Dewey Says He Will Cut Taxes After the War

ALBANY, N. Y., Oct. 4.—(AP)—His sights fixed on an annual postwar national income of \$150,000,000,000, Gov. Thomas E. Dewey stood committed today to a program of cutting peacetime taxes on individuals and businesses if the Republicans win in November.

The Republican presidential nominee, in a nationwide radio address (Mutual) last night, called for simplification of what he termed "our existing, complex, and complicated tax laws" which he said threatened to form "a road-block in the way" of postwar progress.

In his first, exclusively radio talk of the campaign, the New York governor asserted that the annual cost of government—considering the likelihood of a \$300,000,000 national debt and the necessity of maintaining "adequate armed forces"—would require federal levies far above prewar levels.

"But it is utterly impossible to suppose that we can support our government by levying heavy taxes upon a dwindling national income," he declared, and his campaign advisers are grouped near him in a five-story in the executive mansion.

"Our first aim," he continued, "must be to increase our national income by putting to work all of the productive resources of our country—industry, labor and agriculture. It is far better to have a low tax rate with a national income of \$150,000,000,000 than a national income of \$70,000,000,000 and a high tax rate, as we had under the new deal at its peak time."

His first step, Dewey said, would be to urge revision of personal income tax to a rate of 25 percent on income as little as \$1 a week no longer has an income tax taken out of his pay envelope.

"However necessary these taxes may be in wartime," he declared.

See DEWEY Page 8

Layoff Pay for War Workers Is Sought by FDR

WASHINGTON, Oct. 4.—(AP)—President Roosevelt, signing two bills providing tools for the shift from war to peace, has served notice that his administration will promptly pay layoff benefits for war workers "no less fair" than that given farmers and returning veterans.

Mr. Roosevelt put his signature "with considerable reluctance" yesterday to the surplus war property bill which Surplus Administrator William L. Clayton has called unworkable. With less drastic action approved the demobilization act creating an office of war mobilization and reconversion.

But Mr. Roosevelt expressed his hope that congress will promptly rectify what he called deficiencies in the latter measure.

Still needed to complete the kit of reconversion tools, he said, are back-home travel pay for discharged workers; nationwide minimum standards of unemployment benefits and unemployment pay for federal employees.

As it stands, the bill is a "states-rights" measure, with the federal government guaranteeing the state payments by providing help when state funds run low.

Mr. Roosevelt said that "fair and generous treatment" for returning servicemen and reconverting industry had been provided, along with price support for farmers. "We should be no less fair in our treatment of war workers," he added.

Prompt congressional study of what the government will spend and do to help out the postwar job hunt has been promised by Chairman Doughton (D-N.C.) of the house ways and means committee. But it will wait until after elections when, as Doughton said, the air will not be polluted with political considerations.

Gay Nineties Show To Be Given at PAAF

Section I trainees at Pampa army air field who were members of the cast of the show, "You, Too, Can Fly," which played before GI and civilian audiences with success two months ago, will hold a "Gay Nineties Night" at 9 p. m. Thursday, in the local air base recreation hall with all local girls invited.

Arrangements have been made for the local belles to reach the field by special buses, which will leave the Pampa bus station at 8:30. Costumes in the gay nineties vein may be worn by the guests, and the girls may come as barnmaids, society women of the day, mill hands, or be dressed in any fitting manner for the event.

High spot of the evening will be the staging of an old-fashioned melodrama by the trainees. The field orchestra, temporarily labeled the "Boney Bums," and dressed suitably, will provide the background music for the melodrama and play for the dance which will follow. Refreshments will be served and prizes given for the most original costume.

Tokyo Talks Of Long War In Pacific

By LEONARD MILLMAN, Associated Press War Editor.
American warplanes, crowded into their only remaining air base in southeast China, maintained a constant attack on threatening Japanese columns today while U. S. bombers in the Pacific, operating from an ever-increasing number of fields, smashed "the most lucrative strategic target in the Pacific"—Borneo's Balikpapan oil center.

The plight of American airmen driven from half a dozen evacuated fields to the Liuchow airbase, about 100 miles from Tokyo, was broadcast in a radio speech today by Gen. Douglas MacArthur, who is expected to lead the Philippine invasion, announced 49 of his army and left huge fires raging at Balikpapan, Japan's "most important source of aviation gasoline and lubricating oils."

The liberators, from the 13th air force's "Bomber Barons", fought their way through 30 interceptors to blow 74 tons of explosives on the Liuchow airbase and the Parafin refinery. It was a record load for such distance. Seven interceptors and three Liberators were shot down.

MacArthur said that the action of the target curtails drastically and immediately the enemy's capacity to wage air and naval war and to move essential cargo.

In keeping with the recent surprising sorties of solitary navy planes over the southern Philippines, a single Liberator knocked out a coastal vessel, seven seaplanes, three bombers and a fleet of torpedo boats. American combat planes were reported taking off or landing on the crowded Liuchow landing strips at the rate of about one a minute. Japanese bombs attack the base every night.

Cholera broke out among thousands of refugees pouring through the town in a flight from Japanese columns advancing from the south-east and northeast. Most of the refugees came by train from the Kweilin area. Space in the packed trains was every inch.

Cholera broke out among thousands of refugees pouring through the town in a flight from Japanese columns advancing from the south-east and northeast. Most of the refugees came by train from the Kweilin area. Space in the packed trains was every inch.

Meeting Adopts College Petition

A real old-fashioned "town hall" type citizens meeting was held in the city last night when the proposed Pampa junior college was discussed and approved. Only one person of the 30 attending citizens expressed opposition to the proposal.

After three hours of discussion, with one exception it was the consensus that the proposed junior college would be beneficial to Pampa and surrounding territory, both from the educational, cultural and commercial standpoints.

One man declared he was opposed to the proposed college, or any other government that would bring about increased taxes. He declared he was one of the four biggest taxpayers in Pampa and that he would increase his taxes.

Shortly before the meeting adjourned, a motion was made that the group adopt the petition, already signed by 106 Pampa taxpayers, which was presented to the meeting and which had been prepared by the junior college sub-committee of the city planning group. The motion was adopted almost unanimously.

Prior to the motion, considerable discussion had been held upon the subject of what territory should be included in the junior college district. It had been explained that the junior college committee, composed of Travis C. Lively, chairman, C. P. Tucker, J. E. Murfee, Jr., W. B. Weathered, and William J. Smith, was recommending the same district as the present Pampa independent school district by having the same business office and school board operate both the junior college and local school system.

