Administration Wants End To RFC

Canadian Bill Is Approved In Legislature

AUSTIN, Feb. 18 — UP— Legislation creating a Canadian River Municipal Water Authority, allowing 12 Panhandle and Plains cities to tap the river as a source of water supply, received unanimous approval Wednesday of a Senate committee.

BLAMES U. S.—Syngman Rhee, Republic of Korea president, today said the United States is responsible for inflation in South Korea and must agree to a "pay-as-you-go" system for buying Korean currency.

Will Fight For Bill . . . House Republicans Defy Ike In Tax Cut

WASHINGTON, Feb. 18 —UP— House Republicans, defying a veto threat from President Eisenhower, served notice Wednesday they will fight for approval of a bill to cut personal income taxes about 10 per cent on July 1.

March 15 Set As TV Deadline

The first television test patterns from two Amarillo TV stations will come to Pampa March 15, according to almost joint announcements by Tom Kritzer of KGNC-TV and John Hopkins of KFDA-TV.

BROTHERHOOD IN PAMPA — The nation is in the midst of National Brotherhood Week and in Pampa, three residents representing three major segments of the religious world illustrate the aims behind the observance.

Seeks Abolishment Of Lending Agency

WASHINGTON, Feb. 18 —UP— The Eisenhower administration has thrown its support behind a congressional move to abolish the multi-billion dollar Reconstruction Finance Corporation, it was learned today.

A large number of Republican senators and conservative Democrats headed by Byrd have been gunning for abolition of the RFC since a Senate investigating committee two years ago revealed a tangled web of political "favoritism and influence" in its lending operations.

President Truman headed off the drive by submitting a sweeping reorganization plan to reform the scandal-ridden agency. Congress approved the plan after a sharp fight.

There has subsequently been little congressional criticism of RFC politicking, but many lawmakers still regard its business loans as an unjustifiable government intrusion into the field of private banking.

The RFC has some strong supporters in Congress, however. They contend that it performs an essential role in providing capital, especially for small business, that is not obtainable through private banks.

The RFC also spends more than \$4 million a year in administrative expenses, according to Byrd.

Explorers Work Plan Is Set Up

For the first time, Pampa's Explorer Scouts will have a chance this year to use the local Texas Employment Commission office to help them find summer jobs.

Complete registration will be taken on all Explorer Scout applications with an eye to letting prospective employers know of the Explorers' job availability, according to Bill Ragsdale, local TEC manager.

Explorers are in the 14-18 age group. Originator of the idea was Bob Barrett, Scout advisor for Post 4 (First Christian Church), who feels that an employer "could not pick a finer boy to work for him" than an Explorer Scout.

The plan to get Explorers summer work was discussed and approved Tuesday night at the monthly meeting of the Santa Fe District's "round-table," where Ragsdale explained the idea.

Explaining that the employment office does not "ordinarily have such summer jobs open," Ragsdale said the main purpose of the plan was "to offer Explorers and employers a place to get together."

"This is a service to both employer and employee," Ragsdale continued, and, to make service more valuable, "we hope to have by summertime the General Aptitude Test Battery in operation."

GATB measures both aptitude and preference and is designed to determine in what fields of work a person would be best-suited.

"This is a service to both employer and employee," Ragsdale continued, and, to make service more valuable, "we hope to have by summertime the General Aptitude Test Battery in operation."

Cattlemen Acclaim Stock Quality Despite Decline In Overall Price

A big price drop was seen in the average going price of cattle auctioned in the 1953 Top of Texas Hereford Breeders Association sale Tuesday, despite wide acclaim given to the quality of stock by area cattlemen and the show judge and auctioneer.

Cattlemen said the drop is indicative of descending cattle prices which have caused Washington economists to predict a 5 per cent drop in 1953 farm incomes.

A total of 52 registered breeding animals consigned by local cattlemen in north Texas brought \$23,610 in the auction arena in comparison to \$46,070 last year for 76 animals.

Though there were fewer number of cattle consigned to the auction arena, the average going price per animal dropped \$158.26. The average 1952 price per sale was \$906.18 compared to Tuesday's \$447.92.

And the same price situation held true in the Junior Livestock Sale (4-H) Monday in both the calf and pig divisions. Averages in the sale came to 29 cents per pound for pigs and 39.7 cents per pound for calves compared to 32 averages of 43.7 cents per pound for pigs and 50.6 cents per pound for calf calves.

However, the Hereford Breeders Show Grand Champion bull consigned to the auction block by Tommie M. Potts, Memphis, brought \$1,700, while the 1952 prize winner went for \$1,000. John A. Baggerman & Sons, Groom, were the high bidders for Potts' champion.

Grand Champion heifer, consigned by J. P. Callihan, Conway, went for \$1,000 Tuesday, to high bidder, Cliff and Edna Vincent, Lefors.

Regardless of sale prices, however, cattlemen judged the 1953 show a success with comments

"The decision to decontrol milk and dairy products prices was made at the last moment and resulted in the postponement of the decontrol of cigarette prices to some future week."

Government Lifts More Price Controls

WASHINGTON, Feb. 18 —UP— The government Wednesday removed price controls on milk, butter, oleomargarine, cosmetics, drugs, sewing machines, radio-TV and automobile repair services and thousands of other items.

Price Stabilizer Joseph Freehill forecast general price increases on repair services and perhaps on milk. He said there possibly will be price increases on cosmetics and some drugs.

The action left only 13 per cent of the items in the government's cost-of-living index still under full control.

Cigarettes were not decontrolled Wednesday.

