Several Weeks Cold Storage Seen for Bill

WASHINGTON—(AP)—The Senate Finance Committee reserved a cold storage spot today for the House-approved tax cutting bill until members can find out more about government costs next year.

Solon 'Investigating' City's Pipe Request

While U. S. Senator Tom Connally and Congressman Eugene Worley are reportedly seeking to save the city of Pampa \$8 to 10 thousand dollars, Senator W. Lee O'Daniel is "investigating the matter," it was disclosed yesterday afternoon during the meeting of the City Commission.

The disclosure came after City Manager Garland Franks had been successful in participating in the Camp Howze distribution of surplus cast iron pipe to municipalities. The discount then was set at 40 percent, but Franks learned later that it could be obtained at a discount of 65 percent and possibly 100 percent to cities where it was needed for purposes of public health; and immediately contacted Connally, Worley and O'Daniel by telegram.

Connally's telegram to Franks read: "I have been in contact with War Assets Administration officials and an urging approval from standpoint indicated by you. Your application for water distribution facilities and request for discount now being processed by Washington WAA officials."

Franks told the Commission that the city didn't need an investigation of the matter, that what it needed was help in obtaining the discount as it would save the taxpayers close to \$10,000 in purchase price.

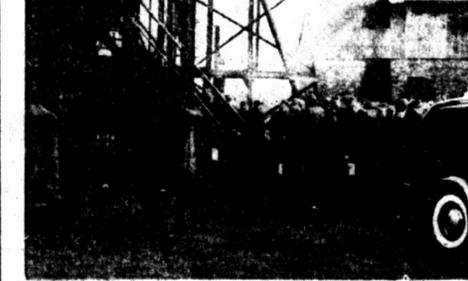

In a later letter to Franks, John O. Hall, city manager of Muskogee, Okla., advised that Worley had been told by General Robert M. Littlejohn, War Assets administrator, and that he had been given a "bluff" by the general who further attempted to "bluff" him by telling him that such discount was contrary to the law.

A series of letters, notes, telegrams, and bulletins, now in the hands of the city manager, further disclose that the city should be entitled to the substantial discount on the pipe both for sewer lines and water lines. It was later reported in a WAA bulletin that Littlejohn was "impressed by the interest in the matter taken up by other senators and congressmen in Washington."

However, full authorization for the large discount has yet to come from Washington.

After a full hour discussing the request made by E. L. Tarrant to place a 1500-gallon gasoline tank in his backyard or bury it beneath pavement or street in front of his house on N. Gillespie St., the Commission refused to request to bury the tank on city property in accordance with an ordinance now in force prohibiting such action. The Commission also felt that should any accident occur due to the tank's presence there, the city should be held in the same liability as the owner by permitting the installation.

Tarrant's second request to place the tank on his own property to the rear of his home was tabled for further consideration. Tarrant told the Commission that he would erect the tank on concrete pillars and that it was for his own private use. Commissioners were of the opinion that no curfew was imposed.

MINE BLAST SCENE—A hearse and miners wait at shaft of Bell and Zeller mine at Centralia, Ill., where an underground explosion trapped over 130 men. Poisonous gas which drifted far back from the shaft may have taken 111 lives.

Jackson Says World Needs New War Rules

WASHINGTON—(AP)—Supreme Court Justice Robert H. Jackson, who helped prosecute the top Nazi war criminals, said today the world needs a new set of rules for waging wars.

"It is perfectly obvious these rules are obsolete as they stand," Jackson said of the various conventions and agreements under which armies usually fought until the war was processed by Washington WAA officials.

The jurist, who led the United States prosecution staff at the four-power Nuremberg trial last year, was asked by a reporter his views on the treaties governing warfare—some of which date back to 1907. The most recent revision was made in 1929.

"Treaties bind the military forces of signatory nations to specified conduct in the treatment of prisoners, civilian populations, bombardment, blockades, and the use of certain weapons."

In answering questions, Jackson emphasized that he was speaking as a citizen and did not intend his views to bear official weight. He avoided discussion of any specific rules he thinks should be changed, saying such retail properly is in the sphere of military and diplomatic experts.

But he noted that not only has the mode of warfare changed since the rules were last amended, but the stature of some nations has altered.

Jackson mentioned as an example Russia, which is not signatory of the Geneva convention governing the treatment of prisoners of war.

That convention was signed by 35 nations, at a time when the Soviet Union was remaining aloof from international affairs. Because of that, he said, the matter assumed no significance then. Now, however, Russia ranks

Body of Amarillo Man Recovered

PANHANDLE—The body of Bruce R. Hughey, 29-year-old Amarillo fireman who drowned in Panhandle Lake near here Wednesday afternoon was recovered from the lake shortly after one o'clock.

Hughey was fishing with two companions when high waves drowned out the outboard motor on their boat and capsized the small craft.

Hughey's companion, L. R. Reynolds and Demp Higgins, said that after the boat overturned, the three clung to the side of the boat for a while. Reynolds and Higgins then waded ashore to summon aid but Hughey had already slipped into the water when they returned.

The men who found the body, Bryan York and C. C. Allen, were riding in the same boat that capsized Wednesday.

Rescue workers were forced to halt their efforts yesterday morning when high winds resulted in waves several feet high, endangering the rescue boats.

Earle Heard by House Committee

WASHINGTON—(AP)—George H. Earle, onetime diplomat and governor of Pennsylvania, said today that if the United States "didn't have the A-bomb, Russian armies would have fanned out all over Europe today and over most of Asia."

Earle told the House Committee on Un-American Activities that in such a Soviet advance, Sweden, Switzerland and Spain would be the "islands of resistance."

"Governor," remarked Rep. Mundt (R-SD), "that is an important statement."

"That's what I believe," Earle said. Preceding Earle in the witness chair, Gov. Kim Sigler of Michigan testified that three high officials in the CIO United Auto Workers Union are "captives of the Communist Party of the United States."

Sigler said the three officials are: "R. J. Thomas, former president and now vice president of the union; George Addes, union secretary-treasurer; and Richard P. Leonard, national director of the Ford Department."

Sigler added that "they follow the Communist party lines in union activities."

Four months, the governor said, there has been a "fierce struggle" for control of the CIO-UAW in Detroit between Communists and good loyal American citizens.

Sigler took no definite stand on the measures in a prepared statement, but he said communism presents a "serious menace" to America and he has been fighting its evil influences since the day he took office. He listed there are "upwards of 15,000 Communists in Michigan."

Rep. J. Parnell Thomas (R-NJ) said today the House committee on Un-American Activities which he

How About Moving In a Little Closer, Joe?

Council Turns Back To German Problem

MOSCOW—(AP)—It was authoritatively learned that the Council of Foreign Ministers failed to agree today on the question of German reparations for further discussion.

The Council then went on to take up the German problem. The Russians have begun a bargaining drive in the conference to get reparations from current German production, it was learned, but the United States and Britain thus far are standing against a proposed compromise.

Iran served notice today, through Ambassador Prince Monastir Firouz, that she would claim reparations from Germany at the peace conference for war damages listed at \$955,000,000.

While Soviet Foreign Minister V. M. Molotov made clear from the start that continuing reparations is the most important Russian requirement in any German economic settlement, the situation had developed into a demand and counter-demand situation until an all-night session of the Big Four Council's Coordinating Committee last night caused all the powers to begin playing some of their highest cards.

The Ministers' Deputies, meanwhile, asserted today that the proposed United States aid for Greece should be strong enough to "demonstrate to the world that the objective and policies of democracy are superior to those of any other system."

His arguments, as he reviewed the Greeks' needs in testimony to the House Foreign Affairs Committee, obviously were calculated to offset the contention of some Capitol Hill quarters that American assistance to the Southern European country should be limited to strict relief.

Moves also have developed in Congress to bar aid for Turkey rather than giving Mr. Truman a free hand, as asked, to send \$50,000,000 and limited military missions to help Greece and Turkey resist Communist aggression.

Just back from Athens after a two-month survey of the Greek situation, Porter declared flatly "it is obvious to all that Greece cannot work out her own destiny alone. He added:

"She has resources, the labor supply, and the will to do it with our assistance. The record of Greece in resisting oppression entitles her to that chance."

Porter, former chief of OPA, told the committee that it was apparent that the proposed program of American financial aid to Greece would do no more than place Greece on an "austerity basis, and lay the basis for reconversion."

State Department officials have advised Congress that if the President's plan is approved, about \$150,000,000 will be used to help Turkey—almost all of it military aid—and the remainder of the \$400,000,000 will go to help Greece.

Porter talked only of Greece and, describing conditions there, said: "In a sense, Greece is living on borrowed time—in the hope of prompt American assistance."

"It is obvious that outside assistance is required for the survival of Greece," he said.

See GREEK AID, Page 8

HOT COPY CLARA CITY, Minn.—(AP)—A reporter for the Clara City Herald, a weekly newspaper, telephoned Mayor John Barney and asked, "Any news today, Mayor?"

"Yes," shouted Barney. "Hurry! Call the Fire Department! My house is on fire!"

The reporter relayed the report to the Fire Department and firemen raced to Barney's home and extinguished a blaze on the roof.

Church Leader Is Speaker at Lions

Dr. Willis J. Ray, executive secretary of the Baptist general convention, Phoenix, Ariz., was the principal speaker at the regular weekly luncheon-meeting of the Lions Club, yesterday.

Dr. Ray gave an interesting talk on his resident state. Among other experiences, he told of visiting the well known cemetery at Tombstone, where there are "approximately 200 people buried since only two died of natural causes. The rest were hung, knifed or shot."

"I WILL RETURN" LOS ANGELES—(AP)—A gunman who robbed him of \$50 Monday night told Pierre C. Cariso, cigar store clerk: "I'll be back."

He kept his word. Wednesday night he robbed Cariso of \$45.

Portable Iron Lung Exhibition Here Tomorrow

Public demonstration of the use of the Millikin Portable Iron Lung will be held from 2 to 5 p. m. tomorrow at the City Fire Station on West Foster St.

The use of the lung, which is being purchased by the Department of the National Foundation for Infantile Paralysis for use in this county, will be demonstrated by a Millikin Southwest Co., representative from Denver.

The late type of respiratory equipment will be left permanently at the Fire Station—and will be available not only for polio emergency cases, but also for such crises as drownings, asphyxiation, and electrocution.

The county chairman, C. A. Huff, said that one of the points to be stressed at the demonstration will be the fact that it does not take a doctor or skilled technician to apply or operate the lung. In that connection, all persons within the city and county who some day might be called to handle the lung, will be thoroughly instructed on its use.

George W. Sarnberg, president of the company, stated that the unit carries a two-year continuous operation guarantee. In addition to this standard warranty, the manufacturer will furnish to the county a portable lung free of charge in case of an epidemic, polio or otherwise, provided the original lung purchased is put to continuous use.

Huff said, "The county committee in charge feels that a guarantee of this nature will assist greatly in combating a polio epidemic should it strike this area."

The unit has been approved by a number of local physicians. The unit contains three vest-type "lungs"—to fit varying sizes and weights of persons.

Absentee Ballot Deadline Today

City Manager Garland Franks this morning reminded Pampa voters that midnight today is the deadline for casting of absentee ballots for the April 1 General City Election, in accordance with state law.

Late yesterday afternoon the City Commission approved the appointments of two election judges and a change of voting place for Ward 3 from the McWilliams Motor Co. to the Harrah Methodist Church, S. Barnes St.

Requests by Bonnie W. Rose, election judge of Ward 1, and F. E. Hoffman, election judge of Ward 2, to be excused from their duties were granted by the Commission.

