# COMMITTEE WILL ADJUST TAX BILL

## Gray County Fails in Raising Community Chest-War Fund Quota

### Contributions To Drive Still Being Taken

Citing some of the work to be done by funds raised in this community, Chairman Lieb Langston today frankly notified citizens of the city and county that they were not going to reach their quota in the Community Chest - National War Fund drive.

The quota for this county is \$35,655. Only \$23,087.10 has been raised and turned in, leaving a balance of \$12,567.90. The drive has been conducted since October 4, and Langston had hoped to have the goal reached by the end of this month.

Langston declared: "Workers have been out soliciting funds for the drive in Pampa since Oct. 4. They have repeatedly returned to their chairman with the report that people's attitude was 'The war is over. Why should I contribute?'"

"In Gray county, the drive is divided into six divisions, each being assigned a quota. Thus far, two divisions have completed their work and the others have almost covered the assigned territory. As yet, no division has been able to meet its quota. It goes without saying that if the individual divisions can't meet their quotas, the county-wide drive cannot possibly succeed."

"We wish to emphasize that the division chairmen and the workers have done an excellent job of contacting people. But there are still people who have not been contacted. However, on the basis of reaction from those who have been contacted, the drive is doomed to failure."

He said if there are those who wish to mail their contributions, they may do so, sending them to the Community Chest, Pampa. They may call, Lieb Langston at the Pampa Ice company, or the chamber of commerce, and someone will pick up the contributions.

"We are not holding 'Wolf.' These are facts," he said.

He continued: "The contributors are just not putting their hearts in."

See WAR FUND, Page 6

### Panhandle Yanks Arriving in U. S.

Servicemen of the Panhandle area who are being returned to the States, and the docking dates of the ships on which they were to arrive, according to the Associated Press, are:

On the USS Mariposa, which was due at Boston Oct. 24: Sgt. Leon R. Harris, Pampa.

USS Rockhill Victory due at Newport News Oct. 22: T/5 Charlie B. Lewis, Lubbock, and Pfc. Gilberto A. Salazar, Amarillo.

USS Lyman Abbott due at New York Oct. 24: Sgt. James C. Conner, Shamrock, and T/5 Leonard A. Bruce, Amarillo.

USS Newton Baker due at New York Oct. 24: S/Sgt. Andrew C. Smith, route 2, Pampa; S Sgt. Jack H. Leith, Shamrock, First Lt. James M. Davis, Canyon, and Pfc. Warren L. Clark, Amarillo.

USS Evangeline due at San Francisco, Oct. 22: Pfc. Tom E. Keltner, Shamrock.

USS Bolivar, which arrived at San Francisco Oct. 20: Cpl. Donald W. Crossan, Pampa; Cpl. Dan F. Barnes, Cpl. William M. Adams, Cpl. George P. Lawley, all of Lubbock; Cpl. John J. Roden, Cpl. John J. Mirapa, Sgt. John W. May, and Cpl. Harold M. Connally, all of Amarillo.

USS Cranston Victory due at New York Oct. 22: First Lt. Frank M. Collins, Pampa; T/4 Frank Skaggs, Wellington, and Pfc. Glenn Dickenson, Lubbock.

USS Sea Fiddler due at Newport News Oct. 22: Pfc. J. P. Chastain, Lubbock.

### Radish Grown Here Measures 1 1/2 Inches

Another "No. 1" has been brought to The News office.

A big radish measuring 1 1/2 inches is on display. Last week someone brought in a hill of sweet potatoes that weighed 18 pounds.

The "big inch" radish was grown in a garden at 501 South Faulkner street, by Mrs. J. K. Redman.

24 hour service, City Cab. Phone 441.

### Landon Says Soviets Are On the Prowl

LAWRENCE, Kas., Oct. 25.—(AP)—Criticizing the administration's foreign policy, Alf M. Landon, 1936 republican presidential nominee, said today that if Russia refused the "proffered hand of the peace-seeking nations, we must not shrink from the tragic fact that a new aggressor is on the prowl."

In a speech prepared for delivery before the Kiwanis club, Landon outlined a six-point program which he suggested as the U. S. foundation for world security.

"You can build an international organization for collective security on the quicksilver of vindictive, ruminous and imperialistic settlements that lack any constructive ideas," he said.

The former Kansas governor's proposed program:

1. Make the U. S. a sound financial mooring post "for the rest of the world to tie to by reversing our present unsound fiscal policies of borrowing and spending unlimited."

2. Reverse the German policy for which the U. S. largely is responsible. Put Germany on an economic self-sustaining basis.

3. All nations abandon extraterritorial practices. "The U. S. should stand in the Far East as advocating the substance what we did in the Philippines where we set the model for colonial treatment and development of self-governing communities."

4. Insist on "honest and intelligent"

See LANDON, Page 6

### Indonesians and Dutch Attempt to Reach Settlement

BATAVIA, JAVA, Oct. 25.—(AP)—Amie Sjarifuddin, minister of information under which Indonesians will enter informal talks with the Dutch in an attempt to bring a peaceful settlement to the Dutch East Indies.

The information minister declared the talks will be held in the presence of a third party, presumably a representative of the United States, and that the "right of self-determination of the Indonesian people is acknowledged."

Sjarifuddin is one of the outstanding moderates in the native nationalist movement.

The political situation brightened considerably as H. J. Van Mook, acting governor, invited the Soekarno cabinet to meet with him.

Amie, Netherlands news agency, reported in a dispatch from Amsterdam that 11 newspapers have addressed a united appeal to the government to remove tensions between Holland and Indonesia through democratic means and without the use of force.

Amie reported a "chaotic and grave" situation at Soerabaya, Java naval base, however, where Allied troops were due to land today. Allied units engaged in the recovery of Allied prisoners of war and internees were said to have been thrown into jail by nationalist extremists.

### Girl Scouts To Have Banquet Here Tonight

Enticing patrons and Girl Scouts of Pampa will have as their guest speaker at a banquet tonight Mrs. Gretchen Kidd, national Girl Scout staff member and coordinator of scouting in West Texas.

The event will be held at the Senior high school cafeteria, beginning at 7 o'clock. Tickets, which have been on sale here by scouts of the various troops, will be presented at the door, it was said.

Scouts throughout America will observe National Scout week from October 28 through November 3. The theme is "Girl Scouting—Citizenship in Action around the World."

### Singapore Workers On Sympathy Strike

SINGAPORE, Oct. 25.—Singapore's transport workers and municipal government laborers struck today in sympathy with dock laborers who walked out Sunday in a demand for increased wages.

### SCHOOL FOR YOUNG

ATLANTIC CITY, N. J., Oct. 25.—(AP)—Go back to school, if you want to stay young is the advice given by Mrs. Annie Prince who is celebrating her 80th birthday today.

With books under her arm like any teen-age girl, Mrs. Prince grudgingly four nights a week to Atlantic City Junior high school where she is enrolled in an elementary course at the adult evening classes.

### Ration Values On Most Fats To Be Lowered

WASHINGTON, Oct. 25.—(AP)—The OPA announced today that ration values on butter, margarine, lard, shortening and oils will be cut four points a pound next Sunday.

For all of these products the new value, effective through Dec. 1, will be eight points a pound.

Current point costs will be maintained during the new period for all prime cuts of beef, veal and lamb and for lean cuts of pork. Lower grades of beef, veal and lamb will continue ration-free.

The only meat changes are reductions of two to four points a pound for six fatty pork cuts and for barbecued pork.

The point reductions for butter, margarine and other fats and oils are possible because of a much improved supply situation, said OPA Administrator Chester Bowles.

There will be about 12 per cent more butter in November than during this month, chiefly because of release of 80,000,000 pounds by the army, Bowles said. Lard supplies are expected to be up about 39 per cent from heavier marketing of hogs.

Over-all meat supplies next month will be about one-half of one per cent less than in October and "therefore x x x do not permit the end of rationing," the OPA chief said.

On a carcass weight basis, the November beef supply will be about 13 per cent less than this month, veal will drop off about 19 per cent and lamb and mutton around 22 per cent, according to agriculture department estimates.

The seasonal run of hogs to market is expected to boost the pork supply about 41 per cent to counterbalance declines in other kinds of meat.

The domestic supply of beef, veal and lamb will be down because of foreign requirements, said an agriculture department official.

He said foreign allocations had not been met in full this month, and for this reason it would be necessary to dip deeper into the November meat supply. Meat set-asides

See RATIONING, Page 6

### Bourland Named Chamber Director

Roy S. Bourland was re-elected as the local director to represent Pampa in the West Texas chamber of commerce at a meeting of the Pampa chamber of commerce board of directors held yesterday afternoon.

Reno Stinson was elected first alternate and director of the West Texas association.

The resignation of C. O. Drew from the board of directors was accepted with regrets by the board. Doc Pursley, president, announced, Drew stated in a letter that he felt he was not able to give the proper time and attention to activities of the chamber of commerce. A new director will be appointed at the next regular meeting.

Voting on the referendum ballot of the West Texas chamber of commerce, the board voted in favor of 1. The referendum type of convention being adopted as the permanent type of annual business and membership meeting of the organization.

2. The West Texas industrial advertising campaign being continued and expanded as a West Texas enterprise privately financed, rather than to promote an all-Texas campaign of national advertising financial.

Ships and units arriving include: At New York—Argentina from Le Havre—5,320 troops including 74th, 74th, 77th, 77th field artillery battalions; headquarters and headquarters batteries, 2nd, 26th and 115th anti-aircraft groups; headquarters and headquarters batteries 402nd and 418th field artillery groups; 286th and 290th field artillery observation battalions; headquarters and headquarters battery 410th field artillery group; 533rd anti-aircraft battalion; 35th and 153rd anti-aircraft operations de-

### NEWSPAPERMEN SENTENCED

### COURT CASE INVOLVING PRESS FREEDOM STUDIED

AUSTIN, Oct. 25.—(AP)—The judges of the court of criminal appeals today began their study of the bulky record in a contempt of court case involving freedom of the press, and there was more to come.

Attorneys for the three Corpus Christi newspapermen sentenced for contempt by County Judge Joe D. Browning of Nueces county had obtained permission to file a written answer to the state's brief. They had one week in which to make this final pleading.

It may be many weeks before the court rules on the case.

The court has before it the question of whether or not to make per-

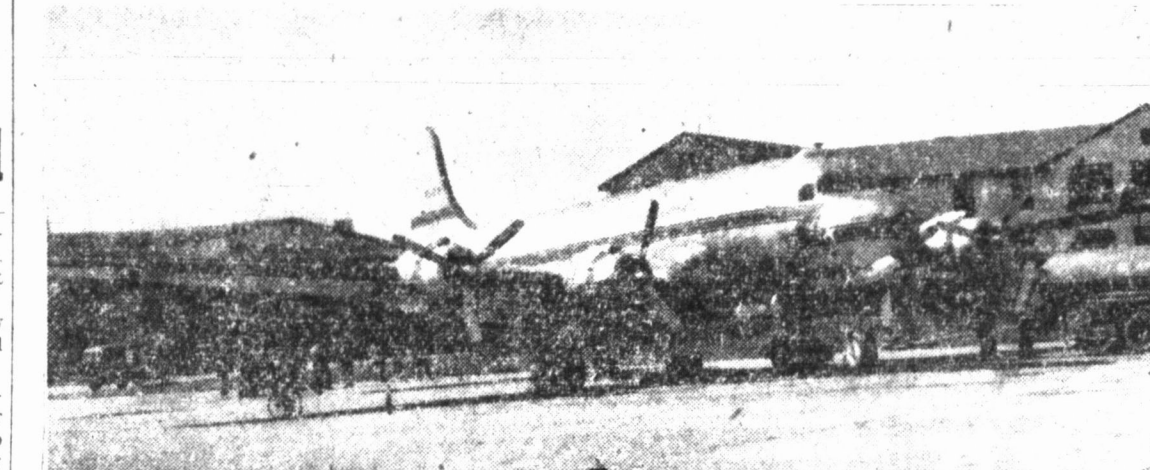

manent a temporary writ of habeas corpus granted Conway Craig, publisher of the Caller-Times, Bob McCracken, managing editor, and Tom Mulvaney, reporter. If the writ is made permanent, it would void the contempt judgment.

