'Little' Armistice Talk May Break Deadlock

PAMPANS PARTICIPATED IN CANADIAN RODEO — Among the local cowboys participating in the Canadian Rodeo Saturday and Sunday were Bill Stockstill (left), east of Pampa, and Buddy Cockrell, 1180 Charles. In this picture, Stockstill is the hazer and Cockrell, the bulldogger. (News Photo)

Oklahomans Spark Rodeo At Canadian

Three Oklahoma cowhands, sparking both rodeo shows at the annual Canadian Fourth of July celebration Saturday and Sunday, rode their way to top money with professional calibre performances. Jay Hendricks, Logan, Okla., bagged \$345 during the two shows to win the title of best all-around cowboy. Hendricks was first in the bareback riding and bull riding events Sunday; first in the saddle bronc event Sunday and second in this event Saturday. George Durrice, also of Logan, won a first place in the saddle bronc event Sunday, second in the bareback riding, and first and second in these events Saturday, was runner-up in the all-around cowboy title with a purse of \$270. And Duane Hennigh, Laverne, Okla., won \$230 for top timing in both shows in three events plus three pairs of levis from Canadian firms for fourth-place in other events. Two events Sunday saw Eldon Dudley, Perryton, wrap up first place with a professional time of 11.3 seconds in the calf roping and Gene Haynes, Arnette, Okla., first in the team tying with 14.9 seconds. David Hummer, another Perryton cowboy, downed a bull in 7 seconds flat in the bull dogging. (See OKLAHOMANS, Page 8)

Anti-Reds Renew Ire

BERLIN, July 6—UP—Anti-Communist East Germans have promised "blood for blood" to avenge workers who fell before Russian tanks in the revolt against the Red rulers of the Soviet-occupied zone, underground sources reported Monday. Threats of new uprising came as thousands of workers were reported to be continuing defiance of Red army tanks and combat troops with strikes and other anti-Communist demonstrations.

Oilman Says Price Hike Was Overdue

WASHINGTON, July 6—UP—Four major oil companies said Monday recent gasoline and oil price increases were long overdue and necessary as an incentive to increase production vital to national defense. W. W. Keeler, vice president of Phillips Petroleum Co., which started a price jump on crude oil last month, told the House Commerce committee the increases "were well warranted and long overdue." The committee is investigating charges that the recent series of price increases involved "collusion" between the big oil companies. T. S. Peterson, president of Standard Oil Co. of California, in a statement to the committee said: "I wish to say emphatically that my company's price decisions have been independently made."

Army Secretary Due In Texas

FORT WORTH, July 6—UP—Secretary of the Army Robert T. Stevens was scheduled to arrive late Monday at the Fort Worth airport. The secretary, who will be accompanied by Maj. Gen. Bernard L. Robinson — deputy chief of engineers in Washington and former Galveston district engineer — will make a "first-hand check" of Army District Engineers' work in the Fort Worth-Dallas area. G. I. Homes for sale, located all over Pampa, call 36, White House Properties.

Safe, Sane Fourth Observed Here

It was a safe 'n' sane Fourth of July week end throughout the area. Though there was plenty of illegal firecracker-tossing inside the city limits, not a person was admitted to either local hospital for cracker injuries. And Duengel-Carmichael ambulances did not make a single run. Only actively reported Sunday was a city automobile collision and a false fire alarm. Thurman L. Rowe, 42, of Pampa, and Audie B. Wade, 51, of 1314 Charles, were involved in a collision at 6 p.m. Sunday at Starkweather and Francis, according to city police. Rowe was headed west on Francis and Wade, north of Starkweather, police said, when Wade darted through a right-of-way sign too quickly for Rowe to stop. Total damages were \$200 and Wade was cited for failing to grant the right of way. Local firemen were called out about 10 p.m. Sunday to answer a report of a car fire in the vicinity of Highland General Hospital, but they never found it.

Rhee, Robertson To Confer Again

SEOUL, Tuesday, July 7—UP—President Eisenhower's personal trouble-shooter and President Syngman Rhee were expected to confer again Tuesday, amid speculation Rhee may be preparing his people for acceptance of United Nations truce terms. It will be the 10th meeting between U. S. Assistant Secretary of State Walter Robertson and Rhee in an attempt to break the deadlock in their "little armistice" talks. American sources reported that Rhee's attitude may be softening accompanied other reports that Eighth Army commander Gen. Maxwell Taylor was planning to withdraw the seven American and one British divisions from the battle line and turn the entire 155-mile front over to the South Koreans. The withdrawal plans would be put into effect in case Rhee decides to fight on alone. Korean reports that Robertson had suggested new, "less severe" truce terms to Rhee. However, the very nature of the Korean reports also aroused speculation that the Koreans may be "planting" stories about American compromises and proposals to prepare the Koreans for Rhee's acceptance of "now-or-never" terms laid down by the United States. If the withdrawal plan is put into effect, the non-Korean troops would move back one and one-quarter miles behind the battle line in accordance with the armistice waiting signature at Panmunjon. This would leave South Korean troops alone against a reported 1 million North Koreans and Chinese Communists on the other side of the line which cuts across the peninsula and dips a few miles below the 38th parallel near the west coast. Rhee then would have the choice of using his troops on the line as defense forces and maintaining an uneasy peace, or throwing them northward against the Communists as he often has threatened to do.

2-Price Plan Proposed On Wheat Surplus

WASHINGTON, July 6—UP—Chairman Clifford R. Hope of the House Agriculture committee said Monday he believes a "two-price system" would solve the problem of wheat surpluses now plaguing the Eisenhower administration. The Kansas Republican will play a key role when Congress overhauls the farm price support law next year. In anticipation of that he will call his committee to meet this week to lay plans for "grass roots" hearings to review the entire farm program. Hope said a two-price system for wheat would cut-off need for heavy government export subsidies and probably eliminate the need for government production controls on growers. "There is more interest in the plan today than ever before," he told a reporter, "and some Agriculture Department people are pretty strong for it." Under the two-price plan growers would be assured the government support price only on that portion of their crop which is produced for the domestic market. For the remainder, they would get only what it would bring on the competitive world market. At present, the government is supporting the price of the entire wheat crop and has been paying heavy subsidies in order to export wheat on the world market where prices are lower. The subsidies in recent years have amounted to several hundred million dollars. Secretary of Agriculture Ezra T. Benson, was forced last week to proclaim production controls on the 1954 crop. Although he opposes such controls, he was forced to act because farmers in response to the government price guarantee have piled up a record high supply of 1.7 billion bushels in the face of a shrinking foreign market.

Prayers Offered For Rain In Texas

DALLAS, July 6—UP—Texans Sunday prayed for rain to end the worst drouth in the state's history, but forecasters say they see no hope for rain in the near future. The drouth has parched farmlands all over the western part of Texas and Oklahoma, and in other areas of the Southwest. Rep. W. R. (Bob) Poage of Texas, who is the No. 2 Democrat on the House Agriculture committee, said an "old-timer" in his morning county told him that the Texas drouth was even worse than the drouth of 1886. "And that was last year," Poage said. "We a congressional group which toured the state by air" flew last week only 500 feet over Dawson county, where they used to produce more cotton than in any other Texas county. "If there is a thing in the world that will be produced there this year we couldn't see it," Poage said. A House committee met Monday in Washington to begin drafting legislation to help drouth-ravaged farmers, not only in Texas, but in Oklahoma, New Mexico and Kansas as well. Sunday was the 58th day of this year and the 47th consecutive day on which the temperature reached 100 degrees in Texas. It was also the 17th day this year on which the temperature has reached 110 degrees in Texas. Gov. Allan Shivers designated Sunday a "day of prayer for rain," and ministers of all faiths joined in conducting prayers. "Doesn't Deserve Rain" — At San Antonio, Rev. Claud J. Bonam, pastor of the Huisache Baptist Church, told his congregation that "Texas doesn't deserve rain." "The Southwest and Texas has turned its back on God," he said. "Generally we're not a very religious nation. When we repealed the 18th Amendment we indicated we wanted our booze, our wine, our song, so God is withholding his rain." He said his church at least four times has prayed for rain, and each time rain followed. Roman Catholic churches throughout the state for three years have closed their masses each Sunday with prayers for rain. Rev. Sam Capers, pastor of Christ (Episcopal) Church in San Antonio, said he believes praying for rain "mainly makes us realize that we are dependent on God to see us through."

Entrants in Soap Box Derby Offered Help With Racers

Soap box derby entrants who have not completed racers were notified today to call Dick Stowers at 366, Bob Carmichael, 400, or J. C. Hopkins, 80, for any help needed in completing construction of the racers. Inspection of the racers is scheduled for 9 a.m. Wednesday in the junior high school auditorium and all machines must be completed and at the gym at that time, according to Stowers. No racers will be accepted after that date, Stowers said. Transportation assistance for any boy who needs it may also be obtained by calling one of the three numbers above. The race, sponsored by the Jaycees, Culbertson Chevrolet and The Pampa Daily News, will be run next Sunday afternoon. Approximately 75 boys between 11 and 15 will be competing at that time for the championship award of a trip to Akron, Ohio, to compete in the American Soap Box Derby. Awards will be given to each entrant this year and will be made at a dinner in the Palm Room, city hall, at 7 p.m. Next Tuesday when the Jaycees will play host to the boys. The best frame, upholstery job, cover and other phases of the construction and race will be given special recognition and awards at that time.

Convicted Minister Asks Appeal Chance

ROCHESTER, N. Y., July 6—UP—The Rev. George P. Hetenyi, 43, convicted three times of murdering his wife, sought permission Monday to appeal his most recent conviction. Defense counsel William L. Clay of Rochester, was scheduled to present arguments at a special session of the appellate division Wednesday. Hetenyi has been sentenced to a 40-year-to-life prison term. If it comes from a hardware store we have it, Lewis Hardware.

