MRS. JOHNNYE N. SMITH

MR. JOHN HARRIS

MRS. SUSAN SMITH

NEW TEACHERS WELCOMED TO BHS

The Borden County School began classes September 1. The staff and administration welcomes the following teachers:

Johnnye N. Smith

Mrs. Smith graduated from Texas Tech with a Bachelor's Degree in Speech and a Master's Degree in Special Education. She attended Frenship High School at Wolfforth.

She taught at St. Christopher's Episcopal School in Lubbock for 12 years. She taught Special Education for 2 years and was Special Education Supervisor for Lubbock I.S.D. for 8 years. She was Diagnostician/Supervisor for HONDA Special Education Co-Op for 3 years in Abernathy.

She lived in the New Deal community until 5th grade. She then moved to Wolfforth and lived there until she graduated from high school. Mrs. Smith worked in

Washington, D.C. for two years and in San Francisco, California for one year after marriage.

She is married to Don Smith and they have one son and two daughters. She is a member of St. Paul's Episcopal Church, Lubbock where she served on the Altar Guild and substitute in the pre-school Sunday School.

Joan Gray

Miss Gray is a recent

MS. JOAN GRAY

graduate of Texas Tech and is a Home Economic Education major. She attended Channing High School in Channing, Tx.

In high school, she was the Outstanding Female Student, Outstanding Home Economics Student, UIL One Act Play and Debate contestant. While at Tech, she was named to the Dean's List and President's List, elected State President of Vocation Home Economics Teachers Association of Texas, Student Section. She was hostess of the State VNETATSS Convention held in Lubbock.

Miss Gray did her student teaching at Smyer High School. She worked at Citizen's State Bank, First Church of The Nazarene, and Texas Tech University.

She enjoys sewing, reading, counted-cross stitch, making cloth covered photo albums.

Joan was raised in con't to 3

FIELD DAY PLANNED AT TAES RESEARCH FACILITY

Research which can help Borden County farmers reduce fertilizer costs and make more effective use through application methods, as well as the latest scientific information on crop production and the control of weeds will be featured during the 78th annual field day of the Texas Agricultural Experiment Station at Lubbock Halfway on Sept. 8.

The TAES/High Plains Research Facility at Halfway, 14 miles west of Plainview on U.S. Hwy. 70, is host this year. The annual program alternates between the Lubbock center and its Halfway site, he explained. Tours will begin at 1 p.m. and conclude at 5 p.m.

Five major displays are planned on the motorized tours of the research plots and facilities. Doug Nesmith, research associate in soil fertility and field day chairman, said these will feature reports and demonstrations on types of cotton developed for new farming systems, effects of climate and soil types on grapes, effects of conservation tillage cropping systems on crop yields and weed control, adaptation of chemigation to center pivots, and the amounts and methods of fertilizer application for maximum benefits.

The Texas Forest Service will present red oak trees to 250 landowners who take the fields tours.

