

PLANE FLEE IN DISORDER

3,000 American Planes Pummel German Oil Supplies

Other U. S. Planes Help Land Forces

LONDON, July 28—(AP)—American air forces today at dwindling German oil resources, striking synthetic fuel plants at Merseburg in the heart of the Reich and the rich Ploesti oil fields in Romania. Half the force was heavy bombers striking from both England and Italy.

Other flights of tactical aircraft returned to the Normandy front in France supporting the American army advancing on Cotancous by bombing and strafing enemy transport from Paris to the Atlantic coast. Yesterday, the tactical units destroyed or damaged at least 100 tanks.

Around 1,000 Flying Fortresses with an equal number of fighters bombed the Luena synthetic oil plants at Merseburg, for the third time this month, and other central German targets. Merseburg is on the Saale river west of Leipzig and is an important rail junction. The Germans said nearby Halle and Bessau also were attacked amid great air battles.

In a coordinated strike from Italy, more than 500 Liberators were probably an equal escort bombed the Ploesti oil center 35 miles north of Bucharest for the 12th time. Ploesti had been bombed by RAF air forces before dawn.

On the eastern front, the Russians said they again bombed the east Prussian rail center of Tilsit, destroying five military trains and setting "dozens of fires." The Russians said they destroyed 42 German planes.

The assaults were launched despite continuation of the cloudy weather which a restricted air operations over the Normandy battlefield, except for one day during the past two weeks, and which forced the raiders over the Reich to employ overcast aiming instruments.

The daylight raids followed a night of activity by Italy-based bombers, which hammered the Romanian oil center of Ploesti. The Italian-based RAF Mosquitos pestered Stuttgart for the third time in four nights.

The Germans asserted that Bucharest also was bombed anew last night.

Mosquito squadrons which attacked Stuttgart without loss last night despite the scattered defenses found fires still burning in the German engineering and transport center from smashing blows by British heavy bombers on Tuesday and Wednesday nights.

Carrier Task Force Raids Jap-Held Palau for 2 Days

Mikado Loses 10 More Vessels Of Dwindling Fleet

By J. B. KRUEGER
Associated Press War Editor
The shrinking Japanese empire bleed today from five new Allied thrusts, including a devastating U. S. stab into the Carolines which wiped out 10 ships and 26 planes and reduced Palau as a stumbling block on the Allied road back to the Philippines.

On eight sea and land battlefields the best Japan could manage was a stand-off against the underdog Chinese at Hengyang. Allied victories were scored at Palau, Truk, Sabang and on China's two battlefronts.

Carrier planes of a fast American task force raided Palau and other western Caroline bases for two days (July 24-25), sinking a destroyer, an oiler, a destroyer escort of mine-sweepers, seven cargo vessels and many smaller craft. On the first day 26 planes were destroyed. On the second, no enemy interceptors were seen. Five U. S. planes were lost, but four pilots were saved. Islands attacked were Arakadesan, Peleitu, Anguar, Malakay and Koror in the Palau group; and Yap and Ujaehi, which lie between Palau and Guam. Adm. Chester Nimitz told of the raid last night.

Another stinging blow, inflicted by bombers of the Douglas MacArthur command, sank one ship and fired three others of a five-ship convoy 100 miles south of Truk. The fifth vessel escaped.

A third sea blow by a British-directed fleet hit Sabang at the northwest tip of Sumatra and wrecked its harbor, vital to control of the Japanese supply line to Burma via Singapore.

London announced today, in addition, that British submarines destroyed 21 Japanese supply and other ships in far eastern waters recently, and damaged several by torpedo and gunfire.

Allied land successes nearly matched these clear-cut sea victories. On Okinawa, the Marianas and the Iwo Jima U. S. troops pressed the isolated enemy garrisons closer to annihilation. The Tinian invaders, killing 19 Japs to every Marine slain, held a third of the island and were put-

County Is Short \$40,000 E Bonds

A last stretch effort was being made today to put Gray county over the top in its quota of "E" bonds for the World War Loan drive which ends tomorrow night.

S. D. Stennis, Gray county bond chairman, said this morning that the county still is short \$40,000 on its "E" bond sales. The Gray county "E" quota is \$365,000.

YANKS TAKING COVER

Combat engineers move in on an objective somewhere in Normandy, still under fire of German artillery. They take cover in ruins of buildings already hit.

Climax in Pro-Con Feud Is Tomorrow

AUSTIN, July 28—(AP)—Control of the Democratic party organizations in Texas is at stake tomorrow in county conventions at which the fierce factional feud between pro and anti-Roosevelt forces will flare up again.

County conventions chose delegates to the state convention Sept. 12. These delegates will determine the convention's course in the selection of a new state executive committee and in the naming of its chairman.

Plaintiff Loses Suit Here for \$25,000
Suit to secure \$25,000 civil damages by B. A. Ricketts of this city was decided in district court here last night in favor of the defendant, Mitchell Hill, operator of the Mitchell's Grocery and Market.

The jury trial, the first to be held here in over a year, began on Monday, and since then witnesses in the suit, involving injury to Leon Ricketts, 7, have been heard for both sides.

The Plaintiff brought suit after Leon Ricketts received injuries when his right hand and arm were pulled into the cutting gears of the meat cutting machine located in the Mitchell grocery.

Primarily the right of the plaintiff to recover depended upon whether or not Leon was considered as an "invitee" of the defendant, as defined in the Judge's charges. In as much as the youth was not considered by the Jury as such the defendant was not found liable, according to Judge W. R. Ewing.

