

# REDS MOVE TOWARD TURKISH BORDER

## UNRRA's Fourth Council Meeting Convenes Tomorrow

### Desperate Search For Food at Hand

WASHINGTON, March 14—(AP)—A desperate search for food and funds to replenish the world's lean larders will bring delegates from 47 nations together tomorrow in Atlantic City for UNRRA's fourth council meeting.

In the midst of an international situation gravely complicated by diplomatic differences, the delegates' chief attention will be focused upon a problem which has bridged ideological disputes—the task of helping millions impoverished by war.

### District Court Hears Evidence In Ekern Case

Evidence relative to the shooting of Clarence Arnold and outward aspects of the relationship between Arnold and his former father-in-law, Lincoln Ekern, were given by the state's main witness Arnold in the Ekern trial this morning.

Ekern is being tried in district court on a charge of assault with intent to murder with malice aforethought.

Arnold was on the witness stand for about an hour and one half. Other witnesses, called by the State, were Chief of Police Louie Allen and County Sheriff G. H. Kyle.

Court was dismissed at noon and was to adjourn at 1:30 o'clock.

Evidence given by 28-year-old Arnold, serviceman, pointed out that about 7:30 a. m., October 17, he was backing out of the driveway of the home of his mother, Mrs. Gertie Arnold, just north of the Baptist church on Northwest, when a car driven by Ekern bumped his car from the rear.

Arnold said he immediately drove a few feet forward. He was accompanied by his wife and mother, all on the same seat of the Ford convertible.

About the time his car stopped rolling forward, said Arnold, Ekern appeared at the driver's door of the car driven by Arnold. Ekern appeared excited, and said "I'll catch you this time," stated Arnold.

Ekern then stuck a pistol through the open window of the convertible and "started shooting," Arnold said he grasped the arm of Ekern which held the gun, and on kicking open the door of the convertible took Ekern off balance. Evidently, said Arnold, Ekern had a foot on the running board. Ekern fell to the ground, followed by Arnold who had received several shots in his body.

Arnold said he kept hold of the arm of Ekern with which he held the gun, sitting on top of Ekern. In the meantime, Mrs. Gertie Arnold, who had been sitting on the right side of the convertible alleged—

### County Road Job Bids Are Listed

AUSTIN, March 14—(AP)—Low bids on 26 Texas highway construction and maintenance projects announced by the state highway department in the past two days have amounted to nearly four million dollars.

Low bids yesterday on 11 projects in 15 counties amounted to \$1,934,879. Low bids Tuesday totaled \$2,046,764 for 14 projects in 15 counties.

Among yesterday's low bidders on projects were the following by counties: Victoria — U. S. 69, 6.16 miles widening concrete pavement, grading, structures, and asphaltic concrete pavement, M. B. Killian and company, \$484,788.64.

Erath — U. S. 67 and 377, 39.07 miles asphaltic concrete and seal coat, A. L. Bucy, Brownwood, \$40,767.25.

Ochiltree, Carson, Gray, Hansford and Hutchinson — U. S. 83 and 60, 112.28 miles seal coat, D. H. Construction Co., Dallas, \$94,569.37.

### Peron Strengthens Lead in Election

BUENOS AIRES, March 14—(AP)—Col. Juan D. Peron strengthened his lead in the presidential contest today by forging ahead in populous Buenos Aires province, which has 88 electoral votes.

Incomplete returns from the province showed that Peron had overtaken the early lead of his democratic union opponent, Dr. Jose Tamborini.

One of the organizations which backed Tamborini has conceded the election to Peron, who now leads, 304 to 72, in the indicated electoral vote.

Subscribers: If your paper is not delivered by 5:30 p. m. (evening paper), or by 8:30 a. m. (Sunday paper), call the Pampa Daily News office before 7 p. m. (evening paper), or by 10:30 a. m. (Sunday paper).

It will be delivered to your address by car, if it is reported within those time deadlines.

## Labor Front Picture Brightens as 275,000 Cut From Ranks of Idle

By The Associated Press  
The nation's labor front, clouded for months by disputes which slowed the reconversion program, was as bright as a spring morning today as settlement of two prolonged and costly strikes in the automotive and electrical industries indicated a return to work of some 275,000 employees.

The back-to-work calls were delayed pending acceptance by the strikers of settlements reached yesterday in the 113-day old walkout of 175,000 employees of General Motors and in the two-month long work stoppage by 100,000 General Electric employees.

**IDENTICAL AGREEMENTS**  
The CIO unions involved in two of the country's major disputes settled with the companies with identical agreements relating to wage increases—18 1/2 cents an hour.

An early return to work of the 275,000 workers in the GM and GE plants would mean a sharp reduction in the ranks of the idle because of labor disputes. From a near all-time high of more than 1,500,000 in January, the idle, now approximately 750,000, would drop to about 475,000.

**CIO STEELWORKERS**  
Main disputes which continued to keep idle thousands included 150,000 CIO steelworkers, mostly employed in fabricating plants not affected by recent settlements between the union and major steel producers: 75,000 CIO electrical workers at Westinghouse Co.; 40,000 CIO workers in farm machinery plants, and about 50,000 independent CIO and AFL machinists and related workers in Massachusetts.

No hitch was indicated in getting the GM and GE strikers back to their jobs as quickly as possible, and approval of the agreements by the rank and file of the two unions was expected.

**PERIOD OF LABOR PEACE**  
The ending of the work stoppages sharply curtailing the production of automobiles and of industrial and home electrical appliances, was hailed in Washington by Secretary of Labor Schwelbentz. He said he believes the country is entering a long period of comparative labor peace.

The labor secretary termed the General Motors agreement the "most significant we've had, pointing toward an end of our industrial strife."

**COST BILLION DOLLARS**  
The General Motors strike, which cost an estimated billion dollars in lost wages, sales and commissions.

**See LABOR PICTURE, Page 4**

### Almost Identical Increases Given by 3 Big Industries

DETROIT, March 14—(AP)—The big three of the automobile industry met with almost identical increases the postwar wage demands of the CIO United Auto workers.

The average hourly wage rates which follow include two sets of pay scales for General Motors.

One rate is national, the company says; the other applies to the Detroit area including Flint, Pontiac and Lansing.

Company	Old Rate	New Rate
Ford	\$1.21	\$1.39
Chrysler	\$1.14	\$1.32 1/2
General Motors	\$1.14	\$1.32 1/2
Detroit Area	\$1.20	\$1.38 1/2
National	\$1.12	\$1.30 1/2

### LET'S HOPE SO: MEN'S CLOTHING SUPPLY MAY IMPROVE REAL SOON

By JAMES MARLOW  
WASHINGTON, March 14—(AP)—What about suits, shirts and shirts for men? Will the stores have them soon?

"There's just one honest answer. It's hope so. No one can speak positively."

We've heard rosy stories about those things and were disappointed. We may be again.

Who's to blame for the shortages? It would take a congressional investigation to find out.

Last April OPA Boss Chester Bowles happily predicted men's clothing, generally, would drop five to six percent in price.

See MEN'S CLOTHING, Page 4

### THE RUSSIANS HAVE BEEN HERE

This exclusive photo is one of those pictures that tells "better than a thousand words" how the Russians in Manchuria have stripped machinery and material usable in the USSR's huge industrial recovery program.

Taken by Harlow Church, NEA-Acme correspondent. It shows wall of the Teh Ho

weaving and dyeing plant in Mukden, Manchuria, blasted out to facilitate removal of machinery, and beyond the wall—emptiness.

### Lewis Expected to Concentrate On Better Working Conditions

#### Red Cross Quota Not Been Reached

The Pampa chapter Red Cross drive for funds is lagging this week, Joe Fischer, chairman, said today. The total reported last Sunday was \$11,996.57, and today the total has risen only slightly—\$12,239.41.

There is still \$1,809.89 to go before the quota of \$14,046 is reached. Fischer said the drive went well last week, but that it is lagging now.

He urged all groups to report completion of their work as soon as possible. Although the drive continues through this month in the nation, he hopes to end the drive within a few days—this week if possible.

"Please get in the reports, so that we can complete our project," he said.

One more firm was known to have participated 100 percent in contribution, Anthony's.

Again there was a call for those people who have not been contacted by a worker to mail or take their contributions to the Red Cross office at the city hall.

### Actual Laying of Outfall Line Begins

Work will begin next Monday on the actual laying of the pipe for the main outfall line of the Pampa sewer system. City Engineer George Thompson said today.

The ditching machine was received here yesterday by the Allred-Enix construction company, contractors.

Thompson said a sufficient supply of 18-inch pipe has been received to lay about 1,500 feet of the line or as far as the first junction.

The pipe company has promised to deliver at least two railroad carloads of 12-inch pipe each day until the order for that size is filled.

### GENERAL TO GRADUATE

KOKOMO, Ind., March 14—(AP)—Maj. Gen. William E. Kepner will deliver the commencement address at his own graduation from high school.

General Kepner, a member of the joint army - navy - marine board which will conduct atomic bomb tests in the Pacific in May, left Kokomo high school 30 years ago to join the marines.

Principal C. E. Hinchshaw has announced that a special commencement will be held March 28 at which 27 veterans—including the general—will receive diplomas, and Kepner will be the speaker.

### Drive to Extend Draft Reported Growing Stronger

WASHINGTON, March 14—(AP)—John L. Lewis played sphinx today but there was much conjecture that he planned to soft-pedal wage increases demands and concentrate on winning better working conditions for his soft coal miners.

**WAGE CONFERENCE**  
At the same time, the trend of the two-day old national minimum wage conference gave rise to buzz among industry representatives that Lewis might raise a strike April 1, despite the fact that he already has cleared the way for a general walkout.

The speculation over Lewis' wage position, left uncertain Tuesday when he proposed mere 10-cent wage raises and hours be shortened, was touched off yesterday when United mine workers spokesmen denied an entire day to explaining of the UMW's demand for a miners' health and welfare fund.

**NINE GENERAL DEMANDS**  
The fund was one of nine general demands which Lewis placed before the conference.

Wages were not discussed at yesterday's public meeting and they are not on today's program. Union officials indicated that no specific wage figures are to be discussed until actual bargaining begins behind closed doors.

Meanwhile, however, the UMW turned full pressure on the health and welfare fund program, stressing what it termed poor hospitalization and medical benefits now available; inadequate compensation laws; lack of mine safety; and other working conditions which the union wants improved under the new contract.

A spokesman for the coal operators said the industry now feels that Lewis may not resort to a coal fight.

### More Trees Are Needed at Park

About 50 more young trees, 5-and-7-inch Chicago elm, are needed for the American Legion recreation park grounds, it was announced today.

Anyone who has trees he would like to donate to the park is asked to call the Pampa Daily News office, telephone 668. The trees would be picked up.

Seventy-six cottonwood and 58 elm trees have been planted around the lake, but some larger trees are needed. That is the reason for the call for more trees, it was explained.

Shrubbery is also to be set out. However, it has already been procured.

Wheel balancing and complete front end alignment. McWilliams Motor Co. Phone 104. (Adv.)

### Much Concern Is Shown Over World

By the Associated Press  
Russian troop columns were reported on the move in Iran today toward the borders of both Turkey and Iraq, both British allies.

Teheran dispatches said one column which moved northward out of the Azerbaijan capital of Tabriz toward the Soviet border had swung westward toward Knol, near the Turkish frontier and not far below the Turkish landmark of Mt. Ararat.

This column was swinging north of Lake Urmia, while below the lake other columns, moving mostly at night, were reported at Miyandub, near the Iraq frontier, and at Mianeh, the terminal of a railroad to Tehran.

Marshal Ivan Bagramian, a Russian expert in tank warfare who commanded on the Baltic front in the war, was disclosed to have been in Tabriz for two or three weeks.

