Serving the Counties of Borden, Dawson, Garza, Howard, Lynn & Scurry

## BORDEN COUNTY COTTON PRODUCTION CONFERENCE AND PCG ELECTION SCHEDULED

Borden County cotton producers and agribusinessmen will elect a Producer Director to Plains Cotton Growers, Inc. at 7:00 a.m. meeting on Tuesday, February 24 in the Conference Room of Borden County High School, Gail.

The election will be held in conjunction with the county's annual Cotton Production Conference. Extension Service personnel on the program will be Agronomist Dr. James Supak, Economist Dr. Jackie Smith and Computer Specialist Michael Gerst.

Announcement of the election comes from Jarrell Edwards of Route 1, O'Donnell, current Borden County Producer Director to the 25-county cotton organization, and Jack McPhaul, also of Route 1,

O'Donnell, Businessman Director.

Each of the counties in PCG territory has two directors, one a businessman and the other a cotton producer. They are elected on alternate years for two-year terms. Each is eligible for re-election every second year.

All producers and businessmen are invited to the meeting. However, under PCG By-Laws, only current dues-paying members of PCG will be eligible to be elected a director or to vote in the election. This provision of the by-laws will be fully explained at the meeting.

A PCG representative will conduct the election, review and answer questions about recent and planned PCG activities.

## SENATE OKS GRAMM BILL TO BOOST SPEED LIMIT TO 65 MPH

Washington--The U.S. Senate has voted to approve U.S. Sen. Phil Gramm's bill allowing states to increase interstate highway speed limits to 65 miles per hour in rural areas.

The Gramm legislation was added to the Highway Act on a vote of 63 to 36.

Gramm, R-Texas, said during the debate that the energy crisis which prompted imposition of the 55-MPH limit by the federal government "has long ago passed" and that, as a result, the speed limit is widely ignored.

"If you set out to drive from Fort Worth to Lubbock at 55 miles per hour, one of two things will happen to

you," he said. "You are either going to get discouraged and turn back, or you're going to be run over by somebody going a lot faster than 55 miles an hour."

Gramm emphasized that the change allowing a higher speed limit is not mandatory, noting that some states may choose to preserve the 55 mile-an-hour speed limit. "If people in any state do not wish to drive 65 miles an hour on their rural interstates, they do not have to. This amendment would simply give those states that wish it, such as Texas, the modest ability to raise the speed limit on rural interstates."

## BUSINESS STUDENTS WIN TROPHY

Will Phinizy, Ralynn Key, and Joanie Wilson traveled to Plains, Texas, along with other high school students to participate in a U.I.L. practice meet on February 7.

Will and Ralynn entered the typewriting event, where Will carried away the 1st place honor while Ralynn placed seventh. Their scores were added together to entitle them to receive the typing second-division trophy. Joanie was unable to type due to illness.

## STUDY SHOWS BETTER 1986 TAX APPRAISALS, NO GROWTH IN TAXABLE VALUES

Austin--Property tax appraisals in Texas improved for 1986, but the total taxable value of property barely grew at all, according to preliminary results of a study by the State Property Tax Board (SPTB).

The agency's 1986 Property Value Study shows that, statewide, a typical property was appraised at 93 percent of its market value on Jan. 1, 1986. Local property taxes in 1986 were based on these Jan. 1 values. By comparison, tax appraisals were at a 90 percent level in the final 1985 study results and 81 percent in 1983.

SPTB released the preliminary study results on Jan. 30.

"The preliminary appraisal levels in our study indicate that county appraisal

districts improved the quality of their tax appraisals," said Ron Patterson, SPTB's executive director. "However," he added, "the study also reflects the lack of overall growth in property values during 1985."

The study's preliminary estimate of the value of the school district taxbase on Jan. 1, 1986, was \$702.8 billion--up by less than one-tenth of one percent from the final value total in the 1985 study.

"The taxable value of oil and gas reserves dropped considerably from 1985 to 1986," said Patterson. Taxable values for industrial properties and rural land also declined during this period.

State law requires SPTB to provide an annual estimate of

## BORDEN COUNTY YOUTH IN HOUSTON

Twenty-nine 4-H members from Borden County will be joining 4-H and FFA members from throughout the state for showing competition at the Houston Livestock Show, to be held Feb. 21 through March 8.

These young exhibitors compete in the junior show, where 1987 entries are expected to exceed 15,000. These junior show entries combine with open show and horse show entries to make the Houston Show the world's largest livestock show.

Junior exhibitors will be representing more than 800 Texas 4-H clubs and FFA chapters while open show exhibitors arrive from all over the world.

Students showing in the Houston Show under Borden County 4-H Extension Agent, Dennis Poole are Kandace Belwe, lambs and barrows; Marcus Belwe, lambs and barrows; Cody Stone, lambs; Justin Cox, market steers and lambs; Dana Douglass, market steers; Leslie Fryar, barrows; Kurt Hess, lambs and barrows; Shayne Hess, lambs and barrows; Tammy Johnson, market steers and lambs; A'Lise Lloyd, commercial steers, commercial steers, market steers and barrows; D'Lyn Lloyd, Market Steers, Commercial Steers and barrows; Brice Key, lambs and turkeys; Ralynn Key, steers, lambs and turkeys; M'Lys Lloyd, commercial steers, market steers; Kate Phinizy, market lambs; Will Phinizy, Commercial Steers; Kristi Stone, market steers, lambs and barrows.

