

# Big Push' launched from Normandy; Going to Defend Reich Homeland

## 12 Incumbents Will Return To Congress

DALLAS, July 25—(AP)—A close congressional race between Rep. Ed Gossett and State Senator George Moffett with Gossett the apparent victor, held attention today in returns from 'Texas' Saturday Democratic primary.

The Texas election bureau's latest tabulation, final unless changes developed, showed Gossett leading Moffett 558 votes in District 13, with 12 of 15 counties complete, and most of the votes in the incomplete counties in.

"It appears on the basis of these returns that Gossett is elected," the bureau said, adding, however, that there was a possibility that officials canvassing the vote Saturday could cause a change.

Gossett's victory would make the election results show twelve congressmen winning re-election, Rep. Richard Kleberg defeated, three in runoff, and Judge J. M. Combs of Beaumont named to the seat vacated by Rep. Martin Dies. Four congressmen were unopposed.

The results moved Rep. Lindley Beckworth into the group of nominees which included Speaker Sam Rayburn, Reps. Hutton Summers, Wright Patman, Lyndon Johnson, Bob Poage, Luther Johnson, Fritz Lanham, Eugene Worley, George Mahon, and Albert Thomas.

Gov. Coke Stevenson and most other incumbents of state offices gained re-election, but runoffs were slated between Attorney General Grover Sellers and Jesse Martin of Fort Worth for attorney general, and incumbent Richard Critz and Col. Gordon Simpson of Tyler in the State Supreme Court race.

Congressional run-offs were slated between Rep. Nat Patton and District Attorney Tom Pickett of Palestine, who was leading in district seven; between Rep. Joseph Mansfield and State Senator L. J. Sulak in district 9, and between Rep. Sam Russell and former Congressman Clyde Garrett in District 17.

Kleberg was defeated by Capt. John Lyle of Corpus Christi, a mobile anti-aircraft officer in Italy.

The bureau's figures showed Gossett with 24,815 votes and Moffett with 24,457, in a race in which the lead switched six times during tabulations.

Beckworth's majority in district 3 was 769 over two opponents, Capt. D. S. Meredith, Jr., now in the south Pacific, and A. E. Martin of Longview. The count gave Beckworth 22,504; Meredith 18,810, and Martin 2,925.

In district 7 Pickett had 17,742 votes to Patton's 14,363, and Andrew Brannen's 4,294.

Stevenson's total had surged to 632,788 of the 751,022 votes cast, and the bureau listed Lieut. Gov. John Lee Smith as a certain winner with a majority of 10,504 over three opponents.

## Argentina Diplomat Is Recalled

WASHINGTON, July 25—(AP)—The recall of Argentina of Ambassador Adrian Escobar completes the diplomatic break between Washington and Buenos Aires which has been developing since the Farrell regime took office last January.

Diplomatic quarters here awaited with considerable interest tomorrow's promised statement from Buenos Aires as a possible hint whether last night's action is to be followed by the withdrawal of Argentina's ambassador to other American capitals or whether Escobar is to be the only one affected.

In the latter event, the move would be interpreted in Washington to mean that the Argentine government headed by President Edelmiro Farrell is pursuing a policy of trying to receive a wedge in the American unit and split off some of the South American countries from the United States.

To combat this the other American nations have insisted on taking no action regarding Argentina except after consultation among themselves and agreement on a course satisfactory to all. This was stressed particularly by Secretary of State Hull at his press conference yesterday when he disclosed that a statement on policy would be issued but that the American governments would delay it several days.

The results moved Rep. Lindley Beckworth into the group of nominees which included Speaker Sam Rayburn, Reps. Hutton Summers, Wright Patman, Lyndon Johnson, Bob Poage, Luther Johnson, Fritz Lanham, Eugene Worley, George Mahon, and Albert Thomas.

## Big U. S. Fleet Forces Now On Prowl, Asserts Tokyo

### But Not Time To Strike Yet, Says Worried Command

By J. B. KRUEGER

Associated Press War Editor  
Radio Tokyo, averting its eyes from the bad news of its roughly-handled ground forces on Guam, Tinian and New Guinea, today broadcast that several powerful U. S. fleet Task Forces were prowling off the Marianas 1,500 miles from Japan.

The Task Forces are maneuvering in waters vital to Japan's safety but, said Tokyo, "The time is not yet ripe for our fleet to come out and attack the enemy."

Naval commentator Masunori Ito candidly explained that Japan's combined fleet lacked the air power of the American armadas and that "the time to deliver the coup de grace to the enemy has not yet arrived."

The Japanese fleet would strike only after cool appraisal of relative fleet strength and geographic consideration, Ito said.

The broadcast conceivably had two purposes: To explain why the Japanese navy made only one move to defend the Marianas—and that a costly one—and to fish for an indication of where the U. S. fleet would strike next. In the Marianas sea battles in June Japan lost 747 planes and more than 30 ships.

For the second time in two weeks the Japanese brought the Hengyang battle in China to a climax, Changking said. Chinese relief columns were unable to pierce the ring the enemy is compressing about the city. The Japanese need Hengyang to close the 170-mile gap in the Hankow-Canton railway which divides China.

Tokyo radio also told the home-folks the Marianas situation "is growing more serious every day," and that Adm. Chester Nimitz' army men were constantly raiding Rota Island, between Guam and Tinian. Rota's neutralization is in progress.

On Guam, Forrestal said, American casualties have been moderate, while those of the enemy have been heavy. In one Japanese counter-attack he said, "we killed 270 of them. This is over three-quarters of the number of our dead in the first two days of our entire attack on the island."

"The attack on Tinian is being made by the same troops that conducted 270 of them," he said, "and it speaks volumes for both the morale of the troops and the effectiveness of the medical corps."

"The enemy dead on Saipan," he said, totaled 20,729 known to be killed—that many have been buried in addition, he said, Japanese prisoners of war number 1,707 and that 14,192 civilians have been interned.

"The number of prisoners taken on Saipan is by far the greatest taken in any operations against the Japanese in the war to date," the navy secretary said.

