### LONG TIME RESIDENT DIES

R.C. (Ruben) Vaughn was born December 26, 1896 in Gadson, Alabama. He married Eula Emma Bailey August 21, 1918 in Farmersville, Texas.

They lived in Mills County for 25 years and then moved to Borden County in 1943 where Mr. Vaughn worked as a farmer in the Plains Community.

Later they moved to Gail in 1955 where Mr. Vaughn went to work for Borden County School. He worked there until May 1966 and then retired.

Mr. Vaughn died at 8 p.m. Saturday at his residence. Justice of the Peace Fred Vera ruled natural causes in the death.

#### ATTEND 4-H'ERS SIX FLAGS

Fourteen 4-H'ers and three adults enjoyed a trip to Six Flags Over Texas Saturday, June 18. June 18 was 4-H Day at the amusement park in celebration of the 75th Anniversary of 4-H in Texas.

The group consisted of Jason Sharp, Bruce Harris, Sammy Harris, James Smith, Gerry Smith, Jon Herring, David Holmes, Michael Murphy, Mickey Burkett, Kim Turner, Felicia

Survivors include his wife; a daughter, Wanda Tate of Lubbock; four sons, James of Pico Rivera, Calif., Charles of O'Donnell, Ruben of Snyder and Bill of Hobbs, N.M.; a sister, Nellie Royall of Childress; a brother, Dave of Childress; 35 grandchildren; 28 great-grandchildren; and

great-great-grandchildren. Services for Mr. Vaughn, 86, were at 2:30 p.m. **Tuesday in Gail First Baptist** Church with the Rev. Pat

Ray, pastor, officiating. Burial was in Gail Cemetery under direction of Branon Funeral Home of

Kandy McWhorter and Alan

Dan and Jodie Huskerson

#### LOCAL COUPLE OVERCOME HANDICAP

The saying "it was love at first sight" is oh so very trite--but can be oh so very fitting for some--including Jodie and Dan Huskerson. Married nine months, they happily reflected back to the day they met two years ago...

Mrs. Huskerson was speech therapy major at Baylor University and was assigned a project which required her to work closely with someone who was hearing-impaired. Rather than visit a local nursing home, as was suggested by the class instructor, she chose to work with Dan, who oftentimes visited the university speech and hearing clinic.

"I saw Dan when he came to the clinic. I thought he was so cute. I found out where he lived and I even spied on him," she remarked with mischievous wink.

She shyly called and made an appointment to visit with Dan. "We talked for a long time. He asked me out for a date that night and, like they say, the rest is history,' Mrs. Huskerson said with a

Huskerson is one of thousands who are born deaf each year and must learn to compensate for their hearing losses to live normal lives. In his particular case, his deafness is the result of a dead auditory nerve. He has five percent of his hearing and wears a double hearing aid.

The young man has done more than compensate for his loss...he has overcome it. Huskerson is able to lip read and speak fluidly, thanks in part to his attendance at the prestigious Central Institute for the Deaf in St. Louis, Mo. Huskerson also attended the Sunshine Cottage for the Deaf at Trinity University in San Antonio prior to entering the CID.

Huskerson added that he has been grateful for all the love, support and encouragement he has received throughout the years from his family and numerous friends.

"I think Dan's parents were exceptional," said Mrs. Huskerson proudly. "They worked with Dan a lot when he was little-bitty."

His parents also worked

hard to put him through the CID, which requires an I.Q. above 115 for admission. The program, in which there are six to 10 students per class, is intense and "strictly

oral," according to Huskerson. There is a focus on lip reading and learning to talk.(He does not know

sign language.)

The school instructs on the basic premise that the deaf have a small amount of hearing left. "They teach the students to read lips and use the little hearing ability they do have," explained Mrs. Huskerson.

Although Huskerson was born deaf, his parents did not discover his disability until he was almost two years old. One day, his mother locked herself out of the house by accident and tapped on the window to get young Dan's attention. The tot was watching television and did not respond.

She knew instantly that something was dreadfully That day, wrong. Huskerson's parents took him to the doctor and it was there they discovered he was unable to hear.

#### PCA GAINS PRESIDENT

Jim B. Hulse has been named president of the Sweetwater Production Credit Association. The announcement came from W.J. Harvey Jr., Roby, chairman of the association's board of directors.

Sweetwater PCA is a member-owned agricultural finance cooperative which serves the credit needs of Andrews, Borden, Dawson, Ector, Fisher, Glasscock, Howard, Kent, Loving, Martin, Midland, Mitchell, Nolan, Scurry and Winkler counties. Last year the association loaned approximately \$99 million to area farmers and ranchers.

# TRI-COUNTY SCHOLARSHIP \*\* PROGRAM, JULY 9. ...

Scholarship awards, new friends and fun --- all of these are offered in Lamesa's Tri-County Junior Miss Scholarship Program. Girls from Dawson, Gaines, and Borden counties who will be seniors next year in school are eligible to participate.

The Tri-County Junior Miss competition will be held Saturday, July 9, at 7:30 p.m. at Klondike High School Auditorium. The Young Lamesa Homemakers organization is sponsoring the program. Area girls may obtain entry forms from local chairman, Bo Freeman, 712 North 23rd, Lamesa, Texas 79331, (806) 872-7748. Entry forms should be returned to Bo by June 30. There is no entry fee.

