

BRITISH SECOND PERILS ENEMY

Time is Extended for European Victory

County Club Is Organized To Support Dewey

A Gray county Dewey-Bricker club has been organized here, it was announced today by M. F. Roche, 1201 Mary Ellen street, president of the organization.

Other officers include E. C. Sidwell, 915 N. Gray street, vice-president; Dr. W. Purviance, 802 W. Francis street, vice-president, and D. E. Williams, 700 E. Francis street, secretary-treasurer.

Mrs. Raymond Harrah, widely-known Pampa clubwoman, is chairman of the Ladies' Dewey-Bricker club, also a county-wide organization.

"It is the purpose of our club," President Roche said this forenoon, "to welcome into our ranks both democrats and republicans who feel they cannot support what the new deal stands for. The Dewey-Bricker club in Gray county is non-partisan in the sense of republicans and democrats, but it is partisan on the real issue in the coming campaign—Americanism against communism and fascism."

The democrats in our ranks are those who feel that they actually do not have a candidate in the presidential race this time—those who feel that to vote for the Dewey-Bricker ticket ultimately is the best thing for the interests of their own party."

Roche pointed to the announcement made this morning that The Galveston News, Texas' oldest newspaper which has been on the democratic side of politics for a century, will support Governor Dewey in the presidential campaign.

"When a newspaper like that retracts its support," he said, "it is a sign that the Dewey-Bricker ticket is the only one that can win."

Full Agreement Is Not Reached As Talks Close

WASHINGTON, Sept. 28.—(AP)—Officials of the United States, British and Russian governments, who met in their world security planning at Dumbarton Oaks today without reaching the complete agreement they had hoped for when the conference opened last week, said they are still far from reaching a final agreement.

Under Secretary of State Edward R. Stettinius, Jr., chairman of the meeting, summed up the 90 per cent of agreement he said had actually been accomplished as an extremely satisfactory progress toward reaching a basis for a world organization.

The main point left over is whether the one of the great powers, the United States, should have a right to veto in the proposed world council on whether the accusation is to be sustained or rejected. Russia is understood to have insisted on such right while the United States, and apparently the British also, argued against it.

The second phase of the Dumbarton Oaks talks is scheduled to begin tomorrow afternoon, after issuance of a joint news release tomorrow morning on the conclusion of the first phase. This concluding period will consist of talks by the British and American delegates with the Chinese delegation on the same points covered in the Russian conversations and any others the Chinese wish to bring up.

The Chinese conversations are expected to last about 10 days.

Odds Are 2 to 1, Says Sen. Truman

KANSAS CITY, Sept. 28.—(AP)—Sen. Harry S. Truman, the democratic nominee for vice-president, declared during a speech to a Missouri-wide Elks convention:

"If you stand on Pennsylvania avenue in Washington and throw a brick at a bureaucrat, the odds are 2 to 1 that you'll hit a republican."

Gracie Reporting

Consolidated News Features

HOLLYWOOD.—The world series situation has the men in our neighborhood all excited, but it has me all confused. George refuses to discuss it with me—he says I don't understand baseball. Would his face be red if he knew my brother used to be a quarter-back?

But anyway, there must be millions of you wives in the same fix, so I've figured this thing out by reading the newspapers and that's the Browns of St. Louis—and there must be thousands of them in a city of that size—have a baseball team, and they are practically tied with the Detroit team for the lead. And the newspaper headline says: "The Winning Team Will Play Cards." Well, that doesn't make sense at all. You'd think the losing team would play baseball.

That's all I've figured out up to now, but I'll have more information about it later.

British Subs, In Daring Forays In Indian Ocean, Sink 32 Jap Vessels

Score of Points Are Harassed by Allied Aircraft

By LEONARD MILLMAN
Associated Press War Editor

British submarines sank 32 Japanese vessels in a series of daring forays to take the heaviest toll of enemy shipping in the Indian ocean yet reported, the admiralty announced in London today.

They slipped into Japanese-controlled Port Owen in Southern Burma and sank two gunboats lying at anchor, shelled oil tanks on Christmas island off Java and ranged as far as Sunda Strait between Java and Sumatra.

Jakarta became the first meeting place of the striking arms of Adm. Lord Louis Mountbatten's Southeast Asia forces and Gen. Douglas MacArthur's Southwest Pacific command.

Batavia, capital of Java lying 60 miles from Sunda Strait, was strafed for the first time Sunday when MacArthur's reconnaissance planes made a 3,000 mile round-trip from Australia. They caught the Japanese completely by surprise in a low level attack.

Other southwest Pacific bombers sank three freighters in sweeps reaching up to the southern Philippines, 1,500 miles northeast of Batavia.

Adm. Chester W. Nimitz' Pacific forces carried the air war north and east from there. They struck a dozen Japanese islands in a triangle reach from Palau 3,100 miles north to Paramushiro and 2,400 miles east to the Marshalls including Truk, Marcus, Wake and Iwo.

Nimitz reported 8,537 Japanese had been killed in the Palau islands. He said only two pockets of the enemy remained on Peleliu, largest island of the Palau group invaded so far. For the first time he reported "rapid progress" on Peleliu.

Tokyo broadcasts claimed 35 U. S. planes were destroyed or damaged by the Japanese air force intercepting Tuesday's superfortress raid on the B-29's returned to their base at Chengtu in northwest China. Tokyo claimed only four definitely shot down.

American announcements said the Japanese retaliatory attack on the B-29 base was "virtually harmless" and all superfortresses returned safely. Gen. Lauris Norstad, chief of the 20th army air force, called it "a remarkable record."

The China-based 14th U. S. air force continued day and night attacks on Japanese threatening the Allied base at Kweilin in southeast China and extended sweeps against enemy communications to Thailand. The 14th has sunk or damaged 697, 350 tons of Japanese shipping in the first eight months of this year, largely by B-24's raiding the China coast.

The Red Cross announced Japan holds 28,250 American prisoners, including nearly 10,000 civilians.

Postwar Issues Studied Today

AUSTIN, Sept. 28.—(AP)—Industrialists and educators met at the University of Texas today for discussion of reconstruction as it affects small business, the returning soldier and the war-industry jobs.

Conferees are railroad and utility agents, business men, chamber of commerce executives, bankers and members of the university's industrial and commercial research council.

Programmed for speeches were J. V. McGowan of Houston, regional manager of the committee for economic development; W. B. Glidden of Dallas, regional manager of the reconstruction finance corporation; Hamilton Morton of Fort Worth, regional director of the procurement division of the treasury department; and Morton B. Harrison of Dallas, regional director of the smaller war plants corporation.

Free French Army Claims Big Bag

PARIS, Sept. 28.—(AP)—Pierre Villon, head of the action committee of the French forces of the interior, said in an interview today the FFI had taken 80,000 prisoners in France. He estimated that the organization, which is being incorporated into the regular French army, numbers about 300,000 men.

THE ROAD TO BERLIN

(By The Associated Press)

GALVESTON QUADS ENTER SCHOOL

So eager were the Baggett quadruplets of Galveston, Texas, the country's youngest all girl foursome, that they were the very first to arrive at the "little red school house" the opening day. Born under war clouds on Feb. 1, 1939, these golden-haired, blue-eyed girls have known all the attributes of patriotic American children in loving war bonds, entertaining soldiers and even "adopting" four members of the armed forces for the duration. They are the daughters of Mr. and Mrs. W. E. Baggett of Galveston. Left to right shown saluting the American flag are: Joan, Geraldine, Jeanette and Joyce. (NEA Photo).

National Newspaper Week To Be Celebrated Oct. 1-8

As American as "A man with his newspaper."

How frequently we have heard the expressions, "A boy and his dog," and "A sailor and his ship." Such ideas just go together because of the constant associations, just like headlines on news stories.

Reading newspapers is an old American custom dating back to the times of the American Weekly Mercury of Philadelphia and the initial publishing ventures of Benjamin Franklin, who started the Pennsylvania Gazette in 1739.

Whether it be at the breakfast table over the coffee cup (another American tradition) or after the evening meal, the newspaper is one of the basic needs of the American family for children, adolescents, grown-ups and old folks.

Newspapers are read day in and day out—week after week—so that every member of the family can follow the course of events at home and abroad. Americans, the best informed people in the world, lean heavily upon their newspapers for educational ideas, slants on living and developments in industrial, domestic and foreign news.

No indication has yet been received of the views of certain other governments," Hull said in a statement released at his news conference.

The department is continuing to impress upon these governments whose policy has not yet been clearly stated," it continued, "the importance which it attaches to the taking of adequate measures to insure that Axis war criminals do not find asylum in their countries."

In bringing pressure on these other governments, Hull disclosed, the United States has had "the support and approval of the British and Soviet governments."

A few hours before the secretary spoke the Soviet embassy here sponsored publication of a statement that Russia's participation in the settlement of the war would provide the "best guarantee" that Hitler would not escape punishment after this war as Kaiser Wilhelm did after the last.

Neutrals Given Hull Warning

WASHINGTON, Sept. 28.—(AP)—Secretary of State Hull disclosed today that neutrals nations had been warned they would lose American friendship "for years to come" should they give sanctuary to Hitler or other Axis leaders after the war.

Several governments of neutral or former neutral status, notably Sweden, Turkey, Switzerland and Spain, earlier have given assurances that they will not permit Axis nationals to flee into their borders or that they are fully aware of the problems such action might provoke.

