

REDS ENTER EAST PRUSSIA

One Man Is Killed Following Argument over Boxing Match

Fruit Vendor Held for Oil Rigger's Death

Kenneth W. Conway, 24-year-old fruit vendor, died in a local hospital this morning as a result of wounds received in an argument over a boxing bout between two seven-year-old boys, E. G. McEntire, 68, produce dealer, and apartment house operator, from whose 38 caliber pistol the lethal shots are alleged to have been fired as released on \$5,000 bond.

Dewey Says He'll Fill in the Gaps

By J. W. DAVIS Associated Press Staff Writer
Roosevelt supporters, with Senator Ball (R-Minn.) in their ranks, plugged the foreign policy hard today, while Governor Dewey set out to expound on the same hot dispute tonight in Ball's home state.

The republican presidential nominee, who will speak from Minneapolis at 9:30 p. m., will ask for "fill in the gaps" of President Roosevelt's New York address on America's part in the peacetime world.

According to investigating officers of both the Gray county sheriff's department and P. M. Folger, an argument ensued when McEntire intervened in a boxing match between Conway and McEntire.

The officers further stated that Conway went through his apartment, which was adjacent to the produce stand operated by McEntire, coming out on Cuyler street, and started walking unarmed, in the direction of the stand, McEntire, according to witness statements, told Conway that if he came further he would shoot, but Conway continued.

Embracing his 38 revolver, McEntire fired five shots at Conway. Only two of the bullets, however, took effect, one entering the chest, pierced Conway's right lung, leaving the body just below the right shoulder. The other bullet grazed Conway's skull causing fracture.

Never regaining consciousness, Conway was rushed to the Worley hospital where his condition was termed "critical" until death came this morning.

ANOTHER PHILIPPINE ISLAND IS INVADIED

Tank Column Is Ferried Across Narrow Straits

By LEONARD MILLMAN Associated Press War Editor
American invasion of Samar island in the Central Philippines was reported today in a front-line dispatch from Leyte island to the Melbourne (Australia) Herald.

The dispatch, passed by military censors, said a tank column had been ferried across narrow San Juanico strait from a point north of Tacloban, provisional capital of the Philippines on Leyte.

Establishment of a bridgehead on Samar at this point would put U. S. tanks alongside a road leading to within 15 miles of Luzon island, on which Manila is situated, Samar, one of the largest Philippine islands, is separated from Luzon by San Bernardino strait.

The report, unmentioned by other correspondents or in Gen. Douglas MacArthur's communique, coincided with Japanese radio reports of new sea-borne bombing raids on the Manila area.

On Leyte American troops struggled through almost neck-deep sludge, fought off vicious enemy counter-attacks and pounded against stubbornly resisting Japanese to keep the advance moving on all sectors.

Already, MacArthur announced, his invasion forces have liberated 11 towns on Leyte and completed conquest of three small islands guarding the entrance to Leyte gulf where they landed a week ago.

Progress Is Made In Netherlands

By WILLIAM L. RYAN Associated Press War Editor
A powerful Red army offensive has overrun 410 German villages and penetrated at least 19 miles into East Prussia, Moscow announced today, and in the west Allied forces hammered out new gains in the Netherlands against 'S' Heretogenbosch, bastion shielding the escape route for the Nazis in northwest Holland.

The Germans said the Third White Russian army of Gen. Ivan D. Cherniakovsky had driven 35 miles inside the Junkers homeland, while in the north Gen. Ivan Bagramian's First Baltic army had brought Tilsit under shelling range and had attempted a crossing of the Niemen to attack the key fortress city.

Bagramian's army has cleared all Mémel territory except the port itself, and has massed his forces along the Niemen, northern frontier of East Prussia, from the Baltic to Jurbarkas in Lithuania.

The Russians also gained in Hungary and Yugoslavia yesterday during a day that brought announcement of seizure of 1,500 towns and villages all the way from the Arctic Norwegian border to the southern sectors.

Three British columns were driving against 'S' Heretogenbosch in Holland. One spearhead penetrated the northernmost outskirts, another was along a canal 4,000 yards east, and a third, driving from the south, was 5,000 yards from the city.

Other Canadians held Brekens on the Schelde Estuary, Germans in the area have been pocketed. Elsewhere on the 500-mile western front there were no major changes.

British patrols in Greece have occupied Lamia, 83 miles northwest of Athens and have pushed north of the town. In Italy U. S. Fifth army troops drove within four miles of Castel San Pietro, big Po valley junction town on the Rimini road, 13 miles southeast of Bologna. Other Americans took a village seven miles southeast of Imola.

Gasoline Question Raised Over Trip Of Sen. O'Daniel

FORT WORTH, Texas, Oct. 24.—District OPA Director J. H. Kuitgen declined today to rule on the eligibility of Senator W. Lee O'Daniel for gasoline to make a 3,000-mile speaking tour of Texas, saying no application for that purpose has been filed with any county ration board.

Until the question arises—and it appeared it might not—there is no necessity for a ruling, Kuitgen said.

He added that "when and if an application for gasoline is filed by O'Daniel, we will apply the regulation to it, which I am sure is what the senator would want us to do."

Closed to put the finishing touches on a radio talk that will open his speaking tour, O'Daniel could not be reached immediately, but friends here indicated no OPA issue would arise. They indicated O'Daniel would depend upon automobiles owned by his friends in various cities for transportation during the tour.

Lee Tiley, a leader of the Texas regulars, under whose aegis O'Daniel will make the swing, said there is no necessity whatever for O'Daniel to apply for gasoline for the tour.

Arrangements have been made here for several friends of O'Daniel to drive this afternoon to Wichita Falls in their own cars, with the senator accompanying them, for the first public rally of the tour. A sound truck also will be sent to Wichita Falls for O'Daniel's use.

