London Is Still Teeming Center Of War Activity

By HAL BOYLE

LONDON—(AP)—The war has moved quite a way from London—but noisy, teeming London hasn't moved very far from the war.

Though the lights have gone up a little, the blackout still lingers. Long after peace returns, many Londoners probably will draw their blinds at night through habit. It is odd to think there are children of kindergarten age in England who never have looked out of a lighted window at night.

But it doesn't make much difference at this time of year. London is in the midst of the season of misty mornings. Fog shrouds the gray, time-worn streets and buildings and hides the face of Big Ben.

No city gives more of a sense of mystery than London gripped by fog. Even Chislehurst, the native quarter of Algiers, lacks London's dramatic sense of something unknown impending—perhaps another bus-bomb, perhaps an encounter with Sherlock Holmes, trying to find his way back to Baker street through the fog.

Two Americans newly arrived in town stood outside a liquor store, looking thirstily at a window full of bottled Scotch.

"If we just walked in there and tried to buy one of those bottles,"

they would throw us right out on our ear," said one.

"You can't tell," the other one said. "Try it."

The first American entered dubiously. He came out a few moments later carrying a bottle but wearing anything but a triumphant look.

"Well, they didn't throw you out," said his buddy.

"No, but I wish they had," the other said, holding up the bottle and inspecting it painfully. "This thing cost me 17 bucks."

Cab-hunting still is the leading outdoor sport. Because of their trips Americans usually get the nod from taxi-drivers when they are hailed by more than one prospective fare.

This causes a bit of Anglo-American friction, and you can't help feeling that justice lies on the Englishman's side. It's easy to understand his annoyance when a cab he signals passes him by.

As one fuming old gentleman put it when the American "Invasion of England" was at its height:

"These bloody cabs! They stop only for Americans and streetwalkers!"

Allies Apologize For Ship-Sinking

ROME, Dec. 7.—(AP)—Aircraft of the Mediterranean Allied coastal airforce accidentally sank the unladen German hospital ship Tuebingen during a period of poor light on Nov. 18 while she was en route to Trieste. Allied headquarters announced today. Regrets were conveyed to German authorities.

The headquarters statement said: "A full inquiry into this unfortunate incident is proceeding." Headquarters said it understood that casualties among the crew were very light.

The ship was carrying no wounded at the time.

The official Allied report said nothing of the nationality of the attacking planes, but indicated they were British with the statement that the British government had conveyed its regrets to the enemy."

Jap Stamp Act

The four Philippine stamps shown above, smuggled out of the islands by an exchange prisoner, show how the Japanese appropriated Philippine postage for their own use, obliterating all references to the U. S. and in one instance (top stamp) employing a surcharge reading: "Congratulations—Fall of Bataan and Corregidor—1942."

Under a recent agreement signed with Great Britain, Canada will supply the United Kingdom with approximately two and a half million board feet of lumber in the first two years after the end of the war in Europe.

Four Generations Gather Round Birthday Table in Wheeler Home

WHEELER, Dec. 7.—It was a very pleasant occasion Thanksgiving when four generations of the Warren family gathered at the Charles Warren home in Wheeler to celebrate the 71st birthday anniversary of Charles Calvin Warren, Sr. Mrs. Charles Warren and two granddaughters, Misses. Choice Bridges and Lola Brown were hostesses to the large number of guests during the homecoming.

All of the four living children were here for the celebration. Of the 16 grandchildren, eight were present, and of the 12 great-grandchildren seven were in attendance. There were a number of other relatives by marriage in attendance.

Elder E. P. McNeill of Canyon came with Mr. and Mrs. E. W. Warren of Amarillo to conduct special services during the celebration honoring the senior Mr. Warren.

It was a happy gathering, when during the specially prepared dinner, all of the Warren family sat down together for the first time in several years. At the beginning of the birthday feast, Elder McNeill offered thanks. The long table moved to the living room for the occasion, was beautifully decorated following out a Thanksgiving motif, with the patriotic red and white color scheme predominating, the center piece being a mirrored floral bowl with fresh flowers in season and an evergreen background.

The same color theme was carried out at 4 o'clock in the afternoon, when the huge birthday cake was out. The massive snow-white cake was decorated with the traditional red candles and inscription, and it was fun to see Mr. Warren try to extinguish the 71 candle lights at one breath. The cake and punch table was presided over by the honoree's great-grandchildren, who also served the guests. The guest register was presided over by

the only daughter of the House of Warren, Mrs. Carl L. Conroy.

Those registered included: Charles Calvin Warren, the honoree; Mrs. Charles Warren, W. J. Warren, Geo. Warren and Mrs. Carl L. Conroy, of Wheeler; Mr. and Mrs. Earl Warren, of Amarillo; granddaughters registered were Misses. Lorraine Brown, Lola Brown, Gladys Bridges, of Wheeler; Mrs. Coraleene Cate and Miss Marie Warren, of Amarillo; Misses Betty Warren, Georgia Warren and Nelda Conner of Wheeler.