The decision to decontrol milk and dairy products prices was made at the last moment and resulted in the postponement of the decontrol of cigarette prices to some future week."

Among home appliances decontrolled in addition to sewing machines were vacuum cleaners, air conditioners, and floor polishers.

Wednesday's action was the third big decontrol decision in the program to remove all price controls by April 30.

Wednesday's orders de-control all consumer-type services except laundry, dry cleaning, and linen and diaper supply services.

If it comes from a hardware store, we have it. Lewis Hardware.

Seven MIGs Shot Down

SEOUL, Feb. 18 —UP— United States Sabrejet pilots shot down seven Russian-made MIG-15 jet fighters Wednesday while defending 370 United Nations fighter-bombers in smashing twin attacks on a North Korean tank-infantry training school.

The bomber fleet, attacking first in the morning, and again in the afternoon, destroyed 139 buildings—factory-sized warehouses, vehicle repair shops, headquarters, administration buildings and warehouses.

They left their entire target area near Kangso, west-southwest of the North Korea capital of Pyongyang, a mass of flames with heavy secondary explosions ripping buildings to pieces.

More than 750,000 pounds of explosives were used.

Stabbing Victim's Condition Said Fair

A 24-year-old stabbing victim is in "fair" condition today and a suspect, five years older, was being questioned this morning in connection with the wound.

Thomas Williams, the flats, was stabbed in the chest during an argument Tuesday night, according to city police, and was taken to Highland General Hospital.

The suspect, also a resident of the flats, was being interrogated by city police this morning and in all probability would be handed over to county authorities later today, Police Chief Jim Conner said.

The weapon went by the name of a "frog-sticker," police said.

BULLETIN

AUSTIN, Feb. 18 —UP— The Texas Railroad Commission Wednesday slashed the state's oil allowance for March 118,485 barrels a day, pegging permissible production at 3,118,751 barrels.

proved bills by Sen. Carlos Ashley of Llano to repeal the law and one by Sen. John Bell of Cuero which would retain the act but make several amendments.

In the House Tuesday, Rep. James W. Yancy Jr., Houston, introduced a bill to cut the farmers' refund of the state gasoline tax to three cents and use the fourth cent for schools. Farmers, ranchers and others—such as airlines—now receive a four-cent refund when the fuel is certified as not being used on state highways.

Yancy said his plan would net some \$3.8 million yearly for the school fund.

Northern Natural Heart Check Slated

More than 100 employees of Northern Natural Gas Company were scheduled to have their heart condition checked at 1:30 p. m. today.

Screening of the 105 persons was to take place at the plant in connection with the current Gray County Heart Fund Drive, according to Dr. Malcolm Wyatt, president.

Arranged through Troy Teel, company personnel director, the screening will include checks on blood pressure, heart beat and general heart condition.

GRAND CHAMPION SOLD — Grand Champion bull consigned by Tommie Potts, right, Memphis, brought \$1,700 in the auction block Tuesday as the first animal up in the 1953 Top of Texas Hereford Breeders Sale. Shown on the left is high bidder, John A. Baggerman, Groom. (Smith Photo)

FIRST PLACE HEIFER — Grand Champion heifer in the Hereford Breeders show and sale, shown here with consignee J. P. Callihan, Conway (right) and buyers Cliff and Edna Vincent, Lefors, brought \$1,000 in Tuesday's sale. Auctioneer was Col. Walter Britten, College Station. (Smith News)

Director Slate Is Named By UF Committee

Fifteen nominees for directors of the Pampa United Fund were selected early today.

As soon as they have been contacted and have accepted, they will participate in a meeting—tentatively slated for the first of next week—where they will choose their officers.

No announcement of names, however, will be made until directors are approved by a meeting of United Fund supporters, according to Charles Evans, one of the seven-member committee for selecting director-nominees.

All nominating committee members were present at 7 a. m. today in the Hotel Schneider. Evans said, and "we tried to pick the people who best represented a cross-section of the community."

Feeling that it was "a sort of public duty for everyone to help us," Evans said that those on hand at the meeting today were "sure that all 15 will serve as"

Three Scout Units Win Recognition During Round Table

Three Scout units were recognized, one of them twice, during the monthly Santa Fe District "round-table."

And after the "round-table" was divided into three segments—Cubs, Scouts and Explorers—the Explorers learned of a new plan for summer-leave employment.

Get-together was held at 7:30 p. m. Tuesday in the Palm Room of city hall with E. Roy Smith, district commissioner in charge.

An estimated 80 persons were on hand for the "cracker-jack" affair, according to Phil Pegues, district Scout executive.

Winners of the "Forward on Liberty's Team" streamers were Pack 79, Miami (Council of Churches), first; Troop 19, Lefors, (Lions Club), second; and Pack 22, Pampa (Horace Mann School PTA), third.

And Pack 22 also won the Gold Award for "functioning and training manpower." Presentations were made by Don Cain, district vice-chairman.

A plan to enable Explorer Scouts to procure summer jobs with the help of the local Texas Employment Commission came to light in the Explorers' "round-table," led by John Ayres, chairman.

Leading the other two subdivided "round-tables," were Pegues, Scouts, and Smith, Cubs. Discussion in all three centered around general Scouting problems.

On hand for the affair were representatives from White Deer, Higgins, Miami, Canadian, MeLean, Lefors, Hopkins and Pampa.

City Veterinarians To Sell Dog Licenses

Pampa's veterinarians today are selling dog tags.

