CAVALRYMEN, TO THE RESCUE — When Indians attack pioneers during the Scout circus Friday night the Cavalrymen Billy Tidwell, left, and Larry Bohlander, members of Pack 21 will be among those who will rescue the settlers. Billy, 9, and Larry, 10, as well as other Cubs, made their own horses. Larry's was designated the best of the pack. The big Scout circus will have a thousand performers — Cubs, Scouts and Explorers — and a thousand thrills. (News Photo)

One Thousand Scouts . . .

Big Scout Circus Goes On Tomorrow

One thousand Scouts — count 'em! — will perform in the stupendous eight-act circus at 8 p. m. Friday under the stars at Recreation park.

Tomorrow's circus is the results of months of preparation and work. But Scouts say it has been worth it and they are sure you will say so, too.

The Scout circus is sponsored by the Santa Fe district and Cub Scouts. Boy Scouts and Explorers are participating from a four and one-half county area.

Pampa High school's Harvesters band will play music for the grand entrance of all participants. The entry will be in columns of two. The pack, troop or post leader will lead each unit. He will be followed by the American and unit flags.

Pack 1 will be the first unit to march.

Twenty-two bicycles are entered in the bike act. Scout officials claim the riders will pass through flaming hoops and come out unharmed.

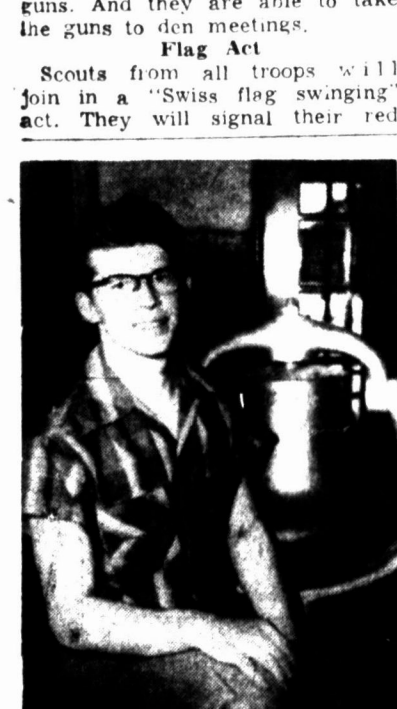

Cub Panorama — The act calling for the most staging is the Cub panorama. Pioneers in covered wagons will be attacked by Indians, but the settlers will win out if every thing goes according to schedule.

When the United States cavalry comes to the rescue.

Boys' ingenuity will be seen in the pioneer outfits, the Indian garb and the cavalrymen's uniforms the Cubs will wear. The horsemen made their own horses.

Mrs. F. H. Jennings, den mother in Pack 56, said her Cubs were wild about the circus because they get to shoot their guns. And they are able to take the guns to den meetings.

Flag Act — Scouts from all troops will join in a "Swiss flag swinging" act. They will signal their red

ELECTED PRESIDENT — Johnny Wills was elected president Wednesday of the Pampa High school student body for the 1952-53 school year. He is the son of Mr. and Mrs. Ira Wills. A junior, Johnny is 17 years old.

Plan To Curb False Alarms

PHILADELPHIA — (AP) — The next time someone turns in a false alarm he may be due for a surprise.

Two hundred of the city's 3200 fire boxes have been equipped with a special device in an effort to cut down on the more than 2500 false alarms sounded last year.

The device is a special siren hooked up to the alarm box. When the alarm is pulled an ear-splitting who-o-o-sh fills the air.

Fire Department officials estimate the noise will alert residents in a two-block area and will most likely result in someone getting a good look at the person turning in the alarm.

If it comes from a hardware store he has it, Lewis Hardware.

State Meets Eyed By Local Politicos

By HENRY S. GORDON

The smoke has cleared from the county convention battlefields and now drifts gently in the general directions of San Antonio and Mineral Wells.

The lull gives local level politicians an opportunity to grab some of the limelight for themselves, and gives Democratic Committee officials a chance to line up the July 26 primary ballot.

Within the next few days, letters to each of the candidates will go out from County Chairman Aaron Sturgeon with the information of what they owe to get their names on the ballot.

With the filing deadline now three days in the past a glance over the ballot shows that Rep. Walter Rogers has no opposition in the Democratic primaries, neither does Dist. Atty. Tom Braly.

State Rep. Grainger McIlhenny nor any of the county-wide candidates except County Judge Bruce Parker. Five of the 11 precinct offices up for election are also in the lone candidate class.

Locally, the Democratic primary will be made up of 25 district, county and precinct offices, and 11 party offices. State offices candidates will have to be furnished by the state Democratic

committee within the next few weeks.

Following is the list of candidates who have filed with the Democratic Executive Committee for a place on the primary ballot.

ASSOCIATE JUSTICE, COURT OF CIVIL APPEALS — Harry Bunnberg, Joe S. Moss, E. O. Northcutt.

CONGRESSMAN, 18th CONGRESSIONAL DISTRICT — Walter E. Rogers.

STATE SENATOR, 31st STATE SENATORIAL DISTRICT — Grady Hazelwood, James D. Crow.

REPRESENTATIVE IN STATE LEGISLATURE — Grainger McIlhenny.

DISTRICT ATTORNEY — Tom Braly.

COUNTY JUDGE — Bruce Parker, J. B. Maguire, Jr., John H. Harnly.

COUNTY ATTORNEY — Bill W. Waters.

SHERIFF — R. H. "Rufe" Jordan.

COUNTY CLERK — Charlie Thut.

COUNTY TAX ASSESSOR-COLLECTOR — F. E. Leach.

COUNTY TREASURER — Ola Gregory.

DISTRICT CLERK — Dee Patterson.

(See STATE Page 2)

Hughes To Build 120 New Houses In Prairie Village

City engineer's office today issued permits for 120 new residences to be built by the Hughes Development Co. in Prairie Village, south Pampa, at an estimated cost of \$917,600.