Texas Schools Get 6 Million Dollar Backlog

AUSTIN, Texas, July 28—(AP)—A \$6,000,000 windfall awaits Texas public schools.

Attorney General Grover Sellers says in an opinion yesterday this amount, the balance in the available school fund after full payment of this year's \$25 million per capita apportionment, may be distributed among the schools as of Aug. 31, 1944, the end of the current fiscal year.

Because school years are already closed the balance can be applied by school districts to next year's expenses. And next year they will receive in addition another full \$25 per capita apportionment, based on available revenue estimates.

The \$6,000,000 supplemental payment, already approved by the state board of education subject only to the attorney general's approval, should go to teacher salary increases, the board decided.

The increased state aid may mean that some districts can retain teachers that might be attracted to other work because of higher pay salaries or that more teachers can be employed than last year. The Texas state teachers association reported many schools were unable last year to employ sufficient teachers to contract prices offered them.

The Sellers opinion, sought by Comptroller George H. Sheppard, noted that a \$25 per capita apportionment maximum is set by statute and also by the state board of education.

It added the maximum was simply the maximum estimate deemed necessary to maintain the public schools for a period of not less than six months and the state constitution provides that the available school fund shall be "applied annually." Therefore the board of education has authority to make a supplemental apportionment of the \$6,000,000 balance.

On July 28, the state per capita apportionment set by the legislature is a yardstick or standard for fixing the state school tax rate which the law says cannot exceed 35 cents per \$100 valuation. The school rate last year was 10 cents per \$100 valuation, 18 cents for 1943 and 25 cents for 1944. The state automatic tax board sits Aug. 2 to fix the rate. Taxes based on the new rate will be collected Oct. 1.

WFA Sets Price On Texas Cottonseed
DALLAS, July 28—(AP)—The War Food Administration has set minimum support prices of \$55 a ton for 100-grade cottonseed in Texas, Oklahoma and New Mexico and \$56 a ton in other producing states.

The prices are FOB shipping points and reflect existing Office of Price Administration ceilings for cottonseed products, said L. J. Cappelman, regional director of WFA's distribution office.

TEXANS AMONG DEAD
SAVANNAH, Ga. July 28—(AP)—Pfc. Truman Griffith, assistant radio operator and son of Jack Griffith, Athens, Texas, was one of ten Air Corps men killed yesterday when their B-24 bomber crashed ten miles south of Augusta. The men were stationed at Chatham field, Savannah, the ship burned after the impact, the public relations office said.

Minute Man Flag To Local Group

Employees of the General Atlas Carbon Co., at Pampa have been awarded the U. S. Treasury Department's Minute Man Flag for war bond purchases, S. D. Stennis, Gray county bond chairman, announced today.

The Minute Man Flag, inscribed with a large "T", is presented to plants where at least 90 per cent of the employee personnel is buying ten per cent or more war bonds from their salaries each month.

Chairman Stennis stated today that the General Atlas plant is the first in the Pampa area to be honored with the Minute Man Flag.

As chairman of the Gray County War Bond committee, Stennis said, "we wish to congratulate and compliment the General Atlas employees for their generous support of the war effort not only from the standpoint of their daily war production work but for their financial support as well."

Stennis said that plans are being made to hold a flag-raising ceremony at the plant next week. Date and details of the ceremony will be announced later, he said.

Local VFW Members Will Attend Meeting
Members of the Pampa post of V. F. W. are to attend a district meeting at Tulla Sunday morning at 10:30 at the McKenzie post, 1796.

V. F. W. officials urge that all members of the Pampa post attend and that cars leave here by 8 a. m. Distinguished guests will be two state service officers, Bob Claypool and Mrs. Icie Shoup, department president of the auxiliary.

Local YFW Members Will Attend Meeting
Members of the Pampa post of Y. F. W. are to attend a district meeting at Tulla Sunday morning at 10:30 at the McKenzie post, 1796.

Wheat Is the Divine Food--Henry Ford
By DAVID J. WILKIE
DETROIT, July 28—(AP)—Henry Ford, who built a billion dollar industrial empire with an initial investment of \$28,000, will observe his 81st birthday anniversary on Sunday, he said today, that "prosperity and a higher standard of living can be attained after the war."

He predicted in an interview that the end of the war would bring a tremendous demand for motorcars and mechanized farm equipment and suggested that the Ford-operated Willow Run bomber plant may be used to manufacture Ford tractors.

This exemplifies his keen interest in the soil. "The time is coming," Ford said, "when man will be able to determine the length of his life span by controlling his diet. I think he will find everything he needs in wheat; wheat is the divine food."

Allied High Command Says Rout Greater Than in Africa

WAR IN BRIEF

(By The Associated Press)
FRANCE—Yanks threaten encirclement of over 50,000 Germans; fall of Cotancous imminent.
RUSSIA—Germans abandon Brest-Litovsk, Kaunas; Reds gain 10 major triumphs in 24 hours.
JAPAN—Tokyo denies execution Superfortress pilots.
PACIFIC—Allies score five victories over Japs.
ITALY—New Zealanders within seven miles of Florence; American and German artillery duel opens battle for Florence.

By DWIGHT PITKIN
Associated Press War Editor
The Germans fled today before the explosive fury of American power drives down the Cherbourg peninsula and U. S. fliers reported that the enemy was falling back through the Cotancous bottleneck in greater disorder than during Marshal Rommel's debacle in North Africa.

The fall of Cotancous, strategic German base 42 miles below Cherbourg, was reported imminent. The Germans also suffered major setbacks on the eastern front. Berlin-announced withdrawals from Best Litovsk and Kaunas boosted to ten the number of great Russian victories within the blackest period for Germany in five years of war.