400 Attend Banquet For George Butler

HOUSTON, Oct. 4.—(AP)—Nearly 400 persons last night attended a banquet for George A. Butler, Houston, former chairman of the state Democratic executive committee, who was praised for his services to the Democratic party, to Houston and to Texas.

Former Gov. W. P. Hobby was guestmaster at the testimonial dinner, during which Butler was presented with a framed resolution "from the board of directors of the United War Chest of Texas thanking him for his work as first president and chairman of the chest."

Among the speakers was Gov. Coke Stevenson.

'AUTUMN'S FACE IS BRIGHT AND GAY'

Now that autumn's here again, it's nice to contemplate the blessings of the season. Pretty Marie Bresnahan, who took part in Chicago's harvest festival, adds life to this still-life of autumn's gifts.

Citizens Are Warned Of Dangers When Free Press Is Curtailed

Gov. Thomas E. Dewey, republican nominee for the office of president of the United States, has expressed his keen appreciation of the free press of America in this week-end aside as National Newspaper week.

"National Newspaper week," he said, "serves to call the American people to a re-examination and re-evaluation of the free press which serves them so well and which has contributed in so many important ways to the winning of the war."

Warning Americans of what has happened in other countries, he said: "As American troops help liberate Europe it would be well if every citizen of America would study what happened to continental Europe where the press developed very differently from that of America and Great Britain."

"We have mapped a program calling for 27,000 wells in 1945," said McWilliams, "of which 5,000 are to be wildcats."

This is 3,000 wells more than the 24,000 asked for in 1944. The 1944 total also included 5,000 wildcats.

We expect this year's goal of 21,000 wells to be reached, he said. To achieve the goal set for the drilling industry by the P.A.W. Warren S. Churchill of Tulsa, outlined the necessity of continuity of drilling.

Results of the continuity of drilling is reflected in the estimated increase of 362 rigs for 1944 over 1943," said Churchill.

Based on the completion rate in the first six months of 1944, Churchill said.

Son of Pioneer Is Dead at 91

DALLAS, Oct. 4.—(AP)—John William McMillan, whose father built the first two-story house in the city, died last night at the age of 91.

McMillan, a native of Rusks county, came to Dallas 23 years ago from Wimsboro.

Vast 1945 Well Drilling Plans Are Mapped Out

DRILLING PROGRAM CALLING FOR 27,000 wells in 1945 has been drafted by the petroleum administration for war.

R. McWilliams, director of production of the P.A.W. Wednesday morning informed the 300 contractors attending the American Association of Oilwell Drilling Contractors meeting here.

Results of the continuity of drilling is reflected in the estimated increase of 362 rigs for 1944 over 1943," said Churchill.

Based on the completion rate in the first six months of 1944, Churchill said.

Editor To Discuss Newspaper Week in KPND Talk Tomorrow

The public's role in maintaining a free press will be discussed by Tex DeWese, editor of The Pampa News, in a quarter-hour broadcast over KPND beginning at 11:45 a. m. tomorrow.

The radio program is being presented in connection with the observance of National Newspaper week.

All across the nation this week churches, schools, and civic organizations are recognizing the advantages of a free press in a democracy.

More than 1,500 newspapers in the United States and Canada are being honored this week by Kiwanis International through the award of certificates of citation.

He Joined Paratroopers for Excitement

LONGVIEW, Texas, Oct. 4.—(AP)—Pvt. Walter J. Dorman, 20, of Midland, Texas, volunteered for the paratroopers two years ago because he thought it would be adventurous, and he found all the excitement he had bargained for.

Holder of a presidential citation and the Purple Heart, Dorman is one of the latest arrivals at Harmon general hospital from France. A small silver star attached to his paratrooper wings shows that he was one of the first units to land in Normandy. He is the son of Mr. and Mrs. J. B. Dorman, box 1774, Midland.

"I volunteered for the paratroopers because I figured it would be exciting and adventurous," said Dorman.

After training he was sent to northern Ireland, then to England. One day the planes loaded and "we knew we were going into combat. I don't know why, but I wasn't really scared," he said.

Across the English channel the planes flew, then ten miles behind the enemy lines the jump signal came on.

"We had to jump at about 500 feet. When we hit the ground bullets were flying all around us," Dorman continued.

With hand grenades the paratroopers knocked out some enemy machine guns; then were scattered.

Alfred Smith Dies at 70 In New York City

NEW YORK, Oct. 4.—(AP)—Alfred P. Smith, 70, native of New York City's East Side, four-time governor of New York state and 1928 democratic presidential candidate, died today.

Death came to the man who made the Brown derby famous at 5:20 a. m. (CWT) in Rockefeller Institute, Dr. Raymond P. Sullivan, his physician, said lung, congestion and acute heart failure were the causes. He had been transferred to the institute Sept. 23 from St. Vincent's hospital where he had been treated for an intestinal and liver disturbance since Aug. 10.

Only last night a dozen red roses arrived at the hospital for him from President and Mrs. Roosevelt. It was Mr. Roosevelt, who nicknamed Smith the "Happy Warrior" when he nominated Smith for the presidency in 1928.

The close political and personal friendship between Mr. Roosevelt and Smith cooled, however, in 1936 when Smith took what he called "a walk" from Mr. Roosevelt and the Democratic party and supported Alf Landon for the presidency. He again opposed the new deal in 1940, stumping for the Republican candidate, Wendell L. Willkie.

In Washington President Roosevelt issued a statement in which he said "the country loses a true patriot in Smith's death. The President said in part:

"Al Smith had qualities of heart and mind and soul which not only endeared him to those who came under the spell of his dynamic presence in personal association but also made him the idol of the multitude."

Former President Herbert Hoover, who defeated Smith in the 1928 presidential election, paid this tribute: "Gov. Alfred Smith contributed a real part in building America. It was his personal association with me which left a mark on American life. He was a man of political campaigns, but he was as interested in his honesty of mind, in his fairness and his sportsmanship."

See AL SMITH Page 8

Committee Will Seek Adjustment

A committee has been named to settle the controversy concerning Gray county's refusing its 1944 war chest quota of \$18,432 as allocated at a recent district meeting.

The committee, composed of Judge Henry Arthur Ted and Mayor Harry Owen, will go to Austin Monday to confer with Justice B. L. Powell, chairman of the Texas War Fund Inc. in reference to the county's quota.

