

ASK POLICE STRIKES SUMATRA

BABY BORN ABOARD LST BOAT

Aboard a LST carrying refugees from Anzio to Naples, Pharmacist Mate Anthony Savarese holds the baby he delivered. Mother (on a stretcher) and baby, named George, arrived in Naples in excellent health.—(USN Photo via OWI Radio from NEA Telephoto).

Texas Woman Runs Gantlet to Freedom

DALLAS, April 19.—(AP)—A tanned and titan-haired army nurse, second Lt. Ava Ann Maness, was taking it easy at her Bonham, Texas, home today after four months of dodging Nazis in German-held Albania.

Guarantee Of Post-War Oil Supply Asked

WASHINGTON, April 20.—(AP)—Congressional investigators today called upon the administration to seek the cooperation of American oil interests in its efforts to guarantee a postwar supply of gasoline and fuel oil for the nation.

Chairman Maloney (D-Conn.) of the senate's petroleum policy committee told reporters that the "grave and far-reaching" effect of oil on the future security called for " candid and open-minded cooperation" of government and industry.

With public hearings scheduled to open early in May when interior secretary Harold I. Ickes will tell his story of the need for a 1,250-mile Saudi-Arabian pipeline, Maloney made it clear that:

1. Congress will write its own oil policy rather than "formalize by legislation a policy previously determined by others."
2. Secretary of State Hull and the heads of other departments have given the committee assurance "congress will be fully consulted in advance of final commitments," including any decision to go ahead with the pipeline from Persian gulf area to the Mediterranean.
3. The committee is aware that the determination of a petroleum policy involves "understandings, arrangements or agreements with other countries," with possible broad influence on foreign policy.

20 Persons Hurt In Harbor Accident

BALTIMORE, April 20.—(AP)—At least 20 persons were injured, several of them seriously, when a small inland freighter rammed a crowded ferry boat in fog-bound Baltimore harbor today.

Officials of the Bethlehem-Fairfield Shipyard, Inc., where the injured were taken, reported that of the 20 hurt, three had broken backs. A number of others were cut by flying glass.

The freighter plowed between 15 and 20 feet into the side of the ferry, which was jammed with workers on their way to their jobs at the Bethlehem-Fairfield and Marland Drydock Company Shipyards.

WEATHER FORECAST

WEST TEXAS: Partly cloudy this afternoon and tonight; Friday mostly cloudy with scattered showers; slightly warmer tonight. Increasing winds Friday.

Convict Gets His Freedom, But Now He May Lose Life!

By S. BURTON HEATH
NEA Staff Correspondent
KENTON, O., April 20—This is a story about another convict who studied law in the penitentiary and got himself released by court order. But it has an O. Henryish twist because the outboard convict was met in the bullpen by a sheriff with a warrant, and in theory, at least, he has exchanged a life sentence for the possibility of the electric chair.

The convict's name is Richard Knight. He is not the New York lawyer who stood on his head in full dress at the Metropolitan Opera and later was disharred. He is a farmer truck driver who 10 years ago was put in the Ohio State penitentiary for taking part in a three-man holdup murder.

I have talked with Knight through the bars of a cell in the Harbin County jail here. I have no idea whether or not he is guilty of murder. But I did come away convinced that here was a poorly educated young man who, in surroundings that might have broken him, succeeded in finding himself and increasing his moral stature.

In Trouble Again
He was sent to the penitentiary

A prison door was slammed in the face of Richard Knight when he thought he was on his way to freedom.

for life on a plea recorded as "guilty with recommendation for mercy." The man convicted of the actual shooting also got life, while a third participant turned state's evidence and now is on parole.

Knight says he came from Los Angeles, has a wife whom he has seen only twice in 10 years, and two children. In 1934 he went to work in Lima, and soon afterward the murder was committed. Knight was picked up in Lincoln, Neb., brought to Kenton, and tried as an accessory to the man who actually shot a storekeeper.

Soon after Knight entered prison on a "bunch of wise guys were making smart remarks," he said. "We had it out. I went before a summary court August 17, 1934, then deputy warden, asked me what had happened, and I told him. Then he talked to me.

"He straightened me out on a lot of things and gave me something to think about. I found that everybody wasn't against me, and I started to behave myself. A fellow inmate had some law books which he let Knight study until authorities took them away. Soon after Pearl Harbor he was one of the first to join what became the nucleus of a military training cadre. By competitive examination he worked up to senior color sergeant. This he had access to an Army field manual which contained forms used in military courts martial.

Paraphrasing and adapting these, he prepared an application for a writ of habeas corpus, a subpoena for official records and an affidavit of indigency, which he filed by selling for \$5 the radio he had bought with pennies earned by making novelties. Counsel was assigned by the court, and Knight won his release. The appeals court held that Knight had been imprisoned for 10 years on a plea which does not exist in law!

"I expected to be free. I had the idea I would be able to go into the Army. But when I got to the bull pen there was the sheriff waiting with a warrant, and

here I am."

Prosecutor Rex W. Hanna has obtained court permission to correct the record and make Knight's plea a simple "guilty." W. B. Price, an attorney who has taken an interest in him, has applied to have Knight freed on the ground that he has illegally been held more than two court terms without being tried. If that fails, he will argue that Knight can not be tried again without being twice placed in jeopardy. If that doesn't work, Mr. Price contends that, on the plea of "guilty," it is the court's duty to empanel a three-judge court to determine the degree of Knight's guilt. But Price then will seek to withdraw the plea of guilty, and have his client stand trial.

Theoretically, as I have said, Knight could be convicted at the electric chair. That seems improbable, in view of the fact that the actual killer escaped capital punishment.

"Maybe I should have every reason to be bitter," said Knight, "but I'm not. I hold no animosity toward anyone.

"As a kid, I was the fourth of five children. I stuttered. (He doesn't now.) I was always getting blamed for what others did, and couldn't speak fast enough to clear myself. Then, after a while, my temper would explode. I got a bad name. I built up a tendency to want to retaliate when things went wrong. I've fought that tendency, and I've won."

FOOD for Action

On the Production Front

The second line of defense is health and healthy workers contribute more to the production line. There is no "absenteeism" for a man that gets all his vitamins daily. Uncle Sam's nutrition chart of the basic seven food essentials is a guide to correct diet. Note that milk is an important part of it.

D-E-E-LICIOUS!

THE BETTER SPREAD FOR OUR DAILY BREAD

Count Ten before you use THAT GAS RATION COUPON

Your most important business, and ours, is to help win the war. And one of the major Allied weapons in military action on every front is *oil*.

That is why your government asks you to do two things:

1. Endorse the face of every coupon in your possession.
 2. Use the gasoline you buy for essential driving only.
- The simple truth is... and we pledge you this upon our good name... that the supply of gasoline for civilian use is short. Every day brings ever-increasing need for gasoline and oil for planes, tanks, jeeps, PT-boats, and landing

barges... for petroleum products used in synthetic rubber, explosives, and other war chemicals.

