

Weather Continues to Hamper Relief

Texas Storm Death Total Climbs to 57

The death of Mrs. Ada Rose Kerns, 24, brought the Texas storm deaths total to 57 shortly before noon Saturday.

The 24-year-old mother of a 17-months-old son, died in the Perryton Hospital. She was reported to have been visiting relatives at Higgins when the twister hit. Her home was in Wichita, Kan. Her baby is staying with relatives in Perryton. The body was taken to the Boxwell Funeral Home, Perryton.

Foul weather in the Panhandle region over the weekend retarded much of the rebuilding, rebuilding and burial in Canadian hospitals. It's some spot here talking about. Here's the story which is moving toward a climax. In 1946 the great strikes so initiated Congress, then run by the Democrats, it decided to put brakes on organized labor.

Temporary Office Of Employment Is Set Up at Higgins

A temporary office of the Texas State Employment Service, a division of the Texas Unemployment Compensation Commission, was established here at Higgins.

F. A. Wells, district director of the Texas Unemployment Compensation Commission, toured the stricken area Friday and in consultation with Judge Bissanz, county judge of Lipscomb County, and Charles Hyde, Higgins mayor, decided that the facilities of the employment service are needed.

The office will be in the bank building in Higgins, located where Highway 20 intersects the main street. O. G. Evers of Lubbock and E. S. Cook of the Amarillo office will be detailed to handle the job recruitment and referral. Wells stated that workers are cautioned about swarming into the stricken area until they know they are needed, as such actions could be detrimental to the situation rather than helpful even though the action was prompted by a keen desire to do everything possible.

The immediate job toward reconstruction is one of clearing debris, and protecting salvageable materials and equipment. Contractors are needed now for consultation purposes, and making estimates of materials, costs and man-power requirements. Wells further stated that the employment service at Higgins will be open a minimum of twelve hours each day, or longer if necessary, and that an immediate area of clearance is being established between the Panhandle section of Texas and the Oklahoma Panhandle.

Local Scouters in Stricken Area Today

Hugh Olsen, council executive of Adobe Walls Council, BSA, and Huey Lycock, council committeemen, are in Glazier and Higgins, today, to receive instructions from the American Red Cross and other officials, as to the number of Boy Scouts that will be needed in the future to help in the grief stricken area.

3 Die in Train Wreck at Higgins

Strategy--1947 Puts Truman 'On the Spot'

WASHINGTON—(AP)—Senator Alben W. Barkley says the Republican leaders in Congress are trying to put President Truman "on the spot."

Alben is angry at them, even though he's a Republican himself. It's some spot here talking about. Here's the story which is moving toward a climax.

In 1946 the great strikes so initiated Congress, then run by the Democrats, it decided to put brakes on organized labor. It passed a bill, called the Case Bill. This put more restrictions on unions than any bill ever before passed by Congress.

So organized labor escaped in 1946 without the new brakes which, for a while, seemed sure to be placed on their wheels.

Then the 1946 election came along. The Democrats lost control of Congress to the Republicans. How much the Republican victory was due to the voters' anger at Mr. Truman's veto of the Case Bill is not known.

The Republicans, fresh in the saddle, opened the new Congress in January by determining to pass some kind of union-curbing law. Before they had a chance to do anything, Mr. Truman stepped up with suggestions for some curbs, although mild ones.

At the same time, he suggested Congress delay any long-range labor laws until it could make a long-range labor study.

The Republicans brushed this idea aside. They decided on action now. They've worked for months on labor legislation. They're pretty close to voting now. The House votes this week, the Senate later.

Both of the present bills go far beyond Mr. Truman's January suggestions. The House Bill, tougher than the Senate's, puts far more restrictions on unions than the 1946 Case Bill would have.

The Republican-run Congress, instead of determining a bill which will turn out, could do a piece-meal job.

Round-Table to Open CC Week

Liebman Langston, manager of the ice company here, will be master of ceremonies tonight at 7:30 for a round-table discussion on the activities of the Pampa Chamber of Commerce over Station KPDM.

This is the first in a series of programs being conducted this week in connection with Chamber of Commerce Week. Mayor C. A. Huff has issued a proclamation in connection with the observance.

The following will take part in tonight's broadcast: Frank D. Smith, president of the local chamber; Joe F. Key, vice president; Crawford Atkinson, past president; and W. B. Weathered, immediate past president.

Arthur Teed, local attorney, will speak at the regular meeting of the Pampa Junior Chamber of Commerce tomorrow on the activities of the senior chamber. Other special programs will be given before all civic clubs, Junior and Senior High School assemblies.

FRATERNAL RESCUE COLUMBUS, O. —(AP)—

Firemen rescued a party of 12 from a hotel elevator which slid to the bottom of the shaft when its brakes failed. The trapped passengers included five visiting fire chiefs and their wives. The chiefs were here to discuss state safety legislation.

Good Neighbor Fund Exceeds \$10 Thousand

Pampans today were proving themselves "good neighbors" as they continued to assist in every way with the all types relief measures in connection with last week's tornado.

The "Good Neighbor Fund" totaled \$10,133.30 at noon today and contributions continued to come into collection agencies, The Pampa News, radio station KPDM, and the two banks.

A committee, appointed by the Commissioners of Courts of Hemphill and Lipscomb Counties will administer these funds.

H. S. Wilburn, president of the Canadian National Bank and chairman of the Hemphill-Lipscomb County disaster Relief Fund disbursements, said today that no exact plans have been made as to how the money other than it will be used for the rebuilding of churches, schools, and in general pick up where the American Red Cross leaves off.

"The Red Cross, he said, is authorized to go only so far and no further. They will take care of all of the families, relocating them, rebuilding their homes, and replacing all of them to the same standard of living that existed before the storm. Then this fund will come in behind the Red Cross to repair and rebuild churches, schools, community centers, and other items not covered by the ARC."

Communications were practically nil as all wires were down during the heavy raining tornado of Wednesday night. Short wave radio again had to be used to get the first reports of the rail wreck through to Amarillo and Pampa.

All of the bodies were found on the ground at the time of the wreck and snow, sleet and rain kept banging the wreck scene.

All of the bodies were taken to the Boxwell Funeral Home in Amarillo. The engine of the second train, according to all reports, was a total wreck as Santa Fe workmen immediately started to clear the main line. Meanwhile other freight and passenger trains were being rerouted through Safford, Amarillo, Ester, and Fairview. The main line was expected to be cleared by noon today, Cassell added.

Officials of the railroad indicated that it was impossible to see any signals and the regular signals were knocked out by the death dealing tornado.

Engineer M. W. Elliott of the first train was not reported to be dead or injured. Funeral arrangements for the three railroaders were pending at the Boxwell Funeral parlors in Amarillo.

Kellerville Troops to Receive Scout Charters Representatives of the Adobe Walls Council, BSA will journey to Kellerville tonight to confer with the Kellerville Scout and Cub Troop 70. Both troops are sponsored by Kellerville Parent-Teachers Association.

A special court of honor will be held for the Scouts to receive their awards. Councilmen from Pampa making the trip are W. B. Weathered, council president; Hugo Olsen, council executive; and G. M. Gunn, camping activities director.

