W. H. ASKINS OBSERVE GOLDEN WEDDING

Children of Mr. and Mrs. W. H. Askins, 1507 Twenty-first Street, assisted their parents with open house at the Askins home Sept. 22, in celebrating their 50th wedding anniversary.

Two hundred-fourteen relatives and friends of the couple called between the hours of 2 and 5 p.m.

Mr. and Mrs. Askins were married Sept. 25, 1907 in the home of the bride's parents, Mr. and Mrs. T. V. Hood, in Borden County.

Children of the couple are: Mrs. Nettie Crawford of Snyder, Elmer Askins of Big Spring, Emmett Askins, and Mrs. Thadine Harless of Snyder.

Mr. Askins was born in Marque, Tex. in 1884, the son of Mr. and Mrs. C. A. Askins. Mrs. Askins was born in Oglesby in 1889.

The anniversary table was laid with cutwork cloth with all appointments carried out in gold. Arrangements of roses and fall flowers were used through-out the home.

Guests ranging from one year to 90 years and nine months of age called. A special guest was an aunt of Mrs. Askins, Mrs. C. E. Allen of McGregor.

Other out-of-town guests were from: Dunn, Cuthbert, Hermligh, Roscoe, Sweetwater, Clyde, Abilene, Breckenridge, Fort Worth Arlington, Burk Burnett, Summerfield, Plainview, Petersburg, Stamford, Hobbs, N. M., Midland, Odessa, Post, Lampasas, Eastland, San Angelo, Big Lake, Big Spring, Fluvanna and Gail. A special gift was received from Alaska.

A Texas insurance inspector reported recently that a certain fire was the result of friction—a \$15,000 insurance rubbing against a \$10,000 house.

ASTHMA

Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. Thus alleviates coughing and aids freer breathing and better sleep. Get MENDACO from druggist. Satisfaction or money back guaranteed.

ANOTHER BORDEN WELL

A Pennsylvanian lime discovery has been indicated in northern Borden County with the flowing of oil on one test and the recovery of oil on another at Shell Oil Co. No. 1 J. B. Slaughter Estate, in 16-30-6n, 12 miles north of Gail.

On a 1½-hour test between 8,170-8,211 feet, gas surfaced in five minutes, mud in nine minutes and oil in 10 minutes. Flowed to pits 10 minutes, to clean, it then flowed 80 barrels of 39 gravity oil, no water, in 70 minutes. Reversed out was 60 barrels of oil, no water. Recovery below the circulating sub was 30 feet of oil, no water. Flowing pressure was 1,008-2,650 pound; 30-minute shut-in pressure, 3,600 pounds.

On a previous two-hour test between 8,097-8,122 feet, gas surfaced in 33 minutes with volume too small to measure. Recovery was 60 feet of heavily oil-cut mud and 580 feet of free 43 gravity oil, no water.

Flowing pressure was 130-290 lbs.; 30-minute shut-in pressure, 3,145 lbs.

The project was bottomed at 8,247 feet, preparing to take another drill-stem test.

Contract depth is 8,800 feet.

AUSTIN — The State Selective Service said today the Texas draft quota for November was 346 men, compared with October quota of 338 and September's 387.

No men were to take pre-induction physical examinations in November except possibly transfers from other states or "isolated special cases in Texas."

It's In The Bible

Pure religion and undefiled before God and the Father is this, to visit the fatherless and widows in their affliction, and to keep himself unpolluted from the world.—James 1:27.

"Monthly Pains" stopped or amazingly relieved

in 3 out of 4 cases in doctors' tests!

• Chances are you're putting up — *unnecessarily* — with the functionally caused pains, cramps and weak, "no good" feelings of menstruation!

For, in actual tests by doctors, Lydia Pinkham's Compound brought *complete or striking relief* from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is *modern in its action!*

So get Lydia E. Pinkham's Vegetable Compound—or *new, improved* Tablets with added iron. See if — taken through the month—it doesn't give relief from those backaches, jitters—help you feel better *before and during* your period!

Or—if you suffer from functional "hot flashes" of "change of life," find out how wonderful Pinkham's is for that, too!

It has a quieting effect on uterine contractions that often cause "period" pain!

THE THINGRAVY APOSTLE

Happiness is not a station you arrive at, but a manner of traveling.

WYOMING HUNTING PARTY

The hunting grounds of Wyoming have a strong appeal for Borden and Scurry County hunters. Included in a hunting party from this area who went after deer and antelope were Ben Weathers, Mr. and Mrs. Nolan von Roeder, Marvin Key, Phil Burns, Jim Sorrells, Mr. and Mrs. Esport ship, Hugh Murray and Barber Martin.

