Unrest In Balkans, Romanians March Against Hungary

News Spurs Leaders To Make Plans

WASHINGTON, Aug. 24.—(AP)—Evidence from Romania that Hitler's Europe is beginning to collapse on political as well as military fronts gave new impetus today to British insistence at the Dumbarton Oaks conferences for early decisions on postwar world security organization.

Sir Alexander Cadogan, chief of the British delegation, has taken the lead in urging that at least a part of the security organization should be set up soon to span the gap between the end of the European war—which he says may come sooner than expected—and the formal creation of a new international league to preserve peace.

Three Contested County Races In Second Primary

Run-off in the Gray county election will be held here Saturday when voters go to the polls to determine their choices for three contested county and two contested state offices.

The usual lack of interest is expected since second Democratic primary elections, the run-off, have never drawn out the vote like the first primary, which was held on July 22 this year.

Election supplies have been sent out. Polls will open at 8 a. m. close at 7 p. m. Absentee voting ended Tuesday with 47 votes cast.

Twister Kills 1, Fifteen Injured

The McCook farming community near Edinburg today counted one person dead and 15 injured in the wake of a small twister, while showers of rain and hail followed a small tropical disturbance which earlier in the week blew inland in Mexico, south of Brownsville.

1 Dead, 1 Seriously Burned In Collision

DALLAS, Aug. 24.—(AP)—A man tentatively identified as W. O. Anglin of Dallas was fatally burned and a street car operator critically burned here early today in the collision of a trailer truck and the street car.

Famous Air Ace Is Taken Prisoner

WASHINGTON, Aug. 24.—(AP)—Lt. Col. Francis Gabreski, 25, American leading ace who was reported missing in action July 20, is a prisoner of war in Germany, the War Department disclosed today.

THE ROAD TO BERLIN

1—Russian Front: 322 miles (measured from eastern suburbs of Warsaw).
2—Northern France: 519 miles (measured from a point 15 miles east of Sens).
3—Italian Front: 601 miles (measured from northern outskirts of Florence).
4—Southern France: 608 miles (measured from Grenoble).

'Grave National Crisis' Is Facing Japan, Says Koiso

Premier Betrays Sign of Fear Of Island Invasion

By J. B. KRUEGER
Associated Press War Editor
New American stabs into the Bonins 600 miles below Tokyo gave point today to Japanese Premier Koiso's warning to his people that the enemy is watching for an opportunity to land on our homeland.

Japan, he said, faces an "unprecedented grave national crisis."
Radio Tokyo said Liberators bombed Chichi Jima Thursday (Tokyo time). Two days before, Adm. Chester Nimitz announced, Liberators sunk two cargo vessels and set a third afire off Chichi Jima, principal fortress in the Bonin Island defenses guarding Japan.

Mindful that the Bonins have been under steady attack since American investment of Saipan to the south, General Koiso warned of possible homeland invasion and asked the people to increase Japan's fighting power.

He asked, too, for improved air raid defenses, no doubt in recollection of recent Superfortress attacks on the home islands. American bombers, Tokyo radio quoted him as saying, last night were certain to increase their blows.

Gen. Douglas MacArthur contributed to this gloomy enemy appraisal with successful attacks on six ships south of the Philippines. Mindanao was hit for the tenth time by MacArthur's raiders and big fires were kindled in the island's main city of Davao.

The bitter bloodletting centering on Hengyang for control of the Hsiang-Kan railway continued without sign of approaching decision. The Chinese halted two enemy thrusts and strove to halt another Japanese attempt to get rolling down the unquarreled 170-mile gap in the railway.

Secretary Stimson Says Germans Can't Last Long in North France

WASHINGTON, Aug. 24.—(AP)—Secretary Stimson said today Allied military victories coupled with the rising of French forces have shattered German hopes of making a prolonged stand even in northern France.

O'Daniel Says Big Concerns Will Buy Pipelines Cheap

WASHINGTON, Aug. 24.—(AP)—Senator W. Lee O'Daniel (D-Tex.) says that major oil companies will buy the \$140,000,000 worth of government-built Texas-East Coast pipelines at 10 cents on the dollar, adding that such a sale is a foregone conclusion.

Allied Gunners Are Hidden by Maquis

ROME, Aug. 24.—(AP)—Sgt. Robert Allen of Austin, Texas, and Corp. Harold Waldron of Columbia, Ala., B-26 gunners, were back at their base today after spending ten days in enemy territory under the protection of French Maquis.

WAR IN BRIEF

FRANCE—French, Americans enter liberated Paris; French patriots seize entire Lyon region; Americans reach Swiss frontier; Allied forces, French patriots capture Bordeaux.
ROMANIA—Romanians march against Hungary; fighting spreads between Germans, Romanians; two Russian armies drive toward Danube to trap Nazis.
RUSSIA—Reds continue offensives in South, North Poland; push nearer German Silesia and East Prussia.
ITALY—Allies advance on both sides of upper Arno river against lessening enemy resistance.
PACIFIC—Americans make new stabs into Bonins; Japanese premier declares danger of Allied landings on homeland.
Five-one Garage, 600 S. Cuyler, Ph. 51.

NAZIS' FINAL STAND

Map above, depicting southwest France, shows Bordeaux, which, according to Spanish and Swiss reports, has been taken by Allied invasion forces, and the French Maquis. Grenoble, in southern France, is also reported to have been invested by Lt. Gen. Patch's forces driving up from Marseille, already in Allied hands. Arrow indicates approximate point at which Allied forces are reported to have gone ashore more than 48 hours ago.

Premature Report of City's Freedom Made Yesterday

By ALTON L. BLAKESLEE
Associated Press War Editor
Allied troops battled to enter Paris today at the call of Parisian patriots engaged in renewed struggle with Germans apparently determined on a last-grasp defense of the capital.

Elsewhere in France Allied armies rolled on—with reports they had already reached the Swiss border—and Hitler's Balkan wall tottered ominously after Romania's dramatic capitulation. (Story in right column.) Paris, but the city could not be considered liberated. Underground leaders had reached some kind of armistice with the enemy, the Germans agreeing to leave the city, but later the Nazis repudiated it, and street battles again broke out. Allied forces began moving in, but there was no definite word that they had actually entered Paris yet.

Planes Hit Enemy in Trap

At this dark hour for Germany, Allied planes struck fiercely at a German "Dunkerque" attempt to flee the tightening Seine trap from Le Havre at the river's mouth. An undetermined number of ships in the fleet of light service warships and other vessels were sunk or damaged. In one of their heaviest raids, 1,300 U. S. heavy bombers with 1,000 protecting fighters blasted at a dozen prime targets in Germany and on the Czech border, including synthetic oil plants and plane factories.

On the west, France speedily was being torn from faltering Nazi grasp. The noose tightened on Germans enveloped below the lower Seine; U. S. troops southeast of Paris pursued the enemy within 150 miles of the German frontier, Geneva reports put Americans already at the Swiss border in swift inland lunges from the southern invasion; Bordeaux was reported fallen to Allied troops and to French patriots who were rising nearly everywhere to cast off Nazi domination. France was one-third or more liberated.

Desire For Revenge Is High

Conquered lands thirsted for revenge. Parisians, in one of the first tastes, captured more than 1,000 Germans in the four-day struggle to liberate their city, and inflicted heavy casualties in street fighting, French headquarters declared.

Other Americans curving southeast of Paris punched within less than 150 miles of the German frontier, pushing beyond Sens. Two more spearheads were put over the upper Seine near Fontainebleau.

Attorney Says Ruling Misread

HOUSTON, Aug. 24.—(AP)—The Democratic convention at Dallas Sept. 12 can legally nullify the work of the May state convention, says Herman Jones, Austin attorney and state chairman of the pro-Roosevelt forces.

The May convention named presidential electors and instructed them not to vote for the party nominee, but for some other Democrat if certain Texas demands were not met.

At an interview yesterday with the Post, Jones said that "anybody who says the State Supreme Court held that the May convention had exclusive authority to nominate electors either can't read English or is failing to tell the truth."