The local competition is part of a nationwide program to honor and reward the country's leading high school girls for

achievement in scholastics, creative talents, self development and community betterment.

More than \$2.5 million in college scholarships, savings bonds, and other awards will be awarded to Junior Misses at local, state, and national levels this year. National sponsors of the program are Coke, Kraft, Simplicity, Revlon, Republic Airlines, and Hershey.

The local winner will receive a large cash scholarship to the college of choice from contributions made by many area businesses and civic clubs. She also will receive a \$700 per year scholarship, renewable for four years, from Huntingdon College in Montgomery, Alabama; a \$500 per year scholarship from Judson College in Marion, Alabama; and an \$800 per year scholarship, renewable for four years,

from Mary Hardin Baylor University in Belton, Texas.

The winner here will represent the area in the state Junior Miss program at New Braunfels in January competing with many others for scholarship awards and a chance to participate in the America Junior Miss National Finals at Mobile.

At the beginning in 1958, 18 states, with 50 girls participating, took part. The program has grown steadily and today embraces thousands of girls in all 50 states, the District of Columbia and Puerto Rico.

Sue Smith's mother-in-law, Lucille is in a Lubbock Hospital having tests run.

There's no harm—and a lot of good—in promising yourself a small reward for a task well done, psychologists say. If household chores have got you down, try to picture yourself relaxing with a tasty snack and a frosty glass of iced tea. Then after you've finished the dishes, the dusting or the laundry—put your feet up and put yourself in the picture.

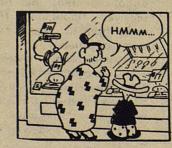

#### CHEESE GIVEAWAY CANCELLED

Borden County has been notified that the cheese and butter distribution program for Borden County has been cancelled.

Distribution of the USDA surplus cheese and butter to qualifying families was arranged here by the county and handled through the county extension office. That program has been cancelled by the federal government.

Information about the termination of the program came from the Texas Department of Human Resources, Food Service Division, Western Region in Lubbock.

PLANTING DATES FOR COTTON AND GRAIN SORGHUM

The established normal final planting date for cotton and grain sorghum in Borden County is June 20 and June 30 respectively. These dates are not restrictive in your later planting the crops, and will not in itself eliminate you from any eligibility for program benefits if you do get the crop(s) planted.

PREVENTED PLANTING OF COTTON AND GRAIN SORGHUM

Any producer who intended to plant cotton and-or grain sorghum, but was unable to do so because of adverse weather conditions, may file for prevented planting credit for history. Application for

prevented planting credit must be filed not later than 15 days from the above established normal planting dates. County Committee policy requires that producers should have the area they intend to plant cotton and-or grain sorghum plowed and ready to plant by the normal planting dates in order to be eligible for the prevented rinting credit. No prevented planting for the crops will be approved unless the producer has properly prepared the land for planting the crops.

CERTIFICATION OF **PROGRAM CROPS** 

July 15 is the final date to report your planted acreage of cotton and-or grain sorghum. Accurate reports should be made. Reports

will be made on a field by field basis.

MAINTAINANCE OF CONSERVATION USE ACRES (CUA)

If your CUA is beginning to grow up in Johnson grass, sunflowers, white weeds, or other undesirable vegetation, you must get it plowed. Acceptable tillage methods are tandem, off-set disc, one-way, sweeps, or chisels.

Spot-checks are now being made. Don't risk loss of program benefits by your CUA being unacceptable. CERTIFICATION OF CONSERVATION USE ACREAGE (CUA)

July 15 is also the final date to certify and designate your Conservation Use Acreage for the 1983 crops for farms enrolled in the programs.

NON-GRAZING PERIOD ON CUA

You are reminded that the Conservation Use Acreage cannot be grazed until September 1, 1983. JUNE INTEREST RATE

The Commodity Credit Corporation again decreased its lending rate to 8.750 percent on June 1, 1983. The decreased rate will apply to all loans approved and disbursed during the month of June. CHANGE **OPERATIONS** OR **ADDRESSES** 

Please report any changes of operators, ownership, rental agreements, addresses, and etc. so that we can properly maintain our farm records. HOLIDAY

The office will be closed on Monday July 4, 1983, in observance

Independence Day. ELIGIBILITY

Eligibility for participation in all programs administered by ASCS is established under law without regard to race, color, religion, sex, age, handicap or national origin.

#### Obituary

#### E.P. (Bud) Smith

E.P. (Bud) Smith, 64, died at his home Saturday after a long illness. Services were at 10 a.m. Tuesday at the Nalley-Pickle Rosewood Chapel with Royce Clay, Church of Christ minister, officiating. Burial was at the Vealmoor Cemetery.

He was born May 19, 1919. He came to Vealmoor in 1927 with his parents, Jess and Myrtle Smith. He had lived in the area since that time. He was a veteran of World War II and a retired fence builder.