Judges of the court evidenced a lively interest in the arguments, punctuating the lawyers' oral discussions with frequent questions. The trend of these indicated concern as to whether a case decided in the United States supreme court, or Texas cases involving contempt, would furnish the controlling law.

Jerry D'Anger, representing the newspapermen, said he would file a written answer to the state's brief.

See COURT CASE, Page 6

### PLANE READY FOR WORLD-CIRCLING TRIP

The Skymaster, Douglas C-54-E, refuels at Fairfax airport, Kansas, C.P., on initial coast-to-coast "Statesman" flight. One of the daily transcontinental flights, to be made eastward and westward, will be taken by the Globemaster while on its world-circling trip.

## Order by MacArthur Cuts Off Nips Diplomatically From World

### Spokesman Denies Laboring Masses Supporting Peron

BUENOS AIRES, Oct. 25.—(AP)—A radical party spokesman charged today that police forced workers into participating in the Oct. 17 demonstration which brought Col. Juan Peron back to power and denied that the laboring masses support the strong man.

Carlos Cisneros, secretary of the radical party's national committee, said the mass appeal for Peron's return "was an exact reproduction of the first popular demonstrations by fascism and the falange."

Peron, long the power behind the scenes in Argentina's military government, resigned Oct. 9 at the demand of an army faction led by Gen. Eduardo Avalos, commander of the powerful Campo de Mayo garrison in suburban Buenos Aires. He was placed under arrest. Eight days later Peron returned from prison and was cheered by a large crowd in the Plaza de Mayo.

President Edelmiro Farrell promptly announced that the group's enthusiasm had made him decide not to hand over the government to the supreme court, as had been anticipated. Peron greeted his restoration to power with a pledge that he would dedicate his life to the cause of labor.

Shortly afterwards, Domec news agency reported that Prince Fumihito Konove, royal career statesman and youngest of Japan's senior statesmen, would renounce all titles and court privileges so that he could take part in politics as a private citizen.

Konove was prevailed upon by Mar. Koichi Kido, lord keeper of the privy seal, to delay his action until work on revision of the constitution is finished, Domec said.

The action might indicate that Konove has determined to accept General MacArthur's suggestion, which was reported last Sunday, that the three-time premier head the liberal political movement in Japan.

Konove said in reporting the suggestion that he was undecided what he would do.

### County Girl Receives 4-H Club Honor Award

Charlotte Anne Wilson, 12 year old daughter of Mr. and Mrs. J. B. Wilson of Amarillo, will be presented a Danforth Foundation honor award for outstanding work in 4-H club leadership. It was announced today by Miss Millicent Schaub, home demonstration agent.

The foundation whose headquarters are in St. Louis, Mo., is for the purpose of helping young people and to recognize those of particular ability.

Miss Wilson will receive a certificate issued by the foundation and the book, "I Dare You," by W. M. Danforth, at the next Gray county 4-H club council meeting to be held Nov. 17.

### Waters Will Head Retail Merchants

Harvey Waters was elected president of the Retail Merchant Assn., Floyd Hart, vice-president, at a meeting of the directors held yesterday, Oct. 23.

Ed Weiss, elected director at the annual election of officers held Oct. 22, withdrew from the office and was replaced by R. W. Lane.

Mrs. C. N. Ellis will remain as secretary-manager of the association.

Scheduled meeting of the organization are on the first Tuesday of each month.

Choice meats every day at Barrett's Frozen Food Market. (Adv.)

### President To Get Law Degree From Baylor University

WACO, Oct. 25.—(AP)—President Truman will be at Baylor university Dec. 5 to accept an honorary doctor of laws degree, President Pat M. Neff announced this morning.

An engraved invitation to the special Baylor centennial convocation in a green morocco folder with a gold seal, was presented Truman two weeks ago by two former Baylor students, Sen. Tom Connally and Rep. W. R. Poage of Texas.

The President is expected to address the annual session of the Texas Masonic Grand Lodge on his visit here. He first visited Waco several years ago as a member of the Missouri Grand Lodge, of which he is a past grand master.

Neff is scheduled to become grand master of the Texas Grand Lodge on the same date.

Baylor conferred honorary degrees on former President William H. Taft in 1920 and on former Vice President John Garner in 1936.

The doctor of laws degree was conferred on Taft April 22, 1920 in a special convocation marking the 75th anniversary of Baylor. The degree was given by the late school

See PRESIDENT, Page 6

### City Civic Rooms Are Redecorated

A contract has been let for the laying of a three-sixteenths tile floor in the civic meetings rooms of the city hall. City Manager Garland Franks said today.

The Builders Supply company of Amarillo, who will lay the floor, was awarded the contract and work will start in about two weeks.

The Alpa Construction company, holders of the remodeling contract, are working on the kitchen at the present time.

A new ceiling has been installed in the main dining room and fluorescent lights have also been put in place.

The rooms and kitchen will be used as a meeting place for any civic organization. The dining room will seat over 200 people and there will be a raised speakers platform at the south end.

The room was formerly part of the old city auditorium. The auditorium was closed several years ago and the entire south end was converted into offices that house the American Red Cross, the Girl Scout office, the Boy Scout office and the Texas railroad commission.

### British Isles Are Buffeted by Winds

LONDON, Oct. 25.—(AP)—Gales battered the coasts of the British isles and western Europe for the third straight day today, driving the American Liberty ship Charles G. Glover aground off St. Nazaire, France.

The ship was carrying a cargo of coal from Charleston, S. C., to France. A French tug and trawler went to the rescue, but the crew said it was doubtful that the ship could be saved.

Extensive floods caused destruction in Great Britain.

## Bill Is Changed In Senate Passage

WASHINGTON, Oct. 25.—(AP)—The senate's \$5,788,000,000 tax reduction bill, fundamentally different from the \$5,350,000,000 measure passed by the house, headed today for a conference committee which will adjust the variations.

The senate took a seven-hour look yesterday at its finance committee's handiwork, added another \$155,000,000 of relief, then passed the bill by a voice vote.

After the house goes through the formality of rejecting the senate changes, the house and senate conference committee will get together—probably Friday—to work out the final form of the legislation.

House and senate versions vary so widely in so many particulars that the conference committee is expected virtually to rewrite the measure.

Speed is essential. Internal revenue officials would like to know the final form of the bill by Nov. 1 so they can prepare and send out revised withholding tables and tax blanks to offices all over the country.

The tax cut would apply to next year's income; the tax bill on this year's income will be figured on present law.

In effect, though not in method, the two houses were not far apart on the individual income tax cuts.

Both start in by allowing payers of the 3 per cent normal tax the exemptions granted surtax payers (500 a piece for the taxpayer and each dependent). The house voted to trim 4 percentage points off of the graduated surtax rates. The senate said take off 3 percentage points, then reduce the tax thus computed by 5 per cent.

The result in the case of 32,000,000 first-surtax-bracket taxpayers.

See TAX CUTTING, Page 6

## Signing Makes United Nations Charter a Law

WASHINGTON, Oct. 25.—(AP)—The United Nations is a going concern—on paper.

Convicted at San Francisco by representatives of half a hundred nations, "determined to save succeeding generations from the scourge of war," the organization came into formal being at 3:45 p. m. (CST) yesterday.

A few pen scratches on diplomatic parchment by Secretary of State Byrnes made the San Francisco charter "a part of the law of nations."

Byrnes subsequently said that maintenance of peace "depends not on any document, but what is in the minds and hearts of men."

The organization to keep the peace is not actually functioning yet.

The assembly is scheduled to hold its first meeting in London in December. Some time later the all-powerful 51-member United Nations security council will meet.

As of yesterday noon, 26 nations had completed ratification of the charter and delivered the necessary documents at the state department. Ratification documents of at least three more nations was required to make the charter effective—and one of the "big three" had to be Russia, one of the "Big Five" on the security council.

Shortly after 3 p. m., Fedor Orskhov, first secretary of the Soviet embassy, called at the state department division of treaties—and one with him not only Russia's ratification, but those of the White Russian and Ukrainian republics as well.

## School Groups To Vie For Yelling Honors

Students and faculty of Pampa high school will gather Friday afternoon in front of the LaRosa theater for a pre-game pep rally and parade.

The students will be divided into two groups, the Greens composed of the seniors and freshmen; and the Golds, composed of the sophomores and juniors. They will be let out of school at 2:30 and will parade through the business section. Some Pampa businessmen will act as judges in a contest to see which of the two groups can yell the loudest.

Townspersons are invited to attend this rally which will be held just before the Brownfield football game.

## England Considers Recognizing Rebels

LONDON, Oct. 25.—(AP)—A foreign office spokesman said today the British government is considering the question of recognizing the New Venezuelan government. He said the British government is in consultation with Washington.

At the request of war department officials who said the action was asked by leading scientists, the committee eased some of the legislation's restrictions on atom energy research.

The changes, department experts See HOUSE COMMITTEE, Page 6

## Deadline Announced on Poll Tax Exemptions

Poll tax exemptions must be applied for at the county tax collection office by all persons 60 years of age and over by January 31, Mrs. Betty Ragsdale, deputy collector, reminded citizens of Pampa today.

Exemptions must be applied for each year, a new ruling over the former procedure of obtaining permanent tax exemption.

PAMPA NEEDS CONSTRUCTION WORKERS:

**EMPLOYMENT OPPORTUNITIES WITHIN TEXAS SURVEYED BY USES AGENCY**

AUSTIN, Oct. 25.—(AP)—The U. S. employment service yesterday completed a digest of employment opportunities in Texas cities for use by counselors.

Some of the agency's observations, by cities, included:

**Abilene**—Labor supply exceeds demand which is steady and will expand as new materials become available. No serious unemployment expected if workers accept jobs at prevailing wage rates.

**Amerillo**—Job opportunities through November center on carpenters, electricians, auto mechanics, clerical workers, furnace chargers (zinc), helpers and laborers. Housing extremely tight.

**Beaumont-Orange-Port Arthur**—Prospects good with refineries, synthetic rubber and iron and steel industries needing workers. Housing situation tight in Port Arthur and Beaumont. Adequate housing available in Orange.

**Big Spring**—Good normal demand for labor, especially for unskilled labor, continues.

**Borger**—Highest labor market area in Texas with valid demand exceeding supply by 1,400 for the next two months.

**Brownsville**—Supply adequate for demand of food processing industry which begins late this month.

**Brownwood**—Reactivation of camp, Boyce as large scale separation center creates new demand for 1,050 workers to restaff and enlarge civilian personnel requirements.

**Corpus Christi**—Employment prospects in local industry will be good for the next six months with indications major demands will come from government establishments, non-ferrous metal, chemical transportation and construction industries. Houses and apartments very scarce.

**Corpus Christi**—Jobs going begging. Cotton picking, construction, domestic and service jobs listed.

**Elgin**—Few jobs for skilled craftsmen with principal demand for

laborers on two construction projects.

**Galveston-Texas City**—Immediate opportunities in former war industries confined to male mechanics' helpers and unskilled workers in shipyards. Other prospects uncertain because of incomplete conversion and reconversion plans, complicated by strikes. There are openings in normal peacetime activities.

**Longview-Marshall**—Supply far exceeds demand with overall employment on a downward trend. A surplus of 2,440 workers anticipated by Dec. 1.

**Lubbock**—Business and new construction expected to absorb a comparatively small labor surplus. It either or both of two army air fields are activated the surplus will increase.

**Lubbock**—Best opportunities in paper manufacturing, foundry establishments. Construction will show an increase in the next four months.

