Germans Beg To Disagree With Hitler

MOSCOW, July 19.—(AP)—The Russian press published today a statement by Gen. Edmund Hofmeister, captured commander of the 41st German Tank Corps, declaring a disagreement among Hitler's generals over strategy on the Eastern front was costing a great toll of lives and prisoners.

The captured general's statement, as published in Soviet newspapers, criticized Hitler's insistence on holding ground and refusing to retreat unless bludgeoned from position.

"Field Marshal Ernst Busch, commander of the Central Front between the Pripyat marshes and Baltic states, the area of the most spectacular Russian advances of 300 miles or more, told me Hitler forbade any retreat," Gen. Hofmeister published statement said. "Hitler ordered every inch of occupied country defended. Although I could not disagree with the order wrong, I had to obey."

"I want to say the defeat in White Russia is an example of the talents command of Hitler. When Marshals Brauchitsch, List and von Rundstedt and others tried to point out errors, they were discharged."

The captive general said Germany had no reserves to hold such a large territory as Hitler is now ordering the army to defend.

The Soviet press further quoted the statement as saying young Nazi Generals such as Marshal Erwin Romel, a field commander in France, and the late Col. Gen. Eduard Dietl, commander in North Finland until his death recently in a plane action, sided with Hitler against the older commanders. The younger generals, Hofmeister said, "have had little experience in war."

The captive said there was considerable antagonism between older and younger commanders, but that the veterans always stored silent and carrying out orders because Field Marshal Gen. Wilhelm Keitel, chief of the high command, had announced that any criticism would be punished by death.

No One Left Alive To Tell What Occurred

PORT CHICAGO, Calif., July 19—(AP)—Reconstruction of the navy's Port Chicago ammunition depot began today as the death toll in the nation's worst wartime explosion approximated 350.

All available construction workers were urged to report immediately to the devastated area where the explosions of two ammunition ships late Monday night shattered the munitions base and the town of 1,500 as well.

The blasts, two seconds apart, shook 14 counties and their earthquake-like effects were felt 80 miles away.

The cause remained undetermined. Navy and Federal Bureau of Investigation agents were on hand for an investigation, but the devastation left little to investigate.

"There are no close survivors to give evidence of what happened," said Capt. N. H. Goss, who had jurisdiction over the depot.

Official sources gave this approximation of the known death toll: 200 to 250 navy enlisted men; 9 naval officers; 70 maritime commission seamen; 36 members of navy armed.

U. S. Battleships Move In Close to Blast Guam Again

Hon. Nippon Navy Nipped Once Again

By J. B. KRUEGER
Associated Press War Editor

U. S. battleships moved in close Sunday to speed the reconquest of Guam as a strong Japanese base in the Western Pacific approached to Tokyo.

On the 13th consecutive day of air and warship attack on this biggest island in the Marianas group, which also includes conquered Saipan, the big rifles of America's new battlewagons fired from close range on defenses which might hinder landing attempts.

Adm. Chester Nimitz reported yesterday the Sunday bombardment failed to arouse answering fire from the enemy. Destroyers let go at ack-ack guns firing on planes spotting targets for the battleships.

Gen. Douglas MacArthur's men steadily whittled away Japanese sea strength by sinking or damaging four more cargo vessels in the Southwest Pacific. The Japs have been slipping troop-laden vessels, ammunition and fuel into the Halmahera area lately, suggesting enemy concern MacArthur may soon move against this island guarding the Philippines. Halmahera lies northwest of New Guinea, most of which the Allies control.

MacArthur announced today that 787 Japanese were killed in recent vain attempts to break free of the Allied pocket near Aitape, New Guinea.

Chinese forces battled with grim desperation to hold Hengyang, Chungking said, penetrating enemy positions near the important rail city and inflicting heavy losses on the invaders.

All German Lines Face Catastrophe

By DWIGHT PITKIN
Associated Press-War Editor

Nearly 2,500 U. S. warplanes seared the German inner fortresses like a mighty blow torch today as German bastions toppled on the three major land fronts of Europe.

In Northern Italy, the great seaport of Leghorn (Livorno) fell to American forces.

In Normandy British forces attacking in the central sector captured Hottot-les-Bagues, wiping out a stubborn barrier in that sector. The Americans erased a German pocket north of St. Lo, made a two and one-half mile advance and destroyed 16 German tanks counterattacking in the St. Lo area, supreme headquarters announced.

The Germans launched heavy tank counterattacks against very strong British and Canadian mobile forces that had broken through enemy defenses south and southeast of Caen. A front dispatch said Allied armor had driven forward at least five miles, reaching Cagny on the road to Paris.

In coordinated attacks from Britain and Italy, American heavy bombers with fighter escort smashed again at the Munich area and at rail yards, air fields and war plants in Southern Germany.

Reds Storming Brest-Litovsk

Moscow dispatches said that Russian forces were storming the outer defenses of Brest-Litovsk, gateway to Warsaw, and other Red army troops were said to have crossed the Curzon line into Poland proper 45 miles to the north. At the southern end of the active eastern front the Russian offensive was reported sweeping upon the Polish rail center of Lwow like a tidal wave.

Apparently in an attempt to divert Allied air power which blazed the way for the breakthroughs on the western front, the Germans bombarded London and Southern England in the greatest 24-hour robot bomb attack since June 15.

As German military setbacks piled up, reports from Europe told of dissension among high German officers over Hitler's strategy.

U. S. fifth army troops entered Livorno (pop. 130,000), Italy's third largest port, after forcing the Germans out in a wide pincer movement. Ancona, seaport on the opposite side of the peninsula, fell yesterday.

9 German Cities Hit in 12 Hours

The air offensive against Europe set a record pace with 13 attacks on nine German cities in about 12 hours. Britain-based planes alone were estimated to have dropped upwards of 15,000 tons of bombs on targets in France starting about dawn yesterday.

On five fronts—the east, west and south land offensives, the aerial war against the Reich itself, and the underground in France—the Germans absorbed punishing blows.

On the basis of official Allied counts, at least 266 enemy planes were destroyed yesterday on European fronts against a loss of around 100 craft.

The Allies mounted a major offensive on the western front—1940 blitz warfare in reverse—exactly four years after Hitler predicted to the Reichstag that Britain would be destroyed.