"All the court held was that in the absence of explicit statutes, the party could determine its nominating methods, and the court concluded the statutes did not explicitly require nomination of electors by direct primaries."

Late Col. Thomason Lauded by Governor

AUSTIN, Aug. 24.—(AP)—The Late Colonel John W. Thomason, Jr., was characterized today by Gov. Coke R. Stevenson as one of "the great Texans of his day."

Stevenson so described him in naming Thomason's friend Lt. Col. Paul L. Wakefield of the state select service office, to serve as Texas' representative when the destroyer U. S. S. John Thomason is launched at San Francisco sometime in September.

Thomason, author and Marine Corps colonel, died in San Diego, March 12. Thomason's Texas home was in Huntsville. His widow, who lives at Arlington, Va., will christen the vessel to be named in his honor.

When the U. S. S. John Thomason goes into service, along with it will go a complete set of Thomason's works, to be donated to the library by Col. Wakefield. Among these books are "Fix Bayonets," "Lone Star Preacher" and "Gone to Texas."

GERMANS GET AWAY

DALLAS, Aug. 24.—(AP)—The federal bureau of investigation said two German prisoners of war, Eberhard Weiling, 21, and Bruno Leibeseder, about 20, escaped from the compound at Camp Howze, near Gainesville, late last night.

Hungarians Get Orders From Nazis

LONDON, Aug. 24.—(AP)—Romania began marching against Hungary today after an sudden exit from the war against the Allies in an aboutface which directly threatened the whole German position in the Balkans.

Bucharest broadcasts said Romania in fact had turned cobelligerent and there were reports of spreading fighting in the rich oil and wheat kingdom between Romanian and German troops.

Bulgaria, already outflanked in the south of Turkey's severance of relations with Germany, now was perched on a narrow ledge as well and in an entirely untenable position.

Yugoslavia and Greece, where patriot armies have waged long and bitter guerrilla war against the Nazi yoke, were in positions for quick liberation.

Russian armies driving swiftly toward the heart of Romania signaled the punch which finally blew down the house of cards which deposed Premier-Marshal Antonescu had built in Romania.

The Nazi-controlled puppet regime of Hungary ordered today the dissolution of all political parties, apparently fearing intrigue to take Hungary out of the war.

The cabinet order was published in the official gazette and as reported by DNB, official German news agency, decreed that every political party "irrespective of its political outlook," must dissolve at once.

Property belonging to former party organizations was frozen pending

Nelson Hits Back At Army Critics

WASHINGTON, Aug. 24.—(AP)—Taking sharp issue with army critics of his civilian reconversion program, WPB Chairman Donald M. Nelson was dismissed today as having testified that with minor exceptions, all critical munitions programs "are being met."

Asserting that despite the need of men to meet existing requirements of special military items, Nelson added that this program would not be solved by letting loose a blunderbuss against the whole manpower situation or by another 100,000 broad limitations on the use of labor.

Nelson's side of his row with the army was released today by the Senate war investigating committee today as the aftermath of earlier publication of testimony by Maj. Gen. Lucius D. Clay, army materiel director, placing blame on German munitions shortages for big deficits in heavy ammunition and other items.

"The decline in employment," Nelson told the committee last week, "must be recognized as a decline in labor requirements, even though there is an urgent demand for about 100,000 workers in direct war production and another 100,000 in sustaining civilian production."

"Our own estimate is that overall manpower requirements will go down by at least another 300,000 by the end of the year, even though both Germany and Japan continue at war with us and all our production schedules remain in effect."

Nelson said that war production "does not need more than 100,000" of the 700,000 workers already released from munitions industries, that war plants could not employ the 700,000 and that the millions still needed at their war jobs "should be given the assurance that civilian jobs will be available when war production eases up."

Fingerprints Found On Victim's Throat

ORANGE, Texas, Aug. 24.—(AP)—Deputy Sheriff Louis York identified a woman whose body was found here yesterday as Miss Wynona Holden, 27, of Covington, La.

J. F. Swain, justice of the peace, said the woman had been strangled to death. Marks, believed to be fingerprints, were on the victim's throat. York said the woman formerly was employed at a road house east of Orange, in Louisiana.

Nine Carriers Aid in Invasion

WASHINGTON, Aug. 24.—(AP)—Ralph A. Bard, acting secretary of the navy, disclosed yesterday that 9 Allied aircraft carriers participated in the invasion of southern France. This carrier fleet, providing air cover for the landing troops, included seven British and two American ships.

Railroad Official Replies to Biddle

CHICAGO, Aug. 24.—(AP)—Charles E. Johnston, chairman of the Western Association of Railway Executives, said that if issues involved in an anti-trust suit "are the same as those raised by Attorney General Biddle and his assistant, Wendell Berge, in speeches and interviews, they strike at the keystone of the economic and political structure of this country."

The association is a defendant in a suit filed by the Department of Justice. Johnston continued: "First, is the question of whether industry in the future shall operate under the dictatorship of the Attorney General through the questionable process of 'consent decrees' or under regulatory laws prescribed by Congress."

"Second, is the question of whether a revolutionary change shall be enforced in the method of establishing freight rates, resulting in widespread dislocation and pillaging of industries throughout the nation and agricultural production as well x x x"

"Chair of regional discrimination in freight rates are political buncombe, pure and simple. Anybody who can write a letter and has the price of a three-cent stamp can file a complaint with the Interstate Commerce commission. Any dissatisfaction with the commission arises from the fact that it considers complaints on their merits and resists the demands of pressure groups seeking advantages."

"Biddle and Berge propose to liquidate this procedure and set themselves up as the administrators of the railways and presumably every other form of private enterprise."

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause dragging backache, rheumatism, joint, leg pains, loss of pep and energy, getting up, sitting, swelling, puffiness under the eyes, headaches and dizziness. Frequent or nervous passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Machine Shop Foreman Admits Women Do Make Good Workers

By OSIE BLACKWELL WILSON L. B. Schlemeyer, for three years shop foreman for Jones Everett, Frederic St., made a statement recently that women machine operators had helped to pull his company through hard times. He said that in the beginning he, like other business men who depend upon revenue from their business rather than from the government, was dubious about using women. His idea was that women were temperamental and that only people with government money had the time, and the place to use them.

No Lipstick for Man 'Over There,' It May Cause Death of All

Thin particles of lipstick on ammunition will destroy the accuracy of the best heavy artillery in the world. Captain E. M. Smith, commanding the Pantex Plant of Amrillo, of which certain-teed Products Corporation is the prime contractor, today emphasized the care that must be taken in the manufacture and loading of heavy artillery shells by citing the fact, in on bag loading plant, Ordnance inspectors rejected an occasional bag with a red stain without knowing the cause of the stain.

Upon investigating, they found that some of the girls working in the plant had used lipstick. Smith said that he had seen lipstick on the hands of women workers. He said that he had seen lipstick on the hands of women workers. He said that he had seen lipstick on the hands of women workers.

Recent combat reports demonstrate that the extraordinary care taken by Army Ordnance in the manufacture, bag loading and shipment of heavy artillery ammunition is enabling our combat units to deal effectively with the enemy.

In commenting upon the precautionary measures taken at the Pantex Ordnance Plant, for the safety of line workers, and especially for the safety of the soldiers on the battle fronts handling ammunition, Captain Smith said, "It has been the policy of the plant since it first started loading ammunition, that no worker take any metal or any object of any kind that might react on the powder, that would cause a flash, which could be very disastrous in the loss of life and property."

Women workers, before entering the load lines, must turn in to line matrons, matches, jewelry, hair pins, bobby pins, nail files, powder, rouge, lipstick, etc. In fact, each worker, man or woman, is subject at all times to search for any object considered a hazard to their line and the lives of their fellow workers.

The plant furnishes free to load line workers whole in the job, powder suits and safety shoes, and so control are the officials at the plant, ever on the watch for fire hazards, buttons and pins about the clothing are even prohibited. During the entire two years Pantex has been operating as a munitions plant, there has been no major accident, due to the watchfulness, at all times, for the hazards that could occur," said Captain Smith.

