

MURDER SUSPECT SEEN AS 'SENGALI'—The staring eyes of George (Bud) Gollum may have so hypnotized stolid, apathetic Beulah Louise Overell that she still remains under his Svengali-like domination, say Santa Ana, Calif., authorities. The pre-medical student and his 17-year-old sweetheart are held in the alleged time bomb yacht explosion murder of the girl's parents. Examining physicians report her in a hypnotic monomaniac condition, apparently induced by Gollum prior to the tragedy.

## Lewis Is Satisfied With Coal Situation

WASHINGTON—P—John L. Lewis today expressed "gratification" that coal production yesterday was "substantial" and instructed miners to resume work as fast as each mine is certified as safe.

Lewis, president of the AFL United Mine Workers, made public a telegram he sent to each district president of the union. It said: "This office expresses gratification that production yesterday for reexamination and re-certified mines and strip pits were substantial.

"I confirm policy of immediate resumption of production of each mine as fast as it is certified by federal mine inspectors as being in conformity with federal mine safety code.

## Council Delegates Seek Instructions On Red Proposal

LAKE SUCCESS, N. Y. —(P)—Delegates to the Security Council hurriedly cabled their governments for instructions today on Russia's surprise proposal which would give the United Nations the right to supervise American aid to Greece.

Soviet Delegate Andrei A. Gromyko had the proposal before the Council last night after he had vigorously attacked what he called the "unilateral" action of the United States and declared that President Truman's program to aid Greece and Turkey constituted interference in the internal affairs of those countries.

Although the Soviet resolution, calling for creating of a special Security Council Commission to supervise aid to Greece, did not mention the U. S. program specifically, it was pointed out by some delegates that this was the only aid in sight at present.

The first reaction to the Soviet proposal was that the kind of supervision it envisaged would definitely rule out the use of the American funds for any military purposes. Since this was one of the primary aims set forth in the U. S. program, there appeared to be little likelihood that the United States could accept it.

Russia's resolution will be taken up Thursday (9:30 a. m. CST) when the Council resumes discussion of the Greek question. At the same time the Council will consider a United States resolution proposing that the U. N. Balkan Investigating Commission keep representatives in Northern Greece while the Commission's report is being drafted in Geneva.

## 18th Charter Is Presented Troop

The 18th charter banquet of Troop 80, Boy Scouts, was held last night at the First Methodist Church at 7:30.

The presentation of the charter and investiture ceremonies for new scouts were features of the program. Presentation of the charter, which is awarded annually after the completion of a successful year of scouting, was made by W. B. Weathered, president of the Adobe-Walls Council.

New scouts were inducted into the troop by Scoutmaster Claude Gallman. The scouts were Lanny Carlton, Joe Wayne Key, and Billy Rex Campbell.

Certificates of registration for the new year were presented to the scouts by C. W. Andrews, and certificates of registration were presented to the troop committee by Hugo Olsen, scout executive for the council.

The guests were introduced by Scoutmaster Gallman. Guests included the scouts and their parents; the committeemen and their wives. The troop is sponsored by the First Methodist Church.

**THE WEATHER**  
U. S. WEATHER BUREAU  
PAMPA AND VICINITY — Cloudy and cooler this afternoon and tonight in Fannin and South Plains, and from Pecos Valley eastward. Wednesday partly cloudy and warmer in Fannin and South Plains. WEST TEXAS—Partly cloudy, cooler in Fannin and South Plains and from the Pecos Valley eastward this afternoon; cooler tonight; Wednesday partly cloudy, warmer in Fannin and South Plains. EAST TEXAS—Mostly cloudy, scattered showers in the east and south tonight and near the coast Wednesday. Cooler in the interior tonight. Moderate to fresh southeast to south winds; cooler, becoming variable early Wednesday. Bear front and alignment, complete brake service. Pampa Safety Lane, 511 S. Cuyler, Phone 101.

# Long Line Service Settlement Is Sought

## Conciliator Sees Hope for Truce Today

By The Associated Press  
A federal conciliator declared the government was "hopeful" of a settlement today in the long distance phase of the nation-wide phone strike as the American public adjusted itself to sharply curtailed telephone service.

Federal Conciliator Peter G. Manno told newsmen as negotiations were resumed in Washington between spokesmen for the American Union of Telephone Workers representing long distance employees and the American Telephone and Telegraph Company's long lines division:

"We are hopeful that a settlement will be effective in the long line today."

Manno emphasized that settlement of long lines disputes would not end the entire walkout of 294,000 telephone workers. Long distance service has hit telephone users hardest in the two-day old strike.

Meanwhile, two new breaks in ranks of striking Upstate New York telephone employees developed today as Schenectady members of the Empire State Telephone Union returned to work and the Union's Binghamton Council refused to participate.

The development followed action yesterday by members of the Albany Council who had refused to join the walkout and by the Jamestown Federation of Telephone Workers who accepted a company offer of a nine percent wage increase locally and returned to their jobs.

Calls between dial telephones continued without interruption, but calls over manual phones, or traveling the long distance lines of the American Telephone and Telegraph Co., parent organization of the Bell System, generally were limited to See PHONE STRIKE, Page 8

## Limited Service Offered Here by 'Phone Operators

With the assistance of four non-union operators, the local telephone exchange was able to give a limited amount of service other than strictly sickness, death or fire from 9 p. m. yesterday until 8 this morning.

The Supreme Court, upholding the contempt finding, ordered reduction of the fine if Lewis and the UMW complied with the court order.

At Thursday's hearing, the Government will have opportunity to ask the court to apply the full fine if the administration takes the position that present work stoppages are a violation of the order. The Justice Department has made no statement of its position on that question. Its decision may depend on the percentage of miners at work at the time.

In the event the full fine was asked, Lewis telegram today might become evidence to support a UMW contention that the current shut-downs are not a strike but only a staged effort to force unsafe mines. Government officials were saying nothing on the situation.

## First Aid Course Begins Wed. PM

C. W. Andrews, since 1934 safety instructor for Magnolia Petroleum Company, will begin an eight-hour course in first aid at the Clegg Funeral Home, at Cuyler and Browning, tomorrow night beginning at 8 o'clock. It was announced this morning.

## \$335,000 Loan Is Slated in Texas

WASHINGTON—(AP)—The Rural Electrification Administration today announced it had approved a \$335,000 loan to the Comanche County Electric Cooperative for extension lines in Comanche, Brown and Eastland Counties in Texas.

## Teacher - Pay Bills Go to Jester for Signature

AUSTIN—(P)—The question of whether to raise teachers' pay by the \$55 per capita, \$2,000 minimum salary Legislative route was before Gov. Beauford H. Jester today.

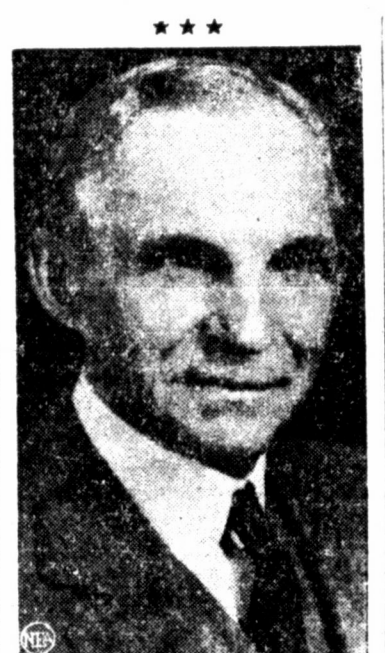

Bills providing for payment to all schools of \$55 for each student listed in the scholastic census and establishment of a \$2,000 minimum salary schedule were sent to the Governor's desk yesterday when the House unanimously adopted Senate amendments to the measures originally introduced by Rep. Dallas Blankenship of Dallas.

