Army Prepares To Act At Strike-Bound Philadelphia

Plans Worked Out for Day Germans Quit

WASHINGTON, Aug. 3.—(AP)—Plans for immediate follow-up of the surrender or collapse of Germany are reported here to have been worked out in great detail. Officials familiar with their provisions said today they call for full cooperation among the United States, Britain and Russia in the hour of victory. For this reason, and because of the general pledges of cooperation made at the Moscow and Moscow conferences last year, American officials say they are convinced beyond any doubt that it makes no difference whether Russian or Anglo-American forces get to Berlin first, or which first accepts a major German army surrender. Early victory forecasts by Prime Minister Churchill yesterday gave a renewed wave of speculation here over what will happen if the Germans surrender first to the Russians, or what difference it will make if they give up instead to British-American forces. The answer given to both questions in official quarters here is: It will not make any difference. Neither side will make a "separate peace." Either side will accept Germany's unconditional surrender at any time or place—except in the name of all the Allied powers. Britain and the United States pledged unconditional surrender at Casablanca conference 18 months ago. Russia formally subscribed to it at Moscow. A further commitment by Stalin, Charles de Gaulle, Roosevelt to join action in peace and victory as well as in war was made at the Teheran conference.

Montreal, Que., Transportation System Tied Up

(By The Associated Press.) Aside from the transportation tie-up in Montreal, the third world war, was practically paralyzed today when 4,000 tramway workers were away from their posts. The walkout, the third within 18 months, developed after a dispute over whether a union stop provision applying to new employees should be put in a contract between the tramway company and the Canadian Brotherhood of Railway Employees. Detroit continued as a center of labor trouble. The War Labor board agreed with CIO-United Auto Workers spokesmen that a stoppage of 4,000 at the Keely-Haynes Wheel Co. was a "lock-out," which the company denied. The U. W. B. ordered the company to resume work. The CIO-UAW attempted to end a stoppage of 7,000 at the General Motors Chevrolet gear and axle division by naming an administrator to supplant 10 union local officers. Union members planned a meeting tonight. A new dispute in Detroit involved 425 at the Briggs Manufacturing company, trouble coming over the wearing of identification badges. But 1,000 workers at the Wayne, Mich., Stinson division of Consolidated Vultee Aircraft Co. returned to the job. Two thousand were out at the Buffalo, N. Y., plant of American Can Co. and 1,500 at the Pottstown, Pa., plant of Spicer Manufacturing Co. voted to end walkouts. Nine lesser disputes kept some 3,600 more idle. But 1,300 at the Jersey City, N. J., plant of American Can Co. and 1,500 at the Pottstown, Pa., plant of Spicer Manufacturing Co. voted to end walkouts.

Draftees Go To New Induction Center

Gray county draftees went to a new induction station yesterday, when 23 draftees from this county were sent from Pampa to Oklahoma City, instead of Lubbock, since the Lubbock station was closed on July 31. The group from this county was headed by Edwin Luther Frasier and Archie Lee Maness, assistant leader. Other draftees in the contingent were: Howard Ashton Bailey, Jack Warren Jones, Clifford Woody Ledbetter, Floyd Bruce Hubbard, Troy Emily Derryberry, George Douglas Camp, Calvin Lee Dittmore, Burl Ross Bridwell, Frank Junior Jameson, Joe Turner, James Eibert Nelson, Earl Jackson Mitchell, William Curtis Murphy, Roy Dale Andrews. Joe Boyd Reeves, Clarence Eugene Shillings, James Decab McClellan, Philip Loarnie Lisman, John Herman Dwyer, Bryan Thomas Buck, Hermit Sander, Jr.

ISAW...

A pair of Pampa mayors (together, M. K. Brown, now of San Antonio, who was mayor here in 1913-15, walking with Farris C. Oden, present mayor. Between the two was James B. Massa, city water department superintendent. All Day Wanted. Long record as cooking helper. Best references. No time off. Mrs. Tucker's fresh, flavorful and nutritious Mendolake Margarine will help every meal—Adv.

