A veteran of the Russian campaign and Hitler's No. 1 tank specialist are reported in command of two of the German armadas along the Atlantic coast of Europe, facing Allied invasion forces.

Ward Stores Charged With Many Violations

WASHINGTON, May 23—(AP)—Gerard Reilly, member of the National Labor Relations Board, asserted today that the Montgomery Ward company had a long record of violating labor laws.

Reilly declared that the company: 1. Attempted to form a company union in Kansas City and sought to "prevent success" of other unions.

Reilly said the NLRB under its rules and regulations was unable to conduct a new election in the Chicago plant before it did, a focal point in the entire controversy.

It was brought out at yesterday's opening session by War Labor Board Chairman William H. Davis that the company later challenged whether the union had a majority and demanded a new trial.

Details of the plant seizure, who ordered it and under what legal conditions, will be developed by the committee tomorrow when Attorney General Biddle is questioned.

Monsoon Sets In, Burma Drive Impeded

THE PAMPA NEWS

Drive Is Designed To Destroy Germans

VOL. 42, NO. 41 (8 PAGES TODAY) PAMPA, TEXAS, TUESDAY, MAY 23, 1944. AP Wire (PRICE 5c)

Stilwell Will Continue Push To Link Roads

By J. E. KRUEGER Associated Press War Editor Monsoon rains forced a slow-down in the Allied drive to seize the key Burma city of Myitkya today, and another big operation in the Pacific war—the presumed attack on Japanese-held Marcus island—lay hidden in radio silence.

The slow work of eliminating savagely resisting rockets of Japanese, who evidently are prepared to die in their dugouts and behind log entrenchments, continue.

Chinese aiming at a junction with Stilwell's forces captured Chefang on the old Burma road, isolating the main enemy base at Lashio, about 60 miles from the Burma border.

Parliamentary procedure leading to a vote on Gibson's motion had been agreed on in advance in order.

CLAREMOE, Okla., May 23—(AP)—Will Rogers, the famous humorist, was laid to rest today in his native land.

Lumber Strikers Stop Production In Pacific Belt

SEATTLE, May 23—(AP)—Production of lumber supplies, listed by the war production board as the nation's foremost vital materials shortage, was stalled in more than 100 plants today in the great Pacific Northwest lumber belt.

AS H-HOUR DRAWS NEARER English Railroad Station Goodbyes Are More Poignant

LONDON, May 23—(AP)—New invasion tenseness gripped troop-packed Britain today as further drastic cuts in main line passenger train schedules left thousands of civilians stranded in stations.

Action Flares Up At 2 Party Conventions

HOUSTON, May 23—(AP)—Gov. John W. Bricker of Ohio, addressing the Republican state convention, declared today that "if no business in this country is immune from seizure, then we no longer have a constitutional president—we have a dictator."

Bricker, the closest contender to Gov. Thomas E. Dewey of New York for the Republican presidential nomination, obviously referred to the Montomery Ward case.

Heck contended that "there is only one thing to do—elect to the presidency a man who will respect the rights and prerogatives and the dignity of the other coordinate branches of government."

Senator Hears USSR Gets Ship

WASHINGTON, May 23—(AP)—Senators Bridges (R-NH) told the Senate today he was informed that an American cruiser had been transferred to Russia, and demanded to know the truth of such reports.

Carnegie-Illinois Steel Acquired

PITTSBURGH, May 23—(AP)—A federal court jury today acquitted the Carnegie-Illinois Steel Corporation of a government charge of concealing and falsifying records of tests on steel plates.

WAR IN BRIEF

ITALY—Germans evacuate Pico, Cento, Hitler line bastion; Nazis mauled all along main battlefront; new offensive launched at Anzio.

GERMANY-FRANCE—American bombers attack airfields and rail center in France and Germany; RAF blasts Dortmund and Brunswick.

CHINA—Chinese cut Burma road at Chefang, near Burma border.

RUSSIA—Germans make reconnaissance attacks on lower Dnestr.

