TAKE PART IN CANCER MEETING — These four are among cancer control leaders from 20 Texas Panhandle counties attending the annual business and planning meeting today of the American Cancer Society's District 3-N. Standing around Mrs. E. McNitt, Pampa, are (l. to r.) Leonard M. Gunderson, Amarillo, district layman; Gertrude Linn, Austin; and Dr. M. C. Overton Jr., Pampa. On the table is a sash, symbol of the society. The day long program at the Pampa County Club is stressing ways in which local cancer committees can do more effective jobs of public education and service to patients to meet the challenge of the disease which has become the country's Number Two Killer. Besides Dr. Overton, Gray County is being represented by Dr. Emily Hicks, Pampa. (News Photo)

Iran Breaks Diplomatic Ties With Britain In Oil Dispute

TEHRAN, Iran (AP) — Premier Mohammed Mossadeq today broadcast to the nation an announcement that his government is "unfortunately forced to break diplomatic relations with Britain."

The message, originally intended for the Majlis (Parliament) but not read because a quorum did not attend, said the reason for the step was that "the British government has so far prevented our reaching an agreement" on the oil dispute.

Mossadeq told the people that Tuesday the British indicated they were breaking diplomatic relations with Iran on the ground that they would not mean breaking "the oil concession agreement and bonds of friendship" between the two nations, "because the Iranian people always has looked with respect to the British nation, and in consultations last night, and hopes that the authorities of the British government also will give more attention to the realities of the present world situation and the awakening of nations, and will not forget the attitude it so far has shown, conforming its policies to the present world situation."

Foreign Minister Hossein Fatehi said notice of the Iranian decision would be delivered to the British immediately after the broadcast.

Mossadeq had threatened such a break if his terms for settling the bitter oil dispute were not met. Britain rejected those terms as "unreasonable and unacceptable" in a note delivered to Tehran.

Texans Getting Ready For Stevenson's Visit

Nation's Political Excitement Mounts

BY THE ASSOCIATED PRESS

Gov. Adlai Stevenson's biggest and noisiest reception — in San Francisco — and tumultuous receptions given Gen. Dwight D. Eisenhower in the South indicated Thursday national excitement is reaching fever pitch as election day nears.

Stevenson's campaign showed signs of catching fire as he lashed out with fresh vigor at his Republican opponent's "crusade." He accused the general last night of taking different positions in different states.

Eisenhower lashed back with charges that the opposition's "big game and little game" were telling "plain lies" when they said his election threatened another depression and an end to social gains and public power development.

President Truman took off on another whistle-stop tour — this time into New England. In a speech prepared for delivery at Hartford, Conn., he told voters their "bread and butter" and hopes for peace are tied up in the election.

Others Active

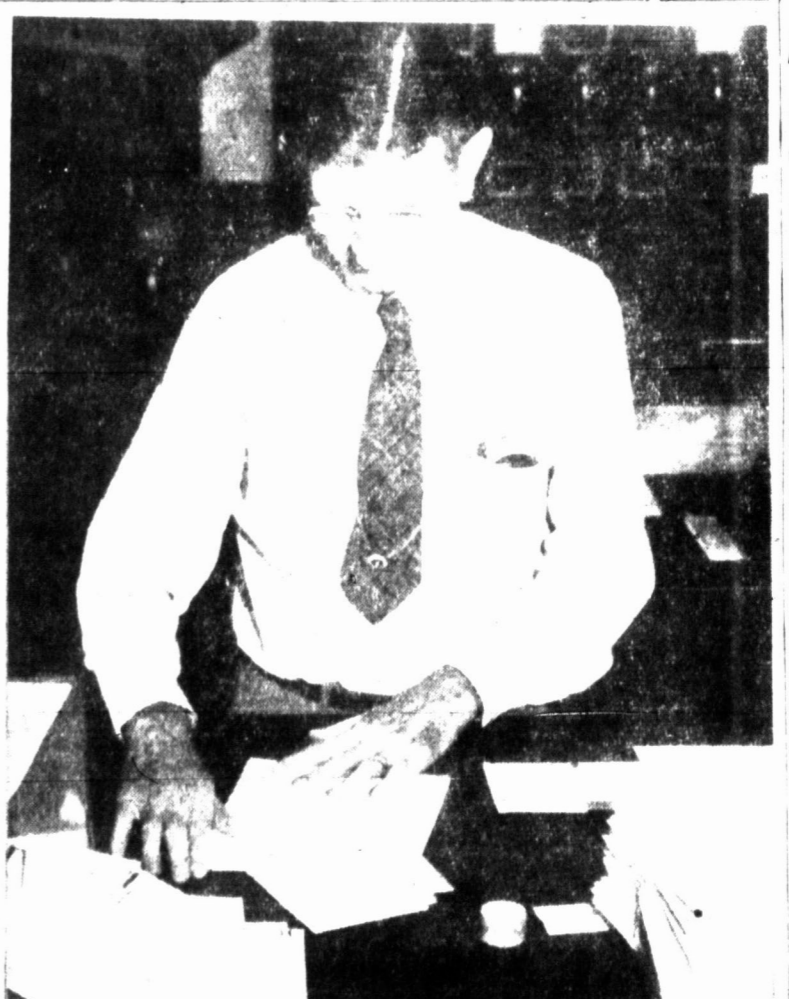

GOP vice presidential candidate Richard Nixon carried his campaign to Indiana, his Democratic opponent John J. Sparkman, stamps the Pittsburgh area, Sen. Robert A. Taft talked up the GOP ticket in Omaha and Norfolk, Neb., and Vice President Barkley speaks in Milwaukee and Sheboygan.

Stevenson campaigned Thursday by auto in the San Francisco area and flies to Los Angeles tonight for a nation-wide radio-TV broadcast and a rally. He was reportedly flushed with enthusiasm after San Francisco's reception Wednesday night.

The thoroughly partisan reception at the Cow Palace cheered just as he accused Eisenhower of attempting to ride two political horses in California and sarcastically referred to Sen. Nixon's campaign and disclosures.

Stevenson's audience was estimated at 23,000 persons, compared with 21,000 which greeted Eisenhower in the same hall last week.

Eisenhower pointed his campaign toward the Eastern Seaboard.

Adlai To Open Statewide Tour In Fort Worth

By The Associated Press

Texas calmed down Thursday from excitement caused by Republican Presidential Nominee Dwight D. Eisenhower's whirlwind train-and-plane tour of the state — and took a deep breath for what was to come.

Gov. Adlai Stevenson of Illinois, the Democratic Party's phrase-slinging presidential candidate, was due to arrive in Fort Worth at 3:30 p. m. Friday, was scheduled to speak at Will Rogers Memorial Stadium an hour later and before the State Fair of Texas' Hall of State in Dallas at 8 p. m.

Speeches by the Democratic standard bearer were on tap in San Antonio and Houston Saturday.

Charges Fear, Lies

As Eisenhower ended his two-day Texas campaign tour with charges that the Democrats were spreading fear and lies, there were these other political developments:

1. Democrats for Eisenhower in Wichita Falls protested plans for a speech at the Alamo by Stevenson. But daughters of the Republic of Texas told the Ike Democrats that they were "duty bound" to receive any visitor at the Texas Shrine who conducts himself reverently and properly. Wichita Falls Oilman Frank Wood had stated:

"Consider it most inappropriate that an espouser of tidelands theft be allowed in hallowed shrine where Texas heroes gave courageous lives for freedom and independence."

2. Mastin G. Waite, solicitor of the Interior Department, said the Supreme Court had held that Texas is relinquished to the federal government any rights the public of Texas may have held in the submerged lands of the continental shelf.

White's letter to J. H. Lowder had argued that Texas became a state under "a treaty with the United States permitting her to retain title to all her public lands, including the offshore lands to 1 1/2 miles out to sea."

White said two congressional resolutions on the annexation of Texas did not refer "specifically to the submerged lands" and did not indicate expressly "whether the rights of the Republic of Texas in such lands were retained for the next date, or conveyed to the United States."

Daniel Ires Mitchell

3. In Washington, Democratic National Chairman Stephen Mitchell was reported holding the threat of political reprisals over the head of U. S. Senate Nominee Price Daniel. Daniel, Democratic nominee and Republican in choice to succeed retiring Senator Tom Connally, introduced Eisenhower at Houston Monday and said he would vote for him.

The Dallas News quoted Mitchell as saying Daniel's activities in detail of Eisenhower would be "in the record book."

Should Daniel be black-listed by the Democrats, it is likely that (See TEXAS, Page 2)

Pampa Falling Far Short In Chest X-Rays

Pampa was falling far behind its chest X-rays over the same period last year as only 1,567 persons had been checked for tuberculosis and other chest abnormalities by closing time Wednesday.

With only three days remaining Pampa and Gray County have to have 2,325 more persons X-rayed to come up to the low record of 1951 when 3,892 were checked.

The free X-ray service is being given on the main floor of the J. C. Penney store under the auspices of the State Health Department. It takes a maximum of three minutes to be X-rayed and is free to the individual. The X-ray picture shows other abnormalities in the chest region besides detecting tuberculosis.

Dr. J. Foster Elder showed grave concern over the decrease in X-rays made here this week, saying:

"I have been worried about the lack of interest by people in their personal health. After all, it is just as much a person's duty to see about his health, especially where communicable disease is concerned as it is to vote."

When the X-ray service first came to Pampa in 1948 a total of 4,807 people went before the X-ray machine. In 1949 the figure jumped to 6,885, by 1950 interest seemed to decline and only 6,444 people were X-rayed. Last year the big drop came when the total fell to 3,892.

Reports of the X-rays are strictly confidential. Only the person X-rayed — and the physician of his choice — are advised by the health department of the results.

County Snowed Under By Ballot Requests

Absentee voting in the Nov. 4 presidential election got off to a slow start Wednesday as only eight votes were cast in County Clerk Charlie That's office.

But the requests for ballots coming through the mails jumped so rapidly That had to track of them and was unable to give a complete report this morning.

"All I can tell you right now," That said as he stuffed another ballot into an envelope for mailing, "is that this is going to be a higher figure than we have ever had for any election."

He estimated the requests would reach, possibly pass, the 200 mark.

"Look at that pile there," That pointed to a fresh batch of absentee ballots, adding "they just came in and those over there came in yesterday."

Lying beside That was a huge pile of ballots ready to be mailed sometime today. Yesterday 58 ballots were mailed to all points of the compass, statewide as well as overseas, many to men in the armed services.

Absentee voting in the clerk's office ends at midnight, Oct. 31. For ballots being mailed in the dead line is 1:30 p. m. election day.