3rd Service Commander Is On Scene

PHILADELPHIA, Aug. 3.—(AP)—Maj. Gen. Philip Hayes, commanding general of the Third Service Command, came here today as the army made apparent preparations to take over Philadelphia's paralyzed transportation system. Hayes and other army officers went into conference with officers of the Philadelphia transportation company after collapse of a union movement to end a bus, trolley and subway work stoppage that slashed war production, caused race violence and stranded thousands. An army lieutenant, accompanied by a sergeant, with an armful of placards, entered the 69th street elevated train terminal and went directly to the terminal office. The Philadelphia army public relations section summoned reporters to hear what it said would be an important announcement. The developments came after War Mobilization Director James F. Byrnes referred the stoppage case to the War Relocation Authority. Board had decided it could not restore operations by conducting conferences. Upgrading of eight Negro employees to operative jobs on the PTC lines under a directive of the president's fair employment practice committee, caused the walkout. Clashes between whites and Negroes followed. Windows were smashed and stores looted yesterday. Police last night reported a new wave of window smashings, which they attributed to Negro youths. A two-hour move by a small group of PTC employees to restore service was stopped.

Slight Relief Seen From Hot Temperature

Perhaps the only consolation, if any, that Pampans can take from the 100 temperature reading this week is to remember back one year. Weather officials say that temperatures ran 108 one year ago yesterday, the highest recorded since 1899. That temperature, however, prevailed for only one day, and this year Pampans are getting a double-dose of the torrid uniform that is covering the state. Tuesday and Wednesday were reported to be the two hottest days of the year. The weatherman apparently is not going to change his weather schedule either as temperatures showed 89 and 92 degrees at mid-morning, Wednesday. Pampa used 2,739,000 gallons of water, or 50,000 gallons less than the all-time high of 2,789,000 gallons recorded one August day a year ago. The city did a rushing business yesterday along with cold drink and ice cream dispensaries. Many Pampans attended air-conditioned movie houses and others took to the shade of their yards later in the afternoon. The City swimming pool held a maximum crowd late yesterday as Pampans sought relief from the heat. Doctors and hospitals reported the heaviest cases as a result of the weather. "Only complaints," said one doctor. Six persons were hospitalized at Houston from intense heat, and another was treated last night and sent home. Persons at Houston were restrained from using water to sprinkle lawns, except at certain hours of the night. Water usage raised pumpage yesterday to 47,525,000 gallons. Partly cloudy weather was all the weather could offer today as prospects for the state's tenth successive day of 100-degree or better temperatures remained good. Sizzling under a scorching North Texas sun yesterday, Quanah rated the dubious distinction of hottest spot in the state when the thermometer boiled up to 114 degrees. Dallas weather bureau said it was believed Quanah's high set a record for maximum temperatures in Texas as this year. In contrast was Beaumont, where thunderstorms brought relief and a drop in the mercury to 71.

Workers Wanted At Once on Secret Job

AUSTIN, Aug. 3.—(AP)—Texas was called on today for 75 pipefitters and 50 sheet metal workers badly needed for a highly critical, secret war job. C. E. Belk, state WMC director, said that every available man in those trades will be sought out before Saturday in the effort to enlist the Texas quota for the task. "Failure to get these men to this job immediately may cause untold loss of life and property," he said.