Yanks in Two Miles of Cotancous

American units drove within two miles of Cotancous after a tank breakthrough plunged spearheads more than 11 miles deep into enemy defenses and threatened to pocket an estimated 50,000 to 70,000 Germans west of St. Lo. The AP's War Correspondent West Gallagher, with American forces outside Cotancous, reported that prisoners from six different Nazi divisions have been counted at one advance command post in a 15-minute period. He added, however, there were indications that many of the German 84th army corps slipped out of the trap during the night.

There was speculation in London that Lt. Gen. George S. Patton, Jr., expert in tank warfare, was directing the armored drive. The Red army beat back the Germans toward the suburbs of Warsaw. Cossack cavalrymen and tanks drove through flat grain fields in a frontal assault that reached 30 miles from the Polish capital. The Germans said they had withdrawn from Brest Litovsk, fortress city of 50,000 on the western Bug and 110 miles east of Warsaw.

The Berlin radio said that the Germans had abandoned Kaunas, in Lithuania. The German communiqué reported that the German 1st Army announced a withdrawal in Galicia to the Carpathian hills with the Russians in hot pursuit.

Bulgaria, whose collapse in October of 1943 preceded the Nov. 11 armistice, was reported in Ankara to be negotiating with the Allies in an effort to get out of the war.

The fall of Best Litovsk, far behind the westward surge of the Russian front, was reported in Ankara last night of the capture of six enemy bastions—Lwow, Blyastok, Dugaivapils, Resekine, Sialiaul and Sialiaul.

Without explanation, communications were cut last night between neutral countries and Berlin, which acknowledged yesterday that Germany faced a crisis.

Gen. Eisenhower's headquarters announced that in the western sector of the Normandy front "Allied forces have maintained their rapid advances." In the British-Canadian sector below Caen, "our positions remain firm," today's communiqué said.

In northern Italy veteran New Zealanders captured the town of San Casciano, seven miles from Florence. The final battle of Pisa on the west coast got under way as American and German artillery exchanged fire across the Arno river.

Plans to Ship Oil To Coast Studied
WASHINGTON, July 28—(AP)—The Petroleum Administration for War is considering a proposal by which 30,000 to 40,000 barrels of West Texas sour crude would be shipped to the Pacific coast daily by tank car to help plug the deficit caused by declining crude stocks in California, Interior Secretary Harold L. Ickes said yesterday.

The government has long anticipated the California crude oil deficit, he said, and one answer has been to sink more wells in the Elk Hills naval petroleum reserve. "Even the navy is persuaded that it would have to put down more wells or face a considerable crisis," Ickes told his press conference.

Local Man's Mother Dies at Abilene
Mrs. Hattie Seyles, about 80, mother of Seth Seyles of Pampa died early this morning at her home in Abilene following a long period of illness. She is preceded in death by her husband. Survivors are not listed at this time.

Dewey Includes States' Rights In His Platform

ALBANY, N. Y., July 28—Gov. Thomas E. Dewey's plans for refurbishing the federal government—if the electorate gives him the nod in November—were put strictly on a four-year basis today, with the Republican nominee calling for an end of what he charged as New Deal "swiftness" on states' rights.

Listing a series of topics for study by a GOP governors conference at St. Louis next week, Dewey said he hoped the Republicans could fix "an area or responsibility to the people," as between federal and local governments, that would settle the problem "not permanently, but for our time, or rather, the next four years."

He stressed the four-year basis of his program at a press conference yesterday attended also by Gov. John W. Bricker of Ohio, the vice presidential nominee, but did not explain whether he was contemplating only one term if elected. More than a year ago, Bricker proposed a constitutional amendment limiting periods.

The Dewey objective was immediate applause from Rep. Charles A. Eaton (R-N.J.), who called after a conference with the New York governor for "the complete reorganization of the federal government on sound business principles."

This is necessary, Eaton said, if the United States is to assume the post-war world leadership, carrying out "tremendous economic relationships with the rest of the world."

The 76-year-old ranking minority member of the house foreign affairs committee said he thought Dewey agreed.

17 Americans Die In Scotland Crash
LONDON, July 28—(AP)—Twenty-four persons, including 17 wounded American soldiers, were killed last night when a U. S. troop transport plane hit a cliff near Mull of Galloway, in southwest Scotland.

Six members of the crew and a nurse were among the victims. The wounded were on their way to a Scottish hospital from southern England.

A fire followed the crash and many bodies were burned beyond recognition.

Pampan's Name Submitted For U. S. Judgeship

The name of Capt. V. Osborne of Pampa, it was learned today, has been submitted to Attorney General Frank Biddle in Washington for appointment as a United States district judge for the northern district of Texas.

Captain Osborne, now in a hospital somewhere in China, has no knowledge of the action being taken in his behalf by friends in the Pampa.

The projection of his name into the list of possible appointees comes because Judge James C. Wilson of Fort Worth, now holding the post, is eligible for retirement and has indicated that he expects to retire soon. The appointment will be made by the President.

He was inducted into the Army as a private in February of 1942, and was elected soon to attend Officers Candidate school. He is now a captain in the Army's Intelligence department and has been in the Far East with the AAF for more than 15 months.

Osborne's supporters say there probably will be several names presented to the President for appointment, but they feel no candidate will be presented who would make a better judge than Captain Osborne. One of his backers said today:

"Mr. Osborne is considered by judges and lawyers as an able lawyer, is young and energetic, and likewise is considered as having what is known as 'judicial temperament.'"