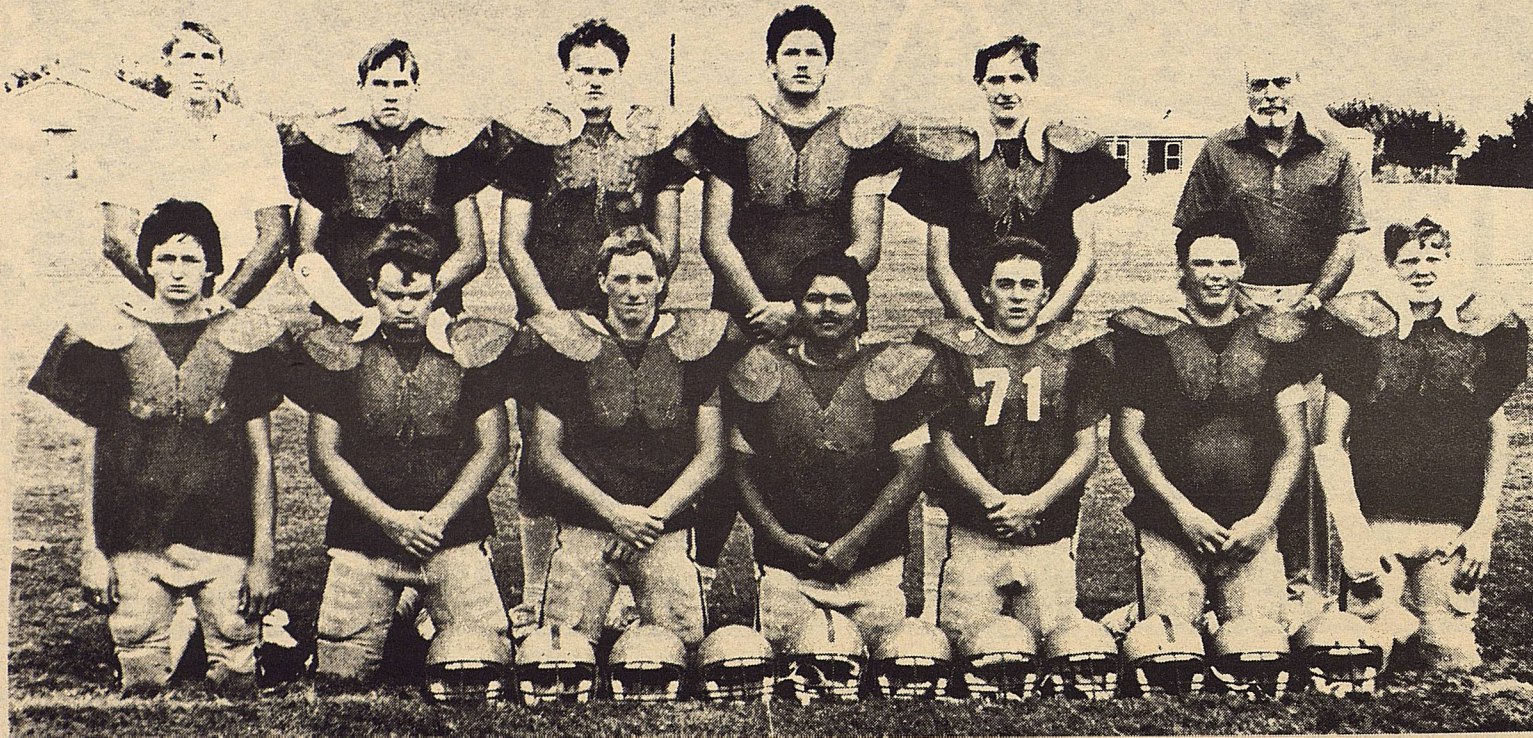

Other features of the field day include displays of equipment, farm supplies and information booths.

The field day is a cooperative presentation of TAES, the Texas Agricultural Extension Service, the High Plains Research Foundation, Texas Forest Service and the U.S. Department of Agriculture-Agricultural Research Service.

ANNUAL TEACHER'S APPRECIATION DINNER

September 18th at 6 P. M. at 6:00 P.M. SCHOOL CAFETERIA

Sponsored by the Parents Club

BORDEN COUNTY COYOTES—Size and a winning attitude should help make the Borden County Coyotes a contender on the area six-man football scene. Pictured on the front row (left to right) are Paul Sturdivant, Harold Barnes, Patrick Herridge, Ray Martinez, Shane Kemper, James Smith and Cole Vestal. Pictured on the back

row (left to right) are head football coach Joe Bond, Shannon Bond, Kerry Fryar, Robert Buchanan, Will Phinizy and assistant coach Duke Frisbie. Not pictured are Brian Bond, Eric Lusk and Jimmy Rios. LAMESA PRESS-REPORTER (Staff Photo)

REGROUPED- COYOTES READY TO GO

BY DWIGHT HEINS

Size and a winning attitude should have the Borden County Coyotes howling again on the area six-man football scene.

Borden County, however, might have to do some rebuilding. The Coyotes bring back just four returning lettermen from a 6-3 ball club that barely missed the play-offs last season.

But Joe Bond, heading into his second season as head football coach at Gail, believes the potential is there to have another exciting year.

"We have a good work attitude around here. We want to win some football games," said Bond. "We might have to do some rebuilding but we are still pretty optimistic."

A familiar face at a new position is the big story for Coyote football fans heading into the '87 season. Shannon Bond, a second team all-loop pick at quarterback last season, has been moved to tailback. Bond is 6'0", 165-pound senior.

"We wanted to get Shannon more involved in our offense. He's pretty excited about moving to tailback," said Bond.

Shannon's younger brother, Brian, a 5'9", 132-pound sophomore, has the edge over Will Phinizy as the Coyotes' starting quarterback. Phinizy, a 6'1", 153 pound senior, could see playing time at end. "Will is a hard worker. He always gives 100 percent. He'll be out there somewhere."

Patrick "Fuzz" Herridge, a 5'9", 155-pound sophomore, is the top candidate at starting fullback.

