Finland Vows Shipments To Reds Are Off

WASHINGTON, Feb. 6—UP—Finland has promised the United States that its tankers will not carry oil and gasoline to Communist China in the future, it was learned Friday.

Authoritative sources said the Finnish Foreign Ministry made the pledge to the State Department in an effort to close an incident involving the Finnish tanker Wilma. The vessel is carrying 7,000 tons of aviation jet fuel from Romania to Red China.

The State Department tried vainly to get both Finland and Turkey to block the shipment as soon as it learned of it. Turkey was approached because the ship had to pass through the Dardanelles Straits on its voyage from the Black Sea.

Refused Further Comment The department has refused to say whether it received any assurances from Finland that further shipments would be barred.

Other sources said, however, that Finland has made the promise. The tiny Baltic nation pointed out that it had no legal means to halt the shipment now on the seas and therefore is powerless to block it.

Turkey's reply to the United States is said to have included a reminder that international agreements provide for transit for all ships through the Dardanelles. The only chance of stopping the jet fuel shipment now appears to be in the hands of the Chinese Nationalist navy. The Wilma might be challenged by Nationalist navy units when it enters Formosan waters toward the end of its two-week voyage.

No American Aid Finland does not receive any American aid that could be cut off as a result of the shipment.

A second vessel now carrying oil believed destined for a Red sea oil believed however, result in U.S. (See FINLAND, Page 3)

318 Barrels For Maddox

Two additional wildcats were added to the completed roster in the Quindino Field of southern Roberts County today following Railroad Commission tests Thursday.

The better showing was made by Shamrock Oil and Gas Company's No. 3 Maddox located in Section 15B, 8K, M-2, B&F Survey, one location due north of the successful No. 2 Maddox.

The well flowed 318 barrels of oil through 38-inch choke on a 24-hour test. Gas gauged 106 million cubic feet with a gas-oil ratio of 323:1. On an earlier test the well flowed 136 barrels of oil through a 1-2 inch choke in nine hours. Estimated flow for 24 hours had been 362.99 barrels. Production in both instances was from a 12-foot section of brown dolomite from 4,096 to 4,108 feet. Total depth 4,114 feet.

The other commission test was conducted on Gulf Oil Corporation's No. 6 John Haggard located in Section 5, Block 2, I&GN Survey. The well flowed 6.13 barrels of oil, 44.9 barrels of salt water and gauged 1.45 million cubic feet of gas on a 24-hour test through 1/2-inch choke. Gas-oil ratio was 226,542:1. It was not known this morning how the Gulf well would be produced. The exceedingly high gas-oil ratio might make oil production prohibitive. So far, no new ruling has been laid down by the Railroad Commission on the amount of gas that may be allowed per barrel of oil for the Quindino Field. The statewide ruling places a ceiling of 2,000 feet of gas per barrel of oil. However, the commission (See BARRELS, Page 3)

License Tag Sales Slowing Up Count On Poll Tax Totals

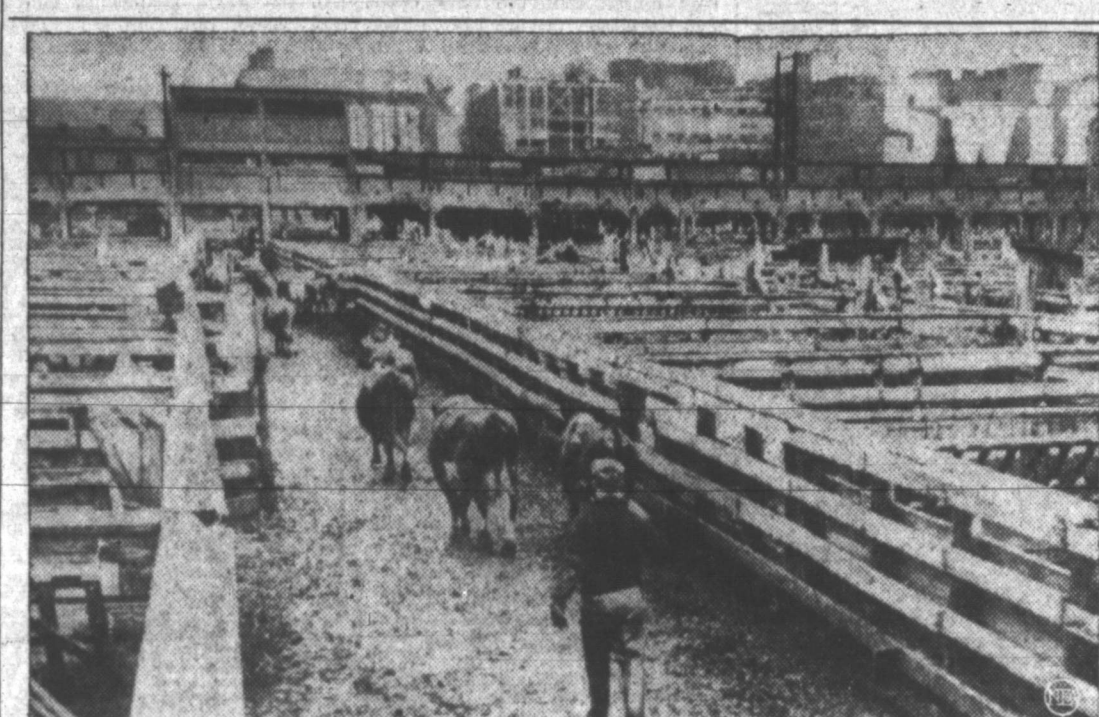

The poll tax and exemption certificate count for Gray County was still incomplete this morning due to the steady flow of license tag business in the county tax office.

Chief Deputy Tax Assessor-Collector Jack Beck said the office staff has been and is being flooded with license tag business and that receipts for poll taxes made up from applications sent in have to be worked on "when they get a few minutes to spare."

However, as the receipts are written out they are placed in the day's mail at closing time. These are the applications sold by organizations and business houses over the city and county during poll tax paying time.

Even after the final count has been reached a precinct by precinct breakdown will not be available until sometime in March, Beck said.

President Wipes Out All Curbs On Wages

EVERYTHING NORMAL — Officials at the Chicago stockyards report everything normal following announcement of the Office of Price Stabilization that price controls on meat and other commodities have been lifted. (NEA Telephoto)

Benson Stands Firm Against Farm Price Emergency Action

WASHINGTON, Feb. 6—UP—Secretary of Agriculture Ezra T. Benson is standing firm against congressional demands for emergency action to cope with falling farm prices.

Unruffled by cries of alarm going up from Capitol Hill, Benson told his first news conference Thursday that "now is the time for deliberation, not haste."

He said the slump in cattle prices, which Sen. A. S. (Mike) Monroney (D-Okla.) had pictured as disastrous, "has not reached the proportions" of an emergency "nor do I think it will."

Monroney retorted that the new secretary should "take a trip through the cattle states" and see first hand the plight of livestock raisers. The Oklahoma Democrat repeated his earlier demand for

He said the general economic situation is sound, business is at a high level of activity, employment is high and consumers purchasing power is good.

"Farmers should not be placed in a position of working for government bounty rather than producing for a free market," he said.

"Too many Americans are calling on Washington to do for them what they should be willing to do for themselves."

Benson successfully parried questions asking what specific levels of farm price supports he favored. But he said "price supports should provide insurance against disaster."

Price Controls Off Thousands Of Items

WASHINGTON, Feb. 6—UP—President Eisenhower Friday erased all wage controls and took price controls off thousands of items, including meat, live cattle, clothing and furniture.

More orders were to come, ending price controls over other commodities and services. "This is the first of a series of orders under which all prices will be de-controlled," the White House said.

Both wages and prices had been subject to control since the general wage-price freeze of Jan. 26, 1951.

Government officials also said there probably will be price increases in a number of items. They said that when the price de-control program is completed between now and April 30, the total of price increases will range from \$500 million to \$1 billion over a year ago.

These officials said they do not expect any general price increases on meats unless farmers start withholding cattle from the market. But they expect there may be some upgrading of beef, such as upgrading "good" beef to "choice," which would amount to an indirect price increase.

Wage controls and the selected price controls were suspended immediately by executive order. The order was issued after Mr. Eisenhower met two hours with his Cabinet.

Controls were taken off prices for all meat products, furniture, clothing, restaurant meals and thousands of items normally sold in department stores.

"These controls have not been effective in protecting the family budget against high prices," said a White House statement accompanying Mr. Eisenhower's action.

The executive order provides that wage adjustments pending before the Wage Stabilization committee may be put into effect immediately.

Mr. Eisenhower, however, provided for continued authority to enforce penalties for past violations of wage controls.

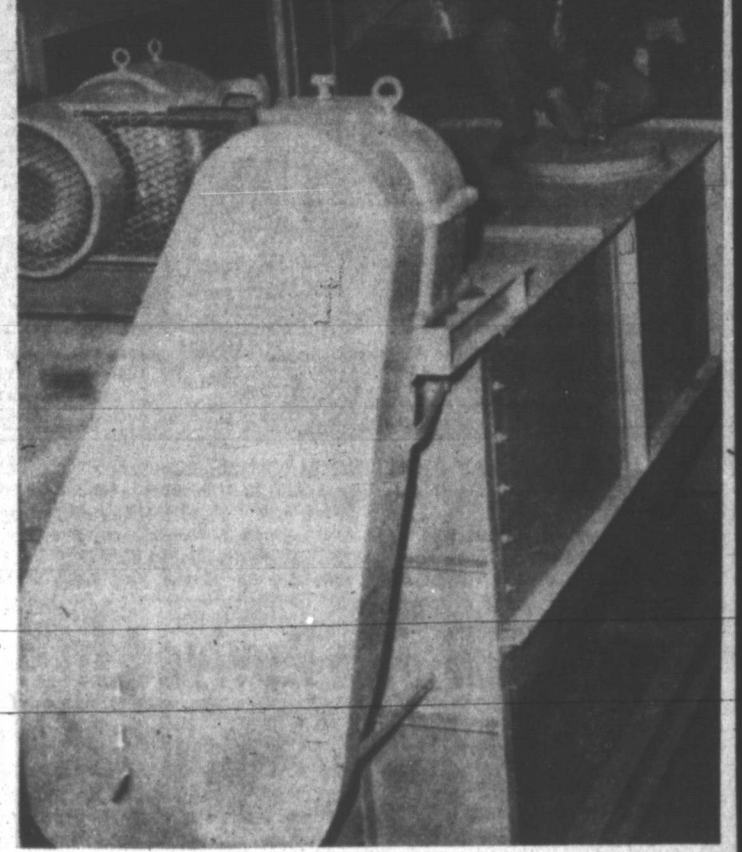

The President's action was described by the White House as the first in a series of steps to de-control all prices.

Stabilization officials said the White House could "conceivably" delay wage decontrol even though the orders were drafted for issuance Friday. In case of such a hitch, they said, the price decontrol orders might be shunted down to the end of the month.

The argument is that it is impractical to de-control any large number of consumer prices without lifting all wage controls.

Price Stabilizer Joseph Freehill promised that ceilings on meat and a "number" of other commodities would be lifted this week, probably Friday.

Orders have been prepared to decontrol prices of restaurant meals, children's clothing, household textiles, small household appliances, furniture, and, at retail only, a number of other department store items.

JUST MAKING A CHECK of the dry-mixing operations, Mickey Harris, manager of the Pampa plant, Halliburton Cement Co., is shown above as he opens one of the lids on the batcher to see if everything is working all right. The machine pictured above sucks cement from railroad hopper cars, mixes it with other ingredients and then loads the final mixture into mixing trucks before it is taken out to an oil well. City Political Front Quiet As Deadline Near

Comparative quiet still hung over the municipal front today as the biennial city election moved closer and closer.

Although actual balloting is two full months away — April 7 — the preliminaries to setting up the election are the time-eating elements, the deadline for filing as a candidate for mayor or commissioner of each ward is only one month away — March 7.

Potential candidates may file anytime between now and March 7.

City Manager B.H. Cruise said he has the formality of calling the election by the city commission tentatively set for Feb. 24, just two weeks ahead of the deadline for filing as a candidate.

A strong possibility exists that Pampa may have an almost completely new city commission. It will at least have a new commissioner from Ward 7 where the field is wide open due to Commissioner Bob Thompson moving to Amarillo around Feb. 16.

While neither Mayor C.A. Huff nor any of the remaining commissioners: Crawford, Atkinson, Ward 1; W. B. (A) Neel, Ward 3; and W. D. Varnon, Ward 4, have made any public statements, the mayor and Atkinson have hinted strongly in the past that they will not seek reelection.

Pampa city elections since the 1946 charter change fall on election years. The terms of each commissioner and the mayor are two-year terms and expire simultaneously.

Allies Have New Jet Secret Red Bomber Bases Discovered

SEOUL, Feb. 6—UP—Communists are hiding fighter-bombers within 75 miles of the Korean front, apparently in preparation for surprise attacks against Allied frontlines and rear area installations, the pilot of a new Air Force night fighter said Friday.

Capt. Bea L. Fithian, Kansas City, said he was "convinced the Reds are ferrying fighter-bombers close to the front" for attacks either from the air alone or in co-ordination with a Communist ground push.

The Air Force said the new F-94, all-weather jets in their first offensive patrol guarded 10 American Superforts which dumped 100 tons of bombs on a supply dump and troop concentration 140 miles south of the Manchurian border.

