**ELECTRIC POWER—**  
*Magic Wand of America*

You, as an American, come under the spell of this magic wand! Nearly everything you do is governed by electricity, a magic power that you have begun to take for granted like the clouds in the sky. In our nation's victory program, perhaps electric power is the most vital force. It is essential in producing bombs, shells, aluminum, and other war materials... essential in producing the elements needed to win the war on land, on and under the sea, and in the air. At the flip of a switch, the world's finest electric service is all yours, war or no war. You are the one who really operates the power plant and its facilities... as you and others like you control how much electricity it makes, and when it makes it. The whole system is there to respond to your touch, to your demand. That is what we really have to sell... Service with courtesy that is not rationed.

## County Men in the Armed Forces

Pfc. Bobbie Lindsey, a Marine in New Zealand, is the first of the county men to be "adopted" by the Macdonald family. Lindsey and his son, Graham, are close friends and corresponded regularly. Lindsey's mother, Mrs. H. Lindsey, since Bobbie left New Zealand, the Macdonalds have visited America. Lindsey received a letter from New York. Parts of it:

great country, and no less a degree, a great people. New York really frightened me the first time I stepped ashore. Those high buildings and racing traffic made me feel like I was being subjected to a delightful nightmare. At home we used to hear so much about New York and its many skyscrapers, Broadway and its bright lights, but to be in the city and witness such wonderful sights it is no wonder my old heart is beating so fast. The traffic in America runs on the opposite of the road from the traffic at home, the consequences being that I was nearly run over on innumerable cases. I have never seen so many cars, and hordes of people as on Broadway at five o'clock. The way the traffic is handled is an education for us colonials and we could benefit immensely by such a system in New Zealand.

We made our headquarters at the Anzac club. We were invited to the home and given free tickets to pictures and broadcasting shows. Here the shows start at 10:30 or midnight but at home they are out at 10:30 and folks are home and in bed by midnight. To wake up on deck and see Manhattan buildings towering many hundreds of feet above me made me wonder whether I was dreaming.

Yesterday my friend and I went to Washington. It is one of the most beautiful cities I have ever seen. We went to the senate and house buildings, the congressional library, the supreme court, Washington's monument and

many other places of national and world-wide interest. To change to the subject which interests every man—the fair sex, the Washington girls struck me as being more beautiful than the girls of New York. Our girls in New Zealand, especially in the South, are noted for their lovely complexions. The girls here seem to be more sociable and better hostesses than the girls at home.

The people of New York I dare say are like the people of all America. They have opened up their homes and hearts to the New Zealand boys. We are only kids and at present many thousands of miles from home, and to be greeted and treated as we have been certainly made our hearts go out to you American people. I only hope that your boys' praises will ring as true and as loud of our little New Zealand as ours do of the great Republic of America.

My only disappointment is that I didn't get to visit Texas and renew my acquaintance with my good cobbler Bob. We had to report to ship every 36 hours. I hope that I once again will get to pass through the United States and that I will get to see my friends at that time. It is many months since my last word from Bobbie, but that found him fit and well and I hope he is the same today. I wonder Mrs. Lindsey whether you would write to Mom. She would be very pleased to hear from Bob's mother, since I am not at home to write.

I hope this letter will find all of you well. Love to you and all the family and may God bless you. Sincerely,  
GRAHAM MACDONALD.

Petty Officer 3/c Jack E. Walker has been visiting his mother, Mrs. R. C. Walker. Jack is in the Coast Guard and stationed in New York.

Staff Sergeant Loyd Thomas Wyatt is doing a "real job" as a soldier on the Anzio beachhead, writes his commanding officer, Capt. Glenn E. Rathbun, in a letter to Sgt. Wyatt's father, W. N. Wyatt. The Memphis soldier is in Co. M, Seventh Infantry. The officer writes: Dear Mr. Wyatt: As S/Sgt. Wyatt's company commander I wish to take this opportunity of writing you to let you know what splendid work he has been doing on the Anzio beachhead.

He has always exhibited fine leadership and personal courage. He is liked and respected by all of his men and has the confidence of all the men in the company. During these trying days we need men of his calibre and it is a pleasure to acknowledge the splendid work he has done.

I know you will be glad to hear of his excellent service and to know that he is well and in good health. Sincerely yours,

Lt. A. W. "Cobb" Rasco has arrived at Briggs Field, El Paso, with his bomber crew to begin their 11-week training course. He was disappointed that his crew doesn't have another Texan. He wrote his mother, Mrs. L. G. Rasco.

C. E. Wilkerson, former coach at Estelline, has been promoted to a Lt. (jg) in the Navy. He is stationed at Chapel Hill, N. C.

Sgt. H. C. Loard of Kingman, Arizona, with the army air force, is here to spend a 15-day furlough with his parents, Mr. and Mrs. T. T. Loard.

Pvt. Orin L. Hill of the Marines has returned to San Diego after spending a short leave with his parents, Mr. and Mrs. O. T. Hill of Deep Lake. He has just finished his boot training.

**BOLTERS AT AUSTIN VIOLATED FIRST PRINCIPLE OF DEMOCRATIC RULE**

It is apparent by now that the efforts of Myron Blalock, national committeeman, as peacemaker between the "regulars" and "bolters" at the democratic state convention are doomed to failure. The cleavage between the two factions of the party is too deep. The courts and the Chicago convention will have a hand in the controversy before it is settled—and it may never be settled. It may be the beginning of a movement which will definitely split the party in the South.