A. D. Johnson, scoutmaster, and Rev. James F. Scott, cubmaster, are in charge of the program. Violation of the Logan Act, which dates back to 1798, carried a maximum punishment of a \$5,000 fine and 3 years in jail.

McLEAN — (Special) — Funeral services were held yesterday afternoon at the Presbyterian Church here for Mrs. Ethel Howard, 67, who died Friday at an Amarillo Hospital. S. R. Jones read the rites, assisted by M. W. Chaffin, of the Church of Christ. Burial was at the Hillcrest Cemetery, under the direction of Womack Funeral Home.

Mrs. Howard, who had been a resident of McLean for 27 years, leaves four sons, Philip of Plainview, Raymond of Borger, Robert of McLean, Alton of Amarillo; and four daughters, Mrs. Mary E. McClelland, Mrs. Almada Crockett, both of McLean, and Mrs. Annie Ford and Mrs. Martha Bohannon, both of Amarillo.

A member of the Presbyterian Church, she came to Gray County with her family from Childress in 1920. Pallbearers were Dick Dickinson, Posey Dickinson, John Dwyer, Clyde Willis, Sherman Crockett and C. B. Lee, Jr.

REMOTE CONTROL —MAYFIELD, Utah —(AP)— Myles Michaelson is mayor of Mayfield, but he gets home to take care of the job only about once a month. A World War II veteran, he is a student at Utah State Agricultural College at Logan, 200 miles away. He drives home every few weeks.

See the new home freezing lockers at Lewis Hardware Co.

General Motors Settles With 30,000 Workers

DETROIT — (AP) — Announcement of an agreement between General Motors Corporation and the United Electrical, Radio and Machine Workers of America (UECWA) providing for a 15-cent an hour increase for more than 30,000 employees, was made today in a joint statement of the corporation and the union.

The agreement is effective today. Under its terms all wage rates and classifications of the hourly rated employees represented by the UECWA will be increased by 15 cents per hour.

Earlier Speaker Martin forecast the House will pass by a 2 to 1 vote a strike-curbing bill recommended by the Labor Committee a cure for industrial strife.

The Massachusetts Republican made the prediction to reporters after House GOP members talked over the bill in a party conference. The bill comes up for debate tomorrow. A two-thirds majority is necessary to cancel any presidential veto. Martin said he wouldn't be surprised if it is much stronger than two to one.

Prior to the GOP meeting, a 19-man majority in the Labor Committee declared in a report that the legislation would protect workers from a "despotic tyranny."

A six-man Democratic minority contended, however, the bill is "deliberately designed to wreck the living standard of the American people" and to "punish labor."

Majority and minority views were made known as the House Rules Committee cleared the controversial omnibus labor bill for House action tomorrow—and expected passage by Friday.

On the other side of Capitol Hill, Alben Barkley (R-Vt.) declared for Senator Taft (R-Ohio) had practiced See GENERAL MOTORS, Page 6

Full Payment of Salary Check Is Made to Sheriff

Full payment of the monthly salary check of Sheriff G. H. "Shiner" Kyle was allowed at a special call meeting of the County Commissioners, held last Friday. It was learned this morning, The Commission had decided to take the request for salary payment at an earlier meeting.

The initial request for payment was reported tabled on the grounds of a coming investigation of a payroll in funds in the Sheriff's Department payroll. District Judge Lewis M. Goodrich had previously stated that the matter was on the agenda of the next Grand Jury meeting. Bringing a matter before the Grand Jury does not necessarily mean something is wrong.

At the special meeting Friday Commissioner Wade Thompson made the motion that the salary be paid as requested and was seconded by Commissioner Hopkins. Commissioner Beck dissented to the motion and Commissioner Clark assented.

A spokesman for the Commission explained the action he Commission in this manner. "It was never decided whether or not the Commission had any right to withhold the salary."

The law appears to mean that if any county official is indebted to the state or county his salary may not be paid until the indebtedness is cleared, but the official said "it is doubtful to the Commission that the sheriff owes the county money. Certainly that has not been established."

The spokesman pointed out, that the Commission had not "investigated the matter." All they have heard to date, he said, "is a lot of rumors."

Services Arranged For Higgins Dead

Funeral services have been arranged by Clegg Funeral Home for the following residents of Higgins who perished in the tornado. Both Mrs. Elizabeth Jane Phillips, 78, and her brother, Jackson McCune, 73, will be buried at Elmwood, Okla. at 2 p. m. today.

Boyd Wingfield, 39, his wife, Mrs. Opal Appstein Wingfield, 44, their daughters, Diana, 2, and Doris Lee, 19, and their son Michael, 4, will be given graveside services at Higgins tomorrow at 2 p. m.

Wallace Faces Legal Action

WASHINGTON—(AP)—Chairman Thomas (R-NJ) of the House Committee on American Activities said today the Justice Department has "two alternatives" to taking legal action against Henry Wallace during his statements the former vice-president has made in Britain.

Talking with newsmen, Thomas said his committee today looked over the Logan Act which forbids any American citizen to deal with a foreign government or its agents on a matter in dispute between the two countries or in any way "to defeat the measures of the government of the United States."

"It covers Henry Wallace," Thomas said, "just as you'd cover a person who goes to a foreign country." He said his committee plans no action, that it is "clearly a matter for the Attorney General to take action, and he'll have no excuse whatever."

Wallace has been speaking in Britain in opposition to President Truman's plan for the U. S. to aid Greece and Turkey. Violation of the Logan Act, which dates back to 1798, carried a maximum punishment of a \$5,000 fine and 3 years in jail.

Wallace Blasts At Loan Plan Confront HST

WASHINGTON—(AP)—The White House turned aside today all questions as to what President Truman may do about Henry A. Wallace's speeches abroad criticizing U. S. foreign policy.

"No comment," Presidential Secretary Charles A. Ross said when reporters brought the subject up at his news conference. Bombarded with further questions, he added: "There is no comment on the Wallace situation in any way, shape or form."

An opportunity for Mr. Truman to talk the matter over informally with prominent senators was presented by a Capitol luncheon. He arranged to have lunch with a group of old Senate acquaintances.

There before going to Griffith Stadium to toss the first ball for the Washington-New York opening American League baseball game.

It is apparent that the developments are confronting Mr. Truman with the choice of (a) cracking down on Wallace, or (b) facing charges that the administration's foreign policy isn't above politics.

Wallace, highly critical of the President's Greek-Turkish aid program, has been roundly criticized during his recent speaking tour of England. Although they didn't put it just that plain they will have little patience with the bipartisan cooperation if Mr. Truman doesn't disavow Wallace despite the political effect such a move might have.

Friends of Senator Vandenberg (R-Mich.) said the chairman of the Senate Foreign Relations Committee will be mightily disappointed if the President doesn't act, and soon.

Vandenberg is having his troubles as it is keeping some of his GOP colleagues in line for the President's program.

Senator Moore (R-Okla.) pointed up the Republican view with a weekend statement saying it was "unfortunate that the day prior to Wallace's first speech in London, making an open attack on American foreign policy, President Truman gave him (Wallace), a verbal pat on the back and began to woo the voters with a bipartisan campaign." Moore's statement rolled off the Republican National Committee's duplicating machine.