On Guam, Forrestal said, American casualties have been moderate, while those of the enemy have been heavy. In one Japanese counter-attack he said, "we killed 270 of them. This is over three-quarters of the number of our dead in the first two days of our entire attack on the island."

## YANK SATISFACTION, WHY TOJO GOT BOOT

Jap bodies litter Tanapag harbor beach at Saipan after suicidal attempt to drive American invaders back into the sea—mute witnesses whose silent testimony was a factor in the dismissal of Premier Tojo and dissolution of his cabinet. While the Allies paid dearly for conquest of Saipan—3,049 dead—Japs losses were many times greater. U. S. forces alone buried nearly 12,000 enemy dead.

## Worried Reich Prepares Even Stronger Control Measures

### Equalization Board Is Now In Session Here

Representatives of Gray county oil and gas companies, railroads and utilities were present yesterday at a hearing of the board of equalization which meets yearly for the valuation of a budget setting of the tax rate all property of the county with the exception of utilities. The board will be in session until Thursday.

Valuation of oil property in Gray county was \$29,300,000 in 1942; \$28,700,000 in 1943. Last year the board met to adopt and approve the budget and set the tax rate, in two ordinances passed by the city commission at \$1.50 on the \$100 valuation, a 10-cent reduction. The highest county tax rate Gray county has had was from 1935 to 1938 with \$1.04 on each \$100 property valuation in the county. Maximum rate the city could charge is \$2.50.

Division of the \$1.50 rate in 1943 was three cents to public library, nine cents to the Board of City Development, \$1.15 to the interest and sinking fund and 21 cents to general.

Approximately 50 persons were present at the hearing Monday including Sherman White county judge, Arle Carpenter, commissioner precinct 1; John Haggard, commissioner precinct 2; Thomas O. Kirby, commissioner precinct 3 and C. M. Carpenter, commissioner precinct 4, members of the tax board.

## Negroes Blaze New Trail In Southern Politics

HOUSTON, July 25—(AP)—Negro voters smacked a traditional double blow when they organized a Democratic precinct convention here Saturday and at another named Negro delegates to the county convention July 29, says Chairman M. L. O. Andrews of the Harris County Democratic Executive committee.

The precinct 25 convention, called by E. H. Harrison, a Negro union official and vice president of the Third Ward Civic club, was the first ever organized in the South by Negroes, Andrews believes.

With three whites and 50 to 60 Negroes attending, the convention elected Harrison temporary chairman. Miss Lottie Walls, a white woman, was named to cast the precinct's one vote at the county convention. She is the precinct election judge.

Andrews, asked if this action means the Democratic party is open to Negroes, answered:

"This means that as a result of the supreme court ruling opening Democratic primaries to Negro voters political parties haven't got the right to say who can be a member. Churches and clubs can exclude individuals from membership if they desire but the supreme court says political parties cannot do so."

Miss Walls was named, Harrison said in an interview, "because the custom of the precinct was that the precinct judge be elected the first delegate and we were entitled to only one delegate."

Each precinct is allocated one delegate for each 25 votes. Precinct 25 is peopled 96 per cent by Negroes, said Harrison, who is financial secretary of Local 2487 of the United Steelworkers of America. See NEGROES, Page 3

## Crude Oil Output Shows Increase

TULSA, Okla., July 25—(AP)—United States crude oil production increased 28,800 barrels daily in the week ended July 22 to 4,622,400 barrels daily, the Oil and Gas Journal said today.

California output gained 500 barrels daily to 855,250; Kansas 6,500 to 285,300; Louisiana 1,500 to 389,000; Eastern Fields, 3,100 to 68,100; Illinois 8,600 to 206,550; Michigan 1,300 to 60,500, and the Rocky Mountain region 4,500 to 119,300. Production in Oklahoma declined 50 barrels a day and East Texas at 363,550 a day.

## Representative Race Turns Out To Be Closest

Discovery of a 100-vote error in the counting of ballots in Collingsworth county today presented State Representative Ennis Favors of Pampa with a 94-vote unofficial win over R. L. Templeton of Wellington in their 122nd district race for the legislature in Saturday's primary election.

Until the error was found, Templeton had a six-vote margin in their four-county contest by virtue of a report from one box in Donley county which had been missing all day and on which the result of the race apparently had hinged. In this box Templeton received 29 votes and Favors got 7. Up to that time Favors had 16 votes in the lead.

But about the time the last box reported election officials in Collingsworth, Templeton's home county, discovered the 100-vote error, and Favors went out in front by 94 votes.

Because of the closeness of the race, the election board will see RACE, Page 3

## Peak Shipping Of Wheat Is Now Passed

NEW YORK, July 25—(AP)—Southwestern grain loading by principal railroads has averaged 3,500 to 5,000 cars daily since the peak of the wheat movement in the Southwest has passed, railroad box cars are being sent to the northwest to handle spring grain crops.

## Future Pilots Will Learn Mechanics at Pampa Field

Started to be tomorrow's pilots, navigators and bombardiers in the U. S. Army Air Force, a special group of Aviation Cadets who recently arrived at Pampa Army Air Field for "on-the-line" training at the local air base, will also be crack mechanics because of a new program under which the youths will spend hours of learning the intricacies of the airplanes, Col. Charles B. Harvin, Pampa Army Air Field's commanding officer, has announced.

The trainees, many of whom have seen overseas service in combat theatres across the world, spend most of their working day on the flight line under the expert tutelage of veteran mechanics. Three trainees are assigned to a mechanic, and an instructor, has announced.

## Reds Go 40 Miles Within 24 Hours

By DWIGHT PITKIN

Associated Press War Editor

Breaking a four-day lull on the western front, Allied forces unleashed powerful new drives in Normandy today under an umbrella of crushing air power.

In a quick change of pace designed to throw Marshal Rommel's armored divisions off balance, British and Canadians struck southward from Caen before dawn towards Falaise, in Normandy's rich agricultural and industrial area. Before the offensive last week bogged down in mud the Allies had been pushing eastward on routes towards Le Havre and Paris.