The hunting took place on the Church Spracklin ranch, near Douglas, Wyoming.

A good man out of the good treasure of the heart bringeth forth good things; and an evil man out of the evil treasure bringeth forth evil things.—Matt. 12:35.

Quickly Broiled Rice and Vegetable Platter Gives a Meal an Inexpensive Glamour Touch

A feast for the eyes as well as a feast of flavor—this quick-to-fix rice dish is a "circus" of color and tantalizing tastes. Red tomato slices bloom under a blanket of trusty browned cheese. Vegetables make another flavorsome layer over the bubbling goodness of inexpensive, tender rice.

As this sparkling Rice and Vegetable Platter bakes and broils, the flavors from the layers above blend together in the rice. All too soon this bubbling oven dish, which is truly SOMETHING WONDERFUL, is only a luscious memory.

INGREDIENTS:

- 3 cups cooked rice
- 2 cups grated cheese (1 cup American 1 cup Sharp)
- 1 cup milk
- 2 tablespoons chopped pimiento
- 2 cups well seasoned cooked vegetables (peas, carrots, corn and beans)
- 6 - 8 tomato slices

PREPARING THE FLUFFY WHITE RICE: To make 3 liberal cups of fluffy rice, put 1 cup of uncooked rice, 2 cups of cold water and 1 teaspoon of salt into a 2 quart saucepan and bring to a vigorous boil. Turn the heat as low as possible. Cover saucepan with a lid and leave over this low heat for 14 minutes. Do not remove lid nor stir rice while it is cooking. Turn off the heat.

Use exact measurements of uncooked rice and water. Time the cooking accurately.

METHOD: Mix the rice, half of the cheese, milk and pimiento and spread over a greased oven-proof platter or shallow baking dish. Cover with the mixed vegetables. Top with the tomato slices. Sprinkle the rest of the cheese over the tomatoes. Bake in a 450° F. oven for 10 minutes, or until heated through. Place dish under the heat and broil until the cheese is lightly browned. Serve immediately.

This recipe makes 8 servings.

One of the new laws in Texas seeks to put a curb on buying pistols. Now before buying a six shooter the purchaser must have a written certificate of good character from a justice of the peace, county judge or district judge in the county of his residence, which will be filed with the merchant selling the gun. A good law. Now if the Texas legislature will pass a law prohibiting a chap from buying a 10-gallon hat for a 5-gallon head the state of tall tales will be making steps forward.

If you don't believe civilization is progressing, just look at the way the cost of living is going up.

Smoking Is Factor In Heart Disease AMA Journal Says

CHICAGO — Cigarette smoking may be a contributing factor in heart and blood vessel diseases. Further intensive investigation on the relationship of cigarette smoking to such diseases was urged in an editorial in the Journal of the American Medical Association.

"Although it may be generally concluded that cigarette smoking is most likely a contributory factor and not primarily an etiological one in the production of cardiovascular disease, the present state of medical knowledge clearly points up the need for intensive investigation on the relation of cigarette smoking to cardiovascular disease," it stated.

"Since the smoking habit is so widespread, physicians should pay more attention medically and pharmacologically to a nicotine-containing agent that is used by the public in amounts equal to, if not greater than, any other drug."

The large majority of normal persons respond to cigarette smoking with a definite decrease in the flow of blood to the extremities and surface of the body which lasts from a few minutes to a half-hour or more, the editorial pointed out. In normal persons, smoking causes a rise in blood pressure, an increase in the pulse rate between five and 20 beats per minute, and simultaneous constriction of the blood vessels of the extremities, as measured by a decrease in skin temperature. There is, however, a considerable individual variation in the physiological response to cigarette smoking.

Bats Catch Fish, Fish Eat Cattle

WASHINGTON—At the mouth of the Amazon River is an island the size of Massachusetts where bats catch fish and fish eat cattle.

Marajo Island's cattle-eating fish, common to the entire Amazon Basin, are piranhas. A 10-inch piranha is a big one, but they travel in ferocious schools of hundreds that can strip a wounded animal or man to bare bones in a matter of minutes.

Fishing bats, with long claws that snatch their prey from the water, make up only a part of Marajo's bat population. Millions of rustling wings fill the skies at dusk. Vampires are present, some travelers report, but authorities say vampires are not a menace to people on the island.

