

WAR FORGED IN PAMPA

Capture of Three Hollandia Airdromes Is Impending

Air Might Throws Jap Off Balance Elsewhere

By RICHARD C. BERGHOLZ
Associated Press War Editor

Japan's prized base of Hollandia in Dutch New Guinea is toppling under the surprise amphibious attack by Gen. Douglas MacArthur's forces and capture of Hollandia's three airdromes, the only major objectives yet to be reached, is imminent.

Republicans Oppose Debt Limit Plan

WASHINGTON, April 25—(AP)—Republican opposition developed in the house today against an administration bill to raise the public debt limit from \$210,000,000 to \$250,000,000.

Rep. Knutson (R-Minn.), republican leader of the ways and means committee, said "we're going to insist that the new limit be set considerably lower than \$250,000,000, probably \$240,000,000 would be enough." He added:

"No matter what limit we set—even at a thousand billion—this administration would reach it."

President Roosevelt, in his budget message to congress early in the year, estimated the public debt would reach \$250,000,000 by June 30, 1945. As of this April 25 it was \$180,958,809.33, compared with \$128,474,298.47 on the same date last year and \$43,000,000 on July 1, 1940 at about the time the nation began its mammoth preparedness effort.

Since July 1, 1940 congress has authorized expenditures aggregating \$327,000,000 for war activities, much of which has not yet been used.

Records of the house appropriations committee show presidential requests for appropriations totalling about \$99,000,000 for the next fiscal year beginning July 1, of which about \$93,000,000 would be for war purposes.

'Work-or-Else' Law Advocated

WASHINGTON, April 25—(AP)—Advocating a new work-or-else law that would force 4-F's and men up to 45 who refuse to take essential jobs, Senator Brewster (R-Me) declared today Congress must more promptly to halt an "alarming" labor turnover in industry.

Brewster joined with Senator Bailey (D-N.C.) in sponsoring a bill which would:

1. "Freeze" men between 18 and 45 in essential work by requiring them to get local draft board approval before taking other jobs. If they shifted without draft board approval, they would be subject to immediate induction.
2. Empower selective service to conscript 4-F's or any other registrants up to age 45 for war-essential jobs whenever a government manpower committee found that manpower needs could be filled in no other way.

Brewster said in a statement the plan would halt labor hoarding and "go a long way" toward forcing workers out of non-essential jobs into war-supporting industries.

The labor "freeze" feature would apply to industry the principle previously adopted by Congress to keep necessary workers on the farms, he added.

New Automobiles To Come from Russia

MOSCOW, April 25—(AP)—New automobiles will soon be pouring off the assembly lines of a huge factory in the Ural mountains, Izvestia reported today.

Construction began in the winter of 1941. The first engines and gear boxes were turned out in the spring of 1942. Assembly work is now going on.

Appreciative Crowd Hears Noted Humorist

Tom Collins, noted public speaker and humorist of Kansas City, Mo., speaking last night to about 250 Pampans and guests from surrounding cities and towns at the high school cafeteria, said the democracy for which the country is fighting is based on the fact that people have an inherent "liking for each other."

Interspersing his address with bits of humor attuned to the times, Mr. Collins, as guest speaker of the Chamber of Commerce, said getting along with people is the determining factor in one's success in business and social life. The ability to see the lighter side of life at this time, he said, is especially desirable.

Other persons visiting from Kansas City were R. C. Kemper, president of the City National Bank and Trust Co., Kansas City; Kearney Wornall, president of the Missouri Bankers' association, Kansas City; and Judd Cash, president of the Kansas City Stockyards.

Mr. Collins was introduced by a former Kansas citizen, A. A. Schuneman, who came here three weeks ago as president of the National Bank of Pampa. The evening's program was opened with prayer by Chaplain Maurice P. Garner, Pampa Air Field. Opening remarks were made by C. A. Huff, president of the Chamber of Commerce, and Tex DeWeese, managing editor of The Pampa News, served as master-of-ceremonies. Group singing was led by Leblam Langston. Garnet Reeves, secretary of the Chamber of Commerce, presided.

IS PALAU NEXT ON THE LIST?

With the Marshall Islands in U. S. hands, Ponape and Truk neutralized by incessant pounding from the air, Palau becomes the first-line of defense of the Philippines and the China mainland. It is but 500 miles from Palau to the Philippines, and once airbases were established in the Philippines, Japan shipping to the South Seas could be whittled appreciably by her bases neutralized, for invasion of the China mainland. On the right of this wedge are the Marianas Islands, already bombed, and on the left New Guinea, which, with the announcement of the invasion of Hollandia, will offer but negligible resistance.

Veteran Doubts That Cassino Will Ever Be Taken From Nazis

TEMPLE, April 25—(AP)—Sgt. Elmer Lafevre, former oil field worker at Sagertown, Haskell county, says he doubts "if we will ever take Cassino."

"That Cassino is a tough son-of-a-gun," said Lafevre, one of a convoy of 60 wounded veterans of the 36th and 45th divisions back from Cassino in the Anzio beachhead who arrived at McCloskey General hospital here.

Lafevre said the enemy had "caves and tunnels and mines and booby traps, and Germans, and still some more of each." He was blown "about nine feet up in the air" when he stepped on a mine near Cassino. His unit, of combat engineers, was fighting as infantry. Lafevre's wife and baby now live at Sagertown.

Other veterans reported that nothing in the war is more accurate and destructive than German mortar fire. Many of them bore evidence of the mortar fire they talked about.

Frequently, they said, the Nazi mortars search out individual soldiers in foxholes, dropping their shells down into the holes.

"They are so good with their mortars they could put a shell in your foot if they found you," said one. "I was shot by a mortar fire. We were so close to the enemy (at Anzio, where he lost his left leg) when a shell hit his foxhole. He would have hand grenade duels. At night you couldn't get out and stretch because everything was so hot up. You ate in your foxhole and slept in it, and it was always full of water."

Cpl. Homer Zimmerman of San Antonio and Floresville, 36th division, is another soldier who respects German mortar fire. A mortar shell dropped into his position north of Veneto last Nov. 27, wounding him in the left leg.

Sgt. Roy C. Schneider, whose wife and son live at San Antonio and whose parents live at Boerne, said he was hit in the leg and heard fragments from a German shell on Feb. 12 at Cassino, while he was

Sub Eliminated In Two Minutes

WASHINGTON, April 25—(AP)—Destruction of a German U-boat in two minutes of concentrated attack by American carrier-based planes was reported today by the navy.

The sub was sighted by Lt. (j. g.) Wallace A. LaFleur, 22, LaPavette, La., who was flying on patrol from a "baby flat-top" far out in the Atlantic.

He made two bombing runs on the enemy despite anti-aircraft fire, but because of evasive action, failed to score a hit.

He began circling above the U-boat, remaining there despite anti-aircraft fire for 25 minutes, keeping in touch with the raider until other planes could arrive from the carrier 70 miles away.

Two fighter planes and two torpedo bombers, piloted by Lt. Kenneth P. Hance, 22, Tampa, Fla.; Lt. (j. g.) Irving G. Cockroft, 23, Oakland, Calif.; Lt. (j. g.) Glendon Goodwin, 22, Warrington, Fla.; and Lt. (j. g.) Harold G. Bradshaw, arrived.

Fighter pilots Hance and Cockroft laced the enemy with bullets; bomber pilots Goodwin and Bradshaw roared aloft to drop their loads; LaFleur joined from his observation point to help in strafing.

One bomb scored a perfect hit; another struck close by; the stern of the submarine rose high out of the water—she sank only two minutes after the attack began.

Used Autos May Be Rationed Soon

SAN ANTONIO, April 25—(AP)—A hint that rationing of used autos may not be far in the offing was given today to the Texas Automotive Dealers' association delegates at the close of its two-day meeting here by Elliott Taylor, chief of the OPA auto ration branch.

He pointed out that of the three items in transportation, autos, gas and oil, and tires, the first is the only one that cannot be replenished until the end of the war.

"Seven out of ten war workers depend on cars for their transportation," he declared. "We must provide cars for doctors, farms and other essential civilian users. For that reason the OPA is at the present time working on a tentative plan for the rationing of used cars. The plan will not be two-day effect immediately," he said, "but rationing is coming closer every day."

The convention was to end today with the election of new officers and selection of the 1945 convention city.

Flood Continues To Add to Death Toll

(By The Associated Press)

Overcast skies held the ominous threat of more rain for the flooded Midwest today, giving little respite from rampaging rivers which caused 12 deaths, forced thousands from their homes, washed out vast acreages of crops and snarled rail and highway travel.

Six persons were listed as missing and believed dead in Kansas, five in Missouri, and one in Illinois.

The Missouri, the Kaw and other streams in Western Missouri and Eastern Kansas were falling this morning, but the weather bureau said "substantial rain" was likely tonight and tomorrow.

Five persons were feared dead in the Winfield, Kansas area, where high water was receding after causing property damage estimated at \$1,000,000 in that city's worst flood of record. At one time, between 40 and 50 city blocks were under water.