WAR IN BRIEF

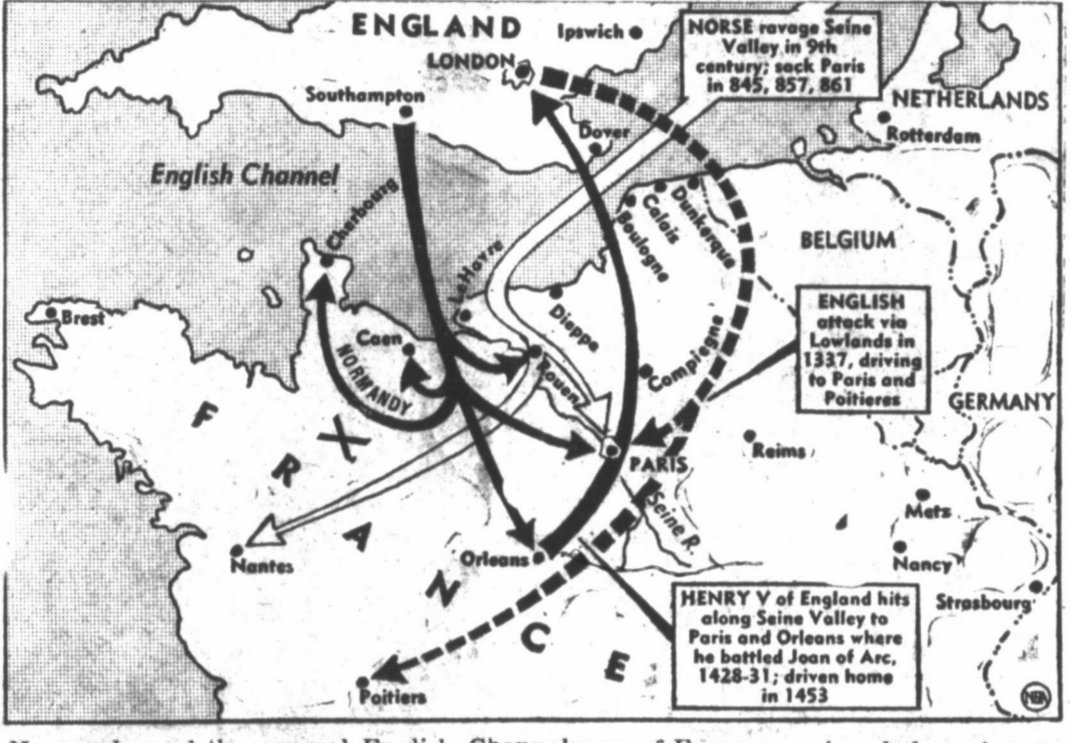

(By The Associated Press.) FRANCE—Americans' sensational gains envelope Rennes; Canadians burst forth in new offensive in Caen sector. RUSSIA—Reds assault fortress on east Prussia's border; hammer at gates of besieged Warsaw. ITALY—Americans repulse German attempts to counterattack across Arno river. PACIFIC—Americans drive Jap survivors on Guam into northern corner of island.

Americans Seize Another Airstrip on Guam Island

ALLIES FOLLOW HISTORY'S PATTERN

Normandy and the general English Channel area of France now invaded, or threatened by invasion by the Allies, has a long history of similar incursions by foreign armies, as the map portrays. Strangely, only the Norsemen, back in the Ninth Century, chose to descend on Paris along the Seine River valley, a route now apparently prominent in Allied plans. "X" marks the approximate location of Rennes, city taken today by the Yanks in their drive to cut off Brittany, with its valuable harbor of Brest.

Tickets on Sale Now for Banquet Here on Tuesday

Tickets went on sale today for the citizens banquet next Tuesday night when Dr. Homer P. Rainey, president of the Texas university, Austin, will be the speaker. The banquet will be held at 8 at the high school cafeteria. Every citizen of Pampa who is interested in the development of Pampa and the welfare of Pampa youth is invited to this banquet which is being sponsored by the Pampa Chamber of Commerce. The ladies are given a special invitation. Dr. Rainey will discuss the junior college movement in Texas and the advantages of certain communities to strengthen the educational facilities by the creation of new colleges. Members of the post war planning committee and the directors of the chamber of commerce have unanimously endorsed the movement which has been talked in Pampa for several years to establish a junior college to serve the Panhandle oil field territory. Vocational education, to equip boys and girls who are finishing high schools in the Top O' Texas area, to go to work right here at home in the oil fields and the industrial plants of this territory, will be stressed in the proposed junior college. "It is important that tickets are sold this week," C. A. Huff, president of the Chamber of Commerce said this morning. "We urge every citizen to telephone 383 immediately to make reservations for the banquet."

Workers Wanted At Once on Secret Job

Belk, state WMC director, said that every available man in those trades will be sought out before Saturday in the effort to enlist the Texas quota for the task. "Failure to get these men to this job immediately may cause untold loss of life and property," he said.