The question of gasoline for the tour was raised by E. W. Calvert of Hillsboro, chairman of the Hill county community service panel, a pro-Roosevelt leader and permanent chairman of the September 23 Pampa democratic convention in Dallas. Calvert wired Kuitgen to ask "under what provision of the OPA regulations gasoline for truck and accompanying automobiles is to be made available for the senator's tour of Texas covering 3,000 miles when the tour confessedly is non-political."

College Petition Is Submitted to School Directors

A petition, signed by 386 qualified tax-paying voters of the Pampa independent school district, for the creation of a junior college district, was filed last night with the Pampa independent school board.

The petition was presented to the board by Travis C. Lavelly who served as chairman of a special committee appointed by the post-war planning committee of the Pampa chamber of commerce.

In presenting the petition, Lively declared the committee had not been in a hurry in its investigation of the junior college movement. He stated that the committee had taken plenty of time to get all the information possible from other towns, from various school officials, several businesses in the other towns, and had sponsored a citizens' free discussion of the project on several occasions.

In the discussion that followed the presentation of the petition, it was stated that the committee was making a strong recommendation that the school board keep in mind the necessity of vocational courses which would better prepare local boys and girls who will not go to other colleges, to fully prepare themselves for the various jobs in the Panhandle oil and gas fields, in local machine shops, and other industries.

The committee also stated that considerable thought had been given to the territory to be included in the district, and it was the members' judgment that there was no better territory available.

The PAW, acting yesterday, authorized wells to be drilled on 20-acre spacing in the zone above 3,400 feet and on 40-acre spacing below that depth. Previously the latter spacing was in effect at all depths.

The order also provides that each of the zones may be developed independently of the other. It leaves to the state regulatory body the requirements as to the distance between wells and the distance between wells and property lines.

BOARD OF DIRECTORS, 3RD FLEET

Under overall command of Adm. William F. Halsey, Jr., the seven admirals pictured above direct the slashing attacks of the U. S. Third Fleet against Japan's inner defenses in the Pacific. Second in command is Vice Adm. W. A. Lee, Jr., of Natick, Ky.; spark-plug of the fast Carrier Task Force is Vice Adm. Marc A. Mitscher, with Vice Adm. J. S. McCain, former deputy chief of naval operations, in direct charge of carrier units. Other Third fleet commanders are Rear Admirals Frederick Sherman, R. E. Division, G. F. Bogan and H. B. Sallada.

Pampa Chest Chairman Says Campaign Is Lagging

Pampa's Community Fund drive showed its first signs of lagging today, according to J. W. Garman, one of the co-chairmen of the general campaign.

At noon, Garman reported that only \$4,500 of the \$21,000 goal had been raised. This was approximately \$800 more than the total reported yesterday.

"The trouble is not with the contributors," Garman said, "but it rests with the workers who are not making their calls."

Solon Says FDR Deprived Army Of Vital Goods

WASHINGTON, Oct. 24.—Rep. Engel (R-Mich.) declared today that "it is apparent that President Franklin Roosevelt deliberately withheld from Congress vital information during the critical pre-war years and deprived our armed forces of much equipment."

This charge of suppressing "amazing and detailed reports" on growing German air power two years before Pearl Harbor came shortly after an army board sent to war Secretary Stimson a report of the Japanese attack on Pearl Harbor. The report, like one completed by navy investigators last week, bore high secrecy classifications.

Stimson and navy Secretary Forrestal will review the two records, their departments said, and on the basis of the assembled facts determine whether martial proceedings are to be instituted against any individuals.

Engel, a member of the House appropriations committee, set up two specific charges in a statement. 1. As early as November, 1937, Mr. Roosevelt "received one of the most amazing and detailed reports on the growth of German air power ever to come from an American military attaché. This intelligence report gave detailed information in grave warnings to this country, but not one word of its contents was ever revealed to the Congress."

Rumors Persist of Landing in Norway

LONDON, Oct. 24.—(AP)—Recurring rumors of Allied landings in Norway have been heard in London for more than a month, but always without official confirmation, and a new outbreak of reports today was met by the same official silence both in London and Stockholm.

Communiques have reported an increase in Allied bombings of Norwegian sites used by the German forces in the occupied country.

IT'S BORROWED

Modeled on baby's triangular-shaped basic garment, the swim suit, modeled above by Pat Fordey in New York's showing of 1945 bathing suits, is an all-wool two-piece flowered job, topped by adjustable drawstring bra.

Alleged Willkie Letter Printed

INDIANAPOLIS, Ind., Oct. 21.—(AP)—A letter purportedly written by the late Wendell L. Willkie in which he said he had decided himself to the removal of the present administration from office "was made public here today."

The 1940 republican presidential nominee's letter, written on Willkie's stationery and dated May 5, 1944, said: "X x x I am and have been dedicated to the removal of the present administration from office, but I firmly believe the only way this can be accomplished is for the republican party to measure up to the responsibility it is seeking."

"No one can be more anxious than I am for the party to so measure up and no one will work harder than I will to bring this about, x x x."

The Willkie letter, made public today, was addressed to Earl L. Jolly, general agent for an insurance firm in Evansville, Ind., who submitted a photostatic copy of it to Eugene C. Pulliam, publisher of the Indianapolis Star. The letter was published today in the Star.

The date of the letter was a little more than a month after Willkie withdrew as a GOP presidential candidate this year after failing to get any pledged delegates in the Wisconsin primary. At Omaha last April 5, he said: "It is obvious that I cannot be nominated."

Changes Made in Well Spacings

WASHINGTON, Oct. 24.—(AP)—Oil-well spacing regulations in 45 West Texas counties have been modified by the petroleum administration for war to permit simultaneous development of shallow and deep zones in these areas.

The PAW, acting yesterday, authorized wells to be drilled on 20-acre spacing in the zone above 3,400 feet and on 40-acre spacing below that depth. Previously the latter spacing was in effect at all depths.

The order also provides that each of the zones may be developed independently of the other. It leaves to the state regulatory body the requirements as to the distance between wells and the distance between wells and property lines.