As soon as a dog is vaccinated, a license for it may be purchased from one of Pampa's two veterinarians, according to Police Chief Jim Conner.

Purpose of the change of dog-tag-selling locale, Conner said, is to eliminate the trip back to Pampa police headquarters from the veterinarian in order to purchase a license.

Local veterinarians and their offices are Dr. N. L. Nicholl, 1350 S. Hobart; and Dr. T. J. Worrell, 1913 Alcock.

Deadline for dog license purchase was Jan. 15.

Mainly About People

Mrs. Cordis Dennis of Mangham, Okla., is visiting with her daughter, Mrs. M. E. Powers.

Mr. and Mrs. Clyde Medkell visited in Haskell recently.

Pic. Billy J. Calloway of Hereford, formerly of Pampa, will return home Friday after spending the last 18 months in Japan. Pic. Calloway is a brother of Mrs. Ruth Lassiter, 517 Doucette, and Max Calloway, 413 Sloan.

The American Legion Auxiliary will meet Thursday evening at 7:15 for a special business meeting. The group will then go to the Junior High School Auditorium from the City Club Room to hear Wes Izard.

DIRECTOR
(Continued from page one)
public support is so strong.

Organized Thursday
Other members of the director-nominating committee are E. L. (Smiley) Henderson, Ed Myatt, E. W. Hogan, John Seitz, Rusty Ward and Mrs. F. W. Shotwell.

Pampa's United Fund was officially organized by a group of 65 citizens Thursday when it ratified a constitution and by-laws. That meeting had been called by Evans and Dr. J.B. Veale Jr., fund organizers.

Speed in operation and care in personnel selection were emphasized at both the public meeting and the nominating committee get-together today.

For Fund personnel want to kick off the first drive in October "to coincide with the nationwide community chest drive," Evans said, and "we want to make sure Pampa's first United Fund drive is a success."

Organization of the United Fund, today's meeting and those to follow are the culmination of more than six months' work by Evans and Veale and the drive is intended to eliminate all the separate drives conducted annually in the city—except for one.

The March of Dimes is prohibited from participating by stipulations in its national charter.

Groups Contacted
Included in the groundwork for organization was contact with all the groups eligible to participate, all of which have indicated willingness to go along.

Participating will be the Red Y, Girl Scouts, Boy Scouts, Salvation Army, Heart Fund, Cancer Society, Pampa and United Service Organizations.

Evans has credited public opinion pollster providing for five and a half years.

The board will elect a president, vice president, a secretary and a treasurer.

The 15-member board of directors is to serve one- and two-year terms.

Shrapnel-Proof Nylon Armer To Be Tested For Soldiers

WESTERN FRONT, Korea, Feb. 18—UP—American soldiers may soon be completely covered with shrapnel-proof nylon armor if forthcoming tests on helmets and leggings show it is effective, a body-armor research officer said Wednesday.

Capt. Mack Strauss of South End, Ind., said the Army will begin combat tests of nylon helmets and leggings this summer. His research team is now testing nylon "diapers" which fit under the nylon vests already in general use.

Strauss also disclosed a new model nylon vest covering a larger portion of the body will be issued this month.

Complete suit of armor, vest, leggings, diaper and helmet would weigh about 23 pounds.

Only Few Made
"Only a few nylon armor leggings have been manufactured in the United States," Strauss said, "but enough of them will be made for battle tests here next summer."

He said the leggings would be used mostly by soldiers clearing minefields. The leggings cover the legs from hips to ankles.

"The added weight of six pounds of leggings would slow a man on patrol or at night," he said, "but they will be a real help to men who must thread their way through minefields."

Strauss said tests on nylon helmets also will begin next summer. The helmet weighs about three pounds, one pound less than the present steel helmet used since Pearl Harbor.

A new improved model of the Army's nylon vest has now been developed, Strauss said.

"A new nylon vest that covers a foot and a half more body area will be issued to American soldiers this month. It is longer in the front and back, higher around the neck and covers more area under the arms."

The 12-layer nylon vest is designed to stop shell fragments, but Strauss said it also would cut bullet casualties 25 per cent.

In general use in Korea for nearly a year, the vest has reduced casualties 60 per cent, he said.

Strauss and his test team now are studying the effectiveness of the "diaper" which fits on the bottom of the vest and protects the lower abdomen and groin. The new leggings fit on the bottom of the diaper.

Red Cross Role Outlined To Jaycees

WASHINGTON, Feb. 18—UP—Sen. John L. McClellan asserted Wednesday that waste and mismanagement in the State Department's Voice of America "may border on treason."

The Arkansas Democrat said disclosures before the Senate Permanent Investigating committee go far beyond "incompetence and stupidity," and "there is no question in my mind that some of this may border on treason."

The committee called Howard Fast, left-wing author, to testify in public hearings. It has investigated reports that the Voice of America had a deal extensively from the writings of Fast, who has been linked with many Communist front organizations by the House Un-American Activities committee.

Openly Critical
McClellan was openly critical of the Voice of America and Chairman Joseph R. McCarthy said the committee is determined to establish responsibility for the mismanagement. He agreed with McClellan that "it's more than mere inefficiency."

A Voice of America contracting officer, Frederick Freeman, testified Tuesday that waste through mismanagement in the program will "run into the millions."

And a former engineer of the program, Lewis J. McKesson, said that "in principle" the loss looks like "calculated waste."

Freeman, who joined the agency last year, said one of the most glaring examples was awarding the contract for a big transmitter near Seattle, Wash., to the "least competent" of 14 bidding contractors.

