Tech. 4th grade William R. Jenks was killed in action in the Southwest Pacific March 30, according to a telegram from his war department Wednesday by his wife who is living with her parents, Mr. and Mrs. W. H. Russell, six miles north of Memphis on the highway.

Technician Jenks entered the army about three years ago from Missouri, and had been overseas for about nine months, Mrs. Jenks stated. They have a 9-month-old baby that the father had never seen. Mrs. Jenks and the baby had planned to go next week to visit the parents of the deceased who was their only child.

BANQUET IS GIVEN HONORING SENIOR CLASS BY BAPTIST WOMEN

A banquet was served Thursday night, April 13, at the Baptist annex banquet room, to the seniors and faculty of Memphis High School, prepared and served by the women of the church.

The banquet hall was decorated as a garden, with fish pond, love birds in the garden, roses and other flowers blooming in the midst of ivy that covered a white picket fence and arbor. The tables were centered with fresh flowers of various colors, and gold candles.

The guests were assisted to their places and served throughout the banquet by six girls. They were dressed in pastel shade aprons and head bands. Music was played by Mary Ruth

Lt. Poston Craver Killed in Sardinia

LIEUT. POSTON CRAVER

Still another Hall County man has made the supreme sacrifice for his country in the world conflict.

Second Lieutenant Poston F. Craver, Jr., son of Mr. and Mrs. P. F. Craver, Sr., of Memphis, a member of the Army Air Forces, and who went overseas in January this year, was killed in an airplane accident in Sardinia April 7, 1944.

The notice was received here this morning by Lieut. Craver's wife from the War Department. The parents received a letter yesterday from Lieut. Craver which was written on March 30 from Sardinia. It is not known whether he was killed while flying on a fighting mission or on routine work.

The telegram from the Secretary of War read:

The Secretary of War asks that I assure you of his deep sympathy in the loss of your husband, Second Lieutenant Poston F. Craver Jr. Report states he was killed 7 April 1944 in Sardinia in an airplane accident. Dunlap, Acting the Adjutant General.

Lieut. Craver was married July 14, 1940 to Mary Lillian Moore, daughter of Mrs. S. B. Powers of Estelline. He graduated from Memphis High School in 1935, entered the Army Air Forces February 1942 attended mechanical school at Keesler Field, later transferred to the cadets, received his wings September 1, 1943 at Luke Field, Ariz., sailed from Tallahassee, Fla., January 6, 1944, landed in Africa, then later moved to Sardinia.

Besides the wife, he is survived by his parents, and five sisters, Mrs. W. D. McCool, Mrs. Elmo Whaley and Ann Craver, of Memphis; Mrs. O. W. Appleby of Pampa, and Pat Craver of Washington, D. C.

Mrs. White was born November 10, 1875, and is survived by her husband of Quail, her daughter, Mrs. Godwin of Turkey and two grandchildren, Alice Rose Godwin of Turkey and Mrs. Lena Scott of Lubbock.

Mrs. White had been ill for several months and was visiting her daughter at the time of her death. She and her husband moved to the Quail community 42 years ago.

COLD WEATHER Backward Spring APRIL SHOWERS

Although Spring was supposed to have started one month ago, Winter has had its way a lot of the time since March 21—the official date for change of season. Very few spring days have been experienced during the past month.

Just this week freezing weather was experienced Monday night with ice forming to bring back memories of winter time. The official reading as reported by J. J. McMickin, weather observer, Monday 6 p. m. was 39 degrees, and Tuesday morning 28 degrees.

A light rain fell during the early hours of Wednesday, but not enough to record. However, a good rain fell south of town, McMickin stated.

Farmers have about completed their spring plowing and those who are still plowing report the need of moisture.

Plaska Man Buys Cow From Sloan

A registered Jersey cow has been purchased by C. B. Craighead of Plaska from C. L. Sloan of Estelline. The name of the animal is Golden Fauvic May 117-1456, according to an announcement made by the American Jersey Club with offices in New York City.

The club keeps up with the whereabouts of all registered Jersey cattle through a careful check of registrations and transfers made by Jersey breeders everywhere.

\$1793.50 Idea!

Kenneth Baer looks over the shoulder of Rosalind Misakian at Consolidated Aircraft, Downey, Calif., while she makes use of his idea—a simple slot cut in a sheet of plastic which saved more than 54,000 man-hours, enough fabric for 100 planes, and eliminated error nearly 100 per cent. He got \$1793.50 for it. If you're a war plant worker, why maybe

has felt for some time that there is a need for an examination status of the individual soldier and it is planned to request battalion commanders to have their operations officers making inspections of adjacent units. The AGD will furnish the inspection blanks.

