COMMUNISTS MAKE NEW DEMANDS

U. S. Steel's Rejection of Truman Wage-Price Plan Takes Spotlight

Corporation Refuses To Resume Talks

WASHINGTON, Nov. 8—(AP)—President Truman's labor-management conference tolled through a bulging agenda today, but United States Steel corporation held the capital's attention with a sharp rebuff to Mr. Truman's wage-price policy.

Through its president, Benjamin F. Fairless, the corporation notified Secretary of Labor Schwelbentz that it would not resume wage talks with the CIO Steel Workers until it had the government's answer on steel price increases.

Fairless dashed cold water, also, on Mr. Truman's proposal that employers grant wage increases now, then wait six months before seeking a price ceiling adjustment from OPA if profits dwindled too sharply.

Fairless said if wages are boosted, additional steel price increases—beyond those already pending—will

HOW'S 'BOUT IT, MOM AND POP!

make my way and to take part in things. You know, don't you, Mom, that it's kids like me today who must be YOU of tomorrow.

M'Arthur Would Open Cabinet to Militarists

Child Resembling Missing Boy Seen In San Francisco

SAN FRANCISCO, Nov. 8—(AP)—San Francisco police alerted all California points early today to be on the lookout for two men who may have missing Dickie Tun Sudan, 3, with them in a late model car.

Inspector Joseph Donegan broadcast the alarm after Mrs. Mildred Beer of No. 3 Pinto avenue, Park merced, reported a three or four-year-old boy resembling the Tun Sudan child had come to her door just before midnight, and was seized some time later by two men who forced their way into her home and knocked her down.

She told Donegan she heard a noise at her door and found the three-year-old youngster outside alone. She took him inside, fed him some milk and about an hour afterward called the police.

Three radio squads were dispatched immediately to Mrs. Beer's home in a new, suburban residential district in southwest San Francisco.

Five minutes after Donegan had received the woman's call he phoned her back to see if the police cars had arrived. During that interval Mrs. Beer said two men came to the door, claimed they were policemen and pushed their way inside. One struck her on the forehead, knocked her down and held her while the other picked up the boy and carried him to a car parked outside. His companion joined him and the pair raced away with the lad.

The Tun Sudan boy, scion of a wealthy San Francisco bay area mining family, has been missing since Nov. 1 when he disappeared from the yard of his parents' home at Goodwood, a mining community in the high Sierras. An intensive search in that mountainous country was cancelled Tuesday night after no trace of the boy had been found.

Former Sooner Solon May Be Crash Victim

WASHINGTON, Nov. 8—(AP)—Rep. Johnson (D-Okl.) said today that Jack Nichols, former Oklahoma congressman, had been reported killed in a plane crash somewhere in the Middle East.

Johnson said his information was received by telephone from Clark Nichols, a brother.

Nichols was traveling, it was presumed, in his capacity as vice president of Transcontinental and Western Airlines. He quit congress several years ago to take that position.

WIFE ALWAYS WINS

LODI, N. Y., Nov. 8—(AP)—Mrs. Anna Boyer, republican, candidate for the office of tax collector, polled 308 votes Tuesday running against her husband, Budd Boyer, who was on the democratic ticket.

The voters gave Boyer 125 votes. The Boyers have opposed each other for election to that office in the past several years and Mrs. Boyer hasn't lost yet.

U. S.-Russian Relations Are Moving Slowly

By JOHN M. HIGHTOWER
WASHINGTON, Nov. 8—(AP)—Negotiations between Moscow and Washington over a variety of problems ranging from Japan to Turkey appeared today to be farther from success than officials here had hoped.

Here is the situation:

1. Foreign Commissar Molotov has replied to an American proposal for an Allied control agency in Tokyo which would be subordinate to the Far Eastern advisory commission in Washington. They are strong indications that Molotov turned down this proposal and that Secretary of State Bernes is not inclined to compromise the issue further.

2. The United States has laid a four-point program for revising control of the Dardanelles before the Turkish government. This would give Russia some advantages in the use of the Straits which she does not now have. But it falls far short of Russia's reported desire for military bases on the vital link between the Black Sea and the Mediterranean.

3. A Russian-Turkish treaty of nonaggression and friendship which had run for many years expired yesterday following Soviet renunciation. Diplomatic officials say they fear that Russia may make a few psychological passes at Turkey in order to gain the right to set up Dardanelles bases on Turkish soil and to win certain territories in northeastern Turkey which the Russians have claimed.

4. The problem of the atomic bomb and peacetime uses of atomic energy becomes more acute between the two countries, in the opinion of diplomats here. At the time approaches for conferences among President Truman and Prime Minister Attlee of Britain and MacKenzie King of Canada. These talks will open Sunday aboard the Presidential yacht Potomac.

Byrne declared at an afternoon news conference yesterday to comment on Molotov's speech in Moscow Tuesday saying that Russia would have atomic energy and that the secret of the bomb could not be kept. But the subject evidently was not in Byrne's mind because he went directly from the news conference to the White House to discuss with Mr. Truman preparations for the weekend talks.

Panhandle Yanks Reach U. S. Ports

T/S Cecil E. Johnson of Pampa was among returning servicemen of the Panhandle area who were scheduled to arrive on the USS Hermitage, due at New York Nov. 6, according to the Associated Press.

Others on the USS Hermitage were Pfc. Mervyn D. Stagg, Plainview; S/Sgt. Maynard C. Johnson, Lefors; Pfc. Willie F. Ross, Memphis; Pfc. George H. Yates, Borger; T/S Benjamin H. Baker, Groom; Pfc. Francis E. Gaetz, Hereford; S/Sgt. Floyd E. Shipman, Ranger; S/Sgt. Arthur F. Seaton, Clarendon; Lt. L. Howard F. Barrett, Lubbock; and Pfc. Ernest L. Baker, Amarillo.

USS General A. W. Brewster which arrived at San Francisco from Manila Nov. 3; Sgt. Charles E. Lackey, Shamrock; Pfc. Charles R. Riley, Twitty; Cpl. Conrad H. Miller, McLean; Pfc. John M. Wright, Perryton; T/Sgt. Brity D. Mitchell, Childress; S/Sgt. Glyn Smith, Groom; Cpl. Ernest L. McClinton, Claude; Pfc. Charles E. Vieregge and Sgt. Lester G. Henderson, both of Lubbock; Cpl. Clarence T. Lacy, Pfc. Afton Pieratt, Sgt. Edward Morris, T/S Harry C. Brasler, Pfc. Afton Revatt, Capt. Jom M. Krister and Capt. Eugene W. Bright, all of Amarillo.

British Will Disarm Rebels at Naval Base

NEW YORK, Nov. 8—(AP)—British Maj. Gen. E. C. Mansergh was reported by the Netherlands News Agency Aneta today to have served notice on Indonesian leaders at Soerabaja, Java naval base, that he was bringing in sufficient troops to disarm all Indonesians there except an agreed upon number of police.

Barrett's Frozen Food Markets are installing a number of new lockers for the public. Call 1212. (Adv.)

Occupation May Require 3 to 5 Years

(Editor's Note: Glenn Babb, foreign editor of the Associated Press, has returned on tour to the Orient to study conditions under Allied occupation. This is the first of three articles in which he discusses the occupation of Japan after conferences with General MacArthur, Premier Shidehara and other high American and Japanese officials.)

By GLENN BABB

TOKYO, Nov. 8—(AP)—America's tremendous task in Japan possibly can be fulfilled within three to five years, with an occupying force of approximately 200,000 men.

That is the expressed opinion of many of the men here who should know best, provided the present rate of progress is maintained and there are no drastic changes in policies given occupying authorities.

MUST MAKE JAPAN USEFUL

There is contention here that within a period militarism can be eradicated, a reasonable facsimile of democracy planted and a restricted measure of economic well-being restored. Then, according to this view, American and other Allied armies can be withdrawn, possibly to be replaced by some other form of control, with confidence that Japan will be a useful member of the family of nations with no desire or power to make war again.

This picture was developed from talks with the highest leaders of both Americans and Japanese. The confidence expressed is perhaps more American than Japanese; there are many Japanese who view the future darkly. A few express the hope that American occupation will last many years, regarding it as a shield against further disaster.

Tension Mounts Throughout Java

BATAVIA, Nov. 8—(AP)—A band of 1,000 Indonesian troops and tanks today in Java. Tension mounted throughout Java.

Almost simultaneously Dutch forces threw back another attack on the Jililitan airfield on the southeast outskirts of the capital, scattering a band of 300 nationalists after a pitched battle which lasted nearly an hour.

The British colonel whose troops beat back the first attack, aimed at a camp for released Allied internees and war prisoners, said that for the first time the Indonesians appeared to be fighting under organized leadership.

He said that when the fighting ceased near the camp the situation was under control, but that the attackers might "come back again after lunch."

A delayed dispatch from Associated Press Correspondent Vern Hausland at Palembang, Sumatra, of a dispute involving job fissioning of the slaving by Sumatran nationalists of a British doctor, a British officer and several other high ranking British near Benkoelen Tuesday.

The men reported to have been slain were members of a unit engaged in re-arming Allied prisoners of war and internees. The reports said the natives charged that the British failed to observe the terms of the agreement under which they were allowed to operate there.

Rotarians Discuss Club Classifications

Rotary membership and classifications were discussed at the Wednesday luncheon meeting of the Rotary club under the leadership of Hugo Olsen, member of the Rotary classification committee.

Other speakers said that the Rotary club is more than a luncheon club, that it is a classification club, drawing its membership from top-ranking business representatives in the community.

Confusing But True—Says Here

Persons who have found the Parent-Teacher association program announcements for this evening confusing, need not be too concerned about poor vision, for their mix-up was entirely justified. They really did read what they thought they read.

Knox Kinard, superintendent of schools, will be guest speaker at B. M. Baker, and he will also be guest speaker at Woodrow Wilson R. Virvil Mott, music director of the First Baptist church.

Which all goes to prove that a man can be in two places at the same time—almost.

Phillips Plants At Berger Plan To Call Strike

An intention to strike and a call for a strike ballot have been issued by workers in major Texas industries, adding to the labor-management controversy involving four-day strikes of the Greyhound bus employees at Fort Worth and that of the Garment Workers of America at Sherman.

Workers in six Phillips Petroleum company plants and departments at Borger voted an intent to strike following a dispute and failure to reach an agreement in negotiations with the company.

At Dallas employees of the Ford Motor company plant voted on a strike ballot called by the CIO United Automobile workers.

The workers of the Phillips Petroleum company plants and departments, members of the AFL International Union of Operating Engineers, Local 251, voted an intent to strike in a general call meeting October 23, according to Joe Rigdon, business representative for the union.

Notification of the intent has been given to the company. The national labor relations board has been petitioned for a strike hearing. Strike balloting is slated to be held November 23, after the 30-day cooling off period.

Action was taken after the company refused to agree to governmental or any other form of arbitration in a dispute involving job fissioning at the Plains butadiene plant, according to Rigdon.

The working agreement between the union and the company probably will be in effect soon.

