MORE PRICE LIDS OFF

WASHINGTON—AP—OPA today removed price lids from coffee as it speeded up the decontrol drive. The price agency said it has approved a decontrol petition on both green and roasted coffee at all levels of distribution.

As the White House prepared to hasten the scrapping of wage controls along with food price ceilings, OPA freed all vegetable fats and oils—margarine, mayonnaise and salad dressings—from federal restraint.

The agency said it agreed to lift its price ceilings on coffee because "data presented by the industry and obtained by OPA" indicated that "supply and demand were approximately in balance."

Atkinson Named County Chairman Good Roads Drive

Crawford Atkinson Pampa businessman, has been appointed Gray county chairman of a campaign to back the adoption of the constitutional amendment known as the "good roads amendment" in the November 5 general election. The appointment was made at the annual Austin meeting of the Texas Good Roads association this week.

The proposed amendment provides that all taxes levied on motor fuel and lubricants and motor vehicle registration fees shall be used for acquiring rights-of-way and for construction and maintenance of roads, for the administration of laws pertaining to traffic and safety and for the payment of principal and interest on county bonds voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945.

The proposed amendment also provides that one-fourth of such net revenue from the motor fuel tax shall be allocated to the available school fund.

Speakers at the association meeting included Governor-elect Beauford Jester and John S. Redditt, chairman of the highway commission.

Statewide organizations backing the proposed amendment include the county judge and commissioners association, the Texas automotive dealers association, the West Texas chamber of commerce, the Texas safety association, the rural letter carriers association and the retail merchants.

Stolen Articles Being Returned

Since the recovery of practically all of the items, stolen by three Pampa teen-age boys, a continuous stream of persons attempting to identify their property has been passing through police headquarters and examining the pile of loot held there. At first the articles were being kept to be used as evidence in court, but later police were instructed to return the property to the rightful owners upon positive identification.

Third Trial for Thomas Is Held

SWEETWATER—(AP)—The state begins the presentation of its case today against Jim Thomas when his third trial on charges of murder in the slaying of Dr. Roy Hunt of Littlefield, Texas, is reconvened before Judge A. S. Mauprey at 10 a. m.

The selection of the jury was completed late yesterday when the last two jurors were selected from a special panel of 31 persons subpoenaed by Sheriff Bill Sample because the original venire of 144 was exhausted. The jury for the trial is composed of Turner May, Roscoe filling station operator; Clarence Mathews, sweetwater refinery employee; W. H. Cooper, Champion community farmer; J. T. Jolley, Sweetwater department store employee; O. R. Cook, Sweetwater refinery employee; J. L. Kerby, Roscoe farmer; Tolton Head, Sweetwater garage employee; Raymond Lambert, Gypsum product employee; Leland Glass, Sweetwater groceryman; Eldon Ely, Sweetwater refinery employee; E. A. Durham, Sweetwater planning mill operator; and Bud Brown, Sweetwater groceryman.

Hereford and Dalhart Buildings for Sale

DALLAS—(AP)—Veterans and other persons with HH priorities may buy surplus army buildings at army camps on a sealed bid basis under a new plan announced by Robert C. Craile, deputy director of the war assets administration regional office here. Craile said the plan would be put into effect about Nov. 1 when 150 buildings at the Hereford prisoner of war camp and the Dalhart army air field are sold. Previously at the sale of surplus materials at Camp Howe the buildings were demolished and the lumber and fixtures sold.

Community Chest Here Dissolved; Drives Separate

The Pampa Community Chest has been dissolved with the mutual consent of the five participating organizations. It was reported here today.

It was discontinued after some of the organizations had felt that they wanted to wage their own campaigns in the interest of raising funds to carry on expansion programs.

Lyle Langston, retiring president of the organization, said when it was formed the Boy Scouts, one of the participating groups, wished to withdraw in order to wage a bigger campaign for funds to expand at Camp Ki-o-wah, and at Lake McClellan, other organizations had similar plans.

Other organizations which had participated in the fund drive the past three years are American Legion, Girl Scouts, Salvation Army, and Hi-Y.

The drive last year was conducted in concert with that of the War Veterans School Meeting Slated Next Wednesday.

Livestock Sales Show Increases

MOBETTIE—Eighty consignors sold 431 head of cattle at the regular Saturday sale of the Mobettie Sales company, for a gross of more than \$35,000, it was reported today.

The bulk of the cattle were steers, and the prices were steady. Most of the cattle sold were above average in quality consisting of good roan and red steers, that would weigh 500 pounds. As the wheat fields dry up in this territory, the demand will exceed the supply for good steers, as there will be more than usual cattle, it was said.

Around 100 fat cattle went through the ring, being snapped up by butchers. The largest steer was bought for Oklahoma slaughterers, it was said.

Receipts for next Saturday's sale are expected to be the biggest enjoyed by the company since the price ceiling on livestock has been lifted.

Radios, Cash Taken From Electric Company

Another break-in and burglary was reported this morning by city police, this time at the City Electric Co., 920 Alcock St. According to the report, at police headquarters, the burglars forced open a door on the east side of the building sometime Tuesday night, and got away with two radios and between \$55 and \$65 in cash.

Assistant Chief of Police J. O. Dumas said this morning that thieves are able to force open these doors, then shut them in such a manner that by passing you cannot tell that someone is inside.

Chartered Plane Crashes Killing 13

Snowstorm Is Believed Cause Of Ship Wreck

LARAMIE, Wyo.—(AP)—A chartered passenger plane bound from Oakland, Calif., to Cheyenne, Wyo., crashed in a blinding snowstorm three miles west of Laramie early today, killing the crew of three and 10 passengers.

The plane was identified by civil aeronautics authority spokesmen as operated by the NATS air transport service, a private airline.

Setting Albany county coroner E. I. Knight said the plane crashed as it came in for a landing. He said 11 persons were killed instantly and two died in a Laramie hospital.

The plane was one mile north of the airport when it crashed. Knight said the plane apparently was enroute and had intended to land at Cheyenne but was turned back by bad weather.

The bodies were thrown clear of the wreckage which was scattered over an area of 800 square yards. Knight identified two of the dead as Jack W. Trogdon of Spartanburg, S. C., and Seaman First Class Robert A. Gregory, whose address was not available.

It was not known immediately whether the plane was operated by a private airline or the army. An oil field worker heard the plane crash and notified authorities.

Civil aeronautics authority officials were dispatched to the scene from Denver.

Knight said he would be unable to identify the 11 unidentified dead until a passenger list could be made available.

Among the dead were three women. Knight said eight of the passengers aboard the plane were sailors, he added.

The plane, he said, crashed on a level field. It did not burst into flames and burn. An oil field worker enroute to Laramie saw the plane crash as he drove by on the snowy rangehighway, which runs between the Laramie airport and the site of the accident.

Knight reached the scene of the crash about 30 minutes afterwards. Bodies he said were strewn over quite an area, and some lay beneath the wreckage. One of the victims was found beneath a shattered wing.

More than two inches of snow covered the ground in the area.

HST To Address United Nations

WASHINGTON—(AP)—The White House today said that President Truman will address the opening session of the United Nations assembly in New York Oct. 23.

The announcement followed a White House conference in which Mr. Truman congratulated Secretary of State James F. Byrnes for what he called a "most excellent" job at the recently concluded Paris peace conference.

President Truman's address to the assembly will be broadcast live from the White House. The President will address the opening session of the United Nations assembly next Wednesday at 10 a. m. Eastern time.

Whether the President will go to New York by train or plane will depend on the time of his speech.

Highway Hearing Scheduled Nov. 8

A three-county delegation from the Pampa area will appear before the Texas highway commission at Austin, Texas, on November 8 to ask for an appropriation of funds for the proposed Pampa-to-Perryton highway.

The delegations, composed of citizens from Gray, Roberts and Ochiltree, will deliver right-of-way easements for the highway to the commission.

E. O. Wedgeworth, who with County Judge Sherman White, made the request for an audience, said it was hoped to get definite word on the proposed appropriation at that time.

Property easements along the route of the highway have been drawn up and a \$50,000 fund to pay for fencing and wells in Roberts county has been raised here.

Byrnes Back In U. S. After Peace Parley

WASHINGTON—(AP)—Secretary of State Byrnes returned today from the Paris peace conference and received President Truman's congratulations for doing a "most excellent job" at the 21-nation conference.

Byrnes reported to Mr. Truman immediately after arriving home. The 50-minute conference was the first meeting of the nation's top foreign policy makers since Henry Wallace was ousted from the cabinet for criticizing Byrnes' handling of relations with Russia.

Byrnes hurried from the White House to his office to begin drafting a radio report to the nation tomorrow.

Earlier at the airport, he had told newsmen the peace conference "made progress" toward writing the peace for Europe. It was not, he said, a failure.

Byrnes flew to Washington in the President's personal plane, "The Sacred Cow." He was in good spirits and "happy" to be back after a three-month absence.

Senator Vandenberg (R-Mich.), who accompanied Byrnes, said there were both "peace credit and peace debit" at Paris but on the whole the balance shows a net advantage for peace.

Byrnes' return from the conference, where he was in almost constant contact with Russia's Foreign Minister Molotov, coincided with new indications that American relations with Russian bloc countries are worsening.

Byrnes' speech is expected to deal with the whole range of critical issues involved in United States-Russian relations. A top of clear indications for funds to expand at Camp Ki-o-wah, and at Lake McClellan, other organizations had similar plans.

Other organizations which had participated in the fund drive the past three years are American Legion, Girl Scouts, Salvation Army, and Hi-Y.

The drive last year was conducted in concert with that of the War Veterans School Meeting Slated Next Wednesday.

All World War II veterans who live in this area are urged to attend the Gray County Veterans school meeting to be held in county court room at the court house next Wednesday, October 23, at 7:30 p. m.

The purpose of this meeting is to give all interested veterans in the county an opportunity to state the type or phase of vocational training they are interested in so that we may organize a practical and beneficial program that will appeal to the majority of the veterans in the county. Laycock said.

Three representatives, William E. Lewis, Jr., and T. L. Leach, Veterans Administration, and Zame K. Brewer, State Veterans department, will be in attendance to help local administration get our Gray county school organized, Laycock stated.

"This is a project that will prove beneficial to almost all veterans," Laycock added. "It is being organized for the veterans and we would sincerely appreciate their attendance at this meeting. We who now believe that they aren't interested in any vocational training will want to take advantage of some of the courses we intend to offer them."