Postcard Survey of Pig Pens Planned

WASHINGTON, Oct. 24.—(AP)—A post-card poll of the nation's pig pens is about to get under way. Statistics of the sty will be gathered next month by the agriculture department with the help of rural mail carriers. From the returns, the department's experts expect to be able to make an intelligent guess of next year's pork prospects.

In no sense a census, the semi-annual spot check will be made among about 15 farmers along each rural route in the United States.

WAR IN BRIEF

Philippines — Americans drive ahead on Leyte against bitter Japanese resistance; Melbourne Japanese American forces have established bridgehead on Samar island.

Western Front — British storm into outskirts of 'S' — Heretogenbosch; Canadians, holding Brekens, strike to clear Germans from Schelde Estuary.

CITY IMPROVEMENT: Survey of Sewer System Here Asks \$524,000 Expenditure

Consulting Engineer Joe E. Ward, of Wichita Falls, has studied the sewerage system of Pampa and has recommended repairs and renovations, which he estimates would cost the city approximately \$524,000. The survey has been submitted to the city commissioners for their study.

In order that the people may have some idea of what the report contains, the Pampa News will present in the next several issues a series of articles dealing with the report and recommendations.

WOTTA WAR!

Maybe the AEF Automobile Club or the Allied Chamber of Commerce is responsible. At any rate, keeping tanks like the one in the photo above, which reads "YOU ARE ENTERING AN ENEMY COUNTRY KEEP ON THE ALERT", is not warranted in this area.

Census Army to Invade Farmers For Information

WASHINGTON, Oct. 24—(AP)—Right after Jan. 1 an army of 26,000 men and women—armed with 193 questions—will set out to visit every farm in this country to get basic information about agriculture.

They are census-takers. The only figures they want are farm figures. They will ask questions like these: Name of the owner, number of people living on the farm, number of people employed, wages, crop and livestock production, and value of land, buildings, machinery.

This census has been taken every five years since 1940, but this census probably will be one of the most important ever taken.

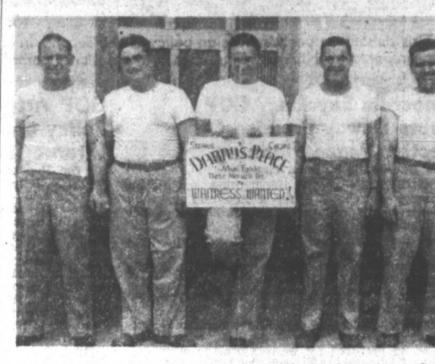

Here are a couple of reasons why: This year U. S. farms are in peak production, outstripping everything that went before and for good reasons: when Americans have money—they have more than they ever had—they spend much of it on food; the armed forces have to be fed; and food is being shipped abroad.

Between now and the next census this peak production may not be necessary and probably won't be. The government will have to know something about its farms and farmers in planning for those leaner years ahead because farm prosperity is tied in with the rest of the country's well-being.

The individual farmer himself may never study very hard the records of this census of agriculture. But the information will be valuable to people like these:

Congressmen who pass the laws affecting farmers, the policy makers of the department of agriculture, the technical advisers in the state agricultural colleges, the county farm agents, the farm paper editors and leaders of farm organizations.

Good Old Days Have Returned for Outfit—There's Plenty to Eat

These army cooks, feeding a depot repair squadron at an advanced airbase of the Fifteenth Air Force command, and feeding themselves, too—total together 1,100 pounds on the hoof.

Left to right: Corporal Fern J. Ray, of Hackleburg, Alabama; Sergeant Clifford E. Criss, of Pine City, New York; Staff Sergeant Dan E. Knowles, of Emory, Texas; Private Fred E. Keeler, of Anaheim, California; and Sergeant Alvin R. Howard, of LeFors, Texas.

ITALY—"Keep 'em crying." That was what the army cooks of a depot repair squadron said in the lean days of North Africa when the ground crews—who kept 'em flying—lived on C rations most of the time—with no seconds and only one piece of bread per meal. Soldiers

have a way of making fun of privation. Joking about it helps them to get on with it better.

But things have changed since the "keep 'em crying" days. Now, at an advanced airbase of the 15th Air Force service command, the men have gained back, almost to a man, the 10 to 20 pounds they lost, and more—especially the cooks.

Five of these culinary cupids together now total 1,100 pounds on the hoof, and are responsible for comments, on the part of the men they feed, like: "Boy, in the next war I'm gonna be a cook." Or: "Gravy job. Think of all the seconds on desert you get."

These big boys, however, don't feel that way about it at all, at least that's what they say. But maybe they're protecting a good thing. Anyway, they never cook before they entered the army; they all say they'll never cook after they get out. They also maintain that their weight has little to do with how much they eat.

It's just being around food all the time that does it, say Staff Sgt. Dan E. Knowles, mess sergeant, son of Mr. and Mrs. E. A. Knowles, Route No. 2, Point, Texas.

"That's right," said Pvt. Fred E. Keeler, husband of Mrs. Alice Keeler, 440 S. Fresh street, Anaheim, Calif. "It happens by a process of osmosis, I guess."

"It's sort of mysterious," agreed Pfc. J. J. Ray, corporal, of Hackleburg, Ala., son of Mr. and Mrs. Pulmer Ray, of Hackleburg. "Now can you honestly say that you've ever seen the cooks eating much?"

The majority of the men agree that they have seen the cooks eating scarcely anything at all, but since they were not wasting away, the men supposed...

"Oh, no," said Sgt. Clifford E. Criss, of Pine City, N. Y. "I don't want to think that. It's just that everything we eat sort of turns to fat, and then we work so hard that it becomes hard and we weigh a lot for that reason."

"It is really hard to explain," said Sgt. Alvin R. Howard, son of Mr. and Mrs. Roy Howard, of LeFors, Tex. "I guess it has something to do with food, though. There's always more in it than meets the eye—all of these dieticians and calory experts say."

SEWER (Continued from Page 1) Its sewer system and disposal plant. Five principal factors in this system are: features of sewerage pipes, disintegration of manhole walls, and general unsatisfactory operation of the sewerage disposal plant.