The great-grandchildren present were Misses Joyce, Betty Jo and Carmelita Brown and Lois Bridges and Doyle Brown and Lloyd Bridges.

Others registered were Elder E. P. McNeill of Canyon; Choice L. Bridges, E. L. Brown, Mr. and Mrs. O. P. Conner, Mrs. Arnold Jones and daughter, Kay. Those away who sent greetings and gifts were Mr. and Mrs. W. L. Haley of Snyder, Texas, Mr. and Mrs. V. L. Durnell and Mrs. Geo. Horcher of Houston. A number of local friends called and sent messages during the afternoon.

Issue Is Same, Declares Rainey

AUSTIN, Dec. 7.—(AP)—Despite injection of what he said were "red herrings" the real issues in the University of Texas administrative controversy remain freedom of the school and proper administrative control, Dr. Homer P. Rainey declared last night.

The discharged president of the university addressed a student convocation—a speech that was broadcast on a statewide network—and thanked students, faculty and ex-students for support given him in his differences with the board of regents.

Dr. Rainey asserted the charges made against him by regents who dismissed him had been met successfully in a senate committee's investigation of the university situation.

He said the regents had attempted to divert attention from the main issues by dragging such red herrings as communism, the morals issue, the Negro problem, the case of a conscientious objector and a book on the English reading list which they described as foul and obscene.

Despite this, he added, the real issue remains freedom in the university and the problem of proper administrative control of the university.

He observed that a university of the first class cannot be accomplished if regents run the school "according to their own personal whims and wishes."

22,000 Landowners Aided by Program

COLLEGE STATION, Texas, Dec. 7.—(AP)—Projects sponsored by the Texas Soil Conservation district on 8,000,000 acres of Texas land have helped 22,000 landowners since 1928.

These figures were given to 150 conservation district supervisors who attended the association's fourth annual meeting at Texas A. and M. college today.

The group heard a summary of district developments given by Walter W. Cardwell of Luling, chairman of the state board.

An afternoon address by Dr. Tommas H. Taylor, president of Howard Payne college, Brownwood, was to be followed by a discussion of administrative problems led by R. M. Beavel of Kenedy, chairman of the Karnes county soil conservation district.

Want to Win an Ovation?

Then try something different this week. Drop off whatever brand of coffee you've been using and buy a pound of Admiration instead. Of course, don't let the family in on your secret. It'll be more fun to watch the faces around the table as grins grow into broad smiles of satisfaction. After that, we warn you, you'll have no other choice but Admiration Coffee — first, last, and always. But then, why not? If, like so many wives, you've had "coffee complaints" recently, because some established brands have been cheapened — well, using Admiration thereafter will just be a double pleasure.

Admiration Coffee

Filled with actual rosebuds, reminiscent of the Old South with rose fragrance. Enjoy the perfume with the Rose Jar on your dressing table or scatter the rosebuds as you would a sachet. \$4.50.

Southern Belles

Three girls of the romantic Old South on the cover—three bell-shaped bottles of perfume inside—one each of Woodland Spice, Plantation Garden and Cotton Blossom. \$3.58.

America's Pacific History Since Pearl Harbor Has Been Turbulent

CIRCLE OF FIRE SURROUNDS JAPS ON ANNIVERSARY OF PEARL HARBOR

Today is the target for B-29 raids as Japs face American revenge for Pearl Harbor. The world's mightiest air fleet is making the skies uncomfortable for the Nipponese.

By THOMAS M. JOHNSON, NEA Military Writer

WASHINGTON, Dec. 7.—Retribution—here and deadly—has caught up with Japan on the third anniversary of Pearl Harbor. Her infamy of 1941 is being avenged with a terrible completeness. She cannot survive our immediate blows and our future attacks. The poetic justice of her recent defeat by the navy she stabbed at Pearl Harbor will soon be repeated by the army she tortured at Bataan.

Japan, reeling under MacArthur's irresistible blows, faces another right to the chin. MacArthur is readying another leapfrog bound, this time from his base on Leyte to Luzon. Of all the Philippines, this island is the most northern, and the most strategic. From naval and air bases at Manila and elsewhere, our warships and planes can imperil the sea communications of Japan's isolated empire.

FORMOSA NEXT

From the Philippines, our next leap to Formosa not only can cut these communications completely, but can also leave Japan's southern armies in Burma, China, Malaya and the Indies largely unsupported and partly un supplied while forcing her northern defense back to the homeland.

Then Japan's southern armies left on the vine can be pruned and rooted out of Burma, Thailand and Malaya by the powerful British, French and Indian fleets, and out of the Indies by Australasia, New Zealanders and Netherlands. The northern armies can be attacked by either of both of two routes.

From Formosa we might hop to any of the numerous good ports on the nearby mainland of China, or we might seize the Ryuku islands, bottling vital Jap shipping in the East China Sea. We might even take bases in the Bonins or Volcano Islands or Iwo Jima, nearer to Japan itself.