The President told his news conference See WALLACE, Page 6

Wallace Faces Legal Action

WASHINGTON—(AP)—Chairman Thomas (R-NJ) of the House Committee on American Activities said today the Justice Department has "two alternatives" to taking legal action against Henry Wallace during his statements the former vice-president has made in Britain.

Talking with newsmen, Thomas said his committee today looked over the Logan Act which forbids any American citizen to deal with a foreign government or its agents on a matter in dispute between the two countries or in any way "to defeat the measures of the government of the United States."

"It covers Henry Wallace," Thomas said, "just as you'd cover a person who goes to a foreign country." He said his committee plans no action, that it is "clearly a matter for the Attorney General to take action, and he'll have no excuse whatever."

Wallace has been speaking in Britain in opposition to President Truman's plan for the U. S. to aid Greece and Turkey. Violation of the Logan Act, which dates back to 1798, carried a maximum punishment of a \$5,000 fine and 3 years in jail.

What Will Happen to Tax Bills in Legislature?

By BO BYERS AUSTIN—(AP)—What will happen to the tax bills? That was the question legislators were arguing today as Senators and Congressmen sought immediate action to kill the McLean measure and thus bring on the Clifton bill.

2. If the Senate inclines to agree with Gov. Beauford H. Jester that no new taxes are needed, then it will probably stall as long as possible. Some persons wondered last week if the Governor might be relenting slightly on his 10-new-tax stand when he said in a statewide speech that Texas' industrial opportunity "must not be thwarted by ill-adviced tax legislation."

Other considerations facing the Senate in its choice by tax bills are these: 1. The use to which the additional revenue would be put. 2. How much revenue, if any, is needed.

McLean's tax on the gathering of natural gas would raise an estimated additional \$28,000,000 a year to be divided equally for building rural roads and for increasing school teachers' salaries to a \$2,000 minimum—if possible.

That's \$14,000,000 for farm roads and \$14,000,000 for teachers. (The \$28,000,000 estimate is considered conservative.)

Davis' increased tax on gasoline would yield an estimated additional \$28,000,000 a year at the present rate of gasoline consumption by automobiles, trucks and buses operating in Texas.

Under the proposed allocation formula and in accordance with present laws, one-fourth of this increase would go to the available free school fund but is not earmarked for the specific purpose of raising teachers' pay. One-fourth would go to the counties for road building, one-sixth to the county and road district highway fund, and the remainder of the state highway fund. See TAX BILL, Page 6

General Labor Bill Provisions Approved

WASHINGTON—(AP)—The Senate Labor Committee today approved provisions of a general labor bill authorizing issuance of court injunctions to block "national paralysis" strikes.

The committee also voted to establish a new federal mediation agency, independent of the Labor Department.

Chairman Taft (R-Ohio) said provisions of a preliminary draft covering both the strike situation and the mediation agency were approved "substantially without change."

He told reporters no formal vote was taken. The remainder of the 15 cents will be used to cover the cost of six paid holidays and other economic issues. Assignment of 2 cents holiday pay to meet other economic issues was one of the original demands of the union which was agreed to in negotiations.

The holidays for which GM will pay employees represented by the New Year's, Memorial Day, Fourth of July, Labor Day, Thanksgiving and Christmas.

The union's demand for a health, welfare and retirement program will continue a subject for discussion in negotiations. The agreement must be ratified by membership of the four unions involved. Under the terms of the agreement, the international union must notify General Motors of ratification by the local membership not later than April 21.

The divisions of General Motors covered by the agreement are Frigidaire, Dayton, O.; Delco Products, Dayton; Packard Electric, Warren, O.; and Delco Appliance, Rochester, N. Y.

The statement issued by H. W. Anderson, vice president of General Motors in charge of personnel, and James J. Matles, director of organization for United Electrical, Radio and Machine Workers, said:

"This agreement settles the economic issues raised by the UECWA and the new agreement may continue indefinitely unless either or both of the parties choose to terminate the contract or request its modification. The earliest date upon which the contract may be reopened or terminated is April 28, 1948."

"This agreement, arrived at through direct collective bargaining by the parties, recognizes increasing living costs and the necessity for maintaining continued maximum and uninterrupted production to meet the demand for General Motors products."

A General Motors spokesman said the overall average for its corporation-wide hourly-rated employees was \$1.31 an hour but that a breakdown for the four divisions covered See LABOR BILL, Page 6

High School Choir, Band to Give Concert

A two-hour concert by the Pampa High School Band and a Cappella Choir will be presented at the High School Auditorium tonight, beginning at 8.

Members of the band will be showing off at the program, according to Ray Robbins, high school band director. This will be their first appearance in their new uniforms.

The program will consist of a wide variety of contest music and lighter selections by the band. The choir will sing a group of recent Negro spirituals, popular hit selections and some old favorites.

Wednesday the band will travel to the Tri-State Band Festival at Enid, where 106 bands will compete for honors. Next week the choir will journey to Dallas to attend the Highlander Music Festival.

Polar Expedition Returns to U. S.

WASHINGTON—(AP)—Rear Admiral Richard E. Byrd and other leaders of the Navy's Antarctic Expedition returned home today aboard the polar flagship Mount Olympus.

The vessel docked at the naval gun factory on the Potomac River flying a two-starred flag in recognition of the two rear admirals aboard. Richard H. Cruzen, commander of the task force, and Byrd, who was chief of the expedition.

The arrival of the vessel that led 13-ship task force on a four and one-half month exploratory and training cruise to the frigid barren wastes of Antarctica brought to the fore a much-debated and still unsettled question.

Whether the United States might assert a formal claim to a substantial chunk of the snow and ice covered continent. Government officials expect him to press for a decision by this country to push a claim without delay for as much as 1,800,000 of the 6,900,000 square miles of known area. To date the United States refuses to recognize claims advanced by other nations but "reserves all rights."

THE WEATHER

U. S. WEATHER BUREAU PAMPA, TEXAS: Partly cloudy and warmer tonight and tomorrow. A total of 31 rainfall fell here since Friday night.

WEST TEXAS: Cloudy to partly cloudy, a few widespread showers this afternoon and tonight. Warmer in the Panhandle and South Plains this afternoon. Tuesday partly cloudy and warmer.

TREASURE ISLAND HIT BY FIRE—A spectacular three-hour fire which raged among naval installation buildings at Treasure Island in San Francisco Bay did an estimated \$500,000 damage and required some 2,000 Navy and civilian firefighters to bring it under control.

Seitz Lines Up Heavy Battery To Begin Defense of Pennant

When the Pampa Oilers begin the defense of their championship pennant here April 23 against Berger they should have enough power available to make most any pitcher the Gassers have just a little bit nervous. Manager Grover Seitz now has a smooth working club and if their batting compares with past seasons they should spend plenty of time running the bases.

The latest additions to the Oilers are Thomas O'Connell and Bob Bailey, both of whom have done enough hitting to make people take notice when they walk to the box. O'Connell, who was optioned to the Oilers by the Shreveport Sports, slugged out a 312 with Baton Rouge last season. Bailey played ball with the Oilers in '39 and '42. He is a notable long-ball hitter who swatted out 29 homers in a previous season with the locals.