J. W. Thompson, Hughes executive, said the first houses would be completed in a few months and the whole project would be finished in October.

He said the project was the largest housing development in Pampa since the erection of homes in Carr Terrace in 1945-46.

The homes will be priced at from \$7000 to \$9000, Thompson indicated.

The four and five room homes will have two and three bedrooms.

The architectural design will lean to the modern or ranch style. The signs, produced by

Hughes, provide for expansion. A door jamb will be set in a storage closet and a new room can be added.

Another feature of the homes will be a "floating type of concrete slab floor" designed to prevent settlement of the house.

Thirty-six exteriors will be available, Thompson said. Buyers will be able to pick their own interior decorations.

Customers will be able to have a garage or a carport or no garage at all.

Unions Refuse To Call Off Nation-Wide Oil Strikes

Wage Dispute May Be Sent To Truman

DENVER — (AP) — Refusal of 22 AFL, CIO and Independent Oil Industry unions to call an end to their week-old strike may send the wage dispute to President Truman.

The Wage Stabilization Board (WSB) in Washington scheduled a meeting for today. Yesterday, WSB Chairman Nathan P. Feinsinger told the House Labor committee the case probably would be sent to the White House if the board failed to obtain an end to the strike.

Feinsinger had requested the unions to send their men back to work.

O. A. Knight, president of the Oil Workers International Union (CIO) in Denver, said last night the strike will continue. He added the unions will have representatives at a WSB meeting May 13 as requested.

"In light of the history of the dispute and of the WSB's apparent inability to effect industry participation in WSB hearings, we have no alternative but to continue our strike," Knight said.

"We have patiently attempted to achieve peaceful settlements, but to no avail. We have cooperated with the board, but to no avail. We were finally forced to strike and we must continue striking until settlements are reached."

Knight pointed out that the dispute dates back to September, 1951, and was postponed three times before refinery and pipeline workers went out.

The WSB had returned the dispute to the unions and management April 16 for more collective bargaining after inability to get hearings underway. It retained temporary jurisdiction, however.

A pattern for settlement may be drawn from an agreement reached late yesterday between CIO workers and the Rock Island Refinery near Indianapolis. They settled for an 18-cent hourly increase. Pickets were to be removed today.

Unions are asking wage increase of 25 cents hourly and hikes in night shift differentials. Knight said that any company offer of 18 1/2 cents hourly probably would be accepted.

The average wage ranges from \$2 to \$2.10 an hour and night differentials are 4 cents from 4 p. m. to midnight and 6 cents from midnight to 8 a. m. The

(See WAGE Page 2)

Anti-Strike Bill Hit By Labor Heads

WASHINGTON — (AP) — Spokesmen for organized labor condemned the Smith Anti-Strike Bill today as shocking and viciously anti-labor.

In statements prepared for delivery at a House Armed Services Committee hearing considering the bill, William Green, head of the American Federation of Labor, and Joseph Curran, vice president of the Congress of Industrial Organizations, attacked the bill as a one-sided measure favoring management.

The bill, introduced last week by Rep. Howard W. Smith (D-Va.), provides for 80-day injunctions to prevent strikes affecting national security and for operation of unions and industry by court-appointed receivers after 80 days if no agreement has been reached. It would prevent changes in wages or working conditions during the period of negotiations and receivership and would allow Congress as well as the President to initiate the injunction proceedings.

Bad Morale — Green said the legislation would have a "catastrophic" effect on the morale of workers. He called it "a gratuitous insult" to organized labor.

Curran, who also is president of the National Maritime Union, said the CIO is completely opposed to each and every provision of the bill. He termed it "a viciously anti-labor bill as has been introduced in Congress."

Curran claims the bill was designed to break strikes and "to break unions by running them financially and by turning them over to the direction and control of government administrators."

No Contribution — "It makes no contribution toward solving the difficult problem of labor disputes during a period of national emergency," he declared.

"No person who favors the continued existence in this country of a free trade union movement can possibly support this bill . . ."

Representative in Spain, Argentina and Venezuela have all provided for state administration of the labor unions. In no industrial country anywhere around the globe is political democracy to be found without the accompaniment of a free trade union movement."

All Considered — The chance of a diplomatic effort outside Korea to settle the dispute remained at least a possibility. Deputy Defense Secretary William C. Foster was asked by reporters yesterday if direct negotiations with Russia, a matter Communist nation, had been considered. Foster replied that "every alternative has been considered," including that one.

The single package proposal submitted by Gen. Matthew B. Ridgway's negotiators at Panmunjom and supported by the U. N. Allies contains these three points:

1. That there shall be no forced repatriation of prisoners of war as the Communists have insisted (the President's summary of the points). A poll has shown that 100,000 of the 173,000 prisoners would oppose return to Communist hands. This was a bitter blow to Communist prestige.

2. The United Nations will not insist on prohibiting reconstruction or repair of airfields in Communist areas.

3. The commission to supervise an armistice shall include two Communist satellite nations, Poland and Czechoslovakia, and two chosen by the United Nations, Sweden and Switzerland.

It was the first point that was at issue and it was that one over which the President was precise and adamant. He said "We will not buy an armistice" (See ALLIES Page 2)

Area Postmasters To Hold Quarterly Conference Here

Postmasters and supervisors of the 18th congressional district will convene here Saturday for their quarterly meeting and their annual election of officers.

Host Postmaster W. B. Weatherford said from 75 to 100 postal officials were expected to take part in the business sessions. They will register from 2 to 4 p. m. in the post office lobby.

Business will be discussed in the educational building of the First Methodist church from 4 to 6 p. m. Paul Figg, or another representative from the Dallas regional office of the civil service commission and C. E. Ellis of Amarillo, from the postal inspection service, will be on the program.