Survivors include his wife, Betty; two sons, Leon Presley Smith of Mason and Lee Edward Smith of Tucson, Ariz.; six brothers, Lee Ovid Smith of Odessa, Alvin Leslie Smith of Gail, L.D. Smith of Lamesa, R.A. Smith of Phoenix, Ariz., and J.A. Smith and Everett Lee Smith, both of Big Spring; three sisters, Mrs. M.L.(Harlene) Knowlton and Mrs. Eldon (Marie) Pounds, both of Big Spring, and Mrs. Leo (Lola Mae) Foster of Duncan, Okla.; and four grandchildren.

The Borden Star, Wed., June 29, 1983...3 OVERCOME HANDICAP

> con't. from pg. 1 at the Sunshine Cottage for the Deaf and CID, Huskerson attended public junior high and high school, in addition to kindergarten and second grade.

Huskerson admitted he has to work harder than his classmates who has normal hearing. Nevertheless, he made excellent grades and was a member of the National Honor Society.

His efforts paid off when he received a scholarship to baylor University. In 1981, he graduated with his B.A. in recreation, but was not content to stop there. In August of 1982, he completed his masters degree in health and physical recreation.

Throughout his school years, this energetic man was extremely interested in sports and did not choose to remain a spectator. He played baseball, football and basketball, but his heart was into track and cross country. It was in this area that he excelled. (He also was the graduate assistant track coach at Baylor for one year for the men's and women's track teams.)

He traveled to Romania in 1977 to compete in the Deaf Olympics and in 1980 won the National Deaf Olympics championships in both the 800 and 1500 meter contests.

Huskerson added that his ife has supported him in the many endeavors he has chosen to undertake. The two enjoy their time together and said they particularly enjoy traveling, reading and dancing.

The two live in Vealmoor in the teacherage. Currently, she is employed by the bi-county special education co-op. speech therapist travels to Gail, Klondike and Dawson each week.

Huskerson has discovered Con't on Pg. 5

#### TEXAS COWBOY REUNION

Forty-three of the country's top western artists will be participating in the 10th Annual Stamford Art Foundations Exhibit and Sale.

A rodeo parade will kick-off the TCR Friday, July 1, on the sqare at 3:00 with various floats, riding clubs, marching bands and automobiles participating.

Rodeo performances begin at 8:00 p.m. July 1, 2 and 4. The world famous Hardin Simmons Cowboy Band will provide musical entertainment in the arena at each performance.

These attractions plus an art and quarter horse auction, rodeo dances, a Golden Horseshoe Hedeaway'' worth \$500.00, chuck wagon dinners and more are all part of the 53rd Annual Texas Cowboy Reunion.

Dates for the Texas Cowboy Reunion are July 1, 2 and 4.

The TCR is still considered ? the largest amateur rodeo in basis of the number of contestants which grows each year. Contestants are mostly working cowboys on the large and small spreads from Texas, New Mexico and Oklahoma.

Many rodeo events have had their origin at the TCR in Stamford, such as wild cow milking, barrel racing and cutting horse contest, these in addition to the regular events of bull riding, calf roping, saddle and bareback bronc riding. This year's entertainers include Leon Rausch and the Texas Panthers' salute to Bob Wills, Bill Mounce, Sammi Smith and Sheb Wooley.

EMPLOYED WOMEN RETURNING TO HOME SEWING

Both the economy and changing lifestyles are having a great impact on home sewing.

Home sewing boomed when polyester doubleknits first came on the market in the late 1960's because they were so easy to use.

Since fashions at the time tended toward loose fitting. untailored garments with little details, home sewers could easily produce quality clothing.

Once tailored clothes became fashionable again and people tired of doubleknits, many women realized they didn't have the skills to sew good-looking garments and gave up the activity. Until recently, only about 20 percent of American women used their sewing machines twice a month or more.

Economics has created a new interest in home sewing. When women can make a quality dress for 30 percent of what it would cost in the stores, they are bound to be interested.

Even employed women are returning to home sewing. They want clothes to wear on the job with enough style to last several years rather than just one season. If they can't find the styles they like, or preferred styles in their size, they are now more likely to sew the clothes themselves.

Also, some employed women are turning to sewing for "therapy" or as a hobby, rather than out of economic necessity.

The pattern companies and fabric makers are now trying to make their products more compatible with the employed woman's lifestyle. They are aiming for the customer who wants to make something simple and

Enormous catalogs of patterns, each with complex instructions and five different views of the finished garment are seen less frequently, since they tend to frighten off potential home sewers.

Instead. manufacturers are offering a simplified line with a few styles attractively displayed in fabric stores. Each pattern has fewer pattern pieces, one or two views, simpler instructions that allow for a graded fit, and a lower price than regular patterns.

Home sewing has also gotten a boost from the recent interest in crafts.

Research shows that 30 percent of sales in fabric stores now go toward crafts and home decorating materials.

It's difficult to predict whether the interest in home sewing will continue to grow. But with the new fabric blends, streamlined patterns, and desire for high quality at a lower price, we may see a sewing "boom"

Onions will stay firm longer and keep from sprouting if you wrap them individually in aluminum foil.