Our circle of fire is surrounding the red sun which in 1941 seemed rising but today is setting. Our

bomber-line is creeping up. Our B-29's, as well as smaller planes based upon our carrier force, already ready constitute the world's most powerful air fleet. It can range wherever there is water to float a flat-top, wind to launch its planes. Our air strength has doubled since spring, and behind our carriers are 100 per cent replacements in planes. Repair facilities have cut trips to Pearl Harbor way down. One of the three years' greatest changes is that the navy could still fight a decisive battle on its floating bases, even if an earthquake should sink all of Oahu.

Few realize that supplies shipped to all Pacific areas total \$6,000,000 tons, 40 per cent of shipments to the European-African theater. The Southwest Pacific, MacArthur's theater, is second only to Europe. Of all the 11,800,000 men and women in our armed forces, who have gone anywhere outside this country, 30 per cent have gone to the Pacific. Despite conditions of climate, topography and geography that are fiendishly difficult, their achievement has been tremendous.

JAPS FLEE TOKYO

Nor does the public realize that of this strength, so much has been air strength in men or machines, that the army air force has flown some 400,000 sorties against the Japs alone, and "naval air" has brought down 4,000 Jap planes and almost cleared them from the skies. As the B-29's close in, our intelligence hears that thousands of business firms are leaving the Tokyo area. And by Christmas, precious supplies will be rolling by truck from India into hard-set China.

This is not the end of Japan—not yet. She has still fleet enough left for one more desperate sea-battle; still planes enough for many a hard fight in the air; still a tremendous army of whom only 7,500 have surrendered while 750,000 were killed.

If she continues to prefer suicide, her end cannot come for a year

after Germany's. But come it will, and at a frightful price in death and devastation. The only thing the Japs made certain at Pearl Harbor three years ago was that today there would be converging upon Japan the greatest armed might on land, sea and air that the world has ever seen.

Seaplane Takes Chances, Wins

AN ADVANCED NAVY SEAPLANE BASE AT LEYTE, Dec. 2 (Delayed)—(AP)—The crew of a MacArthur seaplane reported today an undisturbed single-handed scuttling of one of Japan's biggest carriers, Lieut. James D. Fallon of New Haven, Conn., while searching the sea south of Celebes spotted a carrier of the formidable Shokaku class.

Ignoring the odds against his slow-moving "Nightmare," as his plane was called, Fallon swept stern of his quarry and turned for a bombing run.

Ensign Robert L. Harper of Pontiac, Mich., the first pilot, dropped the big flying boat down to 150 feet from the water where the navigator, Erhard W. Rinmer, of New Braunfels, Texas, corrected her course for the bomb run.

The alerted Japanese carrier swung violently and opened up with all her guns.

The first 500 pound bomb fell short; the second hit the water; the third hit squarely on the flight deck and the fourth went over the flat top and exploded in the water.

Fallon expected furious anti-aircraft as his "Nightmare" lumbered slowly away, but all firing ceased.

He said the carrier's speed decreased sharply and it was obviously hurt, but there were no fires.

At last he was obliged to break off and return to base. When the "Nightmare" settled down, its engines coughed, sputtered and then quit. The last drop of gas had been expended.

Here Are Facts Leading Up To Leyte Invasion

A white flag was raised on Corregidor in 1942, marking the end of hostilities against the Japanese in their bid for empire. It ended the Pacific war's most heroic stand against the men of the Emperor.

The "long road back" has indeed been long and the fighting—and dying—has been hard. Here are the main dates and events leading up to now:

1941

Dec. 7—Japan attacks Pearl Harbor, Hawaii, Philippines, Guam, Wake, Malaya and Hongkong, opening war with U. S. and Britain.

Dec. 10—Japanese land in Philippines.

Dec. 27—Japanese bomb Manila.

1942

Jan. 2—Enemy takes Manila and Cavite naval base.

March 17—Gen. MacArthur arrives in Australia.

April 9—Americans surrender on Bataan; some escape to Corregidor.

May 4—Japanese lose 11 vessels in Coral sea battle.

May 6—Corregidor falls.

Aug. 7—Americans land on Guadalcanal.

Sept. 1—U. S. and Australian troops drive Japanese from southern tip of New Guinea.

Sept. 2—Japanese advance into Owen Stanley mountains, New Guinea.

Dec. 14—MacArthur's forces take Buna, New Guinea, five days after fall of Gona, in drive to clear Papuan peninsula.

1943

Jan. 24—Buna campaign ends, 15,000 Japanese killed.

Feb. 2—U. S. completes Guadalcanal campaign.

March 1-4—Bismark Sea battle costs Japanese seven destroyers, three light cruisers, 103 to 150 planes out of action, 45,000 troops killed.

June 30—Allies occupy Rendova island in the Solomons, land at Nassau Bay, New Guinea.

July 5—Yanks land on New Georgia Island.

Aug. 27—New Georgia campaign ends.

Sept. 4—Australians land near Lae on New Guinea.

Sept. 5—Partisans seize Nadzab airfield behind Lae.