"Fuzz has been looking pretty good in workouts. He's a pretty tough runner," said Bond. "He might improve as the season progresses. He's still young but he's learning."

Size is the Coyotes' number one commodity on their offensive line. All three starters weigh 185 pounds or better.

James Smith, a 5'10", 185-pound sophomore, will handle the snapping duties at center.

con't to 3

Borden Co. Coyotes ready to howl

The Borden County Coyotes traveled to Hermleigh Friday night to scrimmage the Cardinals. The Cardinals tested the Coyote's offense. The Coyotes outscored the Cardinals 3 to 1 in touchdowns, but the quicker Cardinal defense tested the blocking skills of the Coyotes.

The Coyotes was on offense first and scored on a 60 yard run by Shannon Bond. The Coyotes totaled 110 yards in their first 15 plays.

When the Cardinals took over on offense, the Coyote defense looked much better. Six out of thirteen running plays resulted in no gain or minus yardage. Along with two incomplete passes, the defense held the Cardinals to only 22 yards.

After a short rest period, the Coyotes went on offense again. This time the results were better. Except for two fumbles, one of which was lost, the Coyotes averaged over 10 yards per carry. Patrick Herridge scored again on a 5 yard run behind a more determined offensive line. The Coyotes totaled 156 yards on 14 plays.

When the Cardinals put their offense back in motion, they too had a little more success. The Coyote's second defensive unit limited the Cardinals to one touch

down.

After another rest period, the Coyotes ran another 10 plays. Shannon Bond scored again on another 60 yard run.

By this time the Cardinals were very tired since they only had 9 players suited out to play. Five of their last 10 plays resulted in minus yardage.

The Coyotes passing attack was 1-6. The running attack was led by tailback Shannon Bond. Patrick Herridge also blocked well and ground out some very tough yardage at fullback. Will Phinizy ran the offense as quarterback and is improving daily. James Smith was forced into both the first and second offensive units and nose guard on the second defensive unit. James is also improving. Kerry Fryar and Robert Buchanan completed the offensive unit as ends. Robert caught one pass for 7 yards. Robert and Kerry had a hard time on the first possession, but had better results

as the scrimmage progressed.

Jimmy Rios led the second unit in rushing. Shane Kemper looked better as a fullback with better blocking and some tough inside runs. Cole Vestal and Paul Sturdivant improved their efforts at the end positions. Eric Lusk led the offense as quarterback.

Brian Bond set out this scrimmage with bruised ribs and Randell Hollis is recovering from surgery.

The Coyotes will open their season here next Friday at 7:30. The Coyotes will host New Life Christian Academy of Lubbock.

WELCOMES TEACHERS

con't from 1

Channing, Texas to Vinnie and Virginia Gray. Her brother has a wife and two children. She is a member of First Baptist Church.

John Harris

Mr. Harris received his Bachelor's Degree from West Texas State University and his Master's Degree from Sul Ross State University. in Music Education.

He attended Dalhart High School where he was pianist for the high school choir. He was also assistant drum major for the band and belonged to F.T.A. He has 22 years of teaching experience. He loves to swim and teach piano, organ and accordion.

Mr. Harris was born in Oklahoma City. He moved to Dalhart, Texas when he was in the 10th grade.

He is married and has three children—Julie 15, John Paul 12, and Jade 3 1/2.

Susan Smith

Mrs. Smith is a graduate of McMurry College with a major in Elementary Education. She attended Abilene High School where she was a member of the National Honor Society and faculty editor for the annual. While in college, she was a member of the Student Education Association.

Susan has 4 years Special Education experience received in Abilene. She worked as Secretary at First Presbyterian Church of Snyder. She loves to read, play bridge, play tennis and cross stitch.

She was raised in Anson Texas for nine years. At age 9, she moved to Abilene where she lived until June of 1985. Her husband, Steve, is pastor of the First Presbyterian

Church of Snyder. They have three children, Jennifer, 13; John, 9; and Andy, age 6.

We are lucky to have this addition to the staff at Borden County Schools. Susan Smith will be teaching Special Education, Johnnie Smith is Special Education Director, John Harris is band teacher and director, and Joan Gray is Homemaking teacher.

COYOTES

con't from 1

"James is another hard worker," said Bond, adding, "we feel he'll do a pretty good job for us."

Filling the end slots are 6'0", 185-pound senior Kerry Fryar and 6'3", 222-pound senior Robert Buchanan.