**McAllen**—Shortage of auto mechanics, carpenters, electricians and maintenance mechanics needed on construction work. No difficulty forecast in meeting seasonal demand for fall fruit and vegetable seasons.

**Odessa**—Principal opportunities in oil production and construction. Veterans preferred by all major oil firms. Demand for civilian workers continued at Midland Army air field but lack of housing hinders recruiting.

**Palestine**—Some road and building construction with employment to last from one to three months. Paley garment industry expected to reopen when sufficient material is available.

**Pampa**—Most significant current demand is for construction workers but there are limited openings in carbon black, oil and gas refining and automobile repair. Housing adequate.

**Paris**—Employers expressing veteran preference. Principal industries are wood and food processing, leather manufacturing, cotton oil milling, railroads and bus lines. Housing conditions improving.

**Plains**—Auto mechanics, plumbers and electricians needed. Housing inadequate.

**San Angelo**—Slight increase in supply of male skilled and semi-skilled workers out no unusual demand expected until postwar construction and business expansion gains more momentum.

**Sherman-Denison**—Unemployment steadily increasing because of accelerated army discharges and shutdown of food processing plants. Estimated unemployment of 3,300 at end of four months.

**Texarkana**—Employment prospects very poor with unemployment swollen by cancellation of war contracts and no prospects of major construction to absorb labor surplus. Major local industries have reached employment saturation.

**Tyler**—Contingent upon availability of materials, employment prospects good in construction trades for next four months.

**Victoria**—Labor demands in trade and service industries. Housing situation becoming acute due to increasing number of discharged servicemen returning home.

**Waco**—Surplus of workers since

**Texas County Is Sent Funds for Paralysis Fight**

NEW YORK, Oct. 25.—A check for \$1,191 has been sent by The National Foundation for Infantile Paralysis to officials of the foundation's chapter in Starr county, Texas, which is fighting an outbreak of polio. Foundation President Basil O'Conner announced.

The advance was in response to an appeal from Mrs. M. F. Garcia, of Rio Grande City, Texas, treasurer of the Starr county chapter. In that county there are at present four cases of infantile paralysis, but across the county boundary in Hidalgo county there are 23 cases. Texas had 903 cases as of October 6 compared with 183 for a corresponding period last year.

The funds sent today will not only provide medical and nursing care for patients of the present outbreak but assure continuing care for victims of earlier epidemics. This is in pursuance of the foundation policy that no victim of polio, shall be untreated for lack of money regardless of age, race, creed or color. Three other Texas county chapters have received emergency aid from the National Foundation this year. They are: Austin, \$800; Culebra, \$3,600 and San Patricio, \$900.

Other states which were given emergency advances are New York, \$198,775.40; Illinois, \$218,200; Virginia, \$103,092.51 and North Carolina, \$229,138.

**Here's Recipe for Nimitz' Favorite**

AUSTIN, Oct. 25.—(AP)—With gifts and plaquets of a nation pouring generously in to him, Fleet Admiral Chester W. Nimitz had only one further request to make on his recent visit to his old home in Fredericksburg:—"Where is the old cook-jar?"

His aunts were ready for the question. Remembering that during the life of the admiral's grandmother, the cookie jar had never been empty, they prepared a boxful of the sweets including his favorite "pepper nesses."

From one of his nearest kin, Mrs. Emil H. Riley, comes the recipe for these spicy pepper-nuts, without which Christmas is not Christmas in Fredericksburg.

2 cups of sugar  
6 eggs  
1 teaspoonful each of cinnamon, cloves and baking powder.  
A good pinch of black pepper.  
Flour enough to make a stiff dough (about two cups).

Beat eggs together, gradually add sugar, add all spices and baking powder to one cup of flour, then add additional flour.

These may be rolled out, cut and left on the board until the next morning for baking, says Mrs. Riley, which is the "exact way the admiral's grandmother used to bake them."

**7 New Labor Peers Created in England**

LONDON, Oct. 25.—(AP)—King George has created seven new labor peers, giving Prime Minister Attlee's labor government 32 representatives in the house of lords.

The announcement concerning the creation of the new baronies said the measure was taken to "increase the representation of the government in the house of lords" and to "insure that business in the upper house is conducted with proper dispatch and efficiency."

**For Hallowe'en**

Apple Juice Refresher is easy-to-make and easy-to-take!

Here's a sparkling refreshment that can be put together in a hurry when the occasion demands.

Apple Juice Refresher is probably the simplest kind of punch you could make, but it will score high at fall gatherings. Little tricks in serving and garnishing the drink magically turn ordinary bottles of apple juice and soda water into real party fare.

**Apple Juice Refresher:** For 6-8 tall glasses, chill 1 quart bottle of apple juice and 1 quart bottle of carbonated soda water in refrigerator. Combine in a pitcher, mixing well.

**Serving:** Frost the rims of tumblers by dipping the drinking edges first in lemon juice, then in powdered sugar. Place two ice cubes in each glass, fill to top with Apple Juice Refresher.

**Garnishing:** Add to each glass a slice of lemon or orange, a maraschino cherry or a sprig of mint, or all three, if desired.

V-J day but available jobs in wholesale and retail trade, service establishments, finance, food processing, construction and agriculture are going begging while most displaced war workers shop for better paying jobs.

# SOCIETY

## Hallow'en Social Is Given for Business Women's Club Members

The Business and Professional Women's club met in the City club rooms Tuesday night for a Hallow'en social. Games provided the entertainment for the occasion.

During a short business session, it was voted to assist the American Legion in their proposed Youth Center in any way that is possible.

Year books were distributed by Lillian Jordan, program co-ordination chairman.

Refreshments were served to the following members: Tommie Stone, Lucille Foster, Mary Jo Hawthorne, Vicki Williams, Madge Ruck, Elsie Gee, Alice Maxwell, Maggie Hollis, Neva Buran, Lillian McNutt, Clara Lee Shewmaker, Audrey Fowler, Ruth Gillespie, Laura Belle Cornelius, Mildred Lafferty, Maurine Jones, Lillian Jordan, Evara Crawford, Ruth Johnson, Mildred Pickett and Muriel Kitchens.

Guests present were: Bertha Mae Hollis, Ruth Fox and Fay Langford of Borger.

## Junior Guild Has Prayer Program

Mrs. Frank Shotwell, Jr., 1312 Duncan, was hostess Tuesday evening when she entertained members of the Junior Guild of the First Methodist church in her home.

The program opened with group singing. Mrs. Lee Harnah explained the importance of the "Week of Prayer," and led the responsive reading.

A self-denial offering was given, to be sent to the European countries. The meeting was closed with prayer.

Present were: Vera Sackett, Louise Stuart, Peggy Covey, June Hodge, Mary Anderson, Mary Wilkinson, Earline Borgman, Mrs. Frank Shotwell, Sr., Mrs. Harnah, and the hostess, Mrs. Frank Shotwell, Jr.

Miss Peggy Covey will be hostess at the next meeting, Nov. 13.

## New Officers Named By Blue Ribbon Club

New officers were elected when members of the Blue Ribbon 4-H club held a called meeting Saturday afternoon.

Berdegue Laycock was named president; Elta Francis Haney, vice president; Mary Jo Steward, secretary; La-Rue Whipple, assistant secretary; Atha Belle Steward, reporter; Emma Mae Sing, assistant reporter; Betty Green, recreation leader; Louise Whipple, council representative.

Eight members, the agent, Miss Millicent Schaub, the sponsor, Mrs. J. C. Steward, and one visitor were present.

The next meeting will be held Oct. 27, and a Hallow'en party will be planned.

## Need Soap and Soap Flakes?

Used fats are needed in making soaps... as well as refrigerators, nylons and many other scarce items.

TURN IN YOUR USED FATS!

## Post-Nuptial Wedding Shower Given in Home

Mrs. Robert L. Futrell was complimented Tuesday night when a bridal shower was given honoring her, in the home of Mrs. F. D. Taylor.

The entertaining rooms were decorated in Hallow'en colors of orange and black. A mock wedding took place between the witch and skeleton, and the witch's pot held the bride's gifts.

Refreshments of cake and coffee were served.

Those present were: Mrs. L. Stedman, Mrs. Don Jones, Mrs. Ruth Bennett, Mrs. R. R. Jones, Mrs. A. O. Davis, Mrs. Sess Berry, Mrs. Bert Kiser, Mrs. J. R. Perkins, Mrs. E. P. Chatwell, Mrs. J. W. Phillips, Mrs. C. M. Taylor and the honoree, Mrs. R. Futrell.

Spending gifts were Mrs. Jeff Dye, Mrs. Jack Hicks, Mrs. Oren Taylor, Mrs. Joe Ezra and Mrs. Wess Howpe.

## Relatives Urged by Red Cross To Send Own Money Orders

Relatives and friends of servicemen in this country wishing to send them money were urged today by Mrs. F. M. Culberson, home service chairman of the Pampa Red Cross chapter, to use telegraphic money orders, certified checks or registered mail instead of asking the local chapter to transmit the money for them.

In most instances, Mrs. Culberson explained, home service workers will not accept money for transmittal to servicemen in this country. Exceptions are made when emergencies occur and regular commercial facilities for sending money are not available to the sender. Under such conditions the chapter is allowed to provide the service, the chairman stated.

## Woodrow Wilson Has 'Fun, Frolic' Night

"Fun and Frolic" night, sponsored by the Woodrow Wilson Parent-Teacher association, and held at the school Friday night was attended by a large crowd.

A total of \$317.23 was cleared from sale of foods as well as from booths and other entertainments, and will go to finance the organization for the remainder of the year.

Next meeting will be held Nov. 8, when Knox Kinard, superintendent of schools, will be guest speaker on Father's night.

Exact length of a year is 365 days, 5 hours, 48 minutes, 45.51 seconds.

## Campus Short Cuts

By EPSIE KINARD

NEA Staff Writer

NEW YORK. — Coats as close-hauled to young waists as a strap watch to a wrist are the newest look of the teen-age gang.

Short, casual and youthfully chubby, this topper is sometimes a norwester tunic blouse, sometimes a strapped-in coat, but either takes to campuses like ivy-clad brick; to football stadiums like peanuts and pop.

The versatility angle of such coats is that they go as naturally with slacks as with suits, and need no change from flat-heeled shoes or skull-hugging caps.

Style variety in these nipped-infinities runs the gamut from lily corseletted coats to slack-line toppers that bring belts along for waistline strapping. Pictured are models typifying the two style extremes.

## Mrs. Emmett Gee Is Civic Culture Club Hostess

"Religions of the World" was the topic discussed by Mrs. Willis White, when members of the Civic Culture club met Tuesday afternoon in the home of Mrs. Emmett Gee, 417 Hill.

Roll call was answered with current events. Present were: Mrs. Fred Sweazy, Mrs. E. J. Kenney, Mrs. L. J. McCarty, Mrs. Irvin Cole, Mrs. E. A. Shackleton, Mrs. J. W. Bunting, Mrs. G. E. Riggs, Mrs. H. W. Waters, the hostess, Mrs. Gee, and a guest, Mrs. Emmett Osborne.

## Varied Programs Are Presented at Calvary Baptist W.M.U. Meets

Members of the Blanche Groves circle of the Calvary Baptist church met in the home of Mrs. J. C. McGraw Monday afternoon for mission study. Mrs. R. O. Clements taught the lesson.

Present were: Mrs. Clements, Mrs. B. F. Walker, Mrs. Wiggins, and Mrs. McGraw.

Mrs. W. E. Walker was hostess to members of the Katherine Mallory circle, when Mrs. E. M. Dunswoth discussed, "Evangelism Today."

Attending were: Mrs. Dunswoth, Mrs. Frank Slaton, Mrs. George Moore, Mrs. C. G. Shelton, Mrs. W. G. Jamison, Mrs. E. M. Culberson, Mrs. Walker and Mrs. Claude Crane.