### More Reports of Red Movements Being Received

By JOHN M. HIGHTOWER  
WASHINGTON, March 14—(AP)—The United States government is continuing to receive reports of extensive Russian troop movements in Iran, a state department official said today.

The department is not officially releasing the contents of these reports at this time, but it can be stated in general that they show three Russian forces of strong but not massive size distributed about as follows:

One column at Karaj, 23 miles from Tehran, Iranian capital where, American officials believe, a leftist coup may be planned by Tudeh (communist) party leaders to install a pro-Soviet government under the sponsorship of the Moscow command.

Another column has passed the town of Marand north of Urmia lake and turned toward Kholi in the wild country of Kurdish tribesmen along the Turkish border.

The third column at Mianeh, south of the communication center of Tabriz and in position to go either toward Tehran or toward the Turkish-Iran border.

Because of the closeness of the forces to the area of the Kurds, who inherit a three-nation area centered around the frontier junction of Turkey, Iran and Iraq, there is strong speculation here that one major Russian objective may be to launch a Kurdish uprising which would simultaneously involve all three of the middle eastern countries.

Of the reports which have come in, Michael J. McDermott, state department press officer, would say only that they had been received and that they continue to bear out the information given correspondents earlier this week when the state department announced dispatch of a note to Moscow asking what Russia is up to in Iraq.

From other sources it was learned that the best available evidence is that the Russian forces are not in the nature of massed armies but small mobile striking units of tanks and cavalry on missions which the Russians have not yet disclosed.

The Russian go-it-alone policy had diplomatic authorities concerned less the whole job of writing the peace for world war II is imperiled.

Such situations as the one which has arisen in Iran have reactions in many other fields of foreign relations. Hence they may affect not only the forth-coming meeting of the United Nations security council at New York but also the plans for

### Two Cars Collide At Intersection

The second intersection collision in two days was reported today by the police department.

Yesterday's accident occurred at the intersection of Mary Ellen and Louisiana streets and involved a 1929 Ford driven by James Bowers, 15, and a 1941 Ford station wagon driven by W. T. Price.

The front end of the car driven by Bowers was badly smashed and the rear fender of the station wagon was damaged.

Bowers was going north on Mary Ellen and Price east on Louisiana when the accident took place.

An intersection accident took place at the corner of Cuyler and Athens Tuesday. No one was injured in either accident.

### New State Park Manager Named

AUSTIN, March 14—(AP)—E. B. Canine, assistant secretary of the state park board, announced today that Melvin Van Norman of Dallasgerfield will become manager of the Tyler state park, effective March 18, succeeding V. O. Hoyt, who has resigned.

Goering, resuming direct testimony in his own behalf, boasted that his luftwaffe was responsible for the swift conquest of Poland.

Just as the American air force assured the Allied victory."

He confessed that he ordered the Nazi aircraft industry to develop a bomber capable of flying to the United States and back, insisting that they do this work "expeditiously in case America entered the war."

The lack of aluminum and technological planning caused him to forego development of long-range bombers.

### ATACK ON IRAN

While Russian troops were thus swarming in the general direction of Karz and Ardahan, two Turkish districts which Russia has said should be returned to her, the Soviet government newspaper Izvestia in Moscow printed a sharp attack on Iran.

Izvestia declared that a "reactionary clique" of Iranian politicians tried in 1919 to get control of the greater part of the caucasus including the Soviet oil center of Bakhi. Soviet Armenia and Soviet Azerbaijan, and still harbored hopes of realizing its ambitions by pulling Russia against other great powers.

**'INTERNAL IRANIAN SEA'**  
This ruling clique in Iran—not without instigation from the outside—dreamed of turning away Soviet territories and also went so far as to try to make the Caspian sea into an internal Iranian sea," said the Izvestia article.

Naming former Premier Ibrahim Hakimi, head of the Iran government until a few weeks ago, and said Zia Ed-Din, premier after the first World War, as two of the clique. Izvestia warned that these forces still had much influence in Iran and must be watched by Russia.

**ATACK ON CHURCHILL**  
In London Foreign Secretary Ernest Bevin reported on the situation to the British cabinet.

Bevin was believed in communication with Secretary of State Byrnes on the situation, but no official cognizance yet had been taken of Generalissimo Stalin's bitter personal attack on Winston Churchill, for his speech in March 5 at Fulton, Mo., in which the former British prime minister proposed an alliance of Britain and the United States.

Stalin in an interview published in Pravda yesterday, declared Churchill was advocating a Hitler-like race theory of rule by English-speaking nations under the threat of war with Russia.

From other sources it was learned that the best available evidence is that the Russian forces are not in the nature of massed armies but small mobile striking units of tanks and cavalry on missions which the Russians have not yet disclosed.

The Russian go-it-alone policy had diplomatic authorities concerned less the whole job of writing the peace for world war II is imperiled.

Such situations as the one which has arisen in Iran have reactions in many other fields of foreign relations. Hence they may affect not only the forth-coming meeting of the United Nations security council at New York but also the plans for

### Some People Still Have Convictions

Proof that people still have convictions, much less the "courage to follow their convictions" as well as the right to have them, was brought out in the process of investigating jurymen in the Lincoln Ekern case yesterday.

One man said that if an order of indictment was presented by a grand jury, the defendant in any case would probably be guilty. An indictment in this case was ordered last October by a grand jury. The man was dismissed for, as Judge Eging pointed out, by law a man is innocent until proven guilty.

Another man called to serve on the jury said he "just couldn't" serve if the case involved a verdict of the death penalty. The case, said District Attorney Walter Rogers, would not involve such.

A third stated that he did not believe in the suspended sentence law and was dismissed.

A fourth said, on being questioned, that he could not recognize "temporary insanity" in any case, and was therefore dismissed.

Another man called to serve on the jury was a witness in the case and therefore ineligible.

The jurymen selected by attorneys from the 36 men called are: Luke Long, G. E. Harris, J. W. Henry, Ralph Glasscock, Hugh T. Greiner, Miro Pagan, R. E. Warren, E. E. Plank, Clyde Prince, James Scott, Frank Ware and J. W. Parnell.

The remaining men, those not previously dismissed, were excused until March 25.

### Today's Schedule Of Redeployment

(By The Associated Press)

Eighteen transports, carrying 5,705 service personnel, are expected to arrive today at three West Coast ports while 87 more troops are due to depart from two vessels at two East Coast ports.

At New York—U. S. A. T. Gen. George W. Goethals from Le Havre 446 Dutch, French, Belgian and Luxembourg war brides and children, Victor Herbert form Casablanca.

At Norfolk—William S. Halstead from Casablanca.

At San Francisco—Miscellaneous on Blak'lin from Pearl Harbor, Arthur Middleton from Pearl Harbor, Bunch from Pearl Harbor, LCS's 45, 55, 41, 56 and 52 from Pearl Harbor, Torrence from Honolulu.

At Seattle—Miscellaneous on S. S. Marine Angel from Calcutta and Singapore. USS PC 320, PCS 1422.

**NOW SHE SHOPS "CASH AND CARRY"**  
Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acid and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisons to remain in your blood, it may cause rheumatism, indigestion, headache, loss of pep and energy, brittle up night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smearing and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Eight More Pampans Enter Army Service

Seven original enlistments and one reenlistment were accomplished during the past week by the local army recruiting office, according to Sgt. Delbert W. Nunn, recruiting officer.

Reenlisting for three years and choosing the signal corps and the Europe theater was Edgar L. Scoggins (36), husband of Mrs. Fave Scoggins, 643 South Barnes Street, Pampa. Scoggins is veteran of 49 months service with 35 months in the Pacific theater. He holds the American Defense Service medal, Good Conduct medal, Unit Citation and Pacific ribbon with 3 battle stars.

Original enlistments include Gerald Lee Worthington (18), son of Mr. and Mrs. Gerald J. Worthington, 707 S. Kendrick St. Gerald joined for three years and chose the army air forces and the European theater.

Herman Bell, Jr., son of Mrs. Herman Bell, Jr., 115 E. Brice St., joined for three years and chose the army air forces and the Europe theater.

## Century Club Contributes To Federation Fund

Mrs. Raymond W. Harrah, president of the Seventh district of the Texas Federation of Women's clubs, was complimented Tuesday afternoon when the Twentieth Century club presented a contribution to the Federation Cancer Fund in her honor.

The contribution was announced by the public welfare and health committee when the club, of which Mrs. Harrah is a member was entertained in the home of Mrs. Paul Kasishke, 911 N. Somerville. Mrs. Carl J. Wright is chairman of the committee, and other members are Mrs. Roy McKernan and Mrs. Ray Hagan.

After leading the club Collect, Mrs. McKernan discussed new medicines, and Mrs. W. R. Campbell told of cancer and its control.

Mrs. Kasishke served refreshments to a guest, Miss Barbara Jane Brotherton of Amarillo, and to the following members: Mrs. G. F. Branson, Mrs. Clifford Braly, Mrs. Campbell, Mrs. F. M. Culberson, Mrs. J. M. Fitzgerald, Mrs. Joe Gordon, Mrs. Hagan, Mrs. Harrah, Mrs. George E. Hepper, Mrs. L. M. Hicks, Mrs. E. B. Massa, Mrs. McKernan, Mrs. F. L. Stallings, Mrs. Wright, and Mrs. D. C. Kennedy.

## Mary Lynn Griffith Is Birthday Honoree

Mary Lynn Griffith was complimented on her fourth birthday when her mother, Mrs. O. M. Griffith, entertained a group of her friends in her home.

Games were played until refreshments of angel food cake and ice cream were served. Candy favors were presented to the guests.

Present were: Karen Capps, Jack and Susie Lathrop, Bob and David Michel, Phillips and Mary Lynn Griffith, Mrs. Elton Lathrop, Mrs. Tom Capps, Miss Maxine Carey, Mrs. William Speed and Mrs. Griffith.

## A Vital Message To Men Who Feel Old

Why not regain the vim and vitality you once enjoyed?

If he apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is a simple method that may change your whole outlook on life. Just ask your druggist for CASSELLA stimulating tablets. Take as directed on label. Don't feel old and worn out at 40, 60 or more. Take these tablets regularly until you feel that you have regained the pleasure of living, you once enjoyed. Why be discouraged? Why not try CASSELLA tablets and regain the vim and zest of a much younger man? There is nothing harmful in these tablets. They contain Celery seed, Thiamin Chloride, Passion Flower, Iron. Ask your doctor or druggist about this formula.

## Parochial P.T.A. Elects Delegates to Attend Convention

Delegates were elected to attend the district convention to be held in Dalhart, April 25 and 26, when members of the Parochial Parent-Teacher association met Wednesday afternoon at the school. Mrs. J. J. Hival presided at the business session.

Mrs. A. D. McNamara presented the report from the City Council, and the attendance prize was won by the fifth and sixth grade room. Knox Kinard, superintendent of schools, discussed the subject, "When and How to Say No." The speaker stated, "The most valuable 'no's' are the ones we say to ourselves; self-control is much more important than domination over others."

He stated further that in working with youth, adults must be consistent, be reasonable, and be fair, and that all authority should be administered in a pleasant and friendly way.

## Family Reunion Is Held in Mobeetie

The home of Mr. and Mrs. Wes Johnson in Mobeetie was the scene of a family reunion Sunday. A basket lunch was served at noon.

Attending were: Mr. and Mrs. R. L. Box and Mr. and Mrs. Homer Box of Mathiston, Mrs. T. E. Sheffield, West Point, Miss; Mr. and Mrs. Leonard Johnson and daughter Jean of Amarillo; Mr. and Mrs. Haskell Benson and Jean, Sherry and Genell of Hereford; Mr. and Mrs. Jack Johnson and Ronnie, Hereford; Mr. and Mrs. Jeff Johnson, Wellington.