"Kerry Fryar has good hands. He will see lots of playing time for us this season," said Bond. "Robert Buchanan has pretty good size. He has good hands and should develop into a pretty good blocker for us."

It's no big surprise, with all that size, to hear the Borden County field boss report the Coyotes plan on keeping the pigskin on the ground a lot this fall.

"We'll run an unbalanced line. We'll primarily run the football," said Bond. "We have some pretty big kids out for football this season. We're hoping to take advantage of that size."

The Coyotes' defensive unit features the return of second team all-district linebacker Shannon Bond and honorable mention all-district linemen Ray Martinez, a 5'4", 175 pound senior, and Harold Barnes, a 5'9", 190-pound senior.

The Borden County head football coach likes his Coyotes' chances at making the play-offs.

"We are shooting for the runner-up spot in our district. Our inexperienced kids will have to come on for us and pick up the slack," said Bond. "We are pretty optimistic around here. We scrimmaged Loop the other night. Loop's picked to finish second or third in our district. We did a good job against them. We were pretty happy with the results."

The Coyotes were sharp in

their first tune-up, outscoring the Longhorns two touchdowns to one.

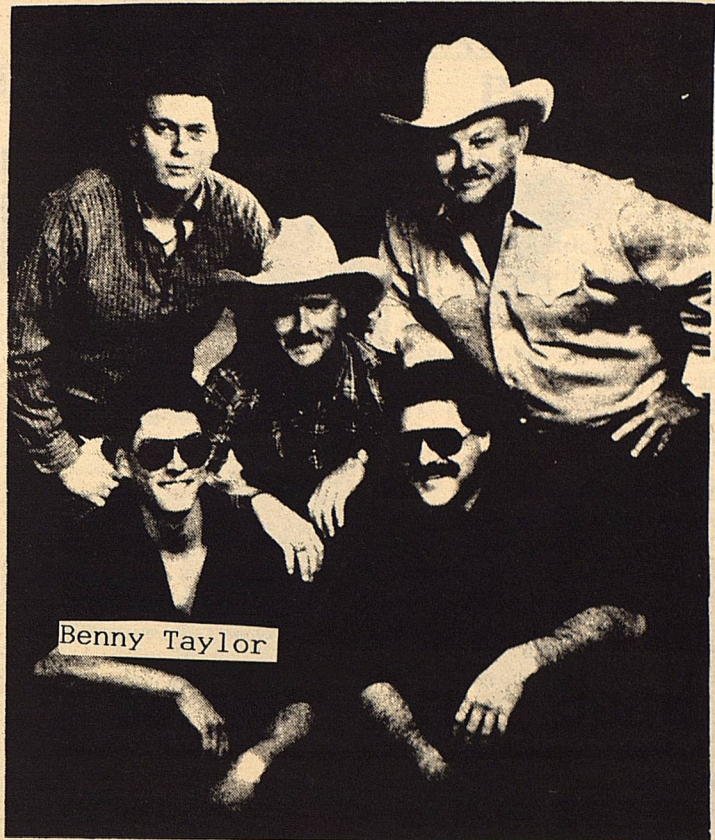

Looking ahead to the six-man football's District 4 West Zone, Bond agrees with the pre-season polls.

"Sands should be picked number one. Sands has some good football players back," said Bond. "It might be a toss-up between Wellman and Loop for the second spot. We're hoping to fit in somewhere between them."

LOCAL TALENT

By now just about everyone is familiar with "THE SULPHUR DRAW" and, which is rapidly becoming the most sought after group in this area. They were on the program to perform with a host of bands, this past week-end, with "The West Texas Opry" in Lubbock, one of the most famous country shows. A conflict of bookings forced them to cancel; instead they were the lead in group for noted entertainer Jerry Jeff Walker. "THE SULPHUR DRAW BAND", along with Jerry Jeff Walker performed at The Plaza Shopping Center Concert Hall" in Ruidoso, N.M. this past week-end.

Benny Taylor, of Gail,

Sulphur Draw Band

COMPOSER & SONG WRITER

plays rhythm guitar & does vocal, as well. Benny writes his own lyrics & composes the music for his songs. He farms in Borden County. He is a 1978 graduate of Borden High School. He is the son of Buster

and Jean Taylor of Gail. Other members of the band include Joe Cope, lead guitar, Shawn Burns, percussion, Jim Weeks, base & Dennis Borland, featured vocalist, all from the Lamesa area.