LOCAL OFFICIALS GREET CONGRESSMAN Walter Rogers, Pampa, center, who met with approximately 125 area farmers and ranchers today at a noon luncheon in the Palm Room, city hall, to tell the farmers what measures are being taken by the federal government for assistance. With Rogers are Lynn Boyd, left, president of the Pampa Chamber of Commerce, and Clyde Carruth, head of the county's drouth relief aid. (News Photo)

Rogers Will Carry Aid Plan To Capitol

Congressman Walter Rogers will carry Gray County cattlemen's cry for emergency hay and for some sort of subsidized program for cattle to Washington tomorrow when he returns from a tour with agriculture department officials over the drouth stricken area of West Texas. Rogers told a group of 150 farmers from 12 area towns at a noon luncheon in the Palm Room today he would keep on insisting that hay or roughage be included in the drouth relief plans now being carried out in Washington. He explained the reason for feed concentrates being the only form of assistance planned because of its being among the surplus products of the Commodity Credit Corporation, authorized to carry out disaster relief aid under the President's emergency fund bill. Rogers told the farmers he felt that the hay would be forthcoming when proved necessary to Washington officials. Meanwhile several contracts for distribution of cottonseed meal, oats and corn have been completed for disaster relief in other areas. Some sort of government subsidization on cattle will have to be effected, Rogers stated, or the whole economy of the nation will suffer. Regardless of the form the subsidy takes, the Congressman pointed out, it can be justified to bring the livestock man who has bought everything in connection with his industry on a protected market and sold his product on a free market. Taking all price supports away is not the answer, he feels; "there is no need to destroy the whole farm program built up in the country." Citing the recent Pakistan wheat subsidy as an example of the type program sponsored by the United States government, Rogers told the group "the worst difficulty in getting aid from the government is that you live inside the U. S."

County Ranchers Awaiting Word On Drouth Aid Extent

Gray county ranchers are still waiting further word on whether the 1,000 tons of hay ordered through the drouth relief committee set up to administer federal aid here will be granted. Meanwhile, the state Production and Marketing Administration office reported today feed concentrates are being shipped to all counties with orders for this type of aid. In a telephone conversation with B. F. Vance, state PMA chairman, Clyde Carruth, head of the local drouth relief committee, learned only feed-concentrates have been allotted to counties declared eligible for disaster relief. Carruth is expecting cash assistance through the Farm-Home Administration before feed is brought into the area. James Goudly, FHA supervisor of Clarendon, was due in Pampa today to set up an office to administer loans with another FHA representative who is in Pampa each day this week.

Film Due Here On Waco Storm

A 35-minute film of damage caused by the Waco tornado will be shown to Pampans at 7 p.m. July 13 in the auditorium of the Junior High school. Already shown in an estimated 30,000 persons in 60 Texas communities and several in Oklahoma, the film showing is being sponsored locally by the Pampa Insurance Exchange. The public is invited without charge, according to Clovis Brakebill, local representative for the General Adjustment Bureau, Inc.

IN CONGRESSIONAL TOUR Poage Views Texas Drouth

EDITOR'S NOTE: The following story was written for United Press by Rep. W. R. (Bob) Poage, (D-Tex.), toured here and other congressional drouth-ravaged West Texas towns, the second ranking Democrat on the House Agriculture committee, is from Waco but operates a cotton and cattle ranch, which has been in his family since 1865, in Throckmorton county. By REP. W. R. POAGE
Written for United Press
WACO, Tex., July 6—UP—I have never seen such desolation as I saw last week, when I flew with a number of other members of the House Agriculture committee and Texas congressmen, only 500 feet over Dawson county, where they used to produce more cotton than in any other Texas county. We flew from Washington to Amarillo, in the Texas Panhandle, and got there early Friday morning. We got up a few hours later and began traveling around. We were not interested just in the big cattlemen, but in the little farmers as well as the cattlemen. One of the northern members after we had flown over a great many miles, said "it looks like the dead of winter down there." Of course, he was referring to the sand and dirt drifted up against the houses and other buildings, drifting across roads so they have to use graders to keep them open. We got low enough to see the houses. We could see where they had put barriers out in front of the doors—six feet or so in front—to keep the sand from drifting in and blocking the doors. No Crops Dawson county, as I said, led the state for a number of years in cotton producing. If there is a thing in the world that will be produced there this year, we couldn't see it. There is just no crop there. Northwest of there, where there is some irrigation, they will make some crop. But even in that area, the sand blows in, and the sand is blowing the cotton right down to the ground. Blowing sand is just like sandpaper. We flew on down, out the High Plains, over Midland, through the ranching country, parallel with the Pecos River. We saw no grass and little stock at all. What stock there was, was around pens where people were feeding them. We landed at Del Rio and drove north through the sheep and goat country. Those people aren't as bad off as cattlemen, they are plagued by some problem of lack of feed, but the drop in prices hasn't been as severe. No Grass for 3 Years Of course, they haven't had past (See DROUTH, Page 8)

Death Toll

By UNITED PRESS
The last minute rush of homebound motorists, some of them driving through rainstorms, spoiled an encouraging holiday weekend traffic record with a rash of fatal accidents. The National Safety Council, which had predicted 290 traffic deaths during the Independence Day weekend, had revised its estimate down to 215 and praised drivers for good sense and highway manners. Then, as the holiday drew to a close Sunday midnight, the death reports grew with grim rapidity. They continued to trickle in Monday. A United Press survey showed that at least 283 persons had been killed in traffic accidents. Another 125 drowned, plane crashes claimed three lives and 47 persons were killed in miscellaneous mishaps. Fireworks killed only one person, but more than 84 were injured and

several children maimed. The overall death total was 439. After Fourth of July parades and outings millions of Americans spent Sunday loafing, at sporting events or in making the weary drive home from their weekend retreats. At Lancaster, Ky., six persons were killed and four others critically injured in a two-car, head-on collision. Three persons were killed and five seriously injured near Sisseton, S. D. At least 37 persons were injured, eight seriously, late Thursday night when a loaded city bus and a light truck smashed head on three miles east of San Jose, Calif. One of the holiday's most tragic accidents took place at a state lake near Fremont, Neb. Robert Walsh, 26, who was to have married Miss Marlene Marsh in two weeks, drowned during a swimming party while she looked on helplessly.

SILHOUETTE INSURED — Curvaceous Kathleen Hughes, Hollywood actress, who has been named perfect 3-B girl had her "Hershey silhouette" insured by Lloyd's of London for \$200,000. Kathy, whom Manhattan Film Projectionist Union calls "3-D, dangerous, devastating, delicious," weighs 125 pounds, is 5 feet 7 inches tall and blonde. (See Telephone)

Mrs. O. G. Smith Gives Program For HD Meeting

Mrs. O. G. Smith gave a demonstration on making batter rolls at the Worthwhile Home Demonstration Club meeting held Friday in the home of Mrs. N. L. Welton.

A 40¢ piece of news in the current meat picture is sliced bacon. It rings the bell on these scores — it's in good supply, it's of unusually fine quality, and it's attractively priced. In fact, compared with prices of several months ago, sliced bacon tops the list as the consumer's best meat buy.

All of this will be good news to homemakers because bacon is a part in every household. It has a way with other dishes — both in their and served alongside — besides standing on its own as a famous dish for breakfast and other meals of the day.

Bacon and macaroni timbales served with additional bacon strips, make a fine main dish for luncheon, supper, or the family dinner.

- BACON MACARONI TIMBALES**
- 1 pound sliced bacon
 - 1 cup soft bread crumbs
 - 1 cup grated cheese
 - 2 tablespoons grated onion
 - 1 tablespoon chopped green pepper (optional)
 - 1/2 teaspoon salt
 - 1/8 tsp. pepper
 - 1 cup milk
 - 2 tablespoons butter or margarine
 - 3 eggs

Cook macaroni in boiling salted water until tender, then drain. With a pair of scissors, cut 1/2 slices of the bacon in thin crosswise pieces; fry until crisp. In a large bowl, mix together macaroni, cooked bacon, bread crumbs, cheese, onion, green pepper, and seasonings. Heat milk and in it melt butter or margarine. Add to first mixture, then add well beaten eggs. Pour into 6 greased custard cups, set in shallow pan of hot water, and bake at 325 degrees F. for about 40 minutes or until a knife inserted comes out clean. Meanwhile, cook rest of bacon until of desired crispness. Cool timbales 10 minutes, then unmold. Serve with hot tomato sauce and bacon slices. Serves 4 to 6.

On your next marketing trip, pick up several packages of plentiful, penny-saving bacon to use in your menus in these ways:

- Bacon-accompaniment makes these complete: Cheese omelet, French toast, plain or fluffy omelet, waffles.
- Bacony dishes — Spanish rice (combine cooked rice with crisp chopped bacon, tomato sauce and seasonings); bacon and scalloped corn casserole; bacon omelet; bacon and egg souffle; frankfurters wrapped with bacon and broiled. Chopped bacon adds interest to these: Sandwich spreads; waffle, muffin and corn bread batters; cooked vegetables; salads of tossed greens and hot potato salad; creamed and scrambled eggs; spaghetti sauces; cream soups.
- Use bacon strip to top these: Casserole of canned baked beans; scalloped vegetables; meat loaf; ground beef and noodle dishes.
- In cooking the breakfast bacon to perfection, remember these secrets of good bacon cooking:
1. Use fresh bacon (stored no longer than 10 days in the home refrigerator.)
 2. Place bacon slices in unheated skillet and cook over low heat.
- BROILED PEACH HALVES**
Drain peach halves. Brush with margarine or salad oil. Place in broiler when wien-

Mrs. Smith demonstrated the roll process by letting the batter rise one hour then put in muffin pans.

Mrs. Roy Tinsley was elected to go to Galveston to the State meeting of the Texas Home Demonstration Association. Mrs. J. A. Hoover was in charge of the recreation.

Mrs. N. L. Welton gave the demonstration on freezing rolls. Refreshments were served to Mmes. R. D. Berryman, Billy E. Tidwell and Matelda Smith of Los Angeles, Calif.; Roy Tinsley, J. L. Carlton, P. G. Turner, H. A. Hoover, Noah Cude, O. A. Wagner, Dewey Johnson, W. G. Kinzer, Ray Robertson, O. G. Smith, M. L. Robinson and the hostess. The next meeting will be held with Mrs. J. A. Hoover, 523 N. Hazel on July 17.

Pampa Visitor Is Honoree At Supper

Mrs. Howard Neath of Houston was the honored guest at a supper given in the patio of Mrs. W. C. Mitchell's home, 109 E. Virginia, Saturday evening. Mrs. Lou Roberts was co-hostess.

