# Marshall Lashes Out at Russian 'Ultimatum' Stand

## 'Real Meeting of Minds' Called For

MOSCOW—(AP)—U. S. Secretary of State Marshall, in his bluntest speech of the conference, denounced Soviet Russia today for delivering "an ultimatum" to the Foreign Ministers Council.

"Unless we can have a real meeting of minds and a real desire to carry out both the spirit and letter of our agreement it would be better if none were reached," the Secretary of State declared.

"We can never reach real agreement on the basis of ultimatum or immovable positions," Marshall declared in commenting on the Soviet position that unless Russia received reparations from current German production no settlement could be reached.

## Race Is On To Continue Sugar Control

WASHINGTON—(AP)—Racing to prevent expiration of sugar rationing at midnight, the House today approved compromise legislation continuing sugar allocation and price control until October 31.

Immediate Senate action will be sought to permit the bill to be passed before midnight for the President's signature.

The bill stipulates that each person shall have a ration of at least 20 pounds of sugar in the next seven months. This is at the rate of a 35-pound yearly ration, or 10 pounds more than last year's ration.

Under the compromise, the OPA is stripped of further administration of the controls, and the power transferred to the Department of Agriculture.

The bill also sets aside 50,000 tons of sugar for new industrial uses and continues inventory controls, except over household consumers, until March 31, 1946.

Rep. Wolcott (R-Mich.), chairman of the Banking Committee, told the House continuation of the sugar controls is necessary to protect supplies for the household.

The controls were extended for only seven months over vigorous protests of some lawmakers.

Senator Tobey (R-NH), contending the controls should continue for a year, predicted the short extension may bring about a "national scandal" by encouraging sugar hoarding, gambling and profiteering.

He spoke just after the British had circulated a proposal by Foreign Secretary Ernest Bevin to the Council for the unification of Germany by July 1, this year, a unification which he said should be made effective by abolishing all restrictions on movement of goods between the zones.

This proposal, obviously unacceptable to the Russians, provided that before any reparations could be paid the Germans would have to pay back sums advanced for Germany's maintenance by the occupying powers and meet the cost of occupation.

At the same time he commented on Russia's stand-pat position, Marshall criticized the French also for adopting the immovable attitude that they must have coal from the Ruhr or they would agree to nothing.

"It is not clear that the conflict inherent in these views can be reconciled whatever position the United States may take," Marshall said.

"The Soviet delegation has suggested that it will be possible for the French to have their coal and still leave enough coal in Germany to manufacture the reparations the Soviet government demands," Marshall continued. "We do not agree."

The French delegation believes that after it has obtained the coal it needs from Germany and has limited the (German) steel capacity to 7,500,000 tons it is still worth while to study the question of reparations out of current production. We do not agree."

He charged that the Russian proposal to reduce German imports in order to get reparations for Russia would reduce German food consumption to a starvation diet of 1,100 calories a day.

"Does the Soviet government make this proposal seriously?" he asked.

"The United States is opposed to policies which will continue Germany as a congested slum or an economic poor house in the center of Europe."

Bevin's comprehensive 10-page proposal, in the form of an order of the Council, would supplement (See **CIG FOUR**, Page 6)

At the same time, the Interior Secretary stated he would make an appeal to the mine workers for their sympathy for the bereaved families. "It is too profound to permit me to debate or to gloss over their misery by erasing in any press controversy the catastrophe or its cause."

## House Rushes Work Before Easter Recess

WASHINGTON—(AP)—A \$2,471,452,548 appropriation bill including the big step in a Republican drive against government "press agents" stands today before the House and an Easter recess.

It is expected to be passed and sent to the Senate by tomorrow evening, the House will adjourn Wednesday for a one-week holiday, returning on Thursday, April 10.

While there was likelihood of long debate over several provisions of the bill, House leaders were confident they could get it behind them on schedule and get their branch out of town for the first vacation since Congress convened early in January.

The Senate still deep in debate on David E. Lillenthal's nomination to head the Atomic Energy Commission and with President Truman's Greek-Turkish aid program almost ready for consideration, plans only a long Easter weekend beginning Thursday night.

The debate-provoking provisions of the House appropriation bill, a efficiency measure financing miscellaneous agencies for the current fiscal year, include these:

1. An order directing the Veterans Administration to reduce the number of its Public Relations employees from 281 to 100. Republican leaders announced several months ago they were planning a drive against all government press agents, chairman Taber (R-NY), of the Appropriations Committee claiming they are too numerous and are making Washington reporters "lazy."
2. A cut of more than half a million dollars in VA allotments, mainly from the pension fund and from VA funds for benefit payments under the GI Bill of Rights.
3. Refusal to appropriate additional money for the National Labor Relations Board, whose 1943 allotment was cut sharply in a separate bill passed by the House last week but still pending in the Senate.
4. Rejection by the Appropriations Committee of a budget bureau request for funds to pay court-approved salary claims of three former Federal workers fired in 1943 on congressional insistence. The three are Goodwin B. Watson, Robert Mors Lovett and William E. Dodd, Jr. In refusing the claims, aggregating \$2,153, the committee ignored a Supreme Court ruling.

## Britain Sells 49 Merchant Vessels

LONDON—(AP)—The Ministry of Transport announced today the sale of 49 former German merchant vessels allocated to Britain by the International Reparation Agency. The ships were purchased by about 40 shipping firms which paid a total of \$14,107,000.

## Boy, 17, in Wreck, Escapes Injury

A 17-year-old high school student narrowly escaped serious injury early this afternoon when the Model "A" Ford coupe he was driving rolled on its side at the intersection of N. Charles and Harvester Sts.

Patrolman Ralph Phillips, investigating the crashup, said the boy Billy Bob Southard of 718 E. Denver St., told him he was traveling north on Charles and attempted to turn east on Harvester St. when the accident happened.

Phillips added that the boy told him he was driving about 20 miles an hour when the car skidded and then it rolled on its right side.

Duenkel-Carmichael's ambulance was sent to the scene, but passed right on by when they were told there were no injuries. The Southard boy was alone in the car. There were no charges filed.

## Four Teen-Agers Picked Up for Drunkenness; Smallest Just Tall Enough to Look Over Desk

It was 10:45 p. m. Saturday night when Patrolmen Osborne Anderson and S. B. "Pat" Patterson brought four teen-age boys into police headquarters—two of them "loaded to the gills" with wine.

One of the quartet, a 15-year-old youth, had to be half carried to the desk by the officers and later had to be led to the rest room. Standing at the desk the child weaved from side to side and twice had to be caught by Anderson to keep from falling to the floor. His face was a sickly pasty white as he was led to a chair where he tried to sleep. Finally police had to lead him outside and let him sit on the steps for a little fresh air.

Another of the quartet told police and a reporter that he had bought the wine at a local liquor store, but didn't remember the name of the place or where it was located. He gave his age as 17 and admitted he was drinking "quite a bit." He was held in city jail to await trial by Judge Braly on Sunday morning.