"No indication has yet been received of the views of certain other governments," Hull said in a statement released at his news conference.

The department is continuing to impress upon these governments whose policy has not yet been clearly stated," it continued, "the importance which it attaches to the taking of adequate measures to insure that Axis war criminals do not find asylum in their countries."

In bringing pressure on these other governments, Hull disclosed, the United States has had "the support and approval of the British and Soviet governments."

A few hours before the secretary spoke the Soviet embassy here sponsored publication of a statement that Russia's participation in the settlement of the war would provide the "best guarantee" that Hitler would not escape punishment after this war as Kaiser Wilhelm did after the last.

Hospitalized PAAF Soldiers Entertained

Pampa Kiwanians entertained hospitalized soldiers of Pampa army air field with games, music and contests last night.

Each week a civic organization under the direction of Red Cross Field Director Otto D. Urrahl, presents a program in the Red Cross auditorium of the field hospital. John Robert Lane, a student in Pampa high school, sang.

Garnet Reeves, chairman of the arrangements group, acquired the entertainment services of Private Silas, accordion player, who was with the Andrews sisters before going into service. Silas played several popular numbers.

Prizes were awarded soldiers being in service the shortest period of time, and to those that had served outside of Texas the longest.

Others representing the Kiwanis club were Raeburn Thompson, Howard Buckingham, Joe Fischer, W. C. Wilson, Joe Gordon, Joe Wells and Huelyn Laycock.

Rotten Apple Hits Dewey Photographer

EN ROUTE TO ALBANY WITH DEWEY, Sept. 28.—(AP)—A rotten apple police said was thrown by a young boy from a nearby building, splattered Mike Ackerman, ACME photographer, as he was preparing to make a picture of Gov. Thomas E. Dewey in a train platform apartment at Springfield, Mo.

Ackerman told reporters that he was standing 12 feet from the republican presidential nominee when the apple struck him on the head.

Springfield police went into action quickly and took three youths into custody. The crowd had been applauding Dewey's remarks when the incident occurred.

JUST SOFTBALL SCORE

NEMAH, Neb., Sept. 28.—(AP)—Dewey defeated Roosevelt, 12 to 7, but don't try to collect any credit bets. That was the score in a game between two southeastern Nebraska rural school softball teams.

Hillman Asserts It's 'Class War'

NEW YORK, Sept. 28.—(AP)—Sidney Hillman, chairman of the CIO political action committee, said today that "the war being waged against the PAC is not so much a political war as a class war."

"That is where the Republican leaders, under the influence of the reactionary old guard, are making their big mistake," Hillman declared in a prepared address before a convention of the CIO united electrical, radio and machine workers of America.

Charging that Republican presidential nominee Thomas E. Dewey had distorted President Roosevelt's words in regard to preparing the nation for war by not quoting him in full and that Republicans had resorted to the "Bolshevik bogey," Hillman continued:

"The truth is that the reactionary leadership is badly frightened. It concentrates its fire upon the political action committee because it knows that our organization is a strong liberal influence in both of the major political parties. It fears us because we represent the people—because it dreads the day when the American idea of a government of the people, by the people and for the people will be fully realized."

Hillman said the PAC opponents attempted to create confusion and

WAR IN BRIEF

By The Associated Press

LONDON.—Churchill tells Commons German war may continue into 1945; promises war with Japan will be pressed; reveals much British fleet already in Indian ocean; places German west front losses at 1,000,000, against allied loss of 235,000.

WESTERN FRONT.—Allies widen Nijmegen lifeline into offensive wedge threatening to wall off 200,000 Germans in Holland; Germans fighting fiercely, hurt American forces near Belfort.

EASTERN FRONT.—Germans report Russians cross Danube, invade Yugoslavia; Red army tightens ring around Riga.

ITALY.—Americans capture important Skopje-Bolna road; push back heights lost to counterattack; Rubicon bridgehead widened.

PACIFIC.—Americans making rapid progress on Palau; approach to Philippines; Japanese speed up offensive in southwest China.

State's Oldest Paper Backs GOP

GALVESTON, Sept. 28.—(AP)—The Galveston News, Texas' oldest newspaper which has been democratic in politics for a century, has announced that it would support Gov. Thomas E. Dewey in the presidential campaign.

The News opposed re-election of President Roosevelt in 1940, but its support of Wendell Wilkie at that time was considerably less emphatic than the support being accorded Dewey.

Commenting yesterday upon the placing of anti-Roosevelt electors on the November ballot under the name of "Texas regulars," the News said:

"Texas democrats can best serve the cause of constitutional government and the ultimate interests of their party by voting and working for the election of Thomas E. Dewey."

Churchill Says 200,000 Nazis May Now Be Surrounded

LONDON, Sept. 28.—(AP)—Prime Minister Churchill warned the House of Commons today that the war against Hitler might well continue into 1945.

"I depreciate very much people being carried away into premature expectations of an early cessation of the fighting," he declared in a full-dress report on the Quebec conference and the war in general.

"I shall certainly not hazard a guess as to when the end will come. Many persons of the highest technical attainment, and knowledge and responsibility have good hopes that it will be over by the end of 1944. On the other hand no one—certainly not I—can state that several months of 1945 may not be required."

Just before he ended the hour-long initial portion of his speech the House adjourned for luncheon until 2:00 p. m., the prime minister added:

"There is also the possibility that after the organized resistance of the German state and army is completely broken, fierce warfare may be maintained in the forests and mountains of Germany by numbers of desperate men conscious of their own guilt and impending doom."

"We don't consider that the declared date of the ending of the war against Germany must necessarily be postponed until the last destroyer has been tracked down in his lair."

The prime minister said the allied invasion of Europe had cost Germany nearly 1,000,000 men killed, wounded and captured and said "There may well be 200,000 of them in the coastal fortresses of Holland whose destruction or capture may now be deemed highly probable."

Allied forces in northwestern Europe have swelled to between 2,000,000 and 3,000,000 men, he said.

The British have suffered 90,000 casualties in France, he said, and American losses in killed, wounded and missing, including those in southern and northern France, have risen to 145,000.

British troops in Europe, he added, are now in a proportion of two for every three Americans.

Churchill opened his report by remarking on the change in the war picture during the period parliament was in recess.

"What a transformation now meets our eye," he said. "The foul enemy who for four years inflicted cruelties and oppression here, fled, losing 400,000 in killed and wounded."

See CHURCHILL Page 8

Workers Go Back Under Protest

DALLAS, Sept. 28.—(AP)—Receipt of a telegram from Philip Murray, United Steelworkers of America (CIO) head and CIO president, has resulted in a vote by a Mosher Steel company plant workers here who walked out Sept. 15 to return to work under protest.

Murray's telegram appealed to the workers to return to their jobs in accordance with the organization's no-strike pledge and added that he would continue efforts to persuade government agencies to enforce directives of the national war labor board.

"Cause of the dispute, over which more than 100 employees walked out, was listed as the firm's failure to meet a WLB order concerning vacation and the inclusion of a maintenance membership clause in its contract with the local union."

Lawrence Bench, subregional director of united steelworkers, said the workers voted to go back to work under protest, looking forward to the directive orders being placed in effect by the company or to the army taking over to place the orders in effect.

H. W. Beutel, works manager for Mosher, said that employees have been returning gradually since the walk-out began and that about 70 per cent of normal had been reached before last night's election. He said the election would affect the remaining 30 per cent.

Memorial Rites To Be Held for Miamian

MIAMI, Sept. 28.—Memorial services for Capt. Newton V. Craig will be held Sunday afternoon at 2 o'clock at the Methodist church in Miami with the Rev. Lee Stanford officiating.

Captain Craig's parents, Mr. and Mrs. M. M. Craig, received word of their son's death last Saturday morning.

He had been serving in the Asiatic war area.

Survivors are his parents, a brother, Lt. Frank Craig, who is here from New Jersey; sister, Adelia Craig, who is here from T. S. C. W. Denton; an uncle, Harry Craig, of Miami; two uncles, Dick and Cleo Craig of Wheeler; two cousins serving in the navy, Richard Craig, former representative of the 124th district, and Ensign Billy Craig; two aunts, Mrs. H. P. Stamp of Jacksonville and Mrs. T. M. Vandenberg of Leebetter, Texas.

Dewey Arrives Home After Campaign Tour

ALBANY, N. Y., Sept. 28.—(AP)—Gov. Thomas E. Dewey, republican presidential nominee, arrived back in Albany today after a three-week trans-continental campaign tour.

The Dewey special train arrived at 9 a. m.

Dewey faced a busy day at the capitol, including a conference with Herbert Brownell, Jr., chairman of the national republican committee.

FOUR YEARS AGO TODAY

By The Associated Press

Sept. 28, 1940.—Four American destroyers, first of 50 transferred by United States to Britain, arrive in English port.

By WILLIAM L. RYAN Associated Press War Editor

The British Second army has narrowed the escape gap for Nazi forces in western Holland, and Prime Minister Churchill, addressing commons today, said the destruction of 200,000 German troops in Holland was "deemed highly probable." (Complete story to left.)

As loss of the battle for Arnhem brought predictions of a hard winter campaign, the British were widening their hold north from Nijmegen to the Neder Rhine, where the Nazis' Holland escape route was a scant 25 miles between the river and the south end of the IJssel Meer (Zuider Zee).