Mrs. Maurice Smith and sons, Wellington; Mr. and Mrs. Webster Johnson, Euell and Blaine; Mrs. Mayme Thompson, Mr. and Mrs. Owen Johnson, Neil, Danny Joe and Cleo Ann; Mr. and Mrs. Bert Oswald, and Mr. and Mrs. Carl Johnson and Mollie Jane, all of Pampa.

Mrs. Mollie Johnson, Olin Johnson, Mr. and Mrs. Jake Oswald, Mr. and Mrs. Vernon Hooker and daughters; Mr. and Mrs. J. W. Walker, Norma Jean Jennings, Mr. and Mrs. Raymond Johnson and son; Mrs. J. T. Waller, Mr. and Mrs. Nep Trew, Edward Johnson and Mrs. Tice.

## Cub Scouts To Meet At Christian Church

Cub Scouts of Pack Four, sponsored by the First Christian church will meet in regular session Friday evening at 7:30.

Achievement awards and the honor pennant will be presented by Cubmaster C. W. Stowell. Each den will present a stunt for entertainment.

**SOME FAMILY**  
Offspring of a single pair of flies will total 325,923,200,000,000, if they all survive, in the average nine generations that occur from mid-April to September.

## Mrs. H. L. Ledrick Is Hostess to El Progreso Members for Program

Mrs. C. T. Hightower was program leader for the afternoon when members of El Progreso club met in the City club rooms Tuesday afternoon at 2:30, with Mrs. H. L. Ledrick as hostess. Theme for the program was "A Most Unforgettable Character, Franklin Delano Roosevelt."

Roll call was answered with current events and incidents in the life of Roosevelt. Mrs. D. V. Burton presided at the brief business session.

Mrs. Knox Kinard told of the childhood, school days and early political career of the late President, and Mrs. Hightower discussed his life in the White House and the notable things he accomplished while in office.

Mrs. Hightower emphasized her talk by reading a clipping from a London newspaper, which was printed after Roosevelt's death, commemorating his life and deeds. She also gave excerpts from a letter written by an Englishwoman paying tribute to Roosevelt for his part in the history of the world, and to him as a great man. Mrs. Hightower's brother was billeted near the town in which the Englishwoman resides.

A St. Patrick's Day motif was used in the refreshments of cake, mints, nuts, and coffee.

Members present were: Mesdames George Briggs, C. P. Buckler, D. V. Burton, W. R. Ewing, Edgar Henshaw, C. T. Hightower, Janette Hutchinson, Knox Kinard, P. C. Ledrick, Dave Pope, James Todd, George Walsted, and the hostess, Mrs. Ledrick.

## Methodist Circles Have Bible Study

SHAMROCK, March 14—(Special)—The W. S. C. S. of the First Methodist church met in circles Monday afternoon, with the devotional held in the home of Mrs. E. C. Hunter.

Mrs. J. T. Weems presided over the meeting and gave the devotional from the 15th chapter of the book of Matthew. Sentence prayers followed which were closed by Mrs. Weems.

The lesson from "The Divine Fatherhood" was presented by Mrs. J. B. Christner.

Mrs. William Kyle led the closing prayer, and refreshments were served and a social hour enjoyed.

Those present were: Mesdames M. Baxter, J. B. Christner, Bill Seiler, J. T. Weems, O. T. Glascock, Winfred Lewis and daughter, Connie Kay, Huey Cook and Kyle.

The Northside circle met in the home of Mrs. John B. Harvey, Mrs. Chester Tindall gave the devotional using as her subject, "Insincerity," and closed with prayer.

Mrs. Hubert Bratcher gave the lesson from "One God, and One Brotherhood." The meeting was dismissed with the Lord's Prayer repeated in unison.

During the social hour following the program, refreshments were served to one guest, Mrs. J. M. Tindall, sr., of Little Rock, Ark., and to guests: Mesdames William F. Holmes, Clifford Hofmann, D. J. Bulls, L. E. Clay, Pedro Dial, J. R. Benson, Hubert Bratcher, Chester Tindall.

Mesdames Hubert Tindall, H. T. Fields, A. J. Laycock, J. H. Caperton, Ed R. Wallace, Shirley Draper, T. E. Burkhalter, Bill Orrick, A. R. Hugg, Marshall Adams and R. T. Hill.

**CATERPILLAR CRIMINALS**  
A number of caterpillars were made defendants in a lawsuit for destroying a French vineyard in 1945. Between the 11th and 18th centuries, there were numerous instances of lawsuits being brought against insects and animals.

A pocket gopher has been known to tunnel 600 feet in 48 hours.

## Hopkins Club Reports Funds For Red Cross

Home Demonstration club collectors for the Red Cross reported \$110 in donations when the club met in the Hopkins Community hall Tuesday afternoon. Sixty dollars was turned in by the finance chairman, Mrs. A. L. Montgomery, from the banquet served and from a series of "diminishing teas."

Mrs. Paul Rice led the recreation with a St. Patrick's limerick contest. Each member composed a rhyme from a first line given to her. Mrs. C. V. Minniear won the prize.

In a demonstration by the agent, Miss Millicent Schaub, these dishes were prepared and served. Cheese is the most perfect or complete food, lacking only in vitamin C, bulk, and iron, Miss Schaub stated.

The hostess, Mrs. Robert Orr, served a refreshment plate to one visitor, Mrs. Doris Zuppan, the agent, Miss Schaub, and the following members: Mrs. A. L. Montgomery, Mrs. Vera Savage, Mrs. C. V. Minniear, Mrs. A. L. Kube, Mrs. C. F. Jones, Mrs. George Reeve, Mrs. W. E. Melton, Mrs. A. V. Jones, Mrs. Paul Rice, Mrs. Homer Seawright, Mrs. S. T. Redus, and Mrs. C. H. Erickson.

The next meeting will be with Mrs. A. L. Kube in her home, March 28.

## Calvary Baptist W.M.U. Conducts Bible Study

Mrs. R. M. Eves was hostess to members of the Calvary Baptist church this week for Bible study. The devotional was taken from Psalms and Mrs. R. P. Musgrove led the opening prayer. Mrs. Eves taught the lesson on "Angels."

Attending were: Mrs. Eves, Mrs. Musgrove, Mrs. E. C. Humphries, Mrs. Jack Robertson, Mrs. J. E. Willis, Mrs. Sherman Love and a guest, Mrs. Shadrack.

The Katherine Mallory circle met with Mrs. C. G. Shelton. Mrs. E. M. Dunsworth taught the Bible lesson.

Red Cross chapters arranged for housekeepers for servicemen's wives returning home with new babies.

Supply Rushed Here—Sufferers Rejoice  
Relief at last from the torture of sinus trouble, catarrh, and hay fever due to nasal congestion is seen today in reports of success with a formula, which has the power to reduce nasal congestion. Men and women who suffered with agonizing sinus headaches, clogged nostrils, ringing ears, hawking and sneezing misery now tell of blessed relief after using it. KLORONOL costs only a few pennies per dose. KLORONOL (caution, use only as directed) is sold with strict instructions at Berry's Pharmacy—Mail Orders Filled

## Miss Lucille Johnson And James A. Hinson Engagement Announced

Mr. and Mrs. Ernest H. Johnson, 212 N. Nelson, wish to announce the engagement and approaching marriage of their daughter, Lucille, to James A. Hinson of Durham, N. C.

Miss Johnson was graduated from Pampa high school with the class of 1939, and she is also a graduate of the Jerome Kearns conservatory in New York City. She is a former Earl Carroll vocalist.

Mr. Hinson attended Durham high school and later Duke university, prior to entering the armed forces.

## Shamrock Baptists Meet for Program

SHAMROCK, March 14—(Special)—The W. M. S. of the First Baptist church met Monday afternoon at the church for the Royal Service program.

The meeting opened with prayer led by Mrs. Duward Price. During the business session plans were made by the group to give a tea at the home of Mrs. E. C. Derr, Friday, at 3:30. Mrs. Charles Green, president of the organization, will review "Who Walk Alone," by Harry Burgess.

The program was given by the Many Rose circle, with Mrs. R. A. Nichols, sr., circle chairman, in charge.

"Home Mission Building in the New Year" was the theme discussed. The devotional was given by Mrs. Henry Holmes from the first chapter of the books of Acts.

Mrs. Lou Duncan's topic was, "Building Among Many Races," after which Mrs. Nichols discussed, "Our Building in Cuba and Panama."

Mrs. J. R. Brown discussed the subject, "Building In New Lands." Mrs. Nichols led the closing prayer.

Those present were: Mesdames T. B. Bland, Lee Newman, Charles Green, John Porter, R. A. Nichols, sr., Lou Duncan, Henry Holmes, Arus Mix, Bill Wilson, Norman Patrick, R. W. Shields.

Mesdames Dean McMurtry, Lewis Dial, Ben Boyce, R. L. Wyatt, George Eaty, E. K. Bechtel, Edward C. Derr, Duward Price, Neal Lunham, Jack Kersh and W. H. Hutton.

**HE DESIGNED THEM**  
The same man designed the "general's favorite vehicle" in both World Wars, Delmar G. Barney, creator of the jeep, built General Pershing a special sedan 28 years ago—a car capable of 100 mph.

## Mrs. Grace Hodge Is Guest Speaker At Varietas Club

Mrs. F. E. Imel was hostess to members of the Varietas study club Tuesday afternoon when Mrs. Sherman White directed a program on "Texas." Mrs. White led the group in repeating the pledge of allegiance to the United States flag, after which she repeated the pledge of allegiance to the "Texas" flag, which is, "I pledge allegiance to thee, Texas, one and indivisible."

Mrs. Grace Hodge, guest speaker, discussed "Youth Conservation." Mrs. Hodge, former juvenile officer, stated, "There are no bad children, although there is an average of one criminal youth for every 23 children. Children learn what they know from adults." She quoted J. Edgar Hoover who said that it is necessary to solicit assistance in working with children.

The speaker explained, "There are more criminals in cities because of the greater population. Youth crime is rapidly becoming a national scandal. The lack of proper adults association during the war when parents went into war plants and helped in industry, leaving their children without care, has been the principal cause of the crime wave."

"Other causes of crime are over indulgence and too much freedom. The majority of children scarcely know what it is to attend Sunday school. Liquor is the worst evil we have to fight, and youth can obtain it too easily."

"Clean recreation is necessary. A youth worker must love children and apply the Golden Rule. A person should work to save children whether he has children of his own or not. Adults must hold faith with children, showing confidence, and staying with them until they fight through their problems."

In closing, Mrs. Hodge read a poem, "Blue and Gold."

Mrs. John E. Bradley presented a group of her pupils, attired in cowboy costumes, who sang a number of Texas songs.

Children participating were: Bennie D. Eads, Richard White, Dugan Smith, Calvin Mayo, Butch Reynolds, Jerry Pumphrey, Jim Osborn, Kenneth Green, Jerry Dunn, Noel Dalton and Ralph Ayers. Bennie D. Eads played an accordian solo.

## LOOK OUT FOR PIN-WORMS

Recent medical reports reveal that an amazing number of children (and growing-up too) may be victims of Pin-Worms—often without suspecting what is wrong! And these pests, living inside the human body, can cause real distress.

So watch out for the warning signs that may mean Pin-Worms—especially the aggravating rectal itch. Get JAYNE'S P-W which follows the directions.

P-W is the Pin-Worm treatment developed in the laboratories of Dr. D. Jayne & Son, after years of patient research. The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms. Ask your druggist: P-W for Pin-Worms!