Frank Stallings was appointed as election judge of Ward 1 and Roy Sewell was named to succeed Hoffman in Ward 2.

Franks said this morning that the city has received no applications as yet for absentee ballots and that very few, if any, are expected.

The general city election, set for next Tuesday, has caused a minimum of interest since there will be no opposition at the polls, except a small number of write-in votes.

Fire Rages After 5 Jews Blow Up British Pipeline

JERUSALEM—(AP)—British officials said today five Jews had blown up an oil pipeline in the Haifa Dock district, setting off a fire that raged through extensive oil and benzene installations.

The announcement said the Jews, dressed as Arabs and armed with revolvers, forced their way through heavy defenses of the oil dock area at 9:05 a. m. and placed small charges of explosives under the pipeline in several places.

They tried to flee in a small truck, the report said, but were turned back and then attempted to scatter and escape afoot. Several suspects were rounded up for questioning, but police declined to say whether any were connected with the blasts.

Inhabitants of Haifa, a major Palestine port on the Mediterranean northwest of Jerusalem, told of hearing two heavy explosions.

The fire started by the blasts spread to nearby oil and benzene tanks of the Shell Oil Company, which engulfed the contents. Police, navy and oil company fire brigades struggled for more than an hour to bring the blaze under control.

A smoke pall spread over the city. The sight of this and the sound of the explosions and of vehicles racing through the streets spread excitement throughout Haifa, but no curfew was imposed.

44 Miners Still Are Unaccounted for as Rescue Attempts Continue at Blast Scene

CENTRALIA, Ill.—(AP)—Rescue workers who said simply "it's getting dangerous for us down there" struggled today to complete their exploration of the coal mine in which 111 were believed killed in an explosion Tuesday afternoon.

Sixty-seven bodies have been discovered thus far and, according to mine lists, 44 miners were still to be accounted for. No one had more than a faint hope that any would be found alive in the No. 5 mine of the Centralia Coal Company.

The latest bodies found in the mine were so badly burned and bruised that a rescue leader said identification might be difficult. He said condition of the bodies indicated rescue workers were nearing the scene of the explosion.

Falling chunks of coal, smashed timbers, and damaged mine equipment hindered the work of the rescue crews. Composed mostly of full-time state employees, the crews are stationed throughout the coal field

region in Southern Illinois for emergencies such as this one, and for routine assistance and inspection work.

One rescue worker echoed the feelings of others when he commented "it's getting dangerous for us down here—it's getting extremely bad."

The workers are now checking a mine area about three miles from the 540-foot shaft which is the only entry to the pit. A trip to the present site of operations requires nearly an hour. The miners and any equipment are hauled through the dark seven-foot high and 20-foot wide passages under the earth by slow-moving mules.

Power-driven equipment has been shunned aside for fear that electrical sparks might set off an explosion of gas collected in the mine. Rescue squads working far forward wear gas masks and carry oxygen tanks on their backs.

The workers said because of the tedious slowness of their operations, which includes boarding off all side passageways after inspection to aid ventilation, it might take "two or three days" to finish their task in the No. 5 mine of Centralia Coal Company.

Fred Hellmeyer, the company's chief electrician at the mine, said he believed the bodies of miners still unaccounted for would be in three separate locations.

He told a reporter that from his investigation in the mine he believed the explosion had been due to a "shot charge improperly packed. Shot charges are set off in mines to loosen coal.

Meanwhile inquiries were underway or planned by several officials, including the U. S. Senate and House of Representatives. Gov. Dwight H. Green and a Fact-Finding Commission being organized by him, by the Illinois State Legislature, and the Washington County grand jury.

Houston Philanthropist Establishes Foundation in Amount of \$80,000,000

HOUSTON—(AP)—Hugh Roy and Lillie Cullen gave away \$80,000,000 today, the largest sum they said, they are selfish people.

"We are both that selfish that we wish to see our money spent upon our lifetime, so that we may derive great pleasure from it," Cullen said. "Many of our wealthy citizens are much less selfish than we, for they are willing to allow their estates to give the pleasure of giving their money to charity organizations after they are dead and gone."

Cullen announced the gift—to be used to establish a foundation for the purpose of aiding educational, medical and charitable institutions from the stage of the music hall here. He had been invited to tell members of the Texas Hospital Association why he and his wife had directed their philanthropies to hospitals.

In one week in 1945 the Cullens gave \$4,000,000 to Houston hospitals.

Attorneys are drawing up papers to create the foundation. The money is in the form of oil properties containing some 30,000 to 40,000 acre feet of oil, estimated to be worth \$2.10 per barrel.

Principal recipients are expected to be the Texas Medical Center, of which Cullen is a trustee, and the University of Houston, the board of trustees of which Cullen heads.

Franks originally had received four daughters and 10 grandchildren were present when their father and grandfather told of his latest philanthropy.

"The children are just as happy as we," Mrs. Cullen said from her seat in the audience, "they have enough. All the children and grandchildren are taken care of and Roy and I just want to live. We're selfish. Roy's right. We are selfish because we want to enjoy our money while we live."

Kansas City Man Is Named City Engineer

The City Commission yesterday afternoon approved the appointment of John E. King, 40, of Kansas City, to the post of city engineer.

King associated with the Burns-McDonnell Consulting Engineering firm of that city, is listed in the Texas Bureau of Registered Engineers and licensed to practice in this state.

City Manager Garland Franks informed the Commission that King will arrive here for duty on Monday. He is married and has one child.

King will fill the vacancy created by the old City Commission when they requested the resignation of George Thompson.

Franks originally had received four applications for the job a number later reduced to three when Dick G. Pepin was forced to withdraw his application for personal reasons.

HEATED CONVERSATION NEW PHILADELPHIA, O.—(AP)—Mrs. Dewey Hoover rushed to her telephone to summon the Fire Department to her blissing home but two women on the party line refused to surrender the line.

"We've heard that one before," Mrs. Hoover said one of the women told her.

She finally got the Fire Department but damage to the house was estimated at \$1,000.

Youths Held in Burglary Here

Two more Pampa teen-agers ran afoul of the law when LaVerne Martin Cooksey, 18, an employee of the Ideal Food Store No. 1, and Herman Ratliff, 17, employed by Plains Motor Co., were arrested yesterday by Asst. Chief of Police J. O. Dumas and charged with the burglary of the Plains Motor Co. on Tuesday night.

Working on a hunch that the theft was an inside job Dumas questioned several employees of the firm until Ratliff told him how the burglary was pulled and implicated the Cooksey youth.

Shortly after noon yesterday Dumas arrested both Ratliff and Cooksey and placed them in the city jail. The boys later signed statements before County Attorney Bruce Parker.

The boys were transferred to the county jail to await their preliminary hearing this morning before Justice of the Peace D. R. Henry. Both boys waived their preliminary hearing and Judge Henry set their bonds at \$1,000 each.

Since the theft amounted to approximately \$100 it is considered a felony and will be taken before the Grand Jury at its meeting.

Junior Play Makes Hit With Audience

The Junior Class presentation, "Strictly Formal," was well received by an audience numbering nearly 300, at its opening performance last night, which was presented again tonight, beginning at 8.

The play is a three-act comedy built around the antics of a group of teen-age girls attempting to secure dates for the all-important Junior Dance.

Lead parts are carried by Ida Ruth Taylor, Tommy Chisholm, Barbara Stephens, Max Fukill, Nicki Fraser and Richard Hughes.

As a whole, all members of the cast carried their parts well, and with the exception of two or three slight mishaps, the play went off smoothly. One thing was evident throughout. It was a crowd pleaser.

The play is under the direction of Miss Ruth Cowan.

Other members of the cast not previously mentioned are Ann Mosley, Carol Culbertson, Bob McPherson, Don Lane, Patsy Brandon, Joann Appleby, Nancy Thompson, Hilda Burden, Kathryn Crowley and Hazel Kennedy.

Houston Philanthropist Establishes Foundation in Amount of \$80,000,000

HOUSTON—(AP)—Hugh Roy and Lillie Cullen gave away \$80,000,000 today, the largest sum they said, they are selfish people.

3 Petitions Filed in Lefors School Election

LEFORS—Three local businessmen, C. W. Burgess, E. J. Pafford and C. H. McCullick, have filed their petitions for candidacy for the April 5 election of the trustees for the Lefors Independent Schools, it was announced recently.

Two vacancies on the five-man board will occur with the expiration of this term. H. M. Little, whose term expires, will retire permanently. C. W. Burgess, the other trustee whose term is expired, will seek reelection.

Regular voting will take place at the Lefors High School building. Absentee voting will take place in the County Schools office in the County Courthouse, tomorrow, and Monday through Wednesday of next week.

From an engineering standpoint, it is more important than gasoline as a motor fuel because it is harder to get into the cylinders.

Sweet potatoes form the second largest vegetable crop in the United States.

Do you envy the energy of *Others?*

How often have you thought, "Why can't I feel like he acts?" Perhaps you can . . . for, if you now feel worn out or utterly exhausted . . . and there's nothing also wrong . . . this may indicate you are not getting enough vitamins and minerals of the kind necessary to maintain your normal vigor and vitality. If that's true, you can do something about it! For example, try Vitawine.

This super-potent tonic, which contains 6 times the adult minimum daily requirement of Vitamin B-12 since the iron—plus other vitamins and minerals . . . is scientifically formulated as a real aid to nature in rebuilding and maintaining pep, strength and energy, when you are not getting enough of the essential vitamins and minerals Vitawine contains. So, try palatable Vitawine, the super-potent tonic!

OUT OUR WAY

Sports-Loving Nation Puts President on Spot; Truman Loves Walking, May Turn to Bowling

WASHINGTON—(AP) — President Truman is on the spot.

This is a sports-loving nation. Sportsmen vote. So every President tries like fury to be a sports loving guy.

But Mr. Truman's trouble is that his favorite sport isn't popular any more.

In a nation where almost everyone rides, Mr. Truman likes to walk.

Worse still, he likes to get up early in the morning to do it. Obviously he can't win votes that way.

What to do? What to do?

Mr. Truman always has been an enthusiastic watcher of football and baseball. And since becoming President he has turned to fishing, dutifully. He also has installed a horse-shoe pitching court, rarely used, in the yard.

And Tuesday the news came out that bowling alleys are being put in. Right in the White House.

Will Mr. Truman, who last bowled 44 years ago and liked it fine, be any fonder of bowling than he is of fishing and horseshoeing?

Probably not, say those who know Mr. Truman's devotion to walking.

Yes, says Roy Thomas, who headed a nationwide campaign by which bowlers bought \$485,000,000 worth of war bonds.

Like all bowlers, Thomas thinks if Mr. Truman heaves that ball down the alleys a couple of times, he'll be a convert for life.

"There's something about it that gets you," he told a reporter.

Was turning bowler a smart political move?

"Well," said Thomas, "There are around 20,000,000 bowlers.

So far as Thomas knows, this will be our first bowler-president. But

nearly all have been more or less sports-minded.

Franklin D. Roosevelt, despite his tremendous physical handicap, fished and swam.

Herbert Hoover fished and medicine-balled. Calvin Coolidge fished and galloped his mechanical horse.

Woodrow Wilson and William Howard Taft golfed. Teddy Roosevelt tennis and tracked big game.

It goes clear back to Washington, who was quite a jumper.

Washington also threw a dollar across a river. Of course, a dollar went farther in those days.

Each year 18,000 people are killed, and 2,000,000 injured in farm accidents in the United States.

English prisons house 12,000 men and only 600 women.