Berlin, meanwhile, broadcast a report of new Allied airborne landings, this time at 'S-Hertogenbosch, ten miles west of the British advanced position on the south bank of the Dutch Rhine and two miles northwest of Eindhoven. There was no Allied confirmation.

Berlin Praises British Courage

A Berlin commentator, paying high tribute to the courage of the gallant British airborne division which for nine days fought desperately to retain a foothold across the Rhine of Arnhem, said the U. S. 82nd and 101st airborne divisions also had taken part in that fighting. Allied sources, silent on this report, still avoided the word defeat with regard to the operation.

Instead the "Red Devils," the First British airborne division, were credited with making other British advances possible.

However, loss of the battle for Arnhem and the subsequent loss of a foothold for a swing into the Ruhr valley apparently dashed hopes for a quick Allied victory. Bad fighting weather is beginning in Europe, and a hard winter campaign is in prospect.

The Germans have massed crack troops along the front before the Siegfried line.

At Metz, the Nazis threw back to their original positions the U. S. Third army units which had reached a bridge leading to a key bastion of the city's defenses on the west side of the Moselle. Several fierce German counterattacks in the Metz area were repulsed.

The U. S. First army slugged hard at defenses screening the route to Cologne, lunging at Siegfried line strongpoints eight miles southeast of Stolberg and 14 miles southeast of besieged Aachen, near Hurtgen on the east fringe of the fortified six-mile wide Hurtgen forest.

The British Eighth army in the Italian Adriatic sector captured Beltrina, eight miles northwest of Rimini, and widened bridgeheads across the Rubicon. U. S. Fifth army forces continued pressure on the central sector, capturing Castel Del Rio, important town on the Rimini-Bologna highway.

Moscow analysts said the position of German troops trying to flee the Latvian port of Riga was "strategically hopeless." The Russian took another 200,000 prisoners in Latvia yesterday and near Riga on the northeast. In the Carpathians, Red army forces reached the soil of eastern Slovakia and were poised for a lunge at the German-Hungarian defense zone through the Arad line.

There was no new word early today on the Balkan airborne landings of the Allies. Yesterday these forces had been reported operating on a wide front in Albania and along the Yugoslavian Dalmatian coast.

The German high command said today the Russians had invaded Yugoslavia, after crossing the Danube just west of the Iron gate at the Romanian frontier town of Orsova. The communists claimed formations which crossed the river were smashed. Moscow has not confirmed this report, but weeks ago flow of reaching the Iron gate, the canyons through which the Danube flows into the Transylvanian Alps.

Anti-Roosevelt Vote Is Sought By Dem Regulars

AUSTIN, Sept. 28.—(AP)—Leaders of the newly-organized Texas regulars, who have reportedly been trying to persuade the Republicans to withdraw their presidential electors from the Nov. 7 ballot, today renewed their appeal to anti-Roosevelt Democrats for votes.

Merritt H. Gibson of Longview whose name has been mentioned as a possibility for director of the regulars' statewide campaign, said he would not be at the convention "did not hesitate to embarrass and attempt to sabotage the most popular and statesman-like governor Texas has had in many years, Gov. Coke R. Stevenson." He called on Democrats to vote for the regulars' electors.

At Brownsville, R. B. Creager, Texas' Republican national committee man, said his party would not withdraw its electors, and predicted that many of the regulars would ultimately come out for Dewey because of their opposition to Roosevelt.

Several leaders of the new party disavowed any efforts to bring about a coalition of forces opposed to Roosevelt. Among them were E. B. Germany of Dallas and Roy Sanderson of Belton, the latter chairman of the regulars' convention.

Creager said, however that the regulars would like to see the Republican electors withdrawn.

The law provides that electors resign up to 20 days before election day. Meanwhile, Secretary of State Sidney Latham sent to the printer copy for the sample ballot which will distribute to county officials. If there are withdrawals, they must clear through him, and none had come to his office.

Gibson's statement here added that the September convention, controlled by the pro-Roosevelt faction, had refused to listen to President Roosevelt.

Pampan Is Included Among Marines Killed

The name of Pfc. Cecil E. Walker, of the marines, has been included in a navy announcement of 274 casualties. He is reported killed in action. Walker was previously reported wounded on August 11. He is listed as the son of Mrs. Mary L. Reeves, Pampa. Further information was not available today.

OFFICIAL ARRIVES

MEXICO CITY, Sept. 28.—(AP)—Cuba's President-elect, Dr. Ramon Grau San Martin, arrived today in a Mexican military plane from Havana for a state visit to Mexico.

THREATENING

CAVALCADE OF AMUSEMENTS COMING HERE

Shown above is a scene of the mile-long midway of the Cavalcade of Amusements which is coming to Pampa for four days starting next Wednesday. Taken from the top of one of the giant Ferris wheels, the picture shows only part of the shows and rides. There are 22 rides and 15 stage shows as well as many other carnival features. The 37-car railroad train will come here from the New Mexico state fair which closes Sunday night. The show is sponsored by three local organizations.

Discharges from Service Based On Soldiers' Personal Views

(Editor's Note: This is the second in a series of veterans' benefits, ranging from demobilization to jobs and pensions.)

By JAMES MARLOW
WASHINGTON, Sept. 28—(AP)—Who gets out of the army when Germany quits? There's no simple answer. Discharges will be given soldiers on an individual basis and not by companies or regiments or units of any kind.

80 Per Cent of PAC Charged With Being Linked to Communists

WASHINGTON, Sept. 28—(AP)—The national citizens political action committee, successor to the CIO political action committee, was accused yesterday of "following the communist party line" by the chief investigator of the Dies committee.

Robert E. Stripling made the statement as a special Dies subcommittee opened public hearings in an investigation of the PAC and the NCPAC. Ropes, Costello (D-Calif.), and Thomas (R-N.J.), sat to take the testimony.

"The PAC, alias the NCPAC," Stripling stated, "is a part of the revamped blueprint of the communist party to take over and destroy the American system of government by the taking over of a major political party."

"In doing this, they are receiving the active assistance of all the fronts and organizations which rally around the communist movement. They are also receiving the assistance of a number of officials and employees of the federal government, and the bill is being paid by the members of the CIO who are misled by certain of their communist inspired leaders."

Wallace Refuses To Answer Charges

PHILADELPHIA, Sept. 28—(AP)—Vice President Wallace refused yesterday to heed a reporter's request that he reply to "campaign charges" made by Governor Thomas F. Dewey against the Roosevelt administration, asserting "I usually don't engage in personalities myself."

The vice president, who unsuccessfully sought nomination, made the statement at a press conference.

A reporter asked "do you think there is any such thing as an indispensable man?" he replied: "I think the only problem is which is more dispensable."

Earlier, addressing thousands of shipyard workers from a platform at Cramp's shipyard, he said they would be "more likely" to get jobs under a Democratic than under a Republican administration.

Arkansas Democrats Can Vote for Dewey, Still Retain Status

LITTLE ROCK, Ark., Sept. 28—(AP)—Arkansas Democrats may vote the Republican ticket in the November general election and retain their membership in the Democratic party, the Arkansas Gazette said yesterday after an analysis of amendments to party rules adopted at the state Democratic convention here Sept. 16.

By eliminating all phrases in the rules demanding allegiance to the national Democratic party, the convention's adoption of the revised rules opened the way for Democrats to voice their disapproval of the Roosevelt-Truman ticket, the paper said.

The Gazette said the three-man committee who drafted the amendments ostensibly aimed at keeping the Democratic party a white party, choice to Democratic voters in general elections. The paper said the amendments offered a freedom of convention missed this implication in its study of the amendments, and that the committee members did not point out the purpose of the terminology.

Arthur L. Adams, state Democratic committee chairman, said the committee sought only to make Democratic party rules conform to the supreme court's recent decision of Negro participation in party primaries, and yet keep the party a white party.

Hindu-Moslem Unity Efforts Broken Off

BOMBAY, Sept. 28—(AP)—Hindu-Moslem unity conversations were reported broken off yesterday between Mohandas K. Gandhi and Mahomed Ali Jinnah. The discussions began September 9.

Jinnah was quoted as saying: "I regret to say I have failed in the task of converting Mr. Gandhi. We have, therefore, decided to release to the press the correspondence that has passed between us."

Gandhi is the predominant leader of the Hindus. Jinnah is leader of India's 80,000,000 Moslems.

Texas Voters To Be Confronted With Election Ballot Size of Newspaper

By WILLIAM E. KEYS

AUSTIN, Sept. 28.—(AP)—Texas will cope with an eight-column newspaper page size general election ballot on November 7.

Secretary of State Sidney Latham's clerical forces have prepared for certification to county clerks the names of candidates for state-wide offices (and in a few instances candidates for district offices). To these names county officials will add the names of numerous district, county and precinct candidates, making up a ballot like this:

Eight vertical columns carry these party headings in this order: democratic, republican, the new Texas regulars' party, socialist, prohibition, America first, independent, and a blank unheaded column for write-in votes for every office in the other columns.

The democratic, republican, Texas regulars' and prohibition columns list full states of presidential and vice-presidential electors at the top. The socialist and America first columns lead off with partial elector lists.