According to Captain Smith, Pantex Ordnance Plant, at the present time, is loading 500 lb bombs and 105-mm howitzer shells.

Attorney Hopes For Railroad Action

WASHINGTON, Aug. 24.—(AP)—Assistant Attorney General Wendell Berge told directors yesterday that filing of the government's anti-trust suit at Lincoln might encourage "independent railroads to take independent action" in reducing freight rates.

He said some roads in the past were dissuaded from reducing rates by what he termed the "coercive" action of others. Now, he added, they may decide to go ahead since the government has taken the position that the western rate fixing agreement is illegal.

He said a reduction of western freight rates would assist the reconstruction program because industry would be encouraged to locate in regions it previously has avoided.

Heavy-Duty Tire Problem Still Here

CLEVELAND, Aug. 24.—(AP)—Despite an adequate supply of rubber, "there is no remedy in sight for our heavy-duty tire problem" before early next year, Col. J. Monroe Johnson, director of the office of defense transportation, declared yesterday.

"Tire production is at a peak," said Johnson, "but we simply can't seem to enlarge our tire production facilities."

The rubber director, in an interview, blamed the tire shortage on "those responsible for allocating rubber to the heavy-duty section of the tire industry."

Shortage of 155 MM. Shells in Landing

Forces participating in a recent landing operation failed to get half of the 155 millimeter ammunition needed, Maj. Gen. Lucius D. Clay, director of material for the army, service forces told the Senate War Investigating committee.

Clay, who appeared before the committee during its investigation of surpluses and war scarcities, said there were serious shortages in a number of categories, largely because of the manpower problem.

Pampan Is Re-United With Sister, Both Serving With Army in Italy

HEADQUARTERS, AAF SERVICE COMMAND IN ITALY—Six years ago, Billy Bell, a rough-and-tumble kid in junior high, said goodbye to his sister when she returned to her home in Corpus Christi after visiting him and her older brother, Ray Bell, in Pampa, Texas.

Recently, there was a happy meeting when Technical Sergeant William W. Bell walked into the AAF WACs in Italy, to find "Sis" busy at her duties in the mess kitchen. It was no little surprise to Technician Fourth Grade Winifred M. Roberts, overseas since November, 1943, to find Billy grown to a fine young man, aerial gunner in the Air Corps, with 50 missions already to his credit.

As for Bill, he was proud to find his sister a soldier, too. Texans are like that!

Upon the death of their parents years ago, the Bell children became separated. The outbreak of the war put even greater distance between them. There are now five children in service—Sergeant Douglas Bell Ogburn with the Army, somewhere overseas; Sergeant Ray Bell, stationed at an Army camp in Santa Ana, California; and Corporal Charles, a Marine on duty in the South Pacific.

In addition to Bill and Winifred, serving in Italy.

Air WAC Roberts enlisted in the Women's Army Corps in January, 1943, and following training which included graduation from Bakers and Cooks School in Fort Des Moines, Iowa, was assigned to an overseas unit, which arrived in North Africa in November of the same year. Her company, assigned to the Army Air Force Service Command, was transferred to Italy in February, 1944. Members are on duty with the vast organization which supplies combat units of the Air Force in the Mediterranean Theater of Operations.

Sgt. Roberts is a member of the headquarters platoon and is first cook for her company.

Sgt. Bell has been overseas for over a year, and at one time was reported missing. Of this, however, he has little to tell, saying merely, "Oh I was safe enough. Sis—you needn't have worried about me."

It was not until recently that Sgt. Roberts learned that her brother was in Italy, and began trying to locate him. About the same time, Bill learned of his sister's whereabouts, and found an opportunity to look her up, thus learning firsthand how things are going for his sister.

Before enlisting in the WAC, Sgt. Roberts lived at 1014 1/2 Laredo Street, Corpus Christi, and was employed by the Royal Grill Cafe for one year. Previously, she was night manager at the Tex Mex Restaurant for four years.

Truman Points Out Veteran Influence

CHICAGO, Aug. 24—(P)—Veterans will be the "most potent factor in the political setup that the country has in the next generation, U. S. Senator Harry S. Truman declared yesterday.

In an address to the Veterans of Foreign Wars national convention, the Democratic vice-presidential nominee predicted that "veterans will be just as great patriots when civilians as they were in uniform."

Describing the veterans' readjustment of what this country thinks the veteran is entitled to, Truman maintained that returned fighters in turn have an obligation to the government.

"It is their duty," he said, "to continue the government in the manner for which we are fighting. They must see to it that the nation's production machine is made to work for the welfare of the world as it has worked for the war."

A new electronic device sorts metals, recording differences in material, alloys, heat treatment and thickness.

Newspaper Sizes Up Political Squabble

LONGVIEW, Aug. 24—(P)—The Longview Daily News commenting on the Texas political situation, said editorially:

"Reluctance of fourth termers in Texas to put up their own slate of electors in the November balloting indicates they had rather steal those already named by the May 23 state convention at Austin, just as the Chicago convention stole half the seats of the Texas delegation to that meeting and nullified the vote of the other half of seating 23 Mavericks who had appointed themselves Roosevelt delegates."

"If the fourth termers really want to salvage the Roosevelt votes in Texas this year, the anti-Roosevelt faction has no objection, providing the former admit the truth of the situation and put up their own slate of Roosevelt Democrats . . . x x x"

"Doubtless the way out of all this, in future, will be direct election of president and vice-president. That will eliminate much of the dissatisfaction about the present situation."

Livestock Losses To Diseases Are High

CHICAGO, Aug. 24—(P)—Livestock diseases are costing American farmers more than \$400,000,000 annually, Dr. J. A. Barger, Des Moines, Ia., reported to the American Veterinary Medical association.

"About 30 per cent of the cattle hides sold in the U. S. from December to April are so damaged by cattle grubs they have to be de-graded. Beef trimmed from grub-infested carcasses last year totaled more than 10,000,000 pounds," he estimated.

Another estimated 75,440,000 pounds of meat are lost annually from improper and careless handling of livestock in shipping, Dr. Barger said.

CHICKENS — TURKEYS STAR SULPHUROUS COMPOUND
Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of egg production as they enter fowl in feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEY'S

'Black Widow' Is Now Seeing Action

U. S. NIGHT FIGHTER Base, Aug. 14—(Delayed)—The New American "Black Widow" night fighter has gone into action with its 20-mm cannon and already has destroyed four nocturnal German raiders.

The first victim of the P-61s, described as the greatest night fighter in the business, was a Junkers-88.

Most details of the Black Widow and the date it went into action are secret. It is painted coal black, has twin engines, twin tails and looks very much like the P-38 Lightning, but it is considerably heavier and larger. It carries a pilot and observer and there is a third seat for an engineer who often goes along. It is primarily a night altitude fighter and is reputed to have a faster rate of climb than any other two-engine fighter.

Big Occupation Air Force Being Planned

LONDON, Aug. 24—(P)—Allied air leaders were reported today to be planning an occupation air force, possibly of 15,000 bombers and fighters to work with ground troops which will be sent into Germany to preserve order when the Reich capitulates.

Most indications are that for group operation purposes Germany will be divided into three spheres of influence controlled respectively by the United States, Britain and Russia.

On the air side, a joint, combined setup without separate spheres of influence is believed likely because the air distances in Germany are small and because pooling of the three nation's differing air resources probably would be more advantageous.

Missing Man Is Reported Prisoner

HILLSBORO, Texas, Aug. 24—(P)—The War Department has informed Mrs. Ed Rodgers that her husband, pilot of an Italy-based liberator bomber who has been missing since a raid over Hungary two months ago, is a prisoner of the Germans. Lieut. Rodgers is a former Austin and Bonham newsman.

One of the ambitions of James I of England was to excel as an author. His first work was a volume of verse called "Essays of a Frenchie in the Divine Art of Poisie."