Two of the principal factors driving increased voter interest are the hot presidential election and the fact that for the first time in history a local man will be running for a presidential office as a Republican — Clayton Hussey, who is running for county commissioner.

From a source who "thought you'd like to know" that the wrong boy was sent to war in the grain picture published Tuesday of Gray County's first Army aviator, World War I, it is for his buddies who were disabled for the wounds and children Gray who shouldered a gun. Less of those who gave their lives for their country.

Water Parley Northern Blowing Out . . . Emergency Hay Is Available Here As Area Drought Lingers

City commission late Wednesday unanimously passed a resolution approving circulation of a petition among property owners requesting the State Board of Water Engineers for a hearing to form a master water district in the Panhandle in connection with the proposed Canadian River Dam.

The petition to be signed by at least 50 property owners asks the water engineers for a hearing to call an election in each of the 12 interested cities and towns in the Panhandle and South Plains area to form the district. The district would be created in such a way that each city would be a separate part of the district and district lines would be the city limits of each city.

From this district would come an elected board of commissioners who would be legally empowered to deal with the federal government in obtaining a contract for construction of the \$85,000,000 project.

The commission also approved blanket authorization for calling for bids of motorized equipment by the city manager as soon as specifications for cars and trucks can be drawn up.

City Manager B. H. Cruce, said these specifications should be ready in about two or three weeks. They bids will be called and dates for opening will be set.

If it comes from a hardware store we have it. Lewis Hardware.

For livestock transportation, call Lloyd Kuntz 2680-J or 1802, Adv.

While Texas' second norther of the season was blowing itself out today, leaving only broken promises of rain behind, the local Production and Marketing Association office announced emergency hay is now available for foundation livestock in Gray County.

There are three kinds of hay that can be ordered through PMA: legume at \$26 per ton; mixed, \$22 per ton; and grass, \$28 per ton.

Local producers can obtain the needed hay by making a request at the local office and paying a \$5 per ton deposit. At the moment, however, each area producer can only order a 30-day supply. That will be true till each county farmer has what he needs — up to a month's supply.

The hay will be ordered by the local office from areas where there is a surplus. And, PMA says, it doesn't take long for a carload to be ordered.

Gray County was approved by state officials Friday for the emergency hay program. Previously, federal authorities had delayed Texas for this program.

The cold spells of the past few days in Texas had produced rain at only one point, so slight the weather bureau couldn't measure it. That fell Wednesday morning in Texas. There has been no rain reported in Pampa for more than three and a half weeks.

Today dawned clear and cold with few points reporting freezing temperatures, and still no promise of rain. The mercury in Pampa Wednesday reached a high of 62 degrees. Early this morning it got down as far as 40.

This morning found central portions of the state colder than the Panhandle — Plains country.

The area includes Pampa, MeLean, Levon and White Deer, according to Loyal H. Davies, committee chairman for the affair.

This will be the first time in several years the organization has staged such an event. No special entertainment has been planned.

Others on the committee for the occasion are Gene Smith and Bailey Haney.

Leslie Hart Elected Division Officer In Kiwanis Convention

Leslie H. Hart immediately past president of the Pampa Kiwanis Club, Wednesday, was elected division officer of Division Six of the Texas Kiwanis International at a district meeting in Austin.

Barley Choate of Sweetwater was elected district governor.

Hart will be installed in office at the annual midwinter conference in November and will take office Jan. 1, 1953. He will then become the third Pampa Kiwanian to attain that office.

Fred Thompson, who also became a district governor, and Ed Wynn, both have held the position of district governor.

Hart was nominated for the office by J. E. McQuinn, Jr. Other Kiwanians attending the meeting were E. L. Henderson, Clinton Evans, Howard Buckingham, Bob Curry and their families.

Monday Is Legion Day

Monday is Legion Day. American Legion Day. Both Gray County and Pampa Mayor C. A. Hart have issued proclamations commemorating the veterans' group.

On the local level, a "free feed" has been scheduled at the American Legion VFW Hall for Oct. 17, Monday, according to Jack Graham, service officer. All Legion members are invited. In his proclamation, Shivers praised the Legion which "has long been a pillar of support in our state in good times and in bad times as an organization that earnestly and unflinchingly stands for the rights of our veterans and their families."

The Dallas News quoted Mitchell as saying Daniel's activities in detail of Eisenhower would be "in the record book."

Should Daniel be black-listed by the Democrats, it is likely that (See TEXAS, Page 2)

League Will Hear Discussion On U.N.

The members will discuss the pros and cons of the United Nations at noon Monday when the League of Women Voters holds its fall luncheon in the First Methodist Church basement.

William T. Glidden of the Chicago Club and E. Roy Smith, publisher of the Pampa Daily News will give their views on the organization and what benefits, or disadvantages it holds for the world in general.

Glidden is a former staffer of the International Security Affairs Commission.

Reservations for the luncheon must be made no later than noon Saturday, and can be made with Mrs. J. D. Schroedel, telephone, 1604. Tickets may be purchased at the door Monday if they are available.

Coal Field Tension Growing In The Wake Of Strike Threat

PITTSBURGH (AP) — Reports of growing restlessness came from the nation's coal fields today in the wake of a strike threat tossed at the industry by John L. Lewis, president of the United Mine Workers.

Several thousand miners are off the job to back up demands for a pay hike being held up pending approval by the Wage Stabilization Board.

While there is no indication that the walkouts will spread quickly, both coal operators and the miners are keeping a close watch on Washington for developments.

The miners' anxiety over whether the WSB will approve the pay hike negotiated for them by Lewis was heightened yesterday when the mine chairman told his members to refuse to work after Nov. 18 unless mine operators have theretofore that he has paid the WSB's approval of the \$1.00 pay boost.

Approximately 3,155 Kentucky miners were reported on strike. Another 1,200 were off the job at four mines of Republic Steel Corp. in Western Pennsylvania. There were smaller groups in Illinois and Ohio.

From Washington came reports the WSB is expected to reach a vote by the end of this week.

Stolen Baby Is Recovered

NEW YORK (AP) — A stolen week-old girl was found yesterday with a woman whose own newborn baby lies sick in a hospital.

The baby, Gloria Hernandez, was taken from Bellevue Hospital Sunday by a woman who asked for it by name. The attendant, assuming she was its mother, Mrs. Rafael Hernandez, gave it to her.

The alleged abduction was uncovered 24 hours later when Gloria's real mother asked for her baby.

A police check of all new mothers recently in Bellevue led to the apartment of Mrs. Carmen Rodriguez, 32. There, police said, they found Gloria, apparently undisturbed.

Mrs. Rodriguez' baby girl was born Sept. 28, suffering from congenital adhesions of the intestines. The child is in an incubator at Bellevue being fed intravenously.

Booked on a kidnapping charge, Mrs. Rodriguez told police she had applied for home relief and was informed she lacked certain papers as evidence that she had a baby to support.

Pampan Hurt In Phillips Accident

A Pampan whose leg was fractured above the ankle when a scaffolding broke is reported doing "fair" at Northwest Texas Hospital, Amarillo.

Paul LeFebvre, 78 N. Wells, an employee at Phillips Petroleum Co. was working with a maintenance crew several days ago when the accident occurred.

The plant is located in Phillips, Tex.

Shriners Plan 'Family Night'

The Pampa Shrine Club has scheduled a "family night" at 7 p. m. Monday in the Palm Room of city hall for all area Shriners and their families.

The area includes Pampa, MeLean, Levon and White Deer, according to Loyal H. Davies, committee chairman for the affair.

This will be the first time in several years the organization has staged such an event. No special entertainment has been planned.

Others on the committee for the occasion are Gene Smith and Bailey Haney.

Polio Board Friday

The regular meeting of the county polio board is scheduled to meet at 5 p. m. Friday in the chamber of commerce office.

Routine business is on the agenda.

Initial Production Of New High Speed Jet Plane Ordered By AF

WASHINGTON (AP) — The Air Force announced today it has ordered "initial production" of America's first supersonic delta-wing fighter plane, the F102. The new aircraft will be built by Consolidated Vultee Aircraft Corp. (Convair) at San Diego, Calif.

The Air Force said the F102 will resemble in general the Convair-built XF92, the first known delta-wing aircraft to fly. A delta plane is triangular in shape, roughly like a half diamond, and it has no horizontal tail.

"Designed for very high speeds in the stratosphere, the F102 will incorporate significant improvements in armament and electronics," the announcement said.

"Performance and configuration details may not be revealed for security reasons."

The XF92 was built as a research interceptor and has been flown many times since 1948, chiefly at Edwards Air Force Base, Calif. It has been in the "high supersonic" speed range, but is reported never to have exceeded the speed of sound.

The speed of sound varies, depending upon temperature, humidity and other factors, from about 760 miles an hour at sea level to 660 at 40,000 feet. An airplane which barely exceeds that speed is in the transonic range. However, the F102 will be definitely supersonic, as are several other Air Force and Navy swept-wing aircraft now flying.

Because it must function as a high-altitude interceptor of enemy bombers, the F102 also will have a terrific rate of climb. Like all supersonic aircraft it will have complex automatic electronic controls. These

Dixie Has More Skin Cancer Than Northern States

TALLAHASSEE, Fla. (AP) — A Tampa physician says Florida's famous sunshine is not an un-mixed blessing for residents of the state who are exposed to it all the time.

Dr. Morris Waisman goes into the good and bad effect of sunlight on human beings in an article in the current issue of the Journal of the Florida Medical Association.

He finds sunshine is so injurious to people with certain types of skin that "pre-employment examinations for screening out persons with skins unsuitable for outdoor work will probably in time become essential."

He said premature aging of the skin occurs in people whose work or pleasure exposes them to sunlight over long periods. Exposed skin becomes leathery, wrinkled, inelastic, freckled and dotted with small lesions which may develop into cancer.

The lower lip is particularly susceptible and Dr. Waisman advised protecting it with a handkerchief tied across the lower part of the face or with a small piece of tissue paper stuck to it.

The doctor added cancer of the skin is much more common in the South than in the North and "it is safe to say that the incidence in Florida is at least five times that in northern states."

Blonds and redheads are much more susceptible to skin cancer than brunettes, Dr. Waisman found.

Probably the best insurance against it is to be born of brown-eyed parents and have brown eyes oneself. Most of those who develop the disease have light-colored eyes. The condition is practically absent among Negroes and Indians.

The reason—14 couples were minors without consent of their parents and two were drunk.

The TRUTH about bleaching LINENS

There is no substitute for liquid bleaches!

You do need a liquid bleach for removing stains, odors and for disinfecting... all in one operation!

