WEATHER

WEST TEXAS — Generally fair through Thursday. No important temperature changes.

Sixth Annual Fair To Open At Shamrock

SHAMROCK—(Special)—Shamrock's sixth annual State-Line Free-Fair opens Thursday for a three-day run. Despite the recent drought, some of the best entries in the fair's history are expected this year, the word was today. The fair proper will include commercial exhibits, community products, 4-H Girls, Boys and Adults Clubs; agriculture; livestock and horticulture. Also on the program during the fair's run will be entertainment, four rodeo performances, a high school football game—even an X-ray unit. Entertainment will be a Kiddie Train, sponsored by the Rotary Club; a bingo stand, sponsored by the American Legion; a ducking pond, sponsored by the Lions Club; and refreshments. Sponsored by the Shamrock Roping Club, rodeo performances will be held at the Lions Club Rodeo Grounds at 2:30 p.m. Friday, Saturday and Sunday and at 8 p.m. Saturday. Grounds are north of Hwy. 86 west of Shamrock. Friday night there will be a football game between the Shamrock Irish and the Wellington Skyrocks at Denver Field. During the entire fair, a State Department of Health X-ray unit will be set up in the Community Building, W. R. Ritter, county sanitarian, urges all persons more than 15 to take advantage of the unit, designed to determine if a person has tuberculosis. Community products booths which carry a 150 premium are expected to be completed by noon Thursday and will remain on display till 9 p.m. Saturday. The first-place winner may take the entry to the Amarillo Fair by obtaining permission from O. L. Christie, director. An open division for displaying individual products is also slated. Regardless of where each community entered in the show places, it will receive a \$10 award. A new feature of the show this year will be a junior breeders division, judged by the same standards used in the adult division. Other features include a flower show, educational exhibit and swine, dairy cattle and beef cattle divisions.

UN Seeking Missing PWs

PANMUNJOM, Sept. 16—UP—The United Nations was still in the dark Wednesday on the question of whether some 3,000 missing Allied fighting men are prisoners of the Communists. A special meeting expected to clarify the situation failed to produce any information on the 2,410 South Koreans, nine Australians, 19 British, three Canadians, eight South Africans, three Belgians, two Colombians, five Turks and one Greek. The Communists had asked for a meeting of the Joint Military Armistice Commission in the morning, but when the session convened the Reds made no mention of the missing men. Maj. Gen. Blackshear M. Bryan, chief United Nations delegate to the commission, said the meeting was "humdrum." Only a few minor details were agreed upon in the session, he said. The UN handed the Reds a list of the names of the more than 3,000 men who the Allies feel may still be behind the Bamboo Curtain. Bryan said when he handed the list over several days ago the men were known to have been in Communist hands at one time. He demanded the Reds return or account for the men "or else."

Policy Changed On Overseas Duty

TOKYO, Sept. 16—UP—A new Air Force policy governing the length of time married, and single men must stay in the Far East was announced Wednesday. Far East Air Force headquarters said that starting soon married men will serve longer tours of duty, but bachelors and men separated by their dependents will spend less time in the Orient. The Japan tour for airmen whose families are not with them will be cut from 30 to 24 months, but those with their families here will serve 36 months instead of the present 30. The Korea tour, one year, will remain the same. Men stationed in the Philippines, Okinawa and Guam will continue to serve for 18 months. If it comes from a hardware store, we have it. Lewis Hardware. Adv.

Denies Resignation

DENVER, Sept. 16—UP—Secretary of Agriculture Ezra T. Benson, dogged by rumors he might resign from President Eisenhower's cabinet, meets his boss Wednesday for a discussion of range and livestock problems. Benson said he would report to the President of the first meeting of the National Agricultural Advisory Commission which was held in Washington last week, and on "routine" planning of his department. The agriculture secretary was contacted at his home in Salt Lake City Tuesday and asked to comment on the persistent rumors that he is about to resign. "I have no intentions of leaving the cabinet," he said emphatically. In Denver, Press Secretary James C. Hagerty said the reports about Benson were "ridiculous."

Leder Fund Climbs To Total Of \$80

A total of \$80 had been collected by late morning for the Frank Leder Charity Fund. The fund was set up by Ed Myatt, following the death of the long-time Pampa jeweler Sept. 3 in a Galveston hospital. Mrs. Leder will donate the entire proceeds from the fund to Mr. Leder's favorite charity. While no time limit has been set on donations, Myatt urged today that all persons wishing to give to the fund do so as promptly as possible. Donations so far have come from Mr. Leder's Somerville St. neighbors, Bill Kinzer, Mrs. Bob Triplehorn, Friendly Men's Wear, Mr. and Mrs. Roy McKernan, Mr. and Mrs. J. H. Lamb, Dr. E. S. Williams, Mrs. D. D. Fayne, Floyd L. Stone, Dr. M. C. Overton, Jr., Frank D. Smith and the Loyal Women's Class of the First Christian Church. Contributions should be sent to Myatt at Friendly Men's Wear

RECEIVES DEATH THREAT — Rita Hayworth and her two children, Yasmin, left, and Rebecca are under guard in a Las Vegas hotel following the girls' hurried flight from Los Angeles Monday night. The glamorous movie star has received two letters threatening her and her daughters with death if she did not agree to reconciliation with former husband Alf Kahn and father of Yasmin. (NEA Telephoto)

Crash Kills 28

ALBANY, N. Y., Sept. 16—UP—An American Airlines Convair plane en route from Boston to Chicago crashed and burned near the Albany airport Wednesday. State police said all 28 passengers and crew members were killed. Airline officials said the plane, en route from Boston to Chicago, was attempting to land when it struck a 365-foot radio tower and plunged to the ground. It narrowly missed a trailer camp on the Albany-Schenectady road. American Airlines said 10 passengers had been scheduled to get off in Albany and 15 were en route further west. The plane carried a crew of three, including the pilot, a first officer and stewardess. Crashes in Cornfield The flight, No. 723, left Boston at 4:15 a.m. est. It crashed into a small cornfield just striking the center tower of a three-tower array near the airport. Bodies and wreckage were strewn for more than 200 feet. All bodies were being taken to St. Peter's Hospital morgue in Albany. The crash occurred near the suburban village of Colonie on the Albany-Schenectady highway. The plane was coming in for a landing on schedule. It circled the airfield in overcast skies for about 15 minutes before starting its landing approach. Witnesses said they heard "two loud backfires." Then the plane struck the tower and plummeted down. Plunges to Earth Lester Hanson told United Press that he was filling an oil truck at his service station nearby when he heard two loud "backfires." Hanson said the plane plunged to earth and burst into flames. "I ran to the plane and pulled two bodies from the wreckage," he said. "I got too hot and I had to run."

Briton's Wife Said Missing

GENEVA, Switzerland, Sept. 16—UP—Swiss police disclosed Wednesday that the American-born wife of a long-missing British diplomat has disappeared and that her mother has received an "I'm all right" message from one signed by her husband when he vanished. Mrs. Melinda MacLean, wife of Donald P. MacLean, former head of the British Foreign Office department on American affairs, left Geneva last Friday with her three small children on "a week end visit" and disappeared as he had done May 25, 1951. Wednesday a messenger arrived with a telegram at Mrs. MacLean's apartment, No. 7 Rue des Alpes. It was addressed to her mother, Mrs. Melinda G. Dunbar, formerly of New York City, who was staying with her. Police intercepted the telegram and read it before they gave it to Mrs. Dunbar. "It simply said that Mrs. MacLean and the children were all right and that she was not to worry. Same Kind of Telegram That was exactly the sort of telegram Mrs. MacLean herself received from France, signed by her husband, after he disappeared with Guy Burgess, Foreign Office expert on Marxism and the Far East. The authenticity of the first telegram never was established, and Mrs. Dunbar said at once she did not believe this one came from her daughter. There was speculation that Mrs. MacLean and her children might have been kidnapped, or that she had taken the children voluntarily behind the Iron Curtain.

White Crusader In Negro Church

LITTLE ROCK, Sept. 16—UP—Dorothy Martin, 31, waging her own fight against segregation, hoped Wednesday to become the first white person to graduate from an Arkansas Negro college. Miss Martin, of Mabelvale, Ark., expects to finish the two-year Philander Smith College here in 1955 with a major in social science. She went to her first classes Tuesday, "I believe in cultural pluralism," said the divorcee who said she was living on a settlement from her former husband. "I get along fine with the colored students — why shouldn't I?"

Pampans Due Draft Physicals

Twenty-four men from the Pampa area left for Amarillo this morning and their pre-induction physicals. They were Robert C. Benson, Alton Gaines, M. K. McPeak, Arthur McCampbell, Vergil D. Henshaw, Clyde Price Jr., Lenfer Strickland, Clyde A. Mousse, Freddy Pierce, Kenneth C. Whitney, Edward D. Dyer, Jack H. Brooks, Darrell R. Wilson, Millard L. Wood, Melade S. DeGalah, Joe C. Spann, Johnny W. Jones, Richmond Lee Davis, Dale R. Johnson, Hubert Saunders, Paul E. Boswell and Donald R. Richardson. Next men to go into the service will be 10 Oct. 22, selective service officials said.

Gamma Globulin Due In Missouri

MOBERLY, Mo., Sept. 16—UP—A large quantity of gamma globulin, the blood derivative believed to help prevent the paralysis of polio, was scheduled to arrive here Wednesday. Health authorities scheduled mass inoculations for Thursday, Friday, and Saturday. They said 6,000 Randolph county children were eligible for shots, but expected only 4,500 to appear for them. Randolph county has recorded 21 cases of polio this year with two deaths from the disease.

