motion picture machine.

Rep. Hatton W. Sumners (D-Texas), another speaker, said America must return to the fundamental laws of God and nature "if its people are to have a prac-tical and successful democracy." -BACK THE FIFTH-

The CIO has its huge slush fund for political action, and is boasting that it is ready to spend much of it in Texas to defeat some of our patriotic congressmen.

But the Regular Democrats stand fearlessly on their anti-strike platform before the electorate of Texas. he Regular Democrats demand that the creation of additional boards, bureaus and commissions by our federal government should stop; that present overlapping boards be bolished; and that an adequate and untrammeled review of the findings and decrees of such boards, bureaus and commissions be provided by the legally constituted courts.

(A letter to the S. F. Examiner) To the Editor: Sir-I read in the paper of strikes here and there all over the United States. One group strikes for \$80 a week and another group strikes for a forty-

We love country and what it stands for and the way of life in America We joined to do our share to preserve that way of life, for ourselves and for the people still safe at home. I want all you strikers to

get that I said OUR SHARE. I want to say this: we guys in the service will keep on fighting until we either win this war or are defeated. Some of us are coming back without arms, legs, eyes, faces, and in some cases sanity, BUT Mac, we are coming back!

You strikers here can keep us out at the front another six months or a year and more of us will be wounded, and without legs just so you can have a few extra dollars to spend on Scotch on Saturday nights, but Mac, WE'RE COMING

NEW DEAL TAX PLANS

(The Chicago Tribune)
Secretary of the Treasury Morgenthau told the reporters in Chicago on Monday that he could see little likelihood of a major revision in the federal tax system in the early post-war years. He vaguely suggested some minor modification to encourage investment capital but quickly added that he wasn't holding out the hope that taxes would be reduced rapidly. We have been forewarned that if Roosevelt is elected to another term the war taxes may be expected to go on pretty much as they are.

It is well not to underestimate the significance of Mr. Morgenthau's remarks. At present the tax rate The Regular Democrats of Texas on the profits of corporations runs are accepting the gage of battle thrown down by the bolting element that no company shall pay more come. Thus, if a company made a million dollars the government, under excess profits taxes, could take all but \$200,000. If all the profits were paid out to the sort of man of means who in the past has supplied the risk capital to new business enterprises the tax on the \$200,000

The proposal was in-dorsed by Prof. Thomas S. Adams of Yale, who had acted as the expert of the treasury department under several secretaries. Dr. Adams pointed out that at the rates then prevailing men would taxed at a rate five times as living record. high as experts after the last war believed the maximum for healthy

In taxation of such severity, and in particular in taxation which rests upon those who as ume business risks, lies the doom for progress in private enterfollowed by expansion in government employment and made work. Cutting the tax rates on income derived from business and the elimination of double taxation ought to be included in all post-war plans to create more jobs.

But tax reduction would help employment little without a radical change in the country's thinking about Government expenditures and national debt

Such a change will come about when a majority of voters realize that government has nothing to give any citizen which it does take from some or all the other citizens. It cannot add to the national income; it only subtracts from it what is required to maintain its employees, who do not raise food, make clothing or build houses-unless the Government takes over industries doing these things and ousts them from their fields. We think it is still muddled even when they add that they are using "1940 dollars" or any such yardstick. Dollar national income may be shrunk or distended by the price-wage factor, which does not necessarily produce more things for use when it adds billions to the dollars of so-called na-

What we shall need for full employment when war is no longer the great employer is not any particular level of prices or dollar national income, but a price-wage structure within which prices and wage rates are so related among themselves that our people of all occupations can meet one another marketwise and freely exchange their wares and services. people. I'm no big shot, but folks envy me, even

at that, for keeping this car like an heirloom. Oh,

some say that any good motor oil would largely

do the trick, and they're welcome to believe it.

I simply say this: Keeping my engine

OIL-PLATED ever since I switched to

Conoco Nth motor oil, has helped me

beat the curse of engine acids. I got

wise that acids from combustion always

try to corrode an engine's inside finish, but

OIL-PLATING furnishes special protection. A syn-

thetic in Conoco Nth oil, I've learned, behaves

almost like magnetism. This makes the working parts attract OIL-PLATING, and hold on to it. It's

fastened as closely as chrome plating to keep

metal under cover from acids. That would certainly be a check on corrosion, from the

minute you switch to an OIL-PLATED engine.

So just get Conoco Nth motor oil.

Fourth of July At Mexico City

MEXICO CITY, July 5-(A)-An official ceremony commemorating the Fourth of July was held before the monument to George Washington in this city. It was presided over by Assistant Minister of Education Tomas Sanchez Hernandez. Several officials of the U.S. embassey were present as well as high Mexican of-flicals and hundreds of school child-ren, who placed wreaths of flowers before the monument.

Is Celebrated

Javier Perez Verdia, in represen-tation of the education ministry, made an address to the gathering in which he extolled the virtues of Washington and Jefferson and the solidarity of Mexicans and north Americans in defense of the cause of liberty.

President Avila Camacho sent a ordial message to President Roosevelt on the occasion of the Fourth of July. In it ne said:

"I take pleasure in reiterating Mexico's firm determination to continue participating in the great cause of human betterment and in-ternational rectitude for which the north American armies are fighting so heroically together with those of the United Nations In the name of the people and government of Mexiour fervent prayers for the constant good fortune of our sister republic and for the personal well-being of your execellency, to whom I herewith renew the assurance of my personal esteem and sincere regard."

Civilian Beirays Fleeing Larry Allen

By LARRY ALLEN ent, Recently Repatriated from a German Prison Camp). AP Features.

Italy capitulated on September 8 after my return to the Chieti prison camp, and senior American and British officers interned there decided that, with Nazis swarming through the country, the wisest policy would be to sit tight and await the arrival of Allied troops.

Five days later, Nazi armor streamed into the high prison gates. Italian garrison troops donned white jackets and said the camp was a hospital. The Germans said they just wanted to look around.
All that night the entire Italian

garison of 900 soldiers, fearing de-portation to Germany for forced labor, deserted. They placed bedslat ladders against the 20-foot walls clambered up while sentinels threw away their rifles and extended help-ing hands. Guards, posted to prevent the prison guards from fleeing joined the exodus. On Sept. 23, the Nazis took over

Chieti and moved the entire camp Hitler asserted this war was not to nearby Sulmona. The first night
