Dozen Japanese Ships Already Sunk or Damaged

Chest Fund Collection Now \$5,472

One day's pay from each employe. That was the goal set today in Pampa's Community Chest campaign in which workers are seeking to raise \$21,000 for use by five participating agencies in local welfare.

Beginning Friday morning a committee of downtown solicitors will make a canvass of the city's business district asking firms and their employes to contribute to the chest fund.

"Last year employes were asked to give two days' salary in the combined war chest and community fund drives," general co-chairman J. W. Garman said today "so we feel that this year they should contribute at least one day's pay to the Pampa fund." The two drives have been separated this year.

Garman said that up to noon today \$5,472.81 had been turned in, which is about 26 per cent of the total.

Leop Langston co-chairman with Ed Weiss in the downtown solicitation, spoke at the Pampa Retail Merchants' meeting yesterday afternoon and appealed for workers.

"We all know that everybody is busy," Langston said, "but we have a job to do here and, busy as we are, it behooves us to take the time to get it done and as quickly as possible. I am just as busy as anyone but I feel it is a duty we owe to the community. If we all get together and put some effort into the job, we can have it completed within a comparatively short time."

The downtown solicitation committee for the business district will meet at 7:30 p. m. in the chamber of commerce room at city hall, Langston said, and he made a request today that all workers attend to get supplies and final instructions.

R. G. Hughes, chairman of the advanced gift committee, today urged all members of his committee.

Regents, Rainey Asked to Settle Their Difference

AUSTIN, Oct. 25—(AP)—The president and the board of regents of the University of Texas were urged today by the faculty to settle their difference, and the faculty appointed a committee to aid in a get-together possibly with the help of an ex-students committee.

Emphasizing the importance to a university of academic freedom the faculty adopted a statement of "sound principles of university administration" addressed to the regents, the president and the regents. These principles, the statement declared, include "the mutual respect of each agent for the functions of the others" and this respect to be "recognized and accepted as having the force of an unwritten law in university life and conduct."

The statement went into detail in setting forth what the faculty's idea of these inter-relationships are as between regents, president and faculty, including the administrative function of the president as "intermediary between the board and staff." President Homer P. Rainey, in his recent statement of differences with the regents, had emphasized his belief that the board had encroached upon his administrative functions.

The faculty statement "earnestly urged" the president and board to compose their differences to the end that in reality, as well as in name, we may build and maintain a university of the first class.

The committee of three will ask to be heard at Friday's meeting of the regents in Houston.

Beaumont Newspaper Backs Dewey, Bricker

BEAUMONT, Oct. 25—(AP)—The Beaumont Enterprise came out today for the election of Dewey and Bricker, breaking a democratic tradition followed since its institution 44 years ago.

"Although the Enterprise has long been loyal to the democratic party and the nominees of that party for public office," the newspaper said in an editorial, "a situation has arisen in this country which is a serious threat to democratic institutions, to the very existence of the government which the American people have preserved and fought for in the past and a government, this newspaper believes, the American people are not ready to abandon."

Fire Wrecks State Prison Farm Building

HUNTSVILLE, Oct. 25—(AP)—A fire of undetermined origin today gutted a portion of the state prison administration building occupied by the state board of pardons and paroles.

The interior of the parole office and records were destroyed. The fire also caused considerable damage in the assistant warden's office.

Total damage has not been determined.

NAZIS PULLING OUT OF NORWEGIAN PORT

In West, Enemy Is Falling Back On 15-Mile Line

BULLETIN
LONDON, Oct. 25—(AP)—The Russian army has crossed the frontier into Norway, Marshal Stalin announced tonight.

The order of the day broadcast by Moscow said Gen. K. I. Meretzkov's Arctic army which crossed the frontier had already captured the Norwegian seaport of Kirkenes.

By WILLIAM L. RYAN
Associated Press War Editor

Implying a Russian invasion of Norway, Berlin announced today the German evacuation of the Norwegian port of Kirkenes of the Arctic "after destruction of all military installations" at that submarine base which is astride the convoy route to Murmansk.

The Red army reached the Norwegian border on a wide front Sunday.

Berlin said this drive was coordinated with that in East Prussia, where a battle flamed along a 150-mile front from the Baltic mouth of the Niemen river to the southwestern edge of the Suwalki triangle. Soviet breakthroughs from the Narow would outflank East Prussia and Warsaw as well.

On the Western front the Germans fell back on a 15-mile front above and below St. Herogenbosch and a front disjunct said that communications hub shielding the coast.

(See NAZIS, Page 8)

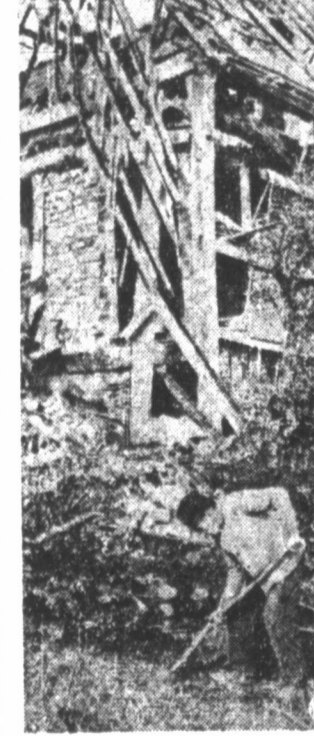

Ambassador Recalled From Great Britain

LONDON, Oct. 25—(AP)—Argentina has recalled Col. Pablo Beretta, its military attaché in London, after an invitation to visit the allied western front was suddenly withdrawn.

While the Argentine embassy was officially silent, it was reported authoritatively here that the action occurred several days ago and presumably resulted from lack of cooperation in the country's foreign policy in the war against the Axis.

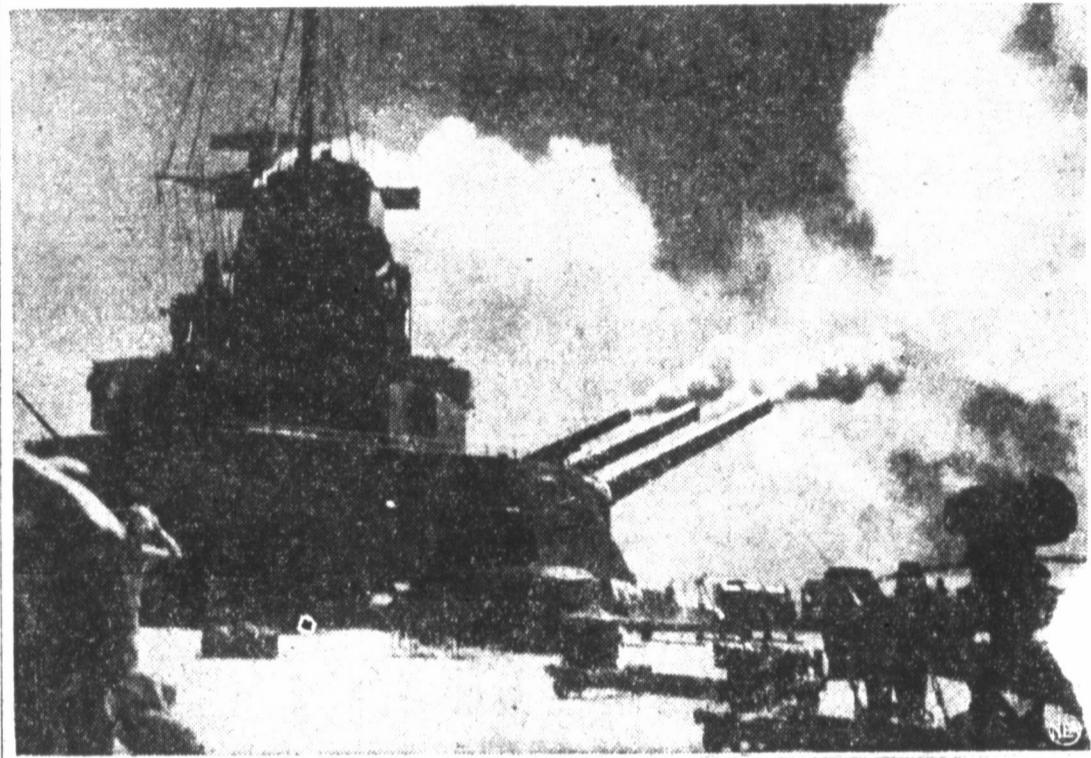

Similar invitations extended to the military attaches of other South American embassies have not been withdrawn, so far as could be learned today.

HE MUST EAT

War or no war, a man must eat, so this resident of Aachen, Germany, gets out and tills the potato patch behind his war-wrecked house while guns thunder all around him.

AMERICA'S REPLY TO JAPAN

Although not definitely known to be a fact, it is believed the U. S. North Carolina, one of our mightiest battlewagons, is somewhere in the Pacific area in which fighting is now taking place. It is possible that the ship is in the battle now going on between units of the Japanese and American fleets. (See story on this page.)

'Isolationist' Is Yelled From Both Political Camps

By J. W. DAVIS
Associated Press Staff Writer

The political campaign raged on through its busiest week yet today, with each side crying "isolationist" at the other as the presidential candidates swung into a down-to-the-wire gallop.

Time is running out, and into the next four days of a campaign that started out comparatively slowly there will be packed two more speeches by Governor Dewey and two by President Roosevelt.

Arrest of Nazi Industrialists May Be Scheme

By LOUIS P. LOCHNER
(Former Chief of the Associated Press, Berlin Bureau)

NEW YORK, Oct. 25—(AP)—Reports of the arrest of leading German industrialists which appear to be reaching neutral European countries in increasing numbers should be treated with greatest reserve. They may well prove to be a propaganda ploy to give the men the charter of martyrs when in reality they may have been picked to pull Adolf Hitler's chestnuts out of the fire.

The first report concerned none other than Hitler's wily economic wizard, the former reichsbank president and minister of economics, Dr. Hjalmar Horace Greeley Schacht. Reports of his arrest were filtered through the German press on Friday night and Chicago Saturday night, with Delaware, New Jersey and Indiana appearances in between.

The President told his news conference yesterday that some newspapers which have recalled his remark at the start of the campaign about not campaigning in the usual sense neglected to say that he had reserved the right to correct any misrepresentations.

A noisily enthusiastic crowd at Minneapolis last night cheered Dewey's argument that Mr. Roosevelt has demonstrated that he "cannot work with a Congress of his own party," whereas "we must be able to go forward harmoniously and effectively if we are to meet the mighty problems of peace."

On the bitterly-argued issue of (See POLITICS, Page 8)

O'Daniel Continues Speech-Making Tour

WICHITA FALLS, Oct. 25—(AP)—With addresses scheduled at Childress and Amarillo, Senator W. Lee O'Daniel, (D-Tex) continues today a speech-making tour of Texas.

The senator spoke at a rally here last night under the auspices of the Texas regulars. He attacked labor racketeers and asserted that all practices of the present administration have been designed to perpetuate it and its appointees in office.

He said he had not come to Texas "to tell the people of this state how to vote but merely to report faithfully as their hired hand just what is going on in the nation."

He will speak at Amarillo tonight.

U. S. Government Seizes Plant

WASHINGTON, Oct. 25—(AP)—The government today took over the Lord Manufacturing company of Erie, Pa. through an executive order which said the company boosted prices on a government contract and "willfully refused and failed" to supply war materials under a previously agreed-to price.

