Ike Order On Aides' Testimony Will Hold

Fears Dictatorship

Guatemala Arms Aid Disturbs Ike

WASHINGTON, May 19 — President Eisenhower declared Wednesday that establishment of a Communist dictatorship in the western hemisphere would be a terrible thing.

He made the statement at his weekly news conference when asked for his reaction to the recent delivery of arms from behind the Iron Curtain to Guatemala.

The President said the development was disturbing to him. Above all, he said, he thought it highlights the background which led this spring's inter-American conference at Caracas to adopt a U. S.-backed resolution condemning Communist influences in western hemisphere governments—a resolution aimed mainly at Guatemala.

The Caracas resolution calls for consultations among the various American republics whenever any country believes another is falling under Communist domination.

Reference to Guatemala in obvious reference to Guatemala, the President said it would be a terrible thing to have a Communist dictatorship on this continent.

Guatemala is a small Central American nation whose government has long displayed leftist influences.

Chairman Alexander Wiley (R-

Fort 'Angel' To Be Freed

HANOI, May 19 — UP—The Communist Viet Minh promised Wednesday to free captured nurse Genevieve de Galard Terraube, "the angel of Dien Bien Phu."

She was the only woman inside the isolated French fortress during its 56 days of bitter siege and its final fall to the Reds.

French sources here said Genevieve probably will be flown out of Dien Bien Phu on the French helicopter airlift to Luang Prabang and thence by hospital plane to Hanoi.

A rousing welcome for her was being prepared in Hanoi.

The first announcement that the Reds would free the heroine nurse was made earlier Wednesday at the Far Eastern conference in Geneva.

Tran Trong Kuan, press spokesman for the Red Indo-China delegation said Gen. Vo Nguyen Giap, commander of Dien Bien Phu, had promised to free his only woman prisoner.

UNCONSTITUTIONAL — Sitting on the steps of the United States Supreme Court building, Mrs. Nettie Hupt seems to be trying to explain to her three-and-one-half-year-old daughter, Nikie, the meaning of the high tribunal's decision Monday that segregation in public schools is unconstitutional. Though she is probably too young to understand now, Nikie will undoubtedly see concrete results of the historic ruling by time she is ready for school. (NEA Telephone)

Allows Hearings Should Go Limit

WASHINGTON, May 19 — President Eisenhower said emphatically Wednesday that he has no intention whatsoever of rescinding or relaxing his order against administration officials testifying in the Army - McCarthy hearing on their confidential talks.

And, just as firmly, he said he thinks the hearings should continue until all the principals have testified.

The hearings were recessed Monday for a week pending efforts by the Senate investigating subcommittee to obtain a clarification or modification of the President's order.

Some members of the subcommittee have said there is no use going ahead unless Mr. Eisenhower

West Agrees On Strategy For Armistice

GENEVA, May 19 — UP—The western Big Three agreed at an emergency conference on strategy Wednesday to ask the Communist bloc to start work immediately on armistice agreements for each of the three associated states of Indo-China.

The plan, to be presented at Wednesday's secret conference of delegation heads, was put forward in an attempt to save the conference from hopeless deadlock on Indo-China.

Authoritative sources said that Britain, increasingly convinced of the dangers of a failure at Geneva, has indicated the United States should be ready to start immediate five-power military talks on the Indo-China situation.

These sources said the talks would be held in the United States, Britain, France, Australia and New Zealand and are expected to open "without delay" — probably within a week.

In agreeing to the military talks, however, Britain was said to have made it clear that the discussions and would not deal with the American - proposed 10-nations southeast Asian defense pact.

The talks would be aimed primarily at working out precautionary measures in the event of the collapse of the Geneva talks and military measures to safeguard an Indo-China armistice if agreement is reached.

U. S. Commie Chief Denies 'Love Affair'

WASHINGTON, May 19 — UP—On the letterhead of the American Communist party, which he is the only top man neither jailed nor a fugitive from justice, William Z. Foster addresses a complaint about a United Press story of May 16.

The story reported that the American Communists suddenly had switched tactics and were proposing a "marriage of convenience" with the Democrats to lick the Republicans in 1954-56, a temporary loveless affair, Foster objected that such was not the position of the Communist party, as expressed in its recently published "platform."

He said the May 16 story was pre-republican nonsense.

The story in question was based on the pamphlet entitled "The American Way" which was circulated with a covering letter over Foster's signature.

The pamphlet is a 27-page affair published by New Century Publishers, 832 Broadway, New York. It is a copy of it too long to be quoted here in full, but the following quotations are among those which may be cited as proof of the immediate Communist strategy in this country to join with the Democrats to oust Eisenhower Administration from power. That doesn't mean the

Pakistan, U.S. Sign Aid Pact

KARACHI, Pakistan, May 19 — UP—Pakistan and the United States signed a military aid agreement Wednesday, bringing this strategic southeast Asian nation into the network of free nations armed with American help.

Pakistan's Foreign Minister Zafarullah Khan and U.S. Charge d'Affaires John Emmerston initialled the pact over bitter objections of Soviet Russia and neutral India.

It qualifies Pakistan for aid under the U.S. mutual security act, global successor to the Marshall plan and a program that already has helped build NATO armies in Europe and strengthened South Korea and Japan in Asia.

The ceremony of signing at the foreign office here took place before a backdrop of rioting and intrigue that underlined the importance of Pakistan's position below Russia's southern border.

Labor riots in East Pakistan killed more than 300 persons during the weekend and Prime Minister Mohammed Ali charged that Communists joined other anti-Pakistani elements in stirring up the bloodshed.

UNCONSTITUTIONAL — Sitting on the steps of the United States Supreme Court building, Mrs. Nettie Hupt seems to be trying to explain to her three-and-one-half-year-old daughter, Nikie, the meaning of the high tribunal's decision Monday that segregation in public schools is unconstitutional. Though she is probably too young to understand now, Nikie will undoubtedly see concrete results of the historic ruling by time she is ready for school. (NEA Telephone)

Farm Income Drop Feared

WASHINGTON, May 19 — UP—Key members of the congressional farm bloc said Wednesday there probably will be a sharp drop in the market value of next year's crops of wheat and cotton.

Half a dozen members expressed that view in separate interviews as the House Agriculture committee went behind closed doors to work on farm program legislation. They declined to be quoted by name.

They predicted the committee would rebuff President Eisenhower's request for flexible and generally lower price supports on 1955 basic crops.

They said the lower incomes would stem, not from lower prices, but from an automatic tightening of government production controls provided by farm law to hold down burdensome surpluses.

If it comes from a hardware store we have it. Legis Hardware. Adv

'Jenny' Scratches Sleek Red Jet

TAIPEH, Formosa, May 19 — UP—A Chinese Nationalist propeller-driven fighter plane has shot down a Chinese Red MIG-15 jet over the South China coast, it was reported Wednesday.

It was the latest engagement in a series which has brought the civil war into flame again after smoldering for four years.

A Nationalist air force source who reported the victory of a Nationalist jet over the MIG said an official announcement will be made when aerial photographs have confirmed it.

It is the second time in history that a propeller-driven plane has shot down a jet. The first victory was won by an American plane which shot down a MIG in Korea.

New Directory Survey On Tap

When a girl calls at your home or place of business and wants to know your name, address and occupation, she is just getting information for the upcoming city directory.

Mrs. Helen L. Scott, representative of Hudspeth Directory Company, El Paso, in charge of the Pampa canvass, late this morning announced that 10-15 local girls were on the job today and would take about a month to complete the project.

Every home and place of business will be checked, Mrs. Scott said, pointing out that will mean each working resident of Pampa will be canvassed twice — once at home and once at where he or she works.

"It will be done faster than it ever has been before," she said. But she did not say when the actual directory would be in the hands of Pampa's local city directory, the 1953-54 one.

Mrs. Scott asked that anyone who is home, and knows about a neighbor who is not, to give the canvassing girl the information on them, too, to save time.

The Hudspeth office in Pampa is Room 202, Rose Building, phone 4-8782.

Shivers Names Campaign Boss

AUSTIN, May 19 — UP—Gov. Allan Shivers, who will fly to Korea with three other governors later this week for a 10-day inspection, took time Tuesday for a political announcement and a few observations.

Shivers said State Sen. Otis Locke of Lufkin, who has been an administration leader in the Legislature, would manage the primary campaign. Shivers hopes will put him in the governor's mansion for a third elected term.

The governor then predicted Texas was in for a "hot summer." He indicated he thought most of the heat would come from the efforts of Austin attorney Ralph Yarborough, his principal opposition, and Democratic National Chairman Stephen A. Mitchell to stop the Shivers' third-term bid.

Shivers said Yarborough was using James Sewell of Corsicana, chairman of the Democratic Advisory Council, as a "hatchet man." Mitchell said earlier he would recognize the council, rather than the Texas Democratic State committee, as the spokesman for the state's Democrats.

"Jim (Sewell) is a pretty good boy, really," Shivers said. "I don't know why he lets Yarborough and some of his men use him as a hatchet man."

New Voting Boxes Here

The only local politics apparent late this morning was little green boxes being around the first floor of the Court House.

Two new sets of voting boxes were in evidence, making a total of some 45 sets the county has.

A set is comprised of 18, one for each of the 18 voting precincts in the county.

They won't be used, though, till July 24, the date of the county Republican and Democratic primary elections.

Shivers Aide 'Sucked In' State Insurance Laws Tagged Campaign Issue

AUSTIN, May 19 — UP—Gov. Allan Shivers believes a longtime political aide was "sucked in" by private relations counsel to a Houston insurance firm under fire from state authorities.

John Van Cronkrite, head of an Austin public relations firm and a former executive assistant to the governor, figured in recent court action against Lloyd's of North America.

Ralph W. Hammond, president of the firm, complained during injunction proceedings against his company that he trouble with state authorities started after Van Cronkrite was refused a \$2,000-a-month fee.

Van Cronkrite denied the accusation, and said he was paid \$1,000-a-month for a brief period.

"I think his (Van Cronkrite's) statement that he was sucked in on this case thousands of people were is a correct one," the governor told a press conference Tuesday.

Shivers hung a political tag on the controversy over Van Cronkrite's alleged actions, and indicated he expected more fireworks.

"Of course, because of his association with me, some people will try to make great political capital out of it," the governor said.