Definite plans for the summer schools have not been completed because the 8th Service Command has not yet stated just where the schools will be held, or what instructor personnel will be provided.

There are some things that are definite about the schools, however. The schools will start about the first week of June and about the last week in August. The term will be one week.

The effect of this longer tenure will be to cut the classes down to about 80 or 90 officers and NCO's allowing for more individual and careful instruction.

The school will be of a university type—that is, separate classes for company officers, battalion staff officers, and battalion commanders.

Contract Let For Erection of Hall Co. Honor Roll

Pioneer Shriners To be Honored at Ceremonial May 22

Khiva Temple, Nobles of the Mystic Shrine, will honor pioneer Shriners of the Panhandle at its Ceremonial in Amarillo on May 22 and a special invitation has been extended all charter and early members of the Temple to attend, Fred Galle, recorder, has announced. Illustrious Potentate of Khiva Temple is John McCarty of Amarillo and his Aide in Hall County is W. B. Hooser.

Contract has been let to an Amarillo sign company for the erection of the Honor Roll of Hall County men and women, Mack Wilson, chairman of a Rotary and Lions clubs committee, announced this week.

This contract provides that panels will be made of lumber, and each name painted on individual strips so they may be replaced or moved in order that the list may be renewed and kept alphabetically at any time. It also provides that as many as two thousand names be painted—the present list includes some fourteen or fifteen hundred names of men and women of Hall County already in service. As more go into service their names will be added.

The honor roll should be completed within a very few weeks, Wilson said. Ample funds are in the bank and more coming in to pay for the work, and should there be a surplus it can be used in care and upkeep of the signs in the months and years to come.

The committee in charge of securing the contract have been trying for some time to get some competent sign painting firm to take the contract. They feel that the present contract is just what they have been hoping to get.

Donations to the Honor Roll fund continue to come in, and the following have donated since the last list was published. Should any name be omitted the committee and the publisher will appreciate you calling attention to the matter:

Mrs. J. H. Wright \$1.00, Mrs. Isabell Cyper \$1.00, W. J. Goffinet \$1.00, I. T. Hoggatt \$5.00, Mrs. E. Garlach \$1.00, 1931 Study Club \$2.50, Eunice Carter \$2.00, R. M. Holcomb \$1.00, Mrs. H. B. Brock \$1.00, E. Melton \$1.00, Mrs. J. J. Simons \$1.00.

Statement Not Now Required on Protein Purchases

Since April 1, in Texas, processors no longer are required to obtain a statement from buyers approved by the county AAA Committee in order to deliver more than 500 pounds per month of protein meal to an individual, it is announced by R. A. Eddleman. The required statement regarding the use of more than 500 pounds of protein meal monthly in mixed feeds also will be eliminated.

This situation has been effected by revocation of Director's Order No. 2 of food production order 9, revision 24, which was issued December 24, 1943. On that date, the 500-pound plus deliveries were prohibited in New Mexico and certain counties in West Texas, unless given special approval by County Agricultural Conservation committees. On January 1, 1944, the area was extended to include Oklahoma and entire State of Texas.

Requirements of the December order did not apply to set-aside protein meal or to soybean oil meal produced under contract for the Commodity Credit Corporation.

The first J. C. Penney store in Kemmerer, Wyo., was called the "Golden Rule," a name which aptly describes the Penney way of doing business.

YOUR GOOD NEIGHBOR

for 42 Years

WHAT we like best to hear people say of us is "Penney's is a neighborly store." And that's what we do hear . . . often!

For at Penney's we have never outgrown the simple, friendly way of doing business that makes people feel welcome and at home.

We've never outgrown it—in all our 42 years. In April 1902, Mr. Penney opened his first store in Kemmerer, Wyoming—a store devoted to friendly service and thrifty prices. And the spirit of that store has spread to every one of our stores, in over 1600 American communities.

The people who work here at Penney's are neighbors of yours and they try to act as good neighbors should. They sympathize with your likes and dislikes. They belong to this town!

And so does the store where they work! That's why shopping here is so easy, so pleasant!

In time of peace, each passing Penney anniversary was a time for celebration and ceremony.

But this year, upon our 42nd Anniversary, we celebrate simply with a reaffirmation of the Penney spirit—a determination to remain as homelike and neighborly as our many friends expect us to be.

Remember WHEN EGGS COST 25¢ A DOZEN?

• Before the war, fresh eggs were on sale for as little as 25 cents a dozen. Nowadays they are selling at a much higher price.