Chevron has applied to the Railroad Commission of Texas for a permit to inject fluid into a formation which is productive of oil or gas. The applicant proposes to inject fluid into the Tenn. formation in the Griffin Seven, Will Number Six, located six miles Northwest from Vincent, Texas in the Hobo (Tenn.) field in Borden County. ## U.S. Dependence On Critical Minerals Is Target Of Soviets In Namibia

The Soviets, operating through a ''puppet'' terrorist group known as **SWAPO (South West Africa** People's Organization), are trying to seize power in South West Africa-Namibia.

Namibia (South West Africa) is a country generally unknown to Americans despite the important U.S. national defense interests involved there.

Namibia is the gateway to ultimate Soviet control of the strategic minerals in southern Africa. Chrome, vanadium, the platinum group and about thirty other minerals are vital to the U.S. industrial base. Without access to these strategic minerals, U.S. electronic. computer, aircraft and defense industries will be hopelessly crippled.

Operating from military bases in the southern part of Soviet-controlled Angola with the help of 30,000 Cubans soldiers, SWAPO, armed with Soviet military equipment, is conducting a terrorist campaign across the border against the black civilian population of northern Namibia.

Not only does Namibia have the largest uranium mine in the world, and vast resources of copper, diamonds, lead, tungsten, tin, zinc and oil, but its western coast deep-water port can harbor Soviet nuclear submarines in a position to bisect the oil and mineral lifeline from the Persian Gulf to the U.S. and NATO countries of western Europe. More than 28,000 ships a year follow this sea

route around the Cape of Good Hope.

If the Soviets and their SWAPO proxies can drag Namibia behind the "iron curtain", the U.S. loses another ally in the mineral "resource war" and Russia makes a huge gain in its campaign to deprive the U.S. of the strategic minerals in southern Africa.

The Soviet-dominated United Nations General Assembly provides SWAPO with about \$100 million a year. And the U.N. supplies millions to other Soviet-sponsored terrorist groups such as the Palestine Liberation Organization (PLO), the Cuban guerrillas in Angola, the Carribbean, and elsewhere in Africa.

The U.S. Congress annually appropriates over \$ 1 billion of hard-earned U.S. taxpayers dollars to the United Nations -- 1/4 of the total U.N. budget.

Few Americans are aware that to the extent they allow the United Nations to use American taxpayer contributions to finance pro-Soviet terrorists, they are helping finance their own destruction. Is it not time for U.S. taxpayers to ask their representatives in Congress to stop this flow of U.S. tax dollars through the U.N. to SWAPO, PLO, Cuban guerrillas and other Soviet-backed terrorist

groups? Write U.S. Senator Frank H. Murkowski, Senate Foreign Relations Committee, 317 Hart Senate Office Building, Washington, DC 20510 and enclose this message.

The ads sound appealing--"3,000 sit-ups without moving an inch...10 miles of jogging lying flat on your back."

These are claims made for electrical muscle stimulators, often promoted as "body shapers" and "passive exercise" devices.

The problem is that these claims have no known scientific basis, says the Texas Medical Association. In addition, the devices can be dangerous if misused.

Electrical muscle stimulators are used legitimately for physical therapy in treating medical problems. These uses OVERCOME HANDICAP

cont. from pg. 3 throughout the years that there are several types of situations which interfere with his lip reading obviously he cannot lip read in the dark. And, when people cover their mouths during conversations with him, he sometimes has difficulty comprehending what they have said. However, he added, common sense tells him many times what goes into the blanks.

Those who speak fast don't bother Huskerson one bit. He'shad lots of practice A college buddy of his talked "100 miles an hour. I

His wife admitted that she is sometimes sad because she feels her husband misses out on some things, including television and

But Huskerson doesn't seem to mind. He said he hasn't spent much time pondering why he was born deaf while others can hear perfectly, and he is not bitter. Those who know this man agree wholeheartedly with this statement, saying he has a tremendous amount of pride and motivation.

He added that if people react 'negatively toward him, he firmly believes it's their problem, and not his.

Huskerson is now looking for a job as a teacher and coach, but has faced some difficulties. Although he went all through his life with the hearing society, he has faced some hurdles finding a position.

His wife admitted there have been times when she has been very hurt by some of the reactions of others to Dan's deafness. "I wish people wouldn't discriminate against the deaf, but really give them a chance."

With the numerous chances he has been offered, Huskerson has taken advantage of every

include relaxing muscle spasms, increasing blood circulation to a part of the body, preventing muscle deterioration due to disuse, and preventing blood clots in leg muscles or bedridden patients after strokes or surgery.

When used for these purposes and under the supervision of a licenses practitioner, electrical muscle stimulators are considered safe and effective, according to the U.S. Food and Drug Administration. The FDA warns that the devices should not be sold through the mail or used without a

prescription.

Unapproved uses for the devices include facelifts without surgery, "slimming and trimming," weight loss, "body shaping and contouring," bust development, wrinkle removal, spot reducing, and cellulite removal, says the FDA, which regulates use of the devices.

Two of the devices advertised nationwide for uses not approved by the FDA are the Rejuvatron and the Figure-Tron, both sold by the same New York company. The Rejuvatron offers the purchaser a chance to look "up to 15

years younger." According to the ad, all an aging person has to do to regain a youthful appearance is to use the Rejuvatron five or 10 minutes daily. The Figure-Tron provides "all the figure-toning of 3,000 sit-ups without moving an inch." Each of the devices costs \$19.95 plus postage and handling.