Gray county has strenuously objected to the alleged practice of allowing a few of the larger communities not to be figured in with the smaller counties, due to the fact that largest community and war chest districts have a separate quota, some of which were reduced in the current drive as much as 15 percent.

The committee advocates that quotas be based on a formula comparable with the war bond quotas which are worked out by government representatives after a scientific study of the financial ability of each community.

The war chest committee previously contacted Wayland D. Townsend, secretary and general manager of the War Fund of Texas, Inc., through a committee, who advised the Pampa and Gray county either accept the quota named or withdraw from the drive.

Gray county at present has rejected the quota but the committee of this county will seek an adjustment.

HE SEEKS OFFICE

TERRELL, Texas, Oct. 4.—(AP)—County Attorney Taylor Carlisle has announced that he will be a candidate for state senator from the sixth district to succeed the late Clay Colten of Palestine.

Some Gas Tickets Not Valid As Yet

Gray county war price and rationing office today issued a warning to filling station operators accepting "A-13" gasoline tickets, to tear only coupons marked "A-13" instead of tearing tickets across the top as was the custom on the expired ration tickets. Some tickets across the top of the sheet are not yet valid.

In issuing the warning to operators, Miss Lucile Douglass, chief clerk of the Gray county war price and ration office, pointed out that ration book holders would themselves be minus tickets from "A-13" when date of validity came if they permitted the operators to take these tickets.

Guerilla War To Be Fought Until Death--Goebbels

BULLETIN
LONDON, Oct. 4.—(AP)—German Propaganda Minister Paul Joseph Goebbels declared today that the Allies have opened an all-out offensive against Germany and that the Nazis are prepared to wage guerilla warfare to the death.

In a speech reported by the official news agency DNB and broadcast by Berlin, Goebbels said: "Our enemies have unleashed an all-out offensive on our frontiers of gigantic impact in order to win a speedy and, first of all, not too costly victory."

The propaganda minister said the Allies wanted to end the war in Europe before winter and before the November elections in the United States.

Fort Driant Taken by Third

U. S. Third army troops captured Fort Driant today in a head-on assault breaking the iron ring of fortifications before Metz and winning a dominating position from which point blank fire may be poured into the city itself.

The attack was begun late yesterday by flame-throwing doughboys after a tremendous artillery barrage had been directed against the fort, strongest in a chain of key defense bastions before Metz.

To the north, American First army infantry slugged farther into the Siegfried line as the offensive rolled into its third day. Lt. Gen. Courtney H. Hodges' troops slashed along and across the main northeast road from Aachen to Munchen Gladbach against fierce opposition. The first Nazi counterattack northeast of Aachen was thrown back in an hour's savage fighting.

Weather Hampers Air Support

Miserable weather all but obliterated air support in the sector, where the First Army has driven a hole north of Aachen and another at a point 12 miles to the south, below the city. The Yanks now hold strong positions at five other points on the outer crust of the Siegfried line.

On the Dutch front the only fighting of note was a brief, bitter Nazi counterattack north of Nijmegen where the Allied salient narrows toward the Neder Rhine. The British Second army beat them back.

A front dispatch said a 48-hour truce for evacuation of civilians was begun at Dunkerque at 6 a. m. today. The procedure was similar to that which preceded the fall of Calais. Berlin indicated an all-out attack on the city, scene of Britain's humiliating evacuation in 1940, had started with intense artillery fire just before the truce.

Russian troops surged from the foothills of the Transylvania Alps on a broad front into Yugoslavia, and should the pace be maintained, likely to strike Belgrade as viewed as possible by the weekend. Red army machinegunners, riding American jeeps with Yugoslav partisans as guides, drove west along the Danube yesterday to within less than 20 miles of the capital. The Germans were sent reeling from the Yugoslavia-Romania border and an area of more than 50 miles beyond the iron gate was freed.

Cleaning up in the North Baltic, the Russians seized the Estonian island of Hiiuma (Dago), one of two bastions commanding the approaches to the Gulf of Finland and Riga.

In Italy U. S. Fifth army forces drove forward on a 20-mile front. Pounding through tough resistance, Yank infantry smashed to within 15 miles of the city of Bologna.

There still was no official allied word of landings in Crete, but an Axis radio report said half the island's population had fled to the Greek mainland and been killed, wounded or captured by invading allied troops.

Neutrals Warned of Protecting Nazi Loot

WASHINGTON, Oct. 4.—(AP)—The United States and British governments have sent notes to neutral nations requesting that they prevent Axis leaders from "retaining their loot" or "financing the war effort" for their wealth in neutral territories.

The request for measures against protecting the wealth of "enemy governments, and the leaders and their collaborators" apparently went to all neutral countries except Argentina.

Officials said that although Argentina is the one nation about which most apprehension has been expressed with respect to future fascist activities, neither the British nor American request went to Buenos Aires.

Several changes have been authorized since last year in regulations concerning wearing of the uniform by enlisted men. The service cap or billed cap may be worn by enlisted men off duty. The grommet will not be removed from the cap. Regular issue service shoes must be worn on duty, but low-cut shoes can be worn off duty. When off duty, enlisted men will wear the service coat with the woolen uniform after retreat in the evening, and wool or khaki shirt may be worn.

Prospects in the Pacific

This is no more a mystery surrounding our current campaign in the Pacific. The consolidated forces of General MacArthur and Admiral Nimitz are advancing step by step, almost calling the shots, toward the Philippines, the greatest Pacific prize short of Japan itself.

Liberation of the Philippines will be a terrific blow to Japan in the strategic position, as well as prestige. And our gains will be correspondingly great. We shall then have two barrels loaded at the heart of Japan. Manila is less than 1900 miles from Tokyo, well within the announced range of the B-29 super-bomber. It is within 700 miles of the China coast.

Japan is clearly facing her doom, but that doom does not seem imminent. Most Allied military leaders foresee a long and bitter fight when the great force of America and Britain can be concentrated on the Pacific War. For China's strength is waning as ours grows in the island campaigns.

The Chinese army is still brave, but increasingly weary. It is still wretchedly armed and supplied. And there is little we can do about it at the moment. Until we can, and that day now seems distant, Japan will probably continue to tighten her grip on China, no matter how badly she fares elsewhere.