History of Construction The present system was installed in 1928, and had an estimated 15 years of life at the time Pampa's sewerage consists of a system of collecting sewers, a lift station, an outfall sewer, a sewerage disposal plant, accessory manholes and lamp-holes. It was constructed in three stages: the original system; the 1928 improvement program; and subsequent extensions. The system, according to figures, is far below the ordinary needs of present Pampa.

The original system consisted of sewer serving what is now the business district and a small portion of what is now the residential area north of the Santa Fe railway. It included a short 10-inch outfall sewer and a disposal plant located near the creek less than a mile north, and northeast of the Gray county courthouse, in what is now a well-constructed residential area.

The 1928 improvement program included extensions of sewers to all developed parts of the city, both north and south of the Santa Fe tracks, and the construction of a new sewerage disposal plant. On the north side, a large main was constructed along the creek with sub-mains and laterals to all areas in the north portion of Pampa; a 15-inch outfall sewer was constructed to new sewerage disposal plant site. In the south portion of the city the construction included a system of collecting sewers; a 12-inch main running eastward down a small creek some 3,500 feet to a lift station; a concrete sewerage lift station; a concrete electric motor driven sewerage pumps, and a 12-inch discharge sewer running from the lift station northward under the railroad tracks and on to a junction with the 15-inch outfall sewer on the north side. The new sewerage disposal plant was constructed at a site approximately two miles farther from the city than the original plant, and the old plant was abandoned.

Mainly About Pampa and Her Neighbor Towns

Among the out-of-town guests attending services Sunday at the First Baptist church were Mrs. Ray Hughes, Brownfield; Mrs. M. R. Britton, former member, Brownwood; James E. Whitley, Seattle, Wash., who is a guest in the home of Mr. and Mrs. L. H. Anderson, and Miss Imogene King, Memphis, Tex.

INVASION (Continued from page one)

mention of land action in the 14-mile gap between American spearheads at Dulag and Palo. Invading forces inched inland from Palo against strong resistance blocking the advance to the northern portion of the valley road. Flanking forces beat off a counter-attack at high cost to the Japanese.

Ten of the liberated towns lie in a narrow area seven miles long and three miles wide reaching from Palo to Tiel-ban, temporary capital of the legal Philippines government. Advance units have pushed three miles beyond Taoban against Nipponese units withdrawing to the northwest.

The Philippines advance was slow, but caused sufficient concern in Tokyo for a naval commentator to concede "Japan is now on the defensive" and for the cabinet to be called into session to "deliberate upon current problems."

The problems include land-based bombers which smashed again at Iwo island, 750 miles south of Tokyo; Adm. William F. Halsey's Third fleet, still unchallenged in the Western Pacific; and submarines preying on Nipponese ships beyond the reach of air power.

Loss of the submarines Herring and Golet, each carrying a crew of 65 men and a famed commander of undersea warfare, was announced yesterday by the navy. Thirty-two U. S. submarines have been lost since Pearl Harbor.

Bitter fighting was reported on the southeast China front on either side of Kweiping, 78 miles southeast of Luchow, U. S. airbase and objective of the Nipponese offensive. Chinese counter-attacks southwest of Kweiping reportedly took a heavy toll of Japanese.

Tokyo radio said the 14th U. S. airforce has intensified its activity in China, adopting mass bombing tactics in indirect support of the Philippines invasion.

Tokyo also reported the Aleutian-based planes renewed its strikes at the Kuriles, north of Japan, bombing Paramushiro and Onnekoko.

tan islands in daylight sorties. A Manila broadcast of raids on Luzon island airfields today would indicate that Adm. Marc A. Mitscher's carrier forces are continuing attacks in coordination with land-based bombers hammering Philippine airfields and ports to the south to shut off any Japanese plans to bring aid to the 20,000 Nipponese troops on Leyte island.

Churchill To Give Accounts of Talks

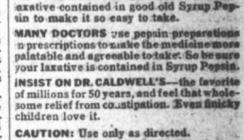

LONDON, Oct. 24—(AP)—Prime Minister Churchill told the house of commons today that he would make a "short statement" Friday concerning his meetings with Premier Stalin in Moscow last week.

He was cheered as he took his seat on the government bench for the first time since returning from the Soviet capital.

British sailors often call themselves "merry matelots."

How Sluggish Folks Get Happy Relief

WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "sinners", and help you feel bright and chipper again.

DR. CALDWELL'S is the wonderful laxative contained in good old Syrup Pepsin to make it so easy to take.

MANY DOCTORS use peppin preparations as prescriptions to make the medicine more palatable and agreeable to take. So be sure your laxative is contained in Syrup Pepsin.

INSIST ON DR. CALDWELL'S—the favorite of millions for 50 years, and feel that wholesome relief from constipation. Even finicky children love it.

CAUTION: Use only as directed. DR. CALDWELL'S SENNA LAXATIVE CONTAINED IN SYRUP PEPSIN

RATION CALENDAR

(By The Associated Press) MEATS, FATS, ETC.—Book four red stamps A8 through Z8 and A5 through L5 valid indefinitely. Stamps K5 through P5 valid Oct. 29 and good indefinitely.

PROCESSED FOODS—Book four blue stamps A8 through Z8 and A5 through R5 valid indefinitely. Stamps S5 through W5 valid Nov. 1 and good indefinitely.

SUGAR—Book four stamps 30 through 33 valid indefinitely for five pounds each. Stamp 40 good for five pounds for home canning through Feb. 25, 1945.

SHOES—Book three airplane stamps 1 and 2 good indefinitely. A new stamp will be validated November 1 and good indefinitely with the others.

GASOLINE—13-A coupons in new book good for four gallons through Dec. 21. B-4, C-4, B-5 and C-5 coupons good for five gallons.

ALL NATURE PREPARES FOR WINTER - HOW ABOUT YOU ?