Potential hazards from electrical muscle stimulators include electrical shocks and burns. In addition, the devices should not be used by pregnant women; persons with heart problems, particularly those with

pacemakers; and people who have cancer or epilepsy. Finally, the electrodes of the devices should not be places where a strong current could pass through the heart, brain, or spinal column.

Some people say it is unlucky to enter a house or room with the left foot foremost.

## **Public Notice**

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective August 1, 1983, unless otherwise determined by the Commission.

A complete copy of the new rate schedule is on file with the Texas Public Utility Commission (PUC) at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

As a result of the settlement of a lawsuit brought by the U.S. Department of Justice against AT&T, Southwestern Bell, on January 1, 1934, (or as otherwise ordered by the United States District Court) will no longer be a part of the Beii System, but will be owned by public shareholders. Under the terms of the settlement, Southwestern Bell has identified 15 areas in the state within which it may provide service, and the federal court with jurisdiction of the settlement has tentatively approved these areas, called LATAs (Local Access and Transport Area). On or about January 1, 1984, Southwestern Bell can not provide service between these LATAs, and in addition, must transfer to AT&T customer premises equipment that it leases to customers.

Southwestern Bell has filed a proposed revised rate schedule with the PUC reflecting these changes. These rates would become effective August 1, 1983, if they are not suspended by the PUC; however, it is expected that they will be suspended and that the rates ultimately set by the PUC will become effective on or about January 1, 1984. If the rates were to become effective as filed, they would produce a 48.2% increase in Southwestern Bell's unadjusted test year revenues (or a 76.36% increase in Southwestern Bell's test year revenues adjusted to reflect the effect of Southwestern Bell's divestiture from AT&T). Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of Southwestern Bell Telephone Company.

## Notice to Customers of Other Telephone Companies

While Southwestern Bell has proposed no increase in rates for intraLATA interexchange toll services, any change in those rates could also affect customers of other telephone companies. Southwestern Bell is proposing changes in the structure of the present private line and foreign exchange services. Changes in these rates may affect customers of other telephone companies. Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of other telephone companies.

## Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel de tarifas para servicio de teléfono en Texas, con vigencia a partir del 10 de agosto de 1983, a menos que la Comisión haga otra determinación.

Una copia completa del nuevo arancel de tarifas se ha archivado en las oficinas del Public Utility Commission (PUC, ó Comisión de Servicios Públicos) de Texas en Austin, Texas, al igual que en cada municipalidad afectada y que es servida por Southwestern Bell, y dicho arancel está disponsible para inspección pública en todas las oficinas de Southwestern Bell en Texas. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios cada vez que Southwestern Bell solicite un cambio en dichas tarifas.

Como resultado del arreglo judicial al cual se llegó tras el proceso legal entablado en contra de AT&T por el U.S. Department of Justice (Departmento de Justicia), Southwestern Bell dejará de formar parte del Bell System (Sistema Bell) a partir del 10 de enero de 1984 (ó en la fecha que disponga el United States District Court — Tribunal Federal de Distrito), y llegará a ser posesión de accionístas públicos. Bajo las condiciones de dicho arreglo, Southwestern Bell ha identificado 15 regiones dentro del Estado de Texas en las cuales puede proporcionar servicio, y el tribunal federal con jurisdicción en el arreglo ha dado su aprobación provisoria a éstas regiones, que se denominan "LATA's" (Local Access and Transport Area, ó Regiones Locales de Acceso y Transporte). A partir de fecha 10 de enero de 1984 aproximadamente, Southwestern Bell no podrá proporcionar servicio entre dichas LATAs, y además deberá ceder a AT&T todo equipo ubicado en premisas de clientes y alquilado a los mismos.

Estos cambios se han incluido en el propuesto arancel de tarifas de servicio revisado que Southwestern Bell ha archivado con la PUC. Dichas tarifas tendrían vigencia a partir del 10 de agosto de 1983, a menos que fueran suspendidas por la PUC; sin embargo, se espera que sí seran suspendidas, y que las tarifas que en último caso establezca la PUC entrarán en vigor a partir de fecha 1o de enero de 1984 aproximadamente. Si las tarifas entráran en vigor tal y como se han archivadas, aumentarían en un 48.2% los ingresos no-ajustados de Southwestern Bell para año de prueba (unadjusted test year revenues), ó sea un aumento de 76.36% en los ingresos de Southwestern Bell para año de prueba, ajustados para reflejar el efecto del desposeimiento entre Southwestern Bell y AT&T. Cualquier cambio en las tarifas para cualquier servicio tipointerLATA que proporcione AT&T ó una compañía subsidiaria despues del 10 de enero de 1984 podría afectar a los clientes de Southwestern Bell Telephone Company.