U.S. Atom Artillery Battalions To Europe

HART FLYING HOME Prisoner Welcome Committee Meets

M-Sgt. James W. Hart is on the way home. Hart talked to his sister, Mrs. Sus Derington, near noon today and told her he was leaving Honolulu at 3:45 p.m. today and expected to arrive in the United States sometime early Thursday morning. A telegram from the early return of M-Sgt. James W. Hart, one of Pampa's two released war prisoners, brought a hurried meeting this morning of the committee selected last week to shape plans for a welcome home celebration for him and the other returnees, Sgt. 1-C Eugene H. Williams. A telegram from the adjutant general in Washington late yesterday reported Hart was to be flown home rather than sent by ship, and that the change of plans was "through medical channels." The wire further said he would land at Travis Air Force Base today and be flown from there to the nearest service hospital to his home. Mrs. Derington assumed this would mean her brother would be brought to Amarillo Air Force Base and then sent directly to the hospital from there for further observation and treatment. This morning Aubrey Jones, chairman of the seven-man committee set up by the Chamber of Commerce Good Will and Reception Committee held a conference with his group to build some more concrete details. At the suggestion of three veterans on the committee, Capt. Charles Robison, Harold Rinehart and Tom Kitchens, fanfare will be kept to a minimum and the welcoming will be done in two phases. Sgt. Williams, who is en route to the states by ship, will also be flown to "the nearest hospital" upon his arrival on the west coast. Mrs. Williams at present is visiting (See PRISONER, Page 3)

HIRED BY UNITED FUND — Mrs. Emmett Gee, 415 Hill, has been hired by United Fund officials to do much of the paper work connected with the drive, still slated to get underway Oct. 15. A fund meeting to formulate final plans for the drive has been scheduled for 7:30 p.m. today in the chamber offices. (News Photo)

America To Give Western Nations Ground Strength

WASHINGTON, Sept. 16—UP—More than six atom artillery battalions will be sent to Europe under American plans to give the West an atomic punch on the ground as well as in the air, informed military sources said Wednesday. Each battalion will be equipped with six mammoth 280 mm guns of the type tested last May at the Atomic Energy Commission's Nevada proving grounds. The May test indicated to some authorities the gun's relatively small projectile — 11 inches in diameter and about three feet long — packs a wallop equivalent to that of the A-bomb dropped on Hiroshima from a giant B-29 bomber on August 6, 1945. That bomb had an explosive power equivalent to 20,000 tons of TNT. Army Secretary Robert T. Stevens announced Tuesday night the first battalion of the 280 mm guns, the Sixth Field Artillery Battalion, Fort Bragg, N. C., will "shortly" go to Europe. He said "several" more will follow, but gave no number. Defense officials would not say whether actual atomic shells will be stored in Europe, but it was indicated the guns could be brought into play almost immediately in event of war. That suggested all but the most critical components will accompany the battalions and aircraft or ships could rapidly bring in the critical parts if needed. The battalions will be assigned to U. S. Army units now in Europe, most likely the Seventh and Fifth corps which have headquarters in Germany and could employ them as corps artillery. The guns now have a range of 20 miles and shells are being made to boost this to 40 miles. They can fire conventional ammunition as well as atomic shells. Stevens said the weapons were not to be regarded as substitutes for others already in Europe but as a "useful augmentation" of them.

Democrats Close Meet In Harmony

CHICAGO, Sept. 16—UP—Democratic Wednesday broke camp at a rousing two-day rally with a new spirit of party harmony and a major foreign policy proposal by Adlai E. Stevenson to offer to the voters. The harmony was established during the rally to kick off the 1954 congressional campaign, climaxed by a speech in which Stevenson, the 1952 presidential candidate, urged a new try for world disarmament to spare the horrors of hydrogen-bomb warfare. Stevenson's position as party leader was buttressed by a vote of the national committee, the Democratic governing body, to put his hand-picked chairman, Stephen A. Mitchell, on a \$25,000-a-year salary and a flood of warm praise. Reported on World Tour Stevenson submitted his plan for another try at world disarmament, along with other foreign policy moves, in a speech Tuesday night reporting on his post-election six month tour around the world. The talk, broadcast and telecast nationally, was billed as "non-Partisan," but it offered sharp jobs at the administration on such issues as defense cuts and "McCarthyism." He said foreign policy is the "responsibility" of the President but there is unrest among foreign allies over the trend of recent events and Democrats in Congress would help restore confidence if they were given the opportunity. Asserting the advent of the H-bomb has produced a "grim and pressing urgency" in international affairs, Stevenson said the United States should take the initiative in exploring once more the chances of world disarmament.

China Signs USSR Pact

TOKYO, Sept. 16—UP—Peiping Radio announced Wednesday formal Chinese Communist ratification of a five-year economic cooperation plan with the Soviet Union. The broadcast, monitored here, said Russia had agreed to give Red China financial aid for industrial development. Peiping gave no specific figures and said only that the promised Soviet aid was the largest "ever given between nations." The broadcast said speakers before the Central People's Government Council in Peiping outlined a vast industrialization plan aimed at building heavy industries and modernizing China's agricultural production. Li Fu-chun, vice chairman of the council's committee of financial and economic affairs, said Russia would assist Red China in rebuilding and modernizing 141 large scale projects, including steel, iron, coal, oil, automobile, tractor and power industries.

Depee Heads Honor Society

George Depee is the new president of the Pampa National Honor Society. Elected, too, Tuesday afternoon were Miss Norma Qualls, vice president, Misses Gayle Nell Carlee and Janice Baker, co-secretaries. Principal purpose of the group will be to name new members to the society in the spring, as the society is honorary and is nationally affiliated.

Republicans Slate Conclave Friday

CHICAGO, Sept. 16—UP—With the Democratic party barely out of town, Republicans meet here Friday in a two-day rally studied with party and administration leaders. A regional conference of Republican women from the Midwest and Southern states will open along with a meeting of Republican chairmen from 21 Midwest and Rocky Mountain states. Major emphasis will be on next year's congressional elections. The Republicans have taken steps to build the regional meetings into national significance in an attempt to steal some of the thunder displayed by the full - dress national Democratic rally just ended here. Some of the biggest guns in the GOP army were being sent to Chicago to attract attention to the two conferences.

Football Player Dies Of Injury

FREMONT, Neb., Sept. 16—UP—A Midland College freshman died at Dodge County Hospital here Tuesday night of injuries suffered a few hours earlier in football practice. He was Yuchiro Doi, 20, of Honolulu, Hawaii. It was Nebraska's second football death in as many days. A Crichton prep freshman, 14-year-old James Schewe, died Monday in Omaha of an injury suffered in football practice Friday. Doi suffered a neck injury while making a tackle.

Tax Board Flays Schools, County

The City Board of Equalization, with copies going to the county commissioners and the school board, and was signed by the three members of the city's board of equalization: C. P. (Doc) Purley, Gene Lewis and Bob Sidwell. The letter said in part: "During our tenure of office, we have had occasion to observe the functioning of the school and county valuation procedures, and we would like to make some official recommendations as to the economies which we think these governmental bodies can realize in determining fair valuations." The board referred to the \$9,000 and the \$3,250 being spent each year by the county and school respectively to hire outside appraisers to value oil and gas properties along with allied industries, including railroads, utilities, supply houses and the county is using Thomas Y. Pickett of Dallas, while the school is using Tom Kane, also of Dallas, for the valuation work. They pointed out the city tax department is now doing a large share of such work within the city limits for the school and county tax departments. "It is our belief that the work the city is doing for the school and county equals or exceeds the work now being done by the aforementioned firms," the letter said. The board observed further, that the same work could be done for the school and the county by "one man (preferably a petroleum engineer) and a stenographer" and (See TAX BOARD, Page 3)

Commission Cuts Budget

A pared down budget and tax rate for 1953-54 was adopted by the City Commission late yesterday after suspending all other business on the agenda until next week. The proposed budget of \$806,000 was chopped down to \$804,500 while the commission pared the proposed \$1.85 tax rate back to the current \$1.75 tax rate. The extra 10 cents had been proposed to build the interest and sinking fund to a point where there would be a surplus equaling one year's obligation on bonded indebtedness. Cutting corners here and there the commission came up with a budget \$1,500 lower than the estimated budget made up by the city manager's staff. The biggest item lopped off was establishing a separate warehouse department, estimated to cost \$11,760 for the fiscal year, ending Sept. 30, 1954. Another \$900 was removed from the Park Department on the recreation program, cutting it back from \$2,700 to 1,800. But, the commission boosted the budgeted contingency fund from \$17,020 to \$28,710. Other items scheduled to come

Recruiting Office Reopens In Pampa

Pampa has a recruiting office again. The recruiting station for the Army and the Air Force has been reopened with the assignment of Sgt. Bill E. Neal as recruiter for the Pampa area. Located in the basement of the post office, the office will be open from 9 a.m. till 3 p.m. each Monday and Tuesday.

SCHOOL BEHIND A TRACTOR?—Although tractors are taken for granted in the U. S., they are somewhat of an innovation in many parts of the world. In Venezuela, where strenuous efforts are being made to increase food production, the National Agricultural Institute has founded a tractor farming school at Maracay where students learn mechanical farming techniques with aid of various types of equipment. Last year, Venezuela bought \$19 million worth of farming equipment from the United States.

Russian-Born Countess Says Iron Curtain Revolt Looms

By GAY PAULEY
NEW YORK, Sept. 16—UP—Countess Alexandra Tolstoy, the Russian-born woman who has spent most of her adult years fighting communism, has returned from a two-month tour of Europe with three optimistic beliefs.