The announcement of the F-94 followed the disclosure Thursday by the Navy that Marines now are using a new twin-jet night fighter in Korea. The Navy jet fighter, called the "Skyknight," has been flying in Korea for several months and has shot down seven Red planes.

The Air Force all-weather fighter has been used for several months on defense patrols, headquarters said, but has not been used on offense until now.

The two disclosures showed the United States is using its most modern production-type aircraft in action in Korea.

The woman crew of one of the (See SECRET, Page 3)

Dimes Drive Short Of Goal

All indications pointed today to Gray County falling behind last year's March of Dimes total, according to figures reported by Mack Hiatt, drive treasurer.

The grand total to date stood at \$15,294.82 as compared to the 1952 grand total of \$15,686.33. Only a few scattered dollars remain to come in.

Hiatt said the iron lung containers collected \$684. A check for \$190 was on its way from Albrecht, Warren Hasse, county drive chairman, said.

Ray Evans, treasurer of the Gray County Infantile Paralysis Chapter, said, however, the expenses of the 1953 campaign may be lower than last year's because a lot of drive equipment was left over. The net for 1952 was figured at \$15,050.32.

"After all, it's the net collections we are looking to," Evans said. The costs of the 1953 campaign have not been figured out yet. Costs will include postage, postcards, envelopes and other items directly used for the drive.

If it comes from a hardware store we have it. Lewis Hardware, Adv.

Queen Mary Does It Without Help Liner Docked Without Tugs

NEW YORK, Feb. 6—UP—The giant liner Queen Mary was docked successfully Friday without the aid of tugs or longshoremen to handle her lines.

The ship, which is about the size of the Empire State building, was brought parallel with her pier on the second try, 70 minutes after she started a first, unsuccessful, approach.

Harbor tugboat men have been on strike for six days in a contract dispute. Longshoremen observed their picket lines at the Cunard and other piers Friday morning, leaving only office and ship personnel to handle the liner's docking.

liner turned toward shore and aimed at her slip at 9:40 a.m. As she edged beside the upstream side of Pier 90, the ship's stern began drifting downstream and it appeared the bow might swing into an adjacent pier. Sorrell immediately reversed his engines and backed into the river.

Only about 200 feet of the more than 1,000-foot long liner had entered the slip when Sorrell called off his first attempt at a delicate and dangerous feat of seaman-ship.

Capt. Donald W. Sorrell got the

Production Underway For Newest Industry

The latest addition to Pampa's growing industrial army is in full production today, and already looking toward immediate expansion.

The Halliburton Oil Well Cement Co., located on W. Brown between the Santa Fe Railroad and Pampa Oilers Baseball Park, has practically completed its building here, Mickey Harris, plant manager, said.

The new plant is the headquarters for a four-county area—Gray, Roberts, Wheeler, and Hutchinson. Hemphill County will in all probability be added after completion of the Canadian River Bridge.

Working strictly with oil well cementing, the company maintains a fleet of four dry-mixing trucks and three storage trailers besides the plant mixing machinery. One other mixing truck is housed in Shamrock and three others in Borger.

Three New Trucks Harris predicted that an additional three dry-mixing trucks may have to be added to the Pampa fleet within a short time. Additional storage bins are also expected to be erected on the company's Pampa property.

The present force of 15 men will have to be increased along with (See PRODUCTION, Page 3)

Scouts Ready To Kick Off Activities

A variety of activities and observances have been scheduled in Pampa for National Boy Scout Week, which gets underway Saturday morning.

Upcoming during the week are an exposition, a re-dedication oath, window displays, a court-of-honor and a raft of radio programs including two plays, a 30-minute interview, a 4-4-8-7-9-6 number of short talks by Scout officials and boys.

The Boy Scouts' Adobe Wall Council and Santa Fe District (which includes Pampa) are going all out in their participation, according to Phil Pegues, district Scout executive.

Scheduled from 9 a.m. to 5 p.m. Saturday is the "Scout Exposition" in which 16 units—Explorers, Scouts and Cubs—will present living posters on 14 of Pampa's street corners.

Boy Scouts will picture charcoal cooking, signaling, first aid, making an outdoor camp and packing for an outdoor hike, according to Harry McWaters, district camping and activities chairman.

Cubs will demonstrate Indian lore and workshops in which they'll make decorations and favors. And Explorers will show their first aid, transportation, firearms, safety and pioneering.

On the south lawn of the court house Sea Scout Ship 22 (First Baptist Church) will man a replica of their ship.

At 1 p.m. Sunday KPDN will have a 30-minute show of interviews in which the "God and Country" Awards and general Scout Week activities will be discussed, Pegues said.

"During Sunday" the stress will (See SCOUT, Page 3)

Pampa Schoolmen To Atlantic City

Three area school officials are to be present at the American Association of School Administrators convention which convenes Feb. 14-19 in Atlantic City, N.J.

They are B. R. Nuckols, county schools superintendent; Knox Kinard, city schools superintendent; and Claude Zevely, Hopkins school principal.

Theme of the convention, which is to be held by Virgil M. Rogers, ASSA president, Milwaukee, has been announced as "Education for National Security."

According to Kinard, work is being done primarily with personnel, finance and construction.

Nationally known figures scheduled to give talks include Ralph Bunche, United Nations Department of Trusteeship director and former Nobel Peace prize winner; Al Capp, cartoonist; and Walter Reuther, labor leader.

A Local Program And World Series, Too... Television Reception In Pampa Expected As Good As Amarillo

When television comes to Pampa, local reception should be "as good" as that in Amarillo.

And Pampa will probably be called on to supply a TV program of its own over Amarillo's Station KGNC-TV.

"It is fully intended, too, that coaxial cable will be laid in time for Pampans to enjoy next fall's World Series," according to Kelly Maddox, KGNC-TV program manager.

But when the first TV programs will be received in Pampa is a matter of "pulling any date out of a hat." Maddox told the weekly meeting of the Pampa Kiwanis Club this noon.

Emphasizing that TV "is a business, not a plaything," Maddox insisted that "TV is the only medium of entertainment that can give the viewer sight, sound and motion."

"We get a very clear, sharp, distinct picture" on the screen, the TV executive explained, "Pampans will need an outside antenna—a 30-foot one should be sufficient."

Asked where Pampa will fit into KGNC-TV's picture, he said that current plans call for "special programs that will take in Amarillo's surrounding towns."

An estimated 90-100 Kiwanians were on hand and heard announcements about the Harlem Globe-trotters (here Feb. 25), the United Fund Drive (meeting, Thursday night, county courtroom), and the high school senior play ("very good play—I'm in it," said Burkhard Brehm).

API Launches Membership Drive; Seeks 700 Members

A membership drive is underway today for the Panhandle chapter of the American Petroleum Institute.

The annual campaign was launched by chapter directors in an executive meeting held Thursday night at the Pampa Country Club.

"The need for a large and active membership is pressing now," said API president Joe Cronin of Borger. "A hard-working organization can protect industry interests which are at the present time in danger."

Cronin referred specifically to the tidelands issue. He added that while the depletion allowance appears to be in little danger for the time being, a healthy organization in the Panhandle, joined by similar groups over the nation, can present a solid front for the protection of oil country interests.

For the past several years the Panhandle chapter has led the entire mid-continent area in membership. It still is the largest chapter in the district.

To maintain this record, Cronin said the chapter will have to increase membership beyond the 700 member mark now held.

All directors of the organization are selling membership tickets throughout the Panhandle.

The drive will be terminated with a dance Feb. 28 in the Bunsavia Cafeteria. Music for the dance is to be furnished by the Mello-Airce of Pampa and the affair is slated to begin at 9:30 p.m. until 12:30 a.m.

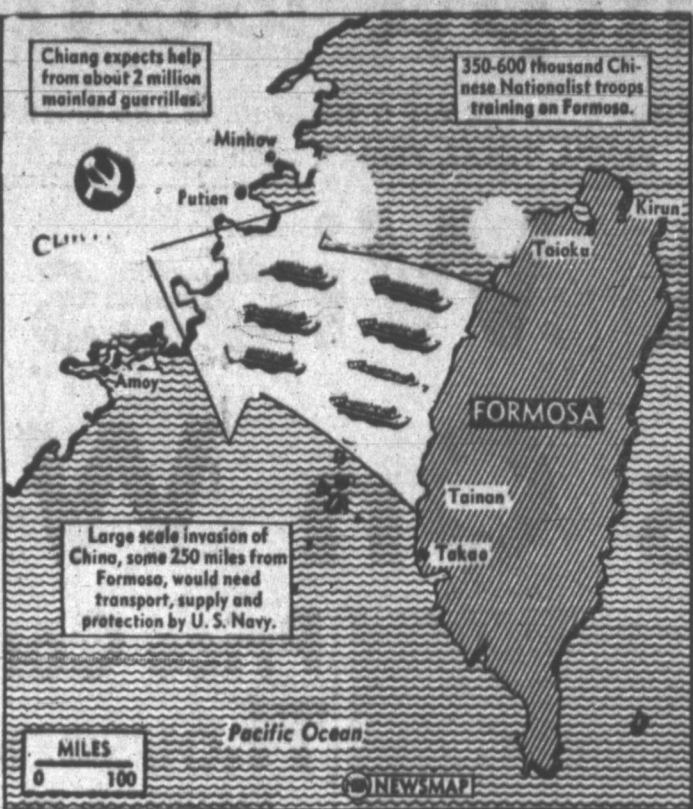

Among new directors introduced at the session last night were John Fritch, Celanese; D. O. Radtke, Magnolia; Pete Birdwell, British-American Oil Co.; J. G. Glemey, The Texas Co.; and Joe McEford, Sinclair.

'Unleashing' China's Nationalists Poses Threat to Red China

MAO'S FAR EAST FIGHTING MACHINE—Communist China's army of over five million men is probably the largest standing army in the world today. Above Newsmag shows approximate location and strength of Mao Tzu-tung's "people's liberation army." In addition to great manpower, the Reds have built five new air bases in Kwangsi province, next to Indo-China—an added threat to the French fighting the Viet Minh rebels. Some military experts feel that an efficient blockade of the China coast would prevent the Red army from getting vital supplies.

President Eisenhower's decision to call off the U.S. Seventh Fleet from its Truman-ordered "watchdog" duty of preventing Chinese Nationalist forces from attacking the Chinese mainland is expected to have international repercussions. Maps below show how the situation sizes up on relative manpower and problems involved.

WRAPS ARE OFF—President Eisenhower's new Formosan policy, a move to seize the initiative in globe fight against communism, will leave the way open for Chiang Kai-shek's forces to attack the Reds on the Chinese mainland. An all-out invasion, presenting tremendous logistical problems, is less likely than a series of aerial and commando raids.

Religion Being Revived In Hollywood By Glamour Girls

HOLLYWOOD, Feb. 6—(NEA)—Miss Russell, Western actor Tim June Haver's plans to become a nun centered attention Friday on a revival of religion among Hollywood glamour girls.

Though they don't expect to join a religious order, other actresses have turned to the faith.

Marilyn Monroe, Marilyn Monroe, Jane Russell and Terry Moore are known to the world as shapely sirens of the screen. But outside of working hours, they meet quietly with a religious group.

The non-denominational organization called the Hollywood Christian group, gathers in members' homes twice a month to discuss religion and listen to a sermon.

The group, limited to show business folk, was formed in 1949 by

ON BRIDGE Ike Seeks To Eliminate Reserves Held By Bureaus

WASHINGTON, Feb. 6—UP—These loose funds accumulated in the hands of the spenders, Byrd's legislation would restore congressional authority over expenditure of overflow money. It would fix a limit beyond which federal agencies could not spend against balances built up from earlier appropriation bills.

This is a real first step toward restoring congressional control over government spending, a function which Congress surrendered during the uninterrupted emergency of war years of the Roosevelt administration.

This effort to put congressional brakes on spending is aimed at the earliest possible balancing of the budget, to be followed by tax reductions and an orderly start toward retiring the national debt accumulated mostly during the Roosevelt and Truman administrations.

Byrd's move would not mean much if it were not for its support by President Eisenhower, Hill agents, Secretary of Treasury George M. Humphrey and Budget Director Joseph M. Dodge, actively support the senator.

That makes it a team play. It has been many years since the White House and Congress have been together for less or controlled spending, lower taxes and a balanced budget.

Recently the group became so large it split into two factions. One, headed by Roy Rogers and wife Dale Evans, is composed only of Western actors. Miss Russell and Miss Haines run the comedy-drama-musical division.

At each meeting, members are served dessert and coffee. Then they sit around the living room to hear a minister or priest speak. The sermon is followed by a question-and-answer period.

Sometimes members come from work, still in greasypant and costume. Miss Moore once dashed in late in an evening dress she wore on the Dean Martin-Jerry Lewis television show.

Miss Russell always arrives covered from head to toe in slacks and sweaters. At the last meeting she introduced Marilyn Monroe, her co-star in "Gentlemen Prefer Blondes," to the group.

Wanda Hendrix, Barbara Britton and Andy and Delta Russell also are members.

"We have no trouble getting members—everybody wants to come," said Miss Haines. "We have a wonderful feeling of love and brotherhood."