However, the governor left in doubt what part — if any — Van Cronkrite might play in Shivers' own campaign for re-election.

"If and when he is given duties, I'll let you know," he told reporters.

As the governor defended his former aide, the field of Texas insurance laws loomed as one of the major campaign issues in the approaching elections.

Statements Fly

Shivers, joining other public officials in a flurry of statements, called for a searching look at the insurance situation in Texas, which has resulted in a number of suits against insurance companies and receivership for a few.

Pampan To Audition For Horace Heidt

Mary Ann Guthrie, daughter of Mr. and Mrs. Roy Guthrie, 533 Doucette, will be one of the performers auditioning tonight at Amarillo's American Legion hall for a chance to compete on the Horace Heidt show that will appear in that city May 24.

Mary Ann, a junior at Pampa high school, will sing "St. Louis Blues." Mrs. Maxine Milliron will be her accompanist. This will be the second time the young singer has auditioned for the Horace Heidt show, the first time when she was 14 years old.

'Webbacks' Pour Across Border

MEXICO CITY, May 19 — UP—A Mexico City newspaper reported Tuesday that more than 1,000 "webbacks" were slipping into the United States in the Lower Rio Grande Valley each day, although Mexican patrols were turning back almost that number.

"Ultimas Noticias," the newspaper, said there were only 15 Mexican immigration agents based at Reynosa, who patrol the Rio Grande for the more than 300 miles from Nuevo Laredo, Mexico (Laredo, Tex.), to Matamoros, Mex. (Brownsville, Tex.).

As a result, "Ultimas Noticias" said authorities were concentrating on "boatmen," who ferry webbacks across the Rio Grande, they have arrested 10 in the last six months, including one whose equipment was a metal wash tub and an inner tube.

French Step Up Wounded Airlift

HANOI, May 19 — UP—Every available French light plane and helicopter flew into the battered, Red-held fortress of Dien Bien Phu Wednesday to evacuate another 69 to 80 of the most severely wounded of the French Union forces, trapped when the fortress fell.

Resumption of the organized evacuation of wounded began after Viet Minh Communist leader Ho Chi-Minh had announced over the Red radio that he was "ready to consider" a six-point French plan to speed the removal of the wounded.

Armory Completion Date Named

AUSTIN, May 19 — UP—An Austin attorney and Gov. Allan Shivers differ on how soon a U.S. Supreme Court decision banning segregation in public schools would be effective in Texas, Shivers answered.

The attorney, Fagan Dickson, said Tuesday he thought Texas courts would hold school segregation unconstitutional before the September school term opened.

"I don't think the Supreme Court ruling will have one particle of effect on the schools for the coming year," was Shivers' answer.

Dickson said he learned from officials of the National Association for the Advancement of Colored People that the organization would file "scores of cases in state after state within the next few weeks."

NAACP officials in New York denied they had sent a telegram early Tuesday which Dickson claimed asked for funds for further legal work by the NAACP.

"NAACP attorneys must be prepared to file scores of cases in state after state. Actions taken within the next few weeks will determine whether America can solve her problem without violent disruption threatened by extremists," Dickson quoted the telegram.

CWO William Leonard late this morning reported James Barrett, Pampa, job superintendent, told him the proposed completion date Tuesday.

Surveying, filling in and general excavation work got underway Tuesday morning and was continuing today.

J. W. Marsh Amarillo contractor has the \$87,871 contract on the job and said last week he expects that actual erection of the structure will get underway the first of next week.

Only several men and a tractor and a truck were on the job this morning, but by the first of the week, Marsh said, there should be three carpenters and 15-20 men working on the masonry of the building.

Marsh has 150 calendar days in which to finish the project.

Ground-breaking ceremonies were held here again this afternoon at the site of the building, just west of the entrance to the Rodeo Grounds. Col. Joseph S. Emery, XLII Corps commander, and Maj. Sidney J. Leventhal, corps adjutant, were on hand.

It scheduled hearings on a bill introduced by the late Rep. Joseph R. Bryson (D-S.C.) to prohibit advertising in newspapers or magazines of liquor and beer, and in liquor.

He scheduled hearings on a bill introduced by the late Rep. Joseph R. Bryson (D-S.C.) to prohibit advertising in newspapers or magazines of liquor and beer, and in liquor.

A long list of congressmen, temporary group including representatives of liquor and beer, and liquor.

The committee also has before it a bill sponsored by Rep. John D. Dingell (D-Mich.) which would apply the advertising ban to cigar area, cigars and all other tobacco products.

Although Bryson's bill does not mention television specifically, it would probably apply to television, certainly does on film. The television industry does not accept hard liquor advertising.

Demos Differ On Segregation Time

AUSTIN, May 19 — UP—An Austin attorney and Gov. Allan Shivers differ on how soon a U.S. Supreme Court decision banning segregation in public schools would be effective in Texas, Shivers answered.

The attorney, Fagan Dickson, said Tuesday he thought Texas courts would hold school segregation unconstitutional before the September school term opened.

Treacher To Be In Pampa

Arthur Treacher, famed Broadway Hollywood and television star will be in Pampa Dec. 7 for a meeting of the Top o' Texas Knife and Fork Club.

Mrs. Clotilde Thompson club secretary-treasurer, made the announcement late this morning.

Title of Treacher's talk will be "A Little of This, Something of That, Mostly Humor." Mrs. Thompson said, Treacher is the original movie "Jeeves," the butler created by P. G. Wodehouse.

The okay on Treacher makes the full complement of seven club speakers definite. Others and the dates they will be in Pampa are Carlos F. Romulo, Sept. 30; Cameron Ralston, Oct. 18; Fred R. Jones, Jan. 7; Dr. Nicholas Nyaradi, Feb. 7; Ed Harding, sometime in March; and George Bailey, April 14.

Liquor Ads Battle On

WASHINGTON, May 19 — UP—The House Commerce committee fired up an old battle Wednesday over a proposal to bar press or radio advertising of beer, wine and liquor.

It scheduled hearings on a bill introduced by the late Rep. Joseph R. Bryson (D-S.C.) to prohibit advertising in newspapers or magazines of liquor and beer, and in liquor.

Secret Club At A&M To Disband

COLLEGE STATION, Tex., May 19 — UP—Members of an alleged secret organization on the Texas A&M campus which has been under investigation by school authorities have agreed to disband and destroy its records, President David H. Morgan said Tuesday.

His announcement came a few hours after school officials had confirmed they were investigating such an organization which was banned from the campus two years ago.

Dr. Morgan said a majority of the 20 or so students who had been under investigation had agreed to disband and "to disclose the organization's secrets and destroy its records."

But he said possible disciplinary action against the group, known as the Tonkawa Tribe, had not yet been decided upon. The students face possible dismissal even though some are to graduate on Friday.

Sins Bared In Church Bulletin Clergyman With Penchant For Writing Stirs His Flock

STONE MOUNTAIN, Ga., May 19 — UP—When certain husbands walk shame-faced into the Stone Mountain Methodist Church Sunday the chances are their sins already will have been bared for them by the Rev. Lamar H. Watkins in his weekly church bulletin.

The Rev. Watkins is not a man to pull his punches with platitudes when he can win penitence with a sharp frontal assault from his type-writer.

When the weekly Methodist church news comes off the pastor's mimeograph this entire village near Atlanta trembles with trepidation. No one—not the mayor, revival ministers, the congregation nor, even little children—is safe from his salty barbs.

Worried About Hymn Books

Watkins lately has been worried about the hymn book situation.

"There are too many Methodist," he writes, "who come to church once or twice a year, throw a nickel in the plate and then walk out with \$10 or \$12 worth of hymn books. Mrs. Hugh Jordan, (she asks a member) what kind of religion is that?"

"If you love sacred music and feel that you must have a few hymn books around to tone up the atmosphere of your home, why don't you do the decent and honorable thing?" The bulletin continues, "exercise a little Christian patience and wait until the Baptists have their revival. Then you can pick up a few hymn books without working a hardship on any of us."

Street Light Matter

And there's the matter of the street light.

"A street light definitely will be placed in front of the Methodist church," the pastor wrote. "Our beloved mayor has done all he can and now awaits action from the Georgia Power Co."

"Thank you very much, Mr. Mayor, for these reassuring words. The Methodists are not a cantankerous people. With an Episcopalian running the town and a couple of Baptists drilling our teeth all week, most Methodists in Stone Mountain stay scared half to death most of the time."

The pastor then poses this question: "Does one human being ever have a moral right to use physical violence upon another?"

Answer: "Why yes, Frances, I think you have a perfect right to do anything you can to get Ogie to church."

JOHNSON IN HOLLYWOOD

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — (NEA) — Guys and Dolls: There will be no retirement for Ruth Roman, who's married to wealthy Mortimer Hall, and she can afford to say "I've had it" as she counts her yachts and dishes the gold faucets on her bathtub.

Whispers and rumors to the contrary, Ruth just completed "Case of the F. B. I." and intends to go right on working because— "Because I like to work. I wouldn't be happy if I didn't. My husband approves, and he thinks it's wonderful that I keep busy."

Ruth's on the record as one who doesn't ask producers if her part is likely to cop her an Oscar. "I never did the greatest pictures in the world," she explains. "Maybe you can't be better than your material, but you can do a good job. When you start believing in yourself as a great actress and when you start looking for Academy awards, you're in trouble, brother."

Whether it's "Crazy Legs" which or another rugged male who's chosen as the chest-thumping yowler in the new Tarzan films, he will owe it all to Lana Turner.

It was luscious Lana who persuaded Lex Barker to moth ball his "Me Tarzan, you Jane" talk and clear the jungle branches for new vine-swingers.

"Top, it was Lana's idea," Lex revealed on the set of "U. S. A. N. Gold," an outdoor action thriller. "She didn't think I should do any more Tarzans. Then I came along with a promise to give me some good acting roles. The studio wasn't a big actor. They think it's great that Tarzan save me such a following."

But it's Lex's chuckling: "We both know I'm no Sir Laurence Olivier. I'll stick to action pictures."

With a role opposite Tony Curtis in "So This is Paris," and socks dyed the color of Marilyn Monroe's tresses, Costars Calvert and far from the unhappy, discouraged movie doll that recent headlines made her out to be.