SHUCKS, ABNER. — DON'T YOU REMEMBER? WE'RE STARTIN' OUR FOURTH YEAR OVER KPDN

That's quite a record, folks. — if we do say so. It shows how much you've enjoyed the rib-ticklin' ups and downs and homespun humor of Lum and Abner. Thanks for showin' your appreciation by buyin' ALKA-SELTZER and ONE-A-DAY VITAMIN TABLETS, — the fine Miles Laboratory products that sponsor the boys. Thanks a million — an' — KEEP ON LISTENIN'!

Enemy Can Get Swell Case of Jitters Waiting for You to Hit His Beaches

By KENNETH L. DIXON
WITH THE AEP IN SOUTHERN FRANCE, Aug. 15—(Delayed)—(AP)—Right now it looks as if the Germans were caught by surprise in this operation. If so, it only proves the old security saying that "you can't keep the enemy from knowing what you're doing—you can only keep him from knowing when and where."

Mail Service Is Extended in City

Pampans residing on Duncan and Garland streets will begin to receive mail delivery on Friday, September 1, Postmaster W. R. Weathered said today.

Service on these streets will be limited to one trip daily for the duration. Stops will not be made by the carrier for collection only.

To obtain this service, residents on the streets named must erect letter boxes or install door mail slots; have the correct numbers placed on their houses; and furnish the post-office with a change of address showing the locations where they now receive mail and their new addresses.

This is the first time that mail delivery service has been extended to Duncan and Garland and is made possible through authorization from the postoffice department.

Britain's Industry Does Emergency Job

WASHINGTON, Aug. 24—(AP)—The entire output of Britain's sheet steel rolling industry was taken for 3 months to waterproof hundreds of American and British wading tanks, trucks and other mechanized equipment used in the invasion of western Europe.

This was disclosed in a lend-lease report submitted to Congress by President Roosevelt. In giving details of reverse lend-lease it said "one of the biggest last-minute rush jobs done for us by the British" was the waterproofing so the Allied equipment would reach the invasion beaches in fighting condition after plowing through the surf.

General Dwight D. Eisenhower's headquarters was said to have reported that the sheet steel used for this pre-invasion job would have been enough to build a bridge 150 feet wide across the English channel from Dover to Calais.

Less than one-tenth of one percent of the cotton cloth produced annually in the United States is required for binding cloth for books.

PUBLIC EXCITEMENT

OMAHA, Neb.—"Hey, get out of the middle of the street," Policeman Nels Sorenson shouted to a man attempting to walk a white line along an Omaha street.

Here's What Penicillin Will Mean To Civilians

Now that penicillin, the dramatic drug-mold, has been distributed to key hospitals for use on civilians, you may be wondering what it will mean to you. The many uses of the new and potent weapon are described by Donald G. Cooley in an article in the September issue of Better Homes and Gardens magazine.

without toxic effects. Germs may become resistant to it, but when they do, they become less virulent. The drug cannot be taken by mouth, for stomach acids destroy it. In some cases where the patient need not stay in bed, penicillin is injected into the muscles every three or four hours, and is absorbed by the system.

Bringing Up Baby

When they are tired, children naturally want to sleep. Your child may not be ready to sleep just when you think he should or wake up to suit your convenience. You can find out how much sleep he really needs and plan accordingly.

White Deer School Enrollment To Open Saturday, September 2

Special To The News.
WHITE DEER, Aug. 24—All students, except seniors, will register for the 1944-45 school term on Tuesday, September 5 and classes will begin on Wednesday, September 6, according to an announcement issued this week by Chester Strickland, superintendent of the White Deer independent schools. Seniors are asked to register on Saturday afternoon, September 2, or Monday afternoon, September 4, if possible.

The school board and faculty will have their annual breakfast, Saturday, at the Skellytown cafeteria, and

faculty meetings will be held in the respective buildings, Monday morning.

The Skellytown faculty will include Tommie Cole, principal; Herta Meyer, and Lydia Lockhart, first grade; Jane Williams, second grade; Maxine Carey, third grade; Mrs. C. L. Rice, fourth grade; Jean Claborn, art; Ida Lou Glaze, band; Hester Glaze, music; and physical education; Elizabeth Green, language arts; C. L. Rice, mathematics and physical education; and Mrs. H. C. Cannon, cafeteria manager.

At the White Deer grade school will be Fred Mullings, principal; Mrs. Juno Duval, first grade; Mrs. Fred Mullings, second grade; Mary Lee Davis, third grade; Mildred Cole, fourth grade; Winifred Carroll, art; Sibyl McCall, music; Mrs. H. M. Lane, language arts; and Helen Robinson, physical education.

Committee Head Will Not Resign

PORT WORTH, Aug. 24—(AP)—Tarrant County Democratic Executive Committee Chairman A. H. Sanders says he will stick to the job until September 2, when Jack Carter, elected to succeed Sanders, takes office as the new county chairman.

Sanders said yesterday he had no notion of resigning his post despite the request of 56 precinct chairmen who signed a resolution on the subject as mayor Austin, executive committee, Sanders was not a candidate to succeed himself as county chairman.

The resolution signers asked Sanders—who said he would issue a statement later in reply to the committee—to resign because of what they said was his failure at the July 29 county convention to use the convention roll prepared by the committee and to follow the program of business planned by the executive body.

Austin Sees No Issue Over Security

WASHINGTON, Aug. 24—(AP)—A prediction that there will be "no party cleavage" over issues of peace and postwar security was made yesterday by Senator Austin, executive committee, Sanders was not a candidate to succeed himself as county chairman.

The resolution signers asked Sanders—who said he would issue a statement later in reply to the committee—to resign because of what they said was his failure at the July 29 county convention to use the convention roll prepared by the committee and to follow the program of business planned by the executive body.

Mr. and Mrs. S. O. Mara have returned from California to make their home here. They are residing on the Phillips lease, west of Pampa.

Mr. Mara's system of giving Permanents without cutting the hair makes beautiful Permanents. Shoppe open Sept. 1st.

Pampa Lodge 480 Knights of Pythias will confer the rank of knight on J. A. Cook and G. M. "Peg" Whittle tonight at the regular meeting to be held at the castle hall beginning at 8 o'clock. Chancellor Commander J. Zachary urges all members to be present.

Committee Head Will Not Resign

PORT WORTH, Aug. 24—(AP)—Tarrant County Democratic Executive Committee Chairman A. H. Sanders says he will stick to the job until September 2, when Jack Carter, elected to succeed Sanders, takes office as the new county chairman.

Sanders said yesterday he had no notion of resigning his post despite the request of 56 precinct chairmen who signed a resolution on the subject as mayor Austin, executive committee, Sanders was not a candidate to succeed himself as county chairman.

The resolution signers asked Sanders—who said he would issue a statement later in reply to the committee—to resign because of what they said was his failure at the July 29 county convention to use the convention roll prepared by the committee and to follow the program of business planned by the executive body.

Mother of Local Man Dies at 80

Paul V. Clifford of this city today received word of the death of his mother, Mrs. Addie Clifford, 80, who died at the home of her son, J. R. Clifford, at Parsons, Kan.

Mrs. Clifford was married to John B. Clifford in 1900, moved to Kansas in 1909, coming from Illinois, her native state. He died in 1911. She lived a quiet life, and was known in circles here.

In addition to the two sons mentioned, a third son, P. L. Clifford, Long Beach, Calif., and three grandchildren are also left.

The Clifford family is today for Parsons.

Funeral services will probably be held on Saturday afternoon, and burial will be made at Mount Hope cemetery, Independence, Kan.

'I-Man Army' Did All Right Against Nazis, Not Against Hymen

RED HILL, Pa., Aug. 24—(AP)—Wedding bells did what the enemy couldn't—shake the steel nerves of the "one-man army" of Anzio.

It took just 10 minutes to turn Pfc. Alton W. Knappenberger, Congressional Medal of Honor winner for holding off two German companies and mowing down 60 Nazis, into a jittery bridegroom.

Maybe it was the marriage license clerk at Norristown who first noticed the change for he asked the "army" to speak louder.