Other celluloid celebrities are active in religion. Actress Gale Storm teaches Sunday School at a little church in Hollywood. Chesapeake queen Virginia Mayo has appeared for years in the Christmas play at the Hollywood Presbyterian Church. She now is studying to become a Catholic.

Ann Blyth, Irene Dunne and Loretta Young are active in Catholic charities.

Use Your Partner To Win At Bridge

By OSWALD JACOBY
Written for NEA Service

"The other night I held a bridge hand with no card higher than a nine," reports a Wisconsin reader. "Was I entitled to ask for a new deal?"

Nobody can stop you from asking for a new deal. However, the opponents would be very foolish to give you that new deal because you are not entitled to it. When you get a bad hand all you can do is suffer in silence.

As a matter of fact, if your partner has a good enough hand and plays his cards properly, your suffering may not be so extreme. Freddie Sheinwald, managed to extract two tricks from a "trickless" dummy. This feat looked impossible at first, but Sheinwald made it look very simple—as befits the author of the magnificent "First Book of Bridge" for teen-ager and other beginners.

West opened the king of hearts, and Sheinwald, playing the South hand, took the ace of hearts and returned the suit at once. East won with the ten of hearts and properly returned a trump. Declarer won and led another heart, giving West a trick.

West hopefully returned another trump, but there was no way to stop declarer plan from operating. Sheinwald won the second

Play Oklahoma Gin For Fun

By OSWALD JACOBY and ALFRED SHEINWOLD
Written for NEA Service

"We play a type of Oklahoma Gin Rummy," writes a Palm Beach correspondent, "but we use an extra deck in order to establish the point for knocking. This makes it possible for us to play partnership gin rummy with the same point for both of the games that are played at the same time."

"We put an extra deck in the middle of the table when we play four-handed partnership gin. We turn up the top card of this extra deck and let that card establish the point."

"If the card turned up in the middle deck happens to be a five, for example, nobody is allowed to knock unless he has at most five points. If the card turned up in the middle happens to be an ace, both games have to go for gin."

In a recent game we played several hands and scored them, and then discovered that the deck in the middle was a pinhole deck. This meant that the only cards that we could turn up were nines, ten point cards, and aces. It was never possible for us to get a turn-up card that would require a knock between two and eight points.

"Two of the players stated that we had not been playing a normal game of gin rummy and that the scores should not count. The other two claimed that the scores ought to count, but that a proper deck should immediately be substituted for the rest of the game."

"Who is right?"

The scores must count exactly as though a normal deck of cards had been used for the purpose. This is a general principle of all card games. Whenever you discover that the equipment you are using is faulty in some respect, stop and provide correct equipment. Whatever has been scored up to that moment, however, is not in the least altered by the discovery.

This principle is fair to everybody. Even if a deck of cards is defective in some way, everybody has the same chance to win or lose. When this rule is followed, there are no hard feelings, if you

Canadian To Observe Scout Week

CANADIAN, Feb. 6 (Special) — The 85 boys in Scouting in Canadian are to have a busy week beginning Saturday in observance of National Boy Scout week.

The observance will begin at 10 a. m. Saturday with a parade of Scouts, Cub Scouts and Explorer Scouts. The parade is to start at the Isaacs School, come down Main Street and end at the City Hall where Mayor Jess Lindley will present the Scouts with the keys to the city.

Explorer Scouts are to take over city and county offices for the day, and Boy Scouts and Cubs will serve as officers and assistants.

Sunday will be Boy Scout Day at the churches and all Scouts will be urged to attend services in uniform.

Exhibits of Scout handicraft by members of all three organizations will be on display in local store windows next week from Thursday through Saturday. Each troop or pack is to have an individual display. On Saturday, February 14, all scout units will sponsor a cooked food sale at the Miller Food Store and the Bestway Store.

Clyde Risley is Cub Scout Master, with Warren Harrington as chairman of the Cub committee; Sam Morse is Scoutmaster with Russell Carver as chairman of the troop committee; and Woody Pond is Explorer Advisor with Tom Abraham as committee chairman.

Jury Probes Death Of Helper Welded Into Gas Pipe Line

MONROE, La., Feb. 6 (UP)—A coroner's jury Friday was scheduled to investigate the death of a laborer who suffocated after fellow workers accidentally welded him into a gas pipe line.

Dr. J. T. French, Ouachita parish coroner, said a preliminary investigation showed that Ernest Young, a Negro employe of Ford, Bacon and Davis Construction Co., was sent into the pipe to clean it out after a new joint was installed. Welders, without realizing Young was inside, sealed the end of the pipe. French said when Young was found to be missing, the welders went to work feverishly, drilling into the pipe in a vain rescue effort.

The body was found far down the pipe line from Young's point of entry, indicating he had crawled a long distance before being overcome by gas fumes, he said.

French returned a preliminary verdict of death by asphyxiation, but he said a final decision is pending on the outcome of the coroner's jury meeting.

ALL-CITY (Continued from page one)

In 1950-51-52 in the international piano recording festival sponsored by the National Piano Teachers Guild, Miss Quill is the daughter of Mr. and Mrs. H. G. Quill.

Also included on the program is a contemporary music selection, "The Green Domino," which has been composed especially for school bands. The tone poem is to be presented by the Harvester Band.

St. Joseph ASPIRIN

Including the program is to be "Blue Tango" by Leroy Anderson, graduate of the Harvard Music School and arranger for the Boston Pops orchestra.

Four letters from Mrs. Parsons, written to Parsons before her marriage, were read Friday. Two other notes, written to her parents while she was on her honeymoon, were introduced Thursday.

Tyler, a defense witness, testified the letters written on her honeymoon showed she was of "suicidal tendencies." State attorneys pointed out on cross-examination that she had not committed suicide.

Schizophrenics "are unpredictable," Tyler testified. "You don't know what they're going to do. Some commit suicide, some don't."

Tyler said Mrs. Parsons is a "catatonic schizophrenic," which means she is suffering from a type of split personality.

Affectionate Terms The letters from Mrs. Parsons to her future husband were full of affectionate terms. One described Parsons as "Clark Gable," Perry Como and Rudolph Valentino combined into one person.

However, Tyler said, when Mrs. Parsons came to his office in Tulsa after she had withdrawn from

JAMES LEMMONS Scout of the month

Thomas Tells Lions Of Japan; Scout, Sweetheart Named

Ralph Thomas, county agent, showed slides depicting Japanese customs and scenery to Lions Club members at the weekly luncheon meeting Thursday in Fellowship Hall.

Thomas took the pictures while serving 15 months with the Air Force in Japan recently. He said Thomas had been recalled from the reserves and was connected with the Far East Air Materiel Command.

The Japanese are an extremely industrious people, he said, which is proven by their being little trace of where the country was torn up by World War II.

Also included in Japanese traits, by the county agent, was an amazing honesty. He said there was no call to lock possessions away from the Japanese. And indicative of the honesty, he said, is the tradesman who never misrepresents merchandise.

They were also exceptionally polite, Thomas continued, saying, "rough stuff won't work with them; but if you treat them kindly and with friendliness they will do almost anything for a person."

Slides were shown by Bill Goldston, assistant agent, and narrated by Thomas.

Reviving a custom abandoned two years ago, Lions are now to have a "Scout of the month," present at every meeting, comparable to the Lions Club Sweetheart.

Scout chosen for the month of February is James Lemmons, Troop 16 (Lions sponsored troop). He is the son of Mr. and Mrs. Roy Lemmons, 528 S. Cuyler.

Lions sweetheart for February is Miss Joan Lunsford, daughter of Mr. and Mrs. Cecil Lunsford, 1124 Northwest Texas Hospital, Amarillo.

Frank Jameson, 26, son of Mr. and Mrs. W. H. Jameson, 837 E. Denver, suffered a fractured skull and multiple burns about 11 a. m. Thursday when he fell from the highway wire to a hard-surface road, striking his head and back.

Though "not exactly on the critical list" at the hospital, he is expected to "be there for some time," hospital authorities said today.

Moving from Skellytown and White Deer to Pampa Wednesday, he was working for the Groninger and King Trucking Company when the accident occurred.

Taken to Highland General Hospital by ambulance, he was later taken to the Amarillo hospital.

Prior to moving away from Pampa, about a year ago, his parents said, he had been a local resident for 12 to 14 years.

He has a wife and two children, a boy and a girl.

Adenauer To Visit U.S. This Spring

BONN, Germany, Feb. 6 (UP)—U. S. Secretary of State John Foster Dulles announced Friday that West German Chancellor Konrad Adenauer will visit the United States this spring.

Dulles made the announcement shortly before he left Bonn for The Hague, The Netherlands, on his fact-finding tour of seven West European capitals.

The American secretary of state and Mutual Security Administrator Harold E. Stassen conferred most of Thursday afternoon and evening with Adenauer and other German leaders.

Dulles spread the same message in Bonn as he did in Paris and London about the necessity for Europe to unite. He warned of possible cuts in defense aid by the American Congress unless Western Europe acts in a constructive way toward ratifying the European Army treaty.

Psychiatrist Backs Defense Claim Mrs. Parsons Insane

WICHITA FALLS, Tex., Feb. 6 (UP)—A Tulsa, Okla., psychiatrist testified Friday that Mrs. Mary Jean Parsons was insane when she killed her husband of six weeks because she did not know right from wrong.

The psychiatrist, Dr. Joe E. Tyler, said that he would have known she was suffering from "split personality" when she came to him after withdrawing from the University of Oklahoma. He had seen letters she wrote to her fiancé, the man she later killed.

Mrs. Parsons, 22-year-old former Tulsa socialite, is charged with murdering her husband, Lt. Richard O. Parsons of Pleasantville, N.Y., as he lay sleeping in their El Paso apartment. An El Paso jury found her sane, but her attorneys are nevertheless basing their defense on insanity.

Letters Introduced Four letters from Mrs. Parsons, written to Parsons before her marriage, were read Friday. Two other notes, written to her parents while she was on her honeymoon, were introduced Thursday.

Tyler, a defense witness, testified the letters written on her honeymoon showed she was of "suicidal tendencies." State attorneys pointed out on cross-examination that she had not committed suicide.

Pampan in Serious Condition After Electric Burns, Fall

A Pampan seriously injured when he accidentally caught hold of a highline wire is reported in "still serious" condition today in Northwest Texas Hospital, Amarillo.

Frank Jameson, 26, son of Mr. and Mrs. W. H. Jameson, 837 E. Denver, suffered a fractured skull and multiple burns about 11 a. m. Thursday when he fell from the highway wire to a hard-surface road, striking his head and back.

Though "not exactly on the critical list" at the hospital, he is expected to "be there for some time," hospital authorities said today.

Moving from Skellytown and White Deer to Pampa Wednesday, he was working for the Groninger and King Trucking Company when the accident occurred.

Taken to Highland General Hospital by ambulance, he was later taken to the Amarillo hospital.

Prior to moving away from Pampa, about a year ago, his parents said, he had been a local resident for 12 to 14 years.

He has a wife and two children, a boy and a girl.

BARRELS (Continued from page one)

In some cases, makes special allowances for wildcat fields. Some decision may be made during a hearing in Austin on the field.

In the meantime, Shamrock has staked two additional locations due north of the No. 2 and the No. 3.

The wells, Nos. 4 and 5 are located along the section line and offset Cresswell and J. W. Collins English Edge leases. Cresswell has already staked No. 1 Edge, offsetting the No. 2 Maddox and will be forced to stake another as an offset to the Shamrock No. 3 Maddox.

Out-Of-Town Man Fined For Indecency

Fined \$122.05 on a charge of indecent exposure was Richard L. Mitchell, 45, of Wichita Falls.

Picked up by city police Thursday morning, Mitchell was handed over to county authorities that afternoon and was tried in county court.

Psychiatrist Backs Defense Claim Mrs. Parsons Insane

WICHITA FALLS, Tex., Feb. 6 (UP)—A Tulsa, Okla., psychiatrist testified Friday that Mrs. Mary Jean Parsons was insane when she killed her husband of six weeks because she did not know right from wrong.

The psychiatrist, Dr. Joe E. Tyler, said that he would have known she was suffering from "split personality" when she came to him after withdrawing from the University of Oklahoma. He had seen letters she wrote to her fiancé, the man she later killed.

Mrs. Parsons, 22-year-old former Tulsa socialite, is charged with murdering her husband, Lt. Richard O. Parsons of Pleasantville, N.Y., as he lay sleeping in their El Paso apartment. An El Paso jury found her sane, but her attorneys are nevertheless basing their defense on insanity.

Letters Introduced Four letters from Mrs. Parsons, written to Parsons before her marriage, were read Friday. Two other notes, written to her parents while she was on her honeymoon, were introduced Thursday.

Tyler, a defense witness, testified the letters written on her honeymoon showed she was of "suicidal tendencies." State attorneys pointed out on cross-examination that she had not committed suicide.

be on having all Scouts attend the church of their choice with their parents, he continued.

At 8:15 p.m. Sunday area Scouts and their fathers will join an estimated 2 1/2 million others over the nation in the annual dedication to the Scout Oath. Locally, there will be no official observance.

During Monday morning Scouts will window displays in various local shop windows, dealing with camping equipment and what Scouts make. One of them will be a living poster, like Saturday's.

At 7:30 p.m. Monday there will be a district court - of-honor in the Woodrow Wilson School during which John Schofield, Post 14 (First Presbyterian Church), will receive his Eagle Scout Award.