Attending were Mmes. J. Ray Martin, George Walstead, Howard Neath, Jessye Stroup, Lucy Miller, George Casey, T. F. Smalling, Archie Cole, Siler Faulkner, Roberts and Mitchell.

Manners Make Friends

If your child is old enough to be taken to a restaurant to eat, he's old enough to be corralled. The child who wanders around a restaurant annoying other diners and getting in the way of waiters loaded down with trays is a menace. So be sure you corral your child.

ers are turned and broil about 3 minutes. Arrange avocado slices and grapefruit sections in small bowls. Fill molds with gelatin made from grapefruit juice seasoned with salt and grated onion.

Life on a tropical island can be beautiful. Native Iowans Bob and Janet Miller make their permanent home in Puerto Rico. They are shown (upper right) tending orchids they grow as hobby. Mrs. Miller checks on food preparation (upper right) with her maid, Matilde. She has two maids and a gardener. While maid watches the Miller children (lower), the Millers relax with friends on the pool terrace of the Berwind Country Club. Dr. Miller is a dentist.

Living Is Easy, Life Is Sheer Bliss On Tropical Island, Say Iowans Living Where Cheap Orchids, Cheap Help Abound

By GALE DUGAS
NEA Woman's Editor

SAN JUAN, P. R. — (NEA) — Ever feel like loitering around the house, just taking it easy? This would be a cinch if you had two full-time maids and a part-time gardener. No worries about the children, meals, laundry or cleaning.

What woman wouldn't relish an existence like this now and again, particularly if she could get her contented trio of hired help for a total outlay of \$60 per month? Sounds fantastic? Indeed it does. But it's actually happening to one young American housewife. She's Mrs. Robert Miller and she lives in Villa Caparra, a suburb of San Juan, in a modern three-bedroom house. The house has maids' quarters and bath, a garage and good-sized yard.

dentist with a thriving practice. Both are natives of Iowa. Janet comes from Iowa City and Bob hails from Sioux City. They came to Puerto Rico in 1947 on their honeymoon and liked it so much they decided to make this tropical island their permanent home.

The Millers have two children. Bambi is 3½ and Bobby is 2½. Both were born in Puerto Rico.

"We probably could have equaled our present income if we had stayed in the states," Janet says. "And we'd probably be saving more money. But we're having such fun here."

"We can come and go as we please. We have a wonderful social life. We take part in numerous civic activities and we belong to two country clubs. (We couldn't afford them back home.) My help is perfect and this

means I can get away from the house as often as I please."

Bambi and Bobby have the freedom of a spacious yard in which to play. They live in a quiet neighborhood and attend kindergarten at a nearby school. The school bus picks them up at the door five days a week and delivers them at the door after lunch.

Janet Miller likes to give her family a typical American breakfast (juice, eggs, bacon, toast and coffee) and dinner (beef, fish, lamb or other meat, vegetables, fruit dessert). But lunch is nearly always Puerto Rican: rice and beans or chicken and rice (in a thick, soupy mixture); salted codfish or native vegetable soups with meat stock, plus fried bananas.

She markets about every 10 days for the big things and one

Representative Is Elected To Office

SHAMROCK (Special) — Pauline Baker, who represented Shamrock at Blue Bonnet Girls state, was elected as a member of the Board of Texas State Hospitals and Special Schools at Blue Bonnet Girls State. Pauline, daughter of Mr. and Mrs. J. R. Baker, was chosen to represent Shamrock Public Schools by faculty members of the high school. Her expenses were paid by the American Legion Auxiliary.

GRACE FRIEND

Dear Grace Friend
How does one regret a formal invitation to a wedding?
M. J. R.

Dear M. J. R.
An invitation to the church only requires no answer whatever. An invitation to the wedding breakfast or reception is answered in the same manner as that of the invitation. Although written by hand, words are space as they are in the engraved invitation. It should read as follows:
Mr. and Mrs. John Marshall regret that they are unable to accept
Mr. and Mrs. Robert Huntington's kind invitation for
Wednesday, the first of July
RED CROSS WORK
Dear Grace Friend
I noticed in a recent column, that you listed things junior high school and high school girls can do to fill their time this summer. I would like to suggest another activity.

Men's Hats Have Influence On New Styles, Designs

By ELIZABETH TOOMEY
NEW YORK, July 6 (UP) — Here's what happens when you look at the latest hat styles and ask the designer, "how come?"

He says something like, "I brought a lot of men's hats back from Europe."

You smile pleasantly at this conversational tidbit and start to rephrase your question about how come his new hats have such high crowns. Suddenly you realize the men's hats might have something to do with it.

"I never copy. I only get an idea," he assures you somewhat haughtily. Well, you wanted to find out W-H-Y as well as W-H-A-T the hat fashions would be, and you have to admit the fellow for his bonesty.

The men's hats, original versions and the still-unfinished adaptations, are in the workshop of a designer known as Mr. John. There is a cone crowned green velvet man's hat from the Swiss-German border vicinity; a bowler and a billed cap from England; a student's hat from Italy and a Gondolier's straw hat from Venice.

LOOKED LIKE AUTO ROBE
Mr. John held up a piece of something that looked like a plaid wool auto robe in one hand and a boy-crowned hat in another. The hat had been cut out of the blanket, adapted from the bowler. See how these things happen?

A model set the hat squarely atop her head. The designer squinted speculatively. There were still a few pins in the crown. He nodded and she replaced the hat with another. This was a different blanket plaid and looked a little like an upside down saucerpan, minus handle.

"All kinds of shapes come from an original idea," the designer said bowler in hand.

Next came a flat felt pillbox shaped to form a point that curled upward just over the model's forehead. It was a refined version of the Italian student's hat, the designer explained.

EXPECTS TO BE COPIED
"They'll love this one," he murmured. By "they" he meant the companions that make the hats you and I can afford. Top designers expect inexpensive copies of their best ideas.

That cone-shaped Swiss hat emerged with less brim than the original but plenty of crown. In grey felt it looked something like a bee hive with a narrow brim. In blanket wool it was jaunty, to say the least, worn almost straight over the forehead.

"I'm doing the man's billed cap in a more narrow version in leopard and in nutria," Mr. John said. He disappeared into his designing room with a faraway look in his eye.

"He probably won't come back to say goodbye," an associate explained apologetically. "This is a trying time."

To avoid stretching fabrics while ironing, iron in the direction in which garment has the least give.

Men's Hats Have Influence On New Styles, Designs

The girls can volunteer a half day a week for switchboard work at the Red Cross office in their neighborhood. The girls learn to operate a switchboard while they are giving their time to an organization badly in need of volunteer workers.

Junior college girls who don't have regular jobs might like to give half a day a week also.

They will have an opportunity of meeting new people and will find the experience an enjoyable one while they are learning something which will always be of value.

M. L.

Never toss used razor blades, loose in the rubbish. Place them in an emptied food jar, and replace the cover firmly before throwing into rubbish can.

Oxalic acid solution and ammonia may be used to whiten wool, but one should always test a small piece first.

To protect wallpaper when washing woodwork, hold a heavy piece of cardboard between the wall and the woodwork.

Oilers End Road Trip Tonight; Drop Sunday Tilt To Ponies

Return Tomorrow For 6-Day Stand

PLAINVIEW, July 6 — (Special) — The Plainview Ponies took the opening game of their crucial 2-game series with the Pampa Oilers here Sunday afternoon, 6-6, before a small sun-baked crowd.

An Oiler strategy in the eighth inning backfired in a winning Plainview rally. The Ponies came to bat trailing by one run, 6-5, in the bottom of the eighth and after tying the score on a triple steal, Don Stokes was ordered walked to load the bases with two away. That brought on the veteran Frosty Kennedy and the tobacco-coaching Pony first baseman laced a single to drive in the winning runs.

The Oilers, after tonight's game here, will head homeward to open a 6-day stay, meeting Albuquerque Tuesday and Wednesday, Abilene Thursday and Friday and Plainview Saturday and Sunday.

In Sunday's game, Manny Tames of the Oilers was held hitless for the first time in five games. Plainview opened the scoring in the game with one in the first. Jim Calahan and Sullivan both singled with Calahan taking third and scoring on Don Stokes' out-field fly.

The Oilers forged into the lead in the second. John Sanderson walked. Ed Krewall grounded out with Sanderson taking second and scoring on Quincy Barbee's single. Aldridge flew out and Deck Woldt walked. Molberg beat out an infield hit with Barbee scoring.

Don Stokes came in from the bullpen to replace Alford and got Manny Tames or a force play.

The Oilers added a single run to their lead in the third on singles by Doug Lewis and Pawelek and Krewall's outfield fly.

The Ponies came up with two in the third. With one out Stokes and Kennedy both singled and advanced to second and third as Al Belinsky grounded out. John Warren singled to center with Stokes and Kennedy scoring.

Plainview handed the Oilers three unearned runs in the fourth. One man was out when Deck Woldt and Molberg both singled. Manny Tames was safe on an error by Belinsky with Woldt scoring. Doug Lewis popped out, but Belinsky dropped Pawelek's liner with Molberg scoring and Tames came in to score as Bob Rose let the throw from the outfield get away from him.

The Ponies drove Aldridge to cover with two runs in the fifth. With one out Kennedy singled.

2nd Division Teams Feature WT-NM Play

BY UNITED PRESS

Second-division teams stole the spotlight in the West Texas—New Mexico League Sunday afternoon as they took three games of four from first-division foes.

Last-place Abilene embarrassed league-leading Lubbock with a 7 to 6 victory over the Hubbers. The Blue Sox overcame a five-run lead in the eighth inning with a six-run rally to take the game.

Another close contest saw seventh-place Borger edge third-place Albuquerque 6 to 5. The Caseros scored two runs in the bottom of the seventh inning, then cut a two-run Albuquerque outbreak short in the top of the eighth.

Amarillo, pounding three Clovis pitchers for 20 hits, romped to a 16 to 1 triumph. The Gold Sox scored 11 runs in the seventh and eighth innings. The Pioneers picked up their lone tally in the eighth inning.

Plainview, the only top-division club to score a Sunday victory, took an early lead, then added three runs in the bottom of the eighth inning to take a close 6 to 6 decision over Pampa.