Governors Outline Six-Point Policy

ST. LOUIS, Aug. 3.—(AP)—Republican governors headed by Presidential nominee Thomas E. Dewey called today for prompt postwar contract termination in order to speed reconstruction of industry to peacetime pursuits when hostilities cease. In a six-point statement of policy, the 26 Republican governors said: "The states must share leadership to encourage commerce, industry and agriculture in order to stimulate full employment at good wages and the profitable use of all our production facilities," as soon as the war ends. In other recommendations, the governors said: 1. The acquisition of land by the federal government may result in threatening "seriously the very existence of many of our states and the loss of local self-government to millions of free American citizens." 2. That war veterans and women be permitted to sit down and talk over future job plans "with someone at home who can tell him where to find all the benefits and services available to him x x x from federal, state and local governments or through private employers."

Mexican Officers Visit Randolph Field

SAN ANTONIO, Aug. 3.—(AP)—Four general staff officers of the Mexican army, starting a four-day visit here today, will see the school of aviation medicine. They were met at Randolph Field by Col. R. T. Starkey, deputy chief of staff of the AAF training command, and Col. Walter C. White, commanding officer of Randolph Field, and witnessed a demonstration of the Randolph Field training program. Later they visited the school of aviation medicine. Five-One Garage, 600 S. Cuyler, Rm. 51.—Adv.

B-26 Makes Mercy Flight to Dallas

SHREVEPORT, La., Aug. 3.—(AP)—A B-26 bomber made a 364-mile mercy flight to Dallas and back in one hour and 59 minutes last night to obtain anti-tetanus serum for the treatment of J. O. Leach, 33, of Beaumont, a patient at Charity hospital here. Col. William B. Wright, commanding officer, authorized the flight when physicians said they believed Leach could not live unless rabbit serum, located in Dallas, reached here sooner than was possible by commercial air lines. "Ladies, we have plenty of clothes-line wire.—Lewis Hardware.—Adv.

Clark Blames CIO For Defeat in Missouri

ST. LOUIS, Aug. 3.—(AP)—The lead Attorney General Roy McKittick piled up to defeat incumbent Senator Bennett Clark for the Democratic senatorial nomination in Tuesday's primary stood at 20,000 today with reports tabulated from 4,328 of the state's 4,512 precincts. The vote was McKittick 168,726, Clark 145,856. Clark conceded his defeat late yesterday in a statement blaming the CIO Political Action committee.

Drive Overshadows That at Cherbourg

By DWIGHT PITKIN Associated Press War Editor The city of Rennes, key bastion of German defenses guarding the great ports of the Breton peninsula in western France, has fallen to a lightning drive of American armored forces, it was announced today. The communications hub from which 11 highways radiate towards the Atlantic and into the heart of France was occupied after a spectacular two-day 45-mile gallop by American tanks from Avranches. Berlin acknowledged that the Russians had established two strong bridgeheads over the Vistula river, last main natural barrier on the road to Germany proper. Warsaw was outflanked and besieged from without and within.

Worst Sustained Robot Bombing

LONDON, Aug. 3.—(AP)—Flying bombs droned over southern England and London this afternoon in continuation of an unbroken 172-hour assault—the longest attack yet without a lull. Anti-aircraft gunners in southern England maintained almost continuous barrage. Some robots were reported destroyed over the English channel. Seven hospitals were hit, 10 patients being killed at one, and explosions covered a wide area. One bomb wrecked a big house 50 yards from a shopping area crowded with women and it was feared—in the permissible phrase—that "there were a number of casualties."