Not only eggs, but almost everything you buy today, costs more than it did before the war. Dependable United Gas Service, however, does not—natural gas costs less now than in the prewar period, and remains at the same high prewar standard of quality.

• The Bureau of Labor Statistics in Washington reports that living costs as of November 15, 1943, are up more than 24 per cent as compared with the average of the period 1935-39. The cost of United Gas Service over the same period has been substantially reduced.

Studebaker Champion a money-saver says Civil Air Patrol pilot

"MY 1940 Studebaker Champion has traveled more than 110,000 tough miles," reports Civil Air Patrol pilot Lieutenant J. E. McGuire, Squadron 3 who is employed by Universal Studios of St. Paul, Minn.

"I average 25 miles to the gallon and my original tires stood up over 60,000 miles. Of all the cars I've owned, this Champion is easily the most satisfactory and economical."

From coast to coast, it's the story these war days—tires last longer, gas goes further, repairs are less frequently in a Studebaker—due to advanced engineering principles, quality materials and craftsmanship.

Dear Folks: Here it is April and Spring in Texas. Now, if you are lucky, you will have a great many days free of sandstorms. Taking it all in all it's not so bad. If you don't like sandstorms I can tell you of a place where there are none—but you would still have plenty of wind. You might be able to buy 15 or 20 sections of land for \$1,000 a section. The following letter is from Lt. L. D. Thompson, son of Glynn Thompson of Memphis. He is in Italy where he pilots a B-24:

Dear Folks: Nimbo is giving us quite a show today—inasmuch as it has been snowing mud all day. I mean just that—mud! and snow!! The snow is due to "Rhubard the rainmaker", and the mud is due to volcano action of Mt. Vesuvius. I may live to be 94 years old, but I do not expect to see the like of this again. We hear the thing go off even though it isn't too near us. But I'm sure you know as much as I do—we don't hear any of the news over here — we just make it.

I hope Glynn gets the boots. I sure need them here. Just any kind of tan, red or brown ones. About 9 1-2 or 10 will fit OK. And the candy, I know it's tough, all the stuff going overseas—(there must be a war going on somewhere). Frankly, I smell a rat about the stuff we are supposed to get or "Davy Jones" is sure as hell getting fat on it. Anyhow, disregarding the sarcasm, I certainly appreciate the candy—any kind—it will certainly be a treat here.

Mary Jane, you want to hear about people and costumes here. I am sorry I can't tell you, but I don't know. Have never been out of camp except for flying. DAYLE.

The following letter was written by Tech. Sgt. Weldon Massey to his mother, Mrs. Pearl Massey:

April 6, 1944. Dear Mom: I have just come back from London and I spent one day with Reginald (Greenhaw). I really had a swell time being with him. He came over from Ireland and spent a few days in London. I had a two-day pass and visited him. He sure does look good. He has gained quite a bit in weight. We went to most of London's popular places while there.

I have gotten in touch with John Clark and will probably see him soon. Said he was homesick, and I guess he is. He hasn't been away from home before and now he is married and has a baby girl. Well, Mom, I hope you had a nice Easter. I sure hope you received your flowers on time. I'm OK and feeling fine. The weather is getting warmer and is nice. Love, WELDON.

Cordell Goodpasture, baker first class, who is stationed in Alaska, writes an interesting letter to his parents, Judge and Mrs. M. O. Goodpasture:

Dear Folks: Here it is April and Spring in Texas. Now, if you are lucky, you will have a great many days free of sandstorms. Taking it all in all it's not so bad. If you don't like sandstorms I can tell you of a place where there are none—but you would still have plenty of wind. You might be able to buy 15 or 20 sections of land for \$1,000 a section. There's plenty of wat-

er and plenty of moisture in the soil. If you have a powerful radio you can get good programs. Now here's the thing: I will let you in on the ground floor—so you can start the ball rolling; 95 sections for \$90—that's a bargain. Just send a postal money order. Of course there are draw backs right now, but I assure you it will all clear up in time.

When they open up a few fog and sleet salvage plants, this country will boom. There are no germs here. The wind blows them away faster than the arrive.

It is customary to wear clothes somewhat different than in Texas. You will find the swankiest of long underwear, coveralls, over-shoes, parkas, wind masks and sheepskin coats.