REALISTIC DRAMATICS
OGDEN, Utah — (P) — La Moine Wall, 13, was rehearsing for a school play with the script calling for him to be "knocked out" in a fight.

La Moine didn't get up when Director Gladys Sargent ended the rehearsal.

Examination showed he had bumped his head a little too hard when he fell to the floor. First aid treatment brought him around.

WE, THE WOMEN

Men Should Share Household Tasks

By RUTH MILLETT
NEA Staff Writer

More than one-fourth of the women in the United States are "articulately, definitely disturbed about their lot," says Margaret Mend, famed anthropologist.

Mrs. Mead claims these unhappy women are unhappy because of their isolation and loneliness in the home and their "semi-voluntary slavery to housekeeping."

Help for such women must come from two sources, the anthropologist believes—from more labor-saving inventions and from their husbands' assuming greater responsibility in family home life.

Women will probably get the inventions all right—but that the man of the family can be prevailed upon to become more of a working partner INSIDE the home is less likely.

Too many men picture home as a place they can come to in the evening to put on their easy slip-

pers, sink down in an easy chair, and enjoy life in the spirit of a guest. Such a husband's working day ends when he walks through the front door of his house, though night after night his wife works three or four hours after his arrival.

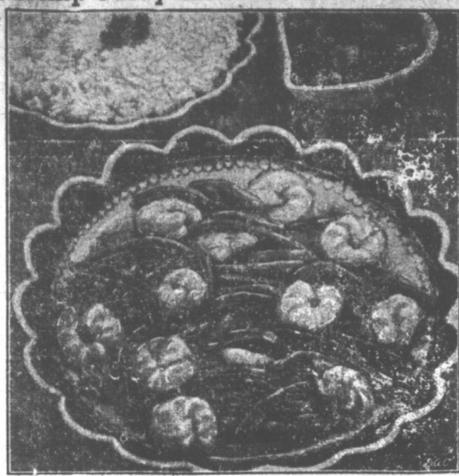

When a man leaves his place of business his wife still has dinner to get on the table, dishes to do, the kids to put to bed, the living room to straighten. After that—if she is lucky—she, too, can sit down and relax. But as often as not when "routinized" jobs are done she must tackle ironing or sewing or one of the other jobs a busy mother often can't find time to do during the daylight hours.

MEN OFTEN DODGE DUTY

As a man begins to go forward in his business or profession, his wife usually assumes that she must be more and more of a help to him in such ways as entertaining, taking part in community affairs, seeing that their home keeps pace with her husband's position.

But men are not so quick to realize that as a wife takes on more and more responsibility—children, a larger house, perhaps the care of an aged parent—the husband's working day shouldn't end when his eight-hour day is over.

Shrimp Curry Enlivens Lenten Fare

SHRIMP and string beans, ready-prepared in convenient cans, are the main ingredients of this appetizing dish. Simple to prepare, highly nutritious and inexpensive, this combination—seasoned with curry powder and served on rice—offers a delightfully different way to enliven Lenten fare.

Here is the recipe for Green Bean and Shrimp Curry:

2 cups string beans (1 No. 2 can)	2 teaspoons curry powder
1/2 cup water	1/4 teaspoon salt
1/2 cup water	1/4 teaspoon pepper
1 cup water	1 cup canned shrimp (1 No. 1 can)

Drain beans, reserving liquid. Melt butter in saucepan; add onion and cook slowly until browned. Remove from heat; add flour and stir until well blended. Add curry powder, salt and pepper. Add bean liquid and water. Cook until slightly thickened, stirring constantly; add beans and mix well. Cook for 3 minutes, add canned shrimp, and serve with rice. Makes 6 servings.

Jr. High 4-H Club Met on Wednesday

Thirty-three members of the Junior High 4-H Club were present for the regular monthly meeting of the club in the Science Room of the school. Meeting with them was Miss Ann Hastings, Gray County home demonstration agent.

The president, Virginia Green, presided over the meeting and led the group in the Pledge to the Flag and a number of songs.

Roll was called by Carole Sue Long, secretary and girls who had pictures of the dresses or aprons they planned to make, passed them around for the others to see.

Miss Hastings discussed tomato plants and demonstrated an apron she had made. She explained how it was made and modeled it on Delphia Burns. Plans were discussed for having an apron party at the next meeting.

Lou Ann Brooks was elected new game leader, replacing Yvonne Hudson who resigned.

Present were Mary Sue Andrews, Lou Ann Brooks, Delphia Burns, Maxine Burns, Gayle Campbell, Helen Caughey, Bill Combs, Pauline Craig, Carolyn Dobnam, Ernestine Edwards, Betty Gage, Virginia Green, Elma Jean Hewitt, Yvonne Hudson, Marlene Leder, Carole Sue Long.

Connie Scott, Hazel Mae Matlock, Carol Lee McCune, Joyce Steel, Pauline Tice, Erma Ray Winborne, Barbara Work, Ruby Shelton, Gayle Kiser, Imelda Creshner, Wanda Snow, Janet Weathered, Doris Louise Drake, Bernalou McMillin, Betty Lou Writers, Dorothy Tyler, and Nita Ray.

The next meeting of the club will be held Thursday, April 24, at 2:45 p. m. in the Science Room.

Baptist Revival To Close Sunday

The simultaneous revival, which opened at all 27 Baptist Churches of the Palo Duro Baptist Association on March 16, will be brought to a close Sunday evening, March 30.

Every church engaging in the revival has a distinguished guest preacher and a capable guest music director. Dr. D. D. Sumrall, of the Department of Evangelism of the Texas Baptist General Convention, is directing the evangelistic campaign, and is also serving as guest preacher for the First Baptist Church in Borger.

Evangelists and music directors for the Pampa Baptist churches include: Calvary, W. H. Colson and Roswell Edwards; Central, Dan Vental and M. L. Richards; and First, Willis J. Ray and R. Virgil Mott.

Rev. and Mrs. E. B. Joseph, who are also cooperating in the revival, will be heard over KPDM at 7:15 a. m.

Texas Musicians and Accomplishments Are Varietas Club Topic

Members of the Varietas Study Club met Tuesday afternoon at Mrs. R. W. Lane for a program on "Texas Musicians and Musical Accomplishments."

Mrs. C. W. Andrews gave an interesting report on the life of William J. Marsh who wrote "Texas, Our Texas" and "The Yellow Rose of Texas."

Mrs. Lavell Harlin of Skellytown gave a talk and sang a number of Texas ballads, love songs, work songs, and Negro spirituals and were appropriate costumes for each group of songs. At the conclusion of her numbers the club sang "Beautiful Texas" and "The Eyes of Texas," and Mrs. Andrews played "Trees" and "Easter Parade."

Mrs. J. C. Hamilton presided over the business meeting at which it was decided to cooperate with the Council of Clubs on providing a suitable room for mental cases.

The hostess serves refreshments to those mentioned and the following: Mesdames J. G. Cargile, S. C. Evans, H. T. Hampton, Lee Harrah, Horace McBe, Luther Pierson, Felix Stalla, Ralph Thomas, Quentin Williams, J. C. McWilliams, J. C. Vollmert, and Loyce Caldwell.

Parents of Talented Children Are Advised By Clare Tree Major

Sound advice to parents of talented children is given by Clare Tree Major, founder and director of the Children's Theatre of New York, whose production of "Under the Lilacs" at the Junior High Auditorium on April 13 will be sponsored by A. A. U. W. says Mrs. Quentin Williams, president of the group.

Clare Tree Major believes that talented children should not go on the stage too early. "They don't have the technique to carry the burden of a performance," she states. "Besides, and more important, every child has a right to a normal childhood. If he is to be normal later in life he must share the childhood feelings and experiences that are in the memories of adults."

Mrs. Major says that few child actors become outstanding successes in adult life. "This is quite easy to understand," she explains. "Given emotions to mimic before they understand their import they can seldom play these emotions sincerely when they are older. The habit of pretending is so fixed in childhood that almost invariably it continues through the adult career." Her advice is to let the talented children live and learn and play as other children do. Then train them for theatre when the nurtured store of emotional life and imagination is at its fullest.

In "Under the Lilacs," as in all other Clare Tree Major plays, the parts of children will be taken by very small adult actors.

Hershell Webster, 17, Dies This Morning

Hershell Wayne Webster, 17, son of Mr. and Mrs. T. C. Webster, 1100 S. Faulkner, died this morning at the home of his parents after a month's illness.

A Senior in Pampa High School, young Webster moved here from Borger 19 months ago. A brother, Ray Webster, operates the Pampa Bus Company and another brother, Ed Webster, is owner of the Borger Bus Company.

Survivors are his parents, one sister, Mrs. L. L. Stovall, Pampa; four brothers, Ed of Borger and Ray, Marvin, and J. T., all of Pampa.

Funeral services will be conducted from the Central Baptist Church tomorrow morning. Burial will be in Fairview Cemetery under the direction of Dukenel-Carmichael Funeral Home.

Serving as pallbearers will be Charles Morris, Cecil Roenfeldt, Jack McPeak, Don McMinn, John Morehead and Arbrely Carlton.

'Six Americans' Topic Of Twentieth Century Culture Club Tuesday

"Six Americans" was the topic of discussion when the Twentieth Century Culture Club met Tuesday afternoon in the home of Mrs. E. L. Henderson, 419 East Foster.

Mrs. H. H. Hahn reported the highlights of the Seventh District, Texas Federation of Women's Clubs, Convention which was held in Childress, March 19-21.

Mrs. Fred Radcliff gave interesting biographies of Benjamin Franklin, Thomas Jefferson, and Walt Whitman and Mrs. E. O. Wedgeworth reviewed the biographies of Susan B. Anthony, Thomas Alva Edison, and Oliver Wendell Holmes, Jr.

After the program the hostess served delicious refreshments to the following members: Mesdames L. N. Atchison, G. L. Craduck, M. P. Down, M. K. Griffith, H. H. Hahn, V. L. Hobbs, Kester June, Joe Key, Julian Key, R. C. Mason, Jack Merchant, Fred Radcliff, Fred Thompson, W. B. Weathered, and E. O. Wedgeworth.

Today's Schedule Of Redeployment

By The Associated Press

The General Richardson, due at New York after being delayed by Atlantic storms, is the only troop ship scheduled to arrive today (Fri.) at a United States port. It carries 2,497 troops from Bremerhaven.

The General Bundy docked yesterday at San Francisco with 1,820 troops from Japan and Korea.

SHAMROCK GIRL HONORED

SHAMROCK—(Special)—Miss Mary Phillips, who is a freshman at West Texas State College at Canyon, last week was initiated into Mary E. Hudspeh Scholarship Society.

Having appeared on the Dean's Honor Roll for the fall semester by making four A's and one B, or 3.8 grade points, Miss Phillips became eligible for election into the society, membership of which is chosen from Freshmen and Sophomore classes.

Sleepy-Time Doll

By MRS. ANNE CABOT

Nicest present you could possibly give a little girl of sleeping-crib age is a "sleepy-time" doll all dressed in pajamas and with long-lashed eyes closed. It is a simple doll to make and to dress. The hair is cotton yarn—the features are embroidered—eyelashes are of black thread. Make it for a beloved little girl as a gift.

To obtain complete cutting pattern, instructions for making hair, color chart for embroidering the face of the Sleepy-Time Doll (Pattern No. 5643) send 15 cents in COIN plus 1 cent postage. YOUR NAME ADDRESS and the PAT-TERN NUMBER to Anne Cabot (Pampa News) 1150 Ave. American, New York 18, N. Y.