The Senate passed and sent to the House one of the most controversial measures of the present and previous sessions—the so-called Fair Trade Practitioners Act. The vote on final Senate passage was 19 to 7.

## Assembly Lines of Ford Motor Will Halt on Thursday

DETROIT—(P)—Assembly lines in the great Ford Motor Co. plants rolled on as usual today, despite the death last night of the company founder, but they will be still on Thursday when funeral services will be held from St. Paul's Episcopal Cathedral in Detroit.

## Jester Will Air His Decision on Open Shop Bill

AUSTIN—(P)—Gov. Beauford H. Jester's office today confirmed that he would go on the air at 6:45 p. m. to tell the people whether he will sign or veto the Open Shop Bill.

The President of the Senate in a formal release to the Capitol press room more than 10 hours after it was broadcast over radio station WOAI at San Antonio last night.

The announcement from William McGee, Jester's executive secretary, indicated that the Governor has not yet made up his mind whether to sign, veto or simply file without signing, the bill by Rep. Marshall O. McGill said the Governor would be in seclusion today completing his study of the bill which provides that no person shall be denied employ-

ment because of membership or non-membership in a labor union.

The measure, passed by both the House and Senate of the 59th Legislature, was attacked by labor forces as one designed to destroy union labor and take away the right to collective bargaining.

Proponents of the measure have called it a "right-to-work" measure intended to protect Texas workmen from domination by Northern and Eastern labor leaders.

Jester has advocated middle-of-the-road legislation and yesterday said he would send the Legislature a message soon making recommendations along the line of suggestions made recently by the State Industrial Commission. The commission was appointed to study the Odessa telephone work stoppage.

Predictions have been freely made here that Jester would sign the Bill, or perhaps let it become law without his signature.

## Local Bootmaker Is Found Beaten

Police last night and today were looking for the thugs who beat and robbed Joe Gonzales, bootmaker for a local shoe shop.

Gonzales was found lying semi-conscious in the gutter in front of the Empire Cafe on 115 S. Cuyler St., covered with blood from a split lip.

He was taken to Worley Hospital where attendants said that he could never had been "beaten like that from a fall." He was released after treatment.

An examination of the man's identifications and wallet revealed that it contained only his cards and other papers. The money was gone.

Gonzales, in a semi-daze was unable to tell police, or a reporter, who had beaten and robbed him. Police further believed he had been taken outside the city limits, beaten and robbed, then brought back to town and dumped out where he was found by passersby who immediately notified police.

Shortly afterwards another call came over the radio that a burglar was attempting to get into a house on E. French St., but when police arrived he had already made his "getaway" without any loot.

See the new home freezing lockers at Lewis Hardware Co. Seat covers to fit any car. Lloyd's Magnolia Service Station.

## Strike at a Glance

By The Associated Press  
Nearly 300,000 employees of Bell Telephone System are on strike from coast to coast. They are members of the National Federation of Telephone Workers (Independent), affiliates and some independents.

A \$12 weekly pay boost generally tops their demands. Maintenance workers are asking as high as \$21 weekly. The government says salaries now average \$43.19 weekly.

Other nation-wide demands include the union shop; narrower pay differentials between rates for the same type job; faster advancement to top pay grades (five instead of eight); closer definition of supervisors' duties; four week vacations after 20-year service; \$100 minimum monthly pension for retired workers.

Of the nation's 31,600,000 telephones, 19,700,000 are dial operated and so far unaffected.

## Price Situation Seen Serious by Economic Advisor

WASHINGTON—(P)—Dr. Edwin G. Nourse, chairman of the President's Economic Advisory Council, said today that the price situation is serious.

Leaving the White House after a conference with President Truman, Nourse told reporters he was "frankly worried" over the inability to bring prices down generally and the resulting pressure culminating in increased wage demands.

Mr. Truman, after receiving the report from his advisory council called a special meeting of the Cabinet for tomorrow to discuss the price situation in detail.

The council has been making a continuous survey of prices. Asked if he was "frankly worried" about the price situation, Nourse said:

"Yes, I am. I think every citizen is, particularly the economists. We have to regard it as serious."

Mr. Truman, who has repeatedly expressed concern over rising costs, declared in a speech Saturday night that he hoped industry would not go "whole hog for profits."

Other members of the council accompanied Nourse to see Mr. Truman last night. Presidential Press Secretary Charles G. Ross said the council would submit a report to the Cabinet meeting.

Party leaders at their Jefferson Day dinner Saturday night that unless prices are held down an inflationary spiral will result. He said this might price industry out of its markets and lead to widespread unemployment.

Ross disclosed plans for the special Cabinet meeting at his morning news conference.

He said it will be a "special meeting" to hear an economic statement from Nourse relating to prices.

It will not be a formal report. Ross said but rather a statement for the information of the Cabinet and discussion.

"You might call it a seminar," he added.

Ross, under further questioning, emphasized that the meeting will not be concerned with either the nationwide telephone strike or the safety walk-out in the coal mines.

## Rayon Industry Slated for Japan

TOKYO—(P)—Allied headquarters today authorized the Japanese government to permit rebuilding of the rayon industry to an annual capacity of 150,000 metric tons. The industry now is capable of producing 18,000 metric tons of filament rayon and 58,700 metric tons of rayon staple yearly.

The Pampa Chapter of the Veterans of Foreign War will have a hot dog supper tonight at the Legion-VFW hall at 8:00.

All veterans are invited.

## Emergency Bill On Stoppages Fails to Pass

WASHINGTON—(P)—Emergency legislation designed to halt the telephone strike by injunction collided with stiff opposition in Congress today as House Republicans angled for President Truman's views on resorting to court action.

Senate Labor Committee members who plan to vote for injunctions against serious strikes as a long range policy balked at a bill by Rep. Hardley (R-NJ), which would authorize a quick court order to smash the phone tie-up.

Senator Pepper (D-Fla.), another committee member, flatly opposed injunctions under any circumstances in a labor dispute. He told a reporter the phone workers "probably are entitled to most of their demands" and that the strike "may be the only way they ever will get relief from intolerable working conditions and pitifully inadequate pay."

The feeler for Mr. Truman's views on the Hartley bill approved by the House Labor Committee came from Rep. Halleck (Ind.), the Republican floor leader.

"Declaring the measure is 'designed to deal with this situation,' Halleck said in an interview: "So far as I know, there has been no expression from the President on this bill. Of course, the Republican Congress stands ready to See EMERGENCY BILL, Page 8

Meanwhile, under such circumstances as at the present instance, Greek would sink into the Communist orbit and the fateful chain reaction would set in both east and west.

Leading off the debate which may continue for a week or more, Vandenberg assured the Senate that:

"There is no new 'doctrine'—in such as the Monroe Doctrine—in See GREEK AID, Page 8

## Big Four Turn To Question of German Frontiers

MOSCOW—(P)—Soviet Foreign Minister V. M. Molotov agreed under western pressure tonight to halt the long discussions of Big Four disagreements over the current German problems and to turn to other matters—the next being the question of German frontiers.

MOSCOW—(P)—American sources said today that unless the Russians ceased what the Americans called obstructionist tactics in the Foreign Ministers' Council the whole conference could end very soon.

These informants said a showdown was taking shape within the four-power Council between Soviet Foreign Minister V. M. Molotov and the ministers of the Western powers.

The basic issue is whether the four powers must continue long discussions on current German problems which have proved fruitless, or whether they can go on to frontiers and other matters, with the possibility of eventual agreement on the Austrian treaty.

An American official said the German subject had been talked out and that all views were known. He said nothing new could be said. And that if the Russians were unwilling to go on with other matters, the conference might as well end.

The Russian proposal to permit Germany to choose by plebiscite the form of her future government was regarded by Western diplomats as an effort to offset the effect upon the German people of the insistent Soviet demands for \$10,000,000,000 in reparations.