The election of officers, postmasters and supervisors from 18th and second class post offices will separate from those from third and fourth classes. Special problems in personnel and postal regulations will be discussed.

A banquet will be held at 6:30 p. m. in Fellowship hall. Dieter Umbach, German exchange student, will speak. John Lee Weston, high school student, will present magic tricks.

HOMEMAKERS REGISTER — Mrs. Charles Warmuski, left, chairman of the Gray county home demonstration council, registered today with Mrs. R. A. Glover of Burger, third from left, at the annual district 1 convention of the Texas Home Demonstration Assn. Women from 18 counties were in Pampa for the meeting. Others pictured include Mrs. E. F. Berry of Dumas, second from right, and Mrs. Virgie Wheeler, Moore county home demonstration agent, right. (News Photo)

Allies Claim Package Plan Last Truce Offer

WASHINGTON — (AP) — An uncompromising announcement by President Truman that "this is our position" left the Asiatic Communists today with the choice of accepting what is apparently the final Allied armistice offer or continuing a war that has cost them much and gained them little.

While the Communists mulled over the declaration that the United Nations' three-point proposal must be accepted in entirety, military and diplomatic officials here weighed the alternatives to be used if the offer is spurned.

If the Chinese and Korean Reds turn down the one-package proposal, including the point that there be no forced return of prisoners, who don't want to go back, the prospects for continued war seemed uppermost. The shape this war could take — more prolonged stalemate on the existing battlefield, a blockade of Red China's ports, attacks on the China coast figured in several alternatives considered by the United States and its Allies.

All Considered — The chance of a diplomatic effort outside Korea to settle the dispute remained at least a possibility. Deputy Defense Secretary William C. Foster was asked by reporters yesterday if direct negotiations with Russia, a matter Communist nation, had been considered. Foster replied that "every alternative has been considered," including that one.

Trucking Industry Wins Wartime Case

WASHINGTON — (AP) — The Justice Department announced today the government will pay \$1.2 million dollars in damage claims arising from federal seizure of the Mid Western Trucking industry during World War II.

The announcement said this will "completely discharge" damage claims amounting to about \$0 million dollars filed by 91 motor carriers seized by order of President Roosevelt in August 1944.

Attorneys handling the case noted that this was a statutory seizure, carried out under a number of wartime laws, as contrasted to the current seizure of the steel industry under claimed "inherent powers" of the President under the construction.

Some Stimulation

No Splurge Is Expected From Lifted Control

Lifting of credit curbs on new automobiles, home furnishings and appliances is expected to stimulate trade in Pampa, but merchants and credit agencies are looking for no sudden splurge in credit transactions.

As for the consumer, he will notice little change in his credit requirements, according to early estimates by lending firms.

New automobile buyers will feel the greatest change, but this will amount to not much more than the six-month extension to the limit of 18 months set by the postwar regulation "W."

Credit Rating — The higher in furnishings and home appliances still will find the primary consideration in the amount of credit he will be given.

One appliance dealer said he would not allow any more credit than the individual customer could bear. He said he must protect the customer against loss in such transactions.

On the average, the only change the Federal Reserve Board action will make in purchase of new cars will be to drop monthly payments from \$15 to \$18 on the lower priced cars and from \$2 to \$3 on the higher priced automobiles.

Furnishing and appliance payments will be dropped from \$35 to \$30 monthly.

Twenty-four Months — A majority of lending agencies handling automobile sales will probably base their credit requirements on practices prior to Regulation "W."

This is because about one-third down payment and the buy 24 months to pay the remainder. This policy will not prevail in all cases. Here, again, individual transactions might be modified.

New car dealers feel that lifting of the curbs will enable them to purchase new cars but push to the agencies is expected. They do expect, however, a definite increase in the new car sales.

Generally speaking, supply new cars here is slightly better than elsewhere. However, dealers expecting greater volume of new cars, particularly after the situation is settled.

Used car dealers may find the market softening a bit as a result of the lower income expected to drop in some quarters due to the new cars being made in readily available to the buyer.

One loan company representative summed up the feelings of credit agencies this morning when he said that good business policies would have to be practiced.

Blood Donor Program Here Is Canceled

Pampa's blood donor program for next week was called today when the Army headquarters canceled the program.

But local Red Cross officials said they hoped to range for blood donations in early part of June. Bill Reed of Fort Worth, Red Cross representative of the blood program, will be here Friday to discuss arrangements.

The original Pampa blood program was a civic committee planned by a civic committee representing many local groups, approved by the Fourth Army public relations staff without knowledge of headquarters. Army was to supply medical assistance and equipment for drive, May 12-19.

But headquarters vetoed the arrangement, apparently because the Red Cross is the only official blood collection agency.

Albert Doucette, president of the Pampa chapter, said the Cross mobile blood unit, which here in the early part of the drive and blood would be collected by Mrs. F. W. Shively, executive secretary of the Red Cross.

"We hope to be able to set out the same plan for a successful blood drive."

Reaves will meet with executive board of the chapter 4 p. m. Friday in the Red Cross office.

High Court May Set Precedent With Steel Seizure Decision

By PETER EDSON
NEA Washington Correspondent
WASHINGTON (NEA)—The Supreme Court decision on the steel seizure case is the best guess against the government. Federal Judge David A. Jones' decision, ordering the steel mill returned to private management, it would be a far-reaching decision that the President does not have the constitutional power to seize private property even during an emergency. Many lawyers feel this is such a sound law it can't be upset.

The three justices expected to vote to sustain the government are Douglas, Minton and Reed. If the decision is handed down by a five to four vote, Justice Hugo Black might join the first.

If the decision should go to four the other way, Justice Tom Clark might be counted in this group. If the vote is split three to three, Justice Felix Frankfurter, Justice Hugo Black might be found with the majority.

Chief Justice Fred Vinson and Justice Robert Jackson, Democrats, along with Justice Harold Burton, the only Republican on the Supreme Court, are generally rated as its conservative backbone.