At 5:30 p.m. Saturday and 7:15 p.m. Wednesday members of the Pampa High School radio speech class will present plays - first on the upcoming Jamboree (July 17-24), second called "Mr. Fixit."

From Monday through Friday there will be short and long radio talks - mostly inspirational - by Roger McWaters, Explorer, Post 14; Ray Evans, council organization and extension chairman; Danny Fitzgerald, Scout, Troop 80; W. B. Weathered, and Fred Neslage, both council executive board members; Herman Van Sicke, Eagle Scout; Paul Clark Eisenberg, Scout, Troop 80; John Teed, Explorer, Post 4 (First Christian Church); and B. N. Shultz, Cubmaster, Pack 22 (Horace Mann School).

SECRET (Continued from page one)

all-weather F-94s claimed Friday to be the first American airmen in history to shoot down a Communist plane at night without seeing it until it set it afire with machine gun bullets.

Capt. Ben. I. Fithian, Kansas City, Mo., and his radar operator, Lt. Sam R. Lyons, of Houston, were credited with the shooting down of a Russian made LA-9 three nights ago.

Burst Into Flames "The only time we saw it was when it burst into flames," Fithian said. "We caught it a 300-foot altitude and started shooting when we were 600 yards away."

The fighters are on guard against a mass raid by the hundreds of Communist planes known to be based in Manchuria. Whenever an unidentified aircraft crosses the Yalu River border into North Korea at night the fighters are warned. The planes are aloft in two minutes and in five minutes can reach an altitude of 40,000 feet. Prior to last month these planes were not allowed to cross the "bombline," just north of the front and tangle with night flying Communist planes. Air Force officials felt the F-94's equipment too valuable to risk letting it fall into enemy hands.

The war on the ground, according to Gen. Mark Clark's communique was "very quiet." The Eighth Army reported only scattered Communist jets chiefly in the east, and along the Imjin River in the west.

Pipe Will Set Roberts Drilling Pace, Dunn Tells Miami Men

MIAMI, (Special) — The availability of materials for drilling will determine to a great extent the speed at which Shamrock Oil and Gas Corporation's Roberts County lease is developed, according to Harold Dunn, president of the corporation. Dunn was the principal speaker at the Men's Service Club, Tuesday night.

"We need the oil and we are going to drill wells just as fast as pipe is available," Dunn said. Asked later how long he thought it would take to develop the field in general, he replied that drilling operations could quite possibly be going on 15 years or longer.

Dunn pointed with pride to his company's growth over a 25-year period. Total revenues for 1952 alone amounted to more than \$31,000,000, an increase of more than \$2,000,000 over the previous year.

The corporation's property, plants and equipment are valued at more than \$46,000,000.

Asked what he thought the development of Roberts County's oil and gas field would mean to Miami, Dunn said the city might experience growth provided a gas processing plant is built by one of the companies. Such a plant will be built only if the supply of gas makes it economically feasible.

"The days of boom towns are gone, and you should be glad," he added. "I'm hoping you will experience a steady normal growth."

In a business session earlier club members voted to award the same prizes at this year's Junior Livestock Show that they did last year. They also agreed to lend their financial support to local boys in the sale of their calves at the Top 'O' Texas show in Pampa, Feb. 16.

Dunn authorized Carl Mathers to act as his agent in purchasing a Roberts County calf for him at the Pampa show.

A program committee appointed by President J. W. Thompson, for the March meeting consists of A. H. Gordon, Earl Breeding and R. J. Bean.

Amarillo Man Executed For Wife's Murder

HUNTSVILLE, Tex., Feb. 6 (UP)—R. J. Hulen, Amarillo truck driver, was executed early Friday for beating his wife to death with a lead pipe as she basked under a sun lamp.

Warrant H. E. Moore, of the Huntsville state prison, said that Hulen was pronounced dead at 12:08 a.m. He said that he didn't hear Hulen make any last statements but the condemned man murmured a prayer as he walked from his cell into the death chamber.

Hulen was convicted of murdering his wife, Mable Rachel, on April 25, 1951. The couple had been married for 25 years, but Mrs. Hulen filed a divorce suit just before she was murdered.

The conviction was upheld by the Court of Criminal Appeals. An appeal filed for Hulen last month by Bryon Singleton, Amarillo lawyer, was turned down by the Board of Pardons and Pardoners. Singleton pleaded that Hulen did not testify at his trial.

"He is a naturally retiring man," Singleton said, "and had been too confused to think coherently enough to testify."

The attorney said that Hulen was a "weak, meek-mouthed individual who spent most of his life taking dead animals and waste to the rendering plant where he worked."

Melissa Man Killed MCKINNEY, Tex., Jan. 31 (UP)—J. W. Hammond, 31, of the nearby rural community of Melissa was injured fatally Saturday when he was thrown from his car as it left the road and overturned three miles south of McKinney on U.S. 75 shortly after midnight.

FINLAND (Continued from page one)

aid reprisals. The cargo aboard the Italian tanker Mirella is 5,000 tons of Iranian oil believed destined for Poland.

The Italian vessel left Abadan late last month. U.S. officials immediately reminded Iranians that an act of Congress requires the United States to halt foreign aid to any nation shipping strategic materials behind the Iron Curtain unless the President deems the shipment is in the best interest of the United States.

Oil is high on the list of strategic items and is completely banned from the satellite nations.

Women's Activities

Page 4 PAMPA NEWS, FRIDAY, FEBRUARY 6, 1953

RUTH MILLETT

A farm wife writes me: "I am a wife and mother of three of the sweetest children in the world. I have a good husband and I love him.

"During the first year we were married, if he left home to be gone all day he would kiss me goodbye. Now he never does that, or speaks of his love. I desperately need to have him show me some affection in such small ways as a kiss when he leaves the house or comes home after being gone all day.

"The few times I have tried to let him know how I feel he made me feel like a fool for asking for a show of affection.

"What I want to know is, am I expecting too much? Do other women suffer the same hunger for affection? If so where have we failed?

"Perhaps I should be telling my husband all this instead of you, but how do I do so in my problem."

I am printing that wife's letter in the hope that a lot of men who regard themselves proudly as the strong, silent type will read it.

EXPRESS YOUR LOVE

For it speaks for every woman who loves a man and is hurt and rebuffed by his unwillingness to express his love in the small ways that are important to a woman.

As this wife points out, it is hard for a woman to tell the man she loves that she wishes he were more affectionate. That would only make them both self-conscious.

That is why I am hoping a lot of husbands will read the letter printed above and take the hint their own wives may not feel able to give them.

If you've quit kissing your wife goodbye when you leave in the morning and again when you come home at night; if you've all but forgotten the pet names you used to call her; if you never give her an unexpected kiss when she is busy at her housework, or take the trouble to tell her how pretty she looks you are starving your wife.

She'll probably never tell you so, and that is what makes it a real tragedy.

Venado Blanco Members Meet

WHITE DEER (Special) — Members met in Pampa recently for the Venado Blanco Club. White dinner preceding an evening at the movies.

Members present were Mrs. Bert Isbell, Huelyn Laycock, D.V. Biggers, Luke Guerin, H.C. Little Jr., Alvin Smith, David Grayson, Byron Aulry, Gene Gaston, Clifton Kelly, and Jo Hy Smith, and Misses Gertrude Golladay and Marion Honea.

Church Will Send Women To Meeting

Delegates from eight states (Arkansas, Louisiana, Texas, Missouri, Kansas, Nebraska, Oklahoma, and New Mexico) will attend the 12th annual meeting of the South Central Jurisdiction Methodist Women's Society of Christian Service in Amarillo, Feb. 17-19.

Mrs. H. W. Clodfelter and Mrs. E. S. Williams will attend the meeting as delegates from the Pampa First Methodist Church. Alternates will be Mrs. H. H. Boynton and Mrs. W.C. Hutchinson.

The society will hear reports of its missionary project, elect new officers for the next four years, and pledge its spiritual and financial support to the mission program. Theme of the meeting will be "Christ Shall Reign."

Speakers who will address the three evening sessions are: the Rev. Dr. George P. Howard, Beaumont, Texas; Mrs. J. D. Bragg, St. Louis, Mo.; Mrs. J. D. Bragg, St. Louis, Mo.; Mrs. J. D. Bragg, St. Louis, Mo.; Mrs. J. D. Bragg, St. Louis, Mo.

Others prominent on the program include: Mrs. W. Murdoch MacLeod, New York City, general director of the general department of United Church Women of the National Council of Churches; Miss Irlan Johnson, Miss Louise Robinson, and Miss Mary Lou Earnwell, staff members from the Women's Division headquarters in New York City; Miss Mary B. Riddle, head of South Side Community center, San Marcos, Tex.; and several missionaries recently returned from overseas.

The McMurry College Chanters of Abilene, under the direction of Dr. Richard C. Von Ende, will sing Wednesday afternoon and evening.

Devotions will be led by the Rev. Marvin S. Vance, First Methodist church, Austin, Wednesday and Thursday mornings.

Mrs. C. A. Barr, Austin, jurisdiction president, will be in charge of the sessions. Mrs. Harold Soules, Hutchinson, Kan., is vice president; Mrs. C. T. Schaefer, Bay City, is recording secretary; and Mrs. H. E. Werner, Topeka, Kan., treasurer.

Home Progress Club Meets In Mulkey Home

MIAMI (Special) — Mrs. Howard Mulkey was hostess to the Home Progress Club in a recent meeting. Mrs. A. H. Gordon presided.

The leader for the afternoon, Mrs. R. E. Thompson, gave a talk on "President and Mrs. Eisenhower's moving into the White House." The special feature was a discussion of the romance of fabrics by Mrs. J. K. McCusker, R.E. Jenkins, J. K. McCusker, W. L. Russell, Eunice Holland, and W.F. Locke; and Miss Carol Lynn Jenkins, guest.

MR. AND MRS. IRA HUGHES

Mr. And Mrs. Ira Hughes Honored

With Open House In Poole Home

Mr. and Mrs. Ira Hughes celebrated their golden wedding anniversary recently with open house in the home of their daughter and son-in-law, Mr. and Mrs. H. A. Poole, 532 S. Gillespie. Hostesses for the celebration were their daughters.

Miss Laura Ann Atha, daughter of Mr. and Mrs. Thomas Atha, Cheyenne. The bride was dressed in blue satin trimmed in white and edged with orchid ribbon.

Their daughters honored them with an open house on their 50th wedding anniversary recently. The refreshment table was laid with a cerise lace over gold. It was centered with the three tiered wedding cake on a white star centerpiece. A bouquet of yellow carnations and the crystal punch service finished the decor. Mrs. Grace Poe, daughter of the honorees, presided at the refreshment table. Mrs. Poole was seated at the guest book.

Out of town guests were Mr. and Mrs. C. E. Poe of Corpus Christi, Mrs. C. W. Atha of Sweetwater, Okla., Mr. and Mrs. Doyle Forrester, and Doyle of Borger, and Mr. and Mrs. Rex Alva and Allen of Sweetwater, Okla.

About 30 guests registered during the afternoon.

Students Observe Grade School Classes

WHITE DEER (Special) — Dr. Ruth Lewis and 15 student-teachers from West Texas State College, Canyon, observed classroom in the White Deer — Skellytown Grade School early this week.

White Deer's fifth grade and several of the student teachers heard a talk given by Mrs. R.A. Thompson, Sr., White Deer, who has recently returned from a 15-day trip to Florida and Cuba.

She told of the colonial forts, temples, and palaces in Havana, Cuba, which were constructed by Spain. These colonial quarters promised much glory of Cuba's primitive aspects and mysteries of early history. She told of the Old Morro Castle, City Hall National Capitol, and Columbus Cemetery.

Mrs. Thompson contributed to a recent unit the class has taken, "Nationalities Through Dolls," included her collection of doll characters from Ecuador, Cuba, Old Mexico, and Florida — in addition to her hand-made creations.

Birthday Party Given For Bill McKinney

Bill McKinney, son of Mr. and Mrs. Ralph McKinney, 1019 Christine, was honored on his seventh birthday with a party given by his parents.

Sound movies were shown throughout the afternoon. Ice cream and cake were served with baskets of candy and favors.

Attending were Jim Thompson, Wesley Green, Billy Conley, Richard Steele, Bobby Ashby, John Weathered, John Tripplehorn, Linda Malone, Lloyd Chisum, Jimmy Graham, Tim Eller, Gary Graham, John Reynolds, Randy Graham, Richard Bowers, Martha Bearden, John Paul Bowers, David Johnson, Stevie Grady, Homer Johnson, Myron Aftergut, Joe Fischer, Timmy Bowers, Charles McKinney, Mrs. C. L. McKinney and Mrs. J. W. Graham Jr.

With this victory behind her, she will lose her dislike of her daughter. It will be replaced by increasing love for the child who has forced a grown woman to stand up for herself and the convictions that are back of her decisions — love for the child who has forced her to say, "No, I don't feel like getting you a glass of water." No, go to bed because I say so.

And Louise will love this mother who loves herself.

Before we have a child, we can evade recognizing how we are ruled by other people's will powers. We can call our weakness "loving" or "dutiful" or "peace making."

But when we have had a child, Bang! Our illusion is smashed. Though we have managed to retreat with some self-respect before the aggression of a parent, a marriage partner, a sister-in-law, we cannot retreat before the bossiness of a seven-year-old daughter with any self-respect at all.