Other batting power that is apparent in the Oiler lineup is Tony Range, R. C. Otey, Joe Fortin, Grover Seitz, and Al Johnston. All of these boys will be remembered by the opposition and fans alike, after they fought their way to the top last year, with the other power Indians.

R. C. Otey, wing footed little second sacker, who incidentally came here from Amarillo, hit .329 for the Oilers last season. Tony Range, who believe is a top candidate for all league honors at third this year, hits .339.

Covering the outfield is more power. Skipper Seitz last year hit .296 and their seems to be no logical reason for him to let up this year, particularly when he has recently purchased an interest in the club.

Another outfielder, Big Joe Fortin, is looking better in batting practice these days than he looked all last year while hitting .319. Last season, Fortin's trouble was that he was doing all his hitting to right field. At workouts now he is sending them where he wishes. Plenty are clearing the left field fence with encouraging regularity. Johnston hits .282.

Jack Elliott, a rookie catcher from Enid, is looking fair while swinging a bat for the Oilers. He throws the ball right handed but he's a switcher hitter and has great possibilities.

There is no record available on the pitching staff's batting ability but your reporter believes he shares the feelings of most of the fans here when he says that we'll be satisfied if they can just pitch. We'll leave the batting to the other eight men.

Women's Annual Golf Tournament Under Way Today

PINEHURST—It's the Babe against the field as play gets underway today in the 46th annual north and south Women's Golf Championship here.

Not in many years has a golfer dominated the feminine competition as does Mrs. George Zaharias, formerly Mildred (Babe) Dickrickson. She's won 14 straight tournaments, everything she's entered since she captured the National Women's Championship last summer at Tulsa.

Mrs. Estelle Lawson Page of Chapel Hill, N. C., who has won the title seven times, and Miss Louise Suggs, the defending champion from Lathia Springs, Ga., may give Mrs. Zaharias her most severe competition.

An 18-hole qualifying round is scheduled today over the 6,145-yard Pinehurst No. 1 course which has a women's par of 72. The tournament will start match play tomorrow.

Price Chased by Texas Trackdom

DALLAS—The colleges are after long-legged Cleburne Price, the one-man gang of Texas trackdom, but the versatile star of North Dallas High School has a lot of thinking to do before he makes his choice.

A great admirer of Gil Dodds, the Flying Parson who preaches while he mops up the mile championships of the nation, Price is thinking seriously of studying for the ministry. But earnestly he says:

"You have to be sure about things like that. With me, what I'm going to do is the more important than running on the track. I want to go to the college that offers the course for which I am best fitted."

Price, a veteran of six track seasons in junior and senior high schools, was high-point man of the Texas Interscholastic League meet last year, placing in four events—the second time in history for a youngster to do this.

Slight Correction

NEW YORK—(AP)—Many and varied are race track superstitions but if Andy Schuttlinger has one it's a well kept secret—at any rate the former ace jockey who now is a trainer, puts no stock in the most common of superstitions: aversion to the number 13.

"I was born on the 13th, it's a lucky number for me," he says. "I did have to modify my feeling a bit to keep peace around the barn, though." With a heavy black pencil on the stall where Andy keeps Cacicue, most promising of his two-year-olds, the number has been changed to 12 1/2.

BOXING TOURNAMENT TROPHIES

The large trophy pictured here (in center) and its fourteen smaller brothers (grouped around) will be presented to the best individual boxer and to the champion in each weight division of the big Thursday 7-11 Club Boxing Tournament to be held in the Junior High School Auditorium, Thursday, Friday and Saturday.

Loughorn Nine Meets Bears in Critical Tilts

The stranglehold Baylor and the University of Texas appear to have on the Southwest Conference baseball title can be loosened a bit this week. They square off in two-game series Thursday and Friday at Waco.

With the half-way mark looming, Baylor and Texas are still deadlocked for the lead—four victories and no defeats for each.

Texas A. and M. virtually lost out for any chance at slipping into the title chase, having to Texas 9-8 at Austin last week.

While the Baylor-Texas series holds top spot on the week's schedule, three other conference games are on tap.

Price, a veteran of six track seasons in junior and senior high schools, was high-point man of the Texas Interscholastic League meet last year, placing in four events—the second time in history for a youngster to do this.

State TAAF Tourney Ruled 'No Contest'

TEMPLE—(AP)—The State TAAF Men's Basketball Tournament was declared "no contest" by the executive committee of the Texas Amateur Federation here yesterday.

All trophies awarded in the March 14-15 tournament were directed to be returned to the State TAAF chairman.

The ruling came as the result over elimination of the Bruce Motor Company team of Tyler from the tournament.

Collegiate Cagers High Scorers, Too

CHICAGO—(AP)—Although professional basketball generally is considered a higher scoring sport than the college variety, figures compiled recently demonstrate that the pros score just slightly more points per minute than the Big Ten collegiate cagers.

Western Conference basketball teams have compiled 2.5 points per minute on the average this season, while pro teams in the Basketball Association of America counted 2.7 points per minute.

15 CATFISH WEIGHT 61 LBS.

Caught by Geo. Wylie on a marvelous new CATFISH LURE
HERE'S HOW IT WORKS
A lure dipped into a specially prepared emulsion, dries quickly into a firm, fish-attracting, catfish. Pictured above is the lure before and after dipping. It will cast like a long plug and when in the water "floats" a "smoke-like" substance that attracts catfish from a great distance. Bait can be made "Fast Stuffing" for pole fishing or made to last several days for set lines. Ingredients for emulsion may be purchased from local merchants and when made into bait will keep indefinitely.
One sample lure with full instructions how to make lure and emulsion, will be sent for 50¢. Enclosed is the best dollar you've ever saved! If you want to catch catfish, send your order now to:
GEORGE W. WYLIE—Clay Center, Kans.

Stingy Pitchers and Weather Break Gel Missions off to Running Start

By WILBUR MARTIN
San Antonio's stingy pitchers and a lucky break in the weather have sent the Missions off to a running start in the Texas League.

Though tied with Fort Worth, Oklahoma City and Shreveport for the lead, the Missions have four straight victories against no defeats. The others boast 2-0 records. Rain wiped out all save the San Antonio-Beaumont game Saturday and again yesterday only the Missions and Houston and Beaumont-Shreveport were able to play.

Five veteran and rookie pitchers have yielded just 28 hits to San Antonio opponents in the four games, seven in each.

Al Lamacchia, Ed Cole and Ned Garver went the route against Beaumont in a three game series, while Ralph Germano and Marlin Stuart teamed against Houston for yesterday's 6-4 victory.

Until 1900 kerosene was the principal product of the oil industry and gasoline was a by-product.

Managers Eddie Dyer and Joe Cronin Are Forced to Agree With Experts

By JOE REICHLER
NEW YORK—(AP)—In accord with the majority of the experts who established them as overwhelming favorites to renew their World Series rivalry next fall, Manager Eddie Dyer of the world champion St. Louis Cardinals and Joe Cronin of the Boston Red Sox said today they expected their teams to finish first in their respective leagues.

Going out on a limb on the eve of the opening of the Major League baseball season, Dyer, in the annual Associated Press poll on managerial comment, said:

"We expect to win, but it's not going to be easy. I don't think we will have another two-team race such as last year. I expect formidable competition from all rivals. I figure the Cards are 15 to 25 percent stronger than last year."

