Early Outlines FDR's Mass-Bombing Policy

NEW YORK, April 26.—(AP)—President Roosevelt disagrees with the views of 28 clergymen and writers who protested last month against "obliteration bombing" of enemy-

Methodists Go To Conference

KANSAS CITY, April 26.—(AP)—The Methodist quadrennial conference, law-making body for 8,000,000 adherents, convened here today in celebration of the 200th anniversary of the church's first conference and to chart a course for the future.

Church historians recalled that the first conference, called by John Wesley in June, 1744, was held in an old cotton factory and was attended by only ten delegates, six ministers of the Church of England who had embraced Methodist doctrine and four lay preachers.

Bishop H. Lester Smith of Cincinnati presided over today's opening session at which Bishop Herbert Welch, retired, New York, conducted a communion service for the 782 delegates, who then plunged into the work of appointing committee chairmen and organizing the conference for the business which is expected to keep it in session until May 7.

Reviewing the church's growth, statisticians declared unofficially that in addition to its active membership of 8,000,000, there are 12,000,000 others who lean toward its doctrine but have not joined. One person out of seven in the United States, they explained, writes "Methodist" when asked his church preference.

The most important business of the day will be a voluminous report tonight on the council of 54 bishops, presented by Bishop Arthur J. Moore of Atlanta. It will deal with achievements and failures since the last conference, and also offer recommendations for the future.

Bishop John M. Moore, Dallas, retired, assisted Bishop Welch in administering the sacrament, aided by other bishops including A. Frank Smith, Houston, Tex.

Shamrock Gunner Awarded Air Medal

SPECIAL TO THE NEWS. SHAMROCK, April 26.—(AP)—T. Sgt. William V. Childers, whose father, George Childers, resides on Dozier route, Shamrock, was awarded the Air Medal during recent ceremonies held at the 15th AAF bomber base in Italy.

T. Sgt. Childers, an aerial engineer and gunner on a B-17 Flying Fortress, was awarded the Air Medal for his repeated bombing flights over enemy territory.

The commanding general congratulated the 30-year-old gunner, saying: "You have done a wonderful job, Sergeant, Good luck."

Sgt. Childers was inducted into the army on Sept. 24, 1941, and has completed 14 months of foreign service.

President Signs New Appropriation

WASHINGTON, April 26.—(AP)—President Roosevelt has signed a \$1,350,000,000 treasury-postoffice appropriation bill for the fiscal year starting July 1.

I SAW...

Pampa High looking like reunion time with seven ex-harvester football stars back in town at the same time. They are Basil Arnold, W. C. (Left) Pendleton, Richard W. C. Eymann, A. G. REDS DRIVE WEST

Japs Give Weak Resistance

US Forces Besieging Hollandia

By RICHARD BERGHOLZ Associated Press War Editor

American sixth army troops continued their virtually unopposed sweep through Japanese positions at Hollandia, Dutch New Guinea, and were last reported within artillery range of the big Hollandia airfield.

Allied headquarters approved release of the statement by Associated Press Bureau Chief C. Yates McDaniel that "fall of Hollandia airfield is imminent" and permitted correspondents to speculate whether Japan has pulled most of her estimated 60,000 trapped troops out of Central and Northern New Guinea.

No major opposition has been met yet by columns of Americans converging on Hollandia. Cyclops and Tami airfields in the Hollandia sector, nor by other sixth army forces which captured Tadiji airfield near Aitape, 150 miles south-east of Hollandia.

One Japanese plane raided the Hollandia beachhead, headquarters said, causing moderate damage and some casualties. Central Pacific headquarters announced the two-day conquest of strategic Ujelang atoll in the Western Marshalls, only 44 miles east of Truk in the Carolines and 264 miles from hard-hit Ponape, Truk's southern guardian, Japanese resistance to Ujelang was weak.

Central Pacific fliers also struck at Taongi, northernmost atoll in the Marshalls.

Men Under 26 Will Come First

WASHINGTON, April 26.—(AP)—The military committee members saw in military selective service figures today an indication that, barring a big upset on the fighting fronts, draft calls for the rest of this year will be filled mostly by men under 26, with few fathers over that age being inducted.

However, in making that prediction, Chairman Costello's committee and other members of the draft subcommittee emphasized that if strategic plans require unusually large calls in some months larger numbers of older men must be called.

Figures given Costello's committee by selective service showed a pool of 1,509,000 fathers and 750,000 non-fathers in Class 1-A on April 1. Just how many of these were under 26, the report did not show, but a recent selective service report estimated that more than 25 per cent of the 1-A's would be inducted.

Camacho To Visit U. S. in Two Weeks

LAREDO, April 26.—(AP)—The Laredo Times was advised by telephone by General Maximino Avila Camacho, secretary of communications and public works of Mexico, that he plans a trip by private plane in about two weeks to several Texas cities, St. Louis, and Washington, D. C.

Committee Takes Shot At Draft Deferments

WASHINGTON, April 26.—(AP)—The interior department's draft deferment policies for its white collar workers drew the fire today of the house appropriations committee, which asserted that the situation "must be eliminated without undue delay."

In a report accompanying submission to the house of the department's \$87,672,580 supply bill for the fiscal year starting July 1, the committee said it was "disappointed" at the department's requests for deferment of draft-age personnel.

On Feb. 15, the report related, there were 6,696 male employees between 18 and 38 in the department and 2,221 of them held occupational deferments, 2,073 of whom were deferred at the specific request of the department.

Secretary Jekes defended the department's deferment policies when he testified in support of the appropriations. He considered the government, Jekes said, "important enough of itself to merit deferment of key workers."

The committee also criticized the department's office of Indian affairs, which it said "needs a thorough overhauling and reorganization."

The committee trimmed \$9,151,672 from budget estimates in approving the \$87,672,580 outlay, which is \$26,279,496 below the current year's appropriation and \$247,672 below the minimum Jekes said was necessary.

The committee cut the amounts requested for every agency of the department. Allocations included: Southwest Power Commission, \$140,000, cut to \$10,000; Bureau of Reclamation \$13,783,000, cut \$5,342,000; Geological Survey \$6,558,169, cut \$494,810; Bureau of Mines \$12,726,855, cut \$452,870; National Park Service \$4,736,810, cut \$93,995; Fish and Wildlife Service \$5,828,350, cut \$534,850.

Dry Weather Delays Farming

AUSTIN, Texas, April 26.—(AP)—Continued dry weather in Texas has checked planting and growing of spring crops, the United States department of agriculture reported today in a survey of conditions for the week ending April 23.

The week was mostly favorable for preparation of seed beds, but some damage to growing crops because of dry weather has already been reported from western areas. In the northern counties, no extensive acreage of spring crops had been planted. High winds over the state depleted surface moisture and rain was needed to pulverize soil that had been ploughed too wet, the USDA found.

Livestock were in generally good condition, but range feed and pasture growth was at a standstill in several wide areas south and west because of the lack of moisture and stock water was short in a number of western counties.

Sheep were in generally good condition and shearing is proceeding with fairly good fleeces reported. Range feeds in the main sheep country have declined.

Prime Minister Reassures Britons

LONDON, April 26.—(AP)—Prime Minister Churchill told the house of commons tonight that the United States developments calling for review by the government of the existing position with respect to western hemisphere bases, leased to the United States.

Asked for an assurance that no move would be made to cede the bases outright to the United States without the consent of the British people, Churchill said: "There is not the slightest question of any cession of British territories—not the slightest."

Vinson Testifies For Price Control

WASHINGTON, April 26.—(AP)—Stabilization Director Fred M. Vinson said today "price control is a proven success" and added the administration intends to stick by its food price subsidies and its formula for holding down prices.

Vinson, appearing before the senate banking committee in behalf of legislation to extend the price control act, testified that business, labor, farmers and landlords all have prospered but that inflation at the same time has been prevented.

WEST TEXAS. Generally fair this afternoon, tonight and Thursday, cooler this afternoon and tonight.

Manpower To Be Discussed Here Thursday

All employers of plants and business institutions engaged in production or servicing of war materials or essential products or services are invited to a meeting in the district court room tomorrow at 2 p. m., where the manpower situation will be discussed.

The meeting is being held at suggestion of F. A. Wells, director of the War Manpower commission in the Panhandle territory.

The meeting will be presided over by Wells who will conduct a round table discussion first, giving employers an opportunity to discuss their manpower needs and to make suggestions as to how these needs might be met or partially met by cooperative effort to secure more workers in essential industry in and around Pampa.

S. M. Goodlett, Jr., of Pampa, who is a member of the area management-labor committee of the War Manpower commission, will attend, as will Otis R. Terry, manager of the U. S. Employment service.

Estranged Man Kills Wife, Self

HOUSTON, April 26.—(AP)—George Albert Mobley, 35, fired three bullets into the body of his wife, Marjorie, 30, fatally wounding her, then killed himself in their three-room apartment here last night, an inquest verdict held.

The shooting occurred as the young woman was married March 13 helped him pack his belongings preparatory to a separation. He talked with her in an effort to effect a reconciliation, according to police, and falling, pulled a pistol and started firing.

The bride's mother, Mrs. Levie Hardy who lived with them in the small apartment, was a witness to the tragedy.