These demands, thus far blocked by U. S. Secretary of State Marshall, British Foreign Secretary Ernest Bevin and French Foreign Minister Georges Bidault, have created a problem for Russia in German politics. This was regarded by some delegates as the underlying cause for the plebiscite proposal, rejected by the Western powers last night.

The Deputy Foreign Ministers considering the Austrian settlement wound up their work on the treaty today and agreed to British and American suggestions for final adjournment unless the Foreign Ministers themselves could make progress and call them back into session with new instructions.

The deputies' final discussion centered on military clauses, which provide, essentially, that all occupation troops be withdrawn from Austria within 90 days after the treaty takes effect.

EVICTED BY SPRING FLOODS—A family of four is evacuated by canoe from one of the flooded homes on Chicago's South Side, where swollen waters, caused by the heaviest spring rains in a decade, inundated a wide suburban area of the city.

Gracie Reports

By GRACIE ALLEN Well, I see the Senate is holding hearings with the idea of eventually putting the Indians on the same footing as the white men and an Oregon Indian appeared to oppose this.

He said a lot of Indians don't know how to work, because they have been dependent up on the Government. Goodness! I didn't know we had so many Indians in the public employment, including Congress.

Personally, I think only a very silly Indian would want to go on the same basis as the white now. I haven't heard anything about a teepee shortage, and the Government hasn't been collecting any wampum from them on March fifteenth.

And think of all those Indians who earn a good living appearing in western pictures! All they have to do now is stand around and say "Ugh!" But if they go on the same basis as whites they'll have to learn to play a guitar and sing "Git Along, Little Dogie."

der selling stimulated by the opinion of the President and the fact that industrialists and economists that prices were generally too high. Higher estimates of probable income and reduced outbursts of labor troubles were steady, \$1.00 to \$1.50 a bale lower.

TIPS FOR TEENS

BY ELINOR WILLIAMS
You, of course, are a smooth high schooler who knows what to do in good manners and date things. But here are the answers to problems of Padded Polly and Woodrow Wilson.

ASTHMA

**Palmitier, Sons Remodeling Job Is Completed**

Palmitier and Sons of 517 South Cuyler, have just completely remodeled the front of their shop, and have expanded their facilities to better take care of the oil field work.

The Palmitier shop is one of the top engine repair services in this part of the country. They specialize in drilling and pumping engines, but industrial engines of any make will receive top service.

The shop, owned and operated by Frank Palmitier and his son Dewey, has another service, which, in itself, is unique. The firm will repair any engine in the field, or if that is not feasible, pick it up, repair it in the shop, then return to the location where it was repaired. This is a service that saves a lot of valuable time. Facilities are available for every requirement in this line of work.

Frank "Pop" Palmitier was for twelve years, mechanical superintendent for a large refinery. He opened his present business in January of 1945. Dewey Palmitier was a machinist before the war, and joined his father upon discharge from the service.

"Pop" and Dewey will be glad to give you information on the repair of all types of industrial engines. Just call 1785 or stop in at their shop at 517 South Cuyler.

**Up-to-Date Radiator Shop on Foster St.**

The Eagle Radiator Shop of 516 West Foster, has specialized in radiator repair work in this vicinity for twenty years. And, in this twenty years of service to Pampa, W. A. York, owner of the shop has always kept his shop and equipment modern, and his staff of radiator mechanics well trained and up to date with their work.

The shop is fully equipped to give the best work on all models of cars, trucks, tractors and industrial units. For pickup service, telephone 547.

Get those worn, thin tires built up at the PAMPA SAFETY LANE before a deadly blowout lands you or one of your family in the hospital. The safety lane at 411 South Cuyler is completely equipped to expertly retread your tires.

**FRONT VIEW OF NEWTON SERVICE STATION**

**Well-Known Atlas Tire Being Offered**

The C. V. Newton Service Station, 623 S. Cuyler, which is pictured above, is now offering to its customers a large stock of the well-known Atlas tires and tubes, a product that is backed by the Standard Oil Company. The Atlas is a reasonably priced, high quality tire. Owned by C. V. Newton and his son "Randy," the station features Standard Gasoline, your favorite brands of motor oils and greases, wash and lubrication jobs, Firestone tires and batteries and a complete line of auto accessories. The Newtons, with the aid of two employees, operate their own business personally, and offer dependable, courteous and prompt service at all times.

The Newtons, who have been in business at this location, nearly a year now, use as their motto, "If We Don't Have It, We'll Get It," and so far, they have been able to satisfy most of their customers' needs. They also make a policy of using the correct lubricants for the proper motor or car parts.

They are also well pleased with their battery charging equipment. They have both the quick and slow charging machine, rental batteries, and a complete stock of new batteries.

THE McWILLIAMS MOTOR COMPANY has a staff of skilled mechanics ready to repair you, car on short notice. The company is equipped to handle all types of tire repair. For quick service call 1562 or drive by their garage located at 411 South Cuyler.

THE PAMPA MUSIC STORE offers a complete stock of all types of musical instruments and appliances. The store also has a wide variety of the latest popular recordings. For economically priced items in the music line drop by the Pampa Music Store, located at 214 North Cuyler.

Now that things have eased up a bit, let's get those plumbing fixtures and do the job right. Of course, in such case, get in touch with PAMPA SUPPLY CO., 216 N. Cuyler St. H. D. Keys and Neil Garrett, owners, would also take care of your needs if you are remodeling the home or the business.

**24-Hour Service On Tire Repairs Is Now Available**

The Central Tire Works of 407 West Foster has announced that it is now featuring twenty-four hour service on the retread and repair of tractor tires. This is a service which should prove of great value to the farmers of the surrounding area.

The Central Tire Works, owned and operated by Wardie Maddox and his son Vernon is completely equipped with new modern equipment and can offer you high quality vulcanizing, recapping and repair on all types of tires. The shop carries a large stock of used tires, new inner tubes, "Stop-A-Leak," and new batteries.

Mr. Maddox has been in the tire business for twenty-eight years, of which the last seven has been in Pampa. Along with the tire repair, the Central Tire Works also does high quality work balancing wheels and charging batteries. The shop also carries relines, and chloride for use in tractor tires.

If it's a record player that you are looking for go to the PAMPA MUSIC STORE which is located at 214 North Cuyler street. They feature a wide selection of nationally known, high quality, economically priced electric and hand winding record players.

THE EAGLE RADIATOR SHOP, located at 516 West Foster, will repair your car, truck or tractor radiator at an economical price.

THE SERVICE PACKAGE STORE has the most complete stock of whiskeys, liquors and wines in the entire Panhandle. If its a beverage you want go to their new modern store, located at 523 West Foster.

For the same good Gulf service as always, see ERNIE WALTON at WALTON'S GULF STATION, located at 422 West Foster St. In the service station business, it's service that counts, as well as quality of merchandise bought. Drive around today, and if you've got a flat, just call Phone 91.

**'If It's Hard to Get, Then Go to Skinners'**

"If It's Hard to Get, Go To Skinners." That phrase has become very familiar since 1941, when Mr. L. F. Skinner started his garage at 703 W. Foster.

The garage has always made it a point to obtain automobile parts and equipment that cannot be obtained elsewhere.

Mr. Skinner, aided by four employees, does a very good job on radiator repair and general overhauls, and the garage is equipped with a complete line of parts, including radiators.

THE PALMITIER AND SON ENGINE REPAIR SERVICE is fully equipped to go out in the field and repair your engine unless it is an unusually tough job. If repair in the field is not possible this firm will move the engine to their shop, repair it in record time and return it to you.

The shop is located at 517 South Cuyler. For information phone 1785.