## Athenaeum Club Is Entertained in Home

Special to News. SHAMROCK, Oct. 25—Mrs. Frank DuBose was hostess to the members of the Athenaeum club Friday afternoon.

Cut flowers were used to decorate for the occasion. In the dining room, the table was laid with a cloth of Italian cutwork, centered with a crystal bowl of autumn blossoms, flanked with candles.

Mrs. Temple Atkins presided when refreshments were served following a program on "Music."

Members responded to roll call with musical quotations.

Mrs. Lewis Hill opened the program with "Music of Yore," after which Mrs. J. H. Caperton gave "Cowboy Ballads."

As a climax, Mrs. B. P. Kersh played a number of musical selections recalling the days of long ago. Mrs. W. W. Clopton of Wichita Falls, and Mrs. Fred Holmes were guests, with the following members present: Mesdames Temple Atkins, E. K. Caperton, J. W. Gooch, Louis Hill, B. F. Holmes, J. H. Caperton, William F. Holmes, B. P. Kersh, O. T. Nicholson, Hubert Tindall and J. M. Tindall.

## Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unglorious weight and help bring back slurring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcol Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back-breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight... I help regain slender, more graceful curves, return the empty bottle and get your money back. —Adv.

## Centennial Members

## Entertain With Art Exhibit and Lecture

Special to The News. WHITE DEER, Oct. 25—The Centennial Study club entertained the Venado Blanco club and other guests at an art exhibit and lecture at McConnell hall, Thursday afternoon.

Mrs. J. L. Harsh and Mrs. J. A. Barnett greeted the guests. Mrs. E. H. Grimes, assisted by Mrs. J. C. Freeman and Mrs. R. A. Thompson, presided at the coffee service. As the group assembled, Mrs. Neal Edwards entertained with piano selections.

Mrs. Freeman introduced the program with a discussion of the National Art Gallery in Washington, D. C., which was given by Andrew Mellon, along with his collection of paintings and sculpture. Other collections have been added, one of the most notable of which is the Samuel Kress collection of Italian art, considered the finest in the United States.

Mrs. Stacey Hamner-Hall then pointed out the characteristics of the Early Italian art beginning with the Byzantine period and continuing through the 14th century, illustrating her talk with pictures loaned by the National Art Gallery.

Others present were Mesdames R. E. Druer, George Coffee, Carl Smith, Jack Williams, G. B. Moss, Arthur Howe, John Cunningham, Floyd Travis, Wendell Mixson, Ollie Jordan, E. C. Morris, W. H. White, E. Turner, Fred Mullings, W. L. Thompson, Dalton Ford, and Misses Claudia Ewerly, Marquerite Clayton, and Louise Williams.

## RHEUMATISM REMEDIES

Folk prescriptions for rheumatism included such items as: Wear a brass ring; wear a silver ring; wear a lead ring; wear a brass belt; wear a nutmeg necklace; sleep with a dog; wear red flannels, carry a potato; or carry a horse chestnut or buckeye.

## Shamrock Baptists

## Have Bible Study

Special to News. SHAMROCK, Oct. 25—The W. M. S. of the First Baptist church met at the church Monday afternoon for the regular monthly Bible lesson.

Mrs. Charles Green presided, and the meeting opened with a prayer led by Mrs. W. H. Buice.

Rev. Clifton Tennison taught the lesson from Hebrews, and Mrs. Roy Boatright led the closing prayer.

Those present were: Mesdames Melvin Braxton, Clifton Tennison,

E. K. Bechtel, Roy Boatright, Norman Patrick, Lee Newman, Sam McMurry, W. H. Buice, Seibert Worley, E. T. Boston, Henry Holmes, Charles Green, Bill Wilson and Reverend Tennison.

## BEWARE OF PIN-WORMS

Recent medical reports reveal that an amazing number of children and grown-ups may be victims of Pin-Worms—often without suspecting what is wrong! Watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the tormenting, un-increasing rectal itch. Because now you can and should do something about it. After centuries of distress caused by Pin-Worms, a highly effective way to deal with them has been made possible. It is based on the medically recognized drug called gentian violet.

### Mrs. Raymond Clapper Names Ten Most Influential Women of Year

Washington's ten most influential women named by Mrs. Raymond Clapper in a popular magazine released recently include two professional career women, four who do not possess great wealth, none who can be classified as an intellectual giant, only one that can be described as beautiful, and, as a group, says Mrs. Clapper, they are not young.

"Yet, when any of these women speak, busy executives find time to listen," Mrs. Clapper continues. "These ten are powerful because their vitalities and personalities have made their impacts upon public affairs."

### Housework Reaps Beauty Benefits

**By ALICIA HART**  
NEA Staff Writer

You can give yourself the home equivalent of that vaporizing facial—for which many swank salons are famed by filming on a hot plate you hover over a steaming sink or hot stove.

While you are behind closed doors and safe from intrusion is the time to combine housework with other beauty treatments. For a hair beautifier which enables you to emerge a Princess Charmaine instead of a household drudge, put hot olive oil on your hair and cover your head with a bathing cap to induce perspiration that unclogs pores and stimulates the scalp. When you pause between household tasks you can wash off jamming hair, and pin up curls, which will be dry by the time you finish your work.

### Cheramy Tisdal Is Honored on Birthday At Party for Friends

**Special to The News.**  
SHAMROCK, Oct. 25—Cheramy Tisdal was complimented Sunday on the anniversary of her fifth birthday with a party, given by her parents, Mr. and Mrs. Stuart Tisdal.

The affair was given at the Legion Hut, which was decorated with multi-colored crepe paper and dahlias.

The refreshment table was centered with five tall vases in pastel shades, burning in crystal holders. Individual cakes, topped with miniature lighted candles, were placed in rows extending the entire length of the table. The youngsters marched, singing "Happy Birthday," and movies were shown before the candles were blown out.

Pam Tisdal presided at the guest register, and the young honoree was the recipient of many attractive gifts.

For entertainment motion pictures of local people were shown, in which a number of the youthful guests could see themselves on the screen. Cakes and individual cakes were served.

The following youngsters registered: Marguerite Zeigler, Fredericka Abbott, Jan and Patricia Purkett, Mary Carver, Peggy and Lou Doty, Tommy and Janice Jones, Barbara Ann Shaffner, Frances Bechtol, Mary, James and Ann Gillis, Ann and Dick De Moss, Julia Beth and Mary Kay Holmes, Frances and Warren Williams, Martha Cox, Jaumeil Bradley, Mickey Linkey, Timmy Tindal, Glenda Ruse and Scherry Kaye Brown, Marilyn Barth, Gary Hill, Gayle and Aileen Patrick, Mickey and Buddy O'Gorman, Fred and Edna Pae Cornelis and Frances O'Gorman, Lynda and Jane Skidmore, Diane Parker, Lynda and Noel Adkins, Carolyn, Donnie and Allen Dodgen, Connie Kay Lewis, Tommy and Billy Ryan, Nancy Eddy, Naomi Ruth Robertson, Judy Perrin and Robert Baxter Jr.

Approximately 30 parents of the youngsters attended.

Fewer than 600 of the total 2500 rural communities in the United States are provided with whole-time health officers.

**NEWS OF OUR MEN and WOMEN IN UNIFORM**

**RECEIVES DISCHARGE**  
S/Sgt. Zeke B. Marchant, son of Mrs. B. S. Marchant, Paris, Texas, has been honorably discharged from the Amarillo army air forces separation center.

Marchant is a graduate of the Pampa high school and was employed as a clerk at the Furr Food Co. prior to entering to the service.

He served 22 months overseas with the 9th air force in the European theater of operations. Entering the army at Lubbock, he took his basic training at Sheppard field, attended schools at Lincoln, Neb., and Indianapolis, and was classified as an airplane mechanic. His last assignment was as supply technician at Heddelsberg, Germany.

Marchant wears the European theater ribbon with six campaign stars. He expects to return to his former business connection as a civilian.

**FORMER PRISONER IS HOME**  
Pvt. Alfred Myers, 25, returned yesterday to his home at 1105 E. Francis for the first time in five years on a 90-day furlough.

For over 40 months of that time he was a prisoner of the Japanese at Camp Sakarajama, Osaka, having been among the marines who were captured at the fall of Corregidor.

While a prisoner he was put to work in shipyards and in copper mines. About a month ago he was liberated and has been stationed at the Norman naval hospital at Oakland, Calif., to which he will report for a discharge at the expiration of his furlough. The marine has an honorary corporal's rating.

Pvt. Myers is the son of Mrs. Janice Myers. He was married October 14 to the former Lt. Mary L. Euston of Dayton, Texas, who has been an army nurse for three years. She too is expecting to be discharged soon. The couple plans to make their home in Pampa.

**Halloween**

Halloween parties are always fun... especially when there are home-baked cakes and cookies on hand. Imperial Sugar will help you prepare party goodies without draining your valuable sugar supply. The quick-dissolving, pure cane crystals of Imperial provide maximum sweetening and help you get the most out of your limited sugar supplies.

**West Texas Plans Ten-Week Session**

CANYON, Oct. 25—In response to many requests from prospective students, a ten-week summer session in 1946 has been determined by the West Texas State college executive staff.

Under the plan adopted, summer classes will be of one hour duration and will be held on five days a week. A total of twelve semester hours credit may be earned. Advantages of the plan include a single registration, one final examination period, and one commencement.

However, some courses will be shorter than ten weeks, especially in work-shops.

The summer session will open June 4 and close August 14.

**HOME FROM BURMA**  
Cpl. Harry F. Cook, 34, arrived in New York Oct. 24 from the China-Burma-India theater, sending a telegram to his parents, Mr. and Mrs. Wilmer Cook, 200 N. Ward, that he had arrived.

Cpl. Cook has been in the army since Aug. 21, 1942, and overseas in the China-Burma-India theater with the 478th quartermaster regiment since December of the same year. He has not been home since that time.

Prior to entering the service Cpl. Cook was employed as ambulance driver at the Clay funeral home. When he first entered the service he entered the medical corps, soon transferred to the quartermaster corps.

### Texas U. in for Very Busy Week

AUSTIN, Oct. 24—Two conferences, a board of regents session, and the Rice-Texas football game next week-end, October 28-27, will make it one of the busiest University of Texas faculty and students have had since pre-war days.

Drawing personnel directors and industrial officials from throughout Texas, some 200 are expected for the seventh annual Texas personnel conference. A smaller group of 50 or 60 are expected for the session of the Ceramic society of the southwest.

University regents will have fewer major items to consider this month than they had in October, and only routine matters will be up for discussion. Acting President T. S. Painter will return Monday from North Carolina, where he has been attending a meeting of the American Association of universities.

"Reconversion personnel problems" is the theme of the personnel conference. Col. M. L. Begeman, program chairman, has announced. General topics for discussion are "postwar employment," "personnel work in business and industry," "employment of veterans," and "labor and management in postwar era."

Scheduled for the seventh program meeting of the Ceramic society who led the 8th regiment in an assault on Tientsin, China during the Boxer Rebellion in 1900. He was fatally wounded. The date of the meeting.

The famous Liscum bowl is one of the most talked-about war mementos in the Second infantry division. It is fashioned of 90 pounds of silver, measures two feet and four inches from handle to handle, stands three feet three inches high and holds 20 gallons.

It was named for Col. E. H. Liscum who led the 8th regiment in an assault on Tientsin, China during the Boxer Rebellion in 1900. He was fatally wounded. The date of the meeting.

### Texas Today ...

**By JACK RUTLEDGE**  
AP Staff Writer

The Liscum bowl has been moved to camp Swift.

This being the football season, the first impression many will get is that the Liscum bowl is something like the Rose bowl, the cotton bowl or the Orange bowl. But it's not. The Liscum bowl is really a bowl—a \$50,000 bowl.