Being Louise's parent — her mature parent — can be the most instructive experience that has ever come to any mother or father.

The W. B. Martins Observe Anniversary

Open house was held recently in the home of Mr. and Mrs. W. B. Martin when they observed their golden wedding anniversary.

Mr. and Mrs. Martin were married in the home of her parents, Mr. and Mrs. O. H. Magnus, in Kansas. They lived in Kansas until 1930 when they moved their family to Texas and settled on a farm near Jackson. They remained there until 1945 when they moved to Pampa. They are the parents of five children.

The serving table was covered with a gold linen cloth made in Belgium. The three-tiered cake was flanked with four gold candles.

Out-of-town relatives present for the affair were Mr. and Mrs. M. H. Martin, Arkansas City; George Martin and daughter, Jo Ann, and Mr. and Mrs. Homer Bradley of Dexter, Kan.; Mrs. Eva Rickard, Seminole, Okla.; Hazel Marshall, Cedar Vale, Kan.; Mr. and Mrs. L. C. Martin, Julia and Leon, of Hopkins — Phillips plant.

Other guests included Messrs. and Lanny, W. G. Jameson, J. B. Eyer, Elmer Sparks, Tom Carver and Lanny, W. G. Jameson, J. B. Owens, E. M. Culbertson and family, Francis Ginsky, Clifton Reed, Almy Sharp, W. H. Jameson, Jess Cunningham, Orvil Walls and Kathern, Fred Connor, Mitchell Phillips, E. E. C. Jameson, Jameson, W. E. Walker, Lawrence Walker and family, Bob Carver, Mmes D. N. Walker, Boyd Austin, Edna King, Ben Walker and W.G. Jameson.

Cameron Marsh Speaks For Club

Cameron Marsh gave the history theory and origin of Communism when he spoke to the Jaycees at their Wednesday evening meeting in the City Club Room.

Marsh pointed out that our government is made to serve man and that the individual is supreme. He said that Communism is class. Fascism in nation, Nazism in race.

During the short business meeting, directed by Mrs. Roy Taylor, final plans were made for the Jaycees to assist in the heart drive.

Mrs. Bob Quick and Mrs. James Roring, hostesses, served refreshments to Mmes. Tom Tipps, Taylor, Delton Sanders, Art Aftergut, Horton Russell, Bob Miller, Rusty Ward, Creel Grady and Bill Waggoner.

Piano Concert Will Feature Miss Iturbi

Amparo Iturbi will play in concert at the St. High School Auditorium in Amarillo on Monday night at 8:30.

Miss Iturbi comes following engagements throughout the world. A native of Valencia, Spain, she has played in all the capitals of Europe, most parts of Africa and the Middle East and even completed a recent tour of Alaska.

Her various tours of this country have taken her to almost every section. She has played as the guest artist with all the major symphonies in New York, Philadelphia, Dallas, Detroit, Boston, San Francisco, Indianapolis, Cincinnati, and Rochester. In addition to this she has played every G.I. all over the world.

Beginning her piano studies at the age of seven, Miss Iturbi studied under Maria Jordan in Valencia and then was placed under the musical direction of Eduardo Lopez Chavarri, first critic of Spain.

Sparkle Is Theme Of Court Dressmaker

LONDON — (NEA) — If the Queen's Dressmaker, Norman Hartnell, has his way, the gowns which will be worn by the great at the Court festivities scheduled for this momentous "Golden Year" will blaze with shimmering gold, rhinestone and sequin embroideries. They'll rival the fabulous heirloom diamonds which have been taken out of strongboxes for the big doings.

His workaday Spring collection wound up with a group of 24 "white and gold" creations dictated by Coronation dress regulations. These were slender gowns in pure white, pearl white, off-white and oyster satin, as well as laces and brocades, meant to be worn under peep-toed robes at Westminster Abbey and, even more important, taking up almost no room. Interest was focused on corsage and hips, so the tunic theme was often featured.

For formal daytime occasions, such as garden-parties, races, regattas and such, Hartnell has all the answers.

A sensational swinging redingote in white silk grosgrain with bold navy revers to match topped a slender hand-tucked navy taffeta dress. A couple of garden-party frocks had harem skirts—voluminous panels threaded through the belt and tucked underneath the hem.

He likes the boldest of prints—one in white onion-skin satin showed a broad swirling band of black smoke. Another, in taffeta, had four-inch black and royal blue checks.

All the colors of the rainbow, plus flower and jewel tones, were featured. "Aquarelle" was a sweeping evening coat in aquamarine satin modeled on the lines of the new Coronation robe, which Hartnell designed, that won the Queen's approval.

The deep white collar was studied with jewels in the place of ermine tails. This was shown with a slender, allover embroidered white tulle gown scattered with forget-me-nots.

Porridge and oatmeal, with navy, are Hartnell's 1953 daytime colors. Charles Creed (who has abandoned Paris for London) as a compliment to Elizabeth II named his 26 suits and tailored dresses after Queens of England. There were Berengaria and Elsieburga, Elizabeth and Alexandra.

Other novelties in the fabric line are the "shubert" wools and silks, the silk brocades (which ordinarily were all of French origin) and the field of silk prints. Here bold and dashing colors and designs have replaced the wispy-washy pastels, which—the English women once favored.

Social Held For Youth Fellowship

Miss Sandra Cooper led in games played at the Youth Fellowship Church recently.

The members present included Marie Baker, Sandra Tidwell, Jackie Stovall, Dale Largent, Billy Clements, Sandra Hollis, Dolores Thomas, Charlotte Vaughn, Benny Hollis, Dale Lee Hoover, Janice Spencer, Donna Dixon, Venita Crocker, Paul Spencer, Clarence Spencer, Duke Rubera, Edward Prince, Henry Spencer, Joyce Pixler, Dorothea Mitchell Neida Henry, Robert Clements, Nita Rae Henry and Sam Randolph.

Harvester Cagers Set For San Angelo Bobcat Five Tonight

Abilene Will Host PHSians Tomorrow

By BUCK FRANCIS
Pampa News Sports Editor

SAN ANGELO, Feb. 6 — The Hustlin' Pampa Harvesters, after a good night's rest following their arrival here late yesterday, are all set to take on the San Angelo Bobcats tonight in an important District 1-AAAA skrimish.

The Harvesters will be heavy favorites to cop the decision but Coach Clifton McNeely isn't taking anything for granted and he is due to leave the Harvesters in the right frame of mind when the Green and Golders take the floor against the Bobcats.

After tonight's tilt with the 'Cats, the Harvesters will move on over to Abilene for a Saturday night game with the tough Abilene Eagles. The Harvesters are quartered at the Cactus Hotel here. They will leave up in the morning Saturday for Abilene where they'll be quartered at Wooten Hotel.

Both of the Harvesters' foes this weekend have won three and lost six in district play. But the point which the Pampans must consider is the fact all three district wins chalked up by the Bobcats and Eagles have been on their home floor.

Tough At Home
Abilene, especially, is hard to beat in its own gym. The Eagles have lost only one conference tilt, at home — that to the Amarillo Sandies. But the Eagles held the Sandies in the Sandie tilt until the fading minutes of play when the Amarilloans rallied to pull the game out of fire, 23-18.

Then, of course, the Harvesters remember that Abilene was the only conference team to defeat Borger last year and it was done at Eagle Gym.

The Harvesters already hold wins over both San Angelo and Abilene, defeating the Bobcats, 69 - 55 and the Eagles 69-53. Both games were played at the Harvester Fieldhouse.

The Harvesters are in tip-top physical shape for the tilt here tonight. Jimmy Bond, who still had a touch of influenza during the week, appears to be fully ready to go tonight.

Webb OK
Billy Webb turned an ankle in the Odessa game last Saturday night and his knee showed down somewhat this week. But he has recovered and will be in the starting lineup tonight.

The Harvesters starters will be Bond, Webb, Buddy Cockrell, Jon Oden and Fred Woods. For the Bobcats, Jerry Jones, Hubert Whitely, Milton Nickel, Hal Dickson and Ralph Murphy will start.

While the Harvesters will use the same starting five against Abilene tomorrow night, the Eagles will use Jerry Turner, Tommy Estes, Tommy Seale, Bob Fry and Dick Wagley. All except Wagley were starters for the Eagles last year.

Others on the trip for the Harvesters and who are due to see service are Don Fagan, George Depee, Gayle Trollinger, E. Jay McElvain and Gary Griffin.

This week's game will pit five of the eight cagers in 1-AAA who have already surpassed the 100-mark in conference play. The Harvesters have two, Bond (182) and Woods (102); the Bobcats have two, Nickel and Whitely (both 111); and Turner of the Eagles has 160.

Return Home Sunday
The Harvesters will return home Sunday morning after spending the night in Abilene Saturday.

Other games in the district tonight are Amarillo at Odessa, Lubbock at Midland and Borger at Abilene. Tomorrow it will be Borger at San Angelo and Amarillo at Odessa.

ALL PART OF THE ACT—Verne Gagne seems content to sleep the rest of his exhibition away amid the debris under the Chicago International Amphitheatre ring as Lou Thesz, National Wrestling Alliance champion, struggles to regain his feet. The heavyweights flew through the ropes to give amused patrons in ringside pews a closer look at their monkeyshines. The gladiators returned to the mat to grapple to a draw. (NEA)

Kroll, Harper Take El Paso Open Lead

EL PASO, Feb. 6 — UP—The winter golf tour was back in Texas Friday and as usual when it hits the Lone Star State, extra-curricular eruptions of temper stole the limelight from the tournament itself.

Most of the links nomads started the second round of the \$10,000 El Paso open Friday with Ted Kroll of New Hartford, N. Y., and Chandler Harper of Portsmouth, Va., riding the strength of late-finishing rounds of five-under-par 66's for a one-stroke lead over the field.

But, their performances and that of runnerup Doug Ford of Harrison, N. Y., who finished with a creditable 67 on the sun-hardened El Paso country club course, were blinded by the violent display of tempers that resulted when defending champion Cary Middlecoff of Memphis, Tenn., withdrew in a huff.

Middlecoff's show as he stalked from the ninth green after taking a five-over-par 41 on the front nine

Babe Is Gal To Beat In Miami Open

MIAMI BEACH, Fla., Feb. 6 — UP—It was Babe Zaharias again the field Friday as 72 amateurs and 15 professionals teed off in the first round of the \$3,500 Miami Beach women's open golf tournament.

Mrs. Zaharias, the "automatic favorite," left no doubt of her sharpness Thursday when she torped the Bayshore golf club course in women's par-74—one stroke better than the practice rounds turned in by Marilyn Smith of Wichita, Kan., and Peggy Kirk of Ponte Vedra, Fla.

Louise Suggs of Cincinnati, winner of the recent \$3,000 Tampa open, and Betsy Rawls of Spartanburg, S. C., each shot a 76 in the practice round and will be expected to challenge Mrs. Zaharias for the \$875 first-place money.

Other leading professionals competing are Fatty Berg of St. Andrews, Ill., Betty Mack Kinmon of Dallas, Betty Jamison of San Antonio, and the Bauer sisters, Marlene and Alice Bauer Hagg.

At Midland, Lubbock and Odessa moved its Saturday night game up to Thursday with the Broncos winning, 66-63, in overtime.

Gals Slated For Local Mat Program

Nell Stewart and Ida Mae, two beautiful gal wrestlers, have been booked to appear at next Tuesday's mat show at the Southern Club Sports Arena, promoter Howard Vineyard has revealed.

Miss Stewart's blonde while Miss Mae is a brunette. Miss Stewart will be making her first appearance in a Pampa ring.

Vineyard said the admission price for next Tuesday's show will be slightly advanced due to the high guarantee made to the girls.

Ringside seats will go at \$2; reserved bleachers \$1.50 and general admission \$1.20.

A good supporting card will also be unreeled. Remainder of the card will be announced this week-end.

Porkers Dispute Rice Release

FAYETTEVILLE, Ark., Feb. 6 — UP—The University of Arkansas disputed Rice Institute's claim Friday that a Rice man holds the Southwest Conference's individual season scoring record.

Rice put out a publicity release this week saying that Bill Henry's 435 points in 1945 has not been surpassed. But Bob Cheyne, publicity director for Arkansas, said that George Kok, an Arkansas product, twice beat the record of Henry.

Cheyne said that in the 1944-45 season, Kok rang up 439 points. Kok was a freshman that year, but freshmen were eligible for varsity play then.

In the 1947-48 season, Cheyne said that Kok scored 469 points in 23 games.

The Rice release which cited Henry's record failed to list Kok among the conference stars who had scored more than 400 points. It mentioned only Henry and Bill Tom of Rice and George McLeod of Texas Christian.

Garner, Riley To Semi-Finals At Miami Beach

PALM BEACH, Fla., Feb. 6 — UP—Pat Garner and Polly Riley will meet in the final matches and set up an all-Texas final Friday in the 18-hole final after lunch. The semifinalist each scored two victories Thursday.

Miss Garner was impressive in ousting well-regarded Carol Diringer of Tiffin, O., 5 and 3, and Bonnie Randolph of Columbus, O., 6 and 5. Miss Riley scored equally easy triumphs, besting Edean Anderson of Helena, Mont., 4 and 3, and Polly Martin of St. Clairsville, O., 7 and 6.