Some military minds admit the possibility of Japan's continuing the war for some time even with the homeland lost. They retain Manchuria and her Chinese territories. Most of these military minds now appear to believe that there is no China to drive every Jap out of the occupied territory. So we shall need speed as well as power, before Japan's grip on the continent becomes too paralyzing.

Yet General MacArthur, who probably knows the enemy as well as anyone has a new and encouraging view. He says that Japan is already doomed by the deterioration of her high command and officer material, and by the possible public reaction to it. This is important, for it may give us new propaganda weapons for an attack which up to now has been extremely difficult because of Japan's culture and national psychology.

"When public opinion realizes that its generals and admirals have failed," says General MacArthur, "the revolution in Japan will be thought to be terrific. Therein lies the basis for ultimate hope that the Japanese citizen will cease his almost idiotic worship of the military and adjust his thoughts along more rational lines."

Therein may also lie the strongest hope for a speedy victory.

Reception Committee

Impulsive Adolf! He couldn't wait for the Allies to call on him at Berchtesgaden. He had to take command of his armies and rush forth to meet them.

The Nation's Press

A RELATED CONCLUSION

In his second and possibly his last acceptance speech Senator Truman talked of the vital importance of keeping experienced men at the head of the government, and he talked of little else. A careful perusal of his published oration reveals that he used the word "experienced" no less than eight times. And his speech was a fairly short one.

SEED CORN

In the early days of my practical usefulness on a farm, a show-off cousin of even age visited us every year when, in Riley's words, "the first was on the pumpkin and the fodder in the shock." Not so poetical perhaps, but we always had a few porkers fattening in the pen also. The "smart" had shared my quarters and tried (I thought) to help me with my errands which included feeding the pigs.

HE WAS A TYPE

In defense, the smart-Alec argued that it made no difference; he had fed the pig corn, just like all other corn, which had no value above any other rubbish in the crib. Special species, careful cultivation, critical selection, painstaking care and future problems, together with "the smart" were all lost on him. He saw only the convenience of the hour. I hope he has changed but I know some grown men who act that way now.

We have people in America trying to do what things that are not possible for a long time after Victory-in-Europe day under the Administration's present reconversion program. Not a single workable plan for restoration of this vital industry, which provides direct employment for seven million people and millions of jobs in allied lines, has yet been put into effect in Washington.

LET WORK THRIVE

As I write this, victory in the European theatre of war is expected any day. Most forecasters say we may look for it when the frost is on the pumpkin. When it comes we must guard the safety of our seed corn. We must jealously protect those priceless sparks of life from which jobs grow. Energy, education, humane endeavor, however desirable these will be feeding Uncle Sam's seen corn to the pigs.

LOOK TO THE FUTURE

Bureaucratic braysters can torment small employers until they choke American enterprise by forcing government into it. Moon-struck mandarins can tie up the wheels of commerce by pampering pet license-holders. But the provident people of the United States want something spread to-day that will grow tomorrow and prosper in years to come.

We still have our smart-Alec relatives, able to make short work of valuable things; able to kill a year's hope in a reckless moment and argue that it's right that it must not happen. We need good seed for our post-war employment crop. Representative, constitutional government; Government by law and not by a man; a directed, freedom to own property and operate business in the hope of profit! These are a few kernels that must live with freedom lives.

with the Communists," says Stolberg. "His political tactics have always been determined by considerations of a purely personal expediency. In the A. L. P. he defended the Communists till 1939. The Stalin-Hitler pact strained but did not break their relations. And in 1942 he once more became the champion of the Communist against the man who had lost out in Washington as the administration's No. 1 labor man, was designated as determined to come back as a national political figure. In spite of Phil Murray's dislike of him he managed, by allying himself with the Communists, to get the highest office under the government or business to the most ominous groups in society.

"Fortunately, this adventurer is less dangerous than he seems, for he is the typical man Machiavelli who almost always outsmarts himself."

After detailing the preliminaries of last spring's fight in the A. L. P.—which he said the Reds "could not win" and "Stolberg continues": "The A. L. P. will be just another open Communist auxiliary. With the National Maritime Union under Comrade Joe Curran, the transport workers under Mike Quinn, the laborers under Comrade Ben Gold... it might just as well join the disbanded Communist party, which is an active affiliate of the dissolved Communist 'International.' After which, Stolberg says Hillman will inevitably be thrown out because he is not a Communist.

THE SACRIFICIAL LAMB

NEWS BEHIND THE NEWS

The National Whirligig

Just won't work. The things Washington should do to prevent a possible postwar collapse, which may follow in some degree Hitler's defeat, are not highly technical or complex matters. Common sense, business judgment and coordination between Government and industry, according to the wise kings, are the only requirements.

Take the simple question of "clearance space." The Detroit plants are cluttered from floor to roof with heavy machinery and supplies which have become obsolete by contract cancellations or changes in weapons. Tanks needed on the Normandy beaches differed radically in design and functional purpose from the ones storming the Siegfried Line. The material we fight against the Japs will vary from both kinds.

Indeed, the officials who ought to know insist that War Mobilizer James P. Byrne's heralded plan to reduce military production by forty per cent after V-E day will throw thousands out of jobs without creating new occupations for civilians. It will, they explain, release manpower and materials, but it will not make the manufacturers to turn out a single automobile for eager purchasers. It will not even permit them to make parts and sub-assemblies for a tank lamp—for truck and passenger vehicles now falling apart every day.

MACHINERY—Here is why!

Packard builds Rolls Royce engines for British and American fighting planes—the Mustang, P-48, Hurricane, Spitfire, etc. These are tremendous pieces of machinery, weighing about fifteen hundred pounds, or more than half as much as some cars do.

Obviously, the cranks and other sections of this great engine cannot be utilized in an ordinary automobile. But almost all the key plane parts are brought together by the assembly-line process. You may reduce the amount rolling off the conveyers by forty per cent, as Mr. Byrne proposes, but the unused machinery cannot be turned to making riveters. It remains merely dead and unproductive.

The men and women who now operate it will lose their jobs. There is a head waitress in one of Washington's leading hotels who has her own size-up on many of the so-called "big" men. Her estimate of the political and economic "mob" which has been allowed to run rampant through the government is something to be read with care. She tells about one southern congressman who, when she goes to take his order, invariably gives her a grin and says, "Honey, you know what I want—a little bit of you on toast."