Truman Nominates 2 As Bank Directors

WASHINGTON, Nov. 8—(AP)—President Truman today nominated Herbert E. Gaston of New York and Robert Tenbrock Stevens of Plainfield, N. J., as directors of the Export-Import bank.

At the same time, he sent to the senate the nomination of Chester C. Davis, St. Louis banker and classification food administrator, as a member of the advisory board representing the public in office of war mobilization and reconversion. He succeeds William H. Davis.

Senior High Being Dismissed Tomorrow

Classes at the Pampa Senior high school are being dismissed all day tomorrow so that students may attend the Lubbock-Pampa game in Lubbock. Principal Winston Savage said today.

The Harvesters football team was to leave this afternoon on one school bus and the band is scheduled to leave in two buses tomorrow morning at 7:30.

Federal Troops Must Withdraw

CHUNGKING, Nov. 8—(AP)—The Yenon communists demanded today as the price for peace in China that the central government withdraw all troops from communist-dominated "liberated" areas in North China.

Chou En-lai, Yenon negotiator here, on Nov. 2 Chinese communist announced the Yenon answer to Kuomintang peace proposals shortly after reports that the Russians had withdrawn from the Manchurian ports of Huludao and Yingkow (Newchwang) leaving the Chinese reds in command, heightened the already tense atmosphere.

Chou said the communists demanded that Kuomintang withdraw to positions outside the "liberated" areas before the civil fighting began and order all nationalist troops to cease firing.

The worried looking communist representative told newsmen of the Yenon reply to Chiang Kai-shek's offer and said he would deliver it to nationalist government officials later today.

"The situation," he added, "appears dangerous." Reports that the Russian forces had suddenly been withdrawn from the Manchurian ports of Huludao and Yingkow (Newchwang) leaving the Chinese communists in control, were received here today amid growing signs of impending crisis in the undeclared civil war.

Other developments were: 1. The central government admitted receiving its first serious setback in the fighting in southern Hopei province.

2. The communists followed up the announcement in Washington that American marines would be withdrawn from the trouble zone with a series of four protests to the American commander in Yenon, and held the Americans "responsible for any grave consequence" resulting from their presence.

3. The long awaited reply of the Yenon communist headquarters to Kuomintang peace proposals were received in Chungking. The reply, undelivered to the central government, was understood to contain counterproposals necessitating further delay in the cease fire order.

The reported Russian withdrawal in Manchuria posed still further troubles for the central government, and greater delays in the landing of

Additional Food Will Go Overseas

WASHINGTON, Nov. 8—(AP)—This country has allocated liberated areas of Europe and French North Africa about 90 per cent more food for October-December period than was available to them in the previous quarter.

Secretary of Agriculture Anderson told his news conference today nearly 4,000,000 tons would be marked for this form of export.

Anderson said he hoped it would be possible to maintain this increased level of allocations for food to desolated areas during the first quarter of 1946.

"But we are not necessarily promising it," he said.

This country, the secretary said, will have ample supplies to keep home consumption at present levels.

But he said that while meat supplies are improving, it may not be possible to end meat rationing until "later December."

Pilots Attempt To Assassinate Nippon Minister

TOKYO, Nov. 8—(AP)—Two vagrant former kamikaze pilots who waited with drawn knives in the darkened halls of the home ministry attempted vainly last night to assassinate Home Minister Kenjiro Horikiri.

The 61-year-old minister, attacked as he returned from addressing a meeting of police chiefs on the increase of crime and "chaotic" conditions in Japan, was not injured. The assailants were taken in custody.

At his desk as usual today, Horikiri dismissed the attempt against his life as "unimportant," except as it emphasized the increased "restlessness" among the people.

"The social situation, as you know, is deteriorating," he told the Associated Press in a telephone interview. The attack, he added, increased his personal intention to "work harder for the maintenance of public order."

"Food is the center of the problem," said Horikiri, who as mayor of Tokyo after the 1923 earthquake learned first hand about the problems of handling large homeless populations. "But the ideological change the people are undergoing and other factors also have increased the unrest. Such attacks may happen again."

The critical food situation, which the home minister placed as the focal point of the unrest, has been multiplied by flourishing black market and the increasing reluctance of farmers to sell their produce at government prices, which are only about one-third of the black market.

The Nippon Times reported that many Chiba prefecture farmers were allowing their sweet potatoes to rot in the ground rather than accept government pay rates. The people of Tokyo are traveling by the hundreds of thousands to the countryside over the weekends to supplement their food rations with black market produce.

District Court To Re-Open on Dec. 3

The next criminal docket at the 31st district court has been called for December 3 by Judge W. R. Ewing.

A jury was originally called for Monday and the date was re-set for December 3.

Including among the cases on the docket are perjury charges against C. R. Bolin and George Bailey, two members of the jury venire in the first trial of Garland Pearce.

Texas Today . . .

By JACK RUTLEDGE
Associated Press Staff

It was a sweet bet, any way you look at it.

H. C. Adamik of Waco bet Charles C. Rough of Dallas that Texas would beat Arkansas. Any football fans knows Rough lost.

Rough promptly paid off—with 400 pennies immersed in a jar of molasses. Adamik says he's keeping the concoction for a souvenir.

And something new was added in excuses over in Fort Worth.

Radio Patrolmen Maclin and Jordan tried to stop two men in a fast-moving car. Instead of slowing down, the men began an 85-mile-an-hour race with the officers.

"I just wanted to see you chase me," explained the driver when the cops finally caught them.

Then there's that new wrinkle in the mail box theft racket. Police warn Texans to be on the alert. It works like this:

An ex-convict in Dallas last month stole letters from two residential mail boxes. He read the contents carefully, then called on

the persons to whom the letters had been addressed.

He said he had been in a car accident and that his very good friends—the writers of the letters—had urged him to call on the addressee if he needed help in a strange town. He gave personal details of his pretended friends—details he had picked from the letters.

He managed to get loans—but he has been caught since.

A soldier on leave from a Utah camp came to Texas for a visit and found something new in southern hospitality.

His old girl friend in Waco didn't like it, he said, when he expressed ideas different than hers.

She stabbed him in the shoulder with a knife.

Amarillo Man Named 'Top West Texan'

ABILENE, Nov. 8—(AP)—M. C. Ulmer of Midland, the first Texan to hold the post of president of the West Texas chamber of commerce for two years, and E. W. Hardin of Amarillo, immediate retiring president, were awarded the two "Top West Texan" plaques at the WTCC annual meeting here Monday.

The presentations were made for outstanding service as head of the organization.

It was previously reported that J. Thomas Davis of Stevenville was one of the recipients.

3 Soldiers Killed By Exploding Mine

WASHINGTON, Nov. 8—(AP)—Three soldiers killed when souvenir hunters exploded an old Japanese land mine near Nahaon, Okinawa included Pfc. Samuel R. Abria (route 2), Chillicothe, Texas, the war department announced.

25th Began Combat When 2 Months Old

By NEA Service

Two months after it was activated, the 25th, or "Tropical Lightning" division, was burying its dead. No other division in the history of the U. S. army ever saw combat so soon after it was formed.

Activated from elements of the Hawaiian division's regular army troops in October, 1941, it fought the Japs at Pearl Harbor in December.

The 25th got its first chance to pay the Japs back early in 1943, when the division cleared for Guadalcanal. The doughboys hit the open beaches west of the Tenaru river. The rough and broken terrain made supply, communication and evacuation of wounded extremely difficult, but the doughs slashed forward and butchered the enemy.

After months of training, the 25th joined in the New Georgia fight for Munda airfield. Then the men cleaned up Arundel island and fought a bloody battle to secure Vella La Vella.

The "Tropic Lightnings" landed on Luzon two days after the initial assault and went into the line a week later, attacking between the Sixth and 43rd divisions. It fought a five-day battle for the town of San Manuel. The 25th's brilliant assistant commander, Brig.-Gen. James Leo Dalton II, was killed in the fight.

DUEL

PORTLAND, Ore., Nov. 8—(AP)—Patrolman E. R. West aimed more carefully than ever before, pulled the trigger—bulls eye!

He then went home to change clothes.

A skunk caught in a rat trap had also aimed.

If you need to BUILD UP RED BLOOD!

Halloween and Smorgasbord Parties Entertain Sorority Members, Guests

B. G. K. sorority members and guests have been entertained with two affairs recently, the first of which was a Halloween party in the home of Mrs. Julia McKernan with Misses Jane Kerbow, Marguerite Jones and Mrs. Albertine Tripplhorn assisting as co-hostesses.

Entertaining rooms were decorated with Halloween motifs and colors, and lighted with candles.

Guests were divided into four groups, each representing a suit in a deck of cards. Each group was given a clue sheet, written in verse, indicating the approximate location of each card of their suit. A prize was awarded the winner.

Refreshments of individual pumpkin pies with whipped cream, apple cider and pop corn balls were served.

Present were: Mesdames Mary Fleming, Lois Watkins, Darlene Trimmer, Lucille Floyd, Dorothy Swindle, Bobbie Grammer, Lou Nichol, Betty Hastings, June Atkins, Ruth Phelps, Golda Dalton, Harriet Lowry, Lucille Brown, Mary Garman, Betty Henderson, and Misses Eddie Zane Graves, June Mullinax, Adalen Brazil, Eugenia Phelps, Peggy Stephens, Meribelle Hasard, ValRue Dyson, Helen Harris and Beth Mullinax.

The home of Mrs. J. W. Garman was the scene of the Smorgasbord party given to entertain the sorority Saturday evening. Mary Garman, Adalen Brazil and Harriet Lowry were co-hostesses.

Folk music was played throughout the evening by Helen Kay Wilson, and Jo Ann Lunford, who were attired in Swedish costumes.

Dinner was served from a three-tiered table decorated with Swedish designs.

Attending were: Mesdames Gloria Mullinax, Lucille Floyd, Betty Reid, Lou Nichols, Albertine Tripplhorn, Betty Hastings, Lucille Brown, Bobbie Grammer, June Atkins, Darlene Trimmer, Betty Henderson, Naomi Swindle, Mary Fleming, Dorothy Bridges, Gloria Dalton, Lois Watkins, Martha Smith, and Misses Eddie Zane Graves, Peggy Stephens, Eugenia Phelps, Vivian Lafferty, Gladine Farmer, ValRue Dyson and Beth Mullinax.

WOMEN '38 to '52'
are you embarrassed by **NOT FLASHES?**

If you suffer from hot flashes, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Livia E. Pinkham's Vegetable Compound to relieve such symptoms. Livia E. Pinkham's Compound is one of the best known medicines for this purpose. Follow label directions.

Lefors Pirates Name Sweetheart

In an impressive ceremony at the half period of the Lefors-McLean football game, Miss Jean Rath was presented to the fans as Pirate Sweetheart 1945-46.

Miss Rath, a junior and leader of the Lefors Pepper club, was elected by an overwhelming score of 67-0. She was given a seat of honor on the Pirate bench for the last half of the game, and the privilege of being the first to autograph the game ball which will be kept as a school trophy.