Oil Association Is Meeting Today

HOUSTON—(AP)—The Texas Mid-Continent Oil and Gas association, holding its first general gathering since 1942, opened its annual meeting here today. A record attendance was indicated for the two-day session which ends tomorrow.

After an official welcome by Mayor Otis Massey this morning, the delegates were scheduled to hear an address on "National Oil Policy" by Russell B. Brown, Washington, general counsel of the Independent Petroleum association of America, and a talk on "The Oil Producer and the Gasoline Tax" by John S. Redditt of Lufkin, chairman of the Texas highway commission.

Following a discussion of "Problems of the Post-War World" by Cedric Foster of Boston, news analyst, and "Price Fixing by Government" by Clint C. Small of Austin, the delegates this afternoon were to hear committee reports and elect new officers.

Beer Election Set For Concho County

PAINT ROCK—(AP)—Concho county commissioners have ordered a county-wide election for Nov. 9 on the sale of beer after receiving petitions signed by more than 250 names.

The county legalized the sale of beer by 87 votes in a special election in 1944. In subsequent precinct elections two precincts voted wet and two dry.

Santa Is Expected To Carry Biggest Pack of Christmas Toys Since 1941

CHICAGO—(AP)—Santa Claus is going to carry a bigger pack of toys for distribution to the nation's children this Christmas—his heaviest load since 1941—say toy manufacturers.

And many of the toys that were not available during wartime and last Christmas, such as electric trains, skates, construction sets, bicycles and metal wagons, will be in his big sack. But, toy makers at the merchandise mart said, these articles which vanished during wartime will be back in very limited numbers.

"It will be first come, first served," the manufacturers said, giving fair warning to papa that if he wants to play Santa Claus he'd better do his Christmas shopping early.

Some changes in types of toys were noted by manufacturers. Cannons, guns and tanks, popular during the war period, are disappearing from the market. Jeep models are holding their own. And the war has left toy makers with various "electronic" devices.

One model train with automatic whistle, electronic action, and odorless smoke that comes from the engine's stack in realistic puffs. An all-steel 2-in-1 "skoot-bar," which combines the features of a wagon and a skooter. It will cost around \$14.95 at retail.

A pocket-sized miniature camera with universal focus, view finder and ground glass lens. It's made to retail at under \$1.00. One model order house is offering an electric kitchen range that cooks and bakes, has a hot toy cooker, deep frying pan, stew pan and "two fully enclosed, insulated, safety heating units."

Back again, also, will be the "magic-skin" dolls—a doll whose skin "feels and wrinkles like a real baby's," and which can be bathed and powdered.

And baby can have a rattle with metal chimes inside.

Probe Continues for Suicide Poison Source

NUERNBERG—(AP)—Sources inside Nuernberg jail said today that 12 German employees were under constant scrutiny in connection with the case of Hermann Goering, who committed suicide by cyanide poisoning in his cell at the Nuremberg trial late Tuesday night.

These sources, unidentifiable by name, said the Germans were not under arrest but described them as being "protectively held" until they are completely cleared of all possible complicity in the eleventh-hour suicide by which Goering managed to precede his 10 doomed colleagues in death.

The secrecy surrounding the burial place of the one-time No. 2 Nazi and the 10 who died by the noose yesterday morning remained impenetrable, although it was believed the bodies had been spirited away by planes for internment in the deserts of the old prison that the ringleaders of Adolf Hitler's wrecked fascist state might have been buried at sea.

The army board investigating the Goering suicide, meanwhile, called in, one by one, every person who conceivably might have had some connection with the pudgy reichsmarshal in his last days and nights in the death block.

Col. Richard McConnell, public relations officer, told reporters the board was working without any special technical assistance thus far and added that no decision had been reached as to whether such special assistants in crime detection would be called in.

He stated emphatically that no arrests have been made in connection with the case.

Hemphill County Seeking Hospital

CANDIAN, (Special)—Hemphill county's hospital question is on its way to the voters. A petition is being circulated asking the county commissioners to call a bond election in the near future.

The chamber of commerce has had a hospital committee at work for the past several months.

The first plans submitted by the committee provided for expensive and after much consultation with architects and with bond experts, a feasible plan has been worked out which if adopted would give Candian and Hemphill county adequate hospital facilities for an outlay of approximately \$75,000 which is the amount named in the petition for a bond election.

About 200 signatures are required to give effect to the petition.

Bodies of 11 Nazi Leaders Are Cremated

NUERNBERG—(AP)—The bodies of Hermann Goering and the 10 hanged Nazi war criminals have been cremated and the ashes "dispersed secretly," it was officially announced today.

The anonymous source of the disposition of the bodies was made at 5:35 p. m. by Col. B. C. Andrus, prison commandant.

He spoke in the name of the Allied control council, which was in charge of all details of the hangings and burial.

A six-line communique cleared up the major mystery in the wake of the hangings. The bodies were removed from the prison at 5:34 a. m. Wednesday, 10:34 p. m. Tuesday. CST in two sealed trucks, guarded by jeeps.

Where cremation took place was not disclosed. The dispersal details were wrapped in equal secrecy.

Prison authorities disclosed that Field Marshal Wilhelm Keitel had planned, like Goering, to evade the gallows with suicide, but was fouled up by a watching guard.

As a special board of three U. S. army officers combed every possibility to determine how Goering managed to poison himself, Col. Andrus revealed the Keitel story for the first time.

Keitel had returned to prison after a court appearance on day recently and was changing to old clothing, as was customary. As he shifted his wardrobe, he noticed something down in a fold.

An alert guard pushed it and grabbed the wallet. In a corner he found a long, sharp piece of metal casing, the end of which was crumpled like a dirty look, but said nothing. He refused to explain how he got it.

Nuernberg Trial Verdicts Will Be Warning to World

WASHINGTON—(AP)—President Truman said today that the Nuernberg verdicts "will stand in history as a beacon to warn international lawbreakers of the fate that awaits them."

The President's comment was expressed in a letter to Associate Justice Robert H. Jackson accepting his resignation as Chief U. S. counsel of the international military tribunal which tried the major Nazi war criminals.

Ten of the defendants were hanged yesterday and Hermann Goering, No. 2 Nazi, committed suicide shortly before he was to have been led to the gallows.

Mr. Truman said for his part he had no hesitancy in declaring that the historic precedent set as Nuernberg "abundantly justifies the expenditure of effort prodigious though it may be called in."

This precedent becomes basic in the international law of the future. The principles established and the results achieved place international law on the side of peace against aggression and war.

The President did not commit himself on Jackson's recommendations for dealing with German militarists, industrialists, politicians, diplomats and other officials, asserting only that they "will be given careful consideration."

China's War 'Not Serious Threat'

PEIPING—(Special)—Gen Chen Cheng, chief of staff, said today the government's next military move depends upon the communists and that the nationals would attack the Chinese Reds if Yenan headquarters government armies.

He told a press conference China's civil war was not as serious a threat to international peace as the communists have asserted but that if there are complications "we will rely upon he good will of other powers for us."

Of the civil war, he elaborated: "If the communists don't attack the nationals, certainly the government won't attack the communists, but if the communists make a move anywhere against the government, then the nationals have a right to defend themselves."

Extensive Price Check Is Planned for Area

The most extensive price check conducted in several months will begin the first of next month, local OPA officials announced this morning.

This price check, which will be continuous, will involve power laundries, hand laundries, washatories, dry cleaners, pressing, alterations, shoe repairs, food locker rentals, parking lot rentals, parking lot rentals, upholstery, electrical appliance repairs, and automotive repairs.

Carbon Black Official Speaks at Rotary Club

John F. Gallie, geologist for the Cabot Carbon Black Co., yesterday spoke on the relations and history of the industry to the natural gas industry and its uses in the manufacture of other products, at the weekly meeting of the Pampa Rotary club held in the Palm Room, City hall.

Gallie related that carbon black was first used as lamp black and manufactured by the Chinese 2000 years ago. Gallie further explained that carbon black was first made in the United States from artificial gas around 1865 while natural gas was not used until 1873.

The product, he continued, was first used in automobile tires in 1914 by the English and later brought to this country.

During the short question and answer period it was learned that Texas manufactures more than 60 percent of the product in the United States.

## Shade of Sycamore

By PERCY MARKS Author of "The Plastic Age" "A Tree Grown Straight" Etc.

THE STORY: Gayle finds the perfect cook and housekeeper in Stella Mays. Mrs. Mays is middle-aged, neat and kind. She and Gayle like each other immediately.

IT was almost November before Bart and Gayle finally left the hotel and moved into their new house.

From the first Gayle was careful not to keep him tied to her apron strings, and she never forgot some advice her mother had given her before the wedding. "Bart is a man's man," Mrs. Kent had said. "Anybody can see that, Gayle, and that kind of man has to be with other men a lot. I've seen brides wreck marriages the first year because they didn't understand that—or maybe they were just too selfish or possessive. They expected their husbands to be with them every blessed minute—and that's not natural for any normal man. Your father's a real homebody, but I think he'd hate his home if he couldn't sit around the faculty club now and then and smoke and play cards. Drive Bart out of the house if you have to. He'll go himself the second year—you needn't worry about that—but he'll love you twice as much if you make him go off with his men friends now and then the first year."

While they were staying at the hotel, Gayle had sent him off to one of his clubs a dozen times. "Go play poker," she would say. "I'm too tired to go anywhere, and you can't just sit. I'm going to bed and read. You go somewhere and dissipate." She had always felt gratitude in his kiss, and after the first time or two he had offered no protest. Then Gayle had had no doubt of her mother's wisdom.

MRS. BARTLETT was their first house guest. She arrived with Marie and the chauffeur and took

ning after Thanksgiving when Gayle had taken Bart out with her to call on an old friend.

"I've never seen a happier couple," he said. "Doesn't Gayle look like a million dollars? And she's certainly ga-ga about Bart. It makes me almost ashamed to see her look at him—if you know what I mean."

"I know," Jim Kent puffed thoughtfully at his pipe. "I know. All her adoration is in her eyes." He sighed. "I don't know whether to be happy about it or not."

"I don't either," Jimmie confessed. "It kind of scares me—the way he could hurt her, I mean."

"Exactly. Her faith in him is frightening. It'd be all right if he weren't so incredibly young. That's a large part of his charm, of course. But he's beginning to seem to me just about the most attractive undergraduate I've ever known."

