Farmers Over Panhandle Still Seek Rain

Farmers throughout the Pampa area and in the Midwest counted the weekend's rain as money in the bank today but scanned cloudless skies for more moisture farm experts said still was needed.

Locally only a trace of moisture was recorded from Monday's sleet, snow and rain. Temperatures here plunged to a low of 14 last night and early this morning from a high of 28 yesterday.

Wind from the Northwest ranged up to 25 mph and finally calmed around midnight according to Central Airlines records.

Before daybreak today, the weather bureau said there was not a single cloud over Texas. Temperatures at 3:30 this morning ranged from a low of 17 at Delbart and Lubbock to a moderate 55 at Brownsville.

Latest forecasts called for continued cold weather over most of the state today with fair skies, increasing cloudiness and warmer temperatures were expected Wednesday, weather forecasters said.

Farm experts said more rain is needed although rains and moisture yesterday and Sunday helped planting prospects and a deficit has dried out soil to a great depth, they said. Week-end rainfall only wetted the topsoil.

Local road-blocks will be thrown up around town and we will check every driver's license, Roberts continued. All persons living in Texas who drive an auto are required by law to have Texas license, regardless of any other state licenses they may have.

Drivers license office is located in the courthouse and is open Mondays, Fridays and Saturdays. Two drivers license examiners are on hand Saturday to give tests.

Minimum fines for driving without proper licenses is \$1 and maximum is \$200, Roberts added.

Wildcat Strike Is Over—Workers Quit

The wildcat strike against Windsor Servicing Co. has been ended, company officials said today the strikers yesterday quit their jobs.

The walkout, begun early Saturday morning, was staged by the twenty-man oilwell servicing crew for a 25-cent an hour wage increase. The company refused an increase.

Words Radioed To Russians, Chinese

WASHINGTON — (AP) — In a dramatic peace broadcast, President Truman today appealed to the people of Russia and Red China to force their rulers to drop their "senseless policy of hate and terror."

The President spoke from the flight deck of the Voice of America's powerful new floating transmitter, the U. S. Coast Guard cutter "Courier" berthed at a city pier. He addressed his words especially to the people of China and Russia, reminding them how the United States came to their aid in World War II when they were invaded by Nazi Germany and Japan.

"We helped them to save their countries," the President said. "I want to say to these people today as we said then: we are your friends. There are no differences between us that can not be settled if your rulers will turn from their senseless policy of hate and terror and follow the principles of peace."

"Today, the aggressive policies of your rulers are forcing us to arm to defend ourselves. But we can not find in our hearts any hate against you. We know that you are suffering under oppression and persecution. We know that if you were free to say what you really believe, you would join with us to banish the fear of war, and bring peace to the earth."

"Your government, with its newspapers and radios, may try to make you believe that the United States is a hostile country, bent on war. But that is not true. I want you to know that our highest aim is peace and friendship and an end to the horrors of war."

The State department said Mr. Truman's voice was heard in Europe, Latin America and the Far East. Relay stations at Tangier, Munich, Ceylon, Manila, Honolulu and facilities of the British Broadcasting Co. beamed the message to listeners in all parts of the world via 7 transmitters. Immediately following the President's English language broadcast, the message was being translated into 45 languages for rebroadcast.

Huge Earthquake Kills 31; Leaves Thousands Homeless

TOKYO — (AP) — A powerful earthquake and tidal waves 12 feet high killed an estimated 31 Japanese in northern Japan today and left thousands homeless.

Driving snowstorms and bitter near-zero cold hit the area tonight. The quake, centered deep under the Pacific ocean off Hokkaido island, was one of the greatest shocks ever recorded on the world's seismographs.

It stirred up tidal waves that battered coast towns, crumpled flimsy fishing villages and tossed small boats. The rumbling shocks knocked down buildings, started landslides, caved in coal mine galleries. Unofficial reports said more than 2500 homes were destroyed.

Japanese police said five trains were derailed and one turned over. Three bridges fell. Three schools and eight buildings were wrecked, police said.

The U. S. army reported 31 Japanese dead. The Army figure was higher than police or news paper estimates but a military spokesman said it was essentially accurate.