"My new 'air gevee me a big soft,' sippy Corinne's saying. 'I'll now always be very blonde, even like myself in sex morning when I wake up in a hangover.' About the false suicide headlines, the French pastry now says: "Did I evair was scare w'en wake up in 'se ospital. Wow you see, I am not used to sleep without my 'usband and I take pills so I can sleep. Nobody told me I cannot mix bourbon with secal."

"I was the most discouraged actor in Hollywood." That's Howard Keel talking about his frames of mind before he hit the bull's-eye in "Kiss Me Kate," and confessing: "I was on my way out at MGM and ready to get out, too. I didn't think there was any sense staying at the studio where nothing's done by you."

Almost every othe male star with a singing voice and acting snow-how was considered for the waggering, Shakespearean actor role in "Kiss Me Kate" before Howard was handed the plum. He says: "They were very unsure of me and felt I couldn't swing it. They were looking for somebody who could act, like Olivier and sing like Lana. I made a couple of tests and then worked my hide off."

The book titled "How a Young Actor Can Get Ahead in Hollywood" can be bought at a bargain price from Rock Hudson, who doesn't believe what it preaches. Rock, Hollywood's No. 1 contender for Clark Gable's throne, lines the premiere of U. S. "Magnificent Obsession," read all the chapters in the volume and wrote "I doubt it" on every page advocating westerns and swash-bucklers.

"It may be all right for some actors, but I'd rather be doing a scene in a drawing room," he shrugged about the studio's future plans for him.

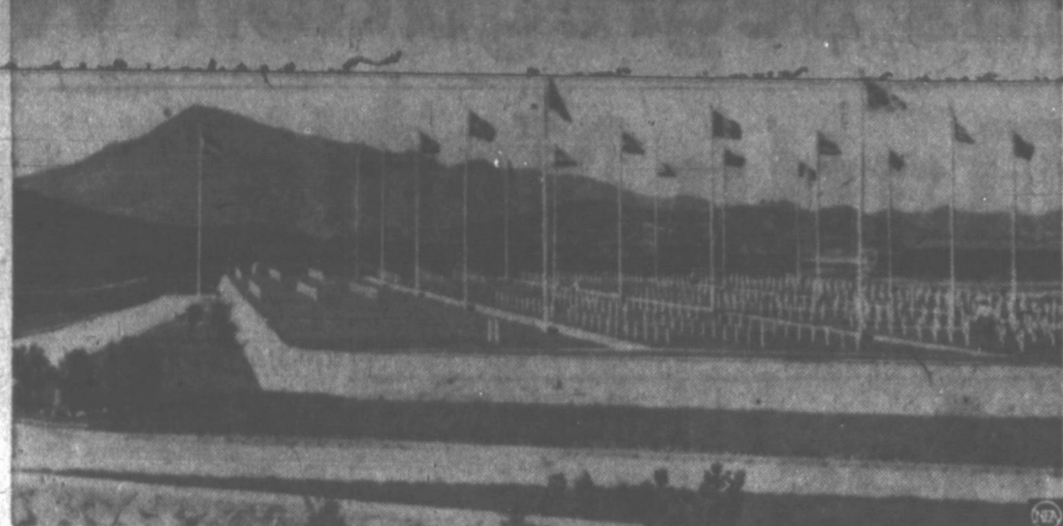

"Every actor likes to be perfect. You don't have a chance in action pictures. You ride a horse, you shoot a bow and arrow and that's it."

"I'll do whatever the studio wants me to do. But I won't be completely happy until I get out of action pictures."

Europe supports more people to the square mile than any other continent, says the National Geographic Society. Europe — excepting Soviet Russia — has an average of 27 per square mile, compared with Asia's 22 (excluding Russia), North America's 23; Africa's 18, South America's 15, and Oceania's 8.

Thank You Note — Philip Hill, vice president of the Parker Pen Company, recently received this note from a teacher: "I want to thank you for your kindness when we visited your splendid plant. Also, I am returning two contain pens two of my students picked up while we were making the tour."

Lost 75 Pounds With Barcontrate Mrs. A. R. Henderson, 1509 Tule, Paris, Texas, states: "I have lost 75 pounds and reduced my waist line eleven inches taking Barcontrate. You can get Barcontrate, the original home recipe reducer, at any Texas drugstore. The very first bottle doesn't show the way to take off ugly fat, return the empty bottle for your money."

UN CEMETERY AT PUSAN, KOREA: After July 26, the files will close on missing men.

'Presumptive Finding Of Death' Closing A Pentagon File Doesn't Close Out Hope

By DOUGLAS LARSEN
NEA Staff Correspondent

WASHINGTON — (NEA) — You don't necessarily close out hope by closing out a file in the Pentagon. This the services are learning from the grim business of folding its books on the missing and killed in Korea.

U. S. Public Law 490 of 1942 gives the Pentagon permission to assume that a man is dead, for legal and administrative reasons, if he has been listed as "missing in action" for more than a year and a day, providing no new evidence has turned up in the meantime that he might be alive.

However, Public Law 490 was passed before the Korean conflict. So it leaves that flicker of hope deep in the soul of many a mother, father, sweetheart and wife that their Johnny might still return to make a lie out of the formal "presumptive finding of death" notice which they receive from the Pentagon.

Typical among those who refuse to believe in Public Law 490 are: A bereaved father. He has sent circulars with his son's pictures to 4000 men who might have some shred of information on his son's fate. The 59 replies have produced practically nothing, but the father goes on hoping.

A courageous mother. She has traveled thousands of miles talking to scores of ex-POWs for a clue to her son's fate. The results are bits of conflicting evidence which have proved practically nothing. The Army patiently doublechecked every lead she gave them with no results.

A wife. She has spent innumerable hours poring over the evidence on her husband's presumed death which the Army can't let her see. She has suggested a half-dozen new leads on investigations which the Army has considered. This has been fruitless, too.

Another courageous mother. Her son's file in the Air Force reveals that the boy crashed during the early part of the war behind enemy lines. He suffered fatal injuries and then severe frostbite and was last seen being carried off in a crude stretcher by the North Koreans. She knows all this but steadfastly refuses to accept the "presumptive finding" letters she has received.

An organization called the "Kin of America's Forgotten Men" has been formed by more than 350 persons who refuse to accept the death ruling. They have made trips to the UN in New York and to Washington. But they haven't come up with any new information which would change the Pentagon's mind about the status of the men in question.

Practically all the persons who cherish a disbelief of Public Law 490 refer to the celebrated case of Pvt. Walter P. Dixon of Atlanta, Ga., who "returned from the dead" in Korea to find his wife remarried. "The Dixon case is different," the Pentagon patiently explains. "But it doesn't change anybody's mind."

Dixon was listed as "killed in action" through an error or reporting by one of his comrades. The Pentagon paperwork which calls a man "presumptively" dead is unfortunately more accurate than some eye-witness reports. At least the records tend to bear this out. Not once since Public Law 490 was passed during World War

II has a "presumptive death" turned up alive.

The services have now completed a study of more than 23,000 separate statements and reports from the released POWs. They included names of dead soldiers

scratched on everything from tooth paste tubes to crutches.

As a result of patient cross-checking this data, the services have reduced the number of missing to 410 men, including 224 from the Army, 86 from the Navy, 54 from the Marine Corps and 66 from the Air Force.

Out of all of the men previously listed as missing in action, 3086 are presumptive death findings. The rest have had time, place and cause of death determined.

Technically, under Public Law 490, there should be no missing man left in Korea by July 26. However, there probably will be 22 Air Force men and four Navy men still carried as missing. The AF men crashed in Manchuria, according to Chinese Communist reports and are being held as political prisoners. The four Navy men are considered possibly alive, too, and still in the hands of the Russians.

"The details of the cases of the 22 men are being kept secret pending attempts to get them freed."

It is hoped that the Geneva conference will permit the Quartermaster Corps to go behind the North Korean lines to recover the bodies of dead U. S. soldiers buried and missing there. As the fighting waged up and down the peninsula, many temporary cemeteries had to be abandoned.

Quartermaster Corps graves registration experts estimate that there are about 7000 unrecovers remains of men buried in these temporary cemeteries and in graves adjoining POW camps. If they are permitted to go into these areas they believe they can find up Korea with only a total of 700 remains unidentified. Those bodies will be buried in Hawaii.

After World War II, 46 men were still listed as missing as of 1919 because there was no Public Law 490. World War II was finally wound up with no missing and 8000 unidentified remains.

GRAVES REGISTRATION: Quartermaster Corps corporal records information about a dead American soldier at the UN cemetery at Taegu, Korea, before cross is placed over the grave.

Briefs Filed To Re-Open Land Suit

BROWNSVILLE, Tex., May 19 — Briefs were filed Tuesday on a motion to open a sealed deposition by Gov. Allan Shivers, made in a now settled land fraud suit.

Federal Judge James V. Alfred was asked, earlier this month, to set aside his deposition in a 1952 land fraud suit, filed by Charles Landergott of Waco, Tex.

Landergott asked that a photostatic copy be sent to the Citizen's National Bank at Waco. He gave no reason.

Monday, the Mission, Tex., law firm which handles Shivers' legal business in the Lower Rio Grande Valley filed a motion asking Alfred to reject Landergott's request. The suit named several prominent Valley residents as defendants. It was settled out of court last February.

Court records showed the governor's deposition concerned real estate purchases in the Lower Rio Grande Valley, but no other details were given.

Landergott alleged in his suit he was defrauded when he bought 10 acres of land at \$400 an acre and more at \$135 an acre. He said he was given the impression the acreage was irrigated citrus land when it was not.

He named Lloyd M. Benson Sr., Elmer Bentzen, J. T. Cross and H. F. Moffit, all of Hidalgo county, as defendants. The Texas Development Co., Texas Development Co., Texas Care Co., and the Tip O' Texas Realty Co.

Application Of Technology Boosts Farm Production

The farmer is doubly dependent on the advance of technology in America, the Council for Technological Advancement said in a recent report on the effects of new technology on employment.

It relies first on new and better equipment and methods to increase output, and second on the growth of non-agricultural industries to provide jobs for farm youth who can move on to other occupations and become consumers of his products.

Technology answers both demands, says the Council.

The council study showed that farm population has been declining ever since its peak in 1916, where as the major manufacturing industries have doubled their employment since 1929.