"After all," Mrs. Kent objected gently, "aren't we seeing him in circumstances when he'd naturally seem his most youthful?"

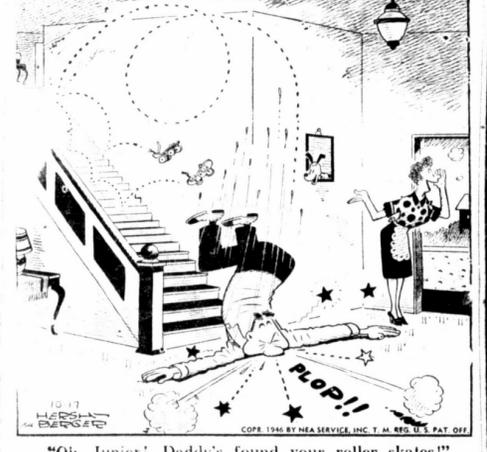

"Mr. Kent nodded his agreement. "Granted, but we had a talk yesterday, and it made me feel uneasy. We got on to politics and the European situation. He didn't offer an idea of his own—and if he had any information, I didn't find it. I couldn't see any evidence that he even reads the newspapers."

"Oh, yes he does!" Jimmie put in. "There's nothing he doesn't know about sports. He can recite batting averages the way I can multiplication tables, and I'll bet he can tell you the Army-Navy Christmas scores for the last ten years."

"I've seen plenty of sophomores who could do the same thing," said his father, his voice dry. "Now, I want you to understand me. I'm not holding my interest in sports against him. After all, he was a famous athlete himself; so that interest is perfectly natural. I'm not holding anything against him. I like him enormously, but I'm beginning to wonder if he won't grow a little tiresome. Gayle's intelligent. She likes intelligent conversation. I'm afraid the day may come when she'll find her husband a bore."

Pensions, Benefits May Be Increased

WASHINGTON—The new pension bill will be asked to increase pension payments and old-age benefits, Senator Taylor (D-Idaho) said today.

Taylor's offer made public a letter from the Administrator Omar Bradley, in which the senator said that he intends to introduce legislation which will clear all payments of government pensions and benefits to a cost-of-living index.

The index, he said, would be prepared by the bureau of labor statistics and approved by the President's board of economic advisors.

Tech Football Player, Spearman Boy, Dies

SPEARMAN—Funeral services will be conducted here at 4 o'clock tomorrow afternoon for Pat Becker, 17-year-old son of Mr. and Mrs. Ben Becker, Spearman.

The youth, two years ago, was named an all-star basketball player on the Spearman team. He was also a member of the school band before he graduated here.

A student at Texas Tech, it was two weeks ago that he contracted pneumonia from playing football at Dallas, according to reports. He died Tuesday morning in the Memorial hospital at Lubbock.

The Rev. C. F. Bastion, minister of the First Christian church, will conduct the rites.

The youth, very popular among student groups, was to have entered ministerial school next fall.

### Prominent Wheeler

#### Countian Succumbs

SHAMROCK—(Special)—James Roy Oswalt, 52, prominent Wheeler county farmer and rancher, died in city hospital here yesterday at 2:30 after a short illness.

Funeral arrangements for Oswalt, a resident of Wheeler county since 1910, are pending.

Survivors include his wife, one son, Leroy, a daughter, Mrs. Eule

Jean Arnold, his mother, Mrs. J. R. Brown, all of Shamrock; a brother, Lowell San Francisco, and three sisters, Mrs. Lorene Nelson, Corona, Calif., Mrs. Mary Willis, Beaumont, and Mrs. Ruth Thompson, Fort Worth. Also surviving are a step-sister, Mrs. Edna Pearl Abernathy, Shamrock, and step-brother, A. C. Brown, Shamrock.

### Chinese Navy Reported

#### Winner of 'Sea Battle'

CANTON—(AP)—The official Central News Agency today reported the Chinese navy had won a "sea battle" against a pirate fleet, forcing the freebooters to abandon the gunboat Hi Hsing and the transport Hai Tung.

There were no details. The dispatch said it still was not known whether the original government crews had escaped when pirates seized the two ships recently, or had been taken prisoner.

With the gunboat bearing the Chinese flag, it has been easy for the pirates to raid small coastal craft.

**NO FARE**

CHICAGO—(AP)—Streetcar service on South State street was halted temporarily by a passenger who had been ejected for refusing to pay his fare.

Conductor Maurice O'Connor said after he put off Willie Jones, 30, he sat on a safety island, his feet stretched across the tracks, and refused to move.

But the police squad took Jones for a free ride to Central Station, where he was charged with disorderly conduct.

### Pampa Teen-Age Girls

#### Found in Oklahoma

The three Pampa teen-age girls reported missing from their homes Tuesday night were located yesterday at Catosa, Okla., by the father of the one girl.

According to reports here today by both officials of the sheriff's office and the one girl's mother, they were returned home by the father of the visiting girls after they phoned home giving their own location.

The little aunt was merely to visit a girl friend in Catosa, Okla., but caused a police and sheriff search and radio calls from here to there until they were located.

### Gorillas Will Play

#### In Phillips Tonight

Pampa's Gorilla football team, undefeated in two starts, will try to make it three straight when they battle the Phillips "B" team at Blackhawk stadium tonight at 7:30.

The Gorillas, coached by Dick Livingston, hold 25-19 and 20-19 victories over Borger.

**Take Off Ugly Fat With  
This Home Recipe**

Here is an inexpensive home recipe for taking off unguiny weight and helping back aching curves and graceful slenderness. Just get from your drugist, four ounces of liquid Barcozate (formerly called Barcol Concentrate). Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

**Miss Brown Is  
Given Bridal  
Shower At Tea**

Miss Clara Brown, bride-elect of Harold Justice, was honored at a tea and miscellaneous shower Saturday from 3 to 5 in the home of Mrs. Roger McConnell, with Mrs. Pearl A. Mitchell as co-hostess.

**Tips for Teens**

How's your date-life—smooth and rosy? If not, perhaps today's answers will solve your problems. Can you advise me? I am a boy of 18 and have been out with several girls, but lately there's been one in particular. Now I don't seem to care for her; she's just not my type. This summer I met a girl I really like and she seems to like me very much, too. But I haven't told the first girl anything about it. I just can't seem to tell her I'm no longer interested. How should I go about it?

Boys are the ones to make the first move in gift-giving. Unless he's already gifted you, send him a friendly greeting card.

## Horse Lovers Have Conceded Tractor, Jeep Here to Stay

WASHINGTON—(AP)—Horse lovers at the agriculture department and the Pentagon have conceded that the tractor and the jeep are here to stay, but they insist the helicopter hasn't yet replaced the saddle horse.

Their considered—and, by their own admission, biased—opinion is: "There is a tremendous interest in rattle horses and trotters. It is increasing all the time, and extends throughout the country."

Col. Fred L. Hamilton, chief of the army's remount service, spoke with happy anticipation of three sales this month at which the service will offer about 400 saddle horses to sportsmen and breeders.

The first will be October 21 at Front Royal, Va., where 150 mounts will be on sale. On October 29 there will be 100 or more offered at Fort Reno, Okla., and the next day there will be another 150 for sale at Fort Robinson, Neb.

The remount service now is devoted almost entirely to the interests of the nation's horsemen. It supplies a few horses to Fort Riley, Kans., where an army jumping team is training, some more to Camp Carson, Colo., for troops in mountain training, and some to ROTC units at various schools.

"There is no more cavalry in the army," the colonel said, "but some national guard outfits are trying to get it back. We'll give them the horses."

At the agricultural department, the horse expert didn't care to be identified by name.

"If you own up to being the horse expert" around here," he said, "everybody thinks you don't have anything to do. And if that was all I did, I wouldn't have, either."

## Leaves From a Correspondent's Life Notebook

By ED CREACH

LONDON—(AP)—"What," asked the visiting American, "is this English title business about?"

"How do you tell a baron from a viscount, and why do you? What does the honorable mean in front of somebody's name? Does that mean you and I are not honorable?"

"It's very simple," said the old settler, who had been in England for almost two whole weeks. "It's largely a matter of who belongs on what rung of the social ladder—who goes in to dinner first. After the royal family, you have the dukes, the marquesses, the—"

"So, up right there," said the tourist. "Who started all this?"

"Oh, it stems from the Middle Ages, but Henry the Eighth had it put into law about 400 years ago. He had so many in-laws that he needed to know what was what."

"Anyhow, it's all down on paper. The king's nephew, if he should be a flop-eared schoolboy, would rank above the Archbishop of Canterbury and His Grace the Archbishop ranks the Prime Minister although the Prime Minister appoints the archbishop."

"Yes, as you say—very simple," said the visiting American, wiping his forehead. "Now these titles, viscount and baron and the like, pass from father to son, don't they?"

"For the most part, yes—to the eldest son. But a duke's younger sons rank the eldest sons of a viscount or an earl, and a master in lunacy."

"A what?"

"A master in lunacy can look down, if he likes, on the eldest sons of the younger sons of peers. You don't have to take my word for it. It's all down in the statute books."

"There was a long pause while the visitor drained his glass."

"I suppose," he said weakly, "all this applies to women, too?"

"Oh my, yes. Even more so, maybe. The queen's maids of honor are many cuts higher than, for instance, the wives of the eldest sons of the youngest sons of peers."

"You're no kidding me, are you?"

"Not at all; take a duke's daughter, now."

"Would she have me?"

"I don't know. But if she did, she would rank higher on the social scale than if she had married a baron."

"Well, of course," said the newcomer. "I knew I was a pretty important fellow in my own congressional district, but—say, did I understand you correctly?"

"You did. Suppose the Lady Susan Smythe, daughter of the Duke of Dorset, married you, a commoner. She would take your name but keep her title. She'd be the Lady Susan Daakes. Now, suppose her sister married Baron Billingsgate, she would become Lady—"

"—Billingsgate, but your wife would go in to dinner ahead of her. All clear?"

"Perfectly," said the American, shuddering. "By the way, what are they having for dinner? Kippers? May I escort you, or should you escort me? Or better yet, would you call up one of those masters of lunacy you were talking about? Maybe he'd better escort both of us."

Weak, Watery Blood Blamed for Making Men and Women Look and Feel Older THAN THEIR YEARS

How do you feel at the end of a day? Is that old time pep and drive lacking? Have you checked-up on your blood strength lately? Thousands regain their glowing good looks and vitality through the release of vibrant energy to every muscle, fiber and cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a general run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—this the stomach will have little cause to get balky with gas, bloating and gyle off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fit out below.

Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

## THE GREATEST BAKING POWDER IMPROVEMENT IN 50 YEARS!

1. BAKINGS LOOK BETTER! THE FOOD CALCIUM in the new KC permits more even distribution of the fine, active ingredients throughout the baking powder. This promotes more uniform action—gives bakings the light, smooth texture and inviting rich appearance everyone enjoys.

2. BETTER TASTE! New KC assures full flavor of other ingredients in your baked goods you get no soda taste from KC.

3. BETTER FOR YOU, TOO! KC makes everything you bake with it a valuable source of FOOD CALCIUM—adding 2 to 5 times more FOOD CALCIUM than the fresh milk used in a baking, depending on the recipe. Thus KC joins milk as a fine source of this vital food element.

## Galvanized Pipe Reported Stolen

In continuing wave of thievery in this vicinity thieves last night made a getaway with an undetermined amount of galvanized pipe belonging to the Southwestern Public Service Co., according to reports made to the Gray county sheriff's office this morning.

The pipe was being used for the construction of a fence around a dangerous area at the company's new sub-station now under construction at Kingsmill, an official of the company said today.

He added that he wasn't sure how many pieces of the 21 foot length pipes had been taken, but that he believed it may have been seven sections.

The sub-station is located across from the Phillip's Pump station at Kingsmill. The pipe in question is an odd sized pipe measuring about one and one quarter inch in diameter.

## Peace Parley

(Continued From Page 1) had canceled a \$40,000,000 surplus property credit to Czechoslovakia and in addition had suspended indefinitely a pending \$50,000,000 rehabilitation loan to the Czechs by the Export-Import bank.

The primary reason behind this \$90,000,000 slap at one of the countries in the Russian bloc was said to be the Czech backing of Soviet charges at Paris that the United States is resorting to "dollar diplomacy" in Eastern Europe in an effort to advance "American imperialism."

Byrnes has been in Paris for more than 11 weeks of constant negotiation and frequent conflict, most of the latter with Foreign Minister Molotov of Russia.

Leaving Washington almost three months ago for the 21-nation conference, the secretary had hoped that when his Paris mission ended he would have peace treaties with the Balkan states, Italy and Finland fully accepted by the Big Four powers in line with his plan to re-organize peace to Eastern Europe this year.

**Postponed Camporee To Be Held This Week End**

The postponed fall camporee for the Pampa district, Adobe-Walls council, Boy Scouts of America, will be held this coming weekend, it was announced today at scout headquarters, City hall.

Hugo Olsen, scout executive, said that officials of the district made an inspection tour of Lake McClellan camporee grounds this week and found them to be in good condition for the boys to use.

The camporee, which is a competitive two day camping period for the troops, will start Saturday afternoon and wind up late Sunday afternoon.

**Chamber Group Backs Bridge Construction**

SONORA—(AP)—A resolution asking for the state highway commission to construct immediately a free bridge across the Rio Grande river at Del Rio was adopted by the bi-district meeting of the West Texas chamber of commerce here yesterday.

The organization also asked the state to purchase 12,000 acres of land which lie across the entrances and exits of the Big Bend National Park.

**Loan Fund Is Set Up For University Vets**

AUSTIN—(AP)—A \$25,000 check was deposited yesterday in a loan fund for veterans of the University of Texas that provides loans without interest charges and without red tape.

The fund was established last year under the sponsorship of the University American Legion post and has operated successfully as "dead-ends" have been few in number, according to Bill Sadler, post commander.

Yesterday's \$25,000 deposit was from W. S. Gatewood, a bookstore owner on the university drag. He loaned the money for one year without interest.

**No Accidents Occur During Heavy 'Soup'**

Miracles continue to happen, or maybe motorists are becoming more alert under adverse weather conditions.

Both city police and state highway patrolmen reported today that they had not been called out to investigate an accident last night during the dense pea soup fog that enshrouded the city proper and the outlying roads. They also reported that what few cars were seen on the highways and by-ways were creeping along at about 15 to 20 miles per hour.

Either people stayed at home or were extremely careful—even the Duenkel-Carmichael ambulance was left to sleep soundly in its garage during the night.

(Continued From Page 1) tion with the investigation and that none, as yet, were "contemplated."

In the meantime, the allied control council's commission which conducted the executions disclosed that it had translations of the three notes Goering left in his cell but said the contents of the notes would not be divulged.

One of the notes was addressed to the prison commandant and there was immediate speculation that Goering might have told how he got the poison and how he concealed it—his last grim joke.

Col. B. C. Andrus, prison commandant, insisted that he believed his own personnel innocent of any wrong-doing. He said bitterly that a German attorney, perhaps in the last days of the trial, may have given Goering the poison vial that enabled him to take his own life.

In this, however, he was in conflict with his assistant, Major Fred Teich who said he was convinced that Goering had found some way to conceal the vial and might have had it in his possession ever since his incarceration after the war ended.

Teich also sought to explode a circulating theory that one of the prison guards traded Goering the poison for one of the marshal's gems. Teich said he had all the jewels safe in the prison strong-box.

News of Goering's suicide and of the execution of the other 10 men raced swiftly through the prison to the seven defendants who escaped with prison terms, to be served eventually in Spandau jail, Berlin. A guard said they received the news non-committally, but gave the impression that they were pleased Goering had escaped the ropes.

These men, including Rudolph Hess are to be transferred to Spandau some time next month, prison reports said.

## Price Lids

(Continued From Page 1) and business leaders have demanded that it be abolished.

While forecasting a quick decision on the board, officials said the stage already is set for "accelerated" scrapping of wage controls. Hence they expressed doubt that the President will consider it necessary to take any further action on this right away.

"He made his position clear on that when he said in his radio talk (Monday night) that the speed-up of price decontrol will necessarily hasten the removal of wage controls," said one official in close touch with the White House discussions.

As for the wage board, AFL and CIO members of the panel conferred yesterday with Reconversion Director John R. Steelman. They indicated beforehand they would urge liquidation of the board to permit a return to unrestricted collective bargaining.

Eat W. Willard Wirtz, chairman of the board and a public member, told newsmen after a separate conference with Steelman that removing controls on wage increases negotiated in collective bargaining would have the effect of eliminating virtually all pay controls almost at once.

Wirtz said he did not believe this course was being considered seriously.

OPA said its order removing ceilings from all vegetable fats and oils was the direct result of lifting controls on meat and items derived from it, like lard.

"The usual price relationship between lard and vegetable oils would be disturbed by the expected sharp rise in uncontrolled lard prices," the agency said.

In another ruling on food, the decontrol board decided against re-levelling ceilings on dairy products, even though it found that prices, especially for milk and cheese, have risen to an unreasonable level.

Thus the board, which only two months ago was an all-powerful supreme court on prices, faced the future with little to do.

## Newsman

(Continued From Page 1) condemned eleven who was in bed. Most of the others were pacing their cells. Some were sitting on their beds, others at the trail little wooden table in each cell.

A few minutes later, Col. Selby Little, the deputy security commandant, said to me, "Isn't that just like Goering—going to sleep on his last night?"

I still thought it was strange and so remarked to one of my colleagues.

We had been told by Col. Burton C. Andrus, the security commandant, that the trial would return and read to each condemned man the tribunal's sentence of death. That was to be the first official indication to them that they were soon to start the parade of death to the gallows.

So far as the security guard knew, none of the men had any knowledge that the executions were scheduled to start shortly after midnight.

I was walking beside Andrus and said to him: "If they don't already know it they certainly will after this visit of ours and after you have read the sentence to them."

Putting an arm around my shoulder, the colonel replied: "I know it. That's why I want to get this over with quickly."

I do not believe that Andrus was keen about the visit of the correspondents to the condemned block, but they had made a formal request to do so some days ago and he had been authorized by the Allied control council's special commission of four generals to take them through on that last night.

The mistake, in my opinion, was that we were taken through in a body. We should have been taken through one by one, or not more than two at a time.

## Chest Drive

(Continued From Page 1) Fund. Eighty percent of the quota was raised. The total amount raised last year was \$27,749.58. The national organization received \$11,261.45 of that amount.

Budgets had not been submitted this year for the local organizations. There will be no War Fund, of course.

## Re-Match of Armed, Lucky Draw Is Deemed 'Unlikely' by Horse Owner

By TED MEIER  
NEW YORK—(AP)—Turf fans who have been looking forward to the horse race of the year—a meeting between Armed and Lucky Draw at equal weights—seem doomed to disappointment. The reason: Armed, famed gelding from Warren Wright's Calumet farms, may be rested until next year.

Ben Jones, trainer of the Calumet star, has told New York friends that Armed has lost considerable weight and it is doubtful if the son of Bull Lea will regain his form in time for the \$50,000-added Trenton handicap Oct. 26.

It was the mile and one-eighth Trenton at Garden State park at Camden, N. J., where racing fans had expected to watch Armed and George D. Widener's comeback champion of the year, duel at equal weights. Each had drawn top weight of 130 pounds for the state in contrast to their meeting in the Narragansett special where Lucky Draw, with a seven pound pull in the weights, finished first.

"Unless Armed improves very rapidly," Jones said at Garden State where the Calumet string now is stable, "I will retire him for the year."

"He has earned a rest," Jones said.

## Borger, North Side are Only Teams With Un-Crossed Goals

Stopping a flashy offense and on-iron-clad defense sported by the Borger Bulldogs is the job cut out for Pampa's Harvesters here tomorrow night in their first conference game of the season.

The Bulldogs are the first of two undefeated, united and unscorred outfits the Harvesters must face.

On paper, Borger is even better than North Side, with a 77-point total in three games while North Side has scored 76 points in four. Neither team has had its goal line crossed.

However, the Harvesters are forgetting North Side as they swing into District I-AA conference play this week.

Coach Cliff Coffey's "T" trickery will be matched against Frickley's single wing style and the resulting fray is expected to show high-scoring offensive play, with both teams piling up the yardage but still resulting in a tight scoring duel.

Milton Price, Borger's great quarterback, was selected as one of the top 10 riders of last line crossed. Fort Worth Star Telegram in its Monday roundup, included among other gridlers selected were Amarillo's Hariand Collins and Center Wendell Foteet of North Side.

Practically all Harvester regulars will see action, although some few are due to play only a limited amount this week.