Cronin, whose American League Kingpins got off to a running start last season and pulled away from the field to win in a walk, predicted:

"We will repeat if the boys will forget all about their 1946 clippings and play ball. We should have all of our power plus improved pitching."

The baseball writers representing the Major League cities, in a poll, made it a walk-away for the Cards and the Red Sox. Of the 96 experts polled, 88 picked the Cards in the National and 79 selected the Red Sox in the American League. Detroit, New York Yankees and Cleveland clinched—24 maintained a lead in the American League, while Brooklyn, Chicago and Boston divided the eight remaining first place ballots in the National.

WAGES AND THE TELEPHONE STRIKE

Because wages are at issue in the telephone strike, let's take a look at what operators and plant craftsmen are now getting. Almost all telephone people are in these groups.

The basic work period is a 5-day, 40-hour. Scheduled employees are paid overtime for time worked over 8 hours a day, premium time for Sunday and holiday work, and added money for evening and night work.

OPERATORS

A girl just out of High School with no previous experience starts at the beginners rate of \$26.00 a week. But if she works after 9:00 P. M. she gets \$27.50 a week, and if that week includes Sunday work, she gets \$30.10.

The beginning operator gets a raise in pay every six months for the first year. An operator with 12 months experience, for example, gets \$28.00 for a normal 40-hour week. If it includes evenings and Sunday, she earns \$32.30.

Periodic increases bring the operator to the top rate of \$34.00 a week. If she works evenings and Sundays, her weekly earnings are \$38.90.

But the union wants to increase the beginners rate of pay from \$28.00 to \$41.00—a \$15.00 a week. Also, they would increase the top wages from \$34.00 to \$51.00, that's an increase of \$17.00 a week.

PLANT CRAFTSMEN

Linemen and installers starting in right out of school with no experience begin at \$28.00, for a basic 5-day week. In two years they are earning \$35.50 a week. Periodic increases

raise this basic rate to a top of \$56.00 a week. Exchange repairmen—the men who take care of repairing the equipment in your office or home—reach a top of \$58.00. Overtime and other extra pay during the past year increased the wages of most linemen, installers, and exchange repairmen by about 10%.

The union asks that the beginning wage rate of these plant workers be increased from \$28.00 to \$43.00—up \$15.00 a week. The union would also increase the \$50.00 top rate to \$78.00, and the \$58.00 top to \$86.00. These would be increases of \$22.00 a week.

We believe most people will agree that present wages are good. The Company believes that no increases are justified at this time.

The way to resolve these differences of opinion and settle the strike is to Arbitrate the wage issue. That would be fair to our employees, to telephone users, and to the company.

Nearly three weeks ago the company proposed that Governor Jester and the Governors of the other four states in which we operate appoint a panel of five impartial citizens—men with a knowledge of conditions in this area—to arbitrate the wage issue. The company enlarged its offer to include not only basic wages but such other demands as length of time for employees to reach top wage rates and wage differentials between different communities.

The company urges the union officials to reconsider the offer of arbitration. It is the fair way to settle the strike, restore full telephone service to the public and get the telephone wage-issue decided equitably.

Vearner-Blakemore Marriage Plans Are Revealed at Party

SHAMROCK (Special)—To announce the engagement and approaching marriage of her daughter, June, and James A. Blakemore, Mrs. Jim Vearner entertained with a party Thursday afternoon.

Mrs. Vearner, the honoree, and Mrs. J. E. Blakemore, mother of the bridegroom-to-be, were in the receiving line. Vari-colored snapdragons were featured in decorations.

The announcement, "June and Jimmy, April 13," was inscribed in gold letters on a large reflector which centered the dining table. Placed on a hand-made lace cloth and encircled with pastel shades of sweetpeas and fern the centerpiece was flanked by lighted tapers in crystal holders.

Miss Frances Jo Henderson presided at the register. Mrs. Forbus Blakemore and Miss Frances Tarbet assisted with the serving. The announcement was repeated in gold letters on the napkins.

Pythian Sisters Plan Dinner to Celebrate Their Sixth Birthday

A birthday dinner will be held in the Court House Cafe at 6:15 this evening by the Pythian Sisters in celebration of their sixth birthday, followed by an initiation meeting in Carpenter Hall at 8 o'clock.

Take the Laughter

Copyright by Karen DeWolf Distributed by NEA SERVICE, INC.

SHERRY kept looking out of the window. But she did not see the skaters now. She saw the dull leaden sky that fitted too closely over the park.

World's child coming into the world without his knowledge! No, he had to know. A girl, his wife really, torturing herself through lonely hours and going so gallantly down to grapple with death alone.

Could Tony bear that? she wondered. But she knew really. Tony couldn't shirk. Tony would have to care for Joyce, dear little Joyce, and her son. He would have to because he couldn't help himself. And gradually Joyce would learn more and more until—

Sherry knew that her nails were cutting her palms, but it felt better like that, with her hands clenched and her body stiff.

She turned slowly to Joyce. "I'm a dream," Sherry told her. "You're the one who's real."

Sherry could hear her voice somewhere outside of her. She said, "Yes. It'll be hard at first, harder for you than any of us. He'll want me and he'll feel you're between us; he'll try not to show it but you'll know. Then after a while the things like me in you will grow and he'll accept them gradually. Little by little his love will be transferred. . . . Trust me, Joyce," she said. "I know."

Rebekah Association Meet in Wellington April 28 Discussed
An open house discussion of the forthcoming Association meeting in Wellington Monday, April 28, was held by the members of the Rebekah Club at their meeting Wednesday afternoon at 2 o'clock with Mrs. Lois Kries in her home at Skellytown.

Mrs. C. A. Caldwell led the devotional on "Man, the Son" with Mrs. Kermit Lawson at the piano. Mrs. Minor Simms reviewed an article by Herbert Asbury on "Who Is a Negro?" and Mrs. Surratt gave extracts from the book "Know-Tien Act."

Mrs. Newton Daniels Guest Speaker for Art & Civic Club
LEFORS (Special)—Mrs. Newton Daniels, as guest speaker, gave an interesting talk on "The Easter Season" at the meeting Thursday afternoon of the Art and Civic Club when it met in the home of Mrs. Bill Osborn.

Mrs. Ray Jordan, president, called the meeting to order, and Mrs. Clyde Rodespach, program leader, introduced the guest speaker.

Refreshments of cherry pie and coffee were served to Mesdames Daniels, Jordens, Rodespach, Bill Smith, Mary Reynolds, Maurice Upham, R. H. Barron, Leroy Spence, Elvis Mathis, Alton Little, Haskell Hyatt, Ed Chamberidge, Elden Carter, Ray Carruth, Max Brown, and Earl Adkinson.

CHAMBER OF COMMERCE WEEK

This is Chamber of Commerce Week in Pampa. The mayor has proclaimed it, and the merchants declare it. The people have been urged to take recognition of it. Few realize the fact, but the first chamber of commerce was organized back in the 18th century. It was organized to fill a definite need—an organization through which all the citizens of a community could work for a common purpose. As commerce spread and grew in importance, coming second only to agriculture in the early days of America, it was discovered by someone that there are things in the community which need promoting—and no particular person's job to see that the promotion was put on a sound, practical basis.