When you endorse your gas ration coupons, you do your part to help smash the black market which sells gasoline, that your soldier son needs, to people who use it for their own pleasure.

Remember, if every car-owner saves only one gallon of gasoline a week, the national saving will total at least 85,000,000 gallons a month.

As a major producer of butadiene (the chief ingredient in synthetic rubber) and 100-octane aviation gasoline, we publish this message as a contribution to the general understanding of the current gasoline situation.

Care for your car—For your country
PHILLIPS PETROLEUM CO., Bartlesville, Okla.

FOR VICTORY... Buy U. S. War Bonds and Stamps

Oil Production Discussed Today

AUSTIN, Texas, April 20.—(AP)—A production pattern for Texas' 1944-45 oil and gas wells for May was scheduled for discussion today at a statewide production hearing before the railroad commission.

PROPAGANDA

(Continued from Page 1) the following suggestions: satisfaction that the proposed development bank will be able to supply capital to countries which have at once the greatest need and the greatest difficulty in securing capital.

Mainly About Pampa And Her Neighbor Towns

Pampa operators of all types of commercial motor vehicles were reminded today by the regional director of the Office of Defense Transportation that they are still required to have their tires inspected periodically under OPA orders although the OPA has lifted the requirement for passenger tire inspection, effective April 20.

'Rag Man' Coming Back to His Own

AUSTIN, Texas, April 20.—(AP)—"Rags, rags, any rags today?" The familiar cry of the old peddler is now a war-time appeal from the government.

WOMAN

(Continued from Page 1) needed steady nerves in her flight across Albania. Once she and her two companions were only minutes ahead of the Germans. Another time they crossed a mountain range during a snowstorm.

News From Miami

MIAMI—Judge Mead, war bond chairman of Roberts county, reported the county over its April quota before the assignment was received. The quota was \$4,400.00.

Full of Pep at 75!

Jim Bob Carter of Los Angeles is visiting his sister, Mrs. M. M. Craig, Jr. Mrs. Tenney Atkins arrived Monday from Dallas for a visit with her mother, Mrs. C. S. Selber.

MUSICIANS

(Continued from Page 1) alto saxophone; Billy Jack Davis, and Hood, Pierson, Chisum, Shackelford, all of Pampa, French horn; Bill Reeves, McLean, trumpet; Fred Wall, White Deer, Bonnie June Disney, Banham, and Spearman, entry name not listed, trombone.

Local C. of C. Secretary Will Attend Meeting

Garnet Reeves, Pampa Chamber of Commerce secretary, will attend the annual meeting of the West Texas Chamber of Commerce Managers association to be held in Amarillo tomorrow week-end.

John A. Daly Dies at 63

John A. Daly, 63, retired drilling contractor, and father-in-law of District Attorney Walter E. Rogers, died at 7 a. m. today of a heart attack at the Rogers residence, 1206 N. Russell, where he had made his home.

Congress Must Keep Control Of Prices, Wages, But How?

By JAMES MARLOW and GEORGE ZELKE
 WASHINGTON, April 20—(AP)—Congress has a bear by the tail. It almost certainly won't let go. Not altogether.

The OPA and government controls over rationing of prices, rents and wages stem from a law which expires June 30. It is the law to keep living costs steady.

Congress now is engaged in determining whether to renew the law. It is unlikely that the law will not be renewed in some way.

Without controls—when things to buy are scarce and money is plentiful—there'd be a free-for-all. But renewed how? If price ceilings are lifted, some businessmen might sign with relief, but labor would scream. If wages are permitted to rise, business would scream.

Labor has taken its stand before the senate banking committee which is considering legislation to renew the law. Labor wants price controls continued.

Also, labor says prices already have risen out of line with wages, and so it wants wages upped.

This is not a new cry from labor. Labor has been fighting for increases for months, and this is the way it reasons:

The government's Bureau of Labor Statistics (BLS) monthly compiles a living cost index. The index says living costs have risen 23 per cent since January, 1941.

The War Labor Board (WLB) which controls wages has taken that index as a measuring stick for keeping wages in line with living costs.

About 18 months ago—when living costs were only 17 per cent higher than January, 1941—the WLB laid down this rule: Wages could be raised 15 per cent over what they were January, 1941, but no more.

It has stuck to that policy—called the "little steel" formula—because the WLB was dealing with steelworkers' demands at the time—although the BLS index shows living costs now are 23 per cent higher than January, 1941.

Labor snickers at the index, calls the WLB halter on wages the "big steel" formula, and says living costs are really 43 1/2 per cent higher than January 1, 1941, and that therefore wages should go up that high.

The index is based on the prices of selected commodities in 34 large cities. Labor says the method of selection is wrong, that the 34 cities don't truly reflect the general rise in prices.

Labor says this specifically: The index fails to take into consideration the increased cost to workers

of goods which have deteriorated in quality and that workers spend more when they have to buy more expensive items because of the disappearance of cheaper lines.

And labor adds this point: The index is compiled now as it was before the war when comparatively few Americans had to pay income taxes. Now most of them pay. Therefore, labor says, taxes should be considered in the index.

But along comes the National Industrial Conference board, an independent New York Research agency supported by business and labor, and says the BLS index is wrong because it is too high and that labor's figure—a 43 1/2 per cent increase—is way too high.

The one trouble in searching for agreement among people who make up a living cost index is that no two groups will arrive at the same answer. They use different methods, get different results.

Committee Suggests 4-F's Be Used For Non-Combat Service

WASHINGTON, April 20—(AP)—Complaining of "a conspicuous absence" of planned effort to direct qualified 4-F's into essential work, the House Military committee recommended today that men rejected for full military service be inducted for non-combat duty if they fail to seek essential war work.

The committee approved a recommendation of a special subcommittee headed by Representative Castello (D-Calif.) that no new legislation be enacted at this time dealing with the 63,500,000 men Class 4-F—rejected for service because of disabilities. Existing law, the committee said, provides ample authority for handling such men through administrative procedure.

The committee made these specific recommendations:

That selective service reclassify 4-F's into groups doing essential work that are not in essential jobs.

That selective service and the War Manpower commission publish a list of occupations which would entitle a 4-F to be reclassified into 2-AF or 2-BP (occupational deferment).

The 4-F's in approved jobs notify their local draft boards and receive a certificate of approval before changing jobs.

That 4-F's not in approved jobs notify their draft boards of willingness to take such jobs.

That failure of a registrant to notify his draft board of willingness to do essential work shall subject him to induction.

That men refusing to take essential work when it is available, be inducted immediately for assignment to non-combat duty, and not be charged against the combat strength of the army and the navy.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys
 If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of your blood. They filter most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. Then you may start noticing backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there's something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills

R. L. Tompleton to Try for Rep. 122d District

R. L. Tompleton, of Wellington, announced his candidacy for Representative of the 122nd Legislative District this week. Tompleton, who is a veteran of the early air battles in Europe and who was given a medical discharge from the R. A. F. after 16 raids over Germany, set forth his views in the following straight-forward statement:

"My platform is simply that I will do my best to be a good representative. If elected I will carry out the duties of my office as my conscience and my desire to obey the will of the people tell me. I have no radical ideas. I will not be influenced by pressure groups or self-seeking office holders nor will I allow prejudice or party loyalty to influence me against my better judgment. I hope to be elected on my own merits.