No other washday product does these jobs as well. And you'll prefer Hi-Lex Liquid because only Hi-Lex contains ingredient "X"... the perfect water-conditioning agent.

For hospital cleanliness, get Hi-Lex liquid Bleach!

CHAMP FIDDLER — Eck Robertson, winner of the Old-Time Fiddlers' Contest during the county's birthday party, remembers playing with the late Will Rogers.

Contest Winner... 'Fiddle' Artist Declares He Came From Musical Family

By DON BLAKE

Eck Robertson, well-known fiddler and winner of the Old-Time Fiddlers' Contest at Gray's County's 50th Anniversary celebration, 65, is a native of Arkansas, but has lived in Texas since he was three years old. He has been in Pampa for a number of years, although he has previously lived in Oklahoma, Missouri, and Texas.

Robertson, who operates a music shop in Amarillo, insists he likes to play the fiddle, but he likes to play the piano and guitar on the road. At one time he toured the nation with a troupe of six fiddlers, and he has a hit in the act he called "The Fiddle and the Piano." He can play the piano and guitar, and he has played the violin, and never lost the rhythm.

Eck mounts up he enjoys playing for old-timers' reunions these days and will play any request. In his past he has played theaters, clubs, radio, movies, dances and private audiences.

One of his hobbies is repairing antique pianos, almost obsolete now. "I can fix the piano and I can fix the fiddle, as well as tune a standard piano, violin, guitar or any other stringed instrument," he insists.

Slightly and gray, Eck Robertson presents a picture of health and robustness. Truly, he is a picture of a "born musician" from a musical family. Both parents, uncles, aunts, brothers and sisters were "fiddle" artists. Von first place in the Old Fiddlers' Contest at Gray's County's 50th Anniversary celebration, 65, is a native of Arkansas, but has lived in Texas since he was three years old. He has been in Pampa for a number of years, although he has previously lived in Oklahoma, Missouri, and Texas.

White Deer Baptist Group Holds Dinner At School Tonight

WHITE DEER (Social) — Brotherhood of the First Baptist Church is sponsoring a dinner at the school cafeteria at 7:30 p.m. today. The public is invited.

Table captains are S. L. Young, H. J. Bates, E. L. Colgrove, Biggs Horn, James Kirkwood and Claudia Everly.

Dr. Carl Bates, pastor of the First Baptist Church, Amarillo, will be the guest speaker for the evening. Dr. Bates, one of the most fluent speakers in the state, is one of the speakers at the Baptist Brotherhood Convention which will be in session at the Will Rogers Coliseum in Fort Worth, Oct. 20-21.

Mrs. Jack Beardon, of Pampa, will be in charge of the special music for the evening.

FOLIO PALS—Douglas McQuinn, Jr., 6, left, and his brother Scott, 3 1/2, are favorite patients of doctors and nurses at Racine Hospital, in Racine, Wis. — The two little polio victims help each other with exercises designed to strengthen their weakened neck and leg muscles, and thereby also relieve a head and neck ached hospital staff.

It is estimated there are about 52 million Protestants and 29 million Roman Catholics in the United States. The first sugar mill on the North American continent is believed to have been established by Cortez in 1535.

Children Like School!
AKRON, O. (AP) — "Youngsters really want to go back to school but are afraid to admit it." So says Robert N. Walker, director of child study and guidance in the public schools here. "They like school. Their friends are there. Generally they like their teachers and want to see them again," he said.

This applies to 85 per cent of pupils, he said. His worry is with the other 15 per cent.

Camera News

By IRVING DESFOR

AP Newsfeatures

Although it arrived several weeks ago, I didn't find the time previously to take a good look at this year's "Photography Annual." In this case the matter of time makes little difference; its value in pictures, presentation and stimulation is enduring.

The idea of making a photography annual more than merely a compilation of photographs is a good one. A new format was started by the Ziff-Davis Publishing Company three years ago, and improved last year. In this third edition, Photography Annual has again expanded its efforts to guide, instruct and inspire its readers along with the presentation of noteworthy pictures. The material is there to attain its goal.

Basically the photos are grouped in sections of general interest, and each section is headed by a pertinent information. Together they provide an intelligent understanding of such perennial subjects as Smokers, Part and Small; Outdoors, Sun Light and Shadow; Indoors, Flash and Flood; Camera Angles; Tricks and Effects and Darkroom Magic.

To reflect the growing interest in photographic trends, there is special emphasis on sections illustrating the use of Available Light and the Unobtrusive Camera and two examples of picture series showing how they can be more effective, frequently, than a single picture.

In addition there are sections devoted to Color and Prime Pictures. The latter shows the top winners of seven important photo contests of awards held during the past year. However, here I was puzzled by the absence of the 1952 Pulitzer Prize winner, Don Ulmer, and John Robinson of the Des Moines Register & Tribune. Their photo achievements certainly rate listing in an annual and their picture series, another view.

Whether you study the pictures individually or leaf through them in groups you can't stumble or be distracted by technical data that some photo fans insist on having. They have it here, too, but they must go find it. Tucked away in the rear of the book are miniature reproductions of the photos with all available information. A sensible solution, if you ask me.

A glance through some of the sections brings reminders like "The Unobtrusive Camera. You can make candid-style pictures with any kind of equipment. But 35mm and 2 1/2 x 3 1/4 rollfilm cameras monopolize the field because of their small size, ease of handling, fast lenses, ability to take pictures in rapid sequence. Obviously, a person doesn't act natural if you see him fumble with lighting setups,

BARBER'S DESPAIR — Sgt. Robert Probst, of Algier, French South Africa, sports the finest beard of all the men in the French Battalion in Korea. The haircut grows so fast that he must shave him many minutes otherwise shaved and he has his present a fierce face to the enemy.

Boyle's Column . . . South Korean Soldier, Long Neglected, Is New Hero Now

By HAL BOYLE
NEW YORK (AP) — The Allied World has a new battlefield hero today. Private Kim, a first class fighting man, is known to his United Nations comrades as "ROK," and he is the GI Joe of the Republic of Korea, where the name Kim is even more common than Smith is in America.

For more than two years, Pvt. Kim has been too lightly regarded, often distrusted as a rabbit in uniform who would throw down his gun and run if the going got rough.

That never was a fair picture of the average South Korean soldier, but there were few to point out the facts about him.

But Pvt. Kim is now telling his own story in the best way he can — with bayonet and hand grenade. Whatever he was two years ago, the terrible fighting on White Horse Mountain has shown that Kim has graduated into one of the world's best infantry men.

Key Battle Feature
That peak is a key terrain feature dominating the supply road to Seoul only 50 miles away. And Seoul is to Kim what London is to an Englishman or Paris to the French.

In days and nights of continuous battle fought in mud and cold rain, the vital peak changed hands many times. Every time the outnumbering hordes of Chinese Reds pushed Kim off the top ridge, he stubbornly clawed a bloody path back.

Kim did it on his own while the peoples of the Western World, who have often asked, "Why don't the South Koreans do more to defend their own country?" watched in growing wonder.

These people of the West probably still fail to realize the real significance of the battle for White Horse Mountain. Whether it is finally won or lost it is a kind of Alamo to the new Republic of Korea.

Psychologically, Pvt. Kim for centuries has felt inferior to Pvt. Chang of China. He has always been the "little brother" in an Oriental sphere headed by "the big brother," Pvt. Chang.

But Pvt. Kim now has proved to himself and a doubtful world on White Horse peak that, man for man, he is equal to or better than Pvt. Chang — that David still can take on Goliath. And Pvt. Kim won't forget it.

The truth is, of course, that Pvt. Kim, whenever he has been properly trained, well officered and given enough weapons, has been a good soldier all along. He is as stubborn as two Irishmen and as mule, he can walk a Chinese bowlegged, and pad along for hours toting a burden that would flatten a Jap.

The trouble with the ROK's has been that their 100,000-man force at the outbreak of the war was pawed and mangled by the spearhead of a North Korean Army that attacked with 300,000 men and 300 Russian tanks.

South Korea reacted with a magnificence that has received small recognition. Farm boys were taken out of their rice paddies

and thrown into the front lines eight days later. Some clutched strange rifles they had fired only once in their brief training because of the scarcity of bullets. Others marched into battle empty handed and were told to pick up a weapon from the first man to fall.

Combat Miracle
Often they had to forage off the countryside. There often was no morphine for the badly wounded. Comrades held them as a surgeon operated.

It is a combat miracle that ROK's were able to hold on their front as well as they did for many months of emergency. Yet all the time they had more men in action than any other member of the United Nations, including the U. S.

At the same time, guided by American officers, they forged and trained a new army of several hundred thousand men equipped with American arms.

The key man in that reborn army is Pvt. Kim, now able to fight with the best. His morale is high. He can digroot and shuffle 35 miles in a day on his thin rubber shoes, and he sings as he marches.

The songs are about two of the oldest dreams in his "Land of the Morning Calm" — victory, and a boy called Kim at peace in a beautiful field of waving rice, golden in harvest.

Oldsters Cut Capers In Billiards Fight

DENVER (AP) — Two oldsters were playing a "friendly" game of snooker in a local billiard parlor.

The 80-year-old player objected when his opponent wanted to lift both feet off the floor to make a difficult side pocket shot. The "younger" man, aged 77, assaulted him with a pool-cue.

The older man was taken to the hospital with cuts, bruises, shock and possible skull injuries.

CROWNING GLORY—Crowns intended as decorations during Queen Elizabeth's coronation ceremonies in June, 1953, are given a brightening up by Joan Bellis. The crowns are made in a factory in London's Old Kent Road section that has catered to six coronations so far, with Elizabeth's making the seventh.

Injuries Plaguing SWC Elevens As They Prepare For Big Conference Week End

By CLAYTON HICKERSON
Associated Press Staff

Southwest Conference elevens packed off on heavy training Thursday as they prepared for the first big week end of conference games.

Injuries still plagued the University of Texas, Rice Institute, Texas Christian, Southern Methodist and the University of Arkansas. Only Baylor and Texas A&M seemed sure of top strength in Saturday's games.

TCU's Frogs were given a seven-point bulge over Texas A&M at College Station while the odds-favorites rated Texas a seven-point favorite over Arkansas at Austin and made SMU a two-point favorite over Rice at Houston.

The disappointing Texas Longhorns, losers to Notre Dame and Oklahoma in their last two outings, suffered another jolt Tuesday when defensive tackle Clayton Polk was injured. It was learned Wednesday that Polk would be out for the rest of the season. He has a compound fracture of a finger.