CIO Officials Suddenly Call Off Big Strike

DETROIT, May 23—(AP)—The Chrysler Corp. strike causing idleness for nearly 12,000 workers was called off suddenly today by the executive board of Local 490, United Automobile Workers (CIO).

Ordering strikers back to work, the local's executive board took its action a day before the main battlefront was to appear before the parent UAW-CIO's highest councils.

President R. J. Thomas and co-officials of the UAW-CIO had ordered the local's leaders to appear before the UAW-CIO's international executive board tomorrow.

A meeting of the rank and file membership had been called for tonight by Thomas himself with a warning that "your jobs and your union are at stake."

Continued Democratic control of the house plus a vote to continue the investigating powers of the house group now headed by retiring Representative Dies (D-Tex.) would, on seniority, elevate Rep. Wm. Courney (D-Tenn.) to the committee helm.

The committee under Chairman Dies has done a whole lot of good, Courtney said today. "It has kept people on the alert during the past six years, particularly when Communism was rampant in the government."

During the war the Dies committee acts like a watchdog ready to jump in immediately when it sees a rat.

Retirement and defeat of Rep. Joe Starnes (D-Ala.) for re-nomination placed Courtney in line for the committee's chairmanship.

Courney was first elected to the house in 1939 to fill a partial term then re-elected without opposition twice. So far he's again unopposed.

Story in Column 3.

Between 500 and 700 heavy bombers paced the new drive by attacks on military objectives within a 50-mile radius of Rome.

A Swiss report said the Allies had bulged the beachhead at Lake Bogliano and that the attack was "developing successfully in the direction of Littoria," due north of the lake.

The Germans are receiving one of the greatest thrashings in their history from the forces under Gen. Sir Harold Alexander.

Alexander's communiqué listed small gains around the west coast of Italy, including the American seizure of commanding heights around coastal terraces at the edge of the Pontine marshes.

Lt. Gen. Mark W. Clark, fifth army commander, established an advanced command post on the Anzio beachhead after inspecting American troops there yesterday.

The German command said the Allies on the Anzio beachhead below Rome had attacked with strong infantry and tank forces southwest and west of Anzio and in the Cliterna-Littoria sector, apparently in an effort to trap the enemy from the rear.

More than 1,000 British bombers deluged industrial Dortmund and Brunswick and other continental targets with around 3,800 tons of explosives last night.

Invasion tenon tightened in Britain where the Germans said 3,500,000 troops were poised.

German reconnaissance planes were downed. Trains were cancelled, soldiers hid their sweaters, farmers well, Berlin asserted that "France is like a steel hedgehog now."

The 32-day lull on the Russian front appeared to be cancelled, with both sides massing troops and armor in the south. The lull saw Russian tanks and tanks and men were massing on the lower Dnestr and making Soviet rivers by "day and night."

Prediction that migratory war workers will help the Democrats carry the Northwest by a greater margin than in 1940 came today from Senator Wallgren (D-Ill.), a legislator assayed the factors that brought defeat to Senator Holman (R-Ore.) in his race for renomination.

The migration that Wallgren noted has caused many members of congress seeking reelection to wonder whether many districts and even whole states may not have undergone some change in political sentiment in the last two years.

Speakers for the southwestern district meeting of the division of production of the American Petroleum Institute here June 13-14 were announced today by W. E. Wynn, chairman of the program committee.

Swim Victim Rites Tomorrow

Funeral services for Ralph Stanley Morse, 13, son of Mr. and Mrs. E. A. Morse, of 1200 Barrie, who was drowned Sunday afternoon at city lake at Recreation park, will be conducted at 4:30 p. m. tomorrow at the McCullough Memorial Methodist church, by the Rev. Bob Gilpin. Burial will be in Fairview cemetery.

The deceased has been a carrier boy for The Pampa News. The week beginning May 13 he had studied Route 17, and on Sunday morning May 20, had made his first delivery on the route, which is bounded roughly by Malone on the north, McCullough on the south, east by Tignor, and west by Barnes.