Doctor Marshall is shown examining the teeth of Michelle Granadas at Borden County School, Feb. 17 as a part of a National Survey being conducted by the (NIDR). Mrs. Barbara Scott registers the information and Jane Keegan registered students.

## Borden County Students Take Part in Dental Survey

Borden County School children are taking part in a very important dental survey being conducted by the U.S. Public Health Service. Approximately 45,000 students in kindergarten through grade 12 throughout the United States have been selected to be examined, in an effort to gather information on the dental needs of our nation's youth. Students are being given free examinations, and at the same time contribute to knowledge about the existence of tooth decay and gum disease.

The knowledge gained from the participation of the students and other children selected for the survey will help:

- Indicate whether the oral health of U.S. school children has changed since a survey conducted in 1979-1980.
- Provide up-to-date information on childhood dental needs that can be used in future research and health planning.
- Provide information to help measure progress in preventing dental diseases in children and adolescents.

The survey is being conducted by the National Institute of Dental Research (NIDR) which is part of the United States Public Health Service. The NIDR has contracted with Westat, a private research organization based in the Metropolitan Washington, D. C. area (Rockville, Maryland), to carry out the survey. Known for the quality of its statistical design, survey research, and program evaluation, Westat has served Federal and local government agencies, universities, professional societies, nonprofit institutions and commercial clients for more than 20 years.

from pg. 1

## HOUSTON

Borden County FFA students showing under Mr. Buddy Wallace, Vo. Ag. teacher are Harold Barnes, Market Steer, Brian Bond, lambs; Shannon Bond, lambs; Mickey Burkett, lambs; Kerry Fryar, Steers; Michael Murphy, lambs; Will Phinizy, lambs; Gerry Smith, Comm. Steers and lambs; James Smith, Comm. Steers and lambs and John Stephens, lambs.

## Keith Williams makes Dean's List

Keith Dwain Williams of O'Donnell, a student attending Angelo State University in San Angelo, is listed on the Dean's Honor Roll for the Fall Semester at the university.

Keith, an accounting major at ASU, is listed on the 3.00 to 3.49 honor roll. He is a graduate of Borden County School and parents are Mr. and Mrs. Kenneth Williams of the Plains Community.

## LADY COYOTES NIP SANDS IN DOUBLE OVERTIME

From the spectators viewpoint, Tuesday night's game with the Sands Lady Mustangs was as exciting as they come. The game, close throughout, was won by the Lady Coyotes with some clutch free throw shooting in the closing minutes, 55-51 in two overtimes. Borden hit a season high 21 free throws in a 68 percent shooting from the line. In the overtime, Borden didn't score from the field but hit an excellent 11 of 14 from the charity stripe.

The score was tied at the end of the first quarter 10-10 as both teams came out as hot as the gym was. Borden continued its scoring pace in the second quarter as they hit six free throws and an excellent 6 of 7 from the field for 18 points to Sands 12.

The 28-22 half-time edge soon evaporated as the hosts tied things up entering the last stanza 36-36. Both teams made 8 points in the last quarter and with a minute and a half to go, Sands held the ball for the last shot. After a time out with 11 seconds to go, Borden forced a turnover and had the last shot with 7 seconds to go but couldn't cash in, forcing the first turnover. Kristi Adcock, a freshman, came off the bench and twice hit clutch free throws but it was Kelli Williams' 7 of 8 free throws in the two overtime periods that sealed the victory.

Leading scorer for Borden was Kelli Williams with 21 points followed by Lisha Sternadel with 13 and Elana Himes with 10. Kristi

Adcock made 4 followed by Tammy Johnson and Linda Sternadel with 2. Kate Phinizy added 3 to the total. Linda led in field goal percentage with 100 percent followed by Lisha with 75 percent. Kelli led in free throws hitting 9 of 10 for 90 percent, followed by Kristi Adcock with 67 percent making 4 of 6.

Kelli led in assists with 3 and Lisha had 2. Lisha led in rebounds with 9 followed by Elana with 7. Kelli, Kate, and Lisha each had 3 steals. This raises Borden's season record to 22-4 and clinches the second place spot in District 13A. District record overall was 6-2. Should Borden win its bi-district game, they will play their area game February 19 or 20.

## COYOTES DROP SEASON FINALE

The Sands Mustangs defeated the Borden Coyotes in the final game of the '86-'87 basketball season. The score was Sands 39 and Borden 37.

The loss left the boys varsity with a overall record of 14 wins versus 12 losses. The Coyotes finished 3 and 5 in district play.

The game was a tense confrontation, characterized by good defense and very little scoring. Sands made a "mini-run" late in the fourth

quarter to pull out the victory. The victory by Sands gave them second place in district 13-A.