PAAF Fledglings To Get Wings In Outdoor Program

All military personnel at Pampa Army Air Field will take part in a formal military review highlighting the first outdoor graduation ceremonies ever held at the local air base. Col. Charles B. Harvin, Pampa Army Air Field's commanding officer, announced today. The review will begin at 9 a. m., followed by ceremonies at which the graduates of Class 44-G of student pilots will receive their silver pilot wings and officers' bars. Members of Pampa Army Air Field's newest class of pilot officers will take the review along with Colonel Harvin and members of his staff, following which the graduates will take the oath of office and receive their wings in brief but impressive ceremonies. An additional feature of the program may be the presentation by Colonel Harvin of Air Medals to some of the crew trainees now stationed at the local air base. The program will depend on the arrival of the media men from overseas. Inclusion of this portion of the program will depend on the arrival of the media men from overseas. Bleacher seats will be erected adjoining the parade ground for guests and visitors to the graduation, Colonel Harvin declared. On the platform will be Col. Harvin, Lt. Colonel Marschner and Clark, Captains Murphy and Sharrett. Colonel Harvin will address the graduates.

All County Poll Results Asked

AUSTIN, Aug. 3.—(AP)—The state Democratic executive committee today renewed efforts to prod lagging county officials into sending in results of the July 22 primary in time to be canvassed by the committee Monday. There were still 25 counties unreported, said Charles E. Simons, executive secretary. "Officials at Pampa said today that Gray county returns had been sent to Austin several days ago." The session Monday was expected to confine itself principally to its official function of canvassing the results, with a minimum of resolutions or talk of controversial party issues. Meanwhile, final details of plans for expediting the general election were being worked out by men all over the world who were working out at a conference here between Secretary of State Sidney Latham and Col. Robert Cutler, executive officer of the U. S. War Ballot commission. It was decided that Latham will transmit his certification of the Democratic candidates for Congress who have run-off races Aug. 26 by telegraph to Cutler, who in turn will radio them abroad. This will be necessary because the commission's deadline for mailing the names is Aug. 10. The Republican candidates which will be selected at that party's convention in Dallas Aug. 8 can be transmitted overseas by mail.

Clark Blames CIO For Defeat in Missouri

ST. Hitler Seeks to Block High Officers' Plot for Power

Curt Reiss forecast the present upheaval in Germany two years ago. In his book entitled "THE NAZIS GO UNDERGROUND," "TOTAL ESPIONAGE." He formerly edited one of Berlin's leading dailies, and has written 15 books and hundreds of articles on Nazi Germany, all of them carefully documented by first-hand evidence.

that he and his well-trained research staff have obtained. In three revealing and dramatic articles of which this is the first, he presents the truth behind the attempted assassination of Adolf Hitler.

By CURT REISS
Written for NEA Service
Whatever the final official version—the German official version—of the bomb assault against the Fuehrer, whether or not he can prove that a clique of high-ranking officers was involved in a plot to kill him, one thing is certain: The military leaders of Germany have for a long time been opposed to Hitler, and Hitler has known all along of this opposition.

This opposition began even before Hitler came to power. On the evening of January 29, 1933, Hindenburg, President of the German Republic, was consulting with a few party leaders of the extreme right to determine whether or not he should appoint Adolf Hitler, leader of the strongest party in the Reichstag, as German Chancellor. Into this meeting, like a bombshell, fell the news that General Kurt von Sch-

leicher, Army minister and, at that time Chancellor, had mobilized a number of regiments in Potsdam and was about to march on Berlin. It was an attempt to prevent Hitler's appointment, and it was said that a considerable number of generals were on the side of Schleicher.

MARCH FRUSTRATED
Hindenburg acted fast. Within a few hours he not only appointed Hitler Chancellor, but saw to it that General von Blomberg, a friend of the Fuehrer, became Army minister. Blomberg, in turn, immediately swore in a number of high-ranking officers. Thus Schleicher's march against Berlin was frustrated. Hitler became Chancellor of Germany, and the first collision between him and the army had been successfully avoided.

For more than a year the Nazis were drunk with triumph. In particular Hitler's storm troopers, the SA, acted as though the country belonged to them. The leader of the SA, Captain Roehm, hoped that eventually his men would be incorporated into the army, with himself in a key post. Army leaders were definitely opposed to this, considering the storm troopers gangsters. There was friction between these irregular troops and army units.