The 16-year-old boy, driver of the car the boys were using, said he would "be 17 in two weeks" but that he had only taken a few drinks. Later he said he hadn't taken any.

The smallest of the four youths was just tall enough to look over the desk in headquarters. He admitted that he had taken about two drinks.

Juvenile Officer Paul Hill was called in and the three younger boys turned over to him. In the meantime police phoned relatives of the 15-year-old boy. Hill then turned them over to their families.

On Sunday morning the oldest boy was haled before Corporation Court Judge Clifford Braly. Here he changed his story and told the court that he was only 16. On these grounds Judge Braly dismissed him.

# U. N. Veto Power Over Aid Plan Proposed

## Vandenberg Is Prime Backer Of Amendment

WASHINGTON—(AP)—Senator Vandenberg (R-Mich) proposed today to give the United Nations a veto power over proposed American aid to Greece and Turkey.

At hearings by the Senate Foreign Relations Committee on legislation to authorize \$400,000 of aid, he suggested writing in an amendment under which President Truman would be required to halt the aid when and if the United Nations directed him.

His suggested amendment reads: "The President is directed to withdraw any or all aid authorized herein under any of the following circumstances:

- (1) If required by any government of Greece or Turkey representing a majority of the people of either such nation;
- (2) If requested by a procedural vote in the Security Council or a majority vote in the General Assembly of the United Nations;
- (3) If the President finds that the purposes of the act have been substantially accomplished or are incapable of satisfactory accomplishment."

Across the Capitol, the House Foreign Affairs Committee proceeded with separate hearings. Among others, it heard Vandenberg's Rep. Crawford (R-Mich) declares the United States should tell the Russians they must disarm or this country will use her atomic bombs and economic power against them. Hamilton Fish, a former Republican member of Congress from New York, contended that if the United States intervenes in Europe it will invite similar intervention in the American hemisphere.

Fish said President Truman's plan to assist Greece and Turkey is "a dangerous departure from our traditional foreign policy and in effect sabotages the Monroe doctrine."

"The Doctrine of Monroe," Fish said, "keeps European empires from the young republic of South America for 124 years. The Doctrine of Truman puts the American empire on the shores of the Mediterranean in a single day."

"By economic and military intervention in Europe and elsewhere we (See **AID PLAN**, Page 6)

## Government Eyes Mine Shutdown

### Miners Enter Pits Last Day Before Stoppage

By The Associated Press

The nation's 400,000 soft coal miners entered the pits for the last time today before beginning a six-day work stoppage in memory of the Centralia, Ill., mine explosion victims—but industry generally appeared to face the prospect of curtailed fuel supplies with few qualms.

At regular month-end meetings of A. P. L. United Mine Workers Union locals, the coal miners received orders passed down from UMW President John L. Lewis to stop work at midnight tonight for six days to honor the 111 Centralia dead. There were no reports of dissent and one large group called for removal of Interior Secretary Krug as Mines Administrator.

Krug said that he would not enter into the mine work stoppage. "My sympathy for the bereaved families," he said, "is too profound to permit me to debate or to gloss over their misery by erasing in any press controversy the catastrophe or its cause."

At the same time, the Interior Secretary stated he would make an appeal to the mine workers for their sympathy for the bereaved families. "It is too profound to permit me to debate or to gloss over their misery by erasing in any press controversy the catastrophe or its cause."

**MINE SEARCH ENDS**—Despair and fatigue are mirrored in the faces of rescue workers Harry Guiler, left, and Bill Merkel, as they left the Centralia, Ill., mine where an explosion killed 111. All but one were accounted for.

### Close Watch on Holiday Schedule Is Being Kept

WASHINGTON—(AP)—The government kept a wary eye on its soft coal mines today to determine whether the six-day mourning period decreed by John L. Lewis might begin ahead of time and fail to end on schedule.

Lewis called out his 400,000 soft coal miners for a memorial lay-off from midnight tonight through Easter Sunday in honor of the 111 victims of the Centralia, Ill., disaster.

While the mines are idle, Lewis told reporters in announcing his action, "there will be no men idle; at least they will be safe while they're mourning."

Lewis insisted that his contract with the government, which carried over provisions from preceding agreements with the bituminous operators, authorized such memorial holidays.

But even if any legal question arose in the minds of federal officials, it appeared doubtful that they planned any immediate repetition of the court fight last fall which resulted in contempt fines for Lewis and his United Mine Workers.

Lewis is due to settle up that fine Thursday in Federal Judge T. Alan Goldsborough's courtroom. If the jurist decides that the Holy week fine imposed on Lewis does not alter his compliance with the Supreme Court's order in the contempt case, the UMW will get back \$2,800,000 of its \$3,500,000 fine. The Supreme Court said a penalty of \$700,000 against the union would be adequate for ignoring Goldsborough's restraining order last November 21 and shutting down the mines. Lewis' personal fine of \$10,000 was allowed to stand.

Goldsborough would not comment on the case to a reporter when asked whether he himself might summon Lewis to explain the new stoppage.

Actually, while a shutdown of the bituminous pits for five working days ordinarily would mean the loss much idleness would have occurred anyway this week. Tuesday is a compact holiday as the anniversary of the eight-hour day. And Thursday and Friday are Church Holy Days when absenteeism always cuts heavily into production. Saturday seldom yields more than 50 percent of normal daily output.

### 100 Senior Aggies to Face Military Trials

COLLEGE STATION—(AP)—Military trials have been ordered for Texas A. & M. Cadet Corps officers and students involved in the recent flareup over elimination of traditional regulations and privileges. The trials are scheduled to begin at 1:30 p. m. today, according to Col. Guy S. Meloy, Jr., Cadet Corps commandant.

College authorities estimated that more than 100 students will be tried.

The trials were ordered by the Board of Directors last Saturday, college authorities revealed. No such announcement was made public Saturday.

The students, members of the Senior Class, will be tried by five military panels, each headed by Colonel Meloy. On each panel will be from one to three A. & M. graduates who are tactical officers at the school.

Students to be tried are those who recently failed to appear before Meloy for questioning concerning "no confidence" vote the Senior Cadets gave two of their Senior Cadet officers. Only 43 members of the class appeared before Meloy. The orders were given orally and then published in written form.

The trials are expected to continue this afternoon, tonight and tomorrow.

What punishment will be given in the event the students are found guilty was not indicated.

The students are charged "with disobedience of orders, insubordination and/or flagrant disregard of constituted authority" for their failure to comply with military orders.

Col. Meloy this morning issued a special order "in accordance with a directive from the Board of Directors of Texas A. & M. College."

The order said "a board of officers is hereby appointed to meet at the call of the president thereof to investigate, recommend and fix punishment for the alleged flagrant and continued disregard of constituted authority by such members of the Texas A. & M. Cadet Corps as may be duly directed to appear."