Torture-Murderer Public Enemy No. 1
DENVER, Colo., July 28—(AP)—The Federal Bureau of Investigation today listed a new individual as the "most dangerous" criminal at large in the United States—Randel Thorpeberry, 37-year-old fugitive sought for trial in connection with the torture murder of a Colorado sheepherder last August.

Thorpeberry and his brother, O. B., last October made a spectacular break from the Rout county jail at Steamboat Springs, Colo. O. B. was captured in Texas a month later and is serving 34 years to life in the Canon City penitentiary. O. B. has declared his belief that Randel will fight it out with the law when he is cornered, rather than surrender.

Mori's Arm Is Still Cards' Prime-Mover

By JACK HAND
Associated Press Sports Writer

Rookies come and rookies go but Mori's powerful right arm still represents much of the pitching strength of the pennant-bound St. Louis Cardinals.

The husky red bird from Webster Groves, Mo., staggered through the early season and was batted off the hill three times in a row as he took a back seat to George Mungler, Harry Brecheen and the veteran Max Lanier.

Mori answered the "what's the

matter with Cooper?" Remarks by Cooper on May 28 that he had produced 11 wins in 12 starts and boosted him into a tie with Bucky Walters of the Reds for most shut-outs with five.

As the Cards opened up a 14 1/2 game lead on Cincinnati, their longest margin of the year, Cooper hurled a two-hit shutout against the Phils for a 5-0 decision over Ken Raffensberger, after Harry Brecheen had wobbled to an 8-7 verdict over Bill Lee in the opener of a double.

Ray Mueller's double in the eighth inning boosted Cincinnati back into second place by a 4-2 nod over Boston. Pittsburgh was rained out at New York, as was Chicago at Brooklyn.

The St. Louis Browns missed a chance to boost their lead when Sig Jakucki was upset by the Athletics, 7-5. Dick Sibert's two-run homer in the first half started the A's to a 16-hit barrage behind Russ Christopher.

Cleveland dropped the New York Yankees into a second-place tie with Boston by pounding Walter Dillinger for an 8-1 score as Alie "Chief" Reynolds did a good job of scattered 11 blows.

Boston moved up by trimming Detroit, 6-1, on Tex Hughson's six-hitter, earning him the honor of becoming the first big leaguer to win 16 this season.

Orval of the White Sox went the route for the first time in eight starts to shut out Washington, 4-0.

Dallas School Wins Baseball Opener

AUSTIN, July 28—(AP)—Dallas Forest Avenue High school nine won the opening game of the state American Legion junior baseball championship here last night, defeating Lubbock, 6-5 in 6 1/2 innings.

Tuttle hurried four innings for Dallas, fanning five and walking two, and then he played first base until the first part of the seventh when he resumed his pitching duties. Tuttle knocked homer off Galey in the second frame.

Lubbock 003 000 2-5 7 1
Dallas 020 400 x-0 9 1
Galey and Murphy; Tuttle, Camp and Doyle.

Sports Roundup

By FRITZ HOWELL
(Pitch-hitting for Hugh Patterson, Jr.)

NEW YORK, July 28—(AP)—He's been I-A in the draft four times, and 4-F four times, but he's the hottest hitter in the American league. We mean Al Zarilla, the St. Louis Browns' outfielder who has whacked back and forth between the club house and his draft board so often that he hardly has had time to get into a baseball uniform.

Two weeks ago, operating mostly as a pinch-hitter, he had a batting average of .204. Then he blazed into the starting lineup, and in nine games has fashioned 15 hits in 24 times at bat, boosting his mark to .386. Sprinkled among the 15 bingles were three doubles, a triple and two homers. During the spree he scored four runs and batted in 10. He may be 4-F to the army, but he's A-I with the Browns. He's hitting .625 for the nine contests.

BASEBALL QUERIES?
No. 1—How many batters have hit fair balls out of Yankee stadium?
No. 2—The Boston Nation has been involved in games of 26, 23, 22, 21, 20, 19, 18 and 17 innings. How many of 'em did the Braves win? (Answers at end of column.)

SAME OLD ZUPPKE
Bob Zuppke, who painted some of the most glowing scenes ever on big ten grids, recently high school students of Rock Springs, Wyo., raised \$132 to buy two of the former Illinois motorist's paintings.

They sent the dough, and it pleased old Zup so much that he packed westward and sent the \$135 back to the kids, too.

IT'S NEWS TO US

Qualifying Play Is Underway in Golf Tourney at Odessa

ODESSA, Texas, July 28—(AP)—Bill Skeeters of Dallas, aviation cadet, Bill Rosen of Glen Rose, and Maj. Richard Ashley, Odessa, defending champion, loomed as favorites in the Fifth annual Odessa invitation golf tournament.

A threat to these three was Billy Maxwell of Abilene as qualifying play began today.

The meet opened yesterday with a darkhorse team led by Rosen, a last-minute entry, winning the pro-amateur event with a 13-under par 59. Others on the all-amateur winning team were Morgan Nell, Jake Dye, John Crenshaw, Mrs. Wilma Sewell and Cotton Clover, all of Odessa. They defeated a team from Abilene.

Also run off yesterday was a putting tournament, which ended in a four-way tie with a score of 69. Those in the dead heat were Billy and Bobby Maxwell, the Abilene twins; Skeeters and Jimmy Game-well, Odessa.

First and second round play is set for tomorrow with the time-finals and finals Sunday.

MARSHALL GETS CALL
CINCINNATI, July 28—(AP)—The Cincinnati Reds announced today that outfielder Max Marshall had been ordered to report to his draft board at Randolph, Iowa, August 5 for induction into the navy.