1. Communism is on its death bed.
2. The Russians are scared to death of war.
3. There is a revolution cooking up behind the Iron Curtain and it will start at the top.

Revolution Any Time
The predictions of the 69-year-old countess, daughter of the famous author, Leo Tolstoy, were made in an exclusive interview after her visits to France, Switzerland, Italy and Germany.

"No one can say when the revolt will start," said the head of the Tolstoy Foundation, Inc. "We may wake up to it tomorrow, or it may be three or four years away."

Countess Tolstoy did not try to go behind the Iron Curtain on her tour.

Cites Three Events
"I never would return," she said.

bluntly. "The Communists have marked me. I would be shot."

The countess, who came to America in 1931 and now is a United States citizen, is head of a foundation which gives material and spiritual aid to Russians who have fled the Soviet regime. She also has just completed her second biography of her father.

She said three events behind the Iron Curtain point up the weakening of communism—the death of Stalin, the East German revolts, and the purge of Lavrenti Beria, former boss of the secret police and minister of interior.

"Things in Our Favor"
"All these have moved the Western cause many steps forward," she said. "When the next step comes, we do not know."

"West and East Germany are united more strongly than the West thinks," the countess said. "Italy is slow to shake off communism, France is wavering, but things are in our favor."

The change in Western Europe, she said, is only one indication the Red way of life has had it. The other is in communism itself.

No Red Leader Popular
"Its followers no longer have anything to follow," she said. "They've had 36 years of the great experiment. . . It failed and left them with no purpose to pursue. I doubt if there's an idealist left. The fight now is power against power."

"I believe the revolt will come at the top," she said. "No leader can be popular at the moment in Russia. Lenin was, Stalin wasn't but at least others conceded his strength. His very name meant steel. But there's nothing they can acknowledge for Malenkov."

BACKED FOR UN JOB—Lt. Gen. Raymond A. Wheeler seems likely to be named head of the UN Relief and Works Agency for Palestine Refugees. The agency is primarily concerned with improving Arab-Israeli problems. General Wheeler was Chief of Engineers of the U. S. Army until his retirement in 1949.

Lefors Pep Squad Picks Uniforms

LEFORS—(Special)—The Lefors High School Pep Club met and organized recently and decided on uniforms for the coming season. They will wear black riding pants and white turtle neck sweaters with orange and black "megaphone emblems" on the front.

The cheerleaders will wear black and orange corduroy skirts and white "V" neck sweaters. They will have the "L" and megaphone emblem.

The cheerleaders elected last spring are: Jan Mounger, head; Anita Chitwood, senior; Anita Tullman, junior; Bertie Coberly, sophomore; and Sherry Satterwhite, freshman.

The sponsors elected for this fall are Mr. and Mrs. H. L. McCauley. The secretary is Mary Helen Florence, and the treasurer is Eva Mae Rutledge.

The "Pep Club" will hold a pep rally on each Thursday night at the Lefors town square preceding each Pirate football game, and will attend all Pirate games this season.

Lefors Chorus Names Officers

LEFORS—(Special)—Ray Luper, director of the Lefors High School Chorus, has announced that the new officers for this school year have been elected.

Those who will serve are: Joe Martin, president; Jan Mounger, vice president; Phillip Earhart, secretary-treasurer; Eunice Patterson, and Betty Rollins, librarians; and Shirley Smith, pianist.

Luper has announced several events in which the chorus will take part.

UNDERWATER "AUTOGRAPH"—Wielding an underwater cutting torch instead of the pen used by his famous namesake, diver Bernard Shaw demonstrates the art of cutting metal under water, at marine engineering and welding exhibit in London. The embryo submarine artists are Dennis Callum, 12, left, and Alan Brann, 11.

Rita And Company Providing Floor Show For Hotel Guests

LAS VEGAS, Nev., Sept. 16—UP—The tourists who mill around the luxurious Sands Hotel for dice and swimming get a free "floor show" that isn't on the menu.

The cast includes glamorous Rita Hayworth; daughter Rebecca, eight, by ex-husband Orson Welles; daughter Yasmin, three, by ex-husband Aly Khan; a detective hired by the hotel to guard the children after Rita received letters threatening Yasmin's death; a uniformed hotel guard as extra protection, and a nurse.

They often are joined by crooner Dick Haymes. Rita's fourth husband, silver-haired Jack Buckleing, she inquired, "Where's that man?"

The bubbly, vivacious child then would run over to give him a hug.

Expert Shows How To Write Proper Letter

By HARMAN W. NICHOLS
WASHINGTON, Sept. 16—UP—John P. Riebel of the California State Polytechnic College at San Luis Obispo has made a study of how to write a business letter. And he was here to say that a lot of wheels in industry don't know how.

"I know a lot of big shots in business," Riebel said, "who don't know the first thing about how to write a letter, or answer one. They can learn in a short time if they follow some simple instructions."

First thing, the professional letter writer said, "is to learn how to take the negative out of a letter. Go at the man you are trying to impress with a positive."

"I Trouble" Is Common Disease
The guy you are writing to, Riebel said in a conversation we had, should be made to think that he is the important one. He comes first. It's psychology.

A common disease of letter writers in the professional field is "I trouble."

In other words, the professional writer said, "don't make yourself the center of attraction. The 'I trouble' doesn't bother the writer but it pains the reader. The fellow who receives your letter is completely surrounded by first-person nuisance. Bury yourself, letter-wise, in other words."

Against Bromides
Riebel is against the old bromide "I have before me your letter of the 25th" school. He would rather have you start it out with "Thank you for your letter of the 25th."

I'm no expert but I would rather start with, "I finally broke a hundred on the golf course, today, and the next time you come to town you won't have to give me such a big handicap. We're even Stephen, at most. And about that new contract we can knock the handicap down on that, too."

Riebel is also against what he calls "fumbling in the end zone." For example, if you clip off a formal note to a customer with "Awaiting your further commands, we remain, you are being weak. He would rather you ended it something like, "May we hear from you again?" or, "If you need more information, just write me."

Keep 'Em Short
My friend is also a "keep 'em short" letter writer, whether his letters are personal or business. But particularly the business letter.

Rat Likes Dope

SAN FRANCISCO, Sept. 16—UP—Police finally trapped one of San Francisco's most elusive narcotics violators.

For more than three weeks a rat had been nibbling on the leaves of a marijuana plant kept at police headquarters for display purposes.

The inspector's office reported Wednesday the rat was trapped when he passed up the marijuana for some bacon—in a trap.

PEDALING ALONG TOGETHER—Taking their place in the busy traffic of downtown Frankfurt, Germany, two youngsters cross an intersection on their modern scooters. The traffic cop halts auto traffic to allow the boys to cross the street.

County Court Sets 21 Minor Cases

A total of 21 misdemeanor criminal cases were set for trial next week by County Judge J. B. Maguire Tuesday in county court.

However, during the sounding of the docket at least two defendants told County Atty. Bill Waters they wanted to change their pleas of not guilty to guilty.

Five of the cases are old ones, two of them being filed in 1951, the rest in 1952.

Several others were passed because arrests had not been made, one was dismissed on motion of the county attorney for lack of sufficient evidence to warrant a conviction.

All of the cases were set for Monday in order of their appearance on the docket.

This, Judge Maguire said, will let the trials run through even though some failed to show up and capases have to be issued.

Several small civil suits were also set down for trial by the judge.

Traffic Safety Week Proposed

Another committee and another "week" are in the offing for Pampans.

For a Citizens Traffic Commission and a Traffic Safety Week were proposed at the weekly meeting of the Pampa Junior Chamber of Commerce.

Jaycee Bill Carter, local insurance man, Tuesday noon set forth the idea of sponsoring the kick-off of such a program and explained how it would be set up and operated.

Citing fatality statistics (example: 30 killed in eight accidents in Pampa in 1952), Carter said that perhaps the best way to handle such a deal would be to follow the practice of Dallas, which has a chairman and six different operations.

European Nations Face Army Problem

By PHIL NEWSOM
United Press Foreign Analyst
Once more, Europe faces a moment of decision.

As has been true throughout modern times, how that decision goes rests upon France and Germany.

Like a woman, history cannot be rushed, depending rather upon moods and impulses. The impulse, this time, came from Germany. The mood is being set by France's partners in the European community.

The decision is whether there is to be a European army.

The mood, except in France, is that there should be one. Not at some distant point in the future, but now.

Therefore the pressure is on the French.

It comes primarily from two sources, either of which both frighten and infuriate the French—namely, the United States and West Germany.

After last week's elections, West German Chancellor Konrad Adenauer emerged undoubtedly as the strongest voice on the continent of Western Europe.

Ground Out Beneath French
Adenauer had campaigned on a clear-cut issue of cooperation with the West. His election cut the ground from under French charges the Germans were dominated by nationalism alone.

Adenauer's electoral mandate was for four years and he lost no time in exploiting it by demanding immediate action on the EDC, or European Defense Community.

Scarcely were the German elections over when the United States cut further ground from French objections to the EDC.

Assembly Must Face Up
Though the EDC originally was a French proposal, French opinion later had swung to the opposition on the grounds the EDC would give Germany the chance to dominate the continent, that French economy, already bled white by the war in Indochina, could not afford the expense of the EDC.

Last week, in Washington, the National Security Council proposed the United States increase its aid to the French in Indochina by

Air Tour Due To Aid Polio

Pampa will be among the 37 towns visited by planes participating in the Fifth Annual All-Texas Air Tour, Oct. 10-17.

But a new wrinkle has been added.

When the pilots alight at Perry LeFors Field shortly after noon that day, they'll be equipped with March of Dimes leaflets, lapel tags—and speakers, according to Pampa Chamber of Commerce officials.