The democratic column includes a full slate of 11 state-wide government candidates in addition to a full complement of district, county and precinct candidates. This year the republican column presents 10 state candidates (only agriculture commissioner is omitted) and several district candidates too.

Twelve republican congressional candidates are certified to oppose democrats in their respective districts. Further, in Bexar county, three republicans seek places in the state house of representatives. In El Paso county another republican fights with a democratic nominee for a seat in the state house of representatives. And in the 26th state senatorial district, which includes Bexar county, a republican opposes

the democratic nominee. The independent column lists two candidates for the state house, Harry L. Davis of Boerne in the 85th district and H. J. Y. Henry Mills of Del Rio in the 87th district.

Other party designations list only presidential and vice-presidential electors. Across the bottom of the long ballot are for and against selections on two state constitutional amendments in this order:

1. Authorizing cities and towns to set up a retirement system for their employees; authorizing the legislature to set up such retirement systems. (This is a double-barreled proposition and is so worded that the voters may choose either or both or reject either or both.)

2. Authorizing county commissioner courts, after a vote of the people, to reallocate county tax levies not to exceed 80 cents per \$100 assessed valuation. (This means that a court could assign 50 cents of the tax to general fund, if it wished, or otherwise juggle revenues which are now set at maximums of 15 cents for jury funds, 15 cents for roads and bridges, 25 cents for the general fund and 25 cents for permanent improvements.)

Republican candidates for congress and the legislature are to be certified to county clerk by Latham. This is because they were nominated in convention. Democratic nominees for these offices are certified directly to the counties by the party's executive committee because the nominees were chosen in primary elections.

Republican congressional candidates and their democratic opponents are, by districts:

2. Lamar Cecil of Beaumont vs. J. M. Combs of Beaumont.

3. O. P. Stephens of Winsboro vs.

University Students Discuss Vital Issue

AUSTIN, Sept. 28.—Should there be military conscription during peacetime?

This question was discussed by University of Texas students in a program recently at the Wesley Foundation, student activity center at the University Methodist church.

Yes, here should be conscription, said 35 foundation members. No! was the emphatic answer of 38. Four members were undecided.

Bob Marshall of San Diego spoke

Vaughn, Mrs. Helen Reynolds of El Paso is a Republican house candidate for the 90th district.

William A. Turner of San Antonio is the republican candidate for the 26th state senatorial district.

through national military power; it can only be attained in world order," Miss Hahn said. "If we adopt a program of conscription, armament and military preparedness, other nations will do likewise.

As Russia and China become industrialized, no American enthusiasm for conscription and guns will be able to make our population proportionate to and as well-armed as theirs."

The first railroad in Scotland, opened in 1812, was worked by horses.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps, FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth more firmly set. Gives confident feeling of security and added comfort. No sunny, sticky or greasy feeling. Get FASTEETH today at any drug store.

PERSUADERS

WINSLOW, Ariz.—The Rev. George B. Curtis said he has found a use for two native war club gentiana by his soldier son in the South Seas. They might be used, he ex-

plained, to pound religious theories into the heads of the unbelieving. Two other souvenirs, however, leave the minister stumped—grass skirts.

Make This Barcel Recipe To Lose Ungainly Fat

If you are overweight, perhaps due to over-indulgence in food and not due to any glandular disturbance, why not try this inexpensive home recipe to help bring back alluring curves and graceful slenderness.

Here is a recipe that can be used inexpensively at home. Just get from your druggist 4 ozs. of liquid BARCEL CONCENTRATE. Add enough grapefruit juice to make a pint. Then just take 2 tablepoonsful twice a day. Wonder-

ful results may be obtained quickly.

Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take and pleasant. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Plan for Resumption Of Trade Is Urged

NEW YORK, Sept. 28—Within the next two weeks, some plan should be announced for the resumption of limited private trade with liberated areas, Business Week reports. Objective of a series of current conferences involving the departments of state, war, and commerce, and the foreign economic administration is to draw up a pattern for the resumption of foreign trade by individual companies.

asking for:
(1) A centralized office to receive requests for travel abroad in order to speed the re-opening of private trade.
(2) Issuance, simultaneously, of passport and travel priority to all applicants meeting pre-announced requirements.

to an end.
Representatives of the Belgian, Dutch, and Norwegian governments insist on restoring foreign trade to a private basis at once.
"France, at least as long as de Gaulle is at the helm, leans toward the FEA plan for bulk buying and selling.

parts for assembly at home. For quick harbor rehabilitation, some cranes, conveyor equipment and tug-boats will be needed.
"Packaged power" plants are also on the shopping list of the French supply council.

Grand Jury Indicts 52-Year-Old Husband Of 12-Year-Old Girl

LITTLE ROCK, Ark., Sept. 28—(P)—W. A. Ragan, 52, of Benton, whose marriage to his 12-year-old grand niece, Louise Ragan, was the basis of civil and criminal action in state courts, was indicted by a federal grand jury here on a charge of violating the Mann Act.

that he misrepresented the girl's age as 18 to obtain the marriage license. A charge of incest against Ragan was dismissed in Saline circuit court at Benton after the Arkansas attorney general held that the degree of relationship between Ragan and the girl did not come within the degree covered by law. A \$50,000 civil suit brought by the girl's mother, a Benton clubwoman, against Ragan also was dismissed in Saline circuit court.

Construction Men Are Optimistic About Work After War Has Ended

General contractors are prepared to start civilian construction programs as soon as the war with Germany is over, which will provide jobs directly and indirectly for several million men and women, William Muirhead, president of the Associated General Contractors of America, the national trade association of leading construction firms, reported today.

The Northwest, Pacific coast, Southwest and South, Muirhead said he found men in construction in the areas he visited optimistic about what large-scale construction programs could do toward providing needed employment in the transition from war to peacetime conditions.

"Contractors generally are cooperating in every way possible with local committees for economic development, chambers of commerce and other local groups in post-war planning," he stated, "and in many communities well-planned programs are being developed. But there is an urgent need for the federal government to establish a definite policy with regard to the action the federal government will or will not take in regard to post-war public works."

Muirhead advocated the immediate passage of the post-war highway legislation, now pending in Congress. Road construction has virtually ceased since the war started, except for the building of essential military roads, he explained, and early enactment of this legislation

is necessary for the planning of highway programs.

Many reclamation and rivers and harbors projects, some of which have merely been deferred on account of the war, are ready to be started, he said, and these projects are needed, not only for employment opportunities, but also for the general welfare and future prosperity of the country. He recommended immediate action by Congress on rivers and harbors and reclamation legislation.

Business and industry were also urged by Muirhead to develop their construction programs now, in order to be ready to start work just as soon as materials and labor become available. He pointed out that in an active economy private construction is two-thirds of the total construction, and private initiative should furnish the largest part of employment.

"Contractors do not expect any important shortages of materials over any lengthy period which will delay the starting of construction work," he said. "A recent report by

the Bureau of Labor statistics shows that the productive capacity for all types of construction materials, except lumber and plumbing, is sufficient for a construction rate of \$15,000,000,000 a year. In the lumber industry, sawmill capacity is sufficient, and while logging equipment has deteriorated, it can be rapidly restored. Capacity for plumbing fixtures is adequate for a construction volume of \$12,000,000,000, and it can be expanded before that rate is reached."

Insofar as the construction industry is concerned, he continued, the contractors are equipped and ready to resume large-scale construction work. They have made every effort, he said, to keep their organizations intact by doing various kinds of non-construction work as their war construction jobs are completed.

"Construction organizations also are flexible and have the ability to expand their operations rapidly," Muirhead declared. "Contractors are accustomed to starting work on short notice and spreading out as they

go along. "After talking with hundreds of men on my trip who are engaged in construction, I feel confident that the industry will be able to undertake work rapidly and provide a large volume of employment provided regulations are removed so as to permit the industry to use its ingenuity in working out all problems which might arise."

Until the Spaniards found that the avocado was edible and introduced it into many of their colonies, it was grown only as an ornamental tree.

Pro-Roosevelt Leader Says Texas Regulars Won't Get Over 50,000

DALLAS, Texas, Sept. 28.—(P)—E. B. Germany, leader in the state's anti-Roosevelt forces, says he believes the two opposing democratic factions separately would poll more presidential votes in Texas than the republican party.

pro-Roosevelt democrats, said he estimated each faction would poll about 400,000 votes in the November general election.

"Splitting up the democratic vote, however, will not give the republicans a chance to carry the state as they did for Hoover in 1928," he added. He estimated the republicans would poll not more than 75,000 Texas votes.

William Kittrell, secretary of the pro-Roosevelt state democratic executive committee, forecast a Texas vote of 1,000,000 for President Roosevelt. "I'll give the Texas regulars 50,000 votes in November," he said.

Both Germany and Kittrell made their statements in interviews with the Times Herald.

To get the most use from rugs, roll with a carpet sweeper or go over lightly with a vacuum cleaner daily and clean thoroughly weekly.

FOR SUPREME COFFEE

Enjoyment

DRINK A CUP OF ADMIRATION

No other coffee could ever again satisfy you once you've enjoyed the thrilling goodness of Admiration's unique blend. Its fine, mellow flavor pleases the most exacting taste. Its delicate, aromatic fragrance lingers throughout the meal. Its heartening richness is what you have always sought. Buy your first pound today, if you're among the few who have never tried Admiration. Buy it and begin a long and loyal friendship. You can count your fellow-users in the hundreds of thousands.