The American, also pushed off in a renewal of their offensive along the sector from captured St. Lo to the west coast. Supreme headquarters said strenuous fighting was under way in both British and American sectors.

## 3,000 Planes Support Drive

More than 3,000 bombers and fighters supported the American drive, and 1,500 heavy bombers in the massed formations made up the largest fleet of such type ever dispatched on a single mission.

Headquarters announced the capture of St. Martin de Fontenay and Verrieres with fighting raging in a third town, May-sur-Orne, on the British and Canadian front. The extent of the American advance was not disclosed immediately.

The Russians smashed forward in Poland at the rate of 40 miles in 24 hours. A Moscow broadcast said the Soviet government claimed "no territory belonging to Poland" and that no Soviet organs would be set up in Poland.

## Nazis Prepare for 'Total War'

LONDON, July 25—(AP)—Adolf Hitler appointed Reichsmarshal Hermann Goering chairman of the council for defense of the Reich tonight and issued a decree ordering total mobilization of Germany and occupied territories.

Propaganda Minister Paul Joseph Goebbels was appointed Reich's commissar for the total war effort of the Reich. Earlier, Heinrich Himmler had been appointed commander in chief of the German home army in the aftermath of the announced bomb attempt on Hitler's life last Thursday.

At least seven Russian armies surged westward against the Germans on an 800-mile front. Moscow in effect confirmed the capture of Siedlce, 50 miles east of Warsaw, in reporting that Red army forces had stabbed within less than 50 miles of the Polish capital. Berlin announced yesterday a withdrawal from Siedlce. Sweeping across central Poland, the Russians were less than 20 miles from the Wisla (Vistula) river and threatened to outflank the Warsaw defenses.

Allied forces steadily pushed back the Germans in northern Italy, reaching within 10 miles of Florence.

Powerful waves of bombers striking from Britain cleared the way for the new drives on the Normandy front. In night operations against the continent, about 1,000 RAF heavy bombers smashed at Stuttgart in southwest Germany. Mustangs dropped blockbusters on Berlin and other British planes attacked Frankfurt and Aachen in northern France.

In attacking on a four-mile sector in the Cotentin, Gen. Sir Bernard L. Montgomery side-stepped a wall of anti-tank guns set up during the lull by Marshal Rommel to guard the approaches to Paris and Le Havre. Canadian and British tank and infantry forces, striking south of the Orne river, quickly reached May-sur-Orne. Verrieres and Tilly-La-Campagne against stiff resistance. British planes in the first few hours extended from 700 yards to about 1,500 yards. The Berlin radio said a terrific artillery and aerial bombardment preceded the new push below Caen.

By capturing Lublin and Lukow, Red army forces split the German armies in Poland. A special Moscow communique declared that the Germans had lost 539,800 troops killed and captured since the start of the Soviet summer offensive June 23. The Russians also bombarded the Germans with propaganda broadcasting air attacks on German cities and captured since the start of the Soviet summer offensive June 23. The Russians also bombarded the Germans with propaganda broadcasting air attacks on German cities and captured since the start of the Soviet summer offensive June 23. The Russians also bombarded the Germans with propaganda broadcasting air attacks on German cities and captured since the start of the Soviet summer offensive June 23.

The announcement of the post-war aim so the council and the establishment of a Polish council of national liberation as the organ of executive power was interpreted here to mean that so far as the Russian government was concerned the Polish government-in-exile in London no longer represents Poland.

In a manifesto released yesterday dated at Cheim, Poland, July 22—the day the city was liberated from the Germans by the Red army—the council said this "basic principle" of Poland's postwar foreign policy would be "a firm alliance with our direct neighbors, with the Soviet Union and Czechoslovakia, and that the formation of a Polish government-in-exile in London will further consolidate our friendship and strengthen our alliance with Great Britain and the United States."

The London Polish government, which has been recognized by the United States and Britain, declared the formation of the liberation committee was "an attempt by a handful of usurpers to impose on the Polish nation a political leadership which is at variance with the overwhelming majority."

EFG RECEIPTS HIGH  
AUSTIN, July 25—(AP)—The support buying program of the War Food Administration brought Texas farmers an additional \$6,500,000 for eggs in April, May and June, the WFA's office of distribution here said today.

Purchases totaled 542 cars and the price of 26 cents per dozen paid by the agency and the 20-cent price of less producers would have received without the support buying program accounts for the additional \$6,500,000, the agency said.

*"O.K. history,*

*dip this in your inkwell!"*

O. K., you guys who write those history books. Here are some notes for that volume titled World War II.

Look up the papers and see who hacked their way through those "impassable" jungles on Buna and wiped the smiles off those "invincible" Japs who planned to dictate peace in the White House. That's right brother. The Infantry, U. S.

Ask yourself who crawled through those modern conveniences on Attu—including cold running water and hot flying lead—to fight men they couldn't see—and ratted them out when every other effort failed. Right again, brother. In-

fantry.

Who faced German 88's at 200 yards at Salerno—and held—under conditions that would make hell look like Sunday at the shore? You hit it. Infantry.

Who shot it out with crack Nazi troops so close they could spit in their eye—and did—at the skirmish of the stone walls on Hill 609—and cracked open the road to Bizerte? Infantry. Doughboys. The guys who spell it with rifles. Sure. Give the Marines their due. Don't sell the Air Forces short. Don't sink the Navy. All the arms and services count—plenty.

We just ask you to write a few of these things

between the lines and in the footnotes because we of the Infantry wrote them out in blood.

And, brother, there's plenty more where that came from. We've got other chapters to add—and we write a bold hand. You'll see our footnotes on the beaches of France. You'll find us crossing our t's in the Hills of Bataan. You'll recognize our style in Flanders' fields. We'll make our X with crossed rifles all the way across the world.

And when that last word is written, take a good look at the period after "peace."

It was put there by a bayonet in the hands of a guy named Joe.