Gen. Sir Bernard L. Montgomery, whose forces cracked the Caen defenses yesterday, estimated that 156,000 Germans had been "written off"—killed, wounded, or captured—so far in the Normandy campaign. He declared that the Allies would "have no difficulty in defeating the Germans in France."

Lt. Gen. Omar N. Bradley's doughboys, who captured St. Lo yesterday, mopped up the last remnants of the enemy in that sector and cut the highway to Periers, another German citadel to the west.

On the eastern front, the German position was serious, Berlin radio commentators admitted. Marshal Konev's breakthrough that rolled up three-day gains of 31 miles between Tarnopol and Kovel was "aimed at no less than pocketing the whole of the German army in the south," one Berlin broadcast said. Konev's forces already were less than 10 miles from the Polish border as drawn under the 1939 partition.

CHINA—Chinese battle to hold Hengyang.

The Allies struck deeper into the outposts of the Germans' Gothic Line in northern Italy. Polish troops of the Eighth Army captured the Port of Ancona on the Adriatic taking more than 2,000 prisoners and much booty.

In a follow-up to yesterday's record daylight offensive that supported the Caen offensive, the RAF last night pounded two railroad centers in eastern France, two synthetic oil plants in the Ruhr and robot plane ramps on the French coast. Mosquitos dropped blockbusters on Berlin again.

On the underground front in France, a border dispatch from Spain said French partisans have directed their energies to destroying the Germans' fuel supplies, adding to the destruction caused by Allied bombers.

SHIP HONORS TEXAS CITY SUPERIOR, Wis., July 19—(AP)—The U.S.S. Hidalgo, ocean-going cargo vessel, will be launched at the Walter Butler shipbuilders yards here, July 28, company officials announced today. Mrs. Claude Pepper of Florida, will christen the ship. The ship will be named for Hidalgo County, Texas.

Worley Spikes Rumor, Says Mark Twin-like

A report that Rep. Gene Worley, 18th congressional district candidate for re-election to Congress, had forgotten to file his candidacy was smilingly denied by him today.

"You can say," said Worley over long distance telephone from Memphis, "that it is a bit Mark Twain-like—grossly exaggerated."

Worley has met all the requirements and is duly qualified, election officials stated. Otherwise, his name would not be on the official ballot, it was pointed out.

Much Wheat Is Still On Ground

Wheat farmers continue being anxious about the weather even after a wheat crop has been harvested and Gray County farmers reaped an average of 20 bushels per acre.

Unless dry weather continues, some 25 per cent of the harvest yield around the Laketon area will be lost. Because of shipping car and elevator storage shortage, farmers have been forced to pile their grain on the ground. At one time 200,000 bushels lay outside storage bins in the Laketon area, it was reported here today.

Farmers are receiving \$1.27 per bushel at elevators and \$1.35 loan price on what has been estimated as the second best crop in the history of the state. Panhandle crop alone is valued at \$63,000,000.

According to Glen T. Hackney, county farm agent, the average yield is 20 bushels to the acre and more in some spots with only a minimum loss.

Reports from grain elevators indicate insufficient labor to cope with the deluge of grain. Before elevator officials can ship the wheat to market a definite buyer must be secured, special bids and permits clearing the wheat have been definitely sold and a statement that it may be unloaded. Elevator owners received reports that the embargo would be lifted Tuesday; however, only a very small number of cars have been shipped.

Around Pampa only 20 per cent of wheat has been left on the ground, but over the country grain elevators are bulging from overloads.

A great deal of farming is to be done yet, according to county farm officials. Farmers are immediately plowing in preparation for fall harvest. Along with other wartime shortages which the farmer suffers, is the lack of permanent farm hands and plow hands.

Dewey Says Navy Should Be Kept

ALBANY, N. Y., July 19—(AP)—Rep. James W. Wadsworth, Jr., co-author of the Selective Service Act, said today that he and Governor Dewey are "in agreement" that what he termed the weakening of United States military strength after World War I "shall not happen again."

Wadsworth, an overnight guest of the Republican presidential nominee, told reporters they "discussed generally having this country made strong and kept strong after the war."

Asked the trend of their conversation, Wadsworth, former chairman of the Senate Military Affairs Committee, said it was "by contrast with 1920-22 when we sank our navy, cut our army down and promised Japan we would not fortify some Pacific Islands."

"The governor and I are in agreement that sort of thing should not happen again," Wadsworth asserted.

Roosevelt Reported To Favor Truman as His Second Choice

By JACK BELL

CHICAGO STADIUM, July 19—(AP)—President Roosevelt unexpectedly—the Democratic vice-presidential scramble today, inspiring the withdrawal of War Mobilization Director James F. Byrnes and reportedly listing second and third choices to Henry A. Wallace.

The number two name was given as Senator Harry Truman of Missouri, with Supreme Court Justice William O. Douglas number three.

As delegates sang with the mighty Chicago Stadium organ, or fanned and chatted and yelled beneath their standards through the routine preliminaries of the party's 29th national convention, developments in jam-packed hotel downtown pointed toward a windup possible Thursday night.

Word of the president's choices—previously had endorsed Vice President Henry A. Wallace as his No. 1 selection—spread rapidly among delegates as they filtered into Chicago's huge stadium for the convention's first session.

Those in a position to know said that a communication from the president to National Chairman Robert E. Hannegan led to the action of War Mobilization Director James F. Byrnes in declining earlier in the day that his name not be placed in nomination for second place.

Byrnes wrote Senator Burnet R. Maybank of South Carolina that "in deference to the wishes of the

Railroad Officials Study Train Wreck, No One Was Injured

DALHART, Texas, July 19—(AP)—Rock Island railroad officials today checked damage to the Golden State Limited which plunged off the tracks seven miles east of here without injuring a single passenger.

Twelve coaches and sleeping cars of the train left the rails late last night after the locomotive and two cars had cleared what investigation disclosed was a split rail.

The Railroad Commission said today they had not yet received their order, but expected it shortly.

The August schedule permits 24 producing days for the big East Texas field, one more than for July. There will be 24 general producing days, unchanged from this month.

A statewide proration order for August, as announced yesterday by the commission, will result in estimated daily production of 2,101,282 barrels of crude oil.