He appointed five boards, Meloy is president of each board and Lt. Col. Benny Zinn is on each of the boards. Lowest rank held by the panel members is that of Captain.

A. & M. has been torn by dissension for at least two months. The outbreaks occurred when Corps regulations were changed one of the major changes being the banning of hazing.

Senior Cadets marched on the honor of President Glibo Gilchrist and resigned their commissions. Later, under orders, they asked for reinstatement, and this was done in some cases, but others were deemed and some not reinstated.

The class passed a motion calling for the resignation of Gilchrist.

Later the class voted "on confidence" in their Senior Cadet officer, Colonel and a Cadet Lieutenant Colonel. It was for the investigation of this vote that the corpsmen were ordered to appear before Meloy (See **AGGIES**, Page 6)

### Record Harvest Wheat Expected

FORT WORTH—(AP)—A record Texas wheat harvest, estimated at 110,000,000 bushels, is expected to begin May 20, but a desperate shortage of box cars faces growers. G. E. Blewett, secretary-treasurer of the Chicago and Northwestern Railroad reported most roads have from 15 to 30 days' coal supply.

The mourning period, which Lewis' order is provided for in the UMW-government contract, was labeled a "strike" by Walter Thur (See **MINE HOLIDAYS**, Page 6)

### 13 Texans Meet Violent Deaths During Weekend

By The Associated Press

Weekend's violent took a total of at least 13 persons in Texas.

Eight young people died in two automobile-train collisions, four more accidents involving automobiles, and one died of injuries received in a fall.

A truck and a Texas Pacific train collided near Willis Point last night and all four occupants of the truck were killed. They were:

Francis Grant, 21, Leon Smith, 18, Mrs. Ellie Jean Smith, 18, all of Myrtle Springs, and Nell Miller, 16, Willis Point.

### March Came in Like A Lion—Out Like Lamb

True to the somewhat over-used adage, March came in like a lion—and is going out like a lamb as Spring rounds into its tenth day today.

The maximum temperature March 1 was a shivering 31 and the mercury dropped as low as 16. The reading today at eleven o'clock was 65 and was expected to go higher.

But—westerly winds that recorded a velocity of 34 miles per hour threatened to spoil the proverb but had died down this morning.

Tomorrow is April Fools' Day, and the weatherman knows it.

### 13 Cases Liquor Taken From Store

By jimmying the lock of the rest room, thieves last night broke into the Bell Liquor Store, 801 W. Brown St., and stole at least 13 cases of liquor. City Police reported this morning.

Police Sgt. James Connor, dispatched to take fingerprints, said the burglars sprung the lock of the rest room, found a hole in the sheetrock wall to gain entrance to the store itself.

A check by Herman Bell, proprietor of the store, showed that at least 13 cases of whiskey were missing from the stock.

This makes about the sixth time the place has been robbed. Chief of Police Louie Allen said this morning.

Late last year, two men were tried for attempting to break into the store but were found not guilty in 31st District Court.

## Onetime Cowpuncher Celebrates Ninetieth Birthday, Relates Many Interesting Facts

By BOB BRAY

"The life of a cowpuncher is a good life," John Beverly, said this morning. He should know. He started working cattle in 1871, at the early age of 14.

Every, who now resides with his wife, Katy Beverly, at 501 North Cavalry, yesterday celebrated his 90th birthday with what he described as, "A crackin' good blowout," and he could fool most people about his age by about twenty years.

Throughout the '70's Beverly trailed cattle along the old Chisholm Trail where he brushed hands with rustlers and Indians. In July, 1880 Beverly helped burn the first Mill-iron brand when the first Mill-iron started up near Esterline.

His best Indian chase came in 1876 when a small brand of braves stole the horses at the Catholic Seminary in Menard County. Beverly joined in the chase with the Texas Rangers and they almost caught the Indians, but "nightfall" came and they got away in the dark.

While working near Denton in 1878 Beverly chanced to ride up to a spring early one morning, and there, became acquainted with the famous Sam Bass. "After we talked a bit, Bass, whom I didn't recognize at the time, asked me what I was going to do that morning. I told him that I had to give some corn. "He then told me to give him the he and he'd chop the corn. If I'd go to his house (a good looking bay) shod, I took the horse in and had him shod and sure enough, when I got back not only was Bass hoeing corn but three of his boys was helping."

Beverly had two narrow escapes from death in his younger years. Once he was attacked by a mountain lion while camping near a small creek in Young County. Later he narrowly missed being gored to death by a bull, while working on the Terrosas Ranch in Old Mexico.

Practically all of his life, Beverly has worked on ranches throughout the Southwest. He was for several years employed by the Bell Ranch in New Mexico, which in the old days, used to bring 30,000 head of calves yearly. He was also foreman of the "Big Bar X" Ranch in Donkey County.

"Over in Donkey County, in 1911, I bought dinner for Cole Younger," Beverly recalled. "Younger told me that he was at the time carrying lead from 11 different gunshots, and that he was sorry to say they weren't all collected in the army." Beverly also once met Frank James at a party, but said he never got to know him very well.

Beverly and his wife moved here from Clarendon 17 years ago. His wife, whom he married in 1900, is a native of Wichita Falls.

When we wished the old timer many more happy birthdays, he remarked that he was "fit as a fiddle and planned to go to 101—provided" (his wife) is here to be with me."

### Scout Honor Court Scheduled Tonight

Advancements in every rank are due to be made tonight at the quarterly Boy Scout Honor Court scheduled for eight o'clock in the District Court Room.

Joe Gordon will serve as advancement chairman for the Court of Honor, which is one of the largest in recent years.

Every troop is due to be represented, according to Scout Executive Hugo Olsen, and promotions will be made from Second Class through the Eagle rank.

The public is invited to attend.

## Rebels Are Puzzled With Themselves This Spring

By JERE R. HAYES  
Sports Editor  
Dallas Times-Herald

### On The Sports Beam

At the risk of getting slightly sentimental, now is the time we'd like to say "so long" to all our readers and/or friends in Pampa and vicinity.

You're truly still blessed with this thing called youth—has practically grown up here in Pampa. We came here in 1940 and have come to look upon the city as our home town, although our birth certificate says we were born in those Oklahoma hills—Bristow, to be exact.

Some readers have disagreed with many of our ideas on sports and sports writing, but it has been those readers, bless 'em, who have perhaps made us wiser. We have tried to say what we sincerely think, even though many of our ideas have been "all fouled up" in the long run. Even at that, our purpose in writing a column is more to make our readers "think" than it is to convey some of our egotism to the subscribers. If we arouse their ire and they oppose us, that is their privilege, just as it has been ours to write this column.

Looking ahead, we can see a great future for Pampa sports. Summer is just around the corner and with it will come baseball, softball, golf, tennis, swimming and all the things not practical in the winter.

Whether these sports are commercial or not, our advice is to support them—for without them there is no town would Pampa be? Where would our youngsters spend their time? It's not hard to imagine what would happen should we have had sports as a method of relaxation.

