Citizens To Vote on Two Sewer Projects Tuesday

Two important bond issues will be presented to qualified voters of Pampa in an election next Tuesday—one is for a \$390,000 project on sewer extension and repair and the other is on a \$63,000 storm sewer project.

The election is to be held in the city commission rooms in the city hall. The booth will be open at 8 o'clock in the morning and close at 7 o'clock that evening.

The \$360,000 issue is to be a water and sewer department revenue bond. In other words, the cost will be paid out of revenue from the water and sewer funds.

The storm sewer bond will be paid by the levying of taxes to make up the \$63,000 cost.

Joe E. Ward, consulting engineer of Wichita Falls, told the city commissioners in a report that the sewer disposal facilities of the city were adequate for a town of about 7,433 while the system serves an estimated 20,000 persons.

The storm sewer, if constructed, will eliminate much of the water and silt that gathers in the downtown streets after heavy rains.

According to Ward's report, the city is experiencing abnormal and ever-increasing expense and difficulty in maintenance and operation of its sewer system and sewage disposal plant.

The principal factors in this expense and difficulty, Ward reported, are failures of sewer pipes, disintegration of manhole walls and generally unsatisfactory operation of the sewage disposal plant.

Ward said that the improvements he recommended were based on a population of over 22,000, probably adequate to serve the city for 15 or 20 years.

According to the report, it is estimated that the actual contributing population is 60 percent of the entire population. At that same rate...

Governor Fears Encouragement of Gambling Devices

AUSTIN, June 21.—Gov. Coke E. Stevenson indicated today he intends to veto a bill passed by the 49th legislature reducing penalties for conviction of keeping or exhibiting gambling devices.

At a press conference the governor said he feared the effect of the bill might be to encourage operation of gambling establishments.

The present penalty is two to four years in the penitentiary. The new legislation, by Rep. T. E. Bond of Terrell, levies a penalty of not more than two years in prison or 30 to 90 days in jail or a fine of \$50 to \$500 or both a fine and a jail sentence.

The governor said it appeared possible that in some communities gambling house proprietors could operate relatively freely by paying \$50 fines upon conviction.

When the bill was discussed in the house of representatives sponsors said juries were reluctant to convict under the present law with its rather severe penalty and the new bill might result in more convictions.

The governor said it was possible that the lower penalty might encourage gambling operations in communities now free of them and that it might make easier conviction of gambling in other communities.

He said the penal code contains many sections on gambling and these statutes have become an established policy in law enforcement. He added that the fear by prospective violators of a penitentiary sentence, as prescribed by present law, might be more effective in preventing gambling than proposed reduced penalties.

Efficient, courteous service at Gunn-Hinerman's.—(Adv.)

Rodeo Ticket Sales Chairman Appointed

Bob Watson, local manager of the Western Union, was recently appointed chairman of the forthcoming rodeo in August.

The new chairman called a meeting this morning at which time the admission prices were agreed upon. Adult admission is \$2.50 and \$1.75 for children and military personnel.

There will be no reserved seats, but the grandstand will be open. Box seats for four and six people will be available for those who want them according to Watson.

Health Ordinance Being Enforced

Any business concern in Pampa not having a health permit is in violation of the law and subject to penalty said Bob Gordon, city attorney, in an interview this morning.

The permits are ready at the City Hall and a small number have been issued. Application for the permits should be made at the city health office and they should also be returned there.

Gordon reports that a number of people have obtained applications but haven't returned them to the health office. There are also many who have failed to ask for application blanks.

Dr. Nicholl, city health officer, is making a survey of the town today in connection with the enforcement of the ordinance.

STUDENT

Miss Ada King, above, of Rochester, N. Y., 81 years young, will take her final examinations next month at Rochester university. Completing her course in English composition with a better than average grade, she also set what may be a university record by being absent only twice from class.

Subscribers Asked To Keep Receipts

It is important that the dated receipt furnished Pampa News subscribers each week be signed by the subscriber, the circulation department announced today.

"Subscribers are asked to please keep this receipt each week until they receive the next week's receipt."

Farm Labor Situation Is Reported Improved

Although the need for combines is still acute, County Agent J. P. Smith reported today that the demand for harvest labor has reduced considerably in the last two days.

Smith said that he now has available several farm hands who have not been placed and that anyone needing workers can contact the office.

There are still applications for 10 combines in the last two days. Despite the rains that have fallen in the last two days, the harvest is expected to begin today in some parts of the county.

MOOCHER WELLINGTON, Kans., June 21.—A pigeon stopped at the Mabel Glover home Tuesday and likes it so well it won't leave. Every time the bird is put out the doorpecks on it until they let it in.

NO BETTER DEATH: TEXAN EASLEY'S CODE WAS PERSONAL BRAVERY

WITH U. S. 96TH DIVISION ON OKINAWA, June 19.—(Delayed) In a front line setting of bursting mortars and flying bullets which was his daily background, Brig. Gen. Claudius M. Easley, assistant commander of the 96th infantry division, was killed today by a Japanese machine gunner.

Easley was killed less than a day after Lt. Gen. Simon Bolivar Buckner, Jr., Tenth army commander, was killed by a shell fragment on the marine front east of the 96th sector.

General Easley, a Texan whose home was in Washington, D. C., made personal bravery and excellent marksmanship his code. Almost every day since the start of the Okinawa campaign 80 days ago, he was in the front lines.

He had been assistant commander of the 96th since it was activated at Camp Adair, Ore., in August 1942. The division took its name of "Deadeyes" from Easley's reputation for excellent marksmanship.

Only three days ago, Easley while autographing a shorter bill and being chided for his perpetual front-line meanderings said that general in his post was the eyes and ears for a division general and that he could prefer no better death than at enemy hands.

Shortly before he died he lectured a frontline group for having let a Japanese sniper pin them.

Truman Praises Work of 'Frisco Meet' OKINAWA FINISHED

Contemplated Removal of Ickes Denied

OLYMPIA, Wash., June 21.—(AP)—President Truman said today that General Dwight D. Eisenhower, commander of Allied forces in Europe, was entitled to anything he wants and that he would see that the general gets it.

OLYMPIA, Wash., June 21.—(AP)—President Truman today praised the work of the San Francisco conference, promised the most situation would be straightened out and denied reports of contemplated removing Interior Secretary Harold L. Ickes.

In a press conference, the President also expressed gratification over the senate's approval of legislation extending the reciprocal trade agreement program with further tariff lowering authority.

The President expressed confidence that the general gets it.

FEPC Contends Religious Hatred Is Forestalled

WASHINGTON, June 21.—(AP)—While reporting that minority groups have been successfully used in war industry and "religious hatred" has been forestalled, FEPC says Negroes and Mexican-Americans constitute a "known economic problem."

In a report to President Truman last night covering the first 18 months of its existence through December 1944, the fair employment practice committee said the immediate problem is to guard against discrimination because of race, creed, color or national origin in the supplying of workers from cut-back plants into new work and civilian goods production.

It further asserted that over 400,000 minority group workers still are available for war industries or for other essential work.

The committee said the 13,000,000 Negroes in this country comprise the minority group discriminated against most, adding that 81 percent of the cases docketed by it in the last fiscal year involved complaints from non-whites. Jewish complaints, with a scattering of other groups, constituted about nine percent. The remaining 10 percent concerned foreign origins, with Mexican-Americans comprising the majority.

"Private industry was charged with discrimination in 694 percent of the cases, federal agencies in 245 percent, and labor unions in 61 percent," the report continued. "The discriminatory practices faced by discriminatory practices faced by minority groups are of two types: refusal to hire, refusal to promote, refusal to upgrade, discriminatory working conditions, and refusal to refer qualified workers for employment."

Mosley's body was found lying by the side of his car, his effects and papers in order, and Justice of the Peace O. B. Olson, of Floydada said that he would return a verdict of death from heart failure.

Justice Olson was accompanied to the scene by Sheriff Lee Howard and Dr. George V. Smith, who questioned the young men who found Mosley examined the body and viewed the ground and car. Apparently Mosley was alone when he died.

A half inch rain had muddied the dirt road, and the car had slid into the bar pit and had almost extricated the car from the ditch. The body was lying by the open door of the car, indicating he had stepped out to view the situation when the attack struck him.

Mosley was combining wheat under contract for R. Fred Brown, who told officials Mosley had told him he might die suddenly at any time.

F. C. Harman and Grady Hall went to the scene with an ambulance, and the body was taken to the Harman funeral home.

Herman Whalley of the Doenkel-Carmichael funeral home left early this morning for Floydada to bring the body to Pampa and was expected to return with it early this afternoon.

Mosley came to Pampa in 1939 from Enloe, Texas, where he had been engaged in the used car business. He lived with his family at 306 1/2 E. Foster.

He is survived by his wife and three children, Betty, Kathryn, and John, all of this city.

Funeral arrangements are pending.

The Japanese home affairs ministry according to AP, has decided that Nippon had off and built its cities too large and henceforth there shall be none on the islands with more than 3,000,000 population. (Eds Note: This project has the earnest co-operation of U. S. Superfortresses, which for some time have been laboring with might, main and fire bombs to get Tokyo's population down to more seemly proportions—also Osaka's which likewise is over three million.) A Tokyo radio commentator said it was to be hoped that the program for reducing the population of cities would be accomplished in the "not-too-distant future." (In view of what American air generals have promised the Japanese in the way of bigger and better air raids, it may be assumed the commentator said a monthful.)

12 of 16 Poles Convicted by Soviet Court for Subversions

Pampa Man Found Dead on Highway

Vestal Johnson Mosley, 40, used car dealer of this city, was found dead on the Cedar road, 12 miles northwest of Floydada this morning at 1:30 by John D. Van Hoesse, and Carl P. Lemons, of Cedar community.

Mosley's body was found lying by the side of his car, his effects and papers in order, and Justice of the Peace O. B. Olson, of Floydada said that he would return a verdict of death from heart failure.