Primary Department Methodist Church Plans Tea Sunday

Parents and friends of the children of the Primary Department of the First Methodist Church are invited to a tea to be given Sunday afternoon from 3:30 till 5 in Fellowship Hall.

The Easter motif will be carried out and a short program has been planned, with the children taking part.

Panhandle Seniors To Present Play

PANHANDLE—(Special)—The Senior Class of Panhandle High School will present a three-act comedy, "The Daffy Dills" in the school auditorium Friday evening.

The cast includes Richard Dill, played by David Warren, Jr.; Carol Dill, Louise Huff; Rodney Dill, Bill Pemberton; Doris Dill, Joan Hinshaw; Joyce Dill, Jean Hinshaw; Grandmother Dill, Mary Beth McCollough; Cousin Maude Maddox, Carolyn Williams; Elaine Scott, Patricia Robinson; Almee Lovewell, Ruby June Vance; Pete Norton, Getha Farlow; The Widow Woggles, Joyce Simms, and Arnicia Judes, Billie Rae Evans.

Billie Grace Burm and Lula Mae Cummings furnish the between-act numbers. Mrs. Porter Brown is the director of the play, and Mrs. Pauline O'Keefe is the sponsor.

The first general congress of the English colonies in America assembled at Albany, N. Y., in 1754.

Mrs. Lloyd Rhinehart Program Leader for Civic Culture Club

A talk from the book "East and West of the Suez," the story of the modern Near East by John S. Baudou, was given by Mrs. Lloyd Rhinehart, program leader, at the regular meeting of the Civic Culture Club Tuesday afternoon in the home of Mrs. Irvin Cole, south of Pampa.

Mrs. H. W. Waters, vice president, led the members in the Club Collect and presided over a short business session. Mrs. A. D. Hills asked the support of the members for the Council of Church Women's drive for old and new clothing and household articles for war-torn countries. Roll call was answered with current events.

In her talk, Mrs. Rhinehart said that the history of the Near East begins in 4000 B. C. when western civilization was born in Egypt and Mesopotamia. The Suez Canal, which was completed in 1869, brought the Far East much closer to the rest of the civilized world. At present, the speaker continued, we find Palestine the scene of a head-on clash between two nationalisms, born at the same time and focussed on the same area.

Delicious refreshments were served to Mesdames Rhinehart, Waters, Cole, Hills, Emma Osborne, Emmett Gee, E. A. Shackleton, J. B. Townsend, Erwin Thompson, John Brandon, F. W. Shotwell, Katie Vincent, and Morris Enloe, a guest.

Magazine Established For Veterans of CBI

A new monthly veterans news magazine designed to provide former veterans of China, Burma and India with a means to keep in touch with each other over the coming years has been started in Denver by ex-Staff Sergeant Clarence R. Gordon, once a member of the 44th Air Service Group in Assam, India.

The publication is named "The Ex-CBI Roundup," after the old Army Air Force weekly, The CBI Roundup.

This version of the Roundup is built up of news items about CBI veterans, photographs and excerpts from letters telling about their latest doings in civilian life.

Meloche Services Are Set Tomorrow

Funeral services for Joseph A. Meloche, 65, will be held tomorrow morning at 10 o'clock at the Holy Souls Catholic Church, instead of today, as had been previously announced.

Services were delayed to await the arrival of a sister, Sister LeCocrea, Chicago.

Meloche, a carpenter and resident of Pampa for over 20 years, died yesterday morning.

Burial will be in Fairview Cemetery under the direction of Dukenel-Carmichael Funeral Home.

Whalesharks as much as 60 feet long have been reported.

ESA Social and Style Show Is Lovely Affair

With Epsilon Sigma Alpha Sorority's colors of yellow and blue carried out in the decorations, the City Club Rooms were the setting for the organization's social meeting last evening at 8 o'clock. The program, with Mrs. Lillian Kelley in charge, featured a Spring style show in which the new Spring fashions, with emphasis on the new cottons, were modeled for the members and their guests.

The refreshment table was very lovely with its centerpiece of jonquils and blue sweetpeas, flanked by burning tapers in candlesticks. Mrs. Parks Brumley poured punch, and was assisted in serving the cake and mixed nuts by Mrs. Tom Lindsey.

Mrs. Oran Payne presented several piano selections during the fashion show in which clothes, furnished by Mrs. Bert Arney and Mrs. Frank Walker, were modeled by Mesdames Freda Barrett, Jean Hawk, Florence Duke, and Lillian Kelley; and Misses Betty Lee Thomasson and Peggy Stephens.

In addition to those mentioned the following were present: Mesdames John Nutting, Harold Wright, S. V. Stoddard, Robert Karr, Don Foster, Albert Doucette, Laurence McMurtry, Irvin Akst, Frank Fata, Lucille Floyd, M. S. McDaniel, Frank Collins, Bert Arney, Frank Walker, and Raymond Johnson; and Misses Ruth Shelhorn, Jo Annie Southard, and Isabel Priest.

Members Mesdames Herman Foster, Ed Givens, William J. Ragsdale, Mary Lane, Margaret Dial, and Misses Addie May Bryan, Wilse Elakney, Ursula Jones, Valrie Dyson, and Adalen Brazil.

'Music of Southwest' Program Topic for El Progreso Club

A program on "Music of the Southwest" was enjoyed by members of El Progreso Club when they met Tuesday afternoon in the home of Mrs. G. C. Walstad with Mrs. E. L. Ledrick as hostess. Mrs. E. A. Norris was program leader, assisted by Mrs. Knox Kinard substituting for Mrs. B. E. Finley.

Mrs. Norris' excellent discussion divided Southwest music into four types, Indian ritual, Spanish ballads, Cowboy songs, and Negro spirituals. Each type of music was illustrated by an enjoyable musical selection.

Mrs. Kinard gave several lyric poems by David Russell.

During the business session Mrs. D. V. Burton, delegate to the Seventh District Convention, Texas Federation of Women's Clubs, held in Childress, gave an inspiring report on the two-day session.

"Bundles for Europe" were received and partially packed.

Other members present for the social hour were Mesdames Glen Cannon, J. C. Morrioch, James Todd, P. C. Ledrick, C. T. Hightower, W. R. Ewing, and George Briggs.

Seventy-five percent of all study activities in elementary schools require the ability to read.

SUBJECT FOR MARCH 29: "Baptism." Call your friends and tell them to listen.
SERMON TOPICS FOR MARCH 30:
11:00 a.m. "The Conversations of Jesus."
7:30 p.m. "The Parables of Jesus."

ELDERS—DUTIES OF THE CONGREGATION TO THEM

- CHRISTIANS MUST LEARN TO HONOR ALL MEN!**
Peter said, "HONOR ALL MEN. Love the brotherhood. Honor the King." 1 Pet. 2:17. Paul said, "I exhort therefore, first of all, that supplications, prayers, intercessions, thanksgivings, be made FOR ALL MEN—" 1 Tim. 2:1, 2; Rom. 13:1-7.
- QUALIFIED ELDERS, WHO PERFORM THEIR DUTIES WELL, ARE THE MOST BEAUTIFUL CHARACTERS ON EARTH!**
Elders must meet the scriptural qualifications. They must perform their duties to each member and to the congregation, as the scriptures direct. They must show an interest in every member of the church, giving special attention to those who are weak. They must not do anything for selfish reasons. They must not show partiality toward anyone. They must be at peace among themselves. They must be peacemakers. They must not try to justify themselves in wrong doing, nor cover their faults. They must confess their wrongs, explain themselves, when they are misunderstood, and do all within their power to correct their mistakes. They must love God, Christ, the Church, and the souls of men above all things. They must deny themselves, and work, watch, and pray and be busy every day in the vineyard of the Lord.
- THE CHURCH, AND ALL PEOPLE, WILL HONOR AND RESPECT SUCH MEN!**
Such men are God's men. Leaders of his people in his church. I am sorry to say that all men in the "Churches of Christ" that are called elders by men are not God's men. Mistakes are often made in the selecting and appointment of elders and deacons. Until such mistakes are corrected no congregation can grow and fill its mission as God would have it do. God does not require any person to follow another person who does not follow Christ. But it must be remembered that qualified leaders, in "The Church of Christ," who perform their duties well must be honored, respected and followed as they follow Christ.
- THERE ARE CERTAIN DUTIES THAT EACH MEMBER OWES TO QUALIFIED LEADERS WHO PERFORM THEIR DUTIES WELL!**
1—Must know, honor, love, respect, and esteem them highly for their work's sake. 1 Thess. 5:13, 14. 2—To respect faithful leaders is to disrespect God, for they are his men. 3—Must obey them, submit to them and follow them, as they follow the Lord. 4—"Rebuke not an elder, but exhort him as a father." 1 Tim. 5:1. 5—"Against an elder receive not an accusation, except at the mouth of two or three witnesses." 1 Tim. 5:19. 6—"Them that sin reprove in the sight of all, that the rest also may be in fear." 1 Tim. 5:20. 6—"Let the elders that rule well be counted worthy of double honor, especially those who labor in the word and in the teaching." 1 Tim. 5:17.
- SOME DUTIES FOR BOTH ELDERS AND CHURCHES:**
1—Elders to watch in behalf of their souls—church to profit by their wise counsel. Heb. 13:17. 2—Elders to oversee—church to look to them for advice. 3—Elders to feed them the bread of life. Church to eat that they may live. Acts 20:28. 4—Elders to rule in love—church to obey in love. 5—Elders to teach God's word—church to learn and obey God's word. 6—Elders to lead in the way of the Lord—church to follow in the way of the Lord.
- DEACONS—THEIR QUALIFICATIONS AND DUTIES:**
1—NEGATIVE QUALIFICATIONS: 1—Not double-tongued. 2—Not given to much wine. 3—Not guilty of filthy lucre. 2—POSITIVE QUALIFICATIONS: 1—Grave. 2—Holding to the mystery of the faith in a pure conscience. 3—Blameless. 4—Husband of one wife. 5—Ruling their children and houses well. 1 Tim. 3:8-13. We can see that the deacons are to have some of the same qualifications that elders have. Their duties are to help in any way possible to build up the church.
- THE ORGANIZATION OF "THE CHURCHES OF CHRIST" IS SIMPLE:**
Paul shows the simplicity of the organization of the Churches of Christ when he writes of the church at Philippi in these words: "Paul and Timothy—SERVANTS OF CHRIST JESUS, to ALL THE SAINTS IN CHRIST JESUS that are at Philippi, with the Bishops and Deacons: Grace to you and peace from God our Father and the Lord Jesus Christ." Phil. 1:1, 2. Here we have all the saints or Christians of a given "Church of Christ," with its bishops, pastors, or elders, and deacons. That is the extent of the organization of "The Churches of Christ" today. There is of course the preacher, who, as a servant of the Lord, is to go everywhere possible, preaching the gospel of Christ.

Next Week—"PREACHERS, THEIR QUALIFICATIONS!" Go to all the services of "The Church of Christ" if you can. A friendly welcome awaits you there!