Davis Recovers From Injury
NEW YORK, Feb. 6 — UP—Walt Davis of Texas A&M, the 1952 Olympic high jump champion, has recovered sufficiently from an ankle injury to enter the 64th annual National AAU track and field championships at Madison Square Garden Feb. 14.

Davis, who was injured in the Washington Star games last month, joined the field of competitors Thursday. He earned \$20,495 in winning all nine races during 1952.

Seton Hall Ekes By St. Bonaventure

NEW YORK, Feb. 6 — UP—Seton Hall Coach Honey Russell, not yet over "a real bad scare," by-passed brilliant Walt Dukas Friday to credit unsung Richie Regan for stretching his team's unbeaten string to 22 straight games.

"We had a bad night," said Russell after Seton Hall was pressed to the limit before beating St. Bonaventure, 74-67, at Madison Square Garden Thursday night.

"That guy Bill Kenville (Bonnie high scorer with 18 points) was killing us until I put Regan on him in the second half," Russell added.

"I scouted St. Bonaventure in a couple of games this year and I don't mind admitting that they gave us more trouble than I thought they would. They had things all their way under basket in the first half and we helped them by throwing the ball away."

"Regan is the boy who saved us, though. He played a wonderful game."

Coach Reluctant
Despite the major hurdle his team passed-over-in-beating-plyer St. Bonaventure, Russell was reluctant to talk about the possibility of an undefeated season.

Seton Hall's next hurdle will be Siena next Wednesday night. In the second game of the garden double-header played before a near-capacity crowd of 15,482, Manhattan scored its sixth straight triumph by subduing St. John's, 60-52. In other leading games Thursday night, Boston College routed Boston University, 98-76; Canisius crushed Scranton, 72-55; Richmond beat Randolph-Macon, 74-68; Duke ripped New York University, 89-82; and Rice defeated Sam Houston State, 81-64.

North Carolina risks its Southern Conference leadership and Washington its perfect record in the northern division of the Pacific Coast Conference in leading games Friday night.

Other Games
Washington, the nation's fourth ranking squad with an imposing 8-0 league record, meets Washington State.

California, ranked 11th nationally, moves outside the PCC to play Utah; Brigham Young, ranked 16th, steps outside the Skyline Conference to play St. Mary's (Cal.); and Holy Cross, ranked 18th, visits Colgate in other games, featuring high-ranked teams.

Other leading games Friday night include: Florida-Alabama in the Southeastern Conference; Davidson - South Carolina, Furman-Washington & Lee, and Maryland-Virginia Tech in the South; Idaho-Oregon in the PCC; Bradley-Santa Clara, Toledo - Cincinnati, VMI-Marshall, Montana St.-Seattle, Springfield-Rhode Island, St. Francis (N.Y.)-Connecticut Teachers, and Santa Barbara-UCLA.

Throws 'Book' at Judge
WILBER, Neb., Feb. 2 — UP—Edward McKenna, who is serving time in the Nebraska penitentiary for burglary, threw the book at the judge Monday.

He has filed a motion for a new trial, a notice of appeal, a petition for appeal, a petition for a writ of habeas corpus, a motion to override a motion to strike the defendant's affidavit, a motion to be heard on a motion for a new trial and subpoenas for witnesses.

Soldier Diets
WITH THE U. S. 49TH DIVISION, Korea, Feb. 2 — UP—M. Sgt. John Richards is sticking to a diet and getting lots of exercise to lose weight. The husky 230-pound infantryman says he can't close the zipper on his armored vest.

Double Time
WALLA WALLA, Wash., Feb. 2 — UP—Eddie Double Runner, an Indian booked for drunkenness, was serving double time Monday. It was his second offense.

Bare Photo Theft
HEMETT, Calif., Feb. 2 — UP—Members of a nudist colony near here hope the loot from a recent robbery doesn't get into public circulation. Two thieves broke into a building and stole 1,500 photographs of nudists in their natural state.

Child Killed
HEREFORD, Tex., Feb. 4 — UP—A six-year-old Hereford child stepped from behind a parked car in front of her home Tuesday and was struck and fatally injured by a car driven by George E. Bradshaw of Lubbock. The victim, Larita Joyce Perkins, daughter of Mr. and Mrs. Bill Perkins, died of a broken neck and internal injuries a few minutes after the accident.

The Pampa Daily News SPORTS

PAMPA NEWS, FRIDAY, FEBRUARY 6, 1953 Page 5

Blackwell Reports He's In Shape

NEW YORK, Feb. 6 — UP—Ewell Blackwell, who could develop into a key man in the Yankees' quest of a fifth straight American League pennant, notified them Friday that his winter "get-well" program has proved a success.

The 30-year-old aideamer, in a letter which accompanied his signed contract, said he has gained weight on a rigid off-season training schedule which included a special diet. Blackwell said he hoped to report to spring training carrying about 210 pounds on his six-foot, six-inch frame—about 15 more pounds than he has weighed in the last few years.

Blackwell's basic problem last season, when he won only three games and lost 12 before the Reds sold him to the Yankees, was his tendency to wilt. He showed occasional flashes of his former greatness but repeatedly was unable to sustain his stuff for more than four or five innings.

The Yankees consider themselves well-fixed for pitching this year with their "big three" of Allie Reynolds, Vic Raschi and Ed Lopat intact and Whitey Ford returning from service. But they feel—and the rest of the league probably agrees—that a return of Blackwell to anything approximating his onetime effectiveness would insure the pennant.

Across the bridge, the Giants
The Athletics signed catcher Ray Murray, a .206-hitter in 44 games last season, and sold pitcher Ed Wright to Memphis in the Southern Association.

Schoolboy Baseball On Increase In '53
AUSTIN, Feb. 6 — UP—Some 75 baseball teams have indicated they will compete in district play this year, the Texas Interscholastic League announced Friday.

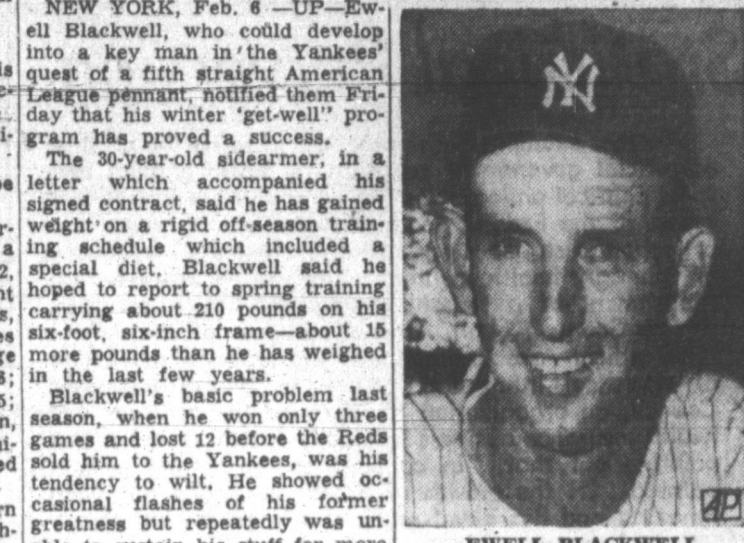

The total is an increase of 14 from last year's tentative figures. However, Dr. Rhea Williams, TIL athletic director, said he didn't expect all 78 teams to actually enter competition in district play this year. Williams said, 46 teams who had indicated they would play failed to field teams.

Forty-seven teams are tentatively scheduled to enter Class AA competition, the same as last year. The Class A tentative schedule shows 143 teams, a decline of five from last year, while Class B shows 448 entries, a gain of 19.

Class AA teams play through to a state championship tournament, to be held June 30 at Austin. Class A teams go on to regional championships and Class B teams to bi-district meets.

Eight districts in Class A will not be represented. They are Districts 2, 4, 5, 7, 8, 9, 13 and 15.

Referee Named
LAREDO, Tex., Feb. 6 — UP—Dana X. Bible, athletic director at the University of Texas, Friday was named official referee for the 21st annual Border Olympics track and field meet here March 13-14. Olympic President R. I. Cohen announced.

EWELL BLACKWELL ... feeling fine, boss

announced the signing of four players—outfielders Don Mueller and Dusty Rhodes and pitchers Roger Bowman and Jim Mahrt. Mueller, the Giants' regular right-fielder, hit .281 last season while Rhodes batted .250 in 67 games after a spectacular start during which he hit eight home runs in 11 games.

On other fronts:
The Athletics signed catcher Ray Murray, a .206-hitter in 44 games last season, and sold pitcher Ed Wright to Memphis in the Southern Association.

Catcher Toby Atwell and outfielder Bob Addis came to terms with the Cubs, who now have signed 31 of their 38 players. Atwell hit .290 and Addis batted .295 last year.

Bobby Del Greco, 19-year-old outfielder, signed with the Pirates, becoming the 17th player corralled by Branch Rickey. He hit only .217 in 89 games for Pittsburgh but batted .311 after he was farmed to Toronto in the International League.

Virgil Jester and rookie shortstop Bob Mainzer came to terms with the Braves and the Red Sox announced the signings of rookies Tom Herrin (10-12 with Louisville in 1952), Stanley McWilliams (6-7 at Albany) and George Uhaz (15-10 at Albany).

Build Up Your Bowling By
Knockin' 'Em Down
With STEVE NAGY, Bowler of the Year

(Sixth of a series written and illustrated for NEA Service) By STEVE NAGY Bowler-of-the-Year

In that split second between the time that your thumb comes out of the ball and your fingers come over the ball, your fingers take over.

All the weight of the ball is on your two fingers. You should then lift and turn the ball. Such a rolling motion is bound to give you more pin action when the ball strikes the pins. A rolling ball also will eliminate the possibility of flattening out on pocket hits and assure you a good share of strikes.

In the accompanying photograph you will notice that my thumb is just coming out of the ball. The ball has passed the bottom of its arc on the downswing. It is at precisely this point that the fingers take over, apply the forward rolling motion which produces good pin action.

You will also notice that my thumb is on top and my fingers are on the side of the ball with the V formed by my thumb and forefinger pointing directly down the alley at the target.

One method of checking whether you have finger action is to see if your fingers are bent slightly toward the palm in your follow through.

If you are getting proper finger action into your delivery, the fingers will tend to clench in a flat.

If your fingers are straightened out in your follow through, however, you are letting the ball

ROLLING—Fingers apply the forward rolling motion, producing good pin action. (NEA)

slide right off the fingers without attempting to apply any finger action or lift—at all.

NEXT: Releasing the ball at the foul line.

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Atchison at Somerville, Pampa, Texas. Phone 666, all departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa 20c per week. Paid in advance (at office) \$2.50 per 2 months, \$7.50 per six months, \$12.50 per year. By mail \$10.00 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy 5 cents. No mail order accepted in localities served by carrier delivery.

Statistical Perversion

Another example of the practices of using the prestige of official government positions to advance alien personal political philosophies has come to light in a recent report of the Federal Security Agency. The report is a collection of statistics purporting to show the inadequacy of voluntary health insurance and the necessity for establishment of a federal compulsory health program. Doctor George F. Lull, general manager of the American Medical Association, terms the report a perversion of statistical information. And the Health Insurance Council, an organization representing the accident and health insurance business is equally critical of the report pointing out that, "In contrast to the dismal picture painted . . . the growth of health insurance has been amazing and has aided materially in enhancing family financial security.

The Security Agency's study estimates sickness costs in 1951 ordinarily covered by insurance at 10.6 billion dollars for the entire nation. It says that all private health insurance paid for one-sixth of this amount, leaving 83 per cent uninsured. In the words of Dr. Lull, "This gives a false impression because it includes the bills paid by all those who did not have insurance, many of whom did not choose to buy insurance, and it fails to consider the many sources of payment of medical bills other than health insurance plans, for example, workman's compensation insurance, liability insurance, accident insurance, life insurance, and the thousands of bills paid by private philanthropic foundations, health foundations and community and government agencies."

"To present an honest picture of the value of voluntary health insurance the Federal Security Agency should have determined the amount of dollar benefits paid in proportion to the total health bills of only those who are covered by health insurance."

The Right Idea

Representative Couderd of New York will ask the present Congress to investigate the possibility of returning more than 100 government operated commercial enterprises, with an estimated value of \$20,000,000,000, to private ownership.

He declared that certain government activities today represent the "greatest business monopoly outside the Soviet Union," and that the purpose of his resolution is to attempt to "call a halt to continuing nationalization or socialization of American enterprise."

He cited a request of the chairman of the Tennessee Valley Authority for an additional \$5,000,000,000 to increase its plant, and added, "No private enterprise can walk into the Treasury of the United States to finance itself in this easy fashion."

Mr. Couderd's ideas seem to be similar to those of ex-Mobilization Director Charles Wilson, who proposed some months ago that government enterprises be taken over by a corporation in which the people could buy shares. Regardless of the method followed, here is one way that the national debt can be reduced by billions, and the drain on the Treasury these socialistic tax-free enterprises continually impose can be eliminated. Moreover, once they were owned and operated by private enterprise, they would go back on the tax rolls — to the direct benefit of every taxpayer in the country.

Probably the most flagrant example of destructive and unnecessary socialism has been in the field of government electric power plants. In every case, the service would have been provided by heavily-taxed, publicly regulated utility companies. There has never been a demand for power so great that private enterprise could not provide the facilities to meet it.

