## Nation Eating Its Way to New Food Consumption Record Despite Shortages

### LaGuardia to Seek 'Forced' Sale of Grain

WASHINGTON (AP)—The United States today is eating itself into a new record for per capita food consumption, despite shortages in grains and fats at home, and a hungry world abroad.

That is the gist of a report from the bureau of agricultural economics, which bases its forecasts of record-breaking domestic food consumption in 1941 on the year's statistics to date and the prospects for the coming months.

**BUMPER QUANTITIES**  
The bureau, a branch of the agriculture department, said bumper quantities of most foods are expected to be available to meet the nation's unprecedented appetite. But it predicted nevertheless that consumer demands will outrun supplies.

It estimated the per capita volume of food consumed will be 14 per cent greater than the average for the prewar period of 1935-39.

**SOME SUPPLIES DROP**  
Supplies during the next several months are expected, however, to drop below the yearly average level because of seasonally small quantities of some cereal products, potatoes, sweet potatoes, meats, fats, sugar, canned fruits and canned fish.

The bureau said there will be record or near record per capita quantities of vegetables, poultry, eggs, fresh and frozen fish, canned fruit juices, cheese, fluid milk and...

### Total Given in Food Collection Drive in Schools

Final tabulations on the amount of money and food collected through the schools during the last 10 days for the emergency food collection drive showed today that \$606.56 was collected in cash, and that there were almost 5,000 cans of food of all kinds gathered by the students.

The announcement was made by J. Herman Jones, who made plans and conducted the drive. He cited these figures as being somewhat high in view of the fact that most of the children were either preparing for final exams or were taking them at the time.

Twenty-five dollars in cash and 63 cans of food were reported from the Negro school of the city, according to the principal, John Turner Jones said: "This report from the colored school shows a fine spirit."

Civic workers, under the chairmanship of Guilford Branson, last night packed canned goods at the Junior high school. They plan to round out the job tonight.

It was emphasized that the drive now shifts from the schools to the churches, and to the grocery stores where boxes have been set up to collect any canned goods people wish to give for the relief of those beset by post-war conditions. Most needed foods are vegetables, condensed milk, and fruit. Such things as peanut butter, with a high nutritive value, are needed.

Dr. Douglas Nelson, pastor of the Presbyterian church, heads the drive for collection in the churches. Malcolm Denson, local merchant, heads the drive for collection in the stores. Cash donations are being collected by Hugo Olsen, head of the Boy Scouts. Scout will be used to pick up checks on request to Olsen.

### Fliers Invited To Hunt 'Lost Plane'

SAN ANGELO (AP)—Texas fliers have been invited by the San Angelo Chapter of the National Aeronautics association to take part in a "lost plane hunt" to be staged at Mathis Field on May 29.

Finder of the plane will receive \$50.

## Truman Seeks Coal Arbitration

WASHINGTON (AP)—President Truman announced today he had asked John L. Lewis and the coal operators to submit their deadlocked contract negotiations to arbitration.

Lewis and Charles O'Neill, official spokesman for the operators, will give their decision to Mr. Truman at 5:30 p. m. EST.

**NEGOTIATIONS FAIL**  
Mr. Truman announced his proposal to a hurriedly summoned news conference. He said that Lewis and O'Neill both had agreed that their own efforts to settle the coal controversy had collapsed.

The announcement was made less than two hours after Mr. Truman conferred for 10 minutes with Lewis and O'Neill at the White House.

**DISCUSSION USELESS**  
Mr. Truman said that the two chief figures in the coal dispute had told him they felt after overnight conferences with their associates that the coal negotiations held up to now had completely broken down and that further discussion was useless.

It was then, Mr. Truman said, that he asked them to submit their differences to arbitration.

**COUNTRY HARD HIT**  
He said the country is in desperate straits as a result of the 42 days' shutdown of the mines prior to the two week truce which began last Monday.

The chief executive said coal must be gotten out of the ground and that the suffering which had followed the strike would increase if there was no settlement.

Mr. Truman said that Lewis and the operators at White House talks prior to the strike which began April 1, had emphasized they would be able to get together among themselves and had assured him they did not think there would be a strike.

Neither Lewis nor O'Neill would discuss their morning conference with Mr. Truman.

Also attending the morning conference were Secretary of Labor Schwelb and Edward F. McGrady, the special government conciliator who yesterday recessed the contract negotiations indefinitely.

Lewis' No. 1 demand for a seven per cent payroll levy to finance a miners' welfare fund. Operators calculate the levy would net the union \$70,000,000 annually on the basis of last year's payroll.

O'Neill said the operators would return to work, and made his way out of the White House.

## Yoshida Becomes Japan's Premier

TOKYO (AP)—Conservative Shigeru Yoshida, considered such a peace-monger by Japan's militarists that he was imprisoned part of the war, today became premier and quickly dominated an organizational session of the house of representatives.

His conservative supporters mustered a narrow margin to elect, as speaker and vice speaker shortly after Yoshida received an imperial command to form a new government.

The liberal party—whose presidency Yoshida accepted yesterday—and the progressives (both actually conservative) combined to elect Takekichi Miki speaker of the house and Koizumi Kimura vice speaker. Miki is a liberal and Kimura a progressive and both are veteran politicians.

Their election came after a dramatic, 45-minute speech by Yukio Ozaki, 87-year old dean of Japan's legislators, urging selection of "men of high character" irrespective of party. His attempt to prevent straight party politics was presented in a motion that was defeated, 228 to 217, in a test of strength.

## Chanters To Visit in Shamrock, McLean

ABILENE—Thirty selected members of the Chanters, McMurry college's widely-known choral group, will sing in Shamrock Methodist church next Thursday night, May 23.

In one of their appearances of a kind which will take them into most of the nine districts of the Northwest Texas conference, the group also sings at McLean on May 27.

On a two-week tour, the Chanters will visit at least 15 cities of the Panhandle and West Texas, with a combined sacred and secular program, and featuring, in the first time in several years, a male chorus in the group.

Seat covers and floor mats for all makes of cars. Lloyd's Magnolia Station.

## Labor Supporters Back Plan for Health Funds

WASHINGTON (AP)—Senate opponents of additional labor disputes legislation talked today of proposing that every industry engaged in interstate commerce be required to inaugurate workers' health plans.

**AMENDMENTS CONSIDERED**  
An amendment as well as several others which will be discussed in due course, Senator Pepper (D-Fla.) told reporters.

Pepper is leading the floor fight against proposals, which he contends would "undermine and destroy" labor law. He puts in that category virtually all the score of proposed amendments to the labor committee's bill providing chiefly for a strengthened federal mediation service.

**GOVERNMENT WORKERS**  
The senate's week-long preoccupation with labor matters developed a new facet, meanwhile, with a bipartisan move to deny government workers the right to belong to a union that might strike action.

Such a provision was attached by the senate appropriations committee to a bill carrying funds for the agriculture department. Senators Russell (D-Ga.) and Wherry (Nebr.), the republican whip, told reporters a similar clause will be inserted in all future supply bills.

**COUNTER-PROPOSAL**  
They said the action grew out of the newly-formed CIO United Public Workers of America which, Russell said, "claimed the right to strike and at the same time condemned

## Unemployment Pay Would Be Awarded Miners

By JAMES MARLOW  
WASHINGTON (AP)—If the coal miners in Pennsylvania strike again—they're back at work on a 12-day truce after a 42-day strike—they'll get unemployment pay while idle.

That's a ruling by the state of Pennsylvania. Only four other states—New York, Rhode Island, Louisiana and Tennessee—give unemployment pay to strikers.

All 48 states have unemployment compensation systems.

But all the states, with the exception of the five mentioned above, refuse unemployment pay to people made idle by a labor dispute. That phrase, "labor dispute," is important.

While the 43 states bar the pay to strikers, it is a little more difficult sometimes to decide not only who is made idle by a labor dispute, but why, and who's to blame. For example—

Suppose in a plant which has CIO and AFL workers, the CIO workers strike and the AFL workers, because the plant can't operate without the CIO men, are forced into idleness.