## Panhandle Panthers Set to Defend District 2A Track Title Saturday

WHITE DEER—(Special)—The speedy Panhandle Panthers will be defending their title as district champions when 9 teams clash on the White Deer cinders next Saturday in the annual District 2A track meet. Teams competing will be White Deer, Panhandle, Perryton, Canadian, Phillips, Wellington, Shamrock, Lefors and McLean.

### Sports Round-Up

By HUGH FULLERTON, JR.  
NEW YORK—(AP)—Lefors isn't much fun in blasting the U. S. Lawn Tennis Association, since that August organization already has been on the receiving end of more verbal punches than even Happy Chandler. . . . But it does seem strange that USLTA is reported ready to declare Pauline Betz ineligible for doing no more than thinking about turning professional—and for failing to provide an immediate answer to cables "charges" that she has such a move in mind. . . . In off-the-record conversations, association officials will admit freely that their main objection to pro tennis is that it might ruin the gate receipts for the amateur championships. . . . But so far no one has seen them declaring, for instance, that the West Side Tennis Club is invading because it allows a pro tournament to be held in the Forest Hills Stadium and Schuyler Van Bloem, one of the club's big-wigs, is actively associated with the pro game. . . . During the work-ways Miss Betz probably was the best gate attraction at the amateur championships, so why not give her a chance, at least, to make up her mind?

### SHORTS AND SHELLS

Dr. Carey Middlecott, the golfing expert, explains that one reason for turning pro when he did was that if he played on the Walker Cup Team there'd be pressure on him to wait until the National Amateur, then there'd be more pressure because next year's amateur is to be played in Memphis, Tenn., his home town. . . . Bernie Mayer, New York U. shot-putter, has been losing the 16-pound ball around 43 feet with his left hand and 50 with his right. Coach Emil von Eilling figures Bernie could break the both-hands record if someone would put on the event for him.

In a recent meet at Panhandle Lefors nosed out Panhandle by one point, so it looks as if there might be some stiff competition in the coming district events. Many of the old records are also expected to be broken. During recent meets in which the teams of the district were entered, the 100-yard dash, the 200-yard dash, the 200-yard low hurdles, the broad jump, and the high jump records have been broken.

**DISTRICT RECORDS**  
130-yard high hurdles, Hopkins, 1944, Canadian, 15:3.  
100-yard dash, Anderson, 1945, Shamrock, 10:4.  
440-yard dash, Sterling, 1946, Panhandle, 5:36.  
300-yard low hurdles, Franklin, 1946, Panhandle, 2:4.  
440-yard relay, Wheeler, 1944, 46:5.  
880-yard dash, Franklin, 1945, Panhandle, 2:10:4.  
200-yard dash, Marvel, 1945, Panhandle, 23:00.  
1 mile run, Sutton, 1944, Panhandle, 4:59:4.  
1 mile relay, Panhandle, 1945, 2:43:4.  
Pole vault, Russell, 1946, Wellington, 10:1.  
High jump, Cross, 1946, Canadian, 5' 3 3/4".  
Broad jump, Cross, 1946, Canadian, 20' 7 1/2".  
Discus, Kilman, 1945, Shamrock, 118' 6".  
Shot put, Riley, 1944, Wheeler, 42' 7".

The volleyball games on Friday promise to be a worthy preliminary to the track meet on Saturday, since four of the six competing teams were the semi-finalists in the recent Amarillo invitational tourney in which 15 teams were entered. In that contest, Lakeview eliminated Phillips and Panhandle eliminated White Deer in the semi-finals, and Lakeview went on to take the title. These four, with Lefors and Perryton, will make up Friday's bracket.

Also playing on Friday will be tennis teams from White Deer, Panhandle, Perryton, Phillips and Lakeview, with entries in both boys and girls singles and doubles.

The one-act play contest will be held in Canadian Thursday night. Entries are Phillips, Canadian, Shamrock and White Deer. White Deer's entry, "The Severed Cord," won first place in the Panhandle Forensic Meet held at Goodwell, Okla., recently.

Other literary events will be held at White Deer Friday. These include: declamation—senior boys, three entries; senior girls, five entries; junior boys, one entry; junior girls, two entries; typing, five teams; shorthand, three entries, and ready writers, three entries.

## Nation's Champs Slugging It Out In Boston Garden

By BILL KING

BOSTON—(AP)—Each of the eight divisional championships in the National A.C. Boxing Tournament appeared wide open today as the star-studded survivors of the opening 10 hours of punch-trading primed themselves for another such lengthy program at the Boston Garden.

Only one of the 1946 victors returned to defend his laurels and he—Leo Kelly of Pittsburgh—was eliminated by Robert Bell, rugged Youngstown, O., 126-pounder, after his initial testing.

Most of the other favorites, however, sailed through their opening engagements with flying colors. The clever Johnny Gonzales of Oakland, Calif., a 135-pound semi-finalist a year ago, made an impressive start in that same class by being one of 10 to turn in a pair of opening day triumphs.

Gonzales first eliminated Dick Noyah of the U. S. Marines' team from Cherry Point, N. C., and then sidelined Percy King of Toledo, O. Wallace (Buddy) Smith of Cincinnati, 1946 runner-up for the 118-pound title, stamped himself as one of the outstanding 125-pounders in the starting field of 153 by out-punching Keith Nuttall of Salt Lake City, and then out-pointing Connie Stamps of Kansas City.

Among the others to turn in two wins was Richard Kikuyania, the clever 126-pounder on the Hawaiian team, which dominated last year's tourney by winning three individual titles. He triumphed over Kenji Nienuos of St. Louis, and Russell McKimney of Indianapolis. Four of his colorful teammates also were called into action and two of them sailed through their first round engagements. 112-pounder, Chester Yasui and Bantamweight Jamini Basquez.

The blow-trading was of the bone-crushing type in the two heaviest classes. New England's heavyweight Joe Brown of Abington, Mass., appeared hopelessly beaten by Robert Yarborough of Rome, N. Y., until he floored the latter for good with a sudden two-fisted barrage to the head in the second round.

Smoke from burning poison ivy can carry enough poison to be harmful.

## Larry Berra Banging Ball For Yankees

By BILL KING

BALTIMORE—(AP)—Stocky Larry (Yogi) Berra, the most successful bad ball hitter since Duke Joe Medwick's heyday with the St. Louis Cardinals, is walloping the tar out of opposition pitchers as the New York Yankees trend their way home.

Berra, who put together a 14-game batting streak before the Yanks broke camp at St. Petersburg, Fla., has driven home 11 runs in his last 12 official games. In his initial testing, he hit, including three homers.

The 185-pound five-foot eight-inch native of St. Louis started his present batting rampage against the Norfolk Tars as the Yankees clubbed out five hits including two homers and batted in five runs.

Yesterday, the 21-year-old socker drove in six runs by banging out a homer, double and single against the Norfolk Tars as the Yankees trounced their Piedmont League farm hands, 19-5.

The new Bronx bomber currently is holding down right field although he is a catcher by trade. However, he played 15 games in the garden with Newark last year and is rapidly learning the finer tricks of fly-chasing.

Berra, who came up from Newark in September last year and clubbed two homers while batting .364 in seven games, broke into the Yankee organization with Norfolk in 1943. The likeable youngster hit only .253 for the Tars that season but he performed one batting feat that probably is without parallel. Berra drove home 23 runs in two successive games by smashing three homers, four doubles and three singles.

The successor to Babe Ruth's territory will probably provide Manager Bucky Harris with some anxious moments with his wild swinging but his frequent long ball hitting should serve as a balm for the former boy manager's apprehensions.

Smoke from burning poison ivy can carry enough poison to be harmful.

Phillips' Millsaps edges Lefors' Jordan by a few inches in a grueling 440-yard dash at the White Deer Invitational Track Meet, Thursday.