That's when the 20-year-old veteran—his childhood sweetheart, 16-year-old Ruth Eckhoff, by his side—burst into tears. "I was more scared than I ever was," he said.

However, everyone smiled when he hurried into St. Paul's Lutheran church, fumbled in his pockets and then dashed off again, leaving his bride-to-be to explain.

It wasn't long before the "army" was back with the license. The ceremony started.

It was over in 10 minutes. By that time the "army" had steeled down to the point where he was almost as calm as his young bride.

The honeymoon party will have to be postponed until after the war because the "army" expected to return to service soon.

Canadian River Dam Needs To Be Probed

Owners of land adjacent to the Canadian river have been invited to attend a meeting in Amarillo at 10 a. m. tomorrow when U. S. engineers will discuss a project to erect one or more dams on the river to prevent flooding.

Sanford has been named as one of the proposed dam sites.

The meeting will be held at the Amarillo hotel. E. J. Hanna, chairman of the industry committee of the Pampa Chamber of Commerce, and other Pampans are to attend.

Engineers Are Cited For Marshall Work

7TH AAF HEADQUARTERS, CENTRAL PACIFIC—(Delayed)—A battalion of 7th Army Air Force Aviation engineers, who in four days after landing in the Marshall Islands had hacked an airstrip from smoking debris of enemy installations, have been commended for their performance of duty by Brig. Gen. Robert W. Douglass, Jr., 7th AAF commander.

The officers and men who distinguished themselves included 10 Texans, among them:

Tech. Cpl. P. H. Blaylock, Jr., 21, of Marshall, son of Mrs. P. H. Blaylock. He is a grader operator.

Staff Sgt. Jere B. Long, 34, 611 W. Main St., Denison, Texas, whose parents, Mr. and Mrs. Herbert Long, live at Auxsa, Calif. Sgt. Long attended Dayton (Texas) High school and was a construction foreman for Guy F. Atkinson Co., in Denison. He is an assistant construction superintendent.

Brush corduroy with a whisk broom or clothesbrush occasionally while it is drying to fluff up the nap.

further disposition. Severe penalties were provided for violations.

The Germans announced Romania's capitulation had been expected. The Berlin correspondent of Associated Press said that "German troops captured by the Russians" were expected to be "expected" this Swedish report said Berlin circles blamed Romania's move on the Russian offensive, "Bulgaria's peace overtures and the sustained Allied bombing of the Ploesti oil installations."

Moscow announced German troops on the eastern front were killing Romanian forces seeking to pull away from the two-fisted Russian offensive driving through north-eastern Romania and Bessarabia toward Bucharest, less than 170 miles away.

A German military broadcast here in London said the Romanian third army was fighting beside the Russians. The Swiss radio said other Romanian troops had marched into Transylvania, wrested from Romania in 1940 by Hitler and given to Hungary.

Romania's about-face, disclosed by young King Mihai in a broadcast announcing formation of a new government headed by Gen. Konstantin Sfantescu, knocked a major prop from Hitler's Balkan position.

The Germans, frantically trying to repair the damage, termed the capitulation the act of a "clique of traitors" and announced formation of a "national government"—presumably a puppet regime—around which only Berlin broadcasts asked the Romanians to rally.

"Obey only his orders, and not those of the traitors," urged Berlin in a broadcast beamed to Romania.

The Swiss radio, receiving Bulgarian dispatches, said Marshal Ion Antonescu, deposed Romanian premier, had fled to Germany—a rumour indicating he may have been chosen to head the pro-German government.

Apparently, one effect of the capitulation would be to bar Germany from Romania's productive Ploesti oil fields, where Hitler once obtained one-third of the supply needed to operate his war machines. Allied bombing, however, has reduced this flow to a comparative trickle.

Germany also found large numbers of her forces in the midst of a hostile country with uncertain communications to the rear.

Politically, Hitler's Balkan edifice was cracking badly. Bulgaria has expected to be electric—especially since King Mihai declared conquest of Transylvania a major Romanian objective.

World War I, only 41 days elapsed between the time the first German satellite—Bulgaria—ceased fighting and the date of Germany's own signing of the armistice.

It was widely assumed that the Romanian capitulation was based on Russian terms offered early in the summer of 1944, communications with the British and United States governments.

These terms never were disclosed. Prime Minister Churchill in the House of Commons August 2 called them "generous." Vyacheslav Molotov, Soviet commissar for foreign affairs, reaffirmed on the eve of the Russian entrance into northeastern Romania last spring Moscow's claims to Bessarabia and northern Bucovina, taken from Romania in 1940, but gave assurances Russia had no other territorial claims or any intention of interfering with Romanian affairs.

Bucharest announcements said the Allied governments had guaranteed Romania's independence, had promised non-interference in internal affairs, and had recognized "the injustice" of Germany's award of Transylvania to Hungary at a Vienna arbitration conference in 1940.

King Mihai's proclamation summoned his armed forces to the side of Allied armies as a co-belligerent right of the citizens will be guaranteed and respected." In his first decrees he closed concentration camps and turned loose virtually all political prisoners.

BOTTOMS UP—AND DOESN'T LIKE IT CAMP PICKET Va.—(AP)—A member of Co. B, 659th Airborne Engineers, is seeking a change from the airborne unit to deep sea diving. His name—Pvt. James Bottoms.

One-eighth of a ton of coal is needed to make a barrel of gasoline.

London Papers Hear New Rumors

LONDON, Aug. 24.—(AP)—The London Daily Herald said yesterday plans were being made for President Roosevelt and Prime Minister Churchill to be present in Paris, "if that is practical," when Allied troops parade under the Arc de Triomphe.

Declaring the March into the French capital will wait until the "campaign of destruction of the German armies goes a stage further," the Daily Herald said special news reel operators already have been detailed to record the event and military bands which will participate now are practicing in France.

The Daily Mail said a conference between Roosevelt and Churchill would "take place within a matter of weeks on French soil."

Mining is one of the oldest industries in Latin America, having been carried on by the Indians before the arrival of Europeans.

Men, Women! Old at 40, 50, 60! Want Pep? Want to Feel Years Younger?

Do you blame exhausted, worn-out feeling on age? You should not. You can feel young again with Cretey's hair cream. Contains tonic which feeds at 40, 50, 60, for body still easily because low in iron, also granular tonic which feeds the system. Try Cretey's hair cream for sure pep, youthfulness, the very best.

Truman Hopes War Will Be Over Soon

CHICAGO, Aug. 24.—(AP)—U. S. Senator Harry S. Truman, Democratic vice presidential nominee, said yesterday he didn't know what effect an early end of the war would have on the election, adding that he didn't care and "I wish it would end next month."

"I don't give a damn what kind of impact it has on the political situation," Truman declared at a press conference while here to address the Veterans of Foreign Wars national encampment.

"I speak from experience," he added. "I was sitting on the front when the last armistice was signed, and I was damn glad to see it come." Truman was asked about Adm. Husband Kimmel's criticism of Truman's Collier's magazine article on the Japanese attack on Pearl Harbor.

"The evidence against Kimmel and short (the army commander) is available in Washington," Truman said. "It's in the records." Asked if it was "documentary evidence," Truman replied, "I've seen it."

Kansas Commander Is Transferred

WACO, Texas, Aug. 24.—(AP)—Col. Jergen B. Olson, who has commanded the basic flying school at Garden City, Kan., is to be the new commanding officer of Blackland army airfield here. Lt. Col. Fred H. Bounds, Blackland's commanding officer, has been announced. Olson will assume his duties soon, said Bounds.

Russian Juggernaut Is New Link In Chain of Battles for Warsaw

Warsaw has frequently felt the heel of the conqueror. Russia may soon rule over the Polish capital, shown here during the Nazi conquest in 1939.

By NEA Service
The Russian juggernaut walloping toward Warsaw may soon become the twentieth captor of the unhappy Polish capital which has been a pawn of conquerors for four centuries.