One snow-swept community called for an air drop of 1000 blankets tomorrow. But a U. S. Army spokesman said "the relief situation seems to be under control."

U. S. all-weather F-84 jets flew through snowstorms today for an aerial survey of the quake area but reported "we saw no signs of damage."

Members of the Pampa Board of Education in 3 night sessions. Joe Fischer, chairman of the board, said the board is in a "very good position" to handle the election.

Fischer, who was named during a regular meeting of the board in city hall replays Parris Owen who moved from Pampa recently. Leslie Hart also was named as a member of the committee to fill the vacancy left by Owen.

Resignations of Mrs. Nancy C. Weiss and Mrs. B. R. Nuckols were accepted by board members during the meeting, and because of absence granted H. A. Yoder, principal of Woodrow Wilson, health and personal reason were given by the three in requesting action.

Mrs. Weiss was a teacher at Sam Houston and Mrs. Nuckols at Westinghouse. Sam Begert was approved to replace Yoder, and replacing the women are Mrs. Lillie Anderson, Mrs. Mildred Tabor and Mrs. J. B. Austin.

In other action the board approved construction of curb and gutter at the high school field house, tabled action on building shelving for football equipment at the high school and decided not to take action in renewing insurance on Farrington school, now part of the Pampa independent school district.

Approval On Sewer Bidding Slated Today

City commissioners opened six bids this morning on water and sewer project.

Mayor C. A. Huff said engineers would study the bids before the commission took final action. He said the contract would likely be approved late this afternoon.

Bids on sewer projects ran from an approximate low of \$180,000 to a high of \$195,000. Water bids ranged from an approximate low of \$80,000 to \$116,000.

The mayor announced Pampa's low-rental housing program will be discussed March 11 at 10 a.m. by city commissioners.

He said all local persons interested in the issue are invited. The discussion will be held in the city commission room.

In other action today commissioners gave approval to a proposal whereby recreational facilities could be set up in Pampa for army stationed at Amarillo Air Force base.

The proposed program is part of an area-wide move in conjunction with the USO.

City Manager Dick Pepin will aid in selecting a committee to decide on what facilities can be provided for visiting servicemen.

Smith, McWilliams To Seek Reelection To School Board

Two trustees of the Pampa Independent Board of Education today filed for reelection on the board and became the first to announce for election or reelection.

They are Frank Smith and J. C. McWilliams, only two board members whose terms expire this year.

Both are completing their first terms as trustees and will seek reelection for additional three-year terms.

Smith is owner of Smith's Quality Shoes, and McWilliams is a partner in the McWilliams Motor Co.

The special school board election will be held April 5 in the Pampa Junior High school, Roy McMillen, business manager, said. Voting will be held from 8 a.m. to 7 p.m.

Fischer Appointed Head Of School Insurance Board

Members of the Pampa Board of Education in 3 night sessions. Joe Fischer, chairman of the board, said the board is in a "very good position" to handle the election.

Fischer, who was named during a regular meeting of the board in city hall replays Parris Owen who moved from Pampa recently. Leslie Hart also was named as a member of the committee to fill the vacancy left by Owen.

Resignations of Mrs. Nancy C. Weiss and Mrs. B. R. Nuckols were accepted by board members during the meeting, and because of absence granted H. A. Yoder, principal of Woodrow Wilson, health and personal reason were given by the three in requesting action.

All Texas Declared As Disaster Area

WASHINGTON — (AP) — The Agriculture Department announced today all Texas counties have been designated as disaster areas under its emergency farm loan program.

Ninety-seven of the 254 counties had been previously designated. The action qualifies farmers who suffer crop losses and who are unable to obtain credit elsewhere for loans from the department's Farmers Home administration to carry on farming operations until new crops are produced.

Texas was put under the program because of damage to crops by bad weather last year.

Contributions Pass \$2000 In RC Drive

Over \$2000 has been received through mail contributions for the 1952 Red Cross drive in Pampa. Ed Cleveland, drive chairman, announced today.