## Oklahoma Indians Will Build Club Around Nine Holdovers From '46

By JOHN CRONLEY

OKLAHOMA CITY—(AP)—Around a nucleus of nine holdovers from 1946, in his second season as Oklahoma City team manager, Roy Schalk is grooming the Indians' Texas League entry, meanwhile keeping a watchful eye on Cleveland's slated to ship six top hands to the American League Tribe is slated to ship six top hands to the Schalks prior to the start of the race. If the help from Cleveland is the right kind, the Indians could be a formidable factor in the approaching baseball derby, for which the veterans plus some new talent dug up on their own, the Warriors have made a good showing in exhibition games.

Perhaps the "find" of the club is at first base, where powerful little John Hernandez takes over. The bespectacled infielder, obtained when the regular, Elmer Sidlo, retired after last season, gives promise of playing a prominent part in the 1947 long-range hitting pace. Mosinger proved to be one of the loop's most constant homerun threats, on the basis of his early stick work. He played at Oneonta of the Canadian-American League last year.

Only other infield spot apparently jelled is at second, where little Pat Ankerman is back, fielding well and hitting the ball hard. Shortstop, a troublesome spot for several years, has Ernie Venaeque, fresh from the service, leading the race. At third is Al Rosen, good-looking youngster who belted .325 at Pittsfield, Mass., last term but several other candidates are getting good, long looks from Schalk, both at third and at short. Schalk himself has been seen infrequently in action. After the picture straightens out, the boss who played four position last season probably will appear in a utility role.

The outfield is uncertain, and most of a new picket line will be sent in by Cleveland. At present Harry Schalk, with Waterloo in 1946; Phil Evans, up from Clovis, N. M., and big Bill Anovak, a .325 slapper at Harrisburg in '46, are the ones most frequently employed, but at the most only one will remain.

Two veteran catchers are back—Ray Murray and Hoyle Boger—and one of them may not survive the Cleveland shipment which is to include two outfielders, two pitchers, an infielder and a catcher. Oklahoma City is strongest in pitching at this early stage, with five veterans back—three of them

## Missions Will Have Real Club This Season, Fournier Claims

By DICK PEEBLES

SANFORD Fla.—The St. Louis Browns, who are putting out a large chunk of dough for a new baseball park in San Antonio, seem determined to put a baseball club in the Alamo City that will be on par with the baseball plants Bill DeWitt, vice-president and general manager of the Browns, claims will be one of the outstanding minor league parks in the country.

"We're going to give San Antonio a good ball club," Jack Fournier, chief scout and bossman of the Browns' farm system, declared here the other day as he watched the Padres whip the Toledo Mudhens in an exhibition game.

And Jimmy Adair, back managing the Missions for the second year, believes he'll open the season with a much better balanced club than that which answered the ball in 1946 and surprised all the experts by moving into the first division at the outset and hanging around the top half all season.

The Missions finished in third place and were eliminated by the Dallas Rebels in the first round of the Shughnessy playoffs. The 1947 Mission appear to be set in all but two positions. They're still looking for a second baseman and a left-handed hitting outfielder. Both of these positions will likely be filled before the club breaks camp here tomorrow and heads for Beaumont and the opening game April 10.

During the winter San Antonio purchased George Archie, veteran first sacker from Los Angeles of the Pacific Coast League, and he has shown great form in spring drills. He has been hitting the ball hard 240 feet and his swinging around the bag has left nothing to be desired. He bats right-handed.

The second base job is open but Andy Anderson of the 1946 club is back at shortstop and Harry Hatch, one of the outstanding third basemen in the Texas League last season, is back holding down the hot corner.

One of the biggest improvements in the San Antonio club will be in the catching department. Marc Carrola, obtained from New Orleans of the Southern Association in a winter trade, is an excellent receiver and has clinched the first string job. Mike Sertich, young backstop who was with the Padres last year, will be Carrola's understudy. Neither has shown too much power with the bat but both are heady catchers.

Two certain fixtures in the outfield appear to be Chet Wiecek, whom the Missions purchased from Indianapolis where he hit American Association pitching for a .305 average last year, and Rube Naranjo, the San Antonio boy, who was with the Missions in 1946, have been alternating in right field. Robinson is a left-hander all the way, but doesn't seem to pack a loud enough bat as the Missions need. Robinson, with the exception of a couple of pitchers, is the only left-handed hitter on the club.

Trimming down his pitching corps is Skipper Adair's biggest worry at the present time. Al Lamachia, Ned Garver, John Marcum and Ed Cole, all right-handers, are back from last year. It's between Lamachia and Cole who will hurt the season's opener. Marcum apparently has recovered from an arm injury and has been

## RIGHT The First Time!

There is nothing more irritating than to have to bring your car back to have a service job rechecked. You don't like it and you don't like it. That is why we take particular pains to do the job right the first time. Our mechanics are trained to factory standards; we have invested many thousands of dollars in the latest post-war equipment for servicing every part of your car. We are equipped to give you fast service, and we service you with an estimate from us before you have any work done at any time on your car.

## Talented Thomas Jeffersonite Drawing Plenty of Attention

SAN ANTONIO—(AP)—It's like a coaches convention around Thomas Jefferson High School these days. Kyle Rote's reason, if there's anything in athletics he can't do and it well nobody has found it. Rote is the only high schooler ever to be an All-State selection in two sports in one year. He was tops in football and he won All-Star honors in basketball.

Now, the professional baseball scouts are ogling him avidly. He is out on the sandlots where he holds down an outfield position with a strong amateur nine. While not playing baseball he performs on the track squad and the other day he threw the discus 153 feet 9 1/2 inches—the best in Texas high school circles for the season. Just before this he ran a fast leg on the Thomas Jefferson sprint relay team, generally regarded as the best in the state.

For exercise—just to keep himself busy—Kyle bowls and plays tennis and he's an ace at both. Barlow Irvin, his coach, denies the season next Monday night. Albuquerque is in the West Texas-New Mexico League which starts the campaign April 23.

A second game will be played here tomorrow night, with the teams meeting in Albuquerque Saturday and Sunday.

## Pauline Betz Ponders Idea of Turning Pro

NEW YORK—(AP)—The grand high priestess of amateur tennis were scheduled to announce today their decision on the status of Pauline Betz, the world's ranking woman star. While the tall redhead was in Monte Carlo, Monaco, exercising the prerogative of her sex in taking her own time to "make up my mind" about turning pro., the U. S. Lawn Tennis Association readied an official statement to be given to the press at noon, for publication in tomorrow morning's papers.

## Albuquerque Plays In El Paso Tonight

EL PASO—(AP)—El Paso's Texans square off against Albuquerque tonight in an interleague baseball series. El Paso is a member of the Arizona-Texas League which opens

## SPORT SHOTS

By HAROLD V. RATLIFF  
DALLAS—(AP)—There is a strong possibility of Texas getting the Western Regional Tournament of the National Collegiate Baseball Championship play-off. College baseball this year is being set up in the same manner as basketball. There will be eight district representatives four of them going to the Western Regional and four to the Eastern Tourney.