The army leaders were particularly angry when the chief of the Berlin SS, Karl Ernst, told them that if the army wished to inspect the SA, they should send an officer who did not wear a monocle. This was an intentional slap in the army's face. Most of the high-ranking officers, among them the commander-in-chief General von Fritsch, wore monocles.

DEMAND SHOWDOWN
Finally, the army demanded a showdown. General Ludwig Beck, chief of the general staff and intellectual leader of the generals' clique, demanded that the SA disappear and its most prominent officers be thrown out.

At that time—it was in the spring of 1934—Hitler was still dependent on the good graces of the army.

KNEW WAR WAS LOST
Hitler was right. They came. The only one he didn't want was his commander-in-chief, von Fritsch. The one he wanted back most, who had most difficulty in persuading to return was General Beck, chief of the general staff.

The chief of the general staff retired a second time, this time good, after the Munich conference. Beck knew that Hitler would not keep the Pact of Munich; that he would take Prague; would demand Polish territory, and that sooner or later a World War would be the consequence of the Fuehrer's ever-increasing demands. Beck, who had done more to build up the German army than any other general, who had devised most of the plans later used by Hitler, knew that the German army could not be victorious in a long-drawn-out war of attrition.

At first events seemed to march that Hitler was right and Beck wrong. The German army overran half a dozen countries. On July 19, 1940, after the successful French campaign, Hitler made his leading generals Field Marshals, covering them with decorations—and it looked as though the peace between him and these generals would be a final one.

But it only looked that way. Hardly 15 months later, on October 15, 1941, the leading German generals knew that they could not win the war. They knew it that early because the time-table of the Russian conquest had not been kept. The Russian army, far from being crushed, became stronger day by day. England's strength, too, was increasing and it was only a question of time until America entered the war. Something must be done, the generals decided. The conspiracy against Hitler was on.

Texas Called on For Many Male Workers
AUSTIN, Aug. 3.—Texas is being called on to furnish almost 10 per cent of the nation's critical demand for male war workers", C. F. Belk, state director of the War Manpower commission said today. He said that of the 70,000 critical jobs which must be filled within the next five weeks, a quota of 7,734 has been assigned to Texas. Of the quota for Region X (Texas, Louisiana, and New Mexico), Texas must furnish 66.9 per cent of the total. A vast secret project will require 25% of these workers. Shipbuilding will require 30%, ship repair 27%, aircraft 10%, forges, foundries, lumbering, logging, chemicals, and petroleum will require 8%.

"The latter category, while smallest in number needed, is the hottest recruitment job in the State", Mr. Belk said.

An average of 1,000 male workers per week have accepted critical jobs in other parts of the nation during the first four weeks of the operation of the Priority Referral program which is channelling male workers through the United States Employment service. But in order to meet present quotas, this total must be stepped-up an additional 500 per week if Texas is to meet its share of this national emergency.

Special recruiting teams have been organized in practically every area in Texas for the most intensive drive yet attempted to recruit labor. Individual quotas have been assigned to all cities and schedules for pooled interviews are arranged so that during the next five weeks out-of-state employers will cover the entire State, but will concentrate their efforts in the supply areas.

Social Security Card Is Quite Important

A social security account number shows that the worker has an insurance account with the United States Government—Federal Old-Age and Survivors Insurance. Insurance policies must be protected and that is why they are kept in safe places. The social security account card is evidence of a worker's insurance policy with the Government. Give it the same care as any insurance policy, advises Mr. James L. Farmer, Acting Manager of the Social Security Board's office located at 254 New Post Office Building, Amarillo, Texas.

For every account number it gives out, the Social Security Board sets up a separate account. The number on the card is the same as the number in the account. With the worker's name it identifies the account.

Old-Age is not the only risk the account insures against. The purpose of this insurance is to pay not only a regular monthly income when workers are 65—and stop work, but to pay benefits to the family if the worker dies.

These monthly insurance payments are based on wages in the jobs that come under the old-age and survivors insurance system. Every day's pay on such a job helps to build up this family insurance protection. Be sure that these records are kept under one account number.

The Cape Verde islands consist of ten islands and five islets.