PAMPA NEWS, MONDAY, JULY 6, 1953 Page 3

Giants Wallop Dodgers Yank Castoffs Hand Ex-Mates Twin Loss

NEW YORK, July 6—UP—The Yankees began Monday to feel a damaging after-effect of their nine-game losing streak—the fact that the rest of the American League discovered they are merely human beings after all and not supermen.

That streak was a definite psychological boost to a long-suffering also-ran club accustomed to getting pounded to pieces by the Yankees. Now, because the Yankees have shown they can lose with consistency too, the other clubs don't tighten up and that will cost the champs many a victory as the season progresses.

Sunday, in Washington, the Senators, who had beaten the Yankees only twice while losing seven games to them, took a 4 to 0 and 5 to 4, and cut their first place margin to 5½ games over second-place Chicago.

Used Yankee Castoffs

What's more the Senators did it with a couple of Yankee castoffs. Bob Porterfield, who has become one of the top pitchers in the majors, shut out his ex-mates with five hits in achieving his 10th victory in the opener. It also was his fifth shutout and his second blank job in a row. Victim of the defeat was Allie Reynolds, who was batted out in the second inning after Washington had scored all of its runs.

In the second game, Lefty Johnny Schmitz pitched five-hit relief balls for six innings to gain his victory over his old buddies. Jackie Jensen's double and Gerry Jensen's single drove in what proved to be the winning run in the seventh.

Chicago stayed a game ahead of third-place Cleveland by winning a 4 to 0 second game on Billy Pierce's five-hit effort, after the Indians came from behind with four runs in the seventh to win the opener. Lefty Minocha had put Chicago in front 6 to 3 with two homers in the opener but Cleveland pounded reliever Harry Dorish for the big rally to win. George Strickland drove in three runs with two hits. Bob Elliott set the hitting pace for Pierce's 10th victory, driving in two runs with a homer and single.

Detroit, which hadn't won a game from St. Louis all season to a pair of 10 to 7 and 7 to 1 losses, moved into the lead in its seventh game with a 10 to 1 victory over the Athletics, 10 to 2, with an eight-run first inning rally.

Giants Trounce Dodgers

In the National League, the Giants always chased the Dodgers out of the Polo Grounds with a 16-hit 20 to 6 victory and a league high for the season in runs scored as Milwaukee moved to within 1½ games.

Bob Porterfield... hauns ex-mates

Harmon Meets Burkemo In PGA Finals

BIRMINGHAM, Mich., July 6—UP—Claude Harmon and Wally Burkemo, two chunky battlers who have blasted par with great gusto, collided in the featured semi-final match of the PGA golf championship Monday as tiny Felice Torza faced Virginian Jack Isaacs in the other.

These four—all "home pros" who ignore the tournament trail for club jobs—were the surprise survivors from the field of 136 who began the grueling seven-day race last Wednesday.

The final three tournament stars, Dave Douglas, Jimmy Clark and Bill Nary, met at Isaacs' club on Sunday in upsets, along with club pro Henry Ransom.

Snead-Conquerer Ousted

Burkemo sidelined Douglas, conqueror of three-time Champion Sam Snead and Lew Worsham in previous matches, 7 up; Harmon walloped Nary 6 and 5; Torza topped Clark 1 up, and Isaacs put up Ransom by the same margin.

Harmon, the former Master's champion from Mamaroneck, N.Y., has clipped six strokes from par during 132 holes enroute to the semi-final while Burkemo, of Franklin, Mich., a two-time Purple Heart winner in the bulge, is five under for 136 holes.

Isaacs, civilian pro at the Langley, Va. Air Force Base, has bettered par by three strokes in the 137 holes he has played. Only Torza, a 135-pounder from St. Charles, Ill., is above regulation figures, nine over par after 142 holes in the toughest of all golf tournaments.

Burkemo, the 34-year-old runner-up to Snead in 1951, was two down after 18 holes in his quarter-final match against Douglas. But he rallied to a afternoon round and drew away to a three hole lead at the 33rd hole.

Oilers Option Out Aldridge, Machado

Two Oilers were optioned out this morning, another was handed his outright release and one pitcher was purchased according to Hamilton.

Pitchers Roger Aldridge and Ray Machado were optioned and infielder-pitcher John Flowers drew his outright release.

Aldridge is being optioned to Deland, Fla., of the Florida State League and Machado is being optioned to Morristown, Tenn., of the Mountain States League.

The new pitcher signed is Orlando Rodriguez from Paris of the Big State League. Rodriguez was with Sweetwater of the Longhorn League last season and compiled a 10-13 record.

The other new players acquired by the Oilers the past week end are due in town today.

6 Repeaters Named On Major All-Star Teams

CHICAGO, July 6—UP—The starting major league "all-star" teams were set Monday for the 20th annual inter-league contest.

Only six players, three from each league, were selected as repeaters from last year's teams.

The New York Yankees and the St. Louis Cardinals both placed three men on each time while the National League champion Brooklyn Dodgers tied the Cincinnati Redlegs by placing two representatives.

The two teams, selected by votes of the fans, will meet July 14 at Crosley Field in Cincinnati.

Yankee Manager Casey Stengel and Dodger Manager Casey Stengel open will handle the two teams and select their own starting pitchers and supporting players.

Repeaters from last year's game include Al Rosen, Cleveland third baseman; Hank Bauer, Yankee right fielder; Yogi Berra, Yankee catcher; Stan Musial, Cardinal left fielder; Enos Slaughter, Cardinal right fielder; Roy Campanella, Dodger catcher.

Ted Kluszewski, slugging Cincinnati first baseman, led individual players in votes with 1,632,803. Yankee center fielder Mickey Mantle was second with 1,413,938.

The Cardinals placed Musial, Slaughter and second baseman Red Schoendienst to equal the Yankees' Bauer, Berra and Mantle.

The Dodgers' Campanella and shortstop Peeewe Reese tied with the Redlegs Kluszewski and center fielder Gus Bell.

First U. S. cows were brought over to the Jamestown colony in 1611.

Oiler Defense Picking Up With Fourth Consecutive Errorless Game Yesterday

THE OILERS CAME UP WITH their fourth consecutive game without an error yesterday at Plainview but lost a heart-breaking 8-6 decision.

That is a complete reversal of form concerning the error department for the Oilers. The Oiler defense wasn't exactly perfect yesterday, though. Reserve second baseman John Flowers had a mental lapse and failed to cover first on a sacrifice bunt and that very well could have cost the Oilers the ball game. The bunt was scored as a hit and no error charged.

The Oilers were leading by one run when Flowers went to "sleep" on the field and before the Ponies could be retired they had three runs in and the ball game.

By losing yesterday's game, the Oilers only lost ground to the Ponies among the teams who are above them in the standings. Going into tonight's game the Oilers are only 3½ games out of second, two games out of third and 1½ games behind Plainview in fourth.

A victory tonight would certainly help but the chances are slim since the Oilers used up two pitchers yesterday. We were hoping Jake Henson would get another day's rest and open up the home-stand that begins tomorrow night. But Henson may be called on to start tonight's ball game with only two days rest. He blanked Abilene Friday night after two days rest so he might come through tonight if his number is called.

Manager Porky Pawelek is probably the "unluckiest" manager in the league when applying "intentional walk" strategy. Time ago again this season an opposing batsman has been purposely passed only to have the next batter to come through with a hit.

The latest was yesterday when Don Stokes drew an intentional walk with two away to get to Frosty Kennedy. Kennedy promptly broke up the strategy with a 2-run single to snap a 6-4 tie.

We're just second guessing but it has always been our thinking that if two dangerous hitters come up in a row at a crucial point, take your chance on the first one. However, we could see Porky's point in giving Stokes an intentional walk. First, Stokes, a .400 plus hitter had gotten only one hit all afternoon and was certainly due to get another one. Secondly, first base was open and that would make it a force play at all bases; and thirdly, Kennedy had already gotten two hits and wasn't exactly due to get another. But, it didn't happen that way.

Had Kennedy responded and made an out, Porky would have

been a hero but as it was, it was just a "bum."

That's something a manager has to go through and none, even the major league bosses, are perfect situations as this happens in the major leagues almost every day.

We believe Pawelek has done a good job as the Oiler boss this season. It must be pointed out that this is his first managerial experience and he has kept the Oilers up with the leaders a season despite the great odds stacked against him. There's only been a very few games this year that the Oilers haven't had at least one out of the lineup due to an injury.

We don't have the figures at our finger point but there haven't been many Oiler losses in the year. Look the field in A-1 condition.

Manager Grover Selts of Clovis didn't have too much luck yesterday, either, with intentional walks. He dished up two purposeful base on balls and the next batter, on both occasions, was pitched Eddie Locke of Amarillo and the television 10-rounder at Brooklyn Eastern Parkway arena Monday night. Portuguese replaces Willie Troy of Washington, who withdrew Friday after suffering heart protrusion while training in a Hartley gymnasium.

Portuguese To Fight Williams

NEW YORK, July 6—UP—Although he's going in as a substitute, middleweight Tuzo Portuguese of Costa Rica was favored at 2 to 1 Monday to beat Charley Red Williams of Newark, N. J., in a television 10-rounder at Brooklyn Eastern Parkway arena Monday night. Portuguese replaces Willie Troy of Washington, who withdrew Friday after suffering heart protrusion while training in a Hartley gymnasium.

Gray Does About Face

ST. LOUIS, July 6—UP—Slender Ted Gray of the Detroit Tigers, who lost his first nine decisions this season, is streaking in the opposite direction. Gray scored his fourth consecutive victory, 7 to 1, as the Tigers beat the St. Louis Browns in the second game of Sunday's doubleheader.

Colts Nip Odessa In 14 Innings, 5-3

By UNITED PRESS

San Angelo's Len Brown broke up a 3-all tie in the 14th inning Sunday night, giving the Colts a 5 to 3 victory over Odessa. Ben Bonine got credit for his 11th win against four losses after relieving in the 10th.

Odessa came from behind in the ninth to tie the game at 3-all. Gil Guerra, starter for Odessa, singled and scored Roberto Fabian.

Len Ruyie pitched an eight-inning shutout for the Colts. He took a 7 to 1 victory over Roswell. Joe Bauman and Les Muldahl, both hit two-run homers for Artesia.