Statistical leaders for the '86-'87 Coyotes were as follows:

Scoring-Shannon Bond, 18.2 points per game, Mickey Burkett, 9 points per game, and Brice Key, 7.4 points per game.

Rebounding- Shannon Bond, 9.4 per game, Mickey Burkett, 7 per game, and

Brice Key, 4.5 per game.

Assists- Shannon Bond, 2.7 per game, Brice Key, 2.4 per game, and Michael Murphy, 3 per game, (based upon 16 games played).

Team statistics were as follows: 51.5 points per game, 28.9 rebounds per game, 43 percent field goal average and 54 percent free throw average.

Junior Varsity score, Borden 38 and Sands 28. The J.V. record was 4 wins and 2 losses.

## PLAYOFF TEAMS ANNOUNCED JUNIOR HIGH GIRLS' SEASON STATISTICS

This year's Junior High Basketball team is a carbon copy to next year's team. There were no eighth graders on this year's team so the girls are already looking forward to next year. The team showed steady improvement as they were averaging 21.6 points per game to their opponents 29 in the first half of the season, but in the second half

averaged 24.8 points to their opponents 20. They had a season record of 4-6 and finished third in district behind gGrady and O'Donnell. Leading scorer for this year was Amanda Anderson with 85 points followed by Shara Dee Woodward with 56, Kristin Monger with 34, Shayne dHess with 31, Leslie Fryar

with 11, Kelly Jo Ogden with 8, A'Lise Lloyd with 3, and Kristin Kilmer with 1. Kristin Monger and Shayne Hess were the leading rebounders, Shayne, Shara Dee, and Kelly Jo led in steals, and Leslie led in free throw percentage. Shara Dee led in assists. The Junior High girls would like to thank all who followed and supported them throughout the year!

## REGULAR SCHOOL BOARD MEETING

The Board of Trustees for the Borden County Independent School District met on Monday, February 16, 1987 at 8:00 p.m.

Minutes of the previous meeting were read and approved. February bills were approved for payment.

The Board awarded new two-year contracts to Principals Mickey McMeans and Ben Jarrett.

The Parents Club made a request of the school district to place the bingo referendum on the ballot with the School Board Election or have the election officials hold the bingo referendum at the same time. The request was made to combine the two elections in order to save the county the money of holding an additional election. The Board voted to allow the combined election. The Board also voted to move the Vealmoor voting box from the Vealmoor teacherage to the precinct 2 voting house located near the Joe Lusk residence.

Superintendent McLeroy gave a year-to-date financial report and also a recommendation to amend the budget as needed. Other business in the report was attendance report and personnel report. There were no changes reported in personnel.

The Board approved the Superintendent's Report and reviewed and approved policies to update the Policy Manual.

Tentative plans of the senior trip were reviewed. It was reported that the seniors have chosen Disneyland in California as the home base for their trip. The trip was approved.

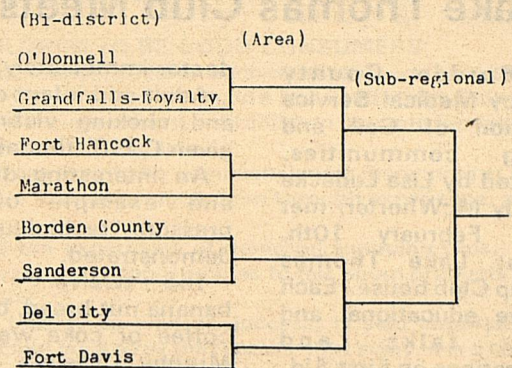

The meeting was adjourned at 10:00 p.m.

**STUDENTS AT PLAINS UIL LITERARY MEET**  
Borden County placed 3rd overall in both Number Sense and Math. Rich Hozlmann-10 in Math, Shane Kemper, 9th in Math and 8th in Number Sense, Eric Lusk, 3rd in Number Sense. Also competing were David Buchanan, Angela Evans, Kristin Monger and not pictured-Kristin Kilmer.

## PLAYOFF TEAMS ANNOUNCED

The Borden County Lady Coyotes must defeat three opponents, including district rival O'Donnell to reach the Region 1 Regional Tournament in Levelland. Below is a bracket with the winner of the eight team sub-regional advancing to Levelland February 28.

## TEACHER GROUPS PROPOSE MINIMUM SALARIES

The four Texas teachers groups have announced agreement on a minimum salary proposal for teachers for consideration by the 70th session of the Texas Legislature.

The announcement was made by representatives of the Texas State Teachers Association, Association of Texas Professional Educators, Texas Classroom Teachers Association, and Texas Federation of Teachers. The groups, which have separate legislative programs, made the move to prevent the Legislature from making the claim that the different teacher organizations do not present a clear message on salaries.

The proposal, according to the joint statement, calls for raising the statewide minimum salary schedule from the current \$15,200 per year for beginning teachers and \$26,600 per year maximum for experienced teachers to \$17,080 per year at the bottom and \$29,380 per year for career teachers at the

## Lake Thomas Club Meets

The Borden County Emergency Medical Service organization of Gail and adjoining communities, represented by Lisa Ludecke and Kandy McWhorter, met Tuesday, February 10th, 1987 at Lake Thomas Friendship Club house. Each lady gave educational and helpful talks and demonstrations on First Aid.