The contributors are from area industrial firms in reply to 4500 letters mailed before the beginning of the drive in an attempt to get donations.

Because of bad weather the residential drive did not get underway yesterday as planned. Officials, however, believe the city canvass will be completed on schedule. Although the organization is given a month for its drive, officials from the local office believe the Gray county quota of \$12,226 can be met in two weeks.

The Business and Professional Women's club will furnish distributing envelopes to business men and employes this week and will pick them up with contributions Friday.

Firemen today began posting Red Cross flags and posters throughout the town as a reminder there should be a "membership in every home."

Contributions above the quota may be used by the local chapter. Last year \$450 was expended on the Miami swimming pool as part of the health and safety program.

Assisting Mrs. Schmidt in making the drive are Mrs. Leo Paris, Mrs. Dan Graham, Mrs. A. E. Gordon, Mrs. Matt Day and Mrs. Ralph Byrum in Miami; and Mrs. George Wells, Mrs. Sid Talley, Mrs. Jack Sloan and Mrs. Woods King in other sections of the county.

Roberts County Reaches Red Cross Goal By March 1

MIAMI (Special) — Roberts county's Red Cross quota of \$139 was already reached by contributions previous to the launching of the campaign, March 1, according to Mrs. Ed Schmidt, county drive chairman. But the campaign is continuing until everyone in the county has had an opportunity to do his part.

Contributions above the quota may be used by the local chapter. Last year \$450 was expended on the Miami swimming pool as part of the health and safety program.

Assisting Mrs. Schmidt in making the drive are Mrs. Leo Paris, Mrs. Dan Graham, Mrs. A. E. Gordon, Mrs. Matt Day and Mrs. Ralph Byrum in Miami; and Mrs. George Wells, Mrs. Sid Talley, Mrs. Jack Sloan and Mrs. Woods King in other sections of the county.

Dawson Continues His Defense Today

AMARILLO — (AP) — The federal court trial of Herman Dawson was to continue with defense testimony today.

Dawson, on trial on charges of converting government grain to his own use, testified yesterday he told the production and marketing administration of evidence of damage to grain stored in his warehouses.

Dawson said PMA told him it was his responsibility to protect the grade of grain stored with his firm.

He said he suggested that the grain be "loaded out" to "possibly save great loss."

The prosecution completed its arguments yesterday with a Commodity Credit Corp. official testifying as to types of CCC loans.

GRAIN EXPERTS HOLD GRAIN GRADING SCHOOL. — Pictured above are some of the top wheat experts of the nation, here today for the grain grading school. Grain Grading School Gets Underway Here Directed By Top Grainmen Of The Nation

A grain grading school was held in the Palm room this morning with Foster Whaley, county agent, presiding.

Purpose of the school was to teach grain grading procedures to vocational agriculture teachers, county agents and local farmers.

Fred Dines, wheat marketing specialist, extension service, Amarillo, spoke on "Texas Wheat Marketing Program." Dines, an elevator man, was recruited for this new job created by the Texas Extension service about a year ago.

Dines said in the past, wheat farmers had been growing types of wheat the bakers didn't like. The Panhandle now raises about 85 percent of good milling wheat. Five types of good wheat are Comanche, Tenmar, Westar, Wichita, and Triumph.

"So much wheat is going out of condition because of combining wheat too wet," Dines said. "Storing wheat when it's too wet causes fermentation and damage."

Another point stressed was that the pure food and drug people are going to condemn wheat unfit for consumption. They will demand, starting April 1, that wheat farmers clean up storage bins. If weevils are found grain will be condemned, sold for mill prices and used for livestock feed.

Ed Granstaff, extension wheat marketing specialist from Stillwater, Okla., spoke on the "Quality of Texas Wheat as Shown by Market Receipts in the Past Years." Examples of threshing wheat too soon, or when it's still wet from morning dew were related.

Granstaff said weeds in wheat caused an increase in moisture content. Threshing wheat caused an increase of 2.1 percent in moisture of threshed feed, compared to uncut wheat.