SUNDAY SCHOOL LESSON
JESUS LAYS DOWN HIS LIFE
Scripture: John, Chapters 18: 19-21: 25
By WILLIAM E. GILROY, D.D.
Palestine, the land of the Bible, has been a land of great happiness and sorrow, of terrible tragedy, and of the beauty of the flowers of the field, with its olive groves, has been drenched with the blood of cruel warriors and persecutions.
Goodness, wisdom, vision of peace and happiness, and a sense of righteousness and truth are for- saken in the face of the world. But violence, hatred, evil, and all the fruits of evil have been all too manifest from the beginning of time to the present day, through all the centuries of the world, and other perpetrators of iniquity.
All the beauty, tenderness, and goodness of that land, with all the tragedy of hate and violence, were compressed in the early life of Jesus of Nazareth. In His life teachings were comprised all the faith and hope to be fulfilled in His death is not clear. Nor is it clear whether or not He assumed at that time the role of a prophet, as the disciples did, that His ministry might involve the setting up of an earthly kingdom.
But when at the very onset of His ministry He took to Himself the prophesy of Isaiah, "The spirit of the Lord was upon me because He hath appointed me to preach the good news to the poor, etc. He must have been fully conscious of that other prophecy concerning the Suffering Servant.
"What a pain, however, that Jesus came to foresee and to accept fully the fact of His sacrificial death, was the good shepherd about to lay down His life for the sheep. We tend to speak of the cross, rightly or wrongly, as a piece of jewelry or a symbol, but how much does it mean to us of the reality of sacrifice and suffering? How much are our lives given for others? We may well ask, as we sing, "It is the way the Master went; should not the servant tread it still?"

Shamrock WSCS Meets in Circles
SHAMROCK—(Special)—The WSCS of the First Methodist Church held circle meetings Monday afternoon.
Circle One met in the home of Mrs. M. M. Baxter. Mrs. Chester Tindall gave the devotional, closing with prayer. The lesson on "The Problems of Alcohol," was given by Mrs. W. H. Dial.
Refreshments were served at the close of the program to these members: Mmes. Wm. Kyle, M. E. Risk, Frank Knoll, Chester Tindall, J. B. Christner, Bill Setzler, J. B. Zeigler, and W. H. Dial.
Circle Two held its meeting at the First Methodist Church. Mrs. Clifford Hofmann gave the devotional and Mrs. J. T. Weems led the prayer.
"The Problems of Alcohol" was discussed by Mrs. Hubert Bratcher. Following the program, Mrs. Matt Clay, who was hostess to the group, served refreshments.
Those present were: Mmes. Margie Fleener, Marshall Adams, J. T. Weems, J. H. Caperton, Hubert Bratcher, Matt Clay and J. R. Benson.
Circle Three met in the home of Mrs. Charles Major.
The devotional was given by Mrs. W. M. Allison and Mrs. L. S. Griffin led in prayer.
The lesson on "Problems of Alcohol" was taught by Mrs. J. M. Tindall.
Refreshments were served during the social hour following the program to one guest, Mrs. Price Barrett, and baby daughter, Betty Kay, and to the following members: Mmes. L. E. DeFew, H. T. Fields, J. M. Tindall, L. S. Griffin and W. M. Allison.
Under the Ptolemies, the library at Alexandria, Egypt, is said to have contained 700,000 volumes.

Easter Sunrise Service Planned
The High School Bible Department, composed of 120 young people of the Pampa churches, will sponsor a community-wide Sunrise Service on Easter Sunday morning. The program is scheduled to start promptly at 6:23 a. m.
The department, which is under the direction of Rev. Russell G. West, pastor of the Church of the Brethren, is asking that all church choirs cooperate in preparing and furnishing special music for the occasion.

Wesley Bible Class Has Guest Speaker
PANHANDLE—(Special)—"The Laws of the Spiritual Life" was the subject of the talk given by Rev. W. E. Fisher, guest speaker, when the Wesley Bible Class of the Methodist Church had their monthly business and social meeting at the Church on Monday.
Other numbers on the program included two vocal numbers, "Above the Hills of Time" and "The Christ of the Cross" by Mrs. Lewis Williams with Mrs. J. E. Southwood, accompanist.
In the business session with the president, Mrs. F. J. Hollcroft, presiding, Mrs. J. E. Southwood was elected teacher for the balance of the year.
Refreshments were served by the hostesses, Mrs. L. F. Cleek and Mrs.

'Reality' Subject Science Services
"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 30.
The Golden Text is: "Thou, O Lord, shalt endure for ever; and thy remembrance unto all generations" (Psalms 102:12).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I know that, whatsoever God doeth, it shall be for ever; nothing can be put to it, nor any thing taken from it: said God doeth it: that men should fear before him" (Ecclesiastes 3:14).
The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All reality is in God and His creation, harmonious and eternal. That which he creates is good, and he makes all that is made" (Page 472).
The Index Expurgatorius, providing for the censorship of books, was promulgated by the Roman Catholic Church in 1501.

FIRST BAPTIST CHURCH
—Cordially invites you to attend the closing services of the revival and participate in the—
4th ANNUAL SPRING ROUND-UP
SUNDAY, MARCH 30
Dr. Willis J. Ray, Evangelist, will speak Friday night from the subject, "The New Testament Church," or "Why I Am a Baptist."
The message will explain the origin of many of our popular present day denominations.
Saturday night, Dr. Ray's subject will be, "The False Church—The Harlot," taken from the 17th chapter of Revelation. Sunday morning his subject will be, "The Saints in Glory—A glimpse Into Heaven."
Goals set by the leaders in Sunday School and Training Union, Sunday are 1111 in Sunday School at 9:45 and 444 in Training Union at 6:00 p. m. Special music will be presented by the 40-voice, robed choir under the direction of Mr. R. Virgil Mott.
People living in the southwest section of Pampa are invited to attend the HOBART STREET MISSION. The Rev. Curtis Brown, Pastor.

News of Zion Lutheran Church
Two services at Zion this Sunday, one at 11 a. m. and the other at 8 p. m. Sermon for the morning service will be based on the text as found in Philippians 2:5-11, and will have for its theme the exhortation, "Let this mind be in you which was also in Christ Jesus." Evening sermon will be taken from the text Luke 23:39-43, and will have for its theme, "The call of the cross is the call to remember life's goal!"
The Sunday School lesson will be a review of all the lessons taught in the past three months. The adult Bible Class will continue its study of the Gospel according to Matthew.

CLASS ENTERTAINED
SHAMROCK—(Special)—The King's Sunday School Class of the Lela Baptist Church was entertained in the home of Mrs. Troy Purcell Friday evening with a "Tacky Party."
Prizes were awarded for the "tackiest" costumes. The award for the ladies went to Mrs. Theo Scott, and the prize for men, to Rev. O. D. Wiley.
Games provided entertainment throughout the evening.

Supply of Grade 'A' Milk Due to Increase--Salmon

In a report to City Manager Garland Franks, yesterday, City Health Supervisor Ray Salmon estimated that by May 1, this year, Pampa will be daily receiving a sufficient supply of grade "A" milk to meet the demands of the city, plus 500 gallons surplus, which will be distributed to nearby communities.

"Many men are now returning to the farms and the rate of increased demand has dropped sharply," Salmon added. "It is now time to explore our regulations if our future milk supply is to be of a desired quality."

Last December, the city health department started a program to promote the obtaining of a good supply of grade "A" milk for Pampa and vicinity, through education, promotion and enforcement, Salmon recalled.

"Pampa pasteurization plants are supplying a rather large area surrounding our community," Salmon said. "It is hoped that within the very near future that this area will be supplied entirely with grade "A" milk." However, our present concern is for Pampa, whose residents consume some 1,000 gallons of fluid milk daily and another 500 gallons in milk products.

Salmon's report shows that on January 1, Pampa was receiving only 150 gallons of grade "A" milk daily and around 2,250 gallons of undergrade milk each day. He estimates that by May 1, this year, Pampa will be receiving 1,500 gallons of grade "A" and 1,400 gallons of undergrade milk. Under this set-up, all undergrade milk would be used in milk products. There would be a sufficient supply of grade "A" milk for straight fluid-milk consumption.

Men and women dress alike in Cambodia and legend says that the women once fought in the armies of the country.

Take the Laughter

THE STORY: Peter calls to see Sherry, bringing her flowers. After he leaves, the three boys build cloud-castles to amuse her. Tony says he and Sherry will live in a mountain lodge. Sandro says that's impossible since he intends taking Sherry to France and Kris announces Sherry will go home, Denmark with him as his wife, the Countess Von Stantanna.

XVIII

SHERRY stretched luxuriously on the davenport and stared dreamily out through the open windows.

It was funny that so many things had happened since the day she had first found the cottage among the trees. She had changed so much and everything was different, but Hidden House was just the same. They still drank tea from the blue and gold tea cups, and the sunlight through the trees made the same dappled patterns on the floor.

The boys had won after all, Sherry thought; she was almost well again. There had not been a single coughing spell for two months. She could walk about a little now, from her bed to a living room; and Dr. Drexel had said that pretty soon she could go for rides in the car.

They had made out a list of things that were absolutely necessary, and Kris had gone to the boulevard while Tony and Sandro made ready for the feast to follow.

By eight Kris had not returned and when he did come back at half-past eight he carried an amazing armful of yellow tea roses.

He had piled them in Sherry's arms and strewn them on the bed.

He had said, "There, my lovely one, I've always wanted to do that!" and Sherry had cradled the flowers and said, "Why, Kris! I never saw so many all together in my life!"

Kris had said, "Six dozen!" very happily, and Tony had exploded. He had talked a lot in German testified at Nuernberg to this effect.

If he had studied this Hague convention for land warfare sooner he would have advised Hitler a modern war could not be waged under those rules, that "in a modern war with stipulations of 1906 and 1907 would have to be changed in order to have a new type of warfare."

War Rules

(Continued from Page 1)

among the major military powers of the World.

Without going into such complexities as atomic warfare or the future and functions of the United Nations, Jackson said he believes any rules revision would have to reflect the agreed opinions of all nations.

In an extensive discussion of the philosophies underlying the Nuernberg trial, given recently to a group of military officials and to be published in the forthcoming issue of the magazine "Military Affairs," Jackson recalled that Reichsmarschall Herman Goering

Tax Bill

(Continued from Page 1)

House measure "a good bill" in the main, he is opposed to carrying tax reductions back to last Jan. 1, as the measure does.

Senator Edwin C. Johnson (D-Colo.), a committee member, said he is willing to vote for tax cuts in the lowest income brackets but will not go along with the 20 percent reduction given to most of those in the higher brackets.

Senator Byrd (D-Va.) assailed yesterday's House action as "a very fine example of putting the cart before the horse." Byrd charged that the proposed tax reduction would cause a revenue loss to the government of nearly \$6,000,000,000 in the fiscal year beginning July 1. He said the House thus far has voted only an actual cut in expenses of \$100,000,000.

a democratic Greek state," he went on.

"But we must do more than that if we are to go further than merely postponing collapse. We must make available funds for reconstruction and rehabilitation. While Greece has done some restoration of ports and railroads since liberation, in general the country has made little progress in rebuilding.

"Hence, it will still be necessary for the Greek government to use all effective measures to mobilize her own resources."

Included in his recommendations was the point that the Greek Army should be used for reconstruction work "as much as possible."

Death Rate From Cancer Among Women Steadily Declining

NEW YORK, N. Y.—It is a hopeful sign that the death rate from cancer among women, declining substantially in the past decade, has dropped to a new low in 1946, statistics of the Metropolitan Life Insurance Company report, on the basis of the company's industrial

SINUS CATARRH
FIND CURE FOR MISERY DUE TO NASAL CONGESTION. SUPPLY RUSHED HERE!
Relief at last from torture of sinus, catarrh, and hay fever due to nasal congestion is seen today in reports of success with a formula which has the power to reduce nasal congestion. Men and women with agonizing sinus headaches, clogged nostrils, sneezing, yawning and sneezing misery tell of blessed relief after using Klorinol. Klorinol costs \$3.00, but considering results, this is not expensive amount to only pennies per dose. Klorinol (caution, use only as directed) sold with money-back guarantee. experience.