HAPPY 40TH

SHANA BRADSHAW AND CHARLES LARUE

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Floyd Tipps of Lubbock, Texas and Mr. and Mrs. Alvin Bradshaw wish to announce the engagement of their daughter, Shana Bradshaw to Charles LaRue, son of Mr. and Mrs. Isaac LaRue of Vincent Texas.

The wedding date is set for October 3rd. in the First Baptist Church Chapel in Big Spring, Texas.

JANA LEA TERRY AND RAY DON UNDERWOOD

ENGAGEMENT ANNOUNCED

ENGAGEMENT ANNOUNCED: Mr. and Mrs. Mack Terry of Post announce the engagement of their daughter Jana Lea to Ray Don Underwood, son of Mr. and Mrs. R. C. "Babe" Underwood of Fluvanna.

The couple plan a September 26, 1987 wedding at the Cowboy Church on Miller Ranch.

Jana is a 1982 graduate of Post High School, a graduate of West Texas College, and is employed by A.S.C.S. of Gail.

Ray Don is a 1979 graduate of Gail High School and is employed by the Texas State Highway Department of Gail.

LET ME GET MY HAT by Dennis Poole

4-H'ERS PREPARING FOR STOCK SHOW

Barrow & Lamb Projects

It is now time to really get these animal projects on your mind. If you are interested in feeding a lamb project for county or major show competition we must get them on feed by November.

Barrow projects must be on feed by Dec. 1 and we'll most likely begin selection of these projects around the 1st. week of Oct.

If you would like assistance in selecting or locating projects let me know now - so I can be looking in advance. I will be glad to assist you if you would like.

Steers

Borden County 4-H'ers and FFA members have 51 beef projects on feed for 1987-88 and all are progressing quite well.

September is upon us and now is the time to begin working hair, practicing showing and getting your steers to lead and respond as good as possible.

Upcoming shows in the near future include; Odessa Prospect - Sept. 18-20, 1987; Howard County Prospect - Sept. 25-27, 1987; South Plains Fair - Oct. 1-3, 1987.

Entry deadline for the South Plains Fair is September 1, 1987.

FABRIC SALE

Don't forget the 4-H Fabric Sale to be held September 15, 1987 at the 4-H Exhibit Building!

Ollie Holmes has donated a child's sweat-shirt machine embroidered with "Odie" the cartoon character to be given as a door prize. This shirt will be drawn for at the end of the fabric sale--so be

sure and come by and put your name in the hat and view the Truckload Fabric Sale on Tuesday, September 15.

4-H parents and friends are still needed to assist during the day with the fabric sale. Please call 915-856-4336 and let Mrs. Smith or Dennis know what hours you can work.

4-H COUNCIL MEETING

An Adult Leaders Meeting will be held Friday night, September 4, immediately following the football game at the Borden County 4-H Exhibit Building. Items to be discussed include activities after foot-

ball games, treasurer's report, 4-H banquet, Halloween Carnival, and election of officers.

Your attendance and participation would be appreciated. All parents and supporters of 4-H are invited to attend.

4-H ADULT LEADERS MEETING

Borden County- 4-H Council will meet at the county courthouse at 6:00 p.m. on Monday, September 14, 1987.

Each council representative should bring names of nominees from their clubs for Friend of 4-H and Outstanding Leader Award. Also to be discussed will be banquet decorations, food and program.

Borden Co. Jr. Livestock Meeting RULES MAY BE CHANGED

The Borden County Jr. Livestock Association will hold its annual membership meeting on September 14, 1987, at 7:30 p.m. in the Ag. Building at Borden Co. I.S.D. Please try to attend.

One of the items to be discussed will be rule changes for the livestock show. These rules were passed by the directors and officers during the pass year. These changes will be reviewed by the general membership and if passed they will become part of permanent rules. The major rule changes are as follows:

-All students showing animals must be in good scholastic standing at Borden County I.S.D.

-In the calf show, there will be three (3) breed classes. They are: British, American-Cross, and European-Cross. The class sizes in the calf show will be divided by number of entries as follows: 1-7 head = 1 class, 8-14 head = 2 classes, and 15 or more will be divided into 3 classes.

-The lamb show changes are as follows: Lambs will be validated at the Borden County Stock Show. This validation must be completed by November 1, 1987. This validation rule is

on a one-year trial basis.

-The judges for the 1988 show will be published next week.

PLEASE DO NOT FORGET THE MEETING ON SEPTEMBER 14.