Three other specialists also instructed on wheat problems. They were Willis B. Combs, marketing specialist, Extension Service, U.S.D.A., Chicago; Ill. Frank Rose, grain inspector, Amarillo Grain Exchange; E. A. Miller, Extension Service; entomologist, College Station.

Combs spoke on "The Structure of the Wheat Standards," U.S.D.A., Chicago. Miller spoke on "Cereal Diseases and Their Control."

Approximately 15 men attended the instruction school.

### A Reader Over 50 Years: Newspapers Have Changed, Long-Time Subscriber Notes

"Newspapers have changed a lot in the 54 years I've been subscribing to The Pampa Daily News," C. A. Tigner, who lives eight miles south of town, said Monday morning.

Tigner stopped in The News office to talk to Circulation Manager Francis Green.

"I first started taking this paper before the turn of the century when it was only a weekly newspaper," Tigner recalled.

A check of records at The News showed Tigner to be the oldest subscriber to The News.

"Times have changed now and we have radio and television and all kinds of entertainment, but I still like to get a newspaper where I can read what is actually going on," Tigner continued.

Asked how old he was, Tigner never got around to answering as the conversation turned to politics. He said what he thought wasn't to be quoted but like a lot of other people he was worried about the government spending so much money. Especially by sending it to foreign countries.

"People a lot older than I am, have found it out and people now-a-days will too, that you

can't buy friends with money, like they are trying to with this foreign aid business," Tigner said.

Asked what political party he favored, Tigner answered: "It doesn't make so much difference the party you support as it does the man that you support through the party."

"It is the man and what he stands for that really counts," Tigner concluded.

### Jimmy Dorsey Band Scheduled To Play At Shamrock Dance

SHAMROCK — (Special) — Shamrock's St. Pat's day celebration, big as most events are, will be crowned with one of the better dances of the past few years.

Jimmy Dorsey, screen and radio star band leader, will bring his orchestra to the American Legion home at 9 p.m. for a dance lasting until 1 a.m.

Dorsey, a brother of Tommy Dorsey, the original boogie woogie man, prefers the so-called "sweet" type of music. Fans are aware of the difference in the brothers.

Dorsey's orchestra will end a day-long celebration expected to attract at least 25,000 people, beginning at 8 a.m.

### Merry-Go-Round Treatment For Cancer Is Described

By ALTON L. BLAKESLEE Associated Press Science Reporter CINCINNATI — (AP) — An X-ray merry-go-round has knocked out cancers in dozens of apparently hopeless cancer patients, the second national cancer conference has been told.

Some have no signs of cancer two years later. But, it's too soon to call any of them cured.

The merry-go-round is a revolving chair. The patient sits in it while a powerful two million volt X-ray beam is aimed at his hidden cancer. As the patient spins slowly, the beam concentrates on the cancer. The spinning means less damaging X-rays on his skin and healthy tissues, and thus a bigger dose hitting the cancer.

The merry-go-round method was developed by Dr. John G. Trump and associates of Massachusetts Institute of Technology, Cambridge, Mass., in research supported by the American Cancer society. Patients are chosen and treatment guided by Dr. Hugh R. Hare, radio-ologist of the Lahey clinic in Boston.

Details of results if the first 27 months with the merry-go-round beam were disclosed at the opening of the National Cancer conference. Bringing together more than 1000 U.S. and foreign scientists and physicians to re-

port latest advances in the campaign against cancer.

So far, 286 patients have been treated. The great majority had advanced cancer that couldn't be cut out or treated with usual X-ray methods.

Today, 157 have no signs of cancer, and some have been clear for one to two years. But cancer isn't considered cured until at least five years have passed with no recurrence.

Forty-seven have died; some of other diseases; 19 have cancers that spread; 12 have persistent cancers and in five the cancers returned. Another 46 are under treatment still or finished it too recently to be called free of the disease.

A new anti-cancer beam, controlled to hit precisely at any depth up to 3 1/2 inches under the skin, was described by Dr. Roger A. Harvey, John S. Laughlin and Lewis L. Haas of the University of Illinois.

This beam is electrons, generated in the atom-smashing betatron. It can be controlled to hit cancers just beneath the skin or skull, or go several inches deep to beam on breast cancer without touching the lungs or other tissues, they said.