The agreement also provided increased vacation pay which the union said would amount to \$5,000,000 a year; equal pay for women; higher overtime rates, and a retroactive clause giving all workers an additional 1 1/2 cents an hour from Nov. 7 to Nov. 21.

The strikers were among the 200,000 CIO electrical workers at plants of GE, General Motors and Westinghouse who quit work in support of demands for a \$2 a day wage increase. The 25,000 from the electrical division of General Motors corporation ended their strike last month, after getting a wage boost of 18 1/2 cents.

The General Electric settlement, said Union President Albert J. Fitzgerald, provides for a retroactive increase to last Jan. 1 when the company offered a pay boost of 10 cents an hour for workers earning less than \$1 an hour and of 10 per cent for those earning more than \$1 an hour.

## General Range Conditions Better

AUSTIN, March 14—(AP)—Range feed conditions and small grain pastures were improved in all Texas areas except some extreme southern and western counties where drouthy conditions still prevailed on March 1, a U. S. department of agriculture report said today.

Cattle wintered well except in local areas of the south and southwest and were in average condition. Favorable weather prevailed during the last half of February and the necessity of supplemental feeding was reduced, the report said.

It was predicted that spring marketings would depend largely upon the amount of feeding was reduced, the report said.

It was predicted that spring marketings would depend largely upon the amount of rainfall during March and upon the availability of range feeds during the spring.

The condition of sheep was reported at slightly above the February estimate and the same as the 20-year average. Production of short wool in Texas in 1945 was estimated at 79,151,000 pounds, a million pounds less than the 1944 production. The price of 42 cents per pound was a cent lower than in 1944.

Mohair production for 1945 was placed at 20,360,000 pounds, an increase of 12 percent over the 1944 clip. The average price was 56 cents per pound, five cents lower than the 1944 average price.

The condition of early lambs was reported as being fair to good.

**PRIVATE SANCTIONS**  
STOCKHOLM, March 14—(AP)—Foreign Minister Osten Unden told parliament today that the Swedish government would not participate in any "private sanctions" against Franco Spain, nor could there be any question of a separate Swedish position toward the problem.

In time the veteran will run down. In the meantime we must understand his restlessness and treat him with patience and forbearance.—Dr. Howard R. Rusk, former AAF rehabilitation chief.

## Hangs Yamashita

The man who sprang the trapdoor for the execution by hanging of Lt. Gen. Tomoyuki Yamashita in Manila is Lt. Charles C. Rexroad, above, of Corvallis, Ore. Official Army hangman, Lt. Rexroad worked as a guard in San Quentin (Calif.) prison from 1932 to 1936.

## Political Group Slates Convention

MEXICO CITY, March 14—(AP)—The federation of people's parties will hold its national convention here March 25 to decide its activity in the forthcoming July 7 presidential election.

The party's national committee has declined to say whether a candidate would be entered in the race, whether it would support the candidate or some other political faction or restrict its activities to seeking congressional seats.

Gen. Miguel Henriquez Guzman who has much personal popularity is among those mentioned as a possible candidate of the party. Also mentioned is Gen. Jesus Agustin Castro, former secretary of war. Although members of the military are not permitted to take an active part in politics, some army men along with farmer groups have urged Gen. Agustin Castro to toss his hat in to the presidential ring.

**AGREEMENT WORKING**  
CHUNGKING, March 14—(AP)—An agreement being negotiated between the Chinese government and Turkic dissidents who in 1944 established the republic of Eastern Turkistan was described today to the Kuomintang party congress.

The only building in Greenland having more than one story is an American Red Cross club for servicemen.

## Hansford County Is Over Top in Fund

SPEARMAN, March 14—Hansford county citizens raised \$1,040 for the building fund of the Panhandle-Plains historical society.

The money will go into the fund for the completion of the society's museum in Canyon. What Hansford county citizens are proud of, however, is the fact that the money was raised in seven hours and that the county over-subscribed its quota by \$40.

W. J. Miller, publisher of the Spearman Reporter and Davis Warren, publisher of the Panhandle Herald, began work raising the funds at 1:20 p. m. Saturday, March 9. By 8:30, they had collected the \$1,040.

## Representative of Panhandle Area Discusses Bill

By EUGENE WORLEY  
U. S. Representative

Last week the house took up the annual appropriation bill for agriculture, which is of great importance to farmers and ranchers and others living in rural communities.

Some of the more important provisions which are of interest to the Texas Panhandle are:

(1) Soil conservation service.—Over the country new districts are being organized at a very rapid rate. For example, in 1945 there were 1,346 soil conservation districts and by midyear the number had increased to 1,426. It is expected that by the end of 1946 there will be 1,580 districts completely organized. The committee recommended the appropriation of two million dollars for the purchase of heavy equipment from government surplus for loan and grant to conservation districts.

(2) Fifty million dollars has been recommended for the school lunch program.

(3) An appropriation of \$110,256 to provide farmers with the prompt classification of cotton samples and about ninety thousand dollars to supervise inspection and grading of an increased volume of grain moving in domestic and export trade.

(4) Continuation of the farm security program in assisting veterans and those not in a position to obtain credit from other sources, and for low-income farmers returning from war industries who are not now borrowers and who cannot obtain adequate credit elsewhere.

(5) Two hundred and fifty million dollars for rural electrification loans to be borrowed from the reconstruction finance corporation.

These are several highlights of the bill and the house is expected to complete action on the measure this week when it will go to the senate for further consideration.

## THE ANIMAL KINGDOM:

L. N. Morelock, Katy railroad foreman of Hillsboro, says the housing shortage is spreading from pole to pole.

He was building a drain. He had to excavate under a culvert that had filled up. Inside he found a pole cat.

He called for a gun, but before he was over, he had killed twelve

skunks in all. They were all living in the culvert.

The situation is well in hand, but the atmosphere, even now, isn't exactly Chanel No. 5.

And a five-foot chicken snake was found in a drain of the Hill county courthouse. Women employees left in a hurry.

The sheriff, no less, finally took over, roped the snake's tail, pulled it out.

In Jacksboro, killing rattlesnakes was a Sunday afternoon sport. Now it's an industry.

They've killed 700 since they began counting them. At first hunters dug them out but that was too slow. Now they pour gasoline in fissures, wait for snakes to come up for air. Then the rattlers are either killed or caught alive.

Some are taken alive with a hook, others are caught by hunters with their bare hands.

Some dens produce as high as 57 snakes. The average is 30.

Live rattlers bring 50 cents a pound. This week hunters shipped 50, weighing more than 100 pounds.

The Lubbock Avalanche says coyotes in Motley county are getting very unaccountable. They even

peer in windows at night.

One householder saw a mad coyote looking in his window, trying to get in. He didn't have a gun, so he got a hammer and threw it at the animal.

The coyote dodged, sprang on the hammer and carried it away. The next day the man found it buried a few hundred feet from his house.

### Leaves From a Correspondent's Life Notebook

By HAL BOYLE

CAIRO, March 14.—(AP)—Egypt is the world capital of the "go getter" street salesman.

If you think you can get out of Cairo without buying a horsetail fly swatter, a braided leather blackjack or a 1937 45s of "Paris nights" you reckon without these nightrobed abductions.

They are the most passionately verbal peddlers on the face of the globe and make the average college

boy brush salesman back home look like a shrinking mite with an inferiority complex.

The only place you are really safe from them is inside Cheops' old tomb in the biggest pyramid at Gizeh.

The other day I was riding along in a two-horse harem when one of these portable native dimestores tore down on me through the traffic. Before I could leap out and run into a movie—that slows down these fellows because they hate to lay tickets—he had climbed into the seat opposite me and began waving a handful of riding crops and swigger sticks in my eyebrows.

"Look Abdullah," I told him "I don't need a riding crop because I don't own a horse. Besides my import-export balance is already unbalanced."

Then he leered over at me and asked: "You like pretty girls?"

"Abdullah," I answered suspiciously, "who doesn't?"

Abdullah reached deep into his striped kimono and pulled out a small jar which he surreptitiously handed over to me after a well staged glance around as if to see no police were looking.

"How much you give?" he said "very good, very good. Many Yank soldiers buy this from Abdullah."

The box contained "Elixir of youth," which modestly proclaimed itself to be a "variable open sesame" to elderly people who would for a time reenter the portals of the realm of youth.

"Now, Abdullah really," I said, handing back the box, "do I look like I need an Elixir of youth?"

Abdullah shrugged noncommittally. He reached deep into his bathrobe and began pulling out more wares.

My resistance cracked when he hauled out several horsetail fly swatters. He said that even if there weren't many flies I could use the

### Pail Faces

Berlin school children tip their lunch pails to get the last drops of the hot, nourishing soup served to them daily under Allied school feeding program. Since start of this service in Berlin schools, evidences of diet deficiencies have declined considerably. Photo by Emil Reynolds, NEA-Acme correspondent.

### Sports Round-Up

**By HUGH FULLERTON, JR.**

**NEW YORK, March 14.—(AP)—**It's a sure sign of spring when Cliff Bloodgood drops in to leave a few copies of "Who's Who in Baseball" and Ray Dumont checks in with his "Non-Professional Baseball Annual" . . .

Cliff admits he had the biggest task in years to decide on who's who for this season . . . First he had to dig out records of dozen of returning servicemen and reinstate them to the book, which jumped to a new high of 96 pages as a result . . .

Then there were athletes who "retired" then changed their minds and those who really did retire . . .

For instance the name of Paul Waner is missing for the first time since 1927. Joe Cronin finally was dropped along with Bob Johnson and Larry French and Tommy Bridges, both of whom had only a few games to go to reach the mark of 200 pitching victories . . . Newcomers include Dave "Boo" Ferris, Hal Gregg, Marino Pietetti, Al Schoendienst, Lambert "Dutch" Meyer and Goodie Rosen . . . There's another newcomer, whose inclusion makes Cliff blush a little—none other than dangerous Danny Gardella . . . Cliff isn't ready to recognize the Mexican league as a major loop.

professionals that they picked two all-star teams . . . The second, listed as "best prospects for organized ball" included Lou Kretlow, of the champion Enid, Okla., army team, who now is on the Detroit Tigers' roster, and Grady Hatton of the Greenboro, N. C. team, who collected something like \$25,000 for signing with Cincinnati . . . They may be worth watching this year.

### Southwestern Girls Meet Begins Second Round at Celeste

**CELESTE, Texas, March 14.—(AP)—**Follett and Celeste, winners in the opening round of the Southwestern AAU girls basketball tournament meet tonight in the second round.

Also on the card tonight are Grand Prairie vs. Campbell and Penelope vs. Quinlin.

Savoy which defeated Miller Grove 23 to 13 last night does not play tonight.

Follett had an easy time last night turning back Lone Oak 37 to 6. Celeste won over Yantis 11 to 9.

**SOX EXPECT TWO**

**PASADENA, Calif., March 14.—(AP)—**General Manager Leslie O'Connor of the Chicago White Sox said he expected infielder Don Kolloway and Catcher Ed Fernandez in camp this week-end.

### Nine Aggies Chosen For Arizona Rodeo

**COLLEGE STATION, March 14.—(AP)—**Nine Texas A. & M. college students will represent A. & M. at the sixth annual intercollegiate rodeo sponsored by the University of Arizona at Tucson. It was announced by the animal husbandry department. The A. & M. representatives along with one faculty member will arrive in Tucson, March 15 for a four-day stay.

Schools entered in the rodeo are the University of Wyoming, Colorado A. & M., Arizona State at Tempe, Texas Tech, and Texas A. & M. Representing A. & M. will be Tom Roberts; Jimmy Henderson; Royce Riddle; Ben Hopson, Jr.; Counts Cleveland, Jr.; George McAllister; Jay Royner; Lucien Kruse; and Hub Ellis.