Overall production, including 145,357 barrels daily of distillates and natural gasoline, will be 2,246,739 barrels daily or 9,739 more than certified by the Petroleum Administration for War as needed from Texas.

Major field increases for August went to the McCadden, Porter, Seeligson, Slaughter, North Cowden and Goldsmith pools.

The commission ordered a statewide proration hearing August 17 at which time it will hear testimony on which to base a September production schedule.

Increase In Oil Producing Days

The Panhandle oil fields will have 30 producing days in August, as compared with 27 this month, according to the Associated Press in a dispatch from Austin this morning. Local officials of the Railroad Commission said today they had not yet received their order, but expected it shortly.

Barroom brawl Is Not Only American

CAIRO, July 19—(AP)—Six German officers were killed in a shooting affray among high German officers during a recent conference in Athens, an official announcement said today. The conference was in the Bretagne Hotel.

As announced here, these were the details:

The conference, called to "discuss important matters of policy," developed into an argument. Pistols were drawn and senior officers began shooting.

The announced Germans then tried to get away, but one—chief administrative officer for the Peloponnese—was shot down by SS guards.

Austrian Col. Fritze, provost marshal at Athens, subsequently disappeared. The announcement of the Greek government in exile did not specify, but there were reports he had been executed for "speaking against the German army command."

Some Relief Today From Hot Weather

The usual sweltering weather in Texas during July and August was broken by considerable cloudiness and scattered thundershowers over this area last night and early this morning.

Showers gave Pampa .03 inch rain. According to the U. S. weather station, rains probably fell heavier around Spearman.

Cooler weather is foreseen today, with probable thundershowers which should make Top 'O' Texans feel as though they were in the right climatic spot when the 103 degrees maximum at Corsicana is compared to Pampa's 94 degrees. Corsicana yesterday suffered its worst heat wave since August 29 last year when 106 was registered.

Looking farther south in the state a number of points reported new high temperatures of the year. The hottest spot in the state was Nacona yesterday, chalking up 110 degrees, while Wichita Falls and Texarkana had 105. Seymour and Fort Worth had 104, and Dallas, Vernon, Laredo and Sulphur Springs each reported 102 degrees.

War Today

By DEWITT MacKENZIE. Associated Press War Analyst. The Allied two-front vise is tightening its death-grip on Hitler in a big way, with the new and devastating offensives launched simultaneously on the eastern theater and in Normandy.

The powerful Allied offensive in Normandy may be the beginning of our major effort to break out of the Peninsula onto the open road to Paris. The British and Canadians have achieved a notable gain by smashing the Nazi defenses in the strategic Caen sector—gateway to the hinterland.

Out-of-town guests attending the Chamber of Commerce luncheon

TO THE RESIDENTS OF PRECINCT 3:

Dear Friends: Probably most of you have heard that I had an accident, which will probably keep me confined to my home for the most of this week, and it may be impossible for me to see you in person before Saturday, the 22nd.

The doctor advised me to stay in bed for a few days. I hope that I may be able to see you; however, should I not see you, please bear in mind that I have appreciated the splendid support you have always given me and how faithfully you have co-operated with me during these trying times. Right now I wish to thank you for your continued support and confidence to re-elect me as your commissioner for the coming two years.

You fully realize that machinery has not been available and repairs have been difficult to secure and the handicaps have been numerous. I wish to inform you that our precinct owns \$10,000 in Victory Bonds that we will use to purchase machinery with when the war is over.

Also bear in mind that the requirements of a commissioner are much more than building roads and that it requires experience and ability and so much so at this time.

I am very grateful to you all for the patience you have shown and I sincerely ask you for your support on Saturday, the 22nd.

While helping my men do some work on some dangerous cut banks at Lake McClellan, I lost my footing and fell quite a distance. I was quite badly bruised but not seriously.

Sincerely,
THOS. O. KIRBY.

ELECTION

(Continued From Page One)

Ledrick, Jr., Rose Motor Co. bldg. Precinct No. 17, McLean—E. L. Cubine, place unannounced.

Saturday, aside from being the day for precinct elections, is the day on which unofficial returns are to be transmitted to the secretary of state at Austin, with midnight as the deadline.

Gray county returns, probably will be telephoned in to the county chairman at the county clerk's office by presiding judges, upon completion of tabulation. No definite statement, however, was made today on this point.

According to figures released by Charlie Thut, county clerk, Gray county has 5,939 eligible voters in the primary elections with 27 eligible Negro voters.

Deodorants should be applied 15 minutes before an outer garment is donned to prevent weakening of dress fibers.

president," he was not a candidate. Previously he had been one of the leading contenders for a nomination which Wallace is campaigning for personally.

The president's reported listing of Truman, who has the support of the 32-vote Missouri delegation, gave swift impetus to a drive by his friends to make him the leading contender against Wallace.

Byrnes was said to have promised Truman his support.

There has been little apparent activity for Douglas and his friends have said he probably would be reluctant to accept a second place nomination.

Truman, who conferred during the morning with Byrnes, told reporters he had not changed his stand that he was not a candidate and did not want the nomination.

Another rival for Wallace's job, Sen. Major Lewis, remained silent but was huddling with labor, big city organizations and New England spokesmen.

The destination of Truman and Douglas, a steepest second and third choices was regarded by most delegates as putting Wallace under a disadvantage, since it likely would concentrate the opposition bid.

There were indications, however, that the vice president would remain in the race to the end. With strong labor backing, he was reported to have picked up some delegate strength over night.

His friends said he will have a minimum of 250 of 1,176 votes. A total of 589 is needed to nominate.

Originally, Mr. Roosevelt declared for a free and open convention instead of a presidential nomination is concerned—although, of course, his own nomination has been foregone since he announced his availability.

The reference of Byrnes to having bowed out "in deference" to the president but an entirely different complexion on the possible convention outcome as early arrivals began trickling into huge Chicago Stadium for the opening session.

Jake More, Iowa State Democratic chairman, said the Byrnes announcement and other developments coming through the night "will clinch renomination for Wallace."

"It's going to help Wallace," he commented on the Byrnes letter. "They're going to throw those votes to Truman, however."

"That wouldn't be popular in the Midwest. Not that they don't like Truman, but they can't see where it would strengthen the ticket. It just weakens it."