The most striking gain among women in the battle against cancer is in the 25 to 34 year age group, in which the death rate is 14 percent lower for the period of 1922-1936 than for the period of 1937-1946. In the age range 45 to 74, the decrease averaged about 11 percent.

Even among men, there was a slight downward trend in the death rate from the disease, which, the statisticians point out, is encouraging, since the mortality was distinctly upward some years ago.

"The recent trend of cancer mortality has its encouraging aspects,"

IT'S KITE TIME....

REDDY KILOWATT KITE FLYERS ARE ALWAYS SAFETY-WISE THEY STAY CLEAR OF LECTRIC WIRES AND FLY IN OPEN SKIES!

O.K. REDDY!

A brisk wind blowing across a cloudless sky... it's spring... and kite time. Kiting can be fun, but please, fly kites only in the open.

Even the smallest kite can interrupt electric service. But more dangerous than that, someone may be tempted to free your kite and be injured by the electric power flowing through the lines.

Please... fly kites in the open sky... but if one does land on an electric wire... leave it there. You can make another kite, or buy one for a few pennies. Remember this, electricity is helpful in many ways, but you know it can be dangerous, too.

WALL STREET STOCKS
NEW YORK, March 27—(AP)—Stock market leaders negotiated another recovery today on one of the best volumes of the past month.
The direction was upward at a fast opening. Dealings and prices subsequently tapered but there was a comeback on an active flurry in the four hour. Motors, steels and most

Industrial groups were well in front. While top marks were reduced here and there at the close, gains of 1 to 4 points or so maintained a wide majority. Transfers ran to around 1,200,000 shares for the full proceeding.
H. L. Green common added 4 1/2 points at the last when a 100 percent stock dividend was proposed.
Prospering dividends lifted N. S. Industrial Chemicals, National Distilling and Royal Typewriter. Others ahead were U. S. Steel, General Motors, Chrysler, Firestone Tire, Goodrich, International Harvester, American Smelting, E. I. du Pont, Westinghouse, Allied Chemical, Dow Chemical, Johns-Manville, Standard Oil (N.J.), International Paper, Monsanto Chemical, Gillette, Southern Pacific and Great Northern Railway.
Bonds were steady. Cotton toward the finish, was down \$1.20 to \$1.00 a bale. At Chicago wheat and corn dropped the daily limit of 10 and 8 cents a bushel, respectively. Oats lost 1/2 to 6, the latter also the limit. Barley conceded 6 cents.
The runup in Wednesday's stock

market encouraged further buying today and many leaders extended their rise by fractions to a point or so.
Large-scale overnight orders were sufficient to keep the ticker tape busy for about ten minutes after the opening. The pace then slowed and top plus marks were reduced here and there near midday.
Professional, with the idea that the list still was in a bullish technical position, held aloft because of foreign volume. Some commission house customers who have been idle for some time, also returned to the bidding ranks. Numerous skeptics, however, held aloft because of foreign problems, business prospects, labor situations and tax doubts.
In the advance division were U. S. Steel, General Motors, U. S. Rubber, Sears Roebuck, Montgomery Ward, International Harvester, American Telephone, American Smelting, General Electric, Schenley, Armour, American Woolen, Standard Oil (N.J.), Santa Fe and Northern Pacific.
Bonds and cotton futures were steady.

Gracie Reports

By GRACIE ALLEN
I see that our State Department has put out a 400,000-word book about the Versailles Treaty, for the benefit of the diplomats trying to make peace at Moscow.
Personally, I don't think this is going to help much.
By now it should be plain to everybody that drawing up treaties after a war causes more trouble than the war does. The remedy is simple. Have both sides, before the fighting starts, announce the terms they'll impose if they win. Then the war would be confined to the battlefield, instead of

WHAT IS THE NATURAL RESULT OF INDIFFERENCE?

Like the Cassidays in Allen's Alley, the people in general try to talk at once and at various tangents of the subject at hand; and consequently the effect of concentration is lost.

Whereas, a bloc—or organization—concentrates on one definite problem or objective and usually gets the desired results. Concentration excludes important problems, often times, and those problems go unattended.

So it goes in society: we have the two extremes, but they are well founded in fact, and not open to superficial refutation.

Finding a half-way mark, or a medium, between the two sets of facts is the problem of democracy. While men have been held to maintain the right to organize for a cause, there is no assurance that the great majority of people who have no special irons to strike or axes to grind will receive the consideration they may morally expect from their legislators.

Organization of men into what has become popularly known as a bloc has been ill-used for almost 20 years. Mass mania for the "rights of organized labor," for instance, has not only led the animal known as body politic to glut himself, but his physical sickness has forced a psychological sickness upon men less organized—but with the same rights to the freedoms which the Constitution purports to defend.

But perhaps the bloc's gluttony itself is due to the fact that the great mass of people have been indifferent to what goes on in the state and national capitols. This could be a dangerous thing in democracy, because it must always be presumed that the people will take an active part in their government under the system we enjoy. When they fail to do so, the villains among us will usurp the power of them all.

From there on the story is well known: indifference leads to cynicism and distrust; cynicism and distrust lead to persecution.

Persecution leads to anarchy. And that is where the creed of the anti-Christian, the Communists, takes over

MACKENZIE'S Column

By DeWitt Mackenzie
AP Foreign Affairs Analyst
The Moscow conference of the Big Four Foreign Ministers continues its way after the disconcerting fashion of a coughing jaquopy whose arrival at destination is very much a matter of doubt.
Having been in action more than a fortnight the parley, which had as its purpose the writing of peace treaties for Germany and Austria, has got exactly nowhere so far as concerns its objective. However, that's more a matter of concern than of surprise, for there was very little optimism when the conference began its sessions, as this column pointed out at the time. There were too many differences between Russia and the Western democracies.
But while the conference hasn't thus far achieved what it set out to do, it's far from having failed. It has been a clear-cut demonstration of American-British determination not to be pulled off their own playing field. Secretary Marshall has more than held his ground in the face of forceful maneuvers and attacks by Soviet Foreign Minister Molotov.
Unhappily the conference has been given up largely to these maneuvers for position, and the arguments have revolved mainly about German affairs, as was to be expected for the German treaty is the keystone of the whole European rehabilitation program. Austria, too, presents its problems, but they are mild compared with those relating to the Reich. Indeed, there still will be hope that an Austrian treaty will be written, especially since Dr. Karl Gruber, Austrian Foreign Minister, stated yesterday that he was encouraged as the result of a conference with the German chief executive.

So They Say

If the foreign policies of the United States continue to diverge from those of the Soviet Union, we may be in for an era of things disguised political strikes.
—U. S. Chamber of Commerce report.
Greatest danger to the United States is not the evil-minded Russians, but well-meaning Americans who don't understand or prefer to ignore the lessons of history.
—Roy Howard, Scripps Newspapers chief executive.
What thinking man or woman can regard with equanimity the ever-increasing forward sweep of the grasping paws of the Russian bear?
—New York Secretary of State Thomas J. Curran.

THOUGHTS

Remember the days of old, when the very first man said: "How do you like my father, and he will tell you; the children and they will tell thee." —Deuteronomy 32:7.
You have the ages for your guide. —E. W. Livingston Robinson.

AMERICANISM

New Americanism Groups Rising
In thirty days it may be hard to find a communist—judging by the hasty retreat to the Fling the Reds are now beating that is good news after fifteen years.
It is still better news that some of the unions which long have been dominated by Marxists and their agents are throwing out the subversive Red Robinson, big-time promoter, at last has been forced to resign as head of the Mine, Mill and Smelter Workers of the CIO. The rank-and-file upsurge forced it—in the soundly American fashion.
From various sections of the country, including Hollywood, comes evidence of a growing determination on the part of working men to repudiate the name of communism in their newspapers. To be sure, some of the fly-white declarations are only for public consumption.
But it is noteworthy at the same time that some of the old fronts, which became part of the "respectable middle class movement" in the Roosevelt era, have all but dropped out of the news columns, even in the Red press.
Some other groups and periodicals working for the class revolution have changed their names. Among these is the propaganda bulletin issued by Reverend Leon Burkhart, who for years has obliged the Stalinists, especially in contributing to the friction between Protestants and Catholics.
In Los Angeles a comedian known as one of the far left-wing after fighting to block a resolution against communism in the county board, now writes against the same over on the final count in the "eye" column.
The Anti-Defamation League of

NATIONAL WHIRLWIG

LOOKING AHEAD
By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

TROUBLE IN BRITAIN
England has gone down for a small count. That of course is no reason why anybody should be ready with the old "I-told-you-so". However, some observations are in order. Outstanding Englishmen have been outspoken during the fuel crisis current in their country. An examination of the underlying causes of the crisis in England sought to make a good treaty favoring the American economic system.

In England or anywhere else in the world, it is my feeling that little or nothing about the social order is to be found there that we would wish to adopt in this country. Even before the coal and power crisis reached the terrible proportions of mid-February, the British were being urged by critics within their own realm to abandon plans for further nationalization.

NATIONAL SUICIDE
Mr. Shewan, minister of fuel and power, along with Sir Stafford Cripps, president of the Board of Trade, asked that the country forego any further reorganization of the electric power industry. The idea behind their plea was that British industry could not afford to be exposed to the uncertainties and hazards that would accompany more experimentation. It was time for danger signals to go up.

The government, it was stressed, would have to concentrate on the task of preserving the economic life of England. Another warning came from a prominent religious leader. The English people were confronted, he said, by immense danger in the planned society becoming so common. He called for more orders had to be issued "about which the people would have to put up with and obey." It would be the beginning of national suicide.

RESULT OF PLANNING
The British do not lack coal because they have no plan. Socialism is full of plans. The coal mines are there, too. What socialism forgets, however, is that production of coal is a labor-intensive hard work and high production, make up the factors that insure economic stability. English miners can never dig coal with paper plans. Men dig and extract coal to consumers of fuel largely because of various incentives.

Not the least of these incentives is that men make money in the process of getting the coal out of the ground. But a nation does not get rid of monopoly by making the monopoly one of government. The prime products of socialism and communism, with their concepts of government, have been low standards of living and meager production. Things to remember is that anti-trust laws can reach this kind of monopoly.

BEST STATESMANSHIP
It takes either revolution or world conflict to sweep out failures of monopolistic government, once they become entrenched by long habit. But Americans will exercise great common sense in the state of affairs in England. No nation can continue indefinitely to weather crises of this magnitude. If these things herald the eventual break-up of the British empire, they are therefore of great seriousness to America.

So They Say
In any event responsibility falls with increasing weight upon America. These duties lie most fully now in the part we must play in making our own dynamic economy, without taint of socialist experimentation, the example for the whole world. In that way can the American people perform their best statesmanship.

There undoubtedly are members of the Republican Party who because of minor differences of opinion would like to read me out of the party. But I expect to be around here long enough to put flowers on their graves.
—Sen. Charles W. Tobey (R) of New Hampshire.

By Upton Close

specialty written articles, booklets and news releases by well-known authors at low cost. The supply of such material is ideal for the school room, the discussion club, high school, college, and public libraries, patriotic societies, new citizens—any group or individual interested in promoting a return to grass roots Americanism.

Program chairman should find the Foundation a useful source because already it has available articles on many current controversial subjects.

Public School Need
One thing still is badly needed in this line: a weekly newspaper for public schools, not up in an appealing form and reliably pro-American. For a long time I have watched for such a publication. Unfortunately, the "Weekly News Review" and its associated publications—currently under attack by the School Restructuring Committee of Glendale, Calif.—which got out of their way to show beautiful pictures of communist Russia and seldom include the bad with the good about the Soviets, have a circulation of more than a million in our public schools!