If you decide not to come out here to this land of opportunity, perhaps I will see you before so very long anyway. Then I will explain all about how cheap this land is. Last Summer one of my mates planted some beans and they finally sprouted after two months. They grew about three inches before the more severe weather came. It seems to me this would be a good place for all the good people of the world to go. Here there is practically nothing for people to get mad about and no contagious diseases. You never suffer from sunburn or heat. All people who break out with heat in summer will get a guaranteed relief here. There are no women, consequently no trouble. Hurry, hurry to the land of opportunity!

CORDELL. Staff Sgt. Orville Jones left last Saturday week for Newfoundland where he is an air mechanic, after a visit here with his mother, Mrs. Bill Jones.

Jack Henson, Seaman second class of the Navy, came Wednesday of last week for a visit with his family. He is stationed at San Diego, Calif.

Corp. J. T. Townsend, son of Mr. and Mrs. F. T. Townsend, is serving with the Army Air Forces in England. He was stationed at Orlando, Fla., before being sent overseas.

Edward Earl Evans, seaman second class of the U. S. Navy, left Friday for San Francisco Calif., after a visit here with his parents, Mr. and Mrs. J. B. Evans.

Pvt. Hubert Jones has been transferred from Chandler, Ok. to Tulsa. He is in the Provisional Collecting Battalion of the Army.

Billie Ray Caldwell, R M 3rd class, son of Mr. and Mrs. W. A. Caldwell of Estelline, has completed a 20-week course in radio at the Naval training station at College Station and has been retained there as instructor.

T-5 Roy B. Brock visited here last week with is parents, Mr. and Mrs. H. B. Brock. He is being transferred from Fort Sam Houston to Beale, Calif.

The following should be considered the opinion of the writer, in no manner reflecting on the editorial policies of the news paper.)

HOME, SWEET HOME

Most all trouble starts in the home. The so-called home. We may compare the modern home to a filling station. The family just stops in to "fill up". To eat a bite, sleep a little, change their clothes, and then they are off again to some place where they can enjoy themselves more than at home. A home, a real home, is the happiest place on earth. Do we Americans love our nation, we boast of as our home, sweet home? If so, why don't we get busy? The war is on.

The people of Memphis are planting Victory gardens and are landscaping their grounds. They are putting out trees and shrubs and flowers, so that we may eat more fresh vegetables and improve the beauty of our little city. That is, some are. But on the other hand there are some others who are hindering the work.

Some little boys and girls, and some grown folks too, are cutting across corners thoughtlessly, and trampling the grass, flowers and young vegetables, and packing the newly turned ground. Of course they do not realize what a bad thing they are doing. Perhaps they are in a hurry, or just want to walk on soft soil. The mothers and dads don't seem to care. Maybe they haven't thought of it either.

Why do we all not give each other all the help we can? Why not all of us plant a Victory garden and help to win the war? Why not all of us beautify our homes and help to make our little city, our home, more beautiful? If you can't use a gun, use a hoe.

R. P. MARTIN.

Farmers Urged To Plant Grade A Cottonseed

Hall County farmers are urged to plant only Grade A cotton seed in order to participate in payments from the Hall County Cotton Improvement Association.

Payments last year amounted to \$7,500. County Agent W. B. Hooser reports, on the basis of \$2.25 per acre. Seed planted this year from last year's Grade A crop will entitle the cotton grower to \$1.25 per acre. Payments of \$2.25 will continue this year.

Farmers should sign up with County Agent Hooser or with President Arthur Eddleman or Secretary John Russell of the Association in order to protect themselves on the payments. The association has been approved as a source of seed, it was announced.

What if the flatterer does borrow money? Praise must be deserved, and that's the easiest way to deserve it.

MOOS OF THE MOMENT

BY UNCLE BOB

of the Kraft Dairy Farm Service

If I could get as many important people to vote for me as vote for Sudan Grass, I think I could be President. This grass was brought to America from North Central Africa and, as might be expected, it resists both heat and drought. It makes fine grazing when other pastures are dry and unproductive. If seeded in May the crop will be ready for grazing in about six weeks.

In Circular B-69, the Extension Service of Texas says that Sudan Grass is the best temporary pasture for summer and early fall. It does not do well on soils that are low in fertility. For best results, it should be planted in rows, the bulletin says, using 30 pounds of seed to the acre. To eliminate danger of prussic acid poisoning, it is suggested you do not permit grazing until Sudan is 18 inches high or better—nor after frost. The bulletin adds that if you do not have enough cows to prevent the grass heading, it can be mowed and placed in a trench silo. To get Circular B-69, write the Extension Service, Texas A&M College, College Station, Texas.