No indication was given as to how the president might have communicated his wishes to Byrnes.

Mr. Roosevelt is known to be away from Washington, under voluntary wartime censorship, his movements are not reported in such cases unless he or an authorized representative directs.

The "regular" delegation elected the following among their group to serve on convention committees: George Butler and Mrs. Kay Dupre, Houston, on rules; Dan Moody, Austin, and C. C. Reno, Dallas, platform; Charlie G. Gibson, Amarillo, and Mrs. Clifford Braly, Pampa, credentials.

OKLAHOMA LEADS IN WAC RECRUITMENT

Air War enlistments alone in the Oklahoma Air War Recruiting District, during June supplied 111 percent of the quota set by the Eighth Service Command for all WAC enlistments in the district. Lt. Howard J. Cline, AAF District liaison officer announced today.

The enlistment percentage was highest among the seven Air War districts in the service command. Houston, Texas, was second with 106 percent.

June was the second straight month that the Oklahoma district led the command, the percentage in May also being 111 percent.

Sgt. William McBride Gets Nazi Fighter

S/Sgt. William H. McBride, Jr., 23-year-old, B-17 Flying Fortress pilot turned gunner, has recently been credited with the destruction of a Nazi fighter plane, ME-109. It was announced recently.

Sgt. McBride, son of Mr. and Mrs. William H. McBride, of Pampa, was on a Flying Fortress in a formation which was attacked by about 200 fighter planes, when the Eighth AAF struck at vital oil stores in Northern Germany.

Catching the Me 109 in the sights of his twin 50 caliber machine guns, Sgt. McBride shot the enemy plane down in flames.

In civilian life, the Texas gunner was a steel fitter at Phillips Petroleum Company, at Borger. His wife lives at Thomas, N. M.

He was recently decorated with the Air Medal for "meritorious achievement in battle."

guard crews; 5 coast guardsmen; 3 civilian railroad workers.

Additional deaths were quite possible. An exact count of the dead was difficult because the explosions were so terrific they killed without leaving a trace of identification. Only four bodies had been recovered last night.

Most of the navy enlisted men were killed while loading the ammunition ships. Many seamen and members of the navy gun crews died aboard the vessels. Others were killed or injured when the barracks, a mile away, was shattered.

Twisted hulls of the two freighters, the new 10,000-ton Quinalf Victory and the 7,500-ton Liberty ship E. A. Bryan, protruded today from the channel offshore from the town dock area which gave the appearance, as a war correspondent put it, of Tarawa Island in the Marshalls after an American naval shelling.

The ships were loading ammunition when they were blown to bits. Jagged hot steel flew over a wide area. One piece weighing 200 to 300 pounds was found two miles away. An anchor landed a half mile from its ship. Ammunition, some exploding, scattered wildly.

Hardly a person at the base and at the nearby town of Port Chicago escaped injury of some nature. Hundreds were treated for fractures and bad cuts from flying glass, which was everywhere.

The town, its lights extinguished and its water supply disrupted, was a horrible scene of pain and bewilderment until the military and relief agencies came in and restored a semblance of order by daylight.

Monetary loss will run into many millions of dollars. The ships alone were valued at \$4,300,000.

A Switch in Time saved Mine...

Now I'm over 33,000 mi.

I used to trade cars around 25,000. But if you'd offer me a new one today—unless it was free—I'd think twice. This '39 model gives me quite some pride, still running as sweet as it does. I know of people trying a dozen different oils and nearly everything else, to make their cars last. Some things worked; plenty didn't. In my case I played the hunch of OIL-PLATING my engine by switching to Conoco Nth motor oil, so as not to let engine acids get an upper hand. That worked! And why not? I knew that deadly corrosive acids are a regular part of every engine explosion. I had my faith in Conoco Nth oil's modern synthetic that attaches OIL-PLATING to working parts—like a close-fitting shield. There's the stuff that puts up a real battle against corrosive acids. You're giving your car its chance to live, as soon as you change to an OIL-PLATED engine. Get Conoco Nth oil, that's all.

Browns Step Out In Front In American

By JACK HAND
(Associated Press Sports Writer)

The "Yankees Hecquot" that is supposed to haunt the St. Louis Browns vanished in thin air today as Luke Sewell's leaders took charge of the American league pennant race with a 3-game working margin.

Opening a long home stand and a vital 4-game series, the Browns blasted Em Roser and Johnny Johnson for an 8-0 edge while Bob Muncrief worked his shutout charm for the third time, the second against the Yankees.

Although Vern Stephens, the R. B. King of the loop was out of the lineup, the pennant-starved Browns uncorked a home run punch from Bill Byrne, Gene Moore and Chet Laabs in a 12-hit total for their fourth triumph over New York in 11 starts.

Boston maintained its mastery over Chicago, notching an 11th straight at the White Sox's expense on a 4-2 edge in 11 innings. Gordy Maltzberger, leading pitcher in the league, had a 6-game relief win streak snapped as Tex Hughson picked up win No. 14.

Jimmy Outlaw's single scored Joe Hoover from second base with the big run as Detroit took a 6-5 nod over Washington in an 11-frame twilight contest. Hal Newhouse gained his 14th triumph in relief at Al Carrasquella's expense.

Al Smith stopped a 9th inning Philadelphia rally one run short and held on to pitch Cleveland to a 4-3 margin over the A's Don Black as Connie Mack's loser although first sacker Bill McGhee did his best with four hits for a losing cause.

NEW YORK, July 19.—(AP)—The Tigers, Brooklyn with 73.3, (I didn't say players, explains coach Pete Cawthon) already signed, feel considerable sympathy for the Boston Yankees and Cleveland Rams who are having plenty of trouble rounding up athletes. Brooklyn went through it last year.

Football in '44 Is Big Subject At Conference

WASHINGTON, July 19.—(AP)—The National Association of Football Commissioners—the top men governing the collegiate game—met here today for a two-day convocation to consider common problems and effect arrangements for the 1944 season.

The "common problems" mentioned in the announcement of the fifth annual commissioners' gathering include recommendations for changes in the collegiate rules. There has been widespread agitation for the "rah boys" to play the more spectacular type of game employed by the pros, and, also, to ease the eligibility regulations.