Considering that several pupils may make use of each subscription, it is apparent that these leftward slanted papers reach an alarming number of school children—who can hardly be expected to know the real truth about the Soviets, and thus are "sitting ducks" for propaganda. It will not be convincing for the publishers to change the title of their papers. They should be repudiated. The time is ripe for a brand new school paper, published by persons whose Americanism can not be questioned.

Old Fashioned Spring House Cleaning Adds Toward Good Health

AUSTIN—A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today.
"From a practical standpoint the old adage that 'Cleanliness is next to Godliness' is still well worth emphasizing."

A general clean-up program of state-wide proportions with the objective of bettering health conditions for our citizenship should include surface cleaning, drainage, the graveling of streets and alleys, the grading and the clearing of weeds and rubbish off the vacant lots.
"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises," said Dr. Cox, "will be of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid, and poliomyelitis. Good community housekeeping and ordinary sanitary measures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the State."
Dr. Cox stressed the fact that many dangerous diseases are filthy-borne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

We want no loopholes for any employers so inclined to go on the kind of union-busting campaigns we had after the first war.
—Sen. Joseph H. Ball (R) of Minnesota.

WASHINGTON
By R. TUCKER
BONUSES—Growing dissatisfaction with the provisions and administration of the federal G. I. Bill of Rights has stimulated a national-wide movement for the authorization of state bonuses to the veterans of World War II. Underlying the demand is the widespread charge that only twenty-five percent of the 14,000,000 ex-servicemen derive any benefits from the national legislation.

One year ago there was hardly any insistence or enthusiasm for such grants by Congress or by the state legislatures. But every state bonus program submitted at last November's elections was approved by the voters. The people of five commonwealths, Rhode Island, Michigan, Illinois, Texas and California, adopted plans providing for a total expenditure of about \$800,000,000.

Governor Thomas E. Dewey of New York favors a scheme that will cost about \$400,000,000, and the voters will pass on it next November. New York's entry in the Presidential race advocates a pattern for the state legislatures in session at this purpose that commends itself to many legislative commissions now studying the question. He has suggested the imposition of special taxes to offset the bonus payments to the state's veterans.

COST—Recent events indicate that the parade through legislative halls has only started. With forty-four legislatures in session at the present moment, eighteen states have endorsed the bonus program or have turned the problem over to a commission for examination. The amount of money involved in these commitments or studies is approximately \$2,300,000,000. With the sums already mentioned above, the total of bonus payments within eight months is approximately \$4,000,000,000. And almost half of the forty-eight commonwealths are still to be heard from on this question.

By contrast, only twenty-two states granted such benefits after World War I, and the amount which they borrowed for their bonus program totaled only \$453,000,000. The federal bill under the existing G. I. legislation is \$7,000,000,000 annually.

EVASION—Republican and Democratic members of the House Foreign Affairs Committee are completely dissatisfied with Dean Acheson's explanation—or justification—of the delay in a loan or gift to the anti-Communist states of Greece and Turkey. They consider the Undersecretary of State's statement a "masterpiece of evasion." They urge senators and colleagues to pin him down when he appears on the other side of the Capitol.

Mr. Acheson skirted and dodged and "dodged away from the central question which the M. C.'s tried to ask: namely, is Russia an unmentioned threat against the 'freedom' of these free nations, and does an American challenge to Moscow's present bid toward a possible war with the Soviet Union threaten 'democracy' over there.

TURKEY—Several questioners noted that although Greece might be included in the aid, no mention does not prevail in Turkey. Ankara, official statistics showed, has a favorable balance of trade, \$200,000,000 in gold reserve, and a cost of living are extremely low. Indeed, one was suggested that Uncle Sam ought to float a loan over there.

Unless Mr. Acheson or his Army-Navy associates become more frank in their appearance before the Senate Foreign Relations Committee, the Truman program may face stiff opposition when it reaches the legislative chambers. It may be approved with so many safety restrictions that it will enable Stalin to gloat over American disunity.

TAMPERING—Representative Gordon Canfield of Paterson, N. J., deserves a healthy assist for forcing the return of official Treasury files which former Secretary Henry Morgenthau had hoped to incorporate in his "diary of Roosevelt-Morgenthau days."
When Secretary John W. Snyder first appeared before the House Appropriations Subcommittee, which handles Treasury and postoffice funds, news of Mr. Morgenthau's tampering with the papers had not been published. Subsequently, Subcommittee Chairman Canfield read in this column of the special vault which the Hyde Park squire had fitted up in the Treasury basement for the documents he intended to take home with him.
Mr. Snyder called immediately telephoned Mr. Snyder, asking him to appear again before the committee to give more details on the diary transaction. When the Secretary realized how seriously the Canfield Committee felt about the matter, he begged for a few days of grace.

SOBE—"I didn't know the affair had caused such a furore," he explained. "Give me a few days before I come before your committee, and I think I can fix things up."
Mr. Snyder phoned and wrote his predecessor, explaining that the "Boys on Capitol Hill are pretty sore over what you have done." Mr. Morgenthau agreed almost immediately.

Johnny Evers, Middle Man of Famed Infield Combination Dies Today

ALBANY, N. Y.—(AP)—John J. (Johnny) Evers, middleman of baseball's immortal Tinker-to-Evers-to-Chance double play combination, died today at the age of 65.

The one-time National League star, known in his playing days with the Chicago Cubs as "The Crab" and "The Trojan," suffered a cerebral hemorrhage Tuesday and was rushed to St. Peter's Hospital. He died in the hospital at 8:25 a. m. (CST).

Evers suffered a stroke in August, 1942 and had been partially paralyzed since. He had been in poor health since the stroke and was bed-ridden much of the time. Nevertheless, he occasionally had been taken on automobile rides and had witnessed local baseball games during recent years.

The lantern-jawed second baseman, who never weighed more than 130 pounds during his playing career, performed for the Cubs from 1902 to 1913. During this period, the team's infield combination became a national by-word.

Surviving member of the famed trio is shortstop Joe Tinker, who lives in Orlando, Fla. First baseman Frank Chance died in 1924.

On April 23 of last year, Evers was named to baseball's Hall of Fame at Cooperstown, N. Y., on a

list of 11 old-time players which also included Tinker and Chance.

Known as one of the quickest-thinking players in the Major Leagues, Evers gained early recognition through his alertness in the famous play in which the New York Giants first baseman, Fred Merkle "forgot" to touch second base.

The play occurred in 1908, during one of the hottest races in National League history with the Giants and Cubs battling for the pennant.

With the score tied 1 to 1 in the last half of the ninth inning, at New York Sept. 23, the Giants had Moose McCormick on third base and Merkle on first, with two out. Al Bridwell singled to the outfield and McCormick crossed the plate with what appeared to be the winning run.

The crowd poured in the field and Merkle, after starting toward second, veered to the clubhouse without touching the base when he saw McCormick cross the plate.

Evers yelled for the ball to force Merkle out at second. Several Giants and hometown fans tried to intercept it but after a wild scuffle Tinker and a Cub rookie, Floyd Kroh, retrieved the ball. It was thrown to Evers at second and Merkle was declared forced out by Umpire Hank O'Day. The run did not count and the game was called 1-1.

The league-leading Giants wobbled after that and the Cubs finished in a first place tie. The game of September 23 was, in effect played over in a post-season contest Oct. 3 which the Cubs won 4-2, defeating Fitcher Christy Mathewson to win the pennant.

Five Pampans in Finals at Shamrock

Steers Expected To Dominate Huge Texas Relay Meet

By HAROLD V. RATLIFF
AUSTIN—(AP)—Athletes from a dozen states jammed into Austin today for the start of the Texas relay meet, the nation's first major outdoor track and field carnival with the largest entry since Pearl Harbor.

The University of Texas, on the five-mile relay of Charles Parker and the rhythmic stride of Jervy Thompson, was expected as usual to dominate its own meet but the steers of all-around competition in the 200-yard relays of the relays indicated that the winners had their work cut out for them in some of their best events.

Records built up in the Big Ten and show over two decades are being broken and it's doubtful if more than one or two are bettered, if any, but it's going to take some great performances for any one school to make anything like a record.

Even in the feature event—the 100-yard dash in which Parker seeks further vengeance over Baylor's Bill Bell, several times runner-up in the 100-yard dash, the winner of the 100-yard dash in the 1946 meet in Port Worth also in the sprint relays will be Tom Dickey of Louisiana State. Jim Metcalf of Oklahoma A. and M. and other crack runners from the South, Southwest, Midwest and Pacific Coast.

Nineteen universities, colleges and high schools have brought 1177 individual athletes to the meet. The university class is particularly strong with Drake Kansas State, Louisiana State, Michigan State, Oklahoma A. and M., Purdue, Kansas, Illinois, Nebraska, Oklahoma and San Francisco bringing squads here to scrap the best of the South, West, Texas Baylor Rice Texas A. and M., Southern Methodist, Texas Tech and Texas Christian.

The college class will have relay teams from Bradley University, Pepperdine, Kansas State Teachers, Southwestern Louisiana College and Southwestern of Memphis competing against Abilene Christian, Texas A. and T., Brooke Army Medical Center of San Antonio, Cathedral School of Dallas, East Texas State, Hardin-Simmons, Howard Payne, John Tarleton, McMurry, North Texas State, Sam Houston State, Southwest Texas State, Trinity-Southwest, Stephen F. Austin, Trinity University of Houston, Ward Island, Navy and Lamar College of Texas.

There are 54 Texas high schools with 588 entries.

Preliminaries are scheduled this afternoon and tomorrow morning with finals starting at 1:45 p. m. (CST) tomorrow.

Top contestants include John Furke, San Francisco's crack discus thrower; Dick Prather, Kansas State's top shot-putter; Jim Lowther, Louisiana State's javelin thrower who ranks with the nation's best; George Kadera, Texas A. and M. discus star; Tom Scofield of Kansas, who went 6 feet 8 last year in the high jump; J. W. Jones of North Texas State javelin ace; and Leroy Robinson, Kansas shot-putter. Best relay combinations appear to be Texas, Baylor, Texas A. and M., Drake, Purdue, Michigan State, Pepperdine.

Preliminaries are scheduled this afternoon and tomorrow morning with finals starting at 1:45 p. m. tomorrow.

Preliminaries this afternoon include the university and college high hurdles, 100 and 440-yard dashes and mile relay.

The Amazon River is sometimes known as the "sweet sea."

Aggies to Defend Wrestling Crown in Illinois Today

CHAMPAIGN, Ill.—(AP)—Thirty-one college wrestling teams today opened a challenge to Oklahoma A. and M.'s perennial supremacy as preliminaries began in the 17th annual National Collegiate Athletic Association wrestling tourney in George Huff Gymnasium. Finals will be held tomorrow.

The Aggies from Stillwater, team champions for seven consecutive years but without a returning individual champion, are expected to face formidable opposition from the field of 112 matmen from 31 schools. The Oklahoma team has won 14 of 16 NCAA meets including the last seven.

Three outstanding threats to Aggie supremacy are Illinois' Western conference champion squad; Iowa State Teachers, runner-up to play that Southern Association team tomorrow and Sunday.

Three defending champions will attempt to retain their titles. They are Dave Shaigira, Illinois, 165 pounds; Bill Courtright, Michigan, 155; and Bill Koll, 145 pounds of Iowa State.

Only Illinois, Oklahoma A. and M. and Cornell College and Iowa State have entered full eight-man squads. Michigan State's five-man contingent, however, rates a threat for team laurels.