She looked on with horror as her daughter, screaming for mercy collapsed under the fire from the pistol. Her son-in-law then quietly sat down on a couch and fired a bullet into his heart, killing himself instantly, she told police.

An inquest verdict of murder and suicide was returned by Justice of the Peace W. C. Ragan.

Senate Committee Okays Lend-Lease

WASHINGTON, April 26.—(AP)—The senate foreign relations committee—after one of its shortest hearings on record—today voted its approval of the lend-lease extension bill, already passed overwhelmingly by the house.

Foreign Economic Administrator Leo T. Crowley told the committee today the lend-lease program must be continued "until the United Nations' armies finally march down the streets of Berlin and Tokyo."

RUSSIA—Sixth army Reds attacking on broad front.

LONDON—American heavies smash at Brunswick without loss.

INDIA—British tighten grip on Imphal-Kohima area.

ITALY—Allies improve Anzio beachhead positions.

PACIFIC—Sixth army continues sweep through Hollandia.

Tehuacana Man Admits Assault

WACO, April 26.—(AP)—Assistant District Attorney Nash Oliver of McLennan county said today Herman East, 34, of Tehuacana, had made a signed statement in connection with the beating of Mrs. Agnes Ward Davis, 31, and robbery of the Brannon Insurance office at Mexia, and that officers had left with East for Tehuacana.

East, held on an assault with intent to murder charge in the case, was brought here last night from Groesbeck, in Limestone county. He was arrested several hours after Mrs. Davis was found at Mexia yesterday in the insurance office, her skull beaten and her hands broken.

Capt. M. Burton and Detective W. E. Westmoreland of the Waco police force left for Tehuacana with East and were to meet Limestone officers there.

Mrs. Davis was reported much improved at Mexia today. An audit showed \$259.33 missing from the insurance office, and the owner said that in addition there was some loose cash unaccounted for.

Mrs. Davis was found lying across the connecting doorway between an inner office and the outer office, and Mexia officers theorized that she grappled with her assailant across the room and over to a window, then tried to get into the inner office.

A bloodstained iron rod was found in the office.

Mrs. Davis was quoted by her employer as saying that she was

Patton Says Destiny Is To Rule World

LONDON, April 26.—(AP)—Lt. Gen. George S. Patton Jr., declared yesterday that it was the destiny of the United States, Britain and Russia to rule the world and added that for that reason they should "see more of each other."

Speaking at luncheon opening a British club for American soldiers, Patton said: "Undoubtedly it is our destiny to rule the world—we Americans, the British and, of course, the Russians. Therefore, we should see more of each other."

An earlier version of the speech published by the British Press association had quoted Patton as referring only to the U. S. and Britain, but the general said this was incorrect.

The state department gave every evidence of pursuing the request to Sweden insistently, despite the rebuff incurred when the Stockholm foreign office delivered the note of refusal to the American minister last Saturday.

The moral obligation of the United Nations, it was said, will be to make available the supplies they have as equitably as possible with first consideration being given to those countries which have cooperated with the Allied effort.

Demos Would Ignore Chicago Convention

COLUMBUS, Texas, April 26.—(AP)—Thirty-five democrats in preliminary caucus here have unanimously adopted a resolution that the democratic party in Texas should not take part in the national democratic convention at Chicago in July.

He asserted this resolution and others adopted at the caucus, over which he presided, would be pressed at precinct, county and state conventions.

The resolutions preamble asserted the national organization had abrogated the two-thirds rule for nominating presidential candidates and actively advocated federal interference with local self-government such as that undertaken during the southern reconstruction period following the Civil War.

"The south is absolved of any duty or allegiance to the national organization of the democratic party" said the local group's resolutions and Seymour said other resolutions approved included one stating that the state convention should support a plan for calling a democratic convention to be participated in by the democratic party in all states which did not choose to take part in the Chicago convention and another that the Texas convention should make nominations for offices of president and vice president of the United States.

Five One Garage, 600 S. Cuyler, Ph. 51—Adv.

Brunswick Hit Today, No Losses

By The Associated Press The Red army, it was reported today by an authoritative Soviet war review, will drive into Germany in a mighty continuation of its 1944 offensive to finish off Adolf Hitler's legions and bring about the Nazis' final capitulation in close collaboration with the Allies.

Meanwhile, Brunswick, central German aircraft building center, came under the sights of 1,000 or so American planes today in the great anti-convoy air invasion of Europe, prelude to the real thing.

Romanian and German accounts asserted that the Russians had opened an offensive on a broad front along the lower Dnepr river between the Carpathians and the Black Sea—aimed apparently at the Galati gap between the mountains and the Danube Estuary. Seizure of the gap would wrest most of the Balkans from the enemy.

Not a bomber was lost over Brunswick and other unnamed targets in western Germany. Six fighters fell to ground fire. The pilots said they sighted not a single German fighter, despite loud Nazi ultimatums that "fierce air battles" were fought over Germany.

In sequel to Turkey's embargo on further chrome shipments to the enemy, a British military mission reached Ankara to resume conversations with the Turkish general staff.

The Germans and their puppets said the Red army struck after a strong artillery barrage and with appreciable air support. Break-throughs were acknowledged, but the Nazis insisted they were "sealed off" in "a complete defensive victory."

See BRUNSWICK, Page 6

Neutrals Are Own Masters

WASHINGTON, April 26.—(AP)—The extent to which neutrals cooperate with the Allies in cutting off strategic shipments to Germany turned out today to be a standard on which they may rely to seek Allied help in reconstruction after the war.

This rule was applied specifically in the case of Sweden, which has rejected an American request to stop shipping ball bearings and other items directly aiding Germany's war machine. The Swedes were not asked to halt all trade with Germany, as the Turks recently were, the theory apparently being that their position was not equally independent.

The state department gave every evidence of pursuing the request to Sweden insistently, despite the rebuff incurred when the Stockholm foreign office delivered the note of refusal to the American minister last Saturday.

The moral obligation of the United Nations, it was said, will be to make available the supplies they have as equitably as possible with first consideration being given to those countries which have cooperated with the Allied effort.

St. Bernard Turns Army Guinea Pig

MOROCCO ARMY AIR BASE, Calif., April 26—(AP)—Major is a St. Bernard dog attached to this base, but he's not the snow-plodding type with a bottle of rum tied around his neck. As a parapooch, he's introducing a new and exciting role for St. Bernards.

The 150-pound canine is the willing subject of army experiments to determine if such dogs, with their proverbial ability in life saving, can be dropped from planes to aid service personnel stranded on icy wastes.

Col. Ralph A. Snavely, commanding officer, says Major has made seven high altitude jumps with a regular-size parachute. The dog, he reports, doesn't seem to mind wearing a specially fitted oxygen mask.

Rise in Mental Disorders Seen

DALLAS, April 26—(AP)—Prospects of a steadily mounting incidence of nervous and mental disability among both soldiers and civilians as demands of total war bring increasing complications and strains on virtually every phase of human existence has been forecast by Dr. H. P. Hoyle of Macon, Mo., specialist in mental diseases.

Dr. Hoyle addressed the Texas Association of Osteopathic Physicians and Surgeons at the opening yesterday of its three-day convention.

The speaker urged a vigorous campaign in the field of mental disorders.

Dr. H. V. Halladay of Big Spring, Tex., discussed treatment for slipped cartilage between the joints of the spine.

Synthetic Beads For Postwar Gas

NEW YORK, April 26—(AP)—Lovely, synthetic beads which some women will wear as necklaces after the war, also will be used to manufacture much of your postwar gasoline.

The beads are the size of medium pearls, translucent, nearly white. Costume jewelers have been asking for them, but getting none, because the beauties are the newest, and some claim the best way, of making warplane 100-octane gasoline.

The beads are catalysts, their composition secret and called the most important single gasoline-making advance in a decade which was already notable for many petroleum miracles.

At present the entire production is planned to go to 30 new war fuel plants, most of them still under construction.

These synthetics are extremely hard. They appear absolutely solid, but actually they are perhaps the most completely porous things in the world, honeycombs of invisible corridors.

The beads and thermoform catalytic cracking process which employs them were developed by the socony-vacuum oil company. Most of the new plants are being erected by the Lummus company.

The beads are claimed to give greater yields of gasoline varying from 15 to 30 per cent over other cracking processes, and to give greater power yields ranging from 23 to 35 per cent.

Leaves From A Correspondent's War Notebook

By GEORGE TUCKER (Substituting for Hal Boyie)

WITH THE FIFTH ARMY IN ITALY, April 25 (Delayed)—(AP)—Lt. Howard M. Soper, of Jackson Heights, N. Y., a platoon commander in "Quigley's Great Killers" was describing the exploits of the mechanized unit commanded by Capt. Hugh E. Quigley of Nitley, N. J., which holds a part of the American line.

"I don't like to brag," he said, "but I'd undertake any job in the world with these men. They'll do anything you tell them and no questions asked."

"Crabtree, tell 'em how it feels to have machinegun bullets hitting two inches from your nose and kicking up mud in your face."

Sgt. Philip R. Crabtree of Union, Maine, and his pal, Sgt. Clyde E. Aubury of Swandale, W. Va., looked at each other and Crabtree began:

"It's a funny feeling, I guess. The funniest feeling I ever had."

