Drastic Plane Cutback May Release 450,000 Workers

TOKYO'S TOTAL RUIN NEAR

Speeding Up of Reconversion Should Result

By STERLIN F. GREEN
WASHINGTON, May 26—(AP)—The army's 17,000-plane cutback in aircraft, largest single armament slash since V-E day, may reduce the nation's war bill by \$3,500,000,000 and release 450,000 war workers by the year end, highly placed officials said today.
In addition they predicted that it will put industry "over the hump" in supplies of aluminum and small electric motors for new civilian goods. The motors, of which each heavy bomber requires more than 200, had been the most-feared bottleneck in resumed production of refrigerators, washing machines and other consumer products.
These war production board officials directly connected with reconversion were highly elated. They were pleased, too, with the prospective release of a quantity of steel which, though relatively small, will be mostly of the persistently scarce alloy type.
The manpower effect of the aircraft cut will vary from one production center to another, and few of them had definite figures on the final impact.
Strategically, said the customarily anonymous production officials, the cut in planned production of super bombers reflects three significant developments:
First the unexpectedly high per-

Inequity in Gas Prices Is Charged

The executive committee of the Panhandle Producers and Royalty Owners association, Saturday in a strongly-worded telegram to Rep. Eugene Worley of the 18th congressional district, branded "unreasonable and highly discriminatory" an OPA directive refusing to increase the price of residue gas sold to the carbon black industry.
The association had sought increase to 3 1/2 cents per MCF (thousand cubic feet) of gas. The price now being paid here is 1.2 cents per MCF.
The message to Worley asserted that OPA had granted price increases for gas in surrounding fields, some in New Mexico, Kansas and Oklahoma. "We believe congress in creating the OPA and authorizing that agency to control prices also definitely charged them with the responsibility to remove inequities and did not direct that agency to create inequities as they have done in many instances," the telegram said.
"We are also informed that the government through defense supplies corporation is buying channel carbon black produced in the 18th district of Texas for the ceiling price of 33 cents a pound and are reselling it to the rubber companies at 5 cents a pound making a profit of 1.7 cents a pound which amounts to a profit of over six million dollars a year on channel black produced in the Panhandle of Texas. This profit we understand is to be used to pay higher prices for gas and carbon black in other districts and to pay higher prices for black produced in government-owned plants. If this is the policy, it would seem that coupled with OPA inequities it would almost amount to the operation by the government of a black market in carbon black to the detriment of the Panhandle of Texas."
The message was signed by Association President R. C. Kay and Gas

PEOPLE IN THE NEWS

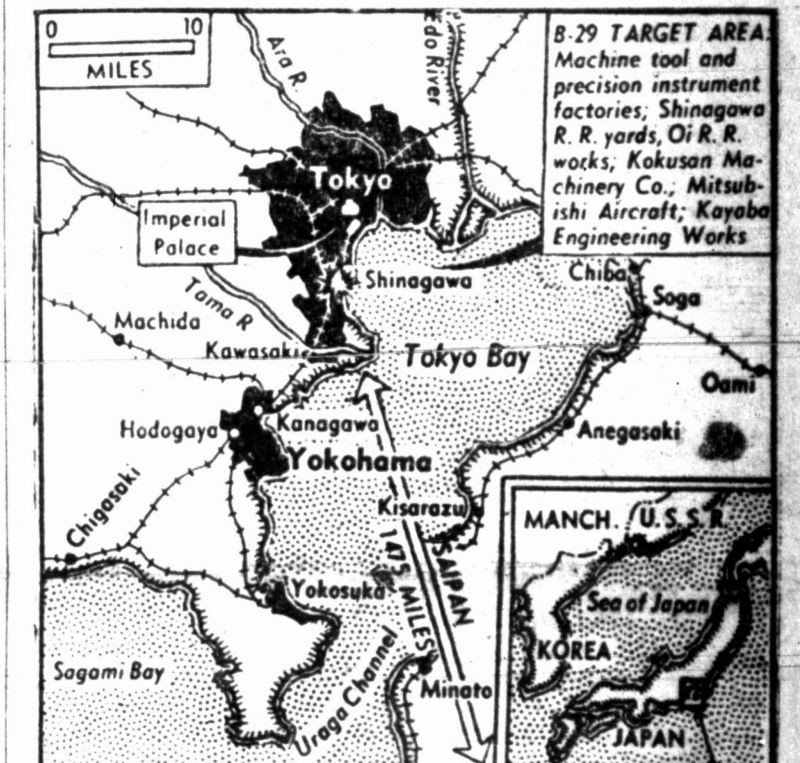

Julius Streicher, upper left, infamous Jewish prosecutor who was captured in a fine piece of poetic justice by Maj. Henry G. Pratt, of the 101st airborne division, upper right. Inga Arvad, lower left, Danish screen writer whom Adolph Hitler once described as the "perfect Nordic beauty" who broke her engagement to Robert Bothy, lower right, member of British parliament. Inga said she still loved Bothy but did not wish to jeopardize his career.

Enemy And Returning Flyers Agree Third Largest City Is Knocked Out

By RAY CRONIN
Associated Press War Editor
America's mighty Superfortresses have just about destroyed Tokyo, third largest city of the world.
Broadcasts from the smoking Japanese capital Saturday pictured the "greater part" of the metropolis as in ruins, including palaces within the grounds of the imperial palace area, three government ministry buildings, the foreign embassy district and the business center.
The U. S. 20th air force at Washington disclosed in a communique that 31 of the giant bombers were lost in the two pre-dawn fire raids Thursday and Saturday, Japanese time.
American fliers returning from the Saturday attack by some 500 of the sky giants with about 4,000 tons of incendiaries agreed with Tokyo that the great city was "literally scorched to the ground."
Today's fleet communique from Guam on the Okinawa invasion reported no changes of consequence on the ground but raised from 111 to 166 the number of enemy planes shot down in a concerted attack Thursday night and Friday morning on U. S. shipping and airfields. The communique also reported a strike by American Thunderbolts on enemy airfields on Kyushu, Japan's southernmost home island.
Tokyo reported the B-29's destroyed the "front buildings" in the imperial palace grounds, a number of outlying palaces and U. S. and several other embassies, and what was left of the business center from previous raids. It added the emperor, empress and dowager empress were safe.

TODAY'S WAR MAP

The above war map pictures the area where record attacks of Saipan-based Superfortresses are smashing Tokyo production centers, dropping thousands of tons of fire bombs. Predictions are that, with the tremendous war-making power of the United States turned full blast against the Pacific enemy, headlines will tell of smashing blows on Japan until Nips cry "Quits." (NEA Telephoto.)

Doolittle Leading Eighth Air Force To Pacific War

WASHINGTON, May 26—(AP)—The Eighth air force, pioneer in American bombing of Germany, is going to the Pacific under command of Lt. Gen. James H. Doolittle.
The army air force, in announcing today the redeployment against Japan today, said that "the present tempo of bombing of the Japanese homeland will be stepped up to the point that Japanese war industries can expect an even greater volume of attack than was accomplished against Hitler's fortress Europe."
"General Doolittle is now preparing to help finish the job he started on Japan in April, 1942, when he hit Tokyo with his carrier-based B-29s, but now he'll be using land-based 4-engine bombers with plenty of fighter cover.
Doolittle, who has been seen in Washington during recent days has been described as the "former commander" of the Eighth air force. A recent announcement reported that Maj. Gen. William E. Kepner was the new commander.

Price-Control Act May Be Extended

By WILLIAM F. PEACOCK
WASHINGTON, May 26—(AP)—A three-month extension of the price control act without change to allow further study proposed amendments is reported under consideration by congressional leaders.
It was learned today that this possibility was disclosed by a senate banking subcommittee, handling OPA extension legislation, and will be brought before a closed meeting of the full committee Tuesday.
Increasing the pressure for such a step is the growing prospect that controversies over amendments cannot be fought out, and an extension measure enacted by June 30, expiration date of the law.
While the senate could act before then, the house banking committee has received more than 100 requests to be heard on the legislation. The house committee will not begin hearings until after the senate acts.
Leaders believe, however, that a resolution for a short term extension of the law could be pushed through without delay. The administration asked originally for an 18 months extension.

Thousand Dollar Bonus For Servicemen Probed

By WILLIAM F. ARBOGAST
WASHINGTON, May 26—(AP)—Chairman Rankin (D-Miss) of the house veterans committee sought White House blessing today for an all-out drive for a bonus for service men.
Rankin, co-author of the G. I. bill of rights and of legislation that raised the monthly pay of enlisted men from \$21 to \$50 a month, while many are being demobilized, he said in an interview during which he disclosed that he has sought the views of President Truman on the whole subject.
The Mississippian said he was enclosing, in a letter to the President, a copy of a bill he introduced on May 2 and which he wants enacted into law "without too much delay."
"I have asked the President to state his views on the bill and on the subject generally," he added.
Just how soon he will ask the veterans committee to begin consideration of the legislation will depend, Rankin said, on how soon the President communicates his views.
But the white-maned southerner made it plain that he does not intend to wait until the ways and means committee starts considering another bonus bill calling for a

Churchill Says Election Won't Stop Big-3 Meet

LONDON, May 26—(AP)—Prime Minister Churchill indicated today he might meet with President Truman and Premier Marshal Stalin before the British general election July 5.
In a tour of his constituency just outside London, Churchill told several meetings he might be called away from his campaign for reelection to parliament to participate in a post-European war conference of the Big Three.
"I have informed President Truman, with whom I am in constant and cordial communication," he said at Woodford, that the election must not be allowed in any way to delay for even a day a meeting between the heads of the government.
Joseph Davies, Truman's personal representative, planned to meet over the weekend with Churchill for a conference which may embrace all Europe's most pressing problems.
The Polish and Syrian disputes, the Trieste affair, Austria, the occupation of Germany and the trial of war criminals probably will be on the agenda.
"The world is in a terrible condition and I must, in the days ahead devote a great deal of my time to

Small Nations Win Round at Frisco From Big Powers

By DOUGLAS B. CORNELL
SAN FRANCISCO, May 26—(AP)—Small nations chalked up a hard-fought victory over the great powers today in a United Nations conference committee vote to omit from a world charter provision for expelling unruly members.
At the same time, the American delegation clamped a gag on the airing of discussions aimed at clearing the path of the conference the big issue of absolute great-power control over a world organization.
Delegates attending routine committee sessions talked about the possibility that two chiefs of state might turn up here for the signing of the charter early next month. Reports in Paris suggested that Gen. Charles De Gaulle might fly to Washington next week and accompany President Truman to the closing ceremonies of the conference.
The French delegation lacked confirmation, however.
The Big Five—Russia, China, Britain, France and the United States—now are confronted with the problem of carrying an appeal to a conference commission if they want to write an expulsion provision into the charter.