Information and treatment for bites of the 3 poisonous snakes of the West was given, with advice to see a doctor, as soon as possible.

Insect bites of the wasp, bee, the treacherous spikers-black widow and Brown Recluse are treated mostly either with ice, Benadryl or painted with Elmer's Glue to draw the poison out. Spider bite victims should see a

doctor immediately.

Adult and infant drowning and choking victims were given C.P.R. first aid.

An interesting discussion and example of blood pressure techniques were demonstrated.

The twelve enjoying banana nut bread, brownies, coffee or coke were: Lois Murphy, Thelma Murphy, Lela Upchurch, Erika Blankenship, May Shaffer, Nina Garner, Edna Buchanan, L. E. Houston, Ruth Weathers, Estellene Murphy, Club Pres. and the two representatives, Lisa and Kandy of Gail.

The Club made a contribution to the worthy cause. All expressed their appreciation for the meeting.  
-s-Reporter-Ruth Weathers

## TEACHER GROUPS PROPOSE MINIMUM SALARIES

maximum step for the first year of the biennium.

The proposed figures for 1988-89 are \$18,100 per year minimum and \$31,000 per year maximum. Step movement on the schedule each year would continue. The increment between steps is adjusted by the 7.5 percent and 4.7 percent inflation indices used by the Texas Education Agency's Advisory Committee on Accountable Costs.

Numbers are based on consultants' recommendations for the 1983 Select Committee on Public Education, headed by H. Ross Perot. The consultants, Waters, Trego and Davis, suggested a beginning figure for 1986-87 of \$17,080 as the minimum salary to remain competitive with private business for new teachers and to pay career teachers commensurately to hold them in public school teaching rather than having them leave for more lucrative jobs.

In light of economic conditions, TSTA, ATPE, TCTA and TFT are proposing this figure for 1987-88.

"Although we are certainly aware of the state's financial situation," the statement by the group said, "there comes a time when priorities must be established and we feel it would be an error of considerable magnitude to not address teacher compensation in this session."

"Although progress has been made with regard to teacher compensation, we still have a long way to go. Our standing in comparing states has risen when average teacher salaries are considered, but in virtually all other areas of education reform we are striving to be considerably better than average. Failure to address teacher compensation in the next biennium will almost certainly result in the loss of more capable professionals and necessitate another 'catch up' pay raise somewhere down the line."

## REGGIE VAUGHN CONCERT IN GAIL

"WHAT SEEMS TO BE THE PROBLEM," the doctor asked?

"Boo-Hoo-Boo-Hoo", totally out of it, I cried. "My first concert is taking place Saturday night and I'm sick...Poor doctor, he had never seen me in his life, ever, plus I looked like I was from another planet at that, even the nurse walking into the room took one quick look at me and begged the doctor for the number to the nearest nuclear waste sight, like I looked responsible for this mess. Not fun people, neither is missing the chance to come and see you guys. Ya know, Jesus is in control though, and I wouldn't at all be surprised if this concert turns out to be a blast.

## FEELING LIKE I KNOW YA, REGGIE

Reggie Vaughn will give a special music and ministering concert on Saturday night, February 21 at 7 p.m. in the conference room of the Borden County School.

The concert is sponsored by the Youth Group of the First Baptist Church of Gail, Texas.

Everyone is invited! Parents whole families, teachers, college students, townspeople, Borden County Supporters, etc. and all young people!!!!

It promises to be a very special gathering for everyone.

## FmHA ACCEPTING EMERGENCY LOAN APPLICATIONS

Borden County was declared eligible for Farmers Home Administration (FmHA) disaster emergency loans on January 9, 1987. Generally, that means that farmers who have lost at least 30 percent of their production due to the drought are eligible for FmHA loans. Proceeds from crop insurance and the PIK program are taken into account when determining eligibility.

FmHA County Supervisor, D. Craig Simpson is urging farmers who are interested in receiving an emergency loan

to get their applications into FmHA as soon as possible. Simpson said, "We hope farmers will get their applications in early rather than waiting until near the deadline which is September 3, 1987. The longer they wait, the more chance there is for long delays in getting their checks. If the applications come in early, we can avoid backlogs and speed up the process."

The FmHA office is at 109 NE 14th Street in Lamesa, Texas. The telephone number is (806) 872-6761.

## Children's Food Program Offered

Austin--The Summer Food Service Program for Children will be offered again this year by the Texas Department of Human Services.

The program provides meals to children from needy areas when schools are closed for vacation.

Organization eligible to sponsor the food service program include public or non-profit private schools, residential summer camps,

and local, municipal, or county governments.

Applications must be received by March 15, 1987.

For more information, interested organizations and food service management companies may contact Rebecca Everhard, Food Services Program 520-W, Texas Department of Human Services, P. O. Box 2960, Austin, Texas 78769, (512) 450-3379.