In preparation for his long winter nap, nature provides the whimsical BEAR with the best "grease job" imaginable... a deep, warm layer of fat which keeps his "motor" ticking smoothly till spring.

THE BLACK BEAR TELLS YOU IT'S TIME FOR WINTER CAR PROTECTION

Bears "hole up" for the winter. Their problem is simple. A hollow tree trunk... a convenient cave and they never roll out till spring. You can't do that. Neither can your car. It has to roll out every day and take you places, no matter how tough the going.

That's why your car deserves a thorough check-up right now! Remember, this is the 4th War Winter it will be serving you. Why not ask your Plymouth, Dodge, De Soto or Chrysler dealer to look it over? He has tools to test and adjust it. He has factory-engineered and inspected parts. And his experienced mechanics know what to look for, how to correct little troubles before they become serious and costly.

Protect your car against freezing weather. Phone now for an appointment ahead of the last minute rush. Get your dealer's advice on what should be done. He knows best! CHRYSLER CORPORATION Parts Division

Harvesters Mop Plans For Sure Defeat Of Brownfield

Five District 1-AA Conference Tilts

ENTERING their first conference game of the 1944 season, the Pampa Harvesters plan defeat over the Brownfield Cubs when the game gets under way in Brownfield Friday night.

Pampa and Brownfield clashed here in their District 1-AA conference tilt last year and the Harvesters rode to victory by easily running up a 26 to 6 defeat over the Cubs.

Brownfield, playing four games this far this year have seen no defeat. They tied their first tilt with Lamesa by a 6 to 0 score and have been coasting through all of their remaining games with nothing to stop or hinder them. The Cubs defeated Seminole by a 38 to 2 tally, beat Levelland 13 to 0 and took Hobbs, New Mexico 12 to 7 last Friday night.

The Cubs, entering the conference for the first time last year rolled up a nice record for themselves, even upsetting the hard and fast Lubbock eleven, but then came Pampa and the Cubs, and then just around the corner, on the following weekend lies the unmitigated clash with the Amarillo Golden Sandies. The Golden Sandies are beside their guns to give the Harvesters a warm reception this year. They plan revenge for the defeat they saw from the hands of the Harvesters in 1943, but the Harvesters are worried very little about the match.

Pampa has as good chance to win the ball game as the Golden Sandies, but action with all the extras will be exhibited before the final gun and the deciding score has been recorded.

The Harvesters in entering their conference tilts this weekend have five games ahead of them. Two of the five will be played out of town with the remaining three played on home soil. They meet, after this weekend, Amarillo in Amarillo in a Saturday afternoon game, Lubbock, Berger and Plainview. All of these teams have been tough competition for their opponents this year.

Couch John H. Bost is planning revenge for the embarrassing loss the Harvesters received last year, but the Harvesters are taking no chances with the conference games, and are playing on a take all basis.

Couch Ole Coffey has been drilling his men in the finer arts of grid tactics this week with an eye on winning the game between the Harvesters and the Cubs, and then just around the corner, on the following weekend lies the unmitigated clash with the Amarillo Golden Sandies. The Golden Sandies are beside their guns to give the Harvesters a warm reception this year. They plan revenge for the defeat they saw from the hands of the Harvesters in 1943, but the Harvesters are worried very little about the match.

Randolphers Hold Seat For Top Team

TEAM	W	L	T	Pts	Opp
Randolph Field	0	0	200	0	
Hendon Field	3	0	0	93	12
Amarillo Field	3	0	0	121	18
Albington Field	3	1	1	98	92
Blackland Field	3	1	0	82	19
Beaumont Field	3	1	0	82	19
Lubbock Air Field	3	2	0	92	83
Galveston Field	1	2	2	26	89
Baytown Field	0	8	0	14	95

By The Associated Press Randolph Field's Ramblers meet the Third Air force of Charlotte, N. C., in this week's feature of service football in Texas and the conviction grows that if the mighty men of the West Point of the Air are to fall this is the time.

The Third Air force has quite a football team. It isn't rated as highly as Randolph, hasn't received half the publicity, and doesn't appear to be as strong as the Ramblers, who are rated the greatest gridiron aggregation ever to play in the Southwest. But anyway, Randolph should finally find enough opposition to show what it really has.

Sparkling the Third Air force is Charlie Trippi, who played in the Rose Bowl for Georgia. It has carried the Gremlins to five straight victories—31-0 over Charleston coast guard, 45-0 over Chatham field, 22-0 over Fort Benning Third Infantry, 19-7 over Georgia pre-flight and last week 29-0 over Cherry Point marines.

The game will be played at San Antonio Saturday night and it will be one of the nation's top gridiron encounters for the weekend.

Randolph took over leadership in Texas service football last weekend when the Ramblers whipped Camp Polk, La., 67-0 to run its point total to 206 against 6 for the opposition, while Amarillo air field was losing to the Norman, Okla., naval air station 19-12.

Hondo air field, the only other unbeaten service team, engages Ellington field Friday in another feature game. Hondo, coached by Byron Rhorne, former Dallas high school mentor, last week raced over John Tarleton college 47-6. Ellington field upset Bergstrom field of Austin 20-13.

Other games on this week's schedule: Wednesday—Ellington field vs. Rice B at Houston. Saturday—Bryan air field vs. Blackland air field at Waco, Bergstrom field vs. Arkansas A. & M. at Austin, Galveston air field vs. John Tarleton college at Galveston, Amarillo air field vs. South Plains air field at Amarillo, Lubbock air field vs. Fort Bliss anti-aircraft gunners at Lubbock.

Seabiscuit Sweats It Out

Public relations counsel Fred A. Purner enthuses at prospect of more race champions in flesh at Santa Anita with resumption of racing Dec. 30. It's only a statue, but Seabiscuit was only horse in park for two years, during which time plant was first a Japanese internment camp and then Ordnance Training Center.

Notre Dame Rated As Nation's Best

NEW YORK, Oct. 24—(AP)—For the thirteenth consecutive time over a two-year period the Notre Dame football team rates as the country's No. 1 eleven in the Associated Press poll, but this time the Irish margin is a mere eight points.