FEA Study Shows Japan Prepared For Long War

WASHINGTON, May 26—(AP)—Japan is still capable of waging a long war despite destructive air attacks and naval defeats which have cut her off almost entirely from her stolen sources of rubber, oil and tin, the foreign economic administration said today.
"A large portion of the war industry she had at Pearl Harbor is intact," said a report by the enemy branch of the agency. In addition, key raw materials are available in the so-called "inner zone"—Japan proper, Korea, Manchuria and part of north China—where Japanese war industry was organized before the war.
In spite of major successes in cutting off Japan from the resources of the East Indies, Malaya and the Philippines, FEA said the Allies so far have liberated less than 1 percent of the nearly 2 1/2 square miles of conquered territory controlled by the enemy.
In the inner zone, moreover, are synthetic oil plants with an estimated capacity of more than 21,000,000 barrels in 1944.
"With the loss of the major part of her navy and the reduction of her merchant marine, this quantity may be sufficient to meet requirements for the approximately 2,000-

Gray County Boys Are Honored by Chamber

The Pampa chamber of commerce yesterday honored Gray county boys who won the annual Sears Foundation Plus award with a lunch, after representatives of the chamber had presented the prizes, County Agent J. P. Smith announced.

THAT MAN AGAIN

Farmer President Herbert Hoover, a persistent advocate of food relief for war-ravaged Europeans, has accepted an invitation to confer with President Truman on the subject next Monday. Announcement of the conference brought speculation in Republican Congressional circles that Mr. Hoover might be offered an executive post in the international food set-up.

RIDE 'EM COWBOY: RODEO AND HORSE SHOW PLANS MAKE HEADWAY

Preliminary plans for a proposed rodeo and horse show to be held here this fall were made at a meeting of Gray county ranchers, stockmen and business men Friday night.
Wade Thomasson was elected temporary president of the association which will probably be in corporation form, financed by the sale of stock shares.
Q. W. Hampton, who presided at the Friday session, said that residents of surrounding communities had been asking why Pampa does not have an event of this nature. The idea was taken up in Pampa by the chamber of commerce and the preliminary meeting was called.
The 26 men present at the meeting discussed means of financing the show and it was decided that a corporation form of association would be best.
"Red" Wedgeworth, chamber of commerce manager, pointed out that it may require a capital of between \$1,500 and \$2,000 in order to put on the show. This amount, it was said, could possibly be raised through the selling of shares in the stock of the corporation.
Besides Thomasson, other officers elected included Crawford Atkinson, vice president, "Red" Wedgeworth, secretary, and Floyd Imel, treasurer. See HORSE SHOW, Page 6

ON THE 7TH:

WASHINGTON, May 26—(AP)—A war bond statement from Brig. Gen. Louis E. Woods, commanding general, 4th air wing, U. S. Marines.
"Purchase of war bonds represents at the most a temporary sacrifice. The soldier who gives his life or limbs can never get back what he has given. Will Americans during the Seventh War Loan be unmoved by this difference? I believe not."
Efficient, courteous service at Gunn-Hinerman's. (Adv.)

Catching Rats Is Expensive Pastime

DENVER, May 26—(AP)—A police court conviction of 74-year-old Harvey Layton on a charge of cruelty to an animal—a rat—was affirmed yesterday by a six-man jury in Denver county court but his fine was reduced from \$25 to \$10.
The fine was imposed on Layton for allegedly trapping a rat and caving it to a tree so his two cats could practice rat-catching.

Hail and Rain Storm Hits Pampa in Force

Hail and rain last night was received in Pampa with mixed feelings as citizens welcomed the much-needed moisture, but feared damage to wheat and gardens from the large stones.
The rainfall, for which farmers have been hoping for weeks, was heavy, for the length of time it fell, with the weather bureau reporting at 8 p. m. that 69 inches had fallen.
The hail stones reached large proportions, as citizens stood on the "sidelines" watching, but were careful to stay out of reach of the dangerous looking balls of ice. Occasionally someone would venture too far in his anxiety to see the stones—

Kiwanis-Church Softball Play Opens Monday Night

Sports Roundup

By HUGH FULLERTON
STATE COLLEGE, Pa. May 26—(AP)—It costs Penn state college somewhere around \$2,000 each year to stage the various state championship high school athletic tournaments—some 500 kids are here today for the track, golf and tennis tournaments and in normal times the college puts them up at fraternity houses, besides footing the bills for operations. The teams pay their own travel expenses—still, it probably is cheaper in the long run than maintaining the elaborate scouting system some colleges have to see that the best athletes don't stray to other states—or to persuade them to do a little straying.

STRICTLY FROM HUNGER

When Lt. Clatr Hess, former Penn state wrestler, returned from Europe after fighting his way out of the Bastogne pocket, he was sent on a war bond tour—in a couple of weeks, Hess, 35 pounds heavier, announced he was about ready to return to the fighting front—"Every lunch and dinner was a banquet," he complained, "and I had to give a speech to get it. It'll be good to get back to K-rations."

SPORTS BEFORE YOUR EYES

Branch Rickey's interest in pro football advanced to the stage where he once conferred with Glenn Killinger, a possible coach... and what's this story that Dick Harlow is looking for a small college setup after the war instead of returning to Harvard... Denver's project of building a hospital as a memorial to General Maurice Rose is receiving enthusiastic support from sports fans, who remember him as a high school football and baseball star as well as an army polo player.

SERVICE DEPT.

Fort Dix, N. J., fight fans are high on middleweight Carl Jackson and heavyweight Jim McClellan Foster, a 22 year old MP corporal who has racked up 18 KO's in 25 bouts... Commander George Halas, the Chicago Bears boss, has been assigned to the staff of the commander in chief of the Seventh fleet.

HELICOPTERS IN TEXAS

WICHITA FALLS, Texas, May 26—(AP)—Sixteen helicopters have arrived at Sheppard field to open a new "dragon fly" training school at the post near here... The craft landed yesterday after a miss flight from Chanue field, Ill. One was forced down at Duncan, Okla., by mechanical failure. None of the crew was injured.

Col. F. Wisell, who will command the new school, was commander of the cross-country flight.

PAAF BASEBALL TEAM

You've been reading about them—now look 'em over! Here are the eighteen members of the PAAF 1945 baseball team, winners of 5 games in 8 starts so far this season. Pictured above from left to right, front row are: S/Sgt. Elmer Berry, catcher; Sgt. Timmy Guilfoyle, outfield; Pfc. Johnny Treese, shortstop; Cpl. Malcolm Mick, first base; Pfc. Albert

Archer, pitcher; first base; Lt. James Austin, outfield; and Cpl. Michael Greek, pitcher. Back row: Pfc. Thurman Lee, second base; Sgt. Homer Durden, third base; Sgt. "Fish" Henry, outfield; Business Manager Bill McMurff; Sgt. Raymond Johnson, pitcher; Manager Martin Knell, infield; Lt. Vernon Laux, catcher; W/O Clyde McWhorter, outfield; Sgt. Merlin

Walker, outfield, and Pfc. Alfred Kaplan, pitcher. Sgt. Tony Reis, the team's other pitcher, was not present when this picture was taken. Watch the team in action this weekend against Liberal AAF and on Monday and Tuesday against Dodge City AAF, all of the games to be played on the new post diamond. (Official AAF Photo by AAF CFTC).

Central Baptist Meets Calvary Baptist in Girls League Game

Play in the Kiwanis Club-Church softball league, comprised of over 300 youths up to 18 years of age, will begin tomorrow evening at 7 o'clock when the Central Baptist church meets Calvary Baptist on the north diamond at Sam Houston school and First Christian meets First Methodist on the south diamond.

Both games are in the girls league. Umpiring the games will be Thompson and Alford.

The senior and junior boys leagues will open play Tuesday evening at 7 o'clock. Boys teams will not be in action on Monday night because of the interference with Boy Scout activity.

L. N. Atchison, local office supply dealer, was chosen "czar" of the league at a meeting of sponsors and officials Friday night. Atchison will have final authority on whether a player is eligible to play or not.

All church attendance records of the players must be turned in to the sheriff's office each Wednesday after the Sunday in which the player attends church.

The player's attendance record turned in on Wednesday will affect his eligibility during the following week, starting on Monday.

A player must attend some church 50 percent of the time in order to play on that church's team.

There are 30 teams in the three leagues. The boys senior league and the girls league have seven each while the junior boys league has six.

In the boys senior league, each team will play the other three times during the full season. In the girls and the junior boys league, each team will play the other twice during each half.

The complete schedule for the first five days of play follows. The schedule, by the week, will follow in subsequent issues of the News.

Senior Boys League
May 29—Calvary Baptist vs. First Presbyterian, Roadrunner park; First Baptist vs. First Christian, Magnolia park.

May 31—Holy Souls vs. Calvary Baptist, Roadrunner park; First Methodist vs. Central Baptist, Magnolia park.

June 1—First Baptist vs. Central Baptist, Roadrunner park; First Methodist vs. First Presbyterian, Magnolia park.

June 7—First Presbyterian vs. Central Baptist, Roadrunner park; First Methodist vs. First Christian, Magnolia park.

June 13—Central Baptist vs. Calvary Baptist, North Sam Houston; First Baptist vs. First Methodist, South Sam Houston.

May 29—First Presbyterian vs. First Baptist, North Sam Houston; Harrah-Nazarene vs. Central Baptist, South Sam Houston.

May 31—Harrah-Nazarene vs. First Methodist, North Sam Houston; Central Baptist vs. First Presbyterian, South Sam Houston.

June 1—Harrah-Nazarene vs. First Christian, North Sam Houston; Calvary Baptist vs. First Baptist, South Sam Houston.

June 4—Harrah-Nazarene vs. Calvary Baptist, North Sam Houston; Central Baptist vs. First Baptist, South Sam Houston.

BROWNS 9, RED SOX 2
BOSTON, May 26—(AP)—Six-hit pitching by Tex Shirley and a flurry of Boston errors today gave the St. Louis Browns a 9 to 2 victory over the Boston Red Sox.