The Marine Corps was authorized officially by the Continental Congress in 1775.

9-Game Schedule For U. N. Mexico

ALBUQUERQUE, N. M., July 28—(AP)—New Mexico University today announced a nine-game football schedule for this fall.

The schedule (games at Albuquerque unless otherwise designated):
Sept. 16—Amarillo Air Base.
Sept. 23—Arizona State of Flagstaff.

Sept. 23—Colorado college (homecoming).
Oct. 7—West Texas State of Canyon.
Oct. 14—Second Air Force at El Paso, Texas.

Nov. 4—Colorado university at Pueblo, Colo.
Nov. 11—Denver university.
Nov. 18—Texas Tech at Lubbock, Texas.
Nov. 25—Arizona State of Flagstaff, at Flagstaff.

Sinton Youth Goes To Tennis Semi-Finals

MILWAUKEE, July 28—(AP)—Ed Ray of Sinton, Texas, gained the semi-finals of the Western Junior tennis tournament in which he ranked No. 2.

Ray yesterday eliminated Glenn Bassett of Santa Monica, Calif., seeded No. 3, 6-3, 6-3 while another Texan, El Paso's Ed Chew, earned a junior division berth by trimming Bob Petruska, Ironwood, Mich., in three sets, 6-4, 4-6, 7-5.

The 1943 National interscholastic boys title, Herb Flam of Beverly Hills, Calif., progressed to the junior semi-finals by defeating Bobby Goldfarb, El Paso, 6-1, 6-3.

Other boys' doubles (first round)—Bernard (Tut) Barzen, San Angelo, Texas, and Ray defeated Texas' and Bob Johnson, Ironwood, Mich., 6-3, 6-2. Chew and Goldfarb downed John Patel and Don Seifert, Chicago, 6-4, 6-2.

Tilist Brings Home Laurels for Barkeley

SAN ANTONIO, July 28—(AP)—Pvt. Ray Taft, National A.A.U. record-holder of the 100-yard and 150-yard back stroke marks, paced his camp Barkeley swimming team to first-round honors in the Eighth Service command swimming tourney at Fort San Houston today.

Camp Barkeley qualified five men in the four events that were narrowed down last night to the finals.

Most of the women's final events and some of the men's finals will be held today with all remaining finals set for tomorrow.

Taft's speed put him ahead in the 100-yard back stroke (qualified for individual medal, with times of 1:10 and 2:10, respectively).

Results of yesterday's competition: 400-yard free style (qualified for final)—L. James Mulford, Camp Barkeley; Schibukau (CQ), Camp Robinson, best time, Mulford, 5:36.

150-yard medley (qualified for final)—Camp Barkeley: Krohn, Fort Bliss; Schelinger, Camp Barkeley; Howley, Red River Ordnance depot. Best time, Taft, 2:10.

100-yard back stroke (qualified for final)—Taft, Camp Barkeley; Ryan, Camp Robinson; McCoy, Camp Barkeley; Kallow, Camp Bowie, best time, Taft, 1:10.

50-yard free style (qualified for final)—Thompson, Camp Bowie; Sauthe, Camp Fannin; Rath, Fort San Houston; White, Camp Bowie. Best time, White, 24.5.

THE OLD JUDGE SAYS...

"Mary and I were just saying, Judge, how lucky we are here in America that we have so many natural resources to help win the war."
"That's right, Jim. When war broke out we had oil, we had steel, we had food, lumber, aluminum... practically everything we needed. There's one thing we didn't have... rubber. The enemy had that."
"But that didn't bother us for long. Soon American brains and industry had synthetic rubber by the tons rolling out of plants. That filled a critical need... you can't win a war without rubber."
"I was very much interested the other day in reading a statement made by a high government official on synthetic rubber. In it he said 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.'"
"He also said that, in his estimation, the tremendous contribution of distillers' industrial alcohol to the synthetic rubber program had not received the recognition which it deserves."
"We certainly learned something today, didn't we Mary?"

Market Briefs

NEW YORK WALL STREET
 NEW YORK, July 27.—The stock market steadied selectively today, after a downward drift in the forenoon and while near-bid quotations were no worse than slightly mixed, dealings again were among the meager of the past several months.

The ticker tape littered from the opening on as numerous wall streeters, blaming the heat and humidity, deserted the financial sector for the mountains and

beaches. Transfers were around 700,000 shares.

Supported were U. S. Steel, Standard Oil (N.J.), Texas Co., Great Northern, American Telephone, Public Service of N. J., Hudson Motors, Goodrich and Douglas Aircraft. Lower, the greater part of the time were Bethlehem, Western Union "A," U. S. Rubber, Chrysler and American Can.

Bull Preferred climbed several points in the curb. Resistant also were Barium Sulfate, Goldfield Consolidated, International Petroleum and Electric Bond & Share.

CONDITION CRITICAL
 PITTSBURG, Kas.—(P)—The report on a highway accident says a woman "received minor scalp lacerations, compound fractures of her dignity and a pronounced case of big and little jitters."

Demonstration Will Prove Value of Soil Conservation Plans

TEMPLE, Texas, July 28.—(P)—On Soil Conservation Day, proclaimed by Governor Coke E. Stevenson for August 18, Texans will be shown that on every type of soil they farm soil conservation practices are paying financial dividends.

State-wide demonstrations and field days are planned under the U. S. Soil Conservation Service. V. C. Marshall, administrator of the state board at Temple, has called on supervisors of all soil conservation districts in Texas to arrange special programs.