#### Aviso a los Clientes de Otras Compañías de Teléfono

Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para servicios tipo "intraLATA interexchange toll", cualquier cambio en dichas tarifas tambien podría afectar a los clientes de ótras compañías de servicio telefónico. Southwestern Bell está proponiendo cambios en la estructuración de los servicios actuales de línea privada (private line) y de intercambio extranjero (foreign exchange). Cambios en las tarifas para dichos servicios podrían afectar a los clientes de ótras compañías de servicio telefónico. Cualquier cambio en las tarifas para cualquier servicio tipo-interLATA que proporcione AT&T ó una compañía subsidiaria despues del 1o de enero de 1984 podría afectar a los clientes de ótras compañías de servicio telefónico.

#### Invitational 4-H Shoot

Junior

82 4-H shooters representing 11 counties participated in the 1st Annual Borden County 4-H Invitational Skeet and Trap Shoot held June 22-24 in Gail. Age divisions were broken down to Sub-Juniors (9-12), Juniors (13-14), and Seniors (15-19).

Listed below are the winners in each age group:

TRAP:

Sub-Junior (50 Targets)
1. Art Wagner Ector Co.--48
2. Kevin Ward Ector Co.--44
3. David Holmes Borden

Co.--47
2. Noah Fergeson
Coleman--47
3. Todd McKinney
Howard--45
Senior (75 Targets)
1. Todd Kading
Coleman--72
2. Darrell Green Borden--72
3. Jimmy Stanley Ector--71

1. Mickey Burkett Borden

SKEET:
Sub-Junior (50 Targets)
1. Art Wagner Ector--46
2. Kevin Ward Ector--39
3. David Holmes
Borden--35

1. Randy Abbott Taylor--41
2. Shon Parker Howard--41
3. Mickey Burkett
Borden--40
Senior (75 Targets)
1. Stan Parker Howard--74
2. Todd Kading
Coleman--63
3. Jimmy Stanley Ector--62

**OVERALL** (Combined Skeet

Junior (50 Targets)

and Trap) Sub-Junior (100 Targets) 1. Art Wagner Ector--94 2. Kevin Ward Ector--83 David Holmes Borden--78 Junior (100 Targets) 1. Mickey Burkett Borden--87 Noah Fergeson Howard--85 3: Todd McKinney Howard--83 Senior (150 Targets) Stan Parker Howard--135 Todd Kading

3. Jimmy Stanley

Counties participating at the shoot were: Yoakum, Lubbock, Crosby, King, Martin, Howard, Ector, Midland, Taylor, Coleman and Borden.

Borden County Shooters did extremely well and we are looking forward to the State 4-H Shoot in San Antonio, August 4-6.

#### District 2 4-H Shoot

The District 2 4-H Skeet and Trap Shoo twill be held in Borden County July 6th. Counties invited to attend are Bailey, Borden, Cochran, Crosby, Castro, Swisher, Briscoe, Lamb, Floyd, Parmer, Hockley, Terry, Lubbock, Garza, Scurry, Gaines, Dawson, Yoakum, Hale and Lynn.

Area residents are urged to attend the full day of skeet and trap shooting. A lunch and concession stand will be available.

## District 2 Horse Show

The District 2 4-H Horse Show will be held Tuesday, June 28th at the South Plains Fair Horse Pavilion beginning at 8:00 a.m.

B.G. Kropp, Borden County 4-H'er will be participating in the show. She will be entering halter, western pleasure, western horsemanship, and western riding. Top horseman will advance to the State 4-H Horse Show in Waco the last week in July.

Tradition associates pearls with tears and opals with bad luck.

## COOKS

#### PEANUT BUTTER PRALINE PIE

Cocoa Crumb Crust
1/3 cup butter or margarine
1/4 cup packed light brown

- 2 tablespoons sugar 1 tablespoon cornstarch
- 2 tablespoons water 1/2 cup broken pecans
- 1 package (3-1/8 ounces)
  vanilla pudding and pie
  filling mix
- 2 cups milk 2 cups (12-ounce package) Reese's Peanut Butter
- Chips
  1 cup non-dairy whipped topping
  Garnish: whipped topping, pecans

Prepare Cocoa Crumb Crust; set aside to cool. Melt butter in small saucepan; remove from heat. Stir in brown sugar. Thoroughly combine 2 tablespoons sugar and the cornstarch; add with water to brown sugar mixture. Stir constantly over medium heat until bubbly; remove from

heat and stir in pecans. Pour into cooled crust; refrigerate (do not cover). Meanwhile, combine pudding and pie filling mix and milk in saucepan; stir constantly over medium heat until mixture boils; remove from Immediately add heat. peanut butter chips; stir until melted and well blended. Place plastic wrap directly onto surface of filling; refrigerate 1 hour. Stir to soften; fold in whipped topping. Carefully spread over praline layer in crust. Place plastic wrap directly onto filling; chill overnight. Garnish additional whipped topping and chopped pecans just before serving.

Cocoa Crumb Crust: Combine 1-1/2 cups vanilla wafer crumbs, 6 tablespoons unsweetened cocoa and 1/3 cup confectioners' sugar; add 6 tablespoons melted butter or margarine and mix thoroughly. Press onto bottom and up side of 9-inch pie pan; bake at 350 for 10 minutes.