Sept. 11—MacArthur takes Salamaua.

Sept. 16—Lae captured.

Sept. 22—Australians land at Finschhafen, opening Huon peninsula campaign.

Oct. 2—Finschhafen captured.

Oct. 28—American paratroops land on Choiseul Island, Solomons.

Nov. 1—Marines land at Bougainville.

Nov. 21—Nimitz announces U. S. invasion of Makin and Tarawa Islands.

Nov. 22—Abemama, Gilbert Islands invaded.

Nov. 23—Organized resistance on Gilberts reported ended.

Dec. 15—U. S. 6th army lands at Arwe, New Britain.

1944

Jan. 2—Yanks land on Saider, New Guinea.

Jan. 31—U. S. invades Kwajalein, Marshall Islands.

Feb. 18—Allies invade Green Islands, Havking Rabaul.

Feb. 19—Americans land on Eniwetok atoll, Marshalls.

Feb. 22—Yanks complete occupation of Western New Britain.

Feb. 23—Americans land on Admiralty Islands.

March 15—U. S. aircraft credited with rendering Rabaul impotent.

March 20—Yanks land on St. Mathias Islands.

April 22—U. S. forces land on Hollandia and Aitape.

April 24—Madang occupied.

May 17—Yanks land on Wakde Island.

May 27—U. S. invades Biak.

June 14—Yanks land on Salpan.

June 19—U. S. carrier planes attack Japanese fleet between Philippines and Marianas, sink or damage 14 ships.

July 8—Americans complete Salpan campaign.

July 20—Yanks invade Guam.

July 28—President Roosevelt, Gen. MacArthur and Adm. Nimitz end three-day strategy conference on Philippine invasion.

July 30—Allies land on Sansapor, Western Dutch New Guinea.

Aug. 10—Guam campaign completed.

Aug. 15—Halmahera reported "practically neutralized" after air assaults.

Sept. 6—Carrier planes blast Palau Islands.

Sept. 14—American carrier task force destroys 501 planes, wrecks 173 ships in four-day U. S. off Philippines, Nimitz announces.

Sept. 14—Americans invade Palau Islands and Morota.

Sept. 15—U. S. marines invade Peleliu in the Palaus.

Sept. 16—Tokyo announces evacuation of Davao, Philippines.

Sept. 20—Organized Japanese resistance ends on Angau in the Palaus four days after U. S. invasion.

Sept. 20-21—Japanese lose 86 ships, 405 planes, two drydocks and 17 small craft as U. S. carrier planes lash at Manila area.

Sept. 22—Yank marines occupy most of Peleliu.

Sept. 28—Nimitz announces new carrier attacks on Philippines costs Japanese 22 ships, damage to four others, bringing to over 530 the number of enemy ships sunk or damaged there in 25 days.

Oct. 1—Four invaded Palau Islands "secure" by U. S., except for isolated resistance, Nimitz announces.

Oct. 7—Navy announces 12,211 Japanese killed in Palau thrusts.

Oct. 8—Yanks invade Garabato in Palaus.

Oct. 9—U. S. Third fleet attacks Ryukyu Islands, sinking or damaging 58 ships, destroying 89 planes.

Oct. 10—U. S. task force blasts Luzon Island, Philippines.

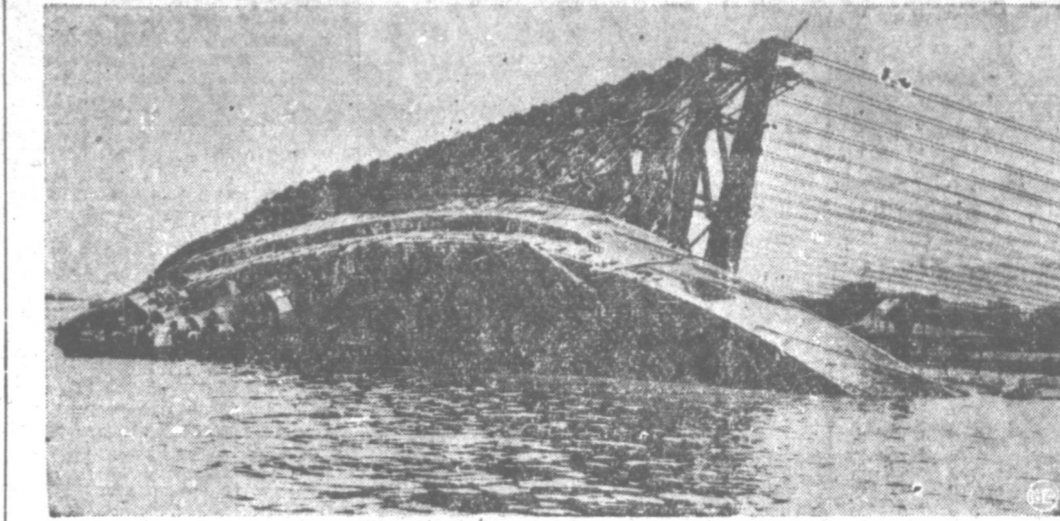

Oct. 11—Formosa hit by powerful U. S. naval force; Japanese claim 1,000 U. S. planes in mid.