Or take the same plant where the CIO men strike. The AFL could go on with their work but, being union men, refuse to cross the picket lines which the CIO workers throw up around the plant.

In those two examples you have men made idle through no fault of their own or made idle because they are following union principles in refusal to work.

## Wheat Prospects Much Improved

Prospects for half a normal wheat crop for the Gray county area are in view this morning following the 5.1 inch rainfall last night.

Rain raised the outlook for production from two to three bushels an acre, which will assist the county in making the expected half-production yield of six bushels an acre.

Good rains were reported throughout the Panhandle, South Texas and Oklahoma by the local weather bureau, with Panhandle getting slight hail.

More moisture at this time would tend to be less beneficial to wheat, said Cole. Rain last night served to develop the wheat berry. Cool weather during the past week has also helped, what there is left of the wheat.

Harvest of wheat is expected to be earlier than normal, first crops to be harvested during the first of June with most harvesting around the middle of June. The harvest usually starts about June 25.

Although wheat crops have been damaged by drought only one Gray county producer near McLean has filed for indemnity payment for the Agricultural Conservation Agency program of crop insurance. Only 27 policies are on file.

## Local Program of Rat-Proofing Set

Pampa's rat-proofing program, for which a city ordinance has been passed, will begin about June 1, City Manager Garland Franks said today.

Franks received a letter from the state public health service yesterday stating that James S. Burwell, in charge of the program for the Pampa area, would arrive here on that day with a mobile unit and would begin training a city employee in the work.

The city was to provide a truck for the work but was unable to obtain one and is being loaned a unit, free of charge, by the health service.

In the letter, the state department complemented the city on the passage of the ordinance as another step in a cleanliness and sanitation program underway here.

Franks said Burwell is completing a similar project in Big Spring and it has been learned the project was very successful there and was highly praised by all who took part.

## Railroad Commission To Hear Application

AUSTIN (AP)—Ralph E. Fair's application for a discovery allowance for his Etta Terrell No. 1 well in the Gaffney field, Victoria county, will be heard by the Railroad commission June 14.

The commission also announced indefinite postponement of a hearing on the application of the Cities Service Oil company for the adoption of field rules to apply to the Alef field, Harris county.

## Right Bait

ERAINFIELD, Minn. (AP)—The opening of the fishing season found George Fisher, Brainerd newspaperman and fishing enthusiast, unable to find a rod and reel to complete his tackle. Then he inserted a "blind" classified advertisement in a newspaper.

The first answer which brought him the equipment was a surprise. It was from S. G. Fitzpatrick, Fisher's roommate.

Buy poultry and lawn supplies while stocks are low. Lewis Hardware Co.

## Drivers With Pistol Cartridges Arrested

MEXICO CITY (AP)—The drivers of two automobiles bearing Texas license plates were arrested at Laredo, Texas, after U. S. and Mexican authorities confiscated 20,000 contraband pistol cartridges. Gen. Gustavo Arevalo Vera, commander of the Nuevo Laredo garrison, reported to the war department yesterday.

The cartridges were found in the two automobiles at the Laredo international bridge.

## 475 DELEGATES, VISITORS: PLAINS FIREMEN STAGE CONVENTION AND RACE

CANADIAN (Special)—The 24th centennial convention of the Panhandle Firemen's association was held in Childress Tuesday, May 14, with what was probably the largest attendance since its organization in 1920.

Delegates and visitors registering reached a total of 475 representing 31 towns. Of this number 65 were women, 84 of whom attended a luncheon program that was given for them in the Pioneer room of the Chicken Shak.

Highlights of the morning session were talks by Bayne Satterfield, Firemen's Pension commissioner, and Olin Culberson, secretary of the State Firemen's association, both of Austin.

Satterfield explained the benefits of the firemen's relief and retirement system which provides for a fireman after 20 years of service as a fireman, as well as sick and accident benefits when such sickness or accident is incurred in line of duty as a fireman. To be eligible for these benefits paid firemen contribute 3 per cent of their pay, and volunteers contribute \$5 per membership.

## Strike Still Set for 4 P. M. Saturday

WASHINGTON (AP)—Union representatives announced today that the railroad operators had rejected a modified union wage increase proposal. They said both sides would report to President Truman today they are unable to agree.

A. F. Whitney, president of the Brotherhood of Railroad Trainmen, said the nationwide strike of engineers and trainmen still is set for 4 p. m. EST, Saturday.

Whitney and Alvanley Johnston, head of the engineers' brotherhood, told reporters they offered a modified proposal for a minimum increase of 18 percent or \$1.44 a day as compared with their original demand of \$2.50 a day.

Whitney said the operators' representatives would offer nothing more than the \$1.28 a day recommended by a presidential fact-finding board.

**FEDERAL SEIZURE**  
There still was speculation on whether federal seizure of the railroads might forestall the strike of 23,000 trainmen and engineers.

President Truman has said he will not hesitate to take over the lines if that action becomes necessary.

The hint came in an announcement from Alvanley Johnston, chief of the brotherhood of locomotive engineers that as a "safety measure" the big Illinois Central railroad already under government control has been removed tentatively from the list of carriers to be struck.

**EXEMPTION DECISION**  
Johnston said the exemption decision was reached in conjunction with A. F. Whitney, head of the brotherhood of railway trainmen who with the engineers have called the strike as the climax to a wage dispute.

The Illinois Central is under technical operation of the office of de-

## 26 Are Killed as Airliner Crashes Near Richmond

RICHMOND, Va. (AP)—Twenty-six persons were killed today in the crash of a southbound chartered airliner which ran into trouble a few minutes after its takeoff from Byrd airport near Richmond and plunged into a rain-drenched stand of pine woods in a vain attempt to return to the field.

The twin-engine Viking airliner came to grief in the heavy overcast about 1:10 a. m., plowed through the trees and burned on the soggy banks of Doran creek only a few feet from the runway.

The airliner left Newark, N. J. early last night for Atlanta. It got into Richmond and took off again about 12:30 a. m. in heavy weather.

The ceiling at the airport was fluctuating between zero and 200 feet and visibility was one mile when she took off.

The CAA said the plane carried 24 passengers and a crew of two. A farmer, William Walton who lives near the scene in Henrico county, said he counted 26 bodies—20 men, three women and three children.

Bodies of the victims were being brought out by horse and wagon and sent to Richmond funeral homes.

The Byrd airport reported that the weather for the station was an indefinite 20-foot ceiling with visibility one mile.

Planes of Eastern Airlines, which use Byrd airport as a regular stop on the New York-Miami run, were bypassing Richmond during the night, an Airline spokesman said, because of the weather conditions.

The first call to county police headquarters on the crash came at 1:24 a. m. from a radio tower on the Charles City road reporting a plane down near Doran creek about a half mile from Doran road.

County Police Sergeant H. W. Henshaw went into the crash area and counted 24 bodies, 20 in the wreckage and four more on the ground near the charred airliner. Most of the bodies were badly burned, he said, and there was a possibility only one could be readily identified.

## Man Charged in Connection With Auto Collision

Harvey Henley Lamb, who was involved in an auto collision May 5 which resulted in serious injuries to three persons, including himself, has been charged in county court with aggravated assault with a motor vehicle.

Lamb of McLean was alone in an International pickup when the car he was driving collided with a Ford sedan in which Gerald Poppen, Walters, Pampa, and Bob Jones of McLean were riding. The accident occurred one quarter mile east of McLean.

Lamb was released the first of the week from a Pampa hospital, having suffered broken ribs and facial lacerations.

Gerald Walters had both legs broken and a severe concussion. Yesterday a compound fracture in one leg was set. He was reported resting well. No visitors will be allowed for a few days. He is in the Worley hospital.

Bob Sherrod, who also suffered a broken rib and facial lacerations, is in the Amarillo Veterans hospital. He is reported to be recovering satisfactorily. It will be a while yet before he is able to have his leg set.

## Big-Four Set Next Meeting For June 15

PARIS (AP)—The four-power foreign ministers council spent three hours in almost fruitless discussion of Germany today and prepared to adjourn later in the evening until June 15, when they again will attack the unsettled problems of peace.