In first tests on 15 men and women, the electron beam usually brought some relief of pain, and

### Weird Casting Puts Acrobat In Role Of Alcoholic Failure

By BOB THOMAS HOLLYWOOD — (AP) — Weirdest casting of the year has put Furr Lancaster in the role of a gray-haired failure with a passion for alcohol.

The former circus acrobat, who has leaped through pictures like a gazelle, is playing the role of Doc in "Come Back, Little Sheba." His co-star is Shirley Booth, who won the top acting honors on Broadway when she played the role on the stage.

Sidney Blackmer won the same honors when he played the show with her. But although he is star on the stage, he is a character actor in films and he was passed up for the movie version. Many big-name actors were considered for the role, but Hollywood was startled when Lancaster was given the part.

When I saw Lancaster on the "Sheba" set, he looked far different from his usual screen self. His unwieldy mop of hair was slicked down and streaked with grey. Instead of his dashing wardrobe, he wore a pair of faded pajamas. He talked as the makeup man penciled lines of age in his face.

"I didn't think the role was for me, either," said the actor. "It wasn't my idea at all. Mike Curtis, who directed me in 'Jim Thorpe,' was talking to (producer) Hal Wallis, who said he was having trouble casting the picture. Mike suggested me for it. He wanted Wallis to see the latter part of 'Thorpe,' in which I played him as an older man.

"When I got back from making a picture in Europe, he had me test for the part. He liked the test and gave me the role."

### Population Slows Drive By Alaska For Statehood

Population representation was given by Congressman Walter Rogers as the probable reason that the Senate voted to recommit the Alaska statehood bill last week.

Rogers pointed out the pertinent point which had great weight with the Senate was the population, if admitted to the Union, would then have two senators giving her equal representation as other states like Texas, with a six million population.

In view of this, Rogers said, Southern Democrats supported by 20 Republicans voted to send the bill back to the committee.

He pointed out that party platforms in 1948 showed the Democrats urging immediate statehood for Hawaii and Alaska and the Republicans favoring eventual statehood.

Senate vote last week showed the Southern Democrats not agreeing with either platform.

### Copper Men Launch Two-Point Program To Ease Position

By SAM DAWSON NEW YORK — (AP) — Copper men have a two-pronged drive under way. It's aimed at getting them out of their present spotlighted position, where both government and industry cry "defense and civilian production schedules are being held down by scarcity of copper."

The first prong deals with expansion of copper production, necessarily slow. The second is a drive launched this week by the newly organized Non-Ferrous Scrap Metal Mobilization council aimed at ferreting out hidden or forgotten scrap.

By increasing supplies, copper men also hope to head off the trend of seeking out substitutes. Copper men don't want this to become a fixed habit.

American miners will produce additional tonnage this year, and new ore production will be brought in over the next four years, Cornelius F. Kelley, chairman of Anaconda Copper Mining Co., says the copper supply (both domestic and imported) of around 128,000 a month will expand by the end of 1954 to 150,000 tons.

Kelley says the present supply supports a Federal Reserve board industrial production index of 219. By the end of 1953 there would be copper enough to support an index of 270, Kelley says. That would mean a 28 percent hike in industrial production for the nation. So Kelley reasons that there'll be plenty of copper for the country's needs.

J. K. Richardson, assistant general manager of Kennecott's Utah copper division, says U.S. mines produced 92,576 tons of copper last year and estimates they will be able to produce 1,153,576 tons by 1955, a gain of 24 percent.

Kentucky Picked As The Best Basketball Team In Nation

NEW YORK (AP) — The Kentucky Wildcats can add another honor to their bulging collection today.

The Wildcats latest laurels came hard on the heels of their ninth straight Southeastern conference championship and a 44-23 victory over Louisiana State in the conference tournament that boosted their winning streak to 22 games.

Kentucky is after one more trophy, the NCAA championship.

The Wildcats previously finished at the head of the class in the AP poll in 1949 and 1951. Bradley interrupted the streak by winning in 1950.