The farmer of today can produce enough to feed twice as many non-farmers as his father did. The expansion of the industries could not have taken place except for the transfer of workers from agriculture, coal mining and a few other occupations where technological advance has increased output.

The men left on farms largely consist of technicians and businessmen, as distinguished from laborers who have declined in number at a faster rate than farm operators, the report said.

The difference is due entirely to technological advancement, according to the council.

EDSON IN WASHINGTON

By PETER EDSON
NEA Washington Correspondent

No Zip — Ike No Railroader No Takers — No Scratch, Please

WASHINGTON — (NEA) — Secretary of Interior Douglas McKay has finally confessed to his most embarrassing experience since coming to Washington. It happened last year, but the story hasn't been told before, so it's still newsworthy.

The secretary was due to testify before a congressional committee. Fifteen minutes before the hearing was to begin, the zipper on his trousers jammed. He dashed into a Capitol Hill tailor shop to get it repaired, but was told the whole zipper would have to be replaced, and that would take an hour or more. So the secretary settled for a safety pin.

"Luckily, I had on a double-breasted suit," he says now. Once during his testimony, however, he forgot about his predicament and began waving his arms around. When he remembered, he calmed down his oratory in a hurry.

Secretary of Commerce Sinclair Weeks spoke before the Agricultural Equipment Conference in Washington the other day on his favorite subject, the U. S. economy and the present business situation. Secretary Weeks made the flat prediction that he did not believe there would be any depression in the immediate future.

"I'm willing to back this up with cold cash," he declared. "None of the 30 or more busi-

ness executives present took his bet.

Secretary of the Army Robert T. Stevens isn't the only one who is getting physically and mentally weary of the great TV soap opera marathon on Capitol Hill. The script writers of the Washington press corps are also getting a bellyful of it.

When the hearings began on April 22, there were 150 press and radio correspondents on hand. This was said to be the largest number ever to cover a congressional hearing. But at the end of the second week, the number had dropped to around 75.

All of the photographers have received phone calls and letters from friends who watch them in the foreground on the TV tube picture. These messages usually warn them to stop scratching their ears or doing other perfectly normal, unobtrusive acts which look bad on TV.

Sen. Thomas C. Hennings, Jr. (D. Mo.), referred to the Army-McCarthy thing in strictly theatrical terms in his speech before the Missouri Young Democratic state convention at Kansas City.

"Of course, in a very short-sighted and partisan way, we Democrats cannot help being amused at times by the senator's smash hit, 'The Republican Folies of 1954.' But chuckle as we may, we are always aware, in a grimmer sense,

of the harm this slapstick of evasion is doing our nation, both in destroying our unity at home and our prestige abroad. We must see to it that this tragic comedy staged by the Republicans has a short run."

Ezra Taft Benson, Secretary of Agriculture, now estimates what it costs the government to store surplus farm commodities in terms of the amount of time it takes him to testify before a congressional committee.

When Benson reached page 13 of a long statement he was making to the House Agriculture Committee he said, "Since I started to read this statement, not many minutes ago, American taxpayers have been charged more than \$10,000 for storage of Commodity Credit Corporation-owned commodities."

At that point the secretary had been speaking for approximately 40 minutes. This brings the storage program cost to about \$375 a minute.

The railroad industry claims to have three U. S. Presidents among its alumni. First was James Buchanan, who has been head of the Harrisburg, Portsmouth, Mount Joy and Lancaster R. R. in Pennsylvania. Next was Abraham Lincoln, who had served as a lawyer, the Illinois Central and the Rock Island. The third was Harry S. Truman, who worked for a time as a Santa Fe book-keeper.

President Eisenhower was never a railroader, but he is the son of one. His father worked as an engine wiper for the Katy at Denison, Tex., where Ike was born.

Arizona Republican National Committeeman Clarence Buddington Kelland has taken an awful pasting from government employees for his magazine article attacking the U. S. Civil Service system.

National Federation of Federal Employees President Luther Steward brands it "a blatant call for a return to the outmoded, inefficient and corrupt spoils system."

Kelland's shrill demand that the clock be turned back does not, fortunately, represent the clear intention of this administration, which has thus far firmly withstood the pressure of spoils-minded politicians.

Anchorage, Alaska, is one of the fastest-growing cities under the American flag. Its metropolitan population has jumped from a scant 4,000 in 1940 to 20,000.

Girls! Learn to sew and win a prize!

ENTER THE SINGER Junior Dressmaking Contest

More than \$60,000 worth of prizes!
GRAND PRIZE \$1,000 SCHOLARSHIP or CASH AWARD
2nd, 3rd, 4th PRIZES \$500 SCHOLARSHIP or CASH AWARD
PLUS—trip to New York City for the 4 top winners and their mothers to attend fashion shows in their honor.

99 SINGER Portable Sewing Machines for regional winners
More than 3,000 other valuable prizes for local winners

Even if you can't sew now, you may win—Here's how!

Hurry! Get your entry blank with complete contest rules at your SINGER SEWING CENTER 214 N. CUYLER PH. 4-6941

Enroll early—and have your whole summer vacation to make a beautiful prize-winning dress! Remember, classes have a limited capacity and will fill up early, so don't delay—come in today!

All these wonderful prizes will be awarded for dresses or sportswear made in SINGER Teen-Age Dressmaking Courses. Contest is open to any girl 11 to 17 inclusive, who begins her instruction after May 17th and completes the garment by September 4, 1954. YOU ACTUALLY MAKE YOUR PRIZE—COLLECTING DRESS WHILE YOU'RE LEARNING TO SEW!

You needn't be an expert to win, because clothes will be judged on taste and style sense as well as fit and workmanship.

You can win as many as 3 prizes—cash prize, sewing machine and local prize—in addition to an exciting trip to New York.

You'll find sewing easy to learn in the SINGER Teen-Age Course. And the cost for the entire course is only \$8. You may save more than this on the very first dress you sew for yourself—the "prize-winner" you make while you're learning!

Note—Families of employees of the SINGER organization and its advertising agencies are not eligible for contest.

Sales Expert Says... Physical Characteristics Of Customer A Selling Aid

Different types of people and how to sell to them was the theme of Howard J. Wischaupt's Courtsey Week sales clinic talk before a well-filled auditorium at the La-Nora theatre this morning. Tied in with the speaker's theme were suggestive sales methods that he has introduced to businessmen in the past.

IKK

(Continued from page one) portant world and domestic issues and delaying enactment of his legislative program in these serious times. Stevens Will Make Statement Army Secretary Robert T. Stevens soon will make a statement on whether the administration's responsibility in the dispute has passed from the Army secretary to a higher authority. But Mr. Eisenhower indicated clearly that Stevens probably will say that the Army still bears the responsibility. Mr. Eisenhower said his order was a moderate and reasonable statement of the proper division of powers between the executive and legislative branches of the federal government. Adams called for the Jan. 21 meeting, Mr. Eisenhower said, because the Army counsel felt he needed advice on what action he should take about producing records of the Army loyalty board and its members in light of an executive order issued by former President Truman. The Senate Investigating subcommittee suspended the hearings until Monday to seek modification of a presidential order barring testimony about a high level conference of administration leaders last Jan. 21 on the McCarthy - Army row. The White House so far has given no indication of relaxing the order. Sen. Joseph R. McCarthy, in a reference to the presidential order, told reporters "we can't possibly resume the hearings unless we are allowed to get the facts." He has called Mr. Eisenhower's order an "iron curtain."

COMMIES

(Continued from Page One) Red particularly like Democrats, but only that they hope to make use of one major political party to oust another as a long-haul part of the effort to establish a new wholly left-wing major party in the United States. Derogating McCarthyism requires turning of the present administration out of political power, first by changing the composition of Congress in 1954 and then by electing a new administration in 1958. "To unite a new political majority for 1954 and 1958 requires recognition that the two-party system, remaining the form through which the overwhelming majority of the American people now express themselves in politics. There is no immediate prospect that decisively large masses will break away from the existing two-party structure. "Under these circumstances the decisive sections of organized labor, without which a mass third party is possible, will first attempt to fight out the issues within the ranks of the Democratic party."

Library Work Is Slowed By Weather, Steel

Progress on the new Lovett Memorial library has slowed almost to a standstill pending the arrival of drier weather and the first shipment of structural steel, according to Construction Supt. C. E. Ratliff.

Work on the library, being built by the Tri-State Construction company of Amarillo through funds from the Fannie Lovett estate, has been slow for the past week, Ratliff stated, and not much else can be done until the steel arrives. It was due here Saturday. "We have all our foundations in and are ready to pour the floors," Ratliff said. Ratliff also said that brick work on the structure could not start until the steel columns were erected. The brick work is supposed to begin about a day after the steel arrives, he indicated. Work on the library, located at Houston between Kingsmill and Foster, has been in progress ten weeks.

JayCees To Attend Amarillo Club Function

Pampa Junior Chamber of Commerce members will leave at 6:30 p.m. today for the police station for Amarillo and a "dynamic orientation" program with the Amarillo JayCees. JayCees President J. C. Hopkins Tuesday noon announced the invitation from the Amarilloans. At 5 p.m. Thursday, all local JayCees have been asked to be on hand at Lions Club park to finish work on the new Little League ball park outfield fence, Hopkins said. Sunday, Amarillo JayCees will have more "doings to which local JayCees have been invited. Included are a golf tournament at the Rose Rogers Municipal Golf course, a Les Brown concert at 3 p.m. in the Municipal auditorium and a dance from 8 p.m. until midnight at the Clover club.

County Atty. Bill Waters, who is running for district attorney, was in charge of Tuesday's program. He brought along Jim Thompson, local attorney running for Democratic chairman, who introduced a film on becoming an attorney. Titled "With Benefit of Counsel," it is a color presentation, the same shown to other civic groups in the area during the past two weeks. Two new club members were inducted Tuesday, Wallace Bruce and Jack Dunham.

Marriage Licenses Must Be Recorded By Issuing Clerk

Anyone who performs a marriage ceremony anywhere in Texas is required by law to return the marriage license to the clerk of the county where the license was issued—before it is turned over to the married parties. County Clerk Charlie Thut late this morning pointed out two recent instances in which this was not done.