Texas Coach Ed Price concentrated on defensive work in the last scrimmage of the week. The Texas line leaked like a sieve against the Sooners last week. SMU worked on pass defense preparing for the Rice Owls and Baylor. Baylor End Doyle Nix sprained an ankle. He had to be helped from the field. Tackle Lou Miller may not be able to play against Rice, either. He has a charley horse.

The Pampa Daily News

Jimmy Carter Earns 15-Round Decision Over Lauro Salas

CHICAGO (AP) — Gritty Lauro Negro, displaying a terrific left hook as his main weapon, made it look as easy as taking candy from a baby.

After 15 rounds, blood flowed from vicious gashes on both of Salas' eyebrows, a split lower lip and a battered nose.

His five-month reign as his country's only undisputed champion in ring history ended as abruptly as it began last May when he lifted Carter's crown in Los Angeles.

The nationally televised and broadcast scrap at Chicago Stadium attracted only 5,283 fans at ringside, one of the smallest championship crowds on record. Carter and Salas each received \$6,428 as a share in a net gate of \$21,429. But each also picked up nearly \$10,000 from television receipts.

Carter's decision was overwhelming as he became the first lightweight to recapture the title since Lou Ambers did it against Henry Armstrong in 1939.

The official point-scoring showed Referee Frank Gilmer favoring Carter, 81-69, Judge James McManus, 82-68, and Judge Frank McAdams Jr., 84-66.

They awarded Salas the 11th and 12th rounds when the little Mexican rallied furiously and desperately to force Carter into the ropes several times.

But Carter was never hurt and not even severely jolted.

The best that could be said of Salas was his ability to weather Carter's smashes and keep a record intact of never having been knocked off his feet.

Carter weighed 135 Salas, 132. Willie Ketchum, Carter's co-manager, said he may match the 26-year-old champion against the winner of the Phil Kim-Art Aragon scrap in Los Angeles. He said the bout, if arranged, would be in Los Angeles.

Salas said he was saddened by losing the title for Mexico. "It was my worst fight in two years," he mumbled. "My punches were very bad. Carter was no better than when I beat him five months ago."

Carter said: "I figured all along that Salas was going to fight like he did last time we met. So when he came after me in the last half-minute or so of each round I held my own those times and I won for me."

Duck Population Best In 20 Years

NEW YORK (AP) — The greatest duck population in 20 years is headed south from the Canadian prairies and soon will be trying to oust U. S. hunters.

Bert Cartwright, Guicks Unlimited naturalist and biologist now in Canada, estimates that the duck population in Canada is twice that of last year.

But he is quick to point out that the factors which produced this big duck crop may not be repeated for another 20 years and "that our conservation efforts must be continued."

Cartwright says the fair weather in May and June on the Canadian breeding grounds is one of the main reasons for the huge supply. Another is the abnormally large brood count. In some cases, he said, duck experts saw families with as many as eight young.

He reported that the mass migration of ducks started Wednesday and that a young blizzard, complete with high winds and falling temperatures, swept the prairie lands yesterday.

Honor Tex Rickard

HENRIETTA (AP) — The memory of Tex Rickard, a Clay County youth who became one of the world's most famous sports promoters, will be honored here today.

Jack Dempsey, former heavyweight champion of the world whom Rickard helped to fame, will lead a Tex Rickard Day parade at 5 p. m. today to open the annual Clay County Pioneer Reunion and Roundup.

Tonight Dempsey will crown the queen of the 1952 celebration during the rodeo performance.

Guerillas Meet Yannigan Whites

The Pampa Guerillas open the weekend football card tonight when they face the Amarillo Yannigan Whites at Amarillo. Kick off time is 7:30.

The Guerillas will be shooting for their first win of the year after losing five of four and gaining one tie. The tie was with the Yanna in an earlier meeting, an 18-18 score.

The probable starting lineup for the Guerillas will have Marion Stone and Benny Cartwright at ends, Ben Sturgeon and Marvin Coleman at tackles, Huey Burns and Jerry McNaughton at guards, John Watson at center, in the backfield will be quarterback Dean Franklin; halfbacks Billy Fullender and Billy Edwards, and fullback Buddy Moore.

Tomorrow afternoon the Junior High School Reapers travel to Amarillo to face the Sam Houston Junior High School Rangers in a Panhandle Junior High Football Conference game. The Reapers have a one-one record, beating Dumas and losing to Hockley Mann.

Favorites Clash In Hardscrabble

FT. SMITH, Ark. (AP) — The medalist and the defending champion clashed today in the featured match of the semi-finals Hardscrabble Country Club's annual Women's invitational tournament.

Medalist Marilyn Smith of Wichita, Kans., and defending Champion Mary Lena Faulk of Thomasville, Ga., easily defeated quarterfinal opponents yesterday to gain the next to last round.

Barbara Romack of Sacramento, Calif., and Betty Jameson of San Antonio, Tex., met in today's other semi-final match.

Miss Jameson had to play an extra game to fight off a determined bid by Mrs. Herb Breault of Chicago, yesterday, in contrast to the other semi-finalists' handy victories.

Miss Breault rallied on the final two holes to tie Miss Jameson, wiping out the 2 up advantage that the Texan had held after 16 holes. But Miss Jameson's unerring putting gave her the triumph on the 19th hole while Mrs. Breault over-putted twice.

Miss Faulk turned back Mrs. Carl Robbins, of Ft. Smith, 5 and 4; Miss Smith defeated Frances Rich of Bainbridge, Ga., 4 Mrs. Nell Moody, of Sherman, and 3; and Miss Romack defeated Tex., 5 and 4, in the other quarterfinal matches.

Casey Again Boss Of Year

NEW YORK (AP) — Charles Dillon Stengel has been honored for the miracle everybody figured he would pull off but wasn't quite sure about by being named manager of the Year for the second time.

The "Old Perfesser" was named on 37 of the 72 ballots cast by baseball writers in the Associated Press poll. The honor climaxed a season for the 61-year-old Glendale, Calif., seer in which he won his fourth straight pennant and world championship, tying a record held only by Joe McCarthy, another Yankee manager.

The runner-up position went to Eddie Stanky in his first year as a major league pilot. Eddie brought a fair to middlin' St. Louis Cardinal squad home third in the National League race.

As it was Stanky had nosed out Jimmy Dykes of the Philadelphia Athletics, who surprised by parlaying Bobby Shantz and Ferris Fain into a fourth-place finish for his team. It was only the second time in 15 years that an American League Philadelphia entry has finished in the first division.

Another scrappy American League manager, Bucky Harris of Washington, received enough consideration to be tied for fifth place with Chuck Dressen of Brooklyn, who did commendably with a lukewarm pitching staff. Harris steered his team into fifth place after they had almost a unanimous choice for the cellar in preseason pickings.

The Giants' Leo Durocher, Manager of the Year in 1951, received five votes and fourth place for almost as good a job this year.

League To Try Breckenridge

STEPHENSVILLE (AP) — Members of the District 2-AAA Interscholastic League Committee will meet here Friday morning to consider alleged violations of ILB rule by the Breckenridge High School Bucks.

Breckenridge, one of the top Class AAA grid schools in the state, is alleged to have used several players against the Abilene Braves Thursday night and again on Friday night against Austin of El Paso.

Texas Interscholastic League has a "five-day rule" which prohibits a schoolboy from playing two games within a five-day period.

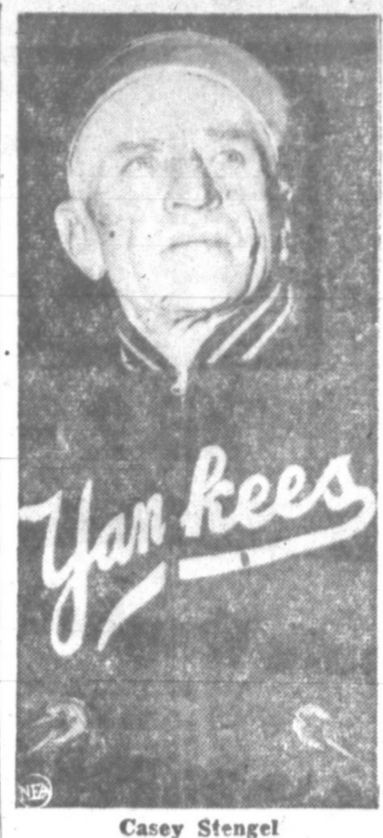

J. D. King, superintendent of the Brownwood schools and vice chairman of District 2 said Breckenridge had asked to bring the matter before the committee to clarify eligibility before conference play starts.

Breckenridge has four of its five games this year, losing only to Abilene.

The type of storms known as hurricanes in the Atlantic and typhoons in the Pacific are known as cyclones when they appear in the Indian Ocean.

Arizona Sets Pace

TUCSON (AP) — Arizona's upstart Wildcats, rated behind at least two other clubs in the Border conference at the start of 1952 football trials, still leads a field of eight teams in three departments on their statistical performance this year.

Casey Again Boss Of Year

Breckenridge has four of its five games this year, losing only to Abilene.

The type of storms known as hurricanes in the Atlantic and typhoons in the Pacific are known as cyclones when they appear in the Indian Ocean.

Harvesters Off For Abilene Eagle Meeting Tomorrow

At 8:30 this morning the Fighting Pampa Harvesters left for Abilene and the second district game of the season tomorrow night. It will be the top clash of the 1-4A weekend that will see Berger heading Midland, Amarillo travelling to Odessa and Lubbock entertaining San Angelo.

On the basis of the four games that the Harvesters and Eagles have played thus far, the Pampans hold the statistical edge offensively, but again lag defensively. This while the Harvesters have won four straight while Abilene has won 3-1 record, the loss a 34-13 beating by Breckenridge. Here are the four-game composite statistics:

Passes Completed	24	21	48
Net Yards Passing	409	351	689
Ball Lost Fumbles	8	11	61
Punts	10	19	19
Average	33.4	38.8	350
Penalties	28	19	7
Yards Penalized	202	185	21
Points	126	65	29.8
Those figures show how Pampa, with a 2-1 offensive advantage, gained mostly on the ground. Of the Abilene scoring total of 65 points, they have scored 13 in each of the last three games, beating Sweetwater 13-7, losing to Breckenridge, 13-34, and edging Berger 13-12. In their opening game they downed Arlington Heights 28-14.	Defensively, the Eagles have maintained the better record. Here it is for the four games played:	37 First Downs 580 Net Yards Rushing 28 Passes Attempted 13 Passes Completed 202 Net Yards Passing 10 Ball Lost Fumbles 22 Punts 34.8 Average Punt 24 Penalties 270 Yards Penalized 67 Points

Temple-Baytown Struggle Is Top Schoolboy Game Of Week

BY HAROLD V. RATLIFF
Associated Press Sports Editor

The eyes of Texas schoolboy football rest on Temple Friday night when the biggest game of the year is scheduled. It's mighty Baytown, the acknowledged power of Class AAA, vs. Temple, the rated kingpin of Class AAA.