Columbia's Lou Little, among others, has suggested that the collegians move the goal posts back to the goal line, permit a passer to toss any place back of scrimmage, and allow a player recovering a fumble to run as far as he can with the ball.

Arthur R. Hutclens, of the southern "southeastern" conferences, heads the football commissioners' association. Members include James W. St. Clair, of the southwest conference.

Durable Finn Was Too Much For Him

GALVESTON, Texas, July 19.—(AP)—Gunnar Barlund, the durable Finn, was too much for young Johnny Denson in their scheduled ten-round bout here last night, hammering the Indianapolis fighter into a technical knockout in the fifth round.

Denson started strong and opened a cut under Barlund's right eye in the second round but Barlund took over and his terrific infighting beat Denson down.

Barlund weighed 205, Denson 196.

Henry Frnka Is Visitor Here

One of the nation's outstanding college football coaches, Henry Frnka of the University of Tulsa, was the guest Friday, July 14, of Otis Coffey, Pampa High school athletic director. Frnka came to Pampa to confer with Coffey on the coaching school to be held at the University of Tulsa August 1, through 14.

During his three years as Hurrtown mentor, Frnka's teams have won 24 games, lost four and tied one. All three of his teams have played in a bowl game. The 1941 team played in the Sun Bowl game at El Paso and the 1942 and 1943 editions played in the Sugar Bowl games at New Orleans. Glenn Dobbs, All-American player at Tulsa and at Randolph Field was a pupil of Frnka's system.

At the coaching school, which Frnka will be director, will be many famous names in the football world. Homer Norton, Texas A. and M. pilot, will instruct in the double and triple wing formations. Ray Morrison of Temple University will teach passing offense, Maurice Parlang, noted Boys Town Nebraska coach, will show how the "T" formation is adaptable to high school teams and the remainder of the Tulsa coaching staff, I. Brothers and W. S. Meyer will teach fundamentals of backfield and line strategy, respectively.

Pampa High School Jackets Arrive

Pampa High School athletic coach Otis Coffey today announced the arrival of 42 football jackets for members of the squad of last year's team, and said that they would be presented at a formal gathering sometime in the near future.

"At a very early date we are going to have a banquet," he said, "at which time there will be some awards made." He did not say when the banquet would be held, or where.

The jackets are reversible, bearing the Pampa emblem. The sleeves are gold, and the body is green.

TCU Football Squad Before Blackboard

FORT WORTH, July 15.—The 1944 Texas Christian football team is being molded in front of a blackboard in the shade under the Frog stadium.

From 4:30 to 6:30 o'clock each afternoon, Coach Dutch Meyer briefs his squad of some 60 candidates on the strategy of this autumn's campaign. This will go on for three weeks, until July 25.

"There will be no head bumping during summer practice sessions," Coach Meyer says. "The boys will do their book work and take light workouts devoted chiefly to passing and kicking. The rough stuff will be taken care of when regular fall practice sessions start Monday, August 21."

Twenty-seven civilians and 24 navy V-12 men make up the squad that reported to Meyer for the summer sessions. Among these are four lettermen from the 1943 season—Capt. Clyde Flowers, tackle, now converted to fullback; Zeke Chronister and George Garner, ends; and N. B. Thomas, guard.

"We have some good big boys on the squad, but most of them are lacking on the experience side," Meyer reports. "That's why we are working so hard on fundamentals. I'm pretty well satisfied with the outlook, and I believe that by the time late September rolls around and competition starts we'll be able to give a good account of ourselves."

Suffolk Downs Races Coming Off Today

BOSTON, July 19.—(AP)—Greentree stable's Four Freedoms one of the top money winners of the season, will have only a six pound pull in the weights with 118 when he attempts to make it three in a row over Mrs. E. Mullenren's Fleet First Fiddle today in the 10th running of the \$50,000-added Massachusetts handicaps at Suffolk Downs.

There will be at least six other starters and eight if it comes up mud, but those two standouts probably will be almost even choices when called postward for the rich mile and one-eighth test.

When the Greentree star necked and nosed out the Mullenren color-bearer in the recent Tenny and Brooklyn stakes, he had 12 and 10 pounds the best of it. They will have a four pounds shift for this New England classic, two on for Four Freedoms and two off for Fleet Fiddle, who drew the top impost of 124 pounds.

Oilers, PAAF Will Meet Here Tonight

The Pampa Army Air Field Filers, who have been stopped in two attempts by bad weather to play the Pampa Oilers, will clash with the local team at 6 p. m. at Roadrunner Park in their first twilight game of the season.

The Oilers ran over the Oilers in the first clash of the two teams to the score of 12 to 7, while the Oilers edged out the Oilers in their second meeting to the score of 2 to 0.

'Flying' Swede Cuts Down Time On the Mile Run

STOCKHOLM, July 19.—(AP)—Arne Anderson, the flying Swedish school teacher, ran a world record mile of 4:01.6 yesterday, an indication that the elusive four-minute mile is just around the corner.

In clipping a full second off the world standard of 4:02.6 that he set a year ago July 1, Anderson beat his more famous countryman, Gunder Haegg, by two meters. Haegg was timed in 4:02, his fastest speed for the distance.

It was the fourth world record that the Swedish runner has broken within the last month. On June 25 Haegg set a new standard of 8:46.4 for the two-mile and on July 7 sped the 1,500-meters in the record time of 3:43. A few days later Anderson, who used to be known as Haegg's shadow because he always ran second to Gunder, hung up a mark of 2:56.6 for the three-quarters mile.

Anderson's 4:01.6 mile was the latest development in the running of the event that has become a monopoly for him and Haegg. They have shattered the mark four times in the last two years, cutting nearly five seconds off the 4:06.4 turned in by Sidney Wooderson, of England, in 1937.

"I cannot imagine anyone running the mile in four minutes or less during this or the next few years," Anderson declared a year ago after his 4:02.6 feat. However, if he can shave a full second off the record in one year's time the four-minute mile may soon become a reality.

TENNIS TOPS APPEAR

ROCKFORD, Ill., July 19.—(AP)—Francisco Segura and Billy Talbert, two of the country's top-ranking tennis players, will appear in a series of exhibitions at Camp Grant tonight. They will oppose Pvt. George Lott, former American Davis cup player, and Capt. Louis Repe.