Suggestion! DROP OFF YOUR REGULAR BRAND AND Try Admiration this week

Spring a surprise on the family. Use Admiration Coffee all this week in place of whatever brand you have been using. Don't let the family in on the secret. Let them discover it themselves. Their smiles and applause won't be long in coming.

Admiration Coffee

Newsletter From Our Congressman

By GENE WORLEY (Member of Congress)

Congress, in cooperation with the war department, has made provision for an American flag to be presented to the family of any member of the armed forces who has lost his life in the service of his country.

The boy, however, who died overseas were buried near the place where they died. In such cases memorial American flags, measuring "36" x "48" are available to their families.

All of us here are proud of the high and noble service record made by the boy of the Texas Parahandle. Many of them have made the supreme sacrifice. The families of those brave boys are entitled to receive this memorial flag, and I will be glad to help them do so. If these families who have experienced the sad loss of a loved one will write to me, I shall be very glad to see that their request is immediately cared for. In order to establish eligibility for a flag, it is necessary for the family to forward the notice which they received from the war department. If, however, such notice has been lost or misplaced and if you will provide me with the necessary details I shall be glad to contact the war department for you.

The G. I. Bill of Rights seems to be getting off to a good start. For example, a former marine, blinded by an accident and honorably discharged from the service a year ago, investigated the G. I. Bill of Rights, especially the part about education, and soon was taking a post-graduate course in prosthetics. He now has his own laboratory. Another veteran who was discharged from the service with a crushed chest and blindness is now an honor student in law school, with many of his expenses paid by the government. They both said, "It gives you a different outlook and a comfortable feeling to know that your government is looking out for you."

I have available additional copies of my remarks concerning the benefits provided servicemen and their dependents and will be glad to mail them to anyone interested upon request.

The only protection against harmful bacteria in home canned food which has not been pressure-cooked is to boil the food for 10 minutes before using. Washing the food in cold water doesn't do any good.

GAS LINE PROGRESSES FROM TEXAS TO VIRGINIA

Construction work on parts of the \$54,000,000 gas pipe line from the Corpus Christi area to West Virginia is shown near Houston (top photo) and near Huntington, W. Va. (lower photo). The line will start feeding 287,000,000 cubic feet of Texas gas daily to war industries in the Appalachian sector about Oct. 15, according to Gardiner Symonds, president of the Tennessee Gas and Transmission Co. (AP) Photo.

Automotive Parts Situation Improved

WASHINGTON, Sept. 28—A decided improvement in the automotive parts situation during recent months is indicated by a survey of key automobile dealers in all sections of the country, just completed by the National Automobile Dealers association and made public today.

This survey revealed that as of August 1, this year inventories of parts were 10.7 per cent greater than on April 1, while sales during the same period increased only 5.4 per cent. These figures indicate that inventories of late have been increasing about twice as fast as sales. This is in decided contrast with conditions revealed in a survey made by N. A. D. A., covering the period from January 1, 1943 to April 1, 1944 when sales increased almost three times as rapidly as inventories. During the period sales gained 45.1 per cent while inventories were up only 15.3 per cent.

Workers Needed for Priority War Jobs

AUSTIN, Sept. 28—An acute shortage of workers on such high priority war jobs as munitions, ship repairs and building and heavy trucks was emphasized today by C. E. Belk, state director of the war manpower commission.

Belk said, "Germany's defeat will be prolonged at the expense of American lives." For the first time, Texas is failing to meet its share of the national quota of workers in essential war production, said Belk. Belk explained that the demand for cotton pickers, and the return to school of about 100,000 high school age workers had brought on the situation. He appealed to every worker in the state not now engaged in essential war production to go to the United States employment service and accept a high priority job.

He appealed to every worker in the state not now engaged in essential war production to go to the United States employment service and accept a high priority job.

Gracie Runs On and On—Finally Gets Around to How She Writes Column

By MAYME OBER PEAK

HOLLYWOOD, Sept. 28—In a hideaway office on the 10th floor of the Hollywood Plaza something new is happening in newspaper annals. A petite, little figure, perched on a big dictionary, pecks away at a typewriter, using "more fingers than I do in my piano concerto!" she says.

Gracie Allen is getting out her column. Her nutty wit, featured in this paper which has given her carte blanche to write about anything and everything, struggles valiantly to keep within the 100-word limitation.

Why does Gracie leave home to write her column in a hotel? How does she feel about her sudden leap into the fourth estate? I posed these questions in an interview with her at luncheon on the porch of the players. Although it was a hot day, Gracie looked cool as a cucumber in a Pierot print and talked like a breeze while making away with her crab and Chablis.

"I still can't believe I'm a newspaper woman," she said. "I'm supposed to be a radio star. That I know about, but this keeping worrying that enough won't take place to write about! I study the newspapers every night looking for news material, but I don't know where to get it. I have an office on the fifth floor, but he doesn't have to get up stairs as I do. All the way to work I worried about how confused I was and how things seemed to be piling up on me and nothing ever seemed to bother him. He can go to his office, work on the radio script and do a radio broadcast in perfect calm which is the right way to be. So I should be able to do my column and still run my house."

"Then I got to thinking, 'Mine is a bigger institution! Just think, 13 rooms, no butler, a nurse, an outside man and an upstairs girl. I know, two children and oh yes, two dogs... don't forget the dogs! I think I worry more about them than I do the children! I have one outside man and an upstairs girl named Gene Suetette. We call her, Susy. Someone is always saying, 'Have you seen Susy?' or 'Did someone feed Tally?' or 'Did someone feed Tally?'"

Nothing like that ever happens to me! Mine are always going to work in defense plants or rushing off to be married. It's a madhouse. Everyone coming and going like crazy for instance, the old nurse left this morning at 5 and the new nurse came on at 7. We were sorry to see the old nurse go. She is a lovely person but she didn't know

Gracie Runs On and On—Finally Gets Around to How She Writes Column

anything about music and that is simply vital for the children. They keep playing wrong notes and if no one stops them, they'll never learn anything! This nurse is more musical, I believe, and I feel things are going to be perfectly lovely.

"If only Marie—Marie is the upstairs girl—would stop asking me, 'Where do the shirts go and to whom do I give the sheets this week? I'm a little hazy about all that because one week you have one laundress and a completely different one tomorrow!'"

"But, Gracie," I kept persisting like George, "this interview is supposed to be about your column."

"Then, I had to get some school shoes for Sandra the other day," Gracie streaked on, "so I thought it would be a good time to get them while George was firing the cook. I can't do things like that—even if the did talk to her dates over the telephone all the time—I make George do it, and I always get out of the house until it's over. So the children and I got up so early, the store wasn't even open. I had to take them to a merry-go-round, then to the farmer's market for lunch. They said they weren't hungry but I told them they had to eat anyway until daddy got through firing the cook. So they said they would eat if they could have hamburgers! Then Sandra's teeth retainers broke again! And you know if you don't live in Beverly Hills, you get one price, but when you are a little better known—well—they are apt to charge anything. Twenty-dollars isn't much, but I'm Scotch and five times! Then Mrs. Robert Young called and wanted the children to go to their ranch for a swim, while

Guam Campaign Is Ended, 'Civilized' Life Now To Begin

By SGT. ALVIN M. JOSEPHY, JR. (Marine Corps Combat Correspondent)

GUAM—(Delayed)—The campaign here is over. Twenty-one days saw the American flag planted more firmly than ever on this island. Men of Maj. Gen. Allen Hal Turange's Third Marine division are moving back from the northern jungles into which they drove the last desperate Japanese knots of resistance. The front lines have vanished. The period of "sniper-shooting" and complete securing has begun.

In the new camps, dug out of hill-sides and set up in breadfruit and coconut groves, barbers are going to work. Mail tents are filling with socks of letters arrived from home. Hot food is taking the place of canned rations.

NEW CLOTHES BEING ISSUED
There are even some new clothes arriving. One camp didn't get enough clothing to go around on the first shipment. The sign on the bulletin board reads "Men who need clothes or shoes report to the store-room. This is only for men who do not have two pairs of shoes, one suit of clothes and one pair of shoes." Wags stood around for hours waiting for eligible nudes to appear.

On the roads, the speed limit sign is up: 20 miles per hour for jeeps, 10 miles per hour for trucks. Bulldozers are widening jungle trails pushed through during the fighting. Abandoned Jap stores are evidenced in every camp. Messengers ride Japanese bicycles with two-wheel brakes. Short wave danc music blares from late-model Jap radios.

RESIDENTS RETURN TO CITY

In Agaña, the ruined capital, residents are seeking out their homes, clearing away the rubble and cleaning out rooms in which to live. Ranchers are returning to the hills driving cattle and caribou back to the farms. A watch repairer is again in business and there is a long waiting line of marines.

Through all this, danger still lurks. Individual Japs still hide in caves and jungle retreats. At night they come out to look for food and water. "Sniper-shooting" patrols are bringing them to bay.

One patrol flushed a group from a thatched hut in the woods. On a table inside was a red toy pistol that made a siren noise and shot sparks when the trigger was pressed. **SOME HARD TO FLUSH!**

Sometimes the Japs aren't easily flushed. An ambulance brings two wounded Americans into a camp and marines, writing letters home about the concluded battle, look at each other as if to say: "Where did they come from?"