MAYBE IT'S HERE:

Leaves From The Editor's Notebook

Pink mink coats, lilac mink coats, blue mink coats. These are not the products of an alcoholic imagination, but, according to Miss Anne L. Ash of the United States Department of Commerce textile unit, are expected soon from scientific cross-breeding. They are not here now, but are on the way. And had news for the man of this family) they won't be cheap. No minks!

Around Hollywood

(While Erskine Johnson is on vacation, his column is being written by "guest conductors" from among his friends and fans in Hollywood.)

By LESTER COWAN

(Pinch-Stripling for Erskine Johnson)

When 130,000,000 or more Americans can't be wrong it is a little difficult for a producer of motion pictures to be right. And that's the spot I'm finding myself in today.

The suggestion of the late General MacArthur to make Ernie Pyle's book, "Here Is Your War," into a motion picture. The general figured that most of the branches of our armed forces had been glorified in one way or another in pictures and that it was about time the infantry got a break. The infantry did, in Pyle's book. We announced several months ago that a picture was to be made based on "Here Is Your War." We would call it "G. I. Joe" and Ernie Pyle would be a central character in the story.

In the intervening months we have received thousands upon thousands of letters from G. I. Joes, all over every prospect, but it is not necessary that newspaper readers as to who should play Ernie Pyle.

EVERYONE HAS A CHOICE

We've licked our story problem, but we haven't yet licked the job of casting that role. As far as I can judge from the mail, every reader of Ernie Pyle has a choice. And even those citizens who don't get a chance to send their column have seen his picture in various newspapers and magazines, or have watched him in newsreels, and they all are extremely definite in their choice of possible players. It will not go before the cameras until we have the one right personality.

Ernie Pyle is more than a great war correspondent; he is an American tradition.

MANY WILL TRY IT AGAIN

by Sigrid Schultz

As an American newspaper correspondent in Berlin from 1919 to 1941, Sigrid Schultz saw and reported the events that led from World War I to World War II. And she saw the behind-the-scenes preparation for the coming "war-in-peace" that she warns may culminate in World War III. This is the story of Germany's plans to win the peace, plans that even now are being put into effect.

WITH his fellow plotters, the Fuehrer-prisoner decided to write down and analyze his experiences; then to work out in detail methods of carrying on their plan. For this latter purpose he summoned to Landsberg all the experts eager to co-operate in supplying the learning and technical knowledge of the conspirators.

HITLER had seen the canons of the law adroitly perverted to help him during the Munich trial. If he were clever enough, therefore, he could win his victory legally. Plucking the ripest and highest legal brains he could reach, Hitler accumulated in time quite an impressive staff of lawyers, Jew

WAR TODAY

China's fiery rebuttal of British Premier Churchill's recent assertion that she received a "lavish" American military help is understandable, although the term "lavish" is relative and one could make out a fair case for both sides.

The cold truth is that, despite America's fine contribution, China hasn't enough military material of any sort to dust a fluke.

Establishment of an adequate supply route into China will require a major operation. It might mean an Allied amphibious invasion of the south coast—a great undertaking it might be achieved by invading China from Indo-China into China proper. Once a route is opened up, a great amount of shipping will have to be assigned to the task of transporting supplies from the other side of the world.

Aged Grocer To Get

Free Trip to Series

MULTNOMAH, Ore., Oct. 4.—(AP)—Nobody expected service from Nelson Thomas, 74-year-old grocer, during the Major league baseball season, especially when the games were being broadcast.

He almost shut up shop during last week end when the Detroit Tigers and St. Louis Browns were slugging it out for the pennant. Today he did shut up shop, and his customers were responsible.

"Do you have to wear your service ribbons to football practice?"

Nazis never denied the existence of concentration camps on their own soil; they made no secret of crimes committed in countries conquered by the Germans in the name of the German people. A subtle form of coercion can hardly be conceived. It brings with it a terrifying fear of retaliation which in turn, acts as an incentive to fight.

SINCE the Nazis would be content with nothing less than the world, geopolitics was a vital subject in the curriculum at Landsberg. For hours on end, Professor Haushofer lectured the "students." He brought other professors to help formulate new plans for the conquest of the world in peace and in war. As Hitler's knowledge of geography enlarged, he would call for Germans or nationals from the different countries under study, to sound out local possibilities for his future expansion.

Many of Hitler's lieutenants had been born abroad; others had useful family connections outside Germany. They pooled their news of developments. Rudolf Hess, born in Alexandria, had not reached Germany until he was in his teens; the German Ball, Alfred Rosenberg, pointed to the riches of Russia, to the vast stretches of land that could be opened up to German exploitation; Ernst Hanfstaengl, the half-American, had studied at Harvard.

Hanfstaengl kept up a wide acquaintanceship in American diplomatic and artistic circles, while he had lost some of his whole organization of Germans living abroad.

NATURALLY, since the question of race ranked high in the Nazi dogma, it also figured prominently in the Landsberg discussions. Those built up the whole idea had been born or lived abroad could inform him on the friction which already existed between the different racial groups. They had long hours evolving ways to increase and exploit this friction to their own ends.

And questions of race or nationality cannot be separated from the Jewish problem.

Developing this technique, Hitler was to involve the entire German nation of 65 million people as his accomplices in crime. The

Business Outlook Reported Bright

DALLAS, Oct. 4.—(AP)—The general outlook for business, agriculture and industry in Texas was extremely bright in August and early September, the Monthly Business Review of the Federal Reserve Bank of Dallas shows.

The dollar volume of sales at department stores in August was 24 per cent above that of a year ago and 22 per cent greater than that of the preceding month. For the two weeks ending September 16, sales were 21 per cent higher than those for the comparable period last year.

Sales of women's and misses' ready-to-wear and accessories, which represented half of the total dollar sales reported, were practically at the same level as last year.

Furniture sales were up 8 per cent. General rains throughout the district late in August and early in September benefitted late crops, provided needed moisture for fall plowing and seeding operations, revived livestock ranges and replenished stockwater supplies. Farmers have made good progress with the seeding of winter wheat.

The September report of the department of agriculture estimated an increase of 47,000 bales of cotton over the United States, but the Texas forecast remained at 2,450,000 bales, which is 373,000 bales under 1943.

Total non-agricultural employment in Texas, after showing a substantial seasonal decline in January, has remained relatively stable, and during recent months has been at about the same level as during the corresponding period last year. Manufacturing employment has shown relatively little change during the

past year but there have been substantial shifts between plants and among industries.