Soviet Foreign Minister V. M. Molotov agreed to an American proposal to send a four-power commission to all four zones of Germany to investigate the state of German disarmament, an American informant said.

But this proposal was thrown out by U. S. Secretary of State James F. Byrnes several days ago to counter a Soviet objection to Byrnes' offer of a 25-year four-power mutual assistance pact to guarantee the continued disarmament of Germany. At that time Molotov had objected that Germany's present state of disarmament should be studied before such a pact was considered, and Byrnes had proposed the commission.

Today British Foreign Secretary Ernest Bevin finally registered London's approval of the pact proposal. France already has accepted the proposal.

U. S. Secretary of State James F. Byrnes, described by his associates as deeply discouraged by the failure of the conferees to reach any basic agreement during three weeks of negotiations, was said to be convinced there was no other course except continued effort to compromise the differences which have split the western powers and Russia.

The ministers approved last night Byrnes' suggestion that the council adjourn until June 15 and the conferees were ready to recess as soon as discussion of the German question is finished, probably today.

In recessing the foreign ministers will leave unsettled the same problems which impelled their current session—the question of Austria, which the Russians flatly refused

## Dangerous Item On Local Market

An extremely dangerous electrical breaker is on the market in Pampa, although a city ordinance prohibits the sale of unapproved articles. R. E. Jones, city inspector, said today.

The appliances is the subject of a notification received from M. D. Darrah, chief electrical inspector of the city of Dallas.

In the notice, Darrah said the appliance is easily identified by its three exposed prongs on the electric connection. Either two of these prongs will fit a standard electric cord.

If the live wire from the cord is contacting the center prong, the exposed prong has a potential 120 volts, which could produce severe and sometimes fatal shock.

Any person who accidentally contacts the exposed prong with wet hands or touches it while in contact with a water faucet or other ground is in danger of a severe shock or death.

Jones said no sales organization with any sense of responsibility or knowledge of electrical appliances would assume the risk of selling such a hazardous piece of equipment.

He added that there is a city ordinance which prohibits the sale of unapproved appliances.

Rebuilt motors for Ford, Chevrolet, Plymouth and Dodge cars. Installed ready to go in one day. Pampa Lubricating Co. (Adv.)

## 6-Point Plan for Federal Union of India Announced

LONDON (AP)—A six-point plan for a federal union of India was announced in the house of commons today by Prime Minister Atlee.

Published as a government white paper, the plan was drawn up by a three-man cabinet mission to India following its unsuccessful negotiations for Indian leaders themselves to formulate a plan for Indian independence and an interim government to rule while the next constitution was being drafted and adopted.

The plan set forth these six points:

1. Establishment of a federal union of India embracing both what is known as British India and the 600 princely states of India. The union would have to have a majority of the whole legislature for passage and also a majority of each of the two major parties in the legislature—the predominantly Hindu congress party and the Moslem league.

2. A central executive branch and an all-India legislature. Any major question before the legislature would have to have a majority of the whole legislature for passage and also a majority of each of the two major parties in the legislature—the predominantly Hindu congress party and the Moslem league.

3. All other subjects of government—the residuary power to be vested in the provinces.

4. The princely states also to retain all powers not ceded to the union.

5. Permission for the provinces to form regional groups which likewise would have executive branch government would determine the subjects of its common administration.

6. Inclusion in both the union and regional constitutions provisions under which any provincial legislature could, by majority vote, call for reconsideration of the union.

See 6 POINT PLAN, Page 4

## Derby Film To Be Shown Here

Boys who are interested in the All-American Soap Box Derby are invited to attend a showing Saturday morning of a film covering the races at Akron, Ohio. Bob Giammer, local derby chairman, announced this morning.

The film, which is furnished by General Motors, Chevrolet division, is to be shown at 9:30 Saturday morning in the Palm room at the City hall.

Giammer said the film was to be shown to the members of the Lions club at the noon luncheon today. The Lions club is co-sponsoring the races here, in conjunction with the Pampa Daily News and Culberson Chevrolet company.

Over 75 rule books have been distributed to boys in this area. About six have already started for the races, which will be held here in July. The winner of the local race will get a free trip to Akron for the national finals in August.

Also to be shown is a 15-minute film of highlights in the country's leading football games in 1935. The film is being furnished by the Pampa Daily News.

## Short Course Will Open Here Monday

A short course on water and sewer works will open here Monday night and letters have been sent to about 50 surrounding towns inviting them to send representatives. City Engineer George Thompson said today.

W. E. Cuzick of the Texas A. & M. Extension service will conduct the course. It will be held each Monday, Wednesday and Friday night for 10 nights at 8 o'clock in the City Commission rooms.

Certificates will be awarded to those satisfactorily completing the course. Thompson said. Each session will last two hours, making a 20-hour total.

**POLITICAL AD**  
HAMMOND, Ind.—(AP)—A resident of nearby East Chicago sent the following classified ad to a Hammond newspaper:

"Attention, democrats: If you don't get an apartment soon, I'll vote republican, so help."

### Warm-Up Rodeo for Top o' Texas August Show Scheduled for Sunday

Next Sunday the first of a series of preliminary warm-up rodeos to the August rodeo will be held at Recreation park at 2:30 p. m. Crawford Atkinson, chairman of the Special Events committee of the Top o' Texas Rodeo, announced this morning.

Pictured here as a scene from last year's Top o' Texas Rodeo, just a reminder of what you can expect in the preliminary Sunday rodeo in the regular August show.

Contests are open to local amateurs and will include a buck-pot calf-roping event, bronco riding, steer riding and a barrel race.

A cigar race for cowboys will be held the night before.

Contests will be held at 2:30 p. m. on Sunday to make official entry. No entry fee will be charged. Prizes will be three, two and one dollars for first, second and third places respectively.

The warm-up rodeo contests, said Atkinson, are to help the local cowboys get their ropes warmed up for the Top o' Texas rodeo to be held August 16-18. The contests are to be held about every other week when the Pampa Oilers are playing out of town or during present plans.

Notice Minors: If you are a minor and plan to participate in the Rodeo contest at Recreation Park next Sunday it will be necessary that you have your parents with you, at which time your parents will be asked to sign a slip giving their consent and approval for you to enter these contests. This is done for the protection of all concerned.

Wade Thomasson, pres. Top o' Texas Assn.

Marriage Licenses: Marriage licenses were issued yesterday to Eugene C. Fleming and Jean Ladell Simmons, and to Richard A. Kuehl and Melva Jane Craigh.

Almost 70 percent of those in the armed services during this war had more than an eighth grade education, compared with only 20 percent in the last war.

### Altus Dresses in Cowboy Garb for Three-Day Rodeo

ALTUS. — With the city of Altus decorated in gala rodeo attire, and every citizen wearing typically western cowboy togs, plans are complete for this city's first rodeo to be staged May 16-18 by the Jackson County Roundup club.

Indications are that the largest crowd of visitors ever to come to this southwestern Oklahoma point will be here for the three day celebration, an event which is expected to become an annual affair.

With Lynn Butler, whose rodeo business has made him famous from Madison Square Garden to the west coast, having been secured to give the three professional performances, the Hightower Memorial stadium is expected to be packed to its seating capacity of 5,000 persons for each performance.

Bucking horses which are reputed to be the most difficult to ride and some of the most vicious bulls of the entire nation will appear in the show which will be started promptly at 8:15 p. m. daily.

At least one thousand horses are expected for the leadoff parade to be staged in downtown Altus at 4 p. m. today. At least 100 horsemen from Vernon will be here, and Chickasha, Frederick and Hotart have indicated they will bring approximately 50 horses each. Cordell, Mangum and Sayre riders as well as those from various other southwestern Oklahoma and nearby Texas points have made plans to attend. These will be in addition to the many from Jackson county which will appear in the parade.