Most Strikes Are Now Of Impromptu Variety

By JOSEPH A. LOFTUS
WASHINGTON, Aug. 24.—(AP)—In a year's operation of the War Labor Disputes (Smith-Connally) act, designed to end wartime work stoppages, 4,446 strikes have occurred. The greater number of these have been of the impromptu variety, of which the act takes little account.

Most wartime strikes are, relatively, of the spontaneous variety. Few of them, like the coal strikes, follow the peacetime formula where a strong union leadership coolly plans to close down a plant the day the contract expires if demands for a new contract are not met.

The spontaneous strikes are tied to emotions and tempers involving the boss or the government, but sometimes are the result of local labor policies and rivalries, or ambitious, irresponsible, local leadership.

In any event, these strikes are not calmly considered 30 days in advance, either by the leaders or the rank and file. The law says that representatives of the employees shall notify three federal agencies of a dispute and that for 30 days thereafter production shall not be interrupted. On the thirtieth day the employees are to vote on whether they want to strike.

spontaneous, there is virtually nothing to compel the filing of a 30-day notice. No criminal penalty is provided. An employer or the government may file a civil suit and try to collect damages, but few, if any, such suits have been filed.

When a plant or property is in the hands of the government, that's a different story. The criminal provisions of the law then become operative. U. S. attorneys have completed 15 proceedings against 96 defendants, all of them involving coal mining in Pennsylvania, Kentucky and Ohio. Convictions were obtained against 94

of the 96, although in only one case was a defendant required to serve time in jail.

As a strike-deterrent, this section of the act has a value that is at best limited to cases where the government is the nominal employer. But the difficulties of taking over thousands of big and little plants are obvious.

Cards Massacre Helpless Cubs

By JACK HAND Associated Press Sports Writer

It's no disgrace to lose to the St. Louis Cardinals this year but the Chicago Cubs threaten to make a life's work out of the habit.

After bowing 11 times in a row when they were lowly cellarites, the Bruins tangled with the Red Birds last night for the first time since they attained their lofty but unsteady perch in the first division.

The result was the same. Never in the history of the major leagues has one team swept an entire season series from a rival. The New York Yankees of 1927 came the closest when they slaughtered the St. Louis Browns 21 times before bowing 6-2 on Sept. 11 in their last meeting of the year.

In 1927 Pittsburgh trampled Cincinnati by a 21-1 margin in total games and earlier in 1909 the Chicago Cubs themselves slaughtered Boston in similar fashion.

Charley Grimm's Cubs have 10 more chances to keep their names out of the record books as the only club to go through an entire season without beating all of their rivals at least once.

The Cooper boys teamed up on Chicago last night, Morton coasting to his 18th win 11-1, and Walker driving in three runs with three singles and his 9th home run.

St. Louis hit a new season high with a winning percentage of .750 by their latest success.

The entire American league was idle yesterday with all the other Nationals.

Hatcher Joins Pampa Gridders

Power was added to the 1944 Harvester backfield today with the news that Charles Hatcher, year-old player, former Guerilla star, would be out for the team this season.

Hatcher weighs 165 pounds, is an expert passer and punter, and a fine broken field runner. "His reporting to the squad will help us forget, to some extent, the loss of our great backfield of last year. I believe with proper work, training and conditioning, Hatcher will be one of the very best backs on our squad this year," Otis Coffey, Pampa High school athletic director, said today.

The Harvesters will leave here the night of August 31 for Canyon, where fall football camp is to be held at West Texas State college.

From September 1 through September 8 equipment will be sent to Canyon on September 1, the day after the boys leave Pampa.

Since the 1944-45 session of the Pampa schools begins on September 5, players will register for the term on August 31, before leaving for camp.

There will be 44 players on the squad at Canyon.

The complete Harvester football schedule: Sept. 15—Phillips, here, night. Sept. 22—Midland, here, night. Sept. 29—Central, Oklahoma City, here, night. Oct. 6—Quanah, here, night. Oct. 13—Open. Oct. 20—Open. Oct. 27—Brownfield, there** a Nov. 3—AMARILLO, there, day a Nov. 11—Lubbock, here, day a Nov. 17—Borger, here, day a Nov. 24—Plainview, here, day a

**Either day or night, as determined a conference game.

Besides Oct. 13 and 20, week following. Borger game also open.

South Plains Grid Squad Working Out LUBBOCK, Aug. 24—(AP)—More than 30 football hopefuls have been working out at South Plains army air field during the first week of practice for Winged Commando grid squad.

Most of the candidates are youngsters, many former high school stars. Few "name" college gridgers have reported and there just isn't anybody to take the place of such a man as guard Marion Rogers, named to the Associated Press All-American service team last year.

Coach Ray Truitt, who played football at Marshall college and for the professional Detroit Lions, expects to do a little playing at guard, and Rogers' 1943 running mate, James Steele, will be back on the other side of the line.

SPAAF plays its first game here Sunday, Sept. 24, against Amarillo Army Air Field.

Other games on the schedule include: Sept. 30—Texas Christian at Fort Worth. Oct. 6—North Texas Agricultural college at Arlington. Oct. 22—Lubbock army air field at Lubbock. Oct. 28—Amarillo army air field at Amarillo. Nov. 3—Southwestern at Georgetown. Nov. 11—13th armored division at Lubbock. Nov. 17—West Texas State at Lubbock. Dec. 2—Texas Tech at Lubbock.

Hunt And Freeman Toss Rackets Into Forest Hills Tilt NEW YORK, Aug. 24—(AP)—Lt. Gilbert Hunt and Pfc. David Freeman are the newest entrants in the national tennis tournament to be decided at the West Side club, Forest Hills, Aug. 30 to Sept. 4 from among the ranks of servicemen-athletes.

Lt. Don McNeill, national champion in 1940, already has announced he will play.

OUTFIELDER NO PITCHER COLUMBUS, Ohio, Aug. 24—(AP)—Joe Vosmik, whose many years in the major leagues was spent in the outfield, tried his back pitching for Minneapolis last night and it was mostly bad.

The former Cleveland-Boston-Brooklyn player was on the mound four innings and was combed for nine hits, issued six walks. Columbus had a good time walloping Vosmik and two other pitchers for 22 hits, winning 22 to 1.

Steels of the highest quality are produced today in electric furnaces where melting and refining can be most closely controlled.

Major League Standings

More than 500,000,000 electric light bulbs, in 10,000 different types, were produced each year in the United States before the war.

Jug and Byron Face Field In All-American

By I. E. SKELLEY

CHICAGO, Aug. 24—(AP)—It was Harold (Jug) McSpaden and Byron Nelson—golf's biggest money winners—against the field today as they started playing for keeps in the rich \$42,500 All-American tournaments.

The favorites, running one-two against the professionals in money earned this season, were matched against the country's top shooters in their first 18 holes of the 72-hole open carrying a top reward of \$13,462 (maturity value) in war bonds.

Simultaneously, 26 amateurs including the defending champion Dale Morey of Martinsville, Ind., and 28 women began their 72-hole activities to furnish a three-ring circus atmosphere at Tam O'Shanter.

Sideline seers were enthusiastic about McSpaden, the 1943 winner, and Nelson, third a year ago, in their pen. To embellish their arguments they hauled out statistics showing that (Jug) had won five major tournaments and Nelson had taken three. Narrowing the choice to either McSpaden or Nelson was something else, however.

In 15 tournaments under P. G. A. sponsorship since last Jan. 1 Lord Byron has a three-stroke advantage

over (Jug). Their respective totals are 3,687 and 3,690 for averages of 69.56 and 69.62 in 53 rounds.

Qualifying rounds for the non-exempt entries in the open continued until darkness halted proceedings last night with a half-dozen shooters unable to finish.

A pair of 68's, four under par, fired by Henry E. Williams, Jr., of Royersford, Pa., and Claude Harmon of Goose Pointe Woods, Mich., topped the froths of the professionals yesterday. A 77 or better was necessary to qualify.

Ramblers Add L. A. To Grid Schedule

SAN ANTONIO, Aug. 24—(AP)—Randolph field's football schedule has been increased to nine games with the signing of March field for a tilt at Los Angeles Dec. 10.