Texas has 110 organized soil conservation districts, embracing 100,781,000 acres of land, with three more, embracing 3,600,000 acres, in the process of organization.

Almost 80 per cent of the farms and ranches of Texas now have soil conservation programs developed on more than 8,000,000 acres.

The SCSS has answered the question as to what soil conservation farming in Texas is worth, after a survey of 1,422 farmers and ranchers. The farmers (whose records were checked had 893,023 acres under control.

Here are the findings: Acre yields of crops and pasture

have been increased 39 per cent. Livestock carrying capacity of ranches has been increased 13 per cent an acre.

Farmers reported 49 per cent greater total wheat production from 12 per cent less acreage and one per cent more cotton from 19 per cent less acreage.

More than 7,700 acres formerly idle has been put into production as woodland, cropland or pasture.

Conservation-practicing farmers raised 32 per cent more dairy cows, 14 per cent more beef cows, 16 per cent more ewes, 41 per cent more brood sows, 53 per cent more chickens, and 55 per cent more turkeys.

On 490 farms where records were kept, an annual cash saving in labor and use of farm machinery totaling \$59,412 was effected.

Woodland production has risen, too. Farmers have harvested 40 per cent more pulpwood and several hundred per cent more sawlogs. SCSS officials report. Because of selective cutting and fire protection, woodlands are in a more productive condition.

Conservation farming has encouraged diversification as land-use changes are made to place each acre into the production job for which it is best suited. Many new erosion-resisting or soil-improving crops are being added, and some of them have become good cash crops.

The first of the big demonstration projects initiated by the Soil Conservation Service (then known as the Soil Erosion Service) was on

the Elm creek watershed east and northeast of Temple. In this area now lies the largest block of solidly-controlled farms in the world.

Walter W. Cargwell of Luling is chairman of the state soil board. Paul Walser is state conservationist of the SCSS in charge of the federal work in Texas.

Improvements Seen In Enemy Radios

NEW YORK, July 28.—Proof that the Axis has recently advanced considerably in the field of radio is offered by recently captured equipment, according to Electronics, McGraw-Hill publication.

"The 1943 sets of both Japan and Germany show distinct improvement over similar models manufactured in 1941 and 1942, and show no apparent lack of critical materials.

"Japanese radio chassis are patterned after American design, with the framework usually made of stainless steel or chrome plated brass. Power is brought in through cables that have plugs resembling American patterns, and all sets are mounted on a horizontal plane, like American equipment, rather than a vertical plane as used by the Germans. Real rubber shock mounts are used. Tubes have been standardized to make replacement easier. Antenna meters have changed from the old hot-wire type to the moving-coil variety.

"One of the latest Japanese sets received in this country is the Model 99 type 3 aircraft radio command set, removed from a light bomber-reconnaissance plane which crashed in Kunning, China, in September, 1943.

"German laboratories have done considerable research in the field of temperature-compensating devices to maintain frequency stability," the article, written by Lt. John Willis, of the Research Division, Army Radio Laboratory, Wright Field, Ohio, declares.

"German aircraft radio equipment is characterized by excellent mechanical design, standardization for mass production and extensive use of magnesium alloy die castings, only about 64 per cent as heavy as aluminum.

The average amount of electricity in a lighting flash is far less than the amount that can be carried into a storage battery.

Chambless, Ragar Vows Said In Borger July 23

Miss Betty Jean Chambless, daughter of Mr. and Mrs. Herman Chambless, of LeFors, became the bride of Lt. Stephen R. Ragar, son of Mr. and Mrs. E. C. Ragar, of Napa, Calif., in a double-ring ceremony at the First Methodist church July 23 in Borger. The Rev. J. Edmund Kirby officiated.

Mrs. Jo Dean Probst sang two solos, "At Dawning" and "Because" accompanied by Mrs. F. C. Copeland at the organ.

The church altar was banked with baskets of flowers.

Miss Billye Louise Crawford of Borger, served as maid of honor. She wore a tow-pee aqua dress with brown accessories and a shoulder corsage of pink roses.

Pfc. Robert H. Cory of the Pampa Army Air Field served Lt. Ragar as best man.

The bride's mother wore a nevy blue sheer street-length dress, with white accessories and a shoulder corsage of white carnations.

The bride, given in marriage by her father, wore a two-piece melon shade dress with white accessories and a shoulder corsage of white gardenias and roses. For something old, the bride wore a gold bracelet, an heirloom, which was worn by her great grandmother at her wedding.

Following the marriage ceremony, a reception took place at the Black hotel. The bride's three-tiered wedding cake was served by Mrs. Leroy Dodge, of Borger.

Immediately after the reception, the couple left on a wedding trip to Austin. The bride traveled in a yellow butcher-linen suit with white accessories. They are now making

Use Waterproof Make-up to Look Your Prettiest After a Swim

Waterproof cosmetics that stick through hours of swimming keep film and aquatic star Esther Williams looking ever ready to step before the camera.

Want your make-up to stick with you through a swim and come out looking prettier for its drenching? Then, settle for water-proof cosmetics: foundation, cream rouge and believe-it-or-not powder. So says a girl up on this business—Esther Williams, swimming champ and "Bathing Beauty" star—who explains that she makes up with water-proof foundation in a bronze tint, and spikes that with a cream rouge the color of a ripe tangerine. Over that comes powder as usual.

"Thanks to the zinc stearate in powder," says Esther, "it grips when it adheres to a creamy foundation—is as good on water as it is on land."

