## Eight Texans Are DEVIL'S LAUGHTER By Alice M. Laverick Copyright, 1946, NEA SERVICE, INC.

THE STORY: I. Cecella Hart, was only 17 when I came to Innisfall that eventful summer to help out Cousin Ellen, who was the Fitzgeralds' housekeeper. Lovely Charlotte Brent captured my heart immediately but autocratic old Honora Fitzgerald, who ruled the household from a sick bed, frightened me. I was terribly homesick until Professor Mark told me I could rend any of his books that I wantad. Then Colin Fitzgerald came home and everything paled to the rend she at the rend. came home and everything paled beside his magnetic charm.

WHILE I was standing there at the foot of the stairs, still glowing over Colin's sweetness to old mother, Mark and Miss Charlotte came, bringing Father Burke with them. They were all quite wet and Father Burke, being momentarily blinded by his rainsplashed glasses, nearly fell over Colin's bags there in the hall. He seemed to think this quite amusing, but Mark's eyes, fixed on the bags, were not amused. Indeed, was an edge on his voice as he said, "So the prodigal has returned once more."

#### KREMLI AND TITO SOUND OFF

Pravda, the Moscow newspaper, never misses a bet to follow up on the old communist line of lambasting the American press at every chance. Yesterday, the paper charged that the American press "as if under a leader's baton, raised a frenzied campaign against Yugoslavia" (over the shooting down of two American transport

This is one of all the Russian newspapers decidedly "directed" from the Kremlin, and the Russians say they are democratic.

It seems to us that if the American press stood in unison to condemn the murder of Americans, it is more surely an act of condemnation. In the American press condemnation there seemed to be unity of decision.

Moreover, it seems to us that Yugoslavia is certainly following the communist line. She must be, when we consider that Mescow falls right in with the Tito boys in screaming at the "Anglo-Saxons."

If we did not know better, we would think these screams were coming from a man named Molotov at the Paris peace conference. From where we stand, Russia and Tito are one-all of the same color-and from the same bed.

The Republic of Ecuador is offering an unparalleled opportunity to that increasingly numerous group in the United States whose members are disatisfied with conditions in this country and at the same time believe the world owes them a living. The Ecuadorean department of public lands has set aside 125,000 acres of rich and potentially productive land for the settlement of North American and British settlers. And it's all for free. The disgruntled, the disatisfied, the whole kit and kaboodle of those who want to make the country over in the image of some other can acquire approximately, 124 acres each with the compliments of Ecuador. Actually the army doesn't want o draft anyone. Recruits, enough of them for an all-volunteer army are the military real goal in the way of personnel.