Randolph now is seeking an opponent for Sept. 23 to complete the schedule.

The Ramblers meet Rice at Houston Sept. 10 Texas at Austin Oct. 7, Southern Methodist at San Antonio Oct. 14, third air force of Charlotte, N. C., at San Antonio Oct. 28, North Texas Aggies at San Antonio Nov. 4, Southwest Louisiana institute at San Antonio Nov. 11, Southwestern at San Antonio Nov. 18 and Amarillo army air field at San Antonio Nov. 25.

TEXAN LSU STAR BATON ROUGE, La., Aug. 24—(AP)—Standout passing by freshman tailback Y. A. Title of Marshall, Texas, in practice yesterday offset blows to Louisiana State's football machine in the loss to the army of fullback Joe Nagata and guard James Lewis. LSU's opening game is Sept. 30 against Alabama here.

Government restrictions have required the spectacle to be staged the last two war years at either West point or Annapolis strictly for home consumption but Weiss said today this year's game probably will be held in a major eastern city with everybody officially welcome.

"I've been talking with some of the service officials and it looks pretty certain the game will be presented in all its prewar glory this fall," said Weiss, Pennsylvania democrat whose hobby is refereeing professional grid games.

His guess for the locale is either New York or Philadelphia.

Grand Coulee Dam has the largest electric generators in the world. Each weighs 2,000,000 pounds and can produce 150,000 horsepower.

Austin Gridders Prep For Season

AUSTIN, Aug. 24—(AP)—Austin High school football players yesterday began a pre-season conditioning program, but coaches insist it is not football training.

Actual training for the intercollegiate league play may not start until Sept. 1. Rodney J. Kidd, athletic director of the league, approved the Austin plan provided no football equipment is issued.

The pre-season conditioning will include calisthenics, running, rope climbing and boxing.

Coal is mined economically in tunnels with diameters as small as 24 inches through the use of electrically-driven belt conveyors.

Spare Those Ration Books, OPA Says; Pinch Will Outlast War

By MARVIN L. ARROWSMITH
 WASHINGTON, Aug. 24—(AP)—The Office of Price Administration expects to have to replace a few ration books torn up in exuberance when the war in Europe ends.

It is much more concerned, though, that victory over Germany may mean a flood of pressure for an end of rationing.

OPA is worried because it feels that such pressure might force elimination of some rationing before controls should be lifted.

An official says: "The public naturally never has liked rationing, but it was accepted because everyone realized it was necessary for winning the war. But it will be an entirely different story when half the war is won and the public heaves a sigh of relief."

It is quite likely that some commodities will be removed from rationing shortly after termination of the European war. In the meantime, even before Germany is defeated, the public may get a more liberal allotment of some items on the list.

But OPA, while stressing that the decisions rest with supply agencies such as the War Production Board and the War Food Administration, looks for no general end of rationing until the war with Japan has been won.

Stores may be one of the first important commodities off the rationing list, possibly before rationing in meat and processed foods is "reasonably easy now," OPA officials say in estimating that housewives may be able to buy without restrictions within three or four months after V-Day in Europe.

As for gasoline rationing, OPA expects there will be tremendous public pressure to shelve it as soon as Germany capitulates. But the best course, it believes, would be to liberalize rations gradually, with a decision regarding elimination of controls dependent on needs for the Pacific war.

Fuel oil probably will be rationed next winter regardless of whether the war in Europe is over.

OPA is expecting a directive from WPB to ration at least the first several thousand cars off the

assembly lines when Germany is beaten. They will go to persons in highly essential work.

Passenger car tires are not expected to be available for "A" card motorists until early in 1945, no matter how much sooner the Germans may surrender. Rationing probably will go on for some time.

OPA is still standing by its statement of several weeks ago that shoe rationing will not be liberalized this year. Next year if Japan is our only foe, there will be more shoes, but probably not enough to end rationing short of close of the Pacific war, officials think.

Sugar and butter, OPA believes, may stay under rationing longer than other foods.

So take good care of those ration books.

Justice Charges CIO Activity in Texas

AUSTIN, Aug. 24—Justice Richard Critz of the Texas Supreme Court, seeking re-election in the run-off Democratic primary August 28, declared today that the CIO is attempting to gain control of Texas courts and that his opponent has the 100 per cent endorsement of the CIO Political Action committee. He denounced the CIO pressure-group political methods.

"This Political Action committee has leaders who are not satisfied with fair and impartial rulings from the bench," said Justice Critz. "They will not be satisfied until they have packed our courts with men who will close their eyes to the rights of the people and interpret the law the way these CIO leaders want it interpreted."

"This," continued Justice Critz, "is not Democracy. I would resign my office today if I thought I would have to bow to any pressure group in order to hold it. I know the voters of Texas do not want this CIO group to hand pick the judges who are looked to for mercy and justice."

Justice Critz polled approximately 100,000 more votes than his nearest opponent in the first primary. He led the ticket in approximately 200 counties despite the fact that he was on from such political committee as the CIO that he must be defeated.

"I would hate for my son and son-in-law, now in the armed services, to come home from this war to find that special privilege has succeeded in seizing control of the courts of Texas," said Justice Critz.

Market Briefs

NEW YORK WALL STREET
 NEW YORK, Aug. 23—(AP)—Selling waned in today's stock market and, with the liberation of Paris bolstering hopes for a quick victory over the Nazis, assorted issues with a peace flavor shifted to the recovery column.

Some motors, air transports, utilities and other industrials tacked on advances of fractions to around a point, several at peaks for the year or longer.

Transfers dwindled to approximately 700,000 shares for the full stretch.

Peaks for 1944 were touched by Briggs Mfg., Braniff Airways and Preferreds of American Power & Light. In front most of the day were Bendix, Graham-Paige, Chrysler, U. S. Steel, U. S. Rubber, American Water Works, Public Service of N. J., Eastern Airlines, Anaconda and American Can. Laggards were Southern Pacific, Northern Pacific, Baltimore & Ohio, Westinghouse, Boeing, Du Pont, Montgomery Ward, Kennecott and Good-year.

Fox Brewing hardened in the curb following doubling of the company's dividend. Supported were American Central Mfg., Leonard Oil, United Aircraft Products and American Gas.

Texas-Born Reporter Is Killed in France
 LONDON, Aug. 24—(AP)—William Stringer, 27, Texas-born war correspondent for Reuters, British news agency, was killed while covering the advance of the U. S. First army in France. It was announced officially.

Details of Stringer's death were not known.

He was born in Teague, Texas, and was graduated from the University of Texas where he received Bachelor of Arts, Bachelor of Science and Master of Arts degrees.

Stringer had been in Britain just over three months when he went into Normandy on D-Day with the first wave of American ground forces. He was the first reporter inside Cherbourg.

Previously he had served as a reporter, editor, foreign correspondent and chief of bureau for the United Press in New York, Buenos Aires, Dallas and Austin, Texas, Columbus, Ohio, Charleston, W. Va., Cincinnati and other centers.

WAC Recruiting Team Will Be At Pampa Next Week

A WAC Recruiting team from Amarillo, composed of Lieutenant Elizabeth Haldacher, Sgt. Paula Edwards, and Cpl. Bernard Jellinger, will be in Pampa all of next week to interview women who are eligible for the Women's Army Corps. The

Headquarters for the Recruiting Team will be at the Schneider Hotel, but a part of the Team will also visit the towns of Panhandle, Borger, Stinet, and Canadian some time during the week. At this time, the Women's Army Corps is interested in recruiting women who are qualified for medical technician training or for medical technician jobs. The Army is offering to train women to become X-Ray technicians, medical technicians, laboratory technicians, dental technicians and surgical technicians. High school graduates who have had no training may select the course,

be educated free of charge and have an enviable background to qualify them for present as well as post-war jobs in the medical field, officials said. Those who qualify will have a six-week Army Orientation course at Fort Oglethorpe, Georgia, and four months of medical or surgical technician training at Camp Atterbury, Indiana. Upon completion of this course, graduates will be presented with a diploma from the Army and assigned as medical and surgical technicians in Army hospitals. Women who have had sufficient actual experience or education in these

fields will be assigned immediately following basic training without need of attending a special school. In addition to the opportunity of selecting a medical technician job, the chance to choose the branch of service, or the place of initial assignment is all being offered to women who are eligible to join the Women's Army Corps. Anyone who desires further information about the Women's Army Corps is asked to write to the U. S. Army Recruiting Station, Amarillo, or to contact the Recruiters in Pampa at the Schneider Hotel during the week of August 28 through September 1st.