Vern Stephens homered off Oscar Judd in the first inning with one aboard.

ST. LOUIS, May 26—(AP)—9 ST. LOUIS 200 003 004—9 BOSTON 110 000 000—2 Shirley and Mancuso; Judd, Ryba, Hausmann, Barrett and Walters. Losing pitcher—Judd.

TIGERS 5, ANS 4
PHILADELPHIA, May 26—(AP)—The Detroit Tigers licked the Philadelphia Athletics 5-4 today to climb over the Chicago White Sox into second place in the sizzling American league pennant race.

DETROIT, May 26—(AP)—5 PHILADELPHIA 010 002 010—4 Wilson and Richards; Black, Gerkin and Hayes. Losing pitcher, Gerkin.

YANKEES 13, WHITE SOX 0
NEW YORK, May 26—(AP)—A combination of terrific hitting and

In the National

air-tight pitching gave the New York Yankees their fourth straight over Chicago 13-0 today. Walter Dubiel limited the White Sox to three safeties while the Yankees clouted three pitchers for 18.

NEW YORK, May 26—(AP)—13 NEW YORK 012 032 23x—13 CHICAGO 000 000 000—0 Dubiel and Crumpton; Lee, Johnson, Touchstone and Tresh and Casiano. Losing pitcher—Lee.

GIANTS 5, REDS 1
CINCINNATI, May 26—(AP)—Scoring all their runs in the seventh inning the New York Giants made it four in a row over Cincinnati today, 5-1, as young Swede Hansen led the Reds to five hits.

NEW YORK, May 26—(AP)—5 CINCINNATI 000 000 000—1 Hansen and Lombardi; Bossert, Beck, Busch and Lakeman. Losing pitcher—Beck.

CUBS 2, PHILLIES 1
CHICAGO, May 26—(AP)—Bill Lee, former Cubs' hurling star, forced the winning run over the plate by walking the last three batters to face him, with one out in the ninth inning today to give the Chicagoans a 2 to 1 victory over the Philadelphia Phils.—It was the Cubs' third victory in the four-game series.

PHILADELPHIA, May 26—(AP)—1 CHICAGO 000 001 009—1 PHILADELPHIA 000 100 002—2 Lee and Peacock, Erickson and Rice.

GAME CALLED
PITTSBURGH, May 26—(AP)—Rain forced the Pittsburgh Pirates-Boston Braves game to be called in the third inning today. The Pirates were on the way to their sixth straight win with a 6-1 lead at the time the contest was stopped.

'Bug Haven'—New Teen-Age Canteen Opens at Canadian

CANADIAN, May 26—Canadian's teen-age canteen, "Bug Haven", long hoped for by residents of the community, is a reality now.

Through the efforts of the Canadian Rotary club and the Parent-Teachers association, the plans for the club were made several months ago and it has proved its worth to the adults and youngsters of the city.

There are facilities for dancing, games, refreshment and several other types of clean, youth-building recreation.

Three rooms and a long, wide hall of the old high school building were repaired and redecorated for the canteen. A part of a partition between two of the rooms was

removed to facilitate convenience in carrying out the activities of the canteen.

The rooms with part of the partition removed are used for dancing, and "just visiting." There is a fully-equipped "snackbar" in the lounge where sandwiches and drinks are sold by the P-TA to help defray the expenses of the canteen.

The canteen is governed by a student court of honor consisting of two students each from the four high school classes and also members of the faculty.

Dolan Williams is president of the court.

"Bug Haven" is open Tuesday, Friday and Saturday nights. A married couple from the Rotary club or the P-TA usually act as chaperons and teen-agers are required to register "time-in and time-out" and may not return any time during the same night they have checked out.

Smoking and drinking are strictly prohibited.

Membership in the canteen costs

Convention Ban Quite Helpful

An estimated saving of more than 52,000,000 passenger miles in three months as a result of rulings under the war-time convention ban is announced by the war committee on conventions.

The committee received 1,088 applications for the holding of conventions and group meetings in February, March and April. Of this total 89 were approved, 604 were denied, and 335 were for meetings not covered by the restrictions.

The anticipated attendance at the cancelled gatherings is set by the each boy or girl one dollar and the consent of the parents is required before a boy or girl may join the canteen.

Canadian's resident, as a whole, feel that the canteen is an exceedingly worth-while project.

committee at 905,000. It is estimated rail transportation would have been used by 56 percent of those attending for an average round trip of 210 miles each.

The committee states there also has been a far greater saving through voluntary abandonment of scheduled conventions.

The committee points out that, "if the post-war convention demands were to be released at the same time as military requirements are expanded (in accordance with the army's redeployment plan) the effect upon the railroads and the hotels would be cataclysmic."

Drastic Cut in Sugar Considered

By HOWARD FLEGGER
WASHINGTON, May 27—(AP)—A congressional food investigator said yesterday OPA is pinning a drastic curtailment of industrial sugar which will cut manufacturers to half their 1944 supply, or less.

The new reduction will be announced for the third quarter of the year, effective July 1, said this

lawmaker who asked not to be named.

Sugar is rationed to industrial users—bakers, candy makers and the like—in quarterly allotments.

The new cut became necessary because civilian sugar consumption early this year exceeded the amount originally set aside.

Chairman Anderson (D-NM) of the house food committee said that in April alone, when use was supposed to be 60,000 tons under the corresponding month in 1944, consumption actually ran 95,000 tons ahead of last year. This resulted in

a deficit of more than 150,000 tons.

The withdrawal from sugar stockpiles came about, Anderson said, because OPA ration boards issued allotments in excess of the supply set aside for civilian consumption.

The over-draft must be made up beginning with the third quarter.

The investigator said he did not know whether the restriction would be extended to household supplies of sugar.

Industrial users, however, probably will be cut to 40 per cent or less of the amount they used in 1941. There was some indication they might be held to 30 per cent.

For Her . . . YOU WANT THE BEST

a beautiful **DIAMOND from ZALE'S**

The girl of your dreams will thrill to receiving a lovelier diamond from Zale's . . . one to cherish throughout the years. Choose from our collection of magnificent diamond rings, each selected for quality, cut for character, and priced for comparison. Convenient budget terms arranged.

BRIDAL DUET
Charming yellow gold heart designed rings. Glorious diamond solitaire, \$29.75. Matched wedding ring, \$10.00.
\$39.75 \$1.85 Weekly

STREAMLINER PAIR
Flower motif wrought in yellow gold. Brilliant diamond solitaire, \$45.00. Engraved wedding ring, \$10.00.
\$55.00 \$1.85 Weekly

MAN'S DIAMOND RING
Handsome center diamond and sparkling side ruby in a masculine solid gold mounting.
\$237.50 \$3.00 Weekly

DIAMOND SOLITAIRE
A diamond of enduring loveliness to slip on her finger . . . in a dainty natural gold setting.
\$119.75 \$8.00 Weekly

BRIDE-GROOM SET
For a double ring ceremony choose these classic yellow gold rings. His ring \$18. Hers, \$7.50.
\$22.50 \$1.25 Weekly

COSTUME PIN
Gorgeous Trifari crown pin studded with brilliantly colored stones in gold covered sterling.
\$17.95 \$1.25 Weekly

DIAMOND EARSCREWS
Scintillating diamonds to wear at the tips of her ears . . . each set in charming yellow gold. The pair.
\$75.00 Use Your Credit

DIAMOND SOLITAIRE
She'll cherish this fine quality, brilliant diamond, dramatically mounted in platinum.
\$275.00 Easy Terms

LOVELY BRIDAL DUO
Romantic pair of rings, each set with three radiant diamonds in yellow gold. Solitaire, \$135.00. Wedding ring, \$50.00.

More Silly Censorship

One of Ernie Pyle's columns from Italy told of the death of Capt. Henry Waskow. It was one of the best things Pyle ever wrote, and one of the most moving and memorable stories in the tremendous day-to-day literature of this war. No one who read it could very well forget it.

For those who didn't, it was the story of a well loved young officer, killed during a day's fighting in the mountains, whose body was brought down the steep trail at night by muleback, and laid on the ground of that day's battle with the other dead.

Ernie told how the men who had loved Waskow came by, one by one, to look at him for the last time. He told what they said—brief, awkward, grief-filled phrases, written from the heart by sorrow and by bitter hatred of the war and of another friend who robbed them of another friend.

It is inevitable that this story, which Pyle told so beautifully, would be incorporated into the forthcoming film based on his writings. And it was equally inevitable that the dialogue should be taken intact from the original story, which happened to be one of those rare pieces of prose that can't be edited without being spoiled.

All right and proper, so far. But then the blue nose of the Hays office intrudes itself and tells Lester Cowan, the film's producer, that it cannot approve the picture because it regards some of the dialog in the Captain Waskow scene as expressions of profanity.

As we recall the story, three GIs used the word order of a profane phrase to invoke God's punishment upon the causes of the grief which they felt so profoundly and expressed so simply. They were soldiers, not eulogists. And considering the circumstances and intent of their words, it seems a little blasphemous of the Hays office to brand those words as blasphemous.

It seems to us about time that interpreters of the Hays code be allowed to adopt a more adult attitude, or that the code itself be changed to permit some differentiation between tastelessness or vulgarity and strong words uttered in a moment of deep emotion.

This is the second recent instance in which the Hays office has behaved as if this tragic world were a Hollywood set. It has objected to a "damn" in a film dealing with the Nazis' mass murder of Russian civilians. Yet, if memory serves, it permitted a "damn" by Clark Gable somewhere in the interminable footage of "Gone With the Wind."

Two major film producers, Warner Bros. and United Artists, have lately left the Hays fold. This could be a hint to the guardians of movie morals that the time has come to wake up and grow up.

BONDS KILL JAPS
The Nation's Press
U. S. PRESSING HAS BEEN LOWERED AS F. ARLEY By George Rothman, Bureau Chief (The Los Angeles Examiner)

Two conclusions seem inescapable as the United Nations Conference reaches the half-way mark: It cannot be claimed that the prestige of the United States has been enhanced in San Francisco. On the contrary it has been distinctly lowered, and much wisdom will have to be shown to recover the lost ground.

Nor can it be successfully argued, with regard to the relations between the Allied powers and Russia, that they have not been worsened. It will require the best of which true statesmanship is capable to repair some of the damages that have been done by the nation which had been so flattered to this country in the reflection that it was Latin America which rallied in unity to save the Monroe Doctrine, after it had been dangerously compromised with the acquiescence of the delegates representing the United States.