But the Big and Little Arkansas rivers were falling at Wichita after giving that city its greatest flood. More than 2,000 persons were quartered in temporary shelters, schools and churches and Red Cross officials predicted it would be several days before most of them could return to their homes.

The Kaw river's crest passed Kansas City last night without doing serious damage, although leaking dikes had to be repaired.

Unified Army, Navy Branch Recommended

WASHINGTON, April 25—(AP)—Creation of a single department of the armed forces to replace the present departments of war and navy after the present war recommended by congress today by Secretary of War Stimson.

Stimson told the house committee on postwar military policy that statutory unification of command should not be effected during the present war but added it is "of the greatest importance that the general principle of consolidation be determined upon as soon as possible."

Stimson commended the voluntary cooperation among the heads of the various branches of the armed forces in this war but added: "Our experiments in the war have abundantly brought out that voluntary cooperation, no matter how successful, cannot under any conditions of warfare, and particularly under tri-tribunal warfare, be as effective in the handling of great military problems as some form of combination and concentrated authority at the level of staff planning, supervision and control."

Stimson's recommendations had been foreshadowed by Rep. Wadsworth (R-N.Y.), who had said that a postwar consolidation legislation soon might emerge from the committee.

Wadsworth indicated further that this is a strong leaning toward compulsory military service. A combined war and navy department would not interfere with this, in his opinion.

"Some of the recruits would be allocated to the army and some to the navy," he explained. "The division is simply a matter of administration."

Hitler Looking Over West Wall

LONDON, April 25—(AP)—A London source having close contacts with the European underground said today that Hitler is now making a secret inspection of the west wall defenses.

The tour coincides with German utterances that invasion is imminent. It was said to be made in company with an inspection party including Grand Admiral Karl Doenitz, Gen. Guenther Korten, chief of staff of the air force, and Prof. Tann, originator of the V-2 rockets which are an important part of the west wall defenses.

The Germans announced that Hitler had met Mussolini recently at a "secret" meeting place—perhaps the Brenner Pass, the Italian or French rivers.

Military men in London received with skepticism rumors the Germans planned to withdraw from Italy to conserve their 25 divisions for the west wall battle. On the contrary, these soldiers believe Hitler is determined to hold every inch of Italy as long as possible without increasing the number of troops already committed.

MINISTER RESIGNS

NEW YORK, April 25—(AP)—The Berlin radio said today that Ion Bratianu, minister of agriculture in the Romanian government, had resigned for reasons of health and that Petro Mebiantu had been named as his successor.

Little Opposition Put Up to Engage Allies

By RICHARD McMURRAY
Associated Press War Editor

A thousand or more American planes attacked three German air bases in France today after upwards of 1,000 heavy bombers turned Munich and Karlsruhe into pools of flame last night. U. S. targets were at Nancy, Metz and Dijon.

Guttural Nazi broadcasters said strong bomber formations were over Southern France, Western and Southwestern Germany.

In operations of 3,000 American planes from Britain and Italy yesterday, at least 181 of Germany's dwindling first line planes were destroyed and 4,000 tons of explosives splashed on Friedrichshafen, Munich, Bucharest, Ploesti and Belgrade. These daylight invaders had run interference for the RAF night fliers, blasting a nexus of airfields around Munich.

American losses yesterday were 60 planes, at least 38 of which were heavy bombers. The British lost 30 planes last night in attacks which also included Mosquito stabs at Dusseldorf and mine laying. The blows at Munich and Karlsruhe, great industrial and transport centers, were "well concentrated" and "in great strength," the air ministry said.

The Russians also were applying the lash of air power to the Germans in Lwow, Sevastopol and the Black Sea. Moscow said bombers sank seven loaded transports of 15,000 tons lying in the Crimea at Romania, a landing barge, a cutter and three patrol boats. On each of the last five days, Russian reports have told of the destruction of 50 or more German planes.

The Germans said Sevastopol was under "final assault." The Russians told of absorbing a small German attack in old Poland west of Stimson commended the voluntary cooperation among the heads of the various branches of the armed forces in this war but added:

"Our experiments in the war have abundantly brought out that voluntary cooperation, no matter how successful, cannot under any conditions of warfare, and particularly under tri-tribunal warfare, be as effective in the handling of great military problems as some form of combination and concentrated authority at the level of staff planning, supervision and control."

Stimson's recommendations had been foreshadowed by Rep. Wadsworth (R-N.Y.), who had said that a postwar consolidation legislation soon might emerge from the committee.

Wadsworth indicated further that this is a strong leaning toward compulsory military service. A combined war and navy department would not interfere with this, in his opinion.

"Some of the recruits would be allocated to the army and some to the navy," he explained. "The division is simply a matter of administration."

Production of Oil Over New Reserves

DALLAS, April 25—(AP)—The 1-423,906,000 barrels of oil produced in 1943 was more than five times the 271,048,000 barrels of new reserves discovered that year, says Dr. Frederick H. Lahee, Dallas, chief geologist of the Sun Oil company.

In an address before the 20th annual meeting of the National Oil Scouts and Landmen's association, Dr. Lahee said new reserves added through extensions and revisions of oil fields in 1943 in the 11-state major U. S. producing area, added to the reserves discovered in 1943, brought the grand total of new proved reserves up to 1,234,255,000 barrels, or 149,651,900 barrels short of the amount produced during the year.

Using statistics from the American Petroleum Institute's oil resources committee, Dr. Lahee said that proved oil reserves in Arkansas, California, Illinois, Indiana, Kansas, Louisiana, Michigan, Mississippi, New Mexico, Oklahoma and Texas declined from 19,280,415,000 barrels of oil as of Jan. 1, 1943, to 19,070,764,000 barrels as of Jan. 1, 1944.

Another speaker, Sidney Lee, research scientist for the Atlantic Refining company, Dallas, said the planing using 100 octane fuel have about 45 per cent faster climb at sea level and 68 per cent speedier under tri-tribunal warfare, be as effective in the handling of great military problems as some form of combination and concentrated authority at the level of staff planning, supervision and control."

Stimson's recommendations had been foreshadowed by Rep. Wadsworth (R-N.Y.), who had said that a postwar consolidation legislation soon might emerge from the committee.

Wadsworth indicated further that this is a strong leaning toward compulsory military service. A combined war and navy department would not interfere with this, in his opinion.

"Some of the recruits would be allocated to the army and some to the navy," he explained. "The division is simply a matter of administration."

Underground Is Effective

STOCKHOLM, April 25—(AP)—Hitler's special deputy and minister to Denmark, Werner Best, declared today that the German underground was fighting swiftly against Danish saboteurs and underground elements affecting German interests.

Denmark was virtually isolated from Sweden, and Best's statement before Danish press chiefs was the first tangible evidence of the reason. The country was cut off late yesterday afternoon.

Best asserted that Denmark was "swarming" with underground workers, and it, therefore, was Germany's task to "attack swiftly and sternly." He said the Nazis would show no mercy toward saboteurs, indicating they would be "publicly shot when caught. He expressed hope that "conditions would stabilize" and that Danish public opinion would react against the recent increase of sabotage.

The belief was prevalent in Stockholm that Denmark was isolated so the underground could be cleaned up as a pre-invasion security measure.

Bomb Misses Duce

BERN, Switzerland, April 25—(AP)—The Swiss government today said it had quotted a clandestine anti-Fascist Italian journal as saying that Benito Mussolini had a narrow escape from death recently when a bomb was hurled at his automobile near Lake Garda.

The bomb exploded only a few yards from the former duce's car, the account said.

The Berlin broadcast heard in London today said that Mussolini had conferred with Hitler Sunday and Monday.

NEW YORK, April 25—(AP)—General Dwight D. Eisenhower declared today that "public opinion in this war" and indicated the news of the European invasion would be speeded to the public.

This message from Eisenhower, Allied supreme commander of the western front, was read to the opening session of the American newspaper publishers association at the Waldorf-Astoria hotel.

"Public opinion wins wars—that is as true now as ever. In order to facilitate the flow of news to the public in the impending operations, we are drawing upon past experiences and hope to profit from them. I have always considered as quasi-staff officers those correspondents who are accredited to my headquarters. These correspondents are a part of the great team striving to conclude this war successfully, at the earliest moment."

The message, which was read by Daniel W. Hutson of the Woonsocket, R. I., Call, chairman of the day's session, was relayed through the war department at Washington.

A recorded message was received from Gen. Dwight D. Eisenhower, deputy supreme commander of the Allied forces in the Mediterranean theater, who declared that the influence of the press was felt "on every battlefield, in every home, office, factory and farm."

Devers said the battle in Italy on two fronts was "grim beyond description" and could not be compared to any other campaign.

"The result to date has been disappointing due in a large part to the terrain and weather conditions," he said. "However, these problems will be solved and in the meantime we must place in the balance the fact that a number of enemy divisions have been drawn into this theater while vitally needed elsewhere."

The message from Devers was read by R. I. Call, chairman of the day's session.