### Dallas, New York Air Route Is Proposed

**DALLAS, March 14.—(AP)—**Plans for a new air route to connect Dallas with New York, offering single carrier service which will eliminate necessity of passengers changing planes during the 1,500-mile trip, were announced by officials of Delta Airlines.

Dan D. Dale of Delta's planning and research department, said the route will offer service from Dallas to Chattanooga, Asheville, Richmond and Wilmington, Del.

An application now is before the civil aeronautics board in Washington.

One-ninth of the mass of an iceberg appears above the water.

### EXECUTOR'S NOTICE OF FINAL ACCOUNT

THE STATE OF TEXAS, County of Gray, TO THE SHERIFF OR ANY COUNTY CLERK OF GRAY COUNTY—GREETING:

Doyle F. Osborne, Executor of the Estate of James A. Jackson, Deceased, having filed in our County Court his final account of the condition of the Estate of the said James A. Jackson, Deceased, together with an application to be discharged as executor, you are hereby commanded, that by publication of this writ once in a newspaper regularly published in the County of Gray, State of Texas, said publication to be not less than ten days before the return day hereof, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, in said court on or before Monday, the 25th day of March, 1946, when said account and application will be considered by said court.

Witness, Charlie Thut, Clerk of the County Court of Gray County, Texas.

Given under my hand and seal of

CHARLIE THUT, Clerk County Court, Gray County, Texas.

A true copy, I certify: G. H. KYLE, Sheriff of Gray County, Texas. By C. M. TUCKER, Deputy, March 14.

# Early Suspension of Price Controls on Crude Oil Seen

WASHINGTON, March 14.—(AP)—Probable suspension of all price controls over crude oil and refined petroleum products within six months if not sooner was foreseen yesterday by Economic Stabilization Director Chester Bowles.

In a letter to Chairman Patman (D-Texas) of the house small business committee, Bowles said he had been informed by the office of price administration; that such action was possible before June 30.

Noting that Patman had asked him what steps were being planned to remove crude oil from price control and also "what my personal thoughts are in connection with the possible lifting of crude oil ceilings," the economic stabilization head wrote:

"I have been informed by the price administrator that the OPA believes a successful suspension program can be worked out for the oil industry within six months, and possibly prior to June 30 of this year. "It is my understanding that OPA plans to include in this decontrol action not only crude oil but refined products as well. I was glad

to hear that conditions in this field are such as to permit suspension of control. I sincerely hope that the conditions for successful decontrol, including a supply adequate to meet the demand, will continue to exist after the suspension so that it will not be necessary to reinstate control. "If it should prove possible to go through with this program, we shall not need any of the funds which we are requesting for the continuation of the stripper well subsidy."

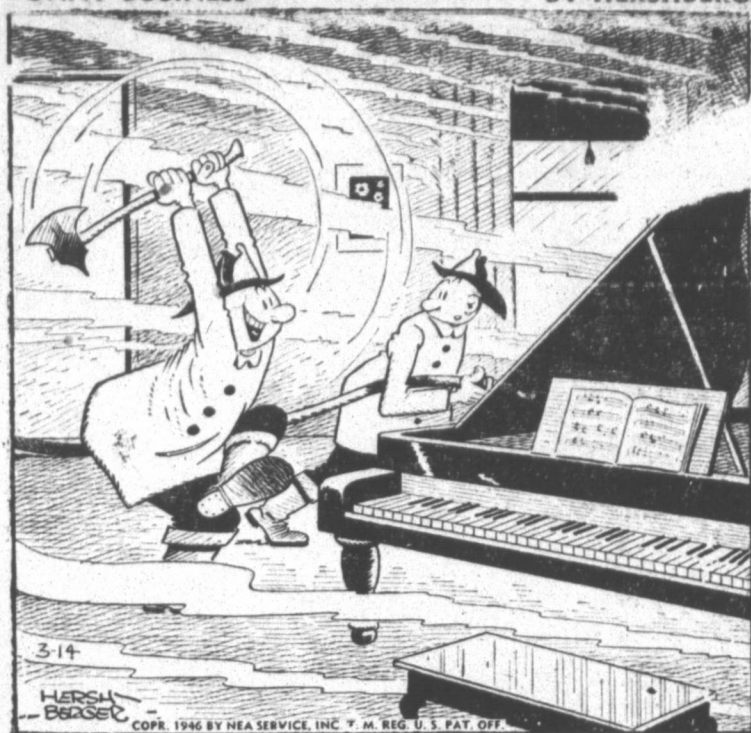

## Sales Report Made by WAC Regional Office

DALLAS, March 14.—(AP)—Surplus property sales of producers' and capital goods and aircraft by the Dallas regional office of the war assets corporation. February 15 through February 28 totalled \$304,544.17. Of this amount producers' and capital netted \$238,298.45. Aircraft sales amounted to \$66,645.72.

Items in the sales report included aluminum sheeting, electric drills, welding rods, welding machines, signal rope, waterproof paper, pipe, double needle sewing machines, electric motors, wire, sewer pipe, drills, copper tubing, beeswax, generators and lates. Eighty aircraft unit sales are covered in the report. Purchasers reside in 19 states.

## Death Rate From Appendicitis in Country Drops

NEW YORK, N. Y.—The death rate from appendicitis in this country dropped almost 40 percent in the short space of three years, between 1940 and 1943, it is reported by the statisticians of the metropolitan life insurance company. The decline was from 9.9 to 6.1 per 100,000, and there are indications that the mortality has dropped still further in the past two years.

Rhode Island and Maine, according to the statisticians, led in the decline, each of these states registering a 62 percent drop in the three year period. Even Nevada, at the bottom of the list, showed an improvement of 19 percent. All the other states in the mountain and Pacific regions, however, registered a larger relative decline than did

the country as a whole. The least gains were made in the Southern states, but even there no state recorded a reduction of less than 27 percent between 1940 and 1943. "The recent decline in appendicitis undoubtedly has been due in large measure to the use of chemotherapy in cases complicated by peritonitis," the statisticians point out. "But part of the credit belongs to the national educational campaign which effectively warned the public against delay in seeking medical advice and against the use of laxatives in the presence of abdominal pain. There are still many lives needlessly lost each year from appendicitis. The campaign against the disease must continue until the toll is reduced to negligible numbers."

**CITATION BY PUBLICATION THE STATE OF TEXAS TO:** Mary Wofford, the unknown heirs and legal representatives of Mary Wofford, and the unknown heirs and legal representatives of the unknown heirs of Mary Wofford.—GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 22nd day of April, A. D., 1946, at or before 10 o'clock A. M. before the Honorable District Court of Gray County, at the Court House in Pampa, Texas. Said plaintiff's petition was filed on the 9th day of March, 1946.

The file number of said suit being No. 8186.

The names of the parties in said suit are: J. W. Miller as Plaintiff, and Mary Wofford, the unknown heirs and legal representatives of Mary Wofford, and the unknown heirs and legal representatives of the unknown heirs of Mary Wofford, as Defendants.

The nature of said suit being substantially as follows, to wit:

The plaintiff sues defendants in trespass to try title, for the title and possession to Lot Eighteen (18) in Block Thion (3) of the Broadmoor Addition to the City of Pampa, Gray County, Texas. The plaintiff claims the fee simple ownership to the said property and also claims under the three year statute of limitations. He prays for judgment for the title and possession of the above described premises, for costs of suit and for general relief.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this 9th day of March, A. D., 1946.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 9th day of March, A. D., 1946.

(SEAL) DEE PATTERSON, Clerk District Court, Gray County, Texas.

By LOUISE STEWART, Deputy. March 14, 21, 28, April 4.

## \$2,000 Essay Contest Will Be Conducted

"What Can I Do for My Country?" has been announced as the theme of the eleventh annual nation-wide high school essay contest, which is to be sponsored by the local Ladies Auxiliary of the Veterans of Foreign Wars in conjunction with the national organization.

Mrs. Roy Chisum, 405 North Russell, is to serve as chairman for the local contest.

The 1945-46 competition, one of the major American projects of the V. F. W. Auxiliary, is now open, and entries in the finals must be received at the Auxiliary's National Headquarters not later than midnight, June 15, 1946.

The contest, which is open to all high school boys and girls throughout the nation, offers \$2,000 in cash awards to the writers of essays placing in the final competition. The first prize is \$1,000 in cash; second prize, \$500; third prize, \$250 and fourth prize, \$100. There will be 20 additional awards—10 of \$10 each, and ten of \$5 each. Winners of first four places will receive gold medals in addition to the cash prizes, and the first and second place winners in the state elimination competitions will be awarded silver medals.

Judges in the local contest will be announced within a few days. The project locally is sponsored jointly by the Auxiliary and The Pampa Daily News. During the meantime, those who are interested in the contest are asked to get a copy of the rules governing the contest at the editorial office of the News.

## Immunization Is Your Best Bet

AUSTIN, March 14.—"Immunization is superior to all other means of communicable disease control because immunity becomes part of oneself and is always there as a defense against certain diseases."

This is the statement of Dr. Geo. W. Cox, state health officer, who adds: "Immunization is the best and most effective means of protection against diphtheria, tetanus, smallpox, whooping cough and typhoid fever." According to Dr. Cox the ages that are best for immunization are: for diphtheria and tetanus, 9 to 12 months; Schick test, 6 months later, re-immunize if immunity has not been established; smallpox, 6 to 12 months; re-vaccination at 6 to 12 years; whooping cough, 3 to 12 months. Tetanus or lockjaw is not common, however when it does occur it is usually fatal. The tetanus germ gets into cuts, scratches, abrasions and particularly deep wounds, so that it has always been an important problem of public health as well as military medicine.

Other ways to fight disease are through good sanitation measures. The provision of safe water supplies, the pasteurization of milk, the supervision of food and the precautions have in many communities reduced typhoid fever to a minimum. Isolation and quarantine have their place and are extremely valuable, but none of them has the quality of immunity of being a part of oneself, and consequently always available.

**Rugs Will Be Heated For Invalids, Babies**

NEW YORK, March 14.—Electrically heated rugs designed for the rooms of invalids and babies are among the many new comforts and conveniences which will be found in the home of the near future, according to Business Week.

Others, the publication states, are lamp shades now going into production, equipped with a levelizer to keep them neatly horizontal at all times a cordless electric iron which makes electrical contact with a thermostatically controlled bed plate when rested on the plate between pieces of work, and an electric alarm clock which rings until the over-sleeper gets out of bed, permitting the springs to rise and operate the cut-off switch.

## Political Calendar

The Pampa News has been authorized to present the names of the following citizens as candidates for office, subject to the action of the Democratic voters, at their primary election Saturday, July 27.

**University Professor Will Study in Japan**

AUSTIN, March 14.—Dr. Allan H. Smith, assistant professor of anthropology at the University of Texas who returned from Japan a month after serving there with naval military intelligence, will go back to that country within a year on an ethnological grant.

Dr. Smith will receive the \$3,000 ethnological award from the Social Science Research Council of Washington, D. C., to go to the Ryukyu (also called Loochoo) Islands to make a study of the cultures of the people in that area. Okinawa is in the Ryukyu group of the Japanese Islands.

A lieutenant (ig) during world war II, Dr. Smith is a linguist as well as an anthropologist. He studied in the Japanese language school at Boulder, Colo., and was with intelligence units of the Second Marine division for final phases of the Salpan engagement, and entire Tinian campaign. He volunteered for an assignment on Okinawa, and was one of the first language officers to be sent to Japan.

The Germans were the first people to use gunpowder in warfare in 1328.