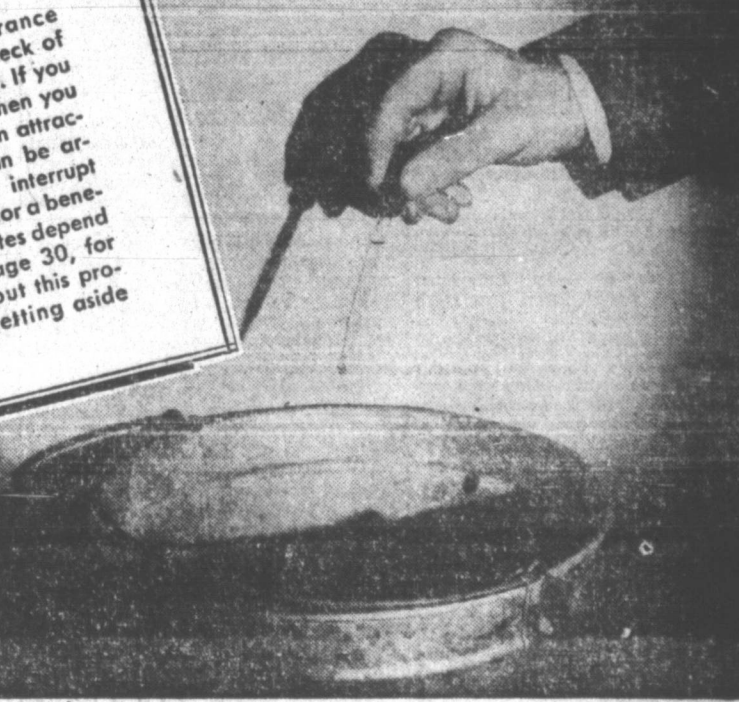

Dallas and Austin are being considered for the tournament to determine the Western champion between 10 teams of districts 5, 7 and 8. These districts take in the West Central and North, the Southwest, the Rocky Mountains and the Pacific Coast.

District 6 the Southwest, has Lloyd Messersmith of Southern Methodist University as chairman with Lil Dimmitt of Texas A. and M. and Bibb Paik of Texas as the other selection committee members.

It's a question of money right now as to where the regional tournament will go. In other words, there needs to be a guarantee that the district representatives can come to Dallas or Austin with their expenses taken care of. It is our thought that such a tournament would draw enough at the gate to pay all expenses—and more—provided a Southwest Conference team were in it. And there's little chance one wouldn't be. The Southwest Conference ranks with the best in the nation in baseball.

With Texas in it, Austin would turn out sufficiently to make such a tournament pay a profit. Dallas would support it, I believe, regardless of what Southwest Conference team participate.

Also on the fire, we learn, is a track and field meet between champions of the Southwest and Big Six conferences, with the Missouri Valley Conference also likely to be included. And the probable site of this meet, which would bring together a great field, is Dallas.

## Just a Drop IN THE BUCKET

That's the way Jim always referred to the cost of his Southwestern Life Insurance. "From my pay check," says Jim, "I set aside ten per cent every month. It was just a drop in the bucket. I never missed it—less than a dollar a day—less than I'd spend on something I didn't need. But it created something real for me!"

Jim is retired now. He quit work at 65. And now he's "living the life of Riley," playing a bit of golf now and then, hunting, fishing—doing the things he always wanted to do, and never found enough time to do before. His Southwestern Life policy made that possible.

You can get the same kind of insurance through Southwestern Life, and you can start your program today. It will take care of your family, should you suddenly be taken out of life's picture—and it will take care of you when you are ready to quit work. You can retire at 55, 60, 65, or at any age of your choice. Now, while you are earning, is the time to start your program. You'll never miss the funds you set aside out of the surplus income for this protection. Some day, they'll seem like "a drop in the bucket." Without obligation, ask for a descriptive outline covering your needs.

## NATIONAL PARALYSIS, THE DIRECT ROAD TO SOCIALISM

Perhaps if men were as foresighted as they often pretend—and certainly should be, drawing freely but wisely from the lessons that history have taught on great questions—the world would soon be free of perennial problems.

But that, sadly, is not the case. They either fail to see the parallel of events, or else they act upon the instance of selfish interest. Some refuse to be informed; others are not capable of understanding.

"These strikes," said a Pampa man the other day, "won't amount to much except that they will cost us some money and a lot of irritation."

To our way of thinking he was right only in that it will cost money and irritation. What is implied is not: the effect can be much more troubling.

Italy—after the first World War—was spared military defeat with the help of the Allies, but she suffered economic defeat.

Labor leaders gained power during the conflict. They, with the aid of the government, secured for their workers, during the war, high rates of pay. But when the war was over, the country was found without moral courage and economic stability. The workers still expected the high wages, and to get them the labor leaders and the unions fostered strife, employed obstructionist tactics to gain their end.

Margherita Sarfatti—one of Mussolini's original campaigners and later exiled by him—in her "Life of Benito Mussolini," wrote of the chaotic times: "Strikes were perpetual. For a mere nothing work would be brought to a standstill. What work was done was of the most superficial and slovenly character. . . ."

Then what, may we ask, could be the consequences of the paralyzing strikes we are now having in America? What could be the consequences of paralysis by virtue of a nation-wide coal strike? What of the ruinous walkout of about 400,000 telephone operators—the people who communicatively tie America together? What of halting all the trains? All the buses and trucks?

If the government seized these facilities, it would be but a stop-gap effort, or else we would be moving into socialism. If the government kept hands off, there would be chaos, the breeding ground for socialism, and, possibly, communism.

The issue today is: Shall we permit unionized labor monopolize industry, communication, and thereby force cancerous economic spirals upon the people—force management out of the picture? Or shall the people demand wresting of power from those who would endanger the freedom under which they work?

## NATIONAL WHIRLIGIG

news behind the news

WASHINGTON  
By RAY TUCKER

**LOSS**—The rapid disappearance of the \$100,000,000 investment in American merchant marine through bargain sales to foreign governments and corporations has excited the concern of the House and Senate committees which deal with shipping problems.

In quiet investigations of the administration of the wartime Ship Sales Act, which provides for the disposition of these vessels as surplus by the Navy and the Maritime Commission, the Congressional group has discovered that past and prospective deals will leave the U. S. with hardly any bottoms for carrying our own exports and imports.

As in prewar days, the American flag may be swept from the high seas by rival nations.

Moreover, many of these craft have been turned over to foreign governments or firms on such a basis that, like lend-lease materials, they will never be paid for even at the discount rates that have prevailed. It is estimated that the loss will run into more than three-quarters of the original cost.

**UNEMPLOYMENT**—The Ship Sales Act was passed on the Roosevelt Administration's assumption that disposition of these vessels would help to stimulate trade and to promote world peace through an exchange of goods. The transactions were also designed to implement the Roosevelt-Hull Reciprocal Trade Agreement.

But the virtual stagnation of international commerce, as well as present strained relations among the World War II Allies, have led the M. C.'s to ask whether these new conditions do not necessitate a revision of the statute.

**"SENSATIONAL"**—Although the investigations have been conducted behind closed committee doors so far, they have revealed disposal statistics which key members regard as "amazing" and "sensational."

More than 9,000,000 tons, approximately 800 vessels, have been sold already. Applications before the Maritime Commission ask for another 4,000,000 tons, or about 400 craft. Only 4,000,000 tons have been sold to American nations.

The foreigners can outbid domestic competitors because of their lower operating costs. The Navy is even offering the C-2 flat-tops, which are the most suited for commercial transportation.

**COMPETITION**—Greece, France, Argentina, Norway and Sweden have been principal governmental purchasers. Herbert Hoover recently recommended that we turn another 100 freighters over to Athens, and it is expected that many of these merchantmen will figure in the Truman relief program for Greece and Turkey, and possibly other nations.

As a result of these transactions, the American merchant marine has dropped from its wartime peak of 28,000,000 tons—the greatest in the history of any nation—to almost 15,000,000 tons. The current volume of business, or carrying capacity may fall to only 8,000,000 tons within a few years.

The investigators' fear is that, at the bargain sale prices and other nations' far cheaper labor and operating costs, the actual film center but is not the big studios have moved several miles out in various directions.

It is unfair to at least half the actors and directors, to many technicians and skilled workmen, and to some writers and producers to call Hollywood Red. You have to qualify the word. No studio is wholly Marxist. Some studios, however, are definitely Marxist dominated and the Reds manage to infiltrate to key positions in some others, from which positions they can work in a plug for communism where it will have the maximum effect.