Fallbearers will be S. A. Dedman, John Ray, John Clark, Albert Taylor, Nell Rogers, and Tom Carver. Arrangements are by Duenkel-Carmichael Funeral home.

Important Talks Will Be Given

Panhandle oil men attending the spring meeting of the mid-continent district of the American Petroleum Institute are expected to be especially interested in three papers to be read on the program, to be held in Tulsa, Thursday and Friday.

The papers are "Progress Report on Pumping Experiment," by Glenn M. Stearns, associate professor of petroleum engineering at the University of Oklahoma; "Exclusion of Water from Wells," by Eugene A. Stephenson, executive-director of the university research foundation of the University of Kansas; and "Application of Job Design to Petroleum production operation," by H. G. Thuesen, head of the department of industrial engineering, Oklahoma Agricultural and Mechanical college.

Among Panhandle oil men expected to attend the spring meeting are R. B. Saxe, Borger, formerly of Pampa, Gulf Oil corporation district superintendent, and chairman of the Panhandle chapter of the API, and Dallas Bowsher, Pampa, Skelly Oil company district superintendent.

Stearns paper will deal with methods employed in measuring the volume of slippage that occurs between the plunger and liners of sucker-rod pumps. This represents the second phase of testing on the cooperative pump research project conducted jointly by the API and the University of Oklahoma.

Time of Stephenson's speech will be a report on how water has been successfully excluded from a number of Arbuckle limestone wells when the water-bearing stratum was saturated with crude oil. High-pressure and high-velocity injections produced the most successful results.

Thuesen's talk will present an explanation of job design, and give examinations of its application to surface and subsurface maintenance and pumping activities. The examples are taken from work done in job design with a leading independent over a period of five years.

Eleven Farmers Attend Field Day

Gray county was represented by 11 farmers, county officials, and extension agents, at the annual field day held yesterday at the U. S. experiment station at Woodward, Oklahoma. Also attending the field day were John Nelson, Hutchinson county farm agent, and three others from Hutchinson.

The group saw a demonstration of sage eradication, development of one, two, and three-year-old grasses, specialized grass breeding, and crop rotation with grasses.

To the Gray county group was given 1,000 sweet potato and 500 sweet pepper plants.

The Gray county representatives left Pampa at 7 a. m. Monday and returned to Pampa at 10 last night.

Those making the trip were County Commissioners John Hagard, and C. M. Carpenter; Glenn T. Hackney, county farm agent, and his assistant, David F. Eaton, Jr., and Miss Millicent Schaub, county home demonstration agent; J. E. Kirby, Byrd Gull, Ray Miller, Marley Doss, Ed Gething, Irvin Cole.

Mexican Workers To Receive U. S. Aid

MEXICO CITY, May 23 (AP)—The American embassy will give financial assistance to Mexican workers who wish to perfect themselves in their various lines by studying in the United States.

The ministry of labor received today a communication from the embassy in which this was announced. The United States government, said the communication, was very desirous of having Latin American workers learn modern North American methods, and it asked the Mexican government to make a selection of workers of this country who would be given assistance for such study.

Peggy and Patsy Hawpe Are Given Birthday Party

Honoring Peggy and Patsy Hawpe on their birthday anniversaries, Mrs. Miller Hawpe entertained a group of children last week in their home at the Wilcox lease.

Peggy and Patsy met their guests upon arrival and during the party hours pictures were taken. Two birthday cakes were the center of attention. Peggy's cake was topped with four candles and Patsy's with three.

Out-door games were played and as gifts were opened Mrs. Joel Condit assisted Mrs. Hawpe in serving chocolate and white cake with fruit gelatine.

Guests were: Mrs. K. W. Jeters, Judy and Sharon, Mrs. L. V. Stroup and Lily Lou, Mrs. D. D. Cambren, Corky, Grant and Kenny; Mrs. L. F. Easter and Pat; little Miss Marilyn Holden and the honorees.

Sending gifts were: Mr. and Mrs. Jack Hicks, Mr. and Mrs. Ivan Hicks, Mrs. Joel M. Condit, and the honoree's father, Miller Hawpe who is stationed with the Marines in San Diego, Cal.