Go Ahead,
Ask Your Doctor

You've just been handed a prescription. You start to look forward to better health. But what do you know about that drug? Do you understand what it is meant to do? Do you know how to take it? Medicines can have some side effects, and they have to be taken correctly. So, be sure to read instructions carefully, and don't hesitate to ask your doctor about:

• When to take the medicine.

Some drugs should be taken on full stomachs, some on empty stomachs, some in the morning, some before going to bed.

• How to take the medicine and how much. With water, with milk or without anything? Should

the dose be one or two spoonfuls or what?

• What not to take with the medicine. Some medicines don't mix with alcohol, others shouldn't be mixed with other drugs.

• What side effects the drugs can cause. Medicines may produce a variety of other reactions. Not all people will have the same side effects but you should know what the possibilities

There are many sources of information about prescription drugs. Ask your doctor or pharmacist.

#### **PUBLIC NOTICE**

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR SOUTHWESTERN BELL MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

#### AVISO PÚBLICO

A solicitud de la Oficina de Consejo Legal (Office of the General Counsel) de la Comisión de Servicios Públicos (Public Utility Commission), la Comisión ha establecido la Acta No. 5113 con el fin de investigar asuntos de importancia que incumben a todas las compañías de servicio de teléfono en el Estado de Texas. La Acta No. 5113 tratará con muchos asuntos que resulten del desposeimiento que está pendiente entre American Telephone and Telegraph Company y Southwestern Bell Telephone Company. Algunos de éstos asuntos incluyen el de establecer las áreas de servicio de Southwestern Bell despues del desposeimiento y el de tasar los efectos de los arreglos judiciales que estan en vigor entre Southwestern Bell y otras compañías de servicio de teléfono en el Estado de Texas. Adicionalmente, la Acta No. 5113 tratará con los asuntos que surjan del Decreto Final (Final Order) de la Comisión Federal de Comunicaciónes (Federal Communications Commission) en la Acta No. 78-72 (ó sea la Acta de Cobros por Acceso — Access Charge Docket) en cuanto al efecto que tengan en las actividades de todas otras compañías de servicio de teléfono. Se anticipa que la Acta No. 5113 será probatoria. PUEDE QUE LASTARIFAS QUE COBRE SOUTHWESTERN BELL SEAN DETERMINADAS POR LA COMISIÓN EN Ó COMO RESULTADO DE ÉSTE PROCESO. A las partes interesadas que búsquen más información, ó que deseén participar en la Acta No. 5113, se les aconseja comunicarse por escrito con la Sra. Rhonda Colbert Ryan, Secretary and Director of Hearings (Secretaria y Directora de Vistas), Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, ó llamar a la Consumer Affairs Division (División de Asuntos de Consumidores) de la Public Utility Commission al (512) 458-0223, ó 458-0227, ó (512) 458-0221 TTY para aquellos que padecen de la sordera.

# THERE IS NO SUCH THING AS A SAFE FIRECRACKER

Fireworks and the Fourth are a patriotic combination. Yet too often the combination misfires and results in tragic stories.

"These stories are of youngsters - and their parents - who learned too late "Don't play with fireworks; they're not toys," says John L. Mann, M.D., an ophthalmologist who is chairman of the Society's State Medical Advisory Committee.

"Fireworks belong at licensed public displays," said Dr. Mann. "There, their colorful patriotic skybursts can be enjoyed without endangering life or property.

But when private individuals start playing with fireworks, trouble and tragedy are inevitable."

As proof Dr. Mann cited a survey Prevent Blindness conducted a year ago among Texas ophthalmologists that indicated that 23 Texans were blinded or lost most of

their sight on July 5th because of fireworks. An additional 49 people suffered eye injuries ranging from second degree burns to corneal lacerations. He added that the Consumer Product Safety Commission also reported last year that, nationwide, over 11,000 were treated in hospital emergency rooms for fireworks-caused injuries; 1,600 of these were to the eyes.

"What these figures show is that there is no such thing as a safe firecracker," Dr. Mann emphasized. "Even seemingly harmless sparklers sizzle at 1500 degrees F and can give a burn that will quickly take the sparkle out of the eyes of any youngster who has been playing with one."

"But the most dangerous projectiles are bottlerockets."

Bottlerockets caused almost all the cases of blindness reported in the

Texas survey and over half of the other injuries."

'The majority of injuries were to teen-aged males who seem prone to 'horse play' when they get a hazardous projectile such as a bottlerocket in their hands," he said. examples, he told of two boys who jokingly 'waged war' with lighted bottlerockets and of two others who competed with each other to create the biggest bottlerocket blast. In each instance this "Fourth of July fun" resulted in a boy blinded and cosmetically disfigured.

To prevent such tragedies, Dr. Mann said that the Society would like to see fireworks strictly controlled throughout the state and is disappointed that all of the bills introduced recently in Austin to strengthen existing laws have apparently died in legislative committees.

"Preventing fireworks cont. to pg. 8

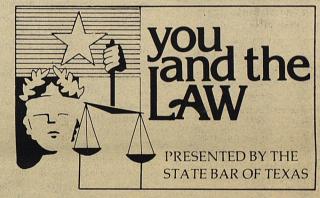

Joe Zant and David Pool

#### **OUTLAWS IN GAIL???**

Joe Zant and David Pool were found resting under a tree Monday afternoon by the Borden County Courthouse in Gail.