Oct. 12—Continuing attacks on Formosa raise Japanese losses there to 63 ships sunk or damaged, 306 planes destroyed.

Oct. 13—Superfortresses join naval attack on Formosa as Third fleet again attacks Luzon.

Oct. 13—MacArthur's planes smash

MIGHTY OKLAHOMA RISES FROM HER 'GRAVE'

Covered with barnacles and other marine growth, the hull of the 29,000-ton battleship Oklahoma rises from the waters of Pearl Harbor, where it was sunk during Jap attack, Dec. 7th, 1941. The spectacular salvage operation was effected through a shore-to-ship series of electrically operated cables. When half-righted, as pictured above, a cofferdam was built around the low stern section, holes patched and pumping begun to provide the buoyancy necessary to float the ship. This is a symbol of America's reply to the sneak attack.

at Ceram and Roero, Japanese strongholds south of the Philippines.

Oct. 16—Adm. Nimitz announces that in week-long attacks in Philippine area, the Japanese have lost 146 ships sunk or damaged and from 705 to 720 planes.

Oct. 19—Pacific's greatest invasion force, including air, ground and sea forces, lands on Leyte Island under command of Gen. MacArthur, making good his promise that the return to the Philippines would be made when the time was right.

The really crucial question that the United States must face in resuming its normal peacetime pursuits is not that of reconversion but that of genuine recovery from the conditions of the 1930's.—The Guaranty Survey, Guaranty Trust Co. of New York.

Postwar Plans Give Way to War

LONDON, Dec. 7.—(AP)—Oliver Lyttelton, minister of production, told commons that Britain's post-war trade policy could not be formed now, with perhaps the bloodiest battles of the war yet to be fought.

He broke into a debate in which several members voiced concern over belief that the United States was getting the jump on Britain in export trade plans.

Even after defeat of Germany, Lyttelton said, more than 50 per cent of Britain's total resources will still be geared for the war against Japan.

Sir Oliver Simmonds, conservative, declared earlier that "anyone other than a political ostrich must realize by now that we are operating our export trade under serious disadvantages."

"Let the government take full advantage of dispensations of the new lend-lease arrangements and let them end vacillation and present the country with a bold imaginative policy which would be supported here, respected in America and rejoice all our pre-war customers," Sir Oliver said.

"I don't think Americans respect us any more for minding our words. It is time we did away with this double language. x x x American businessmen, efficient as they are in their own business, are the most superficial people in the world when it comes to facing economic facts."

Three years have come and gone since the day the Jap planes first swooped down from the sky dealing fire, death and destruction at Pearl Harbor. The passage of time has been marked with new disasters and victories. America has thrown all her mighty resources into the fight . . . to avenge the deaths of those heroes who died on that fatal December day in 1941 . . . and the many who have died since then! On this December 7th, let us take a new breath, work and fight harder . . . dig into our pockets a little deeper and bring up enough money for an extra bond—to show how earnestly . . . we REMEMBER!

Labor Official Is Killed in Accident

WACO, Dec. 7.—(AP)—Llewellyn B. Duke, 48, of Dallas, general counsel for the wage and hour division of the U. S. department of labor, was killed in a collision between his car and a gasoline truck 12 miles north of here yesterday.

Duke was a state assistant attorney general under William McCraw. He was en route to Dallas from Austin, where he appeared in U. S. district court Tuesday.

The truck, owned by Nichols Brothers Co., Dallas, was driven by R. D. Griffin, also of Dallas.

Duke's body was taken to Georgetown. Surviving are his widow, the former Miss Edith Easley of Georgetown, and a brother, Jake Duke, Ft. Worth.

His death was McLennan county's 23rd traffic fatality this year.

Doomed Man Given 30-Day Extension

AUSTIN, Dec. 7.—(AP)—Governor Coke R. Stevenson granted a 30-day stay of execution for George Duke of Tarrant county who had been scheduled for execution yesterday in the Huntsville penitentiary electric chair for conviction of murder.

The stay expires Jan. 5, 1945.

It was granted in accordance with the governor's custom of allowing one stay in each capital case, the limit of his clemency power without approval of the board of pardons and paroles.

McLean-White Deer Game Is 2-A Cage Opener for Season

By CLAUDIA EVERLY
Special To The News.
WHITE DEER, Dec. 6.—With eight games and four tournaments already scheduled, the White Deer Bucks opened their cage season Tuesday night at McLean, with White Deer winning by a score of 43-25.

Three regulars and four squadmen from last year's team have reported for practice and 17 other boys are competing for places on the squad, under the direction of Coach Tyson Cox.