PUBLIC NOTICE

On July 29, 1987, EDC One Inc., and Texas Utilities Electric Company (TU Electric) filed a joint application with the Public Utility Commission of Texas (the Commission) for certification of a cogeneration agreement entered into by EDC One Inc. and TU Electric on June 22, 1987, which provides for the purchase by TU Electric of approximately 255 MW of capacity and associated energy from a cogeneration facility to be constructed by EDC One Inc. at a United States Gypsum Company manufacturing facility located in Sweetwater, Nolan County, Texas. The joint application was filed pursuant to Section 41A of the Public Utility Regulatory Act, Tex. Rev. Civ. Stat. Ann. art. 1446c and seeks determinations by the Commission that (1) the payments provided for in the cogeneration agreement are equal to or less than TU Electric's avoided costs as established by the Commission and in effect at the time the cogeneration agreement was signed; and (2) the cogeneration agreement provides TU Electric the opportunity to acquire the cogeneration installation before the installation is offered to another purchaser in the event of its abandonment, or provides other sufficient assurances that TU Electric will be provided with a comparable supply of electricity, if EDC One Inc. ceases to operate the installation. The joint application has been docketed by the Commission as Docket No. 7623. A copy of the joint application is on file at the Commission.

Persons who wish to intervene in the proceeding or comment upon action sought, should contact the Public Utility Commission of Texas, at 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or call the Public Utility Commission Consumer Affairs Division at (512) 458-0223, or (512) 458-0227, or (512) 458-0221 for teletypewriter for the deaf within 15 days of this notice, provided that any motion to intervene must be filed on or before September 18, 1987.

By Dennis Poole

CONTROLLING PESTS

Prairie Dog Control

For the next 4 months USDA Wildlife Damage Control will be taking orders for zinc phosphide oats for the control of prairie dogs. Zinc phosphide oats is a restricted use pesticide and may not be used after January 31. Also available is Phostoxin. This chemical comes in the form of tablets which must be placed in the prairie dog hole and covered up.

The cost for zinc phosphide oats is \$29.25 per 50 lb. sack. One teaspoon of oats should treat each hole and a 50 lb. sack will treat about 50 acres roughly. Phostoxin tablets cost is \$39.70 for 500 tablets or \$9.70 for 100.

If you are interested in or have need for this material please call in and if we have enough producers interested we will try and get a wildlife control specialist down for a training meeting and get your material ordered. Call 915/856-4336 if you are interested.

Aphids

Aphids and lice continue to be present in most of Borden County cotton fields. The heaviest numbers I've found in scouting has been in the Northern and Western parts of most fields.

Some spraying has already taken place on top in the Plains community for control of these insects.

If aphids show no sign of decreasing and beneficials do not appear to be reducing aphid numbers and you average twenty-five aphids per leaf a consideration to treating is possible. Two products that may be used for aphid control are Bidrin (2 oz. per acre) or Dimethoate (6oz. per acre). Pyrethroids don't appear to be providing adequate control.

Bollworm

Cotton which is still actively squaring and lush in the top will be most attractive to moths for egg laying.

In cotton which is cutting out moths will have a tendency to lay eggs lower on the plant. These eggs are much more difficult to find. Places to look for eggs are on lower large leaves, stems, bracts and outside of bolls. You should check for exposed and unexposed worms. As you go across the field, pop the pink or dried blooms off and look underneath for worms. Split fresh pink blooms down the middle and look inside for worms. Remember, worms can damage bolls until you have great difficulty getting a knife through it.

Boll Weevils

Continue to check for boll weevil egg and feeding punctures in your field. If your plants have few squares you should pick small bolls. If 15% of the bolls you pick have boll weevil punctures you should consider this your economic treatment threshold. Bolls should be protected until they are 12 to 15 days old. So, a boll that was a white bloom on September 1 should be protected until the middle of September.

AJRA rodeo slated

Western Texas College Rodeo Club will sponsor the first AJRA Rodeo of the 1987-88 season here next Friday, Saturday and Sunday, Sept. 4-6.

The rodeo, which will be held at the Scurry County Rodeo Association Arena on Gary Brewer Road, is a qualifying rodeo for the 1988 AJRA National Finals, to be held again in Snyder next August.

Performances of the rodeo are 7:30 p.m. Friday and Saturday and 2 p.m. Sunday. Admission is \$3 for adults and \$2 for students. Children under age six will be admitted free.

Sammy Smith of Mullins will be furnishing the rodeo stock.

According to Bob Doty, Western Texas College rodeo coach, this will be a chance not only to see over 250 regular AJRA members perform, but also some new recruits for the WTC rodeo team.