Tackle Gary Cooper who may not start but Coach Coffey said this morning that Cooper would probably get to play as long as there was no immediate danger.

Center and Captain Maurice Lockhart also may see limited action due to a slightly injured leg.

Several shifts in positions have been made on the Harvester squad. Bob Boyles has been moved from guard to end. Bill Bain is learning the tricks of the trade at center.

Tom Elson, who is a tackle and Ronald Bump is at guard.

Reports from the Bulldog camp indicate that the Borgans had their best workout of the season yesterday and Ward was highly pleased with his gridlers as they prepared for the invasion of Pampa.

The Bulldogs have been working against Pampa plays, working out a tricky defense against the Pampa "T".

In addition to attempting to win tomorrow's game, the Bulldogs have avowed that they will keep their record of being unscorred on Oct. 18 when they meet North Side.

Borger and North Side are the two sole unscorred-on teams in Texas.

The Pampa-Borger tilt will be the lone conference game in District I-AA this week.

Amarillo and Brownfield battled a week ago with the Sandies coming out on top by the surprising score of 7-0 (or the lone conference game so far this season).

**National Leads in Attendance Receipts**  
NEW YORK—(AP)—The National football league leads the All-America conference in average attendance in the knock-down-drag-out battle of the gate receipts but both professional circuits assert business is good and promises to get better.

In the first 16 games of the regular season, the top teams of the established National league have played before a total of 506,358 fans—an average of 31,647 per game.

The eight teams of the new All-America conference, having played 23 games, have an initial championship schedule, have appeared before 448,861 fans—an average of 28,211 per game.

Officials of the National league point out their attendance to date is 47.2 percent above the first 16 games of 1945, a year which wound up as the best in the loop from the standpoint of drawing power is not from the standard of play.

**Texas Industrialist Plans English Plant**  
NEW YORK—(AP)—Carl L. Estes, publisher of the Longview, Texas, News and Morning Journal left today by plane for London accompanied by Robert G. LeTourneau, manufacturer of earth-moving machinery.

Estes, who said he was accompanying LeTourneau "just for the rice," told a reporter he wished to comment on President Truman's Monday night radio speech decontrolling meat as follows:

"This is the first time in knocking the props from under our controlled economy, which has been only a smoke-screen for communism. We can now begin to return to the American way of life."

LeTourneau said he was going to open a new plant at Stockton-on-Tees, England, which will employ about 400 persons. The two were accompanied by Robert F. Nelson, vice president of the LeTourneau Co.

**Wisconsin Entries Win at Texas Fair**  
DALLAS—(AP)—Two entries from Wisconsin won both championships in the Holstein cattle show at the State Fair of Texas yesterday.

Strathmore, Prince Hengenbold, owned by Alvin R. Piper of Watertown, Wis., was judged grand champion bull. Oostie Premier Elizabeth Calantha, owned by Oosterhuis farms of Oostnowoc, Wis., was named grand champion cow.

A white rock pullet owned by Hez F. Ray of Bonham won top honors in the poultry judging.

A young Tom turkey from R. E. Janes' Bar Nothing Ranch, Austin, was named grand champion on the broad breasted bronze turkey class. The entry of Lee and Smith farm, Midtown, placed first in the broad-breasted turkey hen record of performer class.

A hen exhibited by Tip Hall of Denton won the standard bred turkey class.

Trees do not grow up; marks on the trunk do not move upward as the tree grows older.

In Basingstoke, England, two mushrooms lifted up an 82-pound paving block which had been cemented down.

## Scott's Scrap Book

By SCOTT RAFFERTY  
Gussing football games is just like pinning the tail on the donkey but here goes again.

District One: Pampa over Borger—A rough one in anybody's language. We'll get some argument on this one.

Odessa over Amarillo—This coin we are flipping is going to get worn out this week.

Sweetwater over Plainview—By about the same score as the Mustangs beat Pampa—19-0.

Lubbock over Abilene—The West-coasters are in for a tough one but they shouldn't have too much trouble.

Big Springs over Brownfield—Another loss for the District One celebrants but they'll score in this one.

Southwest: Texas over Arkansas—The Porkers are hot but Texas will clamp the controls back on. It's beef versus pork.

Texas Tech over Baylor—The Technicians rebounding from the defeat at Tulsa.

Rice over Southern Methodist—There's that coin again.

Texas A. and M. over Texas Tech—The punchless Frogs should have had a top-notch ball club.

South: Alabama over Tennessee—not too easy but sticking with Gimer and company.

Tulane over Auburn—Another one of these rebound deals.

Georgia Tech over LSU—The Rainlin' Wreck hitting its stride.

Midwest: Illinois over Wisconsin—The coin, Peves.

Indiana over Iowa—Ho hum. Missouri over Iowa State—But you'll have to show me.

Michigan over Pittsburgh—Let's see what was that Army-Michigan score again?

Oklahoma over Kansas State—The Scorpions will not only win this one but probably all the rest of the Big Six encounters.

Alabama A. and M. over Georgia Tech—Who ever heard of Bob Fenimore and company losing three straight? chasing the Ford up and down the Tulsa over Detroit—The Hurricane field.

East: Army over Columbia—Common sense tells us but the sixth sense is undecided.

Harvard over Coast Guard—Harvard back in the limelight.

Pennsylvania over Virginia—We can't bear to look.

Cornell over Yale—The Lions to lock the door on Yale.

Out West: California over UCLA—But don't ask us why.

St. Mary's over Fordham—A real interesting game.

Southern Cal over Washington—Wish we could say the same for this one.

Stanford over Santa Clara—Time out for a breathing spell.

**Busy Buzzing Bees Have Record Crop**  
AUSTIN—(AP)—The bees have been buzzing along at a merry clip in their honey producing activities this year and should end the season with 16,200,000 pounds of honey to their credit in Texas, the United States department of agriculture estimated today.

Such production would represent a 43 percent increase over last year's crop of 7,923,000 pounds.

American women use a total of 2375 tons of rouge every year.

Switzerland has more people over 60 years old living within her boundaries than any other country in the world.

## Amarillo-Odessa Meeting Tops 49-Game Schoolboy Grid Chart

By HAROLD V. RATLIFF  
AP Sports Writer

Following a Texas schoolboy football will find out Friday night if it's true what they've been hearing about Amarillo's Golden Sandies and Odessa's Bucking Broncs.

Before the season starts, these two teams were ranked with the best; often they have been mentioned as a quarter-finals opponents in the state play-off. That would mean they'd have to win their district titles and take bi-district decisions.

Of course, between them and such a game are teams like Wichita Falls and Sweetwater, a couple of eleven (that fought to a sensational tie in an interdistrict game not long ago).

But for the moment it's what Amarillo can do with Odessa and vice versa at the district level, these teams battle in the state's No. 1 game for the week.

This interdistrict contest headlines a card of 49 contests of which 32 all have games games involving 14 of the 16 districts.

The feature tilt in the title race matches Gainesville with Sherman at Sherman Friday night. They, too, are undefeated and noted and from this battle is expected to come the eventual District 5 champion.

Down in South Texas Corpus Christi's high-scoring Buccaneers meet a tough district foe, the unbeaten but once-tied Thomas Jefferson Mustangs of San Antonio. This game will show pretty well how the wind's blowing as the district furnishes an opponent for Austin's top-favored Maroons.

District 10 has some outstanding games with Waco going to Waxahachie and Temple to Bryan. These four teams are undefeated in the conference race to date.

The state's 15 undefeated, untied teams are due to fall to around 10 as all have games except Brackenridge of San Antonio.

In addition to the Amarillo-Odessa, Gainesville-Sherman and Corpus Christi-Jefferson tilts, Borger plays Pampa, Graham meets Childress, North Side (Fort Worth) takes on Amos Carter-Riverside (Ft. Worth).

Marshall plays Highland Park at Dallas. Milby (Houston) tangles with Jeff Davis (Houston). Galveston entertains Cleburne. Orange plays South Park (Beaumont). Austin is host to Austin (Houston) and Edinburg plays Harlingen.

The week's schedule by districts: 1—Friday: Odessa at Amarillo, Borger at Pampa (conference), Sweetwater at Plainview, Big Spring at Brownfield.

2—Friday: Wichita Falls at Electric (conference), Vernon at Quanah (conference), Childress at Graham (conference).

3—Friday: Lamesa at San Angelo (conference), Lubbock at Abilene.

4—Thursday: Las Cruces, N. M., at Austin (El Paso); Friday: Bowie (El Paso) at Phoenix, Ariz., El Paso High at Yuleta (conference).

5—Friday: Paris at Denison (conference), Gainesville at Sherman (conference), Greenville at Bonham (conference).

6—Friday: Forest (Dallas) vs Sunset (Dallas) (conference); Saturday: Adamson (Dallas) vs North Dallas (conference).

7—Friday: Breckenridge at Stephenville (conference), Weatherford at Mineral Wells (conference), Brownwood at Ranger (conference).

8—Friday: Waco at Waxahachie (conference), McKinney at Ennis, Hillsboro at Corsicana (conference), Temple at Bryan (conference).

9—Friday: Longview at Henderson (conference), Jacksonville at Gladewater, Tyler at Texarkana (conference).

10—Friday: Kilgore at Nacogdoches, Arlington at Palestine, St. Thomas (Houston) at Conroe.

11—Thursday: Milby (Houston) vs Jeff Davis (Houston) (conference); Friday: San Jacinto (Houston) vs Lamar (Houston) (conference);

Saturday: Reagan (Houston) vs Sam Houston (Houston) (conference).

14—Thursday: Orange at South Park (Beaumont) (conference); Friday: Goose Creek at Beaumont (conference), Cleburne at Galveston, Port Arthur at Pasadena (conference).

15—Thursday: San Antonio Tech vs Harlandale (San Antonio); Friday: Central Catholic (San Antonio) at Kerrville, Austin (Houston) at Austin, Corpus Christi at Jefferson (San Antonio) (conference), Texas Military Institute (San Antonio) at Laredo.

16—Friday: Robstown at McAllen (conference), San Benito at Kingsville (conference), Edinburg at Harlingen (conference).

## Reapers Battle Nixon Tonight

The Pampa Junior high Reapers will attempt to move into first place in the Panhandle Junior High league tonight when they meet the undefeated, untied eleven from Elizabeth Nixon Junior high, Amarillo, at Harvester park at 7:30.