ADMINISTRATOR'S FINAL NOTICE: THE STATE OF TEXAS, County of Gray. TO THE SHERIFF OR ANY CONSTABLE OF GRAY COUNTY—GREETING: H. H. Kenney, administrator of the Estate of Otis H. Hendrix, Deceased, having filed in our County Court his final account of the condition of the Estate of said Otis H. Hendrix, Deceased, together with an application to be discharged from said administration, you are hereby commanded, that by publication of this writ once in a newspaper regularly published in the County of Gray, and said publication shall be not less than ten days before the return day hereof, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, in said court on or before Monday, the 27th day of May, A. D. 1946, when said account and application will be considered by said court.

Witness, Charlie Thut, Clerk of the County Court of Gray County, Texas. Given under my hand and seal of said court, at my office in the City of Pampa, County of Gray, this 15th day of May, 1946. (SEAL) CHARLIE THUT, Clerk County Court, Gray County, Texas.

A true copy, I certify: G. H. KYLE, Sheriff, By JOHN M. BRANHAM, JR., Deputy Sheriff. MAY 16, 1946.

## It's Kellogg Week in PAMPA

CELEBRATE BY STOCKING UP ON AMERICA'S FAVORITE CEREALS!

To celebrate "Kellogg Week," your grocer is featuring 9 very good reasons why more Kellogg's cereals are sold than any other kind.

You'll find corn cereals, wheat cereals, rice cereals. Some flaked. Some shredded. Some popped. A form and flavor to suit every taste!

Every last one's made from the whole grain or restored with valuable protective nutrients. And look at the assortment you have to choose from!

**Kellogg's CORN FLAKES**  
Crisp, golden toasted flakes... always fresh because they're so popular!

**Kellogg's RICE KRISPIES**  
So crisp, they Snap! Crackle! Pop! in milk. America's No. 1 rice cereal!

**Kellogg's PEP**  
Tender, crunchy wheat flakes—extra rich in valuable vitamins B1 and D. "The Sunshine Cereal!"

**Kellogg's ALL-BRAN**  
Made from the nutrition-packed vital outer layers of finest wheat. Famous "regulating" cereal.

**Kellogg's RAISIN BRAN**  
Crisp flakes and honey-comb coated, tender raisins in the same package. A double treat.

**Kellogg's Bran Flakes**  
Tempting wheat flakes with 40% of the healthful bran retained. Swell tasting—swell for you.

**Kellogg's SHREDDED WHEAT**  
15 hearty, nutritious whole-wheat biscuits in every package—toasted the famous Kellogg way.

**Kellogg's KRUMBLES**  
Crisp nutritious shreds made from whole wheat. Delicious with fresh fruit and milk.

GET ACQUAINTED WITH **Kellogg's** THE GREATEST NAME IN CEREALS

And here's Kellogg's Variety... 6 delicious cereals, 10 generous packages in one handy carton.

## Junior High Graduating Class Honored at Dance

Honoring the Pampa Junior high school graduating class of 1946, about 20 parents of the students entertained with a formal dance following the graduation exercises Wednesday evening. The affair was held at the Country club which was decorated in class colors of blue and white and arrangements of spring flowers.

The invitations were miniature scrolls in the form of diplomas in class colors and were presented to the entire student body.

Refreshments of punch and cake were served from a beautifully appointed lace-covered table.

"Dick McCune's orchestra furnished music for dancing throughout the evening.

Approximately 300 Junior High graduates including the graduates of Holy Souls Parochial school attended the affair.

The graduates attending were: Bobby L. Gage, James Edward Moore, Bill Lovin, Roy Sullivan, Robby Morris, Mark Sanders, R. D. Talley, Lynn Hughes, Bill Runyon, Robby Phillips, Glenn R. McCone, Janette Eldridge, Jimmy Baird, Ronald Beard, George Whitten, Sue Hopkins, La Wanda Fields, Bessie Ann Crossman, Frances Batson, Dwan Reno, Mary Frances Ellington, Betty Ann Thornhill, Pauline Martinis, Patricia Hill, Danna Sue Sackett, Mary Jean Patton, Corolla Cornelius, Betty Anne Wells, Martha Hopkins, Nina Ruth Spearman, Gertrude Marie Lake, Dorothy Dixon, Jo Alice Franks, Margaret Lee Rath, Joan Urley, Wynell Freudenrich, Pat Price, Mary Wright, Alice La Rue Whipple, Patricia A. ## Girls Invested as Tenderfoot Scouts

Scout House lawn was the scene of a scout ceremony Monday evening when eighteen members of Troop 17 were invested as Tenderfoot Scouts.

Mrs. Charles Alford and Mrs. C. C. Matheny, troop leaders, had charge of the following program in which the girls took part. Monta Sue Williams, Melba Jo Barton and Aquilla Collins presented the promise ceremony. The laws were led by Sally Alford, Claudette Harper, Shirley Ingram, Nancy Littleton, Claudette Matheny, Romilda Nolen, Janet Pearce, Jennie Lee Rockwell, Letta Mae Staus and Frankie Turpen. A poem, "Today," was given by Jaquelin Robertson. "Girl Scouting in the United States and Other Countries" was given by Norma Jean Sewell, Leona Turlington, Aquilla Collins, and Benita Stephenson. The "Promise Song" and "Girl Scouts Together" were sung by the group.

Romilda Nolen and Claudette Harper were awarded Brownie Wings signifying their having been active members of a Brownie Scout troop for at least one year. These were awarded by Miss Marie Stejle.

Two troop members, Virginia Crocker and Joyce Brake, were unable to present. The leaders welcomed Leona Turlington, a scout recently transferred from Troop 29, into this troop.

Refreshments of ice cream and cookies were served to Troop Members, leaders, Miss Stejle, and the following guests: Mesdames Jack Robertson and Joan, Hubert Nolen, Scott Rockwell, Joe Barton, Roy W. Williams, George Collins, O. R. Turlington and sons, Jimmie and Russell, Frank Turpen and son, Tommie, Claude Harper and Fred Ingram.

## Social Calendar

**THURSDAY**  
Babekah lodge will meet in the 1007 hall at 7:30 p.m.  
Hopkins Ladies Bible Study club will meet in Community hall at 2:30 p.m.

### Fashion Frock of the Week

#### PRINTED MATTER

First-class printed matter! There's an unusual story in print this colorful season—summer coolness, feminine charm and flattering beauty. A story-telling print is a sure conversation maker wherever you go.

This gay Fashion Frock of the Week prints a sly bit of style news. With just a bit of tongue in your cheek, you'll see high-spined horses with corkscrew bodies, flowing tails and well-shod feet, prancing about on soft spun rayon. And just between me and you and the hitching post, it's a charming bit of fantasy!

Very fashion-wise are the broad shoulders that extend to form cap sleeves, and the rippling pleum that rounds the hips as it swings out from the waistline. An artist's bow ties boldly at the V-neckline.

## Demonstration Club Has Special Program

Hopkins Home Demonstration club met Tuesday afternoon with Mrs. W. E. Melton for their annual Mother's Day program. The house was decorated with red and pink peonies, white roses and honeysuckle.

Mrs. Paul Alice was in charge of the program. She gave the history of Anna Jarvis, the founder of Mother's Day. Mrs. A. L. Montgomery read as devotional the story of the woman found in Proverbs, chapter 31.

Mrs. Robert Orr assisted by Mrs. C. F. Jones led the group in singing "Mother," and "Mother Machree." "Mother's Day," a poem was read by Mrs. R. A. Irwin.

After the program, the hostess conducted a tour of her yard in which a fish pond has recently been installed. Mrs. Melton is the yard improvement demonstrator for the Hopkins club.

Strawberry shortcake and iced tea were served by the hostess assisted by her daughter-in-law, Mrs. Doris Zuppan, of Berger. Members present were Mrs. Paul Rice, Mrs. C. F. Jones, Mrs. R. A. Irwin, Mrs. Ray Longley, Mrs. Robert Orr, Mrs. A. L. Montgomery, Mrs. C. V. Minniear and Mrs. A. L. Kube.

The next meeting will be May 28 in the home of Mrs. A. L. Montgomery.

## Entre Nous Has Regular Meeting

Entre Nous club met last week in the home of Mrs. Herman Jones with Mrs. J. C. Farrington as hostess.