Doty also noted the return of a rodeo to the SCRA arena after an absence of seven years. The last rodeo held at the arena, other than the WTC intramural, was the WTC college rodeo in 1980. The SCRA and WTC have worked to fix up the arena.

Joyce Kincheloe, rodeo secretary, said the rodeo will include a special age group of 8-and-under in addition to the 12-and-under, 13-to-15 and 16-to-19 divisions. Events for 8-and-under are barrel racing, pole bending and flag race. Regular events include barrels, poles, breakaway roping, ribbon roping, calf roping, steer wrestling, goat tying, team roping, and bull, bareback and saddle bronc riding.

Proceeds from the rodeo will go to WTC rodeo scholarships.

TERIYAKI BREEF STIR-FRY

Preparation, 15 minutes
Cooking time: 10 minutes

Cut 1 lb. top round steak in thin strips. Marinate in 3 Tbs. teriyaki sauce, 1 Tbs. oil and 2 tsp. corn starch 30 min. Stir-fry 2 bell peppers (3/4" cube) and 6 green onions (2" pieces) in 1 Tbs. oil 3 min.; remove. Stir-fry beef (1/2 at a time) 2-3 min. Return all ingredients. Cook until hot. 4 servings. Calories: 247 per serving.

ACP SIGNUP

There are ACP funds available now, those interested should contact us NOW!

ACR MAINTENANCE

Maintenance of your 1987 ACR acreage is still of the utmost importance. Maintenance of these acreages runs through December 31, 1987. Failure to properly maintain your ACR is a failure to fully comply and would make the farm ineligible for all program benefits, plus the penalty of liquidated damages.

Your ACR acreage MUST have a cover crop planted on the area or you MUST have applied for minimum tillage and received that approval.

Those producers that certified that they would sow the area to small grain in the fall, must follow through. Those farms will be checked for small grain covers in the fall.

Remember, we are not in the grazing period for ACR acreage until Sept. 1. YOU MUST STILL apply and get approval for haying your ACR acreage. Should you receive approval for haying, that hay CANNOT BE SOLD. You may feed it to our own livestock or give it to someone to feed to their livestock, but DO NOT SELL IT!!!!

Your ACR acreage must also be kept free of weeds, and measures taken to prevent wind and water erosion.

SPECIAL HAYING & GRAZING

Producers are reminded that you MUST make a request to hay or graze your ACR acreage. You also need to remember that the hay from your ACR acreage cannot be sold. You can feed it to your livestock or you can give it to a neighbor to feed to his livestock, but you cannot sell it.

MEASUREMENT SERVICE

We would like to remind you that if you receive a notice that your measurement service has been completed, you MUST make any required adjustments and certify within 5 DAYS from the date of your notice. If you fail to certify within this time frame, you will be considered out-of-compliance and ineligible for program benefits.

1988 PROGRAM PROVISION

WHEAT: Producers who participate in the 1988 wheat program can plant no more than 72.5% of their base acreage for harvest. The target price is \$4.20 per bushel and the loan rate is \$2.17 per bushel.

OTHER PROVISIONS that are common to all crops include:

1. Limited cross compliance will be in effect
2. Offsetting compliance will not apply.
3. Haying of ACR will not be permitted.
4. Bases will be computed using the P & CP for crop years 1983-1987.
5. The 1988 yields will be the same as the 1987 yields, however, there will not be an additional yield for 1988.

CRP-5th SIGNUP

Those producers that bid \$40.00 or under during the 5th CRP signup have been accepted. Those who have bids that were accepted, need to contact the SCS to get your conservation plan set up as soon as possible.

HOLIDAY

Midland County ASCS Office will be closed on September 7, 1987 in observance of Labor Day.

For Women

Latest Looks In Loungewear

Eye-opening looks in lounge-wear and lingerie can help you enjoy those golden days of fall, fashion forecasters agree.

New leisurewear for fall runs the gamut from stunning black lingerie with gold lace to pajama/loungewear sets all a'glitter and a'sparkle. Today's lifestyle dictates a change in dress at home, says Dallas-based Cameo Couture's chairman of the board, Stan Fredrick: "After work, women want to relax, enjoy some leisure hours at home in comfortable, yet luxurious outfits."

Another trend affecting women this year: More women will pursue careers in the direct selling industry, experts predict. This is attributable, say experts at Dallas-based Cameo Couture, to the need for extra income in many families. Direct selling can be the perfect way to supplement your income, as you can work either part-time or full-time.