Have a "Coke" = You're home again

...or getting back among the folks

The biggest moment on earth to a fighting man is when he returns home. And one of the things that makes him feel at home is the old familiar phrase... Have a "Coke". With Coca-Cola, ice-cold, in your refrigerator, you can make any fighting man, including your own, feel he's back with his friends. From the border to the Gulf, Coca-Cola stands for the pause that refreshes,—has become a symbol of friendly living.

A MESSAGE TO MOTHERS ABOUT THE FLETCHER'S CASTORIA NOW ON SALE

ON EACH BOTTLE of the Fletcher's Castoria you buy today, you will see a Serial Control Number

This number is plainly visible through a "window" in the package.

Here's what the Serial Control Number means to you

The Fletcher's Castoria now being made is given three different kinds of rigid tests... chemical, bacteriological, and biological. The Serial Control Number on each bottle is your positive, visible proof that all these tests have been made.

In this way, you have full assurance of the quality and dependability of Fletcher's Castoria—long recognized as the ideal laxative for children.

Millions of mothers welcome the news that Fletcher's Castoria is now on sale at their druggists. This is the original and genuine Fletcher's Castoria... the laxative made especially for children.

The next time your child needs a laxative, ask for Fletcher's Castoria. It's mild and gentle, yet effective. And it's pleasant-tasting, so you don't have to "force" your child to take it.

Look for these features on the new Fletcher's Castoria package:

1. The Green Band... around each package... quickly identifies the laboratory-tested Fletcher's Castoria now on sale.

2. The Serial Control Number... on the bottle label... is clearly visible through a "window" in the outside package.

NOTE: Until sufficient stocks can be made available, it may be that your druggist won't have enough Fletcher's Castoria to meet all demands. If he happens to be out of stock when you ask for Fletcher's Castoria, please be patient. He will have it for you shortly.

Mrs. H. W. Coffman Is Complimented At Social Affair

SHAMROCK, July 19.—Complimenting Mrs. H. W. Coffman, a formal tea and miscellaneous shower was given Friday afternoon at the home of Mrs. Hubert Tindall.

The post-nuptial courtesy was extended Mrs. Coffman, who before her recent marriage in New Orleans, was Miss Louise Caperton, daughter of Mr. and Mrs. J. H. Caperton of this city, by Mrs. Hubert Tindall and daughter, Loree, Mrs. Frank DuBose and daughter, Lois and Mrs. Walter Darlington Jr., and daughter, Doris Beth.

For the occasion the party rooms were decorated placing emphasis on a red and white color motif. Red gladioli and fern were used in profusion.

In the dining room the table was laid with a cloth of Italian cut-work, centered with a low crystal bowl of red roses, flanked with white candles in crystal holders.

Miss Janet Caperton, sister of the honor guest, and Miss Jo Anne Draper, presided at the bride's register. During the receiving hours Miss Doris Beth Darlington, Miss Helen Palmer, and Miss Loree Tindall presided at the punch bowl and in the gift room, where many lovely gifts were displayed. Miss Patsy Rawlings of Dimmitt, assisted in the dining room.

Shiny Complexion Is Solved By Dry Base, Light Powder

VERA DEANE: Looks cool.

If face-mopping weather menaces your make-up or keeps you busy battling a shine, try switching to more summer-proof cosmetics that will let you relax.

The way the always faultlessly made-up Vera Deane, who sings on the Fred Allen show, copes with this problem is to switch from a cream powder base to a non-oily type of foundation and from a light-weight to a heavy powder.

Both of Vera's switches make sense. As she reminds you, perspiration brings out more oil to the skin's surface, and the less oil you have in a foundation the more adhesive your make-up will be. The reason a switch to a heavy powder helps to keep a face delustered in hot weather is because more weight usually means more talc, which gives you more absorbency and a better blotter for oils and moisture.

Royal Neighbors To Have Apron Party For Public July 25

Members of the Royal Neighbors will have an apron party for the public at 8 p. m. Tuesday, July 25, in the Merten building. Everyone is invited to attend.

Bananas, avocados, and other tropical fruits suffer from chilling at temperatures of 40 degrees F. or below so should be kept this cold only briefly.

Once The Egg Has Been Broken

Left over egg yolks or whites give the homemaker two problems: first, how to keep them until they can be used, and second, how to use. Here's the answer to the keeping problem, say the home economists of the U. S. Department of Agriculture: Place unbroken yolks in a dish or cup, and add just enough cold water to cover. Put egg whites in a jar or dish and cover tightly. Be sure to keep both yolks and whites very cold.

As for using the easiest and quickest way to use extra whites or yolks is to add eggs for scrambling. Leftover whites are ideal for individual soft meringues for the top of puddings, tarts, cupcakes. Beat whites with a pinch of salt until they form soft, moist peaks. Allow two tablespoons sugar for each egg white. Add 1 tablespoon at a time, beating well after each spoonful. When meringue is whipped up so it is fluffy and piles well, drop mounds of it on simmering water. Cover and let simmer 10 to 15 minutes. Remove from water immediately.

When a number of yolks are waiting to be used, make a soft custard or a cooking sauce dressing, using 2 or 3 yolks in place of each whole egg called for in the recipe. Or if gold cake is a family favorite, here's a good way to put 2 or 4 extra yolks to good use: Blend 1/2 cup fat and 1 teaspoon orange rind or vanilla. Gradually add 1 cup sugar, creaming well after each addition. Add 3 or 4 eggs, yolks and whites, sifted together 2 cups of sifted cake flour, 2 teaspoons baking powder, and 1/4 teaspoon salt. Add alternately with 3/4 cup orange juice to creamed mixture, beginning and ending with dry ingredients. Pour into greased loaf pan about 9 inches square. Bake in a moderate oven (350 degrees F.) 40 to 45 minutes.

Kerr Is Staunch Backer of FDR

By NEA Service

OKLAHOMA CITY, July 18—For
their keynoter the Democrats have
selected a rising politician who pos-
sesses at least three unusual claims
to distinction.

Robert Samuel Kerr is the first
native-born governor Oklahoma ever
had. Also—and this is becoming
very rare—he was born literally in a
log cabin, on September 11, 1896.
His birthplace was 80 miles—three
days by wagon—from the nearest
railroad station.