*Keep your eye on the infantry ... the doughboy does it!*

# Wheat Farmer Uses Old Oil Storage Tanks For His Grain

E. C. Barrett's home-made elevator, shown above, cost \$3,000, but it has paid off, he says.

(By JANE BARA)  
He keeps his grain in his own back yard.  
Four oil storage tanks converted into granaries have provided storage, saved labor and meant substantial profits for E. C. Barrett, farmer

and Extension demonstrator who lives five miles southwest of Pampa.  
While other Panhandle wheat growers piled wheat on the ground this month, Barrett had his own granary at home with a storage capacity in excess of 30,000 bushels.

## Research Professor Is Found Dead

Dr. Wallace G. Murphy, 60, for ten years director of research for the Texas Industrial conference here, was found dead yesterday in his room at the Dallas YMCA. Peace Justice W. L. Sterrett returned a verdict of death from natural causes.  
Dr. Murphy, a native of Fort Smith, Ark., formerly headed the history and political science department at the University of Arkansas and was at one time a history professor at the University of Texas.  
Funeral services were planned today at Austin, Texas.

## Network Program To Salute Civilians Of Army Air Forces

Civilian personnel at Pampa Army Air Field and those at other Army Air Force installations will be honored from 12:30 to 1 p. m. Wednesday, in a radio network salute to civilian personnel working for the Army Air Forces all over the nation, Col. Charles B. Harvin, Pampa Army Air Field's commanding officer, announced today.  
Arrangements are being made for the air base employees to hear the program at the civilian mess hall. For those who will be unable to hear the program at the scheduled hour, it is expected the playbacks of recordings of the program will be made at more convenient times, Col. Harvin added.  
The largest type of animal that ever lived on earth, the blue whale, still exists today.

## RACE

(Continued from page 1)  
race there still is the possibility that further errors may be found in the official canvass of votes which will not be made until Saturday of this week. This possibility could switch results either way, adding enough to Templeton's total to give him victory or still further increasing Favors' lead.

Here is the complete unofficial totals from the four counties in the 12th district:

County	Favors	Templeton
Dowley	394	255
Collingsworth	266	1797
Wheeler	1173	322
Gray	2314	969

Totals 4647 4553  
Each candidate carried two counties. Templeton was on top in Dowley and Collingsworth and Favors romped away in Wheeler and Gray. Templeton's race was considered unusual because his name did not appear on the ballot in Gray and Wheeler counties due to a technical filing in his candidacy. The 1,801 votes he received in the two counties were by the write-in method.  
Of the 4,627 votes Favors received, he garnered 3,987 of them in Gray and Wheeler and 640 in Dowley and Collingsworth. Favors is completing his second term as a state representative.

## REICH

(Continued from Page 1)  
warned of arrest and was taken by night.  
The growing humiliation of the army, however, came in an order yesterday substituting the Nazi salute for the regular military salute. This emphasized pointedly the army's subordination to the Nazi party.

From the immediate military standpoint the full significance of what is happening in Germany will come with the revelation of the new front commanders. There were indications that Hitler was substituting political generals of known loyalty to him for professional staff college trained commanders.  
(In a broadcast quoting Swiss dispatches, Absie, American transmitter in London, said that Hitler would confer at Berchtesgaden today to select new generals for the Russian and Baltic fronts.)  
Two high commanders on the Eastern front, Field Marshal Busch on the Central sector, and Col. Gen. Lindemann in the Baltic states, have been replaced by SS men, the London Daily Mail said in a dispatch from the German frontier.  
The whole Nazi counter plot appeared aimed at discrediting the old-line generals by attempting to place the entire blame on them for setbacks suffered by the German army in the east, south and west.  
One thing stands out in the whole picture. There has not been even a rumor of any attempt by the German civilian masses to rise against the Nazis through strikes or other demonstrations. This indicated that any organized opposition centered almost entirely among the military.

## Professor Will Visit Pampa To Discuss School

Dr. Homer P. Rainey, president of Texas University, Austin, will visit Pampa August 8, to discuss the possibilities of a junior college here. C. A. Huff, president of the Pampa Board of City Development, announced today.

Dr. Rainey comes here at the invitation of the post-war planning committee of the Pampa Board of City Development and Chamber of Commerce.  
Dr. Rainey is one of the outstanding men of the educational fields," said Huff. According to officials, the university has advocated the creation of additional junior colleges in areas not now served, to take care of large numbers of students who never attend school beyond high school; and to relieve, to some extent, the ever-growing problems at the university and Texas A. & M., along with other senior colleges which have such large numbers in their freshman and sophomore classes." Huff concluded.  
The post-war planning committee will meet this week to work out complete plans for a series of meetings with Dr. Rainey, said James Reeves, secretary of the chamber of commerce.

## No Extra Forms For Oil Producers

WASHINGTON, July 25—(AP)—Producers will have no additional form-filing to worry them as a result of premium prices to be paid for crude oil produced in small-yield fields.

This was emphasized by the Office of Price Administration today in explaining it was preparing forms to be sent to purchasers affected by the plan starting August 1.  
The increasing range from 20 to 35 cents a barrel, was approved July 6 by the office of economic stabilization, to encourage production in low-yield fields.  
The \$50,000,000 annual cost of the reconstruction finance corporation through the defense plant corporation which will reimburse purchasers for premium prices paid to producers.  
Prices will be spelled out in terms of existing ceilings, plus the premium, for each pool.  
To prevent purchasers from receiving the benefit of the premium without passing the increase on to the producer, each purchaser applying for compensation from the DPC will be required to fill out a form certifying that the premium was paid to the producer.  
Purchasers who do not make such a certification will not be eligible for reimbursement. Producers will not be required to fill any forms.

## Estimated Wheat Stocks Down

WASHINGTON, July 25—(AP)—Estimates wheat stocks in the four principal exporting countries were estimated by the agriculture department today to have declined from 1,148,000,000 bushels on July 1, 1943, to 1,170,000,000 on July 1 of this year.