At night, most camps still keep lights out. Runners, wary of marine caution, hurry across clearings in the moonlight, whistling, "I'm a Yankee Doodle Dandy."

In many foxholes there are still guards. Noises draw shots. As an American automatic rifle rips across a camp area at a night, a soldier gets lower in their foxholes and console each other with the official announcement that "organized resistance on Guam has ended."

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are the chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your doctor for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills

Air Force Concerned With Placing Men in Post-War America

Extreme measures taken by the army air forces to see that the right man finds the right job is exemplified by the precautions taken by the classification section under a newly instituted plan under which every man is interviewed each month and a classification board is created to prevent mis-assignment.

Classification and assignment personnel at the local air base are now engaged in many phases of the all-important task of selecting fully qualified personnel for shipment to the air forces and commands. All measures which have been instituted to insure absolute accuracy of all classification records have as their objective the selection of the best qualified men and officers for such assignments.

Every man on the local air base will be interviewed in the future at least once each month, and a classification board has been created for the enlisted men's benefit, mainly to insure that an enlisted man will not be shifted from one job to another without good reason, and, secondly, to prevent good talent from going to waste. The board is made up of the classification officer, personnel officer, and the immediate commanding officer of the man concerned.

A man cannot be changed from one job to another without a board meeting and the downgrading of a man according to military occupational specialty or the removal of a military occupational specialty from his classification form cannot be accomplished without board action.

Thus the army air forces sees to it that an enlisted man best serves himself and the army at the same time.

DEWEY CLUB

Validates the new deal," Roche said, "but there must be a good reason for it." In making its announcement, the Galveston newspaper said: "Texas democrats can best serve the cause of constitutional government and the ultimate interests of their party by voting and working for the election of Thomas E. Dewey."

Man Says Lines To Have Faster Service

HOUSTON, Sept. 28—(AP)—A. T. Vercier of San Francisco, president of the Southern Pacific lines, says that when his firm returns to a "competitive business after the war," it will have a better and faster service to other shippers in the handling of heavy freight tonnage. Vercier was in Houston during an inspection tour of the road's lines and was to leave today for Corpus Christi, the Rio Grande valley and San Antonio before continuing his trip westward.

RESTRICTIONS LIFTED

COLLEGE STATION, Texas, Sept. 28—(AP)—Rationing restrictions have been lifted on all farm machinery except corn mowers, effective today. State AAA Head B. F. Vance said he had been informed by C. D. Walker, director of AAA's southern division in Washington. Vance said he was instructed to notify county ration boards of the order.

An English penny is equal in value to about twice as much as an American penny.

NEWSPAPER

and farm economy. Progress in the field of business in the world's business columns is charted daily in newspaper columns.

What to eat, what to wear, where to shop, what to do in the leisure hours—all are questions answered. And when Americans took up arms to defeat totalitarianism, Joe and millions of his brothers and sisters joined him in uniform, many millions of newspapers went along to camps, training centers, and to front-line positions. Second only to letters from loved ones, the newspapers have been an integral link with home—the breath of the America to which they will live, and love and grow old and where they will always have an opportunity to read the newspaper.

The Pampa News will join with the thousands of newspapers throughout the nation in observance of National Newspaper week, Oct. 1-8.

Pampa ministers will take a few minutes during their church hour on Sunday to stress the importance of newspapers and the importance of press freedom.

Pampa Kiwanis club is planning a program built around newspaperdom, according to L. N. Atchison, president of the local organization, along with its 2,200 clubs of more than 133,000 members.

HILLMAN

disturb in the Nazi manner through carefully planned discrepancies and contradictions in their arguments. Hillman asserted that PAC's total expenditures from the time it was organized in July, 1943, to Aug. 15, 1944, were \$271,056.56, of which more than three-fourths was for salaries, travel, rent, equipment and publicity, with \$67,320.48 contributed in primary campaigns and state elections.

Declaring the PAC hoped to raise \$1,500,000, he said: "To keep these figures in perspective, one should bear in mind that in 1940 the Republican party spent some \$16,000,000 in the national election and that five families—the DuPonts, the Pews, the Rockefellers, the Queensys and the Slauns contributed \$432,680. In that same year the Democratic party spent \$6,000,000."

Services Tomorrow For Campbell Child

Services will be held tomorrow at 2:30 p. m. at the Salvation Army chapel for Elaine Campbell, Campbell 2-month-old daughter of Mr. and Mrs. J. W. Campbell, of this city. The child died at 12:30 a. m. today at a local hospital.

Surviving are two brothers, Jack Lee and Robert; two sisters, Verna Dean and Joan, and the parents. Capt. Herschel Murphy will officiate at the rites, and burial will be made at the Baby Garden of Fairview cemetery.

Democrats Urging Voters Not to 'Take Chance' on Change

WASHINGTON, Sept. 28—(AP)—A "don't take a chance" appeal to the voters was outlined for democratic campaigners today by Chairman O'Mahoney of the party's senatorial campaign committee. Asserting that to send a new president and a republican congress into office would introduce "disorganization and confusion at the moment when it would be most disastrous," the Wyoming senator declared in a statement.

Arkansas Captures Cotton-Pick Title

BLYTEVILLE, Ark., Sept. 28—(AP)—A 44-year-old eastern Arkansas farmer, the father of nine children, is the new national cotton picking champion. Virgil Mote, Black Oak, Ark., captured the title and a \$1,000 top prize yesterday when he picked 102 and six-tenths pounds of clean cotton in one and one-half hours to win the 14th annual national cotton picking contest which drew 197 entries from 14 states.

London Damage Is Given in Commons

LONDON, Sept. 28—(AP)—The list of London's bomb damage as given today in the house of commons: Houses damaged beyond repair, 25,611. Houses seriously damaged and not habitable, 52,277. Houses damaged, but habitable, 77,030. Houses slightly damaged, 873,177. Total—1,027,995.

Husbands! Wives! Want new Pep and Vim?

There's nothing more you can do for your vitality than take a course of Dr. Williams' Pink Pills. They'll give you the pep and vim you need. For sale at drug stores everywhere—in Pampa, at Gretney Drug Store.

Bonds Reverted To Federal Form

Pampa city commissioners, in the regular weekly session Wednesday, approved the combining of 26 federal, city and school bonds into two federal bonds worth \$75,000 for deposit security in the First National bank.

The combining of the 26 bonds totaling \$50,000 into the two federal bonds with an additional \$25,000 will eliminate the unnecessary book-keeping. W. C. McDordova, city manager, pointed out.

Other business disposed of at the meeting was the approval of the 1944 tax roll with a personal and real estate valuation of \$8,000,000. Taxes carried on the rolls for the current year total \$129,319.26.

CHURCHILL

ed and leaving in our hands nearly half a million prisoners." The stocky prime minister praised the American advances in Europe as a "model of the military art" and an example of "the propriety of running risks." British advances, he said, have not been surpassed anywhere.

Paying tribute to allied airborne troops, he said "Casualties have been grievous, but for those who mourn there is the consolation that the sacrifice was not needlessly demanded."

Churchill said a Jewish brigade now being formed would take part in the occupation of Germany. He revealed also that the number of Italians fighting alongside the allies on the Italian front soon would be more than doubled.

Indicating the tremendous power exerted by the alliance on D-day, he reported that 250,000 swarmed ashore in the first 24 hours and that 1,000,000 men had been landed by the 20th day of the invasion. Turning to the Far East, he declared the ten Japanese divisions which were sent against India had been repulsed and largely shattered.

The campaign directed by Admiral Lord Louis Mountbatten he described as the largest and most important ground fighting that so far has taken place against Japan. Between 50,000 and 60,000 Japanese have been killed in this campaign, he said.

"I can assure the House," he said, "that the war against the Japanese and other diseases of the jungle will be pressed forward with the utmost urgency." Churchill reported that "complete agreement on every point" had been reached at the Quebec conference, and that President Roosevelt had decided there would be no changes in the chiefs of staff charged with conducting the war.

The scale of the British effort against Japan he said was limited only by available shipping which, with the ending of the U-boat war, would be magnificently magnified. He said he believed that the navy system could be abandoned shortly in waters of the western hemisphere.

He said the British fleet had been offered for the war against Japan, and that the offer had been "cordially accepted." Much of it, he said, is already gathered in the Indian ocean. These ships, added to those of the United States, he said, "should give us naval command of the most complete and decisive character."

Resuming promptly after an hour's luncheon recess and still in the same resonant and vigorous voice, Churchill declared that never before had the alliance of the three great powers against Germany been "more close or more effective."

The prime minister praised Poland, and he said there would have to be territorial changes in the Polish office now would introduce "disorganization and confusion at the moment when it would be most disastrous," the Wyoming senator declared in a statement.

"We have the organization now and the leadership and they are already far advanced in laying the foundation for the peace. "It would be absurd to scrap this organization on the specious plea now being made by the republicans that Governor Dewey, with his isolationist followers and a group of new and inexperienced legislators could be safely entrusted with the task."

Fruit Juices May Travel by Air

NEW YORK, Sept. 28—Housewives who don't like to bother with squeezing oranges for breakfast may soon look forward to finding it on their doorstep—delivered by air from the Rio Grande Valley, along with the morning milk.