Excess Rental Cited
Besides, he said, the contractor—the J. G. Watts Construction Co., Portland, Ore. —is drawing about \$25,000 a month rental on equipment at a rate that will more than pay for the equipment in a year. Freeman said that is about \$15,000 a month more than should be necessary.

McClellan estimated that waste at the Seattle site, a similar one near Wilmington, N. C., and at a variety of overseas stations might run to \$15 million or more.

Work on both the Wilmington and Seattle projects was stopped Monday by Dr. Wilson Compton, administrator of all international information programs.

Cited In Accident
A citation for one Pampa and moderately heavy damages to the vehicle of another — those are the results of Pampa's 41st car collision of the year.

William A. Smith, 22, of 133 W. Tule, had stopped in the middle of Kingsmill, east of Somerville, Monday afternoon to let out a passenger, then he turned left into the street and collided with a car operated by Lena P. Powell, 51, of 415 N. Starkweather.

Smith was cited for failure to grant the right of way, according to city police, and Miss Powell's car had \$275 worth of damages.

Second Appeal Due In Rosenberg Case

NEW YORK, Feb. 18—UP—Emanuel H. Bloch, attorney for atom spies Julius and Ethel Rosenberg, said Wednesday he would make a second appeal to the White House for executive clemency if the U. S. Supreme Court again refuses to reconsider the condemned couple's case.

The federal court of appeals here Tuesday postponed indefinitely the execution of the Rosenbergs, scheduled for the week of March 2, to permit Bloch to make a final appeal to the Supreme Court.

The Supreme Court previously has turned down two appeals in the Rosenberg case. However, Bloch said his third appeal seeks a reversal of conviction and a new trial would be based on different grounds.

The defense attorney said he would contend that the Rosenbergs' first trial in March, 1951, ending in their conviction of conspiring to transmit atomic secrets to Russia, was based on "fraud, perjury and unfairness."

If he fails to obtain favorable action from the Supreme Court, Bloch said he again would file with the Justice Department an appeal for executive clemency on the ground that "important material" was withheld from President Eisenhower when he received a file on the case the first time.

The President turned down that appeal. Bloch referred to a communication last December from Pope Pius XII to the Justice Department that the Vatican had received a considerable number of pleas for papal intercession in the Rosenberg case. James McGranery, then attorney general, said the indictment was

Teachers' Date With Businessmen Will Be Set Soon

A definite date for the business education day for Pampa school teachers is expected to be set within the next week or 10 days, E. O. (Red) Wedgeworth, manager of the Chamber of Commerce said this morning.

The date for closing the schools and breaking the teaching force down into groups will have to be agreed upon by Superintendent of Schools Knox Kinard, now in Atlantic City attending the National School Administrators convention and Bill Bird, general manager of the Southwestern Division, United States Chamber of Commerce.

Bird will give the keynote talk to the teachers before they are sent out to spend a full day with local industries, business houses, and other commercial establishments.

The plan is to give the teachers visiting the businesses a full day experience of observing how each technicality is handled at the establishment they visit. At noon the teachers will be the lunch-nom guests of the firm managers.

It is the nature of cats to do a certain amount of unsecured roaming.

This year's bill was drawn up as before by Mrs. Gertrude Charney, founder of "Friends of the Birds, Inc." A cat owner who let

Illinois Wants To Leash Cats; Connecticut Would Tax Fat

By UNITED PRESS
A bill in the Illinois legislature would put cats on leashes, a proposal in Massachusetts would prohibit women's wrestling matches, and one in Connecticut would tax fat people.

These were a few of the strange and unusual legislative proposals uncovered in a study of state legislatures and their doings.

The Massachusetts legislature already has passed a bill repealing the law requiring spittoons in factories and workshops.

A resolution introduced in the Georgia legislature would urge the National Collegiate Athletic Association to reconsider its ban on two-plate football.

Fourth Consideration
It was the fourth time that the Illinois legislature had considered an "anti-cat" bill. The sponsor of this and previous proposals was Sen. William G. Knox, Chicago Republican.

A similar bill was passed by both houses in 1949, but it was vetoed by former Gov. Adlai Stevenson, who wrote:

"It is the nature of cats to do a certain amount of unsecured roaming."

This year's bill was drawn up as before by Mrs. Gertrude Charney, founder of "Friends of the Birds, Inc." A cat owner who let

"No use trying to sell him our most expensive shoes—he's rich enough not to be afraid to ask for something cheaper!"

JOHNSON IN HOLLYWOOD

By ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD — (NEA) — Hollywood on the Record: Chill Willis, on comedy relief in B western movies: "The only way you can be funny in one of those boss operas is to do a swan dive into a water trough."

MARLYN MONROE, accused of wearing padding: "People who know me better, know better."

Tony Curtis, on escaping juvenile roles: "I guess there's a period for every young actor when you're neither man nor juvenile. You're nothing. That's the toughest time. Then all of a sudden your first grown-man role comes along and if you're ready for it, you leave all the little-boy stuff behind."

ERIC JOHNSTON, the movie czar:

"Hollywood is not in the business of grinding out pictures neatly labeled for use as weapons in a propaganda war. And that's precisely why our films are loved and believed by people abroad and it's why American films can whip and outdraw Communist propaganda films in any world battle for the public's support."

WALLY COX, answering the query: "Do you resemble Mr. Peepers?"

"If I weren't like him I couldn't play him and if I really were like him I wouldn't have sense enough to."

BARBARA STANWICK'S definition of sex appeal: "A quality that has its source in such things as fresh air, milk and plenty of sleep."