And Joe is not the only reason that this writer believes that Pampa will retain its 1946 championship. (Taking a look at the averages (being) of the regulars who are due to return, it figures up that the Oilers who finished with a TEAM batting average of .309 last year (pitchers included) will have possibly a club men off that club with a combined batting average of .312. Here they are:

Third Baseman Tony Rance .329; Shortstop Earl Harrison .337; Second Baseman R. C. Owe .329; Manager and Outfielder Grover Seitz .328; Outfielder Joe Purin .318; Outfielder and Pitcher Al Johnston .292; Catcher Al Ziehlman .274 and Pitcher Foster White (it doesn't mean a thing because he can still pitch) .102.

Manager Seitz' main problems at the present are pitchers and a first baseman. Al Johnston, who showed promise as a southpaw pitcher, has a "secret ambition" to play first base and may get the job if he shows up well in spring practice.

155 pounds—Gene Bulman, Clarendon, decided Buddy Sawyer, Pampa.

135 pounds—Tom Landrum, Shamrock, TKO'd Roy Landrum, Lefors, in second round.

155 pounds—Vernon Tarbett, Canadian, decided Bill Baker, Clarendon.

90 pounds—Maurice Way, Memphis, decided Johnny Morris, Covington.

85 pounds—Kenneth Richards, Kelton, decided Ben Parks, Shamrock.

85 pounds—David Jeffries, Memphis, decided Ben Mathers, Canadian.

105 pounds—Joe Landrum, Shamrock, TKO'd Ben Nim, Pampa, in second round.

112 pounds—Elmo Sams, Memphis, decided Don Ray, Shamrock.

125 pounds—Carl Martin, Pampa, decided Ray Crimes, Memphis.

Light-heavy—Clyde Stewart, Shamrock, decided Ed Harp, Clarendon.

Fights tonight and tomorrow night—both semi-finals and finals, will start at eight o'clock. Additional seating capacity is being provided for, according to Bob Clark, tournament director.

Matches tonight:

85 pounds—Travis Burton, Shamrock, vs Bill Adams, Clarendon.

100 pounds—Jack Kenner, Pampa, vs Jerry Morgan, Clarendon, Final.

85 pounds—Billy Campbell, Pampa, vs Jack Bentley, McLean.

85 pounds—Vernon Tarbett, Shamrock, vs Bob Hutchens, Canadian.

80 pounds—Carlton Rogers, Canadian, vs Ben Edens, Canadian.

100 pounds—Doyle Bettis, Canadian, vs Bud Henry, Memphis.

125 pounds—Tray Stracener, Lefors, vs Jerry Stewart, Memphis.

105 pounds—Don Hodges, Canadian, vs Bill Arrington, Canadian, Final.

112 pounds—Earl Tarbett, Shamrock, vs Don Corley, Memphis.

147 pounds—Ray Brown, Shamrock, vs A. C. Sams, Memphis.

90 pounds—Bill Helms, Shamrock, vs Maurice Way, Memphis, Final.

90 pounds—Jack Kenner, Pampa, vs Dave Jeffries, Memphis, Final.

135 pounds—Bill Billington, Memphis, vs Don Hodges, Canadian, Final.

147 pounds—Frank Vines, Kelton, vs Ted Risenhoover, Clarendon, Final.

135 pounds—Keith Payne, Pampa, vs Eugene Cooper, Lefors.

155 pounds—Leroy White, Canadian, vs J. A. Akard, Memphis.

Shamrock leads in the meet with six points, Memphis has three, Clarendon two and Pampa, Canadian, McLean, Kelton and Lefors one each.

Suits for Junior Oilers Purchased

Sufficient funds to purchase baseball uniforms for the Junior Oilers, have been secured by an American Legion Committee and it is planned to organize the team next week.

Howard Buckingham, chairman of the committee, said his group is now starting solicitation for money to buy bats and balls to equip the team, which will play in the Legion District One.

Checks or cash contributions can be turned in to Buckingham or any of the other Junior Oilers officials: Paul Hill, Bill Heskew, Leslie Hart or Ray Salmon.

Firms who purchased uniforms for the club were:

Prescription Laboratory, Brown Derby Restaurant, First Citizens Bank, Panhandle Lumber, Citizens Bank and Trust, Panhandle Insurance Agency, Scott Implement Company, Hugh-Pitts Agency, Mack and Paul Barbers, Foxworth-Galbraith Lumber, Motor Inn Auto Supply, Burnett's Cabinet shop, Texas Gas and Power, Cabot Companies and Gunn Brothers.

The USS Maine was the first United States Navy battleship.

Training Camp Notes

LOS ANGELES — (AP)—Barrel-chested Pat Seery of the Cleveland Indians is proving that the Tribe management wasted no money when he hired Rogers Hornsby, former National League batting champion, to instruct Seery and other Tribesmen on how to paste a baseball.

The 200-pound, five-foot ten-inch Cleveland flycatcher who was struck out 101 times last year while belting 26 home runs, has clouted five round trippers in the Indians' last five games and is not fanning as often as he used to.

SEBRING, Fla.—(AP)—The Detroit Tigers cut their roster today by sending First Baseman Bob Meyer and Shortstop Johnny Ligon to the Dallas club of the Texas League. The release of Meyer leaves Roy Cullenbine and rookies Jack McHale and George Vico to battle for the first base job left vacant by the sale of slugger Hank Greenberg to Pittsburgh over two months ago.

COCOA, Fla.—(AP)—The Boston Braves begin their trek homeward today by engaging their Milwaukee farmhands in an exhibition tilt here today with Glen Ellett and Red Barrett scheduled to pitch. Meanwhile, Club President Lou Perini flatly states that the club is in need of more pitchers and more power.

SARASOTA, Fla.—(AP)—The Boston Red Sox break camp today and head for New Orleans where they play that Southern Association team tomorrow and Sunday.

Three defending champions will attempt to retain their titles. They are Dave Shaigira, Illinois, 165 pounds; Bill Courtright, Michigan, 155; and Bill Koll, 145 pounds of Iowa State.

Only Illinois, Oklahoma A. and M. and Cornell College and Iowa State have entered full eight-man squads. Michigan State's five-man contingent, however, rates a threat for team laurels.

LOS ANGELES — (AP)—Southpaw Bob Chipman will hurl for the Cubs against Cleveland's strike-out artist, Bobby Feller today. The last time the Cubs faced Feller, they played that Southern Association hammering a three run homer in the first inning to start the ball rolling.

THE chief antagonists, President Branch Rickey of Brooklyn and President Yarrv McPhail of the Yankees, have been summoned by the boss—like to sit down and at one another close-up, and, if possible, get the rancor out of their respective systems.

Rickey, the main "defendant" in MacPhail's charges of defamiation was unable to attend that session because of the death of a brother-in-law.

FULLY FUNERAL
PUEBLO, Colo.—(AP)—Mike Makrinn, a steelworker, wants his funeral to take place because tomorrow is the day he was born.

In his will recorded yesterday by the county clerk, Makrinn provided for the celebration of the anniversary at his funeral to have a good and jolly time.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
ST. PETERSBURG, Fla.—(P)—This is the town where they say you have to be 80 years old to get in the Junior Chamber of Commerce.

"They have a couple of softball teams on which everybody but the water boy has to be 75 or over. "And you ought to see those old-timers play," said one fan. "I never heard of any of those codgers keeling from heart trouble."

Shuffleboard is a hotter issue here than national politics, and if the local newspapers omit the shuffleboard column readers call up by the dozens to complain.

Elderly tourists flock here by the thousands, and St. Petersburg generally is proud to be known as the nation's winter capital for old people with enough money to follow the Robins south when the chibblains season sets in up north.

But some of the young folks here don't want the idea spread around that St. Pete is just a mecca for Methusels.

"Don't write anything about the five thousand green benches we have here for the old folks," said one. "And don't say any more about the sidewalk ramps we got for wheel chair patients."

Another resident complained: "We don't have an undue number of old people here. You have to remember that you don't see as many young people at resorts for the simple reason that most young people don't have enough money to go to them."

And the old folks have a good time at much less than it would cost them on Florida's east coast. One of their favorite haunts is the city pier, where they can eat picnic lunches, buy live turtles at fifty cents each to send their grandchildren, and listen to some venerable life of the party thump out on the free piano.

"Believe me if all those endearing young charms."

"Times were tougher during the depression," a resident said. "The cafeterias had to start throwing out tourists who came in, asked for a bowl of hot water, then poured cat-soup into it to make a free soup." From a town of 4,000 in 1910, St. Petersburg has grown steadily to a population of between 90,000 and 95,000. But it hasn't quite jelled out at the speed dreamed of by city fathers during the boom era.

Texas Today

By JACK RUTLEDGE
AP Staff Writer

Come Sunday, the bankers and doctors and lawyers and editors and delivery boys and housewives will dress up in circus clothes in Gainesville for a dress rehearsal of the 1947 version of the famed Community Circus.

The opening date for this year's circus isn't until April 23, but the hometown stars are rehearsing daily now, and the Sunday event is for the purpose of letting news photographers and others take pictures. Also, the performers can hardly wait to try out new costumes and new routines.

The Gainesville Community Circus is internationally known now. It started eighteen years ago as a temporary expedient—the local Little Theater needed money, and A. Morton Smith, editor of the Gainesville Register, thought a Burlesque Circus would raise enough to foot the theater's bills.

But the circus outgrew the theater. No one remembers the theater very well, but the circus—it's in everybody's blood.

It started in 1930. They had few props or costumes, and they spent about \$30 to put the thing on. They made enough to tide the theater through its deliriums—then abandoned it for the circus.

Today, the circus has equipment valued at \$35,000, and during its lifetime has brought home about \$150,000. Last year it took in over \$25,000. The money, however, is plowed back into the circus, and none of the 138 performers are paid. About 15 workers who handle tents, etc., get salaries.

There are a lot of funny and interesting stories about the circus, and you'll read about them later. This is just to brief you on how the 1947 circus is coming along. It's coming along fine. Lots of new acts. Lots of enthusiasm. Lots of new gags for the clowns.

Soon Gainesville will have a new building to house the show at home. Also, the Hollywood Company that signed up to make a movie of the show's history will give them a \$15,000 flame-proof tent, to go with the tents now on hand.

The itinerary for this year's show (third largest in the U. S. in number of performers, trailing only the Ringling show and Cole Bros.):

Opening date, April 23-24 at home; in Gainesville; Greenville, May 1-2; Denison, May 8-9; a May date in Oklahoma, still unset; a summer vacation, then a resumption in Phillips Aug. 15-16; Ardmore, Okla., Aug. 21-22; Olney, Texas, Aug. 29; Fort Worth Sept. 4-5-6; and a final date at Ranger, Sept. 12.

It could have scores more, but performers can't leave their jobs too often, can't travel far because it would keep them away too long. After all, the clowns and the aerialists and tight-rope walkers are housewives, bankers, lawyers, doctors, plumbers, electricians and delivery boys.

Measure to Legalize Slot Machines Asked

GALVESTON.—(P)—A bill legalizing the operation of slot machines in Texas was advocated here last night by the February grand jury which described the present state law as "creating and fomenting rackets."

The grand jurors, in a letter to Rep. Donald Markle, urged him to draw a bill immediately to legalize the "playing and operation of slot machines under properly regulated conditions."

This came on the heels of an announcement Monday night by Col. Homer Garrison, Jr., director of the State Department of Public Safety, that 48 persons were arrested and gambling equipment valued in the thousands were confiscated in Galveston County in weekend raids.

The whale shark is the largest known fish.