It's a replay of a most controversial game — the 1951 Baytown-Temple contest which Temple lost 6-0, but still contends it should have won.

A crowd of 11,500 — the biggest ever to see a football game in Temple — will be there as Doyle Taylor, Temple's great passer, duels with Gerald Orton, the brilliant quarterback of Baytown's big, tough Ganders. Both teams are undefeated and united.

Other Big Tiltles Set

While the Baytown-Temple game will be the focal point of interest, there will be some other very important games over the state.

Headlining Class AAA will be the battle of Alice and McAllen at Alice Friday night. Not only are these teams undefeated and united in five games, but their struggle will be a conference struggle and the winner will become a heavy favorite to take the district 8 championship.

In Class AA Burk Burnett and Nocona battle in an inter-district affair that matches unbeaten and untied teams.

Heavy "A" Action

In all four classes of schoolboy football that decide state championships there will be controversial action along this line in Class A where all except two of the 32 districts have contests counting in the title races. Defending state champion Giddings, winner of five straight nonconference games, opens the conference race against Columbus.

In Class AAAA, heaviest championship action will again be in District 1 where Lubbock's Westerners, defending state champions, again rate top.

The Westerners hurled one of their toughest obstacles last week in the Odessa Braves but they still have a Midland team, that now looks like it's the main challenger for the title, ahead.

Lubbock vs. San Angelo

This week Lubbock plays San Angelo, a team that hasn't been able to beat anybody.

Highland Park Daisies will be at Texarkana in another top game. This one is tonight and will be an interclass test. Texarkana is one of the favorites in Class AAA.

There are 56 undefeated, untied teams left in the state — in all four classes — and possibly a third of them face extinction this week.

Guerrero In Easy Win Over Murdock

Gory Guerrero made short work of Frankie Hill Murdock in the windup of the double main event card at the Southern Club last night. Murdock received a sprained ankle just before the first second fall, but was easy prey for the defending Southwestern state junior heavyweight champion.

But the semi-final main event was the real crowd pleaser of the night. Popular Tommy Martindale of Amarillo was the winner over Art Nelson of Ontario, Canada, in a real mad scramble.

Martindale took the first fall with a series of drop kicks followed by a body press in 18 minutes. The beautifully executed drop kicks had the giant Canadian groggy and easy for the press. But the second fall was different. Nelson won it after choking Martindale and then finally applying the press in 11 minutes. Nelson kept hanging Martindale over the top strand of the ropes by the neck and then slamming him back into the ring by pulling on the rope. He tried the same method in the third fall, but Referee Billy Weidner wouldn't permit it. And when Nelson persisted in using the ropes, Weidner disqualified Nelson and awarded the match to Martindale.

In a one-fall preliminary, Seaside Uyama put Chico Bonales to sleep in 12 minutes with ease to gain the win.

The Eagles will be fired up for the game, with memories of last season's bitter defeat still hanging in the minds of some of the boys. Coach Pete Shotwell, a crafty mentor, will be reminding the boys about that night all this week.

The probable starting lineup for the Eagles will be as follows: ends — Winton Thomas, 158; and Bill Price, 140; tackles — Ray Carson, 190, and Lee Newman, 190; guards — Carol Turner, 178, and Marion Pruitt, 169; center — Jerry Turner, 170; quarterback — Jimmy Rose, 160; halfback — Glen Tallent, 159; halfback — Tommy Overman, 152; and fullback — Fred Welch, 168.

The probable starting Harvester lineup will see Bobby Holder and James Phippen at ends, Richard Qualls and Tommy Sells at tackles, Bill Phippen and Alton Flynn at guards, James Hawkins at center, J. N. Wright at quarterback, John Darby and Ed Dudley at halves, and David Enloe at fullback.

Buddy Cockerl, senior tackle, was held out of workouts yesterday to rest an injured left leg. A pulled vein in the knee was causing the leg to swell and at first a minor operation was thought necessary. But after inspection yesterday by the team physician, the leg was wrapped tightly in bandages from hip to toes and Cockerl was given the okay sign. But how much action he will see tomorrow is questionable.

Barbara Nell Williams, Kenneth Wilson Wed In Informal Double-Ring Ceremony

McLEAN (Special) — In a home ceremony solemnized October 10, Miss Barbara Nell Williams, daughter of Mr. and Mrs. Leroy Williams, became the bride of Kenneth Wilson, son of Mr. and Mrs. Paul Phillips.

Preceding the ceremony, Miss Norma Watson, cousin of the bride, sang "Because," accompanied by Miss Floella Cubine, pianist. Miss Watson, as pianist, played "I Love You Truly" and "Through the Years" as a nuptial prelude.

Given in marriage by her father, the bride was attired in a brown tailored suit. Her accessories were yellow and brown and she carried a white Bible topped with yellow roses.

Both the bride and groom are members of the junior class of McLean High School and plan to continue their school work. Invited guests, other than members of the immediate families,

Forum Meets In Frank Kelley Home

Mrs. Luke McClelland discussed the city of Houston, and Mrs. Henry Rose introduced "A Part of America We Don't Know" at the Twentieth Century Forum meeting Tuesday in the home of Mrs. Frank W. Kelley.

"Houston is the new giant of Texas," Mrs. McClelland said, "and is the modern American success story, a boom town of such fabulous proportions that the mark of real wealth is not just a yacht, but yacht plus a few ranches and airplanes plus a bank roll of, say, twenty million dollars."

Mrs. McClelland raised her discussion of Houston, the nation's fourteenth largest city and the South's first, upon a recent magazine article.

Part of Mrs. Rose's program was an article appearing in the June National Geographic Magazine, "Rooming the West's Fantastic Four Corners," by Jack Breed. She also discussed other less known sections of this country.

A special guest at the meeting was Mrs. Walter Rogers of Washington, D. C., member in absentia. Others present were Mrs. Mmes. Aubrey L. Steele, Arthur Teed, M. McDaniel, Bruce Pratt, Crawford Atkinson, J. R. Holloway, McClelland, Raymond Laycock, Roy Bourland, E. J. Dunigan, Dick Hughes, Rose, C. V. Wilkinson, and the hostess.

Roll call was answered with "Tales about Texas."

RUTH MILLETT

"I'm not very good about keeping up with my friends." Have you ever made that admission? If you have what you are really saying is: "I don't bother much with being a good friend" and also, "I haven't as many friends as I might have."

That is a common enough mistake and one that most of us make to some degree. But it is a costly one.

For friends, real friends, are important to our wellbeing and happiness. And we are important to theirs.

We choose our friends for many different reasons. Because they think like we do. Or because they challenge us to think differently.

Because they are fun to be with. Or because they are sympathetic and understanding. Because they have qualities we lack but admire. Or because they admire qualities in us and the admiration is heartwarming.

We make friends for all these reasons. And all of them are important. For they all add to our pleasure in life, to our growth as individuals, and offer us the satisfaction of giving something of ourselves to others.

Doris Carter Is Worthy Advisor Of White Deer Chapter

WHITE DEER (Special) — Doris Carter was installed Worthy Advisor of the White Deer Chapter, Order of the White Deer Chapter, at the lodge hall in White Deer. Installing officers were: Annie Lou Riggins, Bel-lye Colar, Mrs. A. D. Parsons, Mrs. J. C. Jackson, and Mrs. W. R. Wrinkle.

Other officers installed were: Worthy Associate Advisor Barbara Evans; Charity, Betty Roles; Hope, Fay Smith; Faith, Janice Hess; chaplain, Judy Rhodes; drill leader, Sue Williams; Love, Doris Kenney; Religion, June Traylor; Nature, Conya Prall; confidential observer, Amy Durning; and Musician, Julia McConnell.

Following the benediction by Mrs. Lavaughn Curris, refreshments of cake and punch were served.

Diabetes is more common among people who have been overweight than among those who are underweight.

SUGAR AT ITS BEST! PURE HAWAIIAN CANE. THOUSANDS OF DOCTORS APPROVE IT! ST. JOSEPH ASPIRIN FOR CHILDREN.

"Of course he's wearing a short pants suit, You've got an all-women jury, haven't you?"

June Was A Big Month For Weddings In 1903

June, in line with the American tradition, was the big month for weddings in Gray County in 1903. One-third of the total marriage licenses sold that year were recorded during that month and are on file in the county clerk's office today.

Six licenses were sold that year and two were in June. H. F. Kuehn and Miss Marie Sohn bought licenses June 6 and H. B. Bradley and Miss Laura Gragg June 20. Others filed that year were for W. A. Stubbs and Miss Lena Crabtree, Oct. 10; Howard Huges and Miss Mae Huff, Aug. 6; G. H. Simpkins and Miss Jennie Fay Craig, Nov. 21; Elmer B. Reeves and Miss Jennie M. Huff, Dec. 15.

The next wedding was the following April between Miss Nettie Maude Owens and F. F. Sanning.

Cook's Nook

When your doorbell rings this Halloween be prepared to give your customary visitors a real treat!

Have their favorite graham crackers frosted and decorated with amusing Halloween faces. Use any one of the three flavors of quick fudge and frosting mix—chocolate, peach or coconut. It takes just four minutes to make enough frosting for almost a whole box of graham crackers.

These Halloween cookies, served with ice cream or a milk pudding or with cider are perfect party refreshments. They're quick-to-make and the youngsters will love 'em.

HALLOWEEN FACES 1 box graham crackers 4 tablespoons butter or margarine 4 tablespoons water 1 package quick fudge & frosting mix

Candy corn, raisins, shredded coconut. Keep water boiling in bottom of double boiler. Into top part put butter or margarine and water (fill paper measure in package to frosting mark). When butter has melted, add contents of package of quick fudge & frosting mix. Stir three to four minutes until glossy. Remove from boiling water and frost graham crackers immediately. If frosting gets too thick to spread, replace over boiling water.

While frosting is still soft, make faces with candy corn or raisins on each cracker. Shredded coconut can be used for whiskers to make cat faces.

Ordained ministers were few in the area about that time and marriages were performed by judges and traveling ministers for the most part. Elders of various denominations were also authorized to officiate.

Only 28 marriages were recorded from 1902 until 1907. It wasn't that people weren't romantic in those days, there just weren't many couples in the area at the time.

Program Outlined At 20th Century Club Meeting

General program plans for the Twentieth Century Club this year were outlined at a meeting this week in the home of Mrs. E. L. Campbell. Mrs. Fred Neslage was in charge of the program.