My primary interests are for the farmer, cattleman, and ordinary businessman because they are the people I know and understand best. I propose to do my best to be of service to every legitimate business organization in my district, whether it be big or small; I want to help the new as well as the old industries in Texas. Great steps such as in aviation and shipbuilding developments have shifted thriving industries to Texas; we must do what we can to keep them here. I believe in helping and improving the welfare and interests of farmers but at the same time I am a firm believer in the industrial development of this great state.

I favor less government control from Washington especially in matters of agriculture because I believe if there is to be any control at all over farmers it should be handled locally by people familiar with local circumstances and not by bureaucrats in Washington who are too far removed from the immediate problems of our farmers.

As for old age pensions, my grandmother gets a pension and through her I have been able to see how much that little income means to all lonely old people like her. The independence and security she gets from that pension is the city bright spot in her lonely life. I am not one to make glowing promises that I might not be able to fulfill, so I will only say this: you can depend on me to support old age pensions.

I believe my experience on the battle front together with my life-long association with the men of this district qualifies me for the job of representing the interests of all the men in the armed services until the conclusion of this conflict, and especially in matters concerning their rehabilitation upon returning home. I have fought and bled and suffered, been homesick and hungry in the trenches, and some of our boys are right now. After two years away from home, one year of which was spent on the battle front, I had to experience rehabilitation to civilian life without any help. I am fully aware of the problems returning men will have to face. It is my hope that I can do what is needed to help them profit from my experience. In matters of injuries or losses of loved ones my heart has suffered as much as any. My nineteen-year-old younger brother was killed only twenty miles from where I lay in a hospital bed in England, but my condition was such that it was twenty-two days before I was notified of my brother's death.

Many fine young men of this district have already given their lives; others have sacrificed their health, and still more have endured long suffering in prisoner of war camps. Most of them are boys I have known all of my life. Grievous losses still lie ahead for many families and friends of ours. These unfortunate losses we cannot avoid. We can make steps to see that the boys are treated right when they come home. It will be our job to welcome them with a country worthy of the sacrifices they have made for us."

R. L. Tompleton is the son of the late Judge R. H. Tompleton and Mrs. Little Tompleton of Wellington. He is the grandson of Newton Creamer, founder of the Farmers Union of America, and is named after his uncle, the late Hon. R. L. Tompleton, former State Representative of this district and first Judge of the 100th Judicial District of Texas.

He has been interested in military preparedness for this country since he was sixteen. At that age he enrolled in the Citizens Military Training Camp at Ft. Sill, Oklahoma, and voluntarily reported for military training during the summers of '36, '37, '38.

Born and raised in the same home that is now his residence, he spent his early life, outside of college and military duties, in Wellington, graduating from Wellington High School in 1937. At that time he entered the University of Texas where he completed two years of academic study before entering the Law School.

He withdrew from Law School in 1940 to enter the U. S. Army Air Corps, voluntarily postponing his education because he could see that war would sooner or later come to this country. After receiving his appointment for pilot training, Tompleton reported to California to begin his training as a Flying Cadet but the Army found his flying unsatisfactory and he was given an Honorable Discharge from the U. S. Army Air Corps in November, 1940.

R. L. Tompleton could see that the war would eventually engulf the United States and he was determined to be ready to do his part. He and his younger brother,

Pat Tompleton, enlisted in the Royal Canadian Air Force for training as pilots. R. L. joined the R. C. A. F. because the U. S. Air Corps had rejected him, and Pat joined because he was too young to fly in the U. S. Air Corps. The two brothers won their wings in the R. C. A. F., graduating as pilots in November, 1941 and both asked to be sent into the thick of the fighting.

They met in England in March 1942. Pat served as a combat flying instructor and R. L. participated in 16 raids over Germany with the Royal Air Force, which were made before the American Air Force arrived in England. In September 1942 Pat was killed when the bomber he was flying crashed in flames. At that time R. L. was in a hospital due to injuries in a flying accident. Due to his condition he was not notified of his brother's death for 22 days. Later he was given a medical discharge and sent home and was granted a pension from the British Government.

Since his discharge, R. L. Tompleton worked for a year as an instructor and engineer at the North American Aircraft Plant in Dallas. Although handicapped physically, he feels that he has many long years of useful service in front of him which he would like to devote to the same people and the same country for which he once risked his life.

Poll Tax, It Is Ruled, Is a Head Tax for Revenue

AUSTIN, Texas, April 20—(AP)—The attorney general's department reminded yesterday in an opinion that the poll tax is a head tax levied and collected for revenue purposes.

Nowhere does the law predicate liability for the tax upon the question whether the person against whom it is levied is a qualified voter, the opinion added.

The specific question answered in the affirmative by the opinion, sought by Criminal District Attorney John R. Shook of Bexar county, was whether the tax should be collected after January 31 of each year.

It concluded: "x x x the tax collector is not only authorized but it is his duty to collect poll tax from every person between the ages of 21 and 60 years, not otherwise specifically exempt under the statutes, residents of his county on the first day of January preceding the due date of October 1 whether paid before February 1.

Senator Seeks Return of Land

WASHINGTON, April 20—(AP)—Return by the navy of 532 acres of oil land near Moore, Okla., to its former owners will be sought by Senator Thomas (D-Okla.) in a rider to the new \$35,000,000 navy appropriation bill.

The navy condemned the land for an auxiliary airfield, but decided not to use it for that purpose when a large oil well came

in nearby, indicating existence of a considerable field in the area. The former owners now want it back, but the navy is holding it. Thomas declared in an interview, despite a recommendation by Navy Secretary Knox that the land be returned.

The navy paid \$46,341.80 for the land, and spent \$150,000 on the field, "and the farmers are ready to reimburse the navy for the full amount," Thomas said.

A comprehensive bill has been introduced in the house by Rep. Vinson (D-Ga.) to cover such situations. Thomas said, and the navy reported favorably on the measure, sending it to the budget bureau for clearance.

Thomas was advised by the bureau that the navy recently requested that the matter be held up

because the navy is not sure its viewpoint was correctly expressed. "Someone who wants to take advantage of the situation for speculative purposes is holding this up," Thomas asserted. "I'm not going to see this develop into another Elk Hills scandal—converted into a navy oil reserve and leased to a private company for exploration."

Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of egg production as they enter fowls in feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little! Money back if not satisfactory. CRETNEYS

Penney's Anniversary

1902-1944

NEIGHBORLY FOR FORTY-TWO YEARS

A STORE gives its best service when it is also a good friend and neighbor to its customers.