The convention was held in due and legal order and those favoring an uninstructed delegation to Chicago won out. Once it became evident that the "Roosevelt-or-die" delegates were in the minority they "bolted" and named their own slate. Neither the Democratic party nor the first principle of democratic rule was of any concern to them; their allegiance to Roosevelt and the New Deal with them came first.

As a whole, those who favored an uninstructed delegation to Chicago will vote for Mr. Roosevelt. But, they are Democrats first; they know the need for a strong party and they are demanding some changes made in the machinery of their party. A rubber stamp delegation to Chicago would have no influence. Since the abolition of the two-thirds rule the South has become a step-child of the party. Texas Democrats who attended the Austin convention as delegates from their own counties and who were far-sighted and had the courage to stand up for their convictions, have made it possible for the South to have once again, a dominant voice in the party. But majority rule means nothing to the bolters; they would control the party and the Chicago convention by any means at their command, so blinded are they to the leadership of one man and his personal wishes.

But, our Republican friends shouldn't gloat too much over what's happening in Texas. A little family row won't throw the 23 electoral votes from Texas into Mr. Dewey's mail bag. If and when they are sent to Mr. Roosevelt, however, the Democrats of Texas want a return receipt and the notation: "Contents duly noted."

**Press Paragraphs**

SELECTED FROM THE  
DEMOCRAT'S EXCHANGE

Many of us shed vain tears of regret over being lax in our duty as citizens, in the long period between World War I and World War II. Many of us weep because we did so little to raise a spirit of resentment in this country, against the march of the dictators into Ethiopia, China, Poland, Austria and other defenseless countries. We may be sleeping again,

drugging ourselves with overplayed stories of minor victories, while calamity strikes at the door of at least one of our allies.

There can be no doubt but that China faces a grave menace at the hands of Japan's invasion forces. When the history of World War II is written in impartiality and fairness, the blackest chapter will be our failure to aid this very staunchly democratic ally.

For some reason, known only to the Conservative party, Britain has been cool toward Chinese aid, since the days in which she refused to join the United States in action designed to halt early Japanese acts of aggression. Between the two of us and the

political tug and pull that has gone on over the Chinese situation, we have done little more than render token aid to an ally who has fought for years, with its back to the wall.—Moore County News.

Martin Dies announces that he will not be a candidate for re-election. Congressman Dies has probably made a wider reputation for himself than any member of Congress from Texas through his investigation committee. Various attempts have been made to defeat him, and this time it looked as if he was almost certain to meet defeat at the polls. He will continue his investigation until his term expires. He will retire thoroughly hated by many, feared by others, and respected by great masses for the un-American activities which he uncovered. A prosecutor is never a loved man.—Canyon News.

A lot of people seem unable to eat at a cafe unless they hear that "Marry Deates" at the same time. Must have something to do with a "rising" appetite, but we fail to get it.—McLean News.

Ochiltree county has got to raise \$419,000 in cash for the purpose of buying War Bonds during the 5th War Loan Drive. That means that every pocketbook, large and small, in the county will have to open wide. Our bond buying record for the past few months is a disgrace. We've been letting the boys down while our bank deposits get higher every day. Every person in the county should hang their heads in shame. We're pretty lousy, don't you think?—Ochiltree County Herald.

Ask the man in any branch, who is over the age desired most and deemed less able to stand rigors of training or combat, how he likes the service and the answers are almost always the same, "It is all right" or "Fair enough except being away from my family."

By all rules, these men should be more unhappy than their younger, single comrades. It is perhaps that they have become more philosophical as they grew older and accept their lot with good grace. Again, it could be pride that prevents them admitting an inability to do the things allotted them, with the same ease as can the younger men.

It can be noted that complaints about treatment and training is not and will not come from the older and married men in this war.—Quannah Tribune-Chief.

IT PAYS TO READ THE DEMOCRAT WANT

THIS ADVERTISEMENT, ONE OF A SERIES TO HELP ACQUAINT THE GENERAL PUBLIC WITH THE DAIRY FARMER'S CONTRIBUTION TO THE WAR EFFORT, appears in full-page size in The Saturday Evening Post June 3rd and in Collier's June 17th issue

...with the help of Providence

From millions of American homes prayers go up for the safety of boys away in the war. From farm homes other prayers, too...  
For aid in the production of crops vital to Victory and the establishment of Peace. For rains to keep green the pastures where milking cows graze. For sunshine to ripen the grains and foddery needed in the winter's feeding.  
Increased again this year are America's production goals for milk and transportable products of milk! The U.S. Government's own requirement of cheese is estimated at nearly 450 million pounds—for our fighting men and fighting allies. On top of that there should be made over 500 million more pounds of this nutritious food for civilians of our land.  
More than twice as much cheese as the nation could produce when the last war ended is needed now!  
We of Kraft who work with the dairy farmers of America know how earnestly they strive to meet these goals. Short of hands and equipment, they carry on as best they humanly can. And they'll succeed...with the help of Providence.  
Because of the tremendous both military and civilian needs, we are not able to get as many of our favorite varieties as we would like. "Old English" Brand Cream Cheese, for example, that you may be used to, is now scarce. That any cheese or cream cheese bears the Kraft name is a very highest standard.

Mill Iron Ranch Pays \$10,000 for Colvert Ranch Bull

The Mill Iron ranch in Collingsworth county has paid \$10,000 for a young registered bull from the Colvert Hereford ranch of Mill Creek, Oklahoma.

The young bull was purchased by the Mill Iron ranch because his blood lines go back to the blood lines upon which the Mill Iron herd was built.

The Colvert ranch, headed by Paul Colvert of Wichita Falls had intended to show the newest addition to the Mill Iron herd in the national show next fall.