Let Your Charm Speak For Itself In Dulcet Tones

LINA ROMAY: Exotic.

Too often an illusion of femininity is smashed to smithereens because a woman decides to talk. The trouble is, people who have dull or unpleasant voices are wholly unaware of it. If they could hear themselves as others hear them, they would get busy and correct speech faults.

"To find out how you sound, have a recording made," suggests Lina Romay, exotic songstress with Xavier Cugat's orchestra. "Or if that isn't feasible, here is something else you can do:

"Hold a piece of cardboard in front of your mouth," says Lina. "To act as a sound board, and cup your ear while you read from a newspaper. If your voice sounds thin, high pitched or nasal, then you must do something about it."

What to do? First, correct your breathing. To do so Lina recommends that you lie on your back with a heavy book placed over your diaphragm and breathe deeply for five minutes to push the book up. Do this regularly for two weeks and speech improvement is well on its way.

To correct lip laxness, stand in front of your mirror and make your lips form the words you speak. See how much more distinct your speech becomes.

Nasal? Hum a low note slowly for as long as you can. If you feel a buzzing vibration in your nose, you're on the right road to correcting the fault.

To learn inflection and give color to your voice, read aloud to whom-ever will listen.

Steak Fry Is Held Sunday For Cadets

Dr. and Mrs. Clifton High were host and hostess Sunday evening when a steak fry for Pampa Aviation Cadets was held in the back yard of their home, arranged by the USO.

Cadets and guests fried steak and potatoes at the open-fire place and made ice cream in a freezer. A picnic supper was served from a long table placed on the lawn.

Dorothy Gay furnished accordion music and an organ was placed on the terrace.

Attending were approximately 20 Cadets and the following Victory Belles: Joyce Taylor, Lillian Snow, Frances Deering, Maxine Zolbach, June Lanham, Vivian Lafferty, Marjorie Gillis, Loretta McArthur.

Mrs. Julia Pagan, USO director and Miss Lorene McClintock, assistant director and a number of Cadet wives attended.

Gray, Mildred Lew Baggerman and Carolyn Odell Baggerman. Principal of Grandview is C. W. Howard.

Seventh grade students at Hopkins will be honored in a program there Thursday night, which will include a one-act play and presentation of perfect attendance and reading certificates.

Hopkins pupils completing the seventh grade are Ralph Hutsell, Katherine Talley, Marilyn Adams, Eille Haden, Nancy Brummett, Bernadene Quarry, Bill Litton, Jean Smith, Vivian Lefevre, Edith Owens, Janette Smith and Patsy Wright.

Mrs. B. R. Nuckols is Hopkins principal.

Strawberry Treat

Serve fresh strawberries in shortcake cups.

Strawberry Shortcake Cups

Two cups enriched all-purpose flour, 3 teaspoons baking powder, 1/2 teaspoon salt, 4 tablespoons fortified margarine, 1/2 cup milk, 3 cups sweetened berries, 7-minute frosting, or white cream cheese, or whipped light cream.

Sift, measure flour and resift with baking powder and salt. Cut in fortified margarine until coarse crumbs are formed. Add milk and stir lightly with fork. Turn out on to floured cloth. Knead gently until smooth on one side. Roll to 1/4 inch thick. Cut 6 circles 4-5 inches in diameter. Brush with melted margarine. Roll trimmings and cut 6 small circles. Pinch or cut edges into points. Bake both cups and caps in very hot oven (450 degrees F.) 15 minutes. Remove from pans at once and fill with sweetened berries or fresh fruit. Top with cap and garnish as desired. Those strawberry cups would be appropriate for a June wedding.

From the newly revised "Fifty Years in a Maryland Kitchen" comes this apple recipe.

One-Act Comedy To Be Presented By Hopkins Pupils

A one-act comedy will be presented by the seventh grade of Hopkins school entitled, "The New Teacher."

The play will be staged in the community hall Thursday evening at 8:30.