MAUREN O'HARA: "Most women aren't sufficiently posterior-conscious. It's the last impression as you leave a room that counts."

DON PORTER'S definition of conscience: "What makes a man refrain from kissing the maid so he won't give her his wife's cold."

JOHN FORSYTHE, TV heart flutterer making his big screen debut in "It Happens Every Thursday":

"I find it difficult to get that little excitement and sweep in movie roles that live TV gives you."

50-50 Proposition DONNA DRAKE, on the way to combine a career with a happy marriage:

"I do an occasional movie just to break the monotony of being a housewife. If my husband says I can work—fine. If he doesn't like the idea, I turn down the role."

ANTHONY QUINN, beaming about two films he'll make in Europe: "My perspective is getting a little too Hollywoodish. I need to get away for a while."

NICK CASTLE, the dance director, about Bob Hope: "I've never seen anyone like him. We worked for eight weeks on three dance routines in which he's featured with a group of dancers in 'Here Come the Girls.' He came to the set, watched the routines once and then stepped in and learned everything in one rehearsal. He's fabulous."

RANDY STUART, TV's Mrs. Biff Baker—on leaving big-screen acting for video: "Television people roll out the red carpet. Everybody treats everybody else like a human being. I don't want to go back to the big studios."

White Deer Chapter Of Future Teachers To Be Installed

WHITE DEER (Special) — White Deer chapter of the Future Teachers of America will be installed by an Amarillo chapter installation team in a school-wide assembly Friday, Dr. Emmett Smith for whom the club was named and a former superintendent of White Deer Schools, will be present, as will be the state president and state sweetheart, both of Amarillo.

Club charter is to be presented to the White Deer club following installation. At the latest meeting of the group, James Huffines and Don Powell reported on their recent trip to Pampa High School.

The youths visited several classes in PHS and compared the two schools. A business meeting was held following the program in which club colors of blue and white were chosen and a committee was appointed to make further plans for the coming installation.

Two Buildings In Canadian Are Sold

CANADIAN (Special) — Recent real estate transfers here include the sale of the two brick buildings at 211 and 213 Main Street formerly occupied by Cavins Hardware.

Bill Bartlett purchased the main store building, No. 211, and Dean Cook purchased the annex, No. 213, from the Cavins Estate. Cook has already remodelled the interior of his building and has moved his electrical business in. Bartlett acquired a quantity of hardware items along with the building he bought, and sold it on Friday and Saturday on the basis of "you find it, make us an offer and take it away."

Both the new owners of the buildings plan to remodel the fronts in such manner that the buildings will harmonize and improve the appearance of that section of frontage.

Letter Jackets Awarded Area Football Team

WHITE DEER (Special) — In a recent assembly program at White Deer Schools, Superintendent Huey Laycock presented 31 boys with their school jackets.

The "A" team received gray wool and blue rayon reversible jackets; and the reserves, gray wool, non-reversible. "A" lettermen were: Bill Wilkerson, Jerry Foose, Max Jordan, Merian Shuman, Glen Satterwhite, Jack Hood, Douglas Coffey, Fidel Lopez, Jimmy Williams, Cordell Pugh, Dick Shipley, Clint Freeman, Gene Hoskins, Ronald Mills, Donald Denham, Ray Eller and Roy Eller. Reserve lettermen were awarded: Horace Preston, Jerry Kotara, John Kramer, George Bagley, Billy Aaron, Raymond Driskill, Larry De Feyer, Jerl Thompson, Jerry Puckett, Carroll Larned, Allen Young, and Dick Foose, and Don Powell and David Bradford, managers. Coaches James Love, Kenneth Livingston, Vic Bates and Bert Isbell also received jackets.

To Washingtonians, Pennsylvania Avenue, "the street of Presidents," has been known as "the Avenue" since the days when it was a muddy track flanked by farm fields.

"The dog didn't talk, Mister—the parrot's a ventriloquist!"

Rev. Dyess Speaker For Methodist Men

Members of the Men's Club of the First Methodist Church will learn "What Will It Profit A Man?" at their monthly dinner-meeting tonight. Rev. Raymond Dyess, pastor of Harrah Methodist Church, will be the main speaker at the affair, scheduled for 7 p.m. in Fellowship Hall.

A short program of sacred and secular numbers will be sung by the Cherub Choir, composed of youngsters aged 3 to 6. Table captains for the dinner are C. E. Ward, J. W. Shelton, Fred Cary, George Newberry, H. H. Butler, Waldon Moore, R. D. Wilkerson, Roy Johnson, Bill Ledbetter and Arthur Teed.

Crocodiles were once so much a part of the religion in some parts of Egypt that a town was named for the big reptiles. It was called Crocoditopolis.

Frogs Pull Into Tie For SWC Lead

By UNITED PRESS

The Texas Christian University Horned Frogs leaped into a tie with Texas for top spot in the Southwest Conference basketball race by topping hapless Southern Methodist 79 to 48 Tuesday night.

In another conference battle, Rice kept in the running for the title by defeating Baylor 65 to 64 and strengthening its hold on third place.

Texas, meanwhile, met Houston in a non-league game and came out on top 79 to 65.

Conference teams will be idle now until Saturday night, when Texas A&M meets Houston on the latter's court; Arkansas invades Waco to battle Baylor; Rice tangles with TCU at Fort Worth and Texas plays host to Southern Methodist at Austin.

TCU's Henry Ohlen was the big man in the game at Fort Worth. His 26 points and good rebounding went a long way toward the victory.