A number of pilots who have used their private planes to transport victims of polio and carried on lungs, nurses and doctors have already registered to go on the tour.

The 3,000-mile tour will last a week. And participating pilots will have a full day the day they hit Pampa. In the morning, it's Olney, Vernon and Childress; in the afternoon, it's Borger, Amarillo and Plainview.

The chamber of commerce's aviation committee will work with the airport board in arranging a program to receive the visitors. A meeting for that purpose will be held as soon as M. W. Walford, the new airport manager, goes to work Oct. 1.

WHY DIET TO TAKE OFF UGLY FAT?

Why not try the sensible way to reduce? Just ask your druggist for four ounces of liquid Barcontrate—now just \$1.99. Mix with grapefruit juice as directed on label and take according to directions. If the very first bottle doesn't show you the sensible way to reduce, return the empty bottle for your money back. Nothing harmful in Barcontrate. No dieting—no calorie counting.

R. E. Mitchell, 824 1/2 Kinola Street, Houston, Texas, wrote us as follows: "I weighed 216 pounds when I commenced to take Barcontrate. After using two months, my weight was 180. I did not diet in any way. Before using Barcontrate, I was unwell with constipation and had a bloated feeling in my stomach."

Harsh Prisoner

CHARLESTON, S. C., Sept. 16—UP—When Joe Bryant pleaded guilty to stealing a watch, Judge Joseph R. Moss asked Bryant what he thought his sentence should be.

"Sixty days," Bryant said.

"I was going to give you 20, but if you say 60 days, then 60 it is," the judge replied.

Plymouth Hy-Drive

Newest, smoothest, least expensive no-shift driving in low-price field

Thousands of motorists today are enjoying the spectacular performance of Plymouth Hy-Drive

- It's Smooth**—one flowing motion! No noises, jerks or lurches in going from one speed to another. Your car can't up-shift or down-shift on you unexpectedly.
- It's Powerful**—for a fast, positive getaway. There's no racing of the engine to get started, no "winding up."
- It's Versatile**—holds your car without using the brakes while halting on a hill. You get good engine braking going downhill. You can use the clutch for more exact control in "rocking" out of mud or snow.
- It's Economical**—both in original cost and in upkeep. There's no complicated mechanism to get out of order or to adjust and maintain.

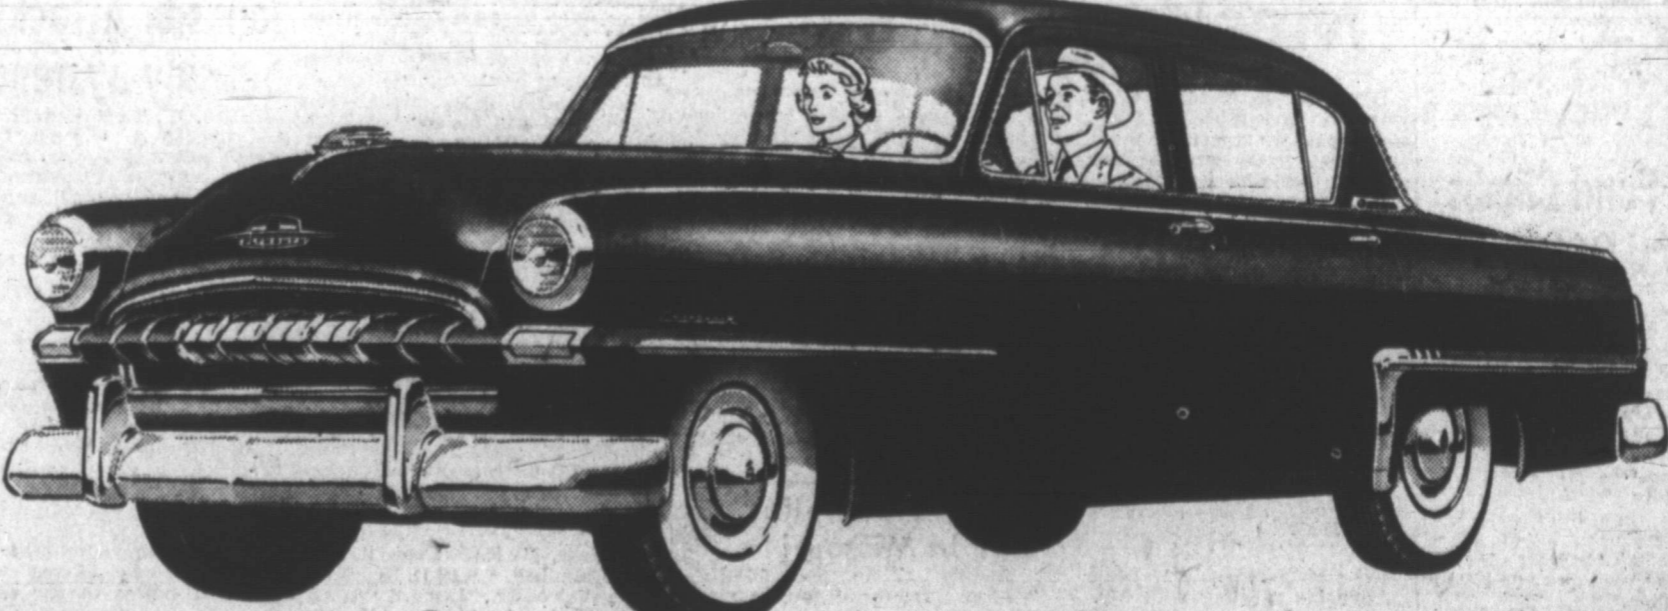

"It saves me around 2 gallons of gas each day," says this rural mail carrier

"Vic" Hammer is a rural mail carrier out of Appleton, Wisconsin. He drives the same route every day. He has 400 boxes, which means lots of starting and stopping. He used to use between 5 and 6 gallons each day.

Recently, Mr. Hammer purchased a new 1953 Plymouth equipped with Hy-Drive. He is now using between 3 1/2 and 4 gallons of gas a day on his route.

"I think this is an amazing performance," Mr. Hammer says. "I'm saving around 2 gallons of gas for the route each day. And it's 100 per cent easier serving the route now that I no longer have to shift gears."

Hy-Drive is available on all new Plymouths at low extra cost

Cook's Nook

From planning to packing the school lunch box, mothers welcome a short cut to preparing attractive lunches which will rate an A plus in nutrition.

A short cut to meeting the child's requirements for this meal is to follow a basic menu pattern. Whether the lunch is carried, eaten at home or at school it should provide one-third of the daily needs for calories, proteins, vitamins and minerals. If mother packs the food correctly, neither breakfast nor dinner need do double duty for a skimpy lunch.

A simple basic menu pattern is the Type A lunch. Recommended by the National Research Council, it consists of two ounces of protein-rich foods such as meat, eggs or fish; three-quarters cup of vegetables or fruits or both; one or more portions of bread with two teaspoons of butter or margarine and a half pint of milk.

Here is the guide as it looks in the lunch box of the five to nine year old: Generous serving of meat loaf between two slices of enriched bread spread with butter or margarine, carrot and cabbage salad, hot cocoa in a vacuum bottle, one large cookie and a banana.

His teen age brother needs almost twice the number of calories daily. An A plus lunch for the 15-year old includes a serving of cheese between slices of enriched bread, bologna or ham on a bun, plus hot corn chowder in the vacuum bottle and milk, purchased at school. A couple of doughnuts and an apple top off the lunch for the on-the-go adolescent.

GRACE FRIEND

I am 19 years old and desperately in love with my boss. There's only one trouble though. He's married and has three small children. Neither of us meant for this to happen but it did.

When he first began noticing me I ignored him but as time went on I could resist him no longer and we fell very much in love. He doesn't love his wife and I would have been divorced long ago had it not been for the children.

I know the most sensible thing to do would be to quit my job but I was so very fortunate in getting it in the first place that I'd hate to give it up. It offers wonderful opportunities for advancement and I doubt if I could find another job that pays as well.

He has practically begged me not to quit and I can hardly bear the thought of leaving him. You seem to be a very wise person. What should I do?

J. D. If you consider your future happiness you will leave the job at once even if you have to accept a situation less pleasant and less profitable.

Staying where you are will only make you more unhappy as time goes on. If the man is not going to divorce his wife because of the children today he hardly will tomorrow. I doubt if he even wants to leave her. Many men like to pretend that they are unhappily married so that they can have affairs on the side and the girls who fall for that line are naive indeed.

Suppose you stay on where you are. What will it gain you aside from a few illicit meetings? Is that all you want out of life? Don't you dream of marrying and having a home and fine children of your own? Don't waste your feelings on your boss but save them for the right man whom you will meet eventually. Don't ever accept less than the very best. Don't be satisfied with the crumbs of affection this man has left for you but wait for the man who can offer you the things all girls want from life.

Who knows what may happen after you find another job. The job may offer less opportunity but you may meet the man who can make you wish that you had never become involved in this present affair.

GUESTS OF TWENTIETH CENTURY CLUBS

Frau Renee von Bronneck, right, is shown with Mrs. W. B. Little of Littlefield, Texas, during the annual presidents' coffee held Tuesday morning at the Pampa Country Club by members of the Twentieth Century Clubs and honoring presidents of the clubs belonging to the Pampa Council of Clubs. Mrs. Little met Frau von Bronneck during a recent trip to Europe and helped the former film star, actress, singer and lecturer book speaking dates in various Panhandle towns.