Yet it had been most painfully compromised, and that was the impairment of Western Hemisphere solidarity which existed when early last week the Latin states demanded that changes be made in the San Francisco charter to save the Act of Chapultepec from the unlimited power of interference in wholly American region affairs which has been lodged in the security council.

Common Ground

By W. C. HOLMES
"Men loved darkness rather than light, because their deeds were evil."

Typical Union Leadership
The proposal made by Walter P. Reuther, vice-president of the United Automobile Workers (CIO) to have the workers receive 48 hours' pay for 40 hours' work is a nice example of labor union leadership. His plan is wishful thinking pure and simple. He contends this is necessary in order to have enough purchasing power to buy the goods.

He would leave the impression that purchasing power can be increased by raising wages for the same amount of production or giving equal wages for less production. What he fails to realize is that purchasing power does not come from transferring money from one person to another. It comes from one thing only—production.

If the automobile workers or the union workers get the same pay for 48 hours work as they got for 48 hours produce the same amount per hour, then other workers of necessity must get less for what they produce. Then other workers' real wages must be reduced.

If that is not true, we could do without any work at all. We could simply increase our standard of living by raising wages, by transferring money from one person to another.

It is no wonder we have had the worst and longest period of unemployment before the war in our history when people follow such sloppy thinkers as Walter P. Reuther, vice-president of the United Automobile Workers union. Every economist down through the ages has foreseen exactly what would happen by following such impractical schemes of wishful thinkers.

Divine Providence ruled at the beginning of time that men should live by the sweat of their brow and that they could not improve their lot by artificial means, such as pressure groups of labor unions demanding artificial wages under the threat of simultaneous stoppage of work.

The newspapers have carried the report that he has made War Mobilizer Fred M. Vinson a virtual food czar, but that is only one-tenth of the story. He has ordered his top civilian aide to cut out he bickering and controversies which in the past blocked even an approach to the solution.

The fact is that Fred himself, as well as his predecessor, James F. Byrnes, was partially responsible for the existence of more funds than food. And they, in turn, were reporting to a President who was necessarily concerned with foreign rather than domestic difficulties. Germany was still a threat in those days.

DIFFERENCES—When Mr. Truman investigated, he discovered that there had been constant contention between War Food Administrator Henry F. Jones and Administrator Chester Bowles. Their still unsettled differences over fundamental problems have blocked any improvement.

Whenever the Texan urged higher ceilings or subsidies for the packers and feeders and other handlers of meat, he had to ascertain from OPA whether the proposed increases could be absorbed or whether they would necessitate a boost in retail prices.

The answer to the second query was always in the affirmative, and OPA refused to approve changes in basic production or distribution costs. The price fixers feared that any revision of their hard and fast standards would get them in bad with the people and the politicians.

As a result Mr. Jones suggested that control over both wholesale and retail prices be put in his office.

REALISM—When these intra-family disputes (higher allowances for meat makers and merger of the two offices) were referred to Mr. Vinson, then Economic Stabilizer, or to Mr. Byrnes, former war mobilizer, the answer was the same: Franklin D. Roosevelt. He did not like to hurt the feelings of any squabbling subordinates, and never resolved these controversies on a high or a low level. He was too immersed in winning the war and preparing for peacemaking.

The result was that no financial incentive was ever given to the men who raise, slaughter and distribute cattle, pork and Allied products—

Now The Germans Are Sorry

OH, IT IS SO SAD YOU'D WAR HAD DONE TO US!

NEWS BEHIND THE NEWS

The National Whirligig

By RAY TUCKER
FEUDS—President Truman's quiet moves to relieve the food shortages present a refreshing contrast to the bureaucratic bungling which marked the handling of this bread-and-butter problem for the last four critical weeks.

His intervention was accompanied by no miracles. He merely did what the common sense manager of any gigantic grocery store or meat market would do under the same circumstances. He seems to have a knack for that sort of thing. The amazing part is that he learned so quickly what it was necessary to do.

The newspapers have carried the report that he has made War Mobilizer Fred M. Vinson a virtual food czar, but that is only one-tenth of the story. He has ordered his top civilian aide to cut out he bickering and controversies which in the past blocked even an approach to the solution.

The fact is that Fred himself, as well as his predecessor, James F. Byrnes, was partially responsible for the existence of more funds than food. And they, in turn, were reporting to a President who was necessarily concerned with foreign rather than domestic difficulties. Germany was still a threat in those days.

DIFFERENCES—When Mr. Truman investigated, he discovered that there had been constant contention between War Food Administrator Henry F. Jones and Administrator Chester Bowles. Their still unsettled differences over fundamental problems have blocked any improvement.

Whenever the Texan urged higher ceilings or subsidies for the packers and feeders and other handlers of meat, he had to ascertain from OPA whether the proposed increases could be absorbed or whether they would necessitate a boost in retail prices.

Around Hollywood

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD—There seems to be the United Nations security conference at San Francisco, and perhaps you will be interested in part of my purely personal reply: "My Dear LaPorte:

"It's grand to see France back on her feet and playing her part in this historic conference which means so much to humanity. X X X

"What makes me particularly happy, Bernard, is to see President Truman extend, and General De Gaulle accept, an invitation to a conference between these two statesmen. (That meeting is badly needed) for things haven't been as happy as they ought to be between La Belle France and some of her Allies. X X X

"The original differences between General DeGaulle and the Anglo-American team struck me as being partly due to a clash of personalities but very largely to mutual suspicions. Nasty things, suspicions! When I was in London in '42 it was said that some folk were afraid De Gaulle had personal ambitions. And the general for his part was said to have fair grounds for thinking an effort was being made to smother him.

"Out of this has grown 'incidents' and bitterness. I have the feeling that suspicious—most of which have little or no foundation—are the basis for most of the recent difficulties. X X X

"Certainly it would have been well if circumstances had been such that France wouldn't have felt it necessary to take such protective measures as the occupation of Italian territory around Aosta, or the more recent move to maintain prestige in Syria and Lebanon. Mind these developments, but am merely pointing out that it's unfortunate the major Allies had got together so that such unilateral action would not have been considered necessary. X X X

LITON—(AP)—One of Gen. Walter Krueger's strong aversions is against the common misuse of the term "shrapnel" for shell or bomb fragments.

As he stopped at a medical clearing station on a visit to this "Avengers of Bataan" division, the four-star general of the Sixth army was talking to a young soldier how he hurt his wrist.

"I got hit with a piece of shrapnel, sir," replied Pfc. Casimir Krapp of Newark, N. J.

"You mean a shell fragment, don't you?"

"Yes, sir, this was a piece of shrapnel."

"Did you see it? Was it a jagged piece of metal?"

"Yes, sir, the doughboy replied. "Then it was a shell fragment, the general insisted. 'They haven't used shrapnel in 20 years.'"

"No they didn't. Shrapnel are small round pieces of metal. They haven't been used since the first World War. Now what is it you?"

With serious expression, and yielding only under protest, Krueger answered: "A shell fragment, sir, but it sure felt like shrapnel."

Marriage is a serious BUSINESS
By Randolph Ray

Why I Oppose The War Marriage

BEFORE the war marriage is performed, there are four questions which should be considered and answered honestly:

1. Do you really know each other?
2. Have you similar backgrounds and interests?
3. Are you both really in love?
4. Does the girl realize that when her husband returns he may be a stranger to her?

The war marriage is too often regarded as little more than a fleeting gesture of affection for a boy who is leaving to fight for his country. This is very far from being the case. In actual practice, there is nothing fleeting about the war marriage. True, it is growing easier and easier for a man in the armed forces to marry. Many state legislatures have abolished the waiting period between license and ceremony, for the purpose of accommodating the boys and in consideration for their short leaves. But it is almost impossible to divorce a serviceman. The Federal Government, to protect his interests, has decreed that his wife cannot divorce him, whatever the provocation, without his consent. In other words, she is being entered into with so little thought, is the hardest kind of marriage from which to escape.

MARRIAGE is to continue "in sickness and in health." Girls are apt to forget that when they marry impulsively. They are all intelligent enough to know that their husbands may be killed in battle. What they do not consider is that he may be wounded or maimed, that the life they have planned together may be altered beyond all expectation. The wife must understand that, whatever the circumstances, it is her job to remain with her husband.

Of course, this, like so many of the problems of the war marriage, is merely a peacetime problem intensified. There is no such

thing as safety in the modern world. Indeed, there has never been such a thing in human life. But why, then, people ask, do you oppose the war marriage? I oppose the war marriage as a rule—there are always exceptions, of course—because it lacks so many of the requirements of an enduring marriage.

It is performed in haste, often with little knowledge on either side. In peacetime there is a chance for adjustment. In wartime there is little or none. The man is sent away to new lands and new people and new and often overwhelming experiences. The woman remains behind, alone, not sharing those experiences. Instead of a close link being forged between them, a gulf is dug, across which it will take infinite patience and intelligence and good will to build a bridge.

There is also the emotional problem of separation. A girl has been awakened physically by marriage and then is left alone. This is not only a source of unhappiness but frequently a source of danger.

In the last war, a young couple married just before he was shipped to France. He returned, impatient to see his wife, eager to go home and begin at last their life together. The girl met him at the pier but not as he expected. When he took her in his arms, she drew away from him coolly.

"What's the matter?" he asked in surprise.

"I have not been true to you," she said. "I am sorry to let you down like this, but I can't help it. It is impossible for us to go on with our marriage. I want a divorce as soon as possible."

"But you can't do this," he said. "You can't do this." His voice rose. "I'll kill the man!" But he did not kill the other man. The next day he shot and killed himself.

OPA Explains New Gas Rationing Plan

A new plan for issuing farm and other non-highway gasoline rations went into effect today designed to cut down any possible over-usage of non-highway gasoline.

The public is in need of additional information concerning the plan, according to the District office of price administration, which makes the following announcement:

The plan which is being tried nationwide is the result of a test in Lancaster County, Pa., resulting in a reduction in farm and other non-highway issuance of gasoline rations by an estimated 28 percent.

Delivery records must be maintained to account for every non-highway purchase of gasoline with "E" or "R" coupons. Formerly a person was given his individual allotment of "E" (good for one gallon) and "R" (good for five gallons) coupons, and no record was kept of how many of these he used.