GET GARDEN PESTICIDES

OUT OF CLOTHING

College Station--When you're dusting the roses or spraying the trees, it's easy to get pesticides on your body as well as the plants. Taking a shower removes the pesticides from you---but what about your clothes?

"Spills and spray from garden pesticides contaminate clothing, so it must be specially treated to avoid potential health hazards.

It's best to change clothes in the garage, if possible, and put contaminated clothes aside before going inside to shower.

Don't put the clothes in the hamper to wash with the family laundry. Research shows that pesticide residues are transferred from contaminated clothing to other clothing, especially when laundered together.

Pre-washing will help remove pesticide particles from the fabric. You can pre-wash clothes outdoors by hosing them down or soaking them in a bucket, or bring them inside to machine wash on the pre-wash cycle.

We emphasize that pre-washing is highly recommended when a wettable powder-type pesticide concentrate spills on clothing, because it clings to clothing fibers.

Pesticide residues from less toxic or dilute pesticides can usually be washed out in one machine washing. However, use both pre-washing and several machine washings on spills from wettable powder or concentrated liquid pesticides.

How you machine wash the clothes is important too. Washing them in hot water will remove more pesticide than washing in warm or cold temperatures. Cold temperatures is particular, are relatively ineffective in removing pesticides from fibers.

Use either a liquid or powder heavy-duty detergent containing phosphate carbonate to wash clothes. Laundry additives such as bleach can be added, but don't help remove the pesticide residues.

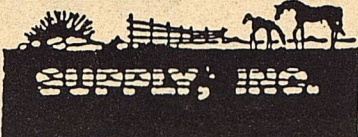

We also advise using a full water level on your machine, even if you have only one or two contaminated garments. That will allow the water to thoroughly flush the fabric.

The heat from either line-drying or machine-drying will provide further chemical breakdown of pesticide residues.

After you've washed the clothes, a pesticide carry-over to other laundry loads is possible. Rinse the washing machine with an empty load using hot water and detergent, just as you did the contaminated clothes.

Exposure to garden pesticides can cause skin rashes, headaches, nausea and a number of other problems. It just makes good sense to adequately wash gardening clothes so these hazards are minimized.

AT&T ANNOUNCES UPCOMING PRICE CHANGES FOR SOME TEXAS INTRASTATE SERVICES

AT&T announces the following price changes for some of its Texas intrastate services. These changes, which more closely reflect the actual costs incurred by AT&T in providing these services, will become effective on October 1, 1987.

- SDN (Software Defined Network) Schedule B prices will be reduced an overall 7.1%. Schedule C prices will be reduced 4.4% for the initial 30-second rate period of each call.

- WATS 80 service prices for both the initial period 80-hour usage and additional period usage will increase 5%.

- The monthly prices for AT&T's Private Line Service will increase up to \$25 per channel termination for Analog services and 10% for Digital Data Services.

- A \$25 monthly surcharge will also apply to any private lines which may be used to access the local exchange network, unless certified as exempt by the customer. The \$25 surcharge, which was previously authorized by the Public Utility Commission of Texas, is a flow through of charges assessed by the Local Exchange Companies to AT&T for those Private Line services.

The combined effect of these price changes is expected to produce approximately \$4.99 million annual revenue, which is approximately .5% of AT&T's annual revenues for all Texas intrastate services.

If you have questions regarding the changes for Private Line service, please call AT&T toll-free at 1-800-345-5092. If you have questions regarding the WATS or SDN price changes, please call our business consultants toll-free at 1-800-222-0400. AT&T's tariffs reflecting these changes will be filed with the Public Utility Commission of Texas on August 31, 1987, with an effective date of October 1, 1987.

Persons who have questions regarding this tariff filing may also contact the Public Utility Commission of Texas in writing, at 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757, or by calling the Consumer Affairs Division at (512) 458-0223, or (512) 458-0227, or (512) 458-0221 for teletypewriter for the deaf.

Scripture Corner

Suffering for Being A Christian

"Dear Friends, do not be surprised at the painful trial you are suffering, as though something strange were happening to you. But rejoice that you participate in the sufferings of Christ, so that you may be overjoyed when his glory is revealed. If you are insulted because of the name of Christ, you are bless-

ed, for the Spirit of glory and of God rests on you.

If you suffer, it should not be as a murderer or thief or any other kind of criminal,

or even as a meddler. However, if you suffer as a Christian, do not be ashamed, but praise God that you bear that name."