Furthermore, government in business — any business — is socialism, and socialism is the enemy of freedom and true progress. Mr. Couderd and Mr. Wilson have the right idea and Congress should act on it.

The Last Word

One of the peculiar features of present-day life is the self-consciousness of that humorless segment of our population — our top political figures — about their place in history.

Nawadays our statesmen generally begin making things easy for the historians even before they have laid down the robes of office. A considerable time before he died, Franklin D. Roosevelt was busy helping along the project for the memorial library that now houses his official and private papers.

Friends already are raising funds for a similar library in Grandview, Mo., for ex-President Truman's documents. But Mr. Truman couldn't wait for that project to get going. He permitted publication in 1952 of a book that reveals a lot of his private papers. In those last days in the White House, he concentrated on setting the historians right.

And for more than a decade, others have been galloping into print with their memoirs at the earliest possible moment.

All this is very thoughtful of these gentlemen. But one may be pardoned for suspecting that the objective historian may still find quite a lot of work cut out for him in evaluating their respective places in history.

BETTER JOBS

By R. C. HOILES
"Engineers — Scientific
And Social"

III

I am continuing to reproduce an address made by Ben Moreell on the subject of "Engineers—Scientific and Social." Under the sub-heading of "Adolph Hitler: Social Engineer" he comments:

"And so it is with all social engineers, including Hitler, Stalin, and our own domestic brand, Hitler looked upon people as clay to be molded to his purposes. Some of this clay — human beings — did not meet his specifications. So he destroyed it in much the same manner that a scientific engineer discards defective material. His program of social reform allowed little freedom of choice. He used the force of government to regulate wages, prices, profits, working conditions, unions, rents, housing, education, medical services, social security, production, and a host of other vital matters. And he too, repeatedly announced that all these things were being done for 'the good of all the people.' That is the familiar chant of these 'public benefactors.' The dictator who 'liquidates' a group of persons is practicing social engineering — as is the public official who takes money from one group of citizens and gives it to another group in the form of public housing or some other socially 'useful' project.

"Both are doing what they say is 'best for the people as a whole.' They may differ in their approach, but if you think that our domestic brand is any less determined than the foreign variety, just try deducting from your tax bill your share of the cost of socialized housing in America. First, you will be fined. If you refuse to pay the fine, you will be sentenced to prison. If you resist the officer who is sent to arrest you — well, just what DOES happen in our country to persons who resist arrest?"

Religion and Social Engineers

"Now you may ask: Did our great religious teachers practice social engineering? Was Jesus a social engineer? Recalling that I have defined social engineers as those who would re-make mankind in the mass by using the force of government, my answer is an emphatic no. For Jesus always appealed only to individuals. He asked that each one make a voluntary choice to follow God's way. He said to the individual, 'The Kingdom of God is within YOU.'"

"That is, it does not lie in the group, or in the mob, or in the vote of the majority, but in the individual himself. Nor did Jesus ever appeal, or even suggest an appeal, to the force of government for the accomplishment of good works. Instead, He appealed to each person to reform himself, that he might be born again. He recognized no such thing as 'group morality.' Rather, He taught that each individual must eventually answer personally for his own deeds of commission and omission, from which it follows that no one can divest himself of his responsibility by hiding it behind someone else or even behind our collective agent — government.

The Authority Idea

"All social engineers are devotees of the pagan concept of authority. Their every action shows clearly that they do not believe that freedom as a way of life will work.

"They believe inherently that free men cannot possibly be adequately housed, clothed, or fed. By their actions they show clearly that they consider themselves superior in intelligence to the rest of us. For our own good they desire to force the rest of us to live and act and think as they believe we should.

"Since they assume, for themselves a higher degree of intelligence and morality than the rest of us, I suggest that we examine their credentials. Who has commissioned them to use us as raw material, to be molded as they see fit? Surely no such commission could be valid unless it were signed by the Almighty Himself. Apparently no social engineer ever stops to consider that this raw material he is remodeling is composed of human beings — creatures of God, created in God's image. Or, if he does think about it, apparently he concludes that God's work should be improved upon. It is my belief that God intended men to be free to make their own decisions and to be responsible for the consequences of those decisions. Thus it seems to me that it is an act against God for men to pass laws which destroy individual liberty; which force some persons to conform to the ideas and plans of other persons; which deprive persons of the responsibility for their own acts and for their own welfare.

"It seems to me that there is convincing evidence to support my beliefs on this subject. And the basic evidence is found in the fact that no person is physically or mentally or morally identical to any other person. For example, we know that the fingerprints of all persons are different. And these differences — these individualities, these inequalities — carry through all the physical, mental, and moral characteristics of mankind."

(to be continued)

Nine Lives

National Whirligig.. Ike Will Seek Better Balance In United States Arms Might

By RAY TUCKER

WASHINGTON — The important dramatic role assigned to the Seventh Fleet by President Eisenhower in forthcoming operations off Formosa, Korea and Indochina possibly in the near future, is a reflection of the Navy's current and perennial struggle with the Air Force for recognition and congressional appropriations.

Oddly, in view of the fact that the high naval command is bored under some apprehension over "General Ike's elevation to the White House, it appears that the commander of our North African and European armies will equal F.D.R. in building up and relying on the fleet for performance of new and traditional missions in war and peace.

CONSOLIDATION OF THE ARMED FORCES — Under Truman, the sailors had suffered. The former president cancelled authority and funds for our first super-aircraft carrier, even firing the able Louis E. Denfeld as chief of naval operations because he dared to protest publicly. In a farewell address, former Air Secretary Finletter declared that the future rests in the hands of the U. S. Air Force.

In the unpublicized backstage squabbling, the airman had won a complete victory. One of Eisenhower's first acts was to warn that there must be no more petty backbiting and publicity duels. He served notice that he demanded "true consolidation" of the three arms, and that all major decisions would be made by himself after consultation with the Joint Chiefs of Staff.

As further evidence of his firm stand on behalf of lightning and strengthening all defense forces, there is the report that Adm. Arthur Radford, the brilliant commander of the Pacific Fleet and our Far Eastern strategist, may become next head of the staff or serve as special adviser to the White House. Finally, several more super-aircraft carriers will be built.

GROWING MILITARY THOUGHT — Several new factors, based on our experiences in Korea, influence and lie behind the growing military thought that too great reliance cannot be placed on air power alone in great acts of actual or potential war with Communist aggression.

The first is that Moscow has the A-bomb, despite Truman's comment, and is now working on an H-bomb. The second is that atomic attacks are not the ideal tactics for such undeveloped terrain as Korea, China, Indo-China, and even Russia itself. They would be most devastating against the industrialized and integrated Western Europe and the United States.

NAVY PRIMARY INSTRUMENT — As of today, the Navy has been the primary instrument of warfare in the Far East. It was the fleet which staged the Inchon landing. Its big guns are pounding shore cities, defenses, railroads and supply centers along the Korean Coast.

The Seventh Fleet's activity has determined the kind of warfare that has been carried on between Chiang Kai-shek's forces and mainland Communies, which is far more extensive than is generally known.

The Seventh Fleet, which has several aircraft carriers, will figure largely in any Eisenhower extension of American operations from Korea to Indo-China. The

The American Way

OUT OF THE MUDDLE

By George Peck

(Editor's Note: George Peck is Chairman of the Board of the National Labor-Management Foundation and Executive Editor of its official publication, Partners.)

Just before Mr. Wilson, president of General Motors Co., was supposed to be on the even bigger job of Secretary of Defense in the Eisenhower Cabinet, launched a contest aimed at a "defense" of the American people. This contest is to get America's highway and traffic system "out of the muddle." History may prove this to have been the most important project undertaken by General Motors during the many years which Mr. Wilson was top executive of that corporation.

With the horrible loss of life due to traffic accidents over the recent holidays so fresh in our minds, the importance of finding some method to eliminate death-creating and costly congestion on our highways is plainly evident.

The "General Motors Better Highway Awards Contest" is open to any American, including G. M. employees. A total of 162 prizes totaling \$194,000 is offered by the company, ranging from \$25,000 to \$300. The details regarding these prizes and how to enter the contest will be given in my next article. In this article I have only space to quote a part of Mr. Wilson's remarks in launching the contest. From here on, it is our Secretary of Defense speaking:

"I would like to visit with you for a few minutes about a subject I think is extremely important to every man and woman in the United States. I'm speaking of course, about the highway problem — costly to all of us in money, time, pleasure, and lives.

I am concerned about it. General Motors is concerned about it. Everyone in the United States should be, because it affects every one of us. It makes everything we use cost a little more — because everything we use is delayed at one time or another by highway congestion.

When we were building our highway system during the twenties, no one dreamed people would want and need the 53 million motor vehicles we now have. No one dreamed that we would need to drive our cars and trucks more than a billion miles every day. And during and since World War II, few realized what would result from putting off highway improvement in the interest of all-out national defense.

Our population will continue to increase for many years to come. That means that the need for motor vehicles will continue to increase.

pressure of sea power along important and populous shore sectors, especially on the China Coast, may force the Communies to withdraw troops opposing the United Nations forces in the north, and the French in the south.

FREE WORLD SOLIDARITY — In the big, big game, too, Adm. Carney's battleships, carriers and destroyers are symbols of American might and friendship. As they parade the inland sea, they embody a constant reminder of the kind of free world solidarity and strength which Eisenhower seeks to build more consistently and understandingly than his predecessors did since 1945.

Not that Eisenhower will aggrandize the Navy as its most zealous proponents would like. Realizing that all three services are essential to national defense and collective security, he seeks to restore a military balance that had been upset dangerously in recent years.

Fair Enough? AFL Responsible For Criminal Conditions In New York Port

By WESTBROOK FEGLER (Copyright, 1953, King Features Syndicate, Inc.)

In sheer obdurate stupidity our people refuse to understand that the criminal conditions which dominate the Port of New York are the direct result of criminality in the American Federation of Labor.

For more than 15 years I have been exposing this rotten organization. Yet, after all that went before, President Ike selected the president of the Plumbers' Union, which is notorious for corrupt collusion with suppliers and contractors at the public expense, to be secretary of labor.

And the State Department and the Central Intelligence Agency picked the AFL of L to carry on its secret collusion with socialist political parties bearing the deceptive name of "labor" in many foreign countries.

The State Department and/or the CIA have handed over \$3,000,000 of our hard-earned money to unidentified persons in the AFL of L, without a receipt, a voucher or a check-stub to show for it.

Years ago, I walked into a room. And that means that instead of the 53 million cars and trucks of today, our people will need and want and own as many as 80 million cars and trucks 25 years from now!

Yet, in the face of this prospective load on our highways — in the face of the increasing load that already has been placed on our 20-year-old highway system — the fact is we have actually been spending less and less on our highways! In business terms, that is the equivalent of liquidating an important asset.

Almost 60,000,000 people ride to work and school in this country every day. Few of them get too much upset if they waste 10 minutes each way because of rush-hour traffic. Nevertheless, all together, they would be wasting 20,000,000 hours every day!

At only a penny a minute, the value of the time wasted would pay for the increased highway improvement we need every year.

We must persuade each other that our lost minutes added to the lost minutes of all our fellow citizens adds up to millions of lost hours. We must persuade each other that the extra pennies of extra transportation costs resulting from highway congestion add up to extra dollars out of the pockets of each of us.

To get the job done, we must make clear to our political leaders what we want and need and recognize we must pay for.

So, to that end — to the end of getting people in every walk of American life to think and talk about the highway problem, in terms of their own interest — General Motors has undertaken the sponsorship of the nation-wide contest.

We hope and believe the 162 prizes are substantial enough to attract a tremendous number of entries — to make it worth while for a tremendous number of people to study the facts of the highway problem and to think of the facts in terms of their own and the public interest.

We hope this contest will stimulate a great national educational program. We hope it will get millions of our people thinking and asking questions about the highway problem. And, we hope it will help answer the problems of financing, planning and administration that are involved.

We hope that the winner will come up with an idea worth to the nation 25 times the first award of \$25,000. We assume that any of all of the winners will contribute ideas worth far more to the nation than the total of \$194,000 in prizes. I hope that you, yourself, will participate in our contest. I hope that you will actively encourage the participation of all who want better highways and have any ideas about how we can get them.

Applicant — Yes, I was in politics for two years — dog catcher — but I lost my job.

Employer — Change of mayors, I suppose.

Applicant — No, I finally caught the dog.

Teacher — What is a flood?

Ray — I know. It's a river too big for its bridges.

Teacher — Name the longest word in the English language.

Pupil — Smiles. There's a sale between the first letter and the last one.

Guide: "This, ladies and gentlemen, is the greatest attraction in the country, and if the ladies will only be silent for a moment you can hear the thunder of the waters."

Husband — It's not much good going to the meeting if you're prejudiced.

Wife — I'm not prejudiced. I'm going with an unbiased and open mind to listen to what I'm convinced will be absolute rubbish.

Doctor — I don't like the look of your husband, (gravely)

Wife — Neither do I, but he's kind to the children.

Cleo — Tom is just hateful sometimes. Do you know what he said?

Oleo — No, what?

Cleo — When I went to that Country Club Party, he told me I looked like a million dollars — after taxes.

Doctor — I don't like the look of your husband, (gravely)

Wife — Neither do I, but he's kind to the children.

Cleo — Tom is just hateful sometimes. Do you know what he said?