Indiana is another ardent supporter of Sudan Grass. Their experience shows that an acre of Sudan will carry from one to three head of cattle, depending upon the fertility of the soil. As hay, Sudan will ordinarily yield from 2 1/2 to 3 tons per acre, and it may run as high as 4 tons. Indiana also tells you how to get a mixed crop of soybeans and Sudan Grass for roughage. The soybean seed should be drilled with the ordinary grain drill set for from four to six pecks on the oats scale and thoroughly released Sudan Grass seed may be applied through the grass seed attachment or broadcast separately at 10 to 16 pounds per acre and covered with a harrow. Send for Leaflet No. 188, Department of Agricultural Extension, Purdue University, Lafayette, Indiana. This is a valuable leaflet for you to have if you decide to grow Sudan.

Climb in, folks, there's lots of room in this Sudan.

Have you ever tried to figure out the difference in cost between the food value cattle obtain from good pasture and the food value they get from harvested crops? Well, Minnesota has and it's mighty interesting. Averaging up four different kinds of pasture and four different harvested

crops, they found the cost of the harvested crop was more than double the cost of pasture. On top of that, the pasture crop is harvested by the cattle instead of by you, thus saving you hours of work. Be sure to get the bulletin that tells all about this cost-finding study. Write for Bulletin 241, Extension Service, University of Minnesota, St. Paul, Minnesota.*

While you're about it, I also suggest that you ask Minnesota for Extension Folder 196. This reports another fact-finding study, this time, on the methods of cooling milk. They found that when it was cooled in air at 10°F. below zero, it took an hour for the temperature of the milk to drop from 90° to 77°. When milk was cooled in circulating water at 47° above zero, the temperature of the milk dropped from 90° to 54° in an hour's time. The moral of that is that milk just can't be cooled properly in the air.

Along about next August, do you suppose it would be proper to say that the milk shortage had been hit by a green Sudan?

To get back to the subject of cooling milk, I recommend that you invest a postage stamp for a free copy of Farmers' Bulletin No. 976, U. S. Department of Agriculture, Washington, D. C. The ideas contained in this booklet will help you to size up your cooling tank and see if it is set up to do the right kind of job. There's no sense in losing money on sour or off-flavored milk when a little rearranging may fix things up.

The milk you save from souring means a little extra milk for the Nation. And a little extra milk from thousands of dairy farmers can play a mighty important part in our country's battle.

Home, James . . . in the green Sudan.

WOMEN WORK

By INEZ BAKER

I think you will be interested in the report of the Red Cross production recently given out by Mrs. B. Webster, production chairman. To date we have made about 200,000 surgical dressings in Memphis. Because of gas restrictions this phase of the work has fallen principally on the women of Memphis and nearby areas, but the auxiliaries have certainly made up for it in carrying their share of the rest of the production program.

We have made about 1,800 hospital articles, 150 quilts and 200 afghans. All materials for these items were donated by the different women's organizations with the exception of that for 35 bed-shirts and 35 convalescent robes which were purchased by the local chapter.

We have made 1,800 knitted articles, consisting of army and navy sweaters, helmets, gloves, socks and mufflers. About 4,000 sewed garments have been made by our chapter, many of which were donated. Until shipping facilities became so congested hundreds of thousands of garments, ranging from layettes to men's shirts and women's dresses, were sent by the Red Cross in the U. S. to war torn areas.

We have filled 760 comfort kits. The material for these kits was furnished us by headquarters and the kits were made by the chapter. The contents, costing \$1.00 per kit, were purchased with donations made by individuals and organizations to the chapter fund.

A field representative said recently that Hall County has one of the nicest layouts for the Red Cross in the Midwestern area. He also said this was one of the very few counties which provided utilities and quarters for the Red Cross program.

And the work goes on. Each day women are busy at the surgical dressing room, and hospital articles continue to come in. The Salisbury Sewing Club, which has pledged 50 articles per member for the year, has finished and turned in the following: 62 field bandages, 14 bedside bags, 5 table covers, 6 bedpan covers, 32 pillow cases for fracture pillows, and 11 afghans. All materials for these articles were donated by the women of the club. Mrs. Chas. Williams is president and Mrs. Ernest Lee secretary-treasurer of the club. Wonder what the other clubs are doing?

James Buchanan was the only bachelor president of the U. S.

SOME HIGH-HANDED METHODS SHOW THE CRAZE FOR POWER IN FEDERAL BUREAUS

Over in Matador one Clarence Kifer owns and operates a small filling station. He has operated the business for quite some time. He is known to his neighbors and customers as a law-abiding, honest man, a patriotic and good citizen.