The famous Liscum bowl is one of the most talked-about war mementos in the Second infantry division. It is fashioned of 90 pounds of silver, measures two feet and four inches from handle to handle, stands three feet three inches high and holds 20 gallons.

It was named for Col. E. H. Liscum who led the 8th regiment in an assault on Tientsin, China during the Boxer Rebellion in 1900. He was fatally wounded. The date of the meeting.

### 2 Texas Geologists Study Colorado Rock Formations in New Experiment

AUSTIN, Oct. 24—A trip to Colorado to study rocks that are correlative with oil-producing formations in North and West Texas has just been completed by two geologists from the University of Texas, and the U. S. geological survey.

A comparison of fossils and rocks of Ordovician age, formed some three hundred million years ago, around Colorado Springs and those found in central Texas was made by Dr. V. E. Barnes, of the bureau of economic geology at the university, and Dr. P. E. Cloud, Jr., geologist of the fuels section of the U. S. geological survey, department of Colorado this week.

"The purpose of our trip was to complete a survey of the Ordovician rocks wherever they are exposed at the surface surrounding the Permian basin of Texas. This information is needed in order to complete a project between the federal geological survey and the bureau of economic geology at the university," Dr. Barnes said.

"We studied areas in Colorado where these rocks are at the surface and collected fossils from them in order to compare the ages of the rocks in the two regions," he explained.

The detailed report of the work which Dr. Barnes and Dr. Cloud

### Crossed Bill is Useful

The crossbill, a bird that lives on the seeds of conifers, is equipped with a crossed bill, a tool designed to give leverage in twisting open seed cones.

### MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Market Briefs

NEW YORK, Oct. 24—(AP)—Steel and motor stocks continued to decline in today's market and other groups lost fraction to around 2 points.

Reversing the recent trend of rising to almost all sections of the list except for Sears Roebuck and Eastern air lines—both of which touched peaks for the year or longer.

Volume approximated 1,400,000 shares against 1,370,000 Tuesday. Lower near the close were Bethlehem, Chrysler, Goodyear, Goodrich, U. S. Rubber, Montgomery Ward, Douglas Aircraft, Western Union, Westinghouse, Union Carbide, Allied Chemical, Johns-Manville, Eastman Kodak and Santa Fe.

NEW YORK STOCKS By The Associated Press Lower near the close were Bethlehem, Chrysler, Goodyear, Goodrich, U. S. Rubber, Montgomery Ward, Douglas Aircraft, Western Union, Westinghouse, Union Carbide, Allied Chemical, Johns-Manville, Eastman Kodak and Santa Fe.

No New Cars in Hands of Public

Aside from the automobile presented to President Truman some weeks ago, none of the newly made 1946 cars has gone into the hands of the public from the assembly lines, although the government gave the manufacturing industry the green light as long ago as July 1, Lee Moran, executive vice-president of the National Automobile Dealers association, said today.

"The point I wish to bring out," Mr. Moran explained, "is that new car production has been delayed so long now that the time when motorists will be able to buy new automobiles at will is indeed a long way off.

"This means that the public will have to worry along for some time with the present over-age vehicles which, on the average, have been in continuous service now for more than eight years. Most emphatically it means that we must drive more carefully and conservatively than ever before and see to it that our cars get the best possible mechanical attention at all times.

360 Attending WTS Demonstration School

CANYON, Oct. 25—West Texas High School, demonstration branch of West Texas State, and the lower grades have a current capacity enrollment of 360 students. This is a slight increase over last year.

Prof. F. E. Savage, director of the school, said that seven states were represented in the enrollment. The juice of the crocus was used by Roman women as a hair dye. In recent years it has been used in making cordials and as a coloring for cakes.

Mr. Moran pointed out that the acute shortage of automobile mechanics, still prevailing everywhere in the country, is making the situation even worse. "This is a timely warning," he added, "because cold weather is just around the corner and it will then be even more difficult to keep motor vehicles in condition while

Breakfast Tune. HERE'S A SIMPLE CURE FOR SOUR NOTES. Serve 'Em A Blend They'll Enjoy. Breakfast is the most critical half-hour of the day. A hearty breakfast, spiced with cheery conversation and good coffee, does more for the spirits than almost anything else.

Idea! TRY THIS TEST Here's a sly one. Start serving Admiration without letting on to the family. Then after you've had your first week of peace, quiet and "admiration," let them in on the big event.

Don't let a sneeze betray you as a "cold spreader." Smother it in your handkerchief and lessen the danger of infecting those around you. And for your own good, don't let a cold gain headway. Get after it with tried and proven cold reliefs at the first warning sneeze or sniffle. If it doesn't yield promptly to home treatment, see your physician without further delay.

# Capacity Turnout Predicted for Harvester-Cub Game

## Brownfield Beat Hobbs, No. 1 Team in New Mexico, 12 to 6

A sell-out crowd will probably be on hand tomorrow night when Pampa's undefeated Harvesters play the Brownfield Cubs, winners of four out of five games, here at Harvester park.

Kick-off time will be at 8 o'clock. During the half-time intermission, the Harvester band sweetheart will be crowned.

A few facts about the prowess of the Brownfield team were uncovered today. At the present time, the Hobbs, New Mexico, Eagles and the Carlsbad Cavemen are the two top ranking teams in New Mexico. Brownfield beat the Hobbs eleven 12-4 last week and could have made it more.

It will be a Harvester team in high spirits that takes the field tomorrow night. This year is the first year that a local team has ever gone unbeaten in its first five games.

Brownfield has yet to beat a Pampa team in the three years the two have met in conference play.

In 1942, Pampa took a 29-7 decision, it was 26-6 in 1943 and last year, the Harvesters won 25 to 6.

Both teams will average about 167 tomorrow with Pampa having a possible one-pound weight advantage over the Cubs. Brownfield boasts tackles weighing 210 and 200 to bring their weight average up.

Strating at left end for the Cubs will be Alfred Bond, who weighs 150 pounds. Right end starter is Larry Bailey, 150.

At left tackle will be Jerrell Price, 210, and at right tackle will be his brother, Donald Price, who weighs 200.

Guards will be Harold Pharr, left guard, weighing 150, and Tom Adams, right guard, weighing 175.

At center will be John Dalton, regular last year, who weighs in at 170.

In the backfield will be Jack Eicke and Calvin Franks at half-backs. L. T. Chambliss at quarter and Alton Martin at fullback.

Eicke weighs 148 and is the star of the Brownfield eleven. Franks tips the scales at 150. Chambliss at 147 and Martin at 170. Martin is the plugging type of back and is hard to stop.

C. L. Brannan and W. A. Bishop coach the Brownfield eleven. They replaced Aubra Noncaster and Johnny Bos.

Following the Brownfield game, the Harvesters have an open date and then play Lubbock there November 9. The team will go to Borger Nov. 16, to Plainview Nov. 23 and come back to entertain the Amarillo Sandies Dec. 1.

Other District One games tomorrow night are Lubbock at Plainview and Borger at Amarillo.

They're having a track meet at the Polo Grounds this week. Army will run up and down the field and Duke's football team might just as well sit in the stands.

Navy will get in its old form against Penn. That 20-6 win navy took from Georgia Tech last week dropped the Middies in the estimation of your writer but we'll string along another week.

Georgia could use the Senators who sprung Charley Trippi out of the air force and still not beat Alabama.

Paul Sarringhaus will cavort for Ohio State just the same but Minnesota will still win.

As if it mattered much, we'll take Denver over Utah State, Utah over Colorado A. & M., Fort Warren over Shenandoah Navy, Fort Worth training command over El Toro Marines and eggs over easy.

Motorists were given a number and required to provide their own method of display in the early days of the automobile. The number stayed with the car until the car was junked.

The new American Association of College Baseball Coaches expects to have 150 members by the time the mid-winter meetings come along.

Joe Becker, who hunts diamond talent for the Red Sox farms all summer, spends his winters hunting typhographical errors as proof-reader in the Joplin, Mo., Globe.

Those errors you saw some of his discoveries make last summer weren't typos.

The forums will be held the third Thursday every month in the architecture building auditorium on the university campus.

## Highland Park, Wichita Falls Meet in Feature Battle Friday Night

### BIG ED

Ed Terrell (above) was a great back on the 1940 Pampa Harvester eleven. Ed's counterpart, his "little" brother, Jim, is captain and left tackle of this year's eleven. Ed is married and is a lieutenant in the army. He may re-enter Texas A and M. when he gets out. Jim has another year to go on the Harvesters.

### Sports Round-Up

By HUGH FULLERTON, JR.

NEW YORK, Oct. 25.—(AP)—Lt. Comdr. Bernie Masterson, coach of the St. Mary's Navy Pre-Flight school grid team, can outdo even Army in using the "two team" system.

Bernie has a team that includes seven former pros which he uses against service clubs and a strictly amateur eleven that plays against college teams.

The reason the amateurs trimmed UCLA the other night was that Frankie Albert, just in from North Carolina Pre-Flight, did 57 minutes of first class quarterbacking after only three days of practice.

The Women's Professional Golf association, which called off its initial tourney this year because of unraveled travel, is dicker for dates for a 1946 women's national open in August.

After the Yanks' Charlie Keller met bird hunting near Wellsville, N. Y., the other day he told the local Nimrods: "I can hit Bob Feller's fireball a lot easier than those exploding partridges."

When Paul Richards, the lanky Tigers' catcher, performed at Muskogee, Okla., back in 1928, he was a utility infielder who threw so hard the first baseman complained he couldn't see the ball and, at times, served as an ambidextrous pitcher, but his best trick was to start from first base at a dead run backwards.

And fans recall that the pitchers used to throw the ball away in bewilderment. . . . Virginia Tech's football team started eleven freshmen when it upset Maryland last week.

Pen State's Chick Warner, the only track coach who turned out I.C. 4-A winners both indoors and outdoors in one year, is out of the navy after serving on the staff of Comdr. O. O. "Scrappy" Kessing in the Pacific.

The new American Association of College Baseball Coaches expects to have 150 members by the time the mid-winter meetings come along.

Joe Becker, who hunts diamond talent for the Red Sox farms all summer, spends his winters hunting typhographical errors as proof-reader in the Joplin, Mo., Globe.

Important games in six districts bring the Texas schoolboy football campaign into the thick of the conference campaign this week.

There are 50 contests over the state, 32 of them counting in district races, with the top interdistrict struggle pitting unbeaten, untied Highland Park (Dallas) and Wichita Falls at Wichita Falls.

In district I Amarillo plays Borger in a battle between undefeated conference leaders. San Angelo clashes with Odessa in district 3 in a similar contest and it's the same in district 5 where Paris plays Sherman, district 9 where Brownwood tangles with Mineral Wells, district 13 where San Jacinto (Houston) plays Milby (Houston) and district 14 where Port Arthur tackles Galveston.

The Highland Park-Wichita Falls tilt is the only game in the state in which unbeaten, untied teams battle but the Milby-San Jacinto contest is close to it. San Jacinto has been tied but not defeated.

All except one of the state's undefeated, untied teams have games. Laikin gets an open date but Pampa plays Brownfield, Plainview meets Lubbock, Cleburne encounters Ennis and Brownsville engages Robstown, in addition to the Wichita Falls-Highland Park, Odessa-San Angelo, Paris-Sherman, Brownwood-Mineral Wells and Milby-San Jacinto tilts.

This week's schedule by districts:

1-Friday: Borger at Amarillo (conference). Brownfield at Pampa (conference). Lubbock at Plainview (conference).

2-Friday: Vernon at Olney (conference). Graham at Electra (conference). Highland Park (Dallas) at Wichita Falls.

3-Friday: Abilene at Midland (conference). San Angelo at Odessa (conference). Lamesa at Sweetwater (conference).

4-Friday: Globe, Ariz., at Bowie (El Paso). El Paso high at Phoenix, Ariz. Ysleta at Las Cruces, N. M. Rowell, N. M., at Austin (El Paso).