First Aid, Nutrition Courses Begin Here

In cooperation with the military, Pampa chapter of the American Red Cross is beginning a Better Health Campaign, making available to this community courses in Nutrition, First Aid, and Home Nursing.

"Because people who have had the standard First Aid course know how to take care of an emergency until the doctor arrives, more First Aid training will be given," Homer Cone, Pampa Red Cross chairman, announced today.

Pampa Red Cross Institutes Home Service Course

A training course for Home Service workers will begin May 3. Mrs. M. F. Roche, chairman of Home Service, Pampa chapter, American Red Cross, announced today.

Qualifications for membership in the Home Service Corps are: United States citizenship, respect for the confidential nature of the work, recognition for the necessity for safeguarding military information, and a high school education or equivalent.

"Other qualifications of a personal nature," said Mrs. Roche, "are promptness, thoroughness, sustained interest and ability to complete tasks undertaken; respect for people in trouble and for information of a confidential nature received from or concerning them; received of the right of individuals to make their own decisions and otherwise maintain control of their own lives to the limit of their capacity."

Anyone possessing three qualifications and desiring to take the training course is asked to make formal application at the Red Cross office Thursday, April 27.

First Aid Chairman, announced today.

Mrs. W. R. Campbell, chairman of Home Nursing said, "People who have had Home Nursing know how to follow the doctor's orders, when there is sickness in the home, more Home Nursing courses will be given during the emergency."

"When there is a shortage of doctors and nurses, it behooves us to be prepared to take care of our own families in case of illness."

"What foods should we eat and why should we eat them?" asked Miss Brown, nutrition instructor and chairman. "These are important questions for all of us who wish to enjoy good health. Any person, whether or not she is responsible for planning and preparing three meals a day, should have a knowledge of nutrition. Without the proper knowledge of food values no person can make a wise choice."

A committee, composed of J. B. Massa, Ed Weiss, and Mrs. F. M. Culbertson, met Friday with a committee representing the military, composed of Mrs. D. S. Campbell, Mrs. Kenneth Stetcher, Mrs. Paul Berndt, and Mrs. J. G. Keyes. Plans were made for Better Health courses available to anyone interested. There will be no charge for any of the training.

The schedule of classes, arranged for both afternoon and evening meetings, in order to permit choice of the most convenient time to attend, is to be set at the time of organization.

On April 28, 2:30 p. m. there will be organized a Red Cross Home Nursing class in the city club rooms. A nurse from the PAAF station hospital will teach the course.

An afternoon class in Nutrition will be organized at 2:30 p. m., May 5, in the cafeteria of Sam Houston school. Mrs. M. F. Roche, wife of Capt. Garner, Chaplain at PAAF, is to be the instructor.

An evening class in nutrition, to be taught by Miss Millett Schaub, Red Cross nutrition instructor and County Demonstration Agent will be organized in Room III, at High school, May 4, at 7:30 p. m.

YOUR GARDEN

Sweet potato plants are set out after the soil warms up, 15 inches apart in rows that have been tilled up six inches above the level of the ground. Make your rows 30 inches apart. Soil preparation includes fertilizer strong in phosphorus and potash. Spread one pound of each 10 feet of row, in a four-inch deep furrow, mix thoroughly and then hill up. Plant the sweet potato on this mound.

After a month, apply another pound of fertilizer for each 10 feet of row as a side dressing. Cultivate lightly, taking care not to injure any roots. The less nitrogen in the fertilizer mixture, the better. Commercial growers use a 2-8-10 mixture, that indicates 2 per cent nitrogen, 8 per cent phosphorus and 10 per cent potash.

The soil should be friable, as good tubers do not form in a heavy clay. The sweet potato does well in a poor soil if it is drained and ample feeding and watering is practiced. An acid soil is to be preferred, since acidity prevents the infection of fungus diseases which infect the skins of the sweet potato.

Plants purchased from a reliable garden supply shop are usually quite free from disease; the average price is 50 plants for \$1. One can expect a bushel and a half of yield from each 100 feet of row.

However, the ambitious grower may grow his own seedling sprouts at home if he has a well-made hotbed. Choose a few medium-sized sweet potatoes, dip them in a mercuric compound solution to insure root development, place in a box of sand an inch apart and cover with one to two inches of pure sand. Water frequently enough to keep the sand moistened and with a constant temperature of 75 to 85 degrees.

In a month the sprouts will be about five inches high and ready for transplanting to the garden—provided frosts are over. These sprouts are pulled from the hotbed and planted the largest and best planted. Successive plantings may be had by pulling off and planting the largest sprouts first.

Egg-Grading School To Be Held in May

An egg-grading school will be held in Pampa sometime next month, it was decided at the poultry clinic held here last week under the direction of Dr. W. A. Boney, Texas Extension service specialist. Twenty persons attended.

Poultry diseases and their prevention was the subject of Dr. Boney's demonstration. Persons attending brought chickens for examination and use in the poultry clinic.

Plans for the egg-grading school to be held here in May (the exact date was not set) was in conjunction with a suggestion that a cooperative egg-graders association be formed, but nothing was decided about this.

Attending the poultry clinic here Friday were Glenn Hackney, county farm agent, David F. Eaton, Jr., assistant farm agent, Miss Millicent Schaub, county home demonstration agent, Dr. and Mrs. Boney and the following, all of Pampa:

Mr. and Mrs. Louie Behrends, Dr. Nelson L. Nickell, city sanitary inspector, and Mrs. Nickell, Ernest McKnight, E. A. Shackleton, W. E. Bell, L. E. Frary, Paul Miller, Fred Vanderburg, Noah M. Kite, L. C. Morgan, Irving Cole, H. C. Blackstock and Capt. H. J. Apple of Pampa Field.

Junior Class Of Hopkins Sunday School Entertains

Mrs. E. B. Morton assisted by Mrs. R. C. Mason and Mrs. Ted Mastin entertained the Junior class of Hopkins Sunday school with a party Friday night.

Joyce Jones and Joan Hansard had charge of the games after which the boys served refreshments.

Attending were: Joyce Jones, Joan Hansard, Jean, Donald and Arthur Smith, Berdene Laycock, Sandra Mason, Billy Dale Phillips, Russell Talley, Harold Dean Courson, Loy Lou Buxton, Billy Joe Stephenson, John R. Phillips, Verma Mae, and John Hutsell and Joan Bird.

Kit Kat Klub Plans Formal Dance Saturday

Kit Kat Klub members will have their annual spring formal Saturday evening at the Country club at 8 o'clock with 10 new initiates will be formally presented.

Extensive plans have been made and committees appointed for decorations.

Merton H. D. club will meet.

Eastern Star study club will meet.

Rainbow Girls will meet in the Masonic hall.

We, the Women

By RUTH MILLETT

Even in the present shortage of eligible men, wives still write letters in which they have over all their husbands' shortcomings and find fault by wondering if they would be better off if they just went ahead and got a divorce.

Well, that is too personal a matter for anyone to offer advice about. But it seems only fair to give the ladies this warning:

Before you get rid of the man you have—imperfect though he may be—you ought to take a week and go around seeing how lone women spend their time.

Wander down to the corner restaurant or drug store after the movies are out and watch the faces of the lonely war wives who are going around together in an effort to make long evenings less lonely.

See if you think they look any happier than you are. Then talk to some of them about what it is like to live alone, not to have a man around to put the cat in the garage, or fix a leaky faucet, or to sit across from you at the dinner table.

BETTER THAN NONE

It could be that even a poor husband is better than none. Anyway, you ought to check up and decide. And be sure that even though you don't think your husband is any bargain, he'll probably be snatched up as soon as you let him go.

The other day a wife in Chicago, suing her husband for divorce, said in court that six women had been pestering her by calling up to see how soon her husband would be free.

Of course, after due consideration you still might feel like that same Chicago wife who, when her decree was finally obtained, said of the anxious women inquirers: "I want them to know that he's free again. They can come and get him!"

One Lazy Day a Week Will Help You Sparkle on the Other Six

MISS LANDIS: Frequent rest: renews her energy. The secret of many a radiant girl's look is the simple trick of spending a day in bed—or a part of it—to rest up.

Screen stars who are on the movie lots before you get out of bed in the morning and who get home from work long after you do, know that it is much smarter to take their ease when they can get it than it is to gallop around in quest of excitement.

Carole Landis, whose high-voltage vitality helps to attract customers to the box office, says she couldn't put that impression across if she didn't rest up one day a week.

"If you can't bear to be idle, map out a lazy program for yourself while you're propped up by pillows," urges Carole. "Cream your face and take advantage of this opportunity to leave the stuff on. Do your nails. Massage lotion into your hands. Pluck out those pin-feathers that blur your eyebrows."

MISS EVELY WILL ATTEND CONVENTION AT SAN ANTONIO

Miss Evely Everly of White Deer, president of Beta Delta chapter of Delta Kappa Gamma, will leave Wednesday night for San Antonio to attend the State Convention there Saturday. She will be accompanied by Mrs. Annie Lou Deering, representative of the Gamma Theta chapter at Berger, and Mrs. E. L. Hunter, president of Pi chapter, Amarillo.