That's the latest postwar plan out of Texas, according to an article in Business Week, which reports airline officials participated in a discussion of it this week at a Dallas convention of the Texas Citrus and Vegetable Growers and Shippers Assn.

Fresh orange juice, and perhaps grapefruit juice, squeezed from fruit in the Rio Grande Valley, would be rushed by air transport overnight to distant metropolitan centers for doorstep delivery in paper cartons.

"The Rio Grande growers who are now talking of processing and chilling plants near airports and investigating the possibility of tie-ups with distant dairy farms for the orange juice program," says the publication, "also see air transport as a way to more profitable markets for a variety of other fruit and vegetable crops, such as strawberries, string beans, English peas, and stemmed greens, which are liable to vi-

bration damage in road and rail shipment.

The Dnepr Dam in Russia, destroyed by Russian patriots during the German advance early in the war, was more than 5,000 feet long.

Iceland, Say Students, Is Similar to Texas

AUSTIN, Sept. 28—Iceland isn't very different from Texas, except in climate, maybe, according to Njall Simoranson and Sigurdur Matthiasson natives of Iceland who are students at the University of Texas.

Music, dances, pretty girls, and Bob Hope are as familiar to Icelanders as to Americans, the young students say.

College students are older in Iceland, they add, since the average age for entrance in elementary school is ten years.

A six-year period in a "gymnasium" precedes University training. If a prospective student passes a formidable gymnasium examination covering the entire six years' work, he is permitted to matriculate at the University.

Simoranson and Matthiasson knew Danish, German, Icelandic, Spanish, and English before coming to the University of Texas. Both have mastered English to such a degree that they speak with only a slight accent.

Both young men are classified as freshmen. Njall has not decided on his major study, but Sigurdur is studying air transportation, having worked for two years for National airlines in Iceland.

Simoranson's home is in Reykjavik, Iceland's capital. Matthiasson was born in Siglufjordur, and has lived in Reykjavik for the past five years.

\$270 Million May Come from Cotton

AUSTIN, Sept. 28—(AP)—Texas farmers will pocket an estimated \$270,000,000 for the 1944-45 cotton crop, says A. B. Cox, University of Texas professor of cotton marketing.

Biggest contributing areas to a total estimated crop of 1,505,000 bales, said Dr. Cox, will be the black and grand prairies with 640,000 bales, the Abilene-Haskell area with 540,000 bales and the Lubbock-Lamesa-Tahoka-Lvelland areas with 425,000 bales.

An appeal to women in PAMPA

**Needed Now
by Army Hospitals —
Technically trained women
to serve as Wacs**

LABORATORY TECHNICIANS NEEDED!

DENTAL TECHNICIANS NEEDED!

MEDICAL TECHNICIANS NEEDED!

X-RAY TECHNICIANS NEEDED!

MEDICAL STENOGRAPHERS NEEDED!

PSYCHIATRIC SOCIAL WORKERS AND ASSISTANTS NEEDED!

SURGICAL TECHNICIANS NEEDED!

This is the situation:

In this gigantic world-wide war of liberation . . .
CASUALTIES ARE GREAT—AND WILL BE GREATER.
The flow of wounded into America is almost unceasing. Convoys of gallant men, suffering agonies of body and mind, are coming home.
We owe our lives, our freedom, to these men . . .
But above all, we owe them a fighting chance to live happily again, as they so richly deserve. Free from pain and horror.

To help give them this chance, the Army needs 22,000 technically trained women

Today, there is a great need for more trained medical technicians in U. S. Army hospitals in this country.
The wards and surgeries and laboratories are in need of qualified women technicians . . . so that the men may be sent out to staff base hospitals and outpost medical units — over:
As Wacs, you can replace these technicians. You can help wounded boys get well faster.

Thousands of laboratory tests must be made. Blood counts taken and analyzed. Penicillin and blood plasma prepared. The course of disease and infection watched with faithful care. There must be more help in the surgeries. In the wards. Teaching, reconditioning. Helping broken men to regain their strength and hope.

Women of Pampa, this is your opportunity to serve

Not only to help and comfort men who have risked death and torture for you . . .
Not only to lend your infinite woman's compassion, your soothing voice, and understanding heart . . .
But to put your own fine training and knowledge to glorious use in the Army of the United States.
Here every rare and common disease is diagnosed and tended. Here Tomorrow's scientific wonders are making men well again. Here incredible New World equipment is being put to practical use.
You will work with it all. You will gain rich, on-the-job experience that cannot help but broaden your own postwar horizons.

Women of Pampa, this is your glory, too

Only those women who have helped men undertake the work of war can ever really understand what freedom means. Only they can truly share the fruits of victory — and the honor and the glory — with the men who fought war the hard, dirty, bloody way.

Women of Pampa, if you can qualify— ENLIST AS A WAC TODAY! SERVE YOUR COUNTRY GALLANTLY AS A MEDICAL TECHNICIAN IN A U. S. ARMY HOSPITAL!

- 1. If you are fully qualified to do any of the jobs listed, you are assured immediate assignment to an Army hospital, after basic training.
- If you are inexperienced, and can pass required tests, you will be given free technical training, in certain selected jobs.

For full information, about joining the Women's Army Corps as a Medical Technician, go to your nearest U. S. Army Recruiting Station. Or mail the coupon below.

Market Briefs

NEW YORK WALL STREET
NEW YORK, Sept. 27.—(AP)—Frustrated investment nibbling at selected industrial and specialties gave a modest lift to some leaders in the stock market today. Steels and rails attracted scattered support but, as with other issues which tried to advance, faltered at times going into the final hour.

Price changes for the most part were fractional. Volume amounted to about 550,000 shares.

Tilted forward throughout were U. S. Steel, Bethlehem, Douglas, United Aircraft, Anacosta, Kennecott, American Smelting, New York Central, Southern Railway, Chesapeake & Ohio, Pepsi-Cola, Standard Oil (NJ) and Montgomery Ward. Under water were General Motors, Eastman, Texas Co. and American Can.

Cuban Atlantic Sugar, N. J. Zinc and Aircraft Accessories Corp., improved in the curb. Brewster Aero and Carrier Corp.

CHICAGO GRAIN
CHICAGO, Sept. 27.—(AP)—Wheat rallied today when light covering showed a scarcity of offerings but other grain futures were easy in an irregular trade. Barley suffered the heaviest losses and at one time was off as much as 25¢ cents. At the close wheat was 1/4 lower to 1 higher than yesterday's finish. December \$1.61. Corn was 1/4 lower to 1/4 higher. December \$1.12. Oats were unchanged to 1/2 higher. December 61¢. Rye was 1/2 lower to 1/2 higher. December \$1.04 1/2-5. Barley was 1/4 to 1/2 lower. December \$1.00 1/2.

The Sarge Just Went On--Not Planning Ahead: It Was Best

By BARBARA WACE
FOURNEUF, Brittany, Sept. 6.—(Delayed)—(AP)—Standing on the battlefield 14 hours after a whole platoon, save one survivor, has been wiped out, you feel something of the gallantry of the boys from the farms, cities and small towns of America who made the name of Fournuef the watchword of this division.

The strong German defenses on high ground included foxholes, tunnels, pillboxes, trenches and camouflaged gun emplacements. It was holding up the advance of two battalions.

By proving that one infantry platoon could crash their almost impregnable position, a crushing blow was dealt to German morale and the core of resistance was broken in one sector of the battle for Brest.

Every man in the platoon knew what he was in for. Every man, save one unhurt and two wounded, died with blood on his bayonet and with the objective achieved.

"The bodies looked aggressive even when dead," said Major William F. Kernan of Washington, D. C.

"Talk to our company sergeant first," said Captain Robert J. Hitt, of Los Angeles, "and he'll tell you. He's been recommended for the D.

S. C. twice and for immediate commission. He'll tell you how it was."

Sgt. John W. Hadaway, son of C. A. Hadaway of Lufkin, Tex., was a bronzed boy with brown eyes and ruffled hair.

"I called the platoon sergeant to me," he said. "That's what's worst—sending your buddies out. He'd been with me seven years back in the States and here."

Hadaway paused a moment, then went on quietly.

"He said okay . . ."

"Then I called the squad leaders separately. I didn't tell them about not coming back but I told them what there was to do and told them not to run but to walk quietly till the smoke screen lifted."

"We gave them smoke. Then we waited. Later we tried to go up a sunken road between high hedges, but five men got killed in two minutes by a German sniper in the hedge."

"I think I went mad then. I fired point blank. They found 20 bullets in his body next day. But we had to fall back."

He told how they waited all day while artillery blasted the position and how they thought some of their buddies were prisoners, but how he found them all next morning. They had died, but not until they gained

Tires Available for Moving Farm Crops

WASHINGTON, Sept. 28.—(AP)—The office of rubber director has approved an additional allotment of tires for small trucks moving west Texas crops. Rep. Thomason (D-Texas) has been informed.

Max McCullough, deputy administrator for the office of price administration, told Thomason yesterday rationing boards would be notified immediately of the increase in allotments for their respective areas. Although the specific quantity was

First Canadians Land in Australia

MELBOURNE, Australia, Sept. 28.—(AP)—The first Canadian troops to land in Australia have arrived. They were welcomed by Canadian High Commissioner Judge David who hinted that they were the vanguard of a Canadian Pacific army.