Directing the play is Miss Ruby Johnson with Mrs. H. Huffman in charge of music.

All attendance and reading certificates will be given at this time.

The annual school picnic will be held Friday afternoon.

left a smoke train in the sky of which any photographs are greatly desired. In regions under the clouds along the path for some 10 miles northwest of the cloud, meteorites fell. These are likely between Pampa and Berger. They will be solid (not porous) rocks somewhat heavy for their size, and probably black crusted. We will pay liberal prices for any meteorites found. NATIVE STEEL	SCORE (5 SPENT AT HOME)
SHIPPED-IN STEEL	10
	1

NOW... THE SCORE IS TEN TO ONE...

IN FAVOR OF TEXAS!

Iron Ore, Coking Coal, Scrap Iron and Steel, Oil and Gas, Blast Furnace, Open Hearth Furnaces.

Sheffield steel products are not new to Texas and the Great South-Southwest. For many years they have served the needs of this territory.

Only a small part of the cost of each ton of this steel remained at home—the part that goes for local distribution.

Now the score has changed. It is Ten to One in favor of the Southwest and the Gulf Coast region. Why? Because Sheffield steel is now made of this region's raw materials. This means that ten times as much of the cost of every ton of Sheffield steel is paid out to citizens of Texas and nearby states.

For what and to whom you well may ask. To miners for native iron ore, coal, and manganese. To the producers of oil and gas and power. To local limestone quarries, and to all the citizens of this South-Southwest who supply us with the other necessary raw materials, including scrap iron and steel.

Well over 80% of every dollar spent for Texas steel is spent in this territory—for these raw materials, for fuels, for power, for labor and for taxes.

But these are not the only ways in which Texas-made steel will help build

New Government Newsprint Plan To Come Soon WASHINGTON, May 22-(AP)-The senate's Truman committee got a glimpse yesterday of proposed new government standards for allocating newsprint and heard Donald M. Nelson declare they represented "a very definite improvement."

Leaves From A Correspondent's War Notebook By HAL BOYLE LONDON, May 22-(AP)-Out of the morning mist rose the rolling hills of Scotland, fresh as a page out of Bobby Burns and our first sight of land since leaving America.

The gulls were trim and white as compared with the smoke-covered scavengers that scrounge off Brooklyn.

A passenger threw out a cigar butt, and a gull immediately dived and came up with it in its beak.

"Of course, MON, you can uncork it and drink it on the dock," said a customs man genially. But the passenger paled.

We took a train for Edinburgh, which on Sunday is closed tighter than a saloon door in Kansas. You couldn't even buy a sandwich in the railroad station.

A former commercial agent for the Katy railroad, Lieut. Roy K. McDonald, Kansas City, Mo., obtained reservations for us on an afternoon train to London. He and two assistants smoothed the path for every American in uniform traveling through Edinburgh.

"Sorry we can't get you a sleeper," said the agent. "The only sleeper left on this train is a first-class one."

Past the windows rolled a travelogue of Scotland. Wooden poles still stood fields to give pointed welcome to any Nazi planes seeking a landing.

We blacked out at dusk and came by morning into bawling, restless London, nerve center of the coming new front against Hitler.

He indicated that decisions on paper quotas would be handed down within two weeks and that full publicity would be given henceforth to all appeals granted in hardship cases.

Nelson conceded in response to a question by Senator Hatch (D-NM) that some suspicion might have been aroused because information obtained in handling appeals was kept confidential.

"I didn't know until I took this job," he said, "how much suspicion there is in this country."

Increased advertising lineage shall not be a basis for increased tonnage.

Increased circulation coupled with a population advance will be recognized.

Increases in news content will not be valid as reasons for increasing newsprint quotas.

No benefits in larger quotas will go to newspapers that have reduced the size of their newsprint rolls from 66-1-2 to 65-1-2 inches, for example.

Temporary circulation losses resulting from increased prices will not be acceptable as a factor in improving the quota situation.