A review prepared by the foreign agricultural relations division of the department said the decline of 578,000,000 bushels is the greatest in any single year on record. It said the decline resulted from smaller 1943 wheat harvests in the four countries and from the demand for wheat for non-food purposes.  
The division estimated the stocks for this year compared with those for last year were: United States 350,000,000 bushels and 620,000,000 bushels; Canada 375,000,000 and 620,000,000; Argentina 285,000,000 and 307,000,000; and Australia 160,000,000 and 198,000,000.  
The review said virtually all of the decline occurred in the United States and Canada.  
690 leaps, which, says Ft. Benning, far surpasses the wartime record of any paratrooper. The most momentous was a 1932 jump from 24,800 feet, a sport that still stands for women chutists.  
Marie joined the WACS a year ago and when the Fort Benning paratrooper school opened its first class for women recruits, Marie was in it. Now she's section leader in the maintenance department at Lawson Field.

## Men Under 26 May Fill Draft Quotas

WASHINGTON, July 25—(AP)—Most Selective Service needs likely can be filled from the manpower pool under 26 years, the House Military Affairs committee believes.

The committee reported it expects continuation of present draft induction and deferment policies. In a summary prepared for the group by Col. Francis V. Keessing, Jr., the national military manpower pool of registrants aged 18 through 37, was placed at 22,212,000 as of July 1. About 10,251,000 of these were members or former members of the armed forces.  
"Since the armed forces have already reached their authorized strength," Keessing said, "calls upon selective service age for maintaining this net strength. Contingent upon the progress of the war, there is reasonable expectancy that forthcoming calls can be met in a large part from registrants under 26, with a smaller number above this age."  
Navy Secretary Forrestal meanwhile estimated that an additional 194,000 enlisted men will be needed by the navy before December 31 and another 198,000 may be required by next June 30. Most of the men will be obtained through selective service. The planned increase would raise the navy's total strength of 3,389,000 men.  
"We have moved faster than we had expected to the Pacific," Forrestal commented.  
YOU CAN'T BUY more in aspirin than the assurance of quality and purity guaranteed when you buy St. Joseph Aspirin, world's largest seller at J.V. Demand St. Joseph Aspirin paratroopers.

## Jet Propulsion Aircraft Coming

SCHENECTADY, N. Y., July 25—(AP)—The General Electric company has announced plans for production of jet propulsion aircraft turbines for the War Department. It also revealed it had perfected electronic equipment which can measure the speed of projectiles within 1/100,000th of a second.

The concept said 600,000 feet of floor space, built two years ago to make war equipment no longer needed by the Allied forces, was being converted for production of jet-propelled turbines, and that jet propulsion specifications prepared by general engineers also had been turned over to another company formerly engaged in making conventional airplane engines.  
The electronic equipment announced by General Electric already is in use at the Army's Aberdeen, Md., Ordnance Research Center proving grounds.  
The Rocky Mountain canyon is not a bird, but a burro.

## RUG-CUTTER

HOLLYWOOD—Jan Klepura and his wife, Marta Eggerth, opera singers, are distressed, says Mrs. K. of 7-week-old Jan, Jr.:  
"He yells when we play operatic records and coos when we tune in rug-cutting rhythms."

## Girl Chute Champ Packs 'Em Up New

FT. BENNING, Ga.—(AP)—Marie McMullin had to stop balling out of planes when the war started, so now she's doing the best thing possible connected with parachutes—she's rigging 'em for Uncle Sam's paratroopers.  
Marie, now Pvt. McMullin of the WACS, became a parachute jumper in 1930, got a pilot's license in 1932 and from then on lived an exciting life of balling out, flying, stunting and wing walking.  
By Dec. 6, 1941, when she made her last jump, she had registered

## U. S. FLEET

(Continued from Page One)  
stronger opposition on Guam, 125 an airstrip and hammered the approaches to Agaña, principal city miles south of Tinian, but isolated of the U. S.-owned island by enemy ital. Through July 22 U. S. casualties were 348 killed, 110 missing, 1,500 wounded. Enemy losses, said Nimitz were heavy. Guam's Orbe peninsula was cut off, trapping a Japanese force.  
As on Saipan, most of Guam's 15,000 civilians hid out, pending the ending of fighting.  
Gen. Douglas MacArthur told of three more lunges by trapped Japanese at Allied lines hemming them in near Aitape on New Guinea. In column of companies the Japanese drove head-on into the American lines. Artillery fire mowed them down. The enemy force of some 45,000 has met failure in previous attempts to smash a path to Japanese garrisons on the north end of the island.  
Heavy losses made bloodier the battle of Hengyang, which sits athwart the Canton-Hankow railway. The Japanese covet. Enemy troops severely assaulted the southwestern outskirts of the besieged city. The Chinese high command said Hengyang's defenders maintain their positions. U. S. planes shot up 45 aircraft in raiding an airdrome near Tungting lake north of Hengyang.  
Another Chinese force broke into Siankiang, 60 miles to the north. This city is a hinge of the Japanese drive sweeping down both sides of the railway. The Japanese drive from Canton northward seemed bogged 40 miles above that coastal city.  
In Yunnan province, Chinese forces were reported assaulting Japanese positions dominating the Burma road. The positions were not named but recently the Chinese have been aiming at Tengchung and Lungling. These Jap-held bases must be cleared before the Ledo-Burma road from India to China can reopen.  
American submarine, air and naval blows have whittled the Japanese fleet appreciably since the Pearl Harbor attack; particularly in cruiser and destroyer strength. Last estimates placed Japanese naval strength at 19 or 21 battleships, seven to nine heavy cruisers, 20 to 35 lighter cruisers, 70 to 80 destroyers and 80 to 100 submarines.  
American naval strength is more than double and the great bulk is believed based in the Pacific. Two days ago, Navy Secretary Forrestal said the U. S. Navy had 114 fighting ships in service and many more under construction, exclusive of tens of thousands of landing craft and auxiliaries. Present strength of naval aircraft was estimated at 85,000, many times the number of planes available in all Japanese armed services. Scores of the navy's fighting ships are carriers, and about 29 or more battleships are in service.  
Leafy vegetables, broccoli, asparagus and snail's head, keep best in a covered container in the refrigerator.