81 Veterans Are Returned Home

They come back slower than they went away.

Men called from Gray county for duty with the armed forces left in draft quotas that ranged as high as 175. They don't return to civilian life, at the present time, in that number, but already 81 veterans of World War 2 have come back to Gray county.

Although peace is probably a long time off, these 81 have returned to civilian life. The U. S. Employment service here, of which Otis R. Terry is manager, has found jobs for 121 veterans, of whom 81 were veterans of the present world conflict, and the remaining 40 veterans of World War 1.

These placements are for the period January 1, August 1, 1944.

A majority of the returning veterans have been discharged due to physical ailments.

Some have found work as bookkeepers, others as machinists, automobile mechanics, and laborers, and all the jobs are in Gray county.

"We maintain an information ser-

vice as well as a placement service," Manager Terry said today. "The U. S. E. S. is anxious to serve these veterans, and is able to refer the veteran to the proper place for the handling of his problems."

Azucar Dam To Help Parched Rio Valley

MALLEN, TEXAS, Aug. 3.—(AP)—Water from the northern Mexico el Azucar dam project will be released into the Rio Grande for relief of the parched Rio Grande Valley when formal orders from Mexico City are received at Comales headquarters of the dam.

Maj. L. Lytel of San Benito, valley engineer for the International boundary commission, said after a week-end conference with David Herrera Jordan, operations manager at the Mexican water project 73 miles southwest of Malien, that there was no indication when the orders would reach Comales.

The flow from the Azucar reservoir over the 5.5 mile which recently was 4,500 cubic feet per second into the San Juan river and thence into the Rio Grande, is down to 100 cubic feet per second.

At the height of its flow the San Juan was providing about one-third of the flow of the Rio Grande in the valley.

The river is now supplying only about 1,200 second feet for this area, whose normal needs are 3,400 to 3,600 second feet.

Some of the Azucar water is lost en route down the San Juan to the Rio Grande.

Oklahoman Turned Defeat to Victory In Drive on Rome

WITH THE FIFTH ARMY, Italy, Aug. 3.—Staff Sergeant Dennis D. Rice of Lone Wolf, Oklahoma, a platoon guide in a 46th "Thunderbird" division rifle company, turned what might have been a disaster into a victory and aided his unit in its drive on Rome.

In the action, Rice and one of his assault squads knocked out two Jerry pillboxes, killing or wounding 12 and taking 15 prisoners.

The 27-year-old Oklahoma infantryman's outfit jumped off near Carano in the opening stage of the Fifth Army's offensive which was to drive the Germans out of the Eternal City. The company's objective was 1,500 yards away, across flat, open terrain. Rice's platoon was the assault unit.

Shortly after the men had left their foxholes, both the platoon leader and the platoon sergeant fell, wounded. Rice, who was familiar with the terrain features and enemy installations because of previous reconnaissance, took over and kept the men advancing.

Enemy mortar and automatic fire were heavy and the platoon suffered many casualties. Most of the men were recruits who had recently joined the company and became confused easily. The Oklahoman kept in touch with each man from time to time. He led the platoon successfully to its objective.

Upon completing the initial mis-

More Gravel Needed For City Water Well

A carload of gravel, plus an additional 18 cubic yards, has been put in the city's Water Well 4, but more gravel is still needed. James B. Massa, city water department superintendent, said today.

It had previously been expected that the well would be producing not later than July 20 but more time has been required to develop the 451-foot well.

A test pump is due to be installed in the well today, then run for 100 hours on test.

Japs Told Guamanians Real Cock-Bull Story

By PERCY FINCH
Representing the combined Allied Press

ABOARD ADMIRAL CONNOLLY'S SHIP, Guam, Aug. 3.—(AP)—The way the Japanese told it, the Pacific war had just about been won—by Japan.

Now—liberated civilians on Guam told marines that before the American invasion, they got this version of world affairs from the Japanese: Japan had captured the Hawaiian islands, then had sailed through the Panama Canal without losing a ship and occupied Washington.

They also captured the entire Far East and Australia.

