Reports Give **New Hope For** An Armistice

SEOUL, Korea, Saturday, June 6 -UP- United Nations and Communist delegates meet at Panmunjom Saturday in a truce session that may mean the bloody three - year Korean war is coming to its end.

Reports here, in Tokyo, in Wash-ington and in United Nations headquarters in New York are that the wo delegations are within a hair's breadth of agreement on the main outstanding issue.

That issue is the disposition of those Chinese Communists and North Korean prisoners, held by the UN command, who refuse to go home to Red-ruled territory. Meet Friday Night

The delegates meet at 11 a.m. (8 p.m. Friday est). There is strong hope that the meeting may lead to the signing of an armistice next week, after nearly two years of

negotiations. For the moment the South Koreans, in whose behalf the UN forces are fighting, were evidently the only obstacle to agreement, Their aged President Syngman thee asserted bitterly that agree present terms would be "accept

McCarthy Answers

Probably no one is a more controversial figure on the American scene today than Senator Joseph McCarthy. In his fierce struggle against subversive elements and supporters of these elements, he has been subjected to every sort of smear campaign.

Through it all he has steadily pushed forward with his efforts until, of recent months, he has finally begun to get some recognition for his work. Because of this belated recognition the following question and answer inquiry into one phase of Sen. McCarthy's probing is presented, along with his summary on the question of freedom of the press:

Q. Senator, you have been investigating the Information Program. Just what does the Information Program

A. There are five branches to the State Department's Information Program, No. 1: Motion Picture branch for distribution of motion pictures throughout the world; No. 2: A Library Section, which maintains 195 libraries in practically every nation of the world except Iron Curtain countries; No. 3: A News Exchange Section, which gathers and sends news to all information centers; No. 4: A Student Exchange Program; and No. 5: The Voice of America, which consists of radio broadcasting facilities - mostly short wave.

Q. Recently your committee has been checking all books by Communist authors which were purchased by the Acheson State Department and placed on the shelves of our libraries throughout the world. How many books by Communist authors were discovered by your com-

A. The committee's investigators have discovered, using Library of Congress statistics, that 31,345 books by writers who have been named under oath as Communists or who have public records of affiliation with Communist fronts were purchased by the Truman-Acheson Administration. Any reader in a foreign land who obtained one of those Communist books from our libraries obviously was entitled to assume they bore the stamp of approval of the U. S. Governmet.

How many Communist authors books were being

A. A total of 257 authors who either were named under oath as Communists or who had public records of Communist affiliation or activities.

What was the reason given by the State Department for purchasing such books at the expense of the

A. The Acheson-controlled State Department said such books were used to acquaint the people of the world with the American way of life and also to compat Communism. I, of course, fail to see how more than 30,000 books written by 257 authors with long Communist records could serve in any conceivable way to fight Communism. I agree with Louis Budenz, tormer editor of the Communist Daily Worker who has since reformed and has been of unlimited aid to our FBI in convicting and deporting Communists. Budenz stated before the committee that it was his opinion that concealed Communists in the State Department, were responsible for the purchase of those Communist books.

Q. What is the new administration doing about these

A. Following the disclosure of facts by our committee, the State Department, under its new leadership, ordered books by Communist authors removed from the shelves of our Information Centers in other countries. As fast as we disclose more information on Communist writers, the State Department has promised action in clearing out this Communist propaganda which cost the taxpayers hundreds of thousands of dollars.

Q. Do you think these Communist writers are really

A. They are harmful as propagandist who are under orders from Moscow. Many of them have careers which extend beyond the bounds of literature as was indicated on May 6 in a public hearing before our committee in Washington when Millen Brand, whose books were widely circulated abroad by the old State Department refused to answer whether he had ever engaged in espionage or treason against the United States, on the grounds that his answer might tend to incriminate him.

Q. The House Un-American Activities Committee has recently called a newspaper editor before the committee. What was the purpose?

A. The committee, headed by Representative Harold H. Velde, is charged by the Congress with the duty of exposing and investigating subversive influences which seek to overthrow our government. They are not interested in newspapermen as such, but they are definitely concerned with Communist activities on the part of any in-

The House Un-American Activities Committee called Cedric H. Belfrage, editor of the National Guardian on May 4th in New York City. The committee revealed that Belfrage was an alien who has for years been editing a pro-Communist publication attacking American institutions. Elizabeth Bentley, a former Soviet spy courier, said that in 1934 she had turned over to a Soviet spy ring Intelligence files which came from Belfrage. When questioned Belfrage refused to answer whether he had ever worked for Intelligence or had known Miss Bentley, on the ground that his answer might tend to incriminate him. He also refused to answer many other auestions dealing with his Communist background on the same grounds. In view of this testimony, I doubt if any inrelligent American or any newspaperman in our country would characterize the committee's action in question-Ing Belfrage as an invasion of freedom of the press.

HOLLYWOOD - (NEA) - Closeups and Longshots: Paramount's filming of "Red Garters" in Broadway musical - comedy stage technique has Producer Pat Duggan hailing "an escape from real-ism" and a chance for songs and music out of nowhere in movies without getting audiences all riled

Says Dugan: "The scenery will be the tip-off that it's all just pretend and nobody will question when Rosemary Clooney and Joanne Gilbert start singing, with in unseen orchestra. We won't have to show a phonograph in order to explain music.'

The idea brings back memories of when Al Goodman wrote a nelodic passage for 100 violins in the musical, score of the movie, "But Al," protested Director Al-

fred Hitchcock, "how are we goexplain 100 violins in the middle of the Atlantic Ocean?' "But Alfred," Goodman came back, "How are we going to explain why there's a movie camera in the middle of the ocean and YOU behind it?" Hollywood trade-paper headline

DISC CHORDS

Ronald Reagan tells it on him-

During his early days as a radio announcer in the Midwest, Aimee Semple McPherson came to town and was persuaded to preach a 30-minute ether sermon. Sister Aimee stopped four minutes short of the alloted time and Reagan ushed to the microphone to thank her and to announce that music would be heard for the next few minutes.

"I signaled to the man at the record turntable, expecting some-thing like 'Ave Maria.' 'Reagan tells it, "Instead, he came on with Minnie the Moocher's Wedding Day.'

Ingrid Bergman hasn't made a movie since "Stromboli," and hubby Roberto Rossellini is having career trouble, but there's no lack f money in the household. Mike Connolly, just back from Rome, reports they pay \$700 a month for their lavish apartment.

Marilyn Monroe, dining out, went unnoticed by other restau-rant patrons. Maybe it was because she was sitting down.

Ron Kennedy, a film newcomer, is a mattress salesman when he isn't emoting and quips: "It gives me something to fall back on." OLD-TIME LENSER

A silent movie house in Holly-wood has been playing an old Laurel and Hardy comedy titled "Liberty." The surprise is that George Stevens, the brilliant director of "Shane" and "A Place in the Sun," was the cameraman on the two-reeler.

Glen Ford's sticking to his anti-TV stand despite fabulous offers from the networks. With four un-released movies on the shelf, Glenn argues: "I very seriously don't believe in competing with theater exhibitors by appearing on

Maybe that's why Glenn has nore movie offers than he possibly can accept.