Frau Renee Von Bronneck Entertains At Annual Presidents' Coffee At Club

Frau Renee von Bronneck of Vienna was guest entertainer Tuesday morning at the sixth annual Presidents' coffee held at the Pampa Country Club with members of the Twentieth Century Clubs as hostesses. The Twentieth Century Culture Club was official hostess club with Mrs. L. J. Zachry as general chairman.

Mrs. E. E. Shelhamer, Mrs. Raymond Harrah, Mrs. Henry Rose and Mrs. Creel Grady had charge of the program. On the decorations committee were Mrs. J. L. Chase Jr., Mrs. Joe Gordon, Mrs. Home Johnson and Mrs. Clifford Braly. Menu committee included Mrs. V. L. Hobbs, Mrs. Roy McKernan, Mrs. E. L. Dunigan and Mrs. Jimmie Thompson.

The coffee table was decorated with a centerpiece formed by a floral arrangement and centered with a violin propped on a Viennese waltz score. Special arrangements committees included Mrs. J. R. Donaldson, Doyle Osborne, J. W. Edminster, Philip A. Gates, Rufe Jordan, Jeff Bearden, H. H. Fehn, Michael Wilson, E. L. Henderson and Huelyn Laycock.

MATURE PARENT

By MURIEL LAWRENCE
Some years ago, Mr. F. married and fathered children. Then something went wrong. His divorce gave Mrs. F. a generous property settlement and him the right to receive visits from his children.

Until this summer, they have made their mother's home. Now their mother has called a halt. Mr. F. has recently remarried and she refuses to allow them to visit the home of his new wife. She suspects attempts to win their affection from her.

The new Mrs. F. is indignant. "My husband and I are ideally happy. What right has this woman to treat me like this? Should she not be forced to send the children to visit us, in justice to them, their father and me?"

Do I sense fear in this question? Does the new Mrs. F. fear that Mr. F. will blame her for this situation? Does she feel he may lose his business because it involves a problem? Is that why she wants to "force" his former wife to remove the problem?

These are not good motives for the protection of happiness. I don't think a mother should be "forced" to send her children to stay with a person she distrusts and envies.

All we could gain by such action would be an increase of bitterness. Is that what we want for the children? Let's not kid ourselves here. Let's consider the idea that we are not so concerned with the happiness of the children or their father as we are in self-justification.

If we find this is true, we are on our way. For self-justification can really mix us up here if we don't get on to it. It can harass us out of peace of mind by driving us to "force" the cooperation of distrust and envy. That's just a waste of time. So let's stop trying to make the first Mrs. F. solve our problem for us and go to work on it ourselves.

This first summer of our marriage, how about working out some arrangement by which our husband and his children can be alone together? What about removing ourselves from a situation where we represent tension so that they can talk about it freely without constraint?

The principle upon which we'd be operating would be, not dependence on someone else's justice, but reliance on our own sense of mercy.

It is quite possible that if we withdraw from this ugly battle this summer, we won't have to fight it again. By withdrawing, we may win the respect and gratitude no "forcing" could possibly win.

The Pampa Daily News Women's Activities

Page 4 PAMPA NEWS, WEDNESDAY, SEPT. 16, 1953

American Association Of University Women Celebrate Silver Anniversary

American Association of University Women met Tuesday evening in the City Club Room to celebrate the silver anniversary of the group. This first fall meeting was a review of the first years of the Pampa branch and was presented to past, present and prospective members.

Miss Eloise Lane, recipient of the first scholarship award, played a piano solo, "Lotus Land" by Cyril Scott.

"I remember when" started the reminiscences of the early activities of the Pampa AAUW and College Women's Club. Those taking part in this informal discussion were Mrs. W. R. Campbell, Ivy Duncan, Clyde Fathere, Jim Masack, E. L. Norman, L. L. Sone, George Walstead, Miss Roy Riley and Dr. E. Tiedman Hicks.

The president, Miss Evelyn Milam, presided at a short business meeting.

Miss Sybil Turner gave a brief report of the National Convention of AAUW which she and Miss Milam attended this summer.

Mrs. Walter Bower, membership chairman, extended an invitation to all newcomers and former members who are eligible, to become members of the Pampa Branch of AAUW. She explained the membership policy as set by the national organization.

Hostesses were Mrs. Ray Salton, O. M. Prigmore, V. W. Hopkins, and Miss Sybil Turner.

Lefors Art, Civic Club Entertained At Buffet Supper Meet

LEFORS — (Special) — The Lefors Art and Civic Club met recently in the home of Mrs. R. H. Barron of Lefors for their first meeting of the year.

Mrs. Howard Archer, Ray Boyd and Earl Atkinson were hostesses at the buffet supper meeting.

During the business meeting, new officers for the year were elected. Those elected were Mrs. R. H. Barron, president; Howard Archer, vice president; Ed Bryant, secretary; J. E. Carter, treasurer; James Gotcher, parliamentarian; LeRoy Spence, reporter; and Mrs. Raymond Jordan, year book chairman.

Mrs. Jordan gave out the year books to all members present. The club accepted the resignation of Mrs. Bill Smith who moved recently to Seminole, Texas, and welcomed as a new member, Mrs. Chae J.

The club will meet every other week, and the next meeting will be in the home of Mrs. Marion Brown in Pampa on Thursday evening, September 24.

Those attending the meeting were Mrs. Bill Watson, James Gotcher, L. W. McGlothlin, Ernie Trumm, Raymond Jordan, J. E. Carter, LeRoy Spence, Maurice Upham, Ray Boyd, Ed Bryant, Bud Cumberledge, Howard Archer, Bob Brown, Earl Atkinson, Herbert Archer, and the host Mrs. R. H. Barron.

Methodist Youth Bringing Galilean Shepherd Here

Stephen A. Haboush of Galilee will speak in Pampa Sept. 22 at the Pampa Junior High School Auditorium at 7:30. The man, who spent his youth tending his father's flock of sheep, is being sponsored by the Methodist Youth Fellowship.

Appearing on the program with him is his wife, Madame Haboush, and two young men to present a Bible land musical traveltogue "On Sacred Soil."

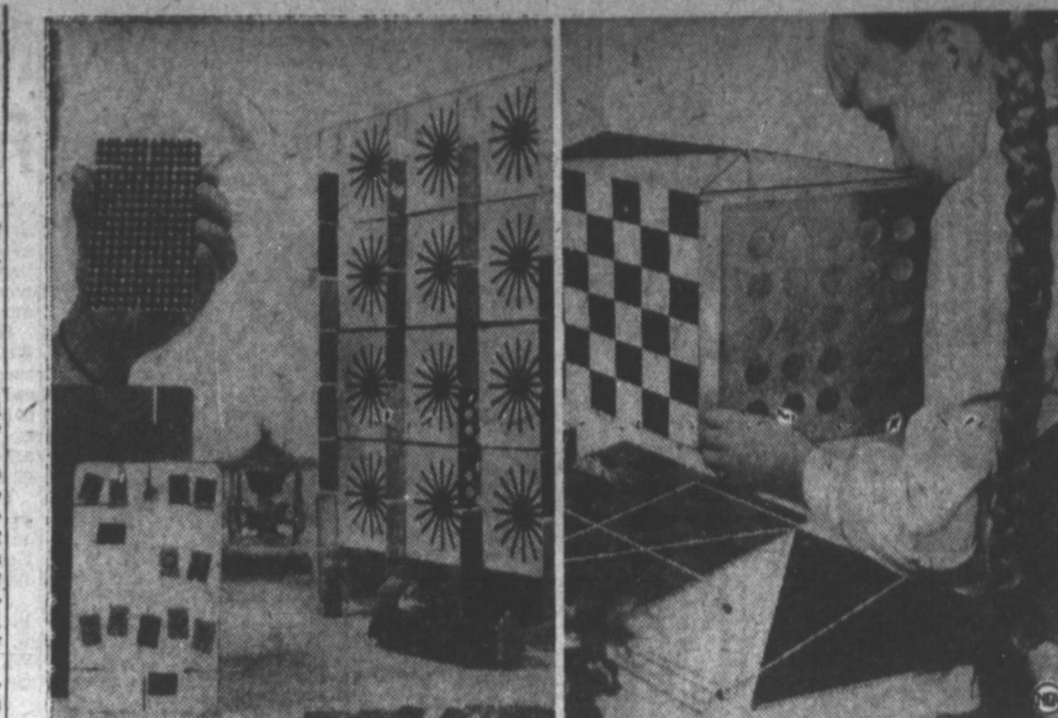

Part of the travelogue will be delivered in native costume, the same costume worn by native Galileans in the days of the Bible story.

Haboush has written for magazines and newspapers and is the author of "My Shepherd Life in Galilee."

City Council PTA Has Initial Meet

City Council Parent-Teachers Association met Tuesday morning in Dr. Ruth Low's office for the introduction of local unit presidents by Mrs. Jack Foster, council president.

Also introduced were standing committee chairmen. Council members decided to change the meeting date from the first Thursday to the first Tuesday each month. The time and place remains unchanged.

For children who like to do things with their hands, there are two brand new toys by Charles Eames, architect and industrial designer. House of cards (left) has 54 slotted and plastic-coated cards. Building possibilities from these are endless. From eight brightly-colored panels (right), this little girl can build a bridge, a castle, an airplane, a house. Supports are wire and there's a batch of flexible connectors for easy construction by young builders.

Famed Designer Creates Toys That Coax Skill From Children At Home

By GAILE DUGAS
NEA Women's Editor
NEW YORK (NEA) — On those first cold and rainy days of autumn, when the small fry must be kept indoors, mothers get used to hearing the old refrain: "What'll I do now? Why can't I go out and play?"