Miss Evely plans to visit in the San Antonio schools Friday, Saturday morning at 8 o'clock, a meeting of the executive committee, including the presidents of all the chapters, will be held in the Gunter Hotel, convention headquarters.

At noon the birthday luncheon, celebrating the 15th anniversary of the organization of Delta Kappa Gamma, will be held in the Rose room. Miss Evely has been asked to participate on that program as a representative of the ten chapters organized in 1934.

Following the chapter reports and business session in the afternoon, the annual Founders dinner will be served in the Rose room of the Gunter Hotel, at 7:30.

On Sunday morning, the delegates will be guests of Beta and Beta Tau chapters at a morning coffee. Delta Kappa Gamma, a national honorary sorority for women teachers, was organized on May 11, 1929, in Austin, by Dr. Annie Webb Blanton, and eleven other Texas teachers. Since that time, every state in the Union has been organized, with nearly 600 chapters and approximately 20,000 members, and plans are being made to extend the membership into Canada and Mexico.

Dr. Margaret Stroth, Wilson Teachers college, Washington, D. C., is national president; Dr. Annie Webb Blanton, national executive secretary and editor of "The Bulletin"; Miss Julia B. Hubbell, East Texas State Teachers college, Commerce, state president; and Miss Eula Lee Carter, Texas Christian university, state executive secretary. Beta Delta chapter, with head-

quarters in Pampa, was organized by Dr. Blanton, April 28, 1934, at Amarillo, with Mrs. Hol Wagner, (then Miss Fannie May), as president. Other past presidents are Mrs. Sam Irwin, who is now state corresponding secretary; Mrs. John T. Bradley; Miss Ila Mae Hastings, and Miss Katherine Simmons. The chapter now has 44 active, two associate, and eight honorary members.

KEEP PINS CLOSED

You will need a cake of good white toilet soap, preferably unscented, in a dish. A supply of small and medium-sized safety pins should be kept in a covered box or dish. Form the habit of keeping the pins closed and the cover on the dish to prevent accident when the baby gets old enough to clutch things in his hands.

A small paper bag, with the top folded in to hold it open, may be kept on the tray for disposal of waste cotton. A few pieces of soft old linen or old handkerchiefs will be useful many times.

A bath thermometer to test the heat of the bath water, and a clinical thermometer (if you know how to use it) to take the baby's temperature will be useful but are not absolutely essential.

The tray should be covered with a towel when not in use, and may be kept in the bathroom, if that is where you will bathe the baby, or on a table or chest near his bed.

Australia And Pacific Islands Studied By Club

Special To The News.

WHITE DEER, April 25—Following a steak supper in the High school cafeteria, last week, the Venado Blanco club met in the library for a program on Australia and the Islands of the Pacific.

Mrs. Juno Duval spoke on "The Islands in the News" and displayed a table cover made of wood fiber, a grass skirt, and other souvenirs of the South Pacific. Mrs. Chester Strickland discussed "Australia," speaking in particular of the Australian people and their friendly reception of the American servicemen.

Present were: Mesdames Elton Beene, Juno Duval, H. A. Freeman, Gilbe Jordan, E. C. Morris, Chester Strickland, Walter Thompson, B. R. Weeks, and Tyson Cox; and Misses Audrey Bray, Claudia Everly, Gladys Hooley, Viola Holmes, Odessa Howel, and Corinne Landrum.

Highlights From Books

Perhaps you couldn't tell the author from Adam from the title of "You Wouldn't Know Me From Adam" (Whitlsey House; \$2), you'd soon put the finger on Col. Lemuel Q. Stoopnagle, the guy who tumors 'em on the radio and in leading magazines.

Honest, it's sidesplitting—and slapstick! You love the guy for his stories of J. Liftington Uplight, the fellow who doesn't touch the candy that's never touched by human hands; his poetry; his drawings; and his downright tomfoolery.

In the art department, Colonel Stoopnagle outdoes himself, especially with his touching portrayals of the upside-down dresser "for not losing buttons under it"; the patented pancake bookmark which, when the phone rings, leaves an index on a deck of wheats that enables you to tell where you left off pouring syrup when you went to the phone; and the 20-foot pole "not touching a guy you would not touch with a 10-foot pole—twice."

It's pretty much of a riot, even the foreword by Fred Allen.

Newspaperdom comes in for a double portion on the book menu with release of two volumes—"Biographies of Famous Journalists," edited by John E. Drewry (Random House; \$3), and "The Columnists," by Charles Fisher (Howell-Soskin; \$2.50).

Both books are well-written versions of the lives of the greats of journalism—Roy Howard, William Randolph Hearst, Walter Winchell, Arthur Brisbane, Raymond Clapper, Dorothy Thompson, Ernie Pyle, O. O. McIntyre, and a lot of other men who have become public figures in a high-pressure profession.

You can't beat Fisher's job on little Ernie Pyle. Brings right to home a word picture of the 115-pound, sopping-wet bantam who has jumped to the front as the No. 1 human interest writer on the war front.

Spring Festival Held Tonight By Business Women

The annual Spring Festival will be held tonight at 8 o'clock by the Business and Professional Women's club in the City club rooms.

Each club member is asked to bring a guest and any article which has been sent home from men serving overseas. These articles will be on display in charge of Lillian Jordan.

Party Is Given In Nally Home

Concluding a contest between members of the Young Married Women's class of the Baptist church a party was held Monday evening in the home of Mrs. Julia Nalley. Members of the losing team entertained.

Those assisting Mrs. Nalley were: Mrs. Joe Thomas, Mrs. John Mobly, Mrs. Frank Baker, Mrs. Ray Mackey and Mrs. Leon Cook.

A short business session was held with Mrs. Mackey presiding. Mrs. J. P. Boswell's resignation as secretary was accepted and Mrs. Frank Baker was elected to take her position.

After the games were played, ice cream and cake were served to one guest, Mrs. Loyd Baxter and the following: Mrs. J. P. Boswell, Mrs. W. L. Brownlee, Mrs. Odie Cox and the hostess.

THRILL SEEKER

NAHER, Neb.—Wilbert Cline drove his truck three miles on a country road to the farm of his brother, Clarence Cline.

Opening the door on his arrival, Wilbert found his two-year-old son, Marvin, sitting on the fender. Cline said his son did not seem the least concerned about his hazardous ride.

NEWS OF OUR MEN—WOMEN IN UNIFORM

Pictured at left is T/Sgt. Ernest L. Kindy, brother of Mrs. R. F. Marlow of 611 N. Nadia, who was captured by the Germans when on a mission with a B-24 bomber over Germany.

Before entering the Army Air Corps in August, 1942, he was employed as a pipefitter in Borger.

Tom A. Howell and Paul M. Jenks, Jr., are among the men listed to have received second lieutenant commissions at Randolph Field, Tex., and will man the controls of either a Thunderbolt, Lightning, Mustang or some other fighter plane.

Pfc. Guy W. James, Jr., is among the group graduating in aerial gunnery. He received his wings at Harlingen, Texas, Army Air Field. At brief graduation exercises held in Harlingen he received a pair of gunner's wings as well as a promotion in grade. Unless retained at Harlingen as an instructor, he will join an aerial combat team.

Hugh J. Stennis, son of S. D. Stennis, 419 N. Somerville, is now in Navy V-12 unit taking a pre-medical course at S.M.U. Stennis is a graduate of Pampa High school, Schreiner Institute, Kerrville, Tex., and the University of Texas at Austin. He enlisted in the Navy March 1.

According to an announcement received by Eighth Naval District public relations office, seaman first class Homer C. Dunn, son of Mr. and Mrs. H. D. Dunn, Box 776 LeFors, recently completed training at the Aviation Machinist Mates' school, Naval Air Technical Training Center, Norman, Okla. He will now be transferred to a naval unit or to another shore station for further instructions.

Cpl. Robert D. Stringer, son of Mrs. Carmen Stringer of Ben Wheeler, was graduated last week from the Army Air Forces Flexible Gunner school, Laredo Army Air Field, Laredo, Tex.

Along with his diploma he received a pair of aerial gunner's wings and a promotion in grade at brief graduation exercises.

Cadet Russell D. Jenks, son of E. M. Jenks, Pampa, has successfully completed the army basic flying training course and has been graduated from the Marana Army

Studebaker Champion a money-saver says Civil Air Patrol pilot
"MY 1940 Studebaker Champion has traveled more than 110,000 tough miles," reports Civil Air Patrol pilot Lieutenant J. E. McGuigan of Squadron 3 who is employed by Universal Studios of St. Paul, Minnesota.
"I average 25 miles to the gallon and my original tires stood up well over 60,000 miles. Of all the cars I've owned, this Champion is easily the most satisfactory and economical."
From coast to coast, it's the same story these war days—tires last longer, gas goes further, repairs are required less frequently in a Studebaker, thanks to advanced engineering principles and quality materials and craftsmanship.