The game, which the Pirates won by an overwhelming score of 67-0 was dedicated by the team to their sweetheart.

Pre-Nuptial Miscellaneous Shower Given To Compliment Bride-Elect

Miss Opal Thacker, bride-elect of Lt. Haydn R. Bodenhamer, was honored with a miscellaneous shower Sunday evening in the home of Misses Hodges, 811 Mary Ellen, with Miss Katherine Ward and Mrs. June Atkins assisting as co-hostesses.

Bouquets of yellow chrysanthemums and bronze pom-poms decorated the entertaining rooms.

The honoree was presented with a corsage of Tullman roses, and her mother, Mrs. Amos Thacker, and Mrs. A. L. Bodenhamer, mother of Lt. Bodenhamer, received corsages of yellow chrysanthemums.

Mrs. D. R. Weston presented a reading giving special advice to brides.

The lace covered refreshment table was centered with an arrangement of yellow chrysanthemums and bronze pom-poms, flanked on either side with white tapers in silver candleholders. Mrs. Atkins presided at the silver coffee service.

Attending were: Miss Ava Swafford, Miss Evelyn Morehead, Miss Virginia Nelson and Mesdames Ruth Hindman, D. R. Weston, Eva Kitchens, Margaret Williams, L. P. Ward, S. M. Hooges, Amos Thacker and Mrs. A. L. Bodenhamer.

Unable to attend but sending gifts were: Miss Bonnie Lea Rose and Mrs. Arlene Beerbower.

ENGINEER RESIGNS
Ted Harris, district engineer of the railroad commission during the past three years, resigned from his position Tuesday.

Harris' future plans are not known. His home is in Wichita Falls.

PIN-WORMS GO! New Treatment Gets Real Results

People don't like to talk about Pin-Worm infection. Sometimes they are too embarrassed to mention the tormenting itching. And in many cases they have not known of any effective way to deal with this pest that lives inside the human body.

Today, thanks to a special, medically recognized drug (pinworms), a highly effective treatment has been made possible. This drug is the vital ingredient in P.W., the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

The small, capsule-like P.W. tablets act in a special way to remove Pin-Worms.

So if you suspect Pin-Worms in your child or yourself, ask your druggist for a package of JAYNE'S P.W. right away, and follow the directions. Satisfaction guaranteed or your money back.

It's easy to remember: P.W. for Pin-Worms!

HILLS BROS COFFEE

Put this down for a fact, "queaked the eider duck, I specialize!" And it is also a fact that Hills Bros. Coffee, Inc., specializes exclusively in coffee—buying, blending, roasting, and packing only the finest coffees obtainable. Such specialization insures matchless uniform flavor in every pound of Hills Bros. Coffee. Such delicious flavor makes people say—"Now that's what I call good coffee!"

Accordion and Piano Pupils Present Recital

Miss Ernestine Holmes presented her piano pupils in recital this week with Dale and Lynn Cary appearing Monday evening in the First Baptist church.

Dale and Lynn who are the son and daughter of Mr. and Mrs. Tracy Cary of this city, opened the program by playing a duo, "Wood-nymph Harp" by Rea.

Lynn played as piano solos, "Musette", Bach; "Tarantelle", Krentzlin, and "Sonatina", Clementi.

Dale presented, "Scherzo", Bach; "Coasting", Burleigh, and "By the Brookside", Tours.

Concluding number was a piano duo, "Hungary", by Dale, assisted by Miss Holmes.

Tuesday evening Miss Holmes presented her piano and accordion pupils in a program of solos, duets and duos, featuring pupils of all in interesting compositions of both modern and classical music.

Geraldine Dunn Is Hostess to Members Lefors Junior G. A.

Members and guests of the Junior G. A. of the Lefors Baptist church were entertained Oct. 29, with a Halloween party in the home of Geraldine Dunn.

The entertaining rooms were decorated in Halloween colors, and Halloween games were played.

Refreshments were served to: Geraldine Dunn, Meadirth Turner, Gerba Joyce Hill, Colleen Winegeart, Mary Nell Guthrie, Barbara Ann Robertson, Jane Rose Boucher, Joyce Irene McNabb, Fryda Mae Howell, Shirley Ann Teeters, Mary Beth Hammond, Betty Lu Pulliam, Mary Helen Florence, Imogene McAninch, Willow Jean McAninch, Winzell Hearl, Janelle Drake, Elizabeth Ann Hix, Barbara Lou Dick, Carlene Carruth, Delphine Gilmore, Vern Lee Hogan, James McIntyre, Jerry Williams, Joe Alexander, Bobby Newsome, Ronnie Archer, Darrell Wilson, Neil Duncaan, Jimmy Gilmore, and Mrs. Claude Nichols, sponsor.

The next meeting will be held in the home of Mrs. J. L. Harrison.

'Hobbies' Is Topic Of Athenaeum Club

Special to News
SHAMROCK, Nov. 8—"Hobbies" provided the subject for the program of the Athenaeum club Friday afternoon when they met at the home of Mrs. O. T. Nicholson.

Dahlias and roses were used about the entertaining rooms.

Mrs. Frank DuBose presided, and roll call was answered with current events.

"Hobbies of the aPst.", was given by Mrs. DuBose, and Mrs. B. F. Holmes discussed "Hobbies of Famous People."

Refreshments were served at the close of the program.

Mrs. Tom Clay was a guest, with the following members present: Mesdames J. M. Tindall, H. P. Mundy, Earl Koger, Hubert Tindall, William F. Holmes, B. F. Holmes, J. W. Gooch, Frank DuBose, J. H. Caperton, J. B. Clark, and Temple Atkins.

M. MOLOTOV AND THE PEACE OF THE WORLD

It would not do us Americans or the world in general any good to conclude superficially that the speech by Soviet Foreign Commissar Molotov on the anniversary of the bolshevik revolution was provocative and designed to promote only the interests of the Great Bear.

We would be shirking our responsibility as a great power, a power which, inevitably, has assumed a greater, more decisive role in the affairs of the civilized world. We have come to such place of power in the world that there is no longer such thing as going back. The bridges over which we have traveled have long since been burned; and the only course is that which lies in the unpredictable future.

Most Americans, at first glance at M. Molotov's words that Russia, too, "shall have atom energy—and much other energy," would say the Great Bear has pronounced a monstrous selfish desire for something which was not rightly hers.

Actually, he said more than that. He said what many people have been saying in this country. Keeping the secret of "atom energy" (he did not say "atom bomb") is but another means of thwarting the cooperation of the big three powers.

M. Molotov touched on several great controversies, each of which has been discussed right in the homes and streets and shops of Pampa. He spoke great truths, which in their effects on humanity are as great as the one, that the United States can never turn back on its commitments, commitments which were made by the mere fact that America is great in size, population, resources and scientific progress.

- 1. "A test of the firmness of the Anglo-American-Soviet coalition created during the war is now being carried out."
- 2. The United Nations Organization must have the power to prevent war and "must not be the tool of any one great power."
- 3. Only the three great powers can make that organization workable, and they must do that through cooperation.

So, we see Russia voicing the same convictions as that voiced by the U. S. and Britain. And that is the conviction that the big three must work together now as they did in war. To keep the secret of atomic energy is but a symptom—it is not a catastrophe to Russia, for Russia will have it through her own scientific genius. It is a symptom of misunderstanding, distrust.

It is as simple as this: The real thing we want is peace. The powers that be (that is, the powers that wield the sceptre of armed might) must be satisfied. Keeping or giving away the secrets of atomic fission is but an incident along the road to peace or war.

Who knows which?

Another "Chicken" With Its Head Off

News Behind the News

The Rational Whirligig

By RAY TUCKER
RESENTFUL—John L. Lewis and William Green have agreed to unite their warring organizations—the United Mine Workers and the American Federation of Labor, respectively—in order to present a more cohesive and powerful front against the C. I. O.'s attempt to dominate local politics, the congress and the administration.

The two leaders of the older and conservative organizations realize that popular and legislative opinion is running strongly against the unions, and they fear that the recent reaction may strip their movement of the gains it has achieved during the war.

FAVORED—Messrs. Green and Lewis have indicated that they favor the proposed Green-Lewis alliance in the belief that it would reduce the area and number of industrial disputes in the next few difficult years.

GERTRUDE STEIN ON CONSCRIPTION
(Fort Wayne News-Sentinel)
Mr. Truman strained himself gallantly trying to make out a case for peacetime conscription and military training.

Peter Edson's Column: EIGHT MILLION UNEMPLOYED BY APRIL?

By PETER EDSON
NEA Washington Correspondent
WASHINGTON—Top government economists are now pretty well out on a limb with predictions of eight million unemployed by next April.

This is the pessimistic side of the picture. It is based on the belief that everything is going to pot, following the pattern of the postwar depression of 1922. It takes discouragement from the belief that employers are holding back on opening new jobs until government wage and price policies are settled, that strikes will increase, that wage cuts will reduce purchasing power, and that everyone will hang onto his job for good and shelter instead of spending for new autos, refrigerators and such things, to create a postwar boom.

David Lawrence

DAY-BY-DAY COUNT ON WASHINGTON'S ACTIVITIES GIVEN

By DAVID LAWRENCE
WASHINGTON—What can the management-labor conference accomplish, assuming the good faith and sincerity of both sides?

Out of the conference can come a set of principles which, by reason of the backing given them by the groups meeting here this week, will be accepted by a large public opinion as a sensible program to govern the conduct of labor relations.

This, however, would not be enough. Wherever the principles need to be translated into law, congress will have to act. For more which didn't have the sanction of the labor unions could get through congress. Public uneasiness over strikes, however, has led to the belief that congress might legislate on its own if the management-labor conference didn't succeed in offering a program.

ROOTER—President Truman had planned to remain aloof from local political scraps. But he has now permitted the ubiquitous "Bob" Hargnan to commit him to the G. I. O. candidates in both contests—actively in New York, indirectly in Detroit.

ACADEMIC—Incidentally, an O'Dwyer win will enable national G. O. F.-ers, although they never liked the rebellious La Guardia, to manage, rightly or wrongly, that the White House conspired to turn the city back to "Tammany misrule."

WONDER—The navy day breakfast blessing which the President extended to Mr. O'Dwyer will also land the Hanneganites to claim that Mr. Truman has demonstrated great popularity among liberals in the

In Hollywood

By BOB THOMAS
AP Writer
HOLLYWOOD, Nov. 8.—(P)—Linda Darnell has flown to the world premiere of "Fallen Angel" in her home town of Dallas.

Jerome Courtland, who was terrific as the gangster boss in "The Public Enemy," is going to the army occupation forces in Korea.

Fifty-five thousand dollars for one word—that's what the man says.

Deanna Durbin had her first baby shower and her most valued gift by her mother.

Congress has been upheld in its constitutional right to regulate commerce, compulsory collective bargaining. It would be constitutional to go a step farther and compel the disputants to permit a third party to mediate or conciliate and to require that no interruption or work be considered legal until such mediation and conciliation processes have been utilized.