David predicted the Canadian navy would soon see action in the Pacific and Canada's air force would also be turned against Japan.

DEMONSTRATION
FLAGSTAFF, Ariz.—Dr. Albert Stahke exhibited a small scorpion while demonstrating the value of ice therapy in neutralizing the effects of stings by such creatures. The poisonous scorpion stung him.

The doctor took his own advice and plunged his arm in a bucket of well-iced water for two hours. It worked.

Bob Hannegan Berates Oklahoma City Speech

NEW YORK, Sept. 27—(AP)—Robert E. Hannegan, chairman of the democratic national committee, has berated the Oklahoma City address of republican presidential nominee, Thomas E. Dewey, as a "hysterical outburst" and said "the mouse labored and brought forth a molehill."

Another democrat, U. S. Senator Joseph E. Guffey of Pennsylvania, disputed Dewey's statements that there were 10,000,000 unemployed in the United States in 1940.

Senator Guffey said in a statement released through the democratic national committee that the U. S. census figures on unemployment as of March, 1940, were 5,000,000 "and this included everybody over the age of 14 who was out of school and looking for work."

Governor Dewey said the 10,000,000 figure was that of the American Federation of Labor.

Hannegan, who also issued a formal statement, said: "Governor Dewey said nothing new. He resorted to a repetition of all the discredited campaign labels that heretofore have been uttered by the lesser lights of the republican smear brigade."

<

Some Preparation Is Made for Johnny When He Marches Home

Editor's Note: This is the first of a series on veterans' benefits, ranging from demobilization to jobs and pensions. By JAMES MARLOW. WASHINGTON, Sept. 28—(AP)—When Johnny comes marching home from this war he will not be like the returning veterans of other American wars—a Johnny come-lately.

HARVESTERS

vs. **Oklahoma City** (CENTRAL HI)

Harvester Park

fighters of any previous war. When he is discharged he will get: Full back pay at the time of his discharge; an additional \$100 to \$300 in mustering out pay, depending on his length of service; railroad fare home; schooling, if he wants it; vocational training and a pension if he is disabled; a government guarantee of loans up to \$2,000 to buy a home or a farm or a business; a guarantee of his job back except in unusual circumstances; assistance in finding a new job; unemployment pay if he can't find a job; special consideration in seeking federal civil service jobs; hospitalization for illness due to service regardless of ability to pay and hospitalization for any cause if he can't pay, and free legal advice in certain matters.

And there are pensions for his close dependent survivors if the war caused his death.

The history of our treatment of our veterans has often been stumbling, stupid, slow and callous.

There is perhaps no better illustration of this anywhere than in a new, 388-page book—"When Johnny Comes Marching Home Again"—by Dixon Wecker, a professor in the University of California at Los Angeles.

The book is named for a civil war song. It is a rich and rewarding reading for anyone who wants a handy history of how we have treated our veterans throughout our history and of their struggles to readjust themselves to peace after the Revolutionary, Civil and first World Wars.

Some of their heartaches undoubtedly will be repeated after this war, for each veteran has his own individual adjustment to make.

But Wecker says: "Good things that are being done for (the) first casualties of World War II, and the plans in store for millions of the able-bodied after V-Day, are a heartening proof that we learn by experience."

"Now, for the first time in American history, planning for the veteran has preceded, not followed, demobilization."

(Tomorrow: The demobilization program after V-Day in Europe.)

BLACKLIST TO CONTINUE
LONDON, Sept. 28—(AP)—Britain will continue its blacklist of firms dealing with the enemy, even after the defeat of Germany, the Earl of Selborne, minister of economic warfare, told the house of lords.

The first public library in New York city was established in 1697.

German Surrender Is Still But One Kind To US—Unconditional

By HERMAN R. ALLEN
WASHINGTON—Nazi propagandists have been throwing out suggestions that the war be halted now "to save lives bloodshed. In return for doing so they offer the 'favor' of ceasing hostilities the Germans suggest that certain concessions be made to them.

The reaction in Allied official circles to all suggestions of a negotiated peace has always been the same—nothing short of unconditional surrender will be satisfactory.

What does unconditional surrender mean? It means exactly what it says: That Germany must lay down her arms and accept whatever the Allies choose to give her. There may be no ifs, ands, or buts—we'll surrender if you'll let us keep part of Czechoslovakia" or comparable deals.

It is interesting to recall the circumstances of Germany's collapse in 1918 and the maneuvers she went through trying to prepare a soft spot to light on. It is not unlikely we will see some more of the same this time.

WILSON'S 14 POINTS
It is true that technically the first World War did not end with Germany's unconditional surrender. The armistice was negotiated with the understanding that peace should be settled on the basis of Wilson's 14 points, but these were our conditions—not Germany's.

Andre Tardieu, the French journalist and statesman, wrote: "The armistice marked the capitulation of the enemy, a capitulation which was an unconditional surrender."

The enemy began angling for peace as early as Dec. 12, 1916. Wilson himself suggested a peace program two days later—before this country was in the war. There were other proposals, from both sides, throughout 1917.

Then, on Jan. 8, 1918, Wilson made his famous 14 points speech. In it he outlined what he regarded as the Allied war aims. The points included some general ones, such as freedom of the seas and abolition of secret diplomacy; and some specific ones, like German evacuation of occupied territories and the formation of a League of Nations.

The next several months Germany and Austria-Hungary quibbled with Wilson (through neutral negotiators) over interpretation of some of the points.

FIRM ON SURRENDER
Wilson stood firm, although he himself was having some trouble selling the 14 points to the other Allies.

Finally Wilson notified the Germans on October 23 that if the United States "must deal with the military masters of Germany it must demand, not peace negotiations, but surrender."

On October 27 the German foreign minister was able to advise Wilson that negotiations would be by a people's government and "in whose hands rest . . . the power of making deciding conclusions."

On November 5, U. S. Secretary of State Lansing notified the Germans that the Allies would make peace on the basis of the 14 points.

German emissaries met an Allied delegation headed by Marshal Foch in the famous railroad car in the Compiègne forest November 8. Foch gave them no room to doubt that they were in no position to ask anything of the Allies.

"What is this you desire, gentlemen?" Foch asked.

Erzberger, spokesman for the German delegation, replied they had come to receive Allied proposals for an armistice.

THE "URGENT" NEED
Foch told them the Allies weren't proposing any armistice, that they had just as soon finish the war on the battlefield. The Germans were non-plussed.

They mumbled something about their urgent need of ending the war.

"Ah," said Foch. "I understand—you have come to seek an armistice!"

The Germans admitted that it was indeed they who wanted to quit. Three days later the armistice was signed. Germany could get no more relief only slightly. The number of guns, trucks and other items of equipment which she was to turn over to the Allies were reduced. In some cases, Germany didn't have as many of these items as the Allies thought.

Birth Certificates Very Necessary Now

AUSTIN—Explaining the need for all Texas births to be registered through the bureau of vital statistics, Texas state department of health, Dr. Geo. W. Cox, state health officer, said in Austin today, "There are many reasons why every person needs a birth certificate. It is necessary for entrance to school, for the right to work for work in federal defense projects, to prove American citizenship, for entering military service, to prove legal age for inheritance of property, for proving claims of widows and orphans, for settlement of insurance, for right of admission to certain professions, for collecting compensation from the government, and for many other important activities."

In Texas, whenever a birth is attended by a physician, it becomes the physician's responsibility according to law to file a certificate of birth. There are, however, children born in the state without medical attendance, and it is the parents' responsibility to have the births registered through the regular channel.

The tremendous load of work done in the past two and one-half years by the bureau of vital statistics in effecting delayed registration and furnishing copies of birth certificates needed because of the war and its resultant changes in occupation and way of living has demonstrated conclusively that the registration of births at the time they occur is of great personal benefit to every individual.

Much of the delay and embarrassment to people in search of a delayed birth certificate could be entirely avoided by general recognition of the value attached to each individual having his own certificate of birth.

Uncouth or Not, Most Persons Are Cleaning Their Plates These Days

Back in the days of bustles and manglebar mustaches it might have been considered uncouth for a woman to eat every last bit on her tea plate, and she probably was the be-ruffled ruffian if she "licked the plate clean."

But nowadays the well-behaved person and all his relatives make it a point to eat all the food served to them in restaurants.

Could be that nowadays the women have gone into war work and have developed a bigger appetite along with the men, or it could be that a patriotic duty looms.

At any rate, the fact remains that diners are eating their meals down to the last crumb and drinking their beverages down to the last drop. Visits around town have shown this to be true in the restaurants as well as in the hamburger counter-style eateries.

During noon hours, dishes which were being cleared from the tables and carried to the kitchen, were watched and all that was seen left on the plates were perhaps a slice or two of dill pickle, bit of lettuce, bread crust or fat meat. In some cases, however, where large quantities of such things as spinach or eggplant were served, about half of

Public Is Urged To Keep War Bonds

WASHINGTON, Sept. 28—(AP)—Treasury Secretary Morgenthau has announced new facilities to make it more convenient for the public to cash war bonds were ready to function, but at the same time he expressed the hope that owners would not cash bonds except in cases "of absolute necessity."

Effective Oct. 2, more than 10,000 banks will be equipped to redeem immediately series E war bonds and series A, B, C and D savings bonds. The banks will make payment upon satisfactory identification of the applicant owner.