By way of arming parents with good answers to such questions, a well-known industrial designer has created two ingenious playthings that lend themselves to construction by inexperienced and youthful builders.

Both playthings emphasize bright color, intriguing pattern and ease of assembly. Both have many different construction possibilities so they won't become boring. Both are based on a simple principle of component construction parts that may be assembled, dismantled and re-assembled in any one of many different ways.

These toys are intended for children from six to twelve years, but teen-agers and even adults have found them fascinating.

Miss Linda Shipley Is Honored At Shower

SHAMROCK — (Special) — Miss Linda Shipley, bride-elect of Don Knoll, was named honoree at a party in the home of Miss Dorothy Ann Hamill. Co-hostesses with Miss Hamill were Misses Fredricka Abbott, Mary Katherine Setzler, Linda Horne, Barbara Oldham and Marguerite Ziegler, all Rainbow Girls.

Daphne were used to decorate the house. The hostess and the honoree greeted the guests as they arrived. Barbara Oldham presided at the guest register. Fredricka Abbott was in the gift room and other hostesses alternated at the punch bowl and assisted with the serving.

Lefors FHA Officers Are Elected At Meet

LEFORS — (Special) — At a recent meeting of the Lefors Future Homemakers of America officers were elected for the 1953-54 school year.

Officers elected were Marie McPherson, president; Ann Neill, vice president; Shirley Herring, secretary; Mary Helen Florence, treasurer; Jane Boucher, reporter; Barbara Collins, sergeant-at-arms; Shirley Smith, pianist; Jan Mounger, song leader; Virginia Wilson, parliamentarian; and Jaqueta Lesenbee, historian.

The FHA meetings are being planned to carry out the creed, "Miss Norma Lee Lantz, home economics teacher, is the sponsor.

Altrusa Club Plans Luncheon Meeting

Members of the Altrusa Club planned to hold a luncheon in the City Club Rooms at 1 p.m. Sunday at the meeting held recently. Mrs. Grace Wallace of Midland, first vice president of Altrusa International, will be guest speaker. Guests will be present from Midland and Borger.

Mrs. Frank Lard presided at the business session held in the Schneider Hotel.

Members also decided to contribute to the Frank Leder fund. Henry Clay, who said, "I would rather be right than be president," was defeated for the presidency three times.

Story Repeats In Finland Trouble

By PHIL NEWSOM
United Press Foreign Analyst

An all-too-familiar story is repeating itself in a country which always has occupied a special place in American hearts. Little Finland is in trouble. Sentiment accorded Finland in the United States always has been a little like that once accorded Czechoslovakia. Both emerged from the ruins of World War I. Both were inhabited by hard-working, enterprising, and, especially, free-loving peoples.

Inflation, Unemployment Mount
The fate which befell Czechoslovakia doesn't yet threaten Finland, which, in fact, survived two wars with Russia.

But the fear is there—from the same underlying causes which have shaken larger, stronger nations. Finland suffers from mounting inflation and unemployment, and the political inability to do anything about it.

Parliament Reconvenes
Basically, Finland's problem is to reduce production costs while at the same time building up her world exports.

Since late July Finland's Agrarian Premier Urho Kekkonen has been at work on next year's budget. Finland's parliament reconvenes Tuesday after a summer vacation. One of its jobs will be to approve

plans and also to consider his proposals for reducing production costs.

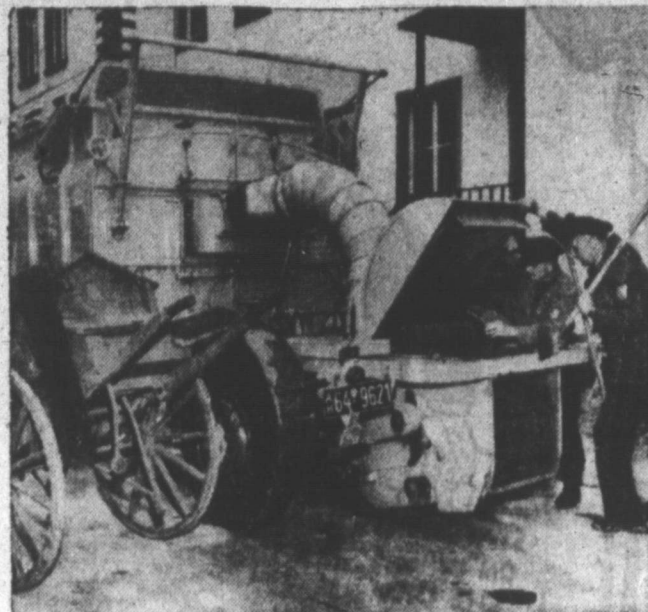

A Stubborn Man
Therein lies the rub. Kekkonen is a stubborn man who once resigned when parliament refused his proposal to reduce the price of butter two cents a pound. Parliament, facing an election next year, is equally reluctant to impose new taxes on Finnish voters.

Between the two, the result is expected to be stalemate.

MP's Like Ostriches
Finland's economic problems are not new, but for months her politicians have been carefully averting their gaze—apparently in the hope that if not noticed, they would go away.

Last winter when Finnish MP's arrived to begin their 1953 sessions, they passed through lines of ill-dressed, sullen-faced workers carrying placards with slogans reading, "Bread and Job," "We Want Jobs."

Then the unemployment figure had passed 50,000 and was mounting toward 100,000. This year, the figure is expected to set a post-war record. This in a country with a population of only about four million.

"IT'LL NEVER WORK" — Two sanitation men, whose old-fashioned equipment is parked at far left, skeptically examine a weird contraption designed to help keep streets clean in Frankfurt, Germany. It is a vacuum cleaner which sucks the dirt into a large hollow container mounted on wheels. The brushes are made of steel.

Rodney Observes Second Birthday With Young Friends

CHICAGO, Sept. 16 —UP—Rodney Deo Brodie celebrated his second birthday Wednesday with ice cream, cake and a party, just as any other youngster would.

Hope was growing, doctors said, that he will be able to lead a normal life.

The only thing unusual about the party was that Rodney is a patient at the Neuropsychiatric Institute of the University of Illinois, where he has been since surgeons separated him from his less fortunate Siamese twin.

do for another." Rodney was born joined at the top of his skull to his brother, Roger Lee.

Little Lighter Than Average
After exhaustive tests and a series of preliminary operations, surgeons last Dec. 17 separated the twins in an historic operation that took 12 hours and 40 minutes.

Roger, the weaker of the twins, subsequently died. But Rodney has grown stronger and Wednesday he scooted around the ward in a four-wheel walker.

Doctors said Rodney now weighs 24½ pounds and is 33 inches tall. The average weight for a two-year-old boy is about 30 pounds, but a spokesman said Rodney's lack of weight is "not hard to understand, considering that he has undergone a total of 20 operations."

Typical Birthday
Otherwise, it was a typical birthday for a two-year old. The guests were his playmates, the other children in his ward.

His parents, Mr. and Mrs. Royt Brodie, came up from their farm at Ferris, Ill., and brought their four other children along.

The party was planned by nurses and occupational therapists.

"But it's nothing special," a hospital spokesman said. "It's the same kind of party we have for other children on the ward. We try not to do any more for one than

Ike to Address Educators
WASHINGTON, Sept. 16 —UP—President Eisenhower will address the American Council of Education at its 36th annual meeting here Oct. 8, it was announced Monday.

Japan Prince Greeted
PHILADELPHIA, Sept. 16 —UP—Crown Prince Akihito of Japan arrived here Sunday night for a two-day rest from the rigors of his world tour and was greeted warmly by his former tutor Mrs. Elizabeth Gray Vining who first taught him about democracy and the ways of the West.

LLOYD REED RUSSELL is WANTED for escaping from Michigan State Prison. He was sent to prison after shooting a Michigan State Police detective during a running gun battle. Russell's criminal record dates from 1938 when he was sent to the London, Ohio, prison farm for grand larceny. Russell is 5 feet 5½ inches tall and weighs 147 pounds. He has brown eyes, dark brown hair, and is partially bald across the top. He is an experienced woodsman and has escaped from custody several times by taking shelter in woods. CAUTION: He is armed and should be considered dangerous. If you can help locate him, NOTIFY the Federal Bureau of Investigation, Department of Justice, Washington, D. C., or FBI agent nearest your community.

Jacoby On Canasta Learn When And How To Meld

By OSWALD JACOBY
Written for NEA Service

"When the opponents take a large discard pile and begin the melding in a hand, what is the correct procedure for the unfortunate underdog? Should the next player immediately meld, or should he leave it up to his partner? After cards, you should not meld, however, if you must use a large number of wild cards.

Your object is to get a base of four natural cards down on the table so that your side can speedily meld a canasta and meld out.

Natural cards are useful for this purpose, but wild cards should be saved to add to a base or to help you meld out.

If you have the first chance to meld and fail to do so, your partner should leap into the breach. He should meld if he can make the minimum count with a large number of natural cards that are likely to provide a base for a canasta.

If neither member of the partnership can meld at the first opportunity, it is up to you to reconsider. You can now think about putting down a meld that includes a couple of wild cards—but only if the natural cards in this meld are likely to fit your partner's hand.

For example, you may have a pair of queens in your hand and you may remember that your partner has never discarded a queen and that the opponents have not melded queens. There is therefore reason to hope that the queens will fit your partner's hand (put it another way, your partner will probably be able to add to the queens). You therefore put down an initial meld which includes those queens and whatever number of wild cards may be necessary to

PAMPA NEWS, WEDNESDAY, SEPT. 16, 1953

Area Post Offices Eye Economy

SHAMROCK — (Special) — Seven communities in Wheeler County may be without post offices. Fourth class post offices in Kelton, Gageby, Allison, Kellerville, Leia, Magic City and Briscoe are presently under government review and some of them are threatened with extinction. Federal investigators are in a drive designed to improve service and trim expenses.