This does not mean that either side finally would be obliged to accept what it considered to be an unreasonable settlement nor does it mean that the right to strike would be limited or imposed on the prescribed procedure has been followed. It does mean that the government can provide fact-finding boards, voluntary arbitration tribunals, a mediation agency, a conciliation service, and any other machinery which would assist labor and management to solve their problems.

The groups meeting here this week know full well that public patience is nearing the point of exhaustion and that unless an agreement is reached on a program that is submitted to congress, the legislative body will be compelled to enact its own program and this may well prove to be more drastic than what labor and management really want.

World Today

By DEWITT MACKENZIE

AF Foreign Affairs Analyst

A fellow commuter this morning turned from the headlines in his newspaper and asked me in pre-dawn, sepulchral tones:

"Well, when will the next war come—in about five years?"

I wasn't feeling so good myself, because the train was late, but that pessimistic query put me on the alert.

Certainly there is cause for anxiety, but there's nothing to cause surprise.

Great powers—Germany, Italy, Japan—have disappeared and there is an inevitable realignment of spheres of influence which are causing heart-burnings.

The quickest way to overcome this evil is the employment of frankness among nations and Bevin sounded this note when he appealed to the great powers to "reilly put the cards on the table face upwards."

You cannot help being a little bit suspicious if a great power wants to go right across the throat of the British commonwealth.

Man Is Killed at Love Field, Dallas

DALLAS, Nov. 8.—(P)—Archie A. Helms, 34, a Dallas civilian employee of the Army at Love Field, was killed early Tuesday evening when struck by the propeller of an airplane on which he was working.

Helms was decapitated by the propeller while working on the brake, field authorities said.

Survivors are his wife, two sons, Maurice Helms and Aubrey Helms, and four brothers.

More than 2 million pounds of chloicy was imported from Belgium in 1938.

I Fall Again

Europe, it was definitely a fade-out in the United States. Everybody excused the muddled rehearsals and various drawbacks by saying that variety had been destroyed by the movies and that I should have been there when the Palace was open.

Returned Veterans A Question

If this reasoning is correct, it means that the whole problem ahead depends on what happens to the returning veterans. To date, 2,225,000 service men and women have been demobilized.

SOME agents were anxious that Madison Square and Boston Garden, always played by the Ringling Circus, with whom they were negotiating for my act.

Some agents were anxious that Madison Square and Boston Garden, always played by the Ringling Circus, with whom they were negotiating for my act. Any alterations in the length of my ropes meant that the timing had to be

Conditions Good For Maintaining Wheat Acreage

Conditions are favorable for maintaining wheat acreage at around current levels for the next year or two in the United States, according to the department of agriculture.

Surpluses of wheat that accumulated before the war in the States and in many foreign countries have been reduced to moderate levels, and export demands for wheat are sufficient to take most of the surpluses from the 1945 wheat harvest.

But if farmers maintain a large acreage for several years, we'll be in trouble again, forecasts the Agricultural Adjustment agency of the war food administration.

Farm production in other countries can be expected to recover in a couple of years. They'll be in a position to produce their own wheat.

If we hold our acreage at the present level, past the time when our export demands for wheat are reduced, warns the agency the United States will have to solve another problem of wheat surpluses.

NEWS OF OUR MEN IN UNIFORM

TO HARVARD V-12 SCHOOL

Henry Reburn Thompson, Jr., of Pampa is among 29 V-12 trainees at Texas university who will be sent to the supply school at Harvard.

His transfer was announced at recent commissioning exercises held at the university, at which young naval trainees were advised to "stay in the navy" by Rear Admiral J. J. Clark of Corpus Christi. Among trainees announced to be commissioned in their home naval procurement offices were Kendrick Rady of Amarillo.

HONORABLY DISCHARGED

It has been announced by the Fort Bliss separation center that T-5 Johnnie L. Collins, 412 Crest, has been honorably discharged from the army.

RECEIVES DISCHARGE

Pfc. Sharon B. Haralson received an honorable discharge from the army under the point system Nov. 6. Haralson, with 72 points, received his discharge at Camp Crowder, Mo.

Haralson returned to Pampa Wednesday. He lives at 120 S. Stark-weather with his wife and two sons, and will return to his former employment for Ivan W. Harrah at the Magnolia agency.

Haralson entered the service in May, 1944 (was overseas for nine months). He is eligible to wear the ETO ribbon with two campaign stars, the Bronze Star and the good conduct medal.

WITH SEABEES

OKINAWA (Delayed) — James Andrew Wakefield, SF 3-c, Borger, who served with the 125th U. S. naval construction battalion, played an important part in the final drive that helped bring Japan to her knees.

The outfit was one of the Seabee units responsible for the rapid development of this Ryukyus island into a formidable base.

ON "MAGIC CARPET"

Leslie A. Ledbetter, 29, SM2-c, USNR, Conway, Texas, is serving with the "magic carpet" unit of the naval air transport service's Pacific wing which is engaged in returning RAMP's (recovered Allied military prisoners) back to the States from the Pacific.

RECEIVES DISCHARGE

S/Sgt. James E. Reynolds, 314 N. Gray, has received his discharge from the army at the Camp Cooke, Calif., separation center. S/Sgt. Reynolds was a member of the 131st armored division (Black Cat) which fought under Gen. George S. Patton in Germany.

CELEBRATES BIRTHDAY ABOARD THE DESTROYER ESCORT USS MCCLELLAND, Japan.

(Delayed)—Victor F. Miles, ship's service man, third class, USNR, route 1, Pampa, took part with other crewmen, in celebration of the first birthday anniversary of this ship while she rode at anchor in Japanese waters.

Gracie Reports

By GRACIE ALLEN
Consolidated News Features
Well, all those souvenir-hunting civilians who visited the battleship Missouri have something to brag about. They can honestly say they did more damage to the ship than the whole Japanese navy and air force.

These souvenir-hunters even tried to carry away the plaque that marked the scene of the Japanese surrender, and if they'd been aboard at the time they probably would have carried off the Japanese signers. I can imagine how bare the ship finally looked. I've seen what just a small group of bobby-soxers can do to Van Johnson.

George says he wishes he might have been there to get one of the big guns to mount on our front porch in case my mother decided to pay us a visit. I think it's sweet of him to want to give mother a regular navy salute.

Civilians To Have Larger Choice of Foods This Fall

COLLEGE STATION, Nov. 8 — Civilian families will have a larger choice and supply of food this fall and winter than in the first nine months of the year, this conclusion was arrived at by the bureau of agricultural economics of the U. S. department of agriculture after a survey of the national food situation.

A report of the survey received by the A. and M. college extension service said that the domestic civilian stocks of meat, canned fruits, vegetables, turkey, chickens, fluid cream, potatoes and other food supplies will be larger than in recent months and much larger than in the same period last year. The report forecasts that more potatoes, more

eggs, and more lower grades of beef may be available than civilians will demand at present prices.

As a further easing of the situation, some increases are expected in supplies of butter, cheese, pork and veal. But little change in lamb and mutton supplies for civilians is looked for because non-civilian takings will be larger in the next few months, the report said.

Some relief from the tight supply of sugar is expected next spring if the Cuban crop turns out well. But no substantial increase in world stocks seems likely before early in 1947 when there will have been opportunity for larger production in the Philippines, one of the large producing areas.

Viewing the meat situation from the civilian consumer standpoint, the BAE found some favorable and some unfavorable aspects. Present indications are that supplies will be considerably higher than in the first half of the year and may exceed an

annual rate of 140 pounds per capita this winter. Prices of lower grades of beef may even decline from ceilings.

On the other hand, military and export needs probably will be so large as to keep civilian supplies of pork, lamb and mutton below full demand at present prices, and below the heavy rate of consumption in the last quarter of 1944. This seems likely to develop in spite of the probable output of these meats in the last quarter of the year.

The survey indicated, the report said, that prices of most classes of beef, other than the lower grades of beef, are likely to continue at ceiling levels at least through the first part of 1946.

Ordinary paints should dry with a glossy surface but they can be made to dry with a flat finish by decreasing the oil content and increasing the proportion of turpentine or other volatile thinner.

GI Joe, Pony, Sells for \$13,500

CHICAGO, Nov. 8.—(AP)—G. I. Joe, a brown Shetland pony was sold last night for the second time in two days at the Chicago horse show and brought all-time record prices in both sales—\$10,000 and \$13,500. On Monday the 46-inch pony was sold for \$10,000 by E. W. (Shorty) Beston of Industry, Ill. to Jacob Bunn Jr., of Springfield, Ill. and H. Leslie Atias of Wheaton, Ill. Last night he sold G. I. Joe to Robert E. Trimble of Indianapolis for \$13,500.

Behtol said he bought the pony last April for \$1,500. Men who do not expect to live become very close to God. Men who avoid the chaplain most during peacetime will walk 10 miles for when he expects to die. —Maj.-Gen. Edward P. King, captured by the Japs on Bataan.

'Coke' Proclaims 22nd as Official Thanksgiving Day

AUSTIN, Nov. 8.—(AP)—Thanksgiving Day this year presents an unusual opportunity for public expressions of gratitude for peace. Gov. Coke Stevenson said yesterday in his formal proclamation setting aside Nov. 22 as Thanksgiving Day.

The test of his proclamation: "Since the earliest days of our country, it has been customary to set aside in the harvest season of the year a day of thanksgiving for the blessings and bounties of Almighty God. The observance of a day of thanksgiving is the oldest and one of the best of our American traditions.

"Thanksgiving Day, 1945, offers an opportunity for public expression of gratitude because our country is no longer at war. For the past three years the day has been observed in a limited sense; our prayers of thankfulness have been mingled with prayers of supplication for peace. The day of victory was dawned and our hearts are humbly grateful that the holocaust of World War II is at an end. The long-awaited day for many has arrived, the day

when absent loved ones can return to families and friends, to a land filled with peace and plenty.

"Parts of the world recently devastated by war will see no harvest season. Our own people are thrice blessed, in a land of bounteous harvest where freedom, abundance and liberty of conscience holds sway. "The fourth Thursday of November in each year has been set aside by our national congress as Thanksgiving Day and is a legal public holiday throughout the country.

"Now, therefore, I, Coke Stevenson, governor of Texas, do hereby proclaim Thursday, November 22, 1945, as Thanksgiving Day and a legal holiday in Texas. I invite the citizens of Texas to observe this holiday in such manner as will show our appreciation for the blessings which are ours. I urge that the United States and Texas flags be displayed in public places and on public buildings to signify our gratefulness for the privilege of living in this land of freedom and opportunity."

Washable masonite board, red and black checkers and instructions! Buy for Christmas!

"STUCK? not ME, mister!"

"MY TIRES ARE RIVERSIDE POWER GRIPS"

Change to Power Grips and you can stop worrying about getting "bogged down." Power Grips pull your car through snow, mud, clay, through the "worst going", where ordinary tires fail! There is no other tire exactly like Power Grip with its patented, big round knobs! They provide real traction forward, backward and sideways! You can't buy a better traction tire!

Attention Tire Customers

We are doing our best with the limited number of tires being received to take care of all our customers. See us today regarding your needs and we will serve you as soon as possible. Remember—it will pay you to wait for a Riverside!