"We had crossed a little river and the Germans were coming at us from both sides. We threw out skirmish lines and the lieutenant and I were lying on a little table of ground when three Krauts suddenly leaped out and planted a machinegun pointing directly at us."

"I said, 'for God's sake, lieutenant, if we don't shoot now we'll never shoot,' but he said, 'don't fire until I give the order.'"

"At the order we both fired and he leaped to the left, but I couldn't move and was pinned down flat with a stream of machinegun bullets digging into the ground within inches of my face. That's when they almost had me."

"I tried to move half a dozen times but couldn't move an inch. Just then I saw one of my pals standing down to the left of my

position in a creek, and he yelled to the Germans:

"If this gun will fire I'm going to get you—"

"His gun had too much water in it and I could see him trying to

get a rifle grenade on it.

"After what seemed hours but was really only minutes, he got it going and scored a direct hit with a grenade."

"I was up then and knocked two

Krauts down. It was really a nice little scrap while it lasted, nice and hot with plenty of mortar and machine pistol fire for trimmings."

DISPATCH TO ALL STOREKEEPERS...

From the fighting fronts to the merchants of this city comes a desperate plea—SAVE WASTE PAPER!

Paper to make bomb rings, shell containers, helmet linings—to pack and protect food, ammunition, and blood plasma. Over 700,000 items needed by our armed forces are made of paper or wrapped in it.

So urgent is the need for waste paper that today it tops the list of all the materials

critically needed for war.

In retail stores in this city tons of precious waste paper are daily being destroyed. Used wrappings, cartons, packing boxes, old bills and records are being burned or thrown away when they should be going into the muscle and sinew of our war machine.

Save every scrap of waste paper—bundle it—phone this newspaper for collection information. Do it today!

Purr-r-r-s just like Daddy's Car

A sweet-running motor doesn't just happen, especially in a car that is three or more years old. It is the result of the owner's good driving habits, of regular service, and the use of a quality lubricant.

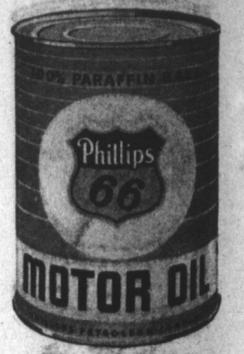

These facts are so clear, so well understood by most motorists, that it is practically a proverb that "good oil is cheaper than repairs."

Today, with both practical and patriotic reasons for prolonging the life of every automobile, no sane car owner will risk using anything but high quality motor oil.

That is why his most frequent question is: How can I judge quality? How can I be sure? The answer is easy: Phillips tells you simply and frankly that if you want our best oil, we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to average motorists!

These are days when cars must last. Hence experts now recommend changing oil every two months. Do the wise thing, do the safe thing, by asking for Phillips 66 Motor Oil when draining winter-worn lubricant or making regular changes.

CARE FOR YOUR CAR—FOR YOUR COUNTRY

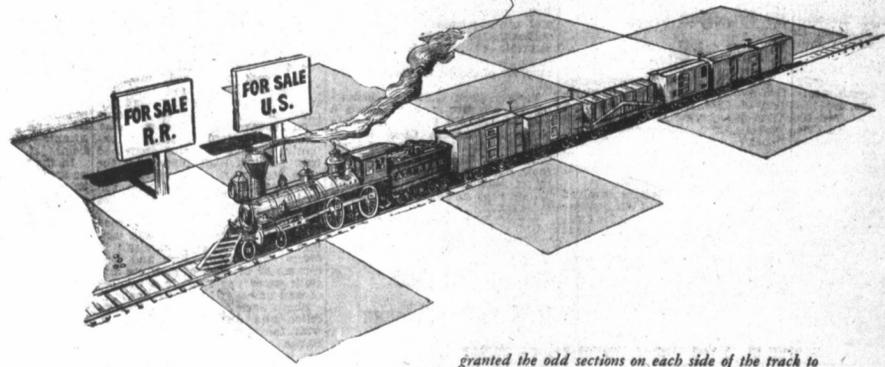

It's Phillips Finest Quality

PROVED IN 50 BILLION MILES OF SERVICE

The Railroad "Land Grant"

as seen by Santa Fe

* To speed the settling of the West, our nation wanted railroads pushed across great unsettled areas to develop rich but distant regions and to bind the country together for military and other reasons.

In the 1850's and 1860's, to encourage railroads to push their tracks into the undeveloped territory, Congress

granted the odd sections on each side of the track to the railroads, with certain "strings" attached, and these grants varied in depth up to several miles.

The even sections retained by the government were for the most part sold to settlers at a substantial increase in price.

The Land Grant policy was very helpful in getting the railroads started in those early days. BUT...

Isn't it out of date today?

In return for their Land Grants, the railroads were required, for all time to come, to haul government passengers, freight, and mail at rates far below those applicable to ordinary traffic.

Since the Land Grants were made, railroads have paid out in reduced rates on government traffic many times the amount they have received from these Land Grants.

In the case of the Santa Fe, here are the figures: In more than 80 years which have elapsed since the

Land Grants were made, Santa Fe's net realization from these lands has been about \$23,000,000. In 1943 alone, the government received from Santa Fe, in the form of rate reductions, approximately \$40,000,000.

Many governmental agencies as well as private shipper groups are convinced that the time has arrived for the entire repeal of these burdensome Land Grant requirements.

Missionary From China Speaks At LeFors P. T. A.

Miss Millie Hundley of Claude missionary to China for 20 years, who returned last December on the exchange ship Gripsholm, spoke at the regular meeting of the LeFors P. T. A. on Thursday evening.

"Christianity, which is Truth, must play a part in the peace terms, else all sacrifices will have been in vain," said Miss Hundley, as she told of her work, experience, and observations in China.

Other numbers on the program included: "God Bless America," sung by the audience under the direction of L. B. Penick; devotional by the Rev. M. S. Daniel; and "Carolina Moon" and "That Wonderful Mother of Mine" sung by La Rue Kessler, Marguerite Crawford, and Delia Rife.

The senior class, sponsored by Mrs. Lulu B. Owen, won the room count.

Ogle-Robson Vows Are Said Saturday In California

Special To The NEWS. SHAMROCK, April 26—Miss Mildred Ogle became the bride of James C. Robson Saturday evening at eight o'clock.

The nuptial vows were spoken at the Colonial Wedding Chapel in Lynwood, Calif., with the Rev. C. E. Venable, pastor of the First Christian church of Compton, Calif., officiating reading the double ring service.

The altar of the chapel was banked with palms, fern and tall baskets of white lilies flanked with ten-branched candelabra.

Attending were: Mrs. W. B. Turner, Mrs. G. E. Fitch, Mrs. S. W. Brandt, Mrs. J. F. Webb, Mrs. W. T. Broxson and Mrs. Burnett.

Mrs. Joe Myers was hostess for an all-day meeting and covered-dish luncheon was held.

Mrs. Joe Myers was hostess for an all-day meeting and covered-dish luncheon was held.

YOUR GARDEN

Kohlrabi is the most peculiar member of the cabbage family. It is like a turnip produced on the top of a cabbage root, entirely above ground. It is a cool weather vegetable and plants must be set out or seed sown as soon as the ground is ready in the spring.

Seeds of kohlrabi, or other early vegetable, between row of corn for early companion crop.

Kohlrabi is grown in the northern states as a spring vegetable but in the south as a fall or winter crop. The most popular varieties are Early White and Purple Vienna.

Both mature in about nine weeks from sowing. Lime should be worked into the soil early in the season and a side dressing of fertilizer applied after planting.

Cultivation should be very shallow and care must be exercised not to injure the plants or roots.

Pests and diseases common to the cabbage family also trouble Kohlrabi, so their treatment and control is similar. Soil moisture is important, a drying out will result in tough and fibrous vegetables.

One packet of seed grows 50 feet of row, or 100 plants.

Salsify is a hardy plant grown for its fleshy root which, having the flavor of oyster, is often called Oyster Root or Vegetable Oyster.

Salsify is easy to grow and has no serious pests. Seed is sown about 120 days before the first autumn frost. The roots are lifted in October for winter use or left in the ground over winter for use in early spring.

Salsify seed should be treated with Sperton or red copper oxide before sowing to insure better germination. One packet of seed will provide a family of five about 120 roots. This means 20 feet of plants. Seed is sown one-half inch deep and covered with sand.

Thin the seedlings to stand two to three inches apart. The most commonly grown variety is Sandwich Island Mammoth which produces round, smooth, thick roots.

It is estimated that 25 billion dollars have been expended since 1910 on the United States highway system.

RATION CALENDAR

Pampa City Wide Pickup

You wouldn't burn war material such as helmet linings, camouflage nets, shell containers and blood plasma boxes. Then don't burn paper — for paper makes them all! Paper is desperately needed wherever our men are fighting. They depend on paper for the more than 700,000 war articles that are made or wrapped

with it. Today paper for such purposes is critically short! If you burn paper, you're destroying a vital war material—you're endangering American lives. Start saving waste paper today—used boxes, cartons, newspapers, and magazines. Don't burn them. Turn them in—now!