While the chief justice is a close friend of President Truman, and while Justices Burton, Reed and Minton were also Truman appointees, there is an increasing awareness that the Court may be operating in a reputation of conservatism during the next four years.

In the last 20 years in particular, the Supreme Court never has operated in a vacuum. But a unanimous decision, sustaining Justice Pine, would be a surprise.

COMPLENMENT SPEAKER—Dr. F. D. Mayfield, process engineer for the Celanese Corp., will speak at the Pampa High school commencement at May 26 at 8:30 p.m. in the high school auditorium.

Merchants Asked To Loan Flags

Local Scouts need to borrow American flags for their circus scheduled Friday night.

Merchants have been asked to display their flags all day Friday, and then loan them to Boy Scouts who will come by each store Friday afternoon to borrow them. Each flag will be tagged and returned by the Scouts Saturday.

- PL. 1 — D. R. Henry.
- JUSTICE OF PEACE, PCT. 2 — Mrs. C. A. Tignor (Pct. 2); W. H. Blakney (Pct. 4); Charles Cousins (Pct. 5); C. C. Stockstill (Pct. 7); A. V. "Guss" Greene (Pct. 9); John Kelley (Pct. 10); Bill Greene (Pct. 14); Richard W. Shaw (Pct. 15); Travis C. Lively (Pct. 16).
- Of all the offices listed above excluding party offices, only the county surveyor goes unpaid.
- On June 11 according to the election code, candidates for office in which there is a race will know whether they are number one, two or three on the ballot. However they will have to have their filing fees paid to the county executive committee by that time or they are automatically clipped from the ballot. The race is on!

Mainly About People

Mrs. Patsy Phillips is in Dallas for the next 2 weeks where she is taking special instruction in Merle Norman cosmetics. La Bonta Beauty Salon will carry this line of lovely cosmetics after June 1st.

Mr. and Mrs. Charles Fagans of Odessa will arrive in Pampa this week end to spend Mother's Day with their mothers, Mrs. R. B. Fagans, 1001 Mary Ellen, and Mrs. Walter Daugherty, 1308 Garland.

Special this week only, for sale by owner, new 2 bedroom home, Attached garage, storm cellar, completely fenced-in. Owner leaving town, must sacrifice. Low down payment, good terms. 109 S. Sumner.

Mrs. Jimmie Wallace of Lubbock is reported to be in satisfactory condition following an appendectomy in the West Texas hospital.

Mrs. Wallace's mother, Mrs. Taylor Groves, Merton lease, is in Lubbock this week visiting her daughter.

For sale by owner: 4 room modern house, 1821 Coffee. Low down payment. Phone 2344.

Mr. and Mrs. H. T. Hampton and Mrs. Rose Mary Tinsley and daughter will leave Saturday for a week end visit with their son and brother, H. T. Hampton, Jr., and family in Ardmore, Okla.

2 1/2 lb. fryers for sale, \$1.00 each. Jess Taylor, 301 Tignor.

For rent: Nice large new 3 room furnished apartment. Private bath. Bills paid. Phone 4323.

Dispatchers wanted, full time job for right parties. Apply in person, Peg's Cab office, 412 S. Cuyler.

Oxygen equipped ambulances. Phone 400, Duenkel - Carmichael.

ALLIES

(Continued From Page One) ties by turning over human beings for slaughter or slavery."

Truman declared the U. N. had taken extreme care in separating the 100,000 prisoners who said they would oppose return from the 70,000 who wanted to go back, adding that the U. N. would agree to an impartial screening, after an armistice, of the prisoners. (The mechanics of such a screening are still under consideration.) Truman said "nothing could be fairer."

Rejection

Taking the case directly to the Russians could have indirect benefits results for the Allies even if the Kremlin rejected the armistice proposal. A rejection by Moscow would leave Russia in the position of virtually ordering her Chinese and Korean satellites to continue a war which has helped only the Russian Communists.

The Korean war has pinned down in that remote part of the world seven United States divisions, substantial portions of the United States Air Force and ships and planes of the Navy. It has cost the United States 108,000 battle casualties and the loss of planes, ground force arms and equipment and a few ships.

That, as the Kremlin wanted, has helped disperse American military strength.

But the war has cost the Chinese and Korean armies an estimated 1,170,000 battle casualties and loss of weapons and equipment hard to replace. And after almost two years the Communists stand about where they were at start, near the 38th Parallel dividing North and South Korea.

Fortifications

They may choose to continue standing there, behind the fortifications in depth when they have built up along the state-nated battleline since truce talks started last summer.

Foster said the Communists "have the ability to mount an attack, whether they do so is another question." He said, also, that "whether we have to face the broadening of hostilities" is not yet known.

But it is known that air reconnaissance and other intelligence

Truck Lines Here Report Change-Up

Douglas Nance, local agent for the Canadian Truck line, said today its affiliate, the Yellow Transit Freight Line Co., recently underwent a financial reorganization. Local operations of Canadian are not affected.

Kansas City, Mo., and Detroit, Mich., trucking interests are taking control of Yellow Transit and pouring more than a million dollars into the line.

Heat Starts Fire

Heat from the smokstack set a wood frame afire at the Pampa foundry at 7 p. m. Wednesday, firemen said. Damage was minor.

Have shown a vast amount of south-bound traffic behind the Communist lines. Despite continued bombing of rail and highway lines, trucks and rail cars have continued to pour vast quantities of supplies into the front line area.

Losses suffered by the Reds during the heavy fighting before the armistice talks have more than been replaced. Fortifications, including deep bunker positions and artillery sites, have been observed on the front. These could mean either preparation for defense and continuation of the stalemate or a jump-off on a new offensive.

The formidable nature of the Reds' fixed line well may be a factor influencing the consideration of the various alternatives for possible use if an armistice is rejected. With the great weight of firepower built up by the allies, this defense line probably could be broken and another push in the direction of the Yalu river started.