## "SHAKESPEARE LIVE!"

Odessa--Shortly after Shakespeare's death, Ben Jonson noted, "William Shakespeare was not of an age, but for all time." History had proven him right. Audiences attending the Odessa Shakespeare Festival's presentation of "Shakespeare Live!" performed by Burdette Parks Mar. 5-7, will have the opportunity to get to know the world's greatest playwright better.

Shakespeare Live is the final offering of the Globe's 1987 Shakespeare Festival. Performances are 8 p.m., Thursday-Saturday, Mar. 5-7 with a morning matinee at 10 a.m., Friday, Mar. 6. Other festival productions are "The Taming of the Shrew," performed by the National Shakespeare Company, Feb. 19-21 and Gilbert and Sullivan's comic operetta, "The Mikado," produced by the Globe and Odessa College Theatre, Feb. 26-Mar. 1.

Tickets for the productions are \$8 for adults and \$5.50

for students and senior citizens. Box office hours are 9 a.m. - 12 noon and 1-5 p.m., Monday-Friday. For reservations and additional information, please call the Globe Theatre at 915-332-1586.

## LEGAL NOTICE

The Board of Trustees of the Borden County Independent School District hereby gives notice of an election to be held on April 4, 1987 for the purpose of electing two School Board Members. The terms of Jack McPhaul and Jon Monger expire on April 4, 1987.

Anyone interested in having their name placed on the ballot should file an application in the office of the Superintendent. The deadline for placing names on the ballot is March 4, 1987.

## Time Running Out To Balance Budget

Austin--State Comptroller Bob Bullock Friday confirmed that the time-frame for solving the state's financial problems ends with the regular session of the Texas Legislature.

"Lawmakers have got 100 days from now to deal with the state's money problems. Without final budget action by midnight, June 1, the Legislature may be lighting the fuse to a financial bomb in early fall," Bullock said.

Bullock said that unless budget and revenue measures are in place by the session's end, they cannot become effective on September 1, 1987, to head off a severe cash crisis.

"We need the budget balanced during the regular session to be able to borrow and repay cash management notes and assure that the

state can pay its bills throughout fiscal 1988," he said.

Bullock said there may be a need to borrow more than \$1 billion in cash management notes to take up the slack in the state's cash flow depending on how the Legislature writes the budget.

"Budget savings the Legislature may enact simply won't have had time to produce results by early fall," he said, "and we'll have to do something to lessen the strain on cash flow."

Bullock said failure to solve the budget problems in the regular session would only compound the state's money problems in degrees.

The later the problem is solved, the worse it's going to be, he said.

"With the major changes in the definition of an independent student and the publicity surrounding the reauthorization of the Higher Education Act, many families may have gotten the idea that financial aid is not readily available," said Mike Novak, Director of Financial Aid at the University of Texas at Austin and Chairman of the TASFAA Public Relations Committee. "The fact is that there is financial aid available for the students who need it most. That is why TASFAA decided to sponsor the hotline this year," Novak continued. "We wanted to find a way to reach those families, answer their questions, and guide them through the application process."

## SAVINGS FOR CUSTOMERS

Plainview--When farmers look for ways to control input costs, they usually look at seed costs first. Purchasing seed during Pioneer Days lets farmers but seed costs and still get high-performing hybrids and varieties.

Farmers who buy Pioneer brand seed during Pioneer Days, February 23-28, receive a 6 percent early pay savings in addition to quantity savings of up to 10 percent. The more farmers buy, the more they save, says Clarence Kerns, Field Sales Manager for the Southwestern Sales Area of Pioneer.

on Saturday and Sunday, February 21 and 22, 1987, the toll-free number for students to call is 1-800-253-8989.

Professional financial aid administrators will be standing by to answer questions regarding aid eligibility, the types of financial assistance available, and to assist families with the completion of the financial aid forms.

## TOLL-FREE FINANCIAL AID HOTLINE PLANNED

Austin--Financial aid is available for needy students wishing to obtain post-secondary training and education.

To help spread the word and to assist students with the application process, the Texas Association of Student Financial Aid Administrators (TASFAA) is sponsoring a Financial Aid Hotline. Scheduled to operate between 10 a.m. and 6 p.m.

### TEACHING CHILDREN TO BE GOOD CONSUMERS

As every parent knows, children become consumers the minute they are old enough to point at something in a store and shriek "me want!" Yet we do not think much about it until children turn into teenagers who "do not know the value of a dollar."

Children can learn how to be good consumers, beginning at an early age, if parents are willing to teach them through experience, example and guidance.

Children need the experience of going on shopping trips. Letting them buy things provides opportunities to talk about products and the reasons for buying.

Experiencing failure, as well as success, is also important. For example, if the child buys a toy that breaks right away, it is a chance to learn about poorly made products or how a customer can get a store refund.

Parents provide a powerful example for children in all aspects of their lives--including consumer behavior. When children see their parents taking time to discuss finances and plan the use of their income, they are more likely to do the same with their allowances or money they earned.

Some families hold regular meetings to discuss the family's financial situation. While children do not have to know all the details, communication about family finances can help teach the difference between needs and wants and the idea of saving for financial goals.