Newspapers: Fold them flat (the way the paper boy sells them) and tie them in bundles about 12 inches high.

Magazines and Books: Tie them in bundles about 18 inches high.

Corrugated and Cardboard boxes and cartons: Flatten them out and tie them in bundles about 12 inches high.

Wastebasket Paper, Wrappers, Envelopes, etc.: Flatten and pack down in a box or bundle so that it can be carried.

WASTE PAPER

Friday & Saturday

April 28th & 29th

Your country is calling on you tomorrow! Calling for waste paper—our greatest war material shortage!

Our fighting men must have paper!—for ammunition cases, helmet linings, bomb bands, food and blood plasma containers. Paper has over 700,000 critical war uses.

But waste paper is scarce! Reserves are

dangerously low! Americans must turn in 8,000,000 tons this year!

Every day should be waste paper day in your home.

But tomorrow is the day to put waste paper out for collection.

Have your waste paper bundled, tied, ready . . . and start saving more . . . to help win the war faster . . . to bring more boys home safely!

REMEMBER

Have all your waste paper bundled and tied according to instructions. Put it out on the curb to be picked up by trucks Friday and Saturday.

This is what Chairman Donald M. Nelson of the War Production Board says about the paper shortage:

“Millions of paperboard boxes containing food, ammunition and a thousand other items are being sent overseas to our fighting forces every week. Waste paper is one of the chief raw materials from which these containers are made. It is being converted into the actual weapons of war . . . bomb bands, wing tips, parachute flares, shell protectors, medical kit covers, ammunition chests and blasting powder kegs. “The success of this all-important campaign depends on the patriotic and immediate cooperation of everybody.”

How Waste Paper goes to war

The waste paper you collect, bundle and turn in is rapidly reprocessed into war paper for our fighters. They use it in over 700,000 ways. They must have it. So never burn or throw away waste paper—turn it all in—now! Here's how it's used:

PAPER-WRAPPED SUPPLIES by the ton are stored here in a gigantic pantry of the U. S. Naval Base in Londonderry, Ireland.

PAPER-WRAPPED SUPPLIES, transported by these Papuan natives, are carrying the stuff of life itself to troops in the South Pacific.

PAPER RATION "K" CONTAINERS are doubly important to these jungle fighters who depend on strength and vitality for their lives.

In Patriotic Support of the U. S. VICTORY WASTE PAPER CAMPAIGN

Kewanee Man Gets Air Medal

A citation, Air Medal, and oak leaf cluster has been awarded S/Sgt. Gordon Wayne Giddens, son of Mr. and Mrs. E. N. Giddens, who reside at the Kewanee camp, 4 1/2 miles northwest of Pampa.

Sergeant Giddens was assistant engineer and gunner on a Flying Fortress shot down over Germany on January 11, and is now a prisoner of war in Germany.

Brig. Gen. Robert H. Dunlop, Washington, D. C., War Department, wrote to the sergeant's parents that the decorations would be sent to the commanding general of the eighth service command, Dallas, who would forward the awards to them.

The citation was given for participation in 10 bomber combat missions over enemy occupied territory in Europe.

Sergeant Giddens attended elementary schools in Pampa; was on the high school football team; graduated from Pampa High school in 1940.

He enlisted June 1, 1942, in the air corps, has been overseas since September, 1942.

Sgt. Giddens has a brother, Sgt. Jimmy Giddens, in India.

KILL HER! She's a disease-carrying DEMON!

Quick! Get the FLIT. Save yourself from the bite that brings burning-chilling miseries of malaria. Yes! Flit kills Anopheles, the malaria mosquito, as surely as it mows down common household mosquitoes. So why take a chance? Help protect your family from this winged scourge... buy a big supply of Flit, today!

Kills flies, ants, moths, bedbugs and all mosquitoes.

BE SURE IT'S FLIT! ASK FOR THE YELLOW CONTAINER WITH THE BLACK BAND!

Amazing way to be Mentally ALERT... Physically FIT!

1-Promote the flow of vital digestive juices in the stomach

2-Energize your body with RICH, RED BLOOD!

THESE two important steps may help you to overcome the discomforts of embarrassment of sour stomach, jerky nerves, loss of appetite, underweight, digestive complaints, weakness, poor complexion!

A person who is operating on only 70 to 75% healthy blood volume or stomach digestive capacity of only 50 to 60% normal is severely handicapped.

So with ample stomach digestive juices PLUS RICH, RED-BLOOD you should enjoy that sense of well-being which denotes physical fitness... mental alertness!

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or focal infection, SSS Tonic may be just what you need as it is especially designed (1) to promote the flow of VITAL DIGESTIVE JUICES in the stomach and (2) to build-up BLOOD STRENGTH when deficient.

Build Sturdy Health and Help America Win

Thousands and thousands of users have testified to the benefits SSS Tonic has brought to them and scientific research shows that it gets results—that's why so many say "SSS Tonic builds sturdy health—makes you feel like yourself again." At drug stores in 10 and 20 oz. sizes. C.S.S.S. Co.

Army Helps Collect Precious Paper

When the army takes time out to help collect waste paper, it becomes apparent how serious is this shortage. In Hartford, Conn., a group of handsome soldiers, assigned by Col. A. L. Bullard, helped secretaries, stenographers and clerks check their stock rooms and files for vitally-needed waste paper. 700,000 manufactured items, from pens and needles to tanks, are shipped overseas in PAPER. Start saving this urgently-needed war material now!

Insurance Man Charged by FBI

SAN ANTONIO, Texas, April 26—(AP)—The San Antonio federal bureau of investigation office says Jose Adan Leal, Westlaco Insurance agent has been released on \$2,000 bond following arraignment at Edinburg on a charge of seeking to evade army induction by making false statements regarding his ability to speak the English language.

R. G. Suran, special agent in charge of the San Antonio FBI office, said Leal's was the first case of its kind in south Texas and that the Westlaco man would be removed to San Antonio for federal grand jury action May 1.

Officers asserted Leal corresponded in English in connection with his insurance business although he claimed illiteracy at the Fort Sam Houston induction center.

British Concerned Over Lend-Lease

LONDON, April 26—(AP)—Two Laborite members of Parliament have submitted written questions asking Prime Minister Churchill for assurances that no American proposals for permanent possession of lend-lease bases in the western hemisphere will be entertained by the British government.

A subcommittee of the House naval affairs committee in Washington recommended last week that a study be made of the possibility of the U. S. retaining permanent possession of the leased British bases.

BUY BONDS

"The Squaw" one of the planes used in the air raid on the Ploesti oil fields of Rumania, flew 100,000 miles on 71 missions over Africa, Sicily, Greece, Crete and Rumania before it was returned to the United States.

BUY BONDS

Planes from Italian bases by night bombed an aircraft factory at Turin and rail yards at Parma and Ferrara at a cost of 13 bombers and three fighters. At least 78 German planes were reported destroyed yesterday, 50 by the Russians, 14 by the Mediterranean air forces, ten by Britain-based Americans and four by British defenders of two raiding towns.

The air invasion rolled almost uninterrupted into its 12th day and the results of this mightiest air offensive to date has ever known were impressive.

At least 50,000 tons of explosives and hundreds of thousands of fire bombs headed great destruction on German cities, war plants, airfields, invasion railways and defensive positions. Some 33,000 planes had flown against the Germans in a dozen days. The avowed purpose was to wreck the German air force and its source of replenishment and at least 700 Nazi fighters had been destroyed, exclusive of the Luftwaffe in Russia. The cost had been 389 planes and more than 2,300 fliers.

ASSAULT

(Continued from page 1)

sitting at a typewriter when a man entered and asked for Brannon; that she told him Brannon was out, then the man asked her to come to an inner office to see a sign he said he had painted for Brannon.

Noting that the man was carrying an object in his hand wrapped in paper, and becoming apprehensive, she refused, her statement said. Then the man walked around behind her chair and hit her with an East waived examining trial yesterday before Justice of the Peace G. R. Englewood at Grosebeck and his bond was set at \$2,500.

HOLLANDIA

(Continued from Page 1)

the Marshalls and presumably the springboard for the Japanese conquest of Wake Island at the war's outset.

Chinese headquarters have not confirmed unofficial reports that Japanese troops, some of them brought in from Manchuria, have over-run the North China rail junction of Chenghsien. It was known, however, that earlier forces have battled within eight miles of Tengfeng, 40 miles southwest of Chenghsien.

Japan's soldiers invading India have been thrown out of a village 22 miles north of Imphal, near the Burma border. Allied headquarters in the Southeast Asia command reported.

There was no Allied confirmation of Tokyo broadcast reports that nine Liberator heavy bombers raided Guam, former U. S. island in the Marianas and that medium bombers struck Woiyai in the Carolines.

UNDER 26

(Continued from page 1)

services between now and December 31, based on current estimates, Costello said, are 1,355,000 men. Should that goal be reached by inducing the same number of men each month, inductions would average 154,000 monthly the rest of this year.

That number of men, Costello said, can be furnished from the teen-age group, from the younger men now in 1-A, from the younger men whose occupational deferments are revoked, and from the relatively few older men holding unessential jobs.