5-Friday: Greenville at Denison (conference). McKinney at Gainesville. Paris at Sherman (conference).

6-Friday: Denton at Arlington (conference).

7-Thursday: Amon Center-Riverside (Fort Worth) vs Fort Worth Tech (conference); Friday: Paschal (Fort Worth) vs Poly (Fort Worth) (conference); Saturday: Big Spring at North Side (Fort Worth).

8-Friday: Crozier Tech (Dallas) vs Forest (Dallas) (conference); Saturday: Woodrow Wilson (Dallas) vs Adamson (Dallas) (conference); Sunset (Dallas) vs North Dallas (conference).

9-Thursday: Masonic Home (Fort Worth) at Stephenville; Friday: Brownwood at Mineral Wells (conference). Ranger at Breckenridge (conference). Weatherford at Cisco (conference).

10-Friday: Cleburne at Ennis (conference). Arlington Heights (Pt. Worth) at Bryan.

11-Thursday: Bonham at Texarkana; Friday: Sulphur Springs at Tyler. Waxahachie at Longview. Oldewater at Henderson (conference). Nacogdoches at Kilgore.

12-Friday: Athens at Livingston (conference). Grapeleaf at Jacksonville.

13-Thursday: Lamar (Houston) vs San Houston (Houston) (conference); Friday: San Jacinto (Houston) vs Milby (Houston) (conference); Reagan (Houston) at Lake Charles, La.; Saturday: Jeff Davis (Houston) vs Austin (Houston) (conference).

14-Friday: Port Arthur at Galveston (conference). Orange at Goose Creek (conference). St. Anthony's (Beaumont) vs Beaumont.

15-Friday: San Antonio Tech at Austin (conference). Corpus Christi at Kerrville (conference). Texas military institute (San Antonio) at Laredo.

### Private Anxious To Get Home But Glad 'Pop' Will Go First

BERLIN, Oct. 24.—(AP)—Pvt. Richard Eckles of the 504th parachute infantry regiment is anxious to get home to his pretty wife, Peggy, in Brownwood, Texas, but he is just as glad that "Pop" will get home first to see "Mom" in Columbus, Ohio.

"Pop" is Sgt. William M. A. Eckles of the 718th railway battalion at Nancy, France. "Pop" has only 46 points to son's 48 but "Pop" is getting out first—and likely soon—because of his age. "Pop" is 39 and son is 21.

Father and son both were drafted overseas.

### Private Anxious To Get Home But Glad 'Pop' Will Go First

BERLIN, Oct. 24.—(AP)—Pvt. Richard Eckles of the 504th parachute infantry regiment is anxious to get home to his pretty wife, Peggy, in Brownwood, Texas, but he is just as glad that "Pop" will get home first to see "Mom" in Columbus, Ohio.

"Pop" is Sgt. William M. A. Eckles of the 718th railway battalion at Nancy, France. "Pop" has only 46 points to son's 48 but "Pop" is getting out first—and likely soon—because of his age. "Pop" is 39 and son is 21.

UPTON CLOSE:

**III Were the 'Brains Working Against America**

If I were the brains of the world conspiracy to overthrow representative government and individual enterprise and to establish Moscow's rule over the stretches of Europe and Africa where now Russia challenges British-American influence, I would not be truly concerned with the welfare of the United States workers. In fact, I would be planning to make his condition more miserable, and make him feel more frustrated, rather than scheming to better him. This would be my aim in any labor controversy or strike situation, if I as a Marxist brain controlled by big labor bosses, had influence in strike committees.

I would move as fast as possible to create a condition of paralysis and violence in which power now existing, or some new power rising through "vigilante" action, would have to suppress civil and constitutional rights, and declare martial law. If I were the Marxist cabal's inner brain I would even work and hope to bring about a situation of military dictatorship in the United States—a ride by a man on horseback, which could, in my Marxist vocabulary, be called fascism, with little challenge.

You might think that if I were a Marxist—either a bought communist or "liberal" I would dread and oppose an out and out fascist regime in the United States. That is where you show ignorance of a naïveté about the communists thought processes. As a true Marxist, I wouldn't mind a fascist regime, temporary or permanent. I would try to bring

down these misfortunes upon my trusting friends and followers in the U. S., because that would greatly help my eventual world rule, and particularly right now would further the influence of my gods in Moscow.

I could hardly expect to win the United States for that god—and me, its vicar—in one campaign. That will require a work of at least two campaigns. The first will be to upset the American republic by forcing it into a fascist pattern, or an emergency rule by some strong man, such as MacArthur. My second campaign will be to denounce this America to the world—and particularly to the colored races—as the new fascism.

Of course, as a Marxist boss I would pretend to fear and fight such a fascist revolution in our United States. But in reality I would throw the suckers who picket the factories into the grasp of the strong man as rapidly and thoroughly as possible, while mouthing a trade of protest and abuse against him, of course.

Once the United States were ruled by a man on horseback, who would go about restoring order and releasing her paralyzed industry, I could proclaim to the world that Anglo-Saxondom had gone fascist, imperialist. I would rise as the champion of all colored and under-races in Asia and elsewhere (who comprise the great majority of the human race) against the arrogant, race conscious, Anglo-Saxon.

I might not be able to overthrow strong man rule in the United States, at least so long as that nation possesses production methods, and a supreme weapon, superior to my god's, Russia's, bes.

My program in the role of a Marxist brain, as outlined above, is made much easier by the stupidity of the British in clinging to—and even trying to restore and increase—empire over population inside of which they have no real hold, through bought or sentimentally won agents, and classes such as mine. My work is further greatly aided by the total lack of a foreign trend or policy with roots on the part of the American government and its leaders and people. They were tend to back up (always too late) the British Empire in its troubles. These troubles are now a sea-to-use the words of Shakespeare—against which British and America are taking up arms, but which can only be ended by the Hunlets trying to stop the rising tides of color and the increasing co-fraternity of the snubbed.

These millions shall be my helpers in establishing world peace, of the nature dreamed of for decades by the Japanese, and by a Napoleon, a Kaiser or a Hitler, but by my god-man in Moscow.

It is a beautiful morning (for Marxist tyranny). Everything is coming my way as a conspirator for the latest world domination. Only one nation is interested enough, and its power enough, to stand in the way: the still somewhat capitalist and individualist (think-for-themself) United States.

A few big labor leaders there under the influence of the Marxist board of strategy and a few labor groups susceptible to its control are pushing toward paralysis, disorder and fascism. The one country in our way—the only one too big for Marxists—for whom I here speak, to snatch or lurch off. We shall then unchain all the surly and starved and prostrated outside world, plus a lot of fooled liberals inside the United States, upon its fascist authorities.

What (we) have done and are about to do to Spain and Argentina do not hold a candle to what (we) shall then do to the United States of America.

Of course there might be a slip

**Peter Edson's Column: TOP TALENT IS GOING HOME**

By DOUGLAS LARSEN  
NEA Washington Correspondent

WASHINGTON—Size of the government is going down fast. But the best men are the ones who are fighting to get out. The others are fighting to stay in.

Most of the administrative talent which the government was able to attract because of the war is leaving for private business. A lot of these men were on loan from industry and they're overjoyed to get out of the bureaucratic family.

This is the lament of most of the department heads. Men they had counted on to run bureaus and divisions are being lured into business with fancy offers. On the other hand, men they probably could do without are pulling every thing to stay in and are staying awake nights figuring ways to get transferred to agencies which won't fold.

According to present salary level, \$9,600 a year is about the maximum a man could ever hope to make in the federal service without getting into politics. Jobs which pay more are presidential appointments, usually given out as political gifts. Thus, men who have ambitions for more money than that want to get into private business. They feel this somewhere. But no rise, no gain.

(We) communists take lots of risks, although we advise people under capitalism not to.

We've got the brains—nert?  
(Copyright)

**THERE'S SECURITY IN GOVERNMENT**

Then men who want to stay in government, enjoy its security. Advancements are slow but usually steady for the average man. Once they pass their period of probation in the service, unless they are amuck pretty seriously they are reasonably sure they won't be fired. The worst that can happen is that promotions will stop.

President Truman is acutely aware that the best talent is leaving Washington and has consistently appealed to congress to make the federal service more attractive by raising the salary ceiling. Bills to do this have been introduced.

As a result of the war and the thousands of business men joining the government, both business and government have benefited. As one man who has recently returned to a car manufacturing firm put it:

"I never realized what a tremendous job running the federal government was until I took my job in Washington. It eventually dawned on me that the seemingly endless tape had a good reason. You can't compare the average business to government because the government is so big and the public interest must be protected at all times."

Many men are leaving Washington with a sympathetic insight into the problems of federal administration. Still others who never could accept the complications of the federal sys-

tem are bitter about the inefficiency of it.

Top government administrative officials who had to teach these high-powered business tycoons how to become public servants also had some headaches.

**BUDGET WATCHDOG SUFFERED SHOCK**

A budget officer who had been in government several years was assigned to help run one of the war agencies. He said the requests some made for funds curled his hair.

His estimates of what it would cost to run this particular operation usually had to be cut in half. They would demand elaborate office equipment and facilities which were unheard of. He reported that the bigger they were before they came to government, the harder they were to handle and the more impatient they were with the government routine which was actually required by law.

On the other side of the picture many business men made some excellent contributions to stepping up the efficiency of the government. Civil Service Commissioner Arthur Fleming says that as a result of their efforts the taxpayers will get more for his money.

Perhaps the outstanding contribution to improving government efficiency has been made by Chester Bowles, OPA administrator. Many of his personnel policies are being adopted by the old-line agencies.

**A-Bomb Hidden Under File 'Etc.'**

By JACKSON S. ELLIOTT  
WASHINGTON, Oct. 25.—(AP)—

One of the world's best-kept secrets hid for more than three years under a small-type, three-letter abbreviation—"etc."

The secret was the atomic bomb. The careful job of accounting to the public for the treasury's outlay on it while hiding its existence was performed artfully but honestly each day in the daily "condition" statement of the treasury department.

In 1942 the war had drained the county of many important electrical-use metals. The treasury had a store of silver which wasn't being used.

So the war department borrowed 400,000,000 troy ounces for the Manhattan engineer district, the department.

One of the things he inaugurated was a plan to have explained to each employe just what his work contributed to the overall operation of OPA. This made each employe, down to messenger boys, more interested in their work. It gave them an incentive because they knew just what they were contributing to the war effort.

**3 Texas U. Engineers To Return November 1**

AUSTIN, Oct. 25—Three University of Texas engineers will return to the campus November 1, after spending several months in navy war research activity. They are Dr. M. J. Thompson, professor of aeronautical engineering; A. Warren Meyer, instructor in aeronautical engineering; and Dr. Dana Young, professor of civil engineering. They have been at the Johns Hopkins applied physics laboratory.

"We want the treasury statement to tell the facts—just how much the government has coming in, how much is going out and how much it has on hand."

Then one of the experts happened to look over the various items. He found "unclassified—collections, etc.," and "trust accounts, etc."

So every day since August 27, 1942, there has appeared a notation about leased silver reading:

(So many) "ounces of these items of silver are held by the office of defense plants of the reconstruction finance corporation, etc."

The "etc." stands for the Manhattan engineer district's silver loans.

And happily for the treasury men with the consciences no one ever asked them the meaning of the—"etc."