The regulars are Charles Barnard, Dean Lassiter, and Bill Burns. Squadmen back are Dixie Osborn, Roy Hemphill, George Dickey, and Glenn Hess. The new boys out are John Beu, Robert Beu, Gilbert Dickens, L. C. Hawkins, Jimmie Crawford, Royce Beck, Roy Lee West, Billy John Shurley, J. M. McPherson, Burle Sutton, James Click, Johnnie Harvey, Gilbert Meaker, R. L. Harlan, James Westhull, Fredell Pennington, and Willie Urbanczyk.

Coach Cox is trying to secure games for each Tuesday and Friday night not included in the following schedule:

Dec. 5, McLean, there; Dec. 8, Canadian, there; Dec. 11, LeFors, here; Dec. 15-16, Canyon tournament; Jan. 9, McLean, here; Jan. 12-13, Shamrock, tournament; Jan. 19, Phillips, there; Jan. 23, Panhandle, here; Jan. 26-27, Canadian tournament; Feb. 2, Phillips, here; Feb. 5, LeFors, there; Feb. 13-16-17, District tournament.

Administrators and coaches of the 13 schools in District 2-A basketball met recently in Pampa to reorganize and plan the season's play.

Supt. Chester Strickland, White Deer, was reelected chairman, and McHenry Lane, principal of White Deer high school, was named secretary.

It was voted to divide the district as it was done last year, with the winners of the two divisions meeting for the play-off before Feb. 24, 1945.

In the south half, headed by Bob Clark, will be Clarendon, Lakeview, Memphis, Shamrock, Wheeler, and Wellington. This group voted to hold a Round Robin tournament to decide their champion.

The north half includes Canadian, McLean, LeFors, Panhandle, Phillips, Ferryton, and White Deer.

House Members Will Have Get-Together

HOUSTON, Dec. 7.—(AP)—Before the 49th legislature meets next month, its 61 new house members will have gotten together with older members in an informal two-day caucus which developed from a purely local gathering arranged by Lt. Marvin B. Simpson, Jr., public relations representative in Houston for the maritime service, when he was first elected to the house from his home district, Fort Worth, back in 1936.

The conference will be held Saturday and Sunday in Fort Worth. It will get new members acquainted with old ones and solve many problems, as shipping, building, roads, planning, and other questions, redrafting of the state, and maybe some talk about the University of Texas squabble, Lt. Simpson said.

Looming large in postwar plans, the lieutenant said, will be the matter of increased shipping from Texas as ports, with more steamship offices located in the state.

"I find that 80 per cent of the oil produced in Texas goes out in tanks under normal peacetime commerce," Lt. Simpson said. "Besides oil, I understand there are 100,000,000 tons of dry cargo shipped through Texas ports."

"Despite that enormous movement, only two shipping companies have their home offices domiciled in Texas."

English People Win Texan Over

By MARY L. KENNEDY

The English won J. Frank Doble's heart. He came back from a year's teaching at Cambridge university, plunged into the University of Texas controversy, and will take up where he left off lecturing on the folklore and literature of the Southwest, and anything else he thinks important.

The 56-year-old, vigorous minded, sturdily built Texan pushes his iron-grey hair about while he talks. Thought stirs him to action. He lashes out at what he considers intolerance and stagnation like a man clearing underbrush with a newly honed axe.

"What we need are more soap-box artists spouting on public squares. Get the people used to the divergence of thought. English parks and squares have their orators. Ours are filled up with automobiles."

"The English aren't afraid of outside aims engulfing their government. They trust themselves more than we do and they keep up with the times. Liberal thought there is represented by the wealthy as well as the poor."

The most far reaching plan for social reform ever conceived in the Beveridge plan in England. It was drawn up by Sir William Beveridge, master of a college, recently elected a member of the House of Parliament on the conservative ticket. Nobody in England has called him a communist or sought to ban him from the country or a university because of his liberal ideas.

Next to his love of the British for their tolerance, courtesy, and thoughtfulness, Doble cherishes the memory of their countryside with its gardens, moors and meadows. And when spring comes in England "it is so beautiful you feel compensated for the long grey months of winter."

"The English do not exploit the land. They cultivate it. They feel a debt to nature and know you have to be fair to the earth if the earth is going to yield to you."

On Sundays and holidays "so many people turn out with lunch baskets and bicycles it looks like a mass migration."

Doble, who has earned the nickname "Maverick professor" for his friendly eccentricities and unpedantic air, traveled among the people. He visited the huddled in their cottages. Everywhere he found the English brave, friendly, and courteous. The war has ravaged and impoverished them but it has not hobbled them with self-pity.

In the spring of '45 Doble's book on England comes off the press. It holds one chapter on his home-base, Cambridge. Fourteen chapters on other lands. "I never was much of an academician," explains Doble. He tells of the pubs, the "poor man's club, the democratic senate of the populace, where mild liquors are served and men and women become convivial but not drunk."

Doble went to Scotland. He stood on the moors and felt a great sense of vastness as in the Big Bend country.

There is a chapter on English conservatism which Doble defines as "a cherishing of the good in the things while remaining open-minded towards change."

Meteorologists have figured out that about 16,000,000 tons of rain and snow fall on the earth every second.