Midland scored the winning run in the eighth to down Big Spring 9 to 8. Mike Rainey, third Midland pitcher, gained credit for the victory. Juli de la Torre hit a home run in the fourth inning to lengthen his consecutive hitting streak to 24 games. Joe Rine, Big Spring outfielder, hit his 11th homer of the season with two mates aboard.

Brown Wins French Race

REIMS, France, July 6—UP—Mike Hawthorn of England, a 28-year-old newcomer on European courses, won the Grand Prix of France automobile race Sunday when he defeated Juan Manuel Fangio of Argentina by a few meters in the most thrilling event of the Continental season.

Williams Wins Huber Tourney

JUMP 1-18 WILLIAMS

BORGER, July 6 — Jack Williams of Plainview captured the annual Huber Invitational Golf tournament here Sunday, defeating ex-Amarillo Sandie footballer Jack Newby in the final, 6-5.

Williams, who won his second tourney title this year, easily outclassed the field from the word go. Only one of his four matches went past the 18th hole. Before the finals, Williams had beaten David Koch of Amarillo, 6-5; James Christopher of Amarillo, 7-6; and then Charles Douglas of Canadian, 3-2, in the semi-finals.

Newby upset medalist Billy Holms of Shamrock in the semi-finals Sunday morning, 1-up, to gain the finals.

By mail \$10.00 per year in retail trading zone, \$13.00 per year outside retail trading zone. Price for single copy 5 cents. No mail order accepted in localities served by carrier.

Ike And The Bureaus

Who is the boss of the Executive Branch of the government?

The obvious answer, of course, is that the President has this power, and discharges it through his cabinet members and other top-level appointees. That is theoretically true. But in actual practice, the situation isn't nearly so simple nor clear-cut.

In one of his Newsweek columns, under the significant title "The Shackles of Victory," Raymond Moley wrote: "A conquering general who turned statesman, the Duke of Wellington, once said that 'nothing, except a battle lost, can be half so melancholy as a battle won.' Another victorious general turned statesman, Dwight D. Eisenhower, is probably thinking something exactly like that. For this warrior who hurled armies across Europe is beating futile blows against the rubber wall of bureaucracy. He cannot as of this date administer his government because he lacks the very vitals of control. He can and has appointed a group of what are technically called top policy making officers. . . . They, like the President, are Gullivers bound down by Lilliputians, without whom they can know nothing and do nothing but because of whom they cannot effectively carry out the policies and promises of their party."

Moley went on to cite some examples. According to him, Secretary Hobby has some 30,000 employees under her, but when she took over she had only 10 available job openings. Secretary Weeks supposedly runs 50,000 people, but he could fill only 4,000 jobs, most of them on an extremely minor nature. Secretary Benson found that he could immediately replace only 300 of his more than 55,000 workers. Matters seem to have been similar in other branches and departments.

As Moley pointed out, the vast army of hold-over government employees includes many people of high ability and integrity. But it is an obvious fact that the great majority of them got their jobs because they had served the opposition party well, and it would be unreasonable to expect them to feel any real enthusiasm for the man who finally defeated the forces of the New Deal and the Fair Deal.

Little by little, of course, the faces behind the government will change. But it will be a slow process — much slower than the top Administration officials apparently realized when they took over.

This is symptomatic of the enormous change that has taken place in government. Without arguing the virtues and evils of what has happened, it is apparent that government has grown so swiftly, and in many instances so haphazardly, that effective control is unbelievably difficult. Attempting to rectify this will be as difficult a long-range problem as the Administration will face.

Work Spells Success

"I am often asked if there is as much success opportunity today as there used to be. I always answer that there is more — if the youngsters will only work at it." Thus, Carl F. Wentz, president of Bank of America, summed up the outlook for the young people of today.

"If the youngsters will work at it" — that is the point that must be borne in mind. In other words, with the opportunities in the world at his feet they will be of no value to the person going into business unless he makes use of them. And making use of them means work — not just physical work alone, but mental activity as well — study, alertness and observation.

These points cannot be emphasized too often at this season of the year when so many of our young people leave the classrooms and go out into the field of business. Sometimes the delays in reaching the level of success they feel they should quickly attain causes some of them to stop trying, or worse still, to blame circumstances or other people for their lack of progress.

There is no substitute for hard work and there is no substitute either for the determination that enables a man to rise above set-backs and reach the desired goal. So, we agree with Mr. Wentz's view. There is opportunity — but you must work at it.

The Best Exercise

Remember the old weight-losing adage? It says, "The best exercise is pushing away from the table."

Recent reports from Washington seem to show that we taxpayers could stand a little of the same exercise. We elected an administration that promised to cut government spending, and now we're not letting them do it.

Congressmen are being pressured two ways at once by their home folk — "Vote for economy, Joe, but don't let them touch our flood control project, highway aid, free veterans' hospital care for people who can pay, or farm support prices" — choose one or write your own.

We must remember that government spending for civilian purposes is largely on relatively local projects, and that it cannot be cut unless the people are willing to pay their own way.

Every project that we demand of our lawmakers increases taxes not by just the amount of the grant, but also by the cost of government overhead and salaries.

The best exercise for our oversize government is taxpayers pushing themselves away from the public trough.

BETTER JOBS

By R. C. HOILES

Pen Mightier Than Sword

While I have previously commented on Ben Moreell's booklet "To Communism Via Majority Vote," I want to reproduce a little folder summarizing this masterpiece, issued by the Constitution Press, Box 8105, San Antonio, Texas.

Reprints of this article can be had for 2 cents per copy. It might be well for those who want to fight socialism to get a few copies of these and hand them to people who think the Republican or Democratic Party is going to save us from socialism.

From here on I am quoting from this pamphlet:

"In 1913, thirty words, three commas, and a period, enslaved a nation of millions without a shot being fired. No other conquering heroes can boast such a record.

"The 16th Amendment to the U. S. Constitution is the second plank in the Communist Manifesto platform in full effect. Read the 30 scarlet words.

"The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

"No wonder other nations think Americans are silly. They fight communism abroad but practice it at home.

TO COMMUNISM VIA MAJORITY VOTE

"This is the arresting title of a 34 page booklet written by Mr. Ben Moreell. Chairman of the Board, Jones and Laughlin Steel Corp., Pittsburgh 30, Pa.

"Those afflicted with the socialist-communist virus will not relish the facts being brought out in the open. Those imbued with the spirit of the American Way of life should be shocked to discover their Government has put the Communist Manifesto platform into effect instead of an American platform.

"Space does not permit giving more than a brief digest of Mr. Moreell's thorough presentation of the amazing fact that what the artless call democracy in action is in fact socialism-communism in effect.

"This digest follows on pages two and three.

The Communist Manifesto Platform
1818

"The first step in the revolution . . . is to win the battle of democracy.

"The proletariat will use its political supremacy . . . to centralize all instruments of production in the hands of the State . . .

"This cannot be effected except by means of despotic inroads on the rights of property . . .

"1. Abolition of property in land and application of all rents of land to public purposes.

"2. A heavy progressive or graduated income tax.

"3. Abolition of all right of inheritance.

"4. Confiscation of the property of all emigrants and rebels.

"5. Centralization of credit in the hands of the State, by means of a national bank with State capital and an exclusive monopoly.

"6. Centralization of the means of communication and transport in the hands of the State.

"7. Extension of factories and instruments of production owned by the State; the bringing into cultivation of waste lands, and the improvement of the soil generally in accordance with a common plan.

"8. Equal liability of all to labor. Establishment of industrial armies, especially for agriculture.

"9. Combination of agriculture with manufacturing industries; gradual abolition of the distinction between town and country, by a more equitable distribution of the population over the country.

"10. Free education for all children in public schools. Abolition of Children's factory labor in its present form. Combination of education with industrial production, etc., etc."

"There is the Communist Manifesto one hundred year old platform, the 'bible' of present day communists wherever they be. They be too plentiful here as we can see by the laws enacted to put the communist platform into effect in this country.

The United States Effectuates It
1853

"The democratic revolution is unconstitutional voting for all public officers from constable to President.

"All union members may not be socialists or communists but labor unions are based on the socialist-communist ideology of imposing their will by FORCE.

"We fight for FREE property and men in foreign lands, while losing property and Freedom at home.

"1. The Federal Government now owns over 24 per cent of all surface land and is steadily confiscating more.

"2. Income Tax imposed in 1913, 16th Amendment.

"3. Government grabs up to .5 per cent of inheritances.

The Big Stick

National Whirligig

Committee Urges That Private Industry Develop Niagara Falls

By RAY TUCKER
WASHINGTON — In defiance of President Eisenhower's last-minute veto, the House Public Works Committee, on behalf of Gov. Dewey, Thomas E. Dewey, the overwhelmingly Republican House . . .

project on Niagara River and Falls by private interests rather than by the federal government. It was a deliberate rebuke of the White House and Ike's favorite politician.

It is doubtful if any domestic issue has so infuriated Capitol Hill Democrats, or so delighted the Democrats, as the administration's apparent attempt to hand this project over to the communist ideology.

"9. Farm parity and price control combines farming and industry under their right label or for socialism or communism branded as such, but under the old familiar labels of Democrat and Republican the mob did not hesitate to vote everybody into slavery.

Let's Face Facts
"Socialism - communism was not forced on this country by a gang of bloody revolutionaries or by military invasion. Neither did the voters in Russia, China, or some other country, do the dirty job.

Who Did It?
"Lawmakers elected under the label of Democrat or Republican enacted the socialist-communist legislation, and Democrat and Republican voters elected these lawmakers.

What Motive?
"If free democracy by a social racketeers for profit, had many people in the nation they could get a little bit pregnant with socialism-communism without actually giving birth to the monster. But nature took its course.

When The Impetus?
"The Communist Income Tax Amendment adopted in 1913 provided unlimited funds for expanding socialism - communism and One - World Imperialism.

Where To Now?
"The present Washington Socialism is no different from past products of indiscriminate and unconstitutional popular voting for President. It is keeping the same socialist - communist laws in effect - and continuing the same socialist - communist program: more taxes, more debt, more inflation, more appeasing foreign communists, more throwing away billions in every world rat hole it can find — and looking for more holes.

Why No Difference?
"The mob just thinks it makes a change at elections. Faces may change, but not the Government Monster.