Much of the financial control of this film capital has been guilty of failing to resist Red infiltration and appropriation. Too many of the men behind the scenes, who have the power to act, have used a finger against leftist propaganda. Some have encouraged it.

But times are changing. The public is fed up with propaganda and the low-grade entertainment which comes of lack of inspiration. The League of Decency has grown six million members and its protest has got some of the biggest motion picture bigwigs worried. After all, the picture business is a business, and it has to show a profit.

So you can look for a swing away from Red propaganda soon.

## In Hollywood

By ERSKINE JOHNSON

NEA Staff Correspondent  
(Johnson on KPBN Monday thru Friday, 3 p. m.)

**HOLLYWOOD**—Jane Russell gave a lady-like sneer in the direction of that Florida fellow who is suing her because he says she wore only "high-necked dresses" for a singing engagement at his night club.

Jane was wearing a bright green sweater with a big yellow stripe across the front, so naturally she commanded a great deal of attention.

"That guy," Jane said, "is just crazy blithering with a big yellow stripe across the front and a jersey dress. What did he expect me to wear—just a smile?"

Jane also gave a lady-like sneer at reports that it was all a publicity stunt to ballyhoo her new singing career. She's a regular now on the Kay Kyser radio show and sounds like a cross between Peggy Lee and Ella Fitzgerald.

"But," said Jane, "I'm not giving up the screen. Howard Hughes still has my contract for pictures and television, and I have all my radio rights."

**WANTS TO GET TYPED**  
No more pictures like "Young Widows," though, she said.

"I'm just trying to play that queenly junk I want to do characters like Ann Sheridan plays. Most people in Hollywood are trying to avoid type casting. I'm the only one trying to get typed in something besides a sweater."

Parts of Jennifer Jones' dance in "Duel in the Sun" were a sensation last season. Celeste Holm gets the role of Tyrone Power's cast-off girl friend in "Nightmare Alley."

**PRETTY DESPARADO**  
On the set, Tyrone Power eludes an army of black-hearted villains in a shipboard battle for "Captain From Castille." By sword in hand, leaps from deck to rail like the late Don Douglas.

"Errol Flynn and Doug, Jr.," we can't resist observing, "will be green with envy."

"They can have it any time," puffs Power. "This is hard work."

Betty Grable will play a tough desperado who poses as a school teacher and marries a sheriff in "The Blonde From Bushy Head." Preston Sturges will direct—so you can be assured it will be played for laughs.

The script of director Roy del Ruth's next picture is on its way to Madeleine Carroll, who is anxious to return to the screen. . . .

Niven Bush has another novel coming up to follow in the cinematic footsteps of his "Duel in the Sun" and "Pursued."

**MAN-MADE SNOW**  
Fooling the public department: The movie "Christmas Eve" introduces synthetic snow made out of plastic, replacing uncooked corn flakes used for so long in Hollywood snow scenes.

A cloud machine, at 20th Century-Fox, looks like an upside-down doughnut machine. Press a lever and a puff of smoke comes out. It quickly balloons to cloud-size and hovers at around 1000 feet. These clouds even take direction.

John Payne will have a completeing costs, these vessels will provide stiff competition if and when international commerce returns to "normalcy."

**GAIN**—John L. Lewis believes that he has salvaged a great gain for his 400,000 U. M. W. miners, although he regrets that it required the Centralia mine disaster to accomplish it.

His 1946 strike agreement with the government conceded his demand for a welfare fund, to be collected in royalties on each ton of coal. It was bitterly fought by the operators, but Interior Secretary J. A. Krug accepted it. Largely because of that act, he became John L.'s greatest friend until he supported the injunction in last December's walkout.

**TRUSTEES**—The welfare provision permitted Mr. Lewis to name one of the three trustees and Secretary Krug to name the second, with those two choosing the third.

Months ago, Mr. Lewis named himself and Mr. Krug selected Captain Norman Collison, his deputy administrator in charge of the government-seized mines.

For months the Cabinet member refused to do so, but after the operation of his action delayed operation of the fund. Weeks ago the U. M. W. boss turned over a list of names to the trustees, including the name of Thomas E. Murray, a prominent industrial engineer in New York, whose daughter married Henry Ford III.

Three days after the Centralia disaster, Secretary Krug accepted the Murray proposal, and now the fund will become effective. It will take months, however, before rules and regulations and payment schedules are set up.

## Common Ground

By E. C. HOLES

Don't Blame Our Trouble On The War

Most people are inclined to believe that England, France and Germany's trouble and in fact our own trouble is due to the wars, we are in. That is not the case, however. The wars and our excessive booms and busts are due to our beliefs.

The beliefs that cause our trouble is that men do not need to be equal before the law; that the government need not respect the equal inalienable rights of every individual; that the government has enough new capital to keep the general welfare, to take from one to give to another; that people need not live by the sweat of their brow; that the state has a right to do what it pleases; that individual originally never had a right to do; that the state has a right to initiate force to make people be charitable.

Colonel McCormack in speaking before a group of men in Los Angeles the other day pointed out that England and France by their progressive taxation had made it impossible for those countries to just keep their plants modern let alone build new plants, and that this policy is bound to impoverish the nation. Every realist knows this.

The condition that has led to result from discriminatory tax laws and discriminatory labor laws was described many years ago by the great English economist, J. R. McCulloch:

"The finest climate, and the finest intellectual powers, can prevent no people from becoming barbarous, poor and miserable, if they have the misfortune to be subjected to a government which does not respect and maintain the right of property. This is the greatest of all calamities. The ravage of civil war, of pestilence and of famine, may be regarded as the worst of calamities, but a nation to contend against the deadly influence of an established system of violence and rapine."

The condition we are in and what we are facing was predicted in 1915, two years after I adopted the progressive income tax by John W. Burgess in his book "Reconciliation of Liberty With Government." He wrote "It (referring to the government) with the Ability-To-Pay Tax Theory established) would be come a temporary despotism which would destroy property, use up accumulated wealth, make enterprise impossible, discourage intelligence and thrift, encourage idleness and sloth and pauperize and barbarize the whole people."

Everything is happening just exactly as could be expected. Political economy is an exact science. If we, through the state, disobey the Commandments "Thou Shalt not Steal" or "Thou shalt not covet" we are bound to impoverish ourselves. No wonder people can't get homes. No wonder our government cannot tax enough to pay the cost of government. No wonder we have booms and busts. No wonder our government is unable to finance its promise to pay in gold.

We are laying the foundation for the greatest bust this nation ever experienced. The only question is that if we continue to lay the foundation with discriminatory labor and tax legislation when it will come. It is bound to come. We are travelling the same road that Germany, Italy, France and England travelled.

We should awake and attempt at least to return to the principles that developed character and made this a great nation.

**So They Say**  
Although they (unions) strongly advocate and prepare programs for general social legislation, they take a completely laissez-faire position in respect to their own activities—William Leiserson, former National Mediation Board chairman.

A trained manpower is our best insurance against war, and our only insurance of victory if war should be forced on us.—Lieut.-Gen. Raymond S. McLain.

The Soviets believe they have the only true democracy, and we believe in ours. The difference between the American and Soviet interpretation of the word democracy is merely symptomatic of deep-seated differences.—Dr. H. Scudder Mekeel, U. of Wisconsin anthropologist.

We are making the same mistakes we did after World War I. We are stifling our aviation industry.—Gen. O. P. Echols, World War II Deputy Chief of Staff for Air.

Man has certain distinctive human urges of ambition, self-esteem and proper pride. Management has done little to recognize the dominance of these distinctly human needs in employees.—Dr. Samuel Stevens, president, Grinnell College.

X-ray going 9999 soon in an effort to avoid an operation for a broken cartilage in his left leg. . . . Talking about a certain swanky Hollywood eatery, Dick Haynes observed: "The place is so fancy they serve pigs feet with shoe trees in them."