They left Vealmoor Friday on horseback. Equipped for the ride they led a packhorse with them which carried their bedrolls and other necessities for camping. They traveled over the O.B. Ranch and Muleshoe Ranch setting up camp at various tanks.

After their rest in Gail they were to return to Vealmoor.

Q: We need you to solve a family argument. What happens when two sisters marry two un-related men? Do these two men become brothers-in-law, or does the in-law relationship have to be closer than that?

A: A brother-in-law is defined as the brother of one's husband or wife; or else, one's sister's husband.

The answer to your question depends on the state in which the relationship is created. Most states, and the federal law, do not recognize as brothers-in-law two men who happen to marry sisters. However, an old Louisiana case has taken the opposite view. Texas law appears to be that the two men would not automatically become brothers-in-law, that such a relationship would only be created through blood kinship.

Q: My husband is the father of two minor children by his previous wife. In his will, a piece of valuable rental property will go to his children. The rest of his property, including cash and investments, will go to me and other relatives. My question is: Could the former wife sue in the children's name for more than given in the will? If so, is there anything my husband can do to protect me from this?

A: If your husband has taken care to have a formal Will properly drawn up and signed; if you protect the original document and make sure he writes no later letter or Will that contradicts this plan, then you both have done all that is necessary. The Courts strive to give effect to a testator's wishes. A well-written will can withstand allegations of insufficient bequest or unfair division.

Q: I want to change the spelling of my first name so it will be easier to pronounce. Also, my daughter is thinking of using a hyphenated name combining her maiden name with her husband's last name. What procedures must we follow?

A: If your daughter is newly-married, she may adopt the hyphenated names as her own with no formalities.

If, however, she has been using only one of those names until now, both of you will need to seek approval from the District Court in your County. A Petition will be presented to the judge for each of you. If the Court finds you are not trying to elude creditors, it will grant the changes.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible. 8... The Borden Star, Wed., June 29, 1983

#### DIAMOND M CELEBRATES

### "WHERE THE WEST BEGINS"

Snyder---The Diamond M Museum in Snyder, celebrated the opening of "Where the West Begins" with a reception, Sunday, June 26, 1983.

'Where the West Begins" is an exhibit featuring the

Rainwater must be distilled before it is really pure.

#### **FIRECRACKERS**

cont. from pg. 7

injuries is better than trying to cure them. Even with all the miracles of modern medicine, it is not always possible to save the sight of a child who bends over a firecracker, only to have it explode in his face. That is why Prevent Blindness urges all parents to insist that family fireworks be limited to public displays, and no exceptions permitted."

The Texas Society to Prevent Blindness is an affiliate of the National Society to Prevent Blindness, now celebrating its 75th year of preventing blindness through programs, education and research.

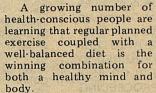

work of "Where the West Begins" was an exhibit featuring the works of illustrators of the West from the Diamond M Collection.

Cats have no ability to taste sweet things.

Good Health Equation = Exercise + Nutrition

A regular, moderate exercise program not only increases muscle strength and endurance, but improves the functioning of the heart and lungs. Exercise also is beneficial in releasing mental and physical tension and in maintaining ideal body weight.

It is especially important that people of all ages acknowledge the role nutrition plays in physical fitness. The secret of a balanced diet is to eat a wide variety foods in moderation. Follow these five steps to good nutrition and health:

SELECT FOODS FROM EACH OF THE FOUR BASIC FOOD GROUPS.

The greater the variety of foods eaten, the better chance your body has to get all the nutrients it needs. Remember, no single food alone supplies all the essential nutrients in the proper amounts.

DO NOT SKIP MEALS. Skipping meals does not 'save' calories. Studies indicate that by eating only one or two large meals a day, the body tends to accumulate more fat than when the same number of total calories for the day are eaten as smaller, more frequent

## ENTERTAINERS AT SOUTH PLAINS FAIR

LUBBOCK-Three West Texas natives will be returning to the 66th annual Panhandle-South Plains Fair this fall after an absence of three years.

Larry Gatlin and the Gatlin Brothers, natives of Odessa, have been booked for appearances at 7 p.m. and 9 p.m. Sept. 27, according to Steve L. Lewis, general manager.

They'll join several other country music stars on the stage of Fair Park Coliseum during the eight-day run, Sept. 24-Oct. 1.

Others slated to appear here include Reba McEntire and the Maines Brothers, co-headlining two shows at 4 p.m. and 7.m. on Sept. 26;

Ronnie Milsap on Sept. 28; Conway Twitty, Sept. 29 and Mel Tillis, Sept. 30. The latter three acts will be at 7 p.m. and 9 p.m. daily.

A new format is being attempted by the fair for the first time this year. Except for the McEntire-Maines show, none of the others will. have opening acts. Instead, headliners will perform one-hour shows, with no intermission.

Tickets for all stage shows are \$7 and \$9 and may be ordered by mail by writing to Show Tickets, P.O. Box 208, Lubbock, Texas 79408. Requests will be processes in the order in which received and orders will be filled after Aug. 1.