How To Change?
"Junk the political machinery of the One - Worlders and build a Constitution Party of Americans."

Fair Enough... Tax Dodge Favoring Congress

Members Was A Selfish Move

EDIT 2-34 Tax Dodge. . . . By WESTBROOK PEGLER (Copyright, 1953, King Features Syndicate, Inc.)

The financial troubles of the men who vote the income taxes in Congress should make it clear to them that they have gone far toward the destruction of the great republic of the Western world. But they are, as a whole, selfishly concerned with their own little problems of reelection, patronage and income.

Did it occur to them that if their income taxes left them less than enough to support their families, then the income tax must be too high? That the faceless man who produces the bulk of the national tax income must be in the same desperate fix?

They have thought only of tricks, having "the color of legality" but the substance of larceny-by-trustee, to relieve their own little pains. They did it first by granting themselves salaries and bonuses — gifts of money which they artfully declared to be exempt from the high taxes which they laid upon the rest of us.

This graft was exempt even from accounting. All they and Truman had to do was "certify" that it is legal in writing, that they had spent the graft on legitimate official expenses. The excuse was that they were too busy serving the people to be required to spend hundreds of hours a year, at the producing workshops to do such chores for them, on salaries paid by the tax producers. Truman's staff were stumbling over one another. But still it would be confusing to go into detail about the lawless changes and selfish proposals of Congress to relieve itself of the same burdens that it imposes on the rest of us.

It would do no good to abuse these people. We must try to explain things to them. The fact that should be labored is that they have actually gone through a politico-economic barrier. The Communist tax plan has always included taxation so high that the taxproducing citizens of this republic would find themselves broke at the end of the year, no matter how much they earned.

Many are not only broke but in debt for loans to pay their taxes. The Communist scheme of destruction called for the cheapening of the dollar by taxation. This has been accompanied by storms of contempt against all who tried to warn the people and Congress of the danger. Whoever did this was a selfish exploiter of the poor, a rich malefactor trying to duck his own taxes and shift the burden to a gaunt worker in tatters. As fast as our pay is raised nowadays, whether we are factory hands, ball players, the income tax devours so much of the raise that the little remainder is petty. This simply means that we cannot advance.

Why then bother to work harder or better? It means that we wear out gears in the Bureau of Printing and Engraving turning our greenbacks to be sluiced back into the Treasury. The money is being purchasing power, day by day. The government's own bonds, which are thrust upon wage-earners by confidence-men working the radio and holding forth in propaganda columns, are declining in price and are about one-half in buying power. And the dollars that the people do get for these depreciated bonds are, many of them, literally no better than counterfeit.

If a government prints a billion one dollar bills, and then puts them into certain cash drawers, noting on the books that this billion has been collected in taxes, that government is kidding itself. The money was worthless when it came from the press. It is worth a dime beyond its value as salvage paper, when Roosevelt proposals he shelved. He said that the Budget Bureau wanted to make a further study of the Niagara problem, although it has been under consideration for many years.

HUGHES DEMAND UPSETTING—What gave Dondero and fellow-members high blood pressure was the Hughes demand that Congress surrender jurisdiction over Niagara, and turn it over to the White House-dominant Federal Power Commission. He urged legislation repealing the provision in the treaty with Canada under which the Senate declared that no power project "can be undertaken until it is authorized specifically by Congress."

Enacted during the Truman administration, this clause was inserted as a safeguard against presidential usurpation of Capitol Hill's authority in this field.

Amidst sputtering and denunciation, the committee voted for the private firm's proposal by 14-7. But the administration's confusing and inconsistent stand will probably prevent any action at this session, despite the dire need for more power for national defense, industries and residential consumers.

The payoff came on June 23, when the Dondero Committee met for final action on the three Niagara measures. On that very morning, by messenger, Rowland R. Hughes, assistant budget director, sent a letter to Dondero, suggesting that the Dewey, the private companies and the Lehman President, urging against too conservative a policy.

"Now one daughter is grown and is Sherman Fairchild's private secretary. Imagine that. The girl who works for a great airplane manufacturer. My other daughter is still in school-but bright. She is American. That's all she has known. She was a baby when we brought her here. I have to tell her sometimes about freedom. Look at me now; modestly secure, free to travel in all directions, happy, safe. I can get in any plane or train for which I have the fare. No man with a gun can come along and throw an epithet at me and throw me off to the ground."

"I am happy because I am free. And I suspect that this never could mean to you what it means to me."

"Everybody is a story, probably. All you have to do is listen and go half - way with the stranger at your side. It was that way in an airplane the other night. I ran to an almost departing plane, got in, sat down, relaxed for the take-off and, when the ship was airborne, began looking around. The man next to me, at the window, was a trim, middle - aged man whose hair once had been red but now was flecked with gray. He was reading The Buffalo Evening News. I'm about newspapers the way debutantes are about caviar. I must have looked hungry. When he finished the first section, he asked me if I'd like to see it. It was a courtesy from one stranger to another.

We both read for half an hour and folded the sections up about the same time. We began to talk. I wanted to know about him because I like to know about people. Maybe he wanted to know about me for the same reason. I discovered that he was a salesman for costume jewelry. He earned a goodly amount for newspapers. He said that this was the most beautiful and inspiring country in the world and he ought to know; he'd been born in Poland and brought up in Germany. "I was a wealthy man, once," he said. "In Germany, I suppose if I'd stayed I would be a dead man. I was lucky. I traded wealth for freedom. I had a wife, an infant daughter of a year and another about six years old. I gathered together what liquid cash I could get and we started out. That was in 1938. I wanted out because I knew if I didn't start we would be killed. They must have decided to let me go — after a little trouble. We were arrested three times and three times they knew just how much to take so that the next group could get a portion of the money. By the time we were out of Germany they had most of it. They thought they had all of it, but I had concealed some."

"In time I was away from Europe. I won't trouble you with how. But I was no longer a wealthy man, only a deeply concerned man. We reached Cuba without much money. It didn't, for the first time in my life, seem to matter. It was difficult. I had to remain there, without work, waiting to be admitted to the United States. But a man with a wife he loves and two little children somehow feeds and houses them. I can't remember now what all I did to care for them. And then this country opened its doors to me. We arrived in New York penniless. Was that a shock for a once wealthy man? No, sir. Now, truly, for the first time I knew that it did not matter. Money does not matter. Not at all. They don't let you starve in the streets. They feed you, protect you. Not in a mansion, but clean and good. I learned the most valuable lesson there: money doesn't matter."

"I got a job. At \$20 a week. We managed. I met men and some had heard of me and they helped me to better jobs. To \$30 a week and then \$50 a week and so on. I began to feel safe and confident. In Germany, all that I loved was dead. Relatives, gassed and burned in camps. Dear friends destroyed by Nazi hate. All dead. Only we four of all that I once held precious had survived. I worked hard. I saved what I could, sought for opportunities and grew strong on air that tastes of freedom. You are used to it. You have always had it. You can't taste that flavor. But it's there and the thoughts like me can tell you what it is."

"I am happy because I am free. And I suspect that this never could mean to you what it means to me."

"I am happy because I am free. And I suspect that this never could mean to you what it means to me."

"I am happy because I am free. And I suspect that this never could mean to you what it means to me."

ELECTRIC SUPPLY GUARANTEES ALL WORK

GET CORNELIUS SERVICE — When it comes to servicing automobiles, whether they are in need of a tuneup job or a complete overhaul, depend on the Cornelius Motor Co., located at 315 W. Foster. They can keep your car in the pink and give the undivided attention it needs. They have only the best of equipment and materials at your service to give a really qualified job of servicing your car. Bring it in today and let them give it a complete check-up. Or better still, bring it in for a Safety Lane check-up.

Let Chrysler Specialists Keep Your Car Healthy

It figures; doesn't it? You know there's lots of mileage you can get in your Chrysler, and the Cornelius Motor Co., located at 315 W. Foster, knows how to give you the benefit of every bit of it. This know-how will keep your car "in the pink" and save you time and money on service work. No matter what kind of a car you drive, bring it in to the Cornelius Motor Co. when it needs service. Their certified service specialists will do the job right, in less time, and at low cost. The servicemen over at Cornelius Motor Co. know your Chrysler and Plymouth inside out, better than anybody else possibly could. They get to the trouble spot fast, and they work to factory standards, using only factory engineered parts. This specialized service saves you time, and their know-how gets the job done right and keeps the cost down. When your car needs service, a lube job, a check-up or adjustment, don't go to the Cornelius Motor Service department. They'll show you just how Cornelius service serves the car owners best. If you are in the market for a new car, stop in at the Cornelius Motor Co. and let them demonstrate a wonderful buy you can get in a Chrysler. There has never been a finer Chrysler on the road. Luxurious in every respect, spacious, plenty of room for all, and low cost driving power that enables you to drive with one finger relieving all tension and driving strain. Stop in and look over the wonderful buy you can get in a new '53 Chrysler today. If you are interested, they want you to take the time to drive one of these new beauties for yourself. Test it on the road and feel the difference. The Cornelius Motor Co., 315 W. Foster, also offers you the new value in lower priced cars. The new '53 Plymouth, that features the new "Hy-Drive" Yes, it's true, now you can have no-shift driving in your Plymouth. A new world of driving pleasure is yours when you take the wheel with Plymouth's smoothest no-shift driving in the lowest-priced field. You'll also see all-new styling that gives you more room for passengers. You'll see new features that mean more comfort and safety. You'll find the softest, smoothest ride ever built into a low-priced car. Stop in today and look at the wonderful buy in either a new Chrysler or Plymouth. And don't forget the top quality service department that Cornelius Motor Co. offers you. Stop in anytime and talk over your car problems with courteous, friendly people.

Various Printing Needs Filled At News Job Shop

Any kind, style, or color of job printing may be had at The Pampa News Job Printing Department. The Job Department is under the management of Bob Fugate who knows the business completely. He can help you select the form and style of printing that you desire and he will help you with any color work you may want. For instance, colorful circulars have proved to be a successful method of advertising promotions, races, meetings, etc. Inquire by phoning 666 and ask for Bob Fugate if you are planning an economical way of advertising. Wedding announcements must have the correct style and form for the successful wedding, and The Pampa News Job Department can print your invitations in either fancy or plain type. Bring your wedding invitation problems to Bob and let him help you solve them today. Another feature of The Pampa News Job Department is personalized stationery. You can have this stationery printed with name and address, plus a picture of the person's hobby or work. This may also be obtained in color if so desired. This stationery makes wonderful gifts and nothing is so cherished as personalized stationery.