MacArthur

(Continued From Page One) tion and military influence, and they made the great mistake of trying to keep the military isolated.

Discussing MacArthur's suggestion with a reporter today, Senator Edwin C. Johnson (D-Colo.), acting chairman of the military committee said "I disagree heartily with that plan. I think our forefathers were pretty wise. We have not to continue civilian control of the military agencies."

DECISIONS 'NONPROFESSIONAL' Senator Austin (Vt.), ranking republican member, said he did not wish to engage in a direct controversy with MacArthur but added that this country must continue its "traditional" attitude to maintain clear civilian control over the military branch.

MacArthur noted that although the President is commander-in-chief his decisions are "non-professional" and "influenced to some extent by the political outlook of the United States because the President of the United States, whoever he may be, has been, and always will be by our system of government, a servant of politics.

Occupation

(Continued From Page 1) eral would not permit his conversation to be quoted and he is in no way responsible for the statements made herein. My talks with Premier Shidehara and members of his cabinet contributed to these conclusions.

MacArthur is known to be content with the progress of his program of demilitarization and democratization.

JAPANESE COMPLY American and Japanese agree that thus far there has been 100 percent compliance with the series of hard-hitting directives issued from MacArthur's headquarters. There is no evidence of any underground in the making. But, those who believe in a relatively short occupation emphasize that one which extends beyond five years will bring new dangers. Either the Japanese will become completely dependent on the Americans or resentment against alien rule will have time to flower into open rebellion.

Changes decreed by MacArthur have bestowed on the Japanese people freedoms they do not yet fully understand how to use. Producing a state of flux from which vast changes in the Japanese way of life inevitably must come. The nature of these changes obviously depend on the kind of control exercised by the victorious powers.

Therefore, responsible leaders trying to chart the future emphasize the belief that continuation of current progress depends on the maintenance of the present basic character of the occupation, with direction, execution and responsibility primarily in accordance with the policies of free governments.

It is anticipated that British empire, Chinese and Soviet units may be added to the occupation armies within a reasonable time and that other powers will be given a larger share than now in the over-all policy making. But the Japanese especially hope that the final word will remain with the United States.

Present progress of Russian-Chinese negotiations concerning the occupation of Manchuria, in which the United States is involved because American transports are carrying the Chinese forces thither, is being keenly followed here as a test of harmony among the powers that crushed Japan.

Communists

(Continued From Page 1) Kuomintang troops, none of which have been reported actually landed from American transports as yet.

The turning over of the ports to the communists would strengthen their position in the area where they have opposed bitterly the presence of the Americans.

The protests, which the communists New China Daily News said were addressed to the "chief of the American military mission in Yenan," were written by Chu Teh, communist commander in chief, and Yen Chin-Yin, commander of the Eighth army.

They objected to the landing of American forces at Chefoo, at the head of the Shantung peninsula; the "invading" of Chinwangtao; the sealing of the eighth route army office in Tientsin; the strafing of the populace at Antsch, south of Taiyuan in Shansi province, and the entry of American troops into the Hopohi, Honan and Anhwei province liberated areas.

Yeh Chin-Yin advised the Americans that Chefoo had returned to "normal" under communist liberation, and asked the Americans not

Services Tomorrow for Mrs. Ethel Henderson

Funeral services for Mrs. Ethel Henderson of Borger, who died Tuesday in a Borger hospital following an operation, will be conducted tomorrow afternoon at 4 o'clock, in the Borger First Baptist church with the Rev. Paul B. Cullen, pastor, officiating.

Mrs. Henderson had been an employe of the Phillips Petroleum company for two years.

Surviving are the mother, Mrs. Alva Heskev; Borger; two sons, Paul and Lester Henderson, who are serving with the armed forces overseas, and a granddaughter, Paula Kay Henderson, Amarillo.

Also surviving are four sisters, Mrs. Bell Lunn, Mrs. I. T. Simmons, Mrs. Ben Neelley, and Mrs. Frank Counts, all of Borger, and two brothers, Bill Heskev, Pampa, and Leonard Heskev of Boise, Idaho.

Funerals will be in the Borger cemetery under the direction of Minich-Crigger funeral home of that city.

Phillips Strikes

(Continued From Page 1) vides for arbitration of disputes. Action also resulted from failure of the union and the company to reach an agreement on union proposals for the reconversion period.

Union proposals include a master agreement for all departments in the district, a union shop, a return to the 40 hour week with compensation for reduction in hours, termination pay and cessation of weekly rotation of shifts with shift differentials in pay for shift workers.

Plants and departments involved are the refinery, Plains butadiene plant, Ethil Black carbon plant, district gasoline department, district production department and the district warehouse and salvage.

Representatives of Local 351 state that approximately 1,500 workers would be involved if a strike were to occur. Since the vote of the intent to strike was taken no material progress has been made concerning further action, it was reported.

Officials of the Phillips Petroleum company this morning said they had no comment to make on the intent to strike.

Workers at the Phillips Petroleum company in Pampa are organized in the CIO Oil Workers Industrial union.

Gilberto Bosques Is Named Polish Envoy

MEXICO CITY, Nov. 8.—(AP)—Foreign Secretary Francisco Castillo today named Gilberto Bosques as Mexico's ambassador to Poland. Bosques previously had served as consul general in Paris and was charge d'affair in Vichy during the German occupation.

PAUL, Idaho, Nov. 8.—(AP)—After hiring a construction firm to level off a large section of his farm, farmer R. G. DeLong went to work with a tractor, preparing the land for cultivation.

A high wind came up, stirred up a dust storm and DeLong became lost, unable to recognize his own farm. He finally drove the tractor into a wire fence and followed the fence line home.

Conference

(Continued From Page 1) wage-price speech last Tuesday — under a special conciliator. The labor secretary's office said Schwelienbach had received both Fairless' and Murray's letters, was "considering" them, and might issue a statement today. The letters were made public.

NEW ROAD BLOCK This new road block in the administration's drive for labor peace looked like a minor but irritating snag was cleared away — the 30-hour lie-up of all bus and streetcar service in Washington.

Delegates could again ride the trolleys to the labor-management conference, if they chose, under a 14-day truce arranged between striking AFL traction workers and the Capital Transit company. Full service was scheduled today while wage demands are negotiated.

On Capitol Hill, house members pursued these two legislative approaches to industrial peace: The rules committee prepared to act on anti-strike legislation already approved by the military committee. The bill would deny collective bargaining rights to unions violating no-strike clauses and make offending unions liable for civil damages.

An expenditure subcommittee began planning a compromise version of the so-called full employment bill. But the 38 management-labor delegates, in corridor conversations, found a ripe topic in last night's clash between CIO Chief Murray and President Ira Mosher of the National Association of Manufacturers. The issue was whether to bring wage discussions onto the conference floor.

Murray succeeded in getting a wage resolution before the powerful executive committee, the first step. But Mosher issued a public statement last night declaring his flat opposition.

Mosher's reaction, taken to typify that of the management delegates generally, was regarded as a probable death-blow to Murray's effort to have the national wage issue considered by the meeting. AFL President William Green already had declared against its discussion, leaving the CIO apparently outvoted in the executive committee and on the floor.

Otherwise the conference — split into a half-dozen closed door committee sessions — worked on into its third day without an immediate report of agreement on any of the questions.

Sidney Hillman, president of the CIO Amalgamated Clothing workers, told newsmen, however, that the talks were "proceeding smoothly—there's been no rough talk."

PAUL, Idaho, Nov. 8.—(AP)—After hiring a construction firm to level off a large section of his farm, farmer R. G. DeLong went to work with a tractor, preparing the land for cultivation.

A high wind came up, stirred up a dust storm and DeLong became lost, unable to recognize his own farm. He finally drove the tractor into a wire fence and followed the fence line home.

Jesse Nathan Leedom, Miami Resident, Dies

Jesse Nathan Leedom, 72, of Miami, died last night in a local hospital. He had been a resident of Miami for 36 years.

Funeral services were to be conducted this afternoon at 2:30 at the First Methodist church in Miami. Surviving are five brothers: Walter, Woodward, Okla.; Phillip, Geary, Okla.; Frank, Hinton, Okla.; Junior M. and Paul, Portland, Ore.

Burial was to be in the Miami cemetery, under the direction of the Dunkel-Carmichael funeral home of this city.

American Legion To Have 'Get-Together'

E. J. Dunigan, Jr., commander of the American Legion post here, announced today the annual "feed and get-together," to be held Saturday night beginning at 7:30 at the new Legion building, corner Foster and Russell streets.

All members of the Legion and ex-servicemen are urged to be present. There will be no charge. Venison and elk will be served, he said. The present membership of the Legion is about 350, and more members are being added.

Worry of FALSE TEETH Slipping or Iritating Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. The pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, sooty, stinky taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug store.

Until just before the war broke out in Europe, the United States was dependent on outside sources for cigarette paper, then made from linen rags.

Chicago growing began in this country in 1885.

NEW 1946 PONTIAC WILL BE OUT SOON

Pictured above is the new 1946 Pontiac, which will be shown soon at the Coffey Pontiac company, corner Somerville and Francis

street. The new models will be available in either the six or eight cylinder types. New inno-

vation is the curving bumpers which have been extended to protect the car's fender skirts.

University Will Stress Foreign Language Study

AUSTIN, Nov. 8—Alerted to the important role which languages will play in maintaining world peace, as well as to the need for a revitalization of the teaching of modern foreign languages, the University of Texas is now offering a new plan of study in this field.

Emphasizing conversational knowledge of foreign languages, classes and regular laboratory sessions are

held five times weekly in beginners' courses, rather than the usual three-times-per week courses, Dr. R. H. Williams, professor of romance languages, reports.

"International citizenship is the keynote of today, with television and travel opening up the world at large for us," the professor said, "and to keep up with the pace of the times, we must know languages other than English."

University students have shown an increasing interest in foreign languages since the beginning of World War II, Dr. Williams said.

"Everyone who can speak a language other than his mother tongue holds a tremendous advantage—in the business world, the political world, and in personal relations," he emphasized.

As important steps toward attaining its goal of becoming the language center recognized as "holding first rank in the nation," the University of Texas is putting other innovations into effect in the departments of foreign languages.

In addition to the five-times-per-week classes, placement tests are now given to determine a student's comprehension of a language before he is placed in advanced courses.

"We realize that the war destroyed isolationism as well as the smug attitude that other peoples must learn English if they are to deal with us," Dr. Williams said. "The real hope of avoiding armed con-

licts in the future rests on international cooperation. Success can come only through a better understanding of our enemies as well as our allies, and the first essential to that purpose is a knowledge of their language."

"The University of Texas today is out in front to play its part in the planning of an enduring peace."

Cattle Sell at Fair

Prices at Auction

PORT WORTH, Nov. 8.—(AP)—Cattle sold at fair prices at the third annual auction of the Southwestern Milling Shorthorn association here yesterday, although a number were young animals and none highly fitted, judges said.