There is a "wide open" field of sports ahead of Pampa. Although hundreds of our people attend and participate in what sports we have each year, there are hundreds more who should be doing it.

It is those people—young or old—who need to be reached. But they can't be reached without the assistance of all of us blessed with the opportunities to see and take part in the sports activities we now have.

So, when you, Mr. and Mrs. Gus Pan, are called on to help make Pampa a better place to live, don't hesitate to step up to the plate and hit the ball hard. It may take a little work—and maybe a little money—but when you relax at home after a hard day's work for a good cause, that little feeling of personal satisfaction can make the whole world look brighter. Sure, it's possibly "self satisfaction," but it's the thing that makes us all go out the next day and work that much harder.

Try it some time.

WACO—(AP)—Waco's Dons play their second home exhibition baseball game tonight, meeting the Dallas Rebels of the Texas League.

**CHAMPAIN, ILL.**—(AP)—The State of Iowa today boasted six individual winners as well as the team champion and runner-up—a collection of honors unprecedented in the 17-year history of the NCAA wrestling tournament.

While the Oklahoma Aggies were pushed back into third place after winning 14 NCAA team championships, Cornell College of Mount Vernon, Iowa, emerged with the 1947 crown on 32 points. Iowa State College of Cedar Rapids was runner-up with 19 points and Oklahoma Aggies third with 15.

**SHARP PRACTICE**  
Gus Falzer of the Newark News tells this one about the golfing feud between George Selkirk, the Bears' pilot, and Parke Carroll, business manager of the ball club—Carroll persuaded Selkirk, a much longer driver, to play a match in which Parke would have his choice between his own tee shot and George's.

Coming up to the 18th all square, Selkirk sliced a long one behind a tree in the rough while Carroll was short but straight—Carroll watched the manager as he waded into a weed patch and stopped, apparently to study a bad lie, then played his own ball—Joining Selkirk in the weeds, Parke asked, "Where's your ball?"—"It's down the fairway near the green," George replied. "I just stopped to look at a butterfly and I thought I'd wait until you played your second shot."—May be the Greeks have a word for it, but Carroll hasn't found one yet.

**HOUSTON**—(AP)—The Boston Red Sox were here today by playing the local Buffs of the Texas League and Manager Joe Cronin has bowed to popular demand and will start Tex Huggston.

**TAMPA, Fla.**—(AP)—Elmer Riddle, Cincinnati Reds pitcher forced into retirement in 1945 by a sore arm, makes the second mound appearance in his comeback attempt today when he pitched for the St. Louis Cardinals at St. Petersburg. Riddle, who pitched three scoreless innings against the Philadelphia Phillies last week, will share the pitching assignment with Southpaw Johnny Vander Meer.

**TUCSON**—(AP)—Doyle Lade is being praised by Skipper Charlie Grimm of the Chicago Cubs. The ruddy right-hander from Shreveport allowed only two hits in five innings and fanned four in the Cubs' game with Los Angeles yesterday. He now has a 1-0 record.

**JAX WIN**  
JACKSONVILLE, Texas—(AP)—A single by Bookie Glenn Hale in the ninth inning yesterday gave Jacksonville a 3-2 victory over the Oklahoma City Indian "B" squad in an exhibition baseball game.

## DiMaggio Biggest 'Question Mark' Among Baseball Players in Drydock

By FRANK ECK  
AP Newsfeatures  
TAMPA, Fla.—Of all the major league ballplayers who pulled into drydock for operations and repairs during the off season, Joe DiMaggio, the Yankee Clipper, is the biggest question mark.

"Without him the Yanks will be in real trouble," says Manager Bucky Harris. "However, I think he'll be ready to open the season in April."

DiMaggio has had two operations for the removal of a bone spur in his left heel, the second one after the first wound failed to heal properly.

George Stinweis, now regular second baseman of the Yanks, underwent a knee operation in January and Stuffy claims he no longer has that stuffy feeling in his nose. He's a bit overweight but remains as fast as ever.

Neither Boston team—the Red Sox or Braves—needed surgical aid for operations and repairs during the off season, Joe DiMaggio, the Yankee Clipper, is the biggest question mark.

George Stinweis, now regular second baseman of the Yanks, underwent a knee operation in January and Stuffy claims he no longer has that stuffy feeling in his nose. He's a bit overweight but remains as fast as ever.

## Sports Round-Up

By HUGH FULLERTON, JR.  
NEW YORK—(AP)—Broadcaster Frank Prish, who used to manage the Cardinals and Pirates strings along with the old theory that the way to develop a ball player is for him to play ball—Frank cited Marty Marion as a prize example: "When I first saw Marion I never thought he'd become a good hitter, he always was a fine fielder—He looked like the kind of player you'd send to Rochester and that's what we did—Those three years, there did wonder for him; he touched the ball with the shoulders and developed power. Now it isn't safe to pitch high to him; he's liable to slap it over the right field fence—it was just the result of playing ball every day."

Still thinking of Marion, Frank sighed: "Well, anybody can make mistakes." That's what he used to tell the umpires—and that generally was a mistake.

## Training Camp Notes

LAKELAND, Fla.—(AP)—The Detroit Tigers, rated in some circles as possessing the best pitching staff in the American League, are giving their hurlers plenty of opportunity to prove the high estimation in which the Bengal's mound crew is held.

Monday, four of Manager Steve O'Neill's twirlers have hurled five complete games, a feat no other club can boast at this stage of spring training.

Colorfully Dizzy Trout was the first to go to the distance, dropping a 4-2 decision to the Boston Red Sox, but the big right-hander came back four days later and went the route against the New York Yankees, chalking up a 3-2 victory.

Only four other Major League hurlers have gone the distance so far this year. They are knuckle ball artist Mickey Haefner of Washington, who turned back Cincinnati a little over a week ago, Kirby Higbe of Brooklyn, who blanked Montreal Friday, and Southpaw Dave Kosloski of the New York Giants, who white-washed San Francisco while right-hander Dave Ferriss of the Boston Red Sox went the route in posting his triumph over New Orleans Saturday.

Dick Wakefield, Tiger outfielder, was sidelined with a pulled leg muscle received yesterday when Detroit lost to the Boston Braves, 4-3, in the last exhibition game of the training season here.

## Cagers Honored With Banquet

Boys who were recently named on the first and second All-District basketball teams are being honored with a banquet given by the Amarillo News in Amarillo, yesterday afternoon.

Gus Miller, athletic director of West Texas State College, was the principal speaker. His address was on basketball's beginning and its future.

Music for the occasion was furnished by the "Four Hits and a Miss," a vocal quintet from Amarillo High School. They sang "Tiger Rag," "Amen," "Blue Skies."

The teams, which were selected by the coaches and sports writers of the district, are composed of (first) Jewell McNeil and Jimmy Carter, Amarillo; Bill Howton, Plainview; Verdell Turner, Lubbock; and Alfred Hughes, Borger; (second) Bill Speers, Pampa; Boone Pickens and Larry Wartes, Amarillo; Roy Lee Dab, Borger, and Jack Alderson, Lubbock.