With help from Ray Warren and Dick Allen on rebounding, Ohlen & Co. won their ninth game in the last 10 encounters for a 6-2 conference record, identical with that of Texas. Art Barnes, sophomore guard, led Harvester lead to 14 points.

At Houston, Gene Schwinger paced Rice with 19 points, far outdistancing John Starkey of Baylor, top scorer in conference games. Starkey was held to seven points by a tough Rice defense.

Buzzy Bryan came through with 17 points for Rice, and Billy Worn hit for 11. Murray Bailey was high man for Baylor with 12.

At Austin, the Longhorns coasted over the University of Houston, with Billy Powell leading the attack. Powell tied center Gary Shivers of Houston for high-scoring honors with 21 points.

Kramer Ties Sedgman

SYRACUSE, N. Y., Feb. 18—UP—Frank Sedgman will attempt to regain the lead over Jack Kramer Wednesday night when the touring professional tennis stars play their 21st match of a cross-country trip.

Kramer tied the series at 15 victories each Tuesday night when he defeated the Australian star, 2-6, 6-3, 6-4 before a crowd of 3,700 at Albany, N. Y. Ken McGregor defeated Pancho Segura of Ecuador, 2-6, 6-4, 7-5, but Segura holds a 2-7 lead in their matches.

Bond Bangs In 32 Points For PHS

By BUCK FRANCIS
Pampa News Sports Editor

Coach Clifton McNeely's Hustlin' Harvesters made ready last night for the coming bi-district series with the El Paso champion by carving out a convincing 74-62 victory over the Borger Bulldogs at Harvester fieldhouse.

The Bulldogs thus became the 22nd straight victim of the Green and Gold quint this season who finished their first regular season undefeated. It was the 14th straight win in the rugged District 1-AAAA race for the champion Harvesters.

Overall, the Harvesters now own a 24-game winning streak, having won the last two games of the 1952 season.

The Harvesters are now awaiting the outcome of the District 2-AAAA race which will determine its champion this week end.

The losing Bulldogs had no consolation in last night's tilt, that of holding the biggest lead of the season over the Harvesters. The Hounds jumped to a 15-8 lead over the Green and Golders after only four minutes of play which sent the several hundred Borger fans present into near hysterics.

But, after calling time-out, the McNeelymen collected themselves and the picnic was over for the visiting Bulldogs. The Harvesters whittled the once huge Borger lead to a mere one point, 18-17, by the end of the first quarter and then took the lead in the first minute of the second quarter and never headed.

Bond Leads Comeback

Jimmy Bond paced the Harvester comeback. The high scoring Harvester center, who wound up his night's work with an amazing 32 points, scored 17 points in the first half, nine in the first quarter and eight in the second. It was Bond who put the Harvesters ahead to stay with one minute gone in the second quarter. He banked in a lefthander in the early seconds of the second period to give the Harvesters their first lead of the night, 19-18, and then after Phillip Wright tied it up with a free toss, Bond retaliated with a toss from the gift line to send the Harvesters in front again, 20-19. The winners were never headed or tied after that.

The Bulldogs did manage to come within one point on two more occasions after that, 22-21 and 31-30, but each time the Harvesters thwarted the Bulldog efforts of catching up.

Allen Simpson, who led the Borger scorers with 25 points, hooked one in late in the first half that sliced the Harvester lead to 31-30. But, in those fading seconds of the initial half, Jon Oden and Buddy Cokrell hit from the floor to boost the Harvesters into a 35-30 lead. Wright made good on a free shot just before the first half buzzer to make it 35-31 at the midway mark.

The Bulldogs continued to make a game of it through the first three minutes of the third period. They trailed by two points on two occasions, 38-36 and 40-38, but

it was at this point that the Harvesters pulled away and they breezed in with the victory.

Field goals by Bond and Fred Woods and a free toss by Cokrell hiked the Harvester lead to 45-38 and the Bulldogs never got close after that. The Harvesters went on to a 60-45 lead at the three-quarter stage.

Oden and Wright left the game late in the third after using up their quota of fouls. Bond committed their fifth foul at the same time when a double foul was called against the two.

Coach McNeely swept the Harvester bench in the fourth quarter with all players suiting out getting into the contest.

McWilliams with 11 and Webb with 10 followed Bond in the scoring for the Harvesters. Bond's 32 tallies came on 12 field goals and eight free tosses.

Simpson's 25 points for Borger came on 11 field goals and three free tosses. Rookie Rogers with 11 points was next high for the Bulldogs.

The Harvesters connected on 24 of their 36 field goal attempts for 66 per cent while Borger hit 23 of 63 for 36 per cent.

Reapers Drop 57-40 Tilt To Borger

Borger's Junior High Poodies enjoyed their "hottest" afternoon of the season yesterday when they defeated the Pampa Reapers in a Panhandle Junior High Conference tilt at Borger, 67-40.

Gib Gibson, stringbean center of the Poodies, was hitting from all angles while turning in a 26-point performance.

The Reapers played on a about equal terms with the Poodies during the last three quarters, but a dismal start that saw the Poodies spurt ahead, 16-8, was too much for the Reapers to overcome. The Pampans came within five points of the Poodies with one minute left in the third quarter but the winners staved off the rally.

Buddy Sharp paced the Reapers with 10 points. He was followed by Melvin Romine with nine, Glen Gilmore with eight, Dickie Mauldin with seven and Larry McWilliams with six.

Next on tap for the Reapers will be at Amarillo Friday against Nixon.