Mrs. Joe Gordon discussed project plans, after which a letter was read from the state president who urged all federated club women to participate in November elections, and encourage at least 10 other votes.

Refreshments plates were served to Mmes. W. R. Campbell, Frank Cutherson, Jack Foster, Gordon, Ray Hagan, Lloyd Hicks, J. B. Massa, Neslage, George Scott, Ralph Sidwell, Kirk Duncan, George Vineyard, and H. R. Thompson.

Keep Clothing Looking Lovely

By ALICIA HART NEA Beauty Editor There's only one way to keep your clothes looking lovely. You must give them constant, daily care.

Remove spots as soon after they appear as possible. Have a clothes brush within easy reach of the closet to use for brushing away dust and lint from the fabric surfaces of your clothes.

Small rips and tears will just get larger unless you mend them before they have the opportunity. Don't fill your closet with any kind of hangers. Each garment demands a suitably shaped hanger, if it is to keep its line.

Use proper protection against perspiration. This means shields plus a deodorant, if necessary. Never apply perfume or cologne directly to a fabric. It may stain and also give an unpleasant odor to the material.

Your entire wardrobe should receive an occasional airing, and periodic laundering or cleaning. On the subject of laundering, there are certain clothes that should not be washed, even though the material has all the necessary laundering credentials. It is much wiser to dry-clean any garments that have elaborate, fine pleats, a lined jacket, or contrasting color trimmings that are not specifically tagged colorfast.

Treat your clothes with consideration. They will wear longer, look smarter, and give you a great deal of satisfaction.

Mrs. H. H. Boynton Named Vice-President Of Church Women

Mrs. H. H. Boynton was elected vice-president of the District 14 Texas Council of Church Women at a meeting held recently in Dumas.

Program theme was "Christ, Our Strength." Others attending from Pampa were Mrs. Tom Johnston, Mrs. Don C. Boyd, and Mrs. Lee Harrah.

THIS PLACE SURE IS LONESOME AFTER THE SEASON ENDS, AND THE CITY SAILORS GO BACK TO TOWN FOR THE WINTER.

MATURE PARENT

By MURIEL LAWRENCE Some young friends of my daughter took me to the movies the other day.

The one we saw recounted the adventures of several girl employees of a department store who wanted better chances to meet rich men. To solve this problem, they pooled their salaries and rented an empty mansion whose drawing room they furnished with B picture elegance.

Upstairs, in one bedroom, they sleep on army cots. But the rich young men they succeeded in attracting didn't know this, of course. Thus these heroines generated great suspense for the audience by their fear that the boy friends would discover what liars they were.

Even more was suspense generated when one of the girls had the bad taste to fall in love with a poor young man who worked in the basement of the department store. In a stirring climax, the poor young man turned out to be the son and heir of the department store owner.

My daughter's friends saw nothing odd about this movie. How many other youngsters across the land suffered and triumphed with fit moral morals. I don't know.

All I know is that the censors who frown so virtuously upon exposure of the human "high in movies seemed to see nothing offensive, nothing immoral in the picture's frank suggestion that love and happiness can be hijacked by lies and deception.

All I know is the children will eat doped candy if it comes in familiar wrappings — and that while we check what goes into their stomachs, we pay no attention at all to what goes into their minds.

The movie was widely advertised. The other Sunday on the back page of my newspaper, I

THOUGHTS

He is too experienced a parent ever to make positive promises. — Christopher Morley Children wish fathers looked out with their eyes; fathers that children with their judgment looked; and either may be wrong. — Shakespeare

came upon an item that will not be widely advertised. In it, Professor Lowell S. Trowbridge of Boston University's Department of Human Relations said that girls are marrying earlier because they don't like work. He said "The life of a young married woman as presented by women's magazine fiction is a real influence on girls. They see only a dazzling future in sweet suburbia. Their attitude is 'what has he got to offer me?' instead of 'how can I be a good wife to him?'"

Not that it matters where the editor put Professor Trowbridge. If we are ourselves disgruntled because our lives have not turned out like a B picture, nobody is going to persuade us that Mary must think about the movies she sees or the confession magazines she reads.

No power on earth is going to arouse us to teach Mary to question the stuff her world throws at her every day of her life unless we consciously question and refute it ourselves.

But we shouldn't try to remove such Grade B entertainment from our children. It's fine for the young to know that there are people who have no respect for themselves or for love. Mary will meet thousands of them. She must learn to spot them, that's all.

SINUS SUFFERERS

At last an amazing, new & better formula to relieve the tortures of sinus, hay fever & catarrh due to nasal congestion. Agonizing sinus headaches, sneezing, stuffed nostrils relieved immediately. ... yet enjoy the richest coffee of all.

Smart housewives know that the true cost of coffee is measured by the number of cups a pound of coffee makes... not by the price they pay for it in the store. Good coffee today costs at least two cents per cup. But with Maryland Club, because of its extra richness... you can use less to make each flavor-rich cup... get 10 to 15 more cups out of every pound... thus you can actually* save up to 25¢ per pound.

Try Maryland Club and discover for yourself how really good coffee can be... and how economical, too! Buy coffee the smart way and save up to 25¢ a pound... buy Maryland Club!

more cups per pound MARYLAND CLUB COFFEE *as certified by Southwestern Laboratories

Maryland Club Coffee the coffee you'd drink if you owned all the coffee in the world!

Experts Still Seek The Origin Of Oil In The Panhandle

For many years, geologists and chemists have worked steadily in an effort to determine how oil was originally formed. Until this question is answered, we will not know the origin of Texas Panhandle oil or of the oil from any other field for that matter. In the meantime, we assume that certain things have happened (chemically or otherwise) during a period of a few million years . . . and crude oil resulted.

The chemist has tried to reproduce crude oil in the laboratory and has analyzed crude oil in an effort to determine how it might have originated. As yet this has not been done. A good quality of lubricating oil has been produced from a dry gas consisting largely of methane, a hydrocarbon. This could be our source of lubricants in the distant future.

The expression "We've struck oil" means to most people that a pool of oil, with a dam at each end, has been encountered below the surface of the earth by the drilling bit of a drilling unit. In other words, they think of oil being found in a certain area (preferably under their land, they are hopeful it will extend further . . . under their land . . . and that maybe an "ocean" of oil may be discovered . . . under more of their land. The public is gradually learning, however, that oil occurs in the pores of rocks and is not a pool or pond in the ordinary sense of these words.

SOME SPUDS! — Or so, at least, B. M. Montgomery, 218 N. West, seems to be saying as he looks over a crop of sweet potatoes that he raised on his truck farm east of town. Employed in the gas department of the Magnolia Petroleum Co., he has been raising the "spuds" as a hobby for the past 15 years. But this is the first year that he has brought forth such an "expert" crop. Montgomery raised 28 pounds of spuds under one hill (they sell at 25 cents per pound) and farms 2,000 hills on five acres. And they were go-o-o-d, too! (News Photo)

Experts have changed their shape—what is, uplifted and subsided lifting or mountain-forming periods to the most recent. Several geologic cross-sections of the Alibate dolomite as evidenced in the canyons in the vicinity north and west of Borger—have been prepared to show as early as 1914. Several geologic cross-sections have been prepared to show as well as possible what the geologic conditions were in the Panhandle area at the end of Pennsylvanian time, the end of Permian time (Middle Permian), and the present time.

It is difficult to imagine how oil does accumulate. The simplest way of explaining the conditions that must exist below the surface for the accumulation of oil is to pour some oil into a glass jar filled with fine and coarse sand. When water is poured into the jar, the oil will gradually float to the top of the water, accumulating in the porous space around the sand grains. If silty material has been mixed with the sand, the greatest accumulation of oil will be in the porous zone absent of silt. Oil found below the ground accumulates in greater quantity where the sand, limestone, or dolomite is being a buried mountain range extending from several miles east of the town of Shamrock Wheeler County, to a point near the town of Channing in southeast Hartley County, a distance of approximately 150 miles. Some of the peaks along this range are penetrated with the drill but at depths from 1300 to 1400 feet below the surface and rise several thousand feet above the surrounding valley lying to the north of Pampa. Pampa is considered to be located on the north flank of the buried mountain range.

There are two trends of thought as to the origin of Panhandle crude oil. One is that oil was formed chemically, through chemical reaction of the different minerals present in the rocks. The other theory is that oil was formed originally in vegetable and animal life, after such vegetables and animals were covered with many tons and layers of flood materials such as silt and sand that had been washed from the elevated ground by floods onto areas inhabited by animals and plant or vegetable life. Intense pressure and heat from the heavy overburden would cause oil to seep from the decomposed animal and plant life, migrating ite, Oklahoma, eastward to Medicine Lodge, Oklahoma. The peaks of small mountains rising above the surface in this region are "haid-headed" granite peaks that have been exposed above the ground and to the elements of erosion such as rain, wind, snow, sun, and variation of temperature for thousands or millions of years, permitting the limestone, sandstone, and other forms of sedimentary rocks that formerly overlaid the granite to be eroded from the elevated peaks and re-deposited in the river valleys and flood plains in western Oklahoma. The granite peaks have been more resistant to the elements of erosion and will remain exposed at the surface for hundreds of thousands of years or until they are eroded level with the surrounding country.

Soil now present in the immediate vicinity of the granite peaks consists of material which makes up some of the oil-producing formation in the Texas Panhandle — granite wash. The buried mountains in the Texas Panhandle were exposed at the surface the same as the mountains, or peaks, that are now exposed at the surface in western Oklahoma. The granite wash which is productive of oil in the Texas Panhandle was eroded and deposited in the river valleys and flood plains in the same number as the sand and granite wash are now being deposited in the river valleys and flood plains in western Oklahoma. Several thousand feet of granite wash have been drilled in western Oklahoma and the Texas Panhandle. The Elk City Field in Washita and Beckham Counties, Oklahoma, produces oil and gas from a sandy formation containing a high percentage of granite wash. The prolific Finley, Bowlers, Combs-Worley and Keller-ville fields produce oil and gas from very porous granite wash.

But back to the origin of oil in the Texas Panhandle. The granite wash which we find to be productive of oil and gas is known to immediately overlie the truncated or tilted edges of rocks of Mississippian and Ordovician age. These formations are productive of oil and gas in central Oklahoma (Oklahoma City Field), Kansas and West Texas. There is geological evidence from wells drilled in the Texas Panhandle that point to the fact that the buried moun-

ONLY COFFEE OF ITS KIND IN THE WORLD!