The executive order issued from the White House, said the conduct of the company has interfered with the "production and supply of aircraft parts and other essential war materials." It directed navy secretary Forrestal to take over and operate the plants to the extent deemed necessary to continue war production.

The order said the secretaries of war and navy issued an order fixing fair and reasonable prices for products of the Lord Manufacturing company in 1943.

"The Lord Manufacturing company," it added, "has changed the terms and conditions of sale of the (See GOVERNMENT, Page 8)

Improvement of Sewer System Based on Future Need of City

(Editor's note: This is the second in a series of articles dealing with Consulting Engineer Joe E. Ward's study of the needs for repairs and renovations in Pampa's sewerage system. The articles were prepared by Everett Bannister, member of The News staff.)

The engineer stated that the recommended improvements on the present sewerage system of Pampa are based on a future growth and population to 22,500 inhabitants. He stated that he believed this would provide capacity to serve the city for 15 to 20 years. (This growth and capacity are usually considered the economic limit in the design of a municipal utility.)

At present the estimated population of Pampa, together with the (See CITY, Page 8)

U. S. Carrier Princeton Is Reported as Only Casualty

By LEONARD MLLIMAN
Associated Press War Editor

Opposing naval forces fighting over nearly 1,000 miles of the western Pacific are battling in three interlocking air-sea engagements, now running in their third day, that have already cost the Japanese a dozen warships sunk or damaged and the Third U. S. fleet one light carrier destroyed.

Preliminary results of the continuing engagements were announced today by Adm. Chester W. Nimitz while a strong formation of Superforts lashed at Japan, Gen. Douglas MacArthur's men made their longest advance on rain-swept Leyte island in the Philippines and Tokyo radio claimed a victory in a naval-air battle east of the Philippines.

Nimitz announced Vice Adm. Marc A. Mitscher's carrier planes, sank one large Japanese carrier, and damaged two other carriers, five or six battleships, a cruiser and several smaller warships.

About 150 land-based Japanese planes were shot down, but not before they had mortally wounded the converted carrier Princeton. The Princeton's magazines exploded and the ship—the sixth U. S. carrier lost since Pearl Harbor—was sunk by accompanying American warships.

"Casualties among the personnel were light," Nimitz said. At least 1,360 were rescued. There may have been as many as 250 others aboard her.

The three Japanese carriers were caught by surprise and hit southeast of Formosa as they sped toward the Philippines.

The other damaged imperial warships were major units of two task forces, fiercely attacked in inland seas of the Philippines as they headed in the general direction of Leyte.

Tokyo conceded that at least three Japanese warships—two cruisers and a destroyer—were sunk, apparently in either the Sulu sea southwest of Leyte or Sibuyan sea northwest of Leyte.

An Imperial communique claimed 16 U. S. ships were sunk or damaged including four carriers, two cruisers, a destroyer and four transporters. It said two carriers, a battleship and two cruisers were severely damaged.

Unofficial Tokyo broadcasts asserted these were the results of a naval action east of the Philippines where Japanese reports said variously the American fleet was "surrounded" and "in flight."

The three Japanese task forces apparently were converging on Leyte, to join with land-based planes in the "smashing defeat" that Tokyo propagandists have long promised the Japanese. Some 600 allied ships, including the U. S. Seventh fleet, units of the Third fleet and the Australian fleet, are concentrated in Leyte waters.

On Leyte, MacArthur's men liberated 14 more Filipino villages and slugged through sometimes shattering deep mud to the outskirts of the interior village of Tabontaban, flanking strong enemy defenses on the central coast.

With the officially announced capture of San Pablo airdrome MacArthur now holds three airfields on Leyte-island. From airfields outside the Philippines, MacArthur's bombers still the policy of the government.

The prime minister declined to engage in a foreign affairs debate, declaring it would be unwise to go into details on delicate international matters "on the spur of the moment." There will be an opportunity for debate after his report Friday on his Moscow mission, he said.

He left unanswered questions as to how unconditional surrender was reconciled with former enemies becoming "apparent allies" and as to whether Nazis who surrendered unconditionally would be given government posts in Germany.

Earlier, Richard Law, minister of state, told the House Britain and Russia had made no decision during the recent Moscow talks on respective zones of influence in the Balkans.

Civil Clashes Reach South Part of Spain

LONDON, Oct. 25—(AP)—Clashes between Spanish republican guerrillas and forces of Generalissimo Francisco Franco have spread west into southern Spain, besides the guerrilla raids into northern Spain from France, an officer of the anti-Franco national Spanish union in Paris declared today.

Madrid meanwhile said all but a handful of the republicans striking into Spain's Navarre section from France had been wiped out.

The national Spanish union was formed to unite all anti-Franco Spaniards in France, and claims affiliation with an underground junta of Madrid.

An open call for a new civil war came from the underground newspaper, Conquest of Spain, organ of the republican junta with secret headquarters in Madrid. It urged Spanish army officers to take up arms against Generalissimo Franco.

British quarters were silent on reports of unrest. German propagandists, however, seized upon the latest reports from Spain to suggest that French troops might be withdrawn from the Western front to man the Spanish-French frontier.

Prime Minister Declines Debate Before Commons

LONDON, Oct. 25—(AP)—Prime Minister Churchill reiterated in the House of Commons today that "unconditional surrender in the sense of no bargaining with the enemy is still the policy of the government."

The prime minister declined to engage in a foreign affairs debate, declaring it would be unwise to go into details on delicate international matters "on the spur of the moment." There will be an opportunity for debate after his report Friday on his Moscow mission, he said.

He left unanswered questions as to how unconditional surrender was reconciled with former enemies becoming "apparent allies" and as to whether Nazis who surrendered unconditionally would be given government posts in Germany.

Earlier, Richard Law, minister of state, told the House Britain and Russia had made no decision during the recent Moscow talks on respective zones of influence in the Balkans.

Charge Dismissed Against Ex-Fighter

LAREDO, Oct. 25—(AP)—Carlos Garcia, former prize fighter, was freed today after a 49th district court returned a verdict of innocent in his trial on charges of murder without malice.

He had been charged in connection with the death of Mrs. Hortencia Diaz de Barrientes, who was killed when struck by a truck here last November.

WAR IN BRIEF

Pacific—U. S. carrier planes sink large Japanese carrier, damage several other large vessels; U. S. S. Princeton, light carrier, sunk by American ships after being crippled by Japanese planes; air-sea battle rages over nearly 1,000 miles of western Pacific; tanks advance on Philippines.

Eastern Front—Russians, Germans throw fresh forces into battle of East Prussia; Germany announces new Russian offensive in Poland.

Western Front—British map-up in St. Herogenbosch; 60,000 Germans threatened with internment in Holland.

Italian—Fifth army captures mount Belmonte, mountain key to enemy's Belgian defenses.

Greek—British patrols occupy Dhokmos; Germans evacuate port of Volos.

WEATHER FORECAST

WEST TEXAS: Generally fair this afternoon, tonight and Thursday except for the partly cloudy with few scattered showers in Paso area; not much change in temperature.

HOUSTON, Oct. 25—(AP)—H. R. Cullen Houston independent oil operator, says he has started what he intends to be the world's deepest oil test.

Cullen said the depth is tentatively set at 16,000 feet but that if no oil is found he will continue drilling as far, he stated, as human ingenuity and modern tools can go. The deepest known test was just short of 15,900 feet.

Cullen's test is on the Washburn ranch in western McCullum county.

Most of Stores Here To Close November 11

Most of the retail stores of Pampa will be closed all day Armistice day Nov. 11, it was decided by a majority vote at a meeting of the retail trade division of the Pampa chamber of commerce yesterday afternoon at 9 p. m. in the City hall. Cecil Myzatt, chairman announced this morning.

Since Armistice day falls on Saturday this year, the stores decided to remain open until 9 p. m. the preceding Friday to give shoppers the usual late shopping hours. Every effort will be made to give the holiday plenty of advertising in an effort to make Friday a normal Saturday as far as business volume is concerned, thereby allowing clerks and employees an opportunity to have a double holiday.

The Lubbock-Pampa high school football game Armistice day at Haverest park will be one of the features of the holiday.

FDR's Policy on Industry Rapped

FORT WORTH, Oct. 25—(AP)—Gov. John W. Bricker declared today that industry should be allowed to resume peacetime production as soon as possible and without government "shackles."

The republican vice presidential nominee, in a prepared speech, released by his campaign staff, quoted Vice President Wallace as remarking:

"I don't see how we can get re-conversion accomplished without disastrous consequences unless the government steps in as it did in conversion."

The Ohio governor, contending that "new deal restraints" had prevented all-out production early in the war, added:

"If the government steps into post-war production, as it did into war production, Mr. Hopkins and Mr. Morgenthau will be playing with the destiny of American labor and industrial management to the tune called by Sidney Hillman and Earl Browder."

At a press conference before his speech Bricker said "I think there is a good chance for the republicans to carry Texas."

He also took cognizance of the announcement by the Beaumont Enterprise that it was breaking its tradition to support for the demo-

Miss Lela Ward Entertains With Buffet Supper

Miss Lela Ward, daughter of Mr. and Mrs. Floyd Ward, 719 N. Frost, entertained with a buffet supper Friday evening for a group of friends before they attended the Clovis-Pampa football game.

Chrysanthemums, fall leaves and autumn flowers decorated the entertaining room.

Guests included Virginia McNaughton, Marion Wenger, Junice Ann Fable, Catherine Harris, Patsy Miller, Donna Jo Nestell, Mary Ann Davis, Sharon Chapman, Leona Mills, Arvilla Patterson, Patsy Cox, Donna Ruth Beagle, Nanee Campbell.

When our divisions break the present line, our engineers will be with them, and they'll have bridges to cross the Rhine, too—General Somervell.

A good window washing fluid can be made with warm water containing a little household ammonia, alcohol or vinegar.

My best Friends were amazed ... at my improved Looks ... new ENERGY.. PEP!

1—Promote the flow of vital digestive juices in the stomach
2—Energize your body with RICH, RED BLOOD!

Improper diet, overwork, undue worries, colds, the flu or other illness often impairs the stomach's digestive functions and reduces the red-blood strength.

A person who is operating on only a 70 to 75% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped.

At such times Nature needs extra help to restore its balance and function properly. Undigestible food places a tax on the system... insufficient blood strength is a detriment to good health.

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or local infection, SSS Tonic may be just what you need.

SSS Tonic is especially designed (1) to promote the flow of vital digestive juices in the stomach and (2) to build up BLOOD STRENGTH when deficient.

These two important results enable you to enjoy the food you eat... to make use of it as Nature intended. Thus you may get more vitality, become animated, more attractive!

Build Sturdy Health and Help America Win

Thousands of users have testified to the benefits SSS Tonic has brought to them and scientific research shows that it gets results—that's why so many say "SSS Tonic builds sturdy health—makes you feel like yourself again!" At drug stores in 10 and 20 cc. sizes 1/2 S.S.S. Co.

Engagement of Mary Kate Bourland Announced Tuesday in Buckler Home

Miss Mary Kate Bourland, daughter of J. B. Bourland, 713 N. Gray, was the honoree at a dinner party last evening in the home of Mrs. C. P. Buckler, 410 N. Buckler, Mrs. Ben Guill and Mrs. A. C. Green, daughters of Mrs. Buckler, were hostesses.