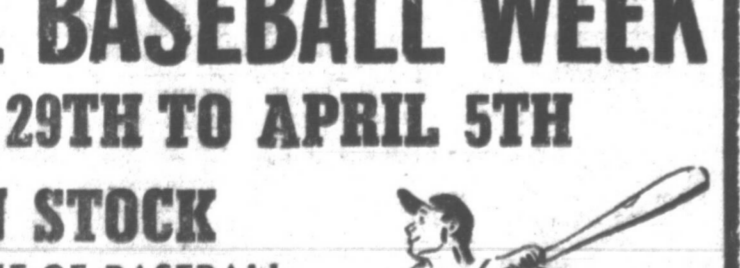

## Pampa, Canadian In Track Event

Pampa and Canadian were scheduled to meet here in a dual track meet this afternoon at three o'clock at Harvey Park.

Borg, who was originally scheduled to be here for a three-way meet but the Bulldogs cancelled yesterday.

The field events were to begin at three and the track events a half-hour later this afternoon.

## Pampans Take 3 Titles in Boxing Meet at Shamrock

SHAMROCK—Three Pampa fighters won championships, although two won theirs without fighting, in the annual Shamrock City-School Invitational Boxing tournament, which closed here with the finals Saturday night.

Winning a title the hard way was Carroll "Comanche" Martin of Pampa, who scored a technical knockout of John Christner, Shamrock, in the first round of their final bout.

Heavyweight Maurice Lockhart, who won his championship without fighting, got five points due to his opponent in the finals forfeiting.

Billy Campbell, fighting in the Grade School Division, won a semifinal fight, collecting three points.

Pampa collected 16 points for its efforts as Shamrock's Irish raced through the meet, gathering 81 points while Clarendon and Lefors tied for second and third with 24. Memphis got 20 points, Kelton 13 and McLean and Canadian one each.

The other Pampa fighters, Jack Bonner and Jack Kenner, didn't win any points, although Kenner won a second place trophy. Bonner won a championship without fighting but was not eligible to be awarded points.

Martin was Pampa's high point man, winning eight points on his semi-final and final victories.

Friday night, Pampa's Keith Payne, fighting in the 105-pound class, lost a narrow decision to Eugene Cooper of Lefors, perennial champion. Cooper won his championship Saturday night on a knockout in the first round. Another close fight was the final bout between Kelly Anderson of Pampa and Eural Ramsey of Shamrock in the 160-pound finals. Ramsey won a close decision.

75 pounds—Clarence Jones, Shamrock, defeated Billy Cooper, Lefors.

80 pounds—Ben Edens, Clarendon, defeated Walter Wall, Shamrock.

85 pounds—Vernon Tarbet, Pampa, TKO'd Billy Campbell, Memphis, in first round.

100 pounds—Lester Ramsey, Shamrock, defeated Bud Henry, Memphis.

125 pounds—Troy Straener, Lefors, won on a forfeit from J. P. Carlie, Clarendon.

High School finals:

85 pounds—Travis Burton, Shamrock, TKO'd Carl Smith, Memphis, in second round.

105 pounds—Joe Landrum, Shamrock, defeated Marion Posey, Memphis.

115 pounds—Earl Tarbet, Shamrock, won on a forfeit from Melvin King, Clarendon.

125 pounds—Carroll Martin, Pampa, TKO'd John Christner, Shamrock, in first round.

135 pounds—Tom Landrum, Shamrock, knocked out Gene Bulman, Clarendon, in first round.

147 pounds—Roy Don Brower, Shamrock, TKO'd Floyd Metheny, Pampa, in second round.

155 pounds—Eugene Cooper, Lefors, knocked out J. A. Akard, Memphis, in first round.

160 pounds—Eural Ramsey, Shamrock, defeated Kelly Anderson, Pampa.

Lightweight—Wade Straener, Lefors, TKO'd Coy Stewart, Shamrock, in first round.

Heavyweight—Maurice Lockhart, Pampa, won on a forfeit from Donald Briggs, Shamrock.

**PLAYOFF IN GOLF TOURNAMENT IS SET**  
CHARLOTTE, N. C.—(AP)—Two young men whose golfing careers have run remarkably similar courses—Cary Middlecoff, Memphis, Tenn., and George Schoups of San Francisco, playing out of the Mammoth, N. Y., Winged Foot Club—battled it out here today in an 18 hole playoff for the Charlotte Open Golf Tournament title.

Schoups gave par an 11-stroke drubbing to tie for the \$2,000 top award with 277s in the \$10,000 72-hole event over the 6,400-yard Myers Park course.

If they are deadlocked at the end of 18 holes, they will play extra holes to a decision.

Schoups said they had agreed to divide evenly the first and second place prizes totaling \$3,400. "But it won't be any exhibition. I want that title," he asserted.

# Thompson Better Than He Thought

By HAROLD V. RATLIFF  
AUSTIN—(AP)—Jerry Thompson, trackman's mite, admits he's a better runner than he thought.

Jerry did a 4:13 mile and a 1:53.8 half-mile at the Texas relays Saturday but to his surprise found he could have done better than that if there'd been someone to push him.

The tiny University of Texas distance star figured he had a 4:10 mile in his system and he's pretty sure he could have cut off that 860.

There may have been smaller distance runners than Jerry but no one around here knows about it. Thompson weighs 120 pounds and is 5 feet 6. Pink-cheeked and without a trace of tan he's the guy you least expect to be able to run a half, mile and two-mile all in one afternoon and break at least two Southwest Conference records.

He has already raced two miles in 9:20.6, which is 124 seconds under the oldest mark in the conference books—9:32.4 by Sandi Esquivel of Texas 22 years ago. The mile Saturday was the fastest ever run in the Southwest and was 8.8 seconds under the conference record. The conference 880-yard mark is 1:53.8—and that's what Thompson did in the Texas relays. Of course, he raced both the mile and half mile from a running start since they were anchor laps on relays, and he probably wouldn't have made them so fast from a standing start. At that, however, he's bound to have broken the mile record.

Thompson has been running a long time. He was state schoolboy mile champion before coming to the University where in 1943 he was national collegiate two-mile king. He entered the Navy and didn't do much running for a couple of years. He weighed 140 when he came back to the University and says he found it a long, hard grind to get back into condition. But cross-country did it.

Coach Clyde Littlefield says Thompson doesn't know how good he really is and "for that matter, none of us do."

"But he has two years to find out. He will be back next season. And in 1948 are the Olympic games. I don't know about the Olympics," he said so loudly. "All those fellows are good."

Thompson revealed that he didn't really let himself out Saturday in the Texas relays. "I had a sore leg," he said. When asked what caused it he replied rather sheepishly: "I hurt it playing football over at the athletic dormitory."