Bob Kerr is a big man in more
ways than one. He is huge phys-
ically, six feet three inches tall—
which is an inch shorter than his
17-year-old son Bob, Jr., and an inch
taller than his 15-year-old son
Breene—and weighs 245 pounds.

He is big as a self-made business
man, head of his own \$5,000,000
Kerly Oil Co., one of the most
substantial of the smaller independ-
ents. The company's major busi-
ness is drilling wells for other operators
in Kansas, Oklahoma, Texas, Arkan-
sas, Louisiana, Montana, Wyoming
and Colorado. In addition, Kerr's
firm annually sells about \$1,000,000
worth of its own oil.

And he is big politically, up to
now highly successful in his own
state and hosted by his admirers
as a man who will leave his imprint
on national Democratic politics.
There are those who think that he
would make an excellent running
mate this year for President Roose-
velt.

BORN IN LOG CABIN
Bob's father, Sam Kerr, took his
wife and infant daughter Lois from
Texas to Indian Territory in a cov-
ered wagon, lived that first winter in
a tent, and then built the 14-foot
square log cabin in which Bob was
born. The cabin still stands and is
occupied.

The elder Kerr was farmer and
rancher, taught in school, kept
year after year a cotton buyer.
Bob helped his father and went to

Gov. Robert S. Kerr of Oklahoma
school at Ada. He studied at the
Ada State Normal school, at Okla-
homa Baptist university, and at the
University of Oklahoma.

When World War I broke out Bob
was too young for officers' training
camp and lacked the formal educa-
tional requirements. Dean James S.
Buchanan of the University of Okla-
homa helped by enrolling Bob as a
senior, and young Kerr broke the
bottleneck by adding a year to his
age. He went to France in 1918 as a
shavetail, too late to see fighting
action.

LED NEW DEAL DRIVE
In his first political activity, he
helped elect a state commander for
the American Legion in 1924. Next
year he took over that office for
himself.

His next major venture into polit-
ics came 10 years later, when he

helped elect the late E. W. Marland
as governor. In 1938 he was given
much credit for the election of Leor
C. Phillips as governor. He broke
with Phillips in 1940, when Kerr be-
came Oklahoma's most ardent ad-
versary. Third Term while Phillips op-
posed Mr. Roosevelt's re-election
vigorously.

As newly-made national commit-
teeman, Kerr led the successful New
Deal drive in his state in 1940; and
in 1942, successfully bucking an anti-
Democratic tide that sent the Wil-
lie-Democrat, E. H. Moore, to the U.
S. Senate as a Republican, Kerr was
elected governor.

Out of many anecdotes told about
Bob Kerr, perhaps the one concern-
ing his courtship most nearly epitom-
izes his character and methods.
In the summer of 1925 he noticed a
tall blonde visitor on an Ada tennis
court. He wangled an invitation
and obtained a date for horseback
riding. That led to a tennis date,
which in turn led to a proposal date.
On this third encounter, Bob in-
formed Grace Brene that they were
going to be married, and she could
select the date if she had any
choice. Miss Brene kept him de-
manding for a few weeks, but they
were married the day after that
Christmas.

CHRISTMAS IN BUSINESS
When he first left the army, young
Kerr went into the produce business.
Burned out, he studied and prac-

ticed law. Soon after he was mar-
ried he formed a partnership with
a brother-in-law in the oil well
drilling business. They worked in
the fabulously rich Oklahoma City
field, where almost any hole in the
ground spouted oil, and by taking
part of their drilling fees in the form
of equities in the wells, they shared
in that wealth.

From this grew the prosperity of
the Kerly Oil company, and 1938
Kerr's position as a leader in the
industry. From 1932 until he ran for
governor, he was president of the
Kansas-Oklahoma division of the
Mid-Continent Oil & Gas Associa-
tion.

Kerr is a Baptist, a prohibitionist,
an ardent Red Cross, Y. M. C. A.
and civic worker. Besides the two
older boys, the Kerr children include
Kay, 19, and Bill, 6.

The essential question is whether the great powers are willing to give the peoples of Europe freedom to work out their own solutions, or whether they will try to prevent far-reaching changes for the sake of social and economic status quo.—Dr. Hans Simons, director New York School of Social Research.

Market Briefs

NEW YORK WALL STREET
NEW YORK, July 18—(AP)—Adverse tendencies again gripped the stock market today as stocks and bonds led an extension of the technical correction which got under way in the preceding session. Extreme setbacks were reduced in most cases in the final hour but minus signs were widespread near the close. Transfers for the full proceedings were around 1,400,000 shares.

Prominent on the downside most of the day were U. S. Steel, Bethlehem, Chrysler, General Motors, U. S. Rubber, Sears Roebuck, Montgomery Ward, Oliver Farm, Douglas Aircraft, Eastman Kodak, Central-Feed Common and Preferred, Western Union "A," Westinghouse, N. Y. Central and Southern Pacific.

Among curb bargainers were Technicolor, Republic Aviation, American Gas, N. J. Zinc and Cuban Atlantic Sugar.

Leaves From A Correspondent's War Notebook

By HAL BOYLE

WITH AMERICAN TROOPS IN NORMANDY, July 9—(Delayed)—"Bonbon racketeers" are thinking up all sorts of new tricks to lure candy and chewing gum from the pockets of American soldiers.

French kids for four years have been starving for sweets—they call them "bonbons"—and they have been engulfing the troops like a tidal wave for every spare piece of chocolate, hard candy or sugar cube they can worm out of them.

Good-natured soldiers are unable to refuse these shrill gamins who look and act—but don't talk—exactly like the young sons, brothers and sisters they left behind. But in slightly more than a month this "bonbon" business has developed into something of a juvenile racket in Normandy.

No teen-age Al Capone has risen to organize this lush field property, but in most liberated cities the streets have been pretty well zoned off by "small fry." Any newcomer who tries to work the wrong street corner gets a pushing around.

One little girl went into the racket on a "glamor" basis. Each morning she comes out on the sidewalk in a pretty white dress. She has a fat little red face and brown bobbed hair. She is no more than five years old and carries a little box under her arm.

She looks just like a walking Christmas doll and when she looks up at truckloads of soldiers, waves her pretty pink hand and gives a big Weeple grin, gum and candy come down in showers.