Justice Olson was accompanied to the scene by Sheriff Lee Howard and Dr. George V. Smith, who questioned the young men who found Mosley examined the body and viewed the ground and car. Apparently Mosley was alone when he died.

Use of Road Oil Frozen by Order

A new order received from Washington, D. C., freezes road oil with the statement: "No persons shall deliver or accept delivery of road oil for use on roads or any other surfaces."

The order was from Ralph K. Davis, department petroleum director 72 and was issued June 12 to be effective June 22. The directive will apply to the continental United States.

F. E. Shrock, superintendent of the Dunciger Oil and Refining Co., reported the order read in part: "The fulfillment of requirements for the defense of the U. S. has created in certain areas a shortage of petroleum for defense, for private accounts and for exports."

"The directive," explained Shrock, "was deemed necessary for prosecution of the war and to provide adequate supplies of petroleum for military and other essential uses."

Intensity of Air Warfare Promised

By LEONARD MILLIMAN
Associated Press War Editor

Conquest of Okinawa island officially ended today while flame-throwing tanks were still burning Japanese out of suicide pockets.

The 82-day campaign was the costliest of the Central and Western Pacific. More than 90,000 Japanese were killed or captured.

Americans killed since U. S. total casualties of 35,116 were last announced a month ago included two generals—Lt. Gen. Simon Bolivar Buckner, Jr., Tenth army commander, and Brig. Gen. Claudius M. Easley of the 96th division.

Gen. Joseph W. Stilwell, veteran of China and Burma, will take over command of the Tenth army.

Transfer of "Vinegar Joe" Stilwell from command of U. S. army ground forces to the Pacific was announced today by Gen. Douglas MacArthur shortly before Adm. Chester W. Nimitz announced the end of the Okinawa campaign.

Increasing intensity of the air warfare against Japan was assured in the disclosure in Washington by Lt. Gen. James H. Doolittle that his 8th air force would join the 20th in heavy bombardment of Nippon's home islands. The 8th now is being deployed from Europe to the Pacific area.

Doolittle told a news conference that operations of his force would parallel those of the 20th air force, with directives coming from the joint chiefs of staff. He was unable to say whether his force, which will headquarter at Colorado Springs while retraining, would include other bombers than the B-29s. He said he hoped to have long-range fighters, however.

Satisfactory progress was reported on all Pacific fronts though none of them matched this week's Nipponese death rate on Okinawa—3,300 a day.

American troops, supported by Mexican fighter planes in their drive toward the end of the Philippines campaign, swept 30,000 Nipponese troops toward the northern tip of Luzon island and traps set by Filipino guerrillas and Igorot tribesmen.

Third Nazi Plan To Conquer World Reported Found

WASHINGTON, June 21.—(AP)—A senate committee said today it has obtained secret German documents showing how the Nazis intended to "hide" in strategic industries while planning a third attempt at world conquest.

The announcement was made by Chairman Kilgore (D-W. Va.) of the war mobilization subcommittee of the senate military group.

Kilgore said his committee will open hearings next Monday "on the economic base for German aggression" and that additional facts will be brought out.

The announcement contained a report on a meeting of German industrialists at Suresburg, Aug. 10, 1944, intended to make postwar plans.

"Masquerading as 'neutral businessmen' without political allegiance they (German industrialists) have already conceived vicious plans for a third attempt at world conquest," Kilgore said.

The document on the secret meeting quoted a Dr. Scheid, SS obergruppenfuhrer of the Hermandorf and Schouburg company, as saying that "each industrialist must make contacts and alliances with foreign firms, but this must be done individually and without attracting suspicion."

At another meeting, Kilgore said, the Nazis told the industrialists that...

One Congressman Won't Forget His European Trip

By JAMES MARLOW
WASHINGTON, June 21—(AP)—Congressmen have been flying to Europe in relays since the war ended. They go to inspect this and that of the other things. Then they fly back. Some make reports. Some don't.

But what do they think while they're whirling around Europe? How much will they remember? Just to be sure he'd have some record, one such congressman kept a diary.

This was Rep. F. Edward Hebert, Louisiana democrat, who went over with a group. Every night before he went to bed he wrote his impressions of the day.

His notes total about 22,000 words. He said I could poke around in the congressional mind and help myself to the notes. I used to work with him when he was city editor of the New Orleans states.

His party went to Bermuda, England, Paris, Bremen, Munich, met General Eisenhower, had an audience with the Pope in Rome, visited Naples and the French Riviera and Casablanca, returned by way of Scotland.

Two dominant notes run through his diary. The destruction and poverty of Europe and talk of Russian and communist every place he went. "Everywhere without exception," he wrote in his diary, "communism crept into the conversation."

In Paris Hebert was invited to the home of a French countess whose husband was a leader in the French underground. He wrote in his diary:

"She waited and worked patiently for the day when she could place the swastika of Nazi Germany on the floor at the entrance of her apartment and invite her guests to wipe their feet on the flag. I wiped my feet with satisfaction and admiration for those people who kept alive the spirit of France."

BONDS KILL JAPS

Joyce Howard Master, wife of S-Sgt. E. Master, is reported to be seriously ill in the government hospital at Bina Vista, Texas, where she underwent a major operation recently. Her grandmother, Mrs. Roy Hallman of Pampa, and her mother, Mrs. J. T. King of Santa Monica, Calif., are with her, and her brother, C. P. Howard, who is serving with the air corp at Minot Field, Calif., has been notified. Sgt. Master is stationed at Pampa army air field.

Doyle Lane, V-12 student at Lafayette, La., will arrive tomorrow for a visit with his parents, Mr. and Mrs. W. M. Lane. He will be here for about ten days. His parents will meet him when he arrives in Amarillo.

Mrs. Roy Hall and daughters, Marcheta and Zetoria, have gone to Robstown for a visit with Mrs. Hall's sister, Mrs. Mickey Brooks, and her son, Charles. They will be gone about a month.

Wanda Claxton of Long Beach, Calif., is visiting here in the home of her grandmother, Mrs. R. H. Estes, and with Mrs. Claude Heiskell and Mrs. Geat Smith.

There's No Other Unit Like This Elephant Outfit

By HENRY B. JAMESON
(Substituting for Hal Boyle)
LONDON (AP)—They don't give medals to elephants but no story of how the long drawn out war in Burma was won would be complete without mention of "elephant Bill" Williams' unique army unit.

There is no other military outfit like it anywhere. It is a labor company made up solely of elephants—more than 200 of them—and their handlers.

Their main job was building log bridges and carrying loads through dense jungles where no roads existed before. But the elephants carried out many other important assignments like evacuation of the sick. Each animal could carry three men 12 miles a day over roads that were impassable even to mules.

His man is Lt. Col. J. H. Williams, one of the world's foremost experts on organization of elephant labor who is known throughout Burma as "elephant Bill." He is a tall cornishman who fought with the Devon regiment in Egypt, Mesopotamia and India in the last war and then spent 36 years in Burma as an employee of the Bombay-India Burma trading corporation.

The use of elephants in the Burma campaign dates back to 1941.

The colonel's elephants have been asked to crack broken down trucks, to spray tar on jungle roads with their trunks and to have guns fired from their backs.

All the animals have their names.

He is a tall cornishman who fought with the Devon regiment in Egypt, Mesopotamia and India in the last war and then spent 36 years in Burma as an employee of the Bombay-India Burma trading corporation.

The use of elephants in the Burma campaign dates back to 1941.

The colonel's elephants have been asked to crack broken down trucks, to spray tar on jungle roads with their trunks and to have guns fired from their backs.

All the animals have their names.

There is no other military outfit like it anywhere. It is a labor company made up solely of elephants—more than 200 of them—and their handlers.

Their main job was building log bridges and carrying loads through dense jungles where no roads existed before. But the elephants carried out many other important assignments like evacuation of the sick. Each animal could carry three men 12 miles a day over roads that were impassable even to mules.

His man is Lt. Col. J. H. Williams, one of the world's foremost experts on organization of elephant labor who is known throughout Burma as "elephant Bill." He is a tall cornishman who fought with the Devon regiment in Egypt, Mesopotamia and India in the last war and then spent 36 years in Burma as an employee of the Bombay-India Burma trading corporation.

Private Industry Hits Competition

WASHINGTON, June 21—(AP)—An oil company executive has demanded immediate dissolution of the government's petroleum reserve corporation "to remove the constant threat of government competition" with private industry.

John M. Lovejoy, president of the Seaboard Oil company of Delaware, said it was the hope of the oil industry that "it may be free to go forward without unnecessary government controls or competition" after the war.

"The oil industry, with unanimous accord, condemned the formation of the petroleum reserve corporation and now insists that this government corporation be dissolved forthwith to remove the constant threat of government competition," Lovejoy told the special senate committee investigating petroleum reserves.

BONDS KILL JAPS

F. B. Plank of Bartlesville, Okla., a Cities Service Oil Co. tax expert, testified that recognition in tax laws of oil production hazards would encourage producers to risk capital in further exploration and development of oil property.

ENJOY PEACH PLEASURE THE YEAR 'ROUND

Can Them With TEXAS' OWN IMPERIAL SUGAR

Bursting with tree-ripened sweetness, golden peaches are a treat you can enjoy all year 'round. Use IMPERIAL PURE CANE SUGAR to can your surplus fruit. Quick dissolving, 100% Pure IMPERIAL SUGAR makes a smooth, rich syrup that protects flavorful peaches. It's patriotic to can—it's wise to can. Use IMPERIAL PURE CANE SUGAR to can peaches and other fruits and fill your pantry shelves. Enjoy the "fruits of your labor" when grocers shelves are bare.

In cloth or paper packages, it's the same IMPERIAL PURE CANE QUALITY.