## FARM FACTS WORTH KNOWING

Q. How can onion flavor in milk be prevented?

A. If weedy pastures are used, return the milking herd to the barnyard or dry lot several hours before milking.

Q. How can turkey poult be taught to eat?

A. Place poult in brooder as soon as received from the hatchery and feed and water immediately. Covering the litter with cloth or rough paper, lighting the feeders, placing marbles on the feed, keeping the feeders full, and stirring the feed will also help. In exceptional cases, poult may be forced to eat by dipping their beaks first in water and then in feed.

Q. How many seeds are produced by common weeds?

A. Botanists have found that crabgrass produces 90,000 seeds per plant, buttonweed and dock, 30,000, ragweeds, 25,000. These figures explain why so few successful farmers ever relax on their fight against weeds.

Q. Can pig raisers increase the number of pigs per litter?

A. Yes. The United States Department of Agriculture Pig Crop Report, 1945, shows that litters averaged from a low of 5.81 pigs in 1934 to a high of 6.41 in 1942. For the same years, the Purina Research Farm litters averaged from a low of 9.39 to a high of 11.55 pigs per litter, an average difference of 4.4 pigs farrowed per litter on the Purina Farm over the United States average.

Q. How much floor space does a broiler chick need?

A. One square foot of floor space per bird gives best results. At the Delaware experiment station it was found that rate and uniformity of growth, feed consumption, cost per pound of broiler, and pounds of broiler sold per chick were all adversely affected by crowding birds.

Send your questions about any phase of farm management to FARM FACTS, 835 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

## What about wages?

Wages have risen steadily for five years. Before the strike which began on January 21 in ten of our plants and which has choked off nearly all farm machinery production, earnings of employees of these plants averaged \$1.15 an hour, not including any overtime. The Union demanded a 34 cents per hour increase and a Government board has now recommended a general increase of 18 cents an hour, which would make average earnings \$1.33 1/2 an hour. Weekly average would be \$53.40.

**What about materials?**

No one seems to know how high materials costs will go. The Government has increased steel prices as much as \$12.00 a ton, with an average increase for all grades of 8.2%. Steel is the most important material we buy, but prices on other materials are also increasing.

**What about prices?**

There has been no general increase in our prices since they were frozen by the Government in early 1942. Since then a few small increases have been allowed where particular machines were substantially changed in design.

**What about profits?**

Risk is part of the American profit and loss system, so we do not, of course, ask either our customers or the Government to guarantee that we can be certain of profits each year. The chart tells the story of our profits during the war. Although Harvester produced more goods than ever before, it had no desire to get rich out of war, so our rate of profit has steadily gone down. What our 1946 profit will be is extremely uncertain.

**What is the next step?**

As you can see, our present situation is that with frozen prices and declining profits, we are asked to pay higher material costs and to make the biggest wage increase in the history of the Company. Can we do this?

Wages and materials consume all but a few cents of every dollar we take in. If our prices continue frozen, and cost of wages and

## Production of 'Forever Amber' Gets Under Way

HOLLYWOOD, March 14.—(AP)—Twentieth Century-Fox is making a script from the first draft of Mary C. Hara's new flicka novel, "Green Grass of Wyoming." Thus the book and the picture will come out at the same time—"Forever Amber" started yesterday, but tests are still going on. Even players who don't have lines are being tested—Peggy Cummins was allowed no manicures in preparation for that picture. They didn't even have them in those days—Alan Hale is converting his war factories back to production of theater seats and fire extinguishers—John Garfield bought a 60-foot cruiser—Red Skelton and wife celebrated their first anniversary by moving into their own apartment house.

In the film "palaces"—"A Walk in the Sun" (TCF-117 minutes) is another earnest tribute to the infantryman. It is the story of a platoon in action in Italy. It is more "artistic" and less realistic than the fine "story of G. I. Joe." For instance, soldiers do not clutch some dirt and murmur, "The Earth is Good." But on the whole it is a stirring narrative, blessed with a capable cast headed by Dana Andrews and John Conte.

Most screen meals are ordered by the prop man. But for an icebox raid by Paulette Goddard in "Suddenly

It's Spring," the star was allowed to order her own meal. Her snack: Balaioy Swiss cheese, bread, butter, beer.

**DRAMA CRITIC DIES**

NEW YORK, March 14.—(AP)—Willa Walter, 46-year-old drama critic of the New York Post and former treasurer of the New York Drama Critics Circle, died Tuesday after an illness of two months.

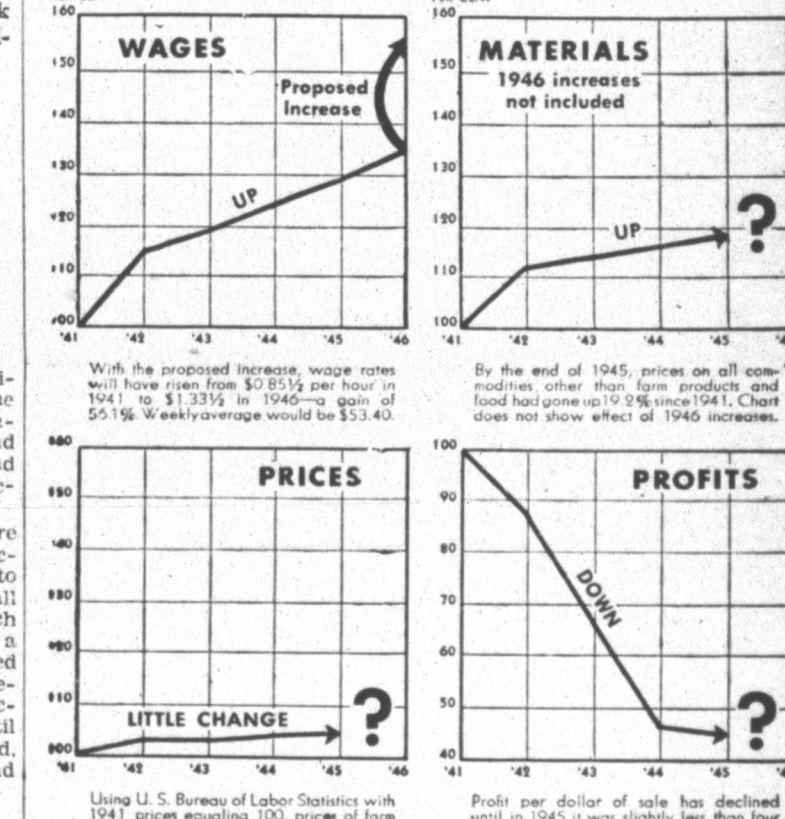

Mormonism originated in New York state, being found there by Joseph Smith.

## How would you CHART YOUR COURSE?

Pictured here are the records of four "life lines" of our business—four things which largely control the destiny of any business, whether it be a farm, a factory or a store. They are Wages, Materials Costs, Prices, and Profits. Suppose these were pictures of what is going on in your own affairs. How would you chart your future course from these facts?

With the proposed increase, wage rates will have risen from \$0.85 1/2 per hour in 1941 to \$1.33 1/2 per hour in 1946, a gain of 55.1%. Weekly average would be \$53.40.

By the end of 1945, prices on all commodities other than farm products and food had gone up 9.3% in 1945. Chart does not show effect of 1946 increase.

Using U. S. Bureau of Labor Statistics with 1941 price equaling 100, price of farm machinery in 1945, was only 108.9.

Profit per dollar of sale has declined until in 1945 it was slightly less than four cents, as against 8 cents in 1941.

materials continues to rise, obviously our Company will begin to operate at a loss at some point. The exact point at which operating at a loss would start is a matter of judgment. Government agencies and union leaders may have opinions as to where that point is. But if they turn out to be wrong, they can shrug their shoulders and say: "Well, it wasn't my responsibility. I didn't make the decision."

The management of this Company cannot and will not say that it dares not gamble. It has to be sure. Continuation of our service to millions of customers, the future jobs of thousands of employees, and the safety of the investments of 39,000 stockholders depend on our making a correct decision as it is humanly possible.

**What about future prices on farm machinery?**

The judgment of Harvester's management now is that we cannot safely make the huge wage increase recommended by the Government until the Government authorizes adequate increases in the prices of farm machinery to cover the resulting increased costs.

That is not a judgment that makes us happy. The Company does not want to raise prices. We prefer to lower prices, when possible, and we know our customers prefer to have us do that. We have produced at 1942 prices, and hoped we could continue to do so. We have delayed seeking general price relief in the hope that it could be avoided. Now we are convinced that it cannot be avoided any longer. The price question must be settled. Until it is settled, we do not see how we can settle the wage question. Until the wage question is settled we do not see how we can resume production and begin turning out the farm machines which we know our farmer customers need.

Because of the important stake which both farmers and city dwellers have in this controversy, we are bringing these matters to your attention. Through the cross currents of today's conditions, we are trying to chart a course that is fair to our employees, to our farmer customers, and to our stockholders.

## IS IT "INTERVENTION"?

The Madrid radio—the voice of Generalissimo Franco—Tuesday said Spain is “defending the rights of all other nations to their political independence” by rejecting outside pressure upon her to oust Franco. This was a counterattack to recent Allied pressure against his fascist regime, which aided and abetted the German hordes in their war against us.

Also Tuesday the Association of Professional and Cultural organization which supported Dr. Jose Tamborini for president of Argentina, conceded victory to Col. Peron, the “strong man” who aided and abetted the Japanese and Germans against us. Pressure has been applied to him, to, in the form of a state department paper authenticating instances of Peron-Nazi-Jap sympathy and help.

But still there are elements in this country who have been outspokenly opposed to our intervention in the affairs of these countries.

We can, indeed, get things pretty messed up in our great country. Here we have before us two countries who took the unmistakable road of underhand aid to our mortal enemies in a war, cost us lives, wealth and no small amount of worry; and yet some of our people declare that we should not even express our dislike for the Franco and Peron regimes.

Because Peron is apparently re-elected to the high office in Argentina, we are not willing to accept that as the true voice of the people. We do not believe at all that the people of that country had a chance to express themselves as they would.

Nor do we believe that, because there have been anti-Allied demonstrations in Madrid, the people are unequivocally in favor of Franco. He went into power by force and he has remained in power by force. But that is not the whole argument, and that alone would merely serve to indicate some of our present believed-to-be friends. The rest of the argument is that Franco Spain helped Hitler, did all it could for our destruction in the war.

Those are the things that stick in our collective throat—or should. We are in favor of being friendly to every nation, but we should take a “stick” along with us when we go walking with them—especially on dark nights (as we might call these days of confusion).

## Common Ground

By R. C. HOLLES

### Point at Which Costs Cannot Be Passed On

One often hears a man who thinks he is a business man say, “Let the costs go up and we will simply pass them on to the consumer.” So when sound business men oppose granting wages that are higher than their customers can get for the same labor, knowing that they cannot pass them on beyond a certain point, they are only showing good business judgment. They are only trying to prevent unemployment and reduced production and thus a lower standard of living for all people.

Of course practically the only cost in any business is labor power. When hourly wages in any particular line of industry are forced up, unless there is seniority that keeps other labor from entering the field, there are always more workers than there are jobs in that artificially high wage field. Men are idle. Total production is thus reduced and everybody suffers.

And the artificial wage is protected by seniority, other workers are prevented from competing in that field and are forced into fields not protected by seniority. Then there are more workers than are needed in those fields. Then these workers have to take less than they would otherwise receive for their energy. They produce things that are not wanted as much as the things produced by seniority. Thus these men in other fields are exploited by those people who protect themselves from competition by seniority.

In this way our economy becomes unbalanced and our lives become dissatisfied. Thus we have discord, unemployment and unnecessary poverty and misery, all because some groups try to protect themselves by seniority and being obliged to give as much for what they receive as other people are obliged to give. It simply does not work in the long run.