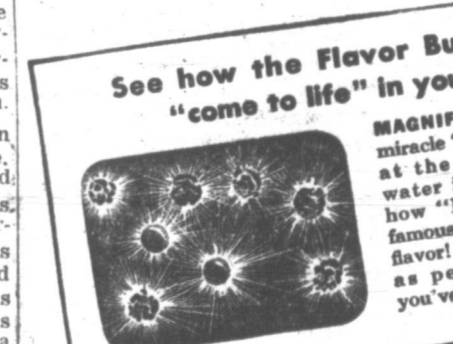

Not a powder! Not a grind! But millions of tiny "FLAVOR BUDS" of real coffee . . . ready to burst instantly into that famous Maxwell House flavor!

Utterly unlike old-style "instants" . . . just as quick but tastes so different!

In the famous Maxwell House kitchens this superb, roaster-fresh coffee is actually brewed for you. At the exact moment of fresh-brewed perfection the water is removed—leaving the millions of miracle "Flavor Buds"!

100% Pure Coffee—No Fillers Added! You just add hot water . . . and instantly the bursting "Flavor Buds" flood your cup with the richest, most delicious coffee you've ever tasted. One sip and you'll know at once that you can never go back to old ways!

Saves you money, too! Economical Instant Maxwell House saves you up to 25¢—compared to a pound of old-fashioned ground coffee.

The only instant coffee with that **GOOD-TO-THE-LAST-DROP** flavor!

Extra Work Wins Awards

By SAM DAWSON

NEW YORK (AP) — Do more than the boss expects of you and in some companies you'll get an award.

Sometimes the outstanding employee gets a citation. But some times he gets as much as \$1,000 in cash.

Recently there has been an increase in the number of companies giving formal honor to workers who perform "beyond the line of duty," the National Industrial Conference Board reports.

The award publicly honors the employee who "contributes extra thinking, extra energy, extra courage, extra enthusiasm, which are tremendous assets to his company.

Some companies however, have been doing it for years.

General Electric, for example, since 1925 has given 972 awards for a total cash outlay of \$275,000, mostly in defense bonds. A typical award: "A toolmaker for developing methods of precision bending and fabricating wave guides for aircraft systems."

G.E. also gives many awards of from \$100 to \$1,000 to employees who do unusual jobs on a divisional basis.

Bell Telephone has been recognizing exceptional service ever since 1920. Bronze medals, plus \$100, are given employees for saving lines or prompt emergency action in emergencies. Silver medals and \$500, and gold medals plus \$1,000, are given to the most outstanding acts or services in any one year.

Goodyear Tire and Rubber gives gold medals for the best performance in 11 different divisions. Armco Steel awarded 25 distinguished service medals between 1925 and 1927, usually for saving a life but occasionally for other reasons.

Although the number of active clerymen in the United States has increased about 40,000 since 1940 or about 30 per cent, the National Council of Churches reports there are thousands of vacant pulpits.

TALL-PERCH POOCH—A Tokyo cyclist pedals his two passengers—a little girl and his pet dog—with little regard for staring eyes. The youngster rides as many children do, but the pooch, has a special "box" seat.

Reds Lead In German Films

By BOB THOMAS

HOLLYWOOD (AP) — The Communists are taking the lead in German film production, says a noted actor of Germany, here for a movie role.

The actor is O. E. Hasse, a leading star of the Berlin stage and screen. He won fame in "The Big Lift" and "Decision Before Dawn," two U. S. films made in Germany, and is here for "I Confess."

Observers say he is stealing the picture right out from under the noses of such Academy Award winners as Anne Baxter and Karl Malden.

Herr Hasse had some serious comments to make about the poor status of the film industry in Western Germany. But the film makers in Communist East Germany are thriving, he added.

"Strangely enough, the Communists did not use the big UFA Studios after the war, he remarked. "All the equipment was carried away to Russia. But the Communists have established another large studio, DEFA, and it is making a lot of pictures. They are able to do that, because the industry is state-financed.

"Most of the pictures are pure propaganda. But there is also a great deal of experimentation, and some of the pictures are very good.

"On the other hand, the pictures made in West Germany are generally poor. They are made cheaply and with cheap subjects. The facilities are not had, there is one good studio at Munich, the Geiselgasteig, and other little ones. But financing is hard to get. All the big companies were broken up by the Allied powers. Producers have to scrape the money together to make a picture.

The decline of the free German Western Germany is in better shape than the movies. Although no great new playwrights have arisen theater business is good for classic and foreign plays, he commented. The Germans have apparently taken to Tennessee Williams: "The Glass Menagerie," "Summer and Smoke" have had "A Streetcar Named Desire" and good runs.

A YOUNGSTERS DELIGHT — Few things give a youngster as much pleasure as climbing aboard a fire truck. These lucky school-agers are winners in McLean's Fire Prevention Week poster contest. Atop the truck are (l. to r.) Delores Ann Hatck, Nancy Tate, Monta Jean Kennedy, Glenda Smith, Caroline Stokes, Clyde Allen Windom, Donna Graham, Sue Adams and Paul Pierce. Along side the truck are (l. to r.) Barbara Croxton, Bobby Weaver, Ray Dilbeck and Ray Lee. At the wheel of the truck is Fireman H. Pool.

Myth Founded In History . . . Forget Your Fear Of Tarantula, He's Not As Bad As Believed

COLLEGE STATION (Special)

"Forget your fear of tarantulas. They're not the killers they're cracked up to be."

That's the advice of Dr. Dial P. Martin, professor in the Department of Entomology at Texas A&M College. The popular myth about the power of the tarantula's bite has been found completely without foundation.

This overgrown spider should be treated with respect but not terror, Dr. Martin says.

"The tarantula's bite is about equal to the sting of a bee or red ant," the entomologist said. "The venom probably is compounded of a similar material to that of the ant, which uses formic acid as a base."

Only a few years ago a newspaper recounted the experience of a native of the Ozark mountains who'd just bought a new car, which he parked in his yard.

One morning the man climbed into his car and drove out onto a twisting road which ran alongside a steep drop-off. Chancing to look down at the floor-board on the passenger side, he saw a huge tarantula staring at him.

Then and there he left the car which crashed down the mountain side while he leaped onto the road, receiving severe bruises and abrasions.

The newspaper article stated that he lost the car, of course; it was completely destroyed; but that he considered himself extremely fortunate to escape the bite of this fearsome spider.

Don't let the tarantula's ferocious appearance fool you, Dr. Martin cautions. It really is a vicious-looking arthropod, with its two-to five-inch leg span and huge, hairy body.

On the other hand, the tarantula is not a toy for children, any more than a bee or an ant is a toy. Some persons who were bitten by tarantulas have had large and painful swellings, even been ill for a time. But ant and bee stings cause the same effects in certain persons.

Far more people have hurt themselves trying to escape from tarantulas than have been even slightly injured by them. The greatest danger from the spider's bite is self-induced shock by a victim who thinks he faces certain death.

Traditionally the tarantula has been credited with awesome powers, including an effect called "tarantism," widely known in Europe during the middle ages. From this reputation comes the present-day term of these comparatively harmless spiders.

Concerning tarantulas and "tarantism," the Cambridge Natural History says:

"The bite of the spider was supposed to induce a species of madness which found its expression — and its cure — in frantic and extravagant contortions of the body. If the dance was not sufficiently frenzied, death ensued. In the case of survivors, the symptoms were said to recur on the anniversary of the bite. Particular descriptions of music were supposed to incite the patient to the excessive exertion necessary for his relief; hence the name "Tarantella."

"In the middle ages epidemics of 'tarantism' were of frequent occurrence and spread with alarming rapidity. They were seizures of a hysterical character, analogous to the ancient Bacchic dances, and quite unconnected with the venom of the spider from which they took their name. The condition of excitation and frenzy was contagious and would run through whole districts, with its subsequent relapse to a state of utter prostration and exhaustion. The evil reputation of the tarantula appears to have exceedingly little basis in fact."

About 50 species of tarantulas are known to exist in the U. S., chiefly in the Southwest areas. They range in size and appearance from the small, fuzzy black ones which are some two or more inches in leg span — with the legs drawn into natural position — to the larger, soft brown ones with longer hair and a five-inch leg span.

In numerous experiments with those species found in the U. S., none has been known to kill a larger animal than a rat. Only four rats of the large number used, died from the bite or injection.

Reports have been received of one species in the Panama Canal area which can kill a guinea pig. Dr. Martin said.

Overweight people are more apt to have high blood pressure, statisticians of the Metropolitan Life Insurance Co. have discovered.

Fire Prevention Winners Announced In McLean School

McLEAN (Special)

James Prock, principal of the McLean Elementary School, announced the winners in the annual Fire Prevention Week poster contest last week.

All students in the school participated in the contest and three winners are selected from each of the 10 rooms. To each of the winners goes a small cash prize, provided by the local Lions Club, sponsors of the project each year.

The winners, by grades, beginning with the first are as follows: Kathryn Harlan, Barbara Ann Smith, and Toni Mertel; Paul Pierce, Don Woods, and Tommy Herron; Clyde Allen Windom, Sue Adams, Donna Sue Graham, Don Hrucek, Doris Van Huis, Davis Jenkins (two 3rd grade rooms); Judy Wyatt, LaQuita Wells, Nancy Meacham, Bobby Weaver, Barbara Dell Croxton, Ray Dilbeck; Caroline Stokes, Phyllis Hancock, Alma Pool, Retha Bragg, Carolyn Hugg, Carolyn Patterson, (two 5th grade rooms); Delores Ann Hatck, Nancy Tate, Daniel Lee; Monta Jean Kennedy and Glenda Smith — only two entries from the 8th grade.

Present for the awarding of prizes were Lions J. C. Claborn, C. W. Parmenter, J. W. Meacham, J. L. Dysart, Paul Kennedy and J. M. Payne. Also present were firemen H. Pool, S. A. Cousins, and Boyd Meador (chief) who later took the winners plus the entire 1st grade for a ride on the fire trucks.

English Workshop Program Is Planned

THE annual English workshop program of the ninth district of Texas State Teachers Association will be held Oct. 18 at West Texas College, according to Helen White Moore, college division chairman.

Theme for this year's conference is "A Critical Study of the Teaching of Grammar and Composition." General session opens at 9:30 and continues until 12, and all meetings are scheduled in the Branding Iron Theater. A luncheon closing the conference will be held at 12:30 in the college cafeteria.

Main speaker for the day's program will be Dr. George Vandaman, assistant professor of speech and communication at the University of Denver. Dr. Vandaman will speak on "Something Old Has Been Judged" at the luncheon. Gertrude Golladay, White Deer High school teacher, high school division chairman, will preside.