On paper the Reapers go into the game the underdogs, having two scoreless ties and one win to their credit as compared with Nixon's two wins in two games. The Nixon eleven is reported to have a considerable weight advantage.

The Reapers, who are out to upset the favorite, have some definite ideas about the way this game should go and are in excellent condition for a first class battle tonight. In three games this season the first string Reapers line has not been scored on.

## Lefors To Play Shamrock Eleven

LEFORS—(Special)—Weakened by injuries that have definitely benched one regular and slowed will official recreation which acts with travel to Shamrock tomorrow night where they will meet the strong Irish eleven of that city.

Seeing the game from the sidelines is the Hulfack, Eugene Cooper, Coach Joe Champion says, Cooper; will not be able to play for at least a month. Jimmy Williams will take his place.

Lefors will be trying to protect a two-year win streak over the Irish. A powerful Pirate eleven stomped Shamrock, 44-14, in 1944 and won a 20-0 contest last year.

Shamrock will outweigh the Pirates by 14 pounds to the man tomorrow night. The Irish average 163 pounds per man while Lefors still average barely 149.

Probable Lefors starters will be Ogden and Keeton, ends; E. Danks and Cole, tackles; Cullison and Jinks, guards; Doom, center and Williams, sims, Gatlin and Stracener, backs.

Coach Scott McCall at Shamrock will probably start Terry and Morgan at ends; D. Briggs and E. Briggs at tackles; Brower and Johnston at guards; Douglas at center, and Cox, Ed. Ramsey and Cise in the backfield.

January is named for the Latin god, Janus, god of gates and doors, and hence, of beginnings.

## Last Words of Nazis Recorded

NUERNBERG—(P)—Here are the last words of the Nazi war criminals hanged yesterday:

Joachim Von Ribbentrop, Nazi foreign minister: God protect my

Germany. My last wish is that Germany realize its entirety and that an understanding be reached between the East and West. I wish peace to the world.

Julius Streicher, Jew-baiting editor: Heil Hitler and now I go to God. Purim Feast, 1946 (Purim is a Jewish springtime festival to commemorate the deliverance of Jews

from Haman, who was hanged by King Anasuerus—Xerxes—for his plan to massacre the Jews in Assyria) the Bolsheviki will hang you one day. I am with God. Adele, my dear wife.

Field Marshal Wilhelm Keitel, chief of the high command: I call to God Almighty to have mercy on the German people. More than 2-

000,000-German people went to their death for the fatherland before me. I follow now my sons—all for Germany.

Ernest Kaltenbrunner, a Gestapo chief: I have loved my German people and my fatherland with a warm heart. I have done my duty by the laws of my people and I am sorry my people were led this

time by men who were not soldiers and that crimes were committed of which I had no knowledge.

Arthur Seyss-Inquart, Austrian traitor: "I hope that this execution is the last act of the tragedy of the second world war and that a lesson will be learned so that peace and understanding will be realized

among the nations. I believe in Germany.

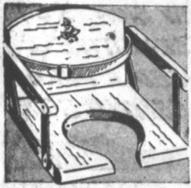

Hans Frank, governor general of Poland: I am thankful for the kind treatment I have received during my captivity and I pray God to receive me mercifully.

Wilhelm Frick, protector of Bohemia and Moravia: long live eternal Germany.

Staff of the army: I salute you, my Germany.

Fritz Sauckel, slave labor boss: I die innocently. The verdict was wrong. God protect Germany and make Germany great again. Let Germany live and God protect my family.

# OVER IN CHINA, YOUR U. S. MONEY HAD BETTER BE FRESH AND CRISP!

By ROY ESSOYAN  
 SHANGHAI—(AP)—American greenbacks, however highly rated elsewhere on the globe, are disdainfully deflated by Shanghai money-changers unless they're fresh and crisp—like a toasted breakfast cereal.

Even so, if it isn't a 10 or 20-dollar bill, the black market financial wizard fixes you with a baleful eye and calmly discounts the currency like a used toothbrush. And, at the going exchange rate of 4,100 Chinese dollars to one U. S., he hands you bills that look like they had

been used as insoles for Chinese army shoes.

This is a city where a U. S. dollar is worth anything from 90 to 95 cents, but never a dollar. Shanghai's financial foundations shift like desert sands, with the value of American money (here, it's called gold) subject to more changes than an old maid's mind.

An unidentified but expert engineer somewhere in the city began turning out a remarkable likeness of a U. S. \$50 bill, which resulted overnight in a substantial reduction of the value of the real thing on the Shanghai black market. Some merchants, even after a minute scrutiny flatly refuse to accept a fifty.

If a genuine U. S. \$10 note appears as if it has changed hands as few as a half-dozen times, it's worth only \$2.50 (or 39,360 Chinese dollars). If it has seen more wear, although undamaged and relatively clean, it's worth only \$1.50. Ten one-dollar bills, according to Shanghai's self-made banking rules, bring only slightly more than the equivalent of 80 cents apiece in tattered Chinese "lettuce."

A U. S. \$100 note, regardless of its

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

## Meat Supply Is Still Short

(By The Associated Press)

The first day after the lifting of meat controls saw the nation still on short meat rations, and prices—where supplies were available—substantially above OPA ceilings.

In some sections of the country the price for live-hogs soared to all-time highs.

A survey conducted by the Associated Press in the nation's principal cities found predictions regarding ample supplies ranging from "by the coming weekend" to "not until Thanksgiving."

Asking prices in New York City ranged from former ceilings to a flat "dollar-a-pound for anything you see." Prime ribs of beef rose from 44 cents a pound to 61¢ at one big market. Porterhouse steak from 57 to 75 cents and hamburger from 29 to 39 cents.

Clyde F. House, U. S. department of agriculture market analyst in New York, said little meat was sold "openly" by wholesalers.

He provided these sample prices: Cow beef—\$50 a hundredweight compared with the former ceiling of \$35 or more, demanded as "key money" to obtain entry into the dwelling. No one can guarantee that the renter will get his "key money" returned upon leaving the place. As one veteran Shanghai businessman put it, no one here can guarantee anything.

\$29.50; good and choice steer beef—\$65 to \$60, compared with \$25.50 to \$28.75; commercial veal—\$30 to \$36 compared with \$28.50; good and choice veal—\$32 to \$50, compared with \$25.50 to \$28.50, and good and choice lamb, \$40 to \$60, compared with \$34.

Prices for live hogs rose to local all-time highs in Richmond, Va., and Omaha. In the Virginia City the price was \$27 per hundred pounds compared with Monday's ceiling of \$16.30, while in the latter city where the ceiling was \$15.90, live hog prices were quoted at \$27.50.

Cattle prices, too, were at a new high in Omaha. The price: \$30 per hundred pounds compared to the OPA ceiling of \$19.90.

In Kansas City, most grocers had no meat. Major packers and meat suppliers promised no deliveries in less than 15 days.

There are said to be more than 300 types of common steaks.

Yellow mustard stimulates the flow of digestive fluid and a strong dose administered in water acts as an emetic.

Dry mustard is known as a good antiseptic and sterilizing agent and is an excellent deodorizer.

## Russia's Defense Budget May Be Cut

MOSCOW—(AP)—Soviet finance minister A. G. Zverev recommended to the supreme Soviet (parliament) last night a reduction of 53,800,000 rubles in Russia's defense budget for the next fiscal year.

(This would be about \$11,095,000,000 at the official exchange rate of 5.3 rubles to the dollar.)

Zverev, at a joint session of the body, proposed that 72,000,000,000 rubles be spent for defense in the new fiscal year.

He explained that the Soviet Union's main expenditures during the year would be connected closely with the first five-year plan.

The finance minister did recommend, however, that Russia spend 5,000,000,000 rubles to "develop science for the further growth of these economic and military might of the Soviet Union."

Last year's expenditure for this item was 2,900,000,000 rubles.

The Union of South Africa was established in 1910.

I'm doing a great deal of lobbying, and other navy leaders are doing the same thing. We want the atom bomb outlawed.—Fleet Admiral Nimitz.

Down on the farm:  
The Circleville philosopher wants to know that all this opposition to mechanical cotton pickers must stop.  
On page one of the Granger News he says:  
"One man I heard over the radio said the mechanical picker ought to be outlawed as it would only increase unemployment."  
"Now I ain't got much cotton myself and won't have until they invent a variety that can choke our Johnson grass and cocklebur and

grows up volunteer every year, but what I want to know is what business has some city man riding to work in a mechanically-cooled office in a mechanical elevator got to be opposed to something mechanical to help the farmer out?  
"I myself ain't picked much cotton since my rheumatism developed which was just as soon as I found out rheumatism was good excuse for not pickin, but if somebody has a machine for pickin the stuff he needn't be holdin it back just because it might displace me in a cotton patch."  
As for throwing people out of work, he had a simple solution. Just let the government subsidize the displaced cotton pickers.  
"As a matter of fact," he confided, "I know the people doin the pickin wouldn't mind as after all doin nothin and gettin paid is better than pickin, and it's simpler and they can do it in the shade."  
The Circleville philosopher, some say, is Henry Fox, of the News. We're not sure, but we do know his copy is widely read, and reprinted.

Judy, the recalcitrant mule from Runge, is a changed person just because someone roped her once.  
Judy belongs to the Olin-Brown ranch. She and Sam, a horse, team up. In the past ranch Manager Bill Howell would walk up to her with a rope. She didn't mind that and wouldn't run, but she didn't like to be harnessed.  
Howell was hurt, and two boys lassoed Judy, searing her out of what wild she had.  
When the manager recovered and went back to work, Judy ran from him when he approached as usual with his rope.  
So Howell began to harness Sam. Judy immediately walked up, stood beside the horse, and placidly let herself be harnessed.  
It's been that way ever since. She won't let herself be touched by a rope, but doesn't mind being harnessed now.  
Boots originated in Greece and half shoes, or oxfords, appeared in Europe during the Middle Ages.

**WALL STREET STOCKS**  
NEW YORK, Oct. 16—The stock market settled into lower price ground today after a fast opening had lifted prices from a around 20 points.  
At the close losses, some fairly substantial, outweighed small gains.  
In the last few months of trading, volume picked up as the downward trend became more pronounced. Turnover was around 1,000,000 shares.  
American Woolen shares jumped outside the market's range following announcement of a \$12 1/2 share common dividend and \$58.50 share preferred. The preferred bounded as much as 15 points at one time and the common 5. Extreme advances were pared by the close.  
American Telephone closed around a point higher, with demand prodded by stockholder approval of a huge financing program and announcement the company expected to maintain the \$9 annual dividend rate despite issuance of new shares.  
Also ahead were Goodrich, Sears Roebuck, General Electric, Union Carbide, J. C. Penney and Coca Cola.