Seniority is the general practice in every labor union. So labor unions, instead of raising wage levels permanently, are constantly raising the wage levels of all the people. This is simply a mathematical conclusion. It cannot be controverted by logic.

Let me give you the best definition of a friend that I ever ran across. It was written by Horace Smith and is, “A real friend is one who will tell you of your faults and follies in a friendly and helpful way and who will assist you with his hand and heart in adversity.”

So when a person tells laboring groups of their faults and follies when they are on top of the world, think they are on top of the world,

## The “Exclusive” Model

## NATIONAL WHIRLIGIG

news behind the news

By RAY TUCKER  
PROPAGANDA — The White House and the state department are aggrieved and shocked by the Los Angeles statement of Assistant Secretary of State William Benton that the United States intends to penetrate the “iron curtain of Russia” with American propaganda.

This remark, which was made in answer to an impromptu question at a town hall meeting, has had numerous repercussions in Washington and Moscow.

Moscow has told us and the British quite frankly that they do not want or appreciate our broadcasts.

Any radio program from the United States or Britain, if truthful, will stir discontent among Stalin's 190,000,000 people.

It may sell the Soviet population on the idea that capitalism provides more comforts and conveniences for the average man than communism does.

REBUFFED — Mr. Benton, in his Los Angeles speech, estimated that there are 75,000 radio sets in Russia, which has a population of 190,000,000.

It is understood that the Soviet's stripping of German receivers has amounted to total to at least 500,000.

Even assuming that the Soviet now has a million radio receiver sets, which Mr. Benton hopes to propagandize by short waves, “Uncle Joe” Stalin has seen to it that these listener sets are owned by “good party members.”

Mr. Benton's \$40,000,000 program for informing the world of our idealistic schemes may be monitored and rebuffed by the Kremlin.

DISTRUST — Stalin's discussions with American and British representatives about world-wide radio problems reveal his suspicions and distrust of the Anglo-American brand of democracy.

His “democratic” spokesmen have insisted on the need for factual radio and newspaper reporting in Russia, in view of the fact that Moscow is flooding France, Holland, Belgium and England with Soviet propaganda.

“But,” said Stalin, “in your western democracies you boast that you need and ask for all kinds of information so that your people can make up their minds on domestic and international issues. Our Russian radio gives you facts which contribute to the total of your understanding.”

But when the head of the British broadcasting system suggested that the people of Russia might like to learn and digest the unbiased news of the western world, the Russian dictator replied:

“My people have made up their minds. They know what they want to think and believe. And they want to take their ideas from American or British broadcasts!”

ODD — The national association of manufacturers has been running

## Peter Edson's Column: NAZIS EDUCATION BEHIND BARBED WIRE

By PETER EDSON  
NEA Washington Correspondent  
WASHINGTON, (NEA)—The last of the 370,000 German prisoners of war will be moved out of the United States some time in June, says Brig. Gen. Blackmer of Bryan, the project marshal general.

A few big employers of farm labor who liked the idea of having this ready surplus of hands tried to get their congressmen to delay the departure of the German POW's till after the harvest was in. But the war department turned thumbs down on this effort to provide competition for free American labor, and the prisoners are now being shipped out as fast as boats are available.

As a final phase of this big experiment, 20,000 hand-picked, tried and tested anti-Nazi prisoners of war are being given a one-week short course in democracy at Fort Eustis, near Norfolk, Va. They are but a single party, the American educational system, American economic life, etc.

Of particular interest to the Germans is of course the section which deals with the history of democratic traditions in Germany. The failure of the Weimar republic, Germany's place in the world, and the United Nations organization's promise that they were liberated. A barbed-wire alumni association may be in the making.

“I like to think,” says Colonel Davison in his graduation address to the Fort Eustis classes, “that some of the future leaders of Germany will emerge from among the many who were liberated. A barbed-wire alumni association may be in the making.”

## MACKENZIE'S Column

AP World Traveler  
VIENNA, March 14—Your correspondent has come away from a highly interesting but informal conversation with Gen. Clark, American commander in chief in Austria, with the distinct impression that he would like to see the allied forces of occupation — Russian, British, French and American — withdrawn from this country by next fall and the administration turned over to the Austrian government.

As a matter of fact, I understand that there is before the Allied Council a proposal for a withdrawal. However, one of his main reasons for opposing it is that I've interpreted the general's feeling correctly, he is indulging in a wish which he has no strong expectation of seeing fulfilled.

While the British, French and Americans might be prepared to pull out under a four-power agreement, I've found no indication that the Russians would subscribe to any such procedure at an early date.

Their propaganda underlines completely the fact that the federal agencies engaged in the control of prices and wages.

Oddly enough, one of the advertising agencies handling this anti-administration propaganda is the firm of Benton and Bowles.

Chester Bowles is now economic stabilizer, while his publicity partner, “Bill” Benton, is assistant secretary of state.

PENNIES—When employers and strikes have narrowed their differences to a few cents a day, a lot gets written about the future of the country being determined by a few pennies. Now a situation is developing in which the political future of the country may be considerably influenced by just three pennies.

These three pennies are the difference between the price and the cost of a New York subway ride.

New York's municipally owned labor equipment and construction costs. Equipment needs replacement, outlying districts are clamoring for extension and the subways themselves are so filthy and jammed that they are close to being a health hazard.

These three pennies are the difference between the price and the cost of a New York subway ride.

## In Hollywood

By ERSKINE JOHNSON  
NEA Staff Correspondent  
HOLLYWOOD—In the 20th Century-Fox comedy, “Shouldn't Happen to a Dog,” Allan Joslyn plays a science editor harassed by queries regarding the atomic bomb. To make things realistic, the studio decided that a desk model of the atom would help. So studio representative called the California Institute of Technology to ask if such a thing was available.

“Certainly,” he was told by a young physicist. “But what kind of an atom do you want? There's an atom for every element, you know.”

“It doesn't really matter,” explained the studio man. “We just want an atom model for a prop.”

“Oh, that's a cinch then,” was the ready answer. “Out here we make 'em with Tinker Toys.”

“EINSTEIN ‘SORRY’”  
The King Brothers, producers who crashed the big-time with “Dillinger,” decided to have a major league technical director for their next, “The Man in the Moon,” a fantasy of life on the moon. So they wired Albert Einstein an offer. Wired back Einstein: “Very sorry cannot accept. Am not competent in this matter.”

Jimmy Stewart nixed the role of Adam opposite Ingrid Bergman's Eve in Leo McCarey's “Adam and Eve.” Stewart says he won't wear leopard skins or a fig leaf.

Charles Bickford, national comic hero of the ladies-past-for, competes romantically with young and virile Gregory Peck for Jennifer Jones in “Duel in the Sun.” “Duel in the Sun,” ladies, is your oyster.

Jill Esmond first wife of actor Laurence Olivier, has left Hollywood, where she was none too successful, for a career in British films.

Sight of the week: Buff Cobb, granddaughter of the late Irvin S. sitting in a booth at the Brown Derby coddling a skunk. No, not a two-legged one. The skunk's name was Petunia.

Producer Robert Golden's New York hotel reservations got mixed up and he spent his first night there in a Turkish bath. . . . Fanny Brice's brother Lew opened a New York night club on a Friday the 13th.

Fanny wired him: “Arrest me, taking an awful chance?” Wired back Lew: “If it flops I've got a perfect out.”

REAL THING FOR JOAN  
Joan Davis is wearing \$50,000 worth of diamonds in “Love Takes a Holiday.” It's her first major role, and she insisted that the studio rent genuine jewels rather than use studio imitations. . . . Orchestra Post have written a screen play, “The Case of the Wired Jockey.”

When Danny Kaye closed his New York Paramount theater engagements, smashing all records for business in the house, the band played Auld Lang Syne and 6000 customers stood up and joined him in the chorus.

Jane Russell will warble one number, “Sittin' and Rockin',” on that p.a. tour with “The Outlaw.” That's not what the censors will be doing.

Charles Boyer is casting around for a stage play to take him back to Broadway. . . . Clark Gable and Lana Turner have turned down “Luck Baldwin,” both declaring it is a “too hurried re-make of ‘Honky Tonk.’” . . . Sarah Churchill, daughter of Winston, is trying for a film career.

NOT ENOUGH AIR  
If we were to travel to the moon, which at its nearest position, is still 221,000 miles away, we would have atmosphere only for the first 300 miles.

PRESIDENT JUMPED JOB  
His Raleigh, N. C., employer offered a \$10 reward for the capture of Tailor's Apprentice Andrew Johnson, who later became president of the United States.

THE PEOPLE BURN WHILE THE ADMINISTRATION FIDDLES—Robert R. Wason, president National Association of Manufacturers.

Three-fourths of those directing Poland now are Russian citizens, not Poles.—Gen. Wladyslaw Anders, commander Polish Second corps, “stranded” in Italy.

We will be obliged to help the Philippines reach their economic health for years to come. It is to our interest to do so and to take such measures as are necessary to help the Philippines shake off the shackles of a feudalistic past.—Paul V. McNutt, Philippines high commissioner.

enough votes in the city to re-elect Dewey governor with an impressive plurality. And with that showing, Dewey's chances of becoming a Republican candidate for president in '48 are that much enhanced.

problems was what happened when Italy invaded Ethiopia, when Germany invaded the Rhineland, and when civil war broke out in Spain, and why the league failed.

ONE LAST CHANCE TO ALTER VIEWPOINT  
What we have tried to do is set up an atmosphere in which the Germans have a final chance to change their points of view, says Col. A. W. Smith of Northwestern University, who is in charge of the Fort Eustis school.

How much of America has rubbed off on the Germans? The subject is told. But a few stories give some indication. Thousands of the prisoners have asked how they could immigrate to America.

When the German atrocity films were shown where violent Nazis were segregated, many were converted, and some confessed they were ashamed to look their guards in the face.

When President Roosevelt died, 800 POW's at a camp in Arizona signed a message of condolence to Mrs. Roosevelt and the nation.

One prisoner at Fort Eustis gave every man in his discussion group his name and address for the purpose of keeping the group united to work for democracy in Germany after they were liberated. A barbed-wire alumni association may be in the making.

“I like to think,” says Colonel Davison in his graduation address to the Fort Eustis classes, “that some of the future leaders of Germany will emerge from among the many who were liberated. A barbed-wire alumni association may be in the making.”

## Union Calls for Oil Agreement

FORT WORTH, March 14—(AP)—President O. A. Knight of the Oil Workers International Union (CIO) called on the United Nations organization yesterday to work out an international oil agreement which will make the resources available to all nations and will safeguard labor's working conditions here.

Praising the indefinite postponement of hearings on the proposed Anglo-American oil treaty, Knight proposed that oil producing nations of the world draft an agreement which would cover equitable distribution of oil products and which protect the interests of the oil workers and the consumers.

“The Anglo-American treaty,” Knight said, “was obviously an effort by major corporations of both countries to perpetuate the international petroleum cartel and to divide the world into at least two conflicting areas, with World War III as the probable outcome.”

“He said the proposed treaty contained no safeguards to prevent dumping oil produced under ‘sweated’ labor conditions onto the American market and undermining working standards set up here.”

“Another suggestion she makes is to calm a wolf by saying, ‘I'll buy you a Teddy bear to mislead.’ Gracious, if I'd said a thing like that to George back in the days when he was courting me, he'd have persecuted me to death wanting to know when he'd get that Teddy bear.”

ROADS EMPLOY MANY  
Road building in the United States offers employment to about 3,000,000 persons. Of these, 1,000,000 work on roads and the rest make materials for them.

In more than a thousand hospitals, federal and civilian, approximately 50,000 American Red Cross hospital and recreation corps members plan recreation for patients.