And it was also realized that when a new industry comes to town, or a new building goes up for public use, everybody gains by it, the whole community. Whereas its benefit is not readily seen in any one place, it adds to the general good of the city.

The chamber of commerce serves also as a clearing house for the civic and religious and other types of social activities of the city. It is a place where one can go to get information which may not be found at any other place in the city. Chambers of commerce officials spend many hours daily helping citizens, who may or may not belong in its membership. There is no discrimination.

Our chamber of commerce at Pampa has served the people well. It takes part in all the progressive efforts, stands ready at all times to help. That, in brief, is its job; and the people should know it.

This is a week of special significance to those who are civic-minded. It is the week when we place special emphasis on the work that the chamber does. It is a time when we may be reminded again that the chamber stands eager and able to help make Pampa a bigger and even more progressive community.

We extend it a vote of thanks for what has been done here, and look forward to cooperating with the organization further.

In Hollywood

By ERSKINE JOHNSON
NEA Staff Correspondent
(Johnson on KFDN Monday Thru Friday, 3 p.m.)

HOLLYWOOD

Behind the screen: Three 25-year-old double-deck rubberneck buses of New York's glamorized Fifth Avenue coach line pulled to a groaning and wheezing stop at Hollywood and Vine the other day. They had chugged 3860 miles from New York in 31 days at the dreary speed of 19 miles an hour, ballyhooing en route the movie, "It Happened on Fifth Avenue."

The three buses had a total capacity of 240 passengers but because of insurance policies only six men made the trip — three drivers, who got \$25 a day, a mechanic, a tour manager, and a press agent.

Eight thousand people got free rides, however, for a block or two in 214 cities along the way. In Fort Worth, a cowboy tried to ride his horse into one bus on a big bet. He lost because the nag's shoulders were too big. In Hope, a housewife came out, took photographs of the three drivers.

"Please say hello to Clark Gable when you get to Hollywood. I know him when he worked here 25 years ago."

NO FLAT TIRES

A fellow in Phoenix, Ariz., got a ride because he said, "I proposed to my wife on a Fifth Avenue bus." But when they tried to

BIG RISKS

WASHINGTON, (NEA)—Responsibilities now heaped on the well-informed American people are enough to bend them bowlegged. In addition to knowing all about how to fight global wars, run the domestic economy, and take care of foreign policy matters, they must now learn all about international high finance.

President Truman's new doctrine starts with a modest request for \$400 million worth of aid for Greece and Turkey. But it's a cinch that in addition to knowing all about how to fight global wars, run the domestic economy, and take care of foreign policy matters, they must now learn all about international high finance.

This is important to understand. It explains why the President put the issue up to Congress instead of suggesting that the deal be handled as a loan through the U. S. government's Export-Import Bank of Washington, or the new World Bank, whose full and right name is the International Bank for Reconstruction and Development.

NATIONAL WHIRLIGIG

news behind the news

WASHINGTON
By RAY TUCKER

IGNORAMUS—President Truman recently told a small group of Congressmen and business men that the United States owes a great debt to the late Harry Hopkins.

The current anti-Russian program which Secretary Marshall enunciated at Moscow, the Greco-Turkish plan which the President has advanced are based on Mr. Hopkins' private reports on Roosevelt-Stalin talks.

It is not generally realized, but the late President Roosevelt saw Vice President Truman only once between their inauguration in January of 1945 and F. D. R.'s death on April 12, 1945. F. D. R. had Mr. Truman at a White House luncheon only once during that period. He asked the V. P. to attend a few Cabinet meetings, but he was extremely secretive about them and unwritten pacts which he had made with Dictator Stalin, former Prime Minister Churchill and Generalissimo Chiang Kai-shek. He told Mr. Truman nothing!

In short, Harry S. Truman entered the White House on that soft spring evening two years ago—April 12, 1945—as a complete ignoramus. He did not know the national or international score!

SELL-OUT—When President Truman heard rumors of the secret deals which his predecessor negotiated at Cairo, Teheran and Yalta, he sent for Mr. Hopkins, who had served as F. D. R.'s amanuensis and adviser at all the postwar world was determined by the "Big Three," in complete violation of the Atlantic Charter.

Incidentally, President Truman did not call Mr. Hopkins to his side until after the Potsdam meeting with Stalin, Churchill and Attlee. It was there that President Truman, having no knowledge of F. D. R.'s secret pledges regarding the Polish border, reparations or post-war rule of Germany, discovered that his predecessor had committed him to a foreign program which neither he nor the American people could support.

The Roosevelt program, as outlined by him at Cairo, Teheran and Yalta, gave Stalin complete control of Eastern Europe from the Baltic to the Adriatic Seas, and to the Orient from Northern China to Indo-China. It was, so it seemed, a sell-out of Eastern Europe and the Orient to Soviet Russia.

NOTES—With F. D. R. and "Pa" Wilson dead, and with the Roosevelt family cynical and hostile, President Truman called Mr. Hopkins to the White House.

"Harry," President Truman said, "I don't know what's going on in the field of foreign affairs, especially regarding relations between Russia and the United States. F. D. R. treated me as a country orphan."

"Will you please go through the notes you took at these conferences, through your diaries and through your letters, and tell me just what happened and what the record is, when Mr. Roosevelt met with Churchill, Stalin and Chiang Kai-shek?"

DEBT—Mr. Hopkins spent the last months of his life in an attempt to fulfill this Presidential mission. He turned over to Mr. Truman every scrap of paper which he had on Roosevelt-Stalin-Churchill conversations.

But they were less than satisfactory, for F. D. R. was almost as secretive with Harry Hopkins as he was with Harry Truman. It was after this futile search of Hopkins-Roosevelt papers that President Truman sent Mr. Hopkins to Moscow on a "personal errand." Harry's mission was to sit down with Josef Stalin in the Kremlin, and try to ascertain his understanding and interpretation of the Yalta and Teheran agreements, both on end of the record, which F. D. R. had destroyed.

The Hopkins deathbed report convinced President Truman that Stalin put a few things over on F. D. R., and that the Russian dictator does not mean to play ball with the United States or Great Britain. And that is why President Truman thinks we owe a great debt to Harry Hopkins.

FAMINE—Military and State Department spokesmen have informed Congressional committees in secret Capitol Hill sessions that the western powers, especially the United States, need fear no war with Russia for at least twenty or more years. Their confidential reports convince them that Russia is a bankrupt country.

Droughts have swept Russia's productive areas, especially the

Ukraine. Vast populations are starving. The promise of a vast output of production goods after the defeat of Germany has not been kept.

The Russian mechanists cannot operate the machines which they have taken from Germany and other Axis nations. That may explain why Molotov has lately agreed to the Marshall-Batchelor plan for an increase of German manufacture of light goods under strict police supervision.

The basic military-diplomatic fact is that, despite Stalin-Molotov recalcitrance at Moscow and elsewhere, Russia is a nation of fear and fright at the present moment.

Leaves From a Correspondent's Life Note Book By HAL BOYLE NEW YORK—(AP)—I want to tell you the story of a man who got what he wanted.