## MRS. JORDAN HEADS JUNIOR HIGH P-TA

New officers were elected for the coming year, headed by Mrs. Rufe Jordan as president, and Dr. James Russell, professor of education at WTSO, Canyon, was guest speaker on the topic "Morale for Living in a World at Peace" at the Junior High P-TA meeting Thursday afternoon in the school auditorium.  
Dr. Russell said that we have a crisis today in the morale of our nation which is as great as the financial crisis. When we think of the educational crisis, he continued, we naturally think of our teachers' salaries; and we also need to think of the morale, and we should try working for higher standards in our field of education.  
Other new officers included Mrs. James M. Fitzgerald, vice president; Mrs. Harold C. Weidner, secretary; Mrs. W. B. Weathered, treasurer; Mrs. Alice Cockrell, parliamentarian; Mrs. J. V. Young, historian; Mrs. R. W. Pollard, Mrs. E. E. Thornton, and Mrs. Garland Franks, City Council delegates; and Mrs. John McFall, Mrs. J. D. Merchant, and Mrs. R. C. Mason, Tri-County Council delegates.  
The meeting was opened by the Junior High Band, under the direction of Oriant Butler, playing "Rocky March," "Spring Festival," and "Monarch March." A Clarinet solo was played by Ceil Stewart accompanied by June Cull at the piano.  
Mrs. Ray Salmon's 7th grade won the attendance award.  
The next meeting will be held April 24 when the Dramatics Club of Junior High will be in charge of the program.

## Miss Jennette Moore, Leroy Campbell Wed In Claude March 9

WHITE DEER, (Special)—Miss Jennette Moore, daughter of Mr. and Mrs. E. J. Moore, White Deer, and Leroy Campbell, son of Bob Campbell, Claude, were united in marriage March 9 in the home of a close friend of the bridegroom, the office of the Peace J. E. Johnson, Claude, who performed the ceremony.  
Witnessing the ceremony were Mrs. Johnson and the bride's twin sister, Miss Geneva Moore.  
The bride wore a gold-colored suit with brown accessories and an orchid corsage.  
After a wedding trip to Baton Rouge, La., where they visited Mr. Campbell's brother, the couple will be at home on a ranch near Claude.  
Mr. Campbell was graduated from Claude High School and attended Texas Tech for a short time before enlisting in the Army, where he served about four years.  
Mrs. Campbell is a graduate of White Deer High School and was prominent in dramatics, and attended the University of Oklahoma, Texas State College for Women, and a business school in San Antonio.  
Mrs. Campbell was honored at a post-nuptial shower March 28 in the home of Mrs. H. C. McDowell, White Deer, with Miss Billie Ruth McDowell and Mrs. J. C. Freeman assisting.  
The bride and her mother, Mrs. E. J. Moore, received the guests, while Miss Geneva Moore presided at the guest book.  
The refreshments table was laid with an exquisite cloth of sheerest white organdy appliqued in crushed linen, over pink. The centerpiece was of pink carnations and sweet-peas in a white pottery bowl reflected by a mirror and centered with a wedding ring of pink and white spun carnations tied with pink malle bows. Double crystal candlesticks holding pink candles were placed on each side of the mirror. Bouquets of spring flowers were on the mantel.  
Refreshments of white cakes topped with pink rosebuds, pink and white mints, salted almonds and punch were served by Miss McDowell and Mrs. Freeman.

## Skellytown Rebekahs Attend Circle Meet

A brief meeting was held by members of the Skellytown Rebekah Lodge Monday evening in order that they might attend the Circle meeting in Borger.

## Weiss Guest Speaker Lefors Junior-Senior Banquet on Saturday

LEFORS—(Special)—"Irish Frolic" was the theme of the Lefors Junior-Senior Banquet held Saturday evening in the High School Library when the Seniors of 1947 were feted in annual custom.  
Ed Weiss, guest speaker from Pampa, gave a talk on "The Four Qualities Necessary for a Successful Life: A Smile, Hard Work, Consideration for Others, and Belief in God."  
Joe Ogden, Junior Class president, was toastmaster.  
Invocation was given by Wade Stracener. The welcome and toast to the Senior Class, "The Luck of the Irish," was given by Barbara McCullick with a response by Clell Breining, president of the Senior Class.  
A sextet, composed of Junior girls directed by Miss Loyce Elliott, sang two Irish melodies, "When Irish Eyes Are Smiling," and "A Little Bit of Heaven."  
A toast to the school, "Emerald Isle," was given by Berryman Breining and a toast to the faculty, "Saint Patrick," by Patsy Johnson with E. E. Reeves, superintendent, responding.  
The boys' quintet sang "My Wild Irish Rose," and Dale Rath entertained the group with a piano solo, "Irish Lullaby."  
A violin solo, "Londonderry Air," by George L. Moore, accompanied by Miss Elliott at the piano, preceded the address which climaxed the evening's entertainment.  
Carrying out the Irish theme, the room was decorated with green and white balloons and crepe paper streamers.  
The head table had a centerpiece of green and white carnations. Other table decorations were shamrocks sprinkled on white table holders, and green tapers in green holders.  
Sponsors of the Junior Class are Miss Melba Knipping and Mrs. L. E. Penick. Miss Zona May is sponsor of the Senior Class.  
The banquet was prepared by the ladies of the Methodist Church and served by a group of Sophomore girls.  
Following the banquet a dance was held in the High School Gymnasium.  
Those present were: Messrs. and Mesdames E. R. Reeves, J. D. Founberg, L. H. Berryman, J. B. Chambliss, L. E. Johnson, H. L. Carley, George L. Moore, L. B. Penick, Paul Johnson, and Misses Melba Knipping, Zona May and Loyce Elliott.  
Seniors: Lorrain Bloomer, Clell Breining, Eugene Cooper, Marguerite Crawford, Sam Daniel, Hugh Daniel, Angie Davis, Lena Hatfield, Vesta James, Joe Ray Johnson, Jo Ann Johnson, C. H. Keelon, Patsy McIntyre, Bobby Peckham, Jean Rath, Delma Rickman, Betty Scott, and Juanita Upham.  
Juniors: Sara Arlington, Bobby Bratcher, Berryman Breining, Jack Cullison, W. T. Cook, Jimmy Lee Davis, John D. Fopburg, Jr., James Gatlen, Dolores Herring, Dorothy Howard, Raymond Jefferys, James E. Jinks, Rudy Johnson, Patsy Johnson, Ray Jordan, Jimmie Macpie, James McCarty, Barbara McCullick, Joe Ogden, Eddie Mae Quarles, Dale Rath, Rudy Wade, Jeannette Young, Harold Sims, Red Stracener, Ina Jean Taylor, Billie Wall, Jo Ann Wall, and Mary Jo Wall.

## LOYALTY IN GOVERNMENT

Mr. Truman's order of loyalty investigations in the government's executive department should bring the usual crop of protests. Unless all signs fail, there will be cries of "Red-baiting," Gestapo methods, and "loss of democratic freedoms." Most of these will come from persons whose ideal government operates through persecution, secret police, and the suppression of individual freedoms.