It was in this spirit that Mr. Penney started his first little store in Kemmerer, Wyoming, 42 years ago this month.

All these years, we have steadfastly tried to be good neighbors, and, in turn, our customers have shown us the warm friendly regard that neighbors bestow on those they like and trust. All these years, their confidence and good-will has remained undisturbed.

The thrifty homemakers who shop at Penney's know they can depend on us for the things they need, in the dependable qualities they must have, at prices that are right.

Double Duty Dresses 7.90

Beloved, Easy-to-Wear Classics and Suit-Dresses in Rayon Spuns, Shantung, Jerseys, Sheers

Low-cost plan that insures a well-dressed look all summer! Clean-lined classics, highlighted with embroidered pockets, comfortably pretty necklines, hip-diminishing skirts, gently softened blouses. Browns And Giants Top Major Loops

By JACK HAND

Associated Press Sports Writer
Don't look now, but the New York Giants and the St. Louis Browns are hiding up on top of the major leagues, where you'd never look for them.

The won and lost records operate with the devastating effect of a runaway elevator at this stage of the game but you can't blame managers Mel Ott and Luke Sewell for having fun while it lasts.

As the clubs go into a slim six-game schedule today preceding Friday's second openers, excellent pitching efforts by Ewald Fyle and Bill Voiselle of the Giants, and Steve Sundra and Jack Kramer of the Browns, make them the only unbeaten teams who have won two starts.

It took a boost from the boss in the form of Mel Ott's 464th major league home run to put over Lyle's bid for his first National League victory after a disappointing trial in the American. Ott's early clutch after George Hausmann walked, gave the New Yorkers their 2-1 edge on Boston, although Jim Johnson and Walt Dubiel, were beaten 3-1, had only Rudy York's homer to thank for missing a shut-out but it was York's 1000th big league hit, if that can be any consolation.

Sundra gave the Browns their second in a row with a three-hit effort against Detroit. The Tigers, beaten 3-1, had only Rudy York's homer to thank for missing a shut-out but it was York's 1000th big league hit, if that can be any consolation.

While Ott and Sewell are enjoying a spot of sunshine, the New York Yankees ran into trouble when two promising rookies, Johnny Johnson and Walt Dubiel, were beaten as the champs dropped both ends of a Patriots' day doubleheader in Boston, 6-1 and 5-2. Emmett O'Neil outpitched Dubiel, a Newark graduate, before 13,650 in the afternoon after George (Pinky) Woods had beaten Johnson in the morning with 3,276 watching. Jim labor won the second game with a homer and celebrated with three hits.

Orval Grove got the Chicago White Sox off on the right foot with a 2-1 verdict over the Cleveland Indians in a delayed opening game that drew 5,705 fans. Guy Curtright and Leroy Schalk paced the Sox attack against their 1943 "jinx man," Al Smith.

A base on balls to Gil English by Deacon Donahue, Phil rookie hurler from Utica, N. Y., proved his undoing as Paul Wagner came through with a pinch hit single to give the Brooklyn Dodgers a 5-4 verdict in the tenth. Donahue pitched only the tenth after the Phils tied it in the ninth.

Cincinnati got another top-notch pitching effort and made it count for a win as Elmer Riddle duplicated Walters' opening day three-single performance but topped it with one vital change. He won from Chicago, 2-1.

Attendance dipped sharply as usual after the opening day enthusiasm, with the seven contests drawing 34,575 paying customers. The Philadelphia at Washington game was postponed and Pittsburgh and the St. Louis Cardinals were unscheduled.

NATIONAL 3-MINUTE OATS
A NATURAL WHOLE GRAIN CEREAL

Sports Roundup

By HUGH FULLERTON, JR.

PHILADELPHIA, April 20—(AP)—Professional football had its counterpart to Tiny Maxwell's college referee, in Jim Durfee of Columbus, O., whose officiating helped establish the National League and whose memory still is fresh in the minds of the circuit's best yarn-spinners. Here are a couple of the tales that have been rehashed in the past few days:

DECISION RESERVED

It was during a game between those bitter Ohio rivals, Canton and Massillon, and the game was nearing its end when the visiting club moved down near the goal line. . . . The spectators crowded around the field and when a visiting back flung a long pass across the field, the man who caught it disappeared into the throng as he stepped across the goal line. . . . A moment later he came flying out again, minus the ball, his headgear and most of his jersey and when the ball finally was located it was well out on the field and in possession of a home player. . . . Durfee, the referee, surveyed the scene and announced: "The decision will be rendered in my hotel tomorrow morning." And without waiting for the end of the game he left the field.

PROTEST OVERRULED

Another difficult decision that Durfee had to call came in a big league game when a halfback faded to throw a pass and was grabbed by a huge lineman from the other side. . . . The big fellow slung the little one over his shoulder and was carrying him toward his own goal when the passer calmly tossed the ball down to the ground. . . . It was ruled an incomplete pass but the Giants' Steve Owen, who tells the yarn in the role of offended coach, protested to Durfee. . . . "Why didn't you penalize them for intentionally grounding a pass, Jim?" Steve demanded. . . . "Why, Steve," Durfee replied blandly, "I was looking but boy straight in the eye and I saw no sign of intent."

MISPLACED SYMPATHY

After Glenn Cunningham, former world mile record holder, entered the arena for a pre-induction physical examination. . . . The doctor looked at the fire-starred legs that had carried Cunningham to the fame as a runner and asked sympathetically: "Do you have any trouble getting around?" . . . And Glenn managed to keep his face perfectly straight as he answered, "No."

4-F Makes Rosy Grid Prospects For Razorbacks

FAVETTEVILLE, Ark., April 20—(AP)—In these times when most coaches can't anticipate whether their teams will be carrying football or going on to the Saturday afternoon there comes word that the 4-F classification has made things pretty stable at the University of Arkansas.

Yes, Arkansas has few worries for 1944 unless there's a marked change in the draft situation. Coach Glen Rose wound up spring training with 13 lettermen from last season, not to mention three squadmen, who will be around for sure when the referee's whistle sounds in September.

Those fellows, including Coach Rose, either are 4-F or have army discharges.

Thus it is that Arkansas expects to figure pretty well in Southwest conference circles next fall. In recent normal times when they got all the football players in these parts, the Razorbacks didn't fare so well as last season when they won their first conference game in some three years. Now they're expecting to do a lot better.

Lettermen scheduled to return are Earl Wheeler and Carl Lee Jackson, center; Leon Pense, center-guard-tackle; Bob Cope and Henry Ford, guards; Jim Young and Charles Johnson, tackles; William Brown, guard or tackle; Alton Baldwin, Roxie Rankin and Lamar Dingler, ends; Ben Jones, end or back; and Marvin Lindsey, back.

Squadmen expected to be back are Thomas King, tackle or guard; Melvin McGaha, end, and Jo Centeno, back.

Of the 25 men who went through spring training, 18 are either 4-F, have discharges or are deferred.