The 121 sports writers and sportscasters who participated in the final poll awarded Kentucky 39 first-place votes and 1033 points.

Illinois came in second with 750 points. Kansas State followed with 672.

But with the Chicago coaches and ringersiders the Panhandles are rated highly as a fighter.

Another Panman, or former Panman, Francis Hood, will be a likely opponent of Cooper.

### Three Local Music Teachers Attend Annual National Convention In Dallas

Mrs. H. A. Yoder, Mrs. Lily Hartsfield and Miss Elise Donaldson, local music teachers, have returned from the 67th annual Music Teacher National Assn. convention in Dallas which was attended by private teachers, college, conservatory and university teachers, music scholars, composers and administrators from all over the country.

General sessions and group meetings were included in the four-day convention which was coordinated with meetings of the following groups: American Matthey Assn., American String Teachers Assn., National Guild of Piano Teachers and National Assn. of Teachers of Singing.

The general session of the convention was held in the Crystal Ball Room of the Baker hotel with Roy Underwood of Michigan State college, presiding. The delegates were welcomed by J. B. Adoue, Jr., mayor of Dallas.

Among the meetings attended by the local teachers was a luncheon meeting for the Texas Music Teachers Assn. at which Dr. Erno Daniel was guest pianist. Dr. Daniel is now artist piano teacher at the Wichita Falls university and was formerly with the conservatory founded by Franz Liszt in Budapest, Hungary.

Selected students from the string classes of Dallas schools appeared with the Dallas Symphony for one of the convention's outstanding concert. The A Cappella choir sang with the orchestra for a part of the concert. Preceding this concert, the

Episcopal Auxiliary Meets In Home Of Mrs. Clem Followell

The Episcopal Women's Auxiliary met recently in the home of Mrs. Clem Followell, 1216 E. Browning, for a short business meeting and program by Miss Kathleen Seisenbaugh.

Pampa's own cook books will be received here soon and be available to the public, Mrs. Forrest Taylor, president, announced. Local women provided all recipes in the book, which was compiled by the auxiliary.

Walking Is Good Exercise For Women If They Move With Purpose

BY ALICIA HART  
NEA Beauty Editor

Those women whose busy schedules leave little time for sports or formal physical exercise often console themselves with the thought that they get their daily routines, walks to the grocery store or to the bus stop to take care of their muscular needs, they figure.

This is poor reasoning, since there's more to exercise than simple output of energy. To be of benefit, exercise must also include rhythmic coordination of muscles. It's difficult to achieve this when you're hunched and hurrying lest you miss your bus or when you're burdened with overflowing shopping bags.

For many people, walking is sufficient exercise; but it's a special kind of walking that not an excursion downtown to window shop or a stroll past the neighbors' houses to show off your new coat but rather walking for

To make nylon hose last longer, put a new pair that hasn't been worn into an ice cube tray and cover with water. Freeze for 24 hours, then let thaw and wash in lukewarm, soapy water. Hang up to dry without squeezing. The hose is supposed to not run or snag after this treatment. (Mrs. O. L. Brummett, 815 Yeager).

### Thespians Present BSP Program

Three members of the National Thespian Society at the local high school presented the program at the Beta Sigma Phi meeting Tuesday night in the City Club room. Miss Billie Hutchings, high school drama teacher, directed the program.

Miss Hutchings presented Reuel Casey, Reggie Mayo and Betty Kiff in a short play, "Red Carnations" by Glenn Hughes. In introducing the program, Miss Hutchings gave a brief history of the drama, and explained the three means by which the dramatic field can be enjoyed. Those divisions, history, literature and production, offered varied activity, and she pointed out that in production alone one can either act, produce, design sets or costume, or serve as technical supervisor.

Mrs. Raymond Hall, president of the Thespians, presided at the brief business meeting preceding the program. The Woman of the Year elected each year by the sorority following nominations by a group of local businessmen, was chosen by secret ballot. Her identity will be revealed at the annual tea in the spring.