Wilbur Wright was prevented from attending college by an ice hockey accident that disabled him for almost eight years, according to the Encyclopedia Britanica.

East Germany Threatens To Set Up Army

BERLIN — (AP) — East Germany's Communist government hurled new threats today to set up their own army — something the West says they already have — if West Germany lines up with Western Defense.

Prime Minister Otto Grotewohl telegraphed Soviet Prime Minister Stalin that West Germany's nearly complete peace contract with the Western Allies threatens civil war and the Soviet zone will arm to meet it.

East German President Wilhelm Pieck said on May day that Western signing of the peace contract expected before the end of May — would compel the East to raise a defense force.

Last night leaders of the East Zone's ruling Socialist Unity (Communist) Party wired Stalin such an army, necessary for defense "against aggression," would be raised.

The Western Allies have said for months, however, that East Germany already has a trained nucleus army in its 50,000-man state police and 10,000-man sea police unit.

The telegrams to the Soviet Union's Prime Minister were sent on the occasion of the anniversary today of the Soviet conquest of the Nazi armies.

WAGE

(Continued From Page One) unions want these boosted to 6 and 12 cents respectively.

Knight said negotiations were less favorable today than yesterday. There still is some hope, however, a settlement will grow out of the May 13 meeting.

What was described as the best offer by any company failed to produce settlement in San Francisco. Negotiations there broke down yesterday between representatives of CIO and the Tide Water-Associated Oil Co.

It was reported the management offered about 15 cents an hour plus differential increases there.

"We hope we don't have to pull out in California," Knight stated, "but we intend to intensify the strike."

Meanwhile, effects of the strike were increasing. There has been a 30 cent slash in his octane gasoline available for commercial airliners and private planes. The Air Force has reduced training flight hours.

Filling station supplies are dwindling in some scattered locales, particularly around Chicago and Detroit.

James K. Knudson, Defense Transport Administrator, said in the Capitol a prolonged strike would make necessary some restrictions, but there would be no rationing such as during World War II.

Government restrictions on inventories of gasoline, diesel oil and other fuels have been extended to all but five states.

County Paving Projects Reported Near Completion

Another 12 miles of paving along State Hwy. 70, north of Pampa, was completed at 7 p. m. yesterday, state highway engineers reported this morning.

The job was close to \$200,000 above engineering estimates. Letting of the Gray County line and running 12 miles toward Chicken Creek Bridge was paved with a double asphalt surface by Cooper and Woodruff, Amarillo contractors.

In the meantime, John H. Buckner and Son, San Marcus contractors, were nearing the quarter mark of paving for the southern anchor of the Pampa-Perryton sector of State Hwy. 70 from Alcock to the city limits. This stretch is also double asphalt surfacing.

In a few weeks, state engineers said, paving operations along U. S. Hwy. 66, through southern Gray county, should be in full swing following the highway commission's action in letting the contract to Austin Road and Worth Construction Cos., of Dallas at a cost of \$1,560,933.80.

'The Robe,' Story Of Christianity, Will Be Screened

HOLLYWOOD — (AP) — Ten years ago Producer Frank Ross bought the film rights to "The Robe," a best-selling novel by the Lloyd C. Douglas.

In the years since, one production problem after another has kept the picture from reaching the screen. Howard Hughes, boss of RKO Studio reportedly spent more than half a million dollars on the project before it was shelved.

Yesterday Ross an Darryl Zanuck, head of 20th Century-Fox Studio, announced they've made a deal for filming the novel of the birth of the Christian Era.

It will be photographed here and in the Holy Land with Tyrone Power in the role of the Roman soldier who becomes a convert to Christianity. Production is scheduled for next fall.

Baptist Revival Adds 54 To Membership

Rev. E. Douglas Carver, pastor of the First Baptist church, reports 54 additions were made to the membership of the church in the revival which concluded Sunday. Of this number, 39 came as candidates for baptism. Dr. C. Wade Freeman, of Dallas, was speaker for the campaign.

Due to the large number awaiting baptism, the mid-week service at 7:45 p. m., Wednesday, will be conducted as a regular service of worship. At that time, the ordinance of baptism will be administered.

WE HEARD ...

Dr. Phillip Gates will be speaker at the Baker Parent - Teacher Assn. meeting Thursday at 2:30 p. m. in the school auditorium.

"DEATH SLIDE"—Uncle Sam's Rangers get really rugged training at the Ft. Benning, Ga., Infantry School. Here, as a ranger student speeds down the "Death Slide," a 500-foot rope suspended 110 feet above a mountain stream, an underwater explosion sends a geyser of foam far above him.

Vernon Lawyer To Sneak At WTSC Graduation

CANYON—R. E. Anderson, Vernon lawyer and well-known state political and civic leader, will deliver the commencement address to members of the West Texas State graduating class, Monday morning, May 19 at 10 o'clock. He will speak to the 196 graduates and their families and friends in the college's administration auditorium.

Currently, Anderson is manager of the W. T. Waggoner Estate in Vernon. Prior to this he served in the Texas legislature in 1932 as assistant attorney general. In 1934 he was state tax commissioner and later became chairman and executive director of the Texas Unemployment Commission.

CC Clinics Set Up By OPS Here

Information regarding new ceiling price regulations issued by the Office of Price Stabilization will be given in a series of clinics scheduled in the Chamber of Commerce. The scheduled through May 27.

The clinic was announced jointly by the district Office of Price Stabilization and the Pampa Chamber of Commerce. The schedule calls for a price agent in the consumer services field for May 13; a consumer goods division on May 20 and a foods and restaurant clinic here May 27.

Price officials said several business operations are covered by recent regulations with which

Hooper Named To Hereford Assn.

KANSAS CITY, Mo.—(Special)—Laurie Hooper of Pampa today was named to membership in the American Hereford Association, the world's largest purebred registry organization, with headquarters in Kansas City, Mo.