Loss of a single first place vote and its points would have dropped Notre Dame into second place behind Army in one of the tightest ballot battles the nine-year-old poll ever has produced.

Notre Dame, unbeaten this season, garnered 49 first-place tickets and 917 points. Army, likewise unscathed, was tops on 30 votes and finished with 909 points to be followed by Randolph Field, first on 23 and Ohio's State civilians with 14. The flyers collected 853 points to 790 for the Buckeyes. The four-team had identical positions last week.

The South Bend Ramblers were first a week ago with 60 designations as the country's best, compared to 22 for Randolph Field, 12 for Army and four for Ohio State. Since then, however, Notre Dame spent a torrid afternoon defeating Wisconsin, 28 to 13, while Randolph Field crushed Camp Polk, 67 to 0; Army handled Coast Guard with greater ease, 76 to 0; and Ohio State knocked off the mature Great Lakes outfit, 26 to 6.

The leading teams on a point basis with each first place vote 10 points, second nine, third eight, etc. (first place votes in parentheses):

Top Ten		
Notre Dame (40)	917	
Army (30)	909	
Randolph Field (23)	853	
Ohio State (14)	790	
Georgia Tech	589	
Iowa 7/8-flight	547	
Pennsylvania	269	
North Carolina Pre-flight	269	
Purdue	153	

Second Ten: Fourth Airforce 109.

Texans Take First Place In Big Rodeo

NEW YORK, Oct. 24—(AP)—Texans took three first places at last night's performance of the Madison Square Garden rodeo.

Manuel Enos of Fort Worth won the bull riding contest, Kid Roberts of Strong City, Kan., was second and Dick Garfield, Scotsdale, Ariz., was third.

Buck Dowell of Sundown, Texas, took away first place in bareback bronc riding, Fred Baskdy of Denver was second and Hank Mills of Montrose, Colo., was third.

In wild cow milking, Texans were the whole show, with N. A. Pitcock of Aspermont, first, Tom Taylor of Spofford, second, and Trby Mundy of Shamrock, third.

Other results: Calf-topping—Won by Buck Sorrells, Tucson, Ariz., 214 seconds; second, John Bowman, Oakdale, Calif., 222; third, Jack Shaw, Roswell, N. M., 272.

Saddle-bronc riding—Won by Raymond Ivory, Hayward, Calif.; second, Manuel Enos, Fort Worth, Tex.; third, Claude Morris, Moreland, Okla.

Steer wrestling—Won by Gene Rambo, Shandon, Calif., 5.5 seconds; second, Glenn Tyler, Modesto, Calif.; third, Hugh Bennett, Colorado Springs, 6.4.

Late Humorist's Son Killed in Germany

WITH THE U. S. FIRST ARMY NEAR AACHEN, Oct. 19 (Delayed)—David Lardner, son of the late humorist Ring Lardner and correspondent for the New Yorker magazine, was fatally injured today when the jeep in which he was riding struck a mine near Aachen.

Russell Hill, correspondent of the New York Herald Tribune, suffered a broken rib, cuts and bruises. The jeep driver was killed.

Lardner had joined the First Army press corps only a few days ago on his first war assignment. Hill is a veteran of the African campaign.

There is nothing that takes the place with the soldier of news from home.

—Gen. Joseph W. Stilwell.

SPORTS for Victory

Gridders Want No Part of Randolphers

By HAROLD V. RATLFF Associated Press Sports Editor

DALLAS, Oct. 24—(AP)—Football teams over the country don't want any part of Randolph Field it seems—that is, teams lucky enough not to already be on the Ramblers' schedule.

Fort Worth was trying to get a strong opponent for Randolph in the game staged for army-navy relief there last Sunday. They called another heralded service outfit.

"Our schedule already is filled—thank God," said the official contacted.

And still another coach who has viewed the greatest teams of all time lends his praise to the rollicking ramblers.

"I think I saw the Chicago Bears at their best," says Jimmie Stewart of Southern Methodist. "At least they were world champions. They were superb but honestly, I believe the Randolph team is better than they ever were."

North Texans are willing to believe Jimmie after watching the Ramblers against Camp Polk at Fort Worth. Seldom did a Rambler miss a tackle but if he did there were three fellows behind him who didn't. And tangle-dangle! The late Francis Schmidt would have taken notes for a week on those boys. You should see how they pull their lateral passes. Three fellows run in single file each waiting until the one ahead may be tackled. They pitch the pigskin like a basketball.

So you're good at picking football winners, huh?

Well, look over the record of Dick Freeman of the Houston Chronicle last week.

Dick picked Texas to win 20-0 (score was 18-0); took Texas Christian to beat Texas A. and M. 13-7 (that was the score exactly), and selected Rice to down Southern

Methodist 20-14 (score was 21-10). Freeman, it is understood, is quite mortified over granting S. M. U. for more points than it made—and underestimating Rice by one!

From Dwight Leverett of the Galveston Tribune comes word of Raymond Ransome of Galveston high school. Raymond, playing his second year with the Tors, did this against Port Neches: Returned a punt 67 yards for a touchdown in the first period; ran 28 then plunged 7 for another.

FUNNY BUSINESS

"Frankly, I don't think they're getting anywhere!"

U. S.

Aussies Express Gratitude to US

PERTH, Australia, Oct. 24.—(AP)—Prime Minister John Curtin has expressed the deep gratitude of Australia to United States forces and their commander-in-chief, Gen. Douglas MacArthur.

"Now that the great bulk of United States forces have moved from the mainland of Australia," Curtin said, "I offer them our sincerest and most grateful appreciation."

"The hopes and prayers of all Australians will be with these fighting men wherever they go to strike the common enemy."

'A' Card Holders Cut Consumption of Gas

DALLAS, Oct. 24.—Mr. and Mrs. A. Carr Texas have cut their consumption of gasoline approximately 400,000 gallons since rationing went into effect December 1, 1942, the Texas Mid-Continent Oil and Gas association has estimated today.