## NEGROES

(Continued from Page 1)  
ica. Attended by a large number of Negroes, this convention was organized by whites, he stated.  
With Negroes voting for the first time in a Texas Democratic primary, Precinct 25 rolled up its heaviest vote in history, Miss Wallis said. Four hundred votes were tallied compared with 16 cast by all-white voters in the 1942 primary election.  
Andrews said the precinct had from 25 to 50 qualified white voters and about 1,000 eligible Negro voters.  
Harrison, stating that the Precinct 25 convention was 100 per cent pro-Roosevelt, said that the group passed a resolution demanding that the state Democratic convention which meets in Dallas in September select electors who will support the party's national nominees in the electoral college.

Peel onions under running cold water and you won't shed a tear. A little salt rubbed on your hands will absorb any remaining odor.  
**APPLICATION FOR LIQUOR PERMIT**

**"I'd rather be with them than waiting for them"**

I'LL ADMIT there's a funny lump in my throat . . .  
But here I am, loaded with my overseas pack, climbing up the side of the biggest boat I've ever seen—and glad of it.  
Glad I said "good-bye" to civilian life months ago—and went into the WAC. Glad I went through all the training and on to active duty.  
For, as a Wac, I'm really working for victory. Sharing the hard part of war. And the glory that will come.  
I'd rather be with them—in the Army . . .  
Than waiting back home—thinking up things to make the time go by—listening to the news—wondering when it'll all be over.  
Yes, I'm in the Army and on my way—and I'm glad to the bottom of my heart!

Hair Bedroom To Home Sweet Home

Husband-Following War Bride Tells How to Budget-Beautify a Furnished Room

NEW YORK—Take heart you war brides who've sunk into the doldrums at the sight of that one room furnished apartment your husband was able to get near his camp. It's probably the only available room and you don't want to puncture hubby's pride in the way he managed to share it for you.

I know, for I was at the hair-tearing stage when my husband described our room. The walls were drab and dingy, ditto the floor. There were two tacky over-stuffed chairs upholstered in a faded hand-some at the turn of the century, a pair of worn-looking lamps, a studio couch-bed, two windows, a tiny picture "The First Robin" that I have always abhorred.

Plaintly this called for action. I air-mailed for specific dimensions of the room and everything in it. Then I paid a visit to the home furnishings section of a big city department store and looked over the collection of room interiors until I found one that appeared to be somewhat better than the furnished apartment into with a minimum of expense.

It had gay slipcovers, a laundress' color scheme, brightly ruffled window valances and lamp shade trimming and one wall was papered in an eye-catching floral print.

First I visited the unpainted furniture department and picked up an inexpensive unpainted coffee table and chests. Then I chose my color scheme, buying it around the store and two clothes chests, making them look like hand-painted French pieces.

With shellac, sizing, paste, a parperhanger's brush and roller I got to work on the table and chests, making sure each after the paper was cut, the flowers in the print matched when the paper was pasted together. With this I bought five 50-inch material, which I bought for 94 cents a yard. The net cost was just about half of a custom-made job. I selected pink for the chair, to be bound in mulberry, and a floral design for the wing chair that matched my wallpaper.

Following a slipcover pattern and working on the store's sewing machine and furniture of the same dimensions as mine, I was able to do my complete decor, I bought an inexpensive washable cotton rug, a picture and two low-cost lamp shades. Five yards of mulberry fabric to tack on the top and bottom rims of each shade, costing 40 cents a yard, gave them an expensive look.

Again taking my cue from the sample room interior, I decorated my rooming house drapes by making cornices for hime out of an old discarded play pen. After cutting the sides down to fit the width of the windows and putting large bobbin spools on each of the spokes, I really thing the landlady will have difficulty recognizing her old furnished flat.

When the mentally deficient child is kept at home with other children they are likely to become very sensitive about being seen with him in public or to be brought to school by bringing their friends home. Sometimes they will imitate him or in various ways sink to his level of behavior. Perhaps the best way to help completely from his company, denying themselves the yard or living room when he is present.

When the mentally deficient child is kept at home with other children they are likely to become very sensitive about being seen with him in public or to be brought to school by bringing their friends home. Sometimes they will imitate him or in various ways sink to his level of behavior. Perhaps the best way to help completely from his company, denying themselves the yard or living room when he is present.

Shower Is Given Mrs. Ray Robbins At Club Meeting

At the regular club meeting of the Beta Sigma Phi which met Monday evening in the home of Miss Barbara Heimbaugh, 1319 N. Russell, a pink and blue shower was given Mrs. Ray Robbins.

Hostesses at the meeting were Misses Katherine Ward, Dona Pursley, and Barbara Heimbaugh. Refreshments of punch, sandartarts, and six crackers, were served to Mrs. Arthur Teed, C. A. Vaught, Pauline Gaskins, Raymond Harrah, James Massa, Ray Robbins, and Misses Johnnie Davis, Helen Houston, Elsa Plantz, Katherine Ward, Dona Pursley, and Barbara Heimbaugh.

Meeting of Kit Kats Tonight in Home Of Marjorie Gaylor
"The Kit Kat Klub will have their meeting tonight at 7:30 in the home of Marjorie Gaylor, 823 E. Francis, Anna Barnett, club president announced.

Selecting a wall paper pattern to panel one wall and cover a coffee table and wardrobe with unpainted wood, war bride Carol Berman is careful to choose one that will harmonize with drapes and furniture covers.

There is no problem that places a greater strain on the family than the care of the mentally deficient child. Where the child is completely dependent, the mother frequently works herself into a nervous breakdown, giving him nursing care. In doing this she may neglect the needs of the other children and jeopardize the home relationship.

Feeble-mindedness is an accident that may happen in any family, and it should not be looked upon as a disgrace. The parents and other children probably suffer more because of the misfortune than the afflicted child, since he is unaware of his weakness. Where this is true the question of placing him in an institution should seriously be considered, because there his abilities will be better understood, and he may be trained for some occupation.