The year's Fabrics of member banks in this district averaged \$29,670,000 during August, about \$34,000,000 higher than in the preceding month and \$41,000,000 above the average for the first seven months of the year.

Although reserve balances reached an all-time peak of \$588,000,000 on September 15, the average for the first half of the month was about the same as during the corresponding period in August, the Monthly Business Review said.

Deposits during August also showed a further rise, and there was a substantial conversion of reserve-exempt war loan deposits to customers deposits which is customary between war loan drives.

Oil Price Raise Again Is Sought

WASHINGTON, Oct. 4.—(AP)—Chairman E. O. Thompson of the Texas Railroad Commission may testify today before a closed session of the house small business committee, which may recommend a crude oil price increase supported by a subsidy to refiners.

The meeting is primarily for committee adoption of a recommendation to submit to Economic Stabilizer Fred M. Vinson, Chairman Wright Patman (D-Tex.), said he expected the group, which recently gathered new data at a hearing in Texas, to renew its plea of several months ago for a crude price hike of 35 cents a barrel.

The Texas Railroad commission has backed operators in their request for a raise in price ceilings. Indications pointed to a committee recommendation that the price increase be absorbed at the refinery level with subsidies being paid to individual refiners able to show that the increased price of the crude made it impossible for them to operate at a profit.

The office of price administration, in turning down earlier pleas of both the congressional committee and the petroleum administration for war for a boost in crude price ceilings, contended it would set a precedent in granting higher price levels to a particular industry and would result in higher gasoline and oil prices to consumers. The subsidy proposal would offset partially this objection.

Sorghum Grain Will Be Stored in Bins

MANHATTAN, Kas., Oct. 4.—(AP)—About 75 carloads of wooden bins have been ordered shipped from Kansas to Texas so farmers of the Lone Star state can have them for storing grain sorghums. Lawrence Norton, state chairman of the agricultural adjustment agency, said.

Additional shipment of bins from Kansas will be made until the supply is exhausted or the need of Texas is filled, Norton said.

OVERSEAS VETERAN RE-ASSIGNED

First Lt. Jack H. Walstad, son of Mr. and Mrs. G. C. Walstad of 405 E. Kingsmill, has been assigned to the staff and faculty of the field artillery school at Ft. Sill, Okla.

Lieutenant Walstad is a graduate of Texas A. & M. college where he was a student before entering the army, and at which time he received his ROTC commission. He took part in the Tunisian and Italian campaigns, of which he is the recipient of the Purple Heart.

Lieutenant Walstad attended the officer's basic course in November, 1942, at Ft. Sill.

ARTILLERYMAN

Don Jones is now stationed at Camp Blanding, Fla., with the 75th field artillery battalion, the outfit having served 21 months in the Aleutian Islands before returning for duty in the States under the army's rotation policy.

This battalion, commanded by Maj. R. H. Camp, is now located with the infantry replacement training cen-

ter to provide overhead artillery support for the infantry trainedes doctrinal problems in the bivouac areas.

Don Jones is the son of Mr. Stella Jones, 409 N. Rider. He is a graduate of Pampa high, having graduated in 1940. Before entering the army in November, 1941, he was employed by Dunigan Tool and Supply.

VETERAN

T/Sgt. William W. Bell, son of Mrs. Ray Bell of 421 N. Carr, has been enrolled as a student in the instructors indoctrination unit at the Galveston army air field. The school, utilizing the skill and knowledge of veterans in aerial warfare, trains combat men to serve as instructors at various crew training bases throughout the country.

Overseas for 7½ months, T/Sgt. "Bill" Bell participated in 50 missions against the enemy in the E. T. O. He flew as a gunner and engineer to win the air medal.

Entering the service on June 3, 1942, the sergeant returned to the States August 4.

MINISTER'S SERVICES

DALLAS, Texas, Oct. 4.—(AP)—Funeral services were scheduled at 4 p. m. here Tuesday for Rev. Frederick E. Graham, Sherman, retired Baptist minister, who died in a local hospital Monday.

The Boulder reservoir in Arizona and Nevada, 115 miles long, has a capacity of 30,500,000 acre-feet.

Retired Salvation Army Officer Speaks

Adjutant Ona B. Hayes, retired Salvation Army officer, now living in St. Petersburg, Fla., was the guest speaker at the citadel Sunday evening.

"The adjutant's review of her life's work was very interesting," said Capt. Murphy. "The adjutant volunteered for overseas service during World War I, and was not accepted, which disappointed her very much. However, she has led a very busy life, and still is most active despite her "retired" status, helping out in her home town corps," he said.

Adjutant Hayes will return home his week after visiting girl-hood friends for several days.

Yanks Destroy Nazi U-Boat Off Brazil

NATAL, Brazil, Oct. 4.—(AP)—A German submarine was sunk off the Brazilian coast Sept. 28 by an American plane. It was the first U-boat destroyed in these waters in recent months.

Vice Adm. Jonas Ingram, U.S.N., decorated the crew of the plane yesterday.

Have a Coca-Cola = Eat, drink and enjoy yourself

... or adding refreshment to a backyard barbecue

One of the secrets of any successful home barbecue is plenty of ice-cold Coca-Cola. Everybody enjoys its life, sparkle and refreshment. Plan to have frosty bottles of "Coke" ice-cold and ready to drink. When you shop, remember to ask for Coca-Cola. Everywhere, Coca-Cola stands for the pause that refreshes,—has become a high-sign of hospitality in the American home.

It's no cinch, cinch, cinch to make a pinch, pinch, pinch

The "heavy foot" has been replaced by great headwork in Wartime driving. And that's a great hint for the future.

"Scorchers" are rare. The cops have to look thrice—and even then what they mostly see is skilled, ticket-proof driving that earns their respect. For as experts they know that's really how to get there, without taking it out on your car. You too, knew it all the time, but war "alerted" you to it—and you're staying alert. Now be still more alert to the perils of engine acids. Those can be curbed by one brainy move... by having your engine OIL-PLATED.

Changing to Conoco Nth motor oil—at popular price—is all it takes to own an OIL-PLATED engine. One special characteristic of OIL-PLATING is the acid-resistance that costly pioneer research developed. This acid-fighter—OIL-PLATING—becomes surfaced to your engine's fine inner finish as closely as chromium plating could be. That's made possible by Conoco Nth oil's special ingredient whose magnet-like nature holds OIL-PLATING direct to metals—square in the path of the acids always created by every engine explosion. Contact between acids and metals is checked. Then so is corrosion.