FURR FOOD STORE

To the rescue! THIS POINT-SAVING MEAT STRETCHER

Even more in summer, nourishing food is needed... and with meat rationing, to worry you, here's help that non-rationed National 3-Minute Oats can provide. Try this recipe for dinner... hot or cold, or for pep-providing sandwiches.

1 1/4 c. National 3-Minute Oats 2 tsp. chopped onions
1 lb. ground meat 1/2 c. ketchup
2 tsp. salt 1/4 tsp. pepper 1 egg 1 1/4 c. milk

Combine oats, meat, salt and pepper. Beat eggs, add milk, ketchup and onion. Mix all together. Pack in greased loaf pan. Bake 1 hour at 350° F. Serves 6.

No other type of food is such a plentiful source of Vitamin B1, Protein, Usable Iron and Energy.

NATIONAL 3-MINUTE OATS THERE IS A DIFFERENCE IN OATS

Miss Augusta Matthews, Leon Brown Married With Double Ring Ceremony

Miss Augusta Matthews, of Pampa, became the bride of Leon Brown, of Perryton, in a double ring ceremony performed June 16, at 4 p. m. in the Mobeetie First Baptist church with the Rev. B. L. Higdon officiating.

Miss Ethel Renner of Wheeler was maid of honor, and she wore a dress of printed jersey with black accessories and a corsage of red rosebuds.

Clifford Matthews of Perryton, brother of the bride, attended the bridegroom as best man.

The bride was attired in a dress of aqua blue with white accessories, and she wore a corsage of white carnations. For something old, she carried a handkerchief belonging to Mrs. Ernie Wilkerson, Pampa; for something new, she carried a white Bible, and for something borrowed, she wore a double strand of pearls belonging to Miss Janie Crouch, of Pampa.

Mrs. Brown is the daughter of Mr. and Mrs. R. E. Matthews, Sr., of Perryton, and was employed at the Clarence Qualls studio in Pampa at the time of her marriage. The bride was graduated from Mobeetie high school with the class of '43, and lived in Perryton before moving to Pampa where she has made her home with her aunt and uncle, Mr. and Mrs. J. P. Matthews.

The bridegroom, son of Mr. and Mrs. Levi Brown of Warren, Ark., is engaged in farming near Perryton, with his uncle, Willis Hardy. He attended school in Hixon, Ark., and came to Perryton about a year ago.

The couple will be at home south of Perryton.

Attending the wedding and the reception which followed were: Mr. and Mrs. R. E. Matthews, Sr., parents of the bride, Mrs. Willis Hardy, an aunt of the bridegroom, Mr. and Mrs. Ellis Matthews and Joyce Ann, all of Perryton; Miss Glenna Haynes and Gerald Matthews, of Pampa; Miss Marguerite Renner, Wheeler; Mrs. Raymond Johnson and Charles; Mrs. B. L. Higdon, Mrs. E. H. Patton and family, and Miss Willie Thornton, all of Mobeetie.

The bride-elect was honored recently by a bridal shower at the Central Baptist church, with Misses Maxine and Evelyn Patterson, and Clara Jane Weathered as co-hostesses.

Refreshments were served from the table which was covered with a white linen cloth, and centered with a bowl of white sweet peas, with blue and white candles in double crystal holders on either side. Plate favors were white scrolls tied with blue ribbon and inscribed with "Leon and Augusta, June 16".

Those present were Mesdames C. E. Powell, H. B. Patterson, Dick Land, J. H. Baxter, M. K. Gurley, J. B. Long, Harry Dean, C. E. McClintock, J. P. Matthews, John Brown, R. Q. Harvey, R. T. Huffines, E. A. Baldwin, H. E. Johnson, Aurora Mammom, Gene Linebaugh, Clarence Qualls, G. C. Stark, E. C. Gower, Lawrence, and Misses Jeanne McCann, Sarah Ellen Selbold, Janet McMillen, Rena Webb, Treva Dean, Orpha King, Harriet Dean, Evaline Turner, Wilmetta Gurley, Glorice and Glenna Haynes, Cora Corgil, Imogene Herd, Alice and Nera Payne Gower, and the hostesses.

Those sending gifts were Mesdames J. W. Brooks, O. C. Nelson, Willis Hardy, Clyde Herrinton, R. E. Matthews, Ewell Mote, J. D. Wright, C. E. McDowell, Ethel Bryan, Foy Satterfield, W. T. Broxson, Jim Gutery, Hussa, Anderson, Gus Hunter, J. R. Young, Earl Griffin, Ward, Bill Gbdwin and Misses Ethel and Marguerite Renner and Janie Coruch.

Wooden Shoe Makes Odd Holder

Written for NEA Service by ALAN WAYNE
Stylist for the Florists' Telegraph Delivery Association
You can make flower arrangements twice as effective if you will use odd containers. For instance, what could be more appropriate for tulips than a Dutch boy's wooden shoe? For a bonus of gayety the natural wood shoe could be painted in cerise or green with poster colors. The water problem is easily solved by using a small bird bath which fits nicely into the shoe. However, in the tulip arrangement pictured I used no water, but simply filled the shoe with broken fern fronds and the tulips lasted nearly five days, with only an occasional sprinkling down among the ferns.

Use Odd Dishes
Of course, wooden shoes are not always easily found, but there are any number of other unusual flower containers to be had in odd-shaped jars and dishes if you'll comb the attic or second hand and antique shops.

Old china teapots, soup tureens, chocolate pots, bean crocks, and cookie jars are particularly adaptable. If you want a low arrangement such as the shoe, try using one of those old-fashioned gray boaters of the kind with a pedestal base and graceful handle. A metal flower holder about the size of a silver dollar will support the tulips.

Mrs. Earl Perkins Is Worthwhile Club Hostess for Program

Members of the Worthwhile Home Demonstration club met Tuesday in the home of Mrs. Earl Perkins for a 1 o'clock luncheon. Mrs. G. H. Anderson conducted a short business meeting. Miss Millicent Schaub, county agent, gave a demonstration on boning and canning chicken, and Mrs. O. G. Smith told of the proper way to kill and dress a chicken. Members present were Mesdames Anderson, Smith, H. H. Heiskell, D. L. Lunsford, Nat Lunsford, O. A. Wagner, W. L. McAnally and the hostess, Mrs. Perkins. Guests were Mesdames C. R. Vandover, R. R. Johnson, and Misses Millicent Schaub, June Anderson, and Phyllis Perkins. The club will meet July 3, with Mrs. J. C. Payne, at 525 S. Ballard.

Half Million Negro Soldiers Overseas

WASHINGTON, June 21—(AP)—Almost half a million Negro soldiers are overseas, the army reported today. It said that as of Feb. 28, there were 690,282 Negroes in the army, with 497,566 overseas. As of March 31, there were 35,700 Negroes in the navy, marine corps and coast guard.

The army and navy, in response to several inquiries, said they do not keep separate records on Negro casualties. The war department said that "no distinction is made in race, color or creed in the compilation of army casualties." The navy declared no breakdown is made on that subject to a preliminary one subject to revision, included 330 killed, 2,215 wounded and 560 missing.

But no casualty figures are available. The army said, on the other hand, the Negro division, the 8888, which is in the southwest Pacific.

Fireproof paints are made for use on woodwork, composition boards or other inflammable material. They are usually ordinary oil paints containing a proportion of fine asbestos, borax, sodium tungstate and other fire-retarding materials.

Forced release of workers has not been necessary in Texas, the United States employment service reports.

After the regular business session the Kerboys discussed, "Outstanding Personalities." Present were Betty Hastings, Gloria Mullinax, Lucille Floyd, Lou Nichols, Adalen Brazil, Jane Kerbo, Maureen Morgan, VaRue Dyson, and the hostesses.

BONDS KILL JAPS
We, the Women

This is the fourth of five articles by Ruth Millett offering sound advice to wives faced with readjustment problems when their GI husbands return.

Every serviceman who returns to civilian life is not going to be able to find in his peacetime job and notch in life the same amount of satisfaction he found in the service. Just being "another civilian" is going to be hard for some men used to the special treatment and admiration from civilians which they rightfully had when they wore their country's uniform.

Many young men who went into the service right out of college and attained a fairly high rank during the course of the war will have to step down as to pay and the comparative importance of their work when they start as beginners in civilian jobs.

For those who expect to have to make that kind of adjustment, the going won't be too hard. But it will be hard on the man who has become dependent on the prestige of his uniform and his rank.

Any wife who finds her husband having trouble making that kind of adjustment will want to help him. And she can, too, believes Dr. Wilbur B. Miller, who is head of Iowa's Psychopathic Hospital and head of the department of Psychiatry in the University of Iowa's college of medicine.

He believes that the wife who sees that her husband is not getting to use in his job all of his army-developed ability as a leader, or who realizes that her husband is carrying a chip on his shoulder about the way things are being run here at home should encourage him to become active in the affairs of his community.

LET HIM HELP
"The best things to do with a person who isn't satisfied with the way things are being run is to see that he gets into position where he can help run them," says Dr. Miller. And he also points out that communities and states will need the help of the returning servicemen who are being run here at home.

If a wife comes to see that her husband, because of embittering war experiences, is just carrying a chip on his shoulder, she will never put to any good use, then the thing for her to do, of course, is to help him get rid of it. Time itself will help with that.

But she can hold him back in getting along with men who didn't see service if she is bitter about the sacrifices the two of them had to make, or if she keeps pointing out that this successful man or that one wouldn't be so far along if he had been along with her. She shows her husband that she is proud of the sacrifices the two of them made, instead of being embittered because everyone didn't make the same sacrifices, she will go a long way in stead of resentment.