When the mentally deficient child is kept at home with other children they are likely to become very sensitive about being seen with him in public or to be brought to school by bringing their friends home. Sometimes they will imitate him or in various ways sink to his level of behavior. Perhaps the best way to help completely from his company, denying themselves the yard or living room when he is present.

When the mentally deficient child is kept at home with other children they are likely to become very sensitive about being seen with him in public or to be brought to school by bringing their friends home. Sometimes they will imitate him or in various ways sink to his level of behavior. Perhaps the best way to help completely from his company, denying themselves the yard or living room when he is present.

Summer Students In College Write Skits, Plays for USO Clubs

Summer students at three universities are busy these days writing skits and short plays for use in USO clubs, according to news received today by Mrs. Julia Pagan, Pampa USO director from USO national headquarters.

Old Hose Make Foot Protectors For Bare-Legged

Good leg art passes for summer stockings, but since it won't tether girdles or keep noble soles happy in clammy shoes, you may need some extra equipment, if you paint in your hose.

To lodge homeless garters and to keep a girdle from riding high, wear disembodied stocking wells, tied on securely above the knees of the legs that you paint. There are stockings wells—made of pink knitted material and designed to tie on with drawing tape—that do a nice job of anchoring fly-away tabs.

To shield bare soles and protect the linings of your shoes, wear foot protectors. You can get foot coverings made for this purpose, or if you have a flock of worthless stockings, you can cut them down to the feet and make your own. What you'll need to do, though, to keep cut threads from ravelling like mad, is to hem the cut edge and then go over it with a tight overcast stitch.

Subject matter in the USO skits, most of them comedies, usually include incidents reflecting Army and Navy or home life, according to Mrs. Pagan, who said that the USO is now putting special emphasis on skits suitable for returning service men.

In addition Mrs. Pagan said, the skits are used in certain overcrowded war production areas where USO workers often help organize dramatic clubs for children in trailer camps and for men and women of the assembly line who need recreation and creative outlets during their leisure time. The plays and skits are presented in USO clubs in these areas, and also in the recreation rooms of housing projects, she added.

Rock so soft it bends like wood is found not far from Brazil's deposits of diamonds, valued for their hardness.

Sharp, Louisville, Ky.; John E. Flora, Cass Lake, Minn.; William A. Poshe, Grandfield, Okla.; AV-S and Mrs. Hugh E. Best, Jr. Tarboro, N. C.; AV-S L. Geib, North Canton, Ohio; Lt. and Mrs. Ben D. Cook; AV-S Walter E. Siefert, Shelbyville, Ind.; AV-S Harold B. Stanbury, Detroit, Mich.; AV-S James B. Kopp, Greensboro, Ga.; Sgt. Vivian C. Moore, Lubbock; Wm. Hendery, Salt Lake City, U. and Mrs. E. N. Griver, Winter Haven, Fla.

Bar-b-cue Pit now open at Royal Cafe. Ready to serve or to go. Real barbecue chicken, pork or beef. Special orders for parties and picnics. Rue Houston, owner, 534 S. Cuyler. Phone 9556.

Three service boys from Pampa who attended services at the First Baptist church Sunday were Alvin Reeves, Dallas; Harold Cockburn, Prusque, Ind.; and Floyd Hatcher, Fort Huencue, Calif.

Wanted: Boys to deliver Pampa News routes. Place your application now with The Circulation Dept., if you are interested in doing a paper and earning your own spending money.

Latest canning information written in Spanish may be obtained at the Gray County Home Demonstration office, first floor of the City Hall.

See Foxworth Galbraith Lumber Company when in need of wall paper or paint.

Mr. and Mrs. A. E. Johnson and daughter, Jan, returned to Kermit today after attending the funeral of Mr. and Mrs. M. R. Russell, is recovering from an appendectomy he underwent July 19, at the Pampa hospital.

B.M.A. Hospitalization and Life Insurance. Frances Craver, special representative. Call 614 or 581-W.

Mr. and Mrs. Clyde Bowen returned to San Angelo today after attending the funeral of Lt. Robert Talley. They were accompanied home by Mrs. Roberta Talley, mother of Mrs. Johnson and Lt. Talley.

Garnet Reeves secretary of the Pampa Chamber of Commerce left Saturday for Dallas to attend the Texas Chamber of Commerce manufacturers' convention.

Mrs. Earl Gobbie and children, Tom Brant and Michael, of Dumas, are visiting her mother, Mrs. Alta Standard, 420 N. Russell.

Mrs. Frank Hoeselt and daughter, Ava, left Friday for Spearman to visit with Mrs. Hoeselt's parents, Mr. and Mrs. Albert Jacobs. They will return to Pampa tomorrow.

HOUSTON, July 25.—(P)—Farmers and other non-institutional employers of seasonal workers who are fed by the employer, may now get ration allotments for temporary workers up to 60 days, Harvey W. Smith, district rationing executive, said today.

For employment periods of more than 60 days, the employer must collect ration points from the employee with which to buy rationed foods. Previously the maximum period was 30 days.

Allotments for seasonal workers will be issued by war price and rationing boards in the county in which the employer operates, Smith said.

BOOKS of Today

"The Red Cock Crows," by Frances Gaither (Macmillan; \$2.75). Through the years since Margaret Mitchell's "Gone With the Wind" the publisher of that remarkable novel has been scouring the South for its successor. I suspect that when Frances Gaither's "The Red Cock Crows" turned up, the publisher sighed with relief. After he read it, I also suspect that he wondered.

In many ways Mrs. Gaither's long novel is better than "Gone With the Wind," which those who disliked Mrs. Mitchell's faint praise. "The Red Cock Crows" is much more socially conscious than its predecessor.