Two hundred and eighty Hereford breeders were placed on the association's official roster during March to boost the total membership to an all-time high of 20,554. Members represent every state in the nation. In addition to the membership roster the association maintains active accounts for approximately 80,000 Hereford breeders.

Some of the more recent regulations are concerned with operations of eating and drinking establishments; sales of new and used automobiles; construction and other types of consumer services and farm machinery, price officials added.

WEIGHTLIFTING — Visitors to the General Electric plant in Schenectady, N. Y., see the shifting of part of a 11-ton turbine in new \$6,500,000 addition to the turbine building.

Raoul Walsh Tells Why Men Are Easier To Direct

HOLLYWOOD — Raoul Walsh, who is celebrating 40 years in the movie industry, admitted today that he would rather direct actors than actresses.

Walsh has long been known as a "man's director." He has piloted such rugged stars as Douglas Fairbanks, Sr., Errol Flynn, James Cagney, Alan Ladd and Gregory Peck. It's no mere accident that he has specialized in male subjects, he disclosed.

"Women are too much trouble," he said. "They arrive on the set in the morning and they're concerned about some dress they're supposed to wear. By the time it's 11 o'clock, if I only had men to worry about, I could have had a half-dozen scenes in the camera by then."

"Actors are ready to start acting the moment you call them. But not actresses. When they are called, a whole crew of people begins working on them. Between scenes, the girls are always running to a mirror to see if every hair is still in place."

Walsh is not entirely anti-female. He gave Rita Hayworth her biggest boost to fame in "Strawberry Blonde." But he is more known for finding and developing male stars. He took a stunt man named Duke Morrison, renamed him John Wayne and starred him in "The Big Trail."

The director's latest discovery is a tall, good-looking lad named Rock Hudson. He played a bit in Walsh's "Fighter Squadron" in 1948. Now Rock is enacting the leading role in the director's "Gun Hand."

"I like to take these young kids and bring them along," Walsh explained. "It's kinda like an inventor toying with a new invention."

Perhaps his interest in new talent stems from his own early days in films. He started in 1912 as a cowboy for the Pathe brothers, who were then shooting in New Jersey. One day he got a call to report to Biograph and there he allied with the great D. W. Griffith, first as an actor and then as a director. The apprenticeship under Griffith was rugged but worthwhile.

"The old man used to tell me he wanted 50 cowboys for the next day," Walsh recalled. "So I had to hurry around to the bars and hotels and line up enough men. I sent them out to location that night, so they'd be ready to shoot the next morning. There was never a worry about hotels, because the cowboys slept in the corral. They charged 5¢ a day, including their horses."

"I can remember when the movies were just catching on," he said. "The fan mail for the stars was tremendous. When the stars signed contracts, they insisted on three or four girls to do nothing but take care of answering the mail. But when sound came in, the volume of mail dropped tremendously. The players still get letters, but nothing like the volume of the old days."

Counting one- and two-reelers, Walsh calculated he has directed more movies than anyone in the business. He has never been away from pictures for more than three months at a time. I asked if he had any favorite films.

"None," he replied. "Some of them are lousy and some are good. I make 'em and forget 'em."

League Meets

Unit meeting of the League of Women Voters will be held at 9:30 a. m. Thursday in the home of Mrs. J. E. Townsend, 1202 E. Francis. Previously the session had been scheduled in the home of Mrs. F. M. Culbertson.

BORDER CITIES

Largest city on the Mexican border, El Paso, Texas, lies directly across the river from Juarez, largest Mexican city on the American border.

Allied War Planes Pound Red Rail Lines At Poyongang

SEOUL, Korea — Allied war planes rapped up two Red rail lines in 340 places yesterday and were back blasting them again today.

Fifth Air Force fighter-bombers opened 66 more gaps this morning in the stretch of main line north of Red Korea's capital, Poyongang, broken in 170 places yesterday.

Another 170 cuts were reported by pilots from the Carriers Valley Forge and Princeton. They worked over an 80 miles segment of the east coast and railway, centered on Hamhung.

Planes and warships supported front line troops.

An allied patrol fought for two hours early Wednesday with Chinese west of Chorwon on the Western Front. Other tank-supported raiders destroyed four Red bunkers near Kumhwa on the central front.

Thirteen other bunkers were reported closed by guns of the U. S. Cruiser Manchester, supported by the Destroyer Evans in round-the-clock bombardment of the eastern end of the battlefield.

The Navy reported the American Destroyer D. H. Fox used her motor whaleboat to capture three Red sampans and take 15 prisoners.

Mexicans Will Try High Climb

MEXICO CITY — Two Mexican mountaineering clubs have joined forces to attempt the ascent of 20,270-foot Mt. McKinley, highest peak on the North American Continent.

The clubs, formed of printing and railroad workers, will go to Alaska in June for the climb. They hope to fly a Mexican flag from the summit, the same flag they flew last year from the top of 22,835-foot Mt. Aconcagua, in Argentina, highest point in the Western Hemisphere.

MORSE, THE PAINTER

Samuel Finley Breese Morse, the inventor of the telegraph, also was a noted portrait painter, according to the Encyclopedia Britannica.

Happy Is The Day When Backache Goes Away . . .

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys! If these conditions bother you, Try Doan's Pills—a million-dollar relief for millions for over 60 years. It's amazing how many Doan's give happy relief from these discomforts—their millions of kidney tubes and filters flush out waste. Get Doan's Pills today!

Florence Mercur, nationally known concert pianist, marks her tenth year on the concert stage with vital advice to all parents who are considering the possibility of music training for their children.

European Brain Trust Plans Collective Atomic Research

PARIS — (AP) — A scientific brain trust from 10 European nations is planning collective research on nuclear problems which may one day disclose forces far greater than the atom bomb.