Mrs. C. A. Tignor presented a Mother's Day program. A picnic will be held in the home of Mrs. E. A. Shackleton Sunday at 4 p.m.

Refreshments were served to the following members: Mesdames Clyde Carruth, Norman Walberg, Joe Lewis, E. A. Shackleton, W. D. Benton, C. C. Stockstill, C. A. Tignor, A. B. McAfee, Bill Ridgeway, C. D. Turcotte and Donnie Lee Stroop and Weimer Calvert.

The women of Celebes renew their attire twice annually.

## Much Publicize 1 Marriage Has Hit Divorce Court

HOUSTON, Mo.—(AP)—The Easter Sunday marriage of 74-year-old T. W. Sutton and his 16-year-old neighbor, Vinnie Holden, hit divorce court today.

In a suit filed in Texas county circuit court, Sutton charged his young bride, who disappeared from home May 3, two weeks after the wedding, had corresponded since their marriage with other men and had "expressed love and affection" for them.

The divorce petition also asked that the deed giving 70 acres to Vinnie as a wedding gift be set aside.

"He believes," the petition stated,

"that she left home with another man."

The girl has not been reported seen since her disappearance either by her mother, a half mile from the Sutton home, by her father, Frank L. Holden, San Pablo, Calif., sawmill worker, or by relatives in St. Louis and elsewhere.

Five hundred scientists and engineers are needed to develop one new commercial airplane.

### Unflyable Planes To Be Sold Soon

DALLAS—Two hundred and ninety-seven surplus twin-engine Cessna aircraft in unflyable condition will be offered for sale at special prices beginning May 27, A. G. Elmendorf, regional director of the Dallas office of the war assets administration announced today.

The Cessnas are priced at \$400 for planes with wooden propellers and \$600 for those with constant speed propellers. Terms of the sale are cash only and no discounts will be allowed.

Both light and heavy wing construction planes are included in the offering. Those with heavy wings are unflyable because of cracked spars. Purchasers must agree that the planes will not be used for flight purposes.

Locations of the planes to be sold are as follows: Ryan Field, Tucson, Arizona, 96; Thunderbird Field, Phoenix, Arizona, 10; and E. R. Field, Wickliffe, Ohio, 33.

Buyers will be given 15 days after purchase to remove their planes from the fields.

### Plains Firemen

(Continued from page one) ber per year to the retirement fund. Cuberson, in his address, paid a fine tribute to the spirit of firemanhood, and scored those who think more of their dollars than they do of their country and its welfare.

In the afternoon session Paul Williams of A. & M. Extension service was introduced. He explained that his work is special instruction in fire departments supplementing the annual firemen's short course that is held at College Station.

E. C. Fisher of Canadian addressed the convention with a tribute to the service rendered by firemen, and suggested that a major fire department might provide an activity for boys that could reduce the number of delinquents.

On call for old or new business it was pointed out that the present wording of the retirement act might not permit a fireman to claim time served in more than one city in computing his length of service toward retirement. After lively discussion the convention went on record as demanding a clarification of the act to permit firemen to transfer from one city to another without losing credit toward his retirement for time served on ANY fire

department in the state. Life membership was bestowed on W. V. (Bill) Courney of Memphis, former secretary of the association, and Ray Jardon of Tulsa.

In the pumper races that were held immediately after adjournment of the afternoon session Memphis took first with a time of 27.2 seconds, and Wellington third with 31 seconds. Canadian and Levealand also had teams in the contest but failed to get "in the money."

Six teams entered the water polo contest which is conducted as an elimination affair. Quannah, Memphis, Levealand, Dalhart, Wellington, and Canadian were the contestants. Quannah won first, Dalhart second, and Wellington third.

A barbecue was served at City auditorium at 7:30, and was followed with a dance.

Firemen who went from Canadian were John Wilkinson, Jack Nix, Dallas Hodges, Bud King, Earl Brea, Jr., Lawrence Teague, and Carl Zibach. They were accompanied by J. P. Hazelwood who is a past president of the association, and E. C. Fisher, another former fireman, and who appeared on the convention program.

The next convention will be held in Quannah September 10.

### Unemployment

(Continued from page 1) fusing to cross picket lines. Such problems mean the various state officials have tough decisions to make: Whether to let these AFL men (used as an example here) have unemployment pay, or not.

It's different in the five states which permit unemployment pay for strikers. In all five of those states a striker is disqualified from receiving the money for a specified number of weeks.

In Pennsylvania a striker must idle six weeks before he can receive unemployment pay. The theory behind those weeks of disqualification is this: That most strikes last only a short time and therefore few strikers ever will be idle long enough to collect unemployment pay.

The 42-day coal strike is, of course, an exception to the rule. By being idle 42 days through last Sunday, the Pennsylvania miners have been out of work for the six weeks required by the state.

Now, although the miners have gone back to work on the 42-day strike, the state has ruled that if they quit again at the end of that time they don't have to wait another six weeks before getting unemployment pay.

The amount of money a jobless person can collect depends upon how much he earned when he was working, and how long he worked. But there is a maximum amount of unemployment pay he can get, and a limit on the number of weeks he'll get it. The rules vary by state.

In Pennsylvania a jobless person, depending on his previous work and length of work, can draw up to \$20 a week for 20 weeks.

In all states employers — usually of eight people or more — contribute 27 per cent or less of their payroll to the state unemployment fund.

Employees in only four states—Alabama, California, New Jersey and Rhode Island — contribute to the fund, about one per cent of their earnings, or less.

### Commander Calls Meeting of Guards

AUSTIN—(AP)—Major Gen. Fred L. Walker, commander of the Texas national guard, has called a meeting here May 26 of guard leaders from over the state to review progress being made in reactivating the militia unit.

Assignment of units to the various districts, the capability of these companies to maintain units, and general guard policies will be discussed.

Java holds the world's record for the most frequent thunder storms.

### Big-Four

(Continued from page 1) even to discuss Trieste, which Britain and the United States insist must go to Italy while the Russians insist it must go to Yugoslavia; freedom of navigation on the Danube, which the Russians refuse to write into the Balkan peace treaties; and international freedom of commerce with Romania, Bulgaria and Hungary.

In the interim period from now until June 15 the foreign ministers will leave their deputies in session in Paris to work on these problems, and others, in an effort to narrow the margin of difference.

### Food Situation

(Continued from page one) cereal, ice cream and skim milk products.

ABOVE 1935-39 AVERAGE. The bureau said 1946 production of food crops and livestock is now estimated to be about one-third above the average for 1935-39. If this estimate proves correct, 1946 food production would about equal that of 1913 and be exceeded only slightly by the record production in 1944 and 1945.

The bureau said the nutritive value of the per capita food supply is expected to be close to the 1945 figure. It said the number of calories available per person per day will average 3300 compared with 3350

in 1945 and with 3250 in the 1935-39 period.

Government limitations on supplies of flour and other consumer wheat products will have no significant effect, the bureau said, upon per capita nutritive supplies for the year as a whole.

UNRRA Director LaGuardia, however, came forward with suggestions yesterday on how he thought these limitations could be made more effective for famine relief purposes.

At a news conference he recommended farmers be "required" to market their grain, and not feed it to livestock. He also proposed still darker bread and a moratorium on pastry for all Americans.

On the darker bread, LaGuardia's idea was that millers be compelled to extract 90 per cent of the wheat kernel in manufacturing flour, as against the 80 per cent now required, and the 72 per cent utilized before the food emergency became acute.

### Health Fund

(Continued from page 1) The Americans and British for imperialistic policies.

The idea of requiring industries to set up health plans for workers would be a counter-proposal to a move by Senator Byrd (D-Va) which has been the center of senate debate all week.

Fryd seeks to outlaw union collection and control of any such health

and welfare fund as John L. Lewis has demanded from coal mine operators. The Virginian revised his original amendment to permit employers to contribute to a fund provided management had equal voice with workers in how the money is to be spent.

### Rail Strike

(Continued from page 1) fense transportation as the result of a previous strike threat. Johnston would neither affirm nor deny that this was the reason for the exemption, nor would he explain what he meant by "safety measure."