Veterans' Widows May Get Pensions

DALLAS (Special)—All widows of world war I veterans who lived with such veteran for 10 years prior to his death are now entitled to a widows pension regardless of cause of veterans death. All returning veterans of world war II and veterans of world war I are entitled to the following rights and benefits: Service-connected compensation of \$100.00 to \$100.00 per month for disabilities caused by service. Disability pay of \$50.00 per month for total disability non service connected. Free hospitals when beds are available. \$100.00 free burial. Free flag to place on casket. 10 percent preference in civil service. Free soldiers home for sick and destitute veterans.

Widows pensions to all dependent widows of veterans. Childs pension to all dependent orphans of a veteran. Mother and fathers pension to dependent mothers and fathers. GI bill of rights benefits, world war II veterans only.

School benefits, free tuition of \$500.00 per year with \$75.00 allowance per month if married and \$50.00 if single. Loans on home, farm or business the government guarantees half of any loan up to \$4000.00. \$20.00 weekly unemployment pay. \$100.00 funeral benefit.

First Aerial Navigation Book Is Published

The first authoritative work on international aerial navigation, "American Air Navigator," by Charles Mattingly, which fills the need for a presentation that separates practical, applicable information from the vast field of theory, is published this week.

Mattingly, chief navigator for the Consolidated Value Aircraft corporation, wrote the book primarily for students, and professionals in aerial navigation.

Gasoline Rations For Boats Raised

WASHINGTON, June 21—(AP)—A maximum increase of 50 percent in gasoline rations for boats was authorized today by the OPA.

The increase is similar to that given all A-book car owners, effective June 22. The present limitation on rations for personal use of boats will be increased from 24 to 36 gallons quarterly for inboards and from 10 to 15 gallons quarterly for outboards.

All boat owners, however, will not get the maximum rations. Individual rations will still be computed at the rate of two gallons per horsepower for inboard motors and 2½ gallons per horsepower for outboard motors.

Boat owners who use their craft for such purposes as "conducting pleasure or hunting parties may also receive larger rations. The increase restores the maximum limits in effect October 1, 1944—125 gallons quarterly for inboards and 20 gallons for outboards, subject to the horsepower limitations. Most inboard motors in this class have been limited to 24 gallons quarterly and the outboards to 10 gallons quarterly.

Brandy was introduced into France from Italy in 1533 when Catherine de Medici married Henry II.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguainly weight and helping back ailing curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonfuls twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Services Are Held For Miami Woman

MIAMI, June 21—Funeral services were held in the First Methodist church for Mrs. Matilda (Gus) Severson, 90, Tuesday afternoon, June 19, with Rev. E. B. Bowen, pastor of the First Methodist church at Pampa, officiating, assisted by Rev. C. A. Holcomb, Jr., pastor of the local church.

Music was furnished by a mixed quartette, with Mrs. A. C. Wilkinson, accompanist, and a special solo by Miss Mary Potter Nelson.

Survivors are five daughters, Mrs. C. A. Gunn, Miami; Misses Myrtle and Jessie Bob Severson, of San Antonio; Miss Tennie V. Severson, of Abilene, and Mrs. Walter Coons, Canton, Kansas. Three sisters, Mrs. Oaul Thompson, Longmont, Colo.; Mrs. Peter Thompson, of Norway, Kansas; Mrs. Henry Palmer, of Oklahoma City; four grandchildren, Mrs. J. T. King, of Seguin; Mrs. Donald J. Niggs, of Syracuse, New York; and Frank and Gus Raney, in the U. S. navy; and two great grandchildren, Jimmie Dickie King, Fallersburg, Mo.; L. G. Christopher, T. J. Quinn, M. M. Craig, Jr., W. F. Locke, C. C. Shield and J. K. McKenzie.

Funeral arrangements were by Dumke-Carmichael funeral home, Pampa, and burial was in Miami cemetery.

YOU MUST SAVE AND TURN IN YOUR USED KITCHEN PAPER TO MAKE UP THE SHORTAGE.

Headlines of Air Raids Are Only Portion of Story

A MARIANAS BASE, June 21—(AP)—Back home the headlines proclaim jubilantly: "Superforts Blast Jap Homeland" or "B-29s Scorch Tokyo."

True headlines, true stories, — only out here it seems just part of the story. The bomber command sends 500 planes over Japan. That means about 5,500 men, eleven to a plane. Here you come to realize you can never know the whole story until you know what goes on in the hearts and minds of these aerial warriors in those hours before, during and after the headlines are being made.

They expect to get no special privileges. Many still live in tents, moving into quarters as these become available. In the quarters they live dormitory-style, cots in rows against each wall, each man's belongings stowed or hung beside his cot in whatever homemade chests his ingenuity can devise or his talents for persuasion or barter can procure.

And then it's to go again. The war goes on. Tokyo... Kobe... Osaka... and what next? Another objective, every three or four days. Another 3,000-mile round trip through usually terrible weather. Seven or eight hours of flying, monotonous at best, hazardous always, with a job to do at the end and—if their luck holds—seven, eight hours back, perhaps in a crippled plane, with the ever-present dread of "ditching."

Most of the men say that monotony is the worst of it, even worse than the time over the target. There most of the crew are too busy with their respective jobs to think much. All know each trip that it could be the one, the one on which their luck runs out.

And at night you see them come in, counting them off. And those nights you see something else, long before the story is written and the headlines are on the streets back home: From the airfield, a single bright finger of light pointing straight up. Hour after hour, long past the time when reason says there is no hope, that beacon shines hoping, hoping, hoping—for that one plane, or two, for the men of the air; for the families back home that may have to be sent telegrams.

ON THE 7TH: WASHINGTON, June 21—(AP)—A war bond statement from Gen. Joseph W. Stilwell, commanding general, army ground forces.

"There is no limit to the number of battle stars that can be pinned on a soldier's theater ribbon. Some of our infantrymen are wearing more than seven right now. They don't have to be asked to make still another landing or take still another hill. They know that each one helps to shorten the war. No one at home who wants to help shorten the war should have to be asked to support the Seventh war loan."

Dividing Divisions

(Continued from Page One)

The 28th infantry division is in the Rhineland Palatinate, which may be assigned to French control. In that case, the 28th would be redeployed.

The 60th division has been assigned to operate the Marseille staging area from which some troops will be shipped directly to the Pacific.

The 76th division will operate an assembly area command where troops are processed for redeployment. The 100th division, perhaps the worst mauled in the Ardennes offensive, will guard German prisoners remaining in American hands.

Divisions being returned to the United States for transfer to the Pacific are the Second, Fifth, 44th, 66th, 87th, 95th, 97th and 104th infantry and the 13th armored.

The Fourth and Eighth infantry divisions also are returning home, but whether they will go to the Pacific has not been announced.

U. S. divisions still in territory indicated for Russian control are the 26th, 30th, 69th, 76th, 94th and 102nd infantry, and the Fifth, Sixth, Seventh, Eighth and 16th armored. Since these have not been assigned places in the occupation setup, they presumably are scheduled for redeployment.

The 35th infantry and Second armored divisions will be deployed from the British zone. The 54th now is west of the Rhine and the Second armored, originally scheduled to go to Berlin, is in the Brunswick area.

POLES CONVICTED (Continued from Page One)

Alexander Zwazewski, journalist and chairman of the national democrats, a year and eight months.

Kazimir S. Bajinski, a journalist, one year.

Boleslaw Czarnowski, chairman of the union democrats, six months.

Stanislaw Merzawa, secretary of the peasant party, four months.

P. A. Ubianski, vice chairman of the workers party, four months.

J. A. Krawinski, chairman of the workers party, four months.

Z. Stupulowski, young Warsaw lawyer and peasant party member, the only one of the 16 to plead innocent, four months.

Each of the 16 had been permitted to express his own views on what kind of government was needed in Poland and his opinions on Soviet-Polish relations. Each defendant, advised he was speaking under the privilege of "final statements," declared friendly relations between Soviet Russia and Poland was most essential.

Lubbock Man Was Instrumental in Saving Many Men

DALLAS, June 21—(AP)—The extraordinary work of the USS Nashville's medical corps under command of a Lubbock, Tex., naval officer, saved many lives of men aboard the light cruiser after it was attacked by a Japanese suicide plane last Dec. 13 in the Philippines.

An announcement from the Eighth naval district headquarters office here credited the ship's medical corps and their director, Lt. Commander Murray W. Ballenger, USN, of Lubbock, with saving many lives. Explosions and fire from the suicide attack killed 133 officers and men and wounded 190 more.

First aid stations were set up throughout the ship, and doctors and corpsmen worked steadily for 24 hours treating wounded.

Under Lt. Commander Ballenger, the men made tourniquets of ropes, clothes and their own belts.

SPIES AND SUPPLIES WERE GIVEN ROLE

LONDON, June 21—(AP)—Hundreds of spies and thousands of tons of military supplies were dropped by underground units behind the German lines during the war by a special fleet of American bombers and transport planes flying secretly at night.

They were attached to the U. S. Eighth air force, which disclosed today the spectacular operations which started six months before invasion and continued until just one week before the final Nazi surrender.

Operations involving the parachuting of men and supplies over pinpoint targets in occupied countries were known by the code word "carpetbagger."

The first such flight was made by Col. Clifford J. Hefflin, Fresno, Calif., commander of the original "carpetbagger" group soon after D-day.

Col. Robert W. Fish, San Antonio, Texas, succeeded Hefflin as commander of the "carpetbaggers" last fall.

PACIFIC WAR (Continued from Page One)

American bombers patrolling the length of the Asiatic coast sank three Japanese ships, hauled cargo ports as Shanghai, Canton and Hong Kong, while Tokyo reported 300 carrier aircraft were striking at Wake, U. S. island now in the hands of the enemy.

Tokyo broadcast again told of American preparations for eventual invasion of Japan while at home Nippon prepared to mine streets of bomb-wrecked cities for bits of Superfortress bombs and other scrap metal that can be converted into grenades.