It illustrates how everything comes to him who waits. It's an O. Henry type story with a real life twist, too true to make good fiction. Here's the story: I have a friend I have known for many years. He's a big bluff man, hearty, friendly, well-educated.

We roomed together when we first came to New York more than ten years ago. It was a wonderful life for a time. A thin pocketbook

OUT OUR WAY BY J. R. WILLIAMS COME BACK HERE, YOU TWO—I WANT TO SHOW YOU SOMETHING!

HAH-HAH! THE PUNCH IN HER GAG IS GONE! SHE HATES EM PINCHIN' GROCERY BAGS, AND THEY DIDN'T EVEN NOTICE THE LESSON SHE RIGGED UP—AND SHE MADE!

(Continued From Page 1)
 Published at Glazier to feed those working in the area.
 Funeral services for Glazier were held over the weekend in the Stuckley Funeral Home and the Canadian Presbyterian Church. Mass burials will be held there when the weather clears and graves can be dug. There will be no services with the burials. Meanwhile Higgins was holding funeral services for his dead from a private residence because all churches there were so extensively damaged they could not be used.
 Officials at Canadian added this morning that all persons now holding food stuffs and blankets for relief of the stricken could send them as storage space is now available at the Canadian City Hall. They emphasized that there is no appeal for the items, but if food and bedding is being held back for

lack of storage space it can now be sent and stored.
 Both Duenkel-Carmichael and Clegg funeral homes are holding services today for the storm dead. Funeral services for Mr. and Mrs. W. O. Scott of Glazier were held Sunday in the Stuckley Funeral Home at Canadian while services for Dee and Tom Babanks were held Saturday at the funeral home. The Canadian Presbyterian Church will hold funeral services today for Tom West, also of Glazier. Services for Jimmie Simmons, killed at Glazier are pending, but expected to be held tomorrow.
 Meanwhile the American Red Cross office here was deluged with request to adopt the seven orphaned Cooley children over the weekend.
 Mrs. Paul Hill, executive secretary of the office, was deluged with requests for the children and answered:
 "My heavens do you think I can count that high?"
 She added "we have been simply swamped over the weekend by families wanting one or more of those children."
 The children however will not want for any permanent home. Their mother, Mrs. E. L. Cooley, Higgins, has a large number of close relatives who will arrange among themselves in taking care of the children after the funerals of their mother and baby sister, Mrs. Hill said.
 H. M. Lomax, of Pampa, stationed at emergency headquarters at Higgins reported this morning the weather was slowly beginning to give relief workers a break after it stopped snowing and raining early today, although the wet ground conditions held up major repairs. He added that it was still pretty cloudy and all relief work is under control. Lomax added that no churches are available for funeral services and a large tent may be erected for that purpose. Some funeral services for the Higgins dead are being conducted in Shattuck, Canadian and other nearby points.

RELIEF OF PAIN
 OF MONTHLY FUNCTIONAL NATURE, HEADACHE
St. Joseph 10
ASPIRIN
DOCTOR'S DISCOVERY
FOR BACKACHES
DUE TO KIDNEYS

• If excess acidity of your urine makes your back ache so you groan... so you get up 3 or 4 times a night to pass water... now be of good cheer.
 Three generations ago a famous doctor noticed that hundreds of his patients had this backache. He compounded a medicine made of 16 herbs, roots, vegetables, balsams—truly Nature's own way to relief. Millions have used it. The medicine is Dr. Kilmer's Swamp-Root. Instantly you take it, it starts to work flushing out those excess acids that may cause your backache... increasing the flow of urine to help ease that burning sensation when you pass water... and that bladder irritation that makes you get up nights. Caution: take as directed. You'll say it's marvelous.
 For free trial supply, send to Dept. V, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

Announcing the Opening
 Of Pampa's New

 Mr. and Mrs. C. E. Broadhurst, Owners.

TRUCK UTILITY
Plus TRACTOR POWER

THE UNIVERSAL "JEEP" works as a pick-up truck for loads to 1,200 lbs., using 2-wheel drive for highway economy, 4-wheel drive to get through mud, snow and sand or travel cross-country.

The All-Around Work-Horse for Farm and Ranch

The 4-wheel-drive Universal "Jeep" gives you the wide usefulness of a pick-up and tow truck—the pull of a light tractor in the field—and up to 30 hp on the belt drive with its power take-off. The versatile "Jeep" does more jobs at less cost. Come in now and see it.

THE UNIVERSAL 'Jeep'

TRAILER LOADS up to 2½ tons are easily towed by the Universal "Jeep" with reserve power for grades and heavy going.

WITH 4-WHEEL-DRIVE traction, the 60 hp. "Jeep" does the work of a light tractor, pulling most types of farm implements.

Answer to Previous Puzzle

Panhandle News

PANHANDLE—(Special) — Fred Obrecht is visiting relatives in Ohio.
 Mr. and Mrs. M. L. Vance visited on Thursday with Mr. and Mrs. Ray Metcalf of Canyon.
 Oliver Seale of Edinburg was a recent guest in the home of David Warren, Jr.
 Mr. and Mrs. Louie Penn were guests in the home of Mr. and Mrs. Frank Maul of Pampa this week.

Mrs. W. H. Lusk and Mrs. L. G. Robinson and son visited this week with Mrs. H. R. Pugh who has been a surgical patient in Witt-London Hospital, Groom.
 Mr. and Mrs. George Milton have returned from Oklahoma City where they visited Mrs. Milton's brother, F. R. Clark and Mr. Milton's sisters, Mrs. Annie Stacey and Mrs. O. D. Sonderup and their families.

Mrs. Garland Sanford of Amarillo has been visiting her sister, Mrs. Willie O'Neal. Other guests of Mrs. O'Neal have been her brother, L. A. Whiteside and Mrs. Whiteside of Fritch.
 Mrs. Leo Deitem has been in Amarillo with her daughter, Mrs. Clarence Wink, who is in St. Anthony's Hospital recovering from an operation.

Mrs. Otto Manning and daughter of Borger visited last week in the W. H. Lusk home.

Wallace

(Continued From Page 1)
 ference last Thursday that he has no desire to read anybody out of the Democratic Party and added in response to another question that he thinks both Wallace and Senator Claude Pepper of Florida will campaign for the party next year.
 The general Republican view appears to be, however, that Mr. Truman can't eat his bipartisan cake and have Wallace, too, for whatever support the former Cabinet member might be able to rally for the ticket from the self-styled Liberal group.

(Continued From Page 1)
 fund. teachers, counties, which presently rely on the State Highway Department for all their road buildings would get one-fourth of the total gasoline tax revenue, or about \$22,000,000, which they would administer separately and independently to build their own roads.
 At the same time, the state would lose any federal matching funds for rural roads, which might be forthcoming in the future. The present bill for World War II veterans only money administered by the State Highway Department.
 Other tax bills are yet to appear. Rep. Woodrow W. Bean's bill to increase taxes on oil, gas and sulphur is resting in a favorable Judiciary Committee, and Rep. Harley Soder's omnibus tax bill covering source as well as intangible assets of radio stations and a variety of other subjects was scheduled for public hearing today.