Guiding a child's development may be the most difficult part of teaching consumer skills. It requires that parents supervise children's spending rather than direct and dictate their purchases.

Parents need to show consistency also, by not refusing requests one time, only to "give in" another. It means that parents can not use money as a reward or withhold it for punishment. Parents must be patient, since money management skills are not learned overnight.

And who knows, in the process of trying to teach our children consumer skills, we may learn a few things ourselves.

THE STATE OF TEXAS  
COUNTY OF BORDEN

WHEREAS by virtue of Writ of Execution issued out of the District Court of Borden County, Texas, on the 13th day of January 1987, in Cause No. 881, where Quality Truck Tires, Inc. was Plaintiff, and Bill Flint dba Flint Construction was Defendant, on a judgment rendered in said Court against Defendant and in favor of the said Plaintiff, for the sum of Seventeen Thousand Two Hundred Eighty five Dollars, with interest thereon at the rate of Nine (9) per cent per annum, from date of judgment, together with all costs of suit; I did on the 14th day of January, 1987, at 3:00 o'clock P. M., levy upon the following described lots, tracts and parcels of land situated in Borden County, Texas, as the property of Bill Flint dba Flint Construction to-wit:

Lot 1(one), Lot 2 (two), Lot 3 (three), Lot 4 (four), Lot 5 (five), Lot 6 (six), in Block 97 (ninety seven) Townsite of Gail, Texas Borden County.  
Lot 1 (one), Lot 2 (two), Lot 3 (three), Lot 4 (four), Lot 5 (five), Lot 6 (six), Lot 7 (seven), Lot 8 (eight), Lot 9 (nine), Lot 10 (ten), Block 98 (ninety eight), Townsite of Gail, Texas Borden County.  
Lot 11 (eleven), Lot 12 (twelve), Lot 17 (seventeen), Block 39 Townsite of Gail, Texas Borden County.  
Lot 7 (seven), Lot 8 (eight), Lot 9 (nine), Block 40 Townsite of Gail, Texas Borden County.  
Lot 10 (ten), Lot 11 (eleven), Lot 12 (twelve) Block 26 Townsite of Gail, Texas Borden County.

and on the 3rd day of March, 1987, being the first Tuesday of said month, between the hours of 10 o'clock A.M. and 4 o'clock P.M. on said day, at the courthouse door of said County, and I will offer for sale and sell at public auction, for cash to the highest bidder, all the right, title and interest of Bill Flint dba Flint Construction in and to said above described property.

Witness my hand this the 23rd day of January, 1987  
Norman Sneed Sheriff,

**1986 TAX APPRAISALS,  
NO GROWTH IN TAXABLE VALUES**

from pg. 1  
the taxable property value in each of the state's public school districts. The Texas Education Agency distributes state education aid to local districts based in part on the relative wealth of the districts as measured by these values.

SPTB combines the school district value study with another study designed to measure the level and uniformity of tax appraisals performed by appraisal districts. The "level of appraisal" shows how close the value of a typical property is to its market value. The "uniformity" measure shows how much variation exists in the appraisal levels of individual properties.

"Problems in the oil and gas industry were a major factor in the lack of growth in the school tax base," said Patterson. "According to our study, the taxable value of mineral reserves, including oil and natural gas, dropped by over \$22 billion--or 26 percent-- during 1985."

Patterson stressed that SPTB's preliminary estimate reflects the value of mineral reserves as of Jan. 1, 1986, before oil prices plummeted from \$28 to \$15 per barrel. "The taxable values of oil and gas are based on the present value of future income from the reserves in the ground," he explained. "At the end of 1985, investors in the oil market saw a trend toward lower prices and much greater uncertainty. This perceived risk was reflected in the prices paid for petroleum-producing properties and, along with the ongoing depletion of reserves, is the main factor in the drop in our taxable value estimate."

Uncertainties in the oil market helped slow down the Texas economy during 1985, according to Patterson, together with shrinking markets and falling prices for agricultural commodities and industrial output. One result of the slow economy was that real estate values, which make up the majority of the school tax base, showed little growth in 1985.

Local appraisals of taxable property generally improved during 1985, according to the preliminary study results. Appraisal districts valued a typical single-family residential property, for example, at 94 percent of its actual market value. The previous year, by comparison, these properties were valued on the tax rolls at a median level of 90 percent of market value. The study results also show less variation between appraisals of similar properties.

"In some cases, these

improvements represent a better job on the part of the appraisal district," said Patterson. "In other cases, they are the result of falling property values that helped to close the gap between market values and the values provided by the appraisal district."

Appraisals of oil and gas properties were an exception to the overall improvement in tax appraisals. SPTB's preliminary findings show that these properties were typically appraised at 110 percent of their market value. "These findings are probably another result of the added uncertainty that existed in the oil market at the end of 1985k" said Patterson.

The preliminary findings of the 1986 Property Value Study now undergo an appeals process. School and appraisal districts that disagree with the study's findings can seek adjustments from independent hearings panels.

The State Property Tax Board will adopt the final results in May.