"Gasoline sales to civilian motorists as a whole have dropped from an average of 121,879,500 gallons per month in the year preceding rationing to 104,225,000 per month during the restricted-use periods," the association said. "The amount of the average monthly cut-back of 17,654,500 gallons was borne chiefly by the A card holders since many thousands of other motorists have received extra gas to carry on work essential to the war effort."

"At fifteen miles per gallon, the reduction of 400,000 gallons represents six billion miles less driving—equivalent to 241,000 times around the equator."

"Since rationing went into effect, Texas has produced 14,116,936,931 gallons of which the State Comptroller reports 2,183,157,000 gallons, or about 15.4 per cent, went to civilians in Texas. The United States Government bought 3,108,650,930 gallons, or 22 per cent, a total of 5,291,807,930 gallons, or 37.6 per cent, in August of this year—a jump of 13,000 per cent. Civilian consumption dropped from 133,696,000 gallons in December, 1941, to 111,392,741 in August, notwithstanding the additional gas allotted to private and public vehicles for war-effort use.

"Gasoline bought in Texas by the federal government in December, 1941, was only 1.5 per cent of the total sales, compared with 70.8 per cent in August, 1944."

The 1943 tuberculosis death rate for the United States was 42 per 100,000 as compared with 47 in 1939.

The number of satisfied customers on our prescription files is an indication of accuracy. Two registered pharmacists on duty at all times.

HERE IS THE PAC IN ACTION

Sidney Hillman Is Dynamo of CIO-Sponsored Drive To Get Out Vote—Preferably for Frank Roosevelt

Chairman Sidney Hillman, right, sparkplugs strategy conference of PAC leaders.

By EPIE KINARD
NEA Staff Correspondent

NEW YORK, Oct. 24.—The much-touted and discussed political action committee is working at white-hot speed to sell voting—and incidentally Roosevelt—to the people of America between now and November 7.

Optimism prevails at PAC's national headquarters in a midtown skyscraper building where sparsely furnished offices are scattered out-the-vote posters designed to go on billboards and in union halls, relieve drabness. Exception to the bareness of the working quarters is Chairman Sidney Hillman's office, furnished with a green carpet, outsize desk, framed photographs of President Roosevelt and CIO chief Philip Murray. This office is used for conferences and can comfortably seat a dozen or more people.

Curly-haired, sharp-witted, and realistic Sidney Hillman, dynamo of the organization, decides policy, makes speeches, confers with labor groups, travels to 14 regional CIO offices, and keeps between six and a dozen outside appointments a day when in New York. Possessed of what his secretary daughter, Philo, calls "unbelievable drive," 57-year-old Chairman Hillman rose from labor's ranks as a worker to president of the Amalgamated Clothing Workers Union. Hillman is obliged now to take it a little easy for the sake of his health.

BALDWIN HELPS
He has an assistant chairman, who looks after administrative affairs at headquarters and helps his chief with labor management problems. Calvin Baldwin, born in Radford, Va., is an ex-new dealer who has charm and a southern accent. Before he went to Washington to become first Henry Wallace's assistant and then Rex Tugwell's, he was in the retail and wholesale contracting supply business.

From almost every state come PAC's 75 white-collared personnel, 7 of whom are Negroes, and three of whom are Japanese-Americans. Many of these men and women are former college professors, newspaper men, radio experts, artists, preachers, new dealers, and two are sons of rich families. Public relations director Ping Ferry's father is secretary-treasurer of the Packard Motor company and is a Republican. James Warburg, one of Hillman's assistants who draws no salary, is the son of the late Paul T. Warburg of banking fame.

Hired by talent-scout Baldwin on a temporary basis—no job tenure longer than November 7th was promised—and at no salary boost over job they left, PAC's personnel think political action is a big and electrifying idea and say they are happy to be part of it.

The PAC is using streamlined methods—even hostile critics call them the cleverest in the country—to turn out booklets, graphic leaflets, dramatic posters, radio scripts and recording platters for members of 14,600 CIO locals. The message written, pictured and broadcast is to urge political action. This is aimed, as is all of PAC's get-out-the-vote campaign, at 14,000,000 potential CIO voters (members and their families); millions of other union men; white collar workers; professional people; farmers; and mail business men.

"LICK LITERATURE"
Ben Shahn, one of the country's leading muralists and commercial artists, works as art director for a weekly salary of \$125 which to him is peanuts. With a few assistants, he designs slick literature and does everything from the mechanics of lettering and layouts to the creation of arresting posters. Bernard Bryson, his artist-wife, executes the lever drawings that "sell" speakers' manuals and radio handbooks. Radio is handled by Californian Emil Corwin, a former newspaperman and until recently a broadcasting expert for the Department of Agriculture. Scripts, recordings, and booklets disclosing tricks to how to get time on the air and how to make use of it once you're here are turned out by Corwin and our busy assistants, who quite often turn the midnight wick to get them on.

Getting out the canvassers—door-to-door rangers recruited from labor's armies and from college campuses—is one of the big jobs of Mrs. Verda White Barnes, chairman of the women's division, who looks to be about 30, hails from Idaho Falls, is a graduate of Utah's Brigham Young University, and is a democratic "party girl" from a way back. He's had important jobs with the secretary of interior, the youth division of the national democratic committee, the NYA, and the WMC. Working so hard she says she's going back to Idaho to die if she lasts until November 7, Mrs. Barnes says she is encountering no apathy, because of this pressure on the list side, more than 1000 volunteer canvassers organize ballot balloons, baby-tending committees, allies, young democrats' college groups, PAC auxiliaries (composed of wives, sisters and mothers of CIO workers), and are busy in the field getting out the vote.

Man Burns \$800, Takes Own Life
HOUSTON, Oct. 24.—(AP)—Charlie Louis Sherry, 72, blacksmith, of Crosby, burned up about \$800 in currency and shot himself to death during the week end, according to Justice R. R. Zierlein, who conducted the inquest.