The party was given to announce the engagement of Miss Bourland to George Darwin Boesch, Jr., son of Mr. and Mrs. George Darwin Boesch of 221 Stanley Ave., Fort Worth. The marriage ritual will be read in November.

Guests were served dinner from a table centered with a miniature church with a bride and groom placed on the church steps. The arrangement was backed with a circle of white chrysanthemums on a mirror reflector. White candles in five-pointed candelabra provided a soft glow.

Other arrangements of miniature brides in white satin gowns placed on circular mirrors were used in the entertainment rooms. The married held a miniature portrayal of an entire military wedding procession.

Plate favors were gift packages containing a tea towel with a needle and red embroidery thread. Each guest wrote her name and the towel was later embroidered and presented to the honoree. At the end of the evening Miss Bourland was presented with 30 towels.

Attending were Misses James Leve-rieh, J. W. Graham, Jr., L. C. McKinney, Bill Boley, Raymond Harrah, D. C. Hurst, Mel Davis, Lou Grapentine, W. L. Boyles, W. D. Kelly, Violet McAfee, J. C. Richey, H. H. Green, Roy Bourland, Mrs. Cora Guill.

Misses Carolyn Surratt, Betty McKean, Doris Ann Davis, June Weidman of N. Y. City.

Forty-Two Party Held by Wayside Families Friday

The Wayside Home Demonstration club entertained their families with a forty-two party Friday night at the club house.

Those present were Mr. and Mrs. Felly Stahle, Mr. and Mrs. J. W. Condo and children, Mr. and Mrs. Harold Osborne, and children, Mr. and Mrs. W. F. Taylor, Mr. and Mrs. A. B. Carruth and family and Mr. and Mrs. J. S. Fuqua.

Guests present were Mr. and Mrs. Charlie Thomas and Mrs. Joe Crisler.

Training Course For Scout Leaders Set for Thursday

A four-hour training session will be given in the City club rooms Thursday from 10 until 2 o'clock for girl scout leaders, assistant leaders and those interested in scouting.

All leaders are asked to attend the meeting and to bring nose-bag lunches. Coffee will be prepared at the club room.

Recreational activities along with literature and dramatic activities will be discussed at this meeting. Ages will be considered as applying to activities.

Quite Ado Over Southern Accent

GADSDEN, Ala., Oct. 25.—(P)—Correspondence showing how southerners feel about "the nutrition of their accent" will be presented to Will Hays, president of the Motion Picture Producers-Distributors of America, says Walling Keith, founder of the Society for the Prevention of Cruelty of Southern Accents.

Keith, editor of the Gadsden Times, yesterday reported a flood of mail, some of it containing "nightly happy encouragements," as a result of press stories of the recently-created SPSCA.

He added, however, he might be forced to flee into the "Coosa river swamps to escape irate West Virginians." Rejecting an application for an SPSCA chapter in that state, Keith declared in an editorial that West Virginia and "real Southern" accents are as dissimilar as poison ivy and Virginia creeper.

Whether Knoxville, Tenn., is a Southern accent center will be decided, the society founder said, by a committee to which he would appoint senators Harry Byrd of Virginia, John Bankhead of Alabama and Carl Hatch of New Mexico.

Xmas Slippers

By MRS. ANNE CABOT
You can have a couple of pairs done in time for Christmas. Inexpensively crocheted of three 1-ounce balls of wool in a dark shade and one ball of a bright contrasting shade, they're as handsome as they are comfortable for cold weather wear.

To obtain complete crocheting instructions for the crocheted striped bedroom slippers (pattern No. 5246), illustration of stitch used, send 15 cents in coin, plus 1 cent postage, your name, address and live pattern number to Anne Cabot, Pampa Daily News, 1100 Sixth avenue, New York 19, N. Y.

The new fall and winter issue of the Anne Cabot Album contains scores of accessory set ideas, gifts, Christmas toys, warm sweaters, mittens, fascinators! Price 15 cents.

Baker School To Present Night Of 'Fun, Frolic'

B. M. Baker "Fun and Frolic Night" will be held in the school Friday night with events opening at 6:30.

Chili, hot dogs, ice cream and cake will be served in the cafeteria. Various contests will be held throughout the evening and games such as the "snake-walk" and "fish pond" will be played.

Two moving pictures, comedies, will be shown and a new feature, the "White Elephant" contests will be held.

At 8 p. m. the main program of the evening will be given in the auditorium featuring a Negro quartet and a trio with a guitar, banjo and harmonica. These numbers will be presented by personnel from the Pampa army air field. A skit from Pampa high will also be featured. Other portions of the program will be given by students from Baker school.

"Everyone is invited to attend. An evening of fun will be provided for all." Mrs. Allen Vandover, publicity chairman said.

Mother of 7 Sons In Service Dies

MEDFORD, Mass., Oct. 25.—(P)—Five sailors yesterday attended the funeral of their mother who gave all her seven of her sons to the navy.

From many parts of the world the sons gathered to attend the last rites for Mrs. Edward W. O'Brien, who died Saturday, only a few days before she was to have christened the navy's newest battleship as a tribute for having given her boys to the fleet.

A solemn high mass of requiem was sung at the Immaculate Conception church in nearby Malden. Committal services were held in Medford.

The return of the O'Brien boys was arranged by the senate naval affairs committee as soon as their mother's death was announced.

Present were Seaman First Class Richard, 31, and Paul, 24, who were transferred from the same vessel in mid-Atlantic to another craft which spent then to port; Apprentice Seaman Walter, 27, who came from Boot camp at Sampson, N. Y.; Ship's Cook Joseph, 33, who is stationed at Boston, and Seaman First Class Leo, 19, who left England by plane Saturday, an hour after his mother died, and arrived early today.

Ship's Cook John, 23, was on his way from a vessel in the Caribbean, but did not arrive in time for the funeral.

No word had been received at the O'Brien home as to when Beatrice's mate second class Thomas, 26, stationed in the Pacific, expected to arrive.

Mrs. Roosevelt Gives Idea of Big Issues

WASHINGTON, Oct. 25.—(P)—Mrs. Franklin D. Roosevelt said Tuesday she believes the question of a fourth term is not as much a major issue in this campaign as the third term was in 1940.

The First Lady told her news conference that she formed this opinion from letters she has received and questions she has been asked on speaking trips.

The three big things in the minds of the people at the present, she added, seem to be:

1. How we are going to have jobs for everybody after the war.
2. Winning of the war.
3. What foundations are being laid for future peace.

"It seems," she said, "that the three are really tied together. How they line up in importance I don't really know, but it would seem that the way you lay the foundation for peace is the way you go about creating jobs."

Keen Camouflage

By EPIE KINARD
NEW YORK—Because new neckwear is out to a big showmanship job of camouflage—make last year's suit look new, make an old dress belle its age—styles reflect a mild revolution in design, color and materials.

A far cry from the dinky little bibs which years ago used to answer to the call of "neckwear" are man-tailored waistcoats, peplum-ruffled dickies, gaiters which are all but blouses, glitter-embroidered ascots and yard-square scarves that beg to be used in pairs.

Instead of just pristine white, there are color shockers like chartreuse, lime yellow, Venus pink, fire-engine red, and paisley, plaid and other patterned prints which combine nearly all of these colors in one piece of neckwear.

Expect to see lustrous satin, thick-textured frills, dark sheers, Mexican print scarves, crisp rayon tafeta, patterned wools, and stiff cotton—not unlike the kind that's used to make men's dress vests—instead of the usual pique and organza, which are growing steadily scarcer.

For proof that things are happening to neckwear, take a look at the two new dicker styles, above, designed to wear with either suit or dress.

At left is a sleek paisley printed satin-belted dicker with a back which has a high cardigan neckline that can be adjusted to suit your whims.

At right is a pure Victorian backless dicker of lime-colored tulle featuring soft pleats and a fitted peplum which teams nicely as shown with a dress, but can accommodate a suit just as well. The black grosgrain dog collar studied with shiny jet beads adds a dramatic touch.

The Social Calendar

THURSDAY
Pampa Club book will meet at 7:30 in the City club rooms.
W.M.S. of the Church of Brethren will meet.

Washburn Lodge will meet at 7:30.
Winona club will meet in the community hall at 2 p. m.

Beta Sigma Phi sorority will hold a formal reception for pledges in the home of Mrs. C. A. Vaughn.

The Yvonne club will have a luncheon at 12:15 o'clock at the home of Mrs. Burdette Kelm.

U.S.O. club will have a 'Hallowe'en party for G.I.s and Victory Belles.

Girl Scout Training course will be held at 10 a. m. in the City club rooms.

Clara Hill Sunday school class will meet at 2 p. m. in the Fellowship Hall for a 'Hallowe'en party.

FRIDAY
B. M. Baker school will present its "Fun and Frolic" night to begin at 6:30.

Pampa Garden club will sponsor a chrysanthemum show from 1 to 3 o'clock and a tea from 3 to 4 o'clock.

Primary department of the First Methodist church will have its annual 'Hallowe'en party in the church basement from 4 to 5:30.

Colohe H. D. club will meet with Mrs. Melvin Roberts. Election of officers will be held.

Wayside club will meet.

V.F.W. Auxiliary will meet.

Hallowe'en party will be held at Horace Mann school with a fun and role night beginning at 8 p. m.

Ebenezer Auxiliary will have a 'Hallowe'en party for all members and friends of the church to be held at the church hall.

WEDNESDAY
Presbyterian Auxiliary members will have a general meeting.

Women's council of First Christian church will meet.

Hopkins W.M.S. will meet at 2 p. m. in the Community hall.

Farrington H. D. club will meet.

W.M.S. of First Baptist church will meet for circle meetings.

Queen of clubs will meet.

Evening Auxiliary of St. Matthew's church will meet.

Breakfast should contribute about one-third of the daily requirements of calories, proteins, vitamins and minerals.

Cottonseed Flour Has New Usage

WASHINGTON, Oct. 25.—(P)—A protein-rich flour made from cottonseed gave promise today of overcoming dietary deficiencies in millions of persons in the United States and abroad.

The flour, which has a protein content of 50 per cent, was described by D. Bresse Jones of the agriculture department's bureau of human nutrition and home economics as "partially defatted, wholesome and palatable."

Jones said large quantities already had been shipped overseas for lend-lease, and added, "use of cottonseed flour offers an effective, economical and practicable way of helping to meet a shortage of protein food for relief in foreign lands."

Jones said it was estimated that cereal grains, chiefly wheat, supply about 26 per cent of the protein used for human consumption in the United States.

A mixture containing 10 per cent more protein than wheat flour can be produced, Jones said, by adding as little as five parts of cottonseed flour to 95 parts of wheat flour.

New Commercial Air Record Is Reported

NEW YORK, Oct. 25.—(P)—Establishment of a new trans-Atlantic non-stop commercial flight record of 14 hours, 17 minutes from Le Grand, field to Foynes, Eire, was announced yesterday by James M. Easton, vice president of American export airlines.

The new record, one hour and 13 minutes faster than the previous best time, was made by Captain Charles L. Blair, Jr., who piloted an export line plane carrying 14 passengers and a full cargo load, Easton said. The plane left New York Sunday and arrived in Eire yesterday.