U. S. Tenth army forces finishing up the Okinawa campaign under command of Marine Lt. Gen. Roy S. Geiger had closed the Japanese into such tight pockets by last night that all artillery support was called off. They relied on demolition charges, automatic weapons and flamethrowing tanks of which the Japanese prepared to mine streets of bomb-wrecked cities for bits of Superfortress bombs and other scrap metal that can be converted into grenades.

By Tuesday night 87,343 Japanese—several thousand more than original estimates of the full garrison strength—had been killed and 2,565 taken prisoner. The figures include 6,884 killed and 885 prisoners in the first three days of this week—records for the Pacific war.

These disproportionately large surrender figures were paralleled on a smaller scale in the Philippines with a Tuesday total from scattered actions of 389 killed and 263 captured. In neither case were comparable American casualties announced.

All fighting in the Philippines was dogged action except in Cagayan valley of Luzon where the 33rd (Buckeye) division advanced ten miles, capturing a provincial capital and a weedgrown airfield. Three other divisions pushed through flanking mountains. Guerrillas hid in hills flanking the enemy's line of retreat.

The navy announced that the cruiser Nashville was heavily damaged by a suicide plane last Dec.

EASLEY'S CODE (Continued from Page One)

down "You should be ashamed to let one Jap make you take cover," he told them.

Easley was killed on this plateau after another staff officer was struck by rock splinters chipped off by a Japanese machinegun bullet.

Easley crawled to the summit of the hillcock trying to outthink the Japanese and direct the fire against him. Another Japanese machinegunner shot him through the head.

He was wounded and hospitalized for three weeks on Leyte. He held the Legion of Merit for work with the 96th infantry and the Silver Star for gallantry on Okinawa.

Easley has been in the army since he was commissioned a second lieutenant of infantry in 1917 after graduation from Texas A. and M.

He was on the war department general staff prior to 1941 when he was given an infantry regiment of the 82nd division.

His widow and one son, Maj. C. M. Easley, Jr., survive. Mrs. Easley lives at Broadmoor, Washington, D. C. He will be buried tomorrow in Okinawa army cemetery overlooking the sea.

Sewer Project

(Continued from Page One)

tion, the design for 22,500 contributors would serve a total population of 37,500.

However, Ward said, as the city's growth steadies and utilities are developed, the contributors may increase to 75 percent of the population. In that case the design for 22,500 contributors would care for a total population of 30,000.

Ward cited the numerous failures of various parts of the system. He said that one of the main causes of trouble was the depth at which the concrete pipe was buried, making it difficult to repair.

Ward reported that the pressure on the concrete pipes, laid at a depth of sometimes 30 feet, is approximately 2,350 pounds per square foot whereas federal specifications call for a pressure of 1,750 pounds per square foot for un-reinforced pipe.

However, Ward reported, for the pipe that now serves the city, this would cause no great trouble had the pipe not been considerably weakened by gas deterioration.

In reconstructing the sewer pipe system, Ward stated, pipe which is not subject to corrosion by sewer gases should be used. This would restrict the use to vitrified tile pipe.

MALARIA

CHECKED IN 7 DAYS WITH 666

LIQUID FOR MALARIAL SYMPTOMS

Take only as directed

For general use with cast iron for pipe above ground.

Even so, Ward said, cast iron pipe should have a coating of asphalt or other substance not susceptible to the effect of the gas.

Ward also recommended that the pipe, in general, could be replaced with pipe of the same size, except in a few cases.

Citing some of the disposal plant troubles, Ward said that the main faults are excessive foaming in the tanks, clogged sludge pipes, failure of trickling filter station and a "generally offensive odor."

In general, Ward said, the disposal plant improvements would consist of providing additional sludge digestion and trickling filter capacities, replacing the sludge drying earth pits with concrete-walled sludge drying beds, adding a sand trap, a measuring flume and chlorination equipment.

The United States employment service reports that increased employer interest in returning war veterans is evident in the large number of employers represented at meetings held by various groups throughout Texas.

accentuate the positive

LENTHERIC'S "Tweed" is no "comme ci, comme ca" kind of perfume. There's nothing half-way nor half-hearted about it. "Tweed" goes all-out for the definite, the direct, the positive. It is what it is - and that's a fresh, zippy, tangy scent with just enough "tease" in it to intrigue. Maybe you couldn't blend a perfume yourself, but you know what you like - and what you like is probably "Tweed."

Boston Braves Drub Giants for 12th Win in 16 Games

Dodgers Win Doubleheader From Phillies

By JOE REICHLER
(Associated Press Sports Writer)
Manager Bob Coleman looked today as Boston's miracle man No. 2.

The rapid rise of the Braves to a contending position in the National League pennant race had baseball followers thinking back 30 years when the Braves under Geo. Stallings, the original miracle man, clinching a great stretch drive to win their first and only pennant, after being in last place in mid season.

Since that 1914 season, the Braves have been in the first division only five times, but today, after a 16-10 drubbing of the New York Giants last night for their 12th victory in the last 16 games, they were only two games away from second place and only one behind the fifth place Giants.

Boston outslugged the Giants in a game in which six pitchers gave up 32 hits, 16 for each side.

A pair of homers by Danny Gardella and one by Johnny Rucker failed to help the Giants, who dropped their 19th game in the last 24, and fell into the second division for the first time this season.

Those outslugging Brooklyn Dodgers checked out a double win over the Philadelphia Phillies, 4-3 and 8-1, to pull three games in front of the second place Pittsburgh Pirates.

Art Herring won his first game of the year in the opener, while Curt Davis registered his sixth triumph in the nightcap.

Lefty Hal Newhouser, Detroit's 29-game winner last year, won his 10th this season, blanking the Cleveland Indians 5-0 for his third shutout.

The win increased the Tigers' American League lead to two and one-half games over the idle New York Yankees.

A four-run eighth inning climaxed by a near-riot gave the Chicago White Sox their second straight victory over the St. Louis Browns 4-1, and dropped the American League champions to sixth place.

The excitement began when pitcher George Caster, infuriated at the riding he had taken from the Sox "hokkeys," fired the ball into their dugout as he was called off the mound by Manager Luke Sewell.

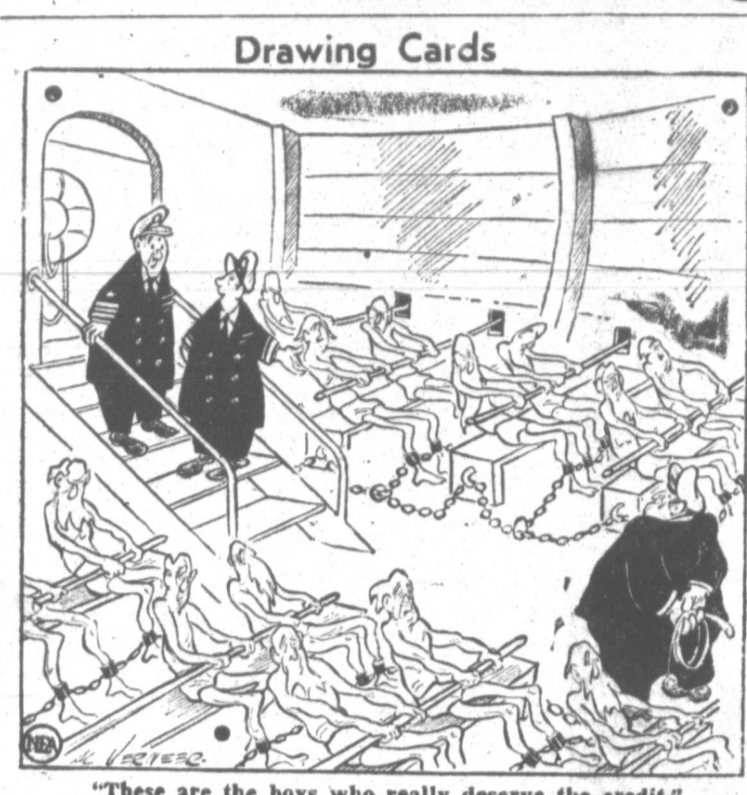

Players from both teams had rushed onto the field, followed by spectators from the stands, the umpires, with the aid of the police, finally restored order. No action was taken by the officials.

The Chicago Cubs moved into third place in the National League, four percentage points over the St. Louis Cardinals, by defeating the Pirates 5-3.

Washington made it three in a row over the St. Louis Cardinals, 7-5. The victory moved the Senators into fifth place.

The Red Sox-Yankees scheduled twin bill was rained out while Cincinnati and the Cardinals were not scheduled.

Texans Lose in Women's Western Golf Tournament

By JIM MITCHELL
INDIANAPOLIS, June 21—(AP)—A thoroughly tested field of eight determined young ladies—survivors of two hectic rounds of match play over the exacting Highland Country club course—was ready to renew the quest for the women's Western Open Golf championship this afternoon.

Probably the most determined of the quarter-finalists—of necessity—was Mrs. Mildred (Babe) Didrickson Zaharias of Los Angeles, the defending champion and co-medalist. The belting babe was forced to play in the holes in her second round match with Jean Hopkins of Cleveland before escaping into the round of eight with a 1-up victory in 20 holes.

Mrs. Zaharias was scheduled to meet methodical Dorothy Kirby of Atlanta today.

The title chase for keeps were Ann Casey of Mason City, Iowa and Carol (Babe) Fresse of Portland, Ore. Both scored upset triumphs over leading qualifiers yesterday, Miss Casey collapsing a 2-down hole at nine holes to whip Sally Sessions of Muskegon, Mich., and Miss Fresse outslug Betty Jameson of San Antonio, 1-up in 19 holes.

The other quarter final match was scheduled between pro Betty Hicks of Chicago and Doty German of Philadelphia, and it was expected to be one of the best of the tourney.

Miss Hicks, the National amateur champion, fought uphill much of the way yesterday to defeat Mrs. Bettye Mimie White of Dallas, 2 and 1.