Some two weeks ago an investigator from the Lubbock district office of the OPA paid Mr. Kifer an official visit. He checked his ration accounts, promptly announced that he was "over" 2,000 gallons in gasoline stamps, compelled him to refund stamps in that sum to the Lubbock district office and as punishment ordered his place of business closed for 30 days.

The investigator didn't go to the bank where the ration accounts are kept, but the day after he padlocked the little filling station the bank notified Mr. Kifer that ration stamp checks totaling 2,000 gallons had not been charged to his account through an oversight—and thus the "crime" which the OPA had pinned on Mr. Kifer had been solved. Mr. Kifer's books were in perfect order; he wasn't running a black market; he was not doctoring his books or making false reports. His neighbors and friends, incensed at the high-handed attitude of the OPA investigator, immediately got busy and informed the Lubbock office of the facts in the case.

But, absurd as it seems, the district administrator said his hands were tied; nothing could be done for Mr. Kifer until the investigator who passed sentence on Mr. Kifer could be located—he was some place else in the district. He, and he alone, could authorize Mr. Kifer to reopen his business. The district chief, however, did issue one order of his own, and that was that under no condition should Mr. Kifer make any move to reopen his business without a formal notice from the investigator, despite the fact that the district office has on file sworn proof of the falsity of the charges against the Matador merchant.

The case at Matador is not an indictment of the OPA as a whole, nor is it a reflection upon the integrity or good intentions of OPA employees in general. They make mistakes; business men make mistakes, too. There is some chiseling among business men; there are OPA officials who have been indicted for participation in black market operations. But, most American people are patriotic. They have accepted rationing and price control in good spirit; they know that prices generally have been kept down and wild speculation prevented by price control regulations.

The case at Matador, however, is a serious indictment of the manner in which federal bureaus, and individuals, usurp the powers of the courts and generally disregard the rights of the people. Here, we have an investigator in the role of prosecutor, jury and judge and the victim without recourse until it suits the convenience of a self-styled investigator. The whole incident smacks too much of Gestapo tactics to suit the American people.

It is incidents such as these, multiplied a thousand times over throughout the country, which have grown into a veritable millstone around the neck of our administration in Washington. Worst of all they have created confusion, bitterness and inefficiency on the home front at the most crucial time in our history—a time when the American people should be united as one and exerting every effort to bring the war to a conclusion at the earliest possible date.

Press Paragraphs

SELECTED FROM THE
DEMOCRAT'S EXCHANGE

We don't talk much about them but we are all aware of the responsibility entrusted to the Seabees. This organization is taken much for granted as they go steadily about building roads, bridges, airfields, docks, barracks. They load and unload ships and have

fought on every front where we have met the enemy. Technically, the Naval Construction Battalion, a force of 99 members in October, 1941, and 262,000 up to last Christmas, these men work in the Aleutians and build on the South Pacific Islands. They have been praised by every branch of the armed service and why not, with a motto of "Can Do" as their incentive!—Wheeler Times.

There is more talk being done now about post-war plans and

possibilities than there is in getting this war over and bringing the boys back home. There are more plans for post-war than there are seeds in a carload of pomegranates, and there are as many different ideas as there are plans.

It is well to think of post-war plans and possibilities of the other countries of the world as well as our own, but we don't want to lose sight of the fact that we yet have a war to win, that about 12 million boys in uniform will have to be placed back into civilian clothes and more than 30 million essential war workers must be re-conditioned to their former way of living and occupations.—Paducah Post.

Yes, it's terrible, the way prices are going up now. The last day of March this year showed what this nation, burdened as it is with taxes and domestic burdens, can do in the way of extravagant splurging. So great was the rush for spending in many cities that men with a sense of humor, caught in the jam, began wishing each other "Merry Christmas."

This rush was caused by the imminence of rising taxes. People seemed to think that if they bought blindly before the jump came, whether they needed the things or not, they were saving money. And hat, to say the least, was a rash and foolish assumption.

Most people in these times can really get along without expensive furs and wines, rugs and furniture, long distance telephone calls and lodge initiation fees, luxurious railroad and airplane trips, jewelry and nifty toilet articles, and so on.

But thousands of people will say, what are they going to do then with all the money they are earning? The answer is the same old truth so many still ignore. Buy war bonds, pay debts, make

payments on homes and get set for whatever economic troubles fate may have in store for us all.—Amarillo Times.

Dear Son:

I have given much thought to your question, "what are we fighting for?"

My answer is the same as millions of other American fathers would give to their fighting sons. Some call it preserving our heritage, or defending our freedoms, or protecting the right to think and act and live as we want.