Rose would make no predictions as to what his Razorbacks would do next fall. "Having only recently returned from the army, I lack the necessary information to form an opinion on probable stars for next year," he said.

The cause of the sinking of the Maine never has been discovered. Ernest Poole's "His Family" won the first Pulitzer prize in letters.

Connie Mack Selects All-Stars Active Before Turn of Century

By CHIP ROYAL

PHILADELPHIA—Connie Mack probably has seen more major league players than any other living baseball man. But when it comes to selecting all-star teams, the great manager of the Athletics has always avoided the issue—up to now. "You just can't pick out a man and say he is the best in 50 years," smiles Connie. "It isn't fair to all

FIRST OF A SERIES

the others. I think all-star teams should be selected every decade." Okay, Mr. Mack, you name the best men you saw before 1900 and let Honus Wagner take it from 1900-10; Tris Speaker, 1910-20; Bill McKechnie, 1920-30; and Joe McCarthy from 1930 to Pearl Harbor.

"Well," answers Connie, "I'll start with Buck Ewing of the New York Giants and Charley Bennett of the old Detroit Nationals, two of the greatest catchers who ever lived. "For pitchers you can't beat Cy Young, Cleveland's immortal ace; John Clarkson of the Chicago White Stockings and Tim Keefe of the Giants.

Tenney on First Base
"My first baseman would have to be Fred Tenney of the Boston Nationals who started in as a left-handed catcher. He was more up to date in his time than any man I ever saw. "Nap Lajoie of Cleveland never had an equal at second base. Herman Long of the Boston club on short, and his teammate of those three-time world champions, Billy Nash, at third, complete my infield.

CONNIE MACK

"There was no livelier, wide-awake and aggressive infielder than Hughie Duffy of Detroit, and he would make a perfect utility man."

In the outfield, my first choice would be Hughie Duffy, whose batting record of .438 in 1894 never has been beaten. On either side of the magnificent Boston centerfielder, I would like to have Ed Delehanty, that great outlier of the Phils, and his fellow outfielder, Sam Thompson.

Sliding Billy Hamilton, also of the Phils, one of the greatest baserunners we have known, is my utility outfielder.

Ewing, Greatest Catcher
Now, let's review Mr. Mack's "team." Baseball record books say: "Buck Ewing was the greatest left-round player that ever put on a mask. As a handler of pitchers, there were few better men in the country. "Charley Bennett was a veritable stone wall behind the bat. He could throw to second like a rifle

Tommy Hitchcock Killed in Plane Crash in England

NEW YORK, April 20—(AP)—Lieut. Col. Thomas (Tommy) Hitchcock, Jr., 44, internationally famous as one of the greatest polo players of all time, has been killed in an airplane crash in England where he commanded a P-51 Mustang fighter group.

A spokesman for the family said the crash occurred at Salisbury, England, Tuesday, during a routine flight, not in combat.

Horned Frogs Revive Track, Tennis, Golf

FORT WORTH, April 20—Limited conference competition in track, tennis and golf, and an independent throughout the summer, may appear to be upon the program of spring sports at Texas Christian university.

"No spring sports" was the report from Horned Frogs athletic authorities a few weeks ago. Then a group of men began to work out for track on a volunteer basis. Soon the golfers and the tennis players got the fever.

Eye Poppers

By NEA Service

EVANSTON—Irving McCaffery, assigned to service a navy fighter plane on a South Pacific island, was given the thrill of his life.

"I had just finished the job," says Radar Technician McCaffery, in a letter to the Wildcat News, "when the pilot walked up and turned out to be Lt. Ike Kepford. He is with the 5th and Cross Bombs squadron in five consecutive seasons, a record.

"Tim Keefe was one of the great pitchers of the New York Giants. His record of allowing only three hits in a double-header has never been equaled. He also won 19 straight in one season, a feat equaled only by Rube Marquard.

"The national game has had few better first basemen than Fred Tenney. No man has positioned on him when it comes to quick thinking and quick action. His wizardry around the bag was uncanny, and his hitting was tops.

"Great, grand, superb and a lot of other superlatives have been tossed at Nap Lajoie, but he was even better word than can describe. He hit better than 370 for 10 consecutive years.

And so it goes right down Connie's list—Long, Nash, Jennings, Duffy, Delehanty, Thompson and Hamilton. They were the greats of their days. Some of them left records that will take a long time to erase from the books. Truly an all-star team par excellence.

NEXT: Honus Wagner selects the all-star team of the 1900-1910 era.

Texas Seen As Repeater In Southwest Football

By HAROLD V. RATLIFF

Spring training developed satisfactory guards and tackles and center play was pretty good. There were several backfield "finds," including Bruce Scott and Al Martin, basketball lettermen from California, who is a naval trainee. Two reserve full-backs, Jerry Owens and Raul Perez, will be back. Perez is a V-12 and Owens is under draft age. Scott may be lost to the service.

Most heavily bolstered position is tackle, with big Harlan Wetz and Jimmy Plyer of the 1943 team leading the way, while Phil Bolin and Jim Kishi, lettermen, are prospective guards.

Returning to Memorial stadium next season will be a couple of men who helped Bible to his first Southwest conference title at Texas in 1942—Guard Harold Fischer and Center Jack Sachse.

Fischer and Sachse were at Southwest university in the marine training program last fall but they're slated to be back with the Orange Wave when the first whistle blows.

There also are Ralph Ellsworth, all-conference halfback now with the track squad; Meredith Roberts, former freshman star; Sandy Crow, 1943 wingman, and Bobby Layne, sensational Dallas freshman who is pitching varsity baseball.

Ellsworth got an appointment to the U. S. Naval academy but may not accept. And if he doesn't, the starting Texas backfield next fall looks like Ellsworth, Layne, Roberts and Fischer.

Snog of Practicality

Woodrow Wilson went to the peace conference of 1919 as the world's most popular President.

Today there seems to be the germ of a similar difficulty in a Puerto Rican self-government bill.

The self-government bill was drafted by a committee, including several Puerto Ricans.

When the bill emerged from Senate discussion, however, dripping with amendments, it was evident that the upper house had not written the Atlantic Charter.

The Atlantic Charter, of course, is not a treaty. But the practical application of it is to be made by the House Committee with or without the Senate amendments.

Reports from Hungary, by way of Switzerland, indicate a surprising resistance to German invasion.

Though organized army resistance has ceased, many soldiers and civilians have reported that they are not deserting.

For its own sake, the War Production Board should call upon Senator McCarran for the names of the members he accuses.

The Norman die is lying unrepentant in a Brooklyn shipyard and reports in marine circles say she will never be in war time service.

The House naval affairs committee which investigated the fire that wrecked the Normandie in February, 1932, reported it was caused by carelessness.

The Nevada Senator takes up in turn these four items of potential savings and makes a pretty good case for his contention that they would not be realized to any extent commensurate with the loss to the war effort.

Common Ground

"I speak the plain-word primer, I give the sign of democracy, by God I will give the sign of peace."