Sadler's bill is in the hands of the revenue and taxation committee, which has made short shrift of all major tax proposals placed before it this session.
 Scheduled for hearing before the House Committee on constitutional amendments tonight is a bill which makes even the tax bill figures seem small. It is Rep. Roger Q. Evans' bonus bill for World War II veterans, which would require an estimated 300 to 400 million dollars to fulfill its terms.

Charley Garfield Reich died in Odessa late Saturday from injuries received when he fell from an oil derrick in the Foster Pool Near Odessa.

Korea May Prove Last of Soviet World Ambitions

By DEWITT MACKENZIE
 AF Foreign Affairs Analyst
 Here's a tip to start the week: Keep an eye on Korean developments.
 Secretary of State Marshall's move in calling on Russia to cooperate with America in restoring the promised independence of Korea may at long last provide us with a test case to disclose the extent of the Soviet Union's ambitions for political expansion and domination of strategic foreign bases.
 Korea isn't a big country (its area is about 85,000 square miles and its population some 25,000,000) but it is a mighty atom in the realignment of zones of influence among the world powers. It is as this column has pointed out more DEWITT MACKENZIE than once, among the key military positions of the Far East, and its state hinges largely on its military value. That's blunt talk, but true.
 Korea was promised its independence by the Cairo Declaration of 1943, but the unhappy country is still divided in halves, with its northern portion occupied by Soviet troops and the southern section by the U. S. forces. America has been pressing for the establishment of a free government, but Undersecretary of State Dean Acheson, testifying before the Senate Foreign Affairs Committee in Washington in March, charged the Russians with blocking agreement for a unified Korea and said the United States would have to spend large sums for Korean aid. And at the weekend American government officials said that a U. S. program for assistance, involving \$400,000,000 to \$500,000,000 was well along in the planning stage.

Secretary Marshall now has warned Moscow that the United States intends to go ahead with independence measures in its own zone to fulfill its obligation under the Moscow agreement of December, 1945, providing for the establishment of a point American-Russian commission to work out plans for instituting a provisional Korean government as the first step toward the country's independence.
 Meantime, of course, Korea is going to the dogs economically and politically. The northern half of the country occupied by the Russians is mainly industrial, while the American zone is agricultural. The economies of the two sections are vital complements to each other, but the Russians have dropped an iron curtain across the border between the two. Behind that curtain, it's claimed by southern Koreans, intensive communication is going on.

Weekend Charges Heavy in Courts
 Judge Clifford Braly Sunday morning in Corporation Court levied fines of \$15 each on three men charged with intoxication.
 Five men were each fined \$14.15 by Justice of the Peace D. R. Henry, Sunday morning, on charges of affray and intoxication.
 Corporation Court Monday morning saw no violators before the Court.

Gracie Reports

By GRACIE ALLEN
 Well, there's a report that the British government is planning a base in Africa to which it could retire in case of an atomic war. I hope they discard the idea and that no atomic war comes up with a similar plan.
 If a government retreats to the darkest corner of Africa somebody would drop bombs on it anyhow and that would be unfair to the gorillas already there. According to some scientists these gorillas refused to develop into humans and I don't think they should be punished just because the rest of us made a mistake and did. Those African gorillas would survive enough without atomic bombs if human governments moved in. Many an unfortunate ape would find himself hornswoggled out of his last banana by some politician in the name of civilization and progress.

Telephone

(Continued From Page 1)
 representatives walked out of the other government-sponsored conference here involving the Bell System's biggest unit, the Southwestern Bell Telephone Company.
 The striking unions contend that AT&T has refused to bargain on their ten nationwide demands and scores of local issues.
 The ten demands include a \$12 weekly pay increase, higher pensions and longer vacations, union security and dues check-off. The more than 20 companies in the Bell System offered to arbitrate the wage demands locally but declined to bargain on a system-wide basis.
 CIO led for the independent NFWU unions was announced formally by Organization Director Alan S. Haywood, who said CIO regional directors will meet here tonight to discuss the strike.

General Motors

(Continued From Page 1)
 "high-handed political bossism" in the handling of labor legislation by the House and the Senate.
 Aiken's accusation came as the Senate Labor Committee, headed by Taft, gathered in a tense atmosphere to complete work on its own version of the bill. The independent NFWU unions was announced formally by Organization Director Alan S. Haywood, who said CIO regional directors will meet here tonight to discuss the strike.

The House Rules Committee ordered six hours of general debate, the equivalent of two days, followed by unlimited time for consideration of amendments if the House wishes.
 House Labor Committee Republicans, with four Southern Democrats siding in, said in the majority report that the labor bill "would be scrupulously fair" to the employer, the employee, and the public. They asserted it would bring "widespread industrial strife to an end."
 They called the bill "neither drastic, oppressive nor punitive."
 But the six opposing Democrats said the bill would make "practically all strikes unlawful" and "turns the clock of history back at least a foot or two."
 The bill would outlaw such things as the closed shop, most collective bargaining on an industry-wide basis, many types of specific strikes, ban mass picketing and violence on picket lines.
 It sets up a formula under which the government could cope with strikes affecting the welfare of the entire nation.
 "It also provides a 'Bill of Rights' for workers intended to protect them against various union practices."
 While the House made ready to begin tomorrow its debate on the far-reaching legislation, visiting CIO leaders began button-holing congressmen in an attempt to hold off passage of the measure.
 The union leaders heard CIO President Philip Murray assert that the measure are "the first real step toward Fascism in the United States."

Texas Deaths

(Continued From Page 1)
 Bill Williams died in a Houston hospital yesterday after being found in a White Oak Bayou ravine. He apparently had fallen down a 15-foot embankment.
 A man identified as Arlyle Williams Tucker, 57, died in a three-car accident in West Dallas early yesterday. Three other persons were injured.
 At San Antonio, Capt. Walter A. Meadows of Tucson, Ariz., died in the Kelly Field Hospital late Saturday night of injuries received Wednesday when a C-47 transport plane he was piloting crashed in a take-off there.
 Charley Garfield Reich died in Odessa late Saturday from injuries received when he fell from an oil derrick in the Foster Pool Near Odessa.

GRAND-DADDY OF JUKE BOXES
 CHICAGO—(AP)—Imbbers at Eddie Michelsen's Tavern should be able to treat their listeners now to at least approximately the right pitch when the impulse to sing the inevitable old ballads overcomes them.
 For a nickel, an impromptu quartette can even sit out such renditions as "The Curse of An Aching Heart," and "When You Were A Tulip." Michelsen has installed an old juke box built in 1885 which carries those and other long-time favorites in stock.
 Although bituminous coal is popularly called "soft" coal, some types of it are very hard.

General Motors proposed that the "cost of living" wage hike be effective on approval until August, when the corporation said it would again discuss wage rates for its 265,000 production workers.
 Meanwhile the Ford Motor Co. was threatened with a strike of supervisory employes by mid-May as the Independent Foreman's Association of American Executive Board approved filing of a 30-day strike notice Sunday.
 Chrysler Corp. was the target of a similar notice Saturday after union officials reported no progress in negotiations covering its 75,000 workers.
 Any wage pattern emerging from settlements with "Big Three" manufacturers, employing some half a million workers, traditionally is extended to the smaller car producers.