Four bulls made an average of \$527.50 and 38 females averaged \$350.14 in the auction. The top bull in the auction sold for \$750. The bull was Sunbeau Masterpiece, sold to M. Hohn of Hebron, and bred by Miles Hilhoarn, Wildorado.

If there is no rationing of new automobiles, it is my hope and suggestion that each dealer set aside a specified percentage of new cars for ex-servicemen and women.—Harry M. Williams, president, Automobile Merchants association of New York.

Hollywood Exposure

You've seen scads of them—photos of some Hollywood cutie or other who has been "voted" Miss Something-or-other by somebody-or-other, dreamed up by some screenland press agent or other to publicize his cutie-client. Erskine Johnson, NEA Service Hollywood writer, recently wrote an amusing column exposing this by-now worn gag. In a few minutes (via phone call to a model agency) he had a group of curvaceous gals. At his command, they became "The Pin Up Girls of America, obediently voted screen actor Greg McClure as "The Body Beautiful of 1946," took their half-hour's pay and departed. In the photo above, burlesquing the ones press agents concoct, Doris Peterson, left, "president" of the Pin Up Girls, supervises while fellow-member Nickie Johnson measures Greg McClure's "body beautiful" and Erskine Johnson takes notes.

Labor-Management Cooperation Has Been Successful Outside Country

By RUBEN KARLSTEDT
WASHINGTON — The type of cooperation envisioned in calling the American labor-management conference in Washington has been tried successfully outside the United States.

In the spring of 1936 Swedish union leaders and employers, representatives of the top opposing organizations in the Swedish labor market, voluntarily and on their initiative sat down around the conference table to seek a formula for maintaining labor peace.

Sharp criticism of existing industrial practices voiced in press and parliament was influential in bringing about the conference. The parties were apprehensive of losing through legislative action—their prerogatives as private, independent negotiators.

After two years of exhaustive discussion, a tangible result was presented in the form of a basic agreement—first formal pact between the confederation of labor unions and the employers' federation.

This agreement:
1. Set up a uniform system of negotiation and arbitration.
2. Prohibited direct action—such as jurisdictional strikes—in order to protect certain individual rights.
3. Prohibited conflicts threatening essential public and social services.
4. Set formulae for layoffs and dismissal.
5. Established a private administrative organ—the labor market board.

Acceptance of the agreement by individual unions or employers is not compulsory. However, once they ratify it, they are bound by it. It does not surrender the traditional weapons of strikes and lock-outs. But after ratification, no affiliate union or employer may resort to direct action without approval of its central union or association.

The labor market board—guardian of the pact—consists of six members, three each from the unions and the employers. A majority decides. If a tie develops in arbitral matters, an impartial chairman is summoned.

The board's decisions cannot be enforced. They have only the weight of recommendations, to be carried out by affiliates involved. Dr. James Robbins of the American university, Washington, D. C., a close student of Sweden's social institutions, says in this book "The Government of Labor Relations in Sweden" that the basic agreement is:

"One of the most noteworthy attempts in any modern industrial community to face the most provocative issues which disturb the whole labor market and threaten social harmony, and to face them by a purely voluntary non-official strategem."

Collaboration in Swedish industrial inter-play has produced an evidence of its stamina even more dramatic than the basic agreement. Facing the uncertainties of the war period, the two top organizations at the end of 1939 worked out an agreement for wage adjustment on a sliding scale.

This so-called index agreement is based on the cost-of-living index published by the Swedish index board.

Regular collective contracts stipulate the basic wage. In addition, when the index rises, wages follow—although not by the full percentage of the rise in the index. Adjustments run for a year and are adjusted quarterly within that year. The rate of additional compensation in 1942 was half the rate of price increases.

The index agreement is an emergency measure. The basic wage scale remains. Almost a million workers out of Sweden's 6,000,000 people are directly or indirectly affected by this index agreement.

National Foundation of Infantile Paralysis Plans Training Program

NEW YORK, Nov. 8.—Training of polo emergency volunteers for active service in infantile paralysis epidemics will be extended to nearly all the 48 states in 1946 and the present enrollment of 2,000 will be doubled, Basil O'Connor, president of the national foundation for infantile paralysis, announced today.

PEV's men and women recruited from every walk of life and trained under professional supervision to assist physicians, nurses and physical therapists in polo emergencies, already are at work in 74 communities in 31 states.

Plans for the 1946 PEV program call for organization on a statewide basis in several states and the training of units in New York City, Washington, D. C., Denver, New Haven and several New Jersey communities. Utah, at present, has the only statewide unit.

PEV training is a year-round activity of the national foundation's women's division, which cooperates with local and state health authorities in establishing PEV courses.

Volunteers, borrowing time from household chores, office jobs and leisure, learn how to feed and dress polo patients, cut wool for ho packs and handle many routine mechanical tasks connected with the costly

and often prolonged treatment of infantile paralysis in hospital and home.

Through their work, they release skilled physical therapists for other duties and enable the latter to devote more professional care to polo sufferers. There is an urgent need for physical therapists throughout the nation, Mr. O'Connor said, and PEV's play an essential role in situations created by the shortage of qualified professionals.

When polo struck suddenly in Utah last July, 150 women of all 29 counties were recruited for training in a Mormon recreational center near Salt Lake City. In seven days of intensive study, they completed a PEV training course and 50 of them went to work immediately afterward in hard-pressed hospitals.

During 1944, the United States produced as much oil as the whole world did during 1935.

No one is going to build a house, or a group of houses, if he feels that within a few years their value will be about half of the inflated costs of today.—Ashland, Ky., Independent.

Braniff Airways To Inaugurate Freight Service

DALLAS, Nov. 8.—Airfreight service will be inaugurated December 1 on all routes of Braniff Airways in accordance with tariffs filed with the Civil Aeronautics board, Guy Springer, traffic manager, airmail and air cargo for Braniff, announced today.

Braniff's airfreight program is the first to be put into operation by an airline without mileage restriction and will provide service to and from all thirty-two cities on the Braniff routes, Springer explained.

In addition, other municipalities in areas served by the airline are included in the tariff, increasing to a total of 99, communities to which rates apply and complete service will be given.

Airfreight transportation will also be given for the first time to the

Police Department Of Abilene Criticized

ABILENE, Nov. 8.—(AP)—A Taylor county grand jury yesterday criticized the Abilene police department for not properly training officers in the use of firearms.

The action came after the grand jury returned an indictment charging negligent homicide against Robert T. Harris, a 73-year-old special police officer. Harris is charged in the slaying of 16-year-old Herchel Jeter Halloween night at Fair Park.

In a report to Judge Owen Thomas of the 104th district court, the grand jury said Harris testified he was carrying a .45 caliber army pistol which he had never fired and that he had never fired any pistol before the shot that killed young Jeter.

Red Operation of Railroads Delays Supply Movement

By C. E. PALMER
Publisher Texarkana Gazette and Daily News

Written for The Associated Press
BERLIN, Nov. 7.—(AP)—Russian operations of railroads into Berlin is delaying American and British movement of supplies into the area.

U. S. and British zones end some hundred miles from Berlin. Russians in control have removed much equipment and some signaling apparatus and do not know how to operate what is left, but they will not employ Germans who are familiar with the lines.

The Russians are very demanding and difficult to deal with.

Our planes and trucks, however, are permitted to go on through.

A train operates from Frankfurt to the Russian occupation zone, and passengers are carried on in cars.

Fuel and food present enormous problems to Germany this year. It is fortunate the fall weather so far has been unusually mild. The people are praying for a mild winter.

Germans are permitted to cut wood in the forests, and those who possess saws consider themselves lucky. Many work at woodcutting one or two days of each week.

The wood is hauled in hand carts pulled by men or women, sometimes horses, oxen or even cows. I saw one cart pulled by a team composed of a horse and a cow. They seemed to be doing all right.

In some agricultural sections, such as around Hellbronn, the food supplies may be sufficient. But over the occupied zones as a whole, the situation is very urgent.

The story developed by Louis P. Lochner, noted Associated Press correspondent, that the master rolls and files of the Nazi organization, containing over ten million names, have been found has been held up for some reason, but this information will prove very important in eliminating them from government.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pains, loss of pep and energy, setting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Shamrock Oil Offers 4 Painting Reprints

The illustration by Harold Bugbee, famous Southwestern cowboy artist, which have appeared in a series of four advertisements for The Shamrock Oil and Gas corporation in this paper are being offered free to anyone upon request. Reproductions are being made on fine paper, size 10x15 inches, suitable for framing or mounting.

This group of four includes sketches of antelope, mustangs, and a trail herd scene which appeared in previous advertisements and one of a club boy with his white-faced calf which appears in an ad in this issue.

Artist Bugbee, whose home is at Clarendon, Texas, has attained national fame as an illustrator and painter and is especially noted for his true portrayal of western animal life.

Everyone is eligible for a set of these pictures which are sent postpaid. Only requests received while the limited supply lasts can be honored. Send a postcard or letter with full mailing address to: THE SHAMROCK, P. O. Box 631, Amarillo, Texas.

Former West Texas Oil, Bank Man Dies

WASHINGTON, Nov. 8.—(AP)—The war department yesterday authorized immediate honorable discharge from the army of soldiers who were prisoners of the enemy for at least 60 days.

The action, making the army policy in this matter uniform with that of the navy and marine corps, was made to apply to all soldiers who were out of U. S. control in enemy or enemy-occupied territory under honorable conditions for as long as 60 days. Discharge points will not figure at all.

The department estimated 25,000 men would be eligible for such discharges.

As turpentine is expensive, for point manufacture a turpentine substitute is made from a petroleum distillate (white spirit) for a thinning agent.

Vets Can Take Advantage of GI Bill's 'Wrinkle'

By ROWLAND EVANS, Jr.
WASHINGTON.—There's a peculiar wrinkle in the GI Bill of Rights of which a smart veteran might want to take advantage.

As the law is now written, a high school graduate veteran who can lay claim to the full amount of free education can get through four years of college and to within one year or less of a law degree, all within the allowed time limit.

Here's why and how:

Four years is the maximum time any veteran may get free schooling under the GI Bill.

Four years is four years . . . or is it? A school year is only eight or nine months. A calendar year is 12. But the four years allowed under the law are calendar years.

Now then — for each "ordinary school year" the government will pay up to \$500 for tuition and other essential fees. That raises the question: How long is an "ordinary school year?"

Veterans administration has decreed that an ordinary school year is from 30 to 38 weeks.

Before the war few colleges or universities allowed students to complete more than one school year in one calendar year.

But wartime lack of doctors, engineers and other specialists forced many schools to give year-around training.

Some schools which tried the heavy duty curriculum may retain it.

So, instead of using up his four allowance calendar years, the veteran can zoom through a four-year course in about two and a half years by cramming "normal school years" into that time. That leaves him a year and a half to get a start and almost a finish on a post graduate course. Of course he won't get any vacations to speak of.

Another item, interesting to school-bound vets is the fact that credit for at least one semester's work will go to the average ex-GI.