Hostess for the evening were Mrs. E. D. Young and Mrs. Norman Fuips. They served a refreshment plate carrying out the Saint Patrick day theme to the following: Mmes. Bill Briderer, Betty Brock, Stanley Chittenden, J. F. Campbell, E. L. Edmondson, J. R. Ralph, Eason, Creel Grady, J. W. Graham, Jr., G. L. ### Former Pampan Writes Mother She Is Now "At Home" On Island Off Japan

Once when children grew up and got married they moved across town, or maybe to another corner of the county, but the trend has changed, and now it's not unusual for parents to sit back and watch their children marry and move from the east to the west coast, to Europe or even to the Far East.

These great distances even in a modern age make saying goodbye tougher, and make a mother's concern greater. That's why Mrs. A. Johnson, 511 N. Faulkner, was so happy last week to receive a first letter from her daughter, Mrs. Edwin W. DeMeritt, who left Pampa recently to make a long trip to Japan where she and her five daughters, Charlotte, 3, Eddie, 11, Diane, 14 months, Carolyn, 5, and Sandra, 8, will join Capt. DeMeritt.

Mrs. DeMeritt learned right away on her trip that perhaps having five daughters does offer advantages. When she boarded the ship, a Wac told her to "go to the head of the line," and a steward took baby Diane and in a few minutes they were in their cabin. She described the cabin as a convenient, compact room with two closets, a lot of drawer space and a bed for each of them. When the ship left San Francisco about 9:30 p.m., she and the children stayed on deck for a long time, taking in the beautiful lights of San Francisco. That will be their last glimpse of "home" until about two years from now when Capt. DeMeritt is scheduled to return to the United States.

Mrs. DeMeritt wrote her mother what a delightful time the children had aboard ship.

"There was a nursery and Bible class for them every morning, a Mrs. Johnson is eager to learn more of her daughter's new life in Japan, and though she's glad to know they are reunited with Capt. DeMeritt, nonetheless, it did her grandmother's heart proud to read at the end of the letter that her little granddaughters urge their mother each day to "write Mamma a letter for us and tell her we miss her and everybody else back home!"

Mrs. L. C. Neely was announced as president of the Presbyterian Women's Auxiliary, succeeding Mrs. Dick Walker. Other officers included Mrs. W. S. Dix, vice president; and Mrs. George Friauf, secretary.

### Cook's Nook

The most avid recipe collectors are always happy to add new cream pie methods to their files. Here's a butterscotch pie recipe that will go a long way toward pleasing the most ardent of pie eaters. The beginning cook may like to use the single pie crust recipe, but the experienced cook will want to use her own speciality.

BUTTERSCOTCH PIE

1 8-inch baked pie shell

1 1/2 cups brown sugar

2 tablespoons white sugar

3 tablespoons enriched flour

3 tablespoons cornstarch

1 1/2 cups water

2 egg yolks

3 tablespoons butter

1-8 teaspoon salt

1 teaspoon vanilla

Mix brown sugar, white sugar, flour and cornstarch. Add water and cook until thick, stirring constantly. Add slightly-beaten egg yolks and cook 1 minute longer. Remove from heat, add butter, salt and vanilla. Cool. Pour into baked pie crust. Cover with meringue and bake in a moderate oven (350 F.) about 12 minutes or until slightly browned.

MERINGUE

2 egg whites

1-8 teaspoon salt

4 tablespoons sugar

1-2 teaspoon vanilla

Beat egg whites until frothy, add salt. Gradually beat in sugar a tablespoon at a time, beating after each addition. Continue beating until stiff and glossy.

SINGLE PIE CRUST

1 cup sifted enriched flour

1-1/2 teaspoon salt

4 to 6 tablespoons shortening

2 to 4 tablespoons cold water

Add salt to flour. Cut lard into flour until crumbs are about the size of small peas. Add cold water, a little at a time, mix quickly and evenly through flour with a fork until dough just holds in a ball. Use as little water as possible. Roll to about 1-8 inch in thickness. Line 8-inch pie pan. Bake in a hot oven (450 F.) for 8 to 10 minutes.

REWRITTEN LATER

The official record of the proceedings at the meeting of an organized body originally was called the minutes because it first was taken down in minute or small writing, to be transcribed later in a larger and more careful hand.