The Wheeler County post offices which are threatened are among 34 fourth class post offices in Texas Panhandle communities which are under government surveillance. The others are: Glazier, Ashola, Northfield, Newlin, Alanreed, Brice, Bushland, Carey, CeeVee, Conlen Dawn, Gem, Goodnight, Hoover,

Congressman Walter pledged himself to fight to keep down of these post offices. He declared that "The Post Department will not take it until they confer with whether or not they plan particular offices. I will have evidence for keeping these open."

Rogers has contacted the post offices above, advised of the survey and intention of the Post Office Department.

Nehru Plays Cricket
NEW DELHI, Sept. 4 —UP—Indian Prime Minister Jawaharlal Nehru and Communist Party Leader R. K. Gopalan teamed up Monday on the cricket field in an inter-parliamentary charity match. Nehru, who scored one run, was still batting when the match was called a tie. Gopalan made six runs and was loudly cheered by the crowd of several thousands.

Rubbers, Ponies Win To Prolong Playoff Series

Lubbock Gets First Win In Series, 7-4

LUBBOCK, Sept. 16.—(Special)—Lubbock, with its back to the wall, registered its first playoff win here Tuesday night when Bobby Fernandez came in from centerfield to hurl the Hubs to a 7-4 win over the Albuquerque Dukes.

The series now stands at 3-1 for Albuquerque. The two clubs will meet here again in the fifth game of the series. Fernandez may return to the mound for the Hubs again tonight. If not Jerry Gleason will get the call. Bud Bauhofer will go for the Dukes.

George Socha, who compiled a 14-0 record for the Dukes in the regular season, absorbed the loss here last night.

Al Kubski, Hub third baseman, was lost for the remainder of the playoffs when he suffered a pulled ligament in his right knee.

It was Albuquerque's turn to have loose support, but all except one of Lubbock's runs were earned, even though better fielding probably would have cut down on the number.

Socha, who baffled Lubbock batters three times during the regular season, started off strong, but gave up a run in the second after Bill Guice had smacked the first home run of the series in the top half of the inning.

Bob Featherstone, who has had only one hit in the series, walked to lead off the second, with center cut. Ray Newsum, hitting .563 through last night's game, started the trouble with a single. Joe Valdivielso, playing his first complete game, tripped to right and when the throw to the plate got through Dave Henderson, scored.

Socha was smacked in the fourth when Schindler singled to short and proceeded to steal both second and third. Kubski walked and weak hitting Doug Alford lined a single for one run.

That brought on Santos. Newsum greeted him with a topped ball to first that he beat out to fill the bases. Valdivielso brought two runs home with a single and after fielding a grounder, Newsum scored. Bob Galeý grounded into the first of three in the double play to end the inning and Lubbock scoring.

By UNITED PRESS
The red-hot Dallas Eagles completed what everybody thought was impossible Tuesday night when they won the first round of the Texas League Shaughnessy Playoffs after being three games in the hole to the Oklahoma City Indians.

With Wayne Moland striking a four-bitter, Dallas treated the home folks to a real show by blasting the Indians and four of their best pitchers for an 11 to 2 victory.

Dallas started off the playoffs, after copping the regular-season championship for the second straight year, by losing three straight to the Indians and needed to lose but one more to drop out of the playoff picture.

However, the Eagles pulled together to win four straight and advance into the final round of playoff play.

Boys Club Seeking A Permanent Home
The Pampa Boys Club is looking for a home.

LINEBACKER DELUXE — James Hawkins, above, will see double-duty action for the Pampa Harvesters Friday night when the Green and Golders open their season against Austin High of El Paso at Harvesters Park. Hawkins, one of 15 returning lettermen, is the starting offensive center and will be backing the line on defense. "Hawk" tips the scales around 170 pounds. Kickoff time Friday will be 8 p.m. (News Photo)

Williamson Picks Harvesters Friday

By MITCHELL WILLIAMSON
Explanation: Team in first (left) column is picked by the Williamson System as the winner. Team in second (right) column is picked as the loser. The home team is starred (*) unless both teams are from the same town. Ratings earned this fall follow in columns to the right of respective opponents. In three general groups: (1) Class AAAA and Class AAA; (2) Class AA; (3) Class A. In case of inter-class play the game is listed under the higher class. Games in alphabetical order of home team. Abbreviations: AU (Austin), HM (Houston), CU (Corpus Christi), DL (Dallas), EP (El Paso), FW (Fort Worth), HU (Houston), PA (Port Arthur), SA (San Antonio).

However, the Eagles pulled together to win four straight and advance into the final round of playoff play.

Boys Club Seeking A Permanent Home
The Pampa Boys Club is looking for a home.

At a meeting last night of the Boys Club heads, it was decided to seek a plot of land in which to build a home for the Boys Club. Any Pampa man who might have a plot of land available is asked to contact any member of the Boys Club.

Kennedy's HR In 10th Leads P'view Win

PLAINVIEW, Sept. 16.—(Special)—The Plainview Ponies evened their playoff series with the Clovis Pioneers here Tuesday night at two games apiece when Pony third baseman Frosty Kennedy homered with one away in the 10th for a 5-4 victory.

The fifth game of the series will be played here tonight with Jim Carson slated to hurl for Clovis and Ed Arthur for the Ponies, the two who started the first game of the series. Carson won over Arthur in their first duel.

Kennedy's winning blow came on a 3-2 pitch and sailed high and wide over the left field wall.

Lee Gatewood, who relieved starter Ralph Blair in the sixth, got credit for a win.

Gatewood almost ended the game in the bottom of the ninth, but he led off with a long fly ball to left, which Clovis leftfielder Don Ford made a leaping catch to rob the Pony hurler of an extra base blow.

Plainview jumped off in the lead in the game with three in the first only to see the Pioneers pick up two in the fifth and two more in the sixth to take the lead. Plainview knotted the count in the last of the sixth, and the score stayed that way until Kennedy's homer.

The Ponies opened the scoring with three markers in the initial frame. Frank Green walked and took second on Jim Calahan's single. Don Stokes smashed the ball hard on the ground to first sacker "Big" Richardson who threw to Peo Carmona to force Calahan at second, but the return throw to first was wild and Green scored.

Kennedy followed with a single to left, and Don Tierney singled, Warren was out trying to stretch his hit. Bobby Brown struck out and the frame.

Neither team was able to score in the second third or fourth frames with Plainview stranding two men and Clovis three.

The Pioneers moved into the lead in the fifth with two on and another pair of runs. Paul Flores led off with a homer over the right field fence, and Roy Parker followed with a single. Richardson was out on a fine play by Stokes, but Frank Benites singled Parker to second.

That was all for Blair and Gatewood took over the mound duties for Plainview. Carmona forced Benites at second, but the throw to first was too late for the double play and Parker came home with the lead run.

Plainview tied the score in the bottom of the sixth. Tierney led off with a single and Warren was hit by a pitched ball. Brown sacrificed the runners to second and third, and after Bob Rose had been walked intentionally to load the bases Gatewood flew out to center with Tierney scoring. Green singled through the box, but Warren was out on Parker's throw to the plate.

The Ponies posted a threat in the bottom of the seventh as with one out Stokes singled, but he was out stealing. Kennedy then walked and Dial came on in relief. Tierney struck out to end the inning.

Colts, Tribe In Showdown
The showdown comes Wednesday night in the Longhorn League.

After Tuesday night, which saw Carlsbad win its first round playoff with Artesia and Midland nudge San Angelo to square their series, there is but one game in the loop Wednesday night.

Midland's Indians trimmed San Angelo, 4 to 2 to tie the Colts in the series at three games apiece and Wednesday night's game will decide which will meet Carlsbad for the championship.

The regular season champion Carlsbad Potashers turned back Artesia, 5 to 1, to win their fourth game against three losses in the first round playoffs.

PAMPA NEWS, WEDNESDAY, SEPT. 16, 1953 Page 7

Battle Is On For Top 4 In Majors

NEW YORK, Sept. 16.—UP—Who will be the 1953 World Series? Don't try to tell that to the Indians, White Sox or Red Sox. Or the Braves, Cardinals or Phillies. What they do from now on may not be very exciting, but they all have a chance for second place and that means a lot bigger chunk of the World Series loot for each player than if they finish fourth.

So, while the Yankees and Dodgers have a new magic number of eight—any combination of eight victories or opponent defeats means the world championship—the rest of the major league teams are battling for smaller stakes.

11 Places to Be Decided
Actually there still are 11 places to be decided in the final standings. Besides the Dodgers and Yankees, the only teams which have clinched their spots from teams lower in the standings are the Phillies who are sure of at least fourth place and the Cubs, who have clinched seventh and Washington which is mathematically beyond reach of the fast closing Tigers in fifth place in the American.

The hottest battle still remains between the Indians and White Sox for second place. Cleveland stayed a game ahead of Chicago Tuesday by beating the Yankees, 1 to 0, as Bob Lemon got his 20th victory and a seven-hitter against rookie lefty Steve Kraly.

The White Sox improved their position over the fourth place Red Sox by topping them 6 to 0 on Bob Keegan's three-bitter. That left Boston 5½ games behind with only eight to play so the chances for the Red Sox are pretty slim.

The Phils moved to within half a game of the third place Cardinals by edging Chicago 4 to 2 and cutting the Cub winning streak off at 10 games.