And now here looms the season of lowest engine temperatures—unable to clear out acids sufficiently. So they could now do their worst—but not with your engine safely OIL-PLATED by Conoco Nth motor oil. Change at Your Mileage Merchant's Conoco station. Today. Continental Oil Co.

Galehouse Matched Against Cards' Ace Cooper Today

Selection Upsets Plans of Dopesters

ST. LOUIS, Oct. 4.—(AP)—Luke Sewell's St. Louis Browns, the boys from the other side of the tracks, dared to match Mort Cooper, the Cardinals' ace with Denny Galehouse, a veteran curve ball artist who didn't win his first game until July 20, in today's opener of the first all-St. Louis World Series.

Despite the record books and the season averages which give the National leaguers the "paper" edge, the pendulum of popular support appeared to be swinging toward the underdog Brownies.

The odds makers, however, still followed the figures for the price on today's game was 1 to 2 and on the series 2 to 5 with the Redbirds favored.

Selection of Galehouse upset the Dopesters who had expected Sewell to lead with Nels Potter. It was a certainly the Cards would see plenty of hot breaking stuff backed up by excellent control and cunning pitching equipment.

Cloudy skies and a continual threat of rain hovered over the final dress rehearsal at sportsman park but the weather man promised improved conditions for today's big event. Eager bleacher fans started a line before noon yesterday and club officials, with all reserves sold, counted on 35,000 for the first game scheduled for 2 p. m.

Both Sewell and Southworth said they would stick with their regular lineups, although the Browns' boss reserved the right to change his mind in right field where he has named Gene Moore over Milk Byrnes. Billy the kid said he would insert Augie Bergsma in left if Danny Litwiler wasn't ready.

Pitching plans past today were strictly a jumble. Sewell parried off questioners with "you can't tell, it might rain all winter" and Southworth also was taking it one game at a time. An infected tooth forced Sig Jakaski to miss the final lineup and may alter turns on the Brownie staff.

Cooper hasn't pitched since Sept. 24 but worked in hitting practice on

Cardinal Twirler

Morton Cooper, Cardinal ace twirler who will pitch the opening game of the World Series against Denny Galehouse.

Four Texas Service Teams Unscored On

Texas Service Football Standings

TEAM	W	L	T	Pts	Opp
Amarillo air field	2	0	0	40	2
Blackland air field	2	0	0	51	0
Randolph field	1	0	0	59	0
Bergstrom field	1	0	0	33	0
Ellington field	1	0	0	7	0
Lubbock air field	1	0	0	27	32
South Plains air field	0	1	0	0	34
Bryan air field	0	2	0	0	66
Galveston air field	0	2	1	6	89

By The Associated Press
Five Texas service football teams remain undefeated moving into the final week of play and two of them clash in this week's feature game.
Blackland army air field of Waco, which has taken two decisions, meets Bergstrom field of Austin, which opened the season last week with a victory. They play at Austin Saturday night.

The other unbeaten teams—Randolph field Ellington field and Amarillo air field—also have games. Randolph plays Texas of the Southwest conference. Ellington takes on Bryan air field at Beaumont and Amarillo air field engages Lubbock army air field at Amarillo.

Blackland last week beat Bryan air field 27-0 while Bergstrom was downing John Tarleton college 33-0. Randolph field raced over Rice 59-0. Ellington field played a scoreless tie with Galveston air field and Lubbock air field beat Lubbock army air field 19-0 in the first of two engagements between these two teams.
Galveston air field is the only Texas service team not having a game this week.

South Plains army air field, which lost to Texas Christian 34-0 last week, goes to Arlington Friday night to play the North Texas Aggies. Hondo army air field opens the season Thursday against the Rice reserves at Yoakum.

They're All Going Out To The Ball Game

ST. LOUIS, Oct. 4.—(AP)—Weatherman Harry Wahlgren took no chances of making a false prediction on the atmospheric conditions for today's opener. He went on his vacation and left the forecasting job up to his assistant.

Although this is the third straight series for the Cardinals, eight of their 22 eligible players will be competing in the classic for the first time. Pepper Martin, the old "Wild Horse of the Oage" is tops in series experience.

This makes his fourth. A federal grand jury in Iowa voted a week's recess yesterday. U. S. District Attorney Harry Blanton explained the jurors wanted to be sure to see the ball games.

Denny Galehouse, the Browns' starting pitcher for the first game, has a lifetime major league record of 81 victories and 88 defeats. His opponent today, Mort Cooper owns 103 triumphs and 56 defeats. Galehouse broke into the big leagues with Cleveland in the fall of 1935. Cooper came directly to the Cardinals at the end of the 1938 season.

Sports Scribe Says Browns Will Take 4 of 6

ST. LOUIS, Oct. 4.—(AP)—J. Edward Wray, 71-year-old sports editor of the St. Louis Post-Dispatch, the only one of 68 baseball writers in the pre-season Associated Press poll to pick both the St. Louis Cardinals and Browns to win the National and American league pennants today picked the Browns to triumph in the series.

"A red-hot team against one that is cold," Wray said. "I figure the Browns will win four out of six games."
Wray sides with a majority of the baseball writers covering the series. Twenty-six of the 61 polled by the Associated Press who expressed opinions favor the Browns, most of them within six games.

Peanut oil has been made fine enough to lubricate expensive watches.

Harvesters Planning Victory Over Indians

Rain or shine the Harvesters are hard at work, practicing formations that will reap them a victory over the undefeated, unscored on Quannh Indians Friday night.

Indian Coach Bill Howorth has said that his team was light, but Harvester scouts witnessing the 26 to 0 Indian victory over the Hollis, Okla., grid eleven last Friday night, added that from 10 to 15 pounds could be easily added to the Quannh squad.

Coach Otis Coffey is taking no chances, and is at work this week to perfect the formations grid fans have cheered when they clicked on the Harvesters grid field.

The Harvesters have lost two of their three games in the 1944 grid season. They defeated the Phillips Blackhawks by a score of 13 to 0 in the initial game, later losing to Midland by a score of 18 to 13 and then to the Oklahoma City Central high school Cardinals by a score of 7 to 0.

Fans will long remember the game against the Cardinals for they saw a scoreless game until the Cardinal fullback, Les Ming grabbed one of the Harvesters passes and trotted down Harvester park gridfield for 42 yards to be spilled within the smell of pay dirt. What the Harvesters packed in their line that held the Cardinals for three downs before Ming finally scored the goal cannot be termed other than brick wall resistance, for even the all-American high school back could not penetrate for the required yard and a half.