PERFECT GROOMING MOROLINE HAIR TONIC

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Creomulsion for Coughs, Chest Colds, Bronchitis

THIS GREAT MEDICINE helps nature relieve 'PERIODIC' FEMALE PAIN

With its Nervous, Tired Restless Feelings—

Take heed if you like so many girls and women—on such days—suffer from cramps, headaches, backache, feel nervous, "dragged out", a bit blue—all due to functional monthly disturbances!

Start at once—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms because this famous medicine has a soothing effect on one of woman's most important organs. Taken regularly Pinkham's Compound helps build up resistance against such symptoms. Thousands upon thousands of women have reported benefits.

There are no harmful opiates in Pinkham's Compound—it's made from nature's own roots and herbs (plus Vitamin B). It helps nature! Also a fine stomachic tonic. Follow label directions.

Lydia E. Pinkham's VEGETABLE COMPOUND

Have a "Coke" = Join in the fun

... or adding life and sparkle to Hallowe'en

What's a young folks' party without refreshment? "Coke" is naturally a member in excellent standing with any group of youngsters. And there's no better place to enjoy Coca-Cola than at home, served ice-cold right from the family refrigerator. Have a "Coke" is the invitation that starts a party off right and keeps it going. Coca-Cola adds its own life and sparkle to the natural gaiety of youth. When young people get together, Coca-Cola stands for the pause that refreshes, —symbolizes the sunny side of life.

Oil Man Once Suggested Allies Burn Oil on Water to Stop Nazis

When this war is over and secret files are opened, participating governments, some research workers may reveal that Hitler's attempt to invade England was stopped through a suggestion offered by a prominent Fort Worth citizen, according to a story in the Fort Worth Press.

The Hitler try for invasion took place on Sept. 16, 1940. On May 23, 1940, Joe Danciger of Danciger Brothers, Inc., wrote a suggestion that oil be used to spread destruction on the surface of water. Burning oil on the waters of the English Channel cut down the invading forces before they could return to the safety of the French coast, the article said.

It continued:

On May 23 Mr. Danciger wrote Congressman Frank W. Boykin of Mobile, Ala.:

"When the Germans recently crossed the Meuse river, evidently the Allies, who destroyed a lot of oil to keep it from getting into German hands, did not know or understand that this oil could have been used very effectively by pouring it into the Meuse river and setting it on fire. The Germans could not have crossed this river of fire."

Mr. Boykin immediately contacted the British ambassador, the late Lord Lothian, who in turn telephoned the suggestion to London. On May 31, 1940, Lord Lothian acknowledged the receipt of the suggestion in a note to Joe Danciger.

When Congressman Boykin the last week of September read the story of Hitler's futile attempt to reach England, he immediately telegraphed the Danciger brothers, recapping their suggestion made in 1940.

Number of Rats in Country Is Growing Rapidly

By JAMES MARLOW

WASHINGTON, Oct. 25—(AP)—Far away and long ago a couple of rats married and raised a family. Some family now there probably are as many rats in this country as there are people.

And their number may be increasing. That's the guess of one official of the interior department. The reason he gave: The military services' severe drain on men whose occupation was annihilating rats.

Rats cause trouble, cost money and spread disease. They start fires by gnawing the insulation off electric wires. They live mostly off food

produced by man as are found mostly near people. Fleas from rats, by biting humans, spread typhus fever and bubonic plague.

The interior department and the U. S. public health service both work against them with the help of state and local authorities. The interior people do most of their work in rural areas where most of the rats are.

The health service now is working against typhus fever in the south and bubonic plague in the western states. The plague is more deadly than the fever but less prevalent.

The number of typhus fever cases in this country rose from a reported 1,819 in 1940 to 4,517 in 1943 but the death rate is less than 5 percent.

Rats eat almost any kind of food: Grains, fruit, vegetables, meat, cheese. And, when they're in the mood, they kill baby chicks, piglets, full grown hens and ducks,

baby pigs and lambs and destroy eggs.

They gnaw holes in things like lead pipes, grain bags, boxes, doors, furniture and books, cause floods by burrowing in embankments; and they undermine building foundations.

Here are some figures—the last estimates of the interior department—on where the rats are and what damage they do:

Half of them are on farms, about 26 percent are in non-farm country residences and in towns of less than 10,000 population, and about 24 percent in cities of 10,000 population or more.

Of a total annual loss of \$189,000,000 caused by rats, \$63,000,000 is on farms, an average of \$10 per farm; \$68,000,000 in small towns and non-farm residences; and \$58,000,000 in large cities.

Bamboo sometimes grows more than a foot a day.

Spanish Forces Fight Dissidents

ZERIDA, Spain, Oct. 25—(AP)—Spanish army forces recaptured a frontier village Monday in the Aran valley and closed the main exit for Spanish republican Maquisards who infiltrated into Spain from France.

Today, the forces of Gen. Franco were moving down the valley in an effort to liquidate completely the dissidents.

The Maquisards are operating in groups of a little less than 100. Army officers said they had the choice of resisting until death or capture, or of disbanding for an attempt to escape through the heavily guarded passes which are banked with snow and which tower more than 10,000 feet. Those captured with arms face possible execution.

(Spanish republicans in Paris said the border clashes had extended deep into Catalonia and were rising in intensity. The Maquisards were veterans of excursions against German occupants of France and were said to be operating from bases in the Toulouse area of France. They reported to have held several villages, at least long enough to liberate anti-Franco political prisoners.

In some cases, Franco policemen were taken back into French territory, the Paris report said. It was reported in Paris that the French forces of the interior gave the Spanish republicans bases for operations in reward for the part they played against the Germans. The Spanish clashes have proceeded for three weeks.)

When storing things in the cellar, be sure they are not near a hot spot such as the furnace, or walls concealing hot pipes.

BIRD COMES OUT WITH THE WASH

MOUNT VERNON, Ind.—(AP)—Mrs. Karl Barro found a bird's nest in a play suit she hung on the wash line and she scolded her young son, who denied all. Next washday she found another nest, this time in a clothes pin bag. There, swinging from its pendulous perch, a wren, obviously angered by the intrusion upon its home life, scolded Mrs. Barro roundly.

To remove rouse and lipstick from washable fabrics, treat them with glycerine and then launder with soap and water.

INDIAN TAKERS TRUMP INDIAN GIVERS

FORT ANGELES, Wash.—(AP)—They're giving the country back to the Indians out near Neah Bay—almost.

This time it's a full-fledged defense community built at a reputed cost of \$1,500,000 to house 2,000 workers with more than 100 buildings and a 750-seat theater. The town is in the wilderness of the Mlichah Indian reservation, near Cape Hattery, most northwesterly point in the continental United States.

Sudden cancellation of a big defense contract meant the town's downfall. The tribal fathers of the Mlichah Indian council powwowed and bought the whole shebang for \$2,000.

HEALTH QUIZ

Do you have poor digestion? YES NO

Do you feel headachy after eating? YES NO

Do you get sour or upset easily? YES NO

Do you feel tired—listless? YES NO

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly.

Each day, Nature must produce about two pints of vital digestive juices to help digest your food. If Nature fails, your food may remain undigested—leaving you headachy and irritable.

Therefore, you must increase the flow of this digestive juice. Carter's Little Liver Pills increase this flow quickly—often in as little as 30 minutes. And, you're on the road to feeling better.

Don't depend on artificial aids to counteract indigestion—when Carter's Little Liver Pills aid digestion after Nature's own order. Take Carter's Little Liver Pills as directed. Get them at any druggists. Only 10¢ and 25¢.

Unblinded America

"I got a letter from my boy in France," the man said. "He says that they've got plenty of silk stockings and perfume over there. Why should we go without gas and tires and give away rayon while the French have the stockings? The suffering French—huh."

"I see by the paper," said another man, "that as soon as they can get ships the French are going to send over a lot of expensive champagne and brandy. Probably make a whole lot of profit, too. Now, where'd they get it, I'd like to know? Why, I'll bet you they've lived better than we have these last six months."

The third man was really bitter: "Well now, ain't that just dandy. They've already opened up a race track in Paris so the poor French can go out and watch the horses run and throw their money—away. Devastated, France! They bet never come around again and ask me to give something for devastated France, or devastated anywhere else."

"These things were actually said—not by the most thoughtful and sensible persons one could find, to be sure, but by successful business men who are respected and kind to their families."

They are literate people, too, and blessed with normal vision. They have seen photographs of French civilians, men and women, murdered by the Nazis. They have read Frenchmen's first-hand reports of what atrocities they had to endure by reputable newspaper correspondents. They dismiss these things as propaganda.

What impresses them is the fact that the French, after having spent money and lives to help liberate them, have been so ungrateful as to resume a semblance of normal living. That we have given up and practically none of our normal comforts seems to impress them as little as the French patriots' brave four-year struggle against brutality and oppression and the humiliating loss of liberty.

It is our reluctant conviction that every community in unblinded America has some people of this sort. They are not a majority, but they are vocal. And the chances are slim that they will grow any less vocal, or any more compassionate, as time goes on, unless there is the possibility that they may grow louder and more foretelling.

It may be well now for their more thoughtful countrymen to reflect on the biased, even to the point of distortion of their arguments. Otherwise the majority might be caught unaware if, as the day approaches for America's final decision on joining the world peace organization, they again hear shouting about "the ungrateful French" and "fighting Europe's war" and "minding our own business."

The Nation's Press

WAR-MAKERS ARE NOT PEACE-MAKERS

(The Christian Century)

The Democratic cry is no longer, "Give Roosevelt a fourth term to win the war." The cry has become, "Give Roosevelt a fourth term to win the peace." It is likely that most of the campaign will turn on this issue. The Republicans will continue to insist that for the sake of the world, there must be "a fresh and vigorous Administration" at Washington. The Democrats will continue to warn against turning over the negotiations to inexperienced and untried hands. This is an argument, incidentally, which would apply even more powerfully to a bid for a fifth or sixth or seventh term than to a fourth, for "as time passes, the number of 'experienced' replacements for the President will continue to diminish."

How good an argument is it? From two standpoints we venture to question its impressiveness. In the first place, we question whether Mr. Roosevelt's record to date, in negotiations bearing on the post-war order has been of such a nature as to establish any claim to his further indispensability. And in the second place, we question whether there is any sound historical basis for believing that a successful war-maker is likely to prove a successful peace-maker.

As for the shape of things to come, as sketched by Mr. Roosevelt in collaboration with other heads of state at Cairo and Tehran, there is cause for as much misgiving as rejoicing.

All too little is known, even yet, as to what Mr. Roosevelt "negotiated at Tehran," but such reports as have borne the marks of authenticity—including the inspired articles which appeared in "The Saturday Evening Post, last May—strongly indicate—that the real result of Tehran was to give Stalin a free hand in eastern and southeastern Europe and to assure both Stalin and Churchill that no trouble need be anticipated from American insistence on the terms of the Atlantic Charter. As for Cairo, the failure of that conference to deal with the real problems of Pacific peace has been set forth in the Lattourette memorandum to the Federal Council's commission on a just and durable peace, Cairo, by its thunderous silence. Virtually Mr. Roosevelt's personal guarantee of the restoration of European imperialism.