Clean-up Will Follow Drive

Taking advantage of the clean-up possibilities that will develop as Pampans gather up old magazines and newspapers in the scrap paper salvage drive, to be conducted here Friday and Saturday, the city is timing its annual clean-up campaign immediately following the paper collection.

City Manager W. C. deCordova today advised Pampans to collect trash from their property and stack it in the alley, ready for the trucks that will call for pickup on Monday, Tuesday, Wednesday, Thursday and Friday.

Saturday, final day of the scrap paper collection, being sponsored by Pampa Boy Scouts and the Pampa Salvage committee, is also the day for Pampans to cut up weeds that have cropped up and to collect trash and stack it in the alley.

The clean-up will be the fourth held here since 1940. Annual spring clean-ups have been held in 1940, 1941, 1942 and last year. Most successful of all was the 1942 campaign.

Lack of manpower hampered the city in the drive last year and the same condition prevails now. This means that Pampans will have to depend upon themselves for the most part of the work done. For example, city employees won't have time to gather up scattered trash; it's up to the property-owner to have the collection neatly stacked so it can readily be loaded and hauled away.

Route for the three city trucks that will be used will be the same as in the 1942 campaign. Trucks will traverse alleys between the following streets in this order:

Monday

South of Foster on West, Southerville, Russell, Cuyler, Ballard, Gillespie, Houston, Starkweather; and on Barnes, Reid, Finley, Henry, Talley, Oklahoma, Schneider, Hughes, Pitts, Graham.

Tuesday

North of Foster on Hobart, Purviance, Ward, West, Gray, Frost, Russell, Cuyler.

Wednesday

North of Foster on Ballard, Gillespie, Houston, Wynne, Warren, Hazel; and on Sloan, Rose, LeFors and Magnolia.

Thursday

Alleys on N. and S. Paulkner, Sumner, Banks, Nelson, Wells, Dwight; and on Harvester, Kentucky, Pennsylvania, Louisiana, Virginia and Georgia.

Friday

Mop-up day, for any overlooked or postponed collections.

County To Use Part Of General Fund

AUSTIN, April 26—(AP)—The attorney general has held that Grayson county may appropriate money from its general fund for expenditure in cooperation with the state department of health if provisions of the county budget law are complied with.

The opinion was requested of Attorney General Grover C. Sellers by R. C. Neaves, county auditor.

Neaves also sought another opinion relating to payment of salaries of deputy tax assessor-collectors in a branch office at Denison and whether he could legally approve of daily travel expenses for a deputy assessor-collector going from Sherman to Denison to work in such branch.

To the latter question, the opinion by Assistant Attorney General Ardel Williams was that the county auditor has no legal authority to approve such claims.

To the first question, the opinion answered in part:

"The deputy tax assessor must pay in all fees collected under article 7256 to the officers' salary fund. The deputy in the branch office must be paid out of the officers' salary fund x x x and the maximum amount of his compensation can not exceed \$2,100 per annum."

POWER OF OBSERVATION

SEATTLE—The naval hospital newspaper here, the Stenoscope, held a contest to see who, if anyone, could identify a published photograph of Betty Grable's legs.

The chaplain won.

Mrs. J. P. Brown's Sister Succumbs

Mrs. Alice Lorene Ballenger, 47, a sister of Mrs. J. P. Brown of Pampa, died at her home, 315 N. W. 13 street, Amarillo, today.

Funeral services will be conducted at 2 p. m. tomorrow at Dunsick-Carmichael Funeral home chapel, by the Rev. E. Douglas Carver, pastor of the First Baptist church. Burial will be in Fairview cemetery.

Survivors, besides the sister, who resides in Pampa, are three other sisters, Mrs. E. T. Mills of Beaumont; Mrs. J. B. Ryals, Monroe, La.; and Mrs. C. V. Johnson, Milwaukee, Wis.

Husband, Roy E. Ballenger, Panhandle employe; father, J. T. Kirby, Monroe, La.; brother J. T. Kirby, Jr., U. S. N., San Diego.

West Point was founded in 1802. Saul was first king of Israel.

YOUR WASTE PAPER SOFTENS UP THE ENEMY

Showers of propaganda leaflets are falling on Germany these days.

By themselves, they might not be so effective. But when punctuated by bombs, they certainly undermine morale.

This is only one of the thousands of jobs for waste paper products in this war. Waste paper makes or wraps 700,000 other items, too.

Today waste paper is our No. 1 war shortage!

Make a habit of saving waste paper. Help to soften up the enemy!

Eye-Pipers

By BILLY GIBSON
Manager of Benny Leonard and Gene Tunney

When Benny Leonard could knock any lightweight kicking with either hand, I had him fighting Lockport Jimmy Duffy in Tulsa. An oil man wanted to bet \$8,000 on Duffy. I was eager to take the wager but didn't have that much cash on me. An acquaintance named Nolan said he'd get a man to put up the money if I'd cut him in. Sure I would. The dough was produced.

"Can Leonard win?" the bankroll man wanted to know.

"Benny'll knock him out," I replied. We bet that Leonard would knock out Duffy, and this he did in the second round.

At the pay-off the fellow who put up the money for me remarked: "Say, this beats my racket."

"What does your friend do?" I later asked Nolan. My eyes popped out at his answer:

"Oh, he's the best train robber in the southwest."

Harvesters Win Six Out of 11 OK City Games

Away off in the South Pacific, Cpl. D. C. Burge has a feud on with an Oklahoma City for who vows that the O. K. City eleven can run circles around the Pampa Harvesters.

Corporal Burge wrote the sports editor for all the scores of Pampa High school football teams in games with Oklahoma City High school football teams.

He can now be cheered by the news that the Harvesters have won six of the eleven games against three Oklahoma City teams and have scored a total of 179 points to the combined Oklahoma City total of 119.

On the darker side is the fact that Capitol Hill has won four out of six games against Pampa, while Central has split one and one. Against Northeast the Harvesters have won three out of three.

The first game between Pampa and an Oklahoma City team was in 1932 when Capitol Hill beat the Pampans, 13 to 7; the last, in 1941 when Pampa beat Central, 26 to 6.

YEAR	Pampa	CH	NE	C
1932	7	18		
1933	6	7		
1934	0	18		
1935	18	0		
1936	0	26		26
1937	19	6		
1938	28		6	6
1939	7		0	0
1940	28		6	6
1941	26		0	0
Total	179	75	12	32

No Oklahoma City team played since 1941. Record above complete at Pampa games against any and all Oklahoma City teams.

Sports Roundup

By HUGH FULLERTON, JR.
NEW YORK, April 26—(AP)—A lot of quotes about a little subject and college baseball:

From "Southern Coach and Athlete: 'More emphasis on baseball in high schools would not only help solve the player shortage, but would make good cash customers out of thousands of non-participants, who now know and care nothing for the game. School athletic officials are not crying at this funeral. Many of them remember the days when baseball scouts would sign up their star players while they were yet sophomores or juniors.'"

From Birmingham, Ala.: "I think high school officials look on baseball as something that just has to be, so they spend a little out of the football till as possible. Uniforms aren't too flashy and the general equipment is no better. Season is short; games are scheduled through the week on obscure fields; umpiring isn't too good; American Legion baseball goes good and, I think, has a lot to do with the emphasis of the high school brand."

From Oklahoma: "In ordinary times, we have had as many as a dozen teams in Class A, 34 in Class B and 12 to 15 junior high in our annual state meet at the University of Oklahoma. That meant the kids were playing almost constantly on eight different diamonds during the three-day life of the tourney. And you ought to see the crowds and hear them holler."

From North Dakota: "It's like a 21-year-old physically fit youth in 1-A—practically non-existent. Harry Bridgford, Fargo athletic director, says in his 14-year tenure here, the North Dakota High School League never has sanctioned baseball as a major sport and he assumes that it conflicts with track."

The pros and cons of college ball are similar, and from this opinion sampling, we've concluded that the big needs of both school and college ball are (1) better coaching and equipment, (2) less snatching of good players by organized baseball, (3) more enthusiastic support from older folks who love the game (it might be catching), (4) further inventive in the form of championship competition and (5) some sort of a summer program, possibly a hookup with the American Legion tourney, that would enable the kids to play right through the summer.

Husing And Delan To Radio Prevue Kentucky Derby

By JOHN MEEGAN
NEW YORK, April 26—As appetizers for the Kentucky Derby, Ted Husing and Jimmy Dolan will make three broadcasts over CBS from Churchill Downs. The first will be at 4:30 p. m. Tuesday, May 2. The second will be at 5:15 on Thursday of that week. And finally, the last gasp (before the actual running) will be at 3:15 Saturday.

For the ninth successive year, CBS also will carry an exclusive broadcast of the race, which is run at 5 p. m. Saturday, May 6.

Phillips Athlete Stars On Sooners' Nine And Eleven

A Panhandle athlete who is going big in athletics at the University of Oklahoma is Bobby Estep of Phillips. Harold Keith, director of sports publicity at Oklahoma, writes that in the Sooners final spring football scrimmage, Estep tossed a touchdown pass and did some great running.

The following Saturday Estep clipped off three hits in four trips in a baseball game against Lieut. Charles Gelbert's Norman navy Skyjackets, an aggregation with league stars now in the navy.