Call it what you will, the answer is YOU. For YOU are the America of the future...the symbol of all the freedoms

and liberties we value so highly. When Victory is won this will be your America—a land where the better things of life are limited only by each individual's effort to attain them.

As many hours as we put in war work and as many bonds as we buy, the part we are doing is nothing compared to the sacrifices, hardships and deprivations our fighting forces are enduring for final Victory.

Give liberally to the Red Cross. Buy War Bonds and Stamps regularly.

GOVERNOR URGES PEOPLE OF TEXAS TO JOIN IN DAILY BIBLE READING

Read the NEW TESTAMENT through THREE CHAPTERS A DAY FOR THREE MONTHS

SPONSORED BY THE AMERICAN BIBLE SOCIETY
 Governor Coke R. Stevenson has officially endorsed the plan by which the churches and the American Bible Society are seeking to enlist one million daily Bible readers in Texas to read the New Testament through, three chapters a day for three months. He issued a proclamation designating the period April 9 to July 4, as the time in which the people of Texas shall "Keep faith by daily Bible reading" as an essential part of keeping faith with our men on the fighting fronts, many of whom have written their families and friends at home to join them in reading the New Testament.

CARD OF THANKS

May the richest blessings of our Heavenly Father rest on each and every one who came to us in our great sorrow in the death of our son and brother who was killed March 24, 1944, serving his country. Words cannot express our gratitude and appreciation to those who came and to those who would have come and could not. Every deed, hand clasp and thought means so much to us. May the Lord bless each of you, and keep this kind of sorrow from your home.

THE GABLE FAMILY.

At last a way to end all wars—let the whole world agree not to have another one until this one is paid for.

Eighth Grade Students Plan For Graduation

The 8th grade students of the rural schools of Hall County elected their class officers at the annual picnic at Memphis City Park. The following officers were elected:
 President, Yvonne Moore, Newlin; vice-president, Lora Martin, Plaska; secretary-treasurer, Jean Weddell, Plaska; historian, Houston Polasek, Plaska.
 Miss Moore called a committee meeting last Saturday to plan the program for the county-wide 8th grade graduation exercises. The committee members were Joe Neal Beavers of Deep Lake, Lora Martin of Plaska, Bobby Ellis from Friendship, principals Chester Borders, Mrs. B. B. McMillan, Mrs. W. J. Bragg, and Mary Foreman, county superintendent.
 Eighth grade examinations will be given at Plaska May 16th, at 9:30 A. M. The two students making the highest grades on these will be given awards at Valedictorian and Salutatorian.

If you are kicking about the cost of living, just stop and think what it is really worth.

By keeping both political parties, we can always tell how prosperous and how poor we are at the same time.

Panhandle Firemen To Meet in Borger

Firemen of the Panhandle will meet in Borger on Tuesday, May 9, and notices are being mailed out by W. V. Coursey, secretary of the District Firemen's Association, urging all units to be represented and enter teams for competitive events.
 Chief Miller of the Borger department is making plans to entertain the visiting firemen. Ben White of Pampa is president of the association.

A child's laxative your child should LIKE

When your child needs a laxative give him one he will probably enjoy taking—pleasant tasting Syrup of Black-Draught. Given as directed, it is usually mild in action, yet effective.
 Caution, Use Only as Directed

Hall County Man Wounded Twice, Captured Twice

Staff Sergeant Tommy Moreland of Lakeview has been wounded again, his mother, Mrs. E. Moreland, was notified Wednesday. His wounds are not serious, the war department's message stated.
 Moreland, a paratrooper, was wounded last Fall during the campaign in Sicily. He is now on the Italian front.
 The paratrooper has the unique distinction of having been captured by the enemy twice, once in Sicily and again during the invasion of Italy, and both times was re-taken by the British.
 Mrs. Moreland recently received a letter from her son in which he said he had been wounded but that he was recovering rapidly.
 Watch where you place your confidence or you may lose it all.

H. C. Preslar of Childress Offers For Legislature

In announcing his candidacy for State Representative from the 121st legislative district, H. C. Preslar of Childress offers experience as a business man, civic leader, farmer and railroader. He has been a resident of Childress for the past 21 years, has owned a business there, has operated a farm in the district, and been in the employ of the Fort Worth & Denver railroad company for the past 19 years.