REAPERS (40)

PLAYER	FG	FT	PF	TP

Marin Wins Over Davis

Wayne Marin took the main event of last night's wrestling show at the Southern Club Sports Arena with a two-out-of-three fall win over Dizzy Davis.

Marin took the first fall with a series of flying dropkicks and the third with a crab hold. Davis won the second with a back breaker. The match lasted 54 minutes.

Ben Davidson swept two straight falls from Buck Lipscomb in the semi-final. Lipscomb was substituting for Frankie Hart who was ill.

The preliminary between Ace Abbott and Benny Truddell ended in a draw.

BALL HANDLER DELUXE — Bill Webb, hustling Harvester guard, is pictured going through one of his ball handling antics of keeping the ball away from the defender. The defender, in this case, is Tommy Newland of the Borger Bulldogs. The above action occurred during the Harvester-Bulldog tilt last night at Harvester Fieldhouse. Buddy Cokrell, No. 45, of the winning Harvesters, is shown coming in at the left background. (News Photo by Fred Ditzian)

Bowie, Probable Harvester Bi-District Foe, Depends On Razzle-Dazzle Style

BOWIE'S BEARS OF EL PASO, the Harvesters' probable foe in the "Comeback Kids" of the Border city quintet.

Bowie, who is leading the 2-AAAA race with a 6-0 conference record, finished last in the city tournament held earlier in the season. But since then the Bears have caught fire.

The Bears could still lose out in the title race to El Paso High. But the latter must defeat Bowie twice to capture the crown. El Paso has a 6-1 slate and meets Bowie Friday night in a title tilt for El Paso to cop the flag, they would have to beat Bowie Friday and then win the one-game "sudden death" playoff Saturday from the Bears.

Much of the credit for Bowie's comeback has been given to its coach, Nemo Herrera. Herrera has turned out more district champions than any other coach in the El Paso district.

It must be pointed out though that the Bears didn't have the services of one of its top stars when the city tourney was unveiled. Rafael Fierro, 6-1 center, missed the city cage meet due to an injured hand. He was accidentally shot in the hand while on a hunting trip before the city meet was held.

Fierro still wears a cast on his hand but he has returned to the Bowie starting lineup. However, Fierro was shifted to forward-up on his return as his replacement during his absence, Jose Gomez, looked so good to Coach Herrera that he kept Gomez at the center slot when Fierro rejoined the team.

Coach Herrera attributed most of the praise for the Bears' comeback to Fierro. "Rafael has helped more than any other player lately," the Bear mentor said in a recent statement. "He steadies my

Scientists Hold New Hope For Human Transplants

By DELOS SMITH
NEW YORK, Feb. 17 — UP — Enough has been learned about the hidden defenses of body chemistry to cause some scientists to believe that day may not be far off when the vital organs of one person can be made to function in the body of another.

This optimism was highlighted Monday by a research grant intended to push promising studies to a successful conclusion. The grant went to Harvard Medical School and its affiliated Peter Bent Brigham Hospital, Boston, where research is well advanced.

Solution Would Be Lost
 A solution would be a mighty boost toward longer life for human beings. Many persons now die with healthy bodies except for the diseased organ whose illness killed them. If it had been possible to transplant a healthy organ from another person, they need not have died.

Only last month attention centered on a 15-year-old French boy who ruptured the one kidney with which he was born. Surgeons transplanted one of his mother's kidneys into his body. For a while the "foreign" organ functioned and he seemed convalescent.

Scientists said all along he was doomed. But his sympathizers began believing the scientists were wrong as he continued to improve. But they weren't. Twenty-four days after the transplant the "foreign" kidney began to fail. Nine days later the boy was dead.

Harvard Men Achieve 101 Days
 From transplant to death there were 101 days, which was hailed by some medical scientists as remarkable. However, they were not familiar with the work of the Harvard scientists in Peter Bent Brigham where the longest survival at time in a series of human kidney transplants has been 101 days.

To achieve that truly "remarkable" survival time they brought to bear a knowledge of body chemistry-defense learned over a number of years and through a large number of cases. The research team may enable them to "rush over the hump" to a complete understanding.

The puzzle is based upon a fact which everyone knows—no two persons are alike. This particularly is true chemically. The body is organized chemically to repel invaders. An organ transplanted from another person is, to body chemistry, an invader.

Chemical War
 The invader's chemical substances antagonize the substances of the host's body. They are organized into producing swarms of anti-bodies which overwhelm and kill the invader chemically.

The Harvard scientists are Dr. George W. Thorn, Dr. Benjamin F. Miller, Dr. David M. Hume, and Dr. John P. Merrill. The grant was made by the Laison Foundation and amounted to \$15,000. It should be kept in mind research grants usually are in the amount needed and \$15,000 is needed for laboratory and other expenses which may result in a great contribution to health and long life.

Surgically it is not difficult for a skilled man to transplant any organ from one body to another. There is no problem there. The one hurdle is the defense of the body chemistry. If they're overcome as regards the kidney, presumably the same savvy would apply to the lung, heart, and the other organs.

Gaining A Gator
FORT WORTH, Tex., Feb. 17 — Mrs. C. D. Lines was hanging out her wash when a stranger walked up and asked if she had lost an alligator. Mrs. Lines hadn't, but the stranger told her he had found one and tied it to the bumper of her car parked in the driveway. Then she walked off.

Heavy Damage in Canadian Blaze

CANADIAN (Special) — Fire of undetermined origin, did several hundred dollars damage to Bert Briggs' Tasty Cream - Bigger Burger Place in the 200 block on West Second Street, (the highway) early Monday morning.