Segura To Try for Third Tennis Title At NCAA Tournament

EVANSTON, Ill., June 21—(AP)—A field of 60 college tennis players from 25 schools—largest entry since the war—is ready to open the 61st annual National Collegiate championship tournament on the Northwestern university courts next Monday.

Francisco (Pancho) Segura, of the University of Miami, Fla., is returning to defend the singles title he captured in 1943 and 1944 and he's bringing along a schoolmate, Tom Burke, who will be making his initial appearance in the tournament.

Should Segura succeed in winning his third straight singles title, he will be the first collegian to turn the trick since a boy by the name of M. G. Chace of Yale scored a trio of titles back in 1895.

Entries from southern schools are Frank Willett and Howard McCall of Georgia Tech and Kenneth Crawford of Southern Methodist. The latter, a 17-year-old freshman, recently captured the Southwestern conference tennis singles title.

El Paso Will Have Golf Meet July 1-4

EL PASO, June 21—(AP)—July 1 to 4 was set as the dates of the El Paso Open Golf tournament, promoter Wally Harden announced last night.

Qualifying deadline is July 1, with play starting July 3. The championship flight will have medal play, while the other brackets will use match play to determine the winners.

5 Church League Games Scheduled

Five games are scheduled in the Kiwanis-Church softball league tonight, although wet grounds may force their postponement.

In the boys junior league, Central Baptist meets First Baptist at the Woodrow Wilson diamond and First Methodist plays Calvary Baptist at the Lion Park.

Only one game is scheduled in the boys senior league tonight. Central Baptist, undefeated in five games, meets the First Christian boys, who are currently playing 500 ball at Roadrunner Park.

Two games are scheduled in the girls league. At the North Sam Houston diamond, the First Methodist club, in second place, will meet the third-place Calvary Baptists and at the South Sam Houston diamond, the cellar-dwelling Harrah-Nazarene club will play the fourth-place Presbyterians.

Dow Chemical Company Reports on Magnesium

HOUSTON, June 21—(AP)—Production of magnesium at the salt

water magnesium plant of the Dow Chemical company at Velasco, is now up to about one-eighth of capacity, and is expected to reach full capacity by early August, it was stated at the Velasco office of Dr. A. P. Beutel, general manager of the Texas division and vice president of the Dow Magnesium corporation.

Several weeks ago the plant, which had been practically closed since December, was ordered to start up again.

Soldiers To Get Their Eggs Now Sunny Side Up

CHICAGO—"Sunny Side Up" will be the new breakfast order of G. I. Joe overseas. And he won't be kidding either. Real eggs in the shell will take the place of powdered and canned eggs on the menu of the American soldier to a greater extent than the office quartermaster general has announced.

Thousands of wirebound egg cases, perfected after months of experimentation, are now being manufactured to carry shell eggs safely thousands of miles overseas. They were designed in answer to a plea from America's fighting men for more eggs "as is eggs" and that can be fried "sunny side up."

In the past, the quartermaster corps has tried feeding overseas commandos on powdered eggs and canned egg products. To ship eggs in the shell took up too much shipping space and also gave trouble because of their fragility and need of some sort of refrigerating or cooling process en route. For this reason, few men overseas have seen real eggs since they left the U. S.

Black Mark for Texas Possible in Seventh

By The Associated Press
Series E bond sale of \$2,669,525 recorded for June 19th brought Texas as Seventh War Loan figures to \$113,006,570, state war finance headquarters said Wednesday.

The "little buyers" bond purchases now stand at 67.3 percent of goal. "Texas is due for the first black mark on her war loan record unless E bond purchases show an immediate increase," declared J. S. James, Jr., executive manager of the state board organization.

Twenty-eight counties of the 254 total have achieved their E bond assignment. James said. Metropolitan areas are showing the greatest lag.

Sports Roundup

By HUGH FULLETON, JR.
NEW YORK, June 21—(AP)—Since he returned from duty in the Pacific, Bob Feller has become a first-rate amateur magician. . . . Which probably will lead various and sundry American league hitters to ask: "How could he turn amateur?"

THE MANAGER'S ORDERS
Sam Oliver, a welder in a Cooper plant, worked double shift for the other night, hurried home for a quick nap before pitching a game for Salt Lake City in the Utah Industrial Baseball league. . . . Upon leaving home, Oliver relates, his wife said if he had to be taken out of this game she would never come to another—and she meant it.

ONE-MINUTE SPORTS PAGE
When Dave (Boo) Ferriss pitched for Minter City, Miss., in the 1940 National semi-pro tournament at Wichita, Kans., he gave up 11 hits in losing 6-3, 10 inning decision to a mining team from Natrona, Pa., and didn't get a tumble from the Major League scouts. . . . The navy unit which is leaving Texas Christian U. will be split among three colleges, but Texas U. gets all the eight trainees who won varsity letters.

KID STUFF
This wire from Tulsa, Okla., is self-explanatory: "Why not give our junior baseball program a break? . . . It's the biggest of its kind per capita in nation. . . . Chamber sports committee contributed \$2,000 to dressing up Texas league park where youngsters play doubleheader nightly. . . . Has 22 teams entered in three divisions."

WORLD FOOD PRODUCTION
World food production has declined, and demands have risen—meanwhile, 100,000,000 people in liberated Europe are looking for food. It will not be a good foundation for peace if they have to go hungry.

BRITISH FOOD MINISTER
Col. John J. Llewellyn.

BAKING OF CAKES
Bread baking, or the preparation of cakes from flour or parched grain by means of heat, is one of most ancient of arts.

Our Speedsters

While it is good to see the pictures of the first new model automobiles in four years, we are prone to recall quite graphically the high death rate on our highways and streets before the war.

We've achieved tremendous additional speed in the air during the war years, and we've built up a great yen for more speed on the ground.

This yen for more speed on the ground—when it is supposed to be 35 miles per hour—has been demonstrated by one unknown motorist here in Pampa last Sunday afternoon when he sped westward on Francis street at an enormous rate.

Automobile makers, who have achieved almost everything there is to achieve within reason, could probably build much faster postwar cars, but we rather hope they won't.

BONDS KILL JAPS

The Nation's Press

WHAT AMERICA DID (The Chicago Tribune) It is to be hoped that the figures released by supreme allied headquarters on the forces of the different allies engaged in overthrowing the Germans on the western and Italian fronts and the casualties they suffered since D-day are as widely circulated in the British Isles and liberated Europe as they have been in the United States.

Americans have, of course, been aware that ours was the principal force exerted in the final effort that overcame Hitler's Europe. Figures, however, show just how overwhelming American superiority was in men, engaged and losses suffered. There were 91 divisions in combat, of which 60 were American, 14 British, 5 Canadian, 11 French, and 1 Polish.

The report of casualties follows the same trend. We suffered 314,534 out of a total of 785,386. This made our casualties more than two-thirds of the total, those of the British and Canadians together less than a quarter.

The American contribution did not stop with our ground forces or with the tremendous devastation wrought against the enemy by our air forces. To a greater or lesser degree all of our allies were dependent upon us to equip and supply their armies.

THINK ABOUT that for a while, and you arrive at some surprising results. As a starter, How many ever be prevailed upon to do it again is questionable. The American people, viewing the imperialist intrigue, bickering, and throat cutting that is rampant throughout Europe today, may well conclude that more than a hundred thousand American lives is too high a price to pay to keep that continent a going concern.

Rice Crops Are Said Favorable

WASHINGTON, June 21—(AP)—Rice crop prospects are favorable in Louisiana and Texas, the war food administration said yesterday. The crop has made rapid growth during the week due to hot weather and generous rains, WFA said.

High-gloss durable enamels, suitable for both inside and outside use, are made by using mixtures of heat-treated linseed oil and elastic copal varnishes.

A Laissez Faire World Will Limit Police Power To Equal Justice Via Law

By ROSE WILDER LANE (Author of "Let the Hurricane Roar," "Give Me Liberty," and "The Discovery of Freedom.")

Laissez faire means, of course, "let go." Politically, these two words mean, let go from tyranny; abolish slavery. Laissez faire does not mean doing nothing; it does not mean anarchy, which is absence of all police force.

Restricting, limiting, reducing the State's power is the method that Americans devised, to create a new world.

NOW EVERYTHING in the human world is constantly changing, in time.

Politically, there are only two directions: toward absolute (total) tyranny of the State, or toward absolute personal freedom of action.

THE TOTALITARIAN tyrannies are behind us in time—all the way back from the still existing Japanese despotism to imperial Rome, Egypt, Assyria, Babylonia, Chaldea (the Chaldea from which Abraham came), and the Pharaohs.

THE FIRST EFFORT to make a laissez faire State is the American effort. The method of making such a State is to restrict the State's use of police force, by written law. In the laissez faire world, therefore, law will restrict every State to performing the simple duty of the policeman on the beat.

THINK ABOUT that for a while, and you arrive at some surprising results. As a starter, How many ever be prevailed upon to do it again is questionable. The American people, viewing the imperialist intrigue, bickering, and throat cutting that is rampant throughout Europe today, may well conclude that more than a hundred thousand American lives is too high a price to pay to keep that continent a going concern.

Gracie Reports

Consolidated News Features Well, I see that a department store has announced that pretty soon it will carry airplanes in stock. Isn't that wonderful, girls? When we go shopping for an airplane and a spool of thread, we won't have to worry about delivery.

George says he wouldn't want to be at the scene of battle less fatigued, and then enabled the soldiers to carry two blankets instead of one. Also, if the soldier got his feet wet, he could dry his shoes over the exhaust pipe.

O'er The Ramparts . . . So Gallantly Streaming

NEWS BEHIND THE NEWS The National Whirligig

By RAY TUCKER COMMANDERS—The American team for the second half of the war against the only surviving axis power will be captained by General George C. Marshall as chief of staff, by General Douglas MacArthur as commander of the ground forces in the Pacific, by Admiral Chester W. Nimitz as head of the combined Anglo-American fleets and by General Henry H. Arnold as chief air strategist.