Smart girls, like Esther, use a make-up, such as the one described, to cover any pale skin on shoulders or legs—or any vaccination mark or blemish—that's exposed by a bathing suit.

their home at 502 E. 8th St. in Austin. Mrs. Ragar is a graduate of Borger High school and a member of the Hi Double Dozen club. She is a member of the Tau Phi Lambda sorority in Sacramento, Calif., where for the past two years, she has been employed by the government.

Lt. Ragar is also a graduate of Borger High school and attended Texas A. and M. at College Station. He is at present stationed with the Air Corps at Austin.

The Landlord's in DOGHOUSE NOW NEW YORK—Dog owners do not have to pay rent for their pets, the OPA ruled while ordering a Manhattan landlord to refund \$11 to a tenant who had been charged \$1 a week for 11 weeks as rent for his dog, Rusty, a chow.

Program on Africa Given by W.S.C.S. At Methodist Church

Circle two of the W. S. C. S. of the First Methodist church entertained the other circles at the church Wednesday afternoon, with a program on Africa.

The meeting was opened by Mrs. Sherman White, and Mrs. Horace McBee read the devotional, "The Healing Side," followed by prayer.

A hymn, "When We Crossed the Crowded Ways," was sung by the group accompanied at the piano by Mrs. W. R. Ewing.

The program was in charge of Mrs. W. R. Campbell. She interviewed "the missionaries from Africa over the radio station, W. S. C. S."

Refreshments of ice cream and cookies were served to 35 members and four visitors.

Refreshments of ice cream and cookies were served to 35 members and four visitors.

Rites Held For Noted Minister

SHAMROCK, July 28—Funeral services were conducted Monday afternoon for H. W. Nicholson, who has served as minister of the First Christian church for the past 10 months. Services were held in the Christian church with Minister George Weems in charge assisted by Minister C. F. Bastion of Spearman.

Minister Nicholson was born in Crawfordville, Ind., Nov. 20, 1879. He was married Dec. 24, 1905 at Faulkner, Kas., to Miss Bertha Smith, who, together with two adopted daughters, survive.

The daughters are Mrs. Roy Adams, Coffeyville, Kas., and Mrs. Lynn Lyon, Fort Collins, Colo.

Other survivors include one brother, Samuel Everett Nicholson, Coffeyville, five grandchildren, one niece and one nephew, who is in the armed forces.

Refreshments of ice cream and cookies were served to 35 members and four visitors.

Refreshments of ice cream and cookies were served to 35 members and four visitors.

Beer Dealers Are Advised of Change

District Price Executive J. B. Mooney today advised that all beer dealers automatically will be placed in the lowest price bracket unless application for reclassification into one of the two higher-price brackets is approved by the War Price and Rationing Board before the effective date of the new regulations, July 31.

Dealers in the lowest price bracket may retail bottle beer at ceiling prices of 13 cents for regular and 18 for premium beer, the price executive said, while those in the "upper" brackets, such as retailers in expensive night clubs and hotels, may sell bottle beer at slightly higher prices, provided their application is approved.

All retailers must post in a conspicuous place in their establishments cards showing their group classification. These cards may be obtained from the local board.

Records show that around 35 people have been assigned to 20 homes. Only four homes are left to be assigned; 57 people have gone to hotels.

Records show that around 35 people have been assigned to 20 homes. Only four homes are left to be assigned; 57 people have gone to hotels.

(Continued from Page 1)

ing Ushi airfield in shape for American use. Tsinan casualties: 2,000 known Japanese dead; 150 U. S. dead, 441 wounded; 32 missing in six days of fighting.

Nimitz issued no new word on the Guam fighting, but a war correspondent said Asya Harbor, a 4,700-foot airfield and the old navy and Marine base at Sunay seemed about to fall.

On New Guinea the trapped enemy still probed, in vain, for a weak spot in the Allied encirclement.

The Chinese recaptured Leiyang, thus jerking under the Japanese a springboard for extension of

its drive to seize all the Canton-Hankow railway. Leiyang is the southernmost point to which the Japanese had driven out of the north to seize the road.

Inside and outside the walls of beleaguered Hengyang the Chinese defenders and the Japanese were locked in confused fighting. After 32 days of costly battling the decision for this strategic rail town seemed near at hand.

The Chinese tempered their Hengyang order with a victory in Yun-nan province, where enemy defenses at Laifengshan were overrun. They killed at least 600 of the enemy at this town, which is an outpost of Tengchung, the city which controls part of the Burma road. Tengchung, under U. S. air attack, appeared next on the Chinese list.

American and Chinese troops widened their area of control around Myitkina, but had not yet taken that key north Burma city, also vital to use of the Burma road.

Man Wasn't Careful Whose Cycle It Was

Stealing motorcycles is one thing—but taking one from the police department is another.

A soldier from the Pampa Army Air Field this week took the motorcycle, belonging to the Pampa Police department from right off the driveway at the station.

Chief Ray Dudley says that the soldier rolled the cycle from off the driveway down about a half-block, cranked it up and was ready to take his ride.

He didn't get far.

Within another half block he ran smack-dab into the Police patrol car as they were making their 10:30 patrol and was apprehended in front of the News office.

FEUD

(Continued from page 1)

tee membership at the Sept. 12 convention. The convention as a whole must ratify these selections, and elect the chairman, co-chairman and secretary.

The foundation for another no-compromise struggle is thus laid.

A caucus of pro-Roosevelt here last night indicated that they will control the Travis county convention tomorrow. Herman Jones will be offered as chairman by the pro-Roosevelt forces. Jones was the leader of the rump delegation to Chicago.

The Travis county delegation will ask the state convention to pass a resolution insisting that Texas' 23 presidential electors support the party's nominees for president and vice-president, despite failure of the national convention to fulfill the conditions imposed by the May 23 State session.