Mr. Roosevelt has proved to be a successful war-maker. As such, his place in history is secure. So is that of Mr. Churchill, of Mr. Stalin, and soon, we trust, that of Chiang Kai Shek. But can these men be expected to be equally successful as architects of lasting peace? Several years ago, when he

Our Public Officials

Are Not Overseers; They Are Servants

By ROSE WILDER LANE

(Author of "Let the Hurricane Roar," "So, if you do not want yourself or anyone else to be held in subjection, the only thing to do is to hog-tie the State. Restrict this armed power, the only one, a MONOPOLY of physical force used upon persons. In civilization, there is no other power that CAN be anyone in subjection. (Kingsmen can, but they are outside civilization, outside law—outlaws.)")

P. H. Smith, in a friendly spirit, sends me a leaflet, Socialism vs. Government ownership, saying that its theory of state ownership is attacked by me. He compliments me too much; the theory I hold is lower than that of any of the classic economists. Of course the socialist theory is different; the socialist theory is that the state should own the means of production, and that the state should control the distribution of goods.

So, if you do not want yourself or anyone else to be held in subjection, the only thing to do is to hog-tie the State. Restrict this armed power, the only one, a MONOPOLY of physical force used upon persons. In civilization, there is no other power that CAN be anyone in subjection. (Kingsmen can, but they are outside civilization, outside law—outlaws.)

But this is what I have been saying. The State is armed power, THE armed power, the only one, a MONOPOLY of physical force used upon persons. In civilization, there is no other power that CAN be anyone in subjection. (Kingsmen can, but they are outside civilization, outside law—outlaws.)

THE STATE IS NOT OVER THE PEOPLE.

So, if you do not want yourself or anyone else to be held in subjection, the only thing to do is to hog-tie the State. Restrict this armed power, the only one, a MONOPOLY of physical force used upon persons. In civilization, there is no other power that CAN be anyone in subjection. (Kingsmen can, but they are outside civilization, outside law—outlaws.)

NEWS BEHIND THE NEWS

The National Whirligig

By RAY TUCKER

CASH—Recent economic studies of postwar employment prospects suggest that some Federal control over prices, wages and credit must be retained even after Japan is crushed and the world starts on the path toward normalcy. No matter who sits in the White House, current regulations on individual income and its expenditure may have to be continued through his four-year term.

Crowded trains, night clubs, restaurants, theaters, movies and other amusement places indicate that many war workers are putting aside nothing for a rainy day. But these are only superficial observations. It is largely the younger folk who are having their fling. The older people in the factories, especially women and men recalled from retirement, are piling up savings in one form or another.

Never before have the American people had such a backlog of currency. Government bonds, bank deposits, insurance, and other assets are being accumulated at a rate that is unprecedented in the history of the United States. It is estimated that the total amount of these assets will reach \$100 billion by the end of 1945.

Up to now the Administration has done a good job in damming this flood of cash or convertible securities. As of July, outstanding government bonds and notes amount to \$10 billion, or less than buyers had contracted for in the depression year of 1931. Federal Reserve regulations, under the law, has decreed that the final fabric converters must absorb the higher costs they pay for the goods. In some instances it is said that these expenditures cannot be levied on the original processors of threads, the garment makers or the consumers.

The victims plead that they are willing to bear their portion of the Bankhead burden, but they believe it should be shared by other branches of the industry. Such a division, they would say, would be a fair trade which transforms the cloth into wearing apparel. Garment making firms, in turn, might demand a reduction in wages, which would be a fair trade for their expenses.

Note: C. I. O.-ers Dubinsky has always enjoyed pleasant working agreements with the metropolitan manufacturers.

SPREEM—Byrnes-Vinson aides have just concluded detailed studies of the 1919-1921 inflationary movement, seeking to chart a future course. In that period, by reason of public and political restrictions, restrictions were lifted as early as December 2, 1919.

The rebound turned out to be a tragic mistake. The greatest relative price rise occurred after the Armistice. Then costs soared twice as fast as they had before Germany's capitulation.

There was a short period of deflation. With cancellation of Government contracts, there was a sharp drop in prices.

When Governor Dewey in his St. Louis speech referred to an alphabet agency by the name of ACP-SAHWA, he wasn't just making fun. The full name is the American Commission for the Preservation and Salvage of Artistic and Historic Monuments in War Areas.

Used to be called the ACP-SAHWA—meaning "in Europe"—but its scope has been broadened.

That isn't the only Little Dandy Alphabetical Agency the governor might have mentioned among the more than 420 officially listed by the Bureau of the Budget. There is, for instance, the ICOCSAPPE.

The Interdepartmental Committee to Consider Cases of Subversive Activities.

Just as the professional soldier could not but be impressed by German Blitzkriegs, so the school

WAR TODAY

By DEWITT MACKENZIE
Associated Press—War Analyst

While details of the sea-air battle off the Philippines between strong Japanese forces and the U. S. Navy fleet leave much to the imagination, it is clear that a major engagement is under way.

The significance of this battle is that the Japanese were aiming to deal a death blow to General MacArthur's invasion of Leyte island in the heart of the Philippine Archipelago. They hoped to destroy the convoys of supplies and troops which are pouring in to him, and then to smash the American expedition which already is ashore and getting ahead well with the job of overrunning this strategic key to the whole Archipelago.

It's quite on the cards that more than one engagement is a-fading. Japan's Japs forces were aiming to deal a death blow to General MacArthur's invasion of Leyte island in the heart of the Philippine Archipelago. They hoped to destroy the convoys of supplies and troops which are pouring in to him, and then to smash the American expedition which already is ashore and getting ahead well with the job of overrunning this strategic key to the whole Archipelago.

The Japanese fleets contained powerful Nipponese aircraft carriers. The Japanese were aiming to deal a death blow to General MacArthur's invasion of Leyte island in the heart of the Philippine Archipelago. They hoped to destroy the convoys of supplies and troops which are pouring in to him, and then to smash the American expedition which already is ashore and getting ahead well with the job of overrunning this strategic key to the whole Archipelago.

Under that bill every demobilized veteran is entitled to this:

If unemployed, he gets \$30 a week, up to 52 weeks.

If he wants to return to school, he gets \$50 for tuition—expenses for books and lab fees—\$60 a month to live on if he is single and further allowances if he has dependents.

If he wants to go into business or farming, he can get a guarantee of 50 per cent on loans up to \$2,000, to be used to buy business property, a farm, farm machinery, or for purchase of construction of a home.

If disabled in line of duty, he can learn a trade or profession of his choice, with the Veterans Administration paying practically all his expenses, including \$80 a month for subsistence if single—and for married veterans, \$90 a month, plus \$5 for each child.

In addition, the Board of Veterans' Placement Service, set up by the administration, will give a returning GI every assistance in finding a job. A priority on jobs in many industries will be procured for him by this board, which will play an important role in creating a prosperous post-war U. S. A.

NOTWITHSTANDING Candidate Dewey's wanton attempt to play upon the anxieties of all those with loved ones in service, the armed forces will be demobilized at the earliest possible moment. This will be done by a plan carefully worked out under Secretary of War Stimson—a republican, incidentally, and one of the millions of true patriots in that party.

It is a thoroughly practical and democratic plan. Experts were sent into the field to obtain a cross section of the thinking of enlisted men. The demobilization plan represents their majority opinion.

This, certainly, is a new high in practical democracy.

The demobilization plan offers positive assurance that the size of the military establishment that will be needed after the defeat of Germany has been calculated with the same exactness as the "size of the army needed up to now. No soldier will be kept in the military service who is not needed to fill these requirements."

Candidate Dewey might read this detailed plan before repeating his unvarnished lie that the demobilization plans to hold men in the armed forces after the need for them has vanished.

Turbi has played in concert and conducted all over the world. The only country he didn't like was Germany. "Every German has been own ideas of Bach and Beethoven," he said. "They do not accept outsiders. You can feel it in the audiences. The conductors are professionally rude."

Ben of an obscure piano tuner of Valencia, Spain, Turbi now has a

Little Prospect For New Roads, Says Official

AUSTIN, Oct. 25.—(AP)—Construction of any type road in Texas, whether highway or farm to market, presents a gloomy outlook, Brady Gentry, state highway commission chairman, said Monday at the monthly highway hearing.

"The outlook for building the little country road as well as the super-highway is very cloudy, in view of the way Congress is cutting pending road appropriation bills," said Gentry, as the commission took under consideration petitions from the following counties:

Henderson: Designation, maintenance and construction of a farm to market highway from Edom to La Rue via Brownsboro, and from Chandler to Poyner. Presented by Frank J. Davis, Henderson county judge.

Hunt: A comprehensive network of farm to market roads throughout the county, and construction on highway 77 in Greenville to Dallas to make it a "super-highway." Presented by J. E. Moore, Greenville chamber of commerce; Senator G. C. Morris, Greenville; and Wm. C. Parker, county judge.

Brown and Callahan: Designation and construction of extension highway 279 to Cross Plains, presented by B. H. Freeland, Callahan county judge, and Fred Tunnell, mayor of Cross Plains.

Gentry said this petition was complicated since facts seemed to substantiate the counties presented the case correctly, but there were no records to authenticate a claim they promised by the commission (before Gentry's term) a good road from Brownwood to Cross Plains, providing the counties bought the right of way and built grading and drainage structures.

The counties sought the right of way, but the road was not built. When a state park was established near Brownwood, the highway department built a road from Brownwood to the park. The 12 miles from the park to Cross Plains is still unfinished.

Freeland contended Brownwood was satisfied with the present arrangement since it routes traffic through Brownwood. Therefore, said Freeland, his delegation asked only for the completion of a three-mile stretch to the county line, in the hope that this would impel Brownwood to join hands with Cross Plains on the original proposal.

Florida Suffers Big Citrus Loss

By The Associated Press
Florida, with an estimated 50 per cent of its grapefruit crop and up to 25 per cent of its orange crop on the ground, has decided it will not ship hurricane-damaged fruit to northern markets.

Nathan Mayo, Florida's commissioner of agriculture, says his state's citrus industry faces the worst calamity in its history as a result of last week's hurricane.

Citrus men met in Lakeland, Fla., yesterday with Mayo to discuss ways and means of salvaging the crop. The damage to the fruit from the trees, and to obtain an increase in price ceilings to compensate partially for its loss. The growers decided at that time that in order to maintain Florida's reputation in northern markets, no storm-damaged fruit will be shipped out of the state.

Shippers at the meeting indicated they have halted operations for the present. For a week or more, no fruit is likely to move from Florida.

R. M. Evans, secretary-manager of the Florida citrus commission, said a compilation of reports indicates 50 per cent of all grapefruit over the state was on the ground and between 15 to 25 per cent of all oranges. This, he stated, does not include fruit still hanging which is bruised and which may still fall or will not be suitable for shipment.

In Washington, the war food administration established wage ceilings for emergency harvesting of fruit blown from trees by the hurricane. Meanwhile, the office of price administration said the bureau of agriculture economics is making a survey of storm damage. Results of the survey would determine whether or not a revision would be made in price ceilings for Florida fruits and vegetables, the OPA stated.

Farmer Thinks Too Much Seed Planted

COLLEGE STATION, Oct. 25.—(AP)—Most farmers plant too much seed per acre in the opinion of J. S. Allen of Dawson county, who admits he has learned his lesson. Fewer seeds and soil conservation practices usually will spell success, he believes.

Earlier this year he threatened several times to plow up his crops because the stand seemed too thin, but now he believes he will make 1,500 pounds of combine-type grain per acre and a third of a bale of cotton, he recently told County Agricultural Agent Lee R. Pool. Water held by terraces, diversion ditches, and contour furrows in the pasture land assured his good crop.