Ammunition Is Still Rationed

By WES GALLAGHER

WITH THE U. S. NINTH ARMY IN GERMANY, Dec. 7.—(AP)—Despite a considerable improvement in army supplies, which has allowed full-scale operations, artillery still is being rationed on the Western front.

During quiet periods, artillery commanders are instructed to conserve supplies for future operations. Some local operations do not get full support during these lulls because of the ammunition shortage. Batteries are put on definite quotas, which are lifted only when the high command strikes with a full scale effort.

Here are the facts concerning the

Texas Farmers Will Grow Cork Oak Trees

COLLEGE STATION, Dec. 7.—(AP)—Farmers, the Texas forest service asks your aid in determining whether cork oak can be grown commercially in Texas.

Upon application, the service, with headquarters here, will furnish free post paid, cork oak seed. The only requirement is that you furnish information on the trees if it is requested.

Army Wants 300 Dogs for Duty

DALLAS, Dec. 7.—(AP)—The army wants 300 large dogs from Texas and Louisiana to train for scout duty in jungle warfare, Forest M. Hall of Dallas, regional director of dogs for defense, said today.

"These K-9 recruits must be larger than the hundreds of others which already have gone to the army from these states," he said.

Specifications: age 14 months to 3 years; shoulder height, 23 inches or more; weight 60 to 80 pounds; preferred breeds, Dobermans, German Shepherds, farm Collies and the cross breeds thereof.

Hall said enlistment papers would be forwarded to all persons offering dogs and that the procurement organization would pay all expenses.

Medical Center To Be Among the Best

HOUSTON, Dec. 7.—(AP)—Dr. E. W. Bertner, acting director of the M. D. Anderson hospital for cancer research, said here yesterday that the Texas medical center will be second to none in the United States.

Funds approximating \$100,000,000 are expected to be placed eventually in the overall program which already has assurance of \$32,000,000 through endowments and contributions, Bertner said.

A story that hasn't been told AN AMERICAN WAR PRODUCTION RECORD THAT DESERVES TELLING . . .

On December 14, at 3:00 o'clock in the afternoon, the men and women of Humble Oil & Refining Company will pause in their work to commemorate, in appropriate ceremony, a feat unparalleled in the petroleum industry: The production of ONE BILLION GALLONS of finished 100-octane aviation gasoline at the Baytown refinery.

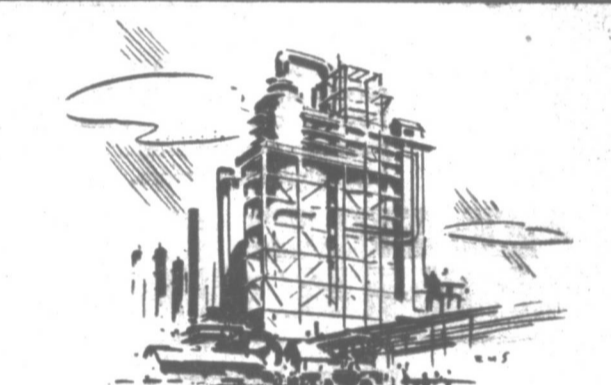

This accomplishment merits special commendation, because it climaxes 25 years of development, planning, and teamwork of a great organization. The cooperative effort of Humble employees has brought about a uniform progress in all phases of the Company's operations which has enabled them to establish remarkable records in finding, producing, transporting and refining petroleum during a critical period in the history of our nation.

Humble research and development, in progress for many years before Pearl Harbor, made possible these accomplishments and contributed greatly to the total production of toluene, and the tremendous quantities of finished 100-octane aviation gasoline required by our Armed Forces.

Baytown Ordnance Works, first synthetic toluene plant in the world, has supplied toluene for at least one out of every two bombs, used by the United Nations since Pearl Harbor. For this production feat, Baytown Ordnance Works has five times been awarded the Army-Navy "E".

Baytown Refinery has made one billion gallons of finished 100-octane aviation gasoline—more than has been produced by any other plant in the world. The world's first commercial alkylation plant was built at Baytown in 1938. The alkylation process is the very backbone of 100-octane aviation gasoline production by the entire petroleum industry.

Humble Oil & Refining Company is the nation's largest producer of crude oil, and is currently supplying about one-fourth of the increased production required for war, as measured by the gain since 1941.

Through the facilities of Humble Pipe Line Company, there is being transported more oil than is being carried by any other system in the country. Nearly 700,000 barrels move daily through Humble pipe lines—one-seventh of all the oil production in the United States.

United in a great singleness of purpose, 14,000 Humble men and women are devoting themselves to the task of providing vital petroleum products for war, looking to the day when their 3,000 fellow employees and all their comrades in arms will return.

OPEN HOUSE AT BAYTOWN REFINERY—DECEMBER 14-17

So that one of America's great war plants may be seen in action, Baytown Refinery is holding open house from Thursday, December 14, through Sunday, December 17. The story of the refinery at war will be told by dra-

matic exhibits of petroleum war products and a great Army and Navy show of war machines and materials. Specially conducted tours will take Humble's friends and neighbors into the heart of the refinery itself.