### GIRL SCOUT NOTES

By MRS. BOB ANDIS

A beautiful quilted cover was taken to the children's home in Panhandle Saturday by members of Girl Scout Troop 14. The home is undergoing remodeling and the children are in various homes, so the girls were asked to come back again to see the children as they would surely want to show their appreciation. After eating a paper sack lunch, the girls went on tour through the court house. Mrs. W. L. Bozza, assistant leader, Mrs. B. B. Palmer, leader, Mrs. R. D. Morris, Mrs. Dan Glasner, made the trip with the following Scouts: Ann Boosa, Lynda Bonny, Patsy Falkenstein, Bonnie Glaxner, Patsy Hufthines, Synda Morris, Linda McDonald, Becky Palmer, Linda Scheider, Sue Scherer, Rebecca Skelly.

Girl Scout Troops 6 and 10 met together to practice a dance for the coming International Fair. "Comin' Through the Rye" was enjoyed by Scouts of Troop 10: Lylene Caldwell, Gwendia Lee Cowan, Gayla Gray, Sandra Kelley, Anna Sirmans, Jeannette Southard, Kay Sprinkle, Donna Rita Trussell, Charlotte Riley, Carol Joyce Bates, Eddie Louise DeMerritt, Jayne Gideon, Alma Haynes, Mary Hefflin, Phyllis Trolinger, Priscilla Turbo, Jacqueline Willis, Berry Attaway, Floette Gray, Dorothy Green, Jacqueline Hoyler, Carolyn King, Carolyn Schaffer, Alice Birden, Jodeen Ethridge, and Scouts of Troop 6: Linda Weir, Linda Austin, Margaret Austin, Doylee Fletcher, Patricia Turbo, Carol Rose Miller, Elaine Storms, Carolyn Tesgue, Patricia Jones, Nancy Willis, Wanda Wilson, Dianne Zachry. Leaders Gideon and Willis reported a fine time was had by all.

Police Auxiliary Plans March Social

The Police Auxiliary met in the home of Mrs. O. E. Payne recently for instruction in making nylon corsages. Mrs. John Wilkinson taught the class.

Plans were discussed for a social meeting to be held later this month.

Among those present were Mmes. Wilkinson, Marion Parks, O. Dumas, James Conner, i. M. Craig, P. C. Wynne, Shirley Nickolis, Bob Robertson and he hostess.

LET'S TRADE

You know the ad that I ran in Sunday's paper about the house at 504 N. Ward St. . . I have just got an answer from the owners that I wrote over 2 months ago, and they told me to go ahead and sell it for \$4500. If I couldn't get the \$5,000 that they were asking . . . If you're interested in this good piece of close-in property at this bargain figure, let me know and I'll let you have it . . . It would make someone a good piece of rent property, or it would make someone a small family a good close-in home . . . I don't think it will last long at this figure. Also while I'm in the selling and trading mood, I might just as well tell you what I've bought . . . It's the Mason Garage building and 75 ft. frontage on Frederick St. . . I want to sell or trade this off right quick as me and Mr. Imel and Watson (they're the P and VP down at the Citizens Bank) didn't see eye to eye on this good bargain that I thought I bought . . . I would especially like to take in a good car on this deal and, of course, some cash . . . This good piece of business property would easily rent for \$75. a month, or it would make someone a good place to do business . . . I'll sell or trade it to you a whole lot cheaper than some people are pricing their lots down in that neighborhood. And here's something that I know I won't have long . . . It's a combination stock farm in the southern part of Hemphill county right in the oil trend from the Haggard well, and it's priced worth the money . . . there's 320 acres and it's well fenced . . . paved road runs right by it . . . the old house is a mess, but it has a good barn and water well . . . around 170 acres is broke out and the balance grass . . . the owner owns 160 acres of mineral under this half, and he has actually offered to sell and give 80 acres under the 320 for \$55. an acre . . . If they make a well out of the Haggard, and I think they will if John has anything to do with it, the mineral under this good place could easily be worth a million dollars, not counting the land which is plenty good at the price we are asking.