The most ingenious sandbaggers yet to appear on the scene, however, are two small boys who pulled a Jesse James stunt. Business had been bad for them—convoy after convoy rolling past without paying tribute.

As a jeopold of military police came down the highway they jumped over in the highway and began shouting "Boche! Boche!"

The jeep braked to a quick halt and the MPs jumped out and ran over.

"We thought they had found some Germans in hiding," said Sgt. Francis R. Kress, Buffalo. "But it was just a ruse to get us to stop our jeep. The boys laughed and said 'No Boche, No Boche,' and asked us for some bonbons and cigarettes. We paid with some gum and drove on. I don't know what they'll try next—probably start building road blocks."

Nazis March Through Moscow—As Prisoners

MOSCOW, July 18—(AP)—The German army finally marched through Moscow Monday as prisoners.

Thousands upon thousands captured in the Red army offensive moved through the capital on foot while being transferred from rail stations on their long way back to the east. In all, 57,600 trudged wearily through the city streets.

More than a million Muscovites lined the streets and watched the Germans, without displaying emotion. There was no booing, no catcalls, no shouting.

The prisoners poured in from all stations handling traffic to the north, northwest and southwest of the city.

They marched orderly from cars to platforms and then cavalrymen herded the Germans into the city streets.

Two German generals were in the first group which included all officers.

There's a Home in Your Future

That life partner fighting in some remote spot on the globe will return one day to again share a home with you . . . and what a home it will be . . . all electric from doorbell to nightlight.

Can't you see his eyes shine at the thought of having so many electrical conveniences in his home? It takes a man who'd almost forgotten the meaning of the words COMFORT and CONVENIENCE to really appreciate the electrical wonders in store for the home of the future. Amazingly efficient air conditioning or attic ventilation—improved electric refrigeration and deep-freeze units—soft glare-free lighting—Crystal-clear radio reception.

These are only a few of the wonders that await the winners of the peace—and the loyal homemakers whose productive waiting and purposeful hand buying make them possible.

Southwestern PUBLIC SERVICE Company

"I'm on to his trick now. He just starts out with, 'Pardon me, Miss—do you like Wheaties?'"

Hard to get a negative response to this question. So many people like Wheaties. You'll understand the reason why when you get acquainted with Wheaties champion nourishment and delicious flavor. Try milk, fruit, and Wheaties, famous "Breakfast of Champions."

CHICAGO GRAIN
CHICAGO, July 18—(AP)—Weakness developed in the grain market in late trading today. Rye futures declined and at one time September wheat slipped to within less than a cent of the low level. Wheat closed 1/2 higher, 1/2 lower than yesterday's finish, July 81.57 1/2. Oats were off 1/4 to 1/2, July 77 1/2. Rye was 1/4 to 1/2 lower, July 81.04 1/2. Barley was unchanged to 1/4 lower, July 81.26.

PORT WORTH GRAIN
PORT WORTH, July 18—(AP)—Wheat No. 1 hard, 1.36-1.37; No. 2 white, 1.13-1.14; No. 2 yellow, 1.13-1.14; No. 2 white, 1.13-1.14; No. 2 yellow, 1.13-1.14; No. 2 white, 1.13-1.14; No. 2 yellow, 1.13-1.14.

Main, Extramural Budgets Increased

AUSTIN, July 18—(AP)—The University of Texas main and extramural divisions will operate during 1944-45 on budgets of approximately \$3,700,000, an increase of \$200,000 over the 1943-44 budget.

The budget approved by the board of regents which met Saturday, included salary increases totaling \$205,570 for teaching and non-teaching employees. Increases were made on a cost-of-living basis ranging from \$10 to \$35 monthly.

CAPTAIN YANK

HEY, MAJOR! THAT ZEKI KNOCKED TWO OF MY OWN OFFICERS—MUST BE OUR YANKEE COUSIN...

RIGHT YOU ARE, BILLY-BOY! AND COUSIN'S GIN' A BAD BUZZIN'!

HIT THE GILK, CHARLIE! YOUR ZEKI'S GIN' A RUMBLIN'!

SO'S MY GEESE, MAJOR—WHEN IT COMES TO KICKIN' TRUBLE, IT'S JUST MY LUCK TO HAVE NO UMBRELLA!

WASH TUBS

THIS PLANE-TO-PLANE BOMBING THREATENS TO HALT ALL OUR RAIDS BEYOND FIGHTER ESCORT RANGE.

SO THIS IS THE JAP ANSWER TO OUR NEW B-29'S!

DO YOU HAVE A PLAN FOR REMOVING THIS THREAT, WINGER?

WE CAN'T DESTROY THE EFFECTIVENESS OF THIS WEAPON UNTIL WE KNOW EXACTLY WHAT THEY USE IT!

TO GET THIS INFORMATION WE'VE GOT TO RETURN TO MUSHIRO, OBSERVE AND PHOTOGRAPH EVERY PHASE OF THEIR ATTACK!

GOOD! I'LL LIKE THAT JOB, SUH!

I'D LIKE THAT ASSIGNMENT!

OUT OUR WAY

SAY! HOW MUCH WILL YOU TAKE FOR THIS PLACET?

NO, THE MAN'S TOO HONEST FER THAT, BUT NOT TOO HONEST TO MAKE IT LOOK THAT WAY—TO GET A BIG PRICE FER THIS LITTLE PLACE, HE BOUGHT TH' CALVES!

FORE WES! SEEN' ONE COW WITH FIVE CALVES. HE THINKS THIS CLOSE NEIGHBOR IS STEALIN' CALVES OFF HIM!

OUR BOARDING HOUSE

CHOW'S READY, MAJOR! BETTER TUNE OUT THAT LOW WAVE—LENGTH SNORE AND PUT ON YOUR ADMIRAL'S EPAULETS!

NICE STAND OF CLOVER YOU'VE GOT ON—YOUR MUG—ARE YOU TRYING TO DOUBLE FOR THE SMITH BROTHERS?

ULP—WAK! HAS THE STORM ABATED? HOW ODD THAT IT SHOULD UPSET AN OLD TAR LIKE ME—IM! HOW ABOUT BACON AND EGGS ABED?

THE SILENT SALESMAN