In the future a delivery record (Form R-585) will be issued to each non-highway consumer who is issued "E" or "R" coupons. The coupons each consumer receives will be noted on the forms by the local price and rationing board. Each purchase of the consumer pays for with "E" or "R" coupons will be entered on the record by the supplier.

The delivery record will enable the board to tell at a glance how many gallons the consumer has bought during the ration period and how much remains in his ration. If a surplus is outstanding at the end of a ration period it will be deducted from his next issuance.

Before the Revolutionary war, there were 225,000 Germans in America, settled mainly on the frontier.

BONDS KILL JAPS
Approximately 30,000,000 Americans have been injured in home-front accidents since the start of the war.

Texas War Hero Shuns Welcome

SALZBURG, Austria, May 26—(AP)—The young Texas lieutenant who has won every Army medal in the books except the Legion of Merit, has been promised a 30-day leave at home.

He is freckle-faced Lt. Audie L. Murphy, who once lived at Greenville, Texas. His sister lives in Farmersville, Texas.

When Maj. Gen. John "Iron Mike" O'Daniel of the Third division told Murphy he would be welcomed at home as a real hero, Murphy blushed.

"No sir, I'm afraid when I go home I'll have to go in the back door," he replied. "I couldn't go for being treated as a hero."

Murphy and O'Daniel inspected the Congressional Medal, the Texan's latest award, yesterday, but the award ceremony will not come until General Patch, a Seventh army commander, can make the presentation.

Looking at the boyish-looking lieutenant, no one would guess that he broke up a tank and infantry attack almost single-handedly in the Colmar pocket battle to win his country's highest award.

BONDS KILL JAPS
Officer Boy (to waitress)—Whatta ya got with onions 14? I got the afternoon off the last time I ate onions.

Wife—Before we were married you would catch me in your arms. Hubby—Yes, and now I catch you in my pockets.

Girl (when some of the girls in the party were talking about the prevalence of divorce)—After all, what more can you expect with all these inexperienced people going in for marriage?

WHOLE NEW AIR FORCE MUST BE BUILT
Thousands of P-80 jet planes, giant new B-32 bombers that dwarf the Superforts

MORE WAR EQUIPMENT NEEDED

"Hit 'em twice as hard in the mighty 7th..."

"THE BIGGEST, MOST URGENT WAR LOAN OF ALL!"

• "That's what I'm doing . . ."

"Hitting 'em twice as hard—buying twice as many bonds as I ever did before. Uncle Sam has got to raise in *this* war loan just about as much as he did in 2 war loans last year up to this time. That's why the 7th is the biggest and most important of them all."

"And I'm mighty proud—as every farmer ought to be—to have the chance to help!"

"The way I figure it, at this crucial time in the war Uncle Sam is calling on *all* of us to go whole hog—to

produce more food, to build more equipment, to do *all* we can to hit the enemy—**HARD**—without a let-up."

"And, of course, all that takes money. Money for thousands of giant new planes, money for those new concrete-busting tanks—for all the tons of ammunition and supplies our fighting men need to do the job up brown."

"Neighbor, that's where you and I come in."

"We can help in the chore of sending our boys everything they need—help by buying all the bonds we can . . . twice as many as we did last time!"

WAR BONDS PAY OFF IN THESE 7 WAYS . . .

- 1 The same Government security backs your War Bonds as backs the *actual dollars* you put into them.
- 2 You get \$100 at maturity for every \$71 loaned now.
- 3 You can get your money back, 60 days after issue date, any time you need it . . . in the meantime, you get safety and steady growth.
- 4 You have a backlog to renew farm buildings and equipment after the war.
- 5 Bonds will insure your children's schooling, or provide for your own security, travel, retirement.
- 6 Bonds go into a national nest egg that will help to assure post-war prosperity.
- 7 Bonds transform your love of home and country into *action* . . . you join personally in the biggest, most urgent War Loan of all—The Seventh!

Mainly About Pampa and Her Neighbor Towns

Mr. and Mrs. Ergar E. Payne have had as their guests this week Mr. and Mrs. J. Smallwood of Levelland, who were here for a visit and to attend the Junior high school graduation exercises of which Bob Payne was a member.

Have formal steam pressed to bring out the luster and beauty in the charm they possess. — Master Cleaners.

Mr. and Mrs. Angus Oswalt of Dunas, and Mr. and Mrs. Ward Golden of Dimmitt, are spending the weekend in the home of Mr. and Mrs. J. B. Oswalt, and with other relatives here.

Wanted to Buy—A radio and record player combination. PH. 11743.

Mrs. Webster Johnson and children are spending the weekend in Breckenridge visiting with relatives, and they will also visit with their husband and father, Pvt. Webster Johnson, at Fort Sill, Okla., after returning to Pampa.

Let us check over your bicycle while we have parts. Roy and Bob Blike Shop. — 414 W. Browning.

Mrs. Seel Shields of Miami was a visitor in Pampa recently.

Clayton Floral Co., 410 E. Foster have the best plants they have ever grown. Cabbage, tomato and pepper plants.

Pvt. Frank Yates, son of Mr. and Mrs. Frank Yates, arrived Monday to spend a furlough in the home of his parents, while enroute from Florida where he has been stationed, to Lowry field, Colo.

Cook Wanted at Schneider hotel.

Apply in person.

Mrs. W. C. Sullivan and daughter, Mary Lou, of Freedom, Okla., are visiting friends here and in Miami.

For Sale—Full size maple bed and Sealey mattress. — 529 N. Hobart. Home 319.

Boy Hayes moved with his family to Pampa from Miami this week to make their home, while Mr. Hayes is employed at the Pampa army air field.

Mrs. Roy W. Reeder will present her pupils in piano and voice at the Church of the Brethren Wednesday evening at 8 o'clock. Public cordially invited.

Mr. and Mrs. H. H. Greenhouse of Wheeler have purchased a house here and will move this week to make this their home.

Mr. Yates gives only permanents that "take" in your hair.

Mrs. H. G. Holcomb and Mr. and Mrs. John Mackie were recent guests in the J. Y. Wright home in Mobeetle.

Mr. and Mrs. W. B. Thomas, of Wheeler, were recent visitors in Pampa.

Mr. and Mrs. Pierce Walker, Jimmy and Alene, were visitors in Pampa one day this week. Their home is in Wheeler.

Mr. and Mrs. M. J. Harris are the parents of a daughter who arrived Wednesday, May 23.

Mr. and Mrs. Travis Williams and daughter were recent visitors in Spearman.

Mr. and Mrs. E. J. Barrett and daughter, Mrs. F. Johnson and baby, were in Spearman on business recently.

Mr. and Mrs. J. R. Harrison and children were recent visitors in Kellerville.

NEWS OF OUR MEN AND WOMEN IN UNIFORM

J. Q. RUSSELL

Staff Sgt. J. Q. Russell, son of Mr. and Mrs. A. Russell, 121 N. Gray, is a member of the famous 104th "Timberwolf" Infantry division that, in the words of Gen. G. C. Simonds, commanding the Canadian First Army "all hell cannot stop."

Up until April 23, 1945, the division had completed six months of continuous combat against the enemy in Germany.

Capt. Clarence Cunningham, son of Mr. and Mrs. W. L. Cunningham of Panhandle, is now stationed with an anti-aircraft unit in Panama.

Captain Cunningham, a 1938 graduate of Pampa high school, graduated at Texas A. and M. college in 1942.

A brother, Pfc. Charles Cunningham, is now in Italy. Charles also finished at Pampa high school and attended Texas A. and M. for two years before entering the army.

Major George Vaughn, son of Hal Vaughn of Shamrock, is director of flight training at the base unit of the North African division, air transport command.

Major Vaughn is the holder of the Air Medal and has served as a pilot in the army since shortly after the United States entered the war.

Pvt. Elbert O. Caswell was recently at home in Pampa on a 21 day furlough after spending 39 months overseas. He has reported at the army ground and services forces redistribution station at Hot Springs, Arkansas.

Now actively participating in the war against the Japs, Sgt. Isham B. Lister, husband of Mrs. Layma Lister, 445 Hill St., is head of a mobile maintenance crew of the 7th air force in the Palau.

Sgt. Lister was graduated from Hutto, Texas, high school in 1923. His mother, Mrs. W. D. Holman, lives in Hutto.

Service Bonus

(Continued from page one)

maximum payment of \$5,000 to overseas veterans and \$4,000 to home-service men.

He insisted that his measure was not a bonus bill but a plan to give veterans a readjustment fund.

It provides for payments of \$40 every two weeks for 52 weeks, or a total of \$1,040.

The G. I. bill of rights provides similar compensation for unemployed veterans, but Rankin's bill would make the money available regardless of whether a veteran is employed. Should a veteran be unemployed, the \$20 weekly provided in the G. I. bill would be in addition to the \$20 readjustment pay.

Under the Rankin measure every eligible person would receive the same amount, regardless of how long or short he served.

In that respect it differs from the ways and means committee measure, introduced by Representative Lesinski (D-Mich).

Lesinski's bill calls for a bonus of \$3 for each day of domestic service and \$4 for each day of foreign duty, with a limit of \$4,500 for overseas veterans and \$3,500 for those who did not leave this country.

In each case, the maximum would be increased by \$500 if the veteran received a wound chevron or decoration, such as the purple heart.

The total cost of Rankin's measure has been estimated at approximately \$12,000,000,000 and of Lesinski's at around \$20,000,000,000.

Congressional backers of a senator, voted for the bonus bill and helped override a veto.

Reconversion

(Continued from Page One)

formance and low loss rate of the B-29 Superfortresses which — according to Tokyo radio — "literally scorched to the ground" at the seat of the Japanese government in yesterday's pre-dawn raid.

Second, the advancement of American bases so close to Japan that the use of smaller bombers may be feasible.

Third, an army air forces decision to rely mainly on the proven B-29 and build only enough of the almost-secret consolidated B-32s to keep the plane in development and to train crews, against the possibility that they may be needed later in larger quantities.

The B-32 is to be closed out at the end of the year, barring a change of plans caused by fierce or prolonged Japanese resistance. B-29 production will rise until July and then be leveled off at a rate only more or less per month than originally planned.

The other major surprise in the cutback—the decision to make fewer of the new jet propelled P-80 fighters than previously scheduled — was laid directly to the ending of the European war.

Memorial Services To Be Offered Here

Gray county will pay tribute to its war dead in special Memorial Day services this afternoon at 2:30 at Fairview cemetery, according to Paul Hill, American Legion post chaplain.