Canada's No. 1 Soldier Eats, Works With His Armies

Reported as missing in action in a raid over Germany is T/Sgt. James W. Russell, 22, son of Mr. and Mrs. E. C. Russell of Borger. He had been based in England since August, 1943, was chief and aerial gunner on a bomber. In January he was awarded the Purple Heart. Sergeant Russell had been in the army two years, trained at Sheppard Field, Wichita Falls, Okla., and in Utah. He attended Texas College of Mines, El Paso, for one year after graduating in 1941, from White Deer High school where he was on the Bucks football and baseball teams.

Second Lt. Jack W. Bailey was recently graduated from the Army Air Forces Pilot school at Moody Field, Ga., with the rating of Army Pilot.

Trasporiation Offered Nurses

Members of the Texas Graduate Nurses association, of District 2, residing in Gray and adjoining counties, who wish to arrange for transportation to the regular monthly meeting in Amarillo Thursday, were notified today by Mrs. G. F. Branson of Pampa to be present at 12:30 p. m. Thursday at the Worley hospital here.

Nurses who have no automobiles or do not have passage arranged with others should call either Mrs. Branson, 701 N. Somerville, telephone 2254-J, or contact Loretta Daugherty, 420-A N. Gray, telephone 82.

The District 2 meeting will be held at 3:30 p. m. Thursday in the library of the nurses home at St. Anthony's hospital, Amarillo.

Date of the district session was postponed one week due to the state convention in Austin, April 18-19.

There are 80 members of the T. G. N. A. in District 2, of which Mrs. Leona Adams, 2913-B San Jacinto, Amarillo, is district president.

The T. G. N. A. worked with the American Red Cross in the registration of nurses here for war or civilian duty on April 12. Registration at Pampa totaled 48.

Gum-Chewers-- Here's Bad News

CHICAGO, April 25—(AP)—The William Wrigley Jr. Company has informed its distributors that beginning May 1 all chewing gum manufactured by the firm will go to the army and navy for servicemen overseas.

This will leave only current stocks in dealers' possession for civilians and military consumers in the United States.

Officers Are Relected by AP

NEW YORK, April 25—(AP)—The reelection of six members to the Associated Press board of directors and the election of one new director was reported to the second day session of the annual meeting of the Associated Press today.

Five directors in the general classification whose terms expired this year were chosen by 48 members yesterday to serve additional three-year terms. Their names and vote follows: Robert McLean, Philadelphia Evening Bulletin, 6,384; George F. Booth, Worcester, Mass., Telegram, 5,768; Frank E. Noyes, Washington Evening Star, 5,500; Paul Patterson, Baltimore Sun, 5,328; and E. H. Butler, Buffalo Evening News, 4,542.

Other nominees in the general classification and their vote: Josh L. Horne of the Rocky Mount, N. C. Telegram, who polled 5,693 votes, was reelected as director for cities of less than 50,000 population.

Elections to the nominating committee included: South—John D. Ewing, Shreveport, La., Times, and Curtis B. Johnson, Charlotte, N. C., Observer.

Fighter Claims 7 For Day's Bag

LONDON, April 25—(AP)—Lt. Edwin L. Heller, Schnecksville, Pa., claimed destruction of seven German planes ground and five damaged yesterday as the American fighter pilots had a field day over Southern Germany, downing a total of 66 enemy craft.

Labor Day was made a legal holiday by act of Congress in 1894.

General Crerar... sketched overseas by S. J. Woolf
By S. J. WOOLF
NEA Staff Correspondent
HEADQUARTERS—FIRST CANADIAN ARMY, Britain, April 25.—The pipe-smoking new Commander in Chief of the Canadian Army—Lieutenant General Henry Duncan Graham Greer—is tall and well set up, typically British in appearance.

His short cropped moustache, his long thin nose and his full round eyes belong to a type frequently seen in London officers' clubs. Moreover, long periods of residence in this country, including two years at the War Office, have fructified his speech with an English intonation.

He spoke freely as he posed at his large desk in a white paneled room in an old mansion. He is intensely proud of what the Canadians did in Sicily and Ortona, and he says that this is convincing proof that new but well-trained troops can carry on in their first battles.

Waiting is Worst
"As a matter of fact," the general said, "the most trying time for a soldier is not when he is engaged in actual combat, but when for long periods he sits and waits for something to happen. Some of our boys have seen no action during the four long years they have been in this country."

The general has the reputation for being a stern disciplinarian, but he says that he believes in leading, not driving. But when it is necessary to drive, he drives hard.

He also has the reputation for being as stern a disciplinarian

Bureau of Labor, Army, Navy Figures on Manpower Conflict

WASHINGTON, April 25—(AP)—The army, navy and maritime commission have pictured the manpower situation somewhat differently than has the bureau of labor statistics, chief collector of government figures on employment. Their choice of words is narrower than the BLS uses and some of their arithmetic appears at fault.

The three agencies issued a joint statement calling for government control of workers through a labor draft. The statement stressed the number of workers quitting their jobs through confidence the war is about won.

The statement said: Out of every 1,000 workers employed in February, 65 "quit."

There is a sharp difference between a "quit" and a "separation." Statisticians use both words, carefully distinguishing between them, to show what happens with workers.

A "quit" is a worker who does just that, quits, voluntarily leaves a job. But "separation" includes those who quit and those who leave a job for any other reason, such as being laid off (for lack of work), discharged, (fired for cause), or drafted.

The total separations, therefore, will always be greater than the total quits. But the three agencies statement said 65 out of every

1,000 quit. This is what the government's bureau of labor statistics (BLS) whose figures are basis for all the other agencies, says: Only 45 out of every 1,000 quit although 65 were separated from their jobs.

This is how the total works out: 45 quit, eight were laid off; six were fired; five drafted, and one left for other reasons, a total of 65 separations, not 65 quits, the BLS says further.

"The quit rate (in February) while still high relative to that before the war, is lower than it was during most of 1943. In February, for the first time in several years, quits were fewer than they were a year ago."

SPECIAL ELECTIONS

Here is the dope on the eleven special congressional elections to fill vacancies since the election in November 1942. Of these, the GOP has won 8 and the New Deal party 3...

As against the result in the last regular election in 1942, the 5th Missouri district shows a Republican gain of 9 percent; the second Kansas, a Republican gain of 11 percent; the 4th Kentucky, a gain of 19 percent...

The 2nd Oklahoma district, Democratic in 1942, continued Democratic in 1944, with a Republican percentage loss of 4 percent.

In 1942, of course, there was no presidential election and it may be of interest to compare the result in the special elections with those in 1940.

As against 1940, the special election in the 6th Missouri district showed a Republican gain of 12 percent; the second Kansas, a Republican gain of 14 percent; the 4th Kentucky, a gain of 23 percent...

Although Mr. Roosevelt generally runs stronger than New Deal Congressmen do in off year elections, these last figures indicate that even as against 1940, when Roosevelt ran, there has been a strong Republican percentage gain in every district except the 17th Pennsylvania, where it fell off slightly...

Having ventured to predict heavy Republican gains early in 1942 which were justified by the event (despite the Gallup Poll), I intend shortly to attempt to forecast Mr. Roosevelt's chances next November, if he decides to run for a fourth term.

Protection Asked For Fishing Areas

CHICAGO, April 25—(AP)—Anticipating a great exploitation of marine fishing off the shores of the continent after the war, Dr. Ira N. Gabrielson, director of the U. S. Fish and Wildlife Service, today proposed that machinery be set up to negotiate treaties with neighboring countries as a basis for effective management of the fishing areas.

His address was prepared for delivery before the Ninth North American Wildlife conference. Juan Zinsler, Mexico City, D. F., secretary of the department of use and conservation of natural resources of Mexico, said the Mexican federal government had stepped in to preserve the wooded area and wildlife of that country.

"Our conservation program is now well developed," Zinsler declared in another prepared speech. "We have set up reserves for white-tail deer, antelope, and big-horn sheep in the states of San Luis Potosi, Zacatecas, Sonora, and Chihuahua—the latter two bordering on Arizona, New Mexico and Texas—and we are constantly increasing the budgetary appropriations by the federal government for game preservation."

DETAIL FOR TODAY Goldbrick

A GOLDBRICK is a soldier who is allergic to work. He had a thousand different methods, all the result of much research, of getting out of work. There is an art to being an accomplished GOLDBRICK—it takes months of practice...

Market Briefs

WALL STREET NEW YORK, April 24—(AP)—It was another day of pre-invasion speculation being the better part of market value today as holders of leading stocks continued to lighten commitments and retire to the safety zone.

Trends began to waver after a moderately resistant forenoon and, with activity picking up on the retreat, near-closing declines of fractions to 2 points or so predominated. Transfers for the full proceedings were around 700,000 shares.

What, No Whippleblatz?—3,000 Barkeeps Keep on Saying 'No!'

NEW ORLEANS, April 25—(AP)—Bartender Manuel Rocha cork-screwed a rag into a soapy beer mug and shrugged a shoulder in the general direction of a large "no beer" sign behind him.

"Mother of Mercy," he said, "you'd think the sign is enough." A large man belled up to the bar and stared steadily at the sign. He looked hurt. "You ain't got any whippleblatz?" he asked.