By law, the marriage license must be recorded in the county where it was issued before it can be handed over to those who were married, Thut said. The marriage license must be returned to the issuing point within 60 days after the ceremony is performed. Those who can perform marriages are regularly licensed or ordained ministers of the Gospel, Jewish rabbis, judges, district and county courts and justices of the peace.

Junior High P-TA Meets Thursday

The Junior high school Parent-Teachers association will meet at 8 p.m. Thursday in the auditorium. Guests for the evening will be parents of sixth-grade students. Special music will be provided by the junior high school band. Highlight of the program will be installation of officers by Mrs. O. C. ... Following the meeting, refreshments will be served in the school.

Mainly About People

The board of directors of the League of Women voters will meet at 9:30 a.m. Thursday at 814 N. Somerville. Each chairman will present her plan for the coming year and her committee members. Top of Texans were expected to stream into the Grandview community this noon for the annual barbecue put on by the Grandview school Parent-Teacher's Association. It is all free, even for the political candidates who are expected to converge "en masse" on the community. Bake Sale, Sat. a.m., sponsored by Royal Neighbors, Hughes Building. Rev. Dick Crews, pastor of the First Christian church, will be the

Kenneth Lee Harvel Dies This Morning

Funeral arrangements for Kenneth Lee Harvel, 45, 806 E. Craven, who died at 8:30 a.m. today in Highland General hospital, were pending late this morning at Duendel-Carmichael Funeral home. Mr. Harvel, who was an auxiliary engineer for the Cities Service Gas company, had been a patient in the hospital about one day. Born Dec. 19, 1908, in Winktop, Salem, N. C., he moved to Pampa 10 years ago, at which time he became an employe of the gas company. He was a member of the Calvary Baptist church. Survivors include his wife, Mrs. Ruth Harvel, Pampa; a daughter, Mrs. Legita Bullard, Pampa; a son, Marvin Harvel, in the U.S. Navy; two sisters, Mrs. Fanny Beckenmeyer, Greensboro, N. C., and Mrs. Beatrice Childress, Thomasville, N. C.; two brothers, Bill and Woodrow Harvel, both of Winston-Salem, and one grandchild.

Youths To Be Charged In Theft

Two Lefors youths, aged 15 and 19, were to appear before County Judge J. B. Maguire at 10:30 a.m. Thursday for a hearing in connection with the theft of beer from a truck and several hubcaps. Sheriff Rufe Jordan said this morning that he was uncertain as to what charge would be filed. They are suspected of breaking into a truck parked at the Boeking Distributing company here May 6 and taking 37 cases of canned beer.

Hereford Men Dine With Lions

Board of Directors of the Top of Texas Hereford Breeders' association will meet Thursday noon for lunch with the Lions club in the basement of the First Methodist church. Main items in the association directors' session, which will follow the regular program, will be approval of the group's new constitution and bylaws, and planning of the area organization's summer activities. They will also make preliminary plans for 1954 including the Hereford Breeders' annual show and sale Jan. 24-26, at Pampa's Recreation park.

Barbershopper 'Parade' Date Set

Pampa's 1954 parade of barber shop quartets has been scheduled for the night of Nov. 8 in the junior high school auditorium. Dr. W. Calvin Jones, general chairman of the parade, late this morning made the announcement, pointing out it is subject to the approval of the SPEBSQSA district pretty much a formality. The Top of Texas chapter of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America Tuesday night began working on the 1954 event, Dr. Jones reported. Some 22 chapter members were on hand in the KPDM studios under the direction of Bill Haley to rehearse the show's chorus numbers. Amarillo's Four Hearsenmen, a top group in the Panhandle, have already been signed up for the Pampa parade. Dr. Jones continued. And area barbershoppers are working for the Mid-States Four, of Chicago, and the Orphans of Wichita, Kan. The Mid-States Four, international champions, were in Pampa briefly in 1951.

PICTURED WITH Howard J. Wischaupt, right, speaker at last night's Panhandle Personnel association banquet, are Reno Stinson, ex-president of the association and director of industrial relations of the Cabot companies; Bob Kollen, president of Panhandle Personnel association and associated with Procter and Gamble at Amarillo; and Dr. Lee Johnson, of West Texas State college at Canyon, one of the founders and ex-president of the association. Wischaupt is telling the trio of the time he was arrested in Montana for fishing on Sunday. His name was mistaken for that of a U.S. Senator and the story of the senator being arrested for fishing on Sunday was released on news wires to newspapers all over the country. (News Photo)

Personnel Men Hear Sales Expert

Nearly 130 members of the Panhandle Personnel association gathered at the Pampa Country club Tuesday evening for a steak dinner and to hear Howard J. Wischaupt, courtesy sales clinic speaker, talk on courtesy in dealing with people in industry. Master of Ceremonies Jimmy McCune, commenting on the large crowd that attended, declared that "it was the largest turnout for a meeting of the group since it was founded."

Summer Recreation Instructor Named

A former Californian will be in charge of the arts and crafts program at Sam Houston playground classes will be taught from 8:30 through 11:30 a.m. Monday through Friday. Instruction will be held June 16 through July 30, according to Homer Craig, program chairman. Glasses And Glasses ATLANTA (UP) - A hurrying woman bumped into a man on a downtown street and apologized saying: "Pardon me. People will think I am drunk, but I just got some glasses and can hardly see through them." She did not have on glasses. Summer activities will include woodworking, weaving, leather-

Mud Forces Revival Shift

An Immanuel Temple revival service, now in its third week, has been moved to the Crown theater building. Reason for the switch is an understandable one - the streets around the temple at 401 E. Campbell are bogged down in mud. Services will be held at 8 p.m. each day this week through Saturday, according to Rev. A. H. Watkins, temple pastor, who pointed out Paul West, Pampa theater manager, had granted the use of the building. Rev. B. L. Sparks, pastor of the Full Gospel church in Brook, is leading the current revival.

PICTURE NEWS

AROUND THE WORLD

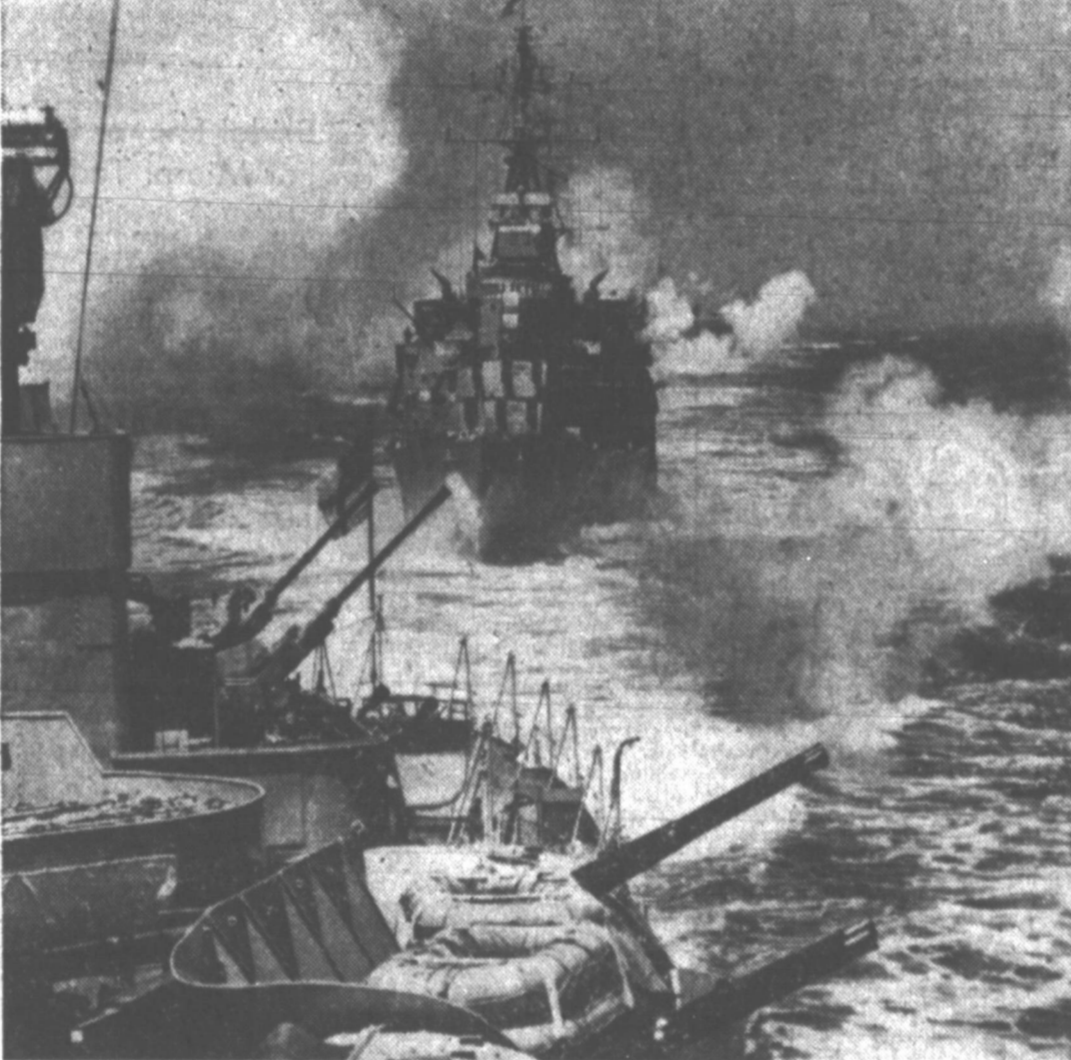

FIRST OF TWO—Detroit second sacker Frank Bolling throws on to first to complete a double play after getting Yankee Hank Bauer in a force at second in the first inning of game number one of a double-header between the Yanks and Tigers. The umpire of this game played in New York is Joe Paparella. Mickey Mantle hit the DP ball to Harvey Kuenn at short.

DELAYED CARGO—Production at a Florida orange concentrate plant was considerably slowed when this trailer-truck's cargo of fresh oranges failed to arrive on schedule. The truck's rear wheels smashed through the wooden planking of this bayou bridge at Bradenton. It took workmen all day to transfer the fruit to another vehicle and get the load to the plant.

SUBSTITUTE MOTHER—A tiny doll's bottle served a double purpose after 13-year-old Dennis Fisher found that Baby squirrel near his home in Blytheville, Ark. The little animal appeared after a large tree was cut down near the boy's home. Now it's part of the family and can enjoy a hearty meal of milk.