There also may be some sincere expressions of doubt or disappointment. The tests do present some potential dangers, to be sure. A good many persons will be involved in passing judgment on the fitness of more than 2,000,000 government employees. In such a large operation, human fallibility is bound to result in some examples of unfairness.

But the dangers which this screening promises to remove are greater than those which it may create. The government can no longer afford the democratic luxury of considering, inviolate the private activities and associations of those who conduct its business. It cannot blindly embrace those who despise its freedoms and put them in a position to help destroy those freedoms.

The common bond of war, which united Communists, Bundists, Klansmen, and other subverters in more-or-less common purpose, has been removed. With it has gone much of the wartime security which in itself was never leakproof.

Today the United States is facing up to a decisive ideological showdown. Surely one of the minimum requirements of its successful outcome is the unquestioned loyalty of those who help to run the machinery of democratic government and who have access to confidential government information.

For the past six years there have been repeated complaints from within the government that some of its employees were disloyal. In consequence some measures were taken to weed out the treacherous elements. Judging from the report of the President's Temporary Commission on Employee Loyalty, they were not very successful.

Mr. Truman's order, based on the Commission's report, promises to be both fair and effective. Any employee adjudged disloyal has ample means of appeal and of representation by counsel of his own choosing. Heads of departments and agencies are held personally responsible for the removal of disloyal personnel. Applicants for jobs will be given a more thorough investigation by the Civil Service Commission than ever before.

The President's Commission stresses the small proportion of government workers intent upon subversion. But it also stresses the fact that these few present a problem which "must be dealt with vigorously and effectively."

As it is now a disloyal person has a good chance of concealing his true feelings in getting a government job. Once in he can work in what amounts to secrecy, as compared with the spotlight of elected public office.

When one reflects that a duly elected congressman like Vito Marcantonio consistently upholds Communist Party line on the floor of the House, and that duly elected congressmen like Theodore Bilbo and John Rankin have consistently perverted the meaning of Americanism and the intent of the Constitution in gaining re-election, it is easy to see how a comparatively obscure official who is appointed rather than elected could get away with some real damage.

## In Hollywood

**By ERSKINE JOHNSON**  
NEA Staff Correspondent  
(Johnson on KPND Monday thru Friday, 3 P. M.)  
HOLLYWOOD. A few more slices of that sensational banana cake at the Somerset House, and I can qualify for membership in Hollywood's exclusive Mirror Club.  
There are only four members right now—Walter Slezak, at 230 sound; Andy Devins, at 310; Sydney Greenstreet, 275; and Oliver Hardy, 268.  
Walter, who may soon lose his membership, told me about the club over a couple of slices of rye bread.  
Walter is on a diet, has lost six and a half pounds, and has 30 more to go before, he says.  
"I look like a thin Van Johnson," he says.  
Van has a good chance to become a member of the Mirror Club any day now if he gains much more weight.  
The idea of the Mirror Club, Walter explained, is this: A Hollywoodman immediately becomes a member when he can see his feet only by standing in front of a mirror. "You are a member," Walter said, "when your boy window interferes with seeing your feet."  
FORMER MATINEE IDOL  
They say everyone loves a fat

man—but nobody seems to love Walter. That's why he's reducing to become an ex-member of the Mirror Club. All he plays on the screen, it seems, are villains. He's the menace in "Sinbad the Sailor" and another in "The Pirate."  
"I," sighed Walter, between bites of rye bread, "want to play romantic heavies. I am a very romantic character at heart." He was a matinee idol on the stage but Hollywood typed him as a villain.  
"I'd like to be," he said, "a cross between Sydney Greenstreet and Clifton Webb. Sort of a pickie Clark Gable."  
Frank Morgan may do a vaudeville stint after going off the air next month. His price is \$10,000 a week. Stan Laurel and Oliver Hardy are a bit hit at the London Palladium. It may speed up their return to the screen.  
**DOUBLE TROUBLE**  
Someone thought it would be nice at the Academy Award presentation to have the best song nomination sung by the stars who sang them on the screen. The idea was quickly dropped when someone else suddenly remembered that Jeanne Crain had a voice double for "All Through the Day" in "Contentment, Summer." Jeanne's singing double

## AUSTRIAN TREATY

WASHINGTON (NEA)—Summoning to Moscow of the Austrian delegation headed by Foreign Minister Karl Gruber calls another ray of hope on U. S. Secretary of State George C. Marshall's ambition to clean up the Austrian situation at the Foreign Ministers' Council.  
The popular notion that a treaty of peace with Austria is to be written at Moscow isn't quite right. The United States never considered it was at war with Austria. Secretary of State Cordell Hull went to Moscow in 1945, he won agreement from the Russians to consider the Nazi invasion of Austria an act of force. The aim of the war, insofar as it concerned Austria, was therefore to liberate the Austrian people and restore their independence. It is this guarantee of Austrian freedom that is being put in treaty form at Moscow.  
Secretary of State James F. Byrnes tried to get the four powers to start work on this treaty in Paris last June. Russia refused. In New York last December, however, Molotov agreed to the appointment of deputies to begin drafting. In January Gen. Mark Clark for the U. S., Vincent Hood for Britain, Maurice Coussé de Murville for France, and Frederick T. Quimby for the USSR, went to work on the treaty in London. They worked six weeks with little success. They reported to the Big Four Council on March 10 and were not to work again.

lot. They agree on a declaration of human rights for the Austrians—in general, the same guarantees written in Italian, Hungarian, and other treaties.  
Where they disagree is on many controversial issues peculiar to Austria, arising out of its seven-year Nazi occupation. Treaty problems come principally from different interpretations of the Potsdam declaration on denazification, the handling of displaced persons, the disposition of former German assets as reparations. All these problems have arisen since the United States, Britain, France, and Soviet Russia took up the occupation of Austria at the end of the war.  
The French western zone of Austria had scenery and electric power. The British southern zone had mines and D. P.'s. The U. S. northern zone was fairly well balanced in industry and agriculture. But the broad Russian eastern zone had the breadbasket, the oil, and the big industries. The Russians wanted to stay. Everybody else wanted to go home and leave Austria to the Austrians.  
Under the Potsdam agreement, German-owned external assets were to be divided as reparations. The three western powers renounced their share. It had never been contemplated that land was to be included, but Russia asked over 60 big estates. They also took 120 plants, including the only synthetic mine and most of the food and oil. Much of the oil had been developed by American and British com-

## MACKENZIE'S Column

By DeWitt Mackenzie

### AP Foreign Affairs Analyst

Few of another world war is a very natural public reaction to recent international events, but we shouldn't let that possibility—shocking as it is—blind us to an actuality which is of even more immediate importance, and it is this:

The Moscow-directed world-revolution which was born with the establishment of the revolutionary Soviet government in 1917 is at long last in full swing on a truly global basis. It is mobilized to the utmost strength which Russia can muster pending her recovery from the ravages of war.