Snider Homers as Dodgers Win
Duke Snider's two-run homer gave Brooklyn a 4 to 3 triumph over the Cardinals in the ninth inning at St. Louis after Stan Musial had put St. Louis ahead with a homer in the eighth.

Gus Bell delivered a two-run single for the key hit in a four-run rally as Cincinnati topped New York 4 to 3 and moved within two games of the skidding fifth place Giants. Lefty Fred Baczewski pitched an eight hitter for his 10th win.

The Pittsburgh Pirates rallied for three runs in the eighth inning to beat Milwaukee 4 to 3, and hand 14-game winner Lew Burdette his fifth loss.

Tuesday's Star: Bob Lemon of the Indians, whose 1 to 0 shutout over the Yankees gave him his 20th victory, his fifth year in six he has hit that mark.

Yankee Farm System Key To Success; Not Through Winning

By FRED DOWD
NEW YORK, Sept. 16.—UP—General Manager George Weiss, crediting "continuing productivity of the farm system" as the key factor in the Yankees' unprecedented feat, singled out the team's aging pitching staff as "our No. 1 problem for 1954."

Weiss, who shares with Manager Casey Stengel the greatest credit for the Yankees' unprecedented feat, singled out the team's aging pitching staff as "our No. 1 problem for 1954."

"I believe we will be able to add the necessary young pitchers and stand a good chance of winning a sixth straight pennant in 1954," he continued. "But, of course, we can't be sure. And we must remember that bad pitching could make us a second-division team overnight."

Next to the farm system, Weiss credited the big mound three of Raschi, Reynolds and Lopat with being "the backbone of the team." Their records for the five seasons tell the story: Raschi 21-10, 21-8, 21-10, 16-4 and 13-5; Reynolds 17-6, 16-12, 17-8, 20-8 and 11-7; Lopat 15-10, 18-8, 21-9, 10-5 and 15-3.

Different Than Winners in '50s
In addition to the three pitchers, shortstop Phil Rizzuto, catcher Yogi Berra, and outfielders Gene Woodling and Hank Bauer were the only players who made significant contributions to each of the five flag winners.

This team differed from the Yankee teams of the 1930's, Weiss said. "It was a team which kept winning while in the process of being changed from an old ball club to a young one. The farm system accomplished this by sending up fresh, new talent each season."

"Our aging players won the 1947 pennant and lost the 1948 flag," he continued. "It became clear to us at the end of the 1948 season that our old players could not continue to win and we then determined to place complete confidence in our young players."

RARE BIRD CALL — Pretty Annette McGinnis, 15, of San Fernando, Calif., is mighty proud of these white jungle fowl and she should be. There are only three of this rare breed in the U. S., and these two will be on display at the Los Angeles Poultry Show, which opens Sept. 18.

Recalls Patented Chewing Gum Box

WASHINGTON, Sept. 15—UP—It was nice to have had a look at pretty young shanks and faces during the Miss America contest. But it is relaxing to get home and look into the past—old things on file at the U. S. Patent Office.

March 1, 1898, will go down in history as the happiest moment for one Edmund H. Lunken, of Denver. On that very day he got a patent for what he chose to call the "chewing gum box." It was Pat. No. 599,945. It was something that should still be on the market, but isn't. Who hasn't reached under his seat in the movie, looking for his hat, and come up with his fingers smelling of peppermint or tutti-frutti? This man Lunken had the answer. It was a little box where you could park your used gum, and file it for future use.

"Wonderful Little Gum Box" .. Lunken, in his description of the patent, put it this way:

"This is a wonderful little gum box. You can carry it in your pocket, or hang it on a chain." A lot of people apparently did.

Mike Lutemberger of Blocton, Ala., wasn't behind the barn door when the brains were passed out, either. He invented in 1911—Oct. 24 to be exact what he called an "air cooled rocking chair."

Not only did this wonderful chair have air-cooling top side, and underside while rocking, it also was equipped with a "storage place" under the bottom for fruits, "bottled goods" and other matters for the convenience of the occupant.

Whistling Pig's Tail

Would that the air-cooled rocking chair were on the market today, and I'm not trying to get commercial. Running to the ice box for bottled goods can wear a man to a frazzle.

In 1909, James E. Elliott and Harry C. Moss, of Albion, Ill., put

deaf people and thought he had a real old stem-winder, and likely he did, too.

No Longer on Market

In his description of the patent, he hedged a little—for sales purposes, and said his gimmick also was good for "hard sleepers." It consisted of a rather complicated performance that had a water sprinkler over the bed.

I'm unhappy to report Mr. Zukor didn't explain exactly how the thing worked, except to say the spray, somehow was connected with an alarm clock which went off with a bang and started the water going over the victim.

FAST MAN WITH A TICKET—In the old days, patrolman Lynn Urwin, of Dodge City, Kans., would probably have whipped out his six-shooter, but today he tickets instead of shooting traffic "varmint" and helps tourists find historical landmarks. Dodge City cops recently donned cowboy garb to promote tourist trade.

Oatis Tried To Protect News Source

NEW YORK, Sept. 16 —(UP)—Associated Press correspondent William N. Oatis said today he found himself "one man alone against a powerful and ruthless force" after he was arrested in Czechoslovakia on charges of espionage.

Oatis, released last May after two years in a Communist prison, said in a copyrighted dispatch that he fruitlessly tried to stand on American journalistic ethics to spare others from being implicated with him.

"The police called him a spy, he said, when they questioned him about 'little black books' he kept. One contained names and telephone numbers of friends and the other contained notes on information he had obtained from some of these persons.

"I owed it to my news sources to protect them," Oatis added.

But he was helpless, he said, because the police threatened to arrest all the persons listed if he did not disclose which had given him information. Under this threat he gave names and types of information he received.

In his notes, Oatis said, was a list of places in and near Prague reported to be sites or planned sites of military installations. He said he got the list from Lt. Col. George L. Atwood, U.S. military attache.

Under pressure from the police, he said, he signed a typewritten statement admitting he gathered military information in Czechoslovakia and committed espionage.

Oatis said that several days after his arrest he was wearing his

own clothes, eating meals from the police headquarters canteen and sleeping on a cot in an office. But the treatment suddenly changed, he said. He had to don "stinking old house slippers and shapeless blue pajamas," he said, and was placed in a cell.

The next day, he was questioned for 24 hours and was not permitted to sit down, he said. Finally, he refused to answer any more questions and was taken in handcuffs to a prison.

JACOBY ON BRIDGE Blaming Your Luck Is Poor Policy

By OSWALD JACOBY

Written for NEA Service

South thought that he was unlucky in today's hand when he lost two finesses, but his misfortune was his own fault. It's foolish to draw trumps promptly when you can see that you will have trouble in reaching your hand conveniently. Use the trumps as a roadway to your hand, and postpone your trump plays until you head the roadway.

In today's hand declarer won the opening heart lead in the dummy and lost a trump finesse to West's king. West returned a heart, forcing South to ruff, and declarer made the serious error of drawing two more rounds of trumps.

When South next tried the club finesse, East won with the king of clubs and led a third round of hearts, punching out declarer's last trump. It's easy to see what happened later on.

West took the first diamond with his ace and returned a diamond. There was no way of getting out

Ancient Cars Prepare

CLEVELAND, Sept. 16 —UP—The "biggest motorcade anywhere" assembled here Sunday for the eighth annual Glidden Antique Auto Tour. The American Automobile Association, assisting in the revived tours, said 333 ancient autos were registered and ready for the weeklong, 300 mile trip from here to Columbus, Toledo, and Detroit.

Every 3 days a new diesel joins the Santa Fe fleet!

A 10-year record of "building new" on the Santa Fe

Christened with California champagne, Santa Fe's first multiple-unit diesel locomotive rolled out of Chicago on May 12, 1936.

It powered the first *Super Chief*.

39 1/2 hours later it rolled into Los Angeles—and the new age in railroading was born.

There were 3600 "horses" in that one.

Five years later, the first multiple-unit freight diesel rolled on Santa Fe rails.

There were 5400 "horses" in that one.

Today, there is more than 2,100,000 diesel horse power on the Santa Fe—1524 mighty diesel units.

From 1943 through 1952, a total of 1261 diesel units were placed in service. *Better than one every 3 days for a 10-year record!*

And still they come! 222 in 1953!

Every diesel added, every mile of heavier rail, makes America's New Railroad a little more completely new. Why, enough new rail has been laid on the Santa Fe in the last seven years alone to reach from Chicago to Los Angeles!

All new—but always the old pride that all this building new costs you, the taxpayer, not one tax penny.

of dummy, and dummy still had a losing heart. The defenders thus took a trick in each suit.

The hand is very simple if you just don't draw the second and third rounds of trumps. You lose the trump finesse and ruff the heart return. Now you forget about trumps for a while and try the club finesse.

East wins the king of clubs (it does him no particular good to hold up, although it is probably his best try) and leads a third round of hearts, forcing you to ruff again. You now switch to diamonds, forcing out West's ace.

What can West do now? If he puts you in dummy with a diamond (he can't lead a fourth heart, after all), you can get back to your hand and draw trumps. Then you are in position to cash the jack and ten of diamonds.

If West returns a trump, you can unblock the dummy's remaining diamond and get back to your hand with a third round of trumps. Those trumps are your communication, and you must use them for that purpose instead of woodenly drawing trumps at your first opportunity.

PRESIDENT'S "QUEEN"—Pat Priest, of Arlington, Va., daughter of United States Treasurer Ivy Baker Priest, has been chosen to reign as Queen of the 1953 President's Cup Regatta, at Washington, D. C.

Arizona, with a total area of 312,506 square miles, is surpassed in size only by California, Montana, New Mexico, and Texas.