The alarm sounded at 1:40 a.m., and the fire was brought under control a few minutes later by the volunteer firemen.

It was the second alarm for Canadian for 1953 and the first the result in insured loss. The building is owned by E.J. Hornback of Pampa, and the ice cream machines and short-order equipment by Bert Briggs who operates it as a drive-in. Both carried insurance.

Briggs plans to repair and resume the operation of the place.

Disillusionment
BUFFALO, N. Y. — UP — Whistling swans do not whistle; they honk, according to Donald J. Gamble, a member of the Buffalo Ornithological and Audubon Societies. He said the whistling misnomer probably comes from the rustling of their wings.

The meadowlark was declared the state bird of Nebraska on March 22, 1929.

* EDSON IN WASHINGTON *

WASHINGTON (NEA) — Recent drops in beef cattle and other farm prices have put Congress in a somewhat jittery mood. Letters, telegrams and phone calls are beginning to snow down from the farm belt. Individual farmers and representatives of the farm organizations are demanding personally that something be done about it.

All this pressure isn't necessary to impress some of the farm state senators. Take the case of Sen. Clinton P. Anderson of New Mexico, who used to be a Secretary of Agriculture himself.

Last year he bought range cattle averaging 400 pounds at 24 cents a pound — \$96 a head. Fatened to 800 to 900 pounds at a cost of \$60 or more a head. These leaders are now ready for market. The current offering price is 16 cents a pound — \$128 to \$144 a head — or a net loss of \$18 on each critter.

This experience, repeated with variations in feed lots all over the country, is what bothers the farmers and the congressmen.

From the livestock men it has brought charges that this is a packer's holiday. With prices dropping, there is extra heavy marketing. It is charged that the packing houses are using this to depress prices further.

Meatmen's contractors' retail prices have not dropped proportionately. Beef prices have come down somewhat on the eastern markets, but the drop nowhere near covers the decline in livestock prices. This further heightens the charge that the packing houses are making two or three killings instead of the usual one.

Packers Defensive
 As if anticipating criticism of this kind, the packers are already putting up their defenses. The annual report of Armour and Co., for instance, is cited to show that this packer lost 7,100 of a cent on each dollar of food sales last year. The company ended the year with a total profit of 33-100 of a cent on each dollar of sales only because of the profit on by-product operations, so it says.

A letter which F. W. Specht, president of Armour, has sent to all congressmen, cites price controls as one of the main reasons why the packers have not made more money on food sales. Nevertheless, under these same controls in 1951, Armour reported profits of 18-100 of a cent on every dollar of food sales and 72-100 of a cent profit per dollar of sales on all operations.

The price controls are now being removed by the Office of Price Stabilization, which will probably go completely out of business by April 30. In connection with the meat price ceiling removal, however, there is a curious psychological twist.

Livestock men believe that with OPS ceilings removed, beef cattle prices will firm up a little. This will save their skins, if it happens. If the consumer gets his benefit out of this, why should business, why that's apparently unimportant.

Department of Agriculture under the new Eisenhower administration is trying to calm everybody down on this situation. In a recent statement, Secretary of Agriculture Ezra Taft Benson told cattlemen to drop their unwarranted pessimism.

Sees More Stable Prices
 "Employment and income a're higher than ever before," Secretary Benson declared. "This promises more stability to cattle prices, particularly price reductions due this year in the supply of pork will bolster the market for cattle."

As if in support of Secretary Benson's statement, O. V. Wells, head of the Bureau of Agriculture Economics appeared before the Senate Agriculture Committee and presented a picture of just what has happened to the cattle market.

In June, 1950, before the Korean war started, beef cattle were selling to the packers at an average of 25 cents a pound. The price rose to nearly 33 cents in April, 1951, dropped to 20 cents in December, 1952. The index on all prices received by farmers stood at 247 before Korea, rose to 313 in February, 1951, and has declined since then to 267 in January. Farm income in 1953 may be as much as 5 per cent below what it was in 1952, Mr. Wells told the senators.

Worried Cattleman Ride Herd On Congress For Price Boost

By PETER EDSON
NEA Washington Correspondent

WASHINGTON (NEA) — Recent drops in beef cattle and other farm prices have put Congress in a somewhat jittery mood. Letters, telegrams and phone calls are beginning to snow down from the farm belt. Individual farmers and representatives of the farm organizations are demanding personally that something be done about it.

All this pressure isn't necessary to impress some of the farm state senators. Take the case of Sen. Clinton P. Anderson of New Mexico, who used to be a Secretary of Agriculture himself.

Last year he bought range cattle averaging 400 pounds at 24 cents a pound — \$96 a head. Fatened to 800 to 900 pounds at a cost of \$60 or more a head. These leaders are now ready for market. The current offering price is 16 cents a pound — \$128 to \$144 a head — or a net loss of \$18 on each critter.

This experience, repeated with variations in feed lots all over the country, is what bothers the farmers and the congressmen.

From the livestock men it has brought charges that this is a packer's holiday. With prices dropping, there is extra heavy marketing. It is charged that the packing houses are using this to depress prices further.

Meatmen's contractors' retail prices have not dropped proportionately. Beef prices have come down somewhat on the eastern markets, but the drop nowhere near covers the decline in livestock prices. This further heightens the charge that the packing houses are making two or three killings instead of the usual one.

Packers Defensive
 As if anticipating criticism of this kind, the packers are already putting up their defenses. The annual report of Armour and Co., for instance, is cited to show that this packer lost 7,100 of a cent on each dollar of food sales last year.