**Little League  
Baseball Camp**

Little League Baseball takes pride in announcing the opening date for its fifteenth Annual Summer Camp Program on the beautiful and historic Baylor University Campus.

The first of three two-week sessions begins on June 21. Applicants will be accepted for all three sessions on a first-come basis until they are full.

Each camp offers a variety of activities including swimming, boating, and other recreation; but with special emphasis on baseball.

Additional information can be obtained by calling 817-756-1816, or by writing Little League Baseball, 1612 South University Parks Drive, Waco, Texas 76706.

**BEAT THE  
WINTER BLUES**

Are you a victim of SAD (Seasonal Affective Disorder)? Does winter make you depressed, socially withdrawn, craving excessive amounts of food and sleep? If so why not step out of your "winter blues" and into a new spring collection.

According to an article in the March 8, 1986 issue of Science News, symptoms of depression are linked to the shorter daylight and extended indoor periods of the fall and winter months. One way to combat this is to get more sunlight and spend more time outdoors.

"Not everyone has the advantage of living in a warm climate, but even a hour of working out in a spa or gym, doing aerobics, ballet or some form of exercise not only makes you feel better but can give you a more positive outlook," said Jaclyn Smith. "Schedule different activities that make you feel better about yourself. Such as, a new hair style, manicure and pedicure or a spring shopping spree," recommended Smith.

If your budget is still feeling the effects of Christmas, check out our new Jaclyn Smith Spring Collection for that spring shopping spree. This affordable, high quality merchandise is extremely versatile from sporty and casual looks to dressier items.

**Forfeited State Land To Go To  
Highest Bidder**

Austin--Texas Land Commissioner Garry Mauro today reminded Texans they have until February 25 to submit bids on acreage included in a special sale of 106 tracts of state land being offered to the general public through the Texas Veterans Land Board.

All tracts are open to bids from the public as well as from Texas Veterans. Bids may be placed on more than one tract and the Texas Veterans Land Board will finance the full amount of the winning bid, less a 5 percent down payment.

Located in 56 Texas counties, the tracts range in size from numerous 10-15 acre tracts in several counties to an 80 acre tract in Yoakum County.

The sale also includes tracts of 20 acres or more in Bosque, Brown, Cass, Comanche, Edwards, Culberson, Delta, Lamb, Lee, Hunt, Lubbock, McCulloch, Montgomery, Morris and Panola.

A public reading of the bids submitted to the Texas Veterans Land Board will be held on February 25, 1987 at 10 a.m. in Room 831 of the Stephen F. Austin Bldg, at 1700 N. Congress in Austin.

"I want to urge all Texans

that have been looking for good land and a good investment to take advantage of this unusual high-bid sale. Everybody has an equal shot at winning under this arrangement," said Mauro, who serves as chairman of the Texas Veterans Land Board.

The sale will be by sealed bid only with a minimum bid set by the Veterans Land Board. All bids must be received by the board before February 25, 1987 at 10 a.m. at which time the bidding will close. Any and all bids received after that time and date will be rejected. Bidders need not be present at the bid opening.

Texas Veterans submitting winning bids will pay an interest rate of 8.75 percent while winning bids from non-veterans will be financed at 11.47 percent. Both will carry a 30-year assumable fixed-rate loan. A \$25 non-refundable fee on each tract bid has been set by the board.

Details of the sale and a catalogue describing each tract and its location can be obtained by calling toll-free 1-800-252-VETS at the Texas Veterans Land Board Monday-Friday 7:30 a.m. - 6 p.m.

Texas' early architecture incorporated trees, whether for log cabins or, as this photo from West Texas shows, semidugout houses. (Photo from the Erwin E. Smith Collection, Library of Congress)

Today, gleaming skyscrapers line the horizon in many Texas cities. Some feel the "glass boxes" may be dramatic, but their style doesn't fit Texas' needs or style. (Photo by Brian A Wilson - University of Houston)

## FROM CABINS TO SKYSCRAPERS: The History of Architecture in Texas

The history of architecture in the land that is now Texas spans the range from primitive lean-to's to colonial mansions, from hand-hewn log cabins to soaring, glass and steel skyscrapers.

But throughout the decades, the constant in Texas construction has been that whatever man built and wherever he built it, the structure was designed and built to meet a very specific need.

"In the days when Texas was occupied by native Indians and claimed by the Spanish, architecture took its most basic form: shelter from the elements. Lean-to's constructed from tree branches and shrubbery gave the Indians a rudimentary roof over their heads," Nia Dorian-Becnel says. She is an assistant professor in the University of Houston's College of Architecture.

Centuries later, the sophistication of the construction improved but the basic reliance on natural elements remained. Log cabins became a staple of the Texas range land. As settlers cleared the land, they shaped the felled trees into homes. Using little more than an ax to

cut the tree and an axe to shape it, the pioneers raised the familiar four-sided cabins. The structures rarely contained nails; precise woodworking interlocked the logs sufficiently to support the structure.

The simplest cabins had only dirt floors. Eventually more trees were turned into planks and flooring laid. Only rarely did the cabin feature a glass-pane window.