Justice Zierlein said Sherry had been in ill health for some time. "He told neighbors that he had \$800 in cash, which he couldn't spend, and that nobody else was going to spend it, either," Justice Zierlein related. "He said he was going to burn the money up."

The body of Sherry was found propped on the bed in his two-room house near Crosby, Sunday, by a neighbor. A 38 caliber pistol was by his side, and a bullet had pierced his heart.

Justice Zierlein said he found ashes in a sheet iron box stove, where the elderly man had burned the currency. The remains of the pills will be turned over to the treasury department, the justice said.

"FLASHES OF LIFE"
NEW YORK.—(AP)—William G. Lehman of the office of surplus war property said 25,000 pairs of officers' spurs and several hundred thousand cartridge clips had been sold to radio advertisers, presumably for souvenir distribution. Spudger pots have gone to citrus growers, 4,700 klaxon horns to boat builders, and 1,200,000 cuspidors with lids removed for use as stew pots.

STUDEBAKER WEASEL
Nicknamed the Weasel because of its small and sleek, its one-footed ability on virtually any kind of terrain, this new vehicle is powered by a Studebaker Champion engine and built by Studebaker under contract with the Ordnance Department, Army Service Forces. A white-bone Weasel, the M-2PC, is also now in service.

Leaves From A Correspondent's War Notebook

By HAL BOYLE
WITH AMERICAN TROOPS IN GERMANY, Oct. 13.—(Delivered)—(AP)—Only two miles from the front lines, an American armored outfit has set up the first recreation center for Yank troops in Germany.

Here each day 200 soldiers come for a 12-hour respite from battle posts which some have held for more than eight days in rain and cold and through the heaviest shelling and bombing the Nazis have dished out.

The brick buildings housing the recreation center have no windows. Bombs blew them out. They are scared from shrapnel. But the war is two miles away—and that seems a reasonably safe distance to the men who have been dueling the enemy at a hundred yards.

I walked through the center with the Commanding General and Lt. Stephen P. Slaughter of Purcellville, Va., who helped organize this battlefield rest area.

"We bring them in trucks from the front and take them to the center where they can scrub down under a hot shower—the first many of them have had in weeks," the lieutenant said. "Then they get a good hot meal and afterwards they can write letters home or go to one of two movie houses we keep running."

"The whole idea is to get them away from the tension of the front. Those hot showers do the most good. You can see them relax after that. Some of them have been living for days in foxholes under shell and mortar fire so heavy they don't even have their shelters even long enough to go to the toilet."

"As soon as they are clean again and have put down a good hot meal the first thing most of them want to do is grab a pencil and paper and write back home."

A Red Cross director keeps writing supplies and reading material available and Protestant and Catholic chaplains hold daily services. Before dusk the troops load back into trucks and return to their posts.

"The funny thing is that they are itching to get back to their buddies by then," Slaughter declared.

Convicted Men Are Taken to Prison

SAN ANTONIO, Texas, Oct. 24.—(AP)—The Evening News says that three men from the 27th tank destroyer battalion, North Camp Hood, convicted of killing a mess sergeant with a meat cleaver, have been brought to Fort Sam Houston post prison.

The three, all Negroes, joined Sylvester Davis, Arkansas Negro, sentenced to hang for the slaying of a San Angelo white woman, and Claude McGary, Negro, convicted of mutiny after an uprising at Camp Chalborne, La., in protective custody at Fort Sam Houston, says the News.

Officials of the Fourth army are quoted as saying that the slaying at North Camp Hood occurred Sept. 1, and that the three men were charged with attacking Staff Sgt. Otis Wilson, about 23, mess sergeant of company A, with a stove grate shaker, butcher knife, and meat cleaver.

The three were T-5 Dan Boswell, 25, of Selma, Ala., who was indicted at Fort Benning, Ga.; Pvt. Amos Thomas, 28, and Pvt. George Gill, 24.

"They want to give another man a chance to pull out and rest."

Jr., both of Houston, who were indicted at Fort Sam Houston.

They were tried Sept. 29 at Camp Hood by a 4th army court martial, found guilty of murder, and sentenced to hang. Officers said the sentences were subject to review by the judge advocate general, the secretary of war, and the President.

DECATUR, Ill.—(AP)—Earl Horne bought seven rabbits but got more than he had bargained for.

Ten days after the sale he took home the six does and one buck he had bought—plus 38 rabbits that were bred during the interim.

A good Life Policy will ruin any old mortgage on Home or Farm, leave them clear. Mamma will appreciate it.

Keeper of Bees Is the 'Sarge'

SHEPARD FIELD, Oct. 24.—(AP)—Part of Master Sergeant Fulton G. Bulloch's job is to see to the welfare of droning bees, but the work of a beekeeper is not all that it seems. Bulloch, 43 and graying, is chief engineer on the line at Shepard Field. The army air forces and bees are his chief interests. So you can see it isn't unusual to find him talk air forces lingo about the honey gatherers.

"The commanding officer of the bees is a WAC—the queen bee. She gives out instrument cards to all workers that leave the hive and get out on the runways," says Bulloch.

For the last 10 of 22 years soldiering Bulloch has been an apiculturist, or bee keeper. His hobby began in 1933 when he was at Chanute Field, Ill., and in his spare time he attended classes on bee-keeping at the University of Illinois.

The sergeant maintains a permanent address on Cold Springs St. in Warm Springs, Ga., but he keeps his 20 colonies of bees in his backyard in Wichita Falls, near Shepard field.

For the convenience of his pets he has placed ledges, or "landing strips," around the hives.

"Bee take off many times when they should be grounded. Sometimes they don't know their own strength and are forced down due to a loose aileron. Their lack of lateral stability sometimes causes a crack-up in a high wind or storm," says Bulloch, like a man who knows what he is talking about.

The only comment from the bees is "buzz!"

France is now feeling the pangs of her second great revolution.