After the last war American educators endorsed a program which gave a certain amount of blanket credit to all veterans. In many cases 100 more credit was given, and 42 per cent of all veterans who went back to duty with the books were "forced" to quit. They had been allowed to get in over their heads.

This time, in spite of the liberality most schools will extend to ex-servicemen, credit for things learned while in the service will not be granted haphazardly.

Oil products made up 65 per cent of all overseas military shipments of war supplies.

Retail Auto Dealers Demanding Double Profit Margin Over '39

WASHINGTON, Nov. 8.—Administrator Bowles of OPA has been quoted as charging that retail automobile dealer of the nation are demanding on new cars twice the profit margin they received on cars in 1939.

The national automobile dealers association, speaking for the 30,000 dealers of the country, emphatically deny this statement. At no time in their price discussion with OPA during the last two years, have they demanded any increase in profit.

All they have asked, all they ask now, is that their established trade discount not be disturbed until OPA could prove by indisputable facts and figures that dealers can and should absorb increased new car production costs in whole or in part.

Under the price control act, OPA is obligated to produce figures to substantiate any price changes it may order. Retail automobile dealers have repeatedly urged OPA to produce figures which would justify any decrease in the dealer discount, but they have not been forthcoming.

The only thing OPA has done is to say that it has made a study of the reports of about one percent of the dealers of the country and that this satisfies OPA officials that dealers can absorb increased new car costs up to 50 percent discount.

Every effort of dealer representatives to obtain facts and figures upon which OPA based its decision has been repulsed on the theory that the reports to OPA were confidential.

NADA reports, gathered currently in recent months from a larger group of dealers, present a vastly different picture. They indicate that in continuing to operate at the established trade discount dealers may earn less than they did in the pre-war period.

Also, from all reports, the OPA study of manufacturers' costs has been far from complete.

Congress never intended that OPA should slash dealer discounts on such a cursory examination of the costs and earnings situation.

Now the house small business committee, aroused by the OPA discount cut threat, has scheduled a public inquiry into the situation for next week. Here, at last, is an opportunity to get at the complete facts publicly. The National automobile association trusts that in common fairness to congress and the dealers, Administrator Bowles will withhold his plan to cut dealer discounts, until congress has had a chance to learn the facts in the case first hand.

If OPA can convince congress and the public that the dealers are the persons who should bear the increased production costs, no harm will be done to the OPA case. If OPA cannot prove the justice of its plan, then the congressional hearing will have done a public and private service.

Texas University Festival of Fine Arts Is Planned

AUSTIN, Nov. 8.—Music lovers from throughout central Texas are expected to attend the fourth annual Fine Arts Festival of the College of Fine Arts at the University of Texas November 11-17. Dean E. W. Doty announced, now that travel restrictions have been lifted.

The world famous Lenar String Quartet will appear on the program, replacing the Roth Quartet, originally scheduled, with a group of other outstanding musicians, University of Texas lecturers, and drama students.

The week-long program opens with a lecture, "Music in the Americas," by Joaquin Nin-Culmelli, Cuban pianist and composer, at the recital hall of the college, Sunday, Nov. 11, at 4:15 p. m., which will be followed by a program by this artist at 4:45 p. m.

Clarence Waters, organist, will appear Monday at 8:30 p. m.; a student recital is scheduled for Tuesday at 4:15 p. m., with a performance by the Lenar String Quartet Tuesday at 8:30 p. m. in the recital hall.

Wednesday two programs will be presented—a lecture on "The Madrigal" by Michael Winsawer of the University of Texas fine arts department, at 4:15 and a concert by Chase Baromeo, bass baritone, at 8:30 p. m. in the recital hall.

The Lenar String Quartet, consisting of Jenó Lenor and three fellow members of the Opera Orchestra of Budapest, will present their program of chamber music at 8:30 p. m. Thursday.

The dramatic portion of the festival will be the play, "The Affairs

Santa Fe Appoints Vet Superintendent Of Transportation

CHICAGO, Nov. 8.—Lt. Colonel Ernest E. Foulks, who commanded the 713th railway operating battalion overseas, has been appointed superintendent of transportation of the Santa Fe Railway with headquarters at Chicago, George M. Minchin, operating vice president, announced today.

Prior to military service Colonel Foulks was superintendent of the Albuquerque division of the Santa Fe at Winslow, Arizona.

Colonel Foulks' overseas service with the 713th, which was sponsored by the Santa Fe and activated at Clovis, N. M., in April, 1942, began with its departure from this country in February, 1943. It saw service in Africa, Italy, France and Germany.

Colonel Foulks was awarded the Legion of Merit for outstanding service in Italy.

Born at Alpine, Texas, August 22, 1903, he graduated from high school of Anatol, by the Experimental Theater in the Modern Language building at 8 p. m. Friday.

Concluding the festival will be another concert by the Lenar String Quartet Saturday at 8:30 p. m. in the recital hall.

Charlie Kept Silent On Edgar's Marriage

HOLLYWOOD, Nov. 8.—(AP)—Charlie McCarthy squawks a lot about his treatment at the hands of Edgar Bergen but at least the little wooden stooge didn't let out a peep that his boss has been married secretly for more than four months.

Ventiloquist Bergen, 40, informed Hollywood friends yesterday that he and Frances Westerman, 22, beautiful former Powers model whom he met five years ago, were married June 23 at Ensenada, Mexico. She is known professionally as Frances Westcott. It was the first marriage for each.

at Deming, New Mexico, and was first employed by the Santa Fe in June, 1920, as a clerk in the agent's office there. He has held consecutively positions of secretary to superintendent, telegraph operator, dispatcher, transportation inspector, trainmaster, assistant superintendent and superintendent.

Former Prisoners of Enemy Will Receive Honorable Discharges

LOS ANGELES, Nov. 8.—(AP)—A heart attack yesterday claimed the life of Frederick Lee McCoy, 34, former West Texas oil man and bank executive.

After engaging in West Texas oil operations in the early 1920's, McCoy became vice president of the First National bank of Wichita Falls in 1925. He had served previously in the First National bank at Dallas.

The highest oil field in the world is in Colorado.

Concluding the festival will be another concert by the Lenar String Quartet Saturday at 8:30 p. m. in the recital hall.

MEN! GET PEP..

Do you want to feel young again? Why feel old at 40, 60 or more? Enjoy youthful pleasures again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Gasella tablets. Many men are obtaining remarkable results with this amazing formula.

Harvesters Meet Lubbock There Tomorrow Afternoon

World-Famous Milers Named Professionals

STOCKHOLM, Nov. 8.—(AP)—Arne Andersson and Gunder Hagg, world record holding Swedish runners, and 13 other top-ranking Swedish track stars, were declared professionals today by the Swedish Athletic association, the newspaper Espressen said.

There was no official announcement as yet from the association, which has been conducting a sweeping investigation into the entire Swedish track setup.

Earlier the association announced a finding that payments of fees to Swedish track stars by leading sports clubs constituted a breach of amateur regulations and indicated there would be disciplinary measures against both clubs and performers. The association did not name the individuals involved, and had announced it would not do so until completion of the nationwide inquiry.

A finding that Andersson is professional would cancel his projected trip to the United States for the indoor season this winter.

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK, Nov. 8.—(AP)—Getting cagey... John Mooney sends word that the top cage teams will come from his intermountain area. "Wyoming will be the team to beat," says John. "Coach Ev Shelton has a starting five averaging 6-7, including Milo Komenich and Jim Weir back from the nationals champs of a few years ago. Kenny Sailors also is figured back." Mooney adds that Utah and Brigham Young will be tough and "Colorado U. is a cinch to have another of those all-Kansas aggregations as soon as Frosty Cox comes back from Europe."

LONG-RANGE RECRUIT
When ex-marine Tom Smith reported for football his first day on the Penn State campus, Coach Bob Higgins quizzed him about his experience. "Tom told about playing for Erasmus Hall in Brooklyn in 1941, then casually added: 'Charlie Speidel told me to report to you.'" "Why," gasped Higgins, "Charlie is way out in the Pacific." "So was I," said Smith.

Abdul Calls His Shots

Word from the west coast is that Lt. Frank Leahy won't go back to Notre Dame as naval R. O. T. C. athletic officer because his orders were suddenly cancelled. The best guess now is that Leahy is about to be "separated." E. L. Marr of the Carthage, Mo., club of a proposed class "D" baseball league doesn't know whether to point with pride at the interest in his loop or to complain because he was hauled out of bed at two a. m. the other day to take a call from C. W. Hodges, phoning from Vancouver, B. C., about the possibility of getting a franchise for Bartlesville or Ponca City, Okla.

Pampa Gridders Will Seek 7th Consecutive Victory of Season

Seeking their seventh consecutive victory and their second conference grid win, the Pampa Harvesters left for Lubbock at 2:30 this afternoon where they will meet the Westerners tomorrow afternoon at 2:30 at Texas Tech stadium.

The team will stay at the Hilton hotel in Plainview tonight and will proceed to the Hub City Friday morning.

Every player, with the exception of Co-Captain Charles Beard, is ready to go against the Westerners, Coach Al Coffey reported this morning.

Beard has been out most of the season with injuries—starting with an injured shoulder and now laid up with an injured knee.

Bill Washington, blocking back of the 1943 district championship team, will start at fullback tomorrow, making the only change in the regular line-up, besides the replacing of Beard with Lonnie Williams at left end.

In six games this year, the Harvesters have won over Electra 14-7, Midland 25-6, Phillips 27-6, Vernon 14-0, Norman 6-0, and Brownfield 25-0, the latter being a conference game.

Lubbock hasn't fared so well this season, winning three, while losing four and tying one.

The Westerners have won from Big Spring 20-0, Lamesa 25-6 and Brownfield 27-0. They lost to Odessa 27-6, Borger 21-19, Abilene 12-6 and Plainview 13-7. San Angelo and Lubbock fought to a 13-13 draw.

The Westerners have already been virtually eliminated from the district title race because of their losses to Plainview and Borger, however they still have a chance to upset some of the leaders.

George Brewer, 178-pound left halfback spurs the Westerners at the game. Brewer has scored 73 points this year and gained most of the yardage on the ground in addition to doing a majority of the passing and kicking.

Radio station KPDM will go on the air tomorrow at 2:15 with a pregame broadcast direct from Tech stadium and the play-by-play account will start at 2:30 with Bob "Pappy" Watson handling the chores.

Roy MacMillan, local school business manager, said today that the block of reserved seats and student tickets sent here from Lubbock would have to be returned tonight and all those that did not get them may obtain them at the ticket office in Lubbock tomorrow.

Probable Strikers: Lubbock Williams (165) L E Schmidt (140) Terrill (185) L T Foster (191) Fish (193) L G Wall (155) Lockhart (165) C Presley (182) Hood (165) R G Motawell (170) Simpson (195) R T Cobb (191) Dunham (175) R E Davis (168) Johnson (127) Q B Jones (178) Wash. Milby-Austin, Amarillo-Plainview Tilts Highlight State Grid Card

By HAROLD V. BATTLE
AP Sports Editor

The Texas school football spotlight rests on Houston this week-end with the first district champion of the season due to be produced there.