Its author really understands the general anti-bellum scene in Mississippi, and more. The "more" is the extraordinary tangle of social strands that ran underneath the ostensibly smooth and fair "Gone With the Wind." Southern life in those days was like a Paisley shawl. The "right" side was smooth and conventional, also patterned, but the "wrong" side was a mat of complicated threads which reflected the formal pattern only very generally. And the great mistake of many northern writers is assuming that their southern neighbors did not understand all this.

Mrs. Gaither has used a conventional plot for her novel. There is Shandy, the Dalton plantation in "The Forks."

Shandy swarmed with slaves, good ones and others. Its white population reflected the white ruling class accurately, and there is the usual nearby young planter; arrogant and needless. Into this life comes Adam Fishburn from Maine; he and the neighbor inevitably are interested in Fannie Dalton, and from that point the formal story can be guessed with considerable ease.

But it is not the triangle that is important, but the general understanding of the underside of the shawl. Mrs. Gaither has done, for example, a memorable portrait of Scordell, the Dalton's Negro headman who is torn between race loyalty and loyalty to his master. There are many such portraits, perhaps a little more atmospheric detail than is needed, and expert handling of occasionally melodramatic material.

Lightning flashes over the earth continuously, striking on the average of 50 times a second, or 2,000,000,000 times a year.

"Pin Worms Can't Harm My Child!"

Better learn the Truth, Mother! You may think that Pin-Worms are just a harmless nuisance. Or you may think that this tormenting, embarrassing infection strikes only certain types of people.

Don't you believe it! Rich or poor, young or old—anywhere, anyone can have Pin-Worms. And these crawling pests, living and growing inside the human body, can cause real distress. So watch out for the warning signs that may mean this nasty infection: the aggravating rectal itch, also, uneasy stomach, bed-wetting, nervous fidgeting and unexplained anemia.

If you suspect Pin-Worms, get a package of P-W tablets right away, and be sure to follow the directions. P-W is the new Pin-Worm treatment developed by the laboratory of Dr. B. B. Berman, one of America's leading specialists in worm medicine.

Important Scientific Discovery The small, easy-to-take P-W tablets contain a remarkable drug (tetrahylole) that is being hailed by high medical authorities as the most effective ever discovered for dealing with Pin-Worms. Thanks to this important new scientific discovery, P-W is the best, gentle way to destroy stubborn Pin-Worms!

Ask your druggist: P-W for Pin-Worms!

FUNNY BUSINESS

"Something tells me we've surfaced near a summer resort!"

Market Briefs

NEW YORK WALL STREET
NEW YORK, July 24.—The stock market looked as though it might be ready for a comeback in today's early proceedings but demand for rail and industrial leaders soon wavered and fractional advances were trimmed substantially or converted into minus signs near the close.

Persistent caution regarding stocks was based mainly on fears of serious recession problems for business and industry. Some nibbling at the start was due to the thought the list may have been overvalued.

Deals slowed appreciably after a fairly lively first hour and final trends were cloudy. Transfers approximated 1,000,000 shares, one of the smallest turnovers for a full session since June 9.

Ahead at intervals—some failed to hold were Southern Railway, Chesapeake & Ohio, U. S. Steel, Bethlehem, Chrysler, General Motors, American Can, International Telephone, American Telephone and Western Union "A". On the outside were Du Pont, J. C. Penney, Douglas Aircraft, Caterpillar Tractor, Kennecott and Allied Chemical.

"REDDY" IS COMING!

WORLD'S GREATEST SERVANT

Dee Patterson

Thank You ...

For the support given me by the voters of Gray County in Saturday's Primary Election.

Thanks to my many friends for their efforts in my behalf.

And I especially wish to express my appreciation to Mr. Gatlin in conducting a clean campaign.

Water Development Program Outlined
KALISPELL, Mont., July 24.—(AP)—A broad program for water and hydroelectric development, irrigation and reclamation aimed at providing steady postwar employment for veterans and war workers was outlined yesterday by Michael W. Straus, first assistant secretary of Interior.

Testifying before the Senate small business committee in the first of a series of western hearings, Straus said the interior department plan is an engineered inventory of irrigation and multiple purpose projects suitable for postwar construction in the 17 western states.

It will provide "new populations, new settlements, new opportunity for resources development, new markets and new industry," he said. Straus described the reclamation plan as embracing 236 individual projects in the 17 western states, 39 of which in total or in part already have been authorized, with work going forward under the war food or war power programs of the U. S. Bureau of Reclamation.

He declared 135,000 irrigated farms would be created for settlement by war veterans and war workers, and irrigation would be provided an additional 130,000 established farms. It would also mean, Straus asserted, irrigation of 6,705,000 acres of land now unused and better irrigation of 9,364,000 acres of land already in cultivation.

Straus was the first of more than a dozen government officials testifying at the first session of the two-day hearing.

DFC TO TEXAN
WASHINGTON, July 24.—(AP)—The war department has announced that the Distinguished Flying Cross has been awarded to Tech. Sgt. Billy J. Davis, 1314 Vincent St., Brownwood. Davis is a member of the U. S. Army Eighth Air Force.

MAYBE IT WAS JUST BOWLEGGED PANTS
NORMAN, Okla.—(AP)—Dr. Carl C. Rister, historian of the pioneer west, says bowlegs weren't a trademark of the old-time cowboy. "You wouldn't find any more curved legs in a group of cowboys than in any other group," he says.

Hitler Moves To Nazify His Army
LONDON, July 25.—(AP)—Hitler, moving swiftly to Nazify the German army in the wake of the Prussian rebellion and ordered the party salute substituted today for the army salute.

An official German news agency broadcast (DNB) said the change was made at the request of "all parts of the armed forces as a sign of unbreakable loyalty and the closest attachment between the army and party."

Word was received here Monday by Mrs. C. W. Cannon, of the Gulf-Faulkner Lease, of the death of her brother, M/Sgt. Lloyd Cheek, of Greenville, who was killed July 10. He was stationed in England with the Transport Command. His wife and only child reside in San Antonio.

Word was also received by Mrs. Cannon that her youngest brother, T/Sgt. Boyd Cheek, also of Greenville, who is stationed with the Second Army in France, was wounded in action.