**NEW ORLEANS FUTURES**  
NEW ORLEANS, Oct. 16—(AP)—General selling in cotton futures here today, discouraged a break with a drop in prices. The limit of fluctuations—\$3.10 to \$10.50 a bale below yesterday's close.  
The huge selling pressure was based on the idea that decontrol of textiles would favor a selling market, instead of a buying market; and also that a competitive situation among mills will result in lower prices.  
Closing quotations were 182 to 218 points net lower, with the market tone called "duller at limit."

**WILL IT BE "BOOM AND BUST"?**

In a thoughtful article, David Lawrence observed that our economic system is out of balance due to the war—and has been kept out of balance by the Administration's "floundering policies on wages and prices and by tendency of labor union politicians to be shortsighted. Their increased production are backfiring in the form of high prices which, in turn, will backfire because the prices in many instances will be too high for the public to pay.

"The vicious circle has to end somehow. It can end in one of two ways. Either a depression will come which will open the eyes of the people, including shortsighted labor leaders. Or else leadership will arise from government or Congress or the ranks of labor to apply restraints on the arbitrary use of economic power. . . . The policy of . . . encouraging 'more pay for less work' has been disastrous.

We are hearing much talk of "boom and bust" now, and it is coming from responsible circles. It is reported, as a typical example, that automobile makers are becoming definitely worried that the greatly increased prices for cars will prove to be a strong sales depressant. And these higher car prices like all other prices, are mainly the result of big increases in pay to labor with an actual decrease instead of an increase in labor's productivity.

We're moving swiftly toward some kind of a climax. Labor should begin to wonder just what its unbridled demands may do to it in the future.

## In Hollywood

**By ERSKINE JOHNSON**  
NEA Staff Correspondent  
HOLLYWOOD, (NEA)—We have with us today "The Neck," a new picture by the name of Dewey Robinson who specializes in tough film characters, from mugs to murderers. Maybe you don't recognize the name Dewey isn't a star—but you know him when you see him. He's played in 401 movies—and that's a record.

Like Betty Grable (The Lees), Marie McDonald (The Body) and Lauren Beall (The Look), Dewey acquired a pin-up title during the war.

He was working as a bus boy at the Hollywood Canteen one night when a sergeant from Brooklyn who knew Dewey's face but couldn't remember his name, called out: "Hey, look, there's the Neck."

Since then Dewey has been getting fan mail addressed merely, "The Neck, Hollywood, Calif." but at home, he blushing confessed, his wife still calls him "Doll Face."

Dewey's neck stems from sheer dimensional proportions. He has the thickest neck in Hollywood—and there's no argument about it. It's a size 23, as against the average neck-size of 16 or 17.

He has never been able to buy a jacket, shirt, collar or the ready-made. His shirts, suits, collars and ties are all custom-built.

During the shirt shortage, his wife managed to get identical average-sized shirts. She cut them down the back and sewed them together, so that Dewey could appear publicly unfrayed and unfrayed.

Dewey's custom-built neck once got out of adjustment, and Dewey wound up putting an osteopath out of adjustment.

He was touring with the Mark Brothers in "A Night at the Opera." In Spokane, Wash., he contracted a stiff neck.

Groucho insisted on taking Dewey to a local osteopath. The osteopath couldn't get a grip on Dewey's king-size neck on his adjustment table, so he went to work on Dewey on the floor.

Dewey's neck involuntarily jerked, throwing the osteopath into a backward somersault and knocking him out.

Dewey remembers the aftermath with a grin: "Groucho was so enchanted with our little performance that he offered the osteopath a big salary to join the show, putting on the same act."

**DEWEY IS KING-SIZE**  
We found Dewey playing "Louis the XV," opposite the fine Haver's "Mme. DuBarry" in the 20th Century-Fox musical "I Wonder Who's Kissing Her Now."

Neither the wardrobe department nor a single Hollywood costume company could produce a royal

## Gracie Reports

**By GRACIE ALLEN**  
Hey, girls, they've got meat in Minneapolis! Honest! On Monday 5,000 pounds of steaks, roasts and other choice cuts of meat were on sale. How come? It's buffalo meat, and it seems there's no OPA ceiling on same.

Well, those Minneapolis housewives are mighty lucky to live where they still have buffalo. In my part of the country they seem to be extinct—along with pigs, cows and lambs.

Now I don't say I'm going to move away from glamorous Hollywood but I will admit that song, "Home On the Range" has been running through my mind with slight lyric changes. Something like this: "Oh, give me a home where the buffalo roam, and there's meat on the hoof every day. Where seldom is heard a discouraging word, because there is no OPA."

You take it from there, girls. I have to prepare my husband's vegetable dinner.

## Undeclared War Is Charged by Greeks

**PHLORINA, Greece—(Delayed)—**—Greeks fighting off leftists in this area charged yesterday an "undeclared war" was being waged from Yugoslavia.

"Greece is a victim of undeclared war, directed and financed from Yugoslavia," said Anastassios Dalipis, deputy governor of western Macedonia at Kozan.

A major in personnel at army headquarters in this frontier town at the foot of Monastir Pass said "uniformed Yugoslav troops in regular military formations made an attack on two Greek border posts in the last two days."

### AMERICAN POLICY IN THE MEDITERRANEAN

WASHINGTON—(NEA)—Behind all the polite passing-around of international notes on what to do about controlling the Turkish Straits or the Dardanelles, there is one question every U. S. citizen should know the answers to. It is, "What business has the United States in such affairs?"

If you go for the Henry Wallace point of view, "We could recognize that we have no more business in the political affairs of Eastern Europe than Russia has in the political affairs of Latin America, Western Europe or the United States."

This is also the view of the American isolationists is a strange coincidence. But the case of the Dardanelles is a perfect example on which to test the Wallace doctrine. There are a number of angles.

From a coldly practical standpoint the United States has a direct interest in what goes on there. The U. S. army is occupying Austria. The Danube river flows through Austria and on east to the Black Sea. The Black Sea gets to the Mediterranean and the rest of the world through the Dardanelles. Free movement of commerce on all international water ways is a primary U. S. objective in promoting world trade.

### MACKENZIE'S Column

**By J. M. ROBERTS, JR.**  
AP Foreign Affairs Analyst  
(Subbing for MacKenzie)

Some months ago, in spite of all the fanfare and the diplomatic "victories" of the Western powers, the Iranian province of Azerbaijan was detached from control of the central government and moved into the Russian sphere.

Now a comparable process is at work in Greece, with some differences. No "autonomous" regime has been set up behind a shield of foreign military occupation. The Greek government has an army, and British military support has not been withdrawn as it had been from Iran.

It is quite probable that no answer will be provided on these points. The British can be expected to see to it that the Athens government gets sufficient help to put down the trouble, if the insurgents do get outside help. It must remain clandestine and therefore insufficient unless the Slav bloc is willing to take chances which hardly seem reasonable.

It is true that northeastern Greece and her adjacent islands control, under proper military conditions, the western approach to the Dardanelles. But there is every indication that Russia doesn't want even the Dardanelles itself bad enough to take a chance on war over it, much less over its approaches. There is, indeed, every evidence that, in spite of the differences and jockeying for position, none of the powers is going to take any really dangerous steps any time soon.

The state of the world may be comparable with 1936, but hardly yet with 1939. As a matter of fact, it is not demonstrable that the Greek trouble is attributable to Moscow. Balkan peoples are sufficiently habituated to their own quarrels to carry them on without outside help. Yugoslavia, Albania and Bulgaria are a likely to be caught working against Russian interests, but Moscow doesn't attempt to direct their every move, either.

If spontaneous activities produce a profit for the Soviet, well and good, but if the gravy bowl is too hot to hold, don't reach for it. That is Russia's position regarding Greece.

The United States atomic energy proposals as presented by Mr. Baruch have been variously described in glowing and in derogatory terms. One thing is clear about them. They have not solved the problem.—Henry A. Wallace.

## RUSSIA INSISTS IT'S A LOCAL MATTER

The United States led off the parade last November by proposing three principles. The straits should be open to merchant ships of all nations. It should be open to war vessels of the Black Sea powers—Turkey, Russia, Bulgaria and Romania. Warships of other nations should pass through only if given special permission.

Everybody seems willing to accept these three points. But the Soviet government has a couple more. Russia believes control of the straits should be the concern of only the Black Sea powers and defense and fortification of the straits should be the concern of only the Black Sea powers.

To these two points the Americans, British and Turks object. The American position is that defense should be left to Turkey alone, because the Turks occupy both shores and both ends. In case of war, if Turkey were unable to defend the Dardanelles the force of the United States Security Council would be thrown to its support.

As matters now stand, the United States takes the simple position that it is willing to sit down and talk about this with other interested parties, any place, any time. The Turks say they'd be happy to have the United States sit in on the convention's revision.

Incidentally, Japan was a signatory to the Montreux Convention of 1936. The United States has good reasons for taking over the seat of the Japs.

Lewis victory in William Green's recent address before the federation's convention. The A. F. of L. president followed the Lewis line from start to finish.

The shift was not entirely unexpected, for the Welshman has spent hours trying to convert "Bill" ever since he brought his miners back into the older organization's fold.

**ENEMIES**—Although Mr. Green was a key champion for continuation of OPA at congressional hearings last spring, he called for the end of price controls in his address to the fall convention. He echoed the Lewis demand for a return to the system of private initiative and collective bargaining.

Needled by the shaggy-browed mine boss, the A. F. of L. head unleashed a fierce attack on Communist infiltration into the ranks of labor. Although he did not mention water on Philip Murray by name, he obviously aimed at the leftists' alleged domination of the rival C. I. O. And there are no bitter enemies in the workingman's world than John L. Lewis and his former subordinate, Mr. Murray.

**FUND**—Mr. Green's aping of the U. M. W. leader's policy was almost comical. Taking a leaf from the Lewis manual of arms, he demanded that American industry establish the same sort of welfare fund for all workers that John L. obtained

for his men in his recent negotiations with the coal operators. That last demand forecasts trouble for the Truman administration when existing contracts with the heavy industries expire next spring and summer. Although the A. F. of L. may not demand outright wage increases, the Green-Lewis forces probably will insist on welfare subsidies to be paid by industry.