"But that doesn't mean we have anything to do with warfare," one of them explained. "Here we are working entirely for peaceful ends. There is nothing secret about our meetings or our plans."

The scientists — top men from Norway, Sweden, Denmark, Belgium, The Netherlands, France, West Germany, Italy, Switzerland and Yugoslavia — have no shining machines. They are setting up study groups to prepare the planning of them. And they hope Europe in a few years will have machines to equal any in the United States and will begin to learn the nature of the atom's nucleus.

The group was formed as result of a suggestion made by U. S. representative to the United Nations educational, scientific and cultural organization's annual assembly at Florence, Italy, two years ago.

Now organized with headquarters in Geneva, it is holding a five-day conference at UNESCO house here to start preparatory work on the building of Europe's first cooperative laboratory for studying nuclear problems.

Pierre Auger, director of the UNESCO natural sciences department, said the new European laboratory it will probably be near Geneva — will be equipped with a 500 million electronic volt synchro-cyclotron and a ten billion electronic volt cosmotron — so named because the waves of energy it will produce will have the properties of so-called cosmic rays.

He said two cosmotrons are under construction in the United States — at Berkeley, Calif., and at Brookhaven, Long Island.

"Europe has nothing to compare with these now," he said. "No one European country could afford to build a cosmotron, so for the first time the governments have agreed to start collective scientific research."

Greece, also a member of the group, is not represented at the current meeting.

Great Britain, although not a member, is represented by two observers.

Lefors Band In Sooner Festival

LEFORS — (Special) — Band Director Desmond Brewer will take the Lefors Pirate band to Enid, Okla., Thursday for the annual Tri-State Band Festival Friday and Saturday. Lefors musicians are entered in Class C.

Brewer is preparing the Pirates for this competition all winter.

Among the events Lefors has entered are marching, sight reading, concert and solo events with hopes of a sweepstakes award in overall competition.

White Deer Youth Wins Drama Award

WHITE DEER — (Special) — For the second consecutive year, James Hufflines, now a sophomore in White Deer High School, was chosen as the best actor in the Interscholastic League Class B one-act play contest in Austin.

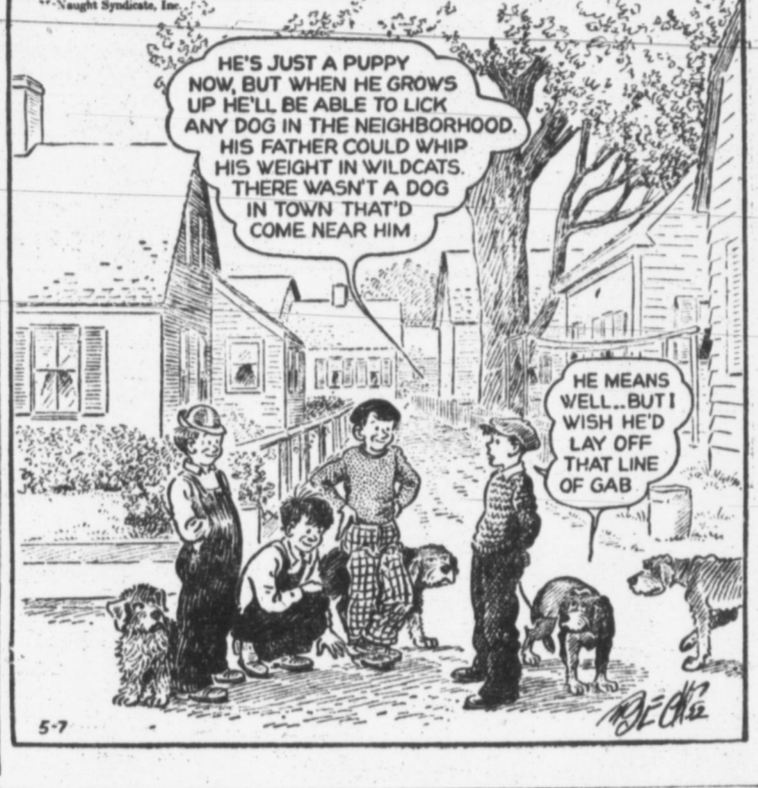

Last year, James won the honor, playing the title role in a cutting from Macbeth. This year, he again won the award, playing the part of Morris Townsend in the final scene from "The Heiress."

The play ranked second in the state contest, first place going to Pine Trees at Longview. Other members of the cast were Barbara Bentley, Barbara Lewis, and Alma Howard, with John Martin, director.

White Deer's entry has placed in the top four at the state contest five times in the last six years: fourth in 1947; first in 1949; second in 1950; third in 1951; and second in 1952.

In the track meet, the mile relay team, composed of Morlan Shuman, Ethan Noble, Carl McCabe, and Ronald Mills, placed sixth; and James McCoy placed sixth in the mile run.

Earth Pigments

The red iron oxides used in paint are often found in fairly concentrated form, but the yellow oxides are usually discovered mixed with large amounts of clay. These mixtures are known as ochres and siennas. Manganese is sometimes present in sufficient amounts to render these clayey browns. When this occurs, the substance is known as umber.

California Designer Keynotes Items For 'Best-Dressed' Male

What is the basis of "a-b-e-s-t" Storer says serge just happens to dressed man's wardrobe has been the subject of hot debate. There are those strong in defense of the four - suit wardrobe... each in a different color and fabric. Just as adamant are those who maintain the smart man chooses his best color and builds his wardrobe around it.

Clinton Storer, California designer of men's wear and accessories, is firmly convinced the best wardrobe consists of four suits. But, he says, two must be blue... the other a tweed, the fourth, may be a good gray flannel or one of the new hard-finished worsteds.

Storer insists blue is correct for town and city wear... for social occasions... For his blue suits, Storer picks as first choice, serge... other may be gabardine or basket weave, however, most men prefer gabardines.