Court Dismisses Libel Suit Case

OXFORD, Miss., Dec. 7—(AP)—The federal district court dismissed here yesterday a suit filed by former Gov. Dennis Murphree, asking \$100,000 damages from the Mississippi Publishing Company, publishers of the Jackson Daily News, which Murphree charged carried a "libelous" statement about him last July 25.

The court said it was without jurisdiction and its action was taken without prejudice.

Murphree, in his suit filed last August, said the alleged statement about him was "false, untrue and libelous" and was "calculated to injure the reputation of the plaintiff."

The case came up for trial at the current term of federal court which opened here Monday.

More Opposition Is Expected Soon

WASHINGTON, Dec. 7—(AP)—Increasingly strong opposition to American advances in the Pacific may be expected from Japanese land based aviation, Navy Secretary Forrestal reported yesterday.

Forrestal said the enemy's land aviation now is stronger than at any time in Japan's history.

At a news conference, he said that in the battle for the Philippines American carrier planes and aircraft carriers met major forces of land based Japanese bombers and fighters for the first time.

A year ago, Forrestal said, American aviation had a great technical advantage but "now it is very slender."

He added that only a few of the newer improved enemy planes have been met in combat and said there is good reason to believe that they are holding a large stock of these new army planes in reserve on the Jan mainland.

OUR MEN IN SERVICE

(The Pampa News encourages letters and cards to men and women in service. Identify subject and write plainly, so there will be no chance of a mistake.)

KEEPS THEM ROLLING

Fleets of trucks, which service the planes of the fighting air forces, are rolling across England and France today because of the work of men like T/S. Gene N. Daugherty, who is now serving at an important ordnance depot in England. He and his fellow soldiers are responsible for keeping the air service command's trucks and jeeps in top running order.

He is the husband of Lorette Daugherty of 420 N. Gray. He has a sister, Lt. Daisy Jim Daugherty, in the service.

Before joining the army July 3, 1943, T/S Daugherty was employed in Morenci, Ariz.

AWARDED SECOND OAK LEAF CLUSTER

T/Sgt. Robert A. Polk, husband of Mrs. Betty Polk of Albuquerque, has been awarded a second Oak Leaf Cluster to his Air Medal, it was recently announced by the commanding officer of an Eighth air force bomber station in England. The citation accompanying the decoration read in part "for meritorious achievement while serving as a radio operator-gunner of a B-17 Flying Fortress during combat attacks over northern Europe."

Sgt. Polk, veteran of more than 15 heavy bombardment assaults with the pioneer 379th group, took part in recent missions against vitally important targets in Madgeburg, Cologne, Stuttgart and against tactical objectives in France and Holland.

Polk, a former employee of Cretney drug, joined the army in July, 1941, and has been overseas since August, 1944. He is the son of H. L. Polk of 314 N. Gray street.

Senate Exclusivity In Treaty-Making Is Attacked by House

By JAMES MARLOW
WASHINGTON, Dec. 7—(AP)—The fight on the Senate's exclusive treaty-making power is under way. It may get some place. Probably not. Not now. Maybe later. Years later. This is the story.
Under the Constitution only the Senate—which has 96 members—can approve treaties with foreign nations. The House of representatives—with 435 members—can take no part in treaty-making.

But approval of a treaty needs a "yes" vote from two-thirds of the Senators present at voting time. Thus one-third of the Senators, plus one, could wreck a treaty.
The fight now is to change the Constitution so that treaty-making could be done by House and Senate and with only a majority vote in both places needed.

So far the proposed amendment has been okayed by a House subcommittee. Now it is before the House judiciary committee. Undoubtedly it will be approved here. From there it will be laid before the whole House.
Two-thirds of the House members will have to approve. It seems pretty sure this will happen.

But then the proposal has to go to the Senate. And there a two-thirds vote would be needed to approve the proposed amendment.

Senators are not eager to let representatives cut into their special piece of pie—their exclusive treaty powers.
If they block the move now, it may be years before any strong effort is made again to force a change.
But if Senate and House both approved, the proposal would have to go to the states for their okay before the Constitution actually was amended.

LEVINE'S
PRICES TALK

EVERY advance we make regaining land over-run by the Japs, the more we find of atrocity to repulse civilized man: the more we find evidence of complete lack of regard for any human dignity or for any code of ethics even such as has been observed by other warring nations, since primitive tribe battled tribe.

Decidedly, this is a date to remember—remember Pearl Harbor and all the horror that came after it. Remember the decapitated American fliers and General Wainwright and women and children on whose innocent heads fell the bloody Japanese hand.

You can want no better opportunity to pledge yourself to participate in the 6th War Loan—invest in the Bonds that will pay for bombs that will set the flag of the rising sun! Invest in total Victory and Peace . . . and in the home-coming of those you love now serving in our armed forces.