"It's keeling me," Manuel told the soapy beer mug. "You got to tell them what kinda beer you ain't got. Mother of Mercy."

Manuel is one of some 3,000 barkeeps in this thirsty river colony. Brewery officials estimate that between 150,000 and 200,000 cases of beer are consumed in the city each week. But it isn't enough. Thousands of servicemen on leave, in transit, and stationed here, team with legions of parched shipyard workers to convert the town into a Saturday-night Sahara.

Each of my friends got his own territory to cover," Cox explains. "We scout on Saturday nights and keep in touch by phone. Stay if I find a place with another team on tap. I'm quick with the phone. So we dry the place up."

Barkeeps report that the chief gripe of veteran beer drinkers deprived of their liquid is "no priorities."

"You'd be surprised," said one barkeep, "how many beer drinkers are sore because the government don't issue C-ration cards to old-timers. I don't know. Maybe they got something. You fill a punk kid with good beer and he goes down in the quarter and starts climbing French balconies."

"In a way," he said, "the shortage is bad. A beer drinker cannot find relief in whisky or even at home. And this is a town in which the consumers are very consumptious."

Manuel believes New Orleans would never have become a Saturday night Sahara for beer drinkers if the town weren't so far below sea level. He has a fluffy sort of a theory that the clouds "suck moisture" from the natives, and convert this steam into rain, of which there is no apparent shortage.

"Mother of Mercy," he said. "It is a vivacious circle."

From 69 associations in 1938, the cooperatives of China now number 1,590 with 22,680 members, with 10 times that number directly benefited.

BUY BONDS LITTLE DIPPER YONKERS, N. Y.—Lawrence Matthews, mine, sniffed the air, decided spring was here despite the near "freezing temperatures. He disrobed, plunged into a pond for a dip. Half way across he became chilled and could not reach the other shore. He climbed a tree growing out of the pond. Then he became frightened, was unable to swim back and started shouting for help. An hour later firemen rescued him.

Six Lake Charles
Airmen Are Injured

SAN ANTONIO, April 25---(AP)---
Six members of an army B-26
bomber from the Lake Charles, La.,
army air field were under treat-
ment at San Antonio army hos-
pital today for injuries suffered
in the crash of their plane north
of here late Sunday.

Second Lieutenant Griffin W. Jones
of Eddyville, Ky. pilot, was re-
ported to have suffered critical injuries.
He is now in the Brooke General
hospital, Fort Sam Houston. Also
at Brooke hospital is Sgt. Bernal
C. Fisher of Lake Charles, whose
condition is not considered critical.

Under treatment in the Kelly
Field station hospital for injuries
not considered critical are second
Lieut. Park R. Birdwell, Cotton
Valley, La., co-pilot; Staff Sgt.
Russell L. Fleming, Xenia, Ohio;
Sgt. Earl J. Perkins, Painsville,
Ohio, and Second Lieut. Donald E.
Johnson, Lake Charles.

Patrolman Dies
From Heart Attack

HARLINGEN, Texas, April 25---
(AP)---Garvis F. Harrell, 37, U. S.
immigration service border patrol-
man, died yesterday from the
effects of a heart attack suffered
while chasing a suspected enemy
alien near the Rio Grande.

Harrell was brought to a hospital
here and died several hours later.
A discharged Marine veteran of this
war, Harrell came here recently
from Austin.

The suspect was apprehended
and lodged in jail here.

Tris Names His All-Star 1910-20 Nine

By CHIP ROYAL
 (P) Features Sports Editor
 CLEVELAND—Tris Speaker, rated by many as the greatest centerfielder of all time, is another baseball man who never selected an all-star team because he thought it was unfair to do it on an all-time basis.

But when Connie Mack suggested that (P) Features have five men pick the best players by decades, Speaker agreed to follow Mack and Honus Wagner.

So old "Spoke" names the all-star team he saw play during the 1910-1920 era.

Here it is:

Catcher, Ray Schalk, White Sox.
 Pitchers, Walter Johnson, Senators; Christy Mathewson, Giants; Chief Bender, Athletics.
 First base, George Sisler, Browns.
 Second base, Eddie Collins, Athletics.
 Third base, Buck Weaver, White Sox.
 Shortstop, Honus Wagner, Pirates.
 Utility infielder, Jimmy Dykes, Athletics.
 Outfielders, Ty Cobb, Tigers; Babe Ruth, Yankees; Joe Jackson, White Sox. Utility, Ed Kouch, Reds.

"Attempting to recall players of 25 years ago makes any selection a difficult job," says Speaker. "But I think this team would compare favorably with any you could name."

"I have not named a left-handed pitcher because I have Ruth in the outfield, and he was among the pitching greats of that time, in addition to being the outstanding outfielder," concludes Tris.

Let's look at Speaker's team.

He left off the best centerfielder during 1910-20. His name was Tris Speaker, a Texan who started as a spitball pitcher in the minors.

Anytime the hot stove league fellows get together, they always name Speaker as THE centerfielder. The modern gardeners are judged by the way they shape up against the Old Gray Eagle. He could cover ground out there like nobody's business.

Outside of that one omission Speaker's team is tough to beat. He included three players named by Wagner. They are Honus, the great shortstop, Mathewson and Cobb, two of the famous "Black Sox" of 1919, Weaver and Jackson, are named on Spoke's squad. But, most baseball men who were around in those days would agree that they have never been equaled by any team.

NEXT: Bill McKechnie names the All-Star team for 1920-1930.

Bud McCallum Out As A. I. Director

KINGSVILLE, April 25—(P)—A. Y. (Bud) McCallum, former University of Texas football star and 1920 athletic director of Texas College of Arts and Industries, says he has been dismissed from the faculty for the 1944-45 session.

McCallum said he had received a letter from A. and I. President Dr. E. N. Jones, which stated the action resulted from a regulation attached to the appropriation bill for the current biennium suggesting a minimum of 50 students per teacher.

The athletic director said he had been assured by Dr. Jones—who declined to comment on McCallum's dismissal—that the college president would recommend his appointment as "director of athletics and head coach upon resumption of inter-collegiate athletics at the conclusion of the war."

A. and I. football teams coached by McCallum tied for the Texas Intercollegiate Athletic association championship in 1931 and won it in 1932. They tied for the Alamogordo championship title in 1936 and 1937, won it in 1938 and tied for the flag in 1939.

Sports Roundup

By HUGH FULLERTON, JR.
 NEW YORK, April 25—(P)—The Giants lost the pennant yesterday.

Of course, not even the most enthusiastic Mel Ott fans were claiming the pennant on the strength of five straight victories, but most of them will concede that the Giants have a chance with Mel in the army. . . . And the news was considered so important here that it even was sent on the Dow Jones financial ticker. . . .

A ROOKIE A DAY
 Joe Wood, Jr., Red Sox pitcher: Son of "Smoky Joe" Wood, Red Sox speedball king of another era and a pupil of his dad at Yale and Harvard, Wood pitched in his first game yesterday at Fenway in a war plan, and won seven games. . . . Was an outfielder until his senior year at Yale, when he turned pitcher and fanned 12 Harvard in a 1-0 victory. Followed that up by attending a Harvard dance and cutting in on a Harvard man's girl. They were married the following summer. . . . If he tried anything like that with the Yanks, Charley Devens may make a comeback.

ELLSWORTH TAKES APPOINTMENT TO NAVAL ACADEMY
 AUSTIN, April 25—(P)—It's the United States Naval Academy for Ellsworth, who will manage the club; Frank Lamanna, Braves; Jack Graham, Dodgers, and six players from Class AA leagues.

SPORTS SHOES
 By HAROLD V. RATLIFF
 Associated Press Sports Editor
 DALLAS, April 25—(P)—West Texas State is resuming intercollegiate athletics after being out a year and here's why, says Gus Miller, athletic director.

"We have had an opportunity to observe the operation of our school without athletics the past year and we are more convinced than ever that it is essential to the progress of our institution."

Return of West Texas State means there will be nine colleges and universities playing football next season. Others are Southern Methodist, Texas Christian, Texas A&M, Rice, Southwestern, North Texas Agricultural college and Texas Tech.

North Texas State may resume competition in basketball and track, says Athletic Director T. J. Fouts, adding that whether there is a sports program at the teaching college will depend largely on scheduling games with service teams to be played in Denton.

And speaking of football, if you had a hard time finding a few whiskers on the faces of the 1943 college players in Texas, you'll need Sherlock Holmes magnifying glasses next fall.

"I think all of the teams will be made up of youngsters just as they were last fall," says Coach Homer Norton whose kids of Agrieland finished second in the Southwest conference race. "In fact, I believe we will find younger boys playing this year than we had last."

Blair Cherry, affable assistant coach and scout of the University of Texas, is doing his share toward taking the pressure off the Longhorns who have been conference champions two years in a row. Blair told a luncheon club luncheon that Texas had a good spring training season with good line prospects but would be shy on good backs and ends.

No use. Blair: The sports writers and coaches of other schools will make Texas the favorite. Not that everyone doesn't respect your opinion, of course.