In announcing his candidacy Mr. Preslar said:
 "I offer myself as a candidate for this place due to the fact that I have had 14 years close association with state administration leaders and sincerely feel that I can do more good for this section of the state than anyone else at this time."
 "A majority of the state leaders, representatives are personal friends of mine."
 "I promise a fair and honest representation to everyone in this district, regardless of what section it may be and the majority will rule at all times."
 "Being an ex-service man, I am interested in the future of our youths, both boys and girls, who are now fighting and will do everything to see that they have a safe and sound American home and job to return to."
 "I was stationed in Austin when the first old age assistance bill was passed and I am still vitally interested in the comfort and care and well being of every eligible old person in the state of Texas."
 "The man with the patch in his pants or the laborer in his overalls will always be welcome at my desk in the House of Representatives, if I am privileged to serve the people of this district."

Texas has more counties than any other state in the Union, a total of 254. The state with the next largest number of counties is Georgia, with 159.

Electric Power!
 is
Fighting Power!

MAYBE . . . Pressing-the-Button will Jack Up future cars

BUT . . . OIL-PLATING YOUR ENGINE is like outdoing the future—today

optimist can still hope to trade his car for a 1945 model—with "wild" or mild adjustments.
 A realist might do the same. But he'll get an anchor to windward" by changing Conoco Nth motor oil for Spring, at once getting that big inexpensive advance—an internally OIL-PLATED.
 Be a realist! Realize that any engine's excursions always form real biting acid inside. Realize that long trips, heating at least some way, went out of style as rationing started. Realize that limited driving—incomplete engine heat—has been endangering engines not OIL-PLATED. Too bad; any harm that's been done. But with Conoco Nth oil, and all the acid-resistance of OIL-PLATING, you're in shape to discontinue extreme acid damage, starting now.
 Patented Conoco Nth oil—popular-priced—includes a pioneer synthetic, with the advanced "magnet-tilt" ability to surface inner parts with OIL-PLATING. That's why you can really be an optimist about your engine's future, after changing to Your Mileage Merchant's station for Conoco Nth oil. Continental Oil Co.

Kidneys Must Work Well—

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.
 If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.
 Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging back-ache, headaches, dizziness, rheumatic pains, getting up at night, swelling.
 Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

WHEN our soldiers go into battle they carry with them little packages of food—each one a square meal. Those packages contain very special foods—dehydrated and concentrated—calories and vitamins carefully counted, but complete from soup to coffee. It gives fighting men reserve power they need to keep going when other supplies are cut off.

Reserve power is just as vital in war production as it is in military operations. Tank factories, plane plants, and ordnance works are eating up more and more electricity every day, and the "reserve rations" to keep them going have been ready. Why? Because those reserves were built up in advance by the trained men who manage America's Electric Power Companies, such as the West Texas Utilities Company. The reserves are more than enough to meet every essential need. Because of carefully planned inter-connected systems large quantities of electric power are available almost anywhere.

Electric power is able to do its job promptly, efficiently, and economically. Electric power is the reserve power that keeps our fighting power going.

Notice to Drivers

Acting under the order of the City Council I have been instructed to make the following announcement:

Our double parking ordinance provides for a fifteen minute limit, with a driver in the car. This provision is made for the purpose of loading and unloading and not for visiting. We have had entirely too much double parking. Cars double parked, even with a driver in the car, for longer than fifteen minutes, will be issued a ticket.

dress or suit of clothes? How about the surroundings? Will the houses be in good repair and the yards, fences, streets and alleys in good shape? Just a little effort on the part of each and every individual along this line will get everything in readiness for the glorious homecoming of those we love and cherish. Let's do it now. True, the boys will be so glad to get home, everything will look good to them. But if there has been a general home-cleaning and dressing up done, it will be still better for them, for they will know that it was done in their honor.

Some editorials have appeared in The Democrat lately concerning post-war planning. I believe some far-sighted men should be at work right now planning for after-the-war work that each and every community should do—getting ready for that time when swords shall be beaten into plow shares, and change made from war activities to peaceful pursuits.

Bill Phleuger of West Main St. (No, he hasn't been called yet) says that he can remember the good old days when a girl could keep her make-up in good order for a month with a nickel's worth of prepared chalk. . . . The reason some fellows stop going with a girl is sometimes a parent.

Matilda Upstart of west Noel says "A golden wedding anniversary is the result of a couple going fifty-fifty. . . . Whether or not you were born with a gold spoon in your mouth, the plate comes later".

A. M. Wyatt wants to start a contest on pullet laying. He has a pullet that lays eggs almost as large as goose eggs. He brought two to The Democrat office that I might see what hens can do when egg prices are low. Now, Old Tack of the Amarillo News, has been conducting just such a contest and as a result he and all the office force have been getting more eggs than they can eat, and it might be a good plan for The Democrat to follow his example.