Suspicious Sausages

YDNEY, Australia.—(AP)—A flourishing trade in horseflesh for pet crating up here after stringent meat rationing, but rumors that it was going into sausages and pies resulted in bills being passed enforcing strict control of the meat.

How Quintuplets

Whenever the Quintuplets catch cold—their chests, throats and backs are rubbed with Musterole. So Musterole must be just about the best cold-relief you can buy!

Just see how promptly white, stainless Musterole relieves coughs, sore throats, itching chest muscles due to colds—how breathing becomes easier—how fast congestion in upper bronchial tract, nose and throat begins to break up! Such blessed comfort in 5 strengths: Children's Mild, Regular and Extra Strong.

Students 'Capture' Office, Dismissed

MEXICO CITY, Oct. 25.—(AP)—Twenty students who "captured" the national preparatory school offices Monday after a battle with stores and clubs were expelled from the National University of Mexico today.

The university council also ordered investigation of seven faculty members accused of aiding the rebellious students.

The fighting faction sought resignation for Ricardo Rivera Perez, director of the preparatory school, a unit of the university. After the battle, the group occupied the offices only long enough to prepare a bulletin setting forth its complaints.

No one was seriously injured.

Florida Suffers Big Citrus Loss

By The Associated Press
Florida, with an estimated 50 per cent of its grapefruit crop and up to 25 per cent of its orange crop on the ground, has decided it will not ship hurricane-damaged fruit to northern markets.

Nathan Mayo, Florida's commissioner of agriculture, says his state's citrus industry faces the worst calamity in its history as a result of last week's hurricane.

Orphan Will Grow Up as American

NEW YORK, Oct. 25.—(AP)—Six-months old Kenneth Barry Maloney, a war orphan and the youngest passenger to cross the Atlantic on an army transport plane, was in London today and had started his upbringing as an American boy.

Kenneth, a chubby, blue-eyed blond whose American father Lt. Kenneth Maloney, was killed in action before his birth and whose English mother died in childbirth, was flown from England to New York yesterday in the care of an army nurse.

He was placed in the custody of the Red Cross until his grandmother, Mrs. William Maloney of Grand Rapids, Mich., arrived in New York.

Kenneth's maternal grandmother, grandfather and aunt were killed when bombs struck their home in England. Only the infant escaped injury.

Strange Tides of War

LONDON.—(AP)—A Polish soldier, looking over a row of German prisoners, found his son among them.

A good Life Policy will ruin any old mortgage on Home or Farm, leave them clear. Mamma will appreciate it.

Japanese Flee, Leaving Beer

By James Hutchison
WITH A B. TROOPS IN TACLOBAN, Leyte Island, Philippines, Oct. 22.—(AP)—Following the Japanese troops contributed large stocks of said and beer to the Philippine celebration of the liberation of Tacloban.

When veteran troops of the First Cavalry division arrived in the provincial capital a day ahead of the D-day schedule, they were met by deliciously happy Filipinos.

The gaily-dressed Filipinos lined the streets and windows, shouting, grinning, waving their hands and flags. Maj. Gen. Verne D. Mudge, division commander, estimated 500 U. S. flags were on display.

Scores of Filipinos traded and bought happily with cases of beer on their hands. Even children carried it. Two 12-year-old girls laughingly carried a case between them.

It all came from large stocks of beer and said left behind by the garrison of 1,000 Japanese troops

Market Briebs

NEW YORK WALL STREET
NEW YORK, Oct. 25.—(AP)—Selected stocks set up and nibbled at recovery nourishment in today's market while a fever abated for many of Monday's outstanding casualties.

Dealings were heavy at intervals and transfers for the full proceedings were around 900,000 shares.

Ahead of the market was the case of Southern Railway, Santa Fe, Southern Railway, U. S. Steel, Bethlehem, Chrysler, American Telephone, U. S. Rubber, Douglas Aircraft, International Harvester and Johnson & Johnson.

Associated rail bonds came back moderately.

After Man Is Treated at Federal Hospital, Does One of 3 Things

(Editor's Note: This is the 12th story in a series on servicemen's benefits, ranging from demobilization to jobs and pensions.)

By James Marlow
WASHINGTON, Oct. 25.—(AP)—Army and navy hospitals care of the ill, injured or wounded serviceman.

Then, at the finish of all the treatment that can be given him, one of three things happens:

1. He is able to go back on active duty.

2. He is found unfit for active duty, is discharged for disability, can ask for a pension, and is sent back into civilian life.

3. He is found not unfit for active duty but in need of prolonged or permanent hospital treatment. In that case he is discharged from the military service, can ask for a pension and is transferred to a veterans hospital nearest his home.

These veterans hospitals are operated by the Veterans Administration (VA).

In group No. 3 could be cases like these: Tuberculosis, mental derangement, blindness, heart disease, severe asthma, and badly crippled men.

But what of veterans who, because of some disability connected with their military service, need hospital treatment any time after their discharge from the service?

Any honorably discharged veteran, who has a disability connected with his military service, can get free treatment any time after his discharge at any VA hospital.

It's all free to him: Transportation to the hospital, bed, operations, medicine, nursing, food, as long as he needs hospitalization.

Suppose the same class of veteran—honorably discharged—doesn't need to stay in a hospital but does need medical service of dental care for a condition caused or aggravated by his military service.

That would be called out-patient treatment. He could get that free, too, and it includes medicine, appliances, bridge-work, and so on. He also gets this from the VA.

What about the veteran who has no service-connected disability, such as one who has been out of the service for years and is suddenly stricken with appendicitis? Can he get free hospitalization?

Yes, if he was not dishonorably discharged, and if he says he can't pay for the hospitalization. If he can't pay for transportation to the hospital, he gets that free, too. (If he says he can't pay for the hospitalization, he doesn't get it at all.)

Invisible Gets Picture Taken

By Howard Blakeslee
Associated Press Science Editor
NEW YORK, Oct. 25.—A new robot which photographs the invisible, and makes a picture of such things as the wave of heat rising from a human hand, and which would, the makers say, photograph a ghost, was announced to the Optical Society of America here.

The report was made by Norman F. Barnes and S. Lawrence Bellinger of the General Electric company.

The new thing which makes the photographic miracles possible is an electronic timing tube. Air itself becomes visible if the photoflash is brief enough.

The tube takes a picture in one millionth of a second. It produces the flash and at the same time regulates the exposure time. The picture is taken so fast, the report declared, that the light from the flash bulb has time to travel only 1,000 feet before the picture is over. Light's speed is 186,000 miles a second.

The new robot is of military use in analyzing the shock and turbulence around a gun muzzle. It probably will be useful in solving problems of airplane design and in many other industrial fields.

SEA-FARING CAT TAKES A MOUSE

FRANKLIN, Ind.—(AP)—Ensign Robert W. Demaree, U.S.N., wrote home that he needed two cats to take care of "Thomas," a mascot of his LST craft.

It seems the first crew adopted Thomas in a port during the invasion of France. Thomas quickly earned the rating of DG 1/6 (deck chaser, first class) by routing a poach that once tried to take over the ship.

Tacloban, a city of 30,000 and the largest on Leyte Island, is the first important Philippine town to fall to the invading Americans. It is now the provisional capital of the Philippines, patrolled by the 7th Cavalry Regiment.

The quarries at Carrara, Italy, are as old as Christianity.

Harvesters Continue Preparation For Conference Game

Brownfield Will Be No Easy Pushover

LUBRICATION has been added to the Harvesters' machinery, and things are getting in shape for the first District 1-AA conference game Friday night in Brownfield. Pampa is perfecting the T and Flying Trapeze formation, and Brownfield looks across the horizon wondering what to do about it all. . . . But Brownfield is no slouch. The Cubs are one of the 12 undefeated teams in the state of Texas, and they won their tilt with the fast and heavy hitting Hobbs, N. M., eleven. They are definitely dangerous material and the Harvesters will take a genuine trouncing if they think themselves too sure of victory.

Pampa is facing their conference games, five in number, inexperienced, with slow small men, but fans know what to expect from the Harvesters. We have faced district games with men that are almost impossible to replace. The Harvesters last year consisted of Noblett, Curtis, Kerbow, McKinley, Bridges, Washington, Robbins, and the never-to-be-forgotten Boyce. Other valuable replacements that Pampa has lost are Dick Manry, triple-threat left halfback; Larry Fuller, versatile end; James Hart, center, and J. C. Hopkins, guard.

The Harvesters are facing veteran material in their forthcoming opponents, and Coach Coffey is hard at work with his men, warning them of things that are to come. The Amarillo Golden Sandies, the just around the corner for the Harvesters. The Golden Sandies, with very fine material and an excellently coached eleven, playing All-American football, are favored to win over the Harvesters, but we cannot predict how much. Still Oklahoma City was more than a favorite to give the Harvesters one of the soundest thrashings any team had received. . . . and the score was 7 to 0 in favor of the Sooners.

Ducks, Geese Are Now On Lake Marvin

Ducks and geese are not only on Lake McClellan but are also winging their way to Lake Marvin, by the thousands. The hunting of the feathered quacking birds will begin Thursday, November 2, and hunters will have the pleasure of hunting this newly opened body of water for the first time. The lake was opened January 20 of the current year.

In announcing hunting dates, Lake Marvin officials said that the same ruling would apply to this body that is being observed on Lake McClellan. Hunting will be permitted on the opening date with Wednesday, Sunday and all legal holidays being listed as hunting days thereafter.

Hunters are reminded that they must check into the game station before the hunt; have on their person a duck stamp, and check out at the close of the day's hunt. Ducks and geese by the thousands are now on the lakes adjacent to Pampa, and hunters may expect easy pickings when it comes to bag limits.

Conference Members Add Hard Practice

By The Associated Press
Southwest conference members were putting the accent on practice today, each team shadowboxing around with plays opponents may hurt at them next Saturday. Except at the University of Texas, preparations for coming grid frays were in full swing. At the university, gridsters were in the midst of final examinations, and Coach Dana X. Bible admonished his men to stay eligible for the tough game with Rice in Houston Practice yesterday was limited to a one-hour drill to give the players more time with their books.

At Rice, Coach Jess Neely sent his Owls through a lengthy work-out yesterday, using Texas' plays. Indications were that the largest crowd in the history of Rice stadium may see the Owls battle the Longhorns for the conference lead. Coach Dutch Meyer at Fort Worth had a big worry lifted from (Continued on Page 7)

High School Gridders Watch Outcome of District 1-AA Race

By EVERETTE BANNISTER
News Sports Editor

These things called conference tilts get under way right pronto now, and the nearer draws the day the more confusing becomes the answer to the \$64 question. Who will emerge victor?

Squinting at results last week-end ye sports scribes from all over had picked teams that were trampled in defeat. Lubbock took a 7 to 6 defeat from the badly crippled Abilene Eagles, throwing the conference race into one grand and glorious mess on paper.

Lubbock Westerners were placed on top of the list when the Amarillo Golden Sandstormers fell before the San Angelo Bobcats three weeks ago. To cap the climax the Sandstormers have defeated Abilene, so there is the real complication.