ANNOUNCING BEST SYRUP NEWS IN MANY YEARS

New Brer Rabbit reminds "old-timers" of real ribbon cane flavor. And in syrup, it's flavor that counts!

FORT WORTH . . . Is there an "old-timer" in your family who is always harking back to the wonderful syrup folks used to enjoy in the "good old days"? The kind made from Ribbon Cane—that gave syrup a flavor that was simply glorious?

Today that marvelous "old-time" flavor is here again! Here to make your hot biscuits and corn bread, your pancakes and waffles a brand-new treat. Just try it, you'll see!

It's the new Brer Rabbit Syrup—a new flavor your family will simply dote on! The new Brer Rabbit Syrup combines lightness and sweetness in a delicious combination that modern Southerners vote "tops." Mild and light, it tastes just right—makes everything you put it on taste finer than ever!

IN STORE TESTS . . . folks who tasted, praised its flavor

DALLAS . . . "Taste this new syrup, ma'am,—and say how you like it?"

In stores through the Mississippi Delta and East Texas, people tasted the new Brer Rabbit Syrup . . . smacked their lips . . . and gave their delighted answers:

Ten to one—the chorus was "YES!"

Did they like the new Brer Rabbit "better than the syrup they were now using?"

Again the chorus was a resounding "Yes!" Almost 7 times as many said "Yes" as said "No!"

Even people who have used Brer Rabbit Syrup for years were outspoken in liking this new Brer Rabbit even better!

People like you—said things like this

In Houston: "Sweet enough but not too sweet—has a new taste." "Best flavor!" "Mild and not too strong." "Would be fine on cakes and waffles."

Local stores now stocking new flavor

Your grocer now has the new improved, lighter Brer Rabbit Syrup, packed under the old, familiar Brer Rabbit label.

DEALERS: To meet the demand for this improved new syrup, write or wire Penick & Ford Ltd., Inc., New Orleans 7, La.

MR. VICTOR WINTZ, Annandale Plantation, White Castle, La. . . shown with Mrs. Wintz and their three attractive little daughters. The Wintz family has lived in the South for many years. They know sugar cane! They know syrup! They think the new Brer Rabbit Syrup is the best yet!

Texan reminded of sugar mill days

"Everybody in this sugar cane country knows it takes the right sugar cane to get that old-time ribbon cane flavor," says Mr. S. K. Hays of Edom, Texas. "The new Brer Rabbit Syrup reminds me of

Makes Hot Biscuits a New Treat!

Your fine hot biscuits will win new praise, once folks taste them with new Brer Rabbit Syrup. It's sweet, but not too sweet. A light, mild syrup that doesn't hide the flavor of hot breads, pancakes and waffles . . . just makes them taste perfect!

NEW SYRUP A FINE ENERGY FOOD

Children burn up so much food energy in their active play, they need an extra supply, to grow on. Give them plenty of delicious Brer Rabbit Syrup! It's a fine "fuel food" . . . concentrated "energy" that is easily digestible and inexpensive, too.

For light, mild syrup try BROWN LABEL Brer Rabbit

For richer, fuller sugar cane flavor, try BLUE LABEL Brer Rabbit

Brer Rabbit Syrup

the sugar mill days when I was a boy. And in syrup, it's the flavor that counts!"

Yes, Brer Rabbit has recaptured "old-time" syrup goodness! A pitcher of Brer Rabbit—on your table—will mean Happy Eating!

IN SYRUP IT'S THE FLAVOR THAT COUNTS!

There are many syrups on the market but there's only one way to judge them—and that's on flavor. You'll find some have a strong taste, others an over-sweet taste. But Brer Rabbit—well, there's a syrup that tastes just right. And Brer Rabbit makes pancakes, waffles, hot biscuits and corn bread better than ever before.

TRY BRER RABBIT AND SEE FOR YOURSELF

LOOK FOR THE RABBIT!

BUT THEY'RE ALL RED—These babies all come in the traditional lobster-red color of newborn infants, but they're really Black, White, and Brown. The confusing truth is that they were born to, left to right, Mrs. Rita Black, of Forest Hills, Ill., Mrs. Ann White, of Wheaton, Ill., and Mrs. Patricia Brown, of Chicago. The stock recently delivered his technicolor cargo within 24 hours at Presbyterian hospital in Chicago, Ill.

Anne Baxter Has Busted Loose From Her Usual Conservatism

By BOB THOMAS

HOLLYWOOD (AP) — What's happened to our Anne Baxter? Long considered one of the most able and more conservative of the younger actresses she started busting loose on her last picture. She played Cleopatra in one sequence and wore a rhinestone in her navel. That did it.

Then she started saying that Hollywood wasn't glamorous enough any more. She also said that conversation is virtually a dead art in the movie town. She dyed her hair blonde, making her look like Marilyn Monroe's sister. And now she's smoking cigars!

Yep real Havana stogies. But not the long kind.

"They're short and thin, like a cigarette," she told me. "But they're the same makings as the cigars men smoke."

She credits Alfred Hitchcock, her director on "I Confess," with introducing her to cigars.

"We were on location in Quebec," she said. "After dinner, Hitch took out a cigar. It smelled heavenly, light and fragrant. Not the foul, heavy kind of smoke that clings to men's clothes. I tried it and was delighted. So Hitch sent to Cuba for the short, thin cigars, which are more suitable for women. I've been smoking them with coffee after dinner, and they're wonderful."

Miss Baxter said cigar-smoking by women is prevalent in Europe. She sees no reason why American women shouldn't follow suit.

"Of course, the men will raise a fuss," she remarked. "They always complain when they

Long-Lost Memento Of Napoleon Found

BOLOGNA, Italy (AP) — The document for which France has been looking for the past 80 years has been discovered in the archives of a count here.

The document is the signed letter with which Napoleon III, last emperor of France, surrendered at Sedan to Wilhelm I of Germany. The document disappeared from the German court between 1872 and 1875.

The letter says: "Mister my brother, as I was unable to die in the midst of my troops, I have only to hand my sword in the hands of Your Majesty. I am of Your Majesty, the good brother — Napoleon."

something about it, Helen Deutsch has offered her home as the locale for some Sunday brunches aimed at producing stimulating conversation.

P. S. Cheering note for pipe smokers: Anne has tried pipes, too, but gave them up. Too messy.

Cruce Outlines City Chores

The things a city manager must do and the things that are expected of him were the subjects of a classification talk given Wednesday by City Manager B.H. Cruce to the Pampa Rotary Club.

Cruce said a city manager is obligated to deal with the city commission as a whole on an impartial and factual basis on all matters from financing to hiring and dismissal of personnel.

"Operating policies are set up by the commission," Cruce said, "and it is the manager's duties to see to it that they are properly administered."

Cruce outlined the history of

Hoppy Abramowitz Rides Again — In Bronx

NEW YORK (AP) — Harry (Hoppy) Abramowitz is probably the last cowboy in the Bronx section of New York.

His "ranch" is scattered all over the borough. In a three-story stable he keeps 43 horses, 12 goats and a dog. On five lots he has a rare assortment of wagons, buckboards, surreys, tally-hos, victorias and barouches.

The 64-year-old "cowboy" rents his equipment to advertise bond rallies, movies, parades, political candidates and commercial products.

He began his collection in 1910 when he bought 64 carriages from a member of the Vanderbilt family for a total price of \$50.

He began his collection in 1910 when he bought 64 carriages from a member of the Vanderbilt family for a total price of \$50.

Two Roosevelts Rooting For Ike

NEW YORK (AP) — Two of the late Franklin D. Roosevelt's sons are rooting for the Republican presidential candidate, Gen. Dwight D. Eisenhower.

The other four members of the late Democratic president's family are sticking to his party.

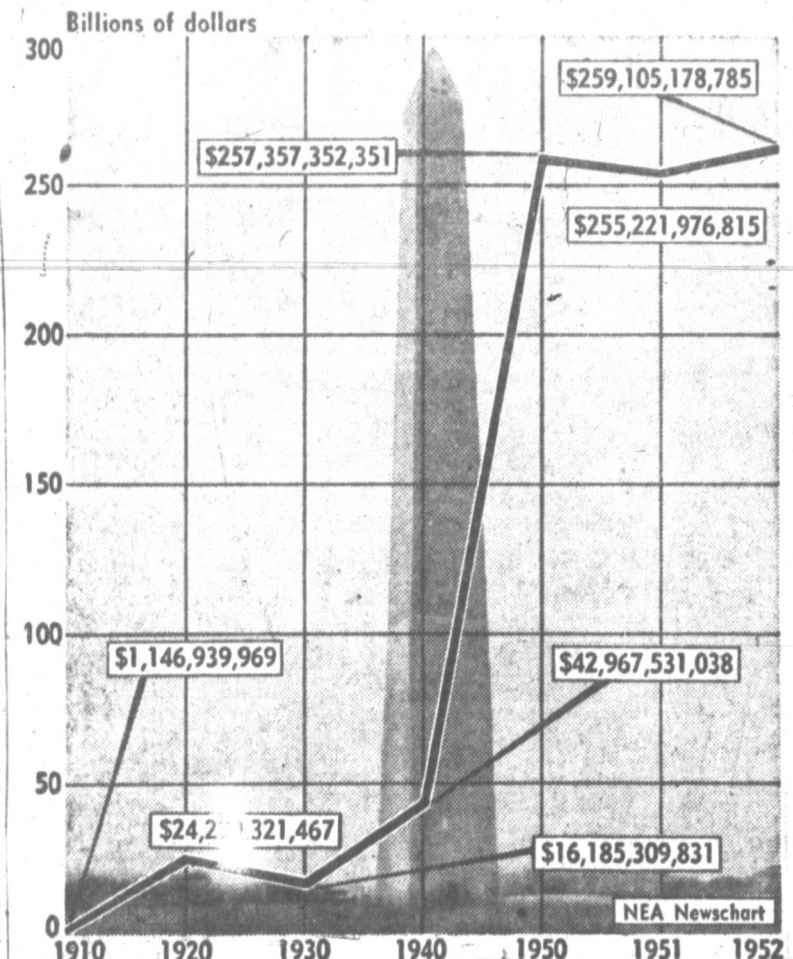

"We're all individuals," said FDR's youngest son, John, "and that's what makes a horse race as father used to say."

John a distributor of colognes and soaps, switched party allegiance in 1948, and supported Gov. Thomas E. Dewey, and he's for Eisenhower this time.

Elliott, on a Meeker, Colo., ranch, announced even before Eisenhower was nominated that he would back the general.

The rest of the family—Mrs. Franklin D. Roosevelt, the other two sons, James and Franklin Delano Jr., and daughter, Anna—are all taking an active part in boosting Gov. Adlai Stevenson.