**CHICKENS — TURKEYS**  
STAR SULPHUROUS COMPOUND  
Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEY'S.

### Leaves From A Correspondent's War Notebook

By IAL BOYLE  
DENPASAR, Bali.—(AP)—The island of Bali is just one big Ziegfeld Follies—without the box office. American sweater girls couldn't

**DR. L. J. ZACHRY**  
**OPTOMETRIST**  
First National Bank Bldg.  
For Appointment Phone 268

make the grade out here because of the competition. They don't bother to wear sweaters in Bali.  
When you first come to Bali you have the uneasy feeling that you've walked into the third act of a burlesque show. That's because people in the Western world are reared with the idea that the northern half of the feminine torso is something to be displayed mainly in art galleries, night club shows and maternity wards.  
In this sunburned, carefree island in the Dutch East Indies, however, bare bosoms are more common than bare feet, but after a few days they are hardly more interesting.  
You fall into the viewpoint of the natives themselves, that after all there isn't anything permanently startling about the human body,

nude or clothed.  
Balinese girls are light brown in color, delicately featured and have marvelous posture developed by the custom of carrying burdens atop their heads. They are extremely modest.  
One foreign white artist who had spent 14 years in Bali painting native life used one feminine model all those years and never portrayed her in a nude study. He said he would hesitate to embarrass her by asking her to pose without benefit of her half length sarong.  
"These people are unbelievably shy," he said.  
His bosom landscapes, however, are extremely popular with visiting tourists. I asked him if he weren't weary of painting them for 14 years without a vacation.  
"No, I never tire of this subject,"

he replied, seriously. "I am an artist."  
TOKYO, Oct. 24.—(AP)—An American air force sergeant, who is teaching jitterbug-swing to a group of professional Japanese dancing girls, says these slow-eyed, but nimble-legged beauties are quicker to learn boogie than girls back home.  
"They are crazy about jitterbugging," said Sgt. Harris Rosendale, of Cincinnati, the dancing instructor. Their first show will be before a Japanese audience, but later they hope to dance at American soldier entertainments. Rosendale won't get to see them because his orders to return home are already in.  
"They are naturals at jitterbugging," said the sergeant, "better than American girls. They simply

eat up jazz and they would rather do tap dancing than anything in the world.  
"You show them a routine once and they can follow through right away. They will knock the GI's right out of their seats," Rosendale said.  
Chorus girls in Tokyo range in age from 16 to 21 and have to rehearse new numbers after going through two or three shows each day.  
They only get \$3 an evening—that is a little over \$5.  
"I don't know how they live," Rosendale said, "they must come from good families and dance for the fun of it. They are much more independent than American chorus girls."  
Despite their small and stocky

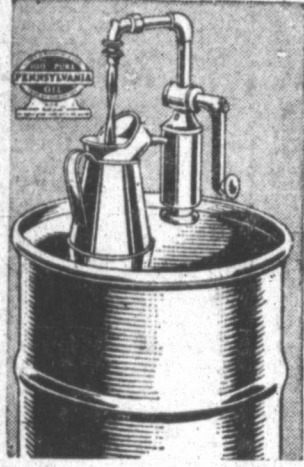

stature—GI's joke that "you can run over Japanese girls in a jeep without raising their hair"—they are little and agile from years of ballet dancing and easily learn new rhythms.  
Persons back home who oppose jitterbugging might be interested to know that at first Japanese chorus girls refused to practice some steps in the belief they were immoral.  
As soon as they were told that such dancing was conventional in America, however, they enthusiastically adopted it.  
Potatoes need not be fattening. One medium-sized potato has about 100 calories. It's the gravy, butter or other fats that "pile up" calories.

**Surplus Materials Given to University**  
AUSTIN, Oct. 25.—Into classrooms and laboratories of the University of Texas college of engineering have come surplus war materials to be used in training undergraduate engineers.  
Equipment valued at \$30,000 was given recently to the college of engineering by the ordnance and

## INDOCTRINATING FOR PEACETIME

It is encouraging to learn that Lieut.-Gen. Lucian Truscott, in taking over General Patton's job as Third army commander, has given early and serious attention to the problem of our troops' toward the Germans in the American zone of occupation. He plans a program of instruction designed to counteract the over-friendliness which seems to mark the soldiers' present relations with the former enemy.

These relations, while potentially dangerous, are understandable. The veterans who fought the Germans, suffered as their prisoners, or experienced cruelty at civilian hands before the surrender, are coming home. They had reason to hate the Germans, and to treat them with the severe justice they deserve.

But their replacements are largely men who did not participate in the Battle of Germany. What they see is a peaceful Germany, peopled by pretty girls, cute youngsters, nice old ladies and a lot of other outwardly friendly people. And being young and American and probably homesick, they find it hard to dampen their innate friendliness and good nature.

Thus they may fall prey to the subtle German propaganda, reported by so many American correspondents, which endeavors to build up sympathy for the Germans and to plant in our young soldiers' minds a distrust and contempt toward their country's wartime allies. Chief peddlers of this propaganda are, naturally enough, the pretty girls who are the natural objects of the troops' friendliness—pretty girls steeped from childhood in the doctrines of nazism.

The humane but hard-headed and hard-boiled attitude which marks General Eisenhower's dealings with the Germans will be required of the men under him if this propaganda is to be thwarted. But it will not be easy to achieve.

As the occupation continues, it is likely that the troops will include an increasing number of younger soldiers with no combat, or, perhaps, even wartime experience. They will need to be indoctrinated as carefully as the fighting soldier was.

It would seem that, while General Truscott's announced program is an excellent idea, the instruction he suggests might better start earlier than the time of the soldiers' arrival in Germany. Certainly it is important enough to require a thorough exposition.

Unless the Third army replacements are schooled in an attitude toward the Germans that is convincing and enforced, the Nazi remnants in Germany have a chance to achieve the goal of their propaganda efforts: a sympathy toward Germans and Germany which, as after the last war, could persuade public opinion that restrictions on German industrial practices and growth were unjust and unnecessary.

As General Eisenhower has said: "The success or failure of this occupation will be judged by the character of the Germans 50 years from now." But the forces that will shape that judgment are already at work. It is well that this government should take steps now to make sure that there are no foreseeable mistakes made that might prove irreparable in the future.

## Nation's Press

### CONGRESS GETS ANOTHER REPORT ON EUROPE

(Chicago Daily Tribune)

Once again a congressional committee has returned from Europe talking patriotic good sense. This time the message comes from seven members of the post-war economic policy committee of the house. The committee visited every important country from England to Persia, including Russia, where the members were allowed to confer with Marshal Stalin.

The formal report will be forthcoming in a week or so. Meanwhile, a preliminary report has been issued in which the members ask the common sense question: What are England, Russia and other countries going to give us in exchange for the loans they are demanding?

How much of the money that Russia desires to borrow is to be used for armament with which to oppress her neighbors? How does Russia intend to repay her loan, if it is made? Evidently the members were impressed, as they had every reason to be with the brutal military machine with which the Russians are seeking to dominate Europe.

What trade barriers, harmful to us, does the British empire mean to remove if we assist British reconstruction with credits? Apparently the committee in asking the question was unaware of the recent insistence of the British on a multi-billion dollar gift rather than a loan.

What advantage can America obtain from a policy toward Germany which goes far beyond disarmament and contemplates the permanent improvement of a nation that has been one of our best customers?

These are all highly pertinent questions which every patriotic American will wish to have answered. We hope the members succeed in blasting the truth out of the state department. The committee went on to question Russia's good faith in promising to get out of the occupied countries and to suggest that Russia should be pressed to admit foreign publications and their reporters to blacked-out eastern Europe. Most significant was the recommendation that the state department negotiate for "at least partial payment of lend-lease in the form of aviation rights, bases, raw materials, sites of embassies, etc."

The congressmen returned from their travels filled with zeal to serve America and over-whelmed with evidence of the betrayal of American interests by our agents in foreign affairs. We hope this mood survives in the Washington climate.

Experience shows that nearly every congressional committee that has gone abroad has returned in a state of mingled alarm and indignation over what the members saw. Something happens to these men and women in Washington however. After a few weeks they are found voting as they are told to vote, in plain disregard of their own convictions and the convictions of their constituents. The explanation lies in the importance of social life in Washington and the social dominance there of the foreign embassies. They eat the time. American officialdom dances to it.

## Gracie Reports

Well, maybe French politics won't be so confusing any more. And then again—who knows? I see that for the first time in history, the women of France have been given the right to vote. The motto of France is liberty, equality and fraternity, but I guess now they'll have to turn that fraternity into a sorority.

French women Gracie have always thought of French women as cute little things who eat French pastry and send their French lingerie to French hand laundries. Now when they gallantly bend over to kiss a lady's hand they may bump their nose on the ballot box that the hand is stuck inside of.

Now that French women have the vote, I know one man who could become president of France without any trouble. But I'd hate to see Charles Boyer leave America just for that.

## 8th Established Elbe Bridgehead

By NEA Service

In the summer of 1944 a German lieutenant general, his forces facing certain destruction on the coast of Brittany, decided to surrender to the Eighth Infantry Division. He was brought before Brig.-Gen. Charles D. W. Canham, assistant commander of the Eighth, who stood with a group of armed infantrymen. The German looked at General Canham and asked, "Where are your credentials?" General Canham motioned to his grim, dirty doughboys. "These are my credentials," he replied.

When the Japs hit Pearl Harbor, the Eighth, a regular army outfit, was assigned to patrol the U. S. east coast. It sailed for Europe in December, 1943, and landed in Normandy on the Fourth of July. During the next 10 months it was responsible for capture of 316,000 prisoners, 250,000 of whom were seized when the Golden Arrows made a swift dash to the Elbe in April, establishing a bridgehead there and joining with Russian forces.

The Eighth had its first combat at the Ayr river in Normandy. It took Rennes, and proceeded to the siege of Brest.

The division moved into the Luxembourg zone, fought in the Huertgen forest and pushed across the Roer river. The Eighth then went on to cross the Ruhr and the Erfurt Canal, fought its way to Cologne, stormed the Elbe, and on V-E Day was deep in Germany at Schweben.

## It's Downright Discouraging

## News Behind the News The National Whirligig

**By ALBERT LEMAN**  
**PRESSURE**—A new, whopping burden will avalanche on our over-loaded transportation system, already weighed down by passenger travel, peak freight movements and strikes.

Up recently troop transit was the major load. Now the navy is dumping men at a greatly accelerated pace. More troops than soldiers are piling into trains at Pacific ports. The ratio will increase in succeeding months.

Pressure in the west is intensified because only six main lines can distribute the men from debarcation points. Maintenance labor is scarce in thinly populated areas. A bumper grain crop will be on the rails through November.

**REASONS**—Americans discharged from war plants will not take these jobs. They consider the pay too low. The workers are used to modern factories with all sorts of conveniences, comforts and recreation facilities. They refuse to eat and sleep in rough boxcars perked on lumpy sidings and subject to winter storms.

These conditions exist in the west to a large extent. In this region turnover and labor families are the most acute and the pressure on overloaded transportation system is the most severe.

The problems mentioned here are some of the reasons why Johnny will not come marching home so fast as his letters announce.

## Inexperience Given As Accident Reason

**WASHINGTON, Oct. 25**—Better than 80 per cent of the pilots involved in liaison accidents in the 1944-45 period, had less than five hours experience in the model aircraft involved, Aviation News, McGraw-Hill publication reports.

"The next highest rate was among pilots with from 101 to 200 hours experience—a possible indication that familiarity with the airplane produced a false sense of capability," the article on the AAF accident study states.

"Partly allied to experience are the statistics on the phase of flight in which the accidents occurred. Landings accounted for 31 per cent, takeoffs for 11 per cent, and in-flight accidents for 43 per cent."

This nation is very rich, compared with the others. But, needless to say, we can't and won't lend money to everybody.

**STRIKES**—Secretary Forrester's experts wanted to prevent bottlenecks by routing their men through the Panama Canal to Gulf and Atlantic ports. But jittery congressmen deluged by mail from their constituents, insisted that families wanted their boys home at once regardless of the transportation problem. Sailors, worrying about job opportunities, also demanded haste.

Jan-packed trains are not the only complication. Strikes at ports have disrupted ship schedules. The coal strike has reduced the amount of fuel available for locomotives; when it is settled the tracks will be filled with coal cars catching up on the back orders of industry. The pullman shop strike has delayed delivery of urgently needed new sleeping cars.