This column has been attempting to do a dirty, nasty, mean-disagreeable job. It has been attempting to get people to discard all beliefs which interfere with man's natural rights.

Just as one cannot build a solid structure without first clearing away the debris from the site on which the structure is to be erected, so we cannot build a solid social structure until we clear away the social and political errors which are out of harmony with principles.

Our unemployment, our inability to pay government costs, our rationing—all our government interference—is a result of people not understanding the difference between truth and fiction—between promises and reality.

It is an unpleasant job to be obliged constantly to point out errors that affect so many people. But since laws and customs depend upon the beliefs held by the people, it is imperative that these beliefs be in harmony with truth.

Often when these errors are pointed out it offends people. They misconstrue the motive. It would be much more pleasant to compliment them and pat them on the back and see them smile or have them return a compliment or a bouquet.

But if one sees the house burning because of the rubbish, if he does not attempt to clear it up, the house will not live peacefully with itself.

When the bill emerged from Senate discussion, however, dripping with amendments, it was evident that the upper house had not written the Atlantic Charter.

The Atlantic Charter, of course, is not a treaty. But the practical application of it is to be made by the House Committee with or without the Senate amendments.

Reports from Hungary, by way of Switzerland, indicate a surprising resistance to German invasion.

Though organized army resistance has ceased, many soldiers and civilians have reported that they are not deserting.

For its own sake, the War Production Board should call upon Senator McCarran for the names of the members he accuses.

The Nevada Senator takes up in turn these four items of potential savings and makes a pretty good case for his contention that they would not be realized to any extent commensurate with the loss to the war effort.

Around Hollywood

By ERSKINE JOHNSON

Paul Hesse has improved that old Chinese proverb about a picture being worth a thousand words. "A color picture," says he, "is worth 10,000."

In his plush Hollywood studio, which looks like an M-G-M film set, Paul Hesse's camera blinks at a parade of Hollywood glamor queens, cover girls, babies, socialites, shipyard welders and model posing for everything from underwear deodorant advertisements to cigarettes.

Hesse looks more like a Hollywood teacher than a photographer. He's on the dapper side, graying hair, a tan face, charm, a wide smile and kidding, and I like to let the camera pick up the colors.

His marriage, though, to his favorite model, Elise Knox, lasted only a year. "People in Hollywood," he says, "are too independent. They don't lean on each other. They both want careers."

Hesse always works with a radio or phonograph turned on. It sets a mood, and the subjects can't hear the click of the camera. At some times he serves champagne to his subjects to get a "little extra sparkle."

The level-headed censor rarely looks his subject over. He is the hand-some and debonair oil driller from Oklahoma—Patrick J. Hurley.

The Trading with the Enemy Act, written as a catch-all during World War I, prohibits sending any kind of communication to an enemy alien, including amatory epistles. In practical procedure it has never been enforced in the case of apparently innocent missives such as Miss Killens penned.

The general impression here is that her husband was given out in an attempt to smear her for expressing herself so forcefully against New Deal tax legislation.

When mail directed to an Axis citizen or subject reaches the post office, it is sent to the Office of Censorship. In all instances the message is supposed to be kept secret unless it should be necessary to use it to obtain an indictment or a conviction. In this case there was apparently no need for such a procedure.

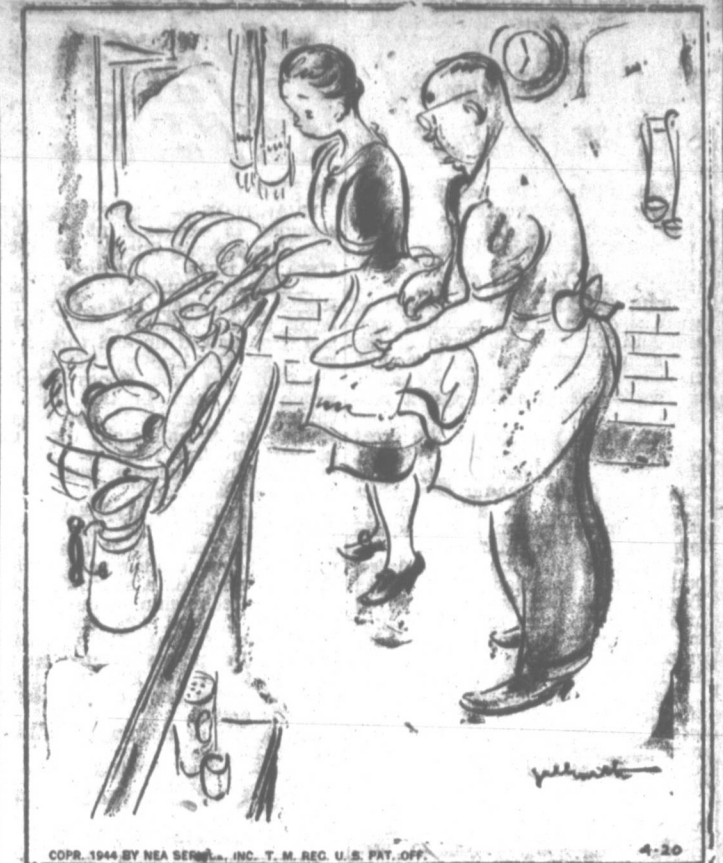

REVOLT—Senator Byrd, a Democrat, is giving only an outside chance, especially in view of the possibility that he might not accept the offer. But if widespread demands for a seating should materialize, he would be the ideal choice.

HE would be a "natural," perhaps, if anti-New Dealers demonstrate the extent of their regime in the southern and border states. It is believed that his nomination would aid the G.O.P. from Oklahoma to Maryland.

Mr. Johnson, president of the Chamber of Commerce of the United States, is not looked on favorably. Although more liberal than all his predecessors, the Republicans cannot afford to take a man from this citadel of business and industry to be done by a staff paid directly into the hands of opposition rabble-rousers.

Humanities are only a fruit every day because the body does not store vitamin C.

SIDE GLANCES

"Well, when the war's over, if we do have help again I hope we'll have sense enough to go on living our own lives and not go back to living for the help!"

The National Whirligig News Behind The News

BY RAY TRUCKER

SMEAR—BYRON PRICE has determined to put an end to the peddling of private mail intercepts at the American border under suspicion that it may be destined for enemy hands.

The Trading with the Enemy Act, written as a catch-all during World War I, prohibits sending any kind of communication to an enemy alien, including amatory epistles. In practical procedure it has never been enforced in the case of apparently innocent missives such as Miss Killens penned.

The general impression here is that her husband was given out in an attempt to smear her for expressing herself so forcefully against New Deal tax legislation.

Humanities are only a fruit every day because the body does not store vitamin C.

War Today

By DEWEY MCKENZIE

Pierre Laval, chief of the French Vichy government, has issued a pamphlet warning to his countrymen to cooperate with the invading German military will be too busy hunting down.

No wonder Laval has worried for months. The man who has played the Nazi game, and even sent thousands of his own people into slavery in Germany, knows that if bloody reprisals do start he will be one of the first to be shot.