Hammerin' Hank Whips L. A. Welter

LOS ANGELES, April 26—(AP)—Hammerin' Henry Armstrong whipped John Thomas, long-armed Los Angeles welterweight in a savage, bloody 10-round fight last night. The decision was split, referee Abe Roth voting for Thomas and two judges awarding Armstrong the verdict. Armstrong weighed 141, Thomas 139.

Browns May Set Opening Win Record

By JACK HAND
Associated Press Sports Writer

If those amazing St. Louis Browns trim the Cleveland Indians today they will tie the modern American league record for win streaks at the opening of a season.

Luke Sewell's Browns have captured six in a row only one short of the total compiled by the Yankees in reeling off seven straight starting with opening day in 1933.

The big league mark of 12 is still safe in the hands of the 1884 New York Giants, but the modern big league mark of nine held jointly by the 1918 Giants and the 1940 Brooklyn Dodgers is within reach. Way back in 1884, the St. Louis entry of the Union association captured its first 20 starts but this is not recognized by either circuit.

Both current National league streaks went by the boards yesterday when the Giants were knocked out by the Phillies in 12 innings, 4-3 and the St. Louis Cardinals were slaughtered by Cincinnati, 10-3. Only the Browns, who had an open date in the schedule, remain to threaten the record books.

Mort Cooper of the Cards had trouble in his second straight start and was knocked off the hill before he could get anybody out in the first inning. While Mort was getting his bumps, Elmer Riddle threw a neat eight-hitter for Cincinnati and didn't yield a Card hit until the sixth.

Buster Adams and Charley Schanz, a rookie hurler from San Diego, were in the culprits in the Phillies' exciting 12-inning 4-3 win over the Browns. Adams hit a two-run homer to tie in the sixth and bashed a double scoring Schanz with the decisive tally.

Brooklyn and Boston battled away at a 3-3 clip for eight innings until the Dodgers cut loose with eight runs in the ninth to make it a lopsided 11-3 final. Lefty Bob Chipman went all the way.

Connie Mack's Athletics refused to be awed by Johnny Lindell's grand slam homer, the first in the major leagues this season, and overcame that four-run deficit to knock Ernie Bonham out of the box and win an 8-4 series opener on late rallies. Woody Wheaton dished out two key wallops, a single that stopped Bonham in the eighth and a double that flattened rookie Al Lyons in the ninth.

Marathon honors for the infant season went to the Boston Red Sox who were persistent enough to win a 2-4 series opener on late rallies. Bobby Doerr kept pecking away for three doubles, his last being the blow that started the winning spree. Mike Eysa took the bows with Bobby for his hurling of five no-hit relief innings.

MAYBE... Radio will route your future car

BUT... OIL-PLATING YOUR ENGINE is like outdoing the future—today

One thing *won't* be any different in any new cars. Whatever else is changed, as long as there's engine combustion it must produce dreaded corrosive acids.

The acid-fighter you'll want then is fortunately here even now!—for the engine that must still see you through. Right today it can have anti-corrosive OIL-PLATING!

OIL-PLATING is easy to do. In making your much-needed oil change this Spring simply make sure to get Conoco Nth motor oil—popular-priced. Here's oil that OIL-PLATES, because it includes the advanced synthetic whose action suggests strong "magnetism." This makes inner surfaces attract and hold OIL-PLATING, refusing to let it all promptly drain down to the crankcase.

Then instead of hoping to fight acid with the thorough engine heat made possible only by steady driving, you can fight acid right along!—because the protection of OIL-PLATING continues during cool starts and all your short cool runs. That's when acid can gnaw worst, except for corrosion-resistant OIL-PLATING—the big advance your engine can have today, as you change to Conoco Nth for Spring, at Your Mileage Merchant's Conoco station. Continental Oil Company

CONOCO Nth MOTOR OIL

SAVE WASTE PAPER

Don't Keep Adolf Waiting!

He asked for it... and he's getting it! He'll keep on getting it... if... if we can keep the planes and bombs coming!

One way to be sure we do is to save waste paper. For this critical material makes or wraps many vital parts of both bomb and bomber.

Parachute flares, radio and engine parts, bomb rings... these are only a few uses. With waste paper called our No. 1 war shortage by the War Production Board, it's up to every one of us to save and turn in all we can.

We mustn't keep Adolf waiting!

A Rebuke From Mrs. Kelly

Mrs. Irene Kelly is a woman of dignity. She is not rich, and she is not well. Her eyesight and hearing are failing. But there is nothing wrong with her pride. She is the mother of Charles (Commando) Kelly, holder of the Congressional Medal of Honor, and of six other soldier sons.

As such, she has come to her country's attention, and in consequence, she has given some of them a gentle rebuke which they would do well to remember.

Many people are surprised when they saw newspaper pictures of Mrs. Kelly as she stood in the door of her Pittsburgh home, reading the letter, which, she thought, she thought Charles was coming home on leave. Mrs. Kelly's house looked poor and unpainted. It faced on an alley, hemmed in by tall buildings. There didn't seem to be much chance for sunlight to get to it. These people thought it a shame that a hero's mother should live in such a place.

Newspeople said as much, editorially. Then a representative of the Public Housing Authority came around, with all the best will in the world, and offered to move Mrs. Kelly to a modern dwelling.

Apparently no one stopped to consider that Mrs. Kelly might be embarrassed and humiliated. She knew it wasn't much of a house, but she didn't care to have a lot of strangers poking about, holding her neighbors up to humiliating comparisons and general scorn.

Mrs. Kelly is not ashamed of her two rooms and an attic. They are probably as neat and well furnished as any thereabout. She may not have electric lights and hot water and an inside toilet. But she has a nice gas stove and an enameled ice box. The kitchen walls are a fresh, cheerful green. The cabinet and sink and table are painted a shining white. Everything is clean. It is possible that Mrs. Kelly is used to being envied a little by her neighbors. And now what will the neighbors think, with all these strangers trying to make her ashamed of the place?

Mrs. Kelly and her seven boys have probably planned for a better place some day. Some of the folks who are trying to help can look back a generation or two in their own families and understand how she feels.

This is not a defense of poor housing, but a protest against the unconscious snobbery of a lot of professional do-gooders. Perhaps Mrs. Kelly has taught us that we need a little more respect and a little less head-patting in our laudable aims toward social betterment.

BUY BONDS

Optimism for All: The Supreme Court has invoked the Sherman anti-trust law against an optical company for fixing retail prices on pairs of eyeglasses. For selling them only to "licensed" retailers, and for realizing more than 100 per cent profit on the transactions.

We applauded this wise and democratic verdict. Post-war planning demands that the opportunity of looking at the world through rose-colored glasses be available to all citizens of this free land.

BUY BONDS

The Nation's Press: Realistic Trade Outlook (The Magazine of Wall Street). "Realistic Trade Outlook" . . . We have perhaps had too much discussion of post-war foreign trade possibilities in theoretical or highly generalized terms. In a recent address before the Export Managers Club in New York City, Mr. W. E. Knox, of the Westinghouse Electric International Company, got down to cases.

Because of the growth of new services provided by the United States to recipients of lend-lease aid and because the war-spared development here of substitute materials and industrial capacity, the volume of dollar exchange in other countries, he said that the prospect for foreign trade "is not good for a long period of time."

As compared with 1939, he added, post-war exports to Europe will be our best customer, may be sharply reduced. Exports to Latin-American countries will be somewhat greater than before the war until the abnormally large dollar balances—perhaps \$2 billion or more—built up by the countries during the war period are used up in equalizing their probable adverse post-war balance of trade. Mr. Knox sees exports to Russia largely limited to exchange for furs, minerals and gold; exports to India and China about the same as pre-war; trade with Japan and the destroyed countries of Europe largely limited to charity.

Whether so skeptical a view will prove correct, of course remains to be seen. Much depends upon the level of prosperity in this country and the resulting need for imports. There can be no disagreement on the economic fundamentals involved. Certainly we can not have self-financing exports larger than before the war unless the total of dollar balances available to foreign countries is larger than before the war. This will depend upon the volume and character of the imports we are able and willing to take, the volume and character of American capital investment in foreign countries, and the volume of American tourist expenditures in foreign countries. There are some hard-headed business men in the air transport field who are convinced that the latter will in a very few years become a quite sizable

Common Ground

"I speak the sense-word personal, I give the sign of democracy. By God I will accept nothing which all cannot have their consent of as the sign-word."

—WALT WHITMAN.

High Tribute to L. A. Chamber Members

Since I have commended the Los Angeles Chamber of Commerce for issuing the book, "Do We Want Free Enterprise?" I want to quote briefly what Albert Jay Nock, editor for the National Economic Council, Inc., New York, has to say about the Los Angeles chamber and self-education.

After highly commending the subject matter in the book, Mr. Nock explains: "These Californians say they are always meeting the question, 'How will you get the principle of free enterprise over to the masses?' They reply simply, 'We won't. Not our job. We are not missionaries; we are businessmen. Our job is to get it over to ourselves.'"