Nelson said the new standards should answer some of the criticism that has been directed at his agency and that they were designed

Tigers, Cards Hottest Clubs In The Majors

By JACK HAND Associated Press Sports Writer Detroit and the St. Louis Cardinals rank as the two hottest clubs in the major leagues today on the eve of the second inter-sectional series of the season.

When the Tigers started their eastern swing they were buried in last place but their 10 out of 14 pace sent them soaring into fourth and only four games off the Yankee pace.

Paul (Dizzy) Trout was Steve O'Neill's ace in the sport, winning all four of his starts, one from each eastern team and allowing only five runs and 29 hits in 36 innings.

The Cardinals were paced by the Cardinals with nine triumphs in 13 starts, handled the eastern invaders in easy fashion by playing 615 ball. Only the Boston Braves who got spectacular pitching to break even in 14 games, could remain at an even keel.

Market Briefs

NEW YORK WALL STREET
NEW YORK, May 22—(AP)—Selected markets, rubber, gold and specialties kept the recovery firm glowing in today's stock market while numerous leaders again suffered from a lack of buying fuel.

Prices turned a shade mixed and dealings slowed after a steady and rather active opening. Near the close advances ran to a point or more for favorites, a number of which established highs for the year or longer, but losers were plentiful. Low-quoted issues were lively and transfers for the full proceedings approximated 700,000 shares.

Among stocks at peaks for 1944 were Mack Truck, Fruehauf Trailer, Goodyear, Firestone, National Acme, Hays, MFG, and Public Service of N. J. Ahead most of the time were General Motors, Chrysler, Duesenberg, Hammelstein, Manning, Du Pont, Johns-Manville, Dow Chemical Westinghouse, Chicago & Northwestern, Preferred, Pilotboat and Libbey-Owens. Occasional casualties were U. S. Steel, Santa Fe, Southern Pacific, Sears-Roebuck, Consolidated Edison and Texas Co.

Marshal Tito Expects Material, Political Help in Yugoslavia

Editor's Note: The Associated Press interview with Marshal Josip Broz Tito, which has been the subject of wide discussion since it was disclosed last week that it was held up by censorship of the Allied Mediterranean command, was approved to go to accompanying note said the original dispatch was intact except for passages referring to the location of warships. This week the AP was informed that the delay in clearance was due to the fact that Marshal Tito had stipulated that his replies be used in full or not at all. Deletions were referred back to the Marshal and final clearance was given today.

The dispatch was radiated from Algiers, the final censorship point, today.

By JOSEPH MORTON
BARI ITALY, April 30 (Delayed by Censor)—(AP)—Marshal Josip Broz (Tito), in his first press interview, asserted today that Yugoslav people and his national liberation army wanted not only material help from the Allies to carry on their struggle against the Germans but also recognition of the National Committee of Liberation as the government of Yugoslavia.

(Since this dispatch was written it was learned that Sgt. Walter Bertrich, correspondent of Yank magazine, had a personal interview with Tito which may have antedated this one.)

The Marshal said the committee had not formally demanded such recognition of the United States, Britain and Russia, but that recognition would "strengthen the United struggle" and that the reasons against it were "diminishing every day."

Tito expressed his views in reply to a series of questions submitted to him by the Associated Press. He wrote the answers in his native tongue, Croatian, and signed the document "N. B. Tito, Marshal of Yugoslavia."

MR. BIDDLE IS QUITE REVOLUTIONARY
 (The New York News)

Attorney General Francis Biddle, arguing the Montgomery Ward seizure case in federal court in Chicago Monday, claimed some sweeping wartime powers for the President of the United States.

"The President," said Biddle, "has a great constitutional reserve of power. The President clearly had the power to take the action he took here. The statutes recognize that the right is there. In time of war, it is true that in taking over plants the Government is subject to the regulation of the Fifth Amendment (no person to be deprived of life, liberty or property without due process of law—Ed.), but no business or property is immune to his order. . . . Particularly in time of war, the court should not substitute its judgment for that of the Executive."

That is revolutionary doctrine in this country. If sustained by the highest court—and this case certainly should go to the highest court—that doctrine will set up an interesting precedent.