As he walked along the street, a man was attracted by frightened screams from a house. He ran up to investigate and found a frantic mother, whose small boy had swallowed a quarter. Seizing the child and the child, she let him up, gave him a few clothes and the coin dropped to the floor. The grateful mother was lost in meditation.

Mother—You certainly know how to get it out of him. Are you a doctor? Man—No, madam, I'm from the Internal Revenue Bureau.

Pleasure Comes Thru Honest Toil, Not by Sly Deceit. Industry and Inhibition. The Man Who Loves His Work Finds His Life a Happy One.

### Girls of Native Born Parents Have Best Chance at Marriage

### Navy Asks More Oil Production

WASHINGTON, March 14.—(AP)—Increased production of Texas crude oil has been requested, a navy press officer said, to help fill commitments of the navy department, the war shipping administration and the United Nations Relief and Rehabilitation Administration.

The use of fuel oil by ships returning servicemen from overseas and in filling foreign relief needs has been so heavy that the navy has greatly depleted its own reserve stocks, he said.

### FPC Sets Oral Gas Hearings

WASHINGTON, March 14.—(AP)—The Federal power commission has set March 25 for oral argument in consolidated proceedings involving Natural Gas Pipeline Co. of America, Texoma Natural Gas Co., Chicago District Pipeline Co., and the Michigan-Wisconsin Pipeline Co.

The FPC said the hearing will cover applications to construct facilities for delivering additional gas to Iowa and Illinois communities, and an application by Chicago District Pipeline for construction to increase capacity of its Crawford line in the Chicago area.

The commission also said it will resume in Detroit on April 15 hearings held earlier in Washington and Chicago on a petition by Natural Gas Pipeline and Michigan-Wisconsin Pipeline. The companies seek authority to construct additional facilities to serve communities in Wisconsin, Illinois and Iowa.

### Big Week Reported In Surplus Goods Sales

DALLAS, March 14.—Breaking all previous records, sales of producers' and capital surplus goods for the week ending March 2 totaled \$24,945,000 cost to the government, the War Assets Corporation announced today.

For the first time, the weekly sales exceeded the established weekly sales quota of \$23,077,000 and, at the same time, continued the trend of accelerated sales which began last October with the institution of aggressive merchandising policies. The previous high of \$18,350,000 was achieved during the week ending January 26, 1945. Total sales of capital surplus amount to \$471,786,000.

Actual money realized by the government for the week's sales of surplus goods was \$11,489,000, or approximately 47 percent of the cost price.

The sales of machine tools, steel and raw materials and supplies accounted for 80 percent of the total surplus returned to the national economy for the week.

NEW YORK, N. Y.—As to prospects of marriage, American girls of native-born parents have a distinct advantage over daughters born here to foreign or mixed (foreign and native) parentage, according to the statisticians of the Metropolitan Life Insurance Company. They point out, "Not only do first generation native daughters marry at a later age, on the average, than do those of longer American lineage, but their chances of marrying at all are smaller."

In large cities, in small communities, and in rural areas and in every geographic division does this hold true, the statisticians say, after a study of the pertinent facts relating to the white population in the census of 1940.

Illustrating the point the statisticians report: "In the country as a whole, 13 percent of young girls of native parentage in the ages 15 to 19 years were married at the time of the census. This is nearly three times the figure, 4.7 percent, for girls of the same ages born to foreign or mixed foreign-and-native parents. But a steady decrease in the disparity of the percent married in the two groups is shown in the advancing ages. Thus, at 20 to 24 years, the proportion over married among daughters of native-born parents was only 1 1/2 times that for daughters of the other group. At ages 40 to 49, where the proportions observed are practically indicative of the chances of marrying at all, the figures are not far apart, although still in favor of daughters of native-born parents. Here the percentages over married were 90.8 for the daughters of the native-born, and 86.7 for the others."

The more limited social circle of the foreign-born and their children is given as one explanation of these facts by the statisticians. It is pointed out that, "The chances of marriage for daughters of foreign-born or mixed parentage vary considerably with the size and location of the community in which they live. This is particularly true of the girls in the younger marriageable ages. In large cities, 250,000 population or over, only 3.4 percent of these girls were married at the time of the census, which was less than half the proportion in rural areas."

"The chances of marriage are greatest in the Northeast and smallest in the South and in the West. In the 15 to 19 age group, the percentage of girls married was 3.1 in the Northeast, 9.8 in the South, and 9.0 in the West. While the chances for early marriage are largest in the South, the greatest opportunity for eventual marriage is in the West. This geographic pattern of the early marriage picture for daughters of foreign or mixed parentage conforms closely with that for daughters of native-born parents. This is another illustration of the fact that individuals mold their behavior in accordance with the characteristics of their social environment."

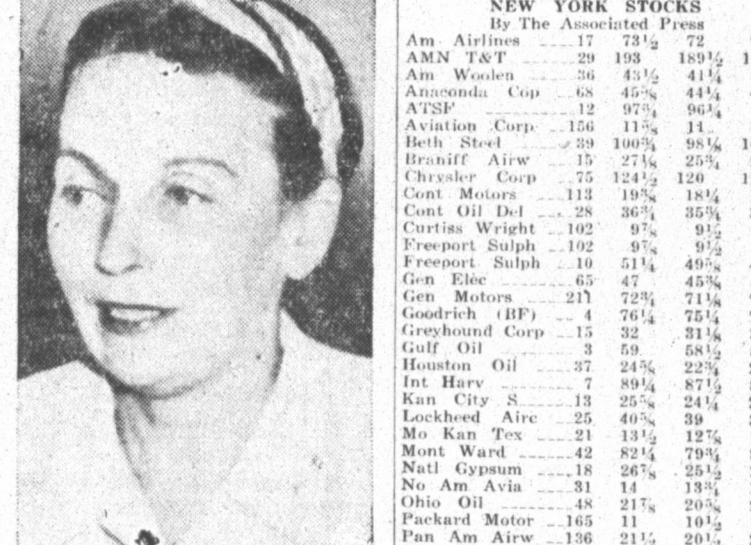

Denmark, which is made up of three large and several small islands, has an area of 16,609 square miles.

Actual money realized by the government for the week's sales of surplus goods was \$11,489,000, or approximately 47 percent of the cost price.

**WALL STREET**  
NEW YORK, March 13.—(AP)—The sharpest reaction since the February slump depressed leading stocks one to four points in today's market.

Inclusion of recent sessions prevailed at a fairly active, lower opening, but as bearish implications of international tension were digested, offerings broadened. The downturn, led by steel and metals, uncovered numerous selling orders and activity picked up at noon, the tape falling as much as two minutes behind.

Near the close a number of leaders achieved some recovery from the loss for the day. Transfers were around 1,700,000 shares.

Pension which brokers said was inspired by the Russian moves in Iran, by dark earnings outlook signalled by recent dividend omissions, and by the unsettled labor picture, was not dispelled by the settlement of the General Motors strike.

Analysts noted the heavy losses attributed to the long automobile shutdown.

Heaviest declines were suffered by Bethlehem, U. S. Steel, Chrysler, Schenley, Paramount Pictures, Dow Chemical, Eastern Air Lines, Eastman Kodak, Union Carbide, Goodrich, Montgomery Ward, American Can, American Telephone, Dow Chemical, Johns-Manville, Kennecott, American Smelting, Southern Pacific, General Electric, J. I. Case, Douglas Aircraft and Dixie Food. Western Union A lost more than 4 points at times on the

**CHICAGO GRAIN**  
CHICAGO, March 13.—(AP)—Sustained support from interests with short commitments held grain futures prices higher most of the time today, although they reacted fairly broadly at one time to weakness in securities and cotton.

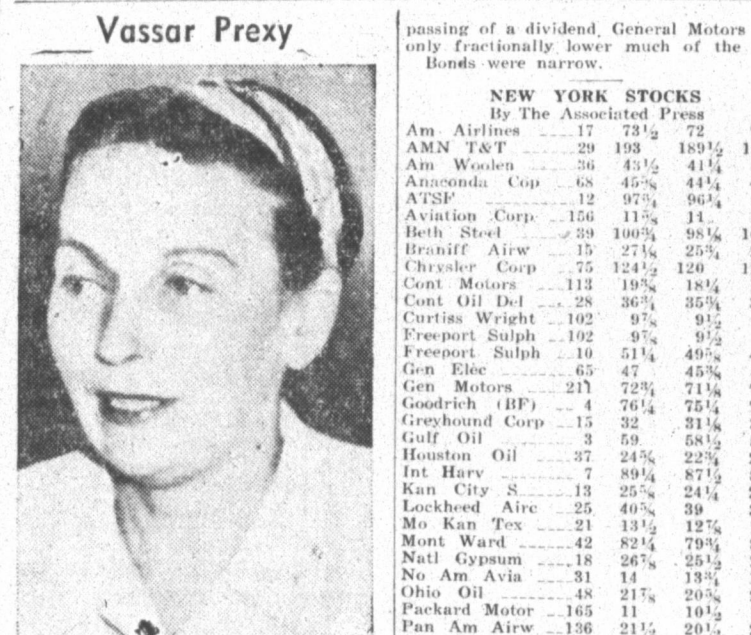

Wheat finished unchanged to 1/4 higher than yesterday's close, May \$1.83 1/2 ceiling; corn unchanged at \$1.21 1/2 ceiling; oats 1/4 to 1 cent up, May \$3-cent ceiling; rye unchanged to 1/4 higher, May \$2.16 1/2; barley unchanged to 1/4 higher, May \$1.26 1/2 ceiling.

**NEW ORLEANS FUTURES**  
NEW ORLEANS, March 13.—(AP)—After early advances cotton futures declined here today under long realising and hedge selling. Closing prices were steady, 25 cents a bale lower to 26 cents higher.

**NEW ORLEANS COTTON**  
NEW ORLEANS, March 13.—(AP)—Spot cotton closed steady, 50 cents a bale lower. Sales 555, low middling 21.50; middling 26.45; good middling 26.85. Receipts 4,671; stock 247,712.

**QUEEN MARY SAILS**  
SOUTHAMPTON, March 13.—(AP)—The Queen Mary has sailed for New York with her third passenger load of GI brides and children—2,300 of them this time.

Ex-servicemen who have lost an eye or limb have been taught by Red Cross Volunteer Motor Corps members in California how to drive automobiles.

**Vassar Prexy**  
For the first time in its 85 years, Vassar College will have a woman president, Sarah Gibson Blandine. She has been dean of the New York State College of Home Economics at Cornell University since 1942, and succeeds Dr. Henry Noble MacCracken at Vassar on July 1.

## WASH CLOTHES DAZZLING WHITE

# BLU-WHITE

WITH **BLU-WHITE FLAKES** —They Blue White You Wash!

Only **10¢** A PACKAGE

Just Look At These Advantages

1. You dissolve Blu-White Flakes in the wash water.
2. They blue white you wash.
3. Clothes are whiter, brighter!
4. No spots or bluing streaks.
5. No harsh ingredients. Safe even for washable colors.

**MAGIC, TOO, FOR YOUR PERSONAL THINGS!**

• Blu-White Flakes are all you need! Gives rich, creamy, gentle suds. Yet does what ordinary methods do not do. Blues clothes while it washes. Overcomes that gray effect. Freshens peach, pink tints, all shades of stockings. Your choice things fairly sparkle! Try it.

FOR BIGGEST WASHINGS Imagine the work you save! No bluing streaks! Makes clothes lovelier, too!

FOR BABIES' and YOUNGSTERS' THINGS Use BLU-WHITE FLAKES for diapers, bedding, clothing. Save hot bluing rinse every day.

If your dealer does not have BLU-WHITE FLAKES yet, remember—it's new! Keep asking for it!