**HOB**—Normally, October is the peak freight month. This year, exceptionally large traffic in passengers and goods is expected in the Thanksgiving and Christmas rushes. Railroad managers gaze at their already crowded trains and worry about what may happen when ice and snow blanket the Rocky Mountains. With rails congested as troops before, storms anywhere could cause severe tie-ups. Trainers remember the long lines of cars frozen solid in the Buffalo yards last winter.

Since January 1, 1945, British ships have carried home more than a quarter-million American troops from Europe. But Canadian and English parents and wives are demanding that empire demobilization be speeded up. The "Queen Elizabeth" and the "Aquitania" have been diverted to this purpose. Smaller transports will be used for men but in several ports their arrivals will play hob with distribution.

## David Lawrence DAY-BY-DAY COUNT ON WASHINGTON'S ACTIVITIES GIVEN

By DAVID LAWRENCE

**WASHINGTON**—The war has been won but the peace has yet to be won. The average man thinks this is something that has to do with other nations. He scarcely realizes that the peace has to be won inside the United States and the major task falls on the average man.

For the payment of a 275,000,000,000 national debt is the responsibility of the average man in America.

To pay off that debt means that funds must be raised to pay off the billions of war bonds which the American people have bought. This can be done only by collecting taxes, and taxes cannot be raised unless businesses and individuals make the money on which to pay the taxes.

The whole theory of laxation in America is that there must be profits. Uncle Sam today is in many instances an 80 per cent partner in private businesses. That is the maximum tax but it is not unusual there in withholding taxes. So it is quite conceivable that the treasury could lose a total of \$900,000,000 the employer lost \$300,000. Union treasurers are not taxed anyway—the loss in union expenses isn't relevant.

But the work stoppages account for only a small fraction of Uncle Sam's loss. Take the automobile industry, for instance. It is recontinging from wartime to peacetime wage scales. The government is supposed to fix the price to the purchaser. If that price is too high, sales will be curtailed. The government, however, will wish to fix the price at a figure that will cover all costs, including labor, as well as a profit. If the government price-fixing agency assumes that autos can be sold on a narrow margin of profit, it means the treasury must give up a large slice of tax collections. If it assumes that normal profits should be maintained then the question is whether the manufacturer can reduce his costs.

In some industries the raw materials are the costliest items and in others it is the labor payroll. Arbitrarily to state that all businesses can pay a 30 per cent increase in prewar wages without raising prices is to express a fallacy and one that will not give the tax collector his share because the profit will be wiped out in many instances.

Industry on the whole recognizes that "take-home" pay should not be reduced if it is at all possible to avoid such a step. But an increase in the wage cost often requires increase in the price. If the government disapproves such a price increase, a stalemate is reached where profits are cut, tax collections are reduced, and no new jobs are created for the unemployed.

One way out of the dilemma has been presented to President Truman as a possible solution. It is that the workers who, through their unions, now suggest that the work week be 40 hours but that the same pay be given as for 52 hours of work meet the management argument half way by increasing the work week to 45 hours. Presumably this would mean 52 hours pay for

## ESME OF PARIS

PRESENTATION AT COURT XVIII

To please Leslie, I agreed to a ridiculous whim he had always bothered me about—a formal presentation at one of the Court Balls in Buckingham Palace. For some reason, he felt that this would firmly establish the fact that he had not made a mesalliance in marrying me.

At the bottom of the whole silly business was Lady Mildred, a formidable dowager, a relative on his father's side.

Lady Mildred certainly turned a honest penny every year, for together with another titled dowager who gave classes in "court protocol," she turned up debutantes from the United States and daughters of wealthy English tradesmen who had been knighted, and sponsored their invitations. She then sent them to her friend's "court classes" in department where they were taught how to curtsy before Royalty and handle their long trains. In addition to this, the candidates were referred to the Court dressmakers, who, under Royal Command, had the distinction of making the Court gowns in whatever colors the Queen decreed for that season.

Lady Mildred used all her powers of persuasion to entice me into one of the most expensive houses in London, but I was not having any and went to a Frenchwoman called Mighels, who had extremely good taste, and let her cook up a creation in the requisite color, a light blue, the shade of a star sapphire, which suited me and was perfectly lovely when she got through with it. There was the added charm of its being much cheaper than anything purchased at the other house. I was supposed to get into the gown and attend the "class" at the house of

the expert in department, the Honorable Mrs. Something-or-Other.

I went there with mother and witnessed the astounding spectacle of a line of rather hefty young women, crouching on their haunches with their skirts spread around them, striving to rise to an upright position with approximately the same amount of grace as a pack camel getting on its feet in heavy sand. Mother's eyes shone with joy when I dropped a sweeping curtsy and rose again in one movement.

When the night of the ball came, we set off in the pouring rain, and I was amazed at the crowds blocking the sidewalks around the Palace, while the police formed a cordon to hold them back. Inside the immense vestibule and antechamber I found myself jammed by crowds of excited women and impeccably groomed men. Court officials in tail-coats and black satin knee-breeches dived in and out with invitation cards, and small boys dressed as pages in black velvet suits, some with kills, were straggling with yards of satin and by-cards forming the trains they were to carry for the princesses. In the crush I managed to get separated from my party and on looking around could not see Leslie anywhere. Clutching my train, I made for a small salon where there was a chair to sit on. I was extremely nervous about losing some of mother's diamonds in the jam.

While sitting there, I became aware of a tiny, dapper old man dressed in the court costume of a foreign diplomat—tail-coat, decorated with shiny legs in black silk stockings—who was bowing before me, speaking in French and asking my permission to sit down. He introduced himself as an attaché of the Belgian legation, but

maintain the status quo until the United Nations can get to work. Certainly there's plenty of ground for intervention, since these upheavals already are inflicting other parts of the Orient and thus are endangering general peace. They can't be considered as local "family affairs."

Britain's Gen. Sir Philip Christison, commander of the Allied occupation forces in Java, already has put out feelers with the idea of effecting a compromise between the Dutch and the Javanese nationalists. His position must be difficult, however, because President Soekarno of the so-called "Indonesian republic" has charged that the British are "supporting and buttressing the Dutch."

However, Soekarno is quoted as saying that "It may assist a peaceful settlement if the United States of America is willing to intervene—the more if Russia and China also took part in this settlement of the Indonesian problem." Well, the United States government has said that it is ready to mediate if asked to do so. We are waiting for the invitation.

More than incidentally, Secretary of State Byrnes yesterday also made it emphatically clear during a press conference that Washington objects to the use of lend-lease arms for political purposes as they have been employed by British and Dutch forces in the Far East.

The American attitude was further pungently clarified last week when Washington sharply reminded the powers concerned in the Oriental disturbances that they should prepare their peoples for self-government. That certainly is the call of the times, but one wonders how

he looked like a personage from a fairy tale.

He was perfect'y delightful and paid me compliments with each old-world grace that they were not in the least boring. When nobody was looking, he said, "Mademoiselle, will you permit an old man one moment of intense joy?" and kissed my arm just above my elbow at the top of my long white kid gloves. It was precisely at this moment that I heard the strident voice of Lady Mildred and beheld her quivering with indignation, accompanied by Leslie and an usher with a notebook.

The rest of the evening was a confused nightmare of long galleries, immense chandeliers, red carpets, busts of Queen Victoria, and a group of nervous women curtsying before Their Majesties, who somehow gave me the fantastic illusion that they were sitting miles away on the top of red and gold clouds. They bowed and smiled straight through everybody with the most exquisite indifference. Meanwhile, the ushers and court chamberlains beloveted out the name of every one who entered the enormous gallery.

The presentation took only a minute; then I was out of the line and being carried along toward the ballrooms with the stream of excited giggling girls. There a most frightful altercation took place with Leslie. He reved on and on about my scandalous behavior and what his aunt had said and thought, while every two minutes our conversation was interrupted by some man who wanted to be introduced and have a dance with me when the ball opened.

I managed to get Leslie down a corridor and told him I was sick and tired of being badgered and insulted, since I had come only to please him, sacrificing my own holiday and work in Paris for his sake. When I got this across, I turned on my heel and left him staring there.

The next morning I started to pack my things, intending to leave for Paris on the 2 o'clock boat train.

(To Be Continued)

## World Today

By DEWITT MACKENZIE AP Foreign Affairs Analyst

It is a pity the United Nations security organization isn't yet functioning, for it might prevent a catastrophe by friendly intervention in the Javanese rebellion against Dutch rule and the similar revolt against France in neighboring French Indo-China.

Perhaps there still is time, if the organization (which came into force yesterday) gets into the ratification of its charter gets into action soon. That is, there may be time if meanwhile some disinterested mediator can persuade the combatants to declare a truce and

45 hours work. The worker would retain the same pay but would work seven hours less than before. Industry would be given four hours more per week than in prewar days. This would satisfy an age-old economic principle which is that wage increases cannot be piled up indefinitely especially on an article of necessity like auto transportation without some increase in productive efficiency or output.

If both wage increases and price increases are granted, the inflationary spiral starts toward runaway prices and panic. If output is increased more autos can be produced for the new wages. Management gets something. The workers get something. And above all the treasury's tax collector gets something toward reduction of that huge public debt.

(Reproduction Rights Reserved)

long it will take the world to learn it.

We fought the First World War to ensure self-determination and to make our globe safe for democracy. Millions of gallant men died to make President Woodrow Wilson's fourteen points come true.

And still peoples argue the question with guns and bombs. Of course, it's only fair to note that old empires can't be dissolved overnight.

As this column remarked a few days ago, Britain has recognized this principle by establishing the British commonwealth of nations, comprised of sovereign dominions. Holland also is swimming into line with a promise of self-rule to Indonesia, and while details haven't been made public, this might provide the basis for mediation in the present trouble.

## FPC Hearing Being Reset for December

**AUSTIN, Oct. 25 (AP)**—A federal power commission hearing on Texas natural gas resources and their uses scheduled to begin in Dallas Nov. 27 has been reset for Dec. 10, State Railroad Commission Chairman Olin Culberson said today.

Culberson said the postponement was agreed to in a telephone conversation with FPC officials in Washington.

The state agency chairman said he proposed the postponement because many Texans will observe Thanksgiving on Nov. 29 instead of Nov. 22, which is the officially designated Thanksgiving date this year.

Answer to Previous Puzzle

In Hollywood

By ERSKINE JOHNSON  
NEA Staff Correspondent  
HOLLYWOOD. — Before Shirley Temple's Sgt. Jack Agar returned to his army job, she rushed him over to the Hollywood Newsreel theater. They slipped into the theater unnoticed, and watched the filming of their wedding from beginning to end. "You did awfully well in your first picture role," said Shirley to Jack. "I hope I don't have to play another one until our golden wedding anniversary," earnestly replied Sergeant Agar. Mrs. Agar smiled in complete agreement.

**NO ESCAPE**  
A baby elephant in the M-G-M zoo became ill and died. One day Spencer Tracy discovered the elephant had been stuffed and sent to the studio prop department for possible future use in a picture. "Ye Gads," screamed Tracy. "There's no way to get out of an M-G-M contract. When you die, they stuff you!"

Texas Artist Paints Outstanding Picture

AUSTIN, Oct. 25.—A painting by a University of Texas artist, Everett Spruce, instructor in art, has been selected by Howard Devree, New York Times art critic, as one of the outstanding pictures exhibited in the United States this year.  
Spruce's picture, "The Nest," is an oil painting on masonite, and is at present on exhibit in the "Armory Exhibition" in New York City.  
At the present time Spruce is having a one-man showing of his paintings in Dallas. Last summer he was represented in one man

shows in the Santa Barbara museum, and last year, in San Antonio and New York.  
Advertising is what makes America tick. If it ever stops entirely, the economy of the country will go down at once. It is the economic force that has made this country the world's greatest producer.