Milby, one of the state's eight undefeated, untied teams, can clinch the district 13 title by beating Austin Friday night. A tie would insure no worse than a deadlock for first place.

There are important games in other districts in a schedule of 47 games, 39 of them conference affairs.

One in the Panhandle Amarillo battles Plainview in the first game of a three-way struggle for the district 1 title. Plainview, also, is undefeated and untied; both teams are unbeaten in conference play. Pampa, the other team figured in championship calculations, plays Lubbock.

Odessa and Sweetwater, moving their game to Monday from Friday, will just in what figures to be the decisive contest of the district 3 race.

Denison and Paris play at Paris with the winner to become the overwhelming favorite to win the district 5 crown.

Favored Highland Park (Dallas) makes its conference start at Denton in the district 6 race. Denton is undefeated but all other members of the district have suffered losses.

Breckenridge and Brownwood meet at Brownwood Monday in the game considered the district 9 title affair.

Tyler and Longview, unbeaten in district 11, play at Longview. Marshall, the other undefeated eleven, goes to Texarkana.

In district 16, Brownsville and Edinburg, the only undefeated teams, clash at Brownsville.

The week's schedule by district: 1—Friday: Pampa at Lubbock (conference); Saturday: Amarillo at Plainview (conference).

2—Friday: Borger at Childress, Quanah at Graham (conference); Olney at Wichita Falls (conference).

3—Friday: Abilene at Lamesa (conference); Big Spring at San Angelo (conference); Monday: Odessa at Sweetwater (conference).

4—Friday: El Paso at Mesa, Ariz.; Saturday: Albuquerque, N. M., at Austin (El Paso).

5—Friday: Denison at Paris (conference); Sherman at Greenville (conference).

6—Friday: Highland Park (Dallas) at Denton (conference); Masonic Home (Fort Worth) at Arlington; Sulphur Springs at McKinney (conference).

7—Friday: North Side (Fort Worth) vs Poly (Fort Worth) (conference); Saturday: Paschal (Fort Worth) vs Amou Carter-Riverside (Fort Worth) (conference).

8—Friday: Sunset (Dallas) vs Woodrow Wilson (Dallas) (conference).

9—Friday: Breckenridge (San Antonio) vs San Antonio Tech (conference); Friday: Laredo at Corpus Christi (conference); Jefferson (San Antonio) at Kerrville (conference).

10—Friday: San Benito at Harlingen (conference); Robstown at Kingsville (conference); Edinburg at Brownsville (conference); Pharr-San Juan-Alamo at McAllen.

11—Friday: Orange at Galveston (conference); Fort Arthur at South East (conference); Beaumont at Beaumont at Goose Creek (conference).

12—Friday: Nacogdoches at Lufkin (conference); Palestine at Athens (conference); Livingston at Jacksonville (conference).

13—Thursday: Jeff Davis (Houston) vs Reagan (Houston) (conference); Lamar (Houston) vs St. Thomas (Houston) (conference); Milby (Houston) vs Austin (Houston) (conference); Saturday: San Jacinto (Houston) vs Sam Houston (Houston) (conference).

14—Friday: Orange at Galveston (conference); Fort Arthur at South East (conference); Beaumont at Beaumont at Goose Creek (conference).

15—Thursday: Brakenridge (San Antonio) vs San Antonio Tech (conference); Friday: Laredo at Corpus Christi (conference); Jefferson (San Antonio) at Kerrville (conference).

16—Friday: San Benito at Harlingen (conference); Robstown at Kingsville (conference); Edinburg at Brownsville (conference); Pharr-San Juan-Alamo at McAllen.

17—Friday: Sunset (Dallas) vs Woodrow Wilson (Dallas) (conference).

18—Friday: Sunset (Dallas) vs Woodrow Wilson (Dallas) (conference).

New Rat Poison 1080 Should Stamp Out Bubonic Plague

By HARRISON HUMPHRIES
WASHINGTON, Nov. 8 (AP)—The answer to one of mankind's greatest scourges—bubonic plague—may lie in an innocent looking white powder.

The powder is the new rat poison 1080 (ten-eighty). Its chemical name is sodium fluoracetate. It gets its numerical designation because it was 1,080th chemical compound tested in the government's two-year wartime search for an effective weapon against disease-spreading rodents.

It kills rats "quicker than any known poison except strychnine."

Bubonic plague, transmitted to man by the fleas that infest rats, is estimated to have killed more humans than all the wars in history.

In the fourteenth century, the plague—then called "black death"—spread its tentacles throughout Europe. It took the lives of 25,000,000 persons, or one-fourth of the population.

On several occasions since 1909 plague outbreaks have occurred in the United States. The most notable ones were in San Francisco in 1907, New Orleans in 1914 and Galveston in 1920.

A form of the plague has been found in several different types of rodents in the western states, including ground squirrels, wood rats, deer mice and woodchucks. Poison 1080 is deadly to all of these.

Property damage caused by rats in the United States alone is estimated by officials of the U. S. fish and wildlife service at more than \$200,000,000 a year.

With the outbreak of the war, supplies of the customary poisons used in rodent control—thallium, red squill and strychnine—were curtailed or cut off. Thallium was imported from Europe, principally Germany, Belgium and France; red squill from the Mediterranean re-

gion and strychnine from the Far East.

It was for this reason that the government, with the office of scientific research and development and the U. S. fish and wildlife service cooperating, began its search for a new domestic rat poison which resulted in the development of 1080.

Truman Begins To Talk Tough With Homelinks

WASHINGTON, Nov. 8 (AP)—President Truman, after trying sugar, is beginning to talk a little tough here at home. It's still not very tough. And it's too soon to tell whether he'll get tougher.

From the time last April when he went into the White House—where President Roosevelt found rough-and-tumble tactics very helpful although they made him enemies—Mr. Truman used sweetness on the homelinks.

It was as if Mr. Truman upon entering the White House had said to himself: "I'll be nice and friendly. I'll ask people."

Now suddenly, within a week's time, Mr. Truman has taken a healthy poke at congress and given labor and management an icy warning to get down to cases and cut out unnecessary argument.

In a radio speech he hit directly at two congressional committees for bottling up two pieces of legislation which he recommended and considers prime: more pay for the unemployed and the "full employment" bill.

And at the opening of the labor-management conference he told the representatives there to find a solution to their woes or the public would.

The labor-management men kept mum and went to work. But we'll have to wait for the end of the conference before seeing how much they took Mr. Truman's words to heart.

The reaction in congress was a little sharper. Yesterday one of his old colleagues, Senator Wiley (R-Wis.), got up and said: "The President pleads for a program which out-new deals the new deal, which item for item sounds like a CIO handout."

The program Senator Wiley had in mind was the 21 point program which Mr. Truman handed to congress early last September.

Of the 21 points, 13 were derived directly from President Roosevelt. Of the 21, congress has passed only two: A bill revising taxes and a bill on surplus property disposal.

CHICKENS — TURKEYS STAR SULPHUROUS COMPOUND Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEY'S.

Polish Chemists Discovered 1080

By HARRISON HUMPHRIES
WASHINGTON, Nov. 8 (AP)—The search for a deadly poison gas by Polish chemists led to discovery of 1080, the new wonder rat poison.

In their search for weapons to combat the Germans, the Polish chemists accidentally found a poisonous compound containing fluorine.

The secret of the new poison reached England in the hands of a Polish refugee scientist. This information in turn was cabled to the United States.

U. S. imports of rat poisons had been heavily reduced because of the war.

Dr. Ray Treichler, then a research chemist for the fish and wildlife service, had appealed to all United States chemical concerns for samples of chemicals which had shown themselves to be toxic.

In a conference between Dr. Treichler and Dr. Walter Kirmse of the national defense research council, a number of new formulae were selected for trial. One of them was a compound related to the substance which had been discovered in Poland.

More laboratory tests were arranged, and test 1080 arrived.

The substance was a fluoracetic acid derivative. Although deadly in small quantities, it was too volatile and dangerous to handle. Chemists put their heads together and decided to make a "salt" of it.

Small quantities of the salt, sodium fluoracetate, were sent to the Patuxent, Md., laboratories of the fish and wildlife service.

The scientists were amazed. Tiny amounts killed rats more quickly than any of the commonly used rodenticides except strychnine. It was stable and did not lose its toxicity even when mixed with other substances. And, almost miraculously, rats seemed to like it.

So 1080 came into being.

Accidental Deaths In Homes Often Strike at Night

NEW YORK, N. Y.—Accidental death in the home often strikes at night, say the statisticians of the Metropolitan Life Insurance company.

"Last year's death records of the company's adult industrial policyholders show that surprisingly large proportion of the total number of fatal injuries in the home occur between 10 p.m. and 6 a.m., the hours when activity is at a minimum in most households," the statisticians note.

Injuries suffered in these hours accounted for about two fifths of the deaths among women. The analysis shows that conflagrations, often caused by defective or improperly used oil or coal stoves, and asphyxiations caused by the inadvertent turning on of gas jets, leaking gas fixtures and appliances, and the use of gas heaters in poorly ventilated rooms, contributed materially to this night-time toll.

"More important numerically than either conflagrations or gas poisonings as a cause of fatal accidents at night," the statisticians state, "are falls. These accounted for approximately 40 per cent of the fatal accidents at night. The large number of persons falling while on their way to the bathroom at night indicates the need for night lights or lights easily reached from bed, especially in homes where there are sick and aged persons.

"Falls on entrance steps or hallway stairs by members of the household returning home late at night were responsible for a considerable number of these fatal accidents. In fact, this analysis showed that, as a whole, both day and night falls are the outstanding cause of accidental death in and about the home."

The analysis also reveals that two thirds of the women and four fifths of the men, suffering fatal injuries in and about the home, were not engaged in tasks necessary for the maintenance and operation of the household at the time the fatal injury was sustained.

That smoking, particularly in bed, can be dangerous is shown by the fact that it caused one third of the deaths from burns and conflagrations in the home among men. Among women the proportion was as high as one sixth.

"Another fairly common but dangerous practice," the statisticians continue, "is dozing off while liquids are being heated on gas stoves. Last year, 11 persons in this insurance experience—10 men and one woman—died from gas poisoning because, while the liquid boiled over and extinguished the gas flame."

"Striking examples of preventable deaths are those due to firearms. Playing with, lifting, cleaning or scuffing for guns are the causes of accidents of this kind."

"Eating also has its hazards. Among these insured, eight persons died last year from accidentally swallowing bones or fruit pits, with resultant choking or damage to the alimentary canal."

Methodist Holding Annual Conference

ABELINE, Nov. 8 (AP)—An attendance of 80 laymen and ministers is expected here tonight for the formal opening of the 38th annual session of the Northwest Texas Methodist Conference.

Bishop Charles G. Seelman of Dallas, who will preside at the conference, met here yesterday with his cabinet of nine district superintendents to consider 300 ministerial assignments which will be announced at the meeting's closing session Sunday.

When World War II began in 1939, there were 158 persons on the U. S. embassy staff in London. At the war's end there were 279.

WINTER IS COMING!