This leaves the Sandies and Westerners the favorites. But what about the Harvesters right here at home? The Harvesters, under the careful and most worthy guidance of Coach Otis Coffey have mastered the famous Chicago Bears "T" formation, and have the machine oiled to perfection to start their harvesting of conference games. The Harvesters are reaching for, and will set into the limelight. We have suffered two defeats this season, but the defeats were from worthwhile opponents, and the trimming the Harvesters took did them more good than injury. The Harvesters ripped the fur from the Clovis, New Mexicans last Friday night by pouring through a much heavier line than was expected. The score was 83 to 2.

Pampa has pulled these tricks before. During the 1943 grid season the Harvesters with a fair record of play invaded Amarillo's Golden Sandstorm making history. Yes, the Harvesters start slow, but after all the grain is not ready for harvest until it is fully ripened. The Harvesters' machinery clicks best in conference games, and they are within a shadow's cast.

Brownfield remains the only unbeaten team, and they must face the Harvesters this Friday night in Brownfield. Brownfield got their position by defeating the Hobbs, New Mexico squad 12 to 7 in district 1-AA, but the Cubs from Brownfield have been tied, by Lamesa. The score was 6 to 6.

The ability for passing attack with all of its thrills and fancies has placed another of the Harvesters (Continued on Page 7)

Commissioner Happy Over Grid Rules

By HAROLD CLAASSEN
NEW YORK, Oct. 25—(AP)—Everybody, says Eastern Intercollegiate Football Commissioner Asa Bushnell, is happy about the changes his organization made in the grid-iron rules.

Bushnell explains that the players like the changes "because the game is more fun," the coaches like them because they are able to experiment with such innovations as the free-pass rule; the spectators like them because it opens up the play and increases the scoring and the officials like them because it has simplified their work.

And we have had no problems or complications beyond the normal ones. As a matter of fact, we have had no troubles at all. There have been the usual hypothetical questions. (Continued on Page 7)

Texans Again Take Honors In Big Rodeo

NEW YORK, Oct. 25—(AP)—Texans took two first places at last night's performance of the rodeo in Madison Square Garden. Tony Salinas of Enclinal, Texas, placed first in calf roping with a time of 16.3 seconds, and Bob Estes of Baird, Texas, won first in bull riding.

Salinas' time was 16.3 seconds. Harry Hart of Pecosillo, Idaho, won second with 18.3 and Mack Kinnibrugh of Corpus Christi, Texas, was third with 19.

Gene Rambo of Shandon, Calif., won the bareback bronc riding event. Dick Griffith of Scottsdale, Ariz., was second in the bull riding contest, and Glenn Tyler of Modesto, Calif., was third.

Eddie bronc riding—Won by Jack Wade, Halkirk, Alberta, Canada; second Carl Olson, Lethbridge, Alberta; third Turk Greenough, Red Lodge, Mont., 38.1.

Wild cow milking—Won by E. Pardee, Lamar, Colo., 33.4 seconds; second Gene Rambo, Shandon, Calif., 36.2; third Bill Greenough, Red Lodge, Montana, 38.1.

Secretary Hull Is Reported Resting

WASHINGTON, Oct. 25—(AP)—Undersecretary Stettinius said yesterday that Secretary Hull, who is in the Bethesda, Md., naval hospital, is getting lots of rest and his examinations are proceeding most satisfactorily.

Hull went to the hospital last week with a throat ailment. Associates announced at the time that he was going there for a checkup.

Longhorns To Meet Rice Owls

HOUSTON, Tex., Oct. 25—(AP)—University of Texas Longhorns meet the Rice Owls here Saturday for the Southwest football conference lead, and indications are that the largest crowd in the history of Rice stadium will see the game.

The only sellout Rice has known was the 1934 game with Texas. The stadium then had 20,000 seats but since then the seating capacity has been expanded to 28,000. With the exception of some seats behind the goal stripes, less than 1,000 tickets remain unsold.

White Deer Adding Color To Grid Games

WHITE DEER, Oct. 25—Adding dash to the Bucks' first conference game last week, the newly organized (writing corps under the direction of Bandmaster James H. Gain, made their first appearance with the band.

The 11 girls wore white pleated skirts and sleeveless jackets with blue sash blouses and blue "W"s on the front of their jackets.

Members of the corps are June De Moss, leader, Mary Ann Moot, Betty June Price, Johnnie Ruth Coker, Theda Hester, Willie Dee Osman, Laura Ella Woodard, Bonita Cook, Mary Anna Kalka, Bertie Howard and Donna Wilkerson.

The drum major is Glorine Reim, with Roberta Allison, Dorothy Nell Minter, Jean Heath and Lea Mae Bednora, majorettes.

The cheer leaders also appeared in new costume and presented some snappy new routines. The girls, Ouida Nell Overstreet and Wilma Jean Adams, wore white wool skirts and sweaters, and the boys, Gene Roy Powers, wore blue trousers with white sweaters.

MORE BUZZ BOMBS
LONDON, Oct. 24—(AP)—The retreating Germans now are firing flying bombers at the liberated areas of Belgium, the Brussels radio said today.

You will spoil the fine finish on a wood floor if you scrub it with water.

Wildcat Coach Attempts New Combination

CANADIAN, Oct. 24—(Special to The News)—Coach Charles R. Douglas has gone back to work with his Canadian Wildcats in an effort to find a combination to replace injured men in his starting lineup.

Chris, injured in the game against Panhandle, is not expected to be ready for action with the Wildcats, as is Lopez, another starting Canadian back, who apparently is suffering from an attack of appendicitis. He was not in uniform for the Wheeler clash here last weekend.

The Wildcat squad has been beset with injuries since their game with Shamrock, their second of the current season. The game this weekend, with the White Deer Bucks, can be termed a crucial one for the Wildcats as a loss will probably drop them from the running for district 2-A. They have previously lost to Panhandle by a score of 7 to 6.

The Bucks from all appearances have an edge over Canadian as far as weight is concerned, and their showing against Berger, also indicates a nod in their favor.

DE GAULLE RECOGNITION
CHUNGKING, Oct. 24—(AP)—China, following the lead of the United States, Great Britain and Soviet Russia, today formally recognized the De Gaulle regime as the provisional government of France.

Hull went to the hospital last week with a throat ailment. Associates announced at the time that he was going there for a checkup.

Longhorns To Meet Rice Owls

HOUSTON, Tex., Oct. 25—(AP)—University of Texas Longhorns meet the Rice Owls here Saturday for the Southwest football conference lead, and indications are that the largest crowd in the history of Rice stadium will see the game.

The only sellout Rice has known was the 1934 game with Texas. The stadium then had 20,000 seats but since then the seating capacity has been expanded to 28,000. With the exception of some seats behind the goal stripes, less than 1,000 tickets remain unsold.

White Deer Adding Color To Grid Games

WHITE DEER, Oct. 25—Adding dash to the Bucks' first conference game last week, the newly organized (writing corps under the direction of Bandmaster James H. Gain, made their first appearance with the band.

The 11 girls wore white pleated skirts and sleeveless jackets with blue sash blouses and blue "W"s on the front of their jackets.

Members of the corps are June De Moss, leader, Mary Ann Moot, Betty June Price, Johnnie Ruth Coker, Theda Hester, Willie Dee Osman, Laura Ella Woodard, Bonita Cook, Mary Anna Kalka, Bertie Howard and Donna Wilkerson.

The drum major is Glorine Reim, with Roberta Allison, Dorothy Nell Minter, Jean Heath and Lea Mae Bednora, majorettes.

The cheer leaders also appeared in new costume and presented some snappy new routines. The girls, Ouida Nell Overstreet and Wilma Jean Adams, wore white wool skirts and sweaters, and the boys, Gene Roy Powers, wore blue trousers with white sweaters.

More Buzz Bombs

LONDON, Oct. 24—(AP)—The retreating Germans now are firing flying bombers at the liberated areas of Belgium, the Brussels radio said today.

You will spoil the fine finish on a wood floor if you scrub it with water.

Wildcat Coach Attempts New Combination

CANADIAN, Oct. 24—(Special to The News)—Coach Charles R. Douglas has gone back to work with his Canadian Wildcats in an effort to find a combination to replace injured men in his starting lineup.

Chris, injured in the game against Panhandle, is not expected to be ready for action with the Wildcats, as is Lopez, another starting Canadian back, who apparently is suffering from an attack of appendicitis. He was not in uniform for the Wheeler clash here last weekend.

The Wildcat squad has been beset with injuries since their game with Shamrock, their second of the current season. The game this weekend, with the White Deer Bucks, can be termed a crucial one for the Wildcats as a loss will probably drop them from the running for district 2-A. They have previously lost to Panhandle by a score of 7 to 6.

The Bucks from all appearances have an edge over Canadian as far as weight is concerned, and their showing against Berger, also indicates a nod in their favor.

DE GAULLE RECOGNITION
CHUNGKING, Oct. 24—(AP)—China, following the lead of the United States, Great Britain and Soviet Russia, today formally recognized the De Gaulle regime as the provisional government of France.

GRIDDERS

(Continued from Page 6)

ters future opponents, the Plainview Bulldogs, and the top contestants, but lately things have been going wrong for the Bulldogs and their last two opponents have emerged the victor—but who can tell something may pop that will again cause the Bulldogs to start this playing for keeps business. Plainview, it must be remembered dropped a decision of 37 to 13 to the Mustangs from Sweetwater.

Another Bulldog team had been enjoying a comfortable top notch seat until come the Golden Sandies and there was a mighty splash. Berger bids the seat for a time, but the untitling of the chair by the Sandies, 39 to 6 may give some other high powered team some trouble.

The Harvesters are plunging into their first taste of conference water for the 1944 season this Friday, but in many cases the play will continue. The Harvesters will visit in Brownfield while Plainview tackles outback. The Amarillo Golden Sandstorm and the Berger Bulldogs will take a rest.

Be Wise! Prepare for Winter We have plenty of AJAX anti-freeze.

Injuries Fatal To Oil Worker

Injuries, sustained when an oil field truck crushed him, proved fatal yesterday for Burl Alfonso Pugh, 43-year-old roustabout.

Pugh, who had been employed some time on the W. W. Holmes lease received the injuries four days ago. He was a resident of Skellytown, and had been a patient in a local hospital from the time of the accident.

He is survived by his wife, Mrs. Josephine Pugh; three daughters, Mrs. Buster Burney, Miss Edna Fern Pugh and Miss Frances Lavern Pugh, all of Pampa; two sisters, Mrs. Lennie Hobbs, Plainview, and Mrs. Pearl Hankins, Grandview; three brothers, Bud of Reed, Okla., Tom Mangum, Okla., and John of California. Also surviving are his parents, Mr. and Mrs. W. H. Pugh of Mangum.

The body will be taken to Mangum where funeral services will be conducted some time tomorrow. Duenkel-Garmichael funeral home is in charge of the arrangements.

Court House Cafe Opens Dining Annex

Formal announcement of the opening of the Court House Cafe dining room annex in connection with the regular cafe was made today by F. B. Wright, owner and manager.

The annex will be open daily from 11:30 a. m. to 2 p. m. and from 5 p. m. until 10 p. m. The cafe and dining room annex are located at 119-121 Kingsmill.

"We have modernized our kitchen," Wright said today and we feel we are better ready to serve the best of foods prepared by women cooks under competent supervision."

Both the cafe and annex serve home-baked breads and pastries. Wright said it is the desire of the Court House Cafe and annex to provide an enjoyable eating place for Pampans and their friends.