I return to this subject because the encountering people who find it difficult to believe that anything so terrible could be reality, especially in the United States. Well, it does seem like melodramatic fiction, but we shall be crazy not to recognize its truth.

As this column previously has pointed out, Stalin came to power in 1925 he temporarily shelved most of the direct-action aspects of this scheme—that is the use of force—pending the development of Russia's industrial and military strength. He thought communism would be putting the cart before the horse to try to overrun the world while Russia herself was still weak.

Stalin's several five-year plans did wonders in building up the Soviet Union's strength. The war, which Hitler unleashed as soon as Moscow had signed a pact with Germany, had created exactly the sort of chaos upon which communism thrives, so now we see the Red drive being pushed to the limit everywhere in order to take full advantage of that chaos.

Naturally the United States, as the most powerful nation of our time—all the time, for that matter—and a "capitalistic" one, is the main objective of the Communist drive. We were given plenty of warning in the sensational testimony developed last week before the Congressional Committee on Un-American Activities, and in the report of the committee to Congress. This report declared that the Communist party in the United States is part of the world-wide revolutionary movement, taking orders direct from Moscow, and that it seeks to overthrow the Washington government.

The world is covered with a rash of events which are developments of the world revolution, some representing bloody violence and others tactical political maneuvers. Typical of the latter class are the food demonstrations in the British zone of occupation in Germany. Authoritative sources say this trouble has been inspired by agents who exploit every situation which is a potential trouble maker. This sort of thing is being carried on intensively by the Communists throughout Germany as they maneuver to gain control of the entire country.

Such operations are the indirect action which is used as a softening up process before the direct-action is applied. There are plenty of examples of direct-action—governments established by force and the liquidation of the opposition.

The United States is now in the softening up stage. The governmental drive to clean house of the Communists is calculated to prevent the development of the direct-action stage in America. It will, too, if the public recognizes present dangers and keeps on the alert.

was Louanne Hogan.  
Donald O'Connor is playing his first film role in four years with Deanna Durbin in "For the Love of Mary." Donald was discharged from the Army a year ago, and the changeover of Universal to Universal International left him without a role until now.  
Donald still chuckles over the time he was asked to write and stage a vaudeville show for a cast of 35 at an Atlantic City Army camp. He labored over the book and music for weeks. Came the night for talent and only three vaudeville privates showed up. Overnight, most of the camp's population had been transferred.

He was cast of 35. All I've got is three men," wailed Don to his commanding officer. "What should I do?"  
Replied the C. O., "Improvising." Donald "improvised" by playing 15 roles himself.

### COMMUNISTS WIN ONLY FOUR SEATS

The Austrians themselves claimed rightly that these wholesale appropriations would ruin their country. To check this the Austrian government moved to nationalize its industry, but the Russians wouldn't let the decree be enforced in their zone.  
As a provisional Austrian government has been set up by Russia in April 1945, it was recognized by the other three powers in September, and conducted national elections two months later. Much to the Russians' surprise, the Communists won only four seats in the National Assembly. Socialists won 76 seats, and the People's Party, middle-class conservative, won 85.  
With Dr. Carl Renner as president and Dr. Leopold Figl as chancellor, this government was recognized by the Big Four in January, 1946.

It has done a good job. Though it started with printing-press money, it has held down inflation. It hopes for shares of the \$100 million gold pool stolen by Germany. It has asked the U. S. Export-Import Bank for a reconstruction loan of from 25 to 50 million dollars. It claims if the \$350 million U. S. relief program is approved by Congress.

This Austrian republic is the government with which the Big Four is making treaty. Ninety days after the treaty is approved the four zones of occupation are supposed to move out.

## Common Ground

By R. C. BOILES

### Truman's Greece Proposal

It is doubtful whether Truman's proposal to not only give financial aid but in reality military aid to Greece and Turkey is the real road to peace.

It is also doubtful whether it is to the interests of the people of the United States to try to run and control the rest of the world while we are making such a miserable job of promoting peace and moral law in our own nations.

There is an axiom as old as time that he who takes up the sword—force—shall perish by the sword. If we want to run the rest of the world by the sword rather than by example there will be no end to our job.

The only C use of Our Moral Obligation  
The people of the United States should follow Jesus' advice, "Let us not fight with sword." Let us find the cause of the evil and then correct that. Likewise, find the cause as to why we have any moral obligations in Europe.

The only reason we have any moral obligations to the rest of the world is because we have been immoral ourselves. We have been immoral in our immigration laws, in our tariff laws. If the people of these lands that are oppressed more by their states than we are, are dissatisfied, they should be permitted to vote in the United States. The people of the United States did not create the earth. "The earth is the Lord's and the fullness thereof." The world and they that dwell therein.

Yet we try to build a fence around the U. S. by man-made laws. We pass immigration restrictions that prevent foreigners from going on the land of those in America who are perfectly willing to have them on their land and want them there.

And letting the people come to this country would not, as most people think, impoverish those of us who are here. That is, it would not impoverish us if we did not here violate nature's laws and attempt to make it possible for men to live without living by the sweat of their brow.

President Truman's proposal is just an additional growth of the United States' attempt to police the rest of the world will so add to the cost of the government that people will not pay enough taxes to pay the cost. The result will be more borrowing, more credit in circulation, more rises in prices, more discontent and eventually a dictator in our own country.

The President talks about "one way or the other" based on the will of the majority and is distinguished by free institutions, representative government, free elections, guarantee of individual liberties, freedom of speech and religion and freedom from political oppression. The whole sentence is a lot of words that contradict each other. How can we have a government based on the will of the majority and at the same time guarantee individual liberty? We can no more have it than we can have a voluntary country based on the will of the majority or the will of one man or of the few. We want a country based on impersonal, eternal laws, not based on other words, we want a country based on God's will, not man's will.

And it is folly for us to talk about establishing free institutions here when we have never had completely free government institutions in this country. And we are rapidly losing our approach to free institutions.

We had much better teach the world by example how to live in peace and harmony than we had to try to protect ourselves from exploiters throughout the world. To do so we will become more and more an exploiter ourselves.

In the end we will be exploited. It is not the creative power of man, all history is evidence that the countries where men are the freest are the countries that survive when they are attacked by other countries practicing slave laws. It is the case with communism. The more the Russian Communism spreads, the more difficulty they will have in keeping their subjects down.

Let's build up our own freedom and as we build up our own freedom we will be building up our way of defense.  
If we would correct our own immoral acts by reducing tariffs and eliminating our immigration restrictions, the rest of the world would have no reason for fighting us. And if they chose to attack us, we would then be able to defend ourselves.

I believe it must be the policy of the United States to support free people who are resisting attempted subjugation by armed minorities or by outside pressures.—President Truman.

The food is marvelous. I've eaten three months' butter ration already, real white bread, ice cream and two eggs for breakfast instead of one a month.