The supreme court has ruled that the 23 electors named by the regular session were legally nominated. It is not considered likely that an effort to replace any of them with electors flatly pledged to support the party's nominees, therefore, would have much legal basis, but if the September convention should turn out to be predominantly pro-Roosevelt, it could exert considerable moral force on the electors.

An unanswered question is whether the pro-Roosevelt forces will or can certify their own list of party-pledged electors on the general election ballot, under another party name such as pro-Roosevelt Democrats. They may be waiting to see how they stand when the complexion of county conventions is determined, before deciding.

War Balloting To Be Studied

AUSTIN, July 28—(P)—The executive officers of the war ballot commission, Col. Robert Cutler, will confer with Secretary of State Sidney Latham next Wednesday on administration of war balloting.

Latham reported that he has received 20 war ballots for the general election from members of naval, marine and amphibious units.

Arrival of the ballots, some of them before the Democratic party has named presidential and vice-presidential candidates, puzzled him since a late directive from the war ballot commission said war balloting would not begin before October and then a member of the armed forces could receive one of these ballots—for federal office candidates only if he swore he had applied for and not received a state absentee ballot.

State ballots for absentee voting in the general election will not be available until 20 days before the general election in November.

Latham assumed early arrival of the ballots from naval units might have resulted from liberal interpretation of the federal war ballot act as applied to members of units whose whereabouts in October might be problematical. He recalled that a naval officer addressing a national conference of secretaries of state said it might be necessary to complete voting by the war ballot.

The war ballots which are distributed to various branches of the armed forces by the war ballot commission do not carry names of candidates. They are strictly written in ballots, the voter writing the name of the candidates for president, vice-president, congressman and senators of his choice. A vote for president is considered a vote for the presidential electors of the party whom the candidate represents.

Survey Shows Most Solons To Return

AUSTIN, July 28—(P)—Based on reports gathered by the Texas legislative service, a majority of the 150-member state House of Representatives is expected to return for the 49th legislature which meets next January.

The service said unofficial reports indicated 86 house members were re-nominated in Saturday's primary election. Thirty new members won seats without runoff contests. The remaining seats are subject to runoff elections Aug. 28. Some present members are seeking re-nomination in the run-off.

NEW FOOD STAMPS

WASHINGTON, July 28 — (P) — Five additional 10-point blue ration stamps—E through F—will become valid Aug. 1 for purchasing processed foods, the Office of Price Administration announced today. They will be good indefinitely.

Zirconium, little known before World War II, is being used as a substitute for scarce tantalum in some war products.

Gourley President Of Railway Directors

CHICAGO, July 28—(P)—Fred G. Gourley, executive vice-president of the Santa Fe system lines for five years, yesterday was elected president and chairman of the executive committee of that line at the monthly meeting of the board of directors.

He succeeds Edward J. Engle, who retires after 45 years of Santa Fe service. The change is effective August 1. Engle will continue as a member of the executive committee and board.

Chicagoans Say No Sky Full of Planes In Post-War World

DALLAS, July 28—(P)—David L. Behncke of Chicago says he doesn't like the idea of a sky of the future being filled with private family planes.

Comments the Chicagoan, who has been president of the air line pilots association since its founding in 1931:

"Whether the individual takes up flying as a sportsman, for business or for pleasure trips with his family, he's going to have to be a pretty good pilot. There's the problem of air traffic. One can't just get out and fly around any way. No, planes are going to be faster, and that means the need of skill."

Himself a World War I pilot and for ten years an airline pilot prior to becoming president of the pilots association, Behncke told an interviewer that most of the present war fliers "will want to return or undertake other occupations" after the war.

"Few will come out of the war with the experience to qualify them for air line operation without starting at the bottom. The industry could not possibly absorb more than a small percentage of them, and it will take the best."

Building Activity Up 50 Per Cent

AUSTIN, Texas, July 28—(P)—Based on building permits in 36 major cities Texas construction activity in the first half of 1944 was nearly 50 per cent ahead of the first half of last year, the University of Texas bureau of business research reports.

Total permits for 1944 were \$15,730,159 compared to \$11,071,129 in the same period last year.

Permits for 1944 were almost \$1,000,000 above June a year ago.

TIRES FROM VATICAN CITY

VATICAN CITY, July 28—(P)—Thieves who broke into Vatican City stole 10 automobile tires, papal police said today. Tires are worth almost their weight in silver in Rome.

VERSATILE CRIPPLE PLAYS TENNIS, ORGAN

BUFFALO, (P)—A hip ailment that allows him to walk only with difficulty has not interfered with the varied career of Danny Strzyzewski who, at 16, is an accomplished organist, tennis player, scoutmaster and honor student.

Danny plays the organ in St. Adalbert's Roman Catholic Church. He maintained a 97 per cent average at East high school, played in the school orchestra, and this year as a sophomore won six of his nine tennis matches on the school team.

NO POLIO THIS YEAR!

We sincerely hope that there will be no polio cases in Pampa this year. We hope that every one of you have taken and will continue to take all the necessary precautions you know to keep yourself and your family healthy. Since there has been no definite cause to contribute to the cause and spread of polio it is to everyone's benefit to see that everything that we come in contact with is entirely clean and would not be the cause of the spreading of any disease. Flies, unnecessary accumulations around the house that might be breeding places, of course should always be cleaned up in any way, more so during the summer. Remember, keep yourself healthy, keep yourself and surroundings clean, take any other precaution that you know. Above all, do everything you know to do to combat infantile paralysis.