Pampa and Her Neighbor Towns Mainly About

Mrs. Arch Cale and Mrs. Alice Short Smith are spending the week in Tulsa.

Word has just been received that W. A. Hutchinson who is in a Shattuck, Okla., hospital, is much improved. His son, Billy, who has been there with him for the past few days, has returned here, but Mrs. Hutchinson is remaining with him.

Half the job isn't enough. Try Voss Clinics. A trial is convincing. Call 669. 218 N. Cuyler.

Mrs. and Mrs. Claude Heiskell of Clovis, N. M., were at Lubbock Sunday to visit with their brother, Lt. Grover Lee Heiskell, who has flown from his base at Corpus Christi, Lt. Heiskell is a marine corps pilot. Both men are the sons of Mr. and Mrs. H. H. Heiskell.

Carpenters—apply Belvedere Cafe? Members of the First Methodist church will hold their quarterly conference tonight at 8 o'clock with the Rev. T. Palmer, district superintendent, in charge.

Permanents given by Mr. Yates always "take". No failures. No disarrangements.

Miss Boris Ann Davis is visiting with her parents, Mr. and Mrs. Mel Davis, this week. Also a house guest of the Davis' is Miss June Weidman of New York City. Miss Weidman and Miss Davis are roommates at Boulder, Colo., where they are attending college.

The monthly pack meeting of Boy Scout pack 14 will be held at 7:30 p. m. Thursday at the First Presbyterian church.

A Chinese soldier, right, seems highly interested in Servicemen's vote information sheets being looked over by T/Sgt. Frank Baum, left, of St. Louis, Mo., and Sgt. Kenneth Ing, of Angola, Ind., liaison men of Brig.-Gen. Frank Dorn's forces on Salween River front Burma.

Speech Doesn't Reach the Air

WICHITA FALLS, Tex., Oct. 25.—(AP)—A planned network broadcast of Ben W. Lee O'Daniel's speech from here last night was cancelled due to a "confusion of time by rally leaders and their speaker," radio officials said.

The complete scheduled radio address was carried only by the Wichita Falls station, KWFT, the announcement said. Other stations in the network were able to broadcast only the first minute of the speech.

Supporters who planned the rally at Memorial auditorium in Wichita Falls had scheduled the broadcast to begin at 8 o'clock, the station said, adding the speaker, who apparently understood the time was set for 8:30 p. m., arrived at the auditorium only a few minutes before that time.

New Helicat Is Put Into Action

WASHINGTON, Oct. 25.—(AP)—The navy has thrown a new Helicat into the Pacific which is bringing down Japanese planes on a 31 to 1 ratio, a major contribution to the sweeping advances of the past six months.

A few details of this superlighter were disclosed—but no more than the zero pilots already have discovered to their dismay.

The new ship is called the FEP-3. It supersedes the earlier Helicat which itself was superior to Japanese fighters in speed, armor, armament and fire power.

In the new edition, the engine cowling has been further streamlined, speeding up the speed which already was better than 400 miles an hour; painting has been changed to increase speed and provide camouflage; a new four-bladed propeller increases visibility; armor plate behind the pilot has been widened, giving him better protection.

The new ship mounts six .50 caliber machine guns, also can carry rockets and bombs. Pilots say it handles beautifully in a dive, takes off nicely from flattops and can outrun the fastest Zero ever made at any altitude.

The improved Helicat did an impressive job helping the landings in Southern France, also.

They are being turned out on a mass production basis by the Grumman Aircraft Engineering Corp., at Bethpage, N. Y.

Don't waste time trying to get your house clean with cloths which are too dirt-filled.

CHEST FUND

tee to make reports to his office on the progress made so far.

"If there is any solicitor who has a good reason he cannot work the cards issued to him, we wish he would report to us and we will try to find someone who can make the calls," Hughes said.

"We must get the money in for this drive" Gorman added, "because if we fail in this drive it means that each of the organizations will have to go out and conduct its own drive to raise the money."

Those who are asked to attend the meeting are:

L. M. Atchinson, Huey Laycock, Tex. De Weese, Joe Fisher, W. L. Waggoner, Arthur Rankin, Joe Mitchell, Cleo Meharg, Jack Sullivan, Luke McClelland, Doyle Jones, J. R. Martin, Howard Buckingham, Morris Goldfine, James Massa, M. P. Downe, A. C. Troop, Charles Gunn, Verle Hagaman, Roy McMillan, C. A. Huff, C. B. Ausmus, Otis R. Terry and C. M. Carlock.

Russian salient 15 miles from In-

sternburg, rail hub, and about 70 miles from Königsberg, East Prussian capital.

Part of 18 additional German man communities was announced by the Russians, who told of a new attack on the province from Augustow, Polish border stronghold on the southeast, which Soviet forces were said to have captured. Heaviest fighting was near Goldap, point of deepest Russian-claimed penetration, and to the northeast, south of Chmelinen, strategic junction on the westward route through the heart of the province.

The Russians also advanced in Hungary, and in Czechoslovakia took the big town of Husak (Husak). British patrols on the heels of Germans fleeing Greece have occupied Dhromokos, 123 miles northwest of Athens and 30 miles north of Lamia. Other Germans evacuated Volosok, 45 miles northeast of Lamia.

American troops in Italy captured Mount Belmonte, obstacle in the path of the advance on Bologna, after days of bitter struggle among misty Apennine peaks.

The Free Yugoslav radio announced capture by Marshal Tito's partisans of Novisad on the Danube, 45 miles northwest of Belgrade.

Auto License Plate Rules To Be Same

AUSTIN, Oct. 25.—(AP)—The state highway commission announced yesterday that wartime restrictions will continue to apply to automobile license plates for 1945, but in modified form.

Between now and April 1, 1945, said DeWitt Greer, chief engineer, applicants will be issued only a "license sticker" about the size of a postal card. This may be placed on the outside of the car in any prominent place or on the inside windshield as the occupant desires.

After April 1, 1945, all registrants will be issued just one metal plate. This will be about the size of the 1942 license and carried on the rear of the car. It takes the place of the small metal wartime tabs.

Greer said the legislature authorized the highway department to depart from ordinary rules governing license plates in order to cope with wartime metal shortage.

Pappy Is Back With All His Bandmen

PORT WORTH, Oct. 25.—(AP)—They are back in Texas with pappy, all six of them—the Texas songbird, Happy, Klondike, Little Horace, Little Ezra and Little Caesar (sometime Peewee).

As Senator W. Lee O'Daniel's famous hillbilly bandmen, they are Bill Perrin, singer and guitar player; Mike Thompson, Hawaiian guitarist; Trenton Coats, fiddle; Kelly Driver, guitar; Elvis Head, electric guitar; and Walter Hayes, base, violin and sax.

They are "about 50-50" the old band which has accompanied O'Daniel through previous campaigns, Songbird Perrin, the leader, says. He has been with O'Daniel through four campaigns, formerly as Horace. His brother, Pat Perrin, is announcer and business manager.

POLITICS

(Continued from page seven)

American participation in a world peace organization, Dewey said the United States' representative must not be required "to return to congress for authority every time he has to make a decision." With this, he said, Congress alone can determine "what discretion it will give our representative" to use American forces to stop aggression.

Mr. Roosevelt, who has said republican victory would elevate "invertebrate isolationists" to places of power, has contended that the American representative must be endowed in advance, through Congress, "with authority to act when a threat to peace appears."

Dewey gave an advance line on

CITY

(Continued from page one)

lation of 37,500. Ward also pointed out that as the city's growth steadied and other utilities are developed, the contributors may increase to 75 per cent of the entire population. In this case the design for 22,500 contributors would care for a total population of at least 30,000 inhabitants.

Pampa has an estimated flow of 60 gallons of water per day, per contributor. In army camps in Texas the average flow per contributor in the summer months is about 100 gallons per day. The army camp, however, has only adult population, and there is little if any restriction on the use of water, whereas the average city residence has more children than adults and excessive use of water is avoided for the sake of economy.

Pampa's peak rate of flow for a period of from 1 to 3 hours is estimated at twice the daily rate of flow, and extreme peak rate of flow lasting only a few minutes for which carrying capacities of channels and sewers must be designed, is estimated at three times the average daily rate of flow. The design to care for the extreme peak of three times the average daily rate of flow should be adequate to take care of infiltration, which is expected to be only moderate.

Existing Systems

The present sewerage system includes approximately 11,000 feet of 15-inch sewer; 21,000 feet of 12-inch sewer; 20,000 feet of 10-inch sewer; 26,200 feet of eight inch sewer; 121,300 feet of six-inch sewer; 280 manholes and 80 lampholes. The sewer pipe in the original system, and in the extensions constructed since 1928 is tile pipe, while that installed in the 1928 program in non-reinforced concrete piping. The manholes constructed in the original system and in the 1928 improvement program are of concrete, while those constructed since the 1928 program are of brick. All the manholes and lampholes have cast iron covers held in place by cast iron rings or frames.

The tile piping included approximately 8,600 feet of 10-inch pipe; 14,400 feet of eight inch pipe and about 68,300 feet of six inch pipe. The non-reinforced concrete pipe includes approximately 11,000 feet of 15-inch pipe; 21,600 feet of 12-inch pipe; 11,600 feet of 10-inch pipe. Pampa has some 210 concrete and 70 brick manholes on the entire system.

Li. Gov. Smith Is Tree Farm Speaker

LUFKIN, Tex., Oct. 25.—(AP)—Lt. Gov. John Lee Smith was a speaker at 400 lumber manufacturers and forest land owners attended the dedication of the Texas tree farms system here yesterday.

The system involves several hundred thousand acres of East Texas forest land.

In his address, Smith said the State of Texas should provide for an adequate forestry program by the Texas forest service.

Calf in Question Becomes a Cow!

HILLSBORO, Tex., Oct. 25.—(AP)—Calf, like time, wait for no one—even cows.

Ten months ago a justice here was asked to determine ownership of a calf, but a transfer to another justice and a couple of continuances now has changed the status to: Who owns the cow?

When the LIGHTS go on again

"When the LIGHTS go on again"—magic phrase that signifies the return of peace! The end of war will end many another dislocation in civilian life, but we somehow express ourselves most naturally in terms of light. For an abundance of light, above all else, means comfort, relaxation, modern conveniences, civilized life.

Your homes, at least, need not be "blacked out" these days. In fact, most electric dealers now stock bulbs in all common home sizes. Adequate lighting will cost little, but is worth many times its cost in terms of easier, more comfortable seeing. Make sure your light is right before the winter evenings arrive.

When you fill up those empty sockets, be careful to use the RIGHT SIZE bulb in each place. See that shades and diffusing bowls of all lamps and fixtures are clean. Replace dark shades by those having white or light linings. If necessary, rearrange lamps and furniture so that the light is closer to the point of use. These steps will help you make certain you get all the light you are paying for.

Good lighting at home for eyesight protection will help us all. It will help conserve our vision so we can carry our share of the war load, thus speeding the day of victory, when the lights go on again—all over the

Southwestern PUBLIC SERVICE Company

A COMPLETE PLAN

B. M. A.'s new and unusual saving plan is complete personal insurance protection, precisely lined up with the needs of today's way of life. It is protection for all four hazards—DEATH, SICKNESS, ACCIDENT, OLD AGE—COMBINED IN ONE PLAN, issued exclusively by one company with only one premium deposit.

For an explanation of the above plan, call