1944 Baseball Crowds Larger By 35,000 Fans
 By JACK HAND
 Associated Press Sports Writer
 Baseball crowds were out to the ball parks today with some spare change jingling in their side pockets because 250,000 customers gave the national game a vote of confidence in the first week of the new season.

It's still too early to draw any line on what to expect when the hot weather and night games come along, but there's enough business in the house to top the 1943 opening week turnout by 35,000 paid.

Although figures are a little out of line because they include the opening day crowds, the attendance has been over 8,500 a game. Anything resembling this average throughout the season would surpass last year's total for both leagues of 7,146,639.

While the statisticians were at work on opening week figures, the Athletics enjoyed a day of rest as the only game scheduled, Cincinnati at Pittsburgh, in the National.

With a shift of scenery the unbeaten New York Giants and St. Louis Cardinals go back to work today, meet the men at Philadelphia and the Cardinals in Cincinnati.

Grid Squad Gets 'Works' In Practice

By BROWNWOOD EMERSON
 There were 23 husky Harvesters battling it out on the turf east of Boyles' half-acre Monday afternoon. Smacking hard tackles, whizzing passes, and—suddenly it is fall.

That was the scene that took place as the Harvester football squad entered its second week of spring training because it is spring doesn't mean that Otis Coffey, high school athletics director, hasn't put a genuine autumn punch into the practice.

The "younger generation" by Harvesters got pushed around plenty by their opponents, who included some stellar exes. Among these were Lefty Pendleton and Dick Bynum, who looked like giants having a game with junior high boys.

Not that the youngsters didn't acquit themselves pretty well, at that, for they did, but there was a startling contrast in the size of the two elevens.

Randall Clay, whose regular slot is at end, showed some new skill in the backfield. Kenneth Grantham also showed plenty of power and is going to make some gridiron history in District I-AA next season.

Kenneth Grantham
 No. 32 on the 1943 squad, Grantham weighs 147 pounds. Aggressive, in good condition, and with the experience gained last season to build on, he showed plenty of his peak gridiron ability this fall.

There was pep and power in every minute of a perfectly executed fake reverse inside tackle, good for 30 yards and a touchdown.

That was the game. In the B tilt, Bobby Boyles, young brother of All-Southwest Charlie, co-captain of the 1943 Harvesters team, lived up to the Boyles tradition by scoring on a 25-yard run around right end, his tie nmaig.

Director Coffey kept switching players faster than draft board regulations so that 44 boys took part in a game and 50 in the B contest, of 95 in all.

Highest number of boys out 100 ever since spring drill opened on April 15, when 93 boys came out the first day.

Stressed in the first week were stance, charging, tackling, blocking, passing and receiving, adding point after touchdown, and kickoffs.

Due to some repetitions in names, and other inconsistencies, not all of the names in the regular register of spring drill have been listed.

There are eight junior high boys in the squad, and these have been drilled in fundamentals but kept out of dangerous scrimmage against the older boys.

Gary's There, Too
 Among the additions to the entire list of griders are Jimmy Cox, Tommy Chisholm, Richard Gilman. There's even a Gary Cooper listed on the register and although the name sounded at first like someone imitating the name of the movie actor, that's honestly the youngster's name, according to the officials.

A boy the fans will have their eyes on next fall will be Kenneth Beezley, 170-pound back, as good as an natural passer as has been seen in a Harvester uniform in half a decade.

Grid Squad Gets 'Works' In Practice

Nine Dead

MONTREAL, April 25—(AP)—The crash of a twin-engine bomber in Montreal's downtown commercial district today killed nine persons, injured others and left a dozen dwellings wrecked and flaming.

Some eyewitnesses said the bomber exploded in the air, while others said it blew up after striking the building, sending fragments 50 feet into the air.

The plane apparently struck coming in over Shannon street, wrecking two tenement houses. Its fuselage came to rest in a mass of wreckage in which bodies could be seen.

One eyewitness said a member of the crew who parachuted was badly injured and taken to a hospital.

Japs Blown Out of Blockhouse

The photo above shows the aftermath of a remarkable incident in the capture by U. S. Marines of Namur Island on Kwajalein Atoll in the Marshalls. Thirty-six hours after the island was "secured" the huge concrete blockhouse in the background blew up, bursting the heavy steel doors. The Jap soldier standing with arms up stumbled into the open. Arrow indicates another, crawling from under the door. Between them lies the body of a third. Marines are ordering standing Jap away from building, which was roped off while bomb disposal squad checked on large supply of aerial bombs survivors said were stored inside.

CASSINO

(Continued from page 1)

In an attack. He told of being put in an ambulance, which was "pinned down" by artillery fire. "They gave me eight pints of blood that night, so I knew I was banged up pretty bad," he said.

Staff Sgt. James Whitaker of Menard was also hit by a German shell at Salerno. He was with the 36th division and was wounded during the landing at Salerno Sept. 9. "I was hit at 11:30 in the morning and by 3:30 that afternoon I was back on a boat headed for North Africa," he said.

One of the oddest accidents yet reported from any war theater got Cpl. Gordon H. Williams of Ben Wheeler, Texas. He was with an air forces ground crew.

"A transport plane was landing, and was about 150 feet overhead when it cut the tow rope loose from its glider. The rope caught me around the legs, and I was dragged about 75 yards, breaking both legs. I was busted in the head, too, when I was thrown against a weapons carrier on my ground flight."

Cpl. Billy Levine of Corsicana broke his left leg when he jumped into a pit during an air raid near Santa Maria on Nov. 26. "I was sure disgusted that if I had to be injured it happened that way," he said.

UNDERGROUND

(Continued from page 1)

sure. Similar action was expected in other countries, many Swedes believed.

Germans, Finns and Norwegians were to travel to Denmark from Sweden by ferry.

Swedes were not directly forbidden, but state railways refused to sell tickets to Denmark.

Telephone service between Sweden and Denmark has been shut down completely since last night except for official calls which still are coming through from Copenhagen.

Similar isolation developed on August 29, 1943, when the Germans took over control of all Denmark.

Former Pampa News Editor Writes Air Transport Article

An article by James Glasscock, former city editor of The Pampa News, titled "Air Transport," appears in the May issue of Flying, New York aviation magazine.

Glasscock, who was formerly a junior airport manager for Pan-American Airways, Africa, Ltd., describes how PAA built a 4,000-mile air line to Cairo in 60 days.

The article is illustrated with a one-half column picture of Glasscock in his PAA uniform, and of Douglas DC-3 being serviced in the jungle, and of natives gazing at a huge transport.

Pan-American built its line in 1941. When it was completed the British took it over. Tedious job of Glasscock's at that time was the translation of pounds to the British kilograms, their unit for loads.

Big Crowd Sees Snare Being Set For Veterans

To Mrs. Lewis Cox, mother of Pampa's newest Eagle Scout, fell the satisfaction, last night, of pinning the highest honor in Scouting on her son, Harold Cox, of Troop 16, sponsored by the Pampa Lions club. Harold in turn pinned a miniature Eagle pin on his mother.

This award is made by the National Council of the Boy Scouts of America, and is presented to local scouts for distinguished service to boys in the territory that the local council covers. Mr. Harrah served as council president in 1940 and National Council Representative in 1941, and the past two years has served as council treasurer.

Raymond W. Harrah, 421 N. Frost, was presented the Silver Beaver Award by Rev. Robert Boshen, president of the Adobe Walls Council. This award is made by the National Council of the Boy Scouts of America, and is presented to local scouts for distinguished service to boys in the territory that the local council covers. Mr. Harrah served as council president in 1940 and National Council Representative in 1941, and the past two years has served as council treasurer.

Raymond W. Harrah, 421 N. Frost, was presented the Silver Beaver Award by Rev. Robert Boshen, president of the Adobe Walls Council. This award is made by the National Council of the Boy Scouts of America, and is presented to local scouts for distinguished service to boys in the territory that the local council covers. Mr. Harrah served as council president in 1940 and National Council Representative in 1941, and the past two years has served as council treasurer.

One of the largest crowds ever to attend this ceremony was present to see Troop 16 open the ceremonies with presenting the American flag. Richard McCune, Eagle Scout of Troop 14, led the group in the Pledge to the Flag and the Scout Oath.

Troop 16 were winners of last night's court of honor ladder with a total of 1321 points; Troop 22, 1100 points; 3rd, Troop 19, with 1023 points; 4th, Troop 14; 5th, Troop 80; 6th, Troop 23; 7th, Troop 17; 8th, Troop 4; 9th, Troop 20; 10th, Troop 1.

The second class and life awards were presented by Judge Sherman White; First Class and Air Scout Awards by Raymond Harrah; Star and Eagle by L. G. Langston; Merit Badges by Rev. Robert Boshen. The meeting was closed by the group singing "God Bless America" led by Scoutmaster Olsen.