"It's amazing! What is it out there in Los Angeles that makes a group of businessmen coolly turn their backs on America's most sacred tradition? Is it the climate? Is it the fruits and flowers? Is it the horrible example of Hollywood, their next-door neighbor?"

"Whenever an American gets a notion in his head, the first thing he is supposed to think of is how he is going to get it over to the masses." "The mass-production, mass-education, mass-culture, mass-religion, mass-science, art, music, literature, mass-everything—why, that is America, has always been America."

"Yet here is a body of men who say in effect: 'Reaching the masses be damned! If every one businessman will give one businessman a good thrashing, the masses will get enough training on the nature and significance of free enterprise, he will have done his stuff and needn't bother his head about reaching the masses.'"

"True enough. If businessmen themselves understand free enterprise, they will practice it. The rest of the people will learn from their example."

"The most valuable service that any chamber of commerce could perform for its community and its country would be to get its own members to come to understand, believe in, and practice free enterprise."

This book, "Do We Want Free Enterprise?," can be obtained by writing 50 cents to the Los Angeles Chamber of Commerce, 450 Broadway, New York City. Mr. Albert Nock has pointed out above, the place to start education is with one's self.

Words, Words, Words

Walter Dexter, state superintendent of California schools, is reported to have told vocational teachers that California has bought 875,000 worth of new textbooks, "teaching the how and why of life."

I should appreciate it very much if Dr. Dexter would point out the irresponsible role of content these textbooks teach. I never have been able to find a single textbook in any state school that taught an impersonal role of vocational relations.

If people believed in such a role, they never would consent to giving a group of bureaucrats the power to force a man against his will to contribute to an educational system that he believed taught the pupils not how to reason, but how not to reason.

If they used equality of freedom as a starting point in their reasoning to determine a right, they could not believe in a system of education supported by force, but would believe in a government with the consent of all the governed instead of the consent of a bribed majority.

Item in the balance of international payments as a result of expansion in air passenger traffic.

WHAT GOES ON?

(Fort Wayne News Sentinel)

The American people have a right to be downright disgusted over the Australian plan to reduce its army by some 90,000 men. We have a right to ask precisely whose war this is, after all Canada has already demobilized one whole division of its army and now Australia, another of the British dominions across the sea, and an integral part of the gigantic British Empire, is demobilizing more than four divisions.

We can only place one interpretation on such moves, and that is that the Canadians and Australians consider that, for them, the war is about over. Canada, of course, has never been particularly interested in the war. She didn't consider it much of her business, and she has only recently permitted conscripted men to be sent overseas. Prior to that, none went across, but those who volunteered, Australia still will not send conscripts outside the Australian "zone of defense." In late 1941 and through early 1942, Australia was in imminent danger of being invaded and conquered by the rampant Japanese. Had it not been for American fighting men, American ships and American equipment and supplies, Australia probably would have fallen, just as Malaya, the Philippines and the Dutch East Indies had fallen. Now that the danger is past, she is obviously beginning piecemeal demobilization, while at the same time the United States is drafting virtually every able-bodied man between the ages of 18 and 38, to help clean the Japs out of the Australia theater of war. It is no wonder, then, that Americans are beginning to look on themselves as the world's greatest suckers. Having been saved from the Japs, Australia is apparently preparing to remove herself from the war. We can excuse it if we ask, "What the blazes goes on?"

News Behind The News

BY RAY TUCKER

NOTE—A steady stream of adverse fourth-term reports has been pouring into the White House and Democratic National headquarters as speculation on F. D. R.'s 1944 plans intrigues the leaders of both Parties. And, despite his preoccupation with the war, the President always finds time to get a fill-in from his partisan aides.

Much of the bad news emanates from personal or political enemies of the Chief Executive, but that is only natural. His friends, and especially those who hold office because of his favors, tell him only the good news. Therefore, these black communications worry the fourth-term managers, who realize that their authors are hard-boiled, bread and butter operators.

Alfred E. Smith, for instance, is quoted as saying that Thomas E. Dewey will carry the Empire State against Mr. Roosevelt. The defection of important groups in New York, Albany, Buffalo, Syracuse, Rochester etc., is given as the main reason for the shift. The Irish and the colored people are described as hostile to the Administration.

The critical nature of their ban vote is revealed in the 1940 Roosevelt-Wildcat figures. F. D. R. swept New York City by more than seven hundred thousand, but he captured the state by only two hundred and twenty-four thousand. Moreover, Wendell did not put the usual upstate Republican strength because the country conservatives did not like his Democratic Wall Street background.

DOWNCAST—Mr. Smith's good friend, Senator David I. Walsh of Massachusetts, has passed on word that the Bay State will land in the Republican column, barring a miracle between now and November.

In fact, the chairman of the Senate Naval Affairs Committee fears that Boston, a rock-ribbed Democratic community, may stage another "Tea Party," and for almost the same reason that it did in colonial days. Minority Leader Joe Martin reports that Yankeeism is aflame against the present regime. As of today, he insists that the only New England state leaning toward F. D. R. is Rhode Island, which has only four electoral votes.

Here again the Hub's vote is the all-important key to the situation. Mr. Roosevelt looks Massachusetts over a hundred thirty-seven thousand four years ago, but Boston provided ninety-two thousand majority. Senator Joe Cuffey is downcast over Pennsylvania prospects, basing his pessimism on recent election tests in two centers, Philadelphia and Pittsburgh. In 1940 the President won the Keystone State by two hundred eighty-six thousand, but his plurality of two hundred eighty thousand in those cities was a life-saving lead.

WARNING—Senator Robert M. La Follette insists that Wisconsin is

Around Hollywood

By ERSKINE JOHNSON

The film parade: Maxie Rosenbloom—Clowned his way to a boating title and now devotes himself to acting in the movies and running a night club. His success formula is simple. "Play dumb," he says, "and you got the world by the tail." It's like this, he said on the set of "Irish Eyes are Smiling." "I'm at the club, see, and a guy comes up to get me aly-ay-ay. He tells his friends how dumb I am. They get the laugh. I get the dough. See what I mean?"

Betty Grable—A scene in a new movie, "Wing and a Prayer," shows a group of sailors on an aircraft carrier watching Betty doing a hot Hawaiian routine in one of her older pictures, "Tin Pan Alley." Comes the call for show and the sailor amped up of the projection room.

Darryl Zanuck—In his search for the right actors for the right roles in "Wilson," Zanuck even talked a producer into donning grasshopper. Stanley Logan, associate producer at another studio, plays Secretary of State Robert Lansing in the film.

CHANEY'S MAKEUP JOB: Lon Chaney, Jr.—Makeup experts have turned Lon into a Wolf Man again for a new chiller, "The Devil's Brood." The makeup requires five and a half hours to apply, and two hours to remove.

Cantinflas—A Mexican comedian, he's asking Paramount \$100,000 to come to Hollywood to star in a movie. That ought to keep the guy in child and beans for the rest of his life.

Fenny Sigleton—Still the only Hollywood star to have her baby born at a military hospital, Penny Sigleton, new 18 months old, was born at Quantico Naval Hospital in Virginia. Papa is in the Marines.

El Brendel—Made his debut in films in 1927 playing opposite a white mouse. Now he's sharing honors with an elephant in "Mexican Fiesta."

Charles Winninger—The plump comedian is spending his spare time from the set of "Belle of the Yukon" harrowing the ground at his five-acre ranch. Other day he was enjoying a good workout behind a small power tractor. Stopping the machinery at the end of a row to mop his perspiring brow, Charlie's attention was attracted by a small boy watching his strenuous labors. "What's the matter, mister," piped the kid. "Are you trying to produce—or reduce?"

HAT OF THE WEEK: Leah Barnes—Hollywood hat designer. Her chapeaux are now being duplicated in Rio de Janeiro. The pretense one model at a time as "The Hollywood Hat of the Week."

Claudette Colbert—After kissing Fred MacMurray for a scene in "Practically Yours," she told him: "I can remember back eight years ago when you made your first picture with me. I thought you were going to faint when the director told you to kiss me."

Don Ameche—An old farmer these days. Don receives feed, seed and farm implement catalogues through the mail. Recently one arrived from the Midwest with a penciled notation on the cover: "Please send 12 autographed photos. We're starting a fan club for you in this office."

War Today

By DEWITT MCKENZIE

Associated Press War Analyst

When the Allied forces finally have stormed their way onto the European continent in the approach of invasion we shall find, I believe, that we owe great things to airborne troops—those daring adventurers who are dropped from the skies into enemy territory, far behind the hostile lines.

It's no longer a secret that they are to be used extensively. Indeed a month ago British Prime Minister Churchill, having watched hundreds of American paratroopers do a mass leap at their English base, told them with emotion that they had "a great part to play," and characterized them as the most modern expression of war.

The Nazis have taken full note of all this and now have notified the French Vichy government, issued a panicky call to his countrymen not to cooperate with the paratroopers. When D-day arrives, we may find that one squad of paratroopers without Hitler's forties are worth a legion outside, for it's bids fair to be a terrific job to get amphibious troops ashore.

For many months American airborne units have been training in England under conditions approximating what they will encounter in France. These units include infantrymen, combat engineers and other specialists who make the United States army a well rounded offensive force.