Oleo — No, what?

Cleo — When I went to that Country Club Party, he told me I looked like a million dollars — after taxes.

Joe Papa, one of the waterfront racketeers, was canned from the presidency of Local 202 of the teamsters for grafting and looting the union's kitty, but does anyone believe that the condition came as a surprise to Beck or to Tom Hickey, the international union's vice president in charge of New York? Or to Tom Dewey, who canned Papa from the State Industrial Council, or to Ed Coral, the state industrial commissioner who works hand-in-glove with many unions and knows the personalities and their activities as a cup knows them?

Why all the sudden righteousness? I wrote up Papa a year ago. Why doesn't Beck can Hickey, too?

The political corruption and the corrupt unionism are equal and indistinguishable parts of the same loathsome mass.

When Judge Meany, of the federal court, was up for confirmation before the Senate Judiciary Committee, his character witnesses were, with few exceptions, professional union goons of the rotten Hague machine. And when Joe Foy was easily acquitted before Meany after a farcical prosecution on an income tax charge, by a jury which had been financially packed, Tom Clark, the attorney general, who had expressed distrust of his own appointed, exclaimed, "It was a God-damned outrage" and proceeded quickly to do nothing at all about it.

"No, nothing will come of all this. There may be a brief pretense of reform," but the condition is incurable. The political party machines, court the union machines, grovel at their feet for their favor and revel in their approval.

OUR BOARDING HOUSE

with MAJOR HOOPLE

THE LINCOLN COUNTRY

Sketched on the Spot by Ralph Lane

NO. 2—RURAL DELIVERY

Som Hill and John McNair opened New Salem's first store. The two-story cabin was the last to close when the village died. It was here that New Salem's post office started with Hill as postmaster. Because of incompetence, Hill was discharged, and Lincoln was appointed postmaster. Using his hat as a mailbox, Lincoln delivered mail to the citizens of the village until 1836 when the office was suspended. On Lincoln's birthday in 1940, Postmaster General James Farley reopened the replica after 104 years, this time as part of "Lincoln's New Salem."

State Solons Offer Bill On 2 Hospitals

AUSTIN, Feb. 6—UP—The Senate Finance committee sent to the floor of the senate Friday a bill appropriating \$3,225,000 for construction of new state tubercular hospitals at Harlingen and San Antonio and asked for approval in the interest of national defense.

Sen. Rogers Kelley of Edinburg said the bill was given a priority tag and pushed ahead of major money measures because the Air Force was reactivating Moor Field at Mission.

Weaver Baker Memorial Hospital now occupies Moore Field facilities and 900 state tubercular patients must be evacuated.

Tyler Project tricked A third new \$3.5 million tubercular hospital proposed for Tyler was stricken from the "emergency" appropriations bill approved by the Senate Finance committee Thursday.

But Sen. Warren McDonald of Tyler's appropriation from the other measure, said he would introduce another bill providing for the new sanatorium there.

Joint rules of the House and Senate require that major appropriation bills be approved before other money measures are considered, unless the latter are tagged "emergency."

McDonald told the committee that he understood "the governor considers the situation at Tyler is also an emergency, and I want the committee to understand that."

All three proposed new hospitals have been called necessary by Gov. Allan Shivers, but proposed "balanced" budgets submitted both by the governor and by the legislative budget board omitted funds for their construction.

Presumably, therefore, the Legislature must find new revenue for these and other projects, such as proposed \$600 annual raises for Texas' school teachers.

Glamorous Lucille Ball Wins A Pair Of Academy Awards

HOLLYWOOD, Feb. 6—UP—Lucille Ball, glamorous red-haired star of TV's "I Love Lucy" show, held two Academy of Television Arts and Sciences "Emmy" awards Friday for her performance with her husband, band leader Desi Arnaz.

Miss Ball was voted overwhelmingly at ATAS' annual presentation banquet Thursday night as the nation's number one video comedienne and shared honors with Arnaz for her husband-and-wife show, which was chosen the best situation comedy of 1952.

"As Miss Ball and her band-leader husband came to the stage to accept their "Emmy" for their comedy show award, Desi made a short thank you speech and referred to their son, born two weeks ago.

"If we brought a little bit of happiness in your homes these past few months, you certainly brought a lotta happiness in our house this year," he said.

Another gold statuette, television's equivalent of filmland's "Oscar," went to the New York production of "Your Show of Shows," starring Imogene Coca and Sid Caesar, selected the best variety show of the year.

The versatile Thomas Mitchell, who played a variety of rolls on several networks, was selected as the best actor of the year.

Helen Hayes, currently appearing on Broadway in the stage production "Mrs. McThing," was awarded an "Emmy" as the best actress.

Veteran funnyman Jimmy Durante won an award as the top comedian of the year as television's most outstanding personality of the year went to Bishop Fulton J. Sheen, of Detroit, for his weekly talks on philosophy.

The dramatic program "Robert Montgomery Presents," (NBC), won the award as the best video program of its type during the year, and as the best public affairs program on the nation's television screens, the ATAS members selected the informative "See It Now," a CBS presentation of world news by Edward Murrow.

Jack Webb, star of the mystery show "Dragnet," accepted an award for NBC when his show was voted the best mystery, action or adventure program.

The best children's program was "Time for Beany," a Paramount production featuring hand puppets, and the award for the best audience-participation quiz or panel program went to the CBS show, "What's My Line."

The Plymouth division of Chrysler Corp. announced Friday that semi-automatic transmissions will be available as optional equipment on its cars by late spring.

Called Hy-Drive, the drive combines a torque converter with Plymouth's standard three-speed transmission. Price was not announced.

In "Hy-Drive" operation, the engine is started with the gear shift lever in neutral. After starting, the driver shifts directly into "high" and stays there. The standard three-speed transmission can still be utilized under abnormal driving conditions.

Airman Killed BRACKETTVILLE, Tex., Feb. 4—Charles A. Flanders, 24-year-old sergeant stationed at Laughlin Air Force Base, Del Rio, Tex., was killed when his car overturned near here yesterday. Five other persons, including Flanders' wife and daughter, were injured in the wreck but was not believed in critical condition.

Copper Coup CANTON, N. Y.—UP—The U.S. Steel Corporation has bought 287 acres of land near Fayette, where large deposits of copper pyrites have been reported. The land is in the foothills of the Adirondacks.

Stamp of a Princess—A new stamp to encourage more savings in Britain throughout the coronation year bears a portrait of little Princess Anne. The six-pence stamp goes on sale March 1.

JOHNSON IN HOLLYWOOD

By ERSKINE JOHNSON NEA Staff Correspondent HOLLYWOOD (NEA)—"I don't have as much trouble as people think I do."

That's the luscious Marjorie Steele describing the career problems of a doll who's married to a millionaire. Her hubby may be Huntington Hartford, heir to the A & P grocery fortune, but Marjorie's working girl status doesn't get the "Ha-ha, you must be kidding" line in movietown's casting offices.

Currently playing a sexy charmer in "No Escape," she told me: "Most people realize I'm serious about acting." There was a small part for her in "Face to Face," a movie Hartford financed, and she's beaming:

"I got good reviews and, best of all, I wasn't criticized for being in one of my husband's pictures."

It's a big personality switch for Nelson Eddy in his new night club act—snappy rhythm numbers, smart sayings and a satire on his own "Short'nin' Bread."

Lex Barker wants Lana Turner to accompany him to Hawaii, but Lana has her eye on Europe. Steve Cochran's agent is filing a lawsuit against him in a contract squabble that's too hot to be handled by Screen Actors Guild.

Big Crosby's no longer ducking the public's gaze on his dates with Mona Freeman. They were together at the Palm Springs Doll House... Aside to Time, Quick, Coronet and Reader's Digest magazines: Thanks for the mentions and the quotes... Alida Valli, the Italian-born beauty, and hubby Oscar de Mejo are still juggling the fate of their marriage. "We're good friends, but we're still separated," she told me. "There are no plans for divorce, at the moment, however."

Nothing But The Worst A film director was asked if a star he just worked with was a Communist.

"I don't think so," said the director. "With his ego he wouldn't be a Communist unless he could be Stalin."

Oscar for the ad-lib howl of the year goes to Chill Wills. Narrating "Francis Goes to the Big Town," as the voice of the mule, Chill commented over a scene of Wall Street:

"A lot of my cousins had their assets frozen here in 1929."

Chill, one of Hollywood's sunning ambassadors of good will, collected \$44,194 for the March of Dimes on a 13-hour TV telethon in Dallas, Texas, with Hungarian-born Eva Gabor as one of his stars. Winced Chill: "She couldn't understand me and I couldn't understand her, but she looked great."

The bit role played in "Houdini" by Paramount's new singing raven, Joanne Gilbert, will remain in the film but she'll receive no screen billing. She did the part before her Mocombo hit sprinkled stardust in her hair... Found, a movie cowboy with cows. Roy Rogers has 10 of 'em on his San Fernando Valley ranch—for the table and as atmosphere in his TV westerns.

Like Dad, Like Daughter When and if Jackie Coogan story reaches the screen, his five-year-old daughter, Joan, will play the kid star at the same age... Mickey Rooney and Eddie Bracken will team in "Fireman, Save My Daughter." Exhausting dance rehearsals for U-T's "Walking My Baby Back Home" have Donald O'Connor and Janet Leigh, virus victims, on the verge of collapse. They may have to change this one to "Carrying My Baby Back Home."

Mickey Rooney's mother, Nell Pankey, is being given blood transfusions to build up her strength at a Hollywood hospital.

Look for an any-day elopement for Liz Dalley, Dan's ex, and millionaire Bob Neal. They

almost tied the knot the other night.

Lon McAllister is now in the real estate business.

Benny Rubin will retire from show business at the end of his night-club tour and after publication of his autobiography, "I'm My Own Worst Enemy." James Warren, Gloria Swanson's leading man in "Three for Bedroom C," has given up acting and turned to writing.

Little Singer Gets Settlement On Santa Claus Song

LOS ANGELES, Feb. 6—UP—Hillbilly singer Jimmy Boyd, 14, said Friday he and his attorney had reached an out of court settlement with his agent, Abner Greshler in a legal battle over royalties of the hit song, "I Saw Mommy Kissing Santa Claus."

The freckle-faced youngster and his attorneys have been in a lengthy court hassle with Greshler after the young singer accused the agent of pocketing 60 per cent of his earnings.

Most of the profits came from the Christmas tune which was reported to have sold nearly 2 million recordings.

The out of court settlement, by which Greshler still retains exclusive options for the boy's appearance in radio, television or motion pictures, will be submitted for court approval Tuesday.

Cabbie Offers Well-Rounded Concert; Credits His Uncle

WASHINGTON, Feb. 6—UP—Most Washington cab drivers will discuss the state of the union or the state of the world in general during a shifting of gears.

But this fellow was different. All he did as we rolled along toward the capital was whistle.

I got a well-rounded concert from lullabies to marching music to the classics.

In the 15 to 20 minute spin to Capitol Hill I heard "April Showers," "A Guy Is A Guy," "St. Louis Blues," a splash of Brahms' or dad's brother."

Did the lad ever shake the hand of the great "band master"?

"Sure," said Allen Sousa. "Uncle John once advised me to get out of Washington. The way he put it 'tomorrow never comes here.'"

Allen and his uncle John had considerable in common.

The great musician once served in three different branches of the Armed Forces. His nephew was in World War II, with the Ninth Army. He was in Scotland, Ireland, England, France and Belgium, where he saw more than a little action.

Once Played Fiddle John Philip Sousa once played the fiddle in an opera house here. Young Allen started out with the saxophone but it didn't last long.

"There's music in most of my family, though," he said. "Uncle John once told Tony Sousa, my father, that he was wasting his time at anything but composing music and writing plays. He told dad to 'go back to the grass roots.'"

Allen drives his hack about 180 miles a day.

Warbling a tune doesn't affect his driving, believe I could drive without whistling. What tune would you like to hear this time, mister? I know about 5,000 of them.

"Ragtime Cowboy" sounded like it was meant to sound.

The hide of a 1,000-pound steer weighs about 70 pounds, or about 7 per cent of the animal's live weight.

Plymouth To Offer New Transmission

DETROIT, Feb. 6—UP—Plymouth division of Chrysler Corp. announced Friday that semi-automatic transmissions will be available as optional equipment on its cars by late spring.

Called Hy-Drive, the drive combines a torque converter with Plymouth's standard three-speed transmission. Price was not announced.

In "Hy-Drive" operation, the engine is started with the gear shift lever in neutral. After starting, the driver shifts directly into "high" and stays there. The standard three-speed transmission can still be utilized under abnormal driving conditions.

Airman Killed BRACKETTVILLE, Tex., Feb. 4—Charles A. Flanders, 24-year-old sergeant stationed at Laughlin Air Force Base, Del Rio, Tex., was killed when his car overturned near here yesterday. Five other persons, including Flanders' wife and daughter, were injured in the wreck but was not believed in critical condition.

Copper Coup CANTON, N. Y.—UP—The U.S. Steel Corporation has bought 287 acres of land near Fayette, where large deposits of copper pyrites have been reported. The land is in the foothills of the Adirondacks.

Stamp of a Princess—A new stamp to encourage more savings in Britain throughout the coronation year bears a portrait of little Princess Anne. The six-pence stamp goes on sale March 1.