ALL ELECTRICAL NEEDS FILLED HERE: — Yes, all your electrical needs can be filled at the Electric Supply located at 836 W. Foster. They can rewire your home efficiently and you receive only the best of materials. When it comes to oil field electrification, let them bid on your job and you'll find they can do the job for less. The Electric Supply is a complete electrical headquarters, and you will love their display of fine appliances and beautiful lighting fixtures. Stop in and talk to them about any wiring difficulty you may be having. They are specialists in this field and they can help you in no time, plus saving you money.

Faulty Wiring Problems Solved By Pampa's Electrical Headquarters

You can solve any electrical problem if you bring it to the Electric Supply, located at 836 W. Foster. The Electric Supply is under the ownership of Sids Southard, who has been in this area for quite some time. And he's had plenty of experience in the electrical field also. His personnel is trained to give the best service possible and is interested in your household or office wiring problems. You'll find they are courteous as well as capable, and that the materials used on the job are the finest to be had. In fact, all work and materials are guaranteed to give the utmost satisfaction. The Electric Supply warns you against having overloaded circuits in your home. By overloaded circuits they mean electrical outlets that have too many appliances or lighting fixtures plugged in. Overloaded circuits can be very dangerous and your home and life may be saved if you act now and call the Electric Supply at 1106 and let them come out and test your home or office circuits. You will find that it is so economical to let them wire your home or

office efficiently so that you get added electrical service and yet prevent danger from overloaded circuits. They will come to your home and check it free of charge, and if it does need rewiring, they will give you a low estimate on the cost of rewiring. The Electric Supply, 836 W. Foster, also specializes in oil field electrification. If you are in need of electrical wiring on an oilfield job, let the Electric Supply bid on that job, because they can give you a low bid plus the fact that you will get nothing but the best in dependable, experienced workmanship and quality materials. Sids also has a fine selection which will enhance the beauty of any type of interior decorating theme. These lighting fixtures are priced at various amounts and you can find just the type of lighting fixture that will suit your decorating scheme and your pocket-book. Drop in and look around at the lovely display they offer. And for just a small amount they will either rewire your home and put in a modern lighting system or they will just change the fixtures themselves. Depend on the Electric Supply for any and all electrical needs, because they offer such low, economical prices and you receive in return beautiful lighting fixtures and quality wiring service.

Extra Money Saved At Central Tire Works

Want to save money? Of course you do. And you can save it by taking your tires to the Central Tire Works for expert retreading service. Your tires are given the best of materials and workmanship plus the new scientific bacon method of applying the tread. A retread, as you know, is applied to sides as well as to just the top. Some folks have retreads and recaps confused. With retreads, you don't take the risk of having the tread slipping or sliding off while driving, as you sometimes do when you have a recap. Always be sure you get a retread instead of a sometimes costly recap. Maddox, owner and operator of the Central Tire Works, has many years in the retread business and he and his family can offer you the best in courteous dependable service. They offer you a 24-hour service, which enables you to have your tire prepared for a rush trip within 24 hours. They offer you, too, a free wheel balancing when you bring your tires in for retreading. They can service all sizes and types of tires so that they will give you months of longer mileage. It was a proven fact that last year 40 per cent of the car owners had retreads applied to their tires. You have just as much, if not more, rubber on the retreaded tire as you do a new tire. And the materials used at the Central Tire Works, located at 618 E. Frederic, are the best to be had. So remember, for the best workmanship, dependable service and quality materials, depend on the Maddox family at Central Tire Works. Maddox also stocks good used tires and you can obtain nearly any size and type of used tire you might desire. You can save money, too, by purchasing these fine used tires that have plenty of mileage left in them. To give adequate service, a business must be operated efficiently and yet give courteous attention to the personal side. And the Central Tire Works does just that. When you stop in, you feel as though you are welcome to ask questions and inquire about prices, methods, amount of mileage that can be obtained with retreads. They want you to take an interest in not only themselves but your tire problems as well. You can save yourself time, money and worry by letting the Central Tire Works, 618 E. Frederic, give you the best tire service obtainable. Stop in today and ask about the prices and methods at Central Tire Works.

New Product Gives Wonderful Relief From House Pests

Nothing dampens a woman's spirit more than the sight of ugly cockroaches swarming about her kitchen. For so many years, they've asked — "Can't something be done to rid us of these repulsive pests?" Something could be — and was — done about it. An amazing new product called Johnston's NO-ROACH now kills these crawling pests in any home, easily, effortlessly, in a matter of hours. Roaches and ants, pests that they are, are usually found near food and cooking utensils where you should not use bombs or sprays. And no need to, either, when you can brush Johnston's NO-ROACH just where you want it, around cabinets, sink, baseboards, or wherever these bugs are found. Johnston's NO-ROACH is colorless, odorless, and stainless. Insects that walk across the invisible coating become paralyzed and die within three hours. Their coating still remains effective for months to prevent re-infestation. If you brush Johnston's NO-ROACH across window sills and door sills, ants will not cross it. You may also control silverfish spiders, and the big black bugs in your basement with NO-ROACH. You can keep your home free of crawling insects all season long. And for reducing fly and mosquito population, apply NO-ROACH to outside portions of residence such as around windows, doors, and screens. One important point to remember, however, NO-ROACH is a unique formula, made only by Johnston. It cannot be duplicated. For truly effective control, use Johnston's NO-ROACH, 8 oz. 89 cents; pint \$1.69; quart \$2.98. It is available at Gretna's. Stop in today and try a bottle of Johnston's NO-ROACH and be rid of those pesky household insects for good.

Skier Repeats
LAKE PLACID, N.Y., July 4 — UP — High-flying Art Tople Saturday repeated his last year's triumph by winning the Class "A" division of the annual summer ski jumping contest. Tople, of Chicago, the national ski jumping champion, also won a trophy for the longest jump of the day.

Cards Sign Smith
CHICAGO July 4 — UP — The Chicago Cardinals Saturday announced the signing of fullback Albert Smith from the college of Pacific for the 1953 National Football League season. Smith, in college, played for one of the Cardinals' present coaches, Ernie Jorge.

Montica Hernandez is the new born daughter of Mr. and Mrs. Joe Hernandez, 310 W. Atchison. Born at 6:24 a.m. July 5, she weighed 8 lbs. 8 1/2 oz.

Mr. and Mrs. Val Mathis, hereford, spent the holidays in the home of Mr. and Mrs. R. G. Sutton, 1048 Huff Road.

Mr. and Mrs. C. E. Caswell, 333 Baer, are the parents of a baby girl, Jerry Gwynn, born at 3:20 a.m. July 5. She weighed 8 lbs. 1 1/2 oz. Fuller Brushes 514 Cook Ph. 2152-7.

Mr. and Mrs. James E. Ward, El Paso, visited recently in the home of their parents, Mr. and Mrs. Perry Overstreet, 911 E. Browning, and Mr. and Mrs. Ben Ward, 320 N. Banks. Mrs. Ward is the former Oowetah Overstreet. Ward is stationed at Fort Bliss.

Mr. and Mrs. M. C. Thompson, 1418 E. Francis, are the parents of an 8 lb. 7 1/2 oz. baby boy, Donald Lee, born at 1:15 a.m. July 6.

Mr. and Mrs. Melton Roy Tice, 817 S. Barnes, became the parents of a baby girl, Joyce Lowell, at 8:30 a.m. July 5. She weighed 7 lbs 2 oz. Jerry Taintor of Seymour is visiting in the home of Mr. and Mrs. Aubra Nooncarer, Mr. and Mrs. J. W. Nooncarer of Lamesa visited here last week.

Mrs. Clifford Braly, Mrs. Howard Neath and Mary Lou, Mrs. J. Ray Martin and Mrs. Stroup spent Sunday visiting with friends in Dalhart.

Miss Carol Glenn, Dawson, 1512 N. Starkweather, is visiting in the home of Mr. and Mrs. Alfred Myers in Midland.

DROUTH

(Continued from page one)

three for three years, and when that happens you're in bad shape, no matter what the price is.

We had lunch at Sonora, and talked to livestock growers. Most of those people have been feeding their stock for three years. For three years there has been no grass.

Fred Earwood, a well known rancher here, said every animal on his place had eaten out of a bag every day for the past three years.

We drove on to San Angelo, getting up in the cattle country. I rode with a man who went to Texas as A&M, who has been ranching out there for 25 years, and everybody considers that he has a very excellent outfit.

Wealth—Then in Debt

But he told me that he owed more than his stock would bring today, and if he had to sell out, everything would be all gone. He would have nothing to show for 25 years. And three years ago, he was considered a rather wealthy man.

From San Angelo we flew to Wichita Falls, met with cattlemen there and saw some of the country, and then flew to Fort Worth Saturday.

I don't think anybody ever covered much more of West Texas as closely as we did in the same length of time.

And while we're getting to a point where we don't think so much of experts, I think I can still claim to be an expert on dry weather. I've lived in it all my life. Drouth Nothing New

For people out in West Texas, a drouth is nothing new. They've had them all the time. But there's a difference here. A drouth like the one they have now.

Last year, I talked to an old timer in Throckmorton county and he told me "we always considered the drouth of 1942 the worst one. But that was just the second worst one now. This is the worst." And that was last year.

In Samford, which is on the east edge of the drouth area and hasn't been hurt as badly as some sections, the normal rainfall is 25 inches a year. In 1951 they got 14 1/2 inches a year. In 1952 they got 10 inches. This year they have had four inches.

I don't think unless you've experienced a drouth, you realize what it does to people. Remember that you don't know when a drouth is on you, you can't readjust for a drouth because you don't know the severity until too late.

It's not like a flood or a fire. They destroy you, but you can rebuild in a few days or weeks. Those people in West Texas aren't in that position, they can't start rebuilding, they can't do anything. The people aren't going broke. They are broke. I don't think there is one man in 20 who can sell out and come out ahead today.