Dr. Douglas Nelson, pastor of the First Presbyterian church, will be the principal speaker.

A unit of aviation cadets from Pampa army air field will take part in a parade starting at the high school with representatives of the Texas State Guard, the American Legion and the Veterans of Foreign Wars.

The major part of the program will take place at the north end of the cemetery where the Rev. Father William Stack, pastor of the Holy Souls Catholic church will give the invocation.

Also taking part in the program will be Captain Howard Long, Pampa army air field Protestant chaplain, the Rev. E. B. Bowen, pastor of the First Methodist church and the Rev. E. Douglas Carver, pastor of the First Baptist church.

A bugle corps from the Pampa high school band will play taps at the close of the ceremonies.

Long War

(Continued from Page One)

000 tons of Japanese shipping remaining in the reduced area of operations, the report went on.

Food scarcity will not shorten Japanese ability to resist, FEBA said, although the rice of Burma, now occupied largely by the Allies, Thailand and Indo-China is denied the Japanese.

"This will increase the difficulties of the present; short food supply in Japan, but will not seriously interfere with the war effort and will not result in starvation in the inner zone."

"Practically the whole of the processing capacity of the Japanese empire, as well as adequate supplies of raw materials, lies in the inner areas. It is true that in terms of individual industrial centers and plants bomb damage has been devastating, and many square miles of such cities as Tokyo, Nagoya, Osaka and Kobe, have been laid waste. X X X

"To meet this threat from the air, however, Japanese war leaders long ago placed in operation an extensive dispersal program. Plants have been established in scheduled localities and in some areas protected by ravines and hills, and widely dispersed industries have been developed in Korea, Manchuria and China.

Inequity

(Continued from page one)

Committee Chairman E. J. Dunigan, Jr.

Rep. Worley was urged to "immediately make every possible effort to cause this situation to be corrected."

"There is no waste of gas in the 18th congressional district," the message declared. "This ceiling price (12 cents per MCF at the well) would only allow the land owners 15/100ths of one cent royalty maximum. On the other hand, we are informed that OPA has approved a price of 4.6 cents for gas for carbon black in our neighboring state of New Mexico. This is generally inferior waste gas that is now being flared, and they did not exercise their claimed directive powers to force the sale of that gas at a ceiling price of 1.2 cents at the well. To the north of us in Kansas, gas is being sold for carbon black for 4 cents per MCF at the well without any such claimed and threatened directive and immediately across our state line in the Panhandle of Oklahoma, from possibly the same gas field as ours, the OPA has approved a price of 5 cents per MCF at the well for gas for carbon black."

Later, the company was reinforced and beat off the German attack.

Lopez, a native of Mission, Texas, previously had received the Bronze Star medal for gallantry and the Purple Heart for wounds.

His wife, Emilia, and a six-year-old stepson, Juan, live in Brownsville.

Abbreviations of both single words and phrases, were common in ancient writings and inscriptions.

Medal of Honor

(Continued from Page One)

A German tank pulled up 50 yards from him, swung its 88 mm gun on him, and planted a shell almost on top of his position. He was blown backward, dazed but unhurt. Staggering back to his gun, he set it up and continued riddling the German line.

Ammunition bearers, unable to penetrate the curtain of fire around him, had been losing him boxes of ammunition. Finally, however, they were unable to reach him and, with his gun empty, he was forced to drop back to the remainder of his company.

Legislature May Close This Week

By DAVE CHEAVENS

AUSTIN, May 26—(P)—The 49th legislature could close its books and go home, this week, but whether it will or not depends partly on the house's inclination, and on a number of mechanical barriers.

As of this day, the house's inclination to stay in Austin beyond the 120 days constitutionally suggested as the time for a general session has been repeatedly demonstrated. It has rejected numerous attempts to set the date for adjournment. The latest rejected date was May 31.

Price Control

(Continued from Page One)

of one proposed major amendment, indicated to reporters that he would be agreeable to a short term extension.

Taft said he thought more study should be given to pricing policies in the reconversion period. His amendment would continue the price law without change until the end of the year, but direct an easing of price ceilings after Jan. 1 to allow profit margins equivalent to the average of 1938, 1939 and 1940.

The O'Neil controls that if price controls are kept tight after reconversion begins the effect will be to deter start of new businesses.

Price Administrator Chester Bowles was asked to appear before the banking committee Tuesday for a discussion, among other matters, of Taft's amendment. Stabilization Director William H. Davis also was asked to appear.

Pacific War

(Continued from Page One)

Just what happened to the imperial palace proper was not made clear. Japanese Premier Kantaro Suzuki was quoted three different ways—first, that the imperial palace was destroyed; second that it was burned; third that it was damaged.

An imperial communique mentioned only "considerable damages" in the city and claimed 47 of the Superforts were shot down. U. S. official reports said 12 were lost Thursday and 19 Saturday, the latter figures representing the heaviest loss yet for a single B-29 mission.

One Tokyo broadcaster said the greater part of the city was "laid waste" as 70-mile-an-hour winds fanned big fires. This raid, he declared, also fanned Japanese hostility toward America.

Meanwhile Washington congressional and other quarters warned Japan of bigger air raids to come. The army said B-29 output would be increased during the next few months.

Reporting from the Philippines today (Sun Philippine time) Gen. Douglas MacArthur said the 24th division had flanked the Japanese in the bloody sector north of Baletta pass, gateway to Luzon's rich northeast Cagayan valley. On Mindanao the Yanks shoved the Japanese deeper into the hills.

American fliers hit heavily in the Cagayan valley and against shipping along the Asiatic coast and in East Indies waters. A total of 28 freighters and some smaller ships were sunk and others damaged.

The Chinese high command reported that both sides sustained heavy casualties in the fight for Tsoochwang, Hunan province—highway town 25 miles west of Shaoyang.

Rate Equalization Called 'Only a Crumb'

AUSTIN, May 26—(P)—Dr. John H. Frederick, university of Texas transportation professor said today that the "new equalization of freight rates for Texas and the southwest recently ordered by the interstate commerce commission are actually only a crumb."

"Only about 10 per cent of the freight shipped to and out of Texas will be affected by the new ruling," said Dr. Frederick, "and it will take at least 10 years to put the new classification changes into effect."

L. Allam, H. H. Keith, Johnny Hinkle and B. B. Robertson.

Steam Revives 'Wilted' Posies

JANE WYATT Careful

Despite their fragile look, hats done up in flowers, starched veiling, loopy bows and ribbon streamers will do yeoman service to make you look pretty, if you'll give your bonnet the care it requires.

Neglect it, warns Broadway's "Hope for the Best" Star Jane Wyatt—she knows from experience what can happen—and it will look as woebegone as yesterday's corsage.

Care, she says, means giving your hat a home in a box roomy enough for a veil to stretch out. Under and around the flowers Jane inserts tissue paper to keep petals and leaves from curling.

If blossoms curl, in spite of such care, a little fingerwork used on petals held at a safe distance from a steaming kettle will coax out the kinks, according to Jane. To un-ripple and re-stiffen a veil she presses it over waxed paper with a warm iron.

Girl Scouts

That the camping season at Camp Sullivan Girl Scout camp has begun can be seen by the preparation made by the various Girl Scout troops for camping.

Troop 8 under the direction of Mrs. B. A. Sumner was the first intermediate troop to go to the camp this season. This group of 14 girls went to the camp Friday afternoon and will return on Sunday afternoon. The plans of the group included hikes, outdoor cooking, games, exploring, campfire, and a "Scouts Own" for Sunday morning.

The girls and leaders enjoying this troop camp are: Mava Jo Blacklock, Joyce Ann Coffee, Juanita Cox, Shirley Culwell, Melva Jean Griffin, Ann Berry, Carolyn Grandger, Virginia Jones, Mary Jean Kuehl, Frances Reed, Betty Lou Simonton, Nancy Sumner, Pamela Thornton, Donald Ruth Perrin, Mrs. Don Perrin and Mrs. K. E. Thornton.

Brownies of Troop 16 honored their leader, Mrs. J. M. Fitzgerald, with a party recently and presented her with a serving tray to express their appreciation for her leadership. Mrs. Fitzgerald has been the leader of their troop since its organization four years ago.

Refreshments of brownies and cold drinks were served.

The Girl Scout leaders who have completed the out-door training course will leave Sunday afternoon for Camp Sullivan where they will camp until Monday afternoon.

Maize Stedje, executive secretary, will be in charge of this group of campers. Before a leader can be qualified to take a Girl Scout troop to the camp she must satisfactorily complete such an out-door training course. Each leader is planning to go to this overnight camp.

Thirteen girls in Brownie Troop 16 under the leadership of Mrs. J. M. Fitzgerald took part in a Brownie Fly-up ceremony on Thursday afternoon at the City park. These girls, most of whom have been Brownies for several years, were presented "Brownie Wings" for their Fly-up into the Girl Scout program.

Mrs. Fitzgerald presented the wings, and Mrs. E. N. Davis accepted the girls as Girl Scouts and awarded them their Girl Scout pins after they had given their Girl Scout promise and laws.

The following girls took part in the ceremony: JoAnn Anderson, Shirley Bird, Patsy Chervenka, Sallie Cobb, Jan Davis, Elissa Ellis, Marilyn Fitzgerald, June Guill, Marlene Leder, Catherine Mathieu, Carol Ann, McClelland, Lara Whipple, and Helen Kay Wilson.

Barbara Barnes, who had not been a Brownie long enough to fly-up was invested as a Girl Scout in a ceremony preceding the "Fly-up."

We, the Women

By RUTH MILLETT

She received word a few months ago that her husband had been killed in action.

She took the news with her chin up, determined to go about the business of living as normally as she could.

Now "they are saying" that she took the news of her husband's death too well. That, after all, she seems so little changed, so she couldn't have loved him very much.

Why do people praise the courage of men in battle and then turn around and condemn the young widows who are trying to face life with the same kind of courage?

Why do people want to see these young widows of servicemen make a show of their broken hearts?

Why expect a girl who has, perhaps, known only a few months of married life, followed by a year or two of separation, to sit back and mourn her husband's death for years?

LIFE IS BEFORE HER
After all, these women are young. And if some of them can adjust easily to the tragedy of being widowed, that is a great blessing. A girl of twenty or twenty-five has

Critical Injury Results in Wreck

SHAMROCK, May 27—Four persons were injured, one of them critically, last Tuesday night, when a west-bound Greyhound bus crashed into a car about 1 1/2 miles east of McLean.