SALUTE FOR THE QUEEN—Twenty-one gun salutes were fired by the 15 ships of the British Mediterranean Fleet to welcome the Royal Yacht Britannia about 200 miles from the island of Malta. Queen Elizabeth, her husband and the children they had just been reunited with saw the warships carry out their spectacular maneuvers.

SMALL WONDER—A very tiny Italian boy has just spotted that big, colorfully-uniformed Palatine Guardsman in sunny St. Peter's Square in Rome. He's far more interested in his large discovery than he is in whatever the rest of the crowd has gathered to witness near Vatican City.

ARTISTS AND MODELS—Mrs. Rita Trostel is sitting for a group of very young painters at a Children's Aid Society center in New York, top photo. The youngsters in the class persuaded their mothers to pose and the results became Mother's Day presents. Below, Charlotte Walsh, eight, is showing her effort to her mother who is obviously pleased with the "likeness."

FULL APPROVAL—Artist Joe Jones is studying a summer dress fashioned from one of the prints he designed for a collection in New York. This one features rather skinny giraffes and horses which prance around in a dark background. The sleeveless, white-collared dress was designed by Bob Low.

SHE TRIED—Pretty Maggy Andrea didn't make it to the top of the Miss Paris contest, but the 20-year-old starlet climbed as near the top as she could in the French capital. Maggy will have a place in the court of the queen.

SLIPPERY CUSTOMER—ASPCA official William Ciccarelli is displaying a snake found in New York City. He bagged it after a passer-by noticed the reptile and called police. The black and white snake with a blunt, diamond-shaped head, may have been someone's strange idea of an apartment pet, but the ASPCA found a good home for it in the Bronx Zoo.

MUSIC MAKERS—As violinist Carroll Glenn left for a concert tour of South America with her husband, pianist Eugene List, they made some small music at a New York airport. While holding their tiny daughter, Allison, List used the tot's miniature violin to do a bit of fiddling.

HERE IT IS!—The Trujillo Peace Monument, tallest in Latin America, has just been completed after nine years of work. The 200-foot-high marble structure overlooks historic Santiago, Dominican Republic, and will be dedicated next year for Generalissimo Rafael Trujillo's 25th year of peace.

SIGHT FOR GOOD EYES—The grimacing gargoyles high up on the Cathedral of Notre Dame in Paris have been joined by some British students who are recording the beauty of the French city with their cameras. The ancient images, which stare sightlessly over the beautiful city, are themselves one of the "musts" that tourists want to see in Paris.

News: Two-run Homer Aids Oilers in Twin Win Over Berger

Closer Race For Top Seen In Big State

By UNITED PRESS
A rash of football-like scores broke out in the Big State League Tuesday night, resulting in a tightening of the standings and a closer race for the top spot.

Corpus Christi gained a game on league - leading Tyler, overpowering the Tigers 16 to 2. Waco moved to within a game of the top with a 13 to 2 massacre of Harlingen. Austin was two games away after trouncing Galveston 11 to 1, and Temple defeated Bryan 5 to 2.

Chili Bigham paced the Clippers onslaught with four hits, including three doubles. Ray Sims held Tyler to six hits for his sixth victory. Corpus Christi piled up eight runs by the fourth inning, then breezed to victory.

Waco cut loose for its biggest hitting spree of the season, collecting 15 hits, including five homers and four doubles. Ronald Sheetz went the route and contributed three hits for Waco.

Two big innings furnished the payoff for Austin. The Pioneers scored five runs in the second inning and six more in the seventh. Lefoy (Stumpy) Jones was credited with the victory.

Lolly Jim Carson, on the mound, and Bob Moyer, at the plate, combined to give Temple an easy victory. Carson scattered eight hits, and Moyer collected three hits.

The score by innings:
Tyler, 100 000-2 8 2
Temple, 010 130 000-5 12 2
Harlingen, 001 100 000-2 6 0
Caldwell, Malgrini (6), Mills (7) and Skelton; Sheets and Phillips.
Corpus Christi 411 203 050-16 19 0
Tyler, 000 011 000-2 6 4
Sims and Henry; Spieh, Ferro (5), Kawalec (8) and Mitchell.
Austin 080 000 600-11 15 0
Galveston 000 000 001-1 9 3
Jones and Gaspar; Contreras, Moore (2), Chester (7) and Riddie.

Crowley Splits Two Tilts With Leaders

By UNITED PRESS
Harry Holleman blasted a three-run homer in the seventh inning Tuesday night to give the Crowley Millers a split in a doubleheader with the Evangeline League leading New Iberia Pelicans.

The Pelicans eked out a 7 to 6 victory in the opener, then dropped the nightcap 5 to 2. Lake Charles exchanged its collar slot in the standings with Lafayette, taking a 10 to 5 decision. Baton Rouge pounded Texas City 5 to 1, and Alexandria pipped Port Arthur 3 to 2.

Holleman also picked up his eighth pitching victory of the season with his game-winning ball for the Millers. Billy Adams rapped out a ninth-inning single to give the Pelicans the first game. Mauro Iacovella and Red Smith added homers for the Pelicans in the first game.

Lake Charles overruled a six-run lead by Lafayette and went on to victory. It was the ninth defeat in the past 11 games for Lafayette. Manager John (Pop) Faucett paced the Laker's plate attack with three hits.

John Karpinski outpitched his cousin Stan Karpinski as Baton Rouge plasters Texas City. Stan scored in the eighth, but John went the distance and took the victory.

Alexandria bunched three runs in the sixth inning, then led by a margin of 14 marooned Sea Hawks to take the lead. L. D. Oliver took the loss for Port Arthur, and Lee Roy Cullens got the victory for the Aces.

The score by innings:
(First Game)
Crowley 310 000 001-6 9 1
New Iberia 303 000 001-7 10 4
Simon and Reynolds; Fox, Stuart (5) and R. Smith.
(Second Game)
Crowley 009 000 3-5 9 2
New Iberia 000 000 2-3 5 1
Holleman and Tamski; Peoples and R. Smith.
Lake Charles 002 010 10-17 13
Lafayette 010 003 000-3 11 6
Thompson, White (5), Dwire (4) and Faucett; Alomar, Roger (7) and McElroy.
Alexandria 000 003 000-3 7 2
Port Arthur 010 000 001-3 11 1
Ollens, Knight (9) and Hall; Oliver, Lopez (5), Sanner (7) and Tate.
Baton Rouge 001 050 230-8 8 3
Texas City 100 000 001-1 9 7
Karpinski and Lines; S. Karpinski, Alvarado (4) and Dossay.

Roswell Continues Fast Pace in L-H

By UNITED PRESS
The Longhorn League may be calling "Where's Roswell?" before long if the Rockets don't slow down and let the rest catch up.

The New Mexico Rockets won the 14th of the last 16 games Tuesday night by beating Carlsbad, 14 to 6. Roswell won 11 straight before losing a couple and now are apparently off on another string of victories.

Royal Vale, owned by Mrs. J. R. H. Thoun, will be attempting to duplicate the feat of First Frio, only horse in the history of the state to race to win it twice. This was in 1944 and 1945.

Top threats will be Alfred G. Vanderbilt's Fido and Silver Gale Stearns's Combat Boots.

Marciano Ahead in Sparring
GROSSING, N.Y., May 17-UP-Rocky Marciano holds a 104 to 43 lead over Ezzard Charles Monday in the number of rounds boxed in preparation for their June 17 clash for the heavyweight championship at Yankee Stadium.

Royal Vale Favored In Handicap Today

BOSTON, May 18-UP-British-bred Royal Vale, the favorite and last year's winner, heads a strong field of 16 Wednesday in the 20th running of the \$50,000-added Massachusetts Handicap for three-year-olds and up.

Royal Vale, owned by Mrs. J. R. H. Thoun, will be attempting to duplicate the feat of First Frio, only horse in the history of the state to race to win it twice. This was in 1944 and 1945.

Top threats will be Alfred G. Vanderbilt's Fido and Silver Gale Stearns's Combat Boots.

Junior Oilers Meet Amarillo Thursday

The Pampa Junior Oilers, made up mostly of Pampa High School seniors, will take on the Amarillo Oilers next at Oiler park here at 7:30 p.m. Thursday.

Gerald Mobley of Clovis Lyons will get the starting assignment on the hill for the local team.

Pony League Teams To Practice Today
All players on the Kist team in the Pony League were urged to report for practice at Kiwanis park at 5:30 p.m. today.

Also, a practice session for the Phi Rollers in the same league, was scheduled to be held at the same hour at the Sam Houston school playground. Teams do not normally hold practice sessions on Wednesday, it was pointed out.

BONUS BABIES AND THE BAT BOYS—Bonus babies make it difficult to separate Detroit players from the bat boys. There's a scant age difference between the bony beauties and Francis McCarry, 16, second from left, a high school student, and Johnny Robb, 19, second from right, also a student, who look after the bats. A year ago, infielder Ieno Bertola, 19, left, was a college freshman and outfielder Al Kaline, 19, center, and pitcher Bob Miller, 18, were in high school. (NEA)

Spooner Cards Seventh Win Of Season As Cats Triumph

By UNITED PRESS
Fort Worth moved into a second-place tie with Oklahoma City in the Texas League Tuesday night, and a 33-year-old southpaw pitcher, Karl Spooner, was the man responsible.

Spooner, who threatens to become the first 20-game pitcher in the Texas League since 1932, hung up his seventh victory against two losses in whitewashing Tulsa on two-hits as the Cats won, 7 to 0. That victory, coupled with Oklahoma City's 10 to 4 loss to Dallas, left the Dodger farmhands and the Indians tied for second.

San Antonio still held a two and one-half game lead despite a 2 to 0 loss to cellmate Houston Tuesday night. The Beaumont at Shreveport game was postponed because of rain.

Spooner Strikes Out 12
Spooners struck out 12 Oilers and now leads the league in that department with 73. The Cats batted and bled in the fourth and fifth innings, and Spooner took care of Tulsa batters in remarkable fashion thereafter.

The distant fences at Burnett Field in Dallas have always posed a tough target for sluggers but Eagle fans were treated to a real home-run hitting exhibition Tuesday night.