Peanut Growers Get Slight Price Stepup

WASHINGTON, Aug. 24 (AP)—The Office of Price Administration has announced a slight increase in growers' ceiling prices for peanuts, but said the boost would not affect retail prices of peanuts or peanut butter.

The growers' increase, effective Aug. 28, covers farmers' stock peanuts of the 1944 crop. It was granted, OPA said, to reflect parity of .0816 cents a pound to farmers.

OPA gave these examples of the new P.O.B. price ceilings: Spanish type southeastern type peanuts \$174 a ton, southwestern type \$171.50 a ton, each having a 70 per cent shell-out of sound \$168.50 a ton for Virginia and Valencia types having 65 per cent shell-out.

Magellan was the first European in the region of the Marianas islands.

QUICKDENT
Watch the tablet dissolve in water and quickly clean your plate without brushing. No Mess. No Trouble.

Leaves From A Correspondent's War Notebook

By HAL BOYLE
WITH AMERICAN TROOPS IN FRANCE, Aug. 9—(Delayed)—(AP)—Doughboys are always wondering what it might be like to be run over by a tank.

Well, it happened to two of them recently. Both came through experience in good shape. But neither is asking for a return engagement.

Lt. Shelby Dae Scott, III, of Virginia Beach, Va., was the first victim. He was walking behind a Sherman tank, directing it by telephone, when it bogged down in a creek. Communication failed momentarily and the tank backed up, knocked him down and ran over him. Scott crawled from between the treads, slightly muddy but unharmed.

"That's one view of a tank I never want to see again," he said. Pvt. Harold Hale of Phoenixville, Pa., had an even more interesting time. He was in a foxhole with Pfc. Henry Urenda of Brackettville, Tex., when a tank rolled over Hale side of the hole during battle. As it passed, Hale was grasping a board at the edge of the hole, and the tank neatly sheared off his fingernails, which he had allowed to grow very long.

Sgt. Jack Love of Beaumont, Tex., says he always will remember his busiest and most uncomfortable battle hour. The 23-year-old leader of a machine gun section was sitting on the edge of his fox hole when a heavy German shell blew him into the hole. He climbed out, and it happened again. By this time the sergeant decided he had no business outside anyhow. Two more shells landed close enough to have shoved him back if he hadn't stayed in, and then came a fifth which struck so close it buried him in a shower of dirt. Love dug himself out unhurt and

was pleasantly surprised that the rest of the day was comparatively quiet.

The speed of the American advance still is astonishing to German troops, who can't get used to finding themselves on the reverse end of the blitz type of warfare.

One member of a German reserve unit had just finished bathing in a creek and was walking up the road with a cheery smile on his face when a group of Americans came along and took him prisoner. The German was completely flabbergasted because he had thought six Nazi combat companies were between him and the front lines. He kept asking what had become of them.

WITH AMERICAN TROOPS IN FRANCE, Aug. 9—(Delayed)—(AP)—A scrapping, two-listed Texas sergeant who was taken prisoner after killing five Nazi snipers made his escape a few minutes later by beating his two captors unconscious as their car passed through a dust cloud.

Stewart Granville of Hargill, Texas, first sergeant for a reconnaissance squadron, driving along the front in a jeep, ran into enemy 88 mm. and sniper fire.

Locating the positions and number of the Germans, he began a solo manhunt. He captured five more two Nazis suddenly jumped from behind a hedgerow and got the drop on the rugged, red-faced, 26-year-old noncom. He surrendered—but only temporarily.

Disarmed, he was put in the back seat of a car by the Germans, an officer and an enlisted man, who started the car toward the German rear lines.

"We passed through a lot of dust on the road and I just reached up in front and went to work on both sides at the same time," he said. "I knocked hell out of them."

After slugging the men unconscious—the driverless car running into a ditch—the sergeant climbed out, and the pair an informal adieu and hiked three miles across country to his own lines.

He got back in time for chow.

Pfc. Pershing Louis, American-born Chinese from San Francisco, won the Silver Star for bravery by destroying a German machinegun nest with a demolition charge—but he still has a hankering to win a Purple Heart.

Louie, a member of a three-man demolition team which was waiting to blow a hole in a hedgerow for a raiding party, saw a German machinegun sticking out. Calmly he set off the fuse to a charge, held it a second, and tossed it into the gun position, killing three jerries.

During the action he was struck and spun around by a shell splinter, but it skinned him so slightly he didn't merit the Purple Heart, awarded to those wounded in combat by enemy action.

Louie has seen a number of these decorations on his buddies and thinks they are a "very nice-looking species." He wants one, too, he says, but added cautiously: "You have to be hurt or killed to get a Purple Heart, and I might not have the chance to be only hurt the next time."

It wasn't until he had marched two Germans to an American outpost that Sgt. Pete Donavich of San Antonio, Texas, learned he had taken them prisoner with an unloaded rifle.

The Nazis, armed with machine-pistol and rifle, came forward to give themselves up after they caught heavy fire. Donavich pointed the rifle at them, motioned them forward and disarmed them. After turning them over to a guard at the outpost, Donavich found out his rifle was unloaded.

WITH AMERICAN TROOPS IN FRANCE, Aug. 1—(Delayed)—(AP)—Artillerymen of the 90th infantry division thrilled doughboys and French peasants with the first old-fashioned rodeo ever held in Normandy.

The rodeo was held in a pasture during a recent battle lull with troopers from Texas, Oklahoma, Idaho and the Dakotas performing the standard bulldogging, calf roping, steer riding and stock roping contests in a rough holiday from firing their big guns in this rough and ready war. By nightfall they were more bruised and tired than if they had spent the day tossing hundreds of shells at the Germans—instead of being tossed themselves by thousand-pound steers.

The stock for the rodeo was supplied by excited French cattle owner and natives who gathered from farms miles away to see American cowboys in khaki demonstrate the broncho busting they had seen before only in Hollywood horse operas. There were not any fancy silk shirts on the riders. There were no 10-gallon hats to slap against the heaving horse's flanks but the hedgerow audience whooped it up in the best tradition of the wild west and there were thrills and spills to satisfy everybody, including the puzzled steers.

Idaho and Texas divided honors. Cpl. Glen Dismore of Eden, Texas, tied up the roping contest and Cpl. Eliza "Cowboy" Rodden, Gooding, Idaho, came out on top in the fancy riding contest. The favorite of the farmers, however, was the wild cow milking contest. They got more excited than the cows.

Many American troops are becoming proficient in the use of enemy weapons. It is only battlefield economy to turn captured equipment against the men who lost it, and that is just what the advancing yanks are doing.

One division has set up a complete battery of German 105-MM. Field pieces and many infantrymen use German "bup" guns, soldier slang for machine-guns.

One company used nine of these rapid-fire weapons in a recent action. Since these guns have a characteristic sound different from our own guns companies employing them have found that they must notify adjoining units in advance otherwise these outfits may think they are getting a surprise flank attack and cut loose on their own troops.

ON THE HOUSE
CLEVELAND—Ensign Frank Waszak reported his automobile stolen the other day—but got it back 30 hours later complete with a face lifting. Police found a garageman called for a neighbor's automobile and took the wrong car, Waszak's. In a spirit of "fardone-me-ny er-ror" the mechanic returned Waszak's repaired sedan and cancelled the \$4.20 bill.

The United States uses eight times as much cotton as any other textile fiber.