The Smith-Connally war labor disputes act, however, provides penalties for strike interference with the operation of any facility under government possession.

Johnston and Whitney scheduled a third meeting with the operators (10 a. m. EST) after two sessions which the union chiefs said were fruitless.

Mr. Truman brought about the resumption of negotiations after a series of White House conferences on Tuesday.

The other three operating brotherhoods were to meet with the carriers later. They are taking a strike vote which, however, can not become effective for some time. Fifteen non-operating rail unions also are seeking higher pay.

The patent for barbed wire used as fencing was granted in America in 1874.

### Coal Strike

(Continued from page one) House offices. Lewis trailed along a moment later and said, "the magic numerals are 8:30."

Pressed for a statement on what he would do until the hour for returning to the White House, Lewis stared long and hard at his questioner and then said:

"The whole situation gives one furiously to think."

He would say nothing more. It was understood that the 250-man UMW policy committee which Lewis assembled in Washington a week ago and which had authorized a two week strike truce has returned home.

With the present strike truce due to expire May 23, only eight working days remain before the menace of another shutdown—after 42 days of idleness.

Much depended today on O'Neill's explanation of the operators' rejection of seven per cent payroll levy Lewis demanded to create the welfare fund.

The daily weather map of the United States was first published by the government in 1871.

• We fix flats.  
• 24-hour service.  
• We pick up flats.

### 6-Point Plan

(Continued from page one) stitution after the first 10 years and at intervals of 10 years afterward.

The cabinet mission — composed of Lord Pethick-Lawrence, secretary of state for India, Sir Stafford Cripps, president of the board of trade, and A. V. Alexander, first lord of the admiralty — also recommended that an interim government be set up in which all officers would be held by Indians. The government would rule while the proposed new constitution was being put into effect.

The mission proposed that a constitutional convention meet in New Delhi as soon as possible, with the delegates to be chosen by the recently elected provincial legislatures. Under the proposal one delegate

from each province would be chosen for each million people, each province rationing the delegates among Moslems, Sikhs and general population in proportion to the number of people of those classifications.

Munitions ate up most of the \$250,000,000,000 expended during World War I.

GALL BLADDER SUFFERERS AVOID LIFE OF MISERY DUE TO LACK OF HEALTHY BILE

Sufferers realize an remarkable relief comes first from GALLBLADDER SUFFERERS lacking healthy bile is seen today in announcement of a wonderful preparation which acts with remarkable effect on liver and bile.

Sufferers with agonizing colic attack stomach and gallbladder misery due to lack of healthy bile now tell of remarkable results after using this medicine which has the amazing power to stimulate sluggish liver and increase flow of healthy bile. ### Texas Company To Build East Coast Refinery

The Texas company has acquired a 3,368 acre site on the Delaware river opposite the Philadelphia navy yard on which it will build its first major East Coast refinery, W. S. S. Rodgers, Texaco's board chairman announced today. The first unit of the new plant may be in operation sometime during 1948.

Selection of the site ended a careful two year search by Texaco officials for an ideal Eastern seaboard location. The new refinery, Mr. Rodgers pointed out, will be strategically located to receive both foreign and domestic crude oil.

Construction plans are incomplete and depend largely on the availability of materials. The refinery according to the Texaco chairman, will be an ultra-modern plant incorporating the benefits of war time petroleum research and technological advances in refining. In the first phase of its operations it will process motor fuels, diesel fuels, and furnace and industrial fuel oils.

Other products will be announced as additional refinery units are constructed. The refinery is a key project in Texaco's post war expansion program. It will be the company's twenty-first plant for producing petroleum. The twenty factories now in operation are spread from coast to coast.

"The Texas company during the 44 years of its existence has sought continually to improve its products and to maintain the highest standards that extensive research establishes," said the Texaco chairman. "The new East Coast refinery will carry Texaco's purpose forward into the post war era assuring consumers an increasing supply of the highest quality petroleum products."

### Clovis Air Show Attended by Over 75,000 Persons

The air show at Clovis army air field Sunday was an overwhelming success, with a crowd of over 75,000 passing through the gates of the field between 7:30 in the morning and 2:30 p. m. when the aerial demonstrations began. Although the gates of the air base were not due to be thrown open to the public until 9:00 a. m. cars were standing in line for over half mile outside the entrance an hour and a half earlier, and officials at the field were forced to allow these early visitors admittance in order to avoid an unmanageable traffic jam.

The largest crowd in the history of Clovis and the surrounding areas was thrilled by the sight of the many, many types and sizes of army aircraft, ranging from the eightie C-47 double-deck cargo carrier, larger even than the B-29, down to the tiny fighter planes and the even smaller L-5.

Never before have the people of this area been treated to such an array of planes and equipment, nor have they ever seen such a thrilling demonstration of speed and acrobatics as that displayed during the afternoon's aerial demonstrations.

The highlight of the afternoon came a few minutes before 5:00 p. m. when the jet-propelled P-80 "Shooting Star" put on an exhibition of speed which will not soon be forgotten by those who witnessed it. First sweeping low in front of the crowd at a comparatively slow speed of 200 miles per hour, it then kept circling and passing low in front of the spectators at ever-increasing speeds, until, on the fifth sweep, this amazing speed merchant was flashing in front of the grandstand at over 600 miles per hour. As he swooshed by an awe-inspiring exclamation of astonishment arose from the crowd.

Colonel Reuben Kyle, Jr., and his staff were hosts to many notables, including Lt. Gen. John C. Cannon, Brig. Gen. Julius K. Lacey, Senator Chavez, Governor Dempsey, Atty. Gen. McCulloch, John E. Miles, state commissioner of public lands, as well as many other state and local dignitaries.

In spite of the thousands of cars, busses, trucks, motorcycles, bicycles and babies go-carts which jammed the field, traffic generally moved smoothly throughout the day. Only a few minor mishaps were reported, with no injuries so far as is known, which speaks well for the efficiency and cooperation of the state police, the county police, Clovis city police, the state guard, the Curry county mounted patrol and many other who assisted in controlling the sea of cars approaching and leaving the air base.

At the end of the day the thousands of visitors wended their somewhat weary ways homeward, tired but feeling that they had truly had a "look into the future."

### James C. Brown To Be Ordained

Friday evening at 7:30 in First Christian church, James C. Brown, above, will be ordained to the ministry of the Christian church.

The Rev. Paul Gary of Phillips university, Enid, Okla., will deliver the ordination sermon. Dr. Harold Humbert of Phillips will give the ordination charge to the candidate and the Rev. Beauford A. Norris, local minister, will present the candidate and give the charge to the church. Others participating in the service will be Miss Anna Mae Harp, organist from Enid, Mrs. Everard Carter and Vern Rossman, soloists from Enid, Clyde Poltz of Fort Worth, Louis Elise and Richard Gary also of Enid.

Mr. Brown is well known in Pampa, having filled the pulpit of the local Christian church for most of the last year. He also led the local church in a successful Easter revival. With exceptional gifts in preaching ability and rich spiritual endowments, the Reverend Brown should go far in the ministry.

The Reverend Mr. Norris, local pastor, stated that the Pampa church feels particularly honored in having this ordination service. The public is cordially invited.

The Reverend Brown will receive the A. B. degree from Phillips university May 27 and will enter Yale Divinity School at New Haven, Conn., next September.

### RC Field Worker Visits in Pampa

Miss Kathryn Gill, Junior Red Cross field representative, was in Pampa yesterday conferring with Herman Jones, Junior Red Cross chairman and members of his committee.

Miss Gill commended the Pampa Junior Red Cross members in making 10,773 comfort and recreational items for the armed forces during World War II. She stated that production work for men in Veterans' hospitals and children's institutions continues as one of the urgent post-war projects of the Junior members.

Miss Gill called attention to the shift-over to peacetime service which includes, in addition to school production, the acceleration of school correspondence, international and inter-sectional and eventually international student exchanges.