Although future developments may necessitate certain changes, this arrangement was agreed upon at conferences which President Truman has held with returning military and diplomatic experts since the collapse of Germany. He has been giving almost his whole time to the program of a quick triumph over Tokyo.

H.S.T. is upsetting Rooseveltian plans, domestic and foreign, in many other respects, and he will continue to depart from his predecessor's methods. But he is not disturbing the naval and military leadership which F.D.R., largely at the suggestion of John J. Pershing, established.

But the smiling "Ike" from Kansas, where the terrain is somewhat similar to that of Manchuria and north China, in that event he will take western Pacific command from the Normandy beaches to the outskirts of Berlin—George S. Patton. Courtney H. Hodges, Alexander M. Patch and others.

As he stood pitching grenades like they were baseballs, I could think of one thing—that of the army either by the Medal of Honor or death.

Peter Edson's Column: PATTON LIVENS THINGS UP A BIT

By PETER EDSON NEA Washington Correspondent WASHINGTON—Secretary of War Henry L. Stimson said that his weekly press conference review was exceedingly dull but he might as well go through with it. It was and he did.

But then he introduced his guest star, Gen. George S. Patton himself, and things picked up. The general had sat all through the reading of the war review with the corners of his mouth turned down, staring sourly over his four stars and five rows of ribbons. But when he took the chair, up went the corners of his mouth, magnificent crowfoot wrinkles dotted the big grin, and his brown eyes sparkled in the middle of his pink face and white-fringed balding head.

In Hollywood

By ERSKINE JOHNSON NEA Staff Correspondent HOLLYWOOD—Turn time back several years to a couple of Irish kids playing on the sidewalks of New York.

The younger one, little more than a baby, suffers a bruised chin when the neighborhood bully—a boy about five years older—takes a poke at him. He doesn't say anything, but his older brother notices the bruise and finds out what happened.

The older brother seeks out the bully and, with that gusto for which he became famous in Hollywood many years later, gives the mean kid a whipping.

That's the story of Jimmy and Bill Cagney.

When Bill first came to Hollywood, he was tested and signed at Columbia, where Director Frank Borzage wanted him for the lead role in "The Sign of the Cross".

Then came Jimmy's SOS and Bill returned to Hollywood as his business manager and producer, working on the theory that "We love everybody and we don't give a damn for anybody."

Florida Officials Ask Protection

WASHINGTON, June 21—(AP)—Two Florida officials have urged that Congress act to protect rights of states where the federal government has taken over land.

It is vital above all that we establish policies which the American people understand and believe in, because without this condition, public opinion before long will simply evaporate, that is, the confederate and leave Europe stew in its own juice.

As he stood pitching grenades like they were baseballs, I could think of one thing—that of the army either by the Medal of Honor or death.

George says he thought there was a sort of race instinct that made

French Public Irked About Acute Shortage of Clothing

By ROSETE HARGROVE NEA Staff Correspondent PARIS—Trate Frenchmen have staged public demonstrations and promise still more of them, unless conditions in the clothing black market improve.

Thousands of repatriates recently paraded along the Grands Boulevards, many of them in their depressing striped prison uniforms, shouting: "We want suits of clothes! Down with the black market! They invaded several department and outfitting stores off the Rue de Rivoli, demanding that their clothing coupons be honored.

France's warrent is in a sorry state. What is more, the prospects of renewing it in the near future are practically nil.

Recently the authorities announced that despite the fact that war in Europe was over, so far as the clothing situation was concerned not only would rationing continue for many months to come—perhaps even years—but that there was no hope of ready-to-wear clothing supplies coming in before 1945.

Paris stores are depressing places these days. Outside of the cosmetics, perfume and notions counters, which are plentifully stocked, they offer a succession of deserted floors. The scant deliveries which dribble in every so often are snapped up in a couple of hours.

Accompanying a deportee recently in his quest for a suit, I was able to ascertain how difficult the clothing situation was. Armed with his clothing coupons we went to a well-known store near the Opera and proceeded to the men's department. It was completely deserted.

WE FLEW Without GUNS

This is a true story of the men who fly the "bombs"—extra-light passenger and cargo planes—the high Himalayas, between India and China. It is the toughest airline route in the world.

FIRED BY OUR OWN ANTI-AIRCRAFT

WHENEVER we flew gasoline we preferred to do it during the daytime, although with other types of cargo it was sometimes safer, because of either weather or Jap activity, to make the trip at night.

The strain on the engines was terrific. It was impossible to keep them co-ordinated. A good hour before we got back to Dinjan the one on the left was beginning to foul. It would run good for a few minutes, then start to cough and sputter, jerking the carburetor control for a few minutes I would get it back into adjustment. Then it would go bad again.

World Today

By J. M. ROBERTS, JR. AP Foreign Affairs Analyst

The Tokyo radio, broadcasting as though it had something new revealed today from its recent fretting over imminent invasion to record that the United States has started long and complicated preparations against Japan.

From past performances we can expect the staging period to last for several months. Then, because of the distance from Luzon, the only staging area we now have, which is capable of supporting millions of men, it may be necessary to choose another staging area, so to speak, in Japan proper.

Take it that several months will be consumed in invasion preparation, that the campaign in Japan will take longer than the one in Europe because it probably will be divided into two main stages, and we have a war which, discounting the possibility of a political termination, will run well into 1947.

BONDS KILL JAPS

The late Oliver Wendell Holmes was the only man of law outside of the British Empire ever to be made a member of the Honorable Society of Lincoln's Inn.

next morning we were to fly. The return trip was rough. We found soft ice on the south route, and heading up north hoping to get away from it, ran into clear ice—the kind that sticks in big chunks on the wings and props instead of conforming to the plane's surface. It was difficult to keep our altitude. The ice gathered on the prop blades and distorted the pitch of the motors. If the radio was working I would have checked with the field about conditions farther south, but it had gone dead half an hour after the take-off.

My approach to the field at Dinjan was good on the first try, but just as I was letting down the landing gear that left engine started to kick up again. I grabbed the carburetor control and started working on it, and then I heard Eddie Quinn, my co-pilot, let out a yell. A second later there was a terrific explosion. I realized we were being fired on by our own anti-aircraft batteries. I slammed the throttle forward and got the hell up out of there as fast as I could.

For half an hour we flew in the guns' range—within that motor, and when it finally seemed to be in fairly good shape we tried the landing again, practically flashing our landing lights, dropping our gear, slowing our engine speed, and working the plane that we were good guys, friends, and wanted nothing but a quiet landing and a good night's sleep. We were so earnest about it that the over-zealous A.A. boys thought we were scoundrels and we came in without further trouble. (To Be Continued)

It was difficult to keep our altitude. The ice gathered on the prop blades and distorted the pitch of the motors. If the radio was working I would have checked with the field about conditions farther south, but it had gone dead half an hour after the take-off.

My approach to the field at Dinjan was good on the first try, but just as I was letting down the landing gear that left engine started to kick up again. I grabbed the carburetor control and started working on it, and then I heard Eddie Quinn, my co-pilot, let out a yell. A second later there was a terrific explosion. I realized we were being fired on by our own anti-aircraft batteries. I slammed the throttle forward and got the hell up out of there as fast as I could.

Flamboyance and Dash Set Pace Of Third Army

By EDWARD D. BALL
AP Newsfeatures

REGENSBURG—The Third army—Patton's army—combined flamboyance and dash with the skill of its pistol totin' commander to muscle its way across France and Germany in one of the war's most spectacular surges.

A polyglot collection of divisions from other armies, it started from Normandy's beachheads hedgerows and dashed through the St. Lo gap, made by the 1st army, with such speed that the whole plan of the European campaign had to be changed.

Instead of throwing its main weight against Brittany, its columns moved east toward Lemaux, south and southwest through Faval and Lorlent, west toward Brest and north toward St. Malo.

The Germans fought grimly to hold the Falaise-Ardenon pocket, but at the same time Patton was sending a column into Chartres and toward Paris. The enemy was completely befuddled. The advancing Americans, plunging north, overran Nazi battlefields with guns pointing the other way.

The army advanced so fast that three planned paratroop operations in front of them were cancelled because the ground forces got there before the scheduled time of the parachute drops.

Patton's men stride aside to let the French stride into Paris, and then sent their tanks charging into the Argonne, one of the deadliest battlefields of world war I, without losing a man.

Then fell what may go down as one of the worst tactical setbacks of the war. With the Germans in headlong retreat, Patton's patrols crossed the Moselle, got beyond the Metz and were reported in the vicinity of Saarbrücken. But after the fall of Verdun, the Chickens — TURKEYS STAR SULPHUROUS COMPOUND Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of egg production as they enter fowls in feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEY'S.

SIDE GLANCES

"Her face is so free from strain—you'd never guess she was keeping a maid!"

3rd army's gasoline gave out. It had outrun its supply lines. During the four days it took to get more, the Germans came back. They dug in on the east bank of the Moselle and for a time it was murderous along that river of so many battles.

Some of the boys forced a crossing early in September, but they were wiped out. Late in November after Metz had been taken by assault for the first time since Attila, the Hun, we found their skeletons around their shattered assault boats.

Fs. Driant and St. Jeanne d'Arc on the Moselle surrendered on condition the facts not be made public. The commanders feared their families in Germany would suffer. The forts broadcast "our ammunition exhausted, our food is low," but we found plenty of both in the forts.

In the battle of France, the 3rd had been fighting on fronts 500 miles apart with flanks hundreds of miles long. Now it turned to a new task, the rescue of Bastogne through the Von Rundstedt breakthrough.