So They Say

The past year has dispelled the notion that Germany was only masquerading as the aggressor. She has shown herself equally master of elastic evasion and withdrawal—German news broadcast.

Unless man has the wit and the grit to build his civilization on something better than material power, it is surely idle to talk of plans for a stable peace.—Francis B. Sayre, UNRRA diplomatic adviser.

My own conviction is that American industry can meet its peace-time tests with the same vigor and success with which it has met all the demands of war. During the

Peter Edson's Column: HERE'S PROPOSAL FOR PITHY PAMPHLET

By PETER EDSON

Pampa News Washington Correspondent

Munro Leaf, the young author who made Ferdinand the most famous bull in the world, and then went on to write the Watchbird books and the series of books called Grammar Can Be Fun, Manners Can Be Fun, Health Can Be Fun and so on, is now a major in the army, stationed in the big Pentagon building across the Potomac from Washington. Munro has had several jobs, mostly in public relations for the army service forces.

Anyway, all this gives birth to a swell idea. War being such a serious business, and army's regulations being so frightfully dull, how would it be if Major Leaf were assigned the job of putting some understandable language that the people could understand? As a sample of what might be expected, with tongue-in-cheek, and apologies to the authors, we now give you a few paraphrased paragraphs of what might be called "War Can Be Fun" or "The Watchbirds in the War Department," or "How to Shoot the Ferdinand."

This is a Watchbird Watching a War Department Waster. This is one creature, we certainly don't want around these days. It's a War Department Waster. This Waster has spent too much of his Uncle Sam's money for stupid things that

effort, with the result that the War Department is going to be investigated by a committee at night. Let's hope this Waster gets some sense before it's too late. Were you a WASTER today? This is a Watchbird Watching a War Department Droopy-Hand. This queer-looking thing standing with its toes turned in and looking like a scared rabbit is a Droopy-Hand. A Droopy-Hand is a retreat officer who, when he meets a soldier on the street, instead of looking straight into the invader's eyes, squints smartly, acts timid and shy as though it were scared to death, and half lifts a droopy hand in about as nice a salute as you would make with an old wet dishrag. Were you a Droopy-Hand today?

GABBLE-GABBLE-GABLERS This is a Watchbird Watching a War Department Gabbler. Gabblers sit for hours with their feet on the desk and talk to other gabblers on the telephone. They rarely say anything that makes sense and usually just gabble, gabble, gabble. It is bad enough to be a Gabbler at any time, but right now, while we are at war and telephone lines are needed for important war department business, it is unpatriotic to be a Gabbler. Were you a Gabbler today? This is a Watchbird Watching a War Department Forgetter. Forgetters always mean well, but they

Oil Man Says Arabian Project Should Be Built

NEW YORK, April 26—(AP)—W. S. S. Rodgers, president of the Texas Co., said yesterday that while he believed the Arabian pipeline project was sound economically and should be built, the question was of such importance that only disinterested persons should handle it.

Speaking at the company's annual stockholders meeting, Rodgers said: "The much discussed Arabian pipeline question is of such great national importance it should be settled not by the oil industry but by those in authority who are entirely neutral and have only the welfare of the American people at heart."

Oil Man Says Arabian Project Should Be Built

Summarizing his company's position, Rodgers said: "We believe the proposed pipeline is sound economically and should be built. It does not constitute entry of the government into the oil business. Our oil reserves in Saudi Arabia may be regarded as an insurance policy if in the future there is a shortage of petroleum in this hemisphere, as predicted by numerous authorities in the government and industry."

Rodgers said the major criticism of the proposal is the contention that for the government to own the line was putting it into the oil business. He disputed this point, saying that the Arabian American Oil Co., owned 50-50 by the Texas Co. and Standard Co. of California and the Gulf Exploration Co., through a subsidiary would build the line and operate it.

Western Aleutian Island Fortified

HEADQUARTERS, Alaskan Department, April 24—(AP)—Delayed by Occupation and fortification of Shemya, small but important island in the far western Aleutians, was revealed here today.

Troops went ashore in a howling storm during the battle for Attu, in May, 1943. They were picked men from the fourth infantry regiment, the outfit which captured Lion mountain in Chicago corridor at the close of the Attu battle.

Bridge-Closing Is Subject of Concern

MEXICO CITY, April 26—(AP)—The prospective Sunday closing of international bridges along the Rio Grande beginning May 6 is causing much worry to Mexicans living on the northern border, senators and deputies report.

The U. S. customs service has stopped paying the Sunday wages of its inspectors. The bridge operators are now keeping the spans open by paying the Sunday wages at double time rate, of the inspectors. The operators have announced they believe this practice is illegal however, and most of them have announced they will stop paying the inspectors after May 6 and close the bridges from midnight Saturday to midnight Sunday, or from 6 p. m. Saturday to 6 p. m. Sunday, unless the customs service again takes over the wage payment.

Committee Confers On Post-War Peace

WASHINGTON, April 26 (AP)—Secretary of State Hull conferred yesterday with a bi-partisan senate committee on plans for a future world peace organization.

The senators, headed by Chairman Connally (D-Texas) of the senate foreign relations committee spent an hour and a half with Hull and said they were very pleased with their discussion although they gave no details. Hull will release a statement on the conversation later, Connally said.

Market Briefs

NEW YORK WALL STREET
NEW YORK, April 25—(AP)—Investing tapered in today's stock market and assorted leaders managed to negotiate a modest comeback without touching off anything like a bidding spree.

Transfers for the full proceedings approximated 600,000 shares.

Remington rand moved up in the wake of a stock dividend and declaration of the regular cash payment. Ahead at intervals were Santa Fe, Great Northern, Texas Co., U. S. Steel, General Motors, Sears Roebuck, Anaconda, North American, Western Union "A" and American Telephone. Occasional losers included Bethlehem, Chrysler, U. S. Rubber, Kennecott, Douglas Aircraft, Philip Morris, U. S. Cypsum, Westinghouse, Montgomery Ward and J. C. Penney.

Pampans have the opportunity this week to get their "scrap" paper into the scrap. Have yours in bundles at the curb in front of your home when the Army trucks call for it Friday and Saturday.

Demands For Paper Products by Armed Forces are at Highest Point in History

100,000 Articles Used by Army and Navy are wrapped or boxed in paper!

2 Million tons of waste paper essential to military and naval operations needed immediately

HOW WASTE PAPER FIGHTS

- It takes 81 tons of supplies per month just to keep one man overseas.
- All must be wrapped and packaged in PAPER products. Here are just a few of thousands of war uses:
 - 650 cartons for Army Field Ration K or 115 boxes, each containing ten 20 mm. shells or
 - 50 75 mm. shell containers.
- Other products made from paper include Air Force emergency packs, vital bomb rings and fins, camouflage paper, fuse parts, gas mask canisters, helmet accessories, airplane wing-tips, blood plasma containers, and instrument panels.
- Paper is substituting for critical materials. Savings of 215,000,000 pounds of critical metals; 36,000 pounds of pilsifilm; 750,000 pounds of glass; 12,000 pounds of rubber; 220,000 pounds of cellophane; and 8,000,000 board feet of lumber, were reported in one year by the industry.
- Send your waste paper into the fight! This newspaper will keep you informed as to the progress of the Waste Paper Campaign in this city.

PUT LOCAL WASTE PAPER CAMPAIGN INSTRUCTIONS HERE

But--- WASTE PAPER COLLECTIONS DROP-- 25 WAR PLANTS SHUT DOWN!

They didn't WANT to close. Neither do the 100 others now operating on part-time schedules. The manpower is ready.

BUT THE WASTE PAPER ISN'T! And without this raw material they can't produce.

So mills that make the paperboard for boxes, cartons and shipping cases in which our boys get their food, ammunition cases and blood plasma containers are standing idle.

Unless checked, this waste paper shortage will seriously affect shipments to the fighting fronts.

Are we going to let this waste paper shortage condemn thousands of American boys to the casualty lists? Boys from our town—perhaps from your own family?

YOU CAN HELP PREVENT IT—IF YOU WILL! Help open those 25 war plants! Here's what you do—you and all other home front fighters who want to help:

- Save waste paper—make it a regular habit! Save old boxes, cartons, store bags, envelopes, corrugated paper, newspapers, magazines and wastebasket paper. Bundle newspapers, magazines and paperboard separately. All other paper can be banded together.
- Tell your friends and neighbors to do the same. Turn the boys and girls into paper commandos!
- Above all—don't BURN any wastepaper. Don't throw any away—save every scrap. WE MUST START THOSE 25 MILLS AGAIN! We must keep them running—keep the war goods rolling!
- Do your part.
- Time is short—so start saving today—RIGHT NOW!

SAVE A BUNDLE A WEEK—SOME BOY'S LIFE!

NEWSPAPERS: Fold them flat (the way the paper boy sells them) and tie them in bundles about 12 inches high.

MAGAZINES AND BOOKS: Tie them in bundles about 18 inches high.

CORRUGATED AND CARDBOARD BOXES AND CARTONS: Flatten them out and tie them in bundles about 12 inches high.

WASTEBASKET PAPER (WRAPPERS, ENVELOPES, ETC.): Flatten and pack down in a box or bundle, so that it can be carried.