Who's going to restrain the forces of vengeance in the early days of the invasion? The answer is that hundreds of thousands in the underground army of French Loyalists are ready to meet the invader, despite the fierceness of the Nazi Gestapo punishment for possession of weapons.

The Loyalists are likely to start operating in the interior of France as soon as the invasion gets under way. They will strike where they think the Germans and their sympathizers. The main Allied forces won't be there to prevent it, since even if they are parachute troops they will be too busy standing off the invasion to find much time to deal with warfare among Frenchmen.

The same applies to Governor Warren in a sense. Republican progressers place California, Oregon and Washington in their column, although not so sure about the last state.

Therefore, they may be able to dispense with the chief executive on the Coast, especially as his real ambition is to land on the Supreme Court. He may get that opportunity if the G.O.P. captures the White House.

DRAMATIC—The newest and most intriguing name mentioned as Mr. Dewey's No. 2 man is the handsome and debonair oil driller from Oklahoma—Patrick J. Hurley.

The Trading with the Enemy Act, written as a catch-all during World War I, prohibits sending any kind of communication to an enemy alien, including amatory epistles. In practical procedure it has never been enforced in the case of apparently innocent missives such as Miss Killens penned.

The general impression here is that her husband was given out in an attempt to smear her for expressing herself so forcefully against New Deal tax legislation.

When mail directed to an Axis citizen or subject reaches the post office, it is sent to the Office of Censorship. In all instances the message is supposed to be kept secret unless it should be necessary to use it to obtain an indictment or a conviction. In this case there was apparently no need for such a procedure.

REVOLT—Senator Byrd, a Democrat, is giving only an outside chance, especially in view of the possibility that he might not accept the offer. But if widespread demands for a seating should materialize, he would be the ideal choice.

HE would be a "natural," perhaps, if anti-New Dealers demonstrate the extent of their regime in the southern and border states. It is believed that his nomination would aid the G.O.P. from Oklahoma to Maryland.

Mr. Johnson, president of the Chamber of Commerce of the United States, is not looked on favorably. Although more liberal than all his predecessors, the Republicans cannot afford to take a man from this citadel of business and industry to be done by a staff paid directly into the hands of opposition rabble-rousers.

Humanities are only a fruit every day because the body does not store vitamin C.

MAYBE IT'S HERE: Leaves From The Editor's Notebook

Probably not one person in 100 of those who made out April 15 income tax declarations paid any attention to Specific Instruction 16.

It reads: "Special deduction for blind individuals—a person who is blind on July 1 of the taxable year will be entitled to a special deduction of \$500 in computing the income tax, but not the Victory tax."

In loss of revenue to the United States, perhaps the most important item in the nation's annual revenue, but a vital one to the afflicted.

There is no specific evidence here of any association campaign to extend the exemption to other afflicted persons. But there is talk of aiding the war wounded, who are still able to find gainful employment that puts them into the income tax brackets.

When the National Society for the Blind went before Congress last year to argue its case, no representative of any other group appeared to ask similar consideration.

smoking lamp on a warship since the days when matches were so scarce that sailors seldom had them and a flickering lamp actually was considered a bad omen.

Luxurious life note: The orders of the day invite all officers and men to enjoy the pleasures of the purpose is to lessen danger of extreme sunburn when they have to stay out all in battle, and to combat tropical skin rashes.

Night for the Morrow

By Robert D. Lusk

I FOLLOWED him back to town, then we drove out to the farm in his car. We talked all the way out. I told him what I knew about the incident that had happened when I was three years old.

"We have company," I yelled when I opened the door. It was not much warning, but we trooped through the living room into the bedroom without further announcement. Old Jan was propped up in bed.

"Well," he said, surprised. "Grandfather," I burst out, "I want you to meet Mr. Lynn Rhodes, the Washington newspaper writer. And this is Mrs. Rhodes."

"We're pleased to meet you, Mr. Mesrik," the newspaperman said. "We apologize for crashing in like this, but your grandson led the way. Mr. Rhodes and I are on a vacation trip. We drove through here to visit an old and little-known historic spot. We ran into your grandson in town. He offered us the pleasure of meeting you."

"Old Jan," I cut in, "Mr. Rhodes knows who it was you met that night when I was a kid and you hurt yourself. Do you want me to tell you who it was?" "First," he replied, "you'd better get our guests home chairs. I did so. We sat down around the bed.

complicated the law. Groups, now specially favored, may soon be screaming for the old complicated form.

But there the importance of the "special deduction" ends. What is important is that for the first time in the history of the income tax law, Congress has recognized a physical handicap as a basis for special consideration on income tax exemptions.

What is more important is the precedent which might well be extended to all of the nation's physically handicapped—small items in the nation's annual revenue, but a vital one to the afflicted.

There is no specific evidence here of any association campaign to extend the exemption to other afflicted persons. But there is talk of aiding the war wounded, who are still able to find gainful employment that puts them into the income tax brackets.

When the National Society for the Blind went before Congress last year to argue its case, no representative of any other group appeared to ask similar consideration.

"Mr. Jones speaking!"

League Would Now Advocate Police Force

By TOM WOLF NEA Staff Correspondent LONDON, April 20.—The proponents of a League of Nations are as steadfast as they were 25 years ago in their belief that only through an international authority such as the League can the post-war peace be maintained.

Let's be realistic about it," Lord Cecil said to me. "The League failed because the great powers were not willing to do their part. The small nations, by the large, were ready to do theirs. They made that clear before and during the Italo-Ethiopian war."

Police world by air The draft for such a new international authority has, indeed, already been made by the League of Nations Union, Lord Cecil, as President of the Union, was particularly anxious that such a draft be drawn for he feels that otherwise discussion of an international authority becomes unreal.

BUY BONDS Quill pens were first used in the sixth century. The draft now contains 18 short, concise articles creating an international authority.

MAKE DECISIONS STICK Short of sudden emergency, disputes are to be settled first by negotiation; second, if this fails, by arbitration—either through a World Court or otherwise; or, as a last resort, by the Council of the Authority.

Politician Has His Troubles These Days, Too

WASHINGTON—Two questions, among others, are causing the politicians particular worry these days: 1. How many soldiers will vote? 2. How many away-from-home war workers will vote?

These two questions are important because President Roosevelt has always drawn strong support from the younger population brackets, which make up the bulk of labor and the armed forces. If the president runs for another term, the votes of these two groups may tell the story.

Ballot Voters Beware

The answers will not, of course, be known until after election day, and any attempt to forecast what part they will play in the returns is pretty much guess work. There are too many considerations. The biggest is: How many persons in these two groups will be able to vote? And that is precisely the one question nobody can answer.

Manpower commission officials say there is no really accurate way to determine how many war workers have moved into or out of any state. Add to this the fact that voting requirements vary from state to state, and it can be seen why nobody is possible it is to make any kind of an estimate of how worker migration will affect the election.