White Deer Students Edit Weekly

YOUNG WHITE DEER JOURNALISTS

COMMERCIAL CLUB MEMBERS AT WORK

They Have Their Many Trials and Tribulations, but It's Fun, Too

WHITE DEER—(Special)—White Deer students and faculty evidently are not superstitious—or are they? Replacing the 13th edition of their mimeographed school paper, on Friday, December 13th, the 13 members of the Journalism Class published their first edition of the Carson County News-Review, the local community weekly paper.

The work of the publication is divided among three groups. The editorial department is under the direction of Miss Claudia Everly and the high school journalism class, with reporters in each of the grade schools.

Advertising is under the supervision of Miss Gloria Holmes, commercial teacher, and is done through the Commercial Club, composed of those students interested in working on the paper.

Perhaps a little explanation of how the school got into the newspaper business may not be amiss. When Sam Malone, Jr., returned to college last fall, his father, the owner of the News-Review, was unable to secure a printer to take over his shop.

Panhandle News Emergency Bill

PANHANDLE, (Special)—Mr. and Mrs. Emerald Lee Held are the parents of a son, Gerald Lee, born at Worley Hospital, Pampa, on Sunday.

Mr. and Mrs. Harold Dennis of Tucson, Ariz., are the parents of a son, Larry Phillip, weight 7 pounds, who was born March 31 at the Tucson General Hospital.

A. P. Boyette is leaving this week to accept an appointment as assistant superintendent of the state fish hatchery at Dundee, 18 miles south of Electra.

Mr. and Mrs. R. A. Robinson are visiting relatives in California, Oregon and Washington.

R. J. Everson and Florine Mathews, Borger, were married March 31 by Rev. James Todd.

H. G. Robinson, grade school principal has been asked to take part in a conference on Elementary Education at the University of Texas, April 10 to 12.

Weldon York, who is attending Texas University as an architectural student, is spending the Easter holidays with his parents, Dr. and Mrs. O. York and brother, Winfred.

Mr. and Mrs. Douglas Anderson and son, Billy, are attending to business in Crawford, Colo.

Mr. and Mrs. C. L. Tice of Hammond, Ind., are visiting his sister, Mrs. Bertha Elston, and niece, Mrs. G. P. Gramer. Other guests in the Elston home are her nephew and wife, Mr. and Mrs. A. E. Gustavson, El Cerrito, Calif., and Mrs. E. E. Fitzgerald, San Francisco.

George Crossman has appointed Howard Lane, A. J. Weiser, M. G. Weath, Mrs. J. B. Howe and Mrs. Faye Herndon on a committee to assist in making plans for building a swimming pool to be built near the site of the proposed Carson County Living War Memorial.

Glen Whitlow of Gulf Camp is visiting in the home of Leste Lusk.

Mr. and Mrs. Ray Anderson have returned from Holton, Kan., where they visited Mr. Anderson's mother, Mrs. M. A. Bender, and his brother, Norman Anderson and family. Other visitors were Mr. and Mrs. Roy Anderson, Denver, Colo.

Betty Armstrong, who is attending North Texas State College, Denton, is spending the Easter holidays with her parents, Mr. and Mrs. Lynn Armstrong, and her grandparents, Mr. and Mrs. A. A. Armstrong.

Mr. and Mrs. A. E. Bennett of Des Moines, N. M., have been visiting in the homes of their son, Clyde, and their daughter, Mrs. Frank Metcalf, and their families.

SIDE GLANCES BY GALBRAITH

"I wish you wouldn't play so roughly with the children just before their bedtime!"

R. Ike Davis, 63, Dies at Residence

Funeral services for R. Ike Davis, 63, who died this morning, will be held at 2 p. m. Friday morning at the First Methodist Church with the Rev. H. Clyde Smith officiating.

Mr. Davis had been a resident of Grandview Community for the past 30 years.

Besides his wife, he is survived by one son, John H. of Pampa; two daughters, Mrs. W. E. Franklin, Pampa; Mrs. C. A. Holmes, Lubbock; one brother, Charles H. Loveland, Colo.; five sisters, Mrs. Harvey Dimmitt, Mrs. Omer Tope, and Miss Pearl Davis, all of Turon, Kan.; Mrs. O. T. Bailey, Grandview, Wash.; and Mrs. C. P. Coats, Pampa; 11 grandchildren and several nieces and nephews, one of whom, Keith Davis, resides in the Grandview Community.

Henry Ford

The world will be suspended on Thursday, April 10, when Ford's body will be at half staff until after the funeral.

Mr. Ford's death marked the passing of not only one of the world's most noted industrialists but of an individualist who developed one of the most colossal family fortunes the world has known out of what often had been ridiculed as "a lot of crazy ideas."

Described in numerous citations as "of the select company assured of perpetual fame," Ford, a one-time obscure farm youth, was also credited with having "brought into being an industry that changed the course of the world."

He developed his great industrial empire for which he was once said to have refused \$1,000,000,000, out of an idea for a cheap automobile and an initial capital investment, mainly by his friends, of \$28,000.

That was in 1903, and at his death, the great empire belonged exclusively to his family and had manufactured more than 31,000,000 vehicles.

Ford returned only a week ago from his annual visit to the Ford estate in Georgia and was said to have been in excellent health at that time.

He had been planning to celebrate his wife's birthday and their 59th wedding anniversary next Friday.

The passing of the elder Ford ended a career that had many facets. He was an ardent pacifist, a prohibitionist, deeply interested in sociology and in the development of agriculture as an adjunct to industry.

Ford, who abhorred war, once tried to stop the first world conflict with a peace ship expedition to Europe, designed to "get the boys out of the trenches by Christmas." It was a failure that cost Ford \$400,000.

NOTICE! To the Public: I have purchased all interests and I am now sole owner of Coffey Pontiac Company

Senate Debate

(Continued From Page 1) help, was created to try to keep peace in the world through the friendly cooperation of all nations.

But President Truman did not tell the U.N. what we wanted to do when, on March 12, he asked Congress for \$400,000,000 for Greece and Turkey.

He just said U.N. couldn't do the kind of job we needed.

As the realization of what all this meant sank into people's minds, voices were raised in this country that we were by-passing U.N. and that we were destroying it.

This bothered a great many people, including senators who wanted to vote the aid. So in this plan was fashioned:

We'll go ahead and help out Greece and Turkey. Later on we'll stop giving the aid if the U.N. thinks we should stop.

Congress will have to decide just how much power, in positive language, it's willing to let U.N. have over our American actions.

For a long time in World War II he refused to believe the German invasion of Poland meant a real war; he often referred to the conflict in its early stages as a "phony war."

Once it engulfed the United States, however, Ford entered wholly into the production of war weapons. "I want peace," he said, "and I'm fighting like hell to get it."

The surviving members of the family, in addition to the widow, are Mrs. Edsel B. (Eleanor) Ford, and her children, Henry II, Benson, William and Josephine Ford.

Edsel Ford, only son of the noted manufacturer, died in May, 1943.

A pound of coal contains four to five times the energy found in a pound of TNT.

ABC of BETTER LIGHTING

ADAPTABLE easily to your needs whether you want incandescent or fluorescent lighting in your home. Fit the fixtures to the color or decorative scheme of every room, and make sure you have the proper amount of lighting. It will add to the comfort and livability of your home.

BUILDERS are installing adequate wiring today. They know that the uses of electricity will increase in both homes and industry in the years to come. The installation of adequate wiring now saves remodeling in the future and makes it easier to have better lighting.

CONVENIENT switches and outlets in your home add to its comfort. Plan now where you want to place lights, then place fixtures where they'll be the most convenient.

Southwestern Public Service lighting specialists are trained to answer lighting problems in your home or place of business. Call on them now, the service is another no-extra-charge service.