Dallas hit three home runs—two by Willie Brown and one by Ben Taylor—and the Indians slugged two. Brown's first homer, in the second inning, was a line drive that hit the exposed infielder to the right. Taylor's homer, in the third, fanned five and walked but was one of the hardest hit balls ever seen at Burnett Field.

Scantebury Wins Fifth
Pat Scantebury, Dallas Negro southpaw, registered his fifth win Tuesday night by allowing three hits, fanned five and walked but two.

Houston got only three hits off Bob Harrison and John Janese but Larry Miggs accounted for the first run with a homer in the fourth. Manager John (Pop) Faucett paced the Laker's plate attack with three hits.

John Karpinski outpitched his cousin Stan Karpinski as Baton Rouge plasters Texas City. Stan scored in the eighth, but John went the distance and took the victory.

Alexandria bunched three runs in the sixth inning, then led by a margin of 14 marooned Sea Hawks to take the lead. L. D. Oliver took the loss for Port Arthur, and Lee Roy Cullens got the victory for the Aces.

The score by innings:
Port Worth 004 210 000-7 14 0
Tulsa 000 000 000-0 2 1
Spooners and Rominger; Irizarry, Muszewski (3) and Kinaman.
Okla. City 000 200 020-4 6 1
Dallas 033 002 20x-10 13 1
Nicolosi, Aldridge (3), Taylor (4) and Tomkinson; Scantebury and Balch.
San Antonio 000 000 000-0 7 1
Houston 000 110 000-2 3 7
Harrison, Janese (7) and Masterton; Stathos and Rand.
Oklahoma City 000 000 000-0 2 1
Caldwell, Malgrini (9) and Mills (7) and Skelton; Sheets and Phillips.
Corpus Christi 411 203 050-16 19 0
Tyler, 000 011 000-2 6 4
Sims and Henry; Spieh, Ferro (5), Kawalec (8) and Mitchell.
Austin 080 000 600-11 15 0
Galveston 000 000 001-1 9 3
Jones and Gaspar; Contreras, Moore (2), Chester (7) and Riddie.

PRESS BOX VIEWS

By WALT SWITZER
Pampa News Staff Writer

Father's Death Expected By Sports Editor, Yet It Still Came As Shock

OUR DEEPEST SYMPATHIES
It was Buck who has been working out to Buck Francis, Pampa Daily News sports editor who normally writes this column, on the loss of his father, Bruce M. Francis, 55, in a Veterans hospital in Temple Monday.

Although Buck had been expected to receive word of his father's passing for several weeks, it still came as a definite shock to him and his family.

His father was very prominent in veterans' affairs, both in the state and in the nation. He was, at the time of his death, editor of the Texas VFW News, which is published in Austin. Prior to that he had been associate editor of War Times, a War department publication, to which post he was named in 1944.

He was a past president of Clayton M. Leach VFW post, Abilene, and was adjutant for the Department of Texas (VFW) from July, 1949, to June 1953.

He had been editor of the state VFW publication since 1947.

To Buck and his family, we would like to say that all their many friends in Pampa, including members of the Oiler squad, Pampa Harvester athletic teams, Pony Leaguers, and Little Leaguers, to name only a few, are thinking of them in this dark hour, especially today, since funeral services were to have been held at 2 p.m. in Brownwood.

SPEAKING OF LITTLE LEAGUERS
Few people in Pampa, we are sure, actually realize who it was that brought Little League baseball to Pampa.

There would certainly be no Little League ball here, at least this year, if it had not been for Buck Francis.

Hubbers, Gassers Continue To Lose Ground in WT-NM

By UNITED PRESS
West Texas-New Mexico League teams played a full round of doubleheaders Tuesday night to make up some of the games lost by a string of rainouts.

Two matches resulted in splits, but the bottom teams, Lubbock and Borger, sunk deeper into the lower region by losing a pair each.

Second-place Plainview dumped League-leading Clovis, 4 to 1, in the first game on newcomer Jim Waugh's two-hitter, but Clovis won the nightcap, 7 to 4. Abilene edged Albuquerque, 3 to 2, in the first game but the Dukes took the second, 4 to 3.

Amarillo beat Lubbock twice, 3 to 0 and 6 to 4, on two fine pitching performances by Len Ruyte and Ed Locke, and Pampa defeated Borger twice, 11 to 7 and 7 to 8.

Royce allowed but three hits in the first game and Locke came back with a five-hitter in the afterpiece. All games were seven-innings except the Clovis-Plainview nightcap in which the Pioneers scored three runs in the eighth to win it.

Abilene 010 002 0-3 7 3
Albuquerque 110 000 0-3 5 2
Alonso and Bowland; Santos and Jordan.
Abilene 000 003 0-3 5 0
Albuquerque 001 111 0-4 11 1

Pampa 002 420 0-11 14 2
Borger 104 000 2-7 7 2
Tierney and Mangone; Maul, Flowers, Coddington, Witt and Palmer.

Dudley Picks Texas A&M

Ed Dudley, outstanding Pampa High school athlete, has signed a letter of intention to attend Texas A&M college next fall.

Dudley signed the letter, which serves notice on other Southwest Conference schools that he intends to enter A&M, Tuesday in the presence of Tom Tipps, former Pampa Harvester grid coach and now an assistant to Coach Bear Bryant of the Aggies.

He starred on the Harvester football teams as a halfback and also won laurels as a track man, receiving several individual trophies for his efforts.

The son of Mr. and Mrs. Ray Dudley, 709 N. Somerville, Dudley has been active in Student council activities and has served as president of the cappella choir.

Pampans Travel To Amarillo Tonight

By WALT SWITZER
Pampa News Staff Writer

BORGER—Manager Doug Lewis slammed out a two-run home run in the seventh and final inning of the second game here Tuesday night to give the Pampa Oilers a 7-6 win over the Berger Gassers, enabling them to take both ends of a double header.

The Oilers, behind the seven-hit pitching of Don Tierney, walloped four Gasser hurlers for 14 hits to score an 11-7 triumph in the first game.

The Pampa squad will travel to Amarillo tonight for single game clashes with the Gold Sox tonight and Thursday night. Lewis indicated he would start Jake Henson or Jonas Gaines against the Sox tonight.

The Oilers went into the seventh inning of the nightcap Tuesday night trailing on the short end of a 6-4 score.

Dub Woolbright opened the inning with a single to left. Ben Felder grounded to Bob Westfall, who apparently had a clutch double play. However, he threw wild and the ball went deep into right field and before Whitley Krueger, former Oiler, could throw the ball into the infield, Woolbright had rounded the bases to score. This cut Borger's lead to 6-5.

Clarke Fans Three
With a two-strike, one-ball count on him, Lewis caught hold on George Tomecek's fast ball and sent it sailing far over the right-field wall to score Felder ahead of himself, to provide the margin of victory.

Vbert Clarke, who toiled on the hill for the Oilers, gave the Borger fans slight hope in the last of the seventh when he walked Westfall, but the Oilers came back, but all Gasser hopes faded when he fanned the next three batters in succession, mixing his curve balls with his fast ones.

The Gassers opened the first game with a run in the first, but the Oilers came back in the second with three on a double by Dick Hariston, a fielder's choice, singles by Ed Daniels, a walk and an error.

Two more Oiler runs crossed the plate in the third. Curt Hardaway opened with a double and scored on another double by Hariston. Tierney singled to right, scoring Hariston.

After the Gassers tied the score with a four-run outburst in the third, the Oilers came back to score four on a walk, three sin-

ROSEN LEADS TRIBE TO WIN OVER BOSOX

By CARL LUNDQUIST
United Press Sports Writer

There was a new warning signal for pitchers in the American League today—"Rosen is rising!"

Sluggo Al of the Indians, last year's "most valuable player," in fact was ahead of 14 1953 paces in all departments. He has eight home runs to lead the league, his 36 runs batted in also top the circuit, and he is second only to team mate Bobby Avila in batting with a lusty .374 mark. Avila has .379.

Rosen, who even was the "prowler" two notches in the field from third base to first this year, outshone the mighty Ted Williams in a 6 to 3 victory for the first time.

THE MARQUEE

BY DICK KLEINER

Since the Center Theater will be torn down in June, NBC-TV, which has telecast most of its big shows from that site, is moving many of them to Brooklyn. That's where Milton Berle, "Your Show of Shows," "Mr. Peepers" and so on will originate from next year.

With a Brooklyn base, there'll be some changes. It'll be Milton Berle, of course, and Mart'a Raye. And even the network will be the Nashua. But NBC can't worry about that now—folks tinge toast.

CBS-TV's "Danger" has changed lately. Maybe you've noticed—the plots aren't the same old business with psychopathic yo-yo testers or misguided olive sniffers. They've had some documentaries, on things like Dien Bien Phu and such. Makes for good viewing. It's all part of producer-director Andy McCullough's plan to broaden the scope of, or as he puts it, "take it out of the swamps." And that should please everyone, except maybe a few grumpy alligators.

Now that the theater party, which is over for "Ondine," Mel Ferrer is enjoying life again. Theater parties, in case you've never heard of them, are groups that buy out the entire theater or most of it, then resell the tickets for charity. And the handsome actor says they don't make the best audiences.

"They're a deadly audience," he says. "It's like playing to a biot.

"They have to pay \$25 for a seat, so they hate it before they come. They're not regular theatergoers—just people who do it for the sake of charity."

"Ondine" survived 90 theater parties, spread over its first few months. They're good for the box office, but Ferrer and co-star Audrey Hepburn had to play to 90 biotiers. Mel says he had his fill for the time being, thank you.

He's a man of many parts, and not just acting parts, either. Besides his performing, he runs the famous La Jolla Playhouse, outside San Diego, Cal., with Gregory Peck and Dorothy McGuire. He's also forming a TV company. And he's packaging a TV show he hopes will hit the air this spring or summer.

This show is built around a jazz trio—Benny Goodman, T. D. J. Powell and Gene Krupa. A good group. "And I'll do the Garroway," says Ferrer.

On top of that, Mel has a busy summer lined up. He leaves "Ondine" on July 3, catches a July 4 plane for Italy, and goes to work in a movie there on July 5.

He has, to put it briefly, lots of iron in the fire.

"Too many," says Mel Ferrer, rushing off in search of another iron.