The Pampa Junior Red Cross members already have exchanged albums with school children in Pogradec, Greece; Samar, Philippines; Alberta, Canada; Quebec, Canada. The war necessarily curtailed such activity, Miss Gill explained, although this aspect of the Junior Red Cross still is new. Complimenting it, are rural-urban exchanges of letters and of students so that both country and city child will have a fuller understanding of the other's needs and habits.

### Mrs. Lowren Morris Dies in Hospital Here

Mrs. Lowren Morris, about 72, died early this morning in a local hospital after a ten-day illness. Mrs. Morris resided on 110 West Tuke in Pampa, and has lived here for 20 years.

She is survived by her son, William Edwards of Pampa; two brothers, E. W. Whitley of Granite, Okla., and D. M. Whitley of Farwell; and one sister, Mrs. Fannie West of California.

Funeral services will be held in the chapel of the Duengel-Carmichael funeral home under the direction of Rev. Henry Riley, pastor of the Pentecostal-Holiness church at 4 p. m. Friday. Interment will be in the Fairview cemetery.

### Price Reduction on Army Paints Listed

A drastic reduction to 30 cents per gallon, f. o. b. location on all government surplus olive drab paints in minimum sale quantities of 500 gallons, was announced Tuesday by Hamilton Morton, war assets administration regional director in Fort Worth. The new fixed price designed for quick disposal of all olive drab colors includes enamels, lacquers, primers, stains and dopes.

Minimum orders of 500 gallons may be made of one or more items or any combination of the items offered. Containers range from one gallon cans to 50-55 gallon drums.

Included in the offering are interior and exterior maintenance paints of a wide variety of specifications in gloss, semi-gloss, and flat finishes, air-drying and baking enamels, aircraft dopes, lacquers suitable for many types of industrial and commercial products, and stains for wood, metal and fabric.

### Mainly About Pampa and Her Neighbor Towns

All miners planning to participate in the rodeo contests at recreation park next Sunday are required to be accompanied by their parents. Parents will be asked to sign a statement giving their consent and approval for the minor to enter these contests. This is done for the protection of all concerned.

Mrs. J. M. Dinnison of Amarillo is visiting in the home of her daughter, Mrs. Lee Harrah.

### Bands Invited To Take Part in Coming Rodeo

Invitations were sent out this morning to all bands in the Pampa area to participate in the Top of Texas Rodeo and Quarterhorse show parade to be held the first day of the three day "Fiesta," August 16.

Several bands have already indicated that they would like to enter the parade, it was reported. Special events for band members have been planned, topped by a chuck-wagon feed the night of the parade. All members will receive free passes to the rodeo and rodeo events.

### Pampa Chess Club To Play Amarillo Group

Arrangements are being made for the Pampa Chess club to meet the Amarillo club at 8 p. m. Tuesday, May 21, in Amarillo.

Local players who would like to meet the Amarillo members are urged to contact P. O. Gaut at the Oil Well Supply, or phone H. O. Simmons at 284-J.

Three cars will be available to provide transportation. The club would like to have at least 12 players.

Amarillo has already played Lubbock and Plainview. Plans are underway by the Pampa Chess club to hold inter-city tournaments with Lubbock, Plainview, Borger and Amarillo in view of establishing a Farinhande chess tournament.

### Primo Carnera To Fight Baer Soon

ROME—(AP)—Corporal Vic Jacobs, staff correspondent for Stars and Stripes, reported from Gorizia today that Primo Carnera, former heavyweight champion had announced he would sail to the United States at the end of May to fight Buddy Baer, in Sacramento.

Electronic tubes weighing only seven-hundredths of an ounce are now being made in quantity.

### 90-Day Proration Order To Be Issued

AUSTIN—(AP)—Railroad commissioner Ernest O. Thompson today advocated issuance of a 90-day oil proration order instead of the customary monthly order.

He took this position after announcing that the commission has received advance nominations for June from major purchasers indicating demand for 2,439,849 barrels of oil daily, an increase of 87,432 barrels daily over demand for May. Identical nominations have also

### THE EASY WAY

LOS ANGELES—(AP)—Ira A. Gilmore, 39, and his wife Sybil, 27, have found a solution to the housing problem which has been plaguing them since last October.

They both joined the army yesterday.

The people of Iran call themselves Irani.

### Camp Season Opens At Camp Sullivan

Camping by Girl Scouts at the troop camp, Camp Sullivan, will start Saturday with Troop 16 of the Intermediate scouts of Sam Houston school, opening the camp season.

The troop and their leaders, Mrs. E. N. Davis and Mrs. J. V. Young, will go down Saturday, return Monday.

The camp is expected to be used by troops throughout the summer, according to present schedules. Camping is not expected to be interfered with by the building of

### A BLOOMIN' BLOODY TRIP

PARSONS, Kans.—(AP)—Police halted Tom Russell on a New York pier as he rushed to meet his British bride and three-months-old son on the Queen Mary.

"I've forgotten m' bloomin' pocketbook," he shouted. His posing as a British sailor worked as far as a porthole where he saw his wife but couldn't get any farther.

Deciding they would fare better with the Red Cross because of

### Travel Restrictions

Russell told his bride he'd try to make her train. As she left the Pennsylvania station, Russell left Grand Central. They missed each other at Chicago and again at Kansas City—and finally met at his home here.

The cigarette industry's 1944 profits totaled \$130,568,000 before taxes were deducted, an increase of 36.6 percent over the 1936-39 average.

### Cigars

A variety known as "creeping apples" in Siberia produces more than 150 pounds of fruit per tree after winters of 32 below zero.

# More Men Than Women Die in 'Dangerous Age' of 25 to 34

## Arresting Idea

Evidently deciding that she'd do all right in a pinch, Los Angeles cops named screen actress Lynn Merrick, above, as honorary police chief for their annual police show.

## Leaves From a Correspondent's Life Notebook

BERLIN—The girl and the doughnuts met at the bar.

She had been to this American club only a few times, and she felt faint and strange as she handed her coat to the cloakroom attendant. She brushed her chestnut blonde hair slowly in the mirror to regain her assurance.

Then she walked across the brightly lit small dance floor and into the bar.

"Hello, Irma," called an officer playing darts at one end of the room.

"Hello," she said nervously, and by the slight accent she gave the word she told her nationality.

"Where you been keeping yourself?" asked the man by the dartboard.

"I just finished working," she said. His friendliness warmed her. She moved with more confidence to the bar.

"The captain will be downstairs in a few minutes," he told her in English. Involuntarily she looked at the stairs leading to the second floor dining room. They were the frontier of fraternization—the frontier between friendship and food. Irma waited.

The bartender set a plate of sugary doughnuts on the bar beside the girl. Their sweet warm smell drifted through the smoke and smell of brandy and beer and gin. Her eyes turned slowly to the doughnuts. She looked quickly away and moved off a few inches. The smell caught up with her and turned her unwilling eyes again.

The heavy fragrance made her feel strangely weak. She gulped her drink down.

The dart player had been watching her. He walked over and ordered a drink for her and himself. He picked up a doughnut casually as he talked, broke it in half, put one piece in his mouth and held the other out to the girl.

"I don't care for them," she said faintly.

"Oh, come on, Irma, keep me company," he said.

She took it then and nibbled on it so slowly that she was certain nobody knew how good it tasted to her. She even left a small bit on the bar to make sure.

The captain joined them. The small band began to play. Every few dances the dart player would cut in on the captain. Each time after a few steps he would lead her back to the bar and say, "Oh, let's have a drink."

And each time he would casually break a doughnut in half, and they would laugh and share it.

By midnight Irma was completely happy. She felt secure in the music and gaiety. The drinks had helped her forget her worn dress looked shabby compared to the neat uniforms of the American girls. And the soft lights helped. And the doughnuts.

As Irma and the captain started to leave, the dart player saw half a dozen doughnuts were left on the plate. He grabbed a newspaper and wrapped them up.

"Why don't you take these home to your mother, Irma?" he said. "She likes doughnuts, doesn't she?"

She looked in his eyes and saw the friendliness.