In other areas of the state, builders incorporated native limestone and/or adobe into their structures. Many endure today in the form of missions and aging but still-used churches.

With the advent of saw mills and improved tools, housing features became more refined. The designs became somewhat more complex, as illustrated by the "dog run" houses. These were basically two room connected by one roof with a breezeway passage between them.

Europeans brought many Old World notions about architecture with them to Texas. In the mid- to late-1800s, Roman, Gothic, Greek and Romantic Classicism styles could be

seen in houses and public buildings. Architects seemed to borrow freely from such styles, even if their manifestations did not always follow the forms with precision in scale or detail. No matter the style, the construction of towns usually took place at river crossings, on fertile lands and in resource-rich pine forests.

Architecture in Texas turned a corner in 1845. With statehood came a wave of construction and intensive designing, some of it funded by \$10 million the U.S. government paid Texas over lands the two had disputed. Since the state constitution established public schools, colleges sprang up rather quickly. The first in 1840 was Rutgersville, the self-proclaimed "Athens of the South", located near Georgetown. This institution was followed by Baylor, Texas A&M and The University of Texas at Austin.

"The original main building at UT was the first really elaborate institutional building built with state funds in Texas," Becnel says. "It was a beautiful Victorian Gothic building, built in 1883 and torn down in 1934."

Construction was not limited to public facilities. Companies began erecting places of business at a furious pace and speculative towns popped up like mushrooms. Most of them followed the "town square" format, which was present in Texas from at least 1841. As the businesses along the squares (and elsewhere) prospered, their owners built elaborate houses for themselves.

The construction boom was particularly evident in the proliferation of county courthouses, federal buildings and churches. Many of the churches were built to serve the ethnic constituents within the Catholic Church, although most religious groups were part of the boom.

This boom was to last into the 1920s.

From the 1930s and through the 50s, the population began to grow as people came to the cities to work in industry. Construction slowed somewhat during World War II, but not for long.

The international movement hit the east coast in the 1930s, spurred by an exhibit brought by architects Philip Johnson and Russell Hitchcock. By 1950 and through the 70s, the Modern movement worked its way into the state. This started the construction of the "glass boxes" which are so prevalent today. "Meanwhile the facades of old, delicate buildings were covered up with metal to make them look modern,"

Becnel notes.

In the 70s, the gleam on the glass boxes in Texas began to fade. "They don't suit our climate and people here began to dislike 'generic' architecture which can be seen in many other states," Becnel says. "Texans have begun to turn homeward; they're uncovering the past and incorporating that into the present."

"We're seeing a return to

regionalism, of trying to fit the architecture to the uniqueness of the state," Becnel continues. "Texans have always prided themselves on being different, and that's the trend: vernacular, regional architecture is in, the glass box is out. No longer do we have to compete with the cities of the North; it's clear Texas has something significant to offer the architectural community of the U.S."

## South Plains Consumers besieged by Vacation Certificate Offers

South Plains consumers are receiving offers of vacation certificates in record numbers. A vacation certificate consists of an offer of a vacation at a discounted rate. These offers come through the mail, over the telephone and are offered as gifts and prizes by local merchants. Although the offer appear attractive, a closer look would indicate that the majority are not what they would appear to be. The vacation offers usually contain one or more of the following "catches".

1. Transportation is not included.
2. The package is for two

people but transportation is for only one person. The other airline ticket most likely will be exceptionally expensive.

3. Vacations are subject to availability of space.
4. Hidden processing fees will be required.
5. A requirement to make a purchase or listen to a sales pitch. Before accepting such a vacation certificate offer, contact your travel agent or the Better Business Bureau. For further information call the BBB for their free pamphlet, "Have You Won a Vacation?". 1-800-692-4466.

## PRO<sup>SM</sup> TEXAS A NEW OPTIONAL CALLING PLAN FROM AT&T

On November 13, 1986 AT&T Communications of The Southwest, Inc. ("AT&T") filed with the Public Utility Commission (PUC) of Texas to introduce a new intrastate, optional calling plan, PRO Texas. A comparable interstate plan, known as PRO<sup>SM</sup> America, is currently available to Texas customers.

**PRO Texas gives Texas consumers an opportunity to save money on direct dialed in-state long distance calls.** Customers who choose this new AT&T plan will receive a 10% discount on all AT&T intrastate direct dialed station calls by paying a monthly charge of \$15.00.

**The PRO Texas discount applies to calls placed during all rate periods and all days.** The discount is in addition to the AT&T intrastate evening discount of 25% and the night/weekend discount of 40%. A one time charge of \$6.00 will be billed to initiate the service. However, this charge will be waived during the first 90 days that the offering is available.

PRO Texas will be available to all Message Telephone Service customers in Texas. AT&T estimates that it will generate revenues in the first year of almost \$8 million, which is .7% of AT&T's annual revenues for all Texas intrastate service.

The PUC has assigned Docket No. 7194 to this proposed service offering. The proposed effective date for PRO Texas is March 16, 1987. Persons who wish to intervene or otherwise participate in these proceedings should notify the PUC as soon as possible. A request to intervene, participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0228 for the deaf.