Police Get to Drink

DENVER, July 6—UP—Denver police captains have new responsibilities. A new manual of procedures for all officers permits policemen to partake of alcoholic beverages providing its in the line of duty. But it will be up to the captains to decide when such drinking is in the line of duty.

Scoggins Requests MCR Appointment

Pampa's Junior High School physical education instructor today is awaiting appointment to the commandant position of the Marine Reserve District, New Orleans, on his application for company executive officer of the 8th Special Infantry Company, U. S. Marine Corps Reserve.

Reserve Capt. Pernal A. Scoggins, 720 N. Dwight, was on hand Thursday night in Amarillo for the first meeting of the unit and made application at that time.

"I asked that the appointment be made effective July 14 and I expect to hear from the commandant by that date," Scoggins said this morning.

Current plans call for meetings to be held at 7:45 p. m. a. e. h. Wednesday in the U. S. Navy Reserve Training Center, Amarillo.

16 Pampa Merchants To Sponsor \$60,000 Goodwill Advertising Program

Sixteen local merchants are sponsoring a goodwill advertising program starting this week. Certificates for \$35.45 in merchandise and services are to be distributed to the local residents and the only cost to those who will receive them will be a \$2.35 service charge for the booklet which contains the certificates.

The idea of the program is one of the oldest in advertising. Besides being a good will gesture it gives the merchant the opportunity to demonstrate the quality of his products.

Selection of the residents who are to have the opportunity to receive the merchandise and services will be made from the telephone directory. Phone numbers on some streets will be called but on others no calls will be made. However, no chance is involved in the selection of the numbers to be called and the residents name is not known until he is phoned.

The resident is called and informed that his phone number has been selected to receive the merchandise and services. Then the booklet is delivered to him at which time he pays the \$2.35 service charge. He then takes the booklet to the various firms and receives the products which are absolutely free. All of the certificates in the booklet will be good until Dec. 1st, 1953.

Following is a partial list of the merchants sponsoring the program and the free merchandise and services:

NEAL SPARKS CLEANERS—Cleaning and pressing worth \$2.00.

CALDWELL'S ZESTO—One sundae.

STEER INN DRIVE IN—Barbecues and malts worth \$1.50.

MALONE'S PHARMACY—A tube of lipstick—value \$1.00.

VOGUE BEAUTY SHOP—One shampoo and one hair cut—value \$2.00.

MERLE NORMAN COSMETIC STUDIOS—A free skin analysis and application of proper make-up. Value \$2.50.

CALL'S (new studio)—An 8" by 10" photograph—value \$2.00.

R. E. PHOTO SUPPLY—One roll of camera film developed and printed.

PAMPA BOWL—Four games of bowling.

FAME ROLLER RINK—Five skating tickets.

PAUL'S LAUNDRY—Laundry service.

CHEVRON STATION AND GARAGE—Motor tune up and crank case cleaned and flushed—total value \$5.00.

McWILLIAMS AND MOORE—A flat tire fixed and one lubrication—value \$2.00.

PLAINS ELECTRIC CO.—\$2.00 worth of radio service.

McLean Main Street Talk

McLEAN — (Special) — Since the completion of the double lane of Highway 66 and the inauguration of one way streets on this highway, there has been considerable building of facilities for the tourist on the south line of the highway.

The first to make such improvements were Glass and Dwyer with an enlarged and modern service station at the corner of the highway and Rowe St. Then, Leon Waldrop erected a station on the site of the old Texas Hotel which burned some time ago.

Construction is being started on the third such facility by Ernest Watson immediately south of the Dyeart Motor Co.

The McLean News building is getting a new entrance. New front door is being flanked by redwood panels and the job improves the general appearance of this, the oldest business in town.

The starting of the service station by Watson caused a vacancy in the personnel at Puckett's Grocery which has been filled by Glenn Richardson of Wheeler.

Spencer Sitter was among those who attended the conference with Secretary of Agriculture Benson in Lubbock last week end. Sitter is a cattleman and is chairman of the McLean School Board.

June Stubbfield is among those attending the Methodist Youth Conference at Ceta Glen in Palo Duro Park.

Mrs. J. Edwin Kerr is in University Hospital in Oklahoma City for surgery.

Harold Bunch and June Story are attending summer school at WTSC. Both are members of the McLean High faculty. James Prock, grade school principal, is also attending the summer sessions there.

E. O. Bennis of Moody, Texas, visited his nephew, John B. Rice, this week. Bennis reports that crops are excellent in his area and that during the week of the tornado in Waco, they had a total of 14 inches of rain. Moody is about 25 miles south of Waco.

Mr. and Mrs. Travis Stokes and Caroline spent the holidays in Corpus Christi.

Neil Price, son of Mr. and Mrs. E. L. Price and a 1950 graduate of McLean high school is attending the summer sessions at Baylor University. Neil attends Texas A&M during the regular terms.

Larry Fuller, manager of public service company, was awarded the "Lion of the Year" award for the membership of the Lions Club by secret ballot.

A nuptial shower given for Mrs. Dan Taylor at the Baptist Church this week. Mrs. Taylor was Tice Glenn before her recent marriage.

In prospect is a prenuptial shower on July 8 for Miss Waneta Hupp. This event will also be at the Baptist Church. Waneta is the daughter of Mr. and Mrs. Forrest Hupp of the Kellerville community.

Red Cross Slates Annual Meeting

Tom Hawk, director of public information for the Ft. Worth Red Cross Chapter, will be the speaker for the annual meeting of the Red Cross to be held in the Palm Room Thursday, July 9, at 7 p.m.

L. R. Burnett, field representative for the Pampa Chapter, will accompany the speaker.

Awards for outstanding service to the Red Cross will be given to members. The nominating committee will report three new members of the board for the approval of the group.

The Home Service Committee is in charge of registration.

The year's work of the local chapter must be reported once a year to the public. Members of the Red Cross are urged to attend as well as any interested persons.

Local Employment Picture Unchanged

"Very little change" in the Pampa employment picture was reported this morning of A. B. McAfee, acting head of the local Texas Employment Commission office.

Only a few jobs were on tap this morning, McAfee said, adding that "it looks as if employers are not endeavoring to spread out."

During the past week only 12-15 positions were processed by the office, he continued. Two possible reasons were the continued drouth and the Fourth of July week end.

One TEC activity that is maintaining a steady pace is the giving of the General Aptitude Test Battery. Given each Tuesday to an estimated five to seven persons, the GATB is even used by Civil Service personnel, McAfee concluded.

Panhandle Woman Dies Of Attack

PANHANDLE — Anna A. Clausen, 48, Groom, died in her hospital room at 11 p.m. Saturday following a heart attack.

A rosary service will be held at 8 p.m. today in the chapel of the Poston Funeral Home. Mass will be held Tuesday at 10 a.m. at the St. Theresa Catholic Church, Panhandle. Father Hammond will officiate.

Burial will be in the Panhandle cemetery.

Survivors are: five sisters, Mrs. Theima Matkin, Council Hill, Okla.; Mrs. Floyd Lee, McLean; Mrs. Ethel Smith, Shamrock; Mrs. D. M. Jones, Lefors; Mrs. Charles Burkett, Clayton, N. M.; one daughter, Mrs. Jack Powell, Panhandle; two grandchildren, Mary Margaret Powell, Jackie Kay Powell, both Panhandle.

White Deer Rites

PANHANDLE — Mary Christina Czerner, 63, White Deer, died Saturday at 8:30 p.m. in the home of her sister, Mrs. Henry Haiduk, Panhandle.

A rosary service was held Sunday night and another will be held tonight at the Sacred Heart Church, White Deer. The body will be in state in her sister's home Tuesday.

A rosary service will be held at 8 p.m. in the Haiduk home Tuesday night. High Mass will be held Wednesday at 9 a.m. at the Sacred Heart Church, White Deer with Father Kaminsky officiating.

Burial will be in the Sacred Heart cemetery, White Deer. The Poston Funeral Home will be in charge of arrangements.

Survivors include five brothers, Ed, Springer, N. M.; Henry, Florida, Victoria, Stanley, Severian, all of Kingsmill; and one sister, up.

Cool Breezes

Cool breezes along Pampa streets this morning kept the local mercury down to the extent that it was only 81 degrees by 11 a.m.

Sunday's high temperature reading of 102 had dropped almost 30 degrees by early this morning. But, once again, it was on the way up.

Payroll Cut, But Salaries Increased, Rogers Reports

Although federal government employees decreased by 20,000 during March, government salaries went up by \$20,000,000, Rep. Walter Rogers said this week in his newsletter to the 15th Congressional District.

Rogers was quoting Rep. Dowdy's (of East Texas), response to a statement by Rep. Bender (of Ohio) in a House floor debate, when the latter claimed over 60,000 people in the defense department had been fired as a result of the creation of four new assistant secretaries.

Rogers reported during the past few months the government has created: one new secretaryship at \$22,500 per year; two undersecretariats at \$17,000 per year; 12 new assistant secretaryships at \$15,000; one new commissioner at \$14,800; one new managing director at \$17,500; and one new deputy director at \$16,000 and a new assistant secretary for the Post Office at \$15,000. Bills are now pending to create four new assistant secretaries of defense whose salaries would range from \$15,000 to \$17,500 per year.

Rogers also reported the White House is preparing to establish a FEPC to screen employees hired by those holding defense contracts and other government contracts to see that no discrimination is practiced. A member of Congress, whom Rogers did not identify, made the above remark on the floor of the House. He quoted the congressman as adding that such a commission would also put a stop to what he charged as "discriminatory practices on the part of the Navy Department."

The Pampa congressman also reviewed the Southwest drouth situation in his letter and spoke briefly on the special recording he was requested to make for overseas consumption on the way the federal government is preparing to each other's aid whenever disaster strikes, and the priority given to bringing relief to people living in stricken areas.

Confessed Burglars To Be Arraigned

The two Pampa ex-convicts who have admitted to city police pulling three recent break-ins were scheduled to be arraigned sometime today in justice of the peace court.

William L. (Casey) McDonald, 45, and John N. Pettigrew, 47, signed statements Saturday admitting the Suttle Grocery, Eddy's Super Market No. 1 and Utility Oil and Supply jobs.

This morning both men were residing in county jail, according to Police Chief Jim Conner.