"She loves them," Irma smiled, taking the package. And then, just as there was a lull at the bar, the captain said:

"Why Irma, I thought you told me your mother was killed in one of the bombings."

"Shut up, you dope," said the dart player.

The captain's face flushed with sudden understanding, and he quickly took the girl's hand under his arm. Irma's head was high as they

The "dangerous age" from the standpoint of man's everyday habits may not arrive until after the forty mark has been passed, but so far as driving a car is concerned, man takes his greatest chances between the ages of 25 and 34.

According to the annual computation of accident figures by the National Safety Council, humans between the ages of 25 and 34 were involved in a greater number of traffic deaths during 1944 than any other age group. There were 3,558 traffic deaths in that group, of which only 20 per cent (approximately) involved women. Only 2,310 persons between the ages of 20 to 24 were killed while those between the ages of 15 and 19 fared slightly better with only 2,212 deaths.

Of course, it may be argued that more men have cars to drive when they reach 25 than do the younger age groups, but what of the older groups—the 45 to 54 age group, for example? That group only killed 3,057 of their number. Perhaps men begin to get more conservative in their driving habits by that time.

The record of 1945 traffic accidents indicates an increase in all phases of the problem. From V-J Day until the end of 1945, traffic deaths rose 36 per cent throughout the country while during the first seven months the increase was only one per cent. The year as a whole averaged 17 per cent more traffic fatalities than 1944.

Traffic authorities and law enforcement officials throughout the nation are alarmed at the traffic prospects for the immediate future. If a record such as 1944's can be suffered during a period of restricted war time driving, what will be the death toll when new cars flood the market and normal travel volumes are restored, they ask? The problem is one that should have the whole nation thinking. If an epidemic took such a widespread toll of human lives, there would be prompt and effective action demanded by the public.

As a matter of fact, numerous organization have been giving the problem more than ordinary serious study. The Street and Traffic Safety Lighting Bureau, for example, has conducted numerous surveys to determine why two out of every three traffic deaths in the nation occur at night. They believe they have found one answer.

An analysis of night traffic deaths reveals, for one thing, that the bulk of these accidents occur on streets and highways that are not adequately illuminated to accommodate today's traffic volume and a normal amount of night pedestrian activity.

In numerous instances, it has been found to be physically impossible for a night motorist to see pedestrians on the highway in time to avoid striking them, and in most instances, killing them. For instance, it takes 111 feet to stop a car going only 20 miles per hour, taking into consideration the fact that a car goes 59 feet before the driver sees the hazard, 22 feet while he is reacting, 21 feet while the car is slowing down and 9 feet to stop—if the brakes are in good condition.

## Texas Today

By JACK RUTLEDGE  
AP Staff Writer

Fighting Texas bogged headlines during the war, and today writing Texans are taking over, keeping Texas in the news.

An amazing number of top books are being written these days by authors from the Lone Star State.

There are so many writers, in fact, that some cities boast two or three. In Brownsville, one family alone produced two—the brothers Plenn. They are Abel Plenn and P. H. Plenn.

Abel, the younger brother, has just written his first book, called "Wind in the Olive Trees." It's about Spain under Franco, and it is receiving excellent reviews. He is now working on his second book.

The older brother, Hy Plenn, has written "Mexico Marches" (1939) and "Saddle in the Sky" (1941). His book on Mexico was listed in the library of congress as one of the 30 authoritative works on Mexico, and a famed reviewer listed it among the top seven on the southern republic.

During the war he was assistant director of the entire news division of the office of co-ordinator of inter-American affairs, with offices in New York.

When the war ended, he decided to quit and take off six months to think things over. The six months are up and he's thought them over—he's back at work, on a new book.

Abel went to Mexico after completing high school in Brownsville, studied, wrote for the stage, and once inaugurated visual education programs used by the Mexican government. He is a close friend of Diego Rivera, the famed Mexican mural painter.

He helped set up the monitoring and editorial functions of the foreign broadcast intelligence service for the federal communications service in 1941. After Pearl Harbor, he became chief of propaganda analysis for the office of inter-American affairs. And he left this post in 1944 to accept an assignment with the government's office of war information in Franco Spain.

That's where he gathered material for his "Wind in the Olive Trees," which the New Yorker has called "one of the most thoughtful and interesting books to come out of Spain in some time."

Sarsaparilla is extracted from the fibrous roots of a plant found principally in Central America.

It moved off towards the cloakroom, but her eyes flooded bright and you could hear the paper crinkle as her clenched fingers bit into the package player.

The captain's face flushed with sudden understanding, and he quickly took the girl's hand under his arm. Irma's head was high as they

### Organized Naval Reserve Setting Up New Program

NEW ORLEANS—The organized naval reserve is now setting up its recruiting program, Captain A. Agerton, USN, director of naval reserve for the Eighth naval district, announced.

While navy recruiting activities now in operation will be of some assistance in reserve manpower pro-

urement, most men will be enlisted through agencies directed by local battalion and division officers appointed by the commandant, Eighth naval district, Captain Agerton said.

Until the termination of selective service or a change in present legislation, only ex-navy men will be eligible for membership in naval reserve activities. However, young men may, before induction, participate in weekly drills of the organized units as a volunteer, non-member basis.

Maintenance of large ships, patrol craft, and other vessels for use in train-organized reservists will require a number of "shipkeepers" for routine up-keep during idle periods. Captain Agerton stated that men for these duties will be drawn from the ranks of fleet reservists until July 1, 1946, and after that date from members of reserve divisions who request such duty on a full-time active duty basis.

Age limits for navy newcomers will be 17 to 35. Ex-navy men may enter if they are between the ages

of 17 and 35 plus the number of years they have served on active duty with the navy. Maximum age limit for all personnel below the rank of commander is 50½ years. Men shipping into the organized reserve will retain their rates held at time of discharge and will be promoted similarly to men on active duty.

### 'Look' Comments On Education Cost

Texas' expenditure for education in terms of cost per pupil is 19 percent below the U. S. average which is itself inadequate according to an article titled "The Failure of American Education" by Harlan Logan, editor of Look, in the issue released nationally on May 14. Politically minded state legislatures favor vote-getting pork barrel legislation over sorely needed appropriations for education, despite the fact that American schools are riddled with weaknesses which invite future national disaster. No less than 200,000 teachers in the nation gave up their jobs during the war because ridiculously low school salaries could not compete with better paying fields.

"Education's plant personnel and product are totally inadequate" states Look. Boys and girls coming out of high school and college are not fitted to cope with the problems against which they are flung. They do not understand themselves or the people with whom they are to live and work. In most schools the subject of human behavior is treated as gingerbread, and not as the foundation on which other knowledge must stand.

### FALSE TEETH

**That Loosen Need Not Embarrass**  
Many wearers of false teeth have suffered real embarrassment because their false teeth dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just apply a little FASTEREETH, the alkaline (non-acid) powder on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEREETH at any drug store.

### Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe your own. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose

bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloot disappears—how much better you feel. More alive, youthful appearing and active.

### Reinstatement of GI Insurance Is Offered Veterans

The contact service of the Veterans administration today was seeking every veteran who has let his G. I. insurance lapse to offer reinstatement without a medical examination.

Robert W. Sisson, Lubbock Veterans administration regional manager, said success of the campaign would result in invaluable service to thousands of veterans.

Ex-GIs can now reinstate policies without a medical examination, regardless of how long they have been out of the service, provided their health has grown no worse during the lapsed period, Sisson said.

"This liberalization is only effective until January 1, 1947," he pointed out. "Time is running out for many of these veterans and we must use every means to inform them of this priceless opportunity."

"Its importance cannot be over-emphasized. It will not only be simpler to reinstate policies, but many veterans are now able to reinstate who would not be able to pass a rigid physical examination."

"These uninsurable veterans may never again have the opportunity to provide adequate life insurance protection for their present and future dependents."

Term insurance carried on service people during the war can be reinstated by payment of only two monthly premiums. Veterans can reinstate all or a part of the government policy.

Sisson urged veterans to see their local VA representatives immediately. Local veterans service organizations, the county service officer of the Red Cross can also supply information about insurance reinstatement.