The injured, all residents of McLean, are in St. Mary's hospital, and the condition of Mrs. Thurman Graham was reported as still critical. Mrs. Graham is suffering from fractures of the skull, pelvis and vertebrae. Her daughter, Sandra Kay 6, received a fractured collar bone, a deep laceration and a slight brain concussion.

Donna Sue, 9 months old daughter of Mrs. Graham received minor bruises and Mrs. Eva Vincent suffered a fracture.

The car was completely demolished while the only damage to the bus was a hole in the radiator. None of the bus passengers were injured.

Pampa High Graduate Tells of Atrocities

TEMPLE, May 27—(AP)—Fvt. Delbert L. Meek, of Waxahachie, Texas, one of the prisoners marched across Germany by the nazis in February and March, has arrived at McCloskey general hospital here "feeling fine."

"The Texas was liberated in April by the British Seventh army after 'six months of hell' in the hands of the Germans."

"I had a hard time convincing my mother over the telephone that I

was not in the same condition as the German war prisoners whose pictures appeared in the newspapers and magazines recently," Meek says.

"The stories and pictures of German atrocities have not been exaggerated and we who were held as prisoners of war saw more than the newspaper men," he states.

The former Baylor university student served as a refilman with the 29th division and was on com-

bat patrol when he was captured by the Germans. He is a graduate of the Pampa, Texas, high school, and a son of Mr. and Mrs. A. L. Meek of Waxahachie.

Meek's patrol was sent in to take a small town and was not expecting to find a company of German soldiers. Greatly outnumbered, the little group of Americans fought the Jerry's for six or seven hours before they were killed or taken prisoner.

The last man to be captured, Meek was pinned down by machine gun fire when two Jerry's came up behind him and pointed a rifle at his head.

He says American soldiers were forced to clear out the dead and clean up the town before they were moved to a castle 60 miles back. After three or four weeks at the castle, the Americans were moved to Stalag 11B where Meek says they "darn near starved to death."

Meek says they were given a seventh of a loaf of bread and a small bowl of watery soup every 24 hours. Wooden bunks with a narrow strip of material made of pressed wood for a cover composed their sleeping quarters in the prison compound.

Later moved to Stalag 2B, north of Berlin, he was soon placed on a work detail and placed on a large farm.

"The German population is Nazi through and through and the people did not want to fall in the hands of the Russians. From last December until the end of the war in Europe, the roads were lined with covered wagons the Germans accumulated and were moving toward the western front to meet the British and American armies.

After two months on the farm, the Germans put the war prisoners on the march. They marched from February 18 to about April 1, a distance of over 500 miles. They slept in large barns at night, or in the open.

The long march ended at Stalag 11B again at Hannover, Germany. There conditions were a lot worse, Meek says. Men were sleeping any place they could find to lie down. One water tap served several thousand people and the water was turned on twice a day.

Meek has been in the army since December, 1942. He received his basic training at Camp Maxey and went overseas in August, 1944. He saw his first action at Aachen, Germany.

Appreciation of the people of Britain for the sympathy and support they have received from America is unbonded.

—Clark H. Minor, President, British War Relief Society.

Opposition Is Voiced to G.I. Bill of Rights

Forecasting that a storm of protest will rise against the G. I. bill of rights, which has been publicized as a program of "sheer generosity," Hyle Crichton, associate editor of Collier's, declares in a signed article in the current issue of the national weekly that the bill's loan provisions are practically worthless to the veteran service man.

After pointing out that only nine loans had been granted, up to last February 15 to the million and a half veterans already eligible for loan's guaranteed up to \$2,000 under the provisions of the G. I. bill, Crichton charges that the bill's loan provisions have been "cleverly hedged." With restrictions, so that what looks like a good chance for the veteran is no chance at all.

In explaining the loan provisions of the bill of rights, Crichton points out that a veteran must first apply to the veterans administration for a certificate of eligibility for a loan, then find a lender, and then "fill out a form slightly more than a yard long, with questions printed on both sides." These are submitted to the veterans administration and then a reviewing agency.

"Thus a veteran with a good fighting record on Saipan or the Rhine may find that his bad credit record at home may prevent his loan request from even being submitted to the veterans administration for guarantee," Crichton says.

"The veteran who has no previous business experience is in no better shape. Unless he can prove by weight of character or salesmanship that he is a good risk, he will not find a lender, and without a lender, he can't even bother the veterans administration with his problems."

"What good is the G. I. bill on loans, anyhow?" Crichton quotes veterans as asking. "Unless we can

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unguainly weight and help bring back siluring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Amazing Pep For Men 40, 60 or More

If life apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is an inexpensive method that may change your whole outlook on life. Just ask your druggist for Casella stimulating tablets (either 48 or 200, the 200 size costs much less per dose). Take as directed on label and feel the thrill of living again. Don't feel old and worn out at 40, 60 or more. Take these tablets regularly until you feel that you have regained the pleasure of living you once enjoyed. Why be discouraged? Why not try Casella tablets and regain the verve and zest of a much younger man? Women too, will find Casella tablets beneficial.

STOP!

"Home Remedies" For Cleaning Modern Fabrics Dangerous-Impractical

Some of the ways Grandma used to do things definitely isn't to be recommended. In fact, the National Association of Dyers and Cleaners—whose business it is to know—regards many with horror.

Quite a good deal of spotting can be done at home, the balance being far better left to professionals. To help you distinguish, here are a few "time-worn" hints to be on guard against:

CLEANING WOOLENS WITH GLUE IN WATER—Cleaners will tell you glue has no cleansing properties at all. If any soil were removed from the garments, it could be attributed only to the water. Furthermore, there are glues and GLUES. While some might not be actually harmful—though of little aid—employing "airplane glue" on a fabric which contained some acetate rayon would cause severe damage!

CLEANSING NECKLINES WITH COFFEE—Again, any possible cleansing action would be solely from the water. The coffee would cause a stain which might not be very visible on a dark dress but would certainly appear very prominently on a lighter one. Professional cleaners brush necklines with cleansing solvent and other aids before treating the garment for general soil removal.

EMPLOYING SWEET OR SOUR MILK TO REMOVE INK SPOTS—This is one of the best-known of the "old remedies" and it is probably based on the fact that milk contains traces of lactic acid—which is effective in removing some inks—as it turns sour. However, the amount of lactic acid in milk is too small to have much effect while the milk itself may, in the long run, be considerably harder to remove than the original ink stains. Milk should never be used on ANY fabric. Many modern fabrics are treated with synthetic sizings which react with the albumen in the milk to cause a permanent stain. Besides this danger, there are innumerable types of ink in use and both the fabric and the dye have to be considered, as well as the stain. Professional spotters use lubricants to remove as much of the loose ink as possible, followed by other agents to work on the tannic acid and other chemicals in the ink stain.

REMOVING GRASS STAINS BY RUBBING WITH LARD OR WITH MOLASSES, FOLLOWED BY WASHING—This is one quoted from a housewife's "aid book." The lard might have a slight action on the grass stain, though it would hardly remove all of it. The only possible result of using molasses would be in connection with the rubbing required to remove it, which might rise out some of the stain at the same time. However, when it comes to WASHING a fabric, there is always the question as to whether the dye and the fabric will stand it. Professional cleaners use one agent to dissolve part of the green coloring matter of the grass and a different agent to dissolve the rest, followed by a lubricating agent to work on the balance of the stain and flush it out. The specific agents employed at all times depend upon the nature of both the dye and the fabric.

Thousands of beautiful and expensive garments are ruined annually, because some one "told me they took it out" with so and so!

Many want the cleaners to correct the damage after home remedies have failed. This can't always be done.

Always trust your garment with a cleaner who has made a scientific study of thousands of stains and who knows how far to go—working with nationally known spotting solutions, prepared in scientific laboratories by nationally known firms. Your cleaner knows when to STOP!

Seventeen Crude Oil Pools Get O.P.A. Increase

Increases ranging from 7 to 35 cents a barrel have been granted in the ceiling prices for 17 crude oil pools, located in the four states in the Dallas region, the Office of Price Administration announced today.

The increases, effective as of May 1, 1945, are granted under the stripper well premium plan, which provides that first purchasers of the oil will be compensated by the government for the exact amount of the increases. Thus, the increases will not be passed on to consumers in the form of higher prices for petroleum products. The premium plan, which has been in effect since August 1, 1944, is designed to encourage greater oil production.

The Moore pool was granted an increase of 10 cents per barrel. Other Texas pools granted increases are Parker, Saylor, and Welch. Pools in Kansas, Louisiana, and Oklahoma also received increases.

Increases were granted in nine of the pools because of the average daily well production in either December, 1943, or the year preceding application was shown to have been less than nine barrels. Increases were allowed in seven of the pools because of high cost factors. The Moore pool in Texas, the only one previously receiving an increase, has been given a revised increase of 35 cents, compared with a former increase of 25 cents, now having been shown to qualify for the larger amount.

BONDS KILL JAPS
RUNNING TOUR
David W. Harris, Shreveport, La., has been named president of Universal Oil Products Co., Chicago, succeeding Thomas W. Bowser, New York, who becomes board chairman; Harris was with the oil trust at Bartlesville, served on the board of the Mid-Continent Oil and Gas association.

Jack Kessler has resigned from the land department of British American Oil Producing, to rejoin Rinehart's Oil Reports at Tulsa, a 64 B-2.

News of Interest To Oil Men

Oil Operators File 13 Intentions To Drill With Railroad Commission

Panhandle operators filed 13 intentions to drill with the Texas railroad commission during the past week.

Sherman and Hutchinson counties led with four each while Hansford county had three. Gray and Moore counties had one each.

The following notices of intention to drill were filed:

Gray County
Phillips Pet. Co., Reiser No. 3, H&GN survey, 331' from north-330' from east lines of NW_{1/4}, Sec. 6, Bk. 2-1.

Hansford County
Phillips Pet. Co., Darst No. 1, CH&H survey, 2531' from north and 2534' from east lines Sec. 291, Bk. 2.

Phillips Pet. Co., Harvey No. 1, HG&H survey, 2536' from north, 2534' from west lines of Sec. 280, Bk. 2.

Phillips Pet. Co., Minda No. 1, H&GN survey, 2532' from south, 2517' from west lines of Sec. 28, Bk. P.