Fire Under Control

SALEM, Va. (AP) — One of Virginia's largest forest fires of the year was under control today for the first time in five days. It burned over nearly 1000 acres on Purgatory Mountain.

BENDETSEN PROMOTED — Assistant Secretary of the Army Karl R. Bendetsen, of San Francisco, has been nominated by President Truman for promotion to Undersecretary of the Army. He will succeed Archibald S. Alexander.

New Color To Men's Spring Add Zest g Hat Styles

Color goes to your head this Spring in the most dashing array of shades you've even seen. Brown, cocoa, mocha and teal-like toned straws are teamed with high - colored bands of paisley, shantung, India madras, batik, tartan and Indo print.

'Beneath It All'... Fashion Is A Matter Of Good Form

Remember, this Spring, fashion-breath-strangling corsets of years is all a matter of form! The new, little nipper "Hold that line" is the fashion advice this year. For fashion lines are figure - hugging and closer to a lover's embrace. With highlights on the high, round bosom and hand-span waist, lady is viewing with some dismay the contours of a body built by golf and tennis. Femininity is disappearing.

Latest addition to the "undercover story" are the waist cinchers but they are not to be confused with the iron-bound, fashion-breath-strangling corsets of years.

The Frank Provincial desk and bookcase shown above come in a mellow fruitwood finish and are designed for use together. Several bookcases in varying sizes are included in this delightful new group as well as a number of handsome desks in this graceful provincial styling. (Charles R. Slight Co.)

The Poor Man's Philosopher Forms Worry-Sharing Club

NEW YORK (AP) — Is life too much for you? Has care got you down? Since this is National Mental Health Week, now is as good a time as any to figure what to do about keeping all your worries.

Statisticians estimate that one out of every 12 children born in America today will spend some part of his life in a mental institution. This is a frightening fact. Going to a psychiatrist isn't the solution. There are only about 6000 psychiatrists in the country. Even if patients kept their couches warm around the clock, there are too few of these professional mind probers to listen to all the people who want to tell their troubles.

Also, getting to their ear is a bit expensive for the average purse. What is the answer? Well, let's look at the situation, and consider the possible remedies. There are two ways to go through life — enjoying yourself to death, or worrying yourself to death.

Remember Forgotten Woman With Smart Spring Wearables

In scanning the fashion picture for Spring, it is evident that this year, the fashion industry has remembered to remember the "forgotten woman" — that woman in the 36-and-up size group.

For years, this group has been offered coats, dresses and suits that first bore the name "stretches" — SIZE, and last of all — STYLE! With almost 50 percent of the women in the 45-54 age group working full or part time, there is a greater need for more flattering, more colorful frocks and wearables in this feminine queue.

Spring's Call To Colors Answered In Gay Scarfs

If you're up to your neck in fashion, then, without a doubt, scarfs are an important accessory in your wardrobe. Chiffon, tie silk, cotton or taffeta — all lend themselves with fluid grace to scarf tricks. The wide squares in brilliant East Indian colors — flower - sprinkled, misty chiffons — striped or plaid taffetas — all are wonderful with a dark dress or suit, merely draped and flowing from a pocket or a belt.

Narrow, slim chiffon scarfs make lovely, saucy bows to perk up a neckline or fill in the V-throat of a dress or suit. Every woman knows how becoming and flattering a soft scarf is near the face, particularly if it's in a pretty pink to lend that rosy glow to the skin.

Crew Escapes Injury In Navy Plane Crash

HONOLULU (AP) — Seven crewmen escaped injury when a two-engine U. S. Navy Neptune search bomber crashed at Barber's Point Naval Air Station last night. The right engine failed soon after takeoff.

WSB Like The Little Boy Caught In Mother's Jampot

WASHINGTON (AP) — The Wage Stabilization Board (WSB) is like a boy who got permission to stick his fingers in the jam and then fell into it up to his neck.

In this case the jam was the steel dispute. And before the excitement is over WSB may get a sound thumping.

The WSB started out as a mild mannered youngster back in the fall of 1950 when Congress gave President Truman authority to set up machinery for controlling inflation.

The President created WSB to sit on wages and the office of price stabilization to howl down prices. WSB's job then was to keep employers from raising wages too much.

At that time it had nine members: Three from organized labor, three from industry, and three representing the public. It soon became clear the nine didn't get along well together.

This was revealed when the Board tried to work out a formula controlling wage increases to keep them in line with living costs and prices. On Feb. 15, 1951 the Board said raises would be limited to 10 per cent.

The industry and public members voted for that. Not the labor members. They walked out, running the Board. They thought 12 per cent should have been the lowest limit.

But labor had another complaint about the inflation machinery, particularly against Defense Mobilizer Charles E. Wilson. They said he didn't have labor people in the group around him making policy.

After a couple of months, Truman reorganized the Board, changing it from nine to 18 members. Now there were six from labor, six from industry, and six representing the public.

But this was a different kind

only decide how much of a raise an employer broke down the WSB, give order Truman gave the WSB some extra and far-reaching power.

He said that when collective bargaining between a union and an employer broke down the WSB could step in and settle disputes

Involving more than just wages. For instance, the union shop. Business didn't like this, especially because there was other machinery the government could use without giving WSB this new and increased power. For example: The Taft-Hartley Act which permits the government to get a court order delaying a strike 60 days.

Nevertheless, the Board rocked along until last December when Truman told the WSB to step into the steel dispute when bargaining broke down between the CIO union and the industry.

Some weeks later the Board—

recommended a healthy wage increase for the union, plus other benefits and the union shop. That was the start of all that has happened since.

The mill owners, who said they couldn't afford the wage raise without a price increase of about \$12 a ton, reacted violently against WSB and the powers it had.

Congressional critics, of whom there were plenty, did the same. The upshot: Demands in Congress that the Board be stripped of its new power and reduced to what it was in the fall of 1950—simply an agency for sitting