As it did in the case of coal, this would mean a general increase in the retail price of all products.

**INDIFFERENCE**—The labor leaders' desertion of the democrats does not insure that their followers will vote against the party in power next month or in 1948. When Mr. Lewis voted for Wendell Willkie in 1940, and declared that he would resign as head of the C. I. O. if F. D. R. was re-elected, there was no visible sign that he influenced a single vote in the coal-mining regions of Pennsylvania, West Virginia, Kentucky, etc.

But the Green-Lewis quarterbacking may affect the political play under existing circumstances. For one thing, Mr. Truman does not pack the personal appeal and charm for the masses of labor that his predecessor possessed. Indeed, he has exhibited striking indifference toward such leaders as Messrs. Green and Lewis.

**GRIEVANCES**—Secondly, the

workers now have grievances which they did not have in 1940 and 1944. Rising prices have offset their wage gains since V-J day. They lack food, shelter and other necessities. Wartime pressures have been relaxed and they feel free to impose new demands.

There is also the fact that the death of Sidney Hillman has weakened the political power of the C. I. O. Both Mr. Green and Mr. Murray were always dominated by the strong-minded John L. when they were associated in the same movement. As a matter of fact, many C. I. O. unions are dicker for a return to the Green-Lewis organization.

Seen in this light, the A. F. of L.'s changed attitude may have a greater effect on the November 5 balloting than any other factor.

**PLEA**—Florella H. LaGuardia made an earnest plea to Marshal Tito to call off his campaign against the Catholic church when the UNRRA director general visited the Yugoslavian leader on his European inspection trip a few years ago. The marshal has been excommunicated by Rome for his prosecution of Archbishop Stepinac.

"You cannot take mother church, the Virgin Mary and the love of God from these people," declared LaGuardia. "Those things are in their hearts, and you cannot tear them out."

"I don't want to do that," replied

Tito. "My position is that the priests should manage the affairs of the church—the religion. But I insist on managing the affairs of the government."

**WISECRACK**—The following wisecrack, presumably sponsored by a Yale man, is going the rounds of cocktail and dinner parties at the Capital.

"Franklin D. Roosevelt, being a Harvard man, surrounded himself with a lot of his fellow alumni, and a Harvard class virtually ran the country. Now Washington is full of Missouri mules, and darned if you bridgians to high posts, notable Un- can tell the difference!"

Note: As a matter of fact, F. D. R. named as many Yalensians as Commander Secretary of State Dean Acheson, Congressional Librarian "Archibald" MacLeish, Supreme Court Justice William O. Douglas and former Treasurer under Secretary "Johnnie" Hanes.

**EDITOR'S NOTE:** Ray Tucker is a Yale '15.

**SEA-SOFTENED**

## Pampa Food Market Offers Fine Service

Pampa's friendly market—that's the Pampa Food Market, located in Pampa at 518 South Cuyler and owned and operated by B. A. Ricketta, who opened the store in January of this year.  
Many years in the grocery business have made it possible for Mr. Ricketta to maintain one of the most complete, small stores in the city. Here, the shopper may find all kinds of canned goods, staple items, fresh fruits and vegetables, meats, fresh bakery products and the finest in friendly, economical service. With its Red and White affiliation the store is able to purchase all the high-quality foods and pass them along to the customers at a good saving.  
Each week the store features specials that afford the shopper a good opportunity to buy at a saving and avoid the downtown rush without driving too far. Shopping at the Pampa Food Market is convenient, too. A policy of self-service is maintained and "handy grocery carts and baskets are provided.  
Remember for courteous, home-like trading at a store that is complete in every detail, shop at the Pampa Food Market, 518 South Cuyler street. The telephone number is 2183.

STANDARD SUPER SERVICE is a feature of the C. V. Newton and Son Service Station, 623 W. Foster St. . . the best way for a motorist to learn, how thorough this service "gets the job done" is to try it the next time you need gas, oil or a wash or Simons job.

## Work on Building Is Progressing

Construction on the huge new building which will house the Motor Inn Supply is progressing rapidly and the owners hope to move in to their new quarters in the near future.  
The new building, a huge brick structure, is located in the 400 block on West Foster street, directly across from the Pampa Ice company.  
Until the location is changed, the firm is ready to serve you at its present location, 107 East Francis street.  
Here you will find a complete stock of all the available auto parts—large or small and the clerks will make every attempt to find just the thing you need for your car.  
The firm is owned by Crawford Atkinson and Luke McClelland. Agents cover a wide area with a complete stock of parts and supplies.  
For the individual or the firm, Motor Inn offers a truly complete parts service.  
The telephone number is 1010.

**PAMPA LUBRICATING COMPANY**, 114 East Francis, has the equipment and the products to SERVICE your car right—the widely known Quaker State Oils and Greases, Danciger Gasoline, tires, batteries, accessories, etc. . . are part of the facilities to "keep the old bus road fit."  
THE FAMOUS BEAR WHEEL ALIGNMENT process has, according to expert opinion, saved more lives and auto wrecks than any one agency now used to keep automobiles "roadable." An approaching crack-up in your steering gear rarely ever lets you know it BEFORE it happens—you can be going ten miles an hour or sixty—well, it's just too bad if you are going sixty—see McWilliams Motor company, 411 South Cuyler TODAY for a wheel alignment check-up; today.

## Transportation Still Needed for Workers

Lack of transportation is hampering dismantling work at the McLean prisoner of war camp and more cars are badly needed, according to L. F. Fort, manager of the local United States employment service.  
Fort requested that any worker using his car contact the employment service if he can furnish transportation for one or more other workers.  
The employment service official said the demand for local labor is "very good" despite inclement weather.

## Peg's Cab Will Solve Problems

Whether its down town to a movie, out to the football field to a game or an evening's entertainment of a busy-up business matter, you can always depend on Peg's Cab, Pampa's oldest taxi firm, for fast, safe and dependable transportation.  
Why bother with parking problems when a Peg's Cab will be at your door as soon as possible after your call.  
Operating Pampa's largest fleet of taxicabs is a big task but C. M. "Peg" Whittle, owner maintains his own repair shop and keeps all cars in the best of running condition.  
All cabs are equipped with adequate lights, good brakes and are driven by safe, courteous drivers who emphasize caution rather than speed.  
Peg's Cabs are clean and comfortable, too. Your clean clothes will be safe on the seats of the cars, which are kept clean at all times.  
The firm also offers a call service and will pick up passengers on permanent calls.  
Remember, for the best cab service in Pampa, phone 94 and a Peg's Cab will be at your door.

OSBORN MACHINERY COMPANY, 800 West Foster, distributors for Allis Chalmers Farm Machinery states that new equipment will be coming through some of these days, so keep on asking about the new units as this will be the only way you can keep up with the manufacturing schedules or learn when Pampa will again get its quota of these world famous farm implements and machines.

THE ADAME HOTEL, 110 North Ballard, invites you and your friends to be their guests over the week-end and to "come as you are". Also please make reservations at least two days ahead.

## Claudette Colbert Describes Her Technique With the Press

By BOB THOMAS  
HOLLYWOOD—(AP) — With reporters who know the stars best, it's Claudette Colbert two to one. She is a top favorite with most of us in the business of interviewing Hollywood's great. Here is how she tells her secret of success.

"It's all very simple," she said, "I just talk. I'll give you an opinion on any subject you ask, except myself. It's all conversation, and I'm afraid sometimes I say the wrong things."

Wrong thing or no, she has been at the task of being interviewed for more years than we will mention. She has perhaps 30 to 45 sessions per picture.

"At first they frightened me," she admitted, "but now I take them in stride. It's just another part of the business."

Naturally certain questions are repeated. She can't count the times she has been asked, "how have you managed to stay on top so long?" Her usual answer is "by playing all kinds of roles." She said she couldn't use the stock answer about not drinking or smoking and thus preserving her career. She is a chain smoker and can't drink liquor, "darnit."

Picture of a man trying to be funny in Hollywood—Sid Caesar.

Sid is the coast guard comedian who made such a hit in "Tars and Spars." Then Columbia couldn't figure out what to do with him. The studio wanted him to be a gay comic, but he didn't want to do mere routines. Now in "The Guilt of Janet Ames," he is getting a belated follow-up of his initial success. Sid says he wants to pattern his comedy after Charlie Chaplin.

Sid even has the idea of portraying inanimate objects. For instance, he depicted the life of a slot machine. He was a successful machine, dispensing gum happily, and sometimes getting banged when the supply was gone. Then he was turned into a one-armed bandit, and eventually smashed by the police. Very sad, but also very funny.

## Author, Attorney, Legislator Dies

EL PASO—(AP)—W. W. (Billy) Bridges, 76, legislator, author and attorney, died in a hospital here last night after a short illness.

Bridges, who first went to the legislature in 1898, had served continually since 1936. He won renomination this year and was unopposed for re-election.

Regarded as an authority on West Texas history, he wrote scores of articles and one book about early days in the Southwest.

Born at Montgomery, Texas, Nov. 6, 1869, Bridges came to El Paso at the age of 12. He first worked as a water boy for the Texas Pacific railroad.

Later he worked on papers in Deming, Albuquerque, Trinidad, Vernon and Bowie. His first political office and justice of the peace after serving three terms in the legislature, starting in 1898, he retired to practice law.

Bridges is survived by Mrs. Bridges, a daughter, Mrs. Pendleton Howard of Los Angeles and a brother, L. T. Bridges of El Paso.

## Rayburn Predicts Demos Will Retain Congress Control

WASHINGTON—(AP)—House Speaker Rayburn (D-Tex) predicted yesterday his party will retain senate and house control in the November elections.

He told a news conference he expects democrats to have a safe margin of 25 to 50 votes in the house.

"The bigger the vote the better we are going to like it," he asserted. Reports reaching him thus far indicate a heavier registration than usual, he added.

Rayburn reported that although "to hear some people and commentators talk you would think we would lose everything" very few

democrats are discouraged about their individual chances.

The speaker also said:

1. He expects to make a few campaign speeches. One of these will be in the district of Rep. Walter (D-Pa).
2. He is making recordings of speeches to send to districts where members have tough opposition.
3. He does not foresee a war with Russia—"It is inconceivable to me how anyone there can think war with the United States can pay them anything."
4. He does not see any element in our economy that would bring a depression.
5. He sees no reason for a special session of congress this year.