"The Japs told us the Americans wouldn't return for 100 years," a white-haired Guamanian told me. "When the American fleet appeared in sight of Guam the Japs said it was the Jap fleet."

Osmena Takes Pledge In Heading Filipinos

WASHINGTON, Aug. 3.—(AP)—Sergio Osmena, new president of the exiled Philippine government, takes office with these announced purposes:

(1) To cooperate with American military men in every way possible toward the early liberation of his homeland from the Japanese.

(2) To work for permanent freedom for the islands as an independent nation.

The 65-year-old leader took the oath of office here Tuesday in a hurriedly-prepared ceremony only a few hours after President Manuel Quezon died at Saranac Lake, N. Y.

Funeral services for the Philippine president will be at 9 a. m. (EWT) Friday at St. Matthews church here. Burial will be in Arlington national cemetery.

The body arrived in Washington today and was taken, under military escort, to the church where it will lie in state until the services.

When cooking snap beans for dinner, plan on having enough left over to be chilled in the refrigerator and used in a salad a day or two later. They are especially good served with a bacon dressing.

CITATION BY PUBLICATION THE STATE OF TEXAS

To: Avery A. Dobson

GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 11th day of September, A. D. 1944, at or before 10 o'clock a. m., before the Honorable District Court of Gray County, Texas, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 26th day of July, 1944. The file number of said suit being No. 7632.

The names of the parties in said suit are:

Leta F. Dobson as Plaintiff, and

Avery A. Dobson as Defendant.

The nature of said suit being substantially as follows: to wit: Suit for divorce and custody for minor child.

Issued this 26th day of July, 1944.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 26th day of July, A. D. 1944.

(SEAL)

MIRIAM WILSON,
Clerk Court, Gray County, Texas.
July 27, AUG. 3, 10, 17.

BUDGET HEARING

Notice is hereby given that a public hearing will be held by the Commissioner's Court of Gray County, Texas, on the County Budget for the year 1945 in the District Courtroom at Pampa, Texas, on August 14, 1944, at 2:00 p. m. Any taxpayer shall have the right to be present and participate in said hearing.

Witness my hand this 1st day of August, A. D. 1944.

SHERMAN WHITE,
County Judge.

APPLICATION FOR LIQUOR PERMIT

The undersigned is an applicant for a Retail Liquor permit from the Texas Liquor Control Board and hereby gives notice by publication of such application in accordance with provisions of Section 10, House Bill No. 77, Acts of the Second called session of the 44th Legislature, designated as the Texas Liquor Control Act.

"The Retail Liquor permit applied for will be used in the conduct of a business at Oasis Liquor Store, 400 S. Hobart, Pampa, Texas.

Attorney General Says County Judge Orders Bond Election

AUSTIN, Aug. 3.—(AP)—The attorney general, in an opinion rendered to Dan Abbott, assistant county attorney of Taylor county, said the county judge is the only person authorized to order a bond election upon petition of 20 or more property tax payers in a common consolidated school district.

In the event there are less than 20 taxpayers, then a majority will suffice.

This opinion was pursuant to a

could order a bond election for the establishment of a common consolidated school district.

On May 15, 1941 an election was held to consolidate Iberia common school district No. 38, Taylor county, with Wiley common consolidated school district No. 38, Taylor county, with Wiley common consolidated school district No. 11 of Taylor county.

This election carried unanimously and the commissioner's court accordingly established Wiley common consolidated school district No. 11 of Taylor county.

The next step in securing a school was held a bond election, and the

opinion of the attorney general was sought. Attorney General Grover Sellers ruled the "bond election should be held in accordance with the laws governing bond elections in common school districts."

Harvest of VALUES

A clash between OPA and WFA has delayed distribution of the August Point Chart until the 13th. WFA issued a directive ordering OPA to remove most beef steaks and roasts from rationing by August 1st. OPA protested that enforcement would disrupt cattle prices. The controversy between the two agencies has been settled by Fred Vinson, Stabilization Director, and James F. Byrnes, War Mobilization Chief, Marvin Jones wins. We are still operating under the July Point Chart.