Overseas or At Sea

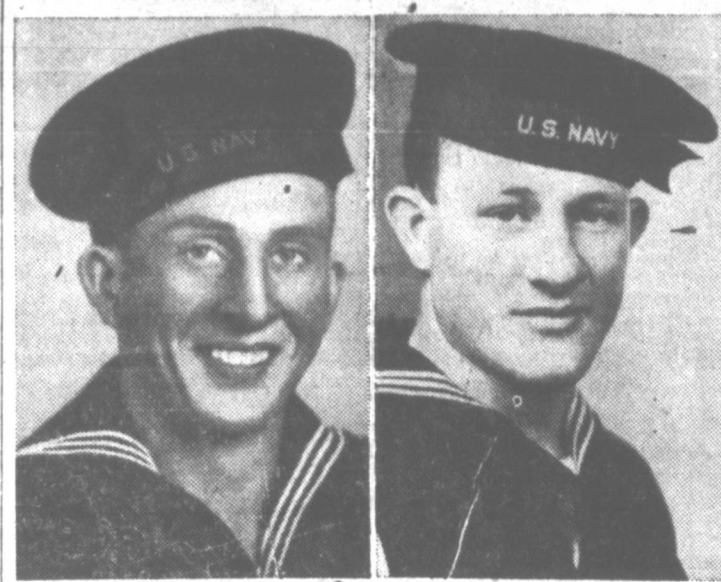

This leaves the soldier-vote question. Chances are that almost every serviceman is away from home. Approximately one-fourth of them are overseas or at sea.

The rest undoubtedly are stationed far enough away to require an absentee ballot if not a federal ballot.

California has said it would accept the federal ballot. Ohio and Illinois have said they would not. Most of the other states are still doubtful.

If substantial numbers of soldiers do not vote, either because of lack of interest or because they can't, the chances are that the election will reflect it. In last month's special election in the first congressional district of Colorado, the Republican candidate won with fewer votes than any defeated Re-

Brothers See Each Other After Three Years of War in the Pacific, Atlantic

THEO CUMMINGS and **N. L. CUMMINGS** For the first time in three years, CPO Theo Cummings, left, and his brother, Av/Ord/3c N. L. Cummings, right, were together when they were here on leave. Both are leaving to return to their stations. Petty Officer Cummings to San Pedro, Calif. Aviation Ordnanceman Cummings to Dallas, where he is an aircraft gunner instructor.

Both men have seen plenty of action, N. L. in the Aleutians, his brother in the Solomons and other islands of the South Pacific. Each has been in three major engagements. Theo saw action at Savo, Santa Cruz, and Guadalcanal; N. L. at Kiska, Attu, and Amchitka.

Theo is 24. He enlisted in the navy November 22, 1941. His brother is 21. N. L. was born in Memphis, Hall county; Theo, in Mineral Wells.

Theo was stationed on the interned French liner Normandie, salvaged some time ago, when the ship caught fire and capsized in New York harbor.

The brothers are the sons of Mr. and Mrs. C. B. Cummings, 513 Campbell.

publican candidate had polled in recent years. This was interpreted by some analysts as a direct result of a decreasing number of voters, most of the decrease being represented by soldiers and sailors. It might be repeated—or reversed—in various polls in the general election this fall.

Market Briefs

NEW YORK WALL STREET

NEW YORK, April 19—(AP)—Stocks continued to rise today, but gains were limited to fractions and selling tapered rather sharply after the first hour. Bulls tried for a rally when the early run of offerings decreased but quickly faltered. Industrials generally were around their lows in the late proceedings. A few specialties were a little ahead. Transfers were around 900,000 shares, a substantial drop from yesterday.

Stocks in lower territory near the finish included U. S. Steel, Bethlehem, General Motors, Chrysler, Goodyear, U. S. Rubber, Montgomery Ward, Johns-Manville, Great Northern, Chesapeake & Ohio, and Philip Morris. Southern Railway, American Telephone and Western Union were steady.

Bonds were mixed.

Former Bomber Is Back in Action

U. S. BOMBER BASE IN BRITAIN, April 20—(AP)—A-20 light bombers which made the first American attack on Europe on July 4, 1942, are operating again from England—another weapon in the USAAF's invasion air fleet.

A number of fliers from the original Kegelman squadron and veterans of the Pacific and Caribbean areas are manning the versatile, twin-engined Douglas planes which have been in combat several weeks. They complement operations of the Marauders in the ninth U. S. air force. Censorship allowed the disclosure today.

The A-20 is capable of medium altitude bombing and low level skip bombing. It is basically the same as the "Boston" which the British have been using for many months in daylight bombardment of special targets on the occupied coast.

The RAF also has a night fighter version called the Havoc—a name which the A-20 will officially assume among American daylight raiders, even though the plane gained fame in other theaters as the A-20.

Commander of the first A-20 group is Col. Harold L. Mace, 36, of Riverside, Calif., former director of flying at Randolph Field, Texas. Deputy commander is the pilot Col. Thomas R. Ford, 29, Lansing, Mich., veteran of the anti-submarine campaign in the Caribbean.

Few Tennis Balls Bounce on Pampas

BUENOS AIRES—(AP)—Tennis is losing out in Argentina because of the ball shortage. A number of clubs have disbanded and others are curtailing their program.

Before the war tennis balls sold at about \$3.50 per dozen. Now they cost \$20 per dozen when they can be found.

The United States and Britain formerly supplied Argentina but now tennis balls can be imported only from Brazil in limited quantities.

TODAY'S WAR MAP

Today's war map shows the approaches to Sevastopol and the Red Army advances in that area.—(NEA Telemag.)

50 Per Cent Negro Soldiers En Route Or Already Overseas

WASHINGTON, April 20—(AP)—America's Negro soldiers, most of whom live in southern states, are contributing their full share to the war effort, with approximately 50 per cent of them already overseas or enroute there, says Secretary of War Stimson.

Stimson made his statement in a letter which Rep. Ludlow (D-Ind) said he inserted in the congressional record as an answer to complaints of army discrimination against Negroes.

Stimson reported that of the Negro troops overseas 32 per cent are combat and combat support troops, and added "they are being given every opportunity to prove their ability."

Bluebonnet Girl Wins County Honor

Nina Ruth Spearman, 11-year-old Bluebonnet 4-H club member, has been selected by the Gray county committee as one of the candidates in the annual war bond award contest of a grain growers' association, according to Miss Millicent Schaub, Gray county home demonstration agent.

There will be five boys and girls selected to win these awards. Winners will be announced at the association's annual banquet next month in Amarillo.

Nina Ruth, her parents and county agents will be invited to attend the banquet as guests of the association.

Basic of naming war bond award candidates is scholastic record, 4-H achievements, personality, and leadership.

Nina Ruth has been a 4-H club member for three years and has worked in gardening, poultry, clothing, food preservation, home and yard improvement, dairying—helped raise swine and cattle. She sold a pig she raised to buy chickens for this year's poultry project and to buy new furnishings for her room.