It accomplished one of the most difficult of all military tasks, swinging from one attack on one front to attack on another—120 miles away in some instances. One company of

Need Still Great For Keeping Cars In Good Condition

DETROIT, June 21—Even though the automobile industry has been authorized to make 2,000,000 passenger cars within the next year, there is greater need than ever for keeping present automobiles in top running order. George Romney, managing director of the automobile council for war production, stated today.

He warned that most, and perhaps all, of these new cars are to be rationed to essential users by OPA and that in the meantime increasing numbers of pre-war automobiles will be wearing out. "Initial production of new automobiles on a limited basis actually will mean little or nothing to the average individual not engaged in an essential occupation entitling him to a priority rating," he said.

Reason for the warning to conserve present cars, he explained, is that various manufacturers have been receiving field reports from dealers and factory representatives telling of serious declines in the volume of service business since talk of early reconversion started a few weeks ago.

"Automobile manufacturers know that their prospective new car production will be so small in relation to demand that only a very small proportion of persons desiring to buy new cars will be able to do so," he said. "This would be true even if OPA were not planning to ration them for many months at least," he added.

tanks, marching 60 miles through snow and ice in one day, was shooting at Germans on the new front that night.

The Germans hurled 17 blazing counter attacks against the 3rd in their effort to recapture Bastogne. The most critical day was Dec. 30 when the enemy threw in five divisions.

"The fighting quality of American troops never reached a higher level than in this operation," Patton said. "Neither intolerable weather nor the best troops in the possession of the Germans were able to stop them or prevent their supply."

Still crunching through snow and ice, the 3rd's doughboys jumped the Sauer and Our rivers in February with surprisingly few casualties. A captured German officer said Patton got away with it because "we didn't think even the Americans were fool enough to try crossings under such weather conditions."

Patton reportedly was supposed to be holding while other troops stormed the Roer. The story goes that he was called on the carpet, and talked himself out of a jam by theorizing that if you are leaning against a barn door and the door falls you don't stay suspended in the air.

The drive to the Rhine, over the only usable road on the 3rd army front, was tops in military maneuvering. And the Rhine crossing without advance preparation by the light of a full moon and in the glare of a burning ammunition

Borger Prisoner Of War Returns

TEMPLE, Texas, June 21—(AP)—Liberated prisoners of war, returned from Germany, include four Texans who spent from four days to four months in the hands of the Germans.

They were captured last December when the German army broke through the Ardennes forest. They are convalescing at McCloskey general hospital here.

The Texans are: Capt. William C. Dobbis, Greenville; Pfc. Doyle C. Sprague, Borger; Pvt. Wesley A. Reasner, Gordon; Pfc. Reinhold P. Roggenkamp, Cuero and Yorktown.

Sprague was wounded at Bitterfeld, Germany, April 17, and was liberated April 21 by his own outfit, Company K, 514th infantry, 104th division.

Another of the "most recently liberated prisoners of war convalescing at McCloskey is 1st Sgt. Jack

dump was another sensation. Germany was France all over again, another rout. The army which twice pierced the Siegfried line, captured Frankfurt, sliced the Reich in two with the first entry into Czechoslovakia and drove into Austria to meet the Russians near Linz.

Through it all, Patton, who could win hands down in a contest with the toughest sailor in a swearing contest, bounced around the front in a cub plane or in a jeep with an ear-jarring horn which sounded like a steamliner—blowing for a crossing—cajoled here, read the riot act there, to keep his outfit moving.

FUNNY BUSINESS

"I dunno! He plunked himself down an' say, 'Move over. I bet my room rest on you this afternoon!'"

H. Mesarvey of Shreveport, La., for whom Friday, April 13, this year proved a lucky day.

It was on that day that he was liberated from a German prisoner of war camp by the 13th armored division, and the same day was his 38th birthday.

Captured in the Ardennes forest when the Germans broke through to create the Belgium bulge, Mesarvey's left leg was broken by shell fragments. He lost his leg below the knee while in German hands.

Blue Cross Plan Reported Finished

Doctor E. H. Cary of Dallas, president of Group Hospital Service, Inc., the Blue Cross plan of Texas, announced in Dallas today that all of the work in relation to the establishment of a non-profit surgical and medical plan, to operate as a companion to the Blue Cross plan, has been completed.

Officers elected in addition to Doctor Cary are Robert Jolly of Houston, vice president; Doctor L. N. Markham of Longview, vice president; Mrs. Margaret Hales Rose of Wichita Falls, secretary, and J. Howard Payne, of Dallas, treasurer.

Resolution adopted by the Lubbock June 21—(AP)—A resolution favoring the offering of military training in high schools and colleges rather than military camps if compulsory peacetime military training is adopted was passed yesterday by the Lubbock Baptist association.

Disgusted German Provides Tip for Ribbentrop Arrest

HAMBURG, GERMANY, June 18 (Delayed)—(AP)—The plump wife of a long-time acquaintance of Joachim von Ribbentrop told me today that a tired and disgusted German soldier provided the tip which led to the Nazi foreign minister's arrest last week by British military police.

The woman, publication of whose name is not permitted, is the wife of an elderly wine merchant who has known Von Ribbentrop for 25 years. She said her husband turned the Nazi official away from his door April 30 when he came seeking refuge.

Von Ribbentrop finally found shelter in the apartment of a 35-year-old divorcee.

The soldier-informer, worried about his wife, who was expecting a second child, depressed over his brother who had been reported missing in action and concerned over his own ill health, hated war and the "men responsible for it," the wine merchant's wife said.

Last week Von Ribbentrop sent a message to the wine merchant asking for assistance. The messenger was intercepted by the soldier, who promptly went to the police.

Metallic paints, such as aluminum, copper bronze and gold paints, are prepared by mixing the finely powdered metals or their alloys, with suitable varnish media.

How To Hold FALSE TEETH More Firmly In Place
Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No stinging, soapy, paste taste or feeling. Does not sour, check, or discolor (discolor breath). Get FASTEETH today at any drug store. (Adv.)

Week-End Rains Help Conditions All Over State

AUSTIN, June 20.—(AP)—Conditions were improved over much of the state as a result of rains in the week ended June 18 but damage was recorded in some areas.

The United States department of agriculture reported that although rains reached into part of the drought-stricken northwestern counties crop damage was caused in north Central and northeastern counties where moisture was plentiful.

Cotton conditions were quite varied. Areas that were too dry for planting were only partially relieved and many of those where moisture prevailed got too much rain.

A very limited additional acreage was planted in the northwest. Most growers there have set June 25 as the deadline for planting. Many fields in the northwest were washed badly. Most East Texas crops made fair progress and marked improvement was noted in the central and south Central counties. Part of the coastal bend received a good rain and all crops were holding up well. Premature opening was noted in the Rio Grande Valley where irrigation water was scarce.

Corn benefited in the more important producing areas, including the blacklands, eastern, south eastern and south Central districts.

Rice areas continued to report favorable progress. A noticeable improvement was reported for most peanut areas.

Fruit and pecan prospects were good in most areas.

Range and livestock conditions were improved. Part of the low rolling plains counties and much of the Edwards plateau. The south high plain, trans-Pecos and scattered southwestern counties received no relief from dry weather. Ranchers there were feeding more generally and some were shipping to suitable ranges. Ranges were greatly improved in practically all other parts of the state and stock was in good condition.

Your GI Rights

QUESTIONS AND ANSWERS ON SERVICEMEN'S PROBLEMS
By DOUGLAS LARSEN
NEA Staff Correspondent

WASHINGTON, June 21.—Here are some questions from veterans on their preference rights for government jobs.

Q. Does the executive order which states that veterans are not to be laid off in the federal government if their rating is high as a non-veteran apply to vets of World War I? If so, must a special application be filed?

A. The executive order does apply to World War I veterans. If you already have established your preference as being a veteran you needn't do it again to come under that executive order.

Q. I am a Marine Corps veteran. I took part in the second Nicaraguan campaign between August 27, 1926, and January 2, 1933. I want to know how I can obtain veteran preference?

A. File Civil Service Commission Veteran Preference Form 14, and proof of honorable discharge, with the Civil Service Commission. In addition you must file with the Commission official notification of the award of your campaign badge by the Marine Corps.

Q. I plan to establish veterans and choice heifers and mixed yearlings largely 14.75-16.25; odd fat bulls 13.00-50; common and medium heavy calves 9.00-12.50; small lots medium and good steer steers 12.00-14.00.

Hog 2.00; active, fully steady; good and choice 140 lb. up 14.50; sows 12.75. Sheep 1.00; moderately active, spring lambs and clipped lambs strong to 25 higher; other killing classes fully steady; 15.50-75; good and choice native lambs No. 1 skins 11.00 with the yearlings 7.50; good and choice slaughter ewes 7.50.

American Skipper Describes Naha As Fouled Harbor

NAHA, OKINAWA ISLAND, June 16 (Delayed)—(AP)—The skipper of the first American ship to tie up alongside a captured Japanese dock at Naha described the port today as "the most fouled harbor per square foot I've ever seen."

The first ship to move into the harbor was a salvage vessel, skippered by Lt. Jesse Lee Hill of Oklahoma City, a veteran of 22 years in the navy service.

"This is the first ship of any size to tie up at any dock of the Japanese empire since the war began," Hill said.

The newly won harbor already is in use by American forces while navy and army crews are busy clearing out the channel. Sixteen army divers are working in deep water diving gear conveniently left behind by the Japanese.

"We worked at Saipan and Tinian and there's a lot more wreckage here," Hill said. "In fact, this is the most fouled up harbor per square foot I have ever seen. This harbor is so small and compact the ships didn't have any way of getting out when our bombers came."

—BONDS KILL JAPS—
FEDDLER SENTENCED
HOUSTON, June 21.—(AP)—Judge Langston G. King yesterday sentenced Tommy Matkins, one-legged pencil peddler, to five years in the penitentiary. Matkins, charged with the crutch slaying of Lawrence Lavendusk April 11, pleaded guilty.

Now She Shops "Cash and Carry" Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