Hutchinson County
J. M. Huber Corp., Herring No. 12, Wm. Archer survey, 1320' from east, 1320' from south lines Archer county.

J. M. Huber Corp., Herring No. 13, Wm. Cole survey, 1320' from north, 1320' from east lines of Cole survey.

J. M. Huber Corp., Herring No. 14, Wm. Cole survey, 1320' from north, 1320' from east lines of Cole survey.

J. M. Huber Corp., Texas-Herring No. 2, H&GN survey, 1200' from north, 3555' from west lines of Sec. 8, Bk. J.

Moore County
Texas Natural Gas, Coon-Seed No. 12M, T&NO survey, 2648' from north, 2640' from east lines of Sec. 6, Bk. 6-T.

Sherman County
Phillips Pet. Co., Cindy No. 1, GH&H survey, 2534' from north, 2548' from east lines Sec. 51, Bk. 1-C.

Phillips Pet. Co., Witter No. 4, GH&H survey, 2534' from north, 2527' from east lines Sec. 20, Bk. 1-C.

Phillips Pet. Co., Witter No. 5, GH&H survey, 2533' from north, 2542' from east lines Sec. 41, Bk. 1-C.

Shamrock Oil and Gas, Flores No. 2, T&NO survey, 1320' from north, 1320' from west lines of Sec. 89, Bk. 3-T.

Gas Wells Tested
Gray County—Phillips Pet. Co., Geniry No. 1, 9,000 potential. Moore County—Canadian River Gas Co., Sneed lease, No. B-2, 19,200 potential.

Oil Wells Tested
King County—The Ohio Oil Co., position he left to join B-A about a year ago.

Foster Estes and V. B. Likins, owners of the L & B Reseving Co., (reseiving of tool joints) have opened a shop and warehouse at 1235 SE 29 street.

U. S. Production Of Crude Oil Is Breaking Records

HOUSTON, May 26—(AP)—United States production of crude petroleum again broke all previous records in the week ended May 26, having averaged 4,972,465 barrels daily, reports to the Oil Weekly revealed. Output has climbed gradually higher each week recently, going each week into new high ground. However, a leveling out of production is indicated for June, under the lately announced schedule of the petroleum administration of war for the coming month.

The new production rate was approximately 3,000 barrels a day higher than that of the previous week, and reflected small increases in Illinois, Kansas and Montana, which more than compensated for 5,000-barrel declines in California and Michigan. Other states showed little or no change from the previous week.

BONDS KILL JAPS
GEOLOGISTS
Ralph Filmore, geologist with Anderson-Pritchard Oil was elected president of the Oklahoma City Geological society for the 1945-46 term at the annual election of officers Thursday; he succeeded E. G. Dahlgren, of the interstate oil company commission.

Roy McAninch, district geologist for Stanolind was re-elected vice-president; he served several months to fill the unexpired term of Theo. A. Glass.

Carl Moore, Carter Oil Co., was elected secretary-treasurer, succeeding C. E. "Mike" Hamilton. (Committee appointments will be made during the next couple of weeks.)

BONDS KILL JAPS
THREE IN A ROW
Ever so often an important wildcat gets a show of oil to cause a flurry of trading in some Oklahoma area; within the next day or two a couple more wildcats get "hot." (That's in the record, boys.)

Tuesday night it was the Cities Service Oil et al. No. 1 Lawson, in southern McClain county; Wednesday it was the Superior Oil et al. No. 1 Manning in Major county, and Thursday morning it was the Stanolind et al. No. 1 Bednar in Oklahoma county.

Best looking of the trio and less exciting was the Stanolind well, which was drilled "wide open" with all the facts, figures and frills on top of the table. The other two wells are considered "tight holes" with only drilling depth released.

Tom Clark, New Attorney General, Has Varied Life

WASHINGTON, May 27—(AP)—Tom C. Clark, 45-year-old Texan named by President Truman to succeed Francis Biddle as attorney general, is a soft-spoken prosecutor whose legal activities have taken him from one end of America to the other.

Schooled under trust - Buster Thurman Arnold, now an appellate court judge, tall graying Tom Clark was active in much of the anti-trust litigation which went on during Arnold's term as assistant attorney general in charge of the justice department's anti-trust division.

As criminal division chief he was in charge of the government's side of the mass sedition trial, although the actual court work was carried on by O. John Rogge, special government prosecutor, and his staff.

Later, along with his assistant, James M. McInerney, he joined with the army commission in prosecuting Erich Gimpel and William C. Colepaugh, charged in a court martial with being German secret agents who were landed on the Maine coast from a submarine. Gimpel and Colepaugh have been sentenced to be hanged.

After receiving his law degree from the University of Texas in 1922 Clark entered private practice with his father and brother. In 1927 he was named civil district attorney for Dallas county, Texas, and occupied that position until 1932, when he was named master in chancery in the Joiner oil litigation cases affecting title to the East Texas oil fields.

Shamrock Men Are Freed From Camps

SHAMROCK, May 27—Three Shamrock boys have been liberated from German prisoner of war camps.

Those released from Nazi internment camps are: S/Sgt. Chester Beasley, husband of Mrs. Ima Lee Beasley; Sgt. Tysan R. (Dink) Hill, husband of Mrs. Annie May Hill; and Pvt. Edward H. McMillin whose wife resides northwest of Twitty.

Two of these men, Beasley and Hill, had been interned in the German camps almost two years.

S/Sgt. Beasley, a tall gunner on a B-17 Flying Fortress, was shot down August 17, 1943, while on a bombing mission over Germany. It was confirmed that he was a prisoner of war in Germany August 30.

Sgt. Hill had been a prisoner since July 10, 1943 when he was captured during the 45th Infantry Division invasion Sicily.

TIGHT HOLES
A brass collar representative of one of the companies interested in the Lawson wildcat in southern McClain county called at a very late hour Wednesday night to protest against stories printed in The Oklahoman and Times about a test on that well.

He didn't like what was said about the well, but refused to confirm or deny anything in the news stories; he charged the "unwar-

ranted publicity" was "detrimental to my company."

Our reply: If you and your company refuse to divulge the information, or to tell the truth about your operations, then the blame is on your shoulders for newspapers sure as hell are going to print what they believe to be the truth or what they have reasons to believe is correct.

West Virginia Joins Interstate Compact
TOPEKA, Kas., May 26—(AP)—Gov. Andrew Schoepel of Kansas, chairman of the interstate oil compact commission, said today he had been advised that West Virginia had joined states in the compact.

He said that the secretary of the commission at Oklahoma City had informed him West Virginia had signed necessary papers to become a member.

Other members are Arkansas, Louisiana, Colorado, Oklahoma, Kansas, Texas, New York, Pennsylvania, Ohio, Kentucky, Michigan, New Mexico, Illinois and Montana.

The next quarterly meeting of the commission will be held in Oklahoma City June 4-16.

PAW CHANGES
Two Oklahomans are coming home after serving creditably in the materials division of the PAW at Washington, while another Oklahoma moves into a top position.

Claude P. Parsons, vice-president of Halliburton Oil Well Cementing at Duncan, has resigned as director of the materials division, after a six-months' tenure in that office. He is succeeded by E. E. Robbins, Tulsa, who has been a special representative of the United States Steel Export Co. for about two years; he also has some PAW and WPB experience to his credit.

David L. Trax, assistant to Parsons, has returned to the Gulf Oil Corp. at Tulsa; he joined PAW in August, 1943, as a special assistant. He is succeeded at PAW by William Howard Collins, who has been with PAW in various jobs since Oct. 19, 1942.

NAVY RECRUITING HEAD LEAVES FOR PORTLAND
Lt. Comdr. Frank P. Adam, who has headed navy recruiting for Oklahoma since April 1, 1942, left Thursday night to fill a similar post in Portland, Ore. His successor, Lt. Comdr. Roger B. Trick, officer in charge of the navy recruiting station, Phoenix, Ariz., arrived in Oklahoma City late Thursday night.

Adam came to the Oklahoma City main station in March, 1942, and took over the officership April 1, replacing Lt. Comdr. Otis Howard. In civilian life, Adam was an official with the Ford Motor Co. here.

CHICAGO GRAIN
CHICAGO, May 26—(AP)—Week-end profit cashing stalled grain markets for a time today but the offerings were absorbed quickly and prices turned strong. July rye selling at a new seasonal high and wheat gaining nearly two cents a bushel. Mill buying, the strong demand for cash grain, and indications ceiling prices for wheat may soon be raised three or four cents a bushel were fractions influencing the trade. A Washington dispatch to a business publication declared ceiling prices for wheat probably will be raised three to four cents a bushel shortly after June 1, following announcement of the 1945 government loan rates. The higher ceilings, the report said, "would be recognition of the fact that parity for wheat has advanced three cents or more above the \$1.50 parity figure of May 15, 1944." Trade sources said it was generally believed that the new loan rate would be \$1.55 a bushel. Delay in determining the figure was attributed to a desire to base the rate on May parity which is yet to be announced. Should the parity figure advance even slightly, they added, it would call for a loan rate of \$1.59 a bushel in order to comply with the requirement that the support loan price must reflect 90 per cent of parity. At the finish wheat was 1/2 to 1 1/2¢ higher than yesterday's close, July \$1.66 1/2-1/2. Corn was up 1/2 to 3/4¢, July \$1.15 1/2-1/2. Oats were 1/2 to 1 1/4¢ higher, July 69¢-62. Rye was 1 to 2¢ higher, July \$1.40 1/2-1/2. Barley was up 1/2 to 3/4¢, July \$1.05 1/2-1/2.

BONDS KILL JAPS
Girls at Shamrock Competing in Contest
SHAMROCK, May 22—War bonds totaling \$225 will be awarded the three young ladies of Shamrock and vicinity selling the largest number of "E" bonds during a contest starting Tuesday, May 29, and closing June 7. Quota for this territory in the 7th War Loan, which closes June 30, is \$186,560, of which approximately two-thirds is E bonds.

BONDS KILL JAPS
Trailer Will Be Prize At Midland's Rodeo
MIDLAND, May 27—A \$500 Hobbs trailer will be the top prize in the cowgirl sponsor contest in connection with the world championship rodeo here June 7, 8, 9 and 10. Roy Parks, president of Midland Fair, Inc., announced. Only six girls will be eligible to compete for the trailer. They will be the winners of the first six prizes in the regular cowgirl sponsor contest.