ROAD TO DESPOTISM

Suppose sometime we elect a man as President who is ambitious to control the lives, property and morals of all his fellow Americans. This man can then maneuver us into a war, and on the Ward precedent take absolute charge of everybody and everything in the country, to do with as he pleases. Despotism will move in, and the Republic will be sunk.

That is the ultimate implication of Mr. Biddle's gay and sweeping statements in the Ward case argument, whether Mr. Biddle—apparently a rather superficial, surface-skimming student of law—realizes it or not.

WAKE ISLAND, Dutch New Guinea, May 18 (Delayed)—(AP)—Ahead the tiny island of Wake loomed from the foaming Pacific. The men in the small assault boats laughed and joked. Nothing could be alive on that island. It had taken a terrific blasting from the 5th air force bombers and a 24-hour bombardment by naval guns and artillery.

One tow-headed soldier grinned and said: "Wake is just a blood clot on the broad Pacific—then big guns and big bombs musta killed every living thing on the island."

Rockets still plastered the beach. The rockets looked like red balls popping into the sand.

The little assault boats moved in. Thirty yards offshore, sharpshooting Japanese snipers opened fire.

The first wave of boats slowed down and the second wave caught them.

A hall of steel met the American infantrymen. The bullets tore through the little boats. Men were bowled over like ten-pins.

The boatmen, coxswains and gunners fell dead and wounded. They were in the most exposed places. The troops crouched and few could

LANCASTER, Pa.—Police here abruptly ended a 1,200-mile jaunt of a merchant seaman in a strange vehicle with a torpedo snout, one center headlight, airplane cockpit, belching flames from two exhaust pipes but without license plates.

The owner, who told police he traveled from New York to Detroit and then here without being stopped, must get a low or have his vehicle licensed before he can drive it to Philadelphia, 70 miles away.

WAKE ISLAND, Dutch New Guinea, May 18 (Delayed)—(AP)—Ahead the tiny island of Wake loomed from the foaming Pacific. The men in the small assault boats laughed and joked. Nothing could be alive on that island. It had taken a terrific blasting from the 5th air force bombers and a 24-hour bombardment by naval guns and artillery.

One tow-headed soldier grinned and said: "Wake is just a blood clot on the broad Pacific—then big guns and big bombs musta killed every living thing on the island."

Rockets still plastered the beach. The rockets looked like red balls popping into the sand.

The little assault boats moved in. Thirty yards offshore, sharpshooting Japanese snipers opened fire.

The first wave of boats slowed down and the second wave caught them.

A hall of steel met the American infantrymen. The bullets tore through the little boats. Men were bowled over like ten-pins.

The boatmen, coxswains and gunners fell dead and wounded. They were in the most exposed places. The troops crouched and few could

Studebaker Champion rates high with busy Federal law officer

HERE'S a letter from Frank M. Durance of Orlando, Florida who says:

"My 1941 Studebaker Champion has been driven about 150,000 miles—at the lowest maintenance cost of any car I've ever owned. Whether across the county or across the nation, this dependable Studebaker is always ready to go on a moment's notice. Its gasoline mileage is consistently high and its materials and workmanship are the finest."

Yes, these war days, the tire-saving, gas-saving, soundly built Studebaker Champion adds new luster to its reputation from coast to coast.

It's no wonder that used Studebaker Champions, Commanders and Presidents are in such big demand everywhere.

DETAIL FOR TODAY Shortstop

A SHORTSTOP is a soldier who persists in intercepting food on its way to some other section of the table. Many SHORTSTOPS emerge from the service with knife and fork wounds in their forearms, for soldiers have lusty appetites at mess and are not to be trifled with. If Pvt. Doaks passes the spuds along to Pvt. Blow, and then Pvt. Dudd, seated between the two, gouges out a large portion for himself while the spuds are in transit, he is SHORTSTOPPING. The incident may pass with a few scathing remarks—but at the next meal Pvt. Dudd is likely to find the entire contents of the salt cellar in his G. I. coffee.