The following Scouts received awards: Second class: Troop 14, Jimmy Campbell, John Friuf, Jimmy Hill, George Kilpatrick, Bobby Morris, Jimmie Lee Newton, Robert Dean Stone; Troop 16, Richard James W. A. Howell, Earl Smith, Loyd Taylor, James Walters; Troop 19, Tommy Ferguson, Harold Turnbo; Troop 22, Paul Boswell, Emmett Forrester, Jr., Kelvin N. Troop 20, Vernon Fewell, James Galenore, Don Gantz, James Lewis.

First Class: Troop 14, Johnny Harrah; Troop 16, Frank Bonner, Gene Garrison, Harold McCray, Jackie Williams; Troop 17, Eddie Daley; Troop 19, Clell Breining, Eugene Cooper, Hugh Daniel, Samuel Daniel, Ray Jordan, Joe Ray Johnson, C. H. Keeton, Bobby Perkins, Norman Lee Sublett, Daniel Wilcox; Troop 16, Eddie Hanks; Troop 14, Fish, Jr. Life: Troop 16, Jim Bill Windsor.

Tenderfoot Air Scout: Troop 19, Ray Jordan, C. H. Keeton; Troop 16, Eddie Daley; Troop 14, Scott; Troop 16, Harold Cox, Jim Bill Windsor; Merit Badges: Troop 14, Malcolm Douglass, Reading, Home Repairs, Stamp Collecting; Jack Perry, Reading.

Troop 16, Monty Allison, Home Repairs, Firemanship; Frank Bonner, Safety; Harbord Cox, Business, Dairying, Aerodynamics, Farm Layout and Building Arrangement, Physical Development, Airplane Structure; G. D. Holmes, Jr., Reading, Carpentry, Firemanship, Home Repairs, Safety, Music, Jackie Williams, Animal Industry, Safety, Firemanship, Personal Health, Pathfinding; Jim Bill Windsor, Airplane Structure, Aerodynamics, Personal Health, Physical Development, Athletics.

Troop 17, Tommy Chisholm, Home Repairs, James Cox, Home Repairs; Eddie Daley, Pathfinding; Bill Gribbon, Pathfinding, Music; Roger Hartgen, Metal Work; Dan Roche, Wood Work, Pathfinding, Safety.

Troop 19, Hugh Daniel, Wood Work; Samuel Daniel, Carpentry, Wood Work; C. H. Keeton, Farm Layout and Building Arrangement, Wood work; Norman Sublett, Carpentry, Home Repairs; Daniel Wilcox, Home Repairs; Troop 22, J. D. Fish, Jr., Cooking; Troop 80, Bill Gantz.

Waste Paper Goes Back to Fight Again

An army travels on its stomach. And your waste paper keeps the food traveling ever food stuff as it arrives at a distant battlefield. Many battle is won and many a patrol is saved because of paper-wrapped rations. The waste paper you save will be reprocessed and go back to fight again as containers for vital food and medical supplies. Save a bundle a week and save some boy's life!

HOLLANDIA

(Continued from page 1)

Chamber, introduced visitors. Other cities and towns represented included Canadian, Clarendon, Miami, Berger, Kingsmill, Wheeler, Amarillo. There were also guests from the Pampa Air Field, including Cpl. George Bingham, who has an impersonation of Adolf Hitler and his interpreter in English.

Asserting that America had performed a miracle of production because people "like each other," Collins outlined some of the characteristics of the man with a well-rounded personality, and the man who is successful in business and social life. "The most salient characteristic of such persons," he said, "is the ability to see the other person's point of view. 'That is evident in this section,' he stated.

There is no rule, he said, on how to get along with people, but most people find a way.

To be liked by other people, one must have several attributes. Among them, he said, are:

Dependability, disinclination to exaggerate, modesty in telling other people what you know, willingness to help others, interest in other people and what they are doing, remembering other peoples' names, the ability to laugh.

There is personality in the handshake, he said, and in remembering other people's names, the latter of which is achieved principally through concentration, association and repetition.

The speaker, in summing up his address, which was well received by the audience, drew the case of the little boy and his father, who wanted to read and not be bothered by the child. The man tore from a book of maps the map of the United States, and subsequently tore it into small pieces. He told the child to put it together for entertainment. Presently he completed the task, and more quickly than the father had anticipated. The child, asked how he did it, said he remembered the face of the man on the other side of the map. I pieced it together, and then turned it over and there was the map."

"We must get the individual in the right shape," the guest speaker emphasized, "and the country's all right."

From Pampa Mr. Collins and his party will go to Amarillo, where he was to have appeared yesterday, but did not arrive in time. From there they will proceed to Roswell and thence to Albuquerque. He will speak at all these places, he said last night.

Mr. Collins was a guest at Pampa four years ago.

Solons Protest Davenport Ouster

WASHINGTON, April 25—(AP)—Rep. Milton H. West and Sen. Tom Connally, Texas Democrats, they have protested to selective service authorities against the removal of Herbert Davenport from the Brownsville, Texas, draft board.

Davenport was dismissed by Maj. Gen. Lewis B. Hershey, selective service director, effective April 12.

West said Hershey was not in the city and that his action resulted from yesterday's meeting during which he and Connally demanded reconsideration of the matter. West said they would consult with Hershey when he returns probably later in the week.

West and Connally expressed confidence in Davenport, and although professing no knowledge of the details which might have precipitated his dismissal, asserted they were satisfied the trouble was caused by the firing of Davenport "would not be led around by the nose."

Big Crowd Sees Snare Being Set For Veterans

Thousands of crooked schemers are readying their choicest confidence games to separate the returning war veteran from his mustering-out pay; they are already grabbing for the War Bond savings of his family, warns the Northwestern National Life Insurance company, in a report by its family economics bureau.

Job-hungry veterans are liable to be easy prey for plausible employment bait, the report says. Swindlers advertise attractive jobs, but require applicants to deposit a cash bond; then disappear with the accumulated deposits. Certain fake employment agencies collect a substantial registration fee, and do nothing in return. Partnerships are sold in juicy looking business propositions that turn out to be unprofitable and debt-ridden, or complete snares.

Shares in inventions for post-war manufacture, of doubtful practicality or downright fakes, worthless or overpriced farm lands, "territorial rights" for the sale of some article or service, said rights offered for a fancy price and frequently sold to several others for the same territory—any of these is likely to tempt the veteran with a starting stake of several hundred dollars in his pocket from Uncle Sam, and eager to get going at something productive.

Better Business Bureaus in various cities report that "bird dogs," as they are known in the racket field, are already operating telephone campaigns to find out who owns War Bonds, and how much his or her savings amount to. The impression is skilfully conveyed that the inquiry is being made by government or civic organization. In this way extensive "sucker lists" are undoubtedly being compiled, the report says, for the avalanche of new and remodeled frauds and rackets just beginning to break into the open.

Families of war heroes are already being solicited by various biographical and historical rackets, ostensibly compiling volumes of laudatory biographical records. As distinguished from legitimate publishing projects, the racketeer's request for biographical data is generally accompanied by a cleverly disguised "authorization" to be signed, which turns out to be a purchase contract to buy a set of the volumes at a high price, or else he later requests advances of money for photographs, engravings, or on other pretexis. In this type of racket the volumes may never be published, or else only enough are printed to supply the victimized families who have contracted to pay fancy prices for them.

ESTATE GOES TO WIFE, CHILDREN

FORT WORTH, Texas, April 25—(AP)—On file with the county clerk here is a deed of trust conveying Col. Elliott Roosevelt's share of all community property to the Continental National Bank and to his former wife, Mrs. Ruth Goggins Roosevelt.

Mrs. Roosevelt and her former husband, son of the president, were divorced here last week. She and the bank were named trustees of the property, to be held in trust 20 years for the benefit of the Roosevelt's three children, Ruth Chandler, Elliott, Jr., and David Bownton.

Executed at the United States embassy in London, the deed was dated March 24 and covered ranch property near Benbrook and Roosevelt's interest in the Texas State network, the Alamo Broadcasting company, Tarrant Broadcasting company and the Fort Worth Broadcasting company.

Roosevelt retained title to three Arabian horses and three colts.

Solons Protest Davenport Ouster

WASHINGTON, April 25—(AP)—Rep. Milton H. West and Sen. Tom Connally, Texas Democrats, they have protested to selective service authorities against the removal of Herbert Davenport from the Brownsville, Texas, draft board.

Davenport was dismissed by Maj. Gen. Lewis B. Hershey, selective service director, effective April 12.

West said Hershey was not in the city and that his action resulted from yesterday's meeting during which he and Connally demanded reconsideration of the matter. West said they would consult with Hershey when he returns probably later in the week.

West and Connally expressed confidence in Davenport, and although professing no knowledge of the details which might have precipitated his dismissal, asserted they were satisfied the trouble was caused by the firing of Davenport "would not be led around by the nose."

ELECTIONS

(Continued from page 1)

to be chosen. Sixteen were selected yesterday. Republican leaders say Kentucky's 22 votes would go to Gov. Simon Wells on the first ballot at the national convention and then to Dewey.

From New York came a report that a meeting of anti-fourth term Democrats from New York and several other states, was held in New York City last night. Source of the report—Gleason L. Archer, chairman of the American Democratic National committee, did not name the states.