WHAT SPEED DOES TO YOUR GAS GAUGE

Although city driving uses up gas like a sponge, highway driving is costly too, if you go too fast. At a steady 40 mph your gas mileage will drop 10% from what you would get at 30 mph. At 60, it will drop approximately 30%; at 80, 50%. Naturally, you can't loaf along a super-highway at 30 mph. But consider

In a man's suit of clothes that sells for \$80 up, there's about 3½ pounds of wool in the suit. The wool grower gets 80c a pound for his wool. Somebody else gets the rest. Who else? Well bud, it ain't the retail merchant.

REBIRTH OF A TOWN

Mine Failure Didn't Stop This Town

ROANOKE, Ill.—Unlike Cardiff, Ill., when its coal gave out and its population skidded from 1,500 to 15, Roanoke's population jumped 278 between 1949 and 1950 after its mine closed in 1937. All it takes is determination and planning.

In Roanoke, the planning group is the 12-man Community Council. It was suggested as a new idea in community development for Roanoke and four other central Illinois small towns by Editor H. Clay Tate of the Bloomington, Ill., **Daily Pantagraph** and Prof. Alvin T. Anderson of the University of Illinois.

Council Assembled

On the council were assembled the key go-getters of the community: the school superintendent, a rural mail carrier, prominent merchants, the banker, a member of the village board. They sought gripes and suggestions for improving Roanoke's appearance and building for its future.

Some of the replies stung but they provided the basis for constructive actions as did visits to council meetings in other towns.

Instead of moping over the closed mine, businessmen looked around them at growing agricultural prosperity and took a chance. Up went plants for dehydrating alfalfa, making farm machinery, processing soybeans and—when farmers complained of the lack of building supplies—a \$175,000 concrete block works. The people voted a \$200,000 bond issue to pave every street, a gamble which brought a surprising result: Ray Ulrich, an out-of-town industrialist, chose Roanoke over several other towns as a factory site, admitted later that "the blacktop streets were that 'little extra' that sold me". Today, Ulrich's plant employs 180, making snow removal equipment and shovels for tractors.

Build Three Apartments

To woo teachers for the schools, volunteers built three low rent apartment buildings for them, using surplus army lumber and other materials sold at cost.

Volunteer firemen include public rest rooms in their new firehouse when farmers complained of the lack of them.

UNCLE SNORT'S SAYSO

Its better for your wife to find the letter you forgot to mail than the one you forgot to burn.

IN REVERSE

Last summer, July 17, President Eisenhower made this statement in a press conference when the civil rights bill was up for passage before congress:

"I can't imagine any set of circumstances that would ever induce me to send federal troops into a federal court and into any area to enforce the orders of a federal court, because I believe that the common sense of America will never require it. Now, there may be that kind of authority resting somewhere, but certainly I am not seeking additional

authority of that kind, and I would never believe that it would be a wise thing to do in this country."

This here Asiatic flu epidemic is causing many to get flu shots. This is all right and proper, bud, but getting half shot won't do you nary bit of good.

There's lots of people who can't enjoy this era of prosperity because of hard times.

The big trouble with the human race is that it's too all-fired slow to improve.

It's In The Bible

Little children, let no man deceive you: he that doeth righteousness, even as he is righteous.—1 Jons. 3:7.

For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil.

And they came to Jesus and see him that was possessed with the devil, sitting, clothed, and in his right mind. —Mark 5:15.

High Profits Come From High Yields

Plant of Fertilizer Will Increase Crop

The answer to high profits in agriculture is greater yields per acre. And the answer for greater yields is, in a great measure, fertilizer.

One Illinois farmer grew 140 bushels of corn to the acre last year for a net profit of \$161.00 per acre. His fertilizer bill was \$29.10 per acre. On one field he put 400 pounds of 0-48-0 and 400 pounds of 0-0-60, and 30 pounds of ammonium nitrate.

Over-cultivation will cut corn production, many experts report. By plowing too often the farmer prunes the plant roots which must reach out for food. More and more farmers are coming to the new

Plenty of the right kind of fertilizer gave this field a good start and will carry it through to high production and high profits.

idea of cultivating a corn crop just once—when it is eight to ten inches high.

To keep weeds under control these farmers are turning to spraying.

One of the most important things in raising corn is to know the limitations of the soil and treat it accordingly. It should be tested each year before fertilizer is applied. And although fertilizer costs are high, greater yields will off-set this production cost.

Berry Detergent

Researchers have developed a detergent said to cut strawberry mold 50 per cent at a cost of about seven cents per 100 pounds. Washing the berries in water alone reduces the mold by 20 per cent.

Strange isn't it: A black sheep is usually found grazing in greener pastures.

The angel of the Lord encampeth round about them that fear Him, and delivereth them. —Psalms 34:7.