The Harvesters have been clicking this season as a team. There has been very little outstanding playing on the part of any individual, and fans will again see an eager squad of Harvesters this Friday night for Coach Coffey has announced that he intends to start with the same identical line that opposed the heavy Cardinals last week.

Coach Coffey has also stated that officials of the game will be the same, with the exception of Ab Curtis, Curtis, nationally known syndical time referee of the famous Rose Bowl grid classics, has been referee for the last two Harvester grid games. His post will be filled this week by Lt. C. M. Brown, of Childress.
Lt. "Fran" Francis, brother of Nebraska's all-American 1936 back, Sam Francis, and Lt. L. D. Meyer, son of T. C. U. Coach "Dutch" Meyer, will be the other officials. Lieutenants Francis and Meyer

Southwesters Bear Down On Flag Chase

By The Associated Press
Southwest conference football clubs today bore down in practiced sessions with the opening game in this series and two international contests slated for the week-end.

Texas Christian and Arkansas play for keeps at Fort Worth Saturday when the two teams inaugurate the campaign for the conference championship. At Fayetteville, the Parkers, who dropped a 19-0 game to Oklahoma A and M last week, had a rigorous session yesterday and Coach Glen Rose said he had hopes of beating T.C.U. this week. At Fort Worth, Coach Dutch Meyer and the Horned Frogs stressed their passing attack, which helped them down the South Plains army airfield, 24-0, Saturday.

The two intersectional games find Rice, trounced by Randolph field 30-0 Saturday, meeting Louisiana State in Houston Saturday, and the Texas Aggies journeying to Oklahoma City to play Oklahoma. The Aggies' coach Homer Norton plans full-scale workouts this week, as Rice resumed practice for L.S.U. after a rest yesterday due to naval drilling. Bob Butchovsky, Aggie back, to see a Houston specialist Saturday for a jaw fractured in Saturday, Victorious 27-14 game over Texas Tech, and may have to wear a special head gear if he plays anything soon.

Coach Dana Bible of the Texas Longhorns said at Austin that because of minor injuries his team received in defeating Southwestern 20-0 Saturday, the club won't take any of this week in preparing for the Randolph field game.

Jimmy Stewart's Southern Methodist Mustangs resumed hard work today for their game at Dallas Saturday against Southwestern. Stewart said the Mustangs needed to show a smoother offense than they had in downing North Texas Aggies last week, 49-0.

Problems Will Solve When Smoke Clears

CHICAGO, Oct. 4.—(AP)—There'll be a lot of questions settled when the smoke clears and the gridiron battlefields of the mid-west Saturday evening.

The big 10 problem will be at least one step closer to solution when unbeaten Illinois and Purdue settle their autumn's business. Just what the once all-powerful Minnesota Gophers, Ohio State's Buckeyes and the Iowa Hawkeyes may have to toss into the championship hopper will become known as the three swing into their conference schedules.

And two intersectional struggles between non-league foes will provide more or less of a yardstick of power to judge future events on the midwest's grids—Tulane vs. Notre Dame at South Bend, and Iowa Pre-Flight vs. the Superbombers of the second air force at Lincoln, Neb.

To top it off, Michigan and Minnesota meet in their traditional struggle for that "little brown jug" at Minneapolis.

will come from the Fort Worth army air field, while Lieutenant Brown will come to Pampa from the Childress army air field.

As in the past, tickets for the game Friday will be on sale at all drug stores prior to hour of play.

CUB PITCHER
TULSA, Okla., Oct. 4.—(AP)—Hank Wyrse, Chicago Cubs pitcher, has been ordered by his draft board to report for induction October 16.

Tiger Ducais Go To Paper Mills

DETROIT, Oct. 4.—(AP)—The Detroit Tigers may have lost the American league pennant, but they've found a talent for their 1944 World Series tickets.
If the club gets permission for such disposal from the Internal Revenue office, and assurance that the tickets will be ground up, about two tons of them will go to the Wayne county newspaper salvage committee.

If anyone cries on my shoulder over lend-lease I always say that for every \$100,000,000 we gave them we saved 100,000 soldiers' lives. Even if we never get any of it back it will be money well spent.—Harry S. Truman.

DEWEY

(Continued from Page 1) "there can be no excuse for them to peace. Dewey made no direct reference to proposals to increase wartime taxes above their present levels, such as President Roosevelt's request to Congress last winter for an \$2,000,000,000 boost in levies.

TOKYO (Continued from Page 1) not occupied by humans was filled with household goods and rice. Loss of Luchow might affect the stream of some 20,000 tons of military supplies that President Roosevelt reported were being flown into China each month.

Virginian Moves In as First Ace LONDON, Oct. 4 (AP)—Capt. Henry W. Brown of Arlington, Va., has taken the lead among American fighter pilots now active in the European theater by destroying his 50th German plane, the U. S. Ninth air force announced last night.

Service Award Will Be Made to Clergy

Designation of Sunday, October 8, as "Recognition Day" for churches which provided clergymen to serve as chaplains in the navy has been announced by the navy department. Presentation of a certificate of recognition, bearing the name of the church and a letter of appreciation from James Forrestal, secretary of the navy, will be made to each church which provided a clergyman to minister to the spiritual welfare of naval personnel.

EXCITEMENT (Continued from page 1) "Later," said Dorman, "I went several miles to a town named St. Mere Eglise. Part of my outfit had already taken it."

Honolulu Defenses Tamed Complacent HONOLULU, Oct. 4 (AP)—The army still considers Honolulu "subject to suicidal attacks by the enemy."

Clara Slavens, 45, Died Here Yesterday Clara Elizabeth Slavens, 45, died yesterday afternoon in a local hospital following an extended illness.

AL SMITH

(Continued from Page 1) that he won the esteem and personal friendship of every citizen. Smith had not taken an active part in politics in recent years, devoting himself instead to management of the Empire State building and aiding in bond drives and other civic activities.

After serving as sheriff in New York county, he became president of the board of aldermen, polling a tremendous vote.

As the Democratic presidential nominee in 1928, he made his 21st and last campaign for public office. When Smith reached the apex of his political climb in 1928, he faced four personal issues—he was a devout Roman Catholic, a member of Tammany Hall, an anti-prohibitionist and a product of the East Side.