FBI To Be Called Into Kidnap Case

VICTORIA, Tex., May 19—UP—Sheriff J. C. Durant decided Tuesday to call the FBI in on the case of a rich Negro rancher and oilman who reported that he was kidnaped and made to pay a \$30,000 ransom.

The rancher is Pete Rydolph, 58, who owns about 3,200 acres and also has oil wells. He told Durant that two white men, a white woman and a "young and smooth looking" Negro man kidnaped him.

They took him to a shack in Victoria, he said, where he was forced to pose nude with the woman in compromising positions. His captors, he said, told him that they would use the pictures to prove he raped the woman unless he got \$30,000 for ransom.

Rydolph drew \$30,000 in cash out of the Victoria Bank and Trust Co. Saturday. It was Monday, however, before he reported what had happened, to Durant.

Durant found at least two persons who said they saw Rydolph with his captors Saturday. Rydolph said the leader was a "hard-talking white man, about 45."

He said the other man seemed to be in his early 30s and the Negro was "young and smooth looking." He said he couldn't describe the woman.

He also couldn't show Durant the pictures allegedly were taken in, though he said it was in the eastern part of Victoria. He couldn't remember license numbers on the two automobiles he said his kidnapers had.

Leo Schell, teller at the bank, confirmed that he got the money. He said he tried to get Rydolph to take a cashier's check, but Rydolph told him he "had a d a n' working and needed cash."

So Schell went into the vault, counted the money and called Rydolph to come in and get it. He said he couldn't understand why Rydolph didn't simply sit down in the vault and refuse to take the money to his kidnapers.

Rydolph said he could think of a lot of things "on Monday but all he could think of Saturday was a handing over the ransom and getting out of the kidnapers' clutches."

Durant said an FBI agent would arrive Wednesday to discuss the case with him. He didn't know whether the FBI would actively enter the case.

Indonesia leads the world in coconut production, says the National Geographic Society. The Philippines, India, Ceylon and the islands of the Southwest Pacific follow. There are about a million acres of coconut palms in the American tropics, with some plantations in Brazil, Mexico, looking to West Indies. The United States is the chief consumer, with Europe second.

Insurance Spokesmen Say Notoriety Hurts The Field

AUSTIN, May 19—UP—An organization representing 11 Texas stock fire insurance companies said Tuesday publicity given recent court decisions has "confused the public" and "raised some unfounded suspicions" about the bulk of those companies.

The Texas Insurance Advisory Association, representing 181 capital stock fire insurance companies, said the bulk of those firms operating under Texas laws have a high record of stability and service to policyholders.

An opinion by the Third Court of Civil Appeals in Austin last week involving the defunct Texas Mutual Insurance Co. called that firm's operations a "gigantic fraud" and denounced "gross if not criminal laxness" in enforcement of the state's insurance laws.

Norris W. Parker, manager of the Texas Insurance Advisory Association, said publicity about such decisions "has raised some unfounded suspicions about those well-managed, well-regulated companies which make up the bulk of those now operating in the state."

"Inexperienced management and inadequate financing, usually are the causes of a fire company going broke. However, if the management is good and the financing sound, a company can meet a catastrophe loss without damaging its stability," Parker said.

He said fire insurance companies operating in this state paid out more than \$24 million in losses as a result of the Texas City disaster.

Technology Makes More Jobs For U.S. Women

A sharp increase in employment of women is due largely to mechanization, making jobs easier, safer and cleaner, according to the Council for Technological Advancement.

Technology in the form of household appliances has made it easier for her to divide her time between job and home, the council said in a recently released report of a study of the effects of new technology on employment.

"Jobs outside the home are more interesting than ever before," the Council continued. "They pay more and are more suited to women nowadays."

The added income from these jobs has been an important factor in raising the living standard of millions of families, the council pointed out, by providing more money for education, cultural interest, and comforts.

The percentage of women workers is increasing from 21 per cent in 1920 to an estimated 33 per cent by 1975, according to the Bureau of Labor Statistics. Most of the increase will be women over 45, since the trend is for women to take jobs after they have raised families, or while children attend college.

Indonesia leads the world in coconut production, says the National Geographic Society. The Philippines, India, Ceylon and the islands of the Southwest Pacific follow. There are about a million acres of coconut palms in the American tropics, with some plantations in Brazil, Mexico, looking to West Indies. The United States is the chief consumer, with Europe second.

Bromfield Trial Reset

WICHITA FALLS, Tex., May 19—UP—The court controversy between author-experimental farmer Louis Bromfield and the Wichita Falls Chamber of Commerce has been set for its second trial June 14.

The first trial ended in a hung jury in 80th District court last Feb. 19.

The legal controversy involved a suit by the Wichita Falls chamber to regain title to the experimental Malabar Farm near Wichita Falls along with \$50,000 damages from Bromfield, on ground the experiment was a dismal flop.

The chamber said Bromfield didn't carry out his part of the agreement at time the land was deeded to him.

Bromfield countered with a \$250,000 cross-suit against the chamber and 14 individuals. This was dismissed before trial began. Trial on the chamber's suit against Bromfield ended in a hung jury.

The chamber has since amended its petition and is asking title to the Malabar farm tract and \$10,000 damages.

Crude Oil Stocks Down

TULSA, Okla., May 19—UP—Crude oil production in the United States continued to decline during the past week, the Oil and Gas Journal said Tuesday, with daily average output declining 1,250 barrels from the previous week.

The trade magazine said daily average production for the week ending May 15 was 6,425,750 barrels. Cumulative production this year stands at 867,366,000 barrels, compared to 878,455,700 barrels on this date last year.

Kansas' daily average was up 7,100 barrels, but regulatory policies caused a 5,800 barrel drop in Oklahoma.

Texas, California, Utah and Eastern states showed no changes, but production was down 1,200 barrels in Colorado, off 200 in Michigan, 300 in North Dakota, 400 in Indiana, 250 in Louisiana, and 1,400 in Illinois.

Pretty Trees Can Wreck House

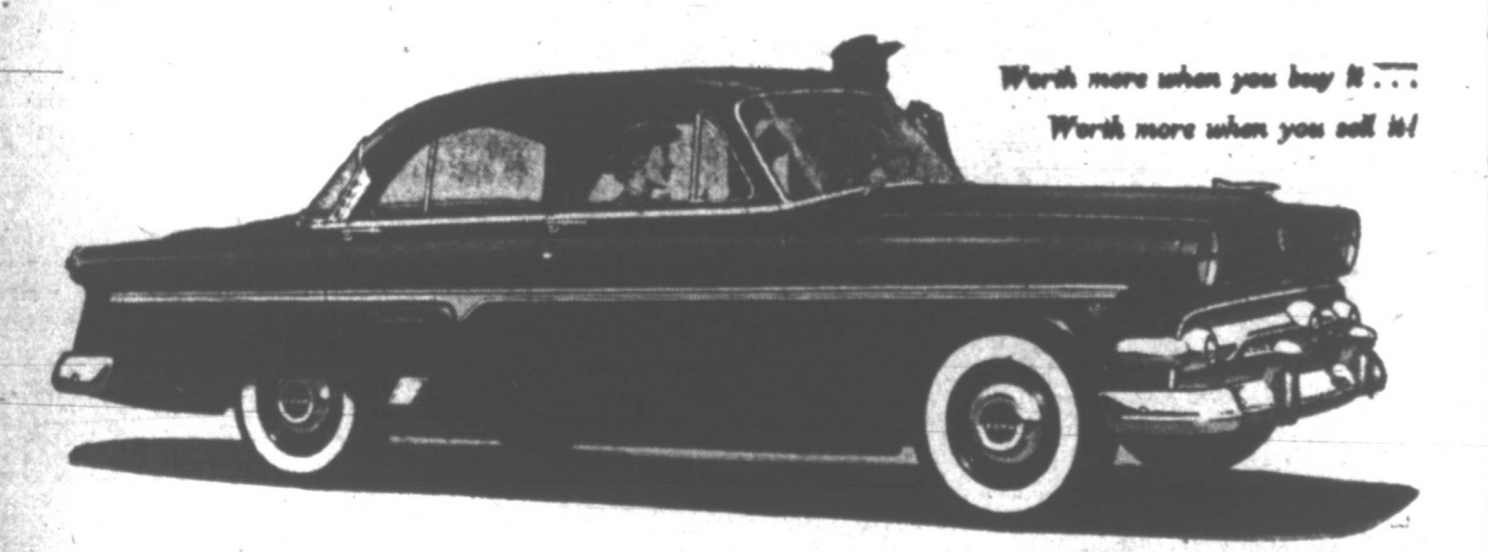

Trees which spring up close to the foundation of a house can be a home-wrecker, warns J. W. Christian, field representative of the Davey Tree Expert Co.

Unless the trees are removed as soon as they appear, or at least before they grow more than a foot above the ground, wall-side trees can cause considerable damage.

The location itself makes removal difficult, and their growing roots can smash sturdy stone and concrete foundations. They often break into sewer tiles in search of moisture.

Most offensive wall-side growers include ailanthus, elm, silver maple, sugar maple, red maple, box elder and apple.

Why fine car buyers are swinging to Ford

Compare Ford with the finest! You get the same modern type of overhead-valve engine... the same road-hugging ride... the careful interior decorating... the same quality construction... and the same optional power assists you'd expect to find in cars costing hundreds of dollars more. So why pay more? This is the question prudent car buyers are asking themselves. And that is why you'll often find two Fords proudly parked in driveways where there used to be but one costly car!

Take power: Only Ford, among all low-priced cars, offers you a Y-block V-8 engine or an I-block Six. And both of these new deep-block engines are the most modern in the industry... with low-friction design, wedge-shaped, high-turbulence combustion chambers, overhead valves, deep-block construction.

Take ride: Ford's new Ball-Joint Front Suspension is the greatest advance in chassis design in 30 years. Vertical wheel travel is increased—so wheels can "step down" into deeper ruts with less shock being transmitted to passengers. Your Ford not only steers easier but will keep that "new car feel" far longer.

Take power assists: Fordomatic Drive is the only "automatic" in its field to combine the smoothness of a fluid torque converter and the "Go" of an automatic intermediate gear. And you can have Ford Master-Guide Power Steering, Swift Sure Power Brakes, power lifts on all four side windows and a 4-Way Power Seat.

Take a Test Drive... and you'll want to drive it home!
